Undergraduate Studies in Psychology

In Psychology, you will study human behaviour and cognition, and explore the ways people act as individuals and in groups. You'll gain insights and analytical skills that will serve you well in any career, or prepare you for [graduate studies](#).

We provide excellent opportunities in the core areas of research methodology, development, social psychology, learning, perception, cognition, neuropsychology, physiological psychology, personality and psychopathology. Many undergrads combine psychology with studies in another area such as family and child studies, economics, English, history, computer science, studio art, or business.

There are 2 degree programs a BA and a BSc.

To learn more about the new Undergraduate Course Credit Structure see the [FAQ](#).

The Psychology undergraduate program is the largest undergraduate program at the University of Guelph. A [transcript](#) of this video is available.

Applicant Actions:

- Contact potential supervisors.
 - Link to [Psychology Labs and Projects](#)
 - Link to [Research Areas by Faculty](#)
- Complete the [Request to Enrol](#). (If you have already confirmed a supervisor, completion of this form is not required)
- Submit to Sharon Helder at shelder@uoguelph.ca or MacKinnon 4015.
- Advisor and Student: complete a contract together. When complete and signed, submit to shelder@uoguelph.ca and the student will then receive a waiver to add the course.
 - [PSYC*3240 Template](#) (revised April 24/17)
 - [PSYC*3910 Template](#)
 - [PSYC*4240 Template](#) (revised April 24/17)

Tips for contacting a potential supervisor:

- Before you contact a potential supervisor, familiarize yourself with their work: read their papers, know what type of work they do.
- Be flexible in balancing your own ideas to fit within the research.
- Be prepared to provide intellectual contribution to the project even if the work is already underway.
- Be considerate: drop in during office hours if possible or set up an appointment.
