Research Associate II

Pathobiology, Ontario Veterinary College

Temporary full-time from June 15, 2021 to March 14, 2022
Hiring #: 2021-0044

Please read the Application Instructions [1] before applying

This is a Research Associate II position for a highly motivated researcher in immunology and microbiology. Reporting to the laboratory’s principal investigator, the Research Associate will be involved in projects aimed to drive a discovery and applied research in the area of poultry health and disease. The laboratory is interested in host-virus interactions, developing novel vaccines against poultry viruses and interactions of gut microbiota with the avian host.

Responsibilities will include:

- Conducting research experiments
- Collection, analysis and interpretation of research data
- Writing manuscripts for peer-review
- Preparation and presentation of research data for scientific audience
- Engaging, establishing and cultivating partnerships with internal and external stakeholders
- Preparation of scientific reports for funders and external stakeholders
- Training new lab members for laboratory techniques
- Overseeing the work of other junior members of the laboratory

Requirements of the position include:

- Master’s degree (preference will be given to PhD holders) in microbiology/ immunology or related discipline
- A minimum 5 years of relevant laboratory experience in immunology, virology and bacteriology
- In-depth understanding of and hands-on experience with the following techniques: real-time PCR, virus culture, bacterial culture, flowcytometry, ELISA, microbiome analysis, animal handling, gene cloning and protein expression
- Strong writing and oral communication skills
- Strong problem-solving skills
- Track record of publication in peer-reviewed journals
- Demonstrated ability to assign and monitors the work of junior-level research staff, evaluating progress and quality of work and coordinating workflow
- Demonstrated ability to work independently and collaborate in a team environment
- Experience in engaging and establishing partnerships with stakeholders, both internal and external
- Experience in writing research reports for external and internal stakeholders and funders

This appointment is regularly performed on-campus but will be initially fulfilled remotely (off-campus) until the University resumes its regular operations.

Classification Grant/ Trust fund position, Band 3
GTP Professional/Managerial Salary Bands [2]
At the University of Guelph, fostering a culture of inclusion [3] is an institutional imperative. The University invites and encourages applications from all qualified individuals, including from groups that are traditionally underrepresented in employment, who may contribute to further diversification of our Institution.
