Village by the Arboretum

Overview

The Village by the Arboretum is an adult lifestyle community situated on 110 acres of land leased from the University of Guelph. Over 850 residents currently live in the Village by the Arboretum, and construction is actively underway on the fifth and final phase of the development. When completed, Phase Five will include four condominium units comprised of a total of 143 luxury apartments; 100 independent living units; 100 assisted living units and an on-site medical facility. The Medical Centre, an impressive two storey 13,000 square foot facility, was completed in February 2004, and is currently occupied by 10 family physicians, a pharmacy, medical laboratory, and physio and massage therapy facilities. The doctors who practice from the Village by the Arboretum Medical Centre serve both the citizens of Guelph, as well as residents of the Village by the Arboretum active living community. For further details on this exciting project, floorplans and artists’ renditions of the facilities currently under construction, please visit Reid’s Heritage Homes’ Village by the Arboretum website at www.villagebythearboretum.com.

Information

For information about purchasing a home in this adult lifestyle community, please contact the sales office at 519-767-5001 or toll-free 1-800-298-2331.
