Position covered by the Collective Agreement with USW Local 4120

Good Laboratory Practices (GLP) Technician

Chemistry Unit, Laboratory Services Division

Hiring #: 2020-0257

Please read the Application Instructions [1] before applying

Working primarily on Good Laboratory Practices (GLP) projects in support of pesticide registrations, the successful candidate will be responsible for conducting trace chemical analysis for pesticides and contaminants under Organization for Economic Co-operation and Development (OECD) guidelines for a variety of matrices including fresh and processed fruits and vegetables, legumes, vegetation, grains and soils. In adherence to ISO 17025 and OECD GLP guidelines, the incumbent will be expected to: prepare samples; conduct and oversee sample extraction and purification using a variety of chemical techniques; operate advanced instrumentation; perform data analysis; identify, trouble-shoot and resolve unexpected variances during each step of the analytical process; prepare documentation following OECD guidelines; provide instruction to trainees to perform specific analytical procedures and techniques; participate in frequent internal and external audits; trouble-shoot and perform maintenance on gas and liquid chromatographic systems coupled with a wide variety of detectors (MS, ECD, UV, fluorescence), with an emphasis on triple quad GC and LC systems.

Minimum requirements of the position include: Three (3) year Community College laboratory technician program, a focus in chemistry is required, combined with some related experience; or an equivalent combination of education and experience. Demonstrated experience in a laboratory specializing in chromatographic based testing, including several years’ experience in an analytical chemistry laboratory conducting GLP and trace chemical analysis. Additional requirements include: strong initiative (self-motivation) skills; attention to detail; ability to work both independently and in a team environment with minimal supervision; critical thinking, demonstrated multi-tasking skills in a project based, GLP laboratory; experience with OECD GLP requirements, documentation and tracking processes; ability to provide exceptional customer service in a fast paced, client focused environment to achieve client-driven deadlines.
