

The Roy C Anderson Memorial Lecture In Parasitology

College of Biological Science
University of Guelph, Guelph, Canada

Professor Roger K Prichard

Canadian Pacific Professor of Biotechnology
Institute of Parasitology
McGill University, Quebec

“Nematode Infections: Disease, Drugs and DNA”

Friday 29 November 2002

1:00 – 2:00 pm

**Room 1714, OVC Learning Centre
University of Guelph**

Professor Prichard will be on campus on November 28th and 29th to meet with students, faculty and interested members of the public. He is on the Expert Advisory Committee on Onchocerciasis, World Health Organisation. About 20 million people in Africa, and Central and South America suffer from onchocerciasis, and in the absence of treatment many would go blind. Dr. Prichard's previous responsibilities at McGill University include having been Director of the Institute of Parasitology, Dean of Graduate Studies, and Vice-President (Research). More information on Dr. Prichard's visit can be obtained from Dr. PTK Woo [824-4120 ext. 3581 or pwoo@uoguelph.ca].

This annual memorial lecture is open to students, faculty and the general public. It is co-sponsored by the College of Biological Science, and Roy's family, former students and friends. Contributions to the endowment fund are most welcome, and please contact Patrick TK Woo for details or visit <http://www.uoguelph.ca/CBS/develop/rca.htm>.
