

## Psychology: MA, PhD

### Clinical Psychology: Applied Developmental Emphasis

Our main objective is the training of graduate students for work as clinical psychologists. The programme follows a scientist-practitioner model in which an integrated series of courses and practica at the Master's and Doctoral levels collectively contributes to the acquisition of competence as both clinicians and researchers. Students see clients in our on-campus training clinic, and complete off-campus practica in hospitals, mental health settings, and schools, under the supervision of registered psychologists.

#### Program

Students entering the programme do so with the understanding that they will complete a doctoral degree and the academic requirements for registration as psychologists. Our programme follows the standards for clinical psychology programmes and is accredited by the Canadian Psychological Association (141 Laurier Ave. W., Suite 302, Ottawa, ON K1P 5J3).

#### Research Fields

Faculty in CP:ADE pursue a wide variety of research topics, including: typical child development and psychopathology, family context, positive psychology and resilience, attachment, self-regulation, child and youth mental health and well-being, adolescent relationships and dating, pediatric pain and health psychology, antisocial behaviour, non-suicidal self-injury, youth risk taking, parent safety practices and injury prevention, intervention, and neurodevelopmental disabilities including learning disabilities and FASD.

**Application Deadline:**  
December 15, 2017

**Entry:** Fall

#### Admission Requirements

- Honours degree in Psychology with a thesis component, or equivalent research experience
- General and Psychology GRE
- Adequate training in statistics and coursework directly relevant to developmental psychology
- Additional experience doing research and working with children and youth is encouraged
- Applicants must clear a police security check and child abuse registry

#### Enrollment Statistics

For entrance in Fall, 2017, 61 applications were received from which 6 students were accepted. Currently, we have 45 students with 42 female and 3 male students (includes visible minorities). For students admitted since 2006, attrition from the program has been 4%.
