Disclaimer
The Office of Graduate and Postdoctoral Studies has attempted to ensure the accuracy of this on-line Graduate Calendar. However, the publication of information in this document does not bind the university to the provision of courses, programs, schedules of studies, fees, or facilities as listed herein.

Limitations
The University of Guelph reserves the right to change without notice any information contained in this calendar, including any rule or regulation pertaining to the standards for admission to, the requirements for the continuation of study in, and the requirements for the granting of degrees or diplomas in any or all of its programs. The university will not be liable for any interruption in, or cancellation of, any academic activities as set forth in this calendar and related information where such interruption is caused by fire, strike, lock-out, inability to procure materials or trades, restrictive laws or governmental regulations, actions taken by the faculty, staff or students of the university or by others, civil unrest or disobedience, Public Health Emergencies, or any other cause of any kind beyond the reasonable control of the university.

The University of Guelph reaffirms section 1 of the Ontario Human Rights Code, 1981, which prohibits discrimination on the grounds of race, ancestry, place of origin, colour, ethnic origin, citizenship, creed, sex, sexual orientation, handicap, age, marital status or family status.

The university encourages applications from women, aboriginal peoples, visible minorities, persons with disabilities, and members of other under-represented groups.
Introduction

Collection, Use and Disclosure of Personal Information

Personal information is collected under the authority of the University of Guelph Act (1964), and in accordance with Ontario’s Freedom of Information and Protection of Privacy Act (FIPPA) http://www.e-laws.gov.on.ca/DBL_laws/Statutes/English/90f31_e.htm. This information is used by University officials in order to carry out their authorized academic and administrative responsibilities and also to establish a relationship for alumni and development purposes. Certain personal information is disclosed to external agencies, including the Ontario Universities Application Centre, the Ministry of Advanced Education and Skills Development, and Statistics Canada, for statistical and planning purposes, and is disclosed to other individuals or organizations in accordance with the Office of Registrarial Services Departmental Policy on the Release of Student Information. For details on the use and disclosure of this information call the Office of Registrarial Services at the University at (519) 824-4120 or see https://www.uoguelph.ca/registrar/.

Statistics Canada - Notification of Disclosure

For further information, please see Statistics Canada's web site at http://www.statcan.gc.ca and Section XIV Statistics Canada.

Address for University Communication

Depending on the nature and timing of the communication, the University may use one of these addresses to communicate with students. Students are, therefore, responsible for checking all of the following on a regular basis:

Email Address

The University issued email address is considered an official means of communication with the student and will be used for correspondence from the University. Students are responsible for monitoring their University-issued email account regularly.

Home Address

Students are responsible for maintaining a current mailing address with the University. Address changes can be made, in writing, through Registrarial Services.

Name Changes

The University of Guelph is committed to the integrity of its student records, therefore, each student is required to provide either on application for admission or on personal data forms required for registration, their complete, legal name. Any requests to change a name, by means of alteration, deletion, substitution or addition, must be accompanied by appropriate supporting documentation.

Student Confidentiality and Release of Student Information Policy Excerpt

The University undertakes to protect the privacy of each student and the confidentiality of their record. To this end the University shall refuse to disclose personal information to any person other than the individual to whom the information relates where disclosure would constitute an unjustified invasion of the personal privacy of that person or of any other individual. All members of the University community must respect the confidential nature of the student information which they acquire in the course of their work.

Complete policy at https://www.uoguelph.ca/secretariat/office-services/university-secretariat/university-policies.
## Graduate Degree Learning Outcomes

On May 27, 2013, the University of Guelph Senate approved the following five University-wide Learning Outcomes as the basis from which to guide the development of graduate degree programs, specializations and courses:

1. **Critical and Creative Thinking**
2. **Literacy**
3. **Global Understanding**
4. **Communication**
5. **Professional and Ethical Behaviour**

These learning outcomes are also intended to serve as a framework through which our educational expectations are clear to students and the broader public; and to inform the process of outcomes assessment through the quality assurance process (regular reviews) of programs and departments.

An on-line guide to the learning outcomes, links to the associated skills, and detailed rubrics designed to support the development and assessment of additional program and discipline-specific outcomes, are available for reference on the [Learning Outcomes website](#).

### Critical and Creative Thinking

Critical and creative thinking is a concept in which one applies logical principles, after much inquiry and analysis, to solve problems with a high degree of innovation, divergent thinking and risk taking. Those mastering this outcome show evidence of integrating knowledge and applying this knowledge across disciplinary boundaries. Depth and breadth of understanding of disciplines is essential to this outcome. At the graduate level, originality in the application of knowledge (master’s) and undertaking of research (doctoral) is expected. In addition, Critical and Creative Thinking includes, but is not limited to, the following outcomes: Independent Inquiry and Analysis; Problem Solving; Creativity; and Depth and Breadth of Understanding.

### Literacy

Literacy is the ability to extract information from a variety of resources, assess the quality and validity of the material, and use it to discover new knowledge. The comfort in using quantitative literacy also exists in this definition, as does using technology effectively and developing visual literacy.

In addition, Literacy includes, but is not limited to, the following outcomes: Information Literacy, Quantitative Literacy, Technological Literacy, and Visual Literacy.

### Global Understanding

Global understanding encompasses the knowledge of cultural similarities and differences, the context (historical, geographical, political and environmental) from which these arise, and how they are manifest in modern society. Global understanding is exercised as civic engagement, intercultural competence and the ability to understand an academic discipline outside of the domestic context.

In addition, Global Understanding includes, but is not limited to, the following outcomes: Global Understanding, Sense of Historical Development, Civic Knowledge and Engagement, and Intercultural Competence.

### Communication

Communication is the ability to interact effectively with a variety of individuals and groups, and convey information successfully in a variety of formats including oral and written communication. Communication also comprises attentiveness and listening, as well as reading comprehension. It includes the ability to communicate and synthesize information, arguments, and analyses accurately and reliably.

In addition, Communication includes, but is not limited to, the following outcomes: Oral Communication, Written Communication, Reading Comprehension, and Integrative Communication.

### Professional and Ethical Behaviour

Professional and ethical behaviour requires the ability to accomplish the tasks at hand with proficient skills in teamwork and leadership, while remembering ethical reasoning behind all decisions. The ability for organizational and time management skills is essential in bringing together all aspects of managing self and others. Academic integrity is central to mastery in this outcome. At the graduate level, intellectual independence is needed for professional and academic development and engagement.

In addition, Professional and Ethical Behaviour includes, but is not limited to, the following outcomes: Teamwork, Ethical Reasoning, Leadership, Personal Organization and Time Management, and Intellectual Independence.

One Health

The Collaborative Specialization in One Health prepares future leaders for the complex challenges at the confluence of human, animal, and environmental health, working across disciplinary boundaries, conducting multidisciplinary research, mobilizing knowledge, and informing policy. Doctoral and Master’s (thesis or course work and MRP) students wishing to undertake graduate studies with emphasis on One Health will be admitted by a participating department and will register in both the participating department and in the collaborative specialization.

The participating academic programs are Animal Biosciences (MSc, PhD), Biomedical Sciences (MBS, MSc, PhD), Computational Sciences (PhD), Computer Science (MSc), Engineering (MEng,MASc,PhD), Environmental Sciences (MES,MSc,PhD), Food Science (MSc,PhD), Geography (MA, MSc, PhD), History (MA, PhD), Human Health and Nutritional Sciences (MSc, PhD), Integrative Biology (MSc, PhD), Molecular and Cellular Biology (MSc, PhD), Pathobiology (MSc, PhD), Political Science (MA, PhD), Population Medicine (MSc, PhD), Philosophy (MA, PhD), Public Issues Anthropology (MA), and Rural Development and Planning (MSc).

**Administrative Staff**

**Graduate Program Coordinator**
Dr. Katie Clow (2531 Stewart Building, Ext. 53944)
kclow@uoguelph.ca

**Graduate Program Assistant**
TBD (Ext.)

**Graduate Faculty**

**Tara Abraham**
Associate Professor, History

**Madhur Anand**
Professor, Environmental Sciences

**Ryan Briggs**
Assistant Professor, Political Science

**David Calvert**
Associate Professor, Computer Science

**Catherine Carstairs**
Professor, History

**Katie Clow**
Assistant Professor, Population Medicine

**Rozita Dara**
Assistant Professor, Computer Science

**Kari Dunfield**
Associate Professor, Environmental Sciences

**Jeff Farber**
Professor, Food Science

**Elizabeth Finnis**
Associate Professor, Sociology and Anthropology

**Robert Friendship**
Professor, Population Medicine

**Karine Gagne**
Assistant Professor, Sociology and Anthropology

**Daniel Gillis**
Associate Professor, Computer Science

**Maya Goldenberg**
Associate Professor, Philosophy

**Larry Goodridge**
Professor, Food Science

**Amy Greer**
Associate Professor, Population Medicine

**Andrew Hamilton-Wright**
Associate Professor, Computer Science

**Carmen Ho**
Assistant Professor, Political Science

**Claire Jardine**
Associate Professor, Pathobiology

**Candace Johnson**
Professor, Political Science

**Craig Johnson**
Professor, Political Science

**Niel Karrow**
Professor, Animal Biosciences

**Satsuki Kawano**
Professor, Sociology and Anthropology

**David Kelton**
Professor, Population Medicine

**Edward Koning**
Associate Professor, Political Science

**Gisele LaPointe**
Professor, Food Science

**Leah Levac**
Associate Professor, Political Science

**Philip Loring**
Associate Professor, Geography, Environment and Geomatics

**Brittany Luby**
Assistant Professor, History

**Stuart McCook**
Professor, History

**Scott McEwen**
Professor, Population Medicine

**Thomas McIlwraith**
Assistant Professor, Sociology and Anthropology

**Faisal Moola**
Associate Professor, Geography, Environment and Geomatics

**Kate Parizeau**
Associate Professor, Geography, Environment and Geomatics

**Jane Parmley**
Associate Professor, Population Medicine

**David Pearl**
Associate Professor, Population Medicine

**John Srbely**
Assistant Professor, Population Medicine

**Deborah Stienstra**
Professor, Political Science

**Eran Ukwatta**
Assistant Professor, Engineering

**Laura VanEerd**
Associate Professor, Environmental Sciences

**Keith Warriner**
Professor, Food Science

**J. Scott Weese**
Professor, Pathobiology

**Geoffrey Wood**
Associate Professor, Pathobiology

**Associated Graduate Faculty**

**Theresa Bernardo**
Professor, Population Medicine

**Masters Collaborative Specialization**

**Admission Requirements**

Masters students in the Collaborative Specialization in One Health must meet the admission requirements of the participating department in which they are enrolled. The application process has two stages. First, prospective students will apply to their primary program of interest, identifying interest in the collaborative specialization as a focus. If the student is admitted to the primary program, the second stage is then admission to the collaborative specialization. Applicants will be required to submit a letter of interest (maximum 500 words) briefly outlining their interest in One Health and explaining how their area of research will align with One Health and intersect with all three pillars (animals, humans, and the environment).

All applications to participate in the Collaborative Specialization in One Health will be reviewed by the specialization’s Graduate Program Coordinator and a committee of 3-5 faculty from different colleges.

**Program Requirements**

Masters students in the Collaborative Specialization in One Health must complete:

- ONEH*6000 [0.50] One Health Approaches to Research
- ONEH*6100 [0.50] Master’s Seminar in One Health

And an acceptable MRP or thesis that applies a One Health approach. For thesis-based master’s students, at least one member of the student’s advisory committee must be a core graduate faculty member of the Collaborative Specialization in One Health. Requirements of this collaborative specialization may also serve as elective requirements in the student’s home program.
Doctoral Collaborative Specialization

Admission Requirements
Doctoral students in the Collaborative Specialization in One Health must meet the admission requirements of the participating department in which they are enrolled. The application process has two stages. First, prospective students will apply to their primary program of interest, identifying interest in the collaborative specialization as a focus. If the student is admitted to the primary program, the second stage is then admission to the collaborative specialization. Applicants will be required to submit a letter of interest (maximum 500 words) briefly outlining their interest in One Health and explaining how their area of research will align with One Health and intersect with all three pillars (animals, humans, and the environment).

All applications to participate in the Collaborative Specialization in One Health will be reviewed by the specialization’s Graduate Program Coordinator and a committee of 3-5 faculty from different colleges.

Program Requirements
Doctoral students in the Collaborative Specialization in One Health must complete:

- **ONEH*6000 One Health Approaches to Research** [0.50]
  - A multidisciplinary course for graduate students that provides in-depth knowledge on the One Health approach, exploring complex issues at the interface of human, animal, and environmental health. Active learning lessons will foster strong skill development for One Health research in collaboration, systems thinking, transdisciplinarity, critical thinking, problem solving, leadership, and communication.

  *Restriction(s):* Instructor consent required. Preference will be given to students in the Collaborative Specialization in One Health. If capacity remains after enrolling those students, any other student is eligible to take the course.

  *Department(s):* Department of Population Medicine

- **ONEH*6100 Master’s Seminar in One Health** [0.50]
  - This course offers a university-wide multidisciplinary forum for discussion of One Health. Master’s students will discover One Health through different disciplinary lenses, facilitate and actively engage in academic discussion about One Health, and practice leadership and networking skills necessary for success as a One Health practitioner.

  *Prerequisite(s):* ONEH*6000

  *Restriction(s):* Instructor consent required. Preference will be given to master's students in the Collaborative Specialization in One Health. If capacity remains after enrolling those students, any other master's student is eligible to take this course.

  *Department(s):* Department of Population Medicine

- **ONEH*6200 Doctoral Seminar in One Health** [0.50]
  - This course offers a university-wide multidisciplinary forum for discussion of One Health. Doctoral students will discover One Health through different disciplinary lenses, facilitate and actively engage in academic discussion about One Health, and practice leadership and networking skills necessary for success as a One Health practitioner.

  *Prerequisite(s):* ONEH*6000

  *Restriction(s):* Instructor consent required. Preference will be given to doctoral students in the Collaborative Specialization in One Health. If capacity remains after enrolling those students, any other doctoral student is eligible to take this course.

  *Department(s):* Department of Population Medicine
