Cognates: Foundations of Psychology Courses

Consistent with CPA accreditation requirements, all CCAP students must demonstrate sufficient coverage of four foundational areas of psychology (biological bases of behaviour, cognitive-affective bases of behaviour, individual differences, and social bases of behaviour) before completion of the PhD program. Upon entering the program, the DCT will determine if students have sufficient coverage of all areas; this is represented by two upper-level undergraduate courses or one graduate course in each area. Individual Differences is covered in the CCAP core program. The current University of Guelph graduate courses approved to meet these requirements include: PSYC*6810 for the Biological Bases of Behaviour; PSYC* 7040, OR PSYC*6930, OR PSYC*6910 for the Social Bases of Behaviour; and PSYC*6790 for the Cognitive-Affective Bases of Behaviour.
