Your computer is indispensable, but lose it and you’ve got a major problem. All your work, notes and ideas - things unique to you, are lost. Plus, you’ll always know that your stuff is being handled by... someone. Replacement of a lost or stolen computer can be expensive. What’s worse, if you’re a student, it might be financially impossible.

The value of STOP Security Plates goes beyond deterrence. If your equipment is just misplaced, STOP Security Plates are marked with a unique registration number that dramatically increases the incidence of recovery by providing an easy way to do the right thing.

If someone finds your lost STOP plated equipment where it shouldn’t be, they simply contact STOP by phone on our 24-hour hotline or connect with us online. STOP will make the necessary arrangements to get your machine back to you quickly.

CAMPUS SAFETY TIPS

• Lock your dormitory door
• It only takes a minute for a thief to steal your possessions
• Store your laptop in a safe or other secure compartment
• Never leave your laptop in a parked car - not even in the trunk!
• Don’t leave your backpack unattended, not even for a minute
• Manage your laptop as you would your wallet or purse
• When in doubt, take it with you and keep it in sight at all times
• Back up your data!

With STOP security plates, you’ll have peace of mind knowing that the cost of education no longer includes computer theft and loss.
