Disclaimer
The Office of Graduate Studies has attempted to ensure the accuracy of this on-line Graduate Calendar. However, the publication of information in this document does not bind the university to the provision of courses, programs, schedules of studies, fees, or facilities as listed herein.

Limitations
The University of Guelph reserves the right to change without notice any information contained in this calendar, including any rule or regulation pertaining to the standards for admission to, the requirements for the continuation of study in, and the requirements for the granting of degrees or diplomas in any or all of its programs.
The university will not be liable for any interruption in, or cancellation of, any academic activities as set forth in this calendar and related information where such interruption is caused by fire, strike, lock-out, inability to procure materials or trades, restrictive laws or governmental regulations, actions taken by the faculty, staff or students of the university or by others, civil unrest or disobedience, Public Health Emergencies, or any other cause of any kind beyond the reasonable control of the university.
The University of Guelph reaffirms section 1 of the Ontario Human Rights Code, 1981, which prohibits discrimination on the grounds of race, ancestry, place of origin, colour, ethnic origin, citizenship, creed, sex, sexual orientation, handicap, age, marital status or family status.
The university encourages applications from women, aboriginal peoples, visible minorities, persons with disabilities, and members of other under-represented groups.
Introduction

Collection, Use and Disclosure of Personal Information

Personal information is collected under the authority of the University of Guelph Act (1964), and in accordance with Ontario's Freedom of Information and Protection of Privacy Act (FIPPA). [http://www.ontario.ca/document/fippa](http://www.ontario.ca/document/fippa). This information is used by University officials in order to carry out their authorized academic and administrative responsibilities and also to establish a relationship for alumni and development purposes. Certain personal information is disclosed to external agencies, including the Ontario Universities Application Centre, the Ministry of Advanced Education and Skills Development, and Statistics Canada, for statistical and planning purposes, and is disclosed to other individuals or organizations in accordance with the Office of Registrarial Services Departmental Policy on the Release of Student Information. For details on the use and disclosure of this information call the Office of Registrarial Services at the University at (519) 824-4120 or see [https://www.uoguelph.ca/registrar](https://www.uoguelph.ca/registrar).

Statistics Canada - Notification of Disclosure

For further information, please see Statistics Canada's web site at [http://www.statcan.gc.ca](http://www.statcan.gc.ca) and Section XIV Statistics Canada.

Address for University Communication

Depending on the nature and timing of the communication, the University may use one of these addresses to communicate with students. Students are, therefore, responsible for checking all of the following on a regular basis:

Email Address

The University issued email address is considered an official means of communication with the student and will be used for correspondence from the University. Students are responsible for monitoring their University-issued email account regularly.

Home Address

Students are responsible for maintaining a current mailing address with the University. Address changes can be made, in writing, through Registrarial Services.

Name Changes

The University of Guelph is committed to the integrity of its student records, therefore, each student is required to provide either on application for admission or on personal data forms required for registration, his/her complete, legal name. Any requests to change a name, by means of alteration, deletion, substitution or addition, must be accompanied by appropriate supporting documentation.

Student Confidentiality and Release of Student Information Policy Excerpt

The University undertakes to protect the privacy of each student and the confidentiality of his or her record. To this end the University shall refuse to disclose personal information to any person other than the individual to whom the information relates where disclosure would constitute an unjustified invasion of the personal privacy of that person or of any other individual. All members of the University community must respect the confidential nature of the student information which they acquire in the course of their work.

Complete policy at [https://www.uoguelph.ca/secretariat/office-services/university-secretariat/university-policies](https://www.uoguelph.ca/secretariat/office-services/university-secretariat/university-policies).

IX. Graduate Programs, Psychology

Psychology

The Department of Psychology offers programs in four fields of psychology: 1) applied social psychology, 2) clinical child and adolescent psychology, 3) industrial/organizational psychology and 4) neuroscience and applied cognitive science.

- **Applied Social Psychology (MA, PhD)**
  Applied Social Psychology is based on the investigation of social processes and problems of significance to the general community and to specific groups. Areas of investigation may include, but are not limited to, aging, ethics, health, policy, equity, community services, the environment, ethnicity, and gender. Diverse research strategies, including qualitative and quantitative methods, are used to answer questions related to social issues. Graduate study in Applied Social Psychology is designed to prepare students for academic and applied research careers in a wide range of settings. The graduate program has two emphases: (1) the pursuit of advanced research, and (2) the design and evaluation of programs that aim to reduce social problems and promote human welfare.

- **Clinical Child and Adolescent Psychology (MA, PhD)**
  The area of Clinical Child and Adolescent Psychology concentrates on understanding the development and treatment of psychological disorders experienced by children, youth, and families. This includes a focus on the social, emotional, cognitive, and neurobiological features of normal and atypical development; risk and protective factors that influence the nature and progression of atypical development and response to treatment; and approaches to assessment, psychodiagnosis, and intervention. Also considered is the developmental impact of stressful life events such as divorce, illness, poverty, adoption, and death. Training in this field follows an integrated series of courses and practica which contribute to and mutually support the students’ acquisition of competence as both practitioners and researchers. Students participate in our on-campus clinic, the Centre for Psychological Services, and complete off-campus practica in hospitals, schools, and mental health settings under the supervision of registered psychologists. This training allows students to enter careers involving clinical and/or research positions in mental health centres, hospitals, schools, and the private sector, as well as careers involving teaching and research in university settings. It also prepares students for registration as psychologists with provincial licensing boards.

- **Industrial/Organizational Psychology (MA, PhD)**
  The objective of study in the area of Industrial/Organizational Psychology is to train future professionals in the area of Industrial/Organizational Psychology following the guidelines established by the Canadian Society for Industrial/Organizational Psychology. Graduate students are expected to obtain a high level of proficiency in both research skills and practice in the core areas of Industrial/Organizational Psychology including personnel selection, organizational behaviour, work attitudes, performance appraisal, and measurement of individual differences. Graduates from this field of study will be in a position to enter careers in a wide range of private and public sector organizations, including universities, consulting firms, industries, and government agencies.

- **Neuroscience and Applied Cognitive Science (MSc, PhD)**
  This program encompasses: basic cognitive processes, behavioural neuroscience, cognitive ergonomics, cognitive neuroscience, developmental and life-span cognition, and foundations of cognitive science. Students in these disciplines have the opportunity to learn about the interdisciplinary work of other students, faculty and outside researchers in the weekly research seminar in Neuroscience and Applied Cognitive Science. Additionally, students take courses specific to their research. A unique feature of this area of study is the practicum that provides students with additional specific training in a research laboratory, hospital, government agency, or non-government agency.

Note that the Masters programs are an integral part of the doctoral studies and students are admitted with the expectation of completing the doctoral degree. These areas of study, which are described below, provide training in both research and professional skills, as well as a firm grounding in theory and research in relevant content areas. See the department website at [http://www.psychology.uoguelph.ca](http://www.psychology.uoguelph.ca) for additional information.

Faculty in Psychology also participate in the interdepartmental programs in Neuroscience and Toxicology.

### Administrative Staff

- **Chair**
  Francesco Leri (4013 MacKinnon, Ext. 58264)
  fleri@uoguelph.ca

- **Graduate Program Coordinator (Summer 2018)**
  Daniel Meegan (3018 MacKinnon, Ext. 54999)
  dmeegan@uoguelph.ca

- **Graduate Program Coordinator (effective Fall 2018)**
  Peter Hausdorf (3013 MacKinnon Ext, Ext. 53976)
  phausdorf@uoguelph.ca

- **Graduate Program Assistant**
  Robin Sorbara (4014 MacKinnon, Ext. 53508)
  robinfra@uoguelph.ca

- **Graduate Faculty**

  - Naseem Al-Aidroos
    BSc Waterloo, MA, PhD Toronto - Associate Professor

  - Heidi N. Bailey
    BA British Columbia, PhD Western - Associate Professor

  - Paula Barata
    BA British Columbia, MA, PhD Windsor - Associate Professor

  - Patrick Barclay
    BSc Guelph, PhD McMaster - Associate Professor

  - Elena Choleris
    BSc, PhD Parma (Italy) - Professor

  - Donald Dedrick
    BA, MA Carleton, PhD Toronto - Associate Professor, (cross-appointed with Department of Philosophy)

  - Serge Desmarais
    BA, MA, PhD Waterloo - Professor

  - Mark J. Fenske
    BSc Lethbridge, MA, PhD Waterloo - Associate Professor

  - Christopher Fiaccioni
    BSc Western, PhD McMaster - Assistant Professor

  - Benjamin Giguère
    BA McGill, MA, PhD York - Associate Professor

  - Harjinder Gill
    BA Waterloo, MA, PhD Western Ontario - Associate Professor

  - Gloria Gonzalez-Morales
    BA La Laguna, DIPL., PhD Valencia - Associate Professor

  - Peter A. Hausdorf
    BSc McMaster, MA Guelph, PhD McMaster - Associate Professor and Graduate Program Coordinator

  - Karl H. Hennig
    BEd, MA, PhD British Columbia - Assistant Professor

  - Francesco Leri
    BA, MA, PhD McGill - Professor and Chair

  - Stephen Lewis
    BSc, PhD Dalhousie - Associate Professor

  - Margaret N. Lumley
    BA Waterloo, MA, PhD Queen's - Associate Professor and Director of Clinical Training

  - Harvey H.C. Marmurek
    BA Toronto, MA, PhD Ohio State - Professor

  - Kaitlyn McLachlan
    BA York, MA, PhD Simon Fraser - Assistant Professor

  - C. Meghan McMurtry
    BA Laurier, PhD Dalhousie - Associate Professor

  - Daniel V. Meegan
    BA SUNY at Albany, PhD McMaster - Associate Professor

  - Barbara A. Morrongiello
    BA Douglass College (Rutgers), MS, PhD Massachusetts - Professor, Campus Research Chair

  - Jennifer Murray
    BSc Nebraska-Kearney, MA, PhD Nebraska-Lincoln - Assistant Professor

  - Ian R. Newby-Clark
    BSc Toronto, PhD Waterloo - Professor

  - Kieran O’Doherty
    BSc Witwatersrand, BHSc, PhD Adelaide - Associate Professor

  - Linda A. Parker
    BA, MA California State, Long Beach PhD Memorial - Professor, Canada Research Chair

  - Deborah Powell
    BA Queen's, MA, PhD Western - Associate Professor

  - Saba F. Safdar
    BA McMaster, MA, PhD York - Professor

  - Leanne S.M. Son Hing
    BA Queen’s, MA, PhD Waterloo - Associate Professor

  - Jeffrey Spence
    BA Laurier, MA, PhD Waterloo - Associate Professor

  - David Stanley
    BA Waterloo, MA, PhD Western Ontario - Associate Professor

  - Kristel Thomassen
    BA Vanderbilt, MSc, PhD Georgia - Assistant Professor

  - Lana M. Trick
    BSc Calgary, MA, PhD Western Ontario - Professor
Research Design and Statistics

Thesis research students will carry out an independent research project under the supervision of a faculty supervisor. This will involve a thesis for the Masters program.

Industrial/Organizational Psychology

PSYC*6060 [0.50] Research Design and Statistics
PSYC*6380 [0.50] Psychological Applications of Multivariate Analysis
PSYC*6670 [0.50] Research Methods
PSYC*7080 [0.00] Consulting in Industrial/Organizational Psychology
PSYC*7130 [0.50] Introduction to Industrial/Organizational Psychology

At least 2 of the following set of 3 electives:
PSYC*7010 [0.50] Recruitment and Selection: Methods and Outcomes
PSYC*7020 [0.50] Employee Performance
PSYC*7160 [0.50] Employee Development: Methods and Outcomes

At least 2 of the following set of 3 electives:
PSYC*7030 [0.50] Work Attitudes and Behaviour
PSYC*7040 [0.50] Social Processes in the Workplace
PSYC*7190 [0.50] Work Motivation and Leadership
And MA Thesis

MSc Program

The MSc program is offered in the field of: 1) Neuroscience and Applied Cognitive Science.

Admission Requirements

Consideration for admission to the MSc program will be given to students with an honours BA or BSc (or its equivalent) in Psychology or a related field of study (e.g. neuroscience) and a minimum of a 'B+' standing. Students are normally expected to have taken courses across the breadth of psychology with some courses in the area to which they are applying. A strong background in methodology and statistics is expected. As well, applicants must have undertaken an Honours thesis research project or senior research project equivalent. Students are admitted to the MSc program with the understanding that they intend to proceed to the PhD program.

Degree Requirements

The program involves three components:

1. Preparatory Course Work Students will acquire knowledge and skills necessary to carry out our Neuroscience and Cognitive Science research in academic and/or applied settings. This will involve a course in Research Design and Statistics, a course in Research Ethics (Animal research ethics or Human research ethics), at least one elective in their specific field of research and the Research Seminar in Neuroscience and Applied Cognitive Science.

2. Practicum One of the unique features of University of Guelph's Neuroscience and Applied Cognitive Science masters program is the practicum. Students will complete a practicum in a variety of research settings, including government agencies, hospitals, businesses, and other research laboratories. The practicum may involve learning a new technique in a laboratory other than that of the advisor. Practicum experiences will be tailored to the student's interests, and will enable students to acquire and refine their skills and develop professional contacts. The research practicum is a required course for Masters students.

3. Thesis Research Students will carry out an independent research project under the supervision of a faculty supervisor. This will involve a thesis for the Masters program.

Degree Requirements

Applied Social Psychology

PSYC*6060 [0.50] Research Design and Statistics
OR
PSYC*6940 [0.50] Discrete-variable Statistics
(upon consultation with Advisor as to which is most appropriate)
PSYC*6471 [0.50] Practicum I
PSYC*6880 [0.25] Ethical Issues in Psychology
At least 2 of the following 3 core AS courses:
PSYC*6910 [0.50] Critical Approaches to Applied Social Psychology
PSYC*6920 [0.50] Applied Social Psychology and Intervention
PSYC*6930 [0.50] Community, Culture & Global Citizenship
At least 1 elective from the following list:
PSYC*6380 [0.50] Psychological Applications of Multivariate Analysis
PSYC*6521 [0.25] Research Seminar I
PSYC*6670 [0.50] Research Methods
PSYC*6840 [0.50] Program Evaluation
PSYC*6950 [0.50] Qualitative Methods in Psychology
PSYC*7070 [0.50] Psychological Measurement
And MA Thesis.

Clinical Child and Adolescent Psychology

PSYC*6000 [0.50] Developmental Psychopathology: Etiology and Assessment
PSYC*6010 [0.50] Integrated Child and Adolescent Assessment
PSYC*6020 [0.50] Clinical and Diagnostic Interviewing Skills
PSYC*6060 [0.50] Research Design and Statistics
OR
PSYC*6940 [0.50] Discrete-variable Statistics
(upon consultation with Advisor as to which is most appropriate)
PSYC*6630 [0.50] Developmental Psychology
PSYC*6690 [0.50] Foundations in Cognitive Assessment of Child and Adolescents
PSYC*6700 [0.50] Personality and Social Assessment of Children and Adolescents
PSYC*6880 [0.25] Ethical Issues in Psychology
PSYC*7991 [0.25] CCAP Clinical Practicum I
PSYC*7992 [0.50] CCAP Clinical Practicum II
And MA Thesis.
PhD Program

The PhD program is offered in the fields: 1) applied social psychology; 2) clinical child and adolescent psychology; 3) industrial/organizational psychology and 4) neuroscience and applied cognitive science.

Admission Requirements

Students must have completed Masters requirements in the appropriate field of study (Neuroscience and Applied Cognitive Science; Applied Social Psychology; Clinical Child and Adolescent Psychology; Industrial/Organizational Psychology) with a minimum ‘A’-standing to be eligible for admission to the PhD program. These Masters requirements are normally met within the department in a two-year course of studies comprising specified course work and a thesis. Students admitted to the PhD program who have completed MA or MSc degrees in other fields of study and/or from other universities may be required to take Masters level courses and complete clinical practica to ensure adequate background preparation for PhD work.

Students are also given the option of choosing a graduate elective from outside this list with the permission of their advisor.

Qualifying Exam; And PhD Thesis

Collaborative Specializations

Faculty in Psychology also participate in the collaborative specializations in Neuroscience and Toxicology

Courses

Restriction: All courses are restricted to Psychology graduate students; all others are by permission only. Students from all areas of Psychology may choose from the Department Core courses. For convenience, the other graduate courses are categorized by area, but students from any area may take courses from outside their specific area with the permission of their thesis advisor and with instructor consent. In fact, in some cases, students are encouraged to take courses out of area as these courses are specified in their list of electives or required courses.

An independent in-depth study of current theoretical and empirical issues in the student’s area of specialization.

Department(s): Department of Psychology

December 13, 2018
PSYC*6402 Reading Course II U [0.50]
An independent in-depth study of current theoretical and empirical issues in the student's area of specialization.
Department(s): Department of Psychology

PSYC*6411 Special Problems in Psychology I U [0.25]
A critical examination of current problems relating to conceptual and methodological developments in an area of psychology.
Department(s): Department of Psychology

PSYC*6412 Special Problems in Psychology II U [0.50]
A critical examination of current problems relating to conceptual and methodological developments in an area of psychology.
Department(s): Department of Psychology

PSYC*6471 Practicum I U [0.50]
Students will gain 2-3 days per week of supervised experience in a setting related to their field of specialization.
Department(s): Department of Psychology

PSYC*6472 Practicum II U [1.00]
See PSYC*6471. Students work four to five days a week in the selected setting.
Department(s): Department of Psychology

PSYC*6473 Practicum III U [0.25]
See PSYC*6471. This course is intended for students who wish to gain additional practicum experience after completing the requirements for PSYC*6471/PSYC*6472. Students work one day a week in the selected setting.
Department(s): Department of Psychology

PSYC*6521 Research Seminar I U [0.25]
An in-depth review of current theoretical and empirical developments in topic areas related to the student's area of specialization.
Department(s): Department of Psychology

PSYC*6522 Research Seminar II U [0.50]
An in-depth review of current theoretical and empirical developments in topic areas related to the student's area of specialization. The course requirements may include the completion of an empirical research project.
Department(s): Department of Psychology

PSYC*6670 Research Methods U [0.50]
This course emphasizes those techniques most frequently used in applied and field settings. These include: quasi-experimental designs, survey research, interviewing, questionnaire design, observational techniques, and other more qualitative methods.
Department(s): Department of Psychology

PSYC*6880 Ethical Issues in Psychology U [0.25]
Relevant issues in the application of professional ethical standards to the practice of psychology, including consultation, field research, intervention, and decision-making models are discussed in this half course. Depending on the particular faculty and students involved, discussion emphasizes specific applications to either I/O or applied developmental/social psychology.
Department(s): Department of Psychology

PSYC*6890 Legislation and Professional Practice U [0.25]
This companion course to PSYC*6880, Ethics in Psychology, provides an introduction to the Provincial and Federal legislation governing the practice of psychology. Students will become familiar with legislation relevant to professional practice with children and adults in hospital, educational, community, and other settings.
Co-requisite(s): PSYC*6880
Department(s): Department of Psychology

PSYC*6900 Philosophy and History of Psychology as a Science U [0.50]
This doctoral course examines the philosophical and metatheoretical issues involved in the historical context of these issues and the status of current metatheoretical debates are covered.
Department(s): Department of Psychology

PSYC*6940 Discrete-variable Statistics U [0.50]
This course is an in-depth examination of statistical approaches used in psychology, with an emphasis on experimental research designs with discrete independent variables (e.g., t-test, ANOVA, general linear model), and how these approaches address ongoing statistical challenges faced by psychological researchers, such as replication and generalizability.
Department(s): Department of Psychology

PSYC*6950 Qualitative Methods in Psychology U [0.50]
The purpose of this course is to provide students with foundational knowledge and skills to conduct qualitative research in psychology. Approaches that will be covered may include discursive psychology, critical discourse analysis, grounded theory, thematic analysis, ethnography, and interpretive phenomenological analysis.
Department(s): Department of Psychology

PSYC*7070 Psychological Measurement U [0.50]
Concepts and applications of classical measurement theory, especially reliability and validity of tests and measurements used in applied psychology. Principles of test construction, standardization, norming, administration, and interpretation are discussed, as well as integration of test information and its use in decision making.
Restriction(s): Instructor consent required.
Department(s): Department of Psychology

Neuroscience and Applied Cognitive Science

PSYC*6740 Research Seminar in Neuroscience and Applied Cognitive Science A U [0.50]
This course will expose graduate students to some of the major theories, issues and methodologies driving research in the broad field of Neuroscience and Applied Cognitive Science. Students will learn to critically evaluate presentations by researchers as well as to communicate the results of their own research, in both a written and oral format. All first year master's students in NACS are required to enroll in this course in both the fall and winter semesters.
Department(s): Department of Psychology

PSYC*6750 Applications of Cognitive Science U [0.50]
This course surveys applications of cognitive science to the problem of optimizing human performance. Topics of discussion will include human-system interactions (including Human-Computer and Human-Vehicle), education, and cognitive rehabilitation.
Department(s): Department of Psychology

PSYC*6760 Research Seminar in Neuroscience and Applied Cognitive Science B U [0.00]
This course will expose graduate students to some of the major theories, issues and methodologies driving the research broad field of Neuroscience and Applied Cognitive Science. Students will learn to critically evaluate presentations by researchers in this field as well as to communicate the results of their own research, in both a written and oral format. All second year master's and doctoral students in NACS are required to enroll in this course each fall and winter semester of their graduate program until they graduate.
Department(s): Department of Psychology

PSYC*6780 Foundations of Cognitive Science U [0.50]
Cognitive Science is an inter-disciplinary field that encompasses cognitive psychology, neuroscience, philosophy, and computer science. The foundational issues and basic methodologies that define cognitive science will be discussed, with specific examples from perception, learning, memory, language, decision-making, and problem solving.
Restriction(s): Restricted to Psychology graduate students; all others by permission only.
Department(s): Department of Psychology

PSYC*6790 Memory and Cognition U [0.50]
This course reviews the major theories, issues, and methodologies guiding contemporary research in human memory and related aspects of human cognition. Topics include the encoding and retrieval of information, the nature of representations in memory, classifications of memory, and applications to reading and eyewitness testimony.
Department(s): Department of Psychology

PSYC*6800 Neurobiology of Learning U [0.50]
This course reviews the major theories, issues, and methodologies guiding contemporary research in the neurobiology of learning.
Department(s): Department of Psychology

PSYC*6810 Neuropsychology U [0.50]
This course focuses on current developments in neuropsychology. Particular emphasis is placed on the aphasias, apraxias, memory disorders, and disorders of movement.
Department(s): Department of Psychology

Applied Social Psychology

PSYC*6270 Issues in Social Policy U [0.50]
This doctoral course examines historical developments and selected contemporary policy domains in Canada. Topics may include policies affecting children, families, the elderly, First Nations people, the mentally and physically disabled, and one parent families. The course also addresses the interplay between social and psychological research and policy formation, as well as the use of social policy as an instrument of social change.

**Restrictions:**
- Open only to graduate students in the relevant program.
- Specific prerequisites may apply.
- Instructor consent required.
A mark of satisfactory (SAT) in this course indicates that a student in the Clinical Child and Adolescent Psychology (CCAP) field has successfully completed a full year (1800-2000 hour) internship in an accredited clinical setting (e.g., CPA or APA) approved by the Director of Clinical Training for CCAP.

Prerequisite(s): Completion of all course work in the CCAP field, the PhD qualifying examination, and the PhD Thesis proposal at the time of application, one year in advance of beginning the clinical internship.

Department(s): Department of Psychology

Industrial/Organizational Psychology

PSYC*7010 Recruitment and Selection: Methods and Outcomes U [0.50]
The course explores organizational issues in the recruitment and selection of new employees. Topics may include: individual differences, human rights, survey-based job analysis, recruitment methods and outcomes, selection methods and outcomes, hiring, decision making and employee placement/classification.

Department(s): Department of Psychology

PSYC*7020 Employee Performance U [0.50]
This course focuses on issues that relate to employee performance. Individuals and organizations are interested in maximizing the contributions of employees at work. This course focuses on performance-based job analysis, criterion theory, performance management/appraisal, employee socialization, compensation, benefits, technology, and labour relations.

Department(s): Department of Psychology

PSYC*7030 Work Attitudes and Behaviour U [0.50]
This course examines micro-level influences on organizational behaviour. Topics may include: organizational commitment, job satisfaction, emotions, other work attitudes and attitude change, organizational citizenship behaviours, withdrawal behaviours, employee well-being, deviance, and work-life integration.

Department(s): Department of Psychology

PSYC*7040 Social Processes in the Workplace U [0.50]
This course examines social processes in the workplace. Topics may include: groups, teams, and intergroup processes; justice; diversity in the workplace; prejudice and discrimination; harassment and unethical behaviour; climate, culture change; and, organizational development.

Department(s): Department of Psychology

PSYC*7050 Research Seminar in Industrial/Organizational Psychology U [0.00]
This course will expose graduate students to some of the major theories, issues, and methodologies driving research in the field of Industrial/Organizational psychology. Students will learn to critically evaluate presentations by researchers in this field, as well as to communicate the results of their own research, in both written and an oral format. All students are required to enroll in this course.

Restriction(s): Psychology students only.

Department(s): Department of Psychology

PSYC*7080 Consulting in Industrial/Organizational Psychology U [0.00]
The course introduces students to consulting in I/O Psychology through actual consulting projects with local organization. Topics include: marketing consulting services, understanding consulting, client and project management. Specific projects will vary from semester to semester based on work secured with local organizations (e.g. training, surveys, coaching).

Prerequisite(s): Registration in the graduate IO psychology program and permission of the Instructor.

Department(s): Department of Psychology

PSYC*7130 Introduction to Industrial/Organizational Psychology U [0.50]
This course introduces graduate students to a broad range of topics in Industrial/Organizational psychology. It emphasizes researcher-practitioner issues, consumer behaviour, professionalism, ethics, and theory building. As well, graduate students will learn about contemporary issues in I-O Psychology.

Department(s): Department of Psychology

PSYC*7140 Industrial/Organizational Psychology Special Topic Doctoral Research Seminar U [0.50]
Participants investigate a specific area of Industrial/Organizational psychology. They critically review past and current research, including theory development and empirical findings. Participants work together to integrate past theory and findings, to note inconsistencies in the literature, and to identify promising areas for future investigations.

Prerequisite(s): PSYC*7130

Department(s): Department of Psychology

PSYC*7160 Employee Development: Methods and Outcomes U [0.50]
This course explores development in an organization context. Employee learning and development is a key focus for employees and organizations. This course covers functional job analysis, career development, succession management, multi-source feedback, training, coaching/mentoring and employee counseling.

Department(s): Department of Psychology

PSYC*7170 Industrial/Organizational Psychology Doctoral Research Internship I U [0.50]
Participants work with an Industrial Organizational faculty member to conduct research on a topic of mutual interest (other than their doctoral research). They collect and/or analyze data and write up results with the goal of producing a conference presentation and/or a quality publication manuscript.

Prerequisite(s): PSYC*7130

Restriction(s): Instructor consent required.

Department(s): Department of Psychology

PSYC*7180 Industrial/Organizational Psychology Doctoral Research Internship II U [0.50]
Participants work with an Industrial Organizational faculty member to conduct research on a topic of mutual interest (other than their doctoral research). They collect and/or analyze data and write up results with the goal of producing a conference presentation and/or a quality publication manuscript.

Prerequisite(s): PSYC*7130, PSYC*7140, PSYC*7170

Restriction(s): Instructor consent required.

Department(s): Department of Psychology

PSYC*7190 Work Motivation and Leadership U [0.50]
This course examines theories, research, and application of work motivation and leadership within an organizational context. The course will include a description of classic and contemporary theories of work motivation and leadership, a critical evaluation of the research findings, and a discussion of the application of the research findings to the work environment.

Restriction(s): Psychology students only.

Department(s): Department of Psychology
