

**IBIO*4500/4510
Project Approval Form**

This form must be submitted to the course coordinator (Dr. Roy Danzmann, SCIE 1460)
by **14 September, 2018**.

Course Evaluation (see course outline for further detail)

| Evaluation | Value (%) |
|-----------------------------|-----------|
| Research proposal | 15 |
| Lab/field/analytical effort | 20 |
| Two oral presentations | 10 + 15 |
| Final written report | 40 |

| | | | |
|---|------------------|-------------------|--|
| Student | | | |
| Student ID# | | Email | |
| Signature | | | |
| Cumulative average (%) in science courses | | | |
| Project Advisor* (please print) | | Signature & email | |
| Second Reader** (please print) | | Signature & email | |
| Course Coordinator | Dr. Roy Danzmann | Signature | |
| Project Title | | | |
| Journal Format | | | |
| Criteria for research effort | | | |

* this must be a faculty member in IBIO

** this must be a faculty member, but s/he may be in another department

- If the project involves live vertebrates, approval from the Animal Care Committee (ACC) is required.
- If the project involves humans, approval from the Research Ethics Committee (REC) is required.
- CBS safety training is required and the Safety Checklist must be reviewed if lab work is involved.

| Requirement | yes/no/NA |
|------------------------------|-----------|
| ACC approval obtained | |
| REC approval obtained | |
| Safety Orientation completed | |

Note: You need to provide a one page summary (max.) of the project proposal that provides the rationale and methods for the project by 14th September, 2018.
