NEW Days

NEW Days is the kick-off to the NEW @ the U program at the University of Guelph. One day at the beginning of each month of the year (excluding January, April, July, August, and December) has been dedicated to welcoming and connecting new employees to the University environment and giving them a positive start. Various activities and representatives from across campus will share perspectives and important information that will introduce the new employee to university governance, culture, history, facilities and services. Required training elements from A.O.D.A. (Accessibility for Ontarians with Disabilities Act) and EHS (Environmental Health and Safety) will also be included.

The program is targeted to new employees who are regular, full-time or part-time staff or full-time with an appointment of greater than 6 months. However, any employee that can benefit is welcome to register using the links below.
