

Course Outline Form for Fall 2018

PSYC*4460, Course Outline: Fall 2018

General Information

Course Title: Seminar in Clinical Psychology: Forensic Psychology in the Youth Criminal Justice System

Course Description:

This course is designed to provide students with an overview of clinical psychology in the context of the youth criminal justice system through the lens of a forensic psychologist. Topics will include the role of clinical psychology in the legal context, developmental factors that explain adolescent antisocial behaviour and offending, and common assessments and evidenced-based interventions undertaken with justice-involved youth. A review of relevant theory and research will be interwoven through each topic, as well as a review of challenging ethical issues facing forensic clinical psychologists. This course is intended primarily for honours students in psychology who plan to pursue further training in clinical psychology at the graduate level or who plan to work in a setting where knowledge of clinical psychology would be an asset. Weekly class meetings will include didactic (lecture) from the course facilitator, small group discussions, and larger group activities. Smaller group discussions and projects will provide students the opportunity to critically engage with content from the lectures and readings. Students will engage in a range of activities, including group presentations, and writing an amicus brief on a topic of their choice.

Credit Weight: 0.5 Credits

Academic Department (or campus): Psychology

Semester Offering: Fall 2018

Class Schedule and Location: Wednesdays 2:30 – 5:20 pm; MacNaughton Building 118

Instructor Information

Instructor Name: Kaitlyn McLachlan, Ph.D., C. Psych.

Instructor Email: kmclac02@uoguelph.ca

Office location and office hours: Wednesdays, 11:00 am – 12:00 pm, MacKinnon 3011

GTA Information

GTA Name: Katelyn Mullally

GTA Email: kmullall@uoguelph.ca

GTA office location and office hours: TBD

GTA Name: Katie Quinlan
GTA Email: Quinlank@uoguelph.ca
GTA office location and office hours: TBD

Course Content

Specific Learning Outcomes:

Following successful completion of this course students will be able to demonstrate the following learning outcomes:

1. **Critical and Creative Thinking:** Critical and creative thinking involves the application of logical principles and known evidence, after much inquiry and analysis, to solve problems with a high degree of innovation, divergent thinking, and risk taking. The specific aspects of this outcome intended for students in this course include:
 - 1.1 Depth and breadth of understanding: Demonstrate mastery of a body of knowledge of key concepts in clinical psychology with a focus on applied developmental and forensic issues, and integrate that knowledge across disciplinary boundaries.
 - 1.2 Inquiry and analysis: Undertake a systematic exploration of issues, cases, and research relevant to clinical and forensic psychology through the collection and analysis of evidence, resulting in informed conclusions or judgments.
 - 1.3 Problem solving: Engaging in a process whereby you work through a series of steps to come to a conclusion; set out to devise arguments using optimal methods, operationalize measures, and articulate reasons for choosing those methods/solutions.

2. **Literacy:** Literacy is the ability to extract information from a variety of resources, assess the quality and validity of the material, and use it to discover new knowledge. The ability to use methodological and quantitative literacy also exists in this definition. The specific aspects of this outcome intended for students in this course include:
 - 2.1 Information literacy: The ability to know when there is a need for information, where to locate it, and the ability to identify the value and differences of potential resources in a variety of formats
 - 2.2 Methodological literacy: The ability to understand, evaluate, and design appropriate methodologies for rigorous psychological science
 - 2.3 Quantitative literacy: Numeracy, and competence in working with numerical data

3. **Communication:** Communication includes the ability to communicate and synthesize psychological research and theory, generate and communicate arguments, communicate constructive feedback, and communicate analyses accurately and reliably. Four specific aspects of this outcome are intended for students in this course:
 - 3.2 Written communication: The ability to express one's ideas and summarize theory and research through a variety of writing styles (e.g., American Psychological Association style, written reflections, power point slides, amicus briefs, short answer responses on exams).
 - 3.3 Reading comprehension: The understanding of theoretical and empirical literature in Psychology.

3.4 Integrative communication: A mental process that integrates existing psychological knowledge to develop and communicate new knowledge across the curriculum.

4. **Professional and Ethical Behaviour:** Professional and ethical behaviour requires the ability to accomplish tasks at hand with proficient skills in teamwork and leadership, while remembering to use ethical reasoning and research results when making decisions. The ability for organizational and time management skills is essential in bringing together all aspects of managing self and others. Academic integrity is central to mastery.
- 4.1 Teamwork: working together in a respectful and collaborative manner to complete tasks
- 4.2 Ethical Reasoning: includes moral maturity; a moral sense of mind behind decision-making; balanced consideration of competing ethical issues in the forensic context from the perspective of clinical psychology.
- 4.3 Ethical Issues in Research: Includes the understanding and application of how human rights and cultural relativism applies to ethical decision-making in the context of research, with particular attention to the inherent vulnerability of justice-involved youth.

Lecture Content:

The course format will include both lecture-based and more active/experiential learning. Attendance and participation is required. During lecture, I will use formal slides, excerpts from the media, videos, case highlights, discussion, and small-group activities. I will make Powerpoint slides for my lectures available, and a draft of these will be posted by midnight the day before lecture on Courselink. However, these slides will not include all of the information that I cover in class (e.g., practical examples, cases, etc.). It is in your best interests to attend class and take thorough notes. While there will be overlap between the lectures and the readings, there will also be content that is unique to both.

Weekly Schedule – next page:

Week	Date	Topic	Reading	Assignments
1	Sep 12	Course Welcome and Introduction to Forensic Psychology	Course Outline Costanzo et al., (2014) Chp. 1 Gilfoyle & Dvoskin, (2017)	None. 😊 Welcome to class!
2	Sep 19	From Historical Patterns in the Youth Criminal Justice System to Contemporary Youth Offending	Heilbrun Chp, 1 Bala et al. 2009	Reflection Paper Group Selection Form
3	Sep 26	Theoretical Perspectives on Antisocial Development and Research Methods for Understanding Youth Offending	Heilbrun Chp. 8 Jolliffe et al. (2017)	Reflection Paper Group Work Contract Plans
4	Oct 3	Neurobiological, Developmental, and Environmental Bases for Youth Offending	Heilbrun Ch 4 & 5 Beckley et al. 2017 Supplementary Readings: Moretti et al. (2011) Corrado et al. (2014) McLachlan et al. (2014)	Reflection Paper
5	Oct 10	Forensic Assessment and Intervention: Rights Waiver and Fitness to Stand Trial	Heilbrun Chp 22 & 23	Reflection Paper
6	Oct 17	Forensic assessment and intervention: Violence and Reoffending	Heilbrun Chp 17 & 24	Reflection Paper Paper Outlines
7	Oct 24	No class: ***Midterm Exam*** (on Courselink)	No Readings 😊	Group Teaching Plans and Draft KT Product Outlines
8	Oct 31	No class: Group teaching and knowledge translation product workshop week	TBD	
	Nov 2	40 th Class day: Last day to Drop		
9	Nov 7	Presentations: Rights comprehension and Fitness to Stand Trial	Heilbrun Chp 22, 23	Presentations
10	Nov 14	Presentations: Violence risk assessment in youth and criminal responsibility	Heilbrun Chp 17, 24	Presentations

11	Nov 21	Presentations: CU traits, youth 'psychopathy,' and school violence	Heilbrun Chp 10, 11, 12	Presentations
12	Nov 28	Presentations: Forensic & Correctional Interventions Wrap-up, course summary, evaluations	Heilbrun Ch 26 Farrington et al. 2017	Presentations Final Paper

Course Assignments and Tests:

Assignment or Test	Due Date	Contribution to Final Mark (%)	Learning Outcomes Assessed
Reflections Papers (x5)	1. Sep 23, 11:59pm 2. Sep 30, 11:59pm 3. Oct 7, 11:59pm 4. Oct 14, 11:59pm 5. Oct 21, 11:59pm	15% (each worth 3%, option to drop lowest reflection making the remaining 4 each worth 3.75%)	1.1, 1.2, 2.1, 2.2, 3.2, 3.4
Class Participation	Weekly (midterm grade and feedback provided by Oct 21)	10%	1.1, 1.2, 3.3, 3.4, 4.2, 4.3
Midterm Exam (to be completed on Courselink)	Oct 24 (2:30-5:20pm)	15%	1.1, 3.2, 3.3, 3.4, 4.3
Group Teaching Activity & Knowledge Product	Assigned week (Nov 7, 14, 21, 28)	30% (see description for breakdown)	1.1, 1.2, 1.3, 2.1, 3.4, 4.1, 4.2, 4.3
Final Paper (Amicus Brief)	Dec 2, by 11:59pm (Upload to Courselink)	30% (see description for breakdown)	1.1, 1.2, 1.3, 2.1, 2.3, 3.2, 3.4, 4.2, 4.3

Additional Notes:

Details and marking schemes for each course component will be posted on Courselink, what follows is a simple overview.

Reflection Papers

We will be discussing the assigned readings each week in class, and during the first half of the class, this will be followed by an applied activity. This activity is designed to help you think critically about the assigned materials. Time will be provided in class to work through the assigned activity or case and you are encouraged to work collaboratively, identify learning outcomes, research information needed to augment your understanding of key issues raised in the activity/case, and ensure you incorporate assigned readings to support your response. Individuals and groups will be more successful in their group problem solving during class time

if everyone arrives to class having completed the assigned readings and attended/participated during the didactic teaching session.

After class, each student is individually responsible for writing a reflection or response to the case presented in class for weeks 2 through 6. While you are encouraged to use class time to discuss, research, and collaborate on ideas in response to the case/problem, your *individual written reflection/response* should be prepared independently. This is your opportunity to demonstrated depth and breadth of knowledge relevant to the case/activity, to practice your critical thinking skills in response to interesting problems, and, to practice your writing skills in response to a complex case/activity. You must link at least one assigned reading to your response each week. Your response should include an answer to questions posed in the activity/case, and, can also include a range of critical responses (e.g., raising key limitation about an empirical paper in respect to methodology; b) highlighting a clinical, legal, or policy application of the reading (e.g., linking the research with a law or legal case); c) reflecting on how forensic practice or legal issues depart from traditional practices in clinical psychology; d) highlighting reasons you think a given paper may be relevant for clinicians conducting assessments or treatment with young offenders.) These examples are not exhaustive, and you should demonstrate engagement, creative thinking, and critical appraisal skills in your written reflections.

You will be required to complete 5 (five) reflection papers during this course (each worth 3% for a total of 15%). You have the option to submit only 4 (four) reflection papers, or, to submit five and drop your lowest grade (resulting in four reflections each worth 3.75%, for a total of 15%). Reflections are due to Courselink via Dropbox by 11:59 PM on the Sunday that immediately follows class (see assignments table for a list of deadlines). Without proper documentation (in line with University Policy), extensions are not permitted for reflections. Late reflections will receive a grade of 0.

Reflections must be your own work (refer to section on Academic Integrity). Reflections should be two-pages (double spaced, between 400 and 500 words max). Please write a polished paper in APA style, including appropriately cited references (both in text and in a reference list). Avoid use of the first person in writing your response. Provide support in crafting any arguments (e.g., avoid 'I think' and/or "my opinion is..." statements). Avoid use of slang, contractions, and use proper grammar. Use 12-point font (Times New Roman/Arial), black text, 1-inch margins, and include page numbers. Include a proper APA title page with a reflection title, your name, your student number, and the course number. *The title page is not included as part of the page limit.* All references must be primary sources (e.g., lecture slides are not primary sources).

Class Participation

You are expected to attend all classes. As this is a fourth year course, active participation in class is expected (10% of your final grade). Although the quality of your ongoing contributions will be considered, the quality is particularly important. Participation in class discussion should reflect your completion of assigned readings and active engagement with lecture material. You will be expected to engage in group discussions using skills, including: initiation of a topic or idea, clarifying and paraphrasing either content from the readings/class or from a member of the class, offering counter-arguments, demonstrating willingness to consider other

perspectives, and generally engaging in a productive and critical discussion of course material. As I get to know each of you at the beginning of the course, make sure you introduce yourself! This will help me to effectively assess participation and engagement in group discussions.

Midterm Exam

A midterm exam will be held on Wednesday, October 24th, 2018. You will have *three-hours* to complete the midterm. The midterm will open on Courselink at 12:01am on October 24th and close at 11:59 pm. You may complete the midterm anytime during this 24-hour period. Once you begin, the exam will remain open for three-hours. The midterm will consist one case/scenario and you will be required to respond to three questions about the case/scenario in essay style format. The exam is 'open-book' in that you can use any relevant course materials to respond to the case/scenario and questions. However, for your best success, you will need to have a high degree of familiarity with topics covered by this time in the course, drawn from lecture, readings, and in class cases/scenarios. You are expected to work independently and should not complete the exam with the assistance or communication from peers.

Group Teaching Session and Knowledge Product

The clinical psychologist often plays a key role as a member of an interdisciplinary team. As such, working collaboratively in a group forms an important skill. Groups will be responsible for facilitating a 30-minute teaching session in class each week for classes on November 7 – 28. Groups are responsible for deciding how to distribute roles and tasks to ensure that all aspects of the group assignment are completed. All group members must play an active role leading the assigned teaching session. Knowledge translation and training also forms an important component of the clinical psychologist's role, including the dissemination of research findings to a range of audiences, and training clinical topics for professionals and members of the community. You will also be asked to create a knowledge translation product relevant to your assigned topic. Groups will be required to work collaboratively to complete the following tasks:

Group Teaching Session (15%): Each group is responsible for facilitating a 30-minute teaching session. All discussion topics and activities must be approved by the instructor prior (see draft submission below). You should prepare a thoughtful and engaging plan for presenting your assigned topic. Your teaching session *must* include a real world media/legal case or other example to bring the topic to life. You must prepare learning outcomes for your teaching activity, and a minimum of two structured discussion questions in advance in order to lead the class through a meaningful exploration of the relevant assigned reading. Your teaching session should include a visual approach to presenting the assigned topic (e.g., Powerpoint, Prezi, etc.). Your presentation should include a title slide with group member names and title. In addition to the assigned reading, your teaching session must include a review of *three additional primary peer reviewed research articles*, wherein you present and link key findings with your topic. Your presentation *may* include a real clinical instrument presentation if you believe it to be relevant (discuss ideas with Dr. McLachlan well in advance of your assigned presentation date for best success). Please ensure you test any relevant computers/dongles/technologies require for your presentation in advance of your assigned presentation day.

Knowledge Translation Product (10%): You will create a knowledge translation product related to your assigned topic and teaching activity. The purpose of this product is to bring to life key aspects of a complex idea for an identified knowledge user. Your group should determine the intended audience for the knowledge product, choose a clear focus with respect to information to be presented. This is intended to be a creative and flexible assignment. Your group should meet early on to brainstorm various ideas. Your instructor and TAs are available to provide support in your planning. Some suggestions might include an infographic, poster, or video. Decide who will be the target knowledge user: (e.g., Clinical psychologists? Students? Police officers? Lawyers?) and tailor your product and approach to presenting your ideas to your chosen audience. Your knowledge product must include citations and be based on the state of the evidence in relation to your topic. You must include, at a minimum, three primary sources supporting the information you choose to present (e.g., psychology research studies).

A. Materials to be Submitted on Courselink

1. Select group members (between 4 and 5 people) with the support of the course instructor and TA. Submit the *Group Member Identification Form* (see Courselink) using Dropbox (must be completed, no grade assigned). **Forms are due on or before Sunday, September 23, 2018 by 11:59pm.**
2. Prepare and sign *Group Work Contract Plan Form* (see Courselink) using Dropbox (must be completed). This is worth 5% of your final assignment grade. **Group Work Contract Plan Forms are due on or before Sunday, September 30th at 11:59 PM.**
3. Submit a *Draft Teaching Plan* using Dropbox (must be completed). **Draft Teaching Plans are due on or before Sunday, October 28th, at 11:59 pm.** Dr. McLachlan will review your plan and provide feedback by October 31st, 2018. All teaching methods must be approved by Dr. McLachlan prior to your assigned presentation date. Changes to your plan are allowed, but must be approved by Dr. McLachlan.
4. Submit a *Draft Knowledge Translation Product* by **October 28th, at 11:59 pm.** Dr. McLachlan will review your plan and provide feedback by October 31st, 2018.
5. *Group Effort Forms*. Each group member needs to submit an individual *Group Effort Form* designed to provide feedback about the individual contributions of each group member across assigned activities. Note: One *Group Effort Form* should be completed by each group member. The *Group Effort Form* must be submitted via Courselink using Dropbox by 11:59pm **on the Sunday that follows your presentation.** No grade will be assigned for the Group Effort Form, however, your grades for the overall teaching/knowledge translation product assignment will not be released until all Group Effort Forms are uploaded.

All final Teaching Plans and Knowledge Translation Product materials (e.g., slides, handouts, etc.) must be uploaded to Courselink using Dropbox no later than the week before your assigned class (e.g., Sunday by 11:59pm) for the instructor to review.

Final paper: Amicus Brief

This assignment requires you to write a final paper in the style of an amicus brief. An amicus curiae (or 'friend of the course') brief is prepared by an entity who wishes to provide legal, scientific, or technical information to a court to aid in its decision. Psychologists have played a

critical role in the synthesis and communication of psychological science research findings for courts on a range of important matters.

You can choose to focus on any topic relevant to the course provided that the issue being tried is youth focused. Example topics include: factors relevant to the validity and voluntariness of confessions, strengths and limitations in the evidence base for youth violence risk assessment instruments. The main constraints in topic choice are: 1) you must be able to identify and describe a case that would benefit from the synthesis and consideration of psychological research findings; 2) you must focus on a Canadian case; and 3) you must focus on a recent case (e.g., within the last three years). Your paper should be between 10 and 12 pages in length. You must write a polished paper that adheres to APA style (double-spaced, Times New Roman font size 12, one-inch margins, page numbers, running head, title page).

The Amicus Brief assignment must be submitted by Courselink using Dropbox by Sunday, December 2nd, by 11:59pm. A note of advice: Do *not* leave your case and topic selection to the last minute for this project. Choosing a case and formulating a clear focus and topic can be a tricky task and I suggest that you leave sufficient time and make use of help from your TAs and course instructor as needed.

Content and Structure: Your brief should include the following sections:

1. Introduction: Your amicus brief should have an introductory paragraph that presents the topic that you will discuss and the case you will review. This section should be no more than one page in length.
2. Psychological Literature Review: In this section, your task is to locate and discuss recent psychological research and theory relevant to your topic. The brief must include summary and citation of *at least 5 empirical peer-reviewed psychology research articles* on the topic (e.g., the articles should present primary findings or data, please do not include systematic reviews or meta-analyses toward the five article count – these can be included in addition to your synthesis of five primary articles). These must be articles that have not been discussed in class. Course readings may be used as additional references. This literature review may uncover some of the older, classical, or historical empirical work on the topic or its origins within the field of psychology, but focus on the current state of knowledge. Your task is to organize the paper in such a way as to best communicate to another person what we now know about the topic. To do so, you will need to spend time describing the methods researchers have used and the central findings they have obtained. For the right perspective on this, imagine that you are going to ask another person to read the paper who has minimal knowledge in psychology or the law. This section should be approximately 5 pages in length.
3. Court Case Example. Your amicus brief should provide a brief description of one Canadian court case (i.e., relevant case facts, legal issues, court decision, and court's rationale for decision) and identify what aspect of the Court's decision is relevant to psychology. The focus of this section should be on the rationale for the court's decision as this will be what is most relevant to psychological research. Canadian court cases can be found online using the [Canadian Legal Information Institute \(CanLii\)](https://www.canlii.org/en/) which is a resource available online: <https://www.canlii.org/en/>. This section should be approximately 2 pages in length.

4. Application of Psychology to the Law. In this section, you will apply contemporary psychological knowledge to the relevant area of law. In this section you must describe how the reviewed case(s) would benefit from information regarding the state of the science: Does the court decision correspond with what psychologists know about human nature? Are there limitations to the psychological research that affect its applicability? Does the psychological research suggest specific changes to the law? This section should be approximately 3-pages in length.
5. Conclusion. Finally, you should have a concluding paragraph that summarizes the points that you have made in your amicus brief and discuss the potential avenues for future research. This section should be no more than one page in length.

Amicus Brief Outline: In preparation for writing your amicus brief, you will draft a bullet-point outline detailing the content and structure of your amicus brief based on the expectations listed above. Your outline must include the reference for the case you will be using. Your outline must be submitted through Courselink using Dropbox by Sunday October 14th, 2018 at 11:59 pm. The Outline is worth 5% of your final Amicus Brief grade. Your TAs will review your brief outline and provide you detailed feedback. It is strongly recommended that you produce a detailed and thoughtful outline in order to support your best success on the brief outline assignment. This is a new style of writing for most students in psychology and your TAs and instructor will serve as important resources in preparing for this assignment.

Final examination date and time: This course does not include a final exam.

Course Resources

Required Texts:

There is no text required for this course. Please note that a number of Chapters assigned throughout this course will be drawn from the following text.

Heilbrun, K. (2016) *APA Handbook of Psychology and Juvenile Justice*. Washington, DC: American Psychological Association.

Chapters from this book are available through the University of Guelph Library, included in your student access. All readings can be accessed online through the Library, and have been placed on Reserve digitally for the duration of the course. You can also check Courselink for some additional readings and materials that will be posted week by week for the course.

Other Resources:

Courselink: Please get to know our course website on Courselink. It is your responsibility to keep up to date on materials and announcements posted on this website. Grades will be shared through Courselink and you will be asked to submit assignments using Dropbox.

Course Policies

General

All students are required to check their @mail.uoguelph.ca e-mail account regularly. There are a number of deadlines and substantial organization required in completing this course. It is your responsibility to organize yourself and meet these deadlines – I will not spend time in class reminding you of various deadlines.

Grading Policies

Course assignments are strictly due on the dates outlined above. Late submissions will be deducted 10% per day (e.g., after the assigned due date and time). Please note that these policies are binding unless academic consideration is given to an individual student. The timeframe and due dates for all assignments are outlined in this course outline. The time and date for the midterm is also indicated in this course outline. Please note that issues related to technological malfunctions (e.g., “I forgot to hit submit,” hard-drive crashes, etc.) and leisure travel are not valid reasons for extensions. The only exceptions to these rules are for unforeseen, serious circumstances of personal illness or other issues.

Course Policy on Group Work:

This course has both individual and group work. There are a variety of checks and balances in place to maximize equitable distribution of effort in the group work. Each group member is expected to contribute equally across components of the group assignment. If there is an issue or concern with regard to group work, it is your responsibility to first try and come to a resolution. If problems/concerns persist, it is your responsibility to contact either myself or the TA and let us know as soon as possible if your efforts have not been successful. Groups will be required to submit a group work contract plan (see above) detailing how group members will take on individual tasks.

In addition to the group work contract plan, all members of the group will complete a work effort form indicating the amount of effort each group member devoted toward the completion of the group assignment and adherence to the group work plan contract. This includes factors such as involvement in planning, preparation for meetings, contributions to group discussions, completion of assigned work. Although ideally, each group member will contribute equally, this is not always the case. The group effort form and ratings will be taken into account when assigning each student’s grade for the components of the group assignment. For example, if a pattern emerges in which one group member receives lower effort scores than the other members, this will likely result in a lower grade for that person. Any group members who do not attend the day of the teaching session will receive a “0” for that portion of the assignment without a documented medical or compassionate reason; there will be no make-up presentations. Group effort forms will be posted on Courselink and submitted via Dropbox.

Course Policy regarding use of electronic devices and recording of lectures:

Electronic recording of classes is expressly forbidden without consent of the instructor. When recordings are permitted they are solely for the use of the authorized student and may not be reproduced, or transmitted to others, without the express written consent of the instructor.

Course Policy regarding materials provided by instructor and her designates:

The material shared by the course instructor or by her designate (e.g., TA) as part of this course, including copies of the lecture slides, are solely for the personal use of the authorized student and may NOT be reproduced, or transmitted to others, whether it is in their original format or a modified version, without the express written consent of the course instructor.

Policy on Emails:

Only questions that can be answered simply, for example by yes or no or with a short sentence, will be answered by email. For longer answers you will most likely receive an email asking you to come and see me (or your TA) during office hours or by appointment. Emails will usually be answered within 24 to 48 hours during weekdays. It is possible that some emails that are not from a university address (e.g., @hotmail.com) may be treated as spam. So do not hesitate to come and see one of us if your email was not answered. The university expects you to check your U of Guelph email account regularly and us to use it to communicate with you.

Policy Regarding Exam Copies:

The midtem exam is copyrighted and may not be reproduced, or transmitted to others. The exam will remain visible to students only for the three-hour exam window. No efforts to copy or retain copies of the exam, whether digital or print, are permitted. They remain the property of the course instructor at all times.

University Policies

Academic Consideration

When you find yourself unable to meet an in-course requirement because of illness or compassionate reasons, please advise the course instructor in writing, with your name, id#, and e-mail contact. See the academic calendar for information on regulations and procedures for

Academic Consideration:

[Academic Consideration, Appeals and Petitions](#)

Academic Misconduct

The University of Guelph is committed to upholding the highest standards of academic integrity and it is the responsibility of all members of the University community, faculty, staff, and

students to be aware of what constitutes academic misconduct and to do as much as possible to prevent academic offences from occurring.

University of Guelph students have the responsibility of abiding by the University's policy on academic misconduct regardless of their location of study; faculty, staff and students have the responsibility of supporting an environment that discourages misconduct. Students need to remain aware that instructors have access to and the right to use electronic and other means of detection. Please note: Whether or not a student intended to commit academic misconduct is not relevant for a finding of guilt. Hurried or careless submission of assignments does not excuse students from responsibility for verifying the academic integrity of their work before submitting it. Students who are in any doubt as to whether an action on their part could be construed as an academic offence should consult with a faculty member or faculty advisor.

The Academic Misconduct Policy is detailed in the Undergraduate Calendar:

[Academic Misconduct Policy](#)

Accessibility

The University of Guelph is committed to creating a barrier-free environment. Providing services for students is a shared responsibility among students, faculty and administrators. This relationship is based on respect of individual rights, the dignity of the individual and the University community's shared commitment to an open and supportive learning environment. Students requiring service or accommodation, whether due to an identified, ongoing disability or a short-term disability should contact [Student Accessibility Services](#) as soon as possible.

For more information, contact SAS at 519-824-4120 ext. 54335 or email accessibility@uoguelph.ca or the [Student Accessibility Services Website](#)

Course Evaluation Information

Please refer to the [Course and Instructor Evaluation Website](#) .

Drop date

The last date to drop one-semester courses, without academic penalty, is November 2nd, 2018. For regulations and procedures for Dropping Courses, see the [Schedule of Dates in the Academic Calendar](#).
[Current Undergraduate Calendar](#).

Additional Course Information

Policy Regarding Turnitin:

Course instructors are allowed to use software to help in detecting plagiarism or unauthorized copying of student assignments. Plagiarism is one of the most common types of academic misconduct on our campus. Plagiarism involves students using the work, ideas and/or the exact

wording of other people or sources without giving proper credit to others for the work, ideas and/or words in their papers. Students can unintentionally commit misconduct because they do not know how to reference outside sources properly or because they don't check their work carefully enough before handing it in. Whether or not a student intended to commit academic misconduct is not relevant for a finding of guilt. Hurried or careless submission of assignments does not excuse students from responsibility for verifying the academic integrity of their work before submitting it. Students who are in any doubt as to whether an action on their part could be construed as an academic offence should consult with a faculty member or faculty advisor.

In this course, your instructor will be using Turnitin.com to detect possible plagiarism, unauthorized collaboration or copying as part of the ongoing efforts to prevent plagiarism in the College of Social and Applied Human Sciences.

A major benefit of using Turnitin is that students will be able to educate and empower themselves in preventing misconduct. In this course, you may screen your own assignments through Turnitin as many times as you wish before the due date. You will be able to see and print reports that show you exactly where you have properly and improperly referenced the outside sources and materials in your assignment.
