The information published in this Graduate Calendar outlines the rules, regulations, curricula, programs and fees for the 2018-2019 academic year, including the Summer Semester 2018, Fall Semester 2018 and the Winter Semester 2019.

For your convenience the Graduate Calendar is available in PDF format.

If you wish to link to the Graduate Calendar please refer to the Linking Guidelines.

Disclaimer
The Office of Graduate Studies has attempted to ensure the accuracy of this on-line Graduate Calendar. However, the publication of information in this document does not bind the university to the provision of courses, programs, schedules of studies, fees, or facilities as listed herein.

Limitations
The University of Guelph reserves the right to change without notice any information contained in this calendar, including any rule or regulation pertaining to the standards for admission to, the requirements for the continuation of study in, and the requirements for the granting of degrees or diplomas in any or all of its programs.

The university will not be liable for any interruption in, or cancellation of, any academic activities as set forth in this calendar and related information where such interruption is caused by fire, strike, lock-out, inability to procure materials or trades, restrictive laws or governmental regulations, actions taken by the faculty, staff or students of the university or by others, civil unrest or disobedience, Public Health Emergencies, or any other cause of any kind beyond the reasonable control of the university.

The University of Guelph reaffirms section 1 of the Ontario Human Rights Code, 1981, which prohibits discrimination on the grounds of race, ancestry, place of origin, colour, ethnic origin, citizenship, creed, sex, sexual orientation, handicap, age, marital status or family status.

The university encourages applications from women, aboriginal peoples, visible minorities, persons with disabilities, and members of other under-represented groups.
Introduction

Collection, Use and Disclosure of Personal Information

Personal information is collected under the authority of the University of Guelph Act (1964), and in accordance with Ontario's Freedom of Information and Protection of Privacy Act (FIPPA) [http://www.e-laws.gov.on.ca/DBLaws/Statutes/English/90f31_e.htm]. This information is used by University officials in order to carry out their authorized academic and administrative responsibilities and also to establish a relationship for alumni and development purposes. Certain personal information is disclosed to external agencies, including the Ontario Universities Application Centre, the Ministry of Advanced Education and Skills Development, and Statistics Canada, for statistical and planning purposes, and is disclosed to other individuals or organizations in accordance with the Office of Registrarial Services Departmental Policy on the Release of Student Information. For details on the use and disclosure of this information call the Office of Registrarial Services at the University at (519) 824-4120 or see [https://www.uoguelph.ca/registrar/]

Statistics Canada - Notification of Disclosure

For further information, please see Statistics Canada's web site at [http://www.statcan.gc.ca] and Section XIV Statistics Canada.

Address for University Communication

Depending on the nature and timing of the communication, the University may use one of these addresses to communicate with students. Students are, therefore, responsible for checking all of the following on a regular basis:

Email Address

The University issued email address is considered an official means of communication with the student and will be used for correspondence from the University. Students are responsible for monitoring their University-issued email account regularly.

Home Address

Students are responsible for maintaining a current mailing address with the University. Address changes can be made, in writing, through Registrarial Services.

Name Changes

The University of Guelph is committed to the integrity of its student records, therefore, each student is required to provide either on application for admission or on personal data forms required for registration, his/her complete, legal name. Any requests to change a name, by means of alteration, deletion, substitution or addition, must be accompanied by appropriate supporting documentation.

Student Confidentiality and Release of Student Information Policy Excerpt

The University undertakes to protect the privacy of each student and the confidentiality of his or her record. To this end the University shall refuse to disclose personal information to any person other than the individual to whom the information relates where disclosure would constitute an unjustified invasion of the personal privacy of that person or of any other individual. All members of the University community must respect the confidential nature of the student information which they acquire in the course of their work.

Complete policy at [https://www.uoguelph.ca/secretariat/office-services/university-secretariat/university-policies].

Bioinformatics

Bioinformatics is the development and application of computational and statistical techniques for solving problems involving complex biological data. This emerging discipline is growing rapidly alongside technological developments for large-scale data generation in the life sciences, such as in genomics, proteomics, functional pathway analysis, health sciences, and biodiversity. Demand is accelerating for new approaches for data storage, retrieval, analysis, and applications. A new generation of professionals is required to meet this demand, having bioinformatics skills and the capacity to create new approaches.

Administrative Staff

Director
Lewis Lukens (326 Crop Science, Ext. 52304)
lukens@uoguelph.ca

Graduate Program Coordinator
Sarah Adamowicz (113 CBG, Ext. 53055)
sadamowi@uoguelph.ca

Bioinformatics Program Manager
Monica Wong (4451 Science Complex, Ext. 56474)
moniwong@uoguelph.ca

Admissions Secretary
Karen White (3479 Science Complex, Ext. 52730)
cbsgrad@uoguelph.ca

Graduate Program Assistant
Lori Ferguson (2483 Science Complex, Ext. 56097)
cbsibgrad@uoguelph.ca

Graduate Faculty

Sarah J. Adamowicz
Associate Professor, Integrative Biology

R. Ayesha Ali
Associate Professor, Mathematics and Statistics

Emma Allen-Vерсое
Associate Professor, Molecular and Cellular Biology

Daniel Ashlock
Professor, Mathematics and Statistics

Christine Baes
Assistant Professor, Animal Biosciences

Elizabeth Boulding
Professor, Integrative Biology

Angela Canovas
Assistant Professor, Animal Biosciences

David Chiu
Professor, Computer Science

Joseph Colasanti
Associate Professor, Molecular and Cellular Biology

Brenda L. Coomber
Professor, Biomedical Sciences

Karl Cottenie
Associate Professor, Integrative Biology

Roy G. Danzmann
Professor, Integrative Biology

Hermann Eberl
Professor and Canada Research Chair, Mathematics and Statistics

Michael J. Emes
Professor, Molecular and Cellular Biology

Zenя Feng
Associate Professor, Mathematics and Statistics

Steffen Graether
Associate Professor, Molecular and Cellular Biology

T. Ryan Gregory
Associate Professor, Integrative Biology

Cortland K. Griswold
Associate Professor, Integrative Biology

Mehrdad Hajibabaei
Associate Professor, Integrative Biology

Robert Hanner
Associate Professor, Integrative Biology

Geoffrey Wood
Associate Professor, Pathobiology

Julie Horrocks
Professor and Associate Chair, Mathematics and Statistics

Ronald Johnson
Associate Professor, Biomedical Sciences

Niel A. Karrow
Associate Professor, Animal Biosciences

Stefan Keller
Assistant Professor, Pathobiology

Peter Kim
Professor, Mathematics and Statistics

Stefan C. Kremer
Associate Professor, Computer Science

Jonathan LaMarre
Professor, Biomedical Sciences

Brandon N. Lillie
Associate Professor, Pathobiology

Lewis Lukens
Associate Professor, Plant Agriculture

John Lumsden
Professor, Pathobiology

David W.L. Ma
Associate Professor, Human Health and Nutritional Sciences

Janet L. MacInnes
Professor, Pathobiology

Baozhong Meng
Associate Professor, Molecular Cellular Biology

Rod Merrill
Professor, Molecular and Cellular Biology

Robert Mullen
Professor and University Research Chair, Molecular and Cellular Biology

David M. Mutch
Associate Professor, Human Health and Nutritional Sciences

Annette Nassuth
Associate Professor, Molecular and Cellular Biology

K. Peter Pauls
Professor, Plant Agriculture

J. Andrew B. Robinson
Associate Professor, Animal Biosciences

Steven Rothstein
Professor and University Research Chair, Molecular and Cellular Biology

Scott Ryan
Assistant Professor, Molecular and Cellular Biology

Flavio Schenkel
Professor, Animal Biosciences

M. Alexander Smith
Associate Professor, Integrative Biology

Graham Taylor
Associate Professor, Engineering

George van der Merwe
Associate Professor, Molecular and Cellular Biology

Terry Van Raay
Associate Professor, Molecular and Cellular Biology

Associated Graduate Faculty

Sanjeena Dang
BSc, MSc, PhD Guelph - Assistant Professor, Bingham University

Brian Golding
BSc Dalhousie, PhD Alberta - Professor, Biology, McMaster University

Paul McNicholas
BA, MSc, PhD Trinity College, Dublin - Associate Professor, Mathematics and Statistics, McMaster University

John Nash
BSc, PhD Monash University, Melbourne, Australia - Senior Research Scientist, Division of Enteric Diseases, National Microbiology Laboratory, Public Health Agency of Canada
MBINF Program

Admission Requirements

Students will be admitted to the Master of Bioinformatics program from a range of undergraduate programs in the life sciences. Students from undergraduate programs in the physical or computational sciences will be considered for admission if they are considered to have sufficient biological background. Students must begin the Master of Bioinformatics program in a fall semester. To be considered for admission, applicants should meet the minimum requirements of a four-year degree from a recognized post-secondary institution with a minimum 75% average over the last two years of full-time equivalent study.

Space in the program is limited and prospective students are encouraged to apply as early as possible. Application details are posted on the program website.

Degree Requirements

A total of 4.0 credits are required, which must include:

- BINF*6110 Genomic Methods for Bioinformatics [0.50]
- BINF*6210 Software Tools for Biological Data Analysis and Organization [0.50]
- BINF*6890 Topics in Bioinformatics [0.50]
- BINF*6970 Statistical Bioinformatics [0.50]
- BINF*6999 Bioinformatics Master's Project [1.00]

The advisory committee and/or the Graduate Program Committee may require additional courses.

Advisory Committee

Students taking the Master of Bioinformatics will have an advisor and a co-advisor. Both the advisor and the co-advisor must be members of the Bioinformatics Graduate Faculty such that one has expertise in the life sciences and the other has expertise in statistics or computing.

Duration of the Program

Students normally take 3 courses per semester for two semesters (3.0 credits) and complete the Bioinformatics Master’s Project (1.0 credit) in a third semester. Therefore, the program typically takes 12 months of full-time study. There is, however, the option to continue the Bioinformatics Master’s Project into a second fall semester, in which case the program will take 16 months of full-time study.

MSc Program

Admission Requirements

Students may be admitted to the MSc in Bioinformatics program from a range of undergraduate programs in the life, physical, statistical, mathematical, and computational sciences. To be considered for admission, applicants should meet the minimum requirements of a four-year degree from a recognized post-secondary institution with a minimum 75% average over the last two years of full-time equivalent study.

Applicants should indicate their research interests and their preferred advisors. Prospective students are encouraged to speak with potential advisors before applying to the MSc program. Offers of admission will only be issued in cases where a member of the Bioinformatics Graduate Faculty has agreed to be the advisor.

Degree Requirements

A total of 2.0 credits are required, which must include:

- BINF*6110 Genomic Methods for Bioinformatics [0.50]
- BINF*6210 Software Tools for Biological Data Analysis and Organization [0.50]

The advisory committee and/or the Graduate Program Committee may require additional courses. When the course work is satisfactorily completed, the submission and successful defence of an appropriate thesis on an approved topic completes the requirements for the MSc in Bioinformatics.

Advisory Committee

Students taking the MSc in Bioinformatics will have an advisory committee comprising at least two members of the Bioinformatics Graduate Faculty. The advisor must be a member of the Bioinformatics Graduate Faculty.

Duration of the Program

The program typically takes 16-24 months of full-time study.

PhD Program

Admission Requirements

1. Applicants with a master's degree

Applicants holding either a Master of Bioinformatics, an MSc in Bioinformatics, or a masters in a related discipline with a GPA above 80 over the last two years equivalent of full time study will be considered for admission.

2. Applicants without a master's degree (i.e., direct entry)

Strong applicants (GPA>80) may be admitted without holding a master's degree provided that their undergraduate major is appropriate. In these cases, the program committee will assign necessary courses to ensure sufficient preparedness for research.

3. General Requirements

Before a recommendation of admission can be issued, applicants are encouraged to speak with potential advisors before applying to the PhD in Bioinformatics program.

Degree Requirements

A minimum of 1.0 credit is required, which must include:

- BINF*6500 PhD Research Writing in Bioinformatics [1.00]

The program committee and the advisory committee may, and usually will, require additional courses. After the prescribed course work is satisfactorily completed, a qualifying examination is taken. Finally, the submission and successful defence of an appropriate thesis on an approved topic completes the requirements for the PhD in Bioinformatics.

Advisory Committee

Students taking the PhD in Bioinformatics will have an advisory committee comprising at least three members of the Graduate Faculty, two of whom should be Bioinformatics Graduate Faculty. The advisor must be a member of the Bioinformatics Graduate Faculty. Usually, if there is a co-advisor, (s)he will also be a member of the Bioinformatics Graduate Faculty; under special circumstances, the Director, after consultation with the Bioinformatics Program Committee, may approve a co-advisor who is not a member of the Bioinformatics Graduate Faculty.

Duration of the Program

The completion period of the program is 12 semesters of full-time study.

**August 10, 2018**
This course presents a selection of advanced approaches for the statistical analysis of data that arise in bioinformatics, especially genomic data. A central theme to this course is the modelling of complex, often high-dimensional, data structures.

**Prerequisite(s):** Introductory courses in statistics, mathematics and programming

**Restriction(s):** Restricted to students in Bioinformatics programs. Students in other programs may consult with course instructor.

**Department(s):** Dean's Office, College of Biological Science

---

A major research paper is completed and presented by students in the Master of Bioinformatics program.

**Prerequisite(s):** BINF*6110, BINF*6210

**Restriction(s):** Restricted to MBNF students only

**Department(s):** Dean's Office, College of Biological Science

---

**Note**
Some courses may not be offered every year. Students planning to take a course from the above list should consult with the Graduate Program Assistant for availability and scheduling.

---

### Electives

#### Biological Sciences

- **ANSC*6370** [0.50] Quantitative Genetics and Animal Models
- **HHNS*6440** [0.50] Nutrition, Gene Expression and Cell Signalling
- **MCB*6370** [0.50] Protein Structural Biology and Bioinformatics
- **PLNT*6160** [0.50] Advanced Plant Breeding II
- **PLNT*6500** [0.50] Applied Bioinformatics

#### Computer Science

- **CIS*6080** [0.50] Genetic Algorithms
- **CIS*6120** [0.50] Uncertainty Reasoning in Knowledge Representation

#### Mathematics and Statistics

- **STAT*4340** 0.5 Statistical Inference
- **STAT*6801** [0.50] Statistical Learning
- **STAT*6802** [0.50] Generalized Linear Models and Extensions
- **STAT*6950** [0.50] Statistical Methods for the Life Sciences

**Note**
Some courses may not be offered in every semester. Students planning to take a course from the above list should consult with the department offering the course to check for availability and scheduling.
