

Congratulations to Morgan Stykel for receiving a \$400.00 USD award and certificate for having the best Graduate Student Poster Presentation during the American Association of Anatomists (AAA) Annual Meeting, which took place at the Experimental Biology (EB) Conference in San Diego 2018.

Her poster was entitled "Nitration of Microtubules Blocks Axonal Mitochondrial Transport in a Human Pluripotent Stem Cell Model of Parkinson's Disease". This work was published in April 2018 in The FASEB Journal (<https://doi.org/10.1096/fj.201700759RR>).

In addition to best poster presentation, Morgan also received a \$250.00 USD travel award to attend the EB conference from the AAA society.

Morgan is a PhD candidate under the supervision of Dr. Scott Ryan in Molecular and Cellular Biology with a specialization in neuroscience. Congratulations Morgan!
