2017-2018 Graduate Calendar

The information published in this Graduate Calendar outlines the rules, regulations, curricula, programs and fees for the 2017-2018 academic years, including the Summer Semester 2017, Fall Semester 2017 and the Winter Semester 2018.

For your convenience the Graduate Calendar is available in PDF format.
If you wish to link to the Graduate Calendar please refer to the Linking Guidelines.

Disclaimer
The Office of Graduate Studies has attempted to ensure the accuracy of this on-line Graduate Calendar. However, the publication of information in this document does not bind the university to the provision of courses, programs, schedules of studies, fees, or facilities as listed herein.

Limitations
The University of Guelph reserves the right to change without notice any information contained in this calendar, including any rule or regulation pertaining to the standards for admission to, the requirements for the continuation of study in, and the requirements for the granting of degrees or diplomas in any or all of its programs.

The university will not be liable for any interruption in, or cancellation of, any academic activities as set forth in this calendar and related information where such interruption is caused by fire, strike, lock-out, inability to procure materials or trades, restrictive laws or governmental regulations, actions taken by the faculty, staff or students of the university or by others, civil unrest or disobedience, Public Health Emergencies, or any other cause of any kind beyond the reasonable control of the university.

The University of Guelph reaffirms section 1 of the Ontario Human Rights Code, 1981, which prohibits discrimination on the grounds of race, ancestry, place of origin, colour, ethnic origin, citizenship, creed, sex, sexual orientation, handicap, age, marital status or family status.

The university encourages applications from women, aboriginal peoples, visible minorities, persons with disabilities, and members of other under-represented groups.
Introduction

Collection, Use and Disclosure of Personal Information

Personal information is collected under the authority of the University of Guelph Act (1964), and in accordance with Ontario's Freedom of Information and Protection of Privacy Act (FIPPA) http://www.e-laws.gov.on.ca/DBLaws/Statutes/English/90f31_e.htm. This information is used by University officials in order to carry out their authorized academic and administrative responsibilities and also to establish a relationship for alumni and development purposes. Certain personal information is disclosed to external agencies, including the Ontario Universities Application Centre, the Ministry of Training, Colleges and Universities, and Statistics Canada, for statistical and planning purposes, and is disclosed to other individuals or organizations in accordance with the Office of Registrarial Services Departmental Policy on the Release of Student Information. For details on the use and disclosure of this information call the Office of Registrarial Services at the University at (519) 824-4120 or see https://www.uoguelph.ca/Registrar/

Statistics Canada - Notification of Disclosure

For further information, please see Statistics Canada's web site at http://www.statcan.gc.ca and Section XIV Statistics Canada.

Address for University Communication

Depending on the nature and timing of the communication, the University may use one of these addresses to communicate with students. Students are, therefore, responsible for checking all of the following on a regular basis:

Email Address

The University issued email address is considered an official means of communication with the student and will be used for correspondence from the University. Students are responsible for monitoring their University-issued email account regularly.

Home Address

Students are responsible for maintaining a current mailing address with the University. Address changes can be made, in writing, through the Office of Graduate Studies.

Name Changes

The University of Guelph is committed to the integrity of its student records, therefore, each student is required to provide either on application for admission or on personal data forms required for registration, his/her complete, legal name. Any requests to change a name, by means of alteration, deletion, substitution or addition, must be accompanied by appropriate supporting documentation.

Student Confidentiality and Release of Student Information Policy Excerpt

The University undertakes to protect the privacy of each student and the confidentiality of his or her record. To this end the University shall refuse to disclose personal information to any person other than the individual to whom the information relates where disclosure would constitute an unjustified invasion of the personal privacy of that person or of any other individual. All members of the University community must respect the confidential nature of the student information which they acquire in the course of their work.

Clinical Studies
The Department of Clinical Studies offers graduate programs leading to MSc and DVSc degrees and the graduate diploma.

Administrative Staff
Chair  Carolyn Kerr (2141 OVC, Ext. 54051)  ckerr@uoguelph.ca
Graduate Program Coordinator  Tom Gibson (2130 Clinical Studies, Ext. 54325)  tgibson@uoguelph.ca
Graduate Program Assistant  Ariah Easley (102 Population Medicine, Ext. 54005)  csgrad@uoguelph.ca

Graduate Faculty
Anthony C.G. Abrams-Ogg  BA Alberta, DVM Saskatchewan, DVSc Guelph, Dipl. ACVIM - Professor
Luis Arroyo  DVM Nacional, DVSc, PhD Guelph - Associate Professor
Shane Bateman  DVM, DVSc, Dipl. ACVECC - Associate Professor
Alexa Beresnas  BSc, DVM, MSc Guelph, Dipl. ACVECC - Associate Professor
Shauna Blois  BSc, Mount Allison, DVM Prince Edward Island, DVSc Guelph, Dipl. ACVIM - Associate Professor
Brigitte Brisson  DMV Montreal, DVSc Guelph, Dipl. ACVS - Professor
Heather Chalmers  BSc, DVM, PhD Guelph, Dipl. ACVR - Associate Professor
Nicola Cribb  VetMB, MA Cambridge, DVSc Guelph, Dipl. ACVS - Assistant Professor
Alice Defarges  DVM France (Alfort), MSc Montreal, Dipl. ACVIM - Assistant Professor
Sonja Fonfara  DVM, Dr med vet, PhD, CertVC, Dipl. ECVN - Associate Professor
Thomas Gibson  BSc Guelph, BEdu Windsor, DVM, DVSc Guelph, Dipl. ACVS - Associate Professor and Graduate Program Coordinator
Joanne Hewson  DVM, PhD Guelph, Dipl. DACVIM (LA) - Associate Professor
Mark M. Hurtig  DVM Guelph, MSc Saskatchewan, Dipl. ACVS - Professor
Fiona James  HBSc Toronto, MSc Western, DVM, DVSc Guelph, Dipl. ACVIM - Assistant Professor
Carolyn L. Kerr  DVM, DVSc Guelph, PhD Western, Dipl. ACVAA - Professor and Chair
Judith Koenig  DVM, MSc Vet. Medicine (Austria), DVSc Guelph, Dipl. ACVS/ECVS - Associate Professor
Noel Moens  DVM Liege (Belgium), MSc Saskatchewan, Dipl. ACVS/ECVS - Associate Professor
Anthony Mutsaers  DVM Guelph, PhD Toronto, Dipl. ACVIM - Assistant Professor
Stephanie Nykamp  DVM, MSc Western, Dipl ACVR - Associate Professor & Associate Dean, Clinical Program
Michelle Oxlak  DVM, DVSc Guelph, Dipl. ACVS - Assistant Professor
Lynne O'Sullivan  DVM Prince Edward Island, DVSc Guelph, Dipl. ACVIM - Associate Professor
Chantale Pinard  DVM Guelph, MS Kansas State, Dipl. ACVO - Associate Professor
Melissa Sinclair  DVM Prince Edward Island, DVSc Guelph, Dipl. ACVAA - Associate Professor
Ameet Singh  BSc Mount Allison, DVM Atlantic Veterinary College, DVSc Guelph, Dipl. ACVS - Assistant Professor
Henry Staempfli  DVM, Dr. Med. Vet. Bern, Dipl. ACVIM - Professor
Elizabeth A. Stone  BA Scripps College, DVM California (Davis), MS Georgia, MPP Duke - Professor
Donald Trout  BS, DVM Washington State, PhD California, Dipl. ACVS - Associate Professor
Alexander Valverde  DVM Nacional (Costa Rica), DVSc Guelph, Dipl. ACVAA - Associate Professor
Aronie Verbrugghe  BSc, DVM, PhD Ghent, Dipl. ECVN - Assistant Professor
J. Paul Woods  DVM Guelph, MS Wisconsin, Dipl. ACVIM (Internal Medicine, Oncology) - Professor

Associated Graduate Faculty
Luis Gaitero  DVM, Diplomate ECVN - Associate Professor, Contractually Limited Faculty, Clinical Studies, University of Guelph

MSc Program
Admission Requirements
Candidates must have either an honours baccalaureate degree or a DVM degree; licensure to practice veterinary medicine in Ontario is not required.

Degree Requirements
Students enrol in one of two study options: 1) thesis, or 2) course work and major research paper.

Thesis
The thesis option provides focused research training in areas related to veterinary medicine. Research projects may examine aspects of clinical practice or concepts but are not considered discipline or specialty training. Candidates are accepted based on adequate background preparation and availability of an advisor in the area of interest. Applicants should contact potential faculty advisors with established research programs listed in the department website.

Positions are generally not funded by the researcher. Qualified applicants need to provide their own living expenses and tuition funds, or obtain a scholarship or sponsorship by an organization.

We do not offer a clinical Master of Science program.

The program involves a minimum of 3 courses, a research project and writing of a thesis. Candidates are required to carry out an independent experimental study and produce a thesis. Three graduate level courses are required.

Course Work and Major Research Project (MRP)
The course work plus major project option will comprise a minimum of 4.5 credits, including six 0.5-credit graduate courses and a mandatory 1.0 credit, 2-semester major project course. The major project course will be supervised by the student’s advisory committee, and will consist of a literature review, participation in a clinical research project or retrospective study, preparation of a manuscript suitable for publication in a peer-reviewed scientific journal, and presentation in a Departmental seminar. A mark will be assigned by the advisory committee, based on the manuscript and oral presentation.

There will be no required courses beyond the 1.0 credit project course. The remaining courses will be chosen from courses currently provided by the Department of Clinical Studies and other Ontario Veterinary College Departments, and will be tailored to the student’s particular research interests. It is anticipated that most courses will be taken from within the Department. Undergraduate courses will not normally be eligible for credit toward this program. Course selection will be made by the student in consultation with the advisory committee, and will be approved by the departmental Graduate Studies and Research Committee. This option will normally require a minimum of 3 semesters of full-time study.

DVSc Program
The DVSc degree is offered in large animal surgery, small animal surgery, large animal medicine, small animal medicine, anaesthesiology, cardiology, neurology, ophthalmology, dermatology and radiology, depending upon availability. The program provides advanced academic preparation in both clinical training and research and is a unique post-professional doctoral-level degree. The DVSc differs from PhD training by emphasizing the development of both research and applied skills in the various areas of clinical specialization appropriate for preparation for specialty Board certification.

Doctor of Veterinary Science positions are usually funded positions, and are usually advertised and selected through the American Association of Veterinary Clinicians’ website at www.virmp.org which can be accessed in early October. Completed applications are due to us by December 1st each year, announcements made in early March and the start date is mid-July. Occasionally specialty training positions become available and are advertised on our website, as well as in the Canadian Veterinary Journal. This program involves one-third of the time taking a minimum of 5 graduate courses, conducting a research project and writing a thesis on the research, and two-thirds of the time in applied clinical practice. Applicants must be eligible to be licensed by the College of Veterinarians of Ontario.
The DVSs is currently an interdepartmental program and receives input from all academic departments in the Ontario Veterinary College (OVC): Biomedical Sciences, Clinical Studies, Pathobiology and Population Medicine.

**Admission Requirements**
A doctor of veterinary medicine (DVM) or equivalent which would allow the applicant to be eligible for licensure to practice veterinary medicine in Ontario. In addition a completed internship or equivalent is usually required.

**Degree Requirements**
Candidates are required to develop investigative skills in their chosen area of specialization by carrying out an original study, generally related to animal health. The results of the research must make a significant contribution to the candidate's area of specialization and he written up as a thesis. Five graduate level courses are required.

**Graduate Diploma Program**
The diploma program in clinical studies was introduced to provide appropriate postgraduate discipline training for veterinarians who wish to improve their expertise in a specific area. It entails a full-time three-semester program for candidates who are veterinarians with limited time for study. The program requires the completion of formal graduate courses and extensive participation in the care of animals admitted to the Veterinary Teaching Hospital. Clinical instruction is done using a service team concept, wherein a graduate diploma student interacts with DVSs students and faculty advisors. It is expected that graduates will return to private practice with enhanced clinical skills, or progress into MSc or internship programs.

Candidates are accepted based on adequate background preparation and availability of an advisor in the area of interest. Applicants should contact potential faculty advisors listed in the department website. This program is not intended to upgrade general knowledge to North American standards nor is this program intended to prepare foreign graduates for national board exams.

**Admission Requirements**
Admission to a postgraduate diploma program as a regular student may be granted, on recommendation of the department, to the holder of a recognized DVM degree (or equivalent) with at least 'B-' standing during the final two years of study.

**Diploma Requirements**
The student is assigned an advisor who is responsible for the planning and regular review of the program of the candidate. A thesis is not required. Both undergraduate and graduate courses may be taken and, when appropriate for the student, a review manuscript suitable for publication in a refereed scientific journal is prepared. For some students, a heavier course load is substituted for the manuscript requirement.

**Collaborative Specializations**
Faculty in Clinical Studies also participate in the collaborative specialization in Neuroscience.

**Courses**

### **Medicine**

**CLIN*6010 Clinical Medicine F [0.50]**
These are in-service clinical training courses based on case material presented to the student in the Veterinary Teaching Hospital. Under supervision, the student is expected to take primary responsibility for case management including decisions related to diagnosis, therapy and client/referring veterinarian communications. Case material studied in each course reflects a different clinical subspecialty commonly occurring in the Fall (F), Winter (W), and Summer (S) semesters respectively.  
*Department(s):* Department of Clinical Studies

**CLIN*6030 Clinical Medicine W [0.50]**
These are in-service clinical training courses based on case material presented to the student in the Veterinary Teaching Hospital. Under supervision, the student is expected to take primary responsibility for case management including decisions related to diagnosis, therapy and client/referring veterinarian communications. Case material studied in each course reflects a different clinical subspecialty commonly occurring in the Fall (F), Winter (W), and Summer (S) semesters respectively.  
*Department(s):* Department of Clinical Studies

**CLIN*6031 Clinical Medicine S [0.50]**
These are in-service clinical training courses based on case material presented to the student in the Veterinary Teaching Hospital. Under supervision, the student is expected to take primary responsibility for case management including decisions related to diagnosis, therapy and client/referring veterinarian communications. Case material studied in each course reflects a different clinical subspecialty commonly occurring in the Fall (F), Winter (W), and Summer (S) semesters respectively.  
*Department(s):* Department of Clinical Studies

**CLIN*6190 Neurology F [0.50]**
Basic principles of lesion localization in the domestic species with discussions of diagnostic problems in veterinary neurology. Offered alternate years. 
*Restriction(s):* Instructor consent required.  
*Department(s):* Department of Clinical Studies

**CLIN*6200 Concepts and Application of Infection Control U [0.50]**
This course will involve principles of infection control in veterinary hospitals, drawing heavily from information from human medicine and evaluating human information in a veterinary context.  
*Department(s):* Department of Clinical Studies

**CLIN*6380 Electrocardiography in Domestic Animals F,W,S [0.50]**
This course will deal with the study of the electrocardiography of the cat, dog, cow and horse. Students will review the mechanisms of arrhythmogenesis and the role of anti-arrhythmic agents in the control of arrhythmogenesis.  
*Department(s):* Department of Clinical Studies

**CLIN*6550 Small Animal Internal Medicine I F [0.50]**
This is a graduate course designed for DVSs students and residents pursuing further study in the area. The basis of the course is the acquisition and application of knowledge of the pathophysiologic mechanisms of disease. Subject areas to be addressed may include: cardiovascular disease, respiratory disease and acid-base-electrolyte abnormalities.  
*Department(s):* Department of Clinical Studies

**CLIN*6550 Small Animal Internal Medicine II W [0.50]**
A continuation of Small Animal Internal Medicine I. Subject areas to be addressed may include: endocrine diseases, pharmacodynamics, renal disease and neurologic disease.  
*Department(s):* Department of Clinical Studies

**CLIN*6560 Small Animal Internal Medicine IV W [0.50]**
Advanced study in general medicine and pathophysiologic principles of disorders of the gastrointestinal and urinary systems in ruminants, swine and horses. Offered every third year.  
*Department(s):* Department of Clinical Studies

**CLIN*6570 Large Animal Internal Medicine I W [0.50]**
Advanced study in general medicine and the pathophysiologic principles of disorders of the cardiovascular, respiratory and musculo-skeletal systems of ruminants and horses. Offered every third year.  
*Department(s):* Department of Clinical Studies

**CLIN*6580 Large Animal Internal Medicine II W [0.50]**
Advanced study in general medicine and the pathophysiologic principles of disorders of the cardiovascular, respiratory and musculo-skeletal systems of ruminants and horses. Offered every third year.  
*Department(s):* Department of Clinical Studies

**CLIN*6590 Large Animal Internal Medicine III W [0.50]**
Advanced study in general medicine and the pathophysiologic principles of neonatal disorders and disorders of the nervous system, skin and general systemic disorders. Offered every third year.  
*Department(s):* Department of Clinical Studies

**CLIN*6661 Respiratory Physiology & Pathophysiology U [0.50]**
This is a graduate course designed for veterinarians pursuing advanced training in residency and DVSs programs. The course will cover normal respiratory anatomy, physiology and pulmonary function. A focus on respiratory pathophysiology will include respiratory failure, oxygen therapy and positive pressure ventilation. (offered every three years).  
*Department(s):* Department of Clinical Studies

**CLIN*6670 Structure & Function of Animal Skin F,W,S [0.50]**
A review of structure and function of skin in veterinary dermatology including the epidermis, dermis, subcutis and adnexal tissue. Application of knowledge in a clinical setting will follow with attention to modalities that will improve the epidermal barrier.  
*Restriction(s):* Instructor consent required.  
*Department(s):* Department of Clinical Studies

**CLIN*6680 Readings in Cardiology I F,W,S [0.50]**
Original articles, review articles and textbook chapters dealing with the most recent concepts of pathophysiology, diagnostic procedures and therapeutic advancements will be reviewed, analyzed and discussed.  
*Department(s):* Department of Clinical Studies

**CLIN*6690 Readings in Cardiology II F,W,S [0.50]**
Readings in Cardiology II will be a continuation of the format of Readings in Cardiology I with further readings in clinical cardiology.  
*Department(s):* Department of Clinical Studies
**CLIN*6960 Special Topics: Zoological Med F,W [0.50]**
Preparation for the ACZM examination and based on the published ACZM examination reading list. Students will prepare reading assignments that will be discussed during scheduled time. Each semester will focus on a specific taxonomic group. A mock examination will be provided on an ACZM sub-speciality (typically birds, reptiles, wildlife, terrestrial mammals or aquatic medicine).

**Restriction(s):** Instructor consent required.
**Department(s):** Department of Clinical Studies

---

**CLIN*6700 Pathophysiology in Small Animal Surgery I F,W,S [0.50]**
Based on required reference reading, weekly discussions will cover the disease mechanisms involved in medical problems commonly encountered in small animal surgical practice. Guest lectures on selected topics will be presented.

**Department(s):** Department of Clinical Studies

---

**CLIN*6710 Pathophysiology in Small Animal Surgery II F,W,S [0.50]**
Based on required reference reading, weekly discussions will cover the disease mechanisms involved in medical problems commonly encountered in small animal surgical practice. Guest lectures on selected topics will be presented.

**Department(s):** Department of Clinical Studies

---

**Surgery**

**CLIN*6670 Clinical Surgery F [0.50]**
These are in-service clinical training courses based on case material presented to the student in the Veterinary Teaching Hospital. Under supervision, the student is expected to take primary responsibility for case management including decisions related to diagnosis, therapy and client/referring veterinarian communications. Case material studied in each course reflects a different clinical subspeciality occurring in Fall (F), Winter (W), and Summer (S) semesters respectively. The student is required to prepare a paper for publication in a recognized peer review journal based on clinical case material presented to the teaching hospital. As an alternative, the paper can be an in-depth review article on a clinically relevant topic.

**Department(s):** Department of Clinical Studies

---

**CLIN*6670 Clinical Surgery F,W,S [0.50]**
A course in advanced veterinary anesthesia and allied topics such as fluid, acid-base, and electrolyte balance, shock therapy, and cardiopulmonary resuscitation.

**Prerequisite(s):** CLIN*6420 is normally a prerequisite
**Department(s):** Department of Clinical Studies

---

**Anesthesiology**

**CLIN*6560 Anesthesiology I S [0.50]**
A discussion, reading and investigative course on research methods in comparative anesthesiology.

**Department(s):** Department of Clinical Studies

---

**Radiology**

**CLIN*6330 Advanced Principles of Diagnostic Imaging U [0.50]**
A course in advanced veterinary anesthesia that focuses on the scientific literature related to the anesthesia of specific species and veterinary patients with varying underlying diseases.

**Prerequisite(s):** DVM; CLIN*6420 and CLIN*6440
**Department(s):** Department of Clinical Studies

---

**CLIN*6480 Anesthesiology III: Species Specific and Coexisting Disease Considerations F-W [0.50]**
A course in advanced veterinary anesthesia that focuses on the scientific literature related to the anesthesia of specific species and veterinary patients with varying underlying diseases.

**Prerequisite(s):** CLIN*6420 is normally a prerequisite
**Department(s):** Department of Clinical Studies

---

**CLIN*6600 Equine Soft Tissue Surgery I F,W,S [0.50]**
Based on required reference reading, every other week discussion will cover advanced soft tissue procedures performed in equine surgery. Guest lectures on selected topics will be presented. Laboratory will be given.

**Department(s):** Department of Clinical Studies

---

**CLIN*6610 Equine Soft Tissue Surgery II F,W,S [0.50]**
Based on required reference reading, every other week discussion will cover advanced soft tissue procedures performed in equine surgery. Guest lectures on selected topics will be presented. Laboratory will be given.

**Department(s):** Department of Clinical Studies

---

**CLIN*6620 Ruminant Surgery W [0.50]**
Through lectures/seminars, medical and surgical laboratories, and detailed case discussions, this course provides practical experience in ruminant medical, radiological and surgical procedures and in problem-solving related to ruminant practice.

**Department(s):** Department of Clinical Studies

---

**June 19, 2017**
CLIN*6930 Veterinary Clinical Practice II W [0.50]
These are in-service clinical training courses for intern/graduate-diploma students based on case material presented to the Veterinary Teaching Hospital. Under supervision, the intern/graduate-diploma student, as part of a service team with a faculty clinician, is expected to hone his/her diagnostic, therapeutic and surgical skills, and gain experience with animal restraint and nursing care. They will also develop a problem-oriented approach to health management and disease. Case material studied in each course reflects the clinical problems commonly occurring in the Fall, Winter and Summer semesters respectively.

Restriction(s): Instructor consent required.
Department(s): Department of Clinical Studies

CLIN*6940 Veterinary Clinical Practice III S [0.50]
These are in-service clinical training courses for intern/graduate-diploma students based on case material presented to the Veterinary Teaching Hospital. Under supervision, the intern/graduate-diploma student, as part of a service team with a faculty clinician, is expected to hone his/her diagnostic, therapeutic and surgical skills, and gain experience with animal restraint and nursing care. They will also develop a problem-oriented approach to health management and disease. Case material studied in each course reflects the clinical problems commonly occurring in the Fall, Winter and Summer semesters respectively.

Restriction(s): Instructor consent required.
Department(s): Department of Clinical Studies

CLIN*6950 Special Topics in Clinical Studies F,W,S [0.50]
Department(s): Department of Clinical Studies

CLIN*6990 Project in Clinical Studies F,W,S [1.00]
This course involves participation in a clinical research project or clinical retrospective study. A review of the relevant literature will be performed. A manuscript suitable for publication in a peer-reviewed journal will be prepared, and the study will be presented in a departmental seminar.

Restriction(s): Only available to students enrolled in the MSc by Coursework Program.
Department(s): Department of Clinical Studies
