## **I was only employed for part of 2015. Why do some of my values seem overstated?**

Most of the values on the 2015 Total Compensation Statements are actual figures that correspond to the actual amount you and the University paid during 2015. Some figures were only available on an annual basis (such as Professional Development Reimbursement, Post-Retirement Benefit amount). If you were only employed for part of 2015 (or were on a Leave of Absence for part of 2015) these figures could be overstated.
