Course Content

Specific Learning Outcomes:

In completing this course, students should be able to:

1. Demonstrate knowledge of key professional practice standards and legislation that apply to clinical psychology in Ontario. This will include both provincial and federal legislation, regulations, and standards as well as key case law.
2. Show understanding of common professional issues which occur during the practice of psychology.
3. Apply knowledge of relevant legislation and practice standards to practice cases and situations.
4. Evaluate existing clinical documents and policies with respect to current legislation and practice standards.

5. Synthesize knowledge of legislation, practice standards, and working with clients in suggesting ways to improve actual clinical documents and policies.

Note: I am not a lawyer. Nothing that we discuss in this class replaces proper consultation with colleagues, and potentially legal counsel, if you find yourself facing a difficult professional issue.

Lecture Content:

The class format is a combination of short lectures and active learning (e.g., through vignettes, discussions, group work). The background required to understand the lectures and to participate in the discussions is achieved through assigned readings as well as knowledge gained in earlier classes. Attendance and active participation is expected; there will be a variety of group-based activities in class. Lecture notes (if applicable) will be posted on Courselink by 11 pm the day before the scheduled class. Please check Courselink regularly for course materials and updates.

My role and responsibilities are as follows: To engage your interest and develop your understanding of legislation, standards, and professional practice issues. To support you in your exploration of what can be complex and, at times, “grey” rather than “black and white” issues. To facilitate your learning by assigning relevant readings, delivering brief lecture-based material (if appropriate), and focusing on real-world decision making through practical application (e.g., creating social media policies) and case examples/vignettes. Encourage and foster an open class environment that facilitates lively discussion. Be available to answer your questions in class, by email, and by appointment. Provide fair evaluation. Adhere to this syllabus. In exceptional circumstances, changes may need to be made to the syllabus. In such cases, I will announce the changes in class as soon as possible as well as on Courselink.

Academic Misconduct

The University of Guelph is committed to upholding the highest standards of academic integrity and it is the responsibility of all members of the University community, faculty, staff, and students to be aware of what constitutes academic misconduct and to do as much as possible to prevent academic offences from occurring.

University of Guelph students have the responsibility of abiding by the University's policy on academic misconduct regardless of their location of study; faculty, staff and students have the responsibility of supporting an environment that discourages misconduct. Students need to remain aware that instructors have access to and the right to use electronic and other means of detection. Please note: Whether or not a student intended to commit academic misconduct is not relevant for a finding of guilt. Hurried or careless submission of assignments does not excuse students from responsibility for verifying the academic integrity of their work before submitting it. Students who are in any doubt as to whether an action on their part could be construed as an academic offence should consult with a faculty member or faculty advisor. The Academic Misconduct Policy is detailed in the [Graduate Calendar](#)

Additional Course Information

Class Participation:

You are expected to attend and to contribute to the discussion in all classes. Your class participation includes both general discussions as well as thoughtful contributions to the vignette work and other assignments that we will complete in class. Participation is worth 30% of your grade; feedback will be provided after the first 3 classes (worth 15% of your grade).

Vignette Assignment for Discussion:

You are expected to create a vignette/situation that is relevant to the assigned readings once during the semester. The vignettes will be used to stimulate small group work and discussion in class; therefore, they should not be immediately “obvious” or incredibly easy to “solve”. On the other hand, it should not be so complicated that it is highly unlikely to occur in real life or if it did, your first step would be to call a lawyer! You can use inspiration from your own professional practice but it must be appropriately anonymized so that people are not identifiable. While aspects of the vignette can be based on other sources, it should not be copied (i.e., you must write it yourself). NOTE: You are in no way required to disclose any personal ethical/professional issues that you have faced previously or currently face.

These vignette assignments are due the Monday before midnight (i.e., Monday at 11:59 pm) prior to Classes 2 through 5. For example, the assignment for Class 2 is due by Monday September 19 at 11:59 pm. They will be submitted via Dropbox on Courselink. You must hand in one vignette assignment but if you choose to hand in more (two maximum please), the higher mark will be chosen.

The submission will be composed of three parts: 1) the actual vignette/situation which should be no longer than 0.75 page long (<400 words); 2) 1-2 questions to be posed to the class to elicit discussion of the vignette; and 3) an overview of what issues you believe are involved (e.g., Child and Family Services Act, Health Care Consent Act). Don’t stress too much about perfect style and grammar – remember, the purpose is to create a vignette which illustrates the material of the readings and will evoke discussion.

Marking Guide (the chosen vignette submission is worth 15% of your grade; /20 points total):

- Vignette is well-designed: thought-provoking and requires an in-depth understanding of issues involved /8 points
- Question(s) well-designed to elicit thought/discussion from class /5 points
- Relevant issues related to the vignette are clearly identified /7 points

Real World Application Assignment: Social Media

We want to know what you think! Before October 20th, you will be provided with existing materials/policies in place at the Centre for Psychological Services (with permission of the Director, Melanie Parkin, Ph.D., C. Psych). First, you will read through these materials closely before class on November 3. In class, we will discuss social media from a variety of perspectives (e.g., with respect to current legislation, standards of practice, building rapport with new clients, protecting the clinic). You will also be expected to work in a group/small groups on a written project which will determine your grade for this assignment (due December 1, 2016). The format and grading scheme (if desired) of the assignment will be posted on Courselink following the November 3rd class as it will depend on how many students are ultimately registered in the class. However, it will include written communication of concerns/issues with

the current framework/policy (or lack thereof) and creation of a new policy/framework regarding social media that you believe meets the needs of clients, clinicians, the clinic, while also following legislation and standards of practice (and not write a book!). Delivery of feedback such as this is common in professional settings. Your communication should be constructive and professional in nature. This is a unique opportunity in which you have the potential to directly impact clinical practice!

Final Exam:

A final exam will take place during our last class on November 17, 2016. The questions will be derived from the assigned readings and will include multiple choice, true false, very short answer, and fill in the blank type questions. There will be no essay questions.
