Bachelor of Commerce (B.Comm)

The University of Guelph offers an 8 semester honours program leading to a Bachelor of Commerce degree. Students must select one of the following 8 major areas of study:

Agricultural Business
 Hotel and Food Administration
 Housing and Real Estate Management
 Human Resources Management
 Management Economics in Industry and Finance
 Marketing Management
 Public Management
 Tourism Management

The program is of an interdisciplinary nature drawing, according to the major, on appropriate courses in the humanities; social sciences; food, physical and biological sciences. It is designed to give students a broad exposure to the basic disciplines (e.g. economics, psychology or sociology) and a sound professional management education with a focus on specific industry sectors or management functions which prepare the graduates to assume positions of responsibility in particular areas of management and business. The early semesters are devoted to instruction in the basic disciplines while the later semesters are devoted to more professional studies. Students who complete these majors may be given credit on a subject for subject basis for courses in the first year of an M.B.A. program.

Program Information

Academic Counselling

Program Counselling

The B.Comm. program counsellor is available to assist prospective students in the selection of their major and initial courses, and to respond to questions regarding any other aspects of their anticipated program. The program counsellor will also assist in-course students who need information or advice about their program or other academic regulations, who seek information on services and resources available to students or who are contemplating transfer into or out of their current major or degree program.

Departmental Advising

On entering the program, all students are assigned a departmental advisor to whom they may turn for consultation in scheduling of courses and selection of electives, academic requirements of the program, and information concerning career opportunities. The required course selections and, where required, restricted electives are presented in the following pages.

Special Expenses

Expenses may include cost of field trips and supplies and, for some majors, laboratory coats and other protective clothing.

Study Abroad

Global understanding and perspectives are regarded as being of central importance among the university's learning objectives, as they are, also, in understanding the international business environment. On both of these accounts, students enrolled in the B.Comm. program are urged to participate in one of the several exchange and study abroad programs specifically designed for the Commerce program. Planning for such participation is best undertaken quite early in the course of studies. For more specific information on the opportunities provided for a semester in France and other locations refer to Section V--International Study or contact the B.Comm. program counsellor.

Continuation of Studies

Students are advised to consult the regulations for Continuation of Study within the program which are outlined in detail in Section VIII--Undergraduate Degree Regulations and Procedures

Conditions of Graduation

To qualify for a Bachelor of Commerce degree for a specific major the student must successfully complete a minimum of 20.00 approved credits. The requirements for each major are set out in the schedule of studies.

Schedule of Studies

Courses specified in the schedule of studies are required courses and must be completed successfully. A full course load normally involves 2.50 credits. The requirements for each major are set out below.

Agricultural Business (AGBU)

Department of Agricultural Economics and Business, Ontario Agricultural College.

The Agricultural Business major is concerned with the management problems of business firms and prepares students for a range of management careers in agribusiness.

Graduates of the Agricultural Business program meet the educational requirements for membership in the Ontario Institute of Agrologists. The Ontario Institute of Agrologists is the professional organization in agriculture in the Province of Ontario. Professional institutes in the various provinces in Canada and the scientific societies in agriculture

collectively comprise the Agricultural Institute of Canada. The program has been fully accredited by the Agricultural Institute of Canada.

Included in the core requirements, the Agricultural Business program provides students with the option of selecting from the Restricted Electives list courses that will compliment their studies. The first option (List A) is designed for students more interested in the business relationships of farming and involves marketing and advanced farm management. The second option (List B) emphasizes the production aspects of farming and involves biology and either animal or plant systems.

The major is administered by the Department of Agricultural Economics and Business in the Ontario Agricultural College and students are urged to consult the departmental advisor. For this major, 15.00 of the 20.00 credits (including 1.50 credits from List A or List B) are specified as core requirements and the remaining 5.00 credits are specified as electives.

Hotel and Food Administration (HAFA)

School of Hospitality and Tourism Management, College of Social and Applied Human Sciences.

The Hotel and Food Administration major prepares graduates to assume positions of responsibility in any aspect of the hospitality field. It includes principles of administration, theories of interpersonal relations, human resources management, and communications. Distinctive courses include Hospitality Facilities Management and Design and Lodging Management. The courses in this program relate to the management of both the accommodation and food service facilities used by the public and private sector. The major is administered by the School of Hospitality and Tourism Management and students are urged to consult the departmental advisor.

For this major, 14.50 of the 20.00 credits are specified as core requirements, 3.00 as restricted electives, and 2.50 as electives. Verified work experience in the hospitality industry is required for students to be eligible for graduation.

Group work is a significant part of core credit work.

Hotel and Food Administration (Co-op) (HAFA:C)

School of Hospitality and Tourism Management, College of Social and Applied Human Sciences.

The principal aim of the Hotel and Food Administration Co-op program is to facilitate the transition of students from academic studies to a professional work life by enhancing the integration of theory and practice. The major is administered by the School of Hospitality and Tourism Management and students are urged to consult the departmental co-op faculty advisor. The co-op work program consists of one twelve-month period. The work semester begins at the end of the second year and extends from May to April. The co-op program is completed over a 5 year period. The academic program consists of 20.00 credits, 15.00 of which are specified as core requirements, 2.50 as restricted electives, and 2.50 as electives.

Housing and Real Estate Management (HREM)

Department of Marketing and Consumer Studies, College of Social and Applied Human Sciences.

The Housing and Real Estate Management major in the B.Comm. program offers a multi-disciplinary approach to the study of housing, focusing on the delivery of housing services, the management of housing and real estate and on the economic and social policy context.

The major shares a common core with other majors in the B.Comm. program. The focus of the major is on the development of conceptual, analytical and management skills required for professional careers in the field of housing and real estate management.

Students in the major study housing and real estate in the context of an assemblage of physical, financial, legal, political and social elements, making linkages between and among elements and then use this knowledge to apply to the management and analysis of housing services systems, and the appraisal of housing policy.

Students graduate with a degree leading to a variety of professional positions in the public and private sectors or continue on to graduate work in business, planning or the social sciences.

Students in the Housing and Real Estate Management major are required to take the courses listed below. In addition, some may wish to make use of groupings of elective courses in order to pursue individual interests or develop additional focus.

Human Resources Management (HRM)

Department of Psychology, College of Social and Applied Human Sciences.

The HRM program provides some basic preparation for students contemplating a career as a Human Resources practitioner, and for potential certification by the Human Resources Professionals Association of Ontario (HRPAO). It complements a traditional business core with an emphasis on issues relating to people and the workplace. The program combines conceptual and quantitative elements and promotes the integration of theory with practice. A feature of the program is a required applied research course, where

students conduct group projects in workplace settings under the direction of a faculty member.

Presently the HRM program meets all four academic requirements of the Tier I Compulsory Subjects set out by the Human Resources Professionals Association of Ontario. Our objective is to meet 50% of the Tier II Specialized Subjects.

For this major, 15.00 of the 20.00 credits are specified as core requirements and the remaining 5.00 as electives. A list of suggested electives follows the description of required courses.

Note: Psychology Courses designated with (H) in Section XII--Course Descriptions are Honours level Psychology courses requiring for registration a cumulative average of at least 70% in all course attempts in Psychology or registration in the Human Resources Management major of the Bachelor of Commerce program.

Management Economics in Industry and Finance (MEIF)

Department of Economics, College of Social and Applied Human Sciences.

The Management Economics in Industry and Finance major is designed to offer students an appreciation of business problems in the areas of industrial organization and finance using the analytical orientation of the discipline of Economics and the tools of Business Management, Marketing and Accounting. This major combines the applied thrust of business courses with the analytical rigor of Economics.

The major provides a suitable education for a career in the business world or in the public service. It also constitutes a useful preparation for more advanced studies, including graduate studies in Economics, Business Administration, Law, and Public Policy. The major is administered by the Department of Economics and students are urged to consult the faculty advisor.

In addition to the Management Economics in Industry and Finance core, students will choose their restricted electives from the List of Restricted Electives. In selecting the restricted electives, students have a choice of either following a program of studies that covers a wide spectrum of topics in the areas of Industry and Finance or declaring an Area of Emphasis if they wish to pursue the study of Industry or Finance in more depth. Students that identify an Area of Emphasis will choose their restricted electives from the appropriate list of restricted electives below. Students wishing to have an Area of Emphasis are encouraged to declare their Area of Emphasis by Semester 4, in order to facilitate the availability of restricted electives. A planning guide is available in the department. Students should note that most courses carry prerequisites and that ECON*1050 and ECON*1100 are normally prerequisites for all other courses in Economics.

Students who fail any Economics course twice or who do not achieve a 65% average in Economics courses taken during the first 4 semesters in this major are likely to encounter difficulties in the more advanced courses. They are strongly advised to consult the faculty advisor in Economics to discuss the options available.

For this major, 9.50 credits are specified, 5.50 are restricted electives and 5.00 are free electives.

Marketing Management (MKMN)

Department of Marketing and Consumer Studies, College of Social and Applied Human Sciences.

The Marketing Management major is interdisciplinary and follows a liberal education philosophy.

Courses to be followed are from many disciplines, departments and colleges within the University, and are designed to span 5 component areas of study:

1. Literacy (writing and communication)
2. Numeracy (Mathematics, Statistics and Information Technology)
3. Social Science Foundations
4. Marketing Foundations (buyer/market studies)
5. Marketing Management

The approach taken in this major also places a special emphasis on research techniques for marketing as well as the requirements of marketing as a functional area of management. Students, while following the prescribed courses, may choose their electives in such a manner as to provide a particular applied focus to their marketing studies by a judicious choice from the other courses offered by the Department or the University. The major is administered by the Department of Marketing and Consumer Studies in the College of Social and Applied Human Sciences and students are urged to consult the departmental advisor or B.Comm. program counsellor.

For this major, 16.50 credits (2.00 selected from lists) are required and the remainder are electives.

Marketing Management (Co-op) (MKMN:C)**Department of Marketing and Consumer Studies, College of Social and Applied Human Sciences.**

A principal aim of the Co-op program is to facilitate the transition of students from academic studies to a professional career in Marketing Management by enhancing the integration of theory and practice.

The Co-op program consists of two eight month work terms. The first work term begins after the second year. The second work term commences after the third year of studies. The Co-op program is normally completed over a 5 year period.

To be eligible to continue in the Co-op Major students must maintain a satisfactory average, must complete all course requirements as scheduled and must obtain a minimum evaluation of "satisfactory" on all required work term reports. Consult the Co-op advisor or Department for additional information.

Public Management (PMGT)**Department of Political Science, College of Social and Applied Human Sciences.**

The Public Management program is designed to lead to an understanding of public sector administration and management from the "inside" - as an integrated enterprise - as well as from the outside - as a series of policy decisions and outcomes. Characterized by a multi-disciplinary approach employing both political and business-oriented analysis, students will confront questions of why politicians and public servants behave the way they do, and how their policy choices and processes can be optimized. Management of public entities features a unique set of challenges that arise from and interact with basic political issues like democracy, accountability, equity, fairness, and justice. At the same time it necessarily faces concerns common to all organizations, such as efficiency, human and capital resource management, morale, planning, and adaptation to change.

The program will appeal to students interested in the public service, public sector businesses or business-government relations. A co-ordinated sequence of courses is capped in the final year by a year long research project and thesis.

For this major, 15.00 of the 20.00 credits are specified as core requirements and the remaining 5.00 as electives. A list of suggested electives follows the description of required courses.

Tourism Management (TMGT)**School of Hospitality and Tourism Management, College of Social and Applied Human Sciences.**

As the world's largest industry, tourism encompasses a wide range of public and private enterprises that require knowledgeable and talented management professionals. The program in Tourism Management builds on a strong base of hospitality management courses (human resources management, accounting, finance, cost controls, hotel operations). In conjunction with these courses the program provides specialized courses dealing with the economic, social, cultural and environmental aspects of the industry as well as the critical functions of tourism marketing, distribution, planning and development. In addition, there are opportunities to develop expertise in eco-tourism and international tourism operations. The study of languages is a core component of this program. Verified work experience in the hospitality and tourism industry is required for students to be eligible to graduate. Group work is a significant part of core credit work.

For this major, 15.50 of the 20.00 credits are specified as core requirements, 2.00 as restricted electives (List A), and the remaining 2.50 as electives.
