Laboratory Technician

Bacteriology, Animal Health Laboratory
Laboratory Services Division

Temporary full-time from June 2019 to December 2020
Temporary absence of the regular incumbent

Hiring #: 2019-0261

Please read the Application Instructions [1] before applying

The Bacteriology section of the Animal Health Laboratory seeks a qualified individual to perform complex and routine testing on a wide variety of samples. The incumbent will play a key role in supporting Laboratory Services Division's values: Client Centered, Integrity, Individuals Matter, Shared Responsibility, and Committed to Evolving. The Laboratory Technician will perform a number of duties in the AHL Bacteriology laboratory including: receive and log-in samples into a computerized laboratory tracking system (LIMS); prepare and examine primary bacterial cultures for the isolation and identification of bacterial and fungal pathogens by morphologic, biochemical, serologic, and microscopic characteristics in accordance with standard operating procedures (SOPs); perform appropriate antimicrobial susceptibility tests; prepare diagnostic reagents; maintain records; maintain lab equipment; participate in quality assurance of laboratory procedures; inventory control; process samples according to Ontario Hatchery and Supply Flock Policy (OHSFP) requirements; perform nucleic acid extraction; perform conventional and real-time PCR; interpret and report test results; and develop, validate and implement new tests.

Requirements of the position include: Three-year Community College diploma in laboratory technology or related program, combined with one year related experience, or an equivalent combination of education, training and experience. Certification as a Medical Laboratory Technologist preferred. Additional requirements include: demonstrated working experience in veterinary mastitis bacteriology and molecular biology techniques; experience in Salmonella spp. culture; experience using semi-automated systems for bacterial identification (i.e. MALDI-TOF MS) and susceptibility testing; experience performing conventional and real-time PCR; excellent verbal and written communication skills; excellent interpersonal and teamwork skills in order to work effectively with clients, co-workers, and students; basic microcomputer skills; good understanding of Occupational Health and Safety and WHMIS legislation in a laboratory environment. Must be, or willing to be rabies immunized.

Individual must be able to work 5 days per week (Monday to Friday and/or Tuesday to Saturday), 7 hours per day, from 10 AM to 6 PM.

Covering Position Number   482-011
Classification               USW, Local 4120 Salary Band 5
Normal Hiring Range $25.16 - $28.11 per hour

At the University of Guelph, fostering a culture of inclusion [2] is an institutional imperative. The University invites and encourages applications from all qualified individuals, including from groups that are traditionally underrepresented in employment, who may contribute to further diversification of our Institution.
