Livestock Agricultural Assistant, Arkell Swine/Feed Mill Research Station

Research Station Operations, Office of Research

Hiring #: 2019-0389

Please read the Application Instructions before applying

Reporting to the Technical/Foreperson for the Arkell Swine / Feed Mill Research Station University of Guelph, the incumbent will have current working knowledge and advanced skill regarding all aspects of maintaining a closed swine herd and operating a small research Feed Mill.

Swine husbandry duties include feeding, sow management, boar management, breeding, piglet and weaner management, grower and finisher management. Activities specific to working with swine in a closed herd research environment require current knowledge in biosecurity (shower in and out facility); health observation specific to swine, following animal utilization protocols; recording data; assisting researchers; laundry; power washing; basic repairs to penning, feeders, equipment, flooring and buildings; basic plumbing; ventilation control adjustment/setting curves; manure handling and tractor operation.

Other core duties include data collection and other activities in support of research projects; cleaning, upkeep and maintenance of facilities and swine and feed mill operational equipment; and other general duties such as: monitoring operations to ensure safety and animal care standards are consistently achieved; contributing to efficient work routines and a clean and orderly workplace; assisting in training of seasonal and temporary staff; and assisting on occasion in conducting tours.

Feed Mill duties include feed mill management for mixing research rations for the entire livestock facilities as well as preparation of custom diets for various research projects across a variety of livestock species. Working at the research feed mill requires current knowledge for manufacturing feed rations for animals and poultry; knowledge of feed mixers, elevators, baggers with sewing tools, safe stacking, animal and poultry feed ingredients, supplements, accurate feed weighing, individualized rations, removal of spoilage, confined space training, and dust control.

Incumbents must be prepared to work as required in weather extremes, with exposure to odours, noise, dust, gases, and chemicals in accordance with all Health and Safety precautions and procedures; participating in all Health & Safety activities; and other duties as assigned.

Requirements for the position include: Two-year Associate Diploma in Agriculture and a minimum of two years of current working experience encompassing a full range of responsibilities with maintaining a closed swine herd and operating a small research Feed Mill or an equivalent combination of education and experience. The successful candidate must have good communication and positive interpersonal skills; be adaptable, dependable and a quick learner. Additionally, the incumbent will have demonstrated ability to function in a mature manner with other staff in a team setting, be safety conscious, computer literate and attentive to detail.

A valid Class G driver’s license minimum is required. Experience with one or more other species would be an asset. All positions require physical strength and stamina. First Aid and CPR preferred. Normal work week is 40 hours, individual shifts are 8 hours and work on weekends and holidays is required.

Position Number 447-075
