The University of Guelph (the “University”) sponsors the following registered pension plans (collectively referred to as the “Plans”):

- Retirement Plan of University of Guelph (FSCO registration no. 0324624)
- Pension Plan for Professional Staff of University of Guelph (FSCO registration no. 0324616)
- Pension Plan for Non-Professional Staff of University of Guelph (FSCO registration no. 0324632)

The University is the administrator of the Plans for purposes of the Ontario Pension Benefits Act. The University recognizes various risks inherent in the administration of the Plans and the pension fund assets. Such risks include:

- Financial risk: risk associated with the funding of pension plan obligations, the management of pension fund investments and the funds’ financial capacity to pay promised benefits.
- Administrative risk: risk related to error in the execution of administrative tasks, including those involving the calculation and payment of pension benefits, the amount paid into or disbursed from the pension funds, membership enrollment in the Plans, pension administration forms, etc.
- Operational risk: risk associated with the decision-making process and internal University and Pensions Committee operations
- Legal/non-compliance risk: risk associated with non-compliance of statutory obligations including risk related to the communication with Plan members and beneficiaries.

To minimize and manage pension plan-related risks, the University has established a comprehensive governance structure and has adopted policies and procedures to be used by those responsible for making decisions and/or implementing actions as guides in the administration of the Plans and related assets. The Pensions Committee periodically identifies the most important risks for the Plans and related funds, and may, if need be or from time to time, adopt additional specific ad hoc measures and internal controls for managing specific identified risks and promoting the achievement of desired outcomes. For risks which the Pensions Committee identifies as unacceptable, it may establish approaches and tools for mitigating such risks.

**Roles and Responsibilities**

1) Governance & Code of Conduct

- Board of Governors Bylaws & Governing Documents [1]
- Principles of Good Governance at the University of Guelph [2]
- Working Group on Board Governance Review [3]

2) Parties in Pension Administration

- Allocation of Responsibility Chart [4]

3) Committees and Terms of Reference

- Pensions Committee [5]
- Finance Committee [6]
- Investment Subcommittee [7]
- Audit and Risk Committee [8]
Policies
