

My selection window opens tomorrow but a course I need is full.

Published on Department of Psychology (<https://www.uoguelph.ca/psychology>)

My selection window opens tomorrow but a course I need is full.

The Department of Psychology utilizes rolling caps during course selection periods for Fall and Winter. This means that additional spots are added daily during the corresponding selection window, providing equal opportunity to students attempting to register, whether their course selection window opens on the first or the last day of their year. The additional spots are usually added between 8:00-9:00 am Monday-Friday, and so it is important to be monitoring Webadvisor carefully during that time period. Once your course selection window opens it does not close, meaning that you can continue to add courses until the end of the add period.
