

# NEUR\*6100, Course Outline: Fall 2021 and Winter 2022

**Course Title:** NEUR\*6100 Seminar in Neuroscience

**Course Description:**

This course will provide a monthly point of contact for all students in the Collaborative Neuroscience Program. Through exposure to a broad scope of research in the field of Neuroscience, students will develop the skills to critically evaluate others' research, as well as their own. They will develop more effective communication skills. Faculty and graduate students in the Collaborative Neuroscience Program will meet and discuss research interests and progress. The seminar will also feature invited speakers from other Universities/Institutions and from within UG. The list of speakers is presented below.

**Credit Weight:** 0.0

**Academic Department (or campus):** Psychology/Collaborative Neuroscience Specialization

**Campus:** Main campus

**Semester Offering:** Fall 2021 and Winter 2022. NEUR\*6100 is a required course for all graduate students registered in the Collaborative Neuroscience Specialization. This is a two-semester course. Students will have to register twice, once in the Fall and once in the Winter. They will receive INP at the end of the Fall term and a SAT grade at the end of the Winter term.

**Class Schedule and Location:**

Fall: Wednesdays from 3:30-5 pm, [MCKN](#), Room 031 or Zoom (see schedule of events).

Winter: Wednesdays from 3:30-5 pm, Zoom.

**Instructor Information**

**Instructor Name:** Jennifer Murray

**Instructor Email:** [jmurr@uoguelph.ca](mailto:jmurr@uoguelph.ca)

**Office location and office hours:** MCKN 4001; meeting by arrangement.

**Course Content**

**Specific Learning Outcomes:**

- Increased familiarity with ongoing neuroscience research both within the UG community and the broader field.
- Proficiency with discussing research from a broad cross section of neuroscience areas.

- Proficiency with taking information away from others' research talks, including how to ask useful post-talk questions.
- Reflections on the scientific growth of the student by being exposed to multiple fields and speaker experiences.

### **Seminars:**

Attendance is mandatory for all students and all scheduled meetings (this course fulfills a breadth requirement of the Collaborative Neuroscience Specialization). Class time is used to host invited speakers, including those from other universities, and to hold discussions around these talks. There may also be occasional course meetings. Meeting dates and speaker information are listed on CourseLink and may change throughout the year.

All Collaborative Neuroscience Specialization students should also plan to attend the day long Neuroscience day, which is held every spring; it is a day of poster sessions and talks. All NEUR\*6100 students are strongly encouraged to submit either a poster or talk for Neuroscience day. This gives you a chance to present your work to local neuroscientists.

### **Seminar Schedule (3:30-5:00) one Wednesday per month in term time):**

Oct 6, 2021	Dr. Mazyar Fallah, Professor in the Department of Human Health & Nutritional Sciences, Dean of the College of Biological Sciences, University of Guelph (on campus)
Nov 3, 2021	Dr. Dana Smith, Freelance Health & Science Writer (on zoom)
Jan 12, 2022	Dr. Galen Wright, Assistant Professor, Department of Pharmacology & Therapeutics, Department of Biochemistry & Medical Genetics, Neuroscience Research Program, Kleysen Institute for Advanced Medicine, Health Sciences Centre and University of Manitoba (on zoom)
Feb 2, 2022	Dr. Lewis Wheaton, Associate Professor, School of Biological Sciences, Georgia Institute of Technology (on zoom)
Mar 2, 2022	Dr. Dionna Williams, Assistant Professor, Department of Molecular and Comparative Pathobiology Department of Medicine, Division of Clinical Pharmacology, Johns Hopkins University School of Medicine (on zoom)
April 6, 2022	Dr. Catharine Winstanley, Professor, Department of Psychology, University of British Columbia (on zoom)

### **Course Assignments and Tests:**

Students are expected to attend each of the monthly presentations. By the Friday following each seminar presentation all students are required to provide a Reflection on the seminar (0.5-

1 page) highlighting what new knowledge and insights have been gained. These should be delivered to the Dropbox created specifically for each talk on the CourseLink site. Students must complete Reflections for a minimum of 80% of the seminars for the year. Students receive a SAT or UNSAT grade based on the successful completion of these Reflections.

## **Course Resources**

### **CourseLink:**

Feedback and news will be posted to [CourseLink](#).

## **Course Policies**

### **Grading Policies**

Students must complete Reflections for a minimum of 80% of the seminars to receive the SAT for the year.

## **University Policies**

### **Disclaimer**

Please note that the ongoing COVID-19 pandemic may necessitate a revision of the format of course offerings and academic schedules. Any such changes will be announced via CourseLink and/or class email. All University-wide decisions will be posted on the [COVID-19 website](#) and circulated by email.

### **Illness**

I will not require verification of illness (doctor's notes) for the Fall 2021 or Winter 2022 semesters.

### **Academic Consideration**

When you find yourself unable to meet an in-course requirement because of illness or compassionate reasons, please advise the course instructor in writing, with your name, id#, and e-mail contact. See the academic calendar for information on regulations and procedures for

Academic Consideration:

### **Academic Misconduct**

The University of Guelph is committed to upholding the highest standards of academic integrity and it is the responsibility of all members of the University community, faculty, staff, and

students to be aware of what constitutes academic misconduct and to do as much as possible to prevent academic offences from occurring.

University of Guelph students have the responsibility of abiding by the University's policy on academic misconduct regardless of their location of study; faculty, staff and students have the responsibility of supporting an environment that discourages misconduct. Students need to remain aware that instructors have access to and the right to use electronic and other means of detection. Please note: Whether or not a student intended to commit academic misconduct is not relevant for a finding of guilt. Hurried or careless submission of assignments does not excuse students from responsibility for verifying the academic integrity of their work before submitting it. Students who are in any doubt as to whether an action on their part could be construed as an academic offence should consult with a faculty member or faculty advisor.

The Academic Misconduct Policy is detailed in the Graduate Calendar:

[Academic Misconduct Policy](#)

### **Accessibility**

The University of Guelph is committed to creating a barrier-free environment. Providing services for students is a shared responsibility among students, faculty and administrators. This relationship is based on respect of individual rights, the dignity of the individual and the University community's shared commitment to an open and supportive learning environment. Students requiring service or accommodation, whether due to an identified, ongoing disability or a short-term disability should contact Student Accessibility Services as soon as possible.

For more information, contact SAS at 519-824-4120 ext. 56208 or email [accessibility@uoguelph.ca](mailto:accessibility@uoguelph.ca) or see the website: [Student Accessibility Services Website](#)

### **Course Evaluation Information**

Please refer to the [Course and Instructor Evaluation Website](#)

### **Drop date**

The last date to drop two-semester courses, without academic penalty, is **April 8th, 2022**. For regulations and procedures for Dropping Courses, see the Academic Calendar:
