

HECHMET Chemical Inventory – Barcode Disposal Form

Please use this form to keep your chemical inventory system up to date. Before you dispose of your empty chemical bottle, remove the barcode and affix to this form. Submit the form via U of G mail to Environmental Health and Wellness (EHS). We will remove used chemicals from your inventory.

NOTE: COMPRESSED GASSES INVENTORY IS STANDING. Therefore, do not remove barcodes from the Compressed Gas sheet (if applicable). If inventory is to be downsized, remove applicable barcodes and apply on this sheet. Alternatively, Inventory Manager can dispose off the barcode within the system.
