

## **The course I want to take is full. How do I get signed in? Can I be put on a waitlist?**

When the course is full this means that all of the seats have been taken. Professors do not keep waitlists for their courses. During the add periods, we suggest that students continually check Web Advisor (everyday, at all different times of the day & night) for a cancelled seat. Students are constantly changing their schedules, therefore vigilance may pay off.
