

University of Guelph

Chemistry Stockroom Shipping Procedures

Introduction:

The Chemistry Stockroom Staff serves multiple departments in both The College of Engineering & Physical Sciences (CEPS) and The College of Biological Science (CBS). The Chemistry Stockroom Staff aids in the shipping process by:

1. Providing guidance on the University of Guelph's shipping protocol.
2. Providing packaging materials required to ensure your package is transported safely and intact.
3. Coordinating pick-up of your domestic and/or international package through the University's designated couriers (Federal Express, UPS and Purolator).

*****SPECIAL NOTES*****

Dangerous Goods Shipments (Domestic & Intl.): Advice and assistance concerning Dangerous Goods consignments are available from the University's Mail Services.

- ☐ Fill out the [Request for Shipping Documentation](#)  with details of the shipment. Once complete, email the file to Kevin Ecott at kecott@uoguelph.ca. Your shipping documentation will be completed within 24-48 hours.

Please see below procedures for shipping all other domestic and international shipments.

Domestic Shipments:

- ☐ Fill out the "Shipping Form" in its entirety, being as accurate as possible. Please contact your Chemistry Stockroom Staff to go over any questions you may have.
- ☐ Prepare and package your shipment to ensure it is transported safely and intact.
- ☐ Parcels must be marked with complete sender and recipient addresses and all applicable labelling.
- ☐ Deliver your package to the Chemistry Stockroom by 10:00 am to ensure your parcel is sent out the same day.
- ☐ The Chemistry Stockroom staff will utilize the information contained on the Shipping Form to create the shipment with your designated courier and schedule your pick-up. We will provide you with your parcel's tracking number via email.
