

PhD ADVISORY COMMITTEE

QUALIFYING EXAMINATION RESEARCH EVALUATION

As a **qualifying examination**, consideration is to be given not only (1) to the student's knowledge of the subject matter and ability to integrate the material derived from his or her studies, but also (2) to the student's ability and promise in research. The examining committee, therefore, will receive from the advisory committee a written evaluation of the quality of the student's research performance to date and of the student's potential as a researcher. The examining committee will determine the relative importance to be given to these two major components of the qualifying examination.

INSTRUCTIONS:

- Robin will give this form to the Q Comm via email as well as placing a hard copy in the Q file of the student.
- The Advisor is to complete and return to the Chair prior to the student's oral.

NOTE: this box will expand to accept your comments...or provide on a separate pg. and attach
