

**MBG\*4240  
Adv. Mol. Biol. Techniques  
Winter 2018**

**Department of Molecular and Cellular Biology  
University of Guelph**

**COURSE OBJECTIVES**

This is a molecular genetics course focused on the principles and the application of advanced molecular techniques and methods used in genetic research, medicine and biotech industries. The covered topics include advanced DNA and RNA analysis, “omics” approaches in biomarker discovery, molecular diagnosis, gene therapy and transgenesis. Students will have opportunity to learn and achieve professional levels of understanding of modern molecular biology technology and its applications through lectures, contemporary reviews and primary literature in the classroom, as well as by independent study and peer learning.

**COURSE PERSONNEL**

**Instructor:** Dr. Monica Antenos  
*Office:* Rm 3638A, Department of Biomedical Sciences, OVC  
*Email:* mantenos@uoguelph.ca  
*Office hours:* By appointment

**COURSE SCHEDULE**

**Lectures:** Tuesday and Thursday, 11:30 AM – 12:50 PM, MCKN Room 121

**LEARNING OUTCOMES**

**By the end of this course, students should be able to:**

1. Describe and explain the principles and the applications of current advanced molecular techniques and methods;
2. Recognize the difference between various molecular techniques as well as their strength and limitations;
3. Anticipate, analyze and interpret the results of an experimental design;
4. Critically evaluate biological problems, propose hypotheses, identify appropriate molecular biology techniques and design experiments to test the hypotheses;
5. Summarize and critically review primary research articles in molecular genetics in groups and individually;
6. Communicate science (in written and oral forms) effectively.

## COURSE RESOURCES

### Textbooks on Course Reserves in the Library:

There is no designated textbook for this course. The following texts that are recommended as main references are on reserve in the library:

**Molecular Biology and Biotechnology.** R. Rapley and D. Whitehouse, Royal Society of Chemistry, 6th ed. (2015).

**Molecular Biotechnology: Principles and Applications of Recombinant DNA.** B.R. Glick, Bernard et al., ASM Press, 4th ed. (2010).

**An Introduction to Molecular Biotechnology: Fundamentals, Methods, and Applications.** M. Wink, Wiley-Blackwell, 2nd ed. (2011)

### CourseLink:

This course will make use of the University of Guelph's course website CourseLink. Consequently, you are responsible for all information posted on the CourseLink page for MBG\*4240. Please check it regularly.

### Undergraduate Calendar:

The Undergraduate Calendar is the source of information about the University of Guelph's procedures, policies and regulations, which apply to undergraduate programs. It can be found at: <http://www.uoguelph.ca/registrar/calendars/undergraduate/current/>.

## COURSE FORMAT

### Lectures

Two 80-minute lectures per week.

### Tentative Lecture Topics and Schedule

TOPICS		Lec#	WEEK
Discussion of a primary research article		1-2	1
1. Recombinant DNA technologies		3-4	2
	1.1. DNA cloning vectors and strategies		
	1.2. Genomic and cDNA Libraries:		
	1.4. in vitro mutagenesis		
2. DNA analysis		5	3
	2.1. Molecular hybridization		
	2.2. DNA labeling		
	2.3. Quantitative (real-time) PCR		
	2.4. Sanger sequencing		
3. RNA analysis		6-7	3-4
	3.1. RT-PCR and RACE		

	3.3. RNA labeling, Northern blotting and in situ hybridization, and RNase protection assays		
4. Genome-wide DNA and RNA analysis		8	4
	4.1. Microarray		
	4.2. Next-generation sequencing: RNA-seq, and ChIP seq		
<b>Quiz 1, in class on Tue Feb 6 (covers Week 1-4)</b>			5
5. Genetic screens		9	5
	5.1. Screening of DNA libraries		
	5.2. Forward and reverse genetic screens		
6. Identification of biomarkers and molecular diagnosis		10	5
	6.1. DNA polymorphisms		
	6.2. Technologies and strategies for molecular biomarker discovery		
	6.3. Molecular diagnosis techniques		
7. Gene therapy: strategies and vectors		11	6
<b>Reading Week Feb 19-23</b>			
<b>Group presentation 1;</b> Thu Feb 27 (applications of next-gen sequencing)			6
<b>Group presentation 2;</b> Thu Mar 1 (genetic screens)			7
<b>Group presentation 3;</b> Tue Mar 6 (technologies and strategies for molecular biomarker discovery)			7
<b>Group presentation 4;</b> Thu Mar 8 (molecular diagnosis techniques)			8
8. Transgenic and gene-targeted mice in medical research		12	8
	8.1. Transgenic mice		
	8.2. Knock-out and Knock-in mice		
	8.3. Conditional gene targeting (Cre/LoxP) system		
	8.4. (Inducible gene switching)		
	8.5. Genome Editing with CRISPR-Cas9		
9. Transgenic plants and animals in biotech industry		13	9
<b>Quiz 2, in class on Tue Mar 20 (covers Week 5-9)</b>			
<b>Group presentation 5;</b> Thu Mar 22 (gene therapy)			9
<b>Group presentation 6;</b> Tue Mar 27 (inducible gene switching)			10
<b>Group presentation 7;</b> Thu Mar 29 (disease- and environmental-resistant transgenic plants or transgenic plants with health improving benefits)		14	10
<b>Group presentation 8;</b> Tue Apr 3 (production-enhanced transgenic animals)			11
10. Left-over topics and review (Apr 5)			11
<b>Final Exam: April 12, 2018</b>			12

(\* Final exam covers all course materials of the semester and student presentations)

## METHODS OF ASSESSMENT

### Oral Presentation OR Research Proposal

Students will be assigned to groups of four ( $\pm 1$ ) depending on class size. Approximately half of the class will present their topic in an oral presentation format, while the other half will write a research proposal. This is a key component of learning activities and student assessment of this course. Dr. Antenos is available throughout this process, to give you guidance and help in gathering research material, organizing and planning your presentation/proposal and the final presentation/writing the proposal. Detailed instructions on the oral presentation and the written research proposal will be given separately on CourseLink.

Oral presentation topics and schedules are given in the Tentative Lecture Topics and Schedule (above). A primary research paper needs to be chosen **at least four weeks** ahead of the presentation date.

Written research proposal topics use the same topics. The group research proposal should be completed using Office 365 and shared with Dr. Antenos at [mantenos@uoquelpk.ca](mailto:mantenos@uoquelpk.ca). The proposal is due on **Thursday March 15 @ 12:00 pm** to a designated group Dropbox folder on CourseLink.

Oral presentation groups will be assigned a group written research proposal, and must write a 2-page double spaced of the assigned proposal. to write a review of the assigned proposal. The review is due on **Thursday March 29 @ 12:00 pm** to a designated Dropbox on CourseLink.

Written proposal groups will be assigned a research paper used by oral presentation groups, and are required to write a 2-page double-space critical review of the paper that describes the highlights of the paper, its strength and weakness, and any questions that you might have and hope that presenters could clarify during their talk and comments on whether the presenters have provided answers to your questions and whether you agree with presenters' views about the paper. The evaluation is due **at 11:59 PM on the same day of the presentation**.

### Key Dates

Feb. 6:	1 <sup>st</sup> in-class quiz
Feb. 27:	Oral presentation begins*
Mar. 9:	Fortieth class day – last day to drop the semester courses
Mar. 20:	2 <sup>nd</sup> in class quiz
Mar. 15:	Research proposal due
Mar. 29:	Two-page review of research proposal due
Apr. 12	Final Exam

\* Presentation file is due in the designated Dropbox folder 24 hrs prior to the presentation time. Late submissions will result in 5% penalty.

<b>Assessment</b>				
<b>Form of Assessment</b>		<b>Weight of Assessment (% of final)</b>	<b>Course Content /Activity</b>	<b>Learning Outcome (see above)</b>
Quiz 1		15%	Lectures 1-8	1-4
Quiz 2		15%	Lectures 9-12	1-4
Option 1	Oral presentation	30%	Non-lecture	1-6
	2-page critical review of research proposal	5%	Non-lecture	5-6
Option 2	Research proposal	30%	Non-lecture	1-6
	2-page critical review of group presentation	5%	Non-lecture	5-6
Participation of Discussion		5%	Non-lecture	5-6
Final Exam		30%	Week 1-12 lecture and non-lecture materials	1-4

\* Use online forums for group discussions and communications among group members. These forums may be used as a reference when your group presentations or research proposals are graded.

## COURSE AND UNIVERSITY POLICIES

### When You Cannot Meet a Course Requirement

When you find yourself unable to meet an in-course requirement because of illness or compassionate reasons, please advise the course instructor (or designated person, such as a teaching assistant) in writing, with your name, id#, and e-mail contact. See the undergraduate calendar for information on regulations and procedures for Academic Consideration: <https://www.uoguelph.ca/registrar/calendars/undergraduate/2017-2018/index.shtml>

**If one (or two) of the group members dropped the course, the remaining two students shall finish the project as usual. If three group members dropped the course, proper accommodation will be given to the remaining student.**

**Only under exceptional circumstances your oral presentation can be rescheduled to the last week of the classes. You will need to be granted academic consideration to do so.**

### Accessibility

The University of Guelph is committed to creating a barrier-free environment. Providing services for students is a shared responsibility among students, faculty and administrators. This relationship is based on respect of individual rights, the dignity of the individual and the University community's shared commitment to an open and supportive learning environment. Students requiring service or accommodation, whether due to an identified, ongoing disability or a short-term disability should contact the Centre for Students with Disabilities (SAS) as soon as possible.

For more information, contact SAS at 519-824-4120 ext. 56208 or email [csd@uoguelph.ca](mailto:csd@uoguelph.ca) or see the website: <https://wellness.uoguelph.ca/accessibility/>

### Academic Misconduct

The University of Guelph is committed to upholding the highest standards of academic integrity and it is the responsibility of all members of the University community – faculty, staff, and students – to be aware of what constitutes academic misconduct and to do as much as possible to prevent academic offences from occurring. University of Guelph students have the responsibility of abiding by the University's policy on academic misconduct regardless of their location of study; faculty, staff and students have the responsibility of supporting an environment that discourages misconduct. Students need to remain aware that instructors have access to and the right to use electronic and other means of detection.

Please note: Whether or not a student intended to commit academic misconduct is not relevant for a finding of guilt. Hurried or careless submission of assignments does not excuse students from responsibility for verifying the academic integrity of their work before submitting it. Students who are in any doubt as to whether an action on their part could be construed as an academic offence should consult with a faculty member or faculty advisor. The Academic Misconduct Policy is detailed in the Undergraduate Calendar: <https://www.uoguelph.ca/registrar/calendars/undergraduate/2017-2018/c08/c08-amisconduct.shtml>

### E-mail Communication

As per university regulations, all students are required to check their <uoguelph.ca> e-mail account regularly. E-mail is the official route of communication between the University and its students.

### Drop Date

The last date to drop one-semester courses, without academic penalty, is the 40<sup>th</sup> class day. To confirm the actual date, please see the schedule of dates in the Undergraduate Calendar. For regulations and procedures for Dropping Courses, see the Undergraduate Calendar: <https://www.uoguelph.ca/registrar/calendars/undergraduate/2017-2018/c03/c03-wintersem.shtml>

### Copies of out-of-class assignments

Keep paper and/or other reliable back-up copies of all out-of-class assignments: you may be asked to resubmit work at any time.

### Recording of Materials

Presentations which are made in relation to course work—including lectures—cannot be recorded or copied without the permission of the presenter, whether the instructor, a classmate or guest lecturer. Material recorded with permission is restricted to use for that course unless further permission is granted.

### Resources

The Academic Calendars are the source of information about the University of Guelph's procedures, policies and regulations which apply to undergraduate, graduate and diploma programs:

<https://www.uoguelph.ca/registrar/calendars/>

### Grading

**Assignments are due by the time indicated above, via submission to designated Dropbox folders on CourseLink. Late submissions on the same due date will result in 5% penalty, and 5% penalty for each additional day.**

Students who wish to have their exams/quizzes re-graded must submit their exams to the instructor within 5 class days of the return of the midterm exam. The entire exams/quizzes will be re-graded so the mark may go up, down or remain unchanged.

## **CAMPUS RESOURCES**

If you are concerned about any aspect of your academic program: make an appointment with a program counsellor in your degree program.

<https://bsc.uoguelph.ca/> or <https://www.uoguelph.ca/uaic/programcounsellors>

If you are struggling to succeed academically:

- There are numerous academic resources offered by the Learning Commons including, Supported Learning Groups for a variety of courses, workshops related to time

management, taking multiple choice exams, and general study skills. You can also set up individualized appointments with a learning specialist.

<https://www.lib.uoguelph.ca/get-assistance>

If you are struggling with personal or health issues:

- Counselling services offers individualized appointments to help students work through personal struggles that may be impacting their academic performance. <https://www.uoguelph.ca/counselling/>
- Student Health Services is located on campus and is available to provide medical attention. <https://www.uoguelph.ca/studenthealthservices/clinic>
- For support related to stress and anxiety, besides Health Services and Counselling Services, Kathy Somers runs training workshops and one-on-one sessions related to stress management and high performance situations. <http://www.selfregulationskills.ca/>

If you have a documented disability or think you may have a disability:

- The Centre for Students with Disabilities (CSD) can provide services and support for students with a documented learning or physical disability. They can also provide information about how to be tested for a learning disability. For more information, including how to register with the centre please see: <https://wellness.uoguelph.ca/accessibility/>
