A Brief History of Our Program

Our program began as a MA program in Applied Child Psychology not long after the official founding of the University of Guelph in 1965. The program evolved to include a Ph.D. and was approved by the Ontario Council on Graduate Studies (OCGS) in the early 1990's. In 1996, an on-site clinic was established for the combined purpose of training students and providing a service to children, adolescents and families within the wider community. The Centre for Psychological Services (CPS) became a valued cornerstone of the program. In the Fall of 2003, CCAP (then known as the Clinical Psychology: Applied Developmental Emphasis) began the self-study process and received accreditation by the Canadian Psychological Association (CPA) in November 2005. The current program retains its CPA accreditation standing, reflecting external recognition of the high quality of the program offered. In 2018, the program adopted the CCAP name to reflect the explicit focus on training in clinical psychology within child and adolescent (rather than adult) populations. We have always been proud of the training provided in the program, the students within it, and of their accomplishments on residency and after graduation. In 2021 the Maplewoods Centre for Family Therapy and Child Psychology opened its doors, providing a state of the art and fully renovated clinic for the Guelph-Wellington and broader community.
