TABLE OF CONTENTS

Forward.....	4
Subfamily ACHALCINAE.....	5
<i>ACHALCUS</i> Loew.....	5
<i>AUSTRALACHALCUS</i> Pollet.....	5
Subfamily DIAPHORINAE.....	5
<i>ACHRADOCCERA</i> Becker.....	5
<i>ARGYRA</i> Macquart.....	5
<i>ASYNDETUS</i> Loew.....	5
<i>CHRYSOTUS</i> Meigen.....	5
<i>DIAPHORUS</i> Meigen.....	6
<i>KEIROSOMA</i> Van Duzee.....	7
Subfamily DOLICHOPODINAE.....	7
<i>DOLICHOPUS</i> Latreille.....	7
<i>ETHIROMYIA</i> Brooks.....	9
<i>GYMNOPTERNUS</i> Loew.....	9
<i>HERCOSTOMUS</i> Loew.....	10
<i>PARACLIUS</i> Loew.....	10
<i>PELASTONEURUS</i> Loew.....	10
<i>TACHYTRECHUS</i> Stannius.....	11
Subfamily ENLINIINAE.....	11
<i>ENLINIA</i> Aldrich.....	11
<i>HARMSTONIA</i> Robinson.....	11
Subfamily HYDROPHORINAE.....	11
<i>DIOSTRACUS</i> Loew.....	11
<i>HYDATOSTEGA</i> Philippi.....	11
<i>HYDROPHORUS</i> Fallén.....	12
<i>HYPOCHARASSUS</i> Mik.....	12
<i>LIANCALUS</i> Loew.....	12
<i>MELANDERIA</i> Aldrich.....	12
<i>MELANDERIA (MELANDERIA)</i> Aldrich.....	12
<i>MELANDERIA (WIRTHIA)</i> Arnaud.....	12
<i>PARAPHROSYLUS</i> Becker.....	12
<i>SCELLUS</i> Loew.....	12
<i>THAMBEMYIA</i> Oldroyd.....	13
<i>THINOPHILUS</i> Wahlberg.....	13
Subfamily MEDETERINAE.....	13
<i>MEDETERA</i> Fischer von Waldheim.....	13
<i>SYSTEMUS</i> Loew.....	14
<i>THRYPTICUS</i> Gerstäcker.....	14
Subfamily NEURIGONINAE.....	14
<i>DACTYLOMYIA</i> Aldrich.....	14
<i>NEURIGONA</i> Rondani.....	14
<i>VIRIDIGONA</i> Naglis.....	14
Subfamily PELOROPEODINAE.....	14
<i>CHRYSOTIMUS</i> Loew.....	14
<i>MICROMORPHUS</i> Mik.....	14
<i>NANOMYINA</i> Robinson.....	14
<i>NEPALOMYIA</i> Hollis.....	14
<i>PELOROPEODES</i> Wheeler.....	15
Subfamily PLAGIONEURINAE.....	15
<i>PLAGIONEURUS</i> Loew.....	15
Subfamily RHAPHIINAE.....	15
<i>NEMATOPROCTUS</i> Loew.....	15
<i>RHAPHIUM</i> Meigen.....	15
Subfamily SCIAPODINAE.....	16
<i>AMBLYPSELOPUS</i> Bigot.....	16
<i>CONDYLOSTYLUS</i> Bigot.....	16

<i>MESORHAGA</i> Schiner.....	16
<i>SCIAPUS</i> Zeller	17
Subfamily STOLIDOSOMATINAE.....	17
<i>SYMPYCNIDELPHUS</i> Robinson	17
Subfamily SYMPYCNINAE.....	17
<i>CALYXOCHAETUS</i> Bigot	17
<i>CAMPSICNEMUS</i> Haliday.....	17
<i>EREBOMYIA</i> Runyon & Hurley	17
<i>LAMPROCHROMUS</i> Mik.....	17
<i>NEOPARENTIA</i> Robinson	17
<i>PARASYNTORMON</i> Wheeler.....	17
<i>SYMPYCNUS</i> Loew.....	18
<i>SYNTORMON</i> Loew	18
<i>TELMATURGUS</i> Mik	18
<i>TEUCHOPHORUS</i> Loew	18
Subfamily XANTHOCHLORINAE.....	18
<i>XANTHOCHLORUS</i> Loew	18
Unplaced Species.....	18
Species Erroneously Recorded from America North of Mexico	18

FORWARD

This checklist is based on the recent catalog by Pollet, Brooks and Cumming (2004), and comprises a list of genera and species and their synonyms, arranged by subfamily, of the Dolichopodidae *s.str.* of America north of Mexico. The catalog by Pollet et al. (2004) also includes complete nomenclatural information, species distributions, type depositories and localities, notes on the distribution, biology, and ecology of genera, lists of pertinent keys and revisions, 480 references, an index to the over 1800 included names, data on the diversity and distribution of the Dolichopodidae *s.str.* of America north of Mexico and their relationships with the fauna of other realms, and statistics on the history of North American dolichopodid research.

The purpose of this checklist is to provide a current online list of the dolichopodid fauna of America north of Mexico that can be regularly updated as new taxa and changes in classification are published. All taxonomic changes and taxa described since the publication of Pollet et al. (2004) are indicated in **orange text**. The following articles, relevant to the dolichopodid fauna of America north of Mexico, have been published since the catalog of Pollet et al. (2004): Evenhuis and Pont (2004), Brooks (2005), Pollet (2005a, b), Brooks & Wheeler (2005).

This checklist records 57 genera, 1291 species and 3 subspecies of Dolichopodidae *s.str.* in America north of Mexico.

It should be noted that all nomenclatural changes (e.g., n. comb., n. stat.) proposed in this online checklist are not valid within the meaning of the International Code of Zoological Nomenclature, Fourth Edition (Article 8.2) until they are published in hardcopy.
