

# Bloomberg Terminal Access from Home

## Requesting a Bloomberg Terminal Login

- Students and faculty that have an existing Bloomberg Terminal login can follow the instructions in the next section [Logging In to a Terminal Remotely](#).
- Students and faculty that do not have an existing Bloomberg Terminal login, can request a Bloomberg username and password at our BMC web portal: <https://portal.bloombergforeducation.com/>

### Users WITHOUT a BMC account tied to a university e-mail

Users without a BMC account tied to a university e-mail can create an account for free *with their university e-mail* at our BMC web portal

<https://portal.bloombergforeducation.com/>

**IMPORTANT NOTE:** Students that are asked for their credit card information should contact us directly at [bbg.edu@bloomberg.net](mailto:bbg.edu@bloomberg.net) to prevent an unnecessary charge.

### Users WITH a BMC account tied to a university e-mail

Users with a BMC account tied to their university e-mail can login with their BMC username and password. If the university has DR mode activated, users should see a tab at the top of their dashboard called “Terminal Access”. Click this tab and follow the instructions.

**Bloomberg for Education**   BMC   Case Studies   Terminal Access   Demo Learner 

## Terminal Access

Have you logged into a Bloomberg Terminal with a *personal* username and password in the last 90 days?

**YES >**   **NO >**

NOTE: If “DR” mode is activated and are using your university email but still do not see this tab, email us at [bbg.edu@bloomberg.net](mailto:bbg.edu@bloomberg.net) with your BMC account information.

## Logging In to a Terminal Remotely

Once a student or professor has a Bloomberg login (different from a BMC login), users may login to Bloomberg remotely in the following way:

**Step 1:** Navigate to <https://bba.bloomberg.net/>

**Step 2:** Enter personal Bloomberg username and password

NOTE: Bloomberg Terminal credentials should be used. BMC credentials are NOT valid here.

**Step 3:** Verify identity with a code sent to the enrolled student email or mobile device. If this information is not already on file with Bloomberg, contact customer support: <https://www.bloomberg.com/professional/support/support-numbers/>

**IMPORTANT NOTE:** Only one student can be logged into a Bloomberg Terminal remotely. If a Student A is logging in and the terminal is being used by Student B, Student A will see a warning that they are logging into a terminal that is currently being used by Student B. Student A will have the option to kick Student B off or try again later. If Student B was randomly kicked off the terminal, this means Student A kicked Student B off the terminal.
