

The Roy C. Anderson Memorial Lecture In Parasitology

COLLEGE OF BIOLOGICAL SCIENCE

presents

Dr. Harry W. Dickerson

Professor of Infectious Diseases,
Associate Dean for Research and Graduate Affairs,
College of Veterinary Medicine,
University of Georgia,
Athens, Georgia, USA

Mucosal Immunity and Fish Vaccinology: Insights from a Parasitic Ciliate

Friday, November 15th, 2013

3:00pm

Room 102, Rozanski Hall

Professor Dickerson is best known for his studies on ichthyophthiriosis (white spot disease) in fish and more recently on piscine mucosal immunity as it relates to vaccination. His services to professional societies are numerous and they include as Member, Board of Governors, American College of Veterinary Microbiologists; and Chair, Council on Research, American Veterinary Medical Association.

**All are invited to an informal reception for Dr. Dickerson
at 2:30pm, November 15th in Rozanski Hall.**

This memorial lecture is open to students, faculty, staff and the general public. It is co-sponsored by the College of Biological Science, Mrs. P. Anderson, and Roy's former students, friends and colleagues.

**More information on Dr. Dickerson's visit can be obtained from
