## Bachelor of Applied Arts in Media Studies (BAMS) - Diploma in Media Communications

Media outlets continue to grow and diversify at a tremendous rate across Canada, North America and throughout the world. Information is delivered and shared in ways today that would not have been imagined ten years ago. The public appetite for information fuels this growth, with hundreds of television and radio stations, unlimited internet availability and expanding (and specializing) magazine and newspaper options.

At the University of Guelph-Humber, the Media Studies program allows students to explore these and other emerging trends and to study the historical, social, cultural and ethical dimensions of the field through exposure to courses that challenge them to think, read and write critically. Other courses aim to teach students how to work in a team environment to achieve a goal related to their specialization, such as: producing a newspaper or television broadcast, or promoting and managing a large event, producing a body of photographic work or creating of multi-platform communication vehicles through digital technology.

Specializations are offered in Journalism, Public Relations, Image Arts (Photography), Digital Communication and Media Business. Students in all specializations are required to complete 20.00 credits in order to be eligible for graduation: 13.50 core media studies credits, 5.00 specialization credits and 1.50 elective credits. Students must complete these requirements in order to be eligible to graduate with both the university honours degree (awarded by the University of Guelph) and the college diploma (awarded by Humber). No option exists to graduate with only one of the above listed credentials as the program is fully integrated.

### Digital Communications (DC)

The pivotal role of the World Wide Web in communication has created a demand for cross-disciplinary specialists who can execute multi-platform communication strategies on behalf of corporations, consulting agencies, government and non-profit organizations. Students in the Digital Communication profile will develop their research, photographic, web design and project management skills as they create content using current software applications such as Photoshop, InDesign, Flash and Fireworks.

### Image Arts (IA)

Students in the Image Arts stream are exposed to all aspects of digital and print photography leading to a diploma in Media Communications. Students study the world of media with a particular focus on visual communication, photographic techniques, and photo-based art practices. An innovative photography lab is available for projects and experiential learning.

### Journalism (J)

In Journalism, students have the opportunity to report on local and world events for various types of media. The program features training in writing for newspapers, magazines, and the Internet; it also offers experience in radio and television broadcasting. Students have access to a state-of-the-art broadcast studio and will produce a newspaper and newscast as part of the program.

### Media Business (MB)

The business aspects of the media industry are explored in the Media Business stream. Students learn the fundamentals of business including marketing, sales, management and advertising. Through a combination of theoretical and hands-on courses students learn how to analyze a marketplace, create effective marketing plans and develop multi-platform advertising messages on behalf of clients.

### Public Relations (PR)

The Public Relations stream aims to teach students to become adept at using the media to communicate for business, government, and other organizations. Courses such as Media Relations, Event Management, and Writing for Public Relations offer skills for writing and producing timely and accurate information. Students take part in off-campus ventures for real-world experience in fundraising and event management.

### Conditions for Graduation

In addition to meeting all program specific course and credit requirements, students must have a minimum 60% cumulative average in order to be eligible for graduation. Students will not normally be eligible to graduate while on Probationary status or Required to Withdraw status. A student denied graduation while on Probationary status or Required to Withdraw status may submit a request for Academic Consideration to the Academic Review Sub-Committee.
