
Transportation of Dangerous Goods (TDG) Training Online

The TDG Regulations are a set of rules set out by Transport Canada that prescribe safety standards and shipping requirements for dangerous goods and communicating the level of danger associated with chemicals.

This online course, offered by Danatec, covers the regulations for ground transport within Canada and is based on an employee's job function.

To register for TDG training, contact Senior Health and Safety Consultant (Laboratory) at 519-824-4120 ext. 54270.

Upon successful completion, a 3 year TDG Certificate will be generated by the Danatec system and emailed to participant. However, you need to contact Senior Health and Safety Consultant (Laboratory) who will issue employer a TDG certificate valid for 3 years.

Target Audience

Anybody who handles, offers for transport or transports dangerous goods requires TDG training.
