Area-specific Advisory Committee Membership PHD AS

Additional regulations specific to the Applied Social Psychology PhD program:

Typically, the advisory committee must consist of a minimum of three graduate faculty members. At least one of the members of the committee beyond the advisor will be from the University of Guelph AS graduate faculty. This committee should be formed no later than 20th day of classes in the second semester.

After the committee is formed, it is recommended that the student, their Advisor, and the committee members meet to discuss the expectations for that particular committee (e.g., does committee plan to have regular meetings, when does the student expect to have a proposal meeting).
