

HUMAN AND NON-HUMAN PRIMATE SOURCE MATERIAL

FORM BSC-3

All human and non-human primate source materials are considered to be potentially infectious, even if screened, and are handled at Containment Level 2 using Universal Precautions.

Principal Investigator: _____

Project Title: _____

Project Number: _____

1. Materials (check all that apply):

- | | |
|--|--|
| <input type="checkbox"/> Human blood and/or blood products | <input type="checkbox"/> Peritoneal fluid |
| <input type="checkbox"/> Semen | <input type="checkbox"/> Synovial fluid |
| <input type="checkbox"/> Vaginal secretions | <input type="checkbox"/> Pleural fluid |
| <input type="checkbox"/> Sputum | <input type="checkbox"/> Amniotic fluid |
| <input type="checkbox"/> Sweat | <input type="checkbox"/> Pericardial fluid |
| <input type="checkbox"/> Feces | <input type="checkbox"/> Cerebrospinal fluid |
| <input type="checkbox"/> Nasal secretions | <input type="checkbox"/> Unfixed tissues or organs |
| <input type="checkbox"/> Tears | <input type="checkbox"/> Fixed issues or organs |
| <input type="checkbox"/> Breast milk | <input type="checkbox"/> Bones or teeth |
| <input type="checkbox"/> Urine | <input type="checkbox"/> Other <i>specify:</i> |

2. Source: _____

Research subjects:

Obtained from Colleague:
Attach Material Transfer Agreement

Tissue Bank:

Material Transfer Agreements (MTA) are obtained from the Research Innovation Office

Other:

3. Treatment prior to receipt (e.g., fixation):

4. Screening prior to receipt and results:

5. Will the material be infected with pathogens as part of this project?

Yes No Specify:

6. Largest amount used is: _____ Usual amount used is: _____

7. Is the material used in animals? Yes No *If yes, complete Form BSC-7.*

8. References. *Attach any references that may support this application.*
