Instructional Technology Specialist

Open Learning and Educational Support

Temporary full-time from August 2, 2022 to August 4, 2023
Temporary absence of the regular incumbent
Hiring #: 2022-0351

Please read the Application Instructions [1] before applying

Open Learning and Educational Support is an integral part of the University of Guelph’s learner-centered and research-intensive mission.

As leaders in education, we create innovative and relevant educational opportunities that meet the learning needs of local and international audiences. We are guided by learner-centered principles that are reflected in our diverse programs and rich learning experiences for traditional and lifelong learners. We intentionally integrate pedagogy with technology in the design, development and delivery of our educational programs. Through research and collaboration, we engage in scholarship to advance the teaching and learning mandate of the University.

Reporting to the Associate Director, Educational Technologies, the Instructional Technology Specialist provides expertise and leadership in the application of instructional technology theory and well-grounded pedagogical approaches to course websites, in-class, and blended instruction.

The successful candidate will:

- Use expertise and judgement to determine a pedagogically sound approach in the use of educational technologies and proposes innovative solutions to complex issues
- Collaborates with a team of experts on university-wide strategic teaching and learning projects and initiatives
- Provide evidence-based advice to faculty in the use of educational technologies to advance teaching and learning strategies
- Design, develop and deliver training programs and workshops to faculty and professionals, which includes assessing the learning and support needs, designing, developing and leading the workshop and conducting formative and summative evaluations
- Develop support materials to assist faculty in the use of online technologies for the classroom and for blended teaching scenarios
- Lead teams, including faculty and professionals, in courseware development initiatives
- research, pilot, assess and disseminate findings on emerging technologies through presentations and workshops
- Create campus-wide resources contributing to the development of journals, blogs and wikis in the area of effective and innovative use of educational technologies

The Instructional Technology Specialist will have a Master’s degree in a related field with several years of experience or an equivalent combination of education and experience.

The successful candidate will have:
• Experience and expertise with Brightspace (or comparable) learning management systems
• Demonstrated expertise in assessing needs and implementing educational technologies into course design
and delivery with a focus on instructional design theories and strategies
• Demonstrated experience in developing and delivering effective training programs and one-on-one
consultations
• Demonstrated skills in project management with the ability to manage multiple projects with competing
deadlines
• Proficiency using educational technologies and applications such as learning management systems,
student response systems, web tools, social media, Adobe products, the Office365 suite, authoring tools

The Instructional Technology Specialist must also have exceptional demonstrated skills in: organization; problem
solving; sound judgement; clear written and verbal communication; effective presentation skills; good sense of
graphic design; and the ability to work independently as well as collaboratively as part of a team; and thrive in a
fast-paced environment.

(Covering) Position Number   313-049
Classification               P04
Professional/Managerial Salary Bands [2]

At the University of Guelph, fostering a culture of inclusion [3] is an institutional imperative. The University
invites and encourages applications from all qualified individuals, including from groups that are
traditionally underrepresented in employment, who may contribute to further diversification of our
Institution.
