

**COLLEGE of  
BIOLOGICAL SCIENCE**

DEPARTMENT OF INTEGRATIVE BIOLOGY

## **M.Sc. Position – Comparative Neurophysiology**

The [Alderman Lab](#) in the Department of Integrative Biology at the University of Guelph is seeking a highly motivated, critical thinker with an interest in comparative physiology to join our research team as a graduate student. The successful applicant will study mechanisms of stress-induced changes to neurogenesis in zebrafish by integrating techniques in molecular, histological, and organismal physiology. The position is open to Canadian citizens or permanent residents with a B.Sc. degree in biology and a strong academic record. Prior laboratory or research experience and strong written communication skills are considered an asset. All qualified individuals, including applicants from underrepresented groups, are encouraged to apply by sending a cover letter, *curriculum vitae*, recent (unofficial) transcript, and contact information for 1-3 references to [alderman@uoguelph.ca](mailto:alderman@uoguelph.ca).
