

BOT*2100 Life Strategies of Plants

01

Fall 2022

Section(s): 01

Department of Molecular and Cellular Biology

Credit Weight: 0.50

Version 1.00 - September 09, 2022

1 Course Details

1.1 Calendar Description

This course introduces the structures and processes used by plants in the greening of our planet, and how and why plants are basic to the functioning of the biosphere. This course includes hands-on experience in examining the cells, tissues and architectures of plants as well as selected processes of plant function.

Pre-Requisites: 2 of BIOL*1050, BIOL*1070, BIOL*1080, BIOL*1090

1.2 Course Description

This course introduces the structures and processes used by plants in the greening of our planet, and how and why plants are basic to the functioning of the biosphere. This course includes hands-on experience in examining the cells, tissues and architectures of plants as well as selected processes of plant function.

1.3 Timetable

Lectures: 8:30-9:50 Tuesday & Thursday, in room MINS 300.

Look through the posted lectures **ahead** of time to get the most out of this course. You can print out the notes on Courselink and bring them to class. Any questions that you have pertaining to the lecture material can be answered during that time.

Labs: The laboratory component will be conducted in person in room SSC 3304. Contact Chris Meyer for more details (cmeyer02@uoguelph.ca).

Make sure that you read the pertinent lab exercises **ahead** of time. Consider any questions posed in each exercise; they can help you in completing the LAB REPORTS.

You are welcome to ask any questions during lectures, the laboratories or at any other times. We welcome contact via email and are happy to set up office meetings.

1.4 Final Exam

Mid-Term Exam: Tuesday October 18th (in class)

Final Exam: Dec 5th, location to be determined

Exam time and location is subject to change. Please see WebAdvisor for the latest information.

2 Instructional Support

2.1 Instructional Support Team

Instructor: Ian Tetlow
Email: itetlow@uoguelph.ca
Telephone: +1-519-824-4120 x52735
Office: SC1 4471 (laboratory 4409)

Dr. Ian Tetlow was awarded a B.Sc. (Hons) in Plant Science from the Faculty of Agriculture at the University of Newcastle-upon-Tyne, U.K. in 1986. His Ph.D. project, undertaken at University College of North Wales (Bangor), U.K., focused on the physiological responses of plants to attack by biotrophic fungi with an emphasis on the effects of plant pathogens on plant carbon metabolism. Following his Ph.D. Dr. Tetlow began post-doctoral work at the University of Manchester, U.K. studying the regulation of carbon metabolism in non-photosynthetic plastids. Following post-doctoral studies Dr. Tetlow continued to work in the area of non-photosynthetic carbon metabolism and was awarded a Leverhulme Special Research Fellowship, followed by an Industrial Fellowship, both of which were held at the University of Manchester. In 2002 Dr. Tetlow moved to the University of Guelph and is currently an Associate Professor in MCB. Current research interests involve understanding the role of protein-protein interactions and protein phosphorylation in regulating starch metabolism in crop plants and carbon partitioning in oilseed crops.

Instructor: Tariq Akhtar
Email: takhtar@uoguelph.ca
Telephone: +1-519-824-4120 x54794
Office: SC1 4461
Office Hours: Dr. Tariq Akhtar is an Associate Professor in the Molecular and Cellular Biology Department at UofG. He obtained his MSc. in environmental toxicology from the University of Waterloo, PhD. in plant molecular biology from the University of Florida and completed his postdoctoral work in plant biochemistry at the University of Michigan. Dr. Akhtar runs a research laboratory that focuses on the splendid array of compounds that are made by plants and the underlying

molecular and biochemical ba

Lab Co-ordinator: Chris Meyer
Email: cmeyer02@uoguelph.ca
Telephone: +1-519-824-4120 x53955
Office: SC1 3507

Dr. Chris Meyer obtained B.Sc. and Ph.D. degrees in Plant Biology from the University of Waterloo. He has contributed to research and teaching in the plant sciences at the Universities of Waterloo, Wilfrid Laurier and Brock. Dr. Meyer continues to explore new approaches in plant science education at Guelph. As the BOT*2100 Lab Coordinator, he manages all aspects of the teaching laboratory. See the Lab Manual for further details.

2.2 Teaching Assistants

The TAs are responsible for dealing with your questions and making sure that you understand the procedures. In addition, they will be able to give you help in getting all the exercises to work.

They will grade the LAB REPORTS that are handed in at the end of laboratories (see Grades).

3 Learning Resources

3.1 Required Resources

Lab Manual (Lab Manual)

BOT*2100 Life Strategies of Plants, C.J. Meyer, Department of Molecular and Cellular Biology, College of Biological Science, University of Guelph, © Fall 2022.

You are responsible for bringing this manual to every laboratory. The charge also covers the cost of your project handout and other additional handouts that you will receive later in the semester.

Courselink (Website)

<https://courselink.uoguelph.ca>

This course will make use of the University of Guelph's course website (*via* Courselink). Consequently, you are responsible for all information posted on the Courselink page for BOT*2100. Please check it regularly.

3.2 Recommended Resources

Undergraduate Calendar (Website)

<https://www.uoguelph.ca/registrar/calendars/undergraduate/current/>

The source of information about the University of Guelph's procedures, policies and regulations, which apply to undergraduate programs.

4 Learning Outcomes

4.1 Course Learning Outcomes

By the end of this course, you should be able to:

1. Critically evaluate ideas and arguments by gathering and integrating relevant qualitative and quantitative information, assessing its credibility, and synthesizing evidence to formulate a position.
 2. Accurately and effectively communicate ideas, arguments and analyses in graphic, oral and written form.
 3. Collaborate effectively as part of a team by demonstrating mutual respect, and an ability to set goals and manage tasks and time lines.
 4. Apply scientific methods and processes to generate and interpret scientific data using quantitative, qualitative and analytical methodologies and techniques.
 5. Demonstrate knowledge in the molecular and chemical composition of plants and their relationships to structure and function.
 6. Demonstrate knowledge in the fundamental vegetative and reproductive attributes of plants.
 7. Demonstrate knowledge in the interaction of plants with biotic and abiotic factors.
 8. Demonstrate knowledge in plant diversity and genetic variability and their relationship to evolution, speciation and adaptation.
 9. Demonstrate the use of modern techniques in plant research.
 10. Demonstrate skills to study plants in field or laboratory settings.
 11. Interpret the evolutionary history of plants through an examination of phylogenetic trees.
-

5 Teaching and Learning Activities

5.1 Course Content

Lectures

Lecture notes will be posted on Courselink and then reviewed during the scheduled lecture time.

Lectures are held in person in MINS 300.

Lectures are on:

Tuesdays at 8:30 - 9:50 AM

Thursdays at 8:30 - 9:50 AM

The first lecture is on Thursday September 8th. You are most welcome to ask any questions during lectures, the laboratories, or at any other times.

Laboratories

Laboratories will take place in person in room SSC 3304.

Laboratories are on:

Wednesdays at 2:30 – 5:20 PM

Thursdays at 2:30 – 5:20 PM

Laboratories start on **Wednesday September 14th** and **Thursday September 15th**.

Make sure that you read the pertinent lab exercises **ahead** of time. Consider any questions posed in each exercise; they can help you in completing the LAB REPORTS. **Remember that you will be examined on laboratory-based material in the mid-term and final examinations.**

5.2 Important Dates

September 8th: First lecture

TBD : Midterm examination (during scheduled class time)

TBD: Final examination

5.3 Note

You will require a minimum of 6 hours of **independent study** per week (reading, checking your notes, preparing for the lab) to really get the most out of this course. You will be asked to complete a **Course/Instruction and Teaching Assistant Evaluations** using **Courselink**. The evaluation surveys and comments will be given to the instructors after final grades have been submitted.

5.4 Lectures

Dr. T. Akhtar (lectures 1-11 and mid-term)

Dr. I. Tetlow (lectures 12-22 and final exam)

Week	Date	Topic	Lecture
1	Sept 8	Introduction to the course; Evolution of Plants	1
2	Sept 13	Evolution of Plants continued; Life Cycles (seedless plants)	2
3	Sept 15	Classification, Reproductive strategies	3
4	Sept 20	Angiosperm flowers, Flowering genes	4
5	Sept 22	Pollination, Embryogenesis - fruits	5
6	Sept 27	Seeds - Germination & early growth	6
7	Sept 29	Meristems, cells differentiating into tissues	7
8	Oct 4	Cell types and tissues	8
9	Oct 6	Organ types - roots and shoots	9
10	Oct 11	FALL STUDY BREAK - NO CLASS	
11	Oct 13	Secondary growth - how plants get bigger. Leaves - structure and function	10 & 11

Week	Date	Topic	Lecture
	Oct 18	Mid-term Examination in class	
12	Oct 20	Photosynthesis - evolution	12
13	Oct 25	Photosynthesis - mechanism	13
14	Oct 27	Photosynthesis - Carbon acquisition, C3, C4, CAM metabolism	14
15	Nov 1	Respiration	15
16	Nov 3	Inorganic nutrients in soils - N symbiosis	16
17	Nov 8	The Fungi (including mycorrhizae)	17
18	Nov 10	Water - potential and uptake	18
19	Nov 15	Water loss	19
20	Nov 17	Moving water and sugars around the plant	20
21	Nov 22	Moving water and sugars around the	21

Week	Date	Topic	Lecture
		plant	
22	Nov 24	Review	

Final examination TBA

Note: Reduced versions of the lecture slides will be available on Courselink – it is suggested that you print them out and bring them with you to the lecture so you can take additional notes.

5.5 Laboratories

Week	Date	Module	Lab Title
1	Sept 14-15	0	Introduction
2-3	Sept 21-22 Sept 28-29	1	Plant evolution 1. Plant phylogeny & life cycles 2. Floral structures & double fertilization

Week	Date	Module	Lab Title
4-6	Oct 5-6 Oct 12-13 Oct 19-20	2	Plant organs: structure and function 1. Seed structure & germination 2. Seedling growth & morphology 3. Meristems & tissues 4. Identifying different cell types 5. Root & stem anatomy
7-9	Oct 26-27 Nov 2-3 Nov 9-10	3	Photosynthesis 1. Leaf anatomy 2. Epidermis & stomatal complexes 3. Photosynthesis in C3 & C4 plants 4. Starch detection in leaves 5. Hill Reaction
10-11	Nov 16-17 Nov 23-24	4	Water transport 1. Long distance water transport 2. Osmosis, cell turgor & plasmolysis

6 Assessments

Your grade for the course will be determined from the total results of one midterm examination, laboratory work and a final examination.

6.1 Midterm Examination

The **MIDTERM EXAMINATION** will be held in class via courselink at **8:30 – 9:50 AM on Tuesday October 18th**. It will contribute **30%** towards your final grade. Since the midterm examination occurs during a lecture period no alternative time will be scheduled. If you miss the midterm examination due to illness please notify us immediately or bring documentation as soon as possible.

6.2 Final Examination

The **FINAL EXAMINATION** - TBD on line via courselink. This examination will contribute **35%** towards your final grade. The final examination will cover primarily materials not covered in the midterm examination but will include related topics dealt with in the labs.

6.3 The Examinations

The examinations will cover the lecture AND laboratory materials. The examinations will consist of an array of multiple choice questions, some questions that require concise written answers, and analysis of visual materials.

6.4 Labs

LABORATORY WORK contributes **35%** towards your final grade.

There are 4 modules which include 10 scheduled laboratories. A lab report will be assigned for each module. There is a lab report associated with each of the four lab modules. It is strongly recommended that you work on the report questions over the duration of the module and not leave it to the lastminute. Similar to the lab modules, each lab report covers a great deal of content that cannot be properly completed in one brief sitting. Lab report templates with questions will be available to download from CourseLink. Due dates for each report are listed above and on CourseLink. You must prepare and submit your own report; all the text, graphs and original content must be your own otherwise it will be treated as plagiarism. Reports must be submitted for grading as a PDF file to the CourseLink dropbox, where they will be scanned through the Turnitin plagiarism-detection software. The TAs will grade your reports and provide feedback. If you are unable to submit a report by the advertised due date, please contact Dr. Meyer at the earliest. Inability to inform within two days of the due date will result in a mark of zero for that specific report. Following academic consideration and consultation with Dr. Meyer, alternative arrangements may be granted on a case-by-case basis.

7 Course Statements

7.1 Illness & other authorized absences

If you are absent during laboratory periods, the midterm or final examination, for legitimate medical or other authorized reasons, please make sure you contact us. Provide supporting documentation as soon as you are able.

8 Department of Molecular and Cellular Biology Statements

8.1 Academic Advisors

If you are concerned about any aspect of your academic program:

- Make an appointment with a program counsellor in your degree program. [B.Sc. Academic Advising](#) or [Program Counsellors](#)

8.2 Academic Support

If you are struggling to succeed academically:

- Learning Commons: There are numerous academic resources offered by the Learning Commons including, Supported Learning Groups for a variety of courses, workshops related to time management, taking multiple choice exams, and general study skills. You can also set up individualized appointments with a learning specialist. <http://www.learningcommons.uoguelph.ca/>
- Science Commons: Located in the library, the Science Commons provides support for physics, mathematic/statistics, and chemistry. Details on their hours of operations can be found at: <http://www.lib.uoguelph.ca/get-assistance/studying/chemistry-physics-help> and <http://www.lib.uoguelph.ca/get-assistance/studying/math-stats-help>

8.3 Wellness

If you are struggling with personal or health issues:

- Counselling services offers individualized appointments to help students work through personal struggles that may be impacting their academic performance. <https://www.uoguelph.ca/counselling/>
- Student Health Services is located on campus and is available to provide medical attention. <https://www.uoguelph.ca/studenthealthservices/clinic>
- For support related to stress and anxiety, besides Health Services and Counselling Services, Kathy Somers runs training workshops and one-on-one sessions related to stress management and high performance situations. <http://www.selfregulationskills.ca/>

8.4 Personal information

Personal information is collected under the authority of the University of Guelph Act (1964), and in accordance with Ontario's Freedom of Information and Protection of Privacy Act (FIPPA) <http://www.e-laws.gov.on.ca/index.html>. This information is used by University officials in order to carry out their authorized academic and administrative responsibilities and also to establish a relationship for alumni and development purposes.

For more information regarding the Collection, Use and Disclosure of Personal Information policies please see the Undergraduate Calendar. (<https://www.uoguelph.ca/registrar/calendars/undergraduate/current/intro/index.shtml>)

8.5 Course Offering Information Disclaimer

Please note that course delivery format (face-to-face vs online) is subject to change up to the first-class day depending on requirements placed on the University and its employees by public health bodies, and local, provincial and federal governments. Any changes to course format prior to the first class will be posted on WebAdvisor/Student Planning as they become available.

9 University Statements

9.1 Email Communication

As per university regulations, all students are required to check their e-mail account regularly: e-mail is the official route of communication between the University and its students.

9.2 When You Cannot Meet a Course Requirement

When you find yourself unable to meet an in-course requirement because of illness or compassionate reasons please advise the course instructor (or designated person, such as a teaching assistant) in writing, with your name, id#, and e-mail contact. The grounds for Academic Consideration are detailed in the Undergraduate and Graduate Calendars.

Undergraduate Calendar - Academic Consideration and Appeals

<https://www.uoguelph.ca/registrar/calendars/undergraduate/current/c08/c08-ac.shtml>

Graduate Calendar - Grounds for Academic Consideration

<https://www.uoguelph.ca/registrar/calendars/graduate/current/genreg/index.shtml>

Associate Diploma Calendar - Academic Consideration, Appeals and Petitions

<https://www.uoguelph.ca/registrar/calendars/diploma/current/index.shtml>

9.3 Drop Date

Students will have until the last day of classes to drop courses without academic penalty. The deadline to drop two-semester courses will be the last day of classes in the second semester. This applies to all students (undergraduate, graduate and diploma) except for Doctor of Veterinary Medicine and Associate Diploma in Veterinary Technology (conventional and alternative delivery) students. The regulations and procedures for course registration are available in their respective Academic Calendars.

Undergraduate Calendar - Dropping Courses

<https://www.uoguelph.ca/registrar/calendars/undergraduate/current/c08/c08-drop.shtml>

Graduate Calendar - Registration Changes

<https://www.uoguelph.ca/registrar/calendars/graduate/current/genreg/genreg-reg-regchg.shtml>

Associate Diploma Calendar - Dropping Courses

<https://www.uoguelph.ca/registrar/calendars/diploma/current/c08/c08-drop.shtml>

9.4 Copies of Out-of-class Assignments

Keep paper and/or other reliable back-up copies of all out-of-class assignments: you may be asked to resubmit work at any time.

9.5 Accessibility

The University promotes the full participation of students who experience disabilities in their academic programs. To that end, the provision of academic accommodation is a shared responsibility between the University and the student.

When accommodations are needed, the student is required to first register with Student Accessibility Services (SAS). Documentation to substantiate the existence of a disability is required; however, interim accommodations may be possible while that process is underway.

Accommodations are available for both permanent and temporary disabilities. It should be noted that common illnesses such as a cold or the flu do not constitute a disability.

Use of the SAS Exam Centre requires students to make a booking at least 14 days in advance, and no later than November 1 (fall), March 1 (winter) or July 1 (summer). Similarly, new or changed accommodations for online quizzes, tests and exams must be approved at least a week ahead of time.

For Guelph students, information can be found on the SAS website
<https://www.uoguelph.ca/sas>

For Ridgetown students, information can be found on the Ridgetown SAS website
<https://www.ridgetownc.com/services/accessibilityservices.cfm>

9.6 Academic Integrity

The University of Guelph is committed to upholding the highest standards of academic integrity, and it is the responsibility of all members of the University community—faculty, staff, and students—to be aware of what constitutes academic misconduct and to do as much as possible to prevent academic offences from occurring. University of Guelph students have the responsibility of abiding by the University's policy on academic misconduct regardless of their location of study; faculty, staff, and students have the responsibility of supporting an environment that encourages academic integrity. Students need to remain aware that instructors have access to and the right to use electronic and other means of detection.

Please note: Whether or not a student intended to commit academic misconduct is not relevant for a finding of guilt. Hurried or careless submission of assignments does not excuse students from responsibility for verifying the academic integrity of their work before submitting it. Students who are in any doubt as to whether an action on their part could be construed as an academic offence should consult with a faculty member or faculty advisor.

Undergraduate Calendar - Academic Misconduct
<https://www.uoguelph.ca/registrar/calendars/undergraduate/current/c08/c08-amisconduct.shtml>

Graduate Calendar - Academic Misconduct

<https://www.uoguelph.ca/registrar/calendars/graduate/current/genreg/index.shtml>

9.7 Recording of Materials

Presentations that are made in relation to course work - including lectures - cannot be recorded or copied without the permission of the presenter, whether the instructor, a student, or guest lecturer. Material recorded with permission is restricted to use for that course unless further permission is granted.

9.8 Resources

The Academic Calendars are the source of information about the University of Guelph's procedures, policies, and regulations that apply to undergraduate, graduate, and diploma programs.

Academic Calendars

<https://www.uoguelph.ca/academics/calendars>

9.9 Disclaimer

Please note that the ongoing COVID-19 pandemic may necessitate a revision of the format of course offerings, changes in classroom protocols, and academic schedules. Any such changes will be announced via CourseLink and/or class email.

This includes on-campus scheduling during the semester, mid-terms and final examination schedules. All University-wide decisions will be posted on the COVID-19 website (<https://news.uoguelph.ca/2019-novel-coronavirus-information/>) and circulated by email.

9.10 Illness

Medical notes will not normally be required for singular instances of academic consideration, although students may be required to provide supporting documentation for multiple missed assessments or when involving a large part of a course (e.g.. final exam or major assignment).

9.11 Covid-19 Safety Protocols

For information on current safety protocols, follow these links:

- <https://news.uoguelph.ca/return-to-campus/how-u-of-g-is-preparing-for-your-safe-return/>
- <https://news.uoguelph.ca/return-to-campus/spaces/#ClassroomSpaces>

Please note, these guidelines may be updated as required in response to evolving University, Public Health or government directives.
