

Seminar Series F21/W22

Seminars are held virtually Thursdays (unless otherwise noted) from 11:30 a.m. - 12:30 p.m. All interested are welcome to attend.

Fall 2021

September 23, 2021 - [Matt Furst](#), (2021 winner Annual Integrative Biology Distinguished Student Speaker Award)

Topic: Causes and consequences of dispersal in Canada jays

September 30, 2021 - No speaker, [National Day for Truth and Reconciliation](#)

October 07, 2021 - [Dr. Katie Marshall](#), University of British Columbia

Topic: Causes and consequences of invertebrate low temperature limits

October 14, 2021 - [Dr. Amanda Bates](#), University of Victoria

Topic: Understanding climate resilience through the lens of physiological diversity to improve marine conservation outcomes

October 28, 2021 - [Dr. Isabelle Côté](#), Simon Fraser University

Topic: Aliens in paradise: Multiple impacts of a marine predator introduction

November 04, 2021 - [Dr. Anna Hargreaves](#), McGill University

Topic: Where do species interactions matter?

November 11, 2021 - [Dr. Jessica Gillung](#), McGill University

Topic: An integrative approach to unraveling insect diversity and evolution: from molecules to phenotypes

November 18, 2021 - [Dr. Isabelle Laforest-Lapointe](#), Faculté des sciences, Université de Sherbrooke.

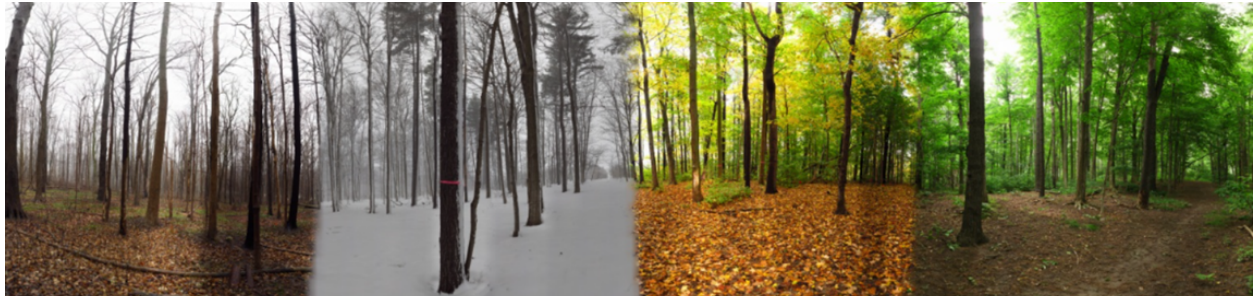

Topic: Host-microbe interactions: who runs the show

November 25, 2021 - [Dr. Melissa Perreault](#), Associate Professor in Neuroscience, University of Guelph, Department of Biomedical Sciences

Topic: The inclusion of sex and gender in mental health research: Nuisance or necessity?

December 02, 2021 - [Dr. Daniel Grunspan](#), University of Guelph, Department of Integrative Biology

Topic: Examining the role Professors of Teaching play in institutional discussion networks

Winter 2022

Seminars are held virtually Thursdays (unless otherwise noted) from 11:30 a.m. - 12:30 p.m. All interested are welcome to attend.

January 13, 2022 - TBD

January 20, 2022 - [Dr. Sheila Colla](#), York Research Chair (Tier 2) in Interdisciplinary Conservation Science, Faculty of Environmental and Urban Change, York University

Topic: Human Dimensions of Pollinator Conservation

January 27, 2022 - [Dr. Michelle Tseng](#), Department of Botany and Zoology & the Biodiversity Research Centre, University of British Columbia.

Topic: Ecological and evolutionary effects of warming on insect and plankton communities.

February 03, 2022 - [Dr. Diane Srivastava](#) Director, Canadian Institute of Ecology and Evolution (CIEE-ICEE) and Professor, Dept of Zoology & Biodiversity Research Centre

Topic: Climate change and the reshaping and rewiring of food webs

February 10, 2022 - [Dr. Marta Berbés-Blázquez](#), Arizona State University and The University of Waterloo

Topic: Greening the city of the future: Nature-based solutions from the grassroots up

February 17, 2022 - [Dr. Alisha Shah](#), Kellogg Biological Station at Michigan State University

Topic: Using Thermal Physiology to Explain Insect Patterns of Biodiversity and Response to Climate Change

March 03, 2022 - [Dr. Andrew Young](#), School of Environmental Sciences, University of Guelph

Topic: The biology of flower flies (Diptera: Syrphidae) and new research opportunities in the family

March 10, 2022 - [Peter Soroye](#), University of Ottawa and Assessment and Outreach Coordinator for the Key Biodiversity Areas Program at Wildlife Conservation Society Canada

Topic: Climate and land-use change interactions on pollinators

March 17, 2022 - TBD

March 24, 2022 - TBD

March 31, 2022 - 2022 Winner Annual Integrative Biology Distinguished Student Speaker Award

Topic: TBA

April 07, 2022 - [Dr. Heather Kharouba](#), Department of Biology, University of Ottawa

Topic: TBD
