

# **The Roy C. Anderson Memorial Lecture In Parasitology**

**College of Biological Science  
University of Guelph, Guelph, Canada**

presents

***Dr. Daniel F. Klessig***

Senior Scientist and former President & CEO  
Boyce Thompson Institute for Plant Research  
Cornell University, Ithaca, NY, USA

**“Protective Immunity in Plants Against Pathogens:  
Interesting Parallels to Innate Immunity in Animals”**

Monday, October 29<sup>th</sup> 2007  
at 12.10 pm

Room 1714, OVC Learning Centre, University of Guelph

Dr. Klessig earned his doctorate in biochemistry and molecular biology from Harvard University in 1978 under the direction of Ray Gesteland and James D. Watson (1962 Nobel Laureate in Physiology or Medicine). His research ranges from cancer-causing animal viruses to learning how plants respond to and protect themselves from microbial pathogens.

All are invited to an informal reception for Dr. Klessig at 11.45 am on October 29<sup>th</sup> in the foyer, OVC Learning Centre.

This annual lecture is open to students, faculty, staff and the general public. It is co-sponsored by the College of Biological Science, Mrs. P. Anderson, and Roy's former students and friends. More information on Dr. Klessig's visit can be obtained from Professor Patrick T.K. Woo [519 824-4120 ext. 53581; [pwoo@uoguelph.ca](mailto:pwoo@uoguelph.ca)].
