I’m interested in taking a course that according to the offering code should be offered but the course is not listed on WebAdvisor.

Not all courses listed in our course descriptions are offered in the semester noted in the calendar. (You will see the semester offerings codes under each course description. F = fall semester offering, W = Winter semester offering, S = summer semester offering , or U = semester offering at the department discretion.) Students can find a list of current course changes here.
