Introduction

Collection, Use and Disclosure of Personal Information

Personal information is collected under the authority of the University of Guelph Act (1964), and in accordance with Ontario's Freedom of Information and Protection of Privacy Act (FIPPA) http://www.e-laws.gov.on.ca/DBLaws/Statutes/English/90f31_e.htm. This information is used by University officials in order to carry out their authorized academic and administrative responsibilities and also to establish a relationship for alumni and development purposes. Certain personal information is disclosed to external agencies, including the Ontario Universities Application Centre, the Ministry of Training, Colleges and Universities, and Statistics Canada, for statistical and planning purposes, and is disclosed to other individuals or organizations in accordance with the Office of Registrarial Services Departmental Policy on the Release of Student Information. For details on the use and disclosure of this information call the Office of Registrarial Services at the University at (519) 824-4120 or see http://www.uoguelph.ca/registrar/registrar/index.cfm?index.

Statistics Canada - Notification of Disclosure

For further information, please see Statistics Canada's web site at http://www.statcan.ca and Section XIV Statistics Canada.

Address for University Communication

Depending on the nature and timing of the communication, the University may use one of these addresses to communicate with students. Students are, therefore, responsible for checking all of the following on a regular basis:

Email Address

The University issued email address is considered an official means of communication with the student and will be used for correspondence from the University. Students are responsible for monitoring their University-issued email account regularly. See Section I--Statement of Students' Academic Responsibilities for more information.

Home Address

Students are responsible for maintaining a current mailing address with the University. Address changes can be made, in writing, through Undergraduate Program Services.

Name Changes

The University of Guelph is committed to the integrity of its student records, therefore, each student is required to provide either on application for admission or on personal data forms required for registration, his/her complete, legal name. Any requests to change a name, by means of alteration, deletion, substitution or addition, must be accompanied by appropriate supporting documentation.

Student Confidentiality and Release of Student Information Policy Excerpt

The University undertakes to protect the privacy of each student and the confidentiality of his or her record. To this end the University shall refuse to disclose personal information to any person other than the individual to whom the information relates where disclosure would constitute an unjustified invasion of the personal privacy of that person or of any other individual. All members of the University community must respect the confidential nature of the student information which they acquire in the course of their work.

I. Statement of Students' Academic Responsibilities

Your success as a student depends above all on your own response to the opportunities and responsibilities that the university environment provides. The University of Guelph is committed to supporting you in your intellectual development and responding to your individual needs. To this end, a broad network of advising, counselling, and support services is provided to assist you in meeting your personal and academic goals. At the same time, we recognize that, as a student here, **you are responsible for:**

- knowing the University's Learning Objectives (Section II);
- familiarizing yourself with the Undergraduate Degree Regulations & Procedures (Section VIII) and understanding grading procedures and continuation of study regulations;
- selecting a program of study to meet both degree and specialization requirements (Section X--Degree Programs) and carefully reviewing the personalized Program/Academic Evaluation Report you receive each semester, which lists the degree requirements you have completed and those still outstanding;
- contacting your program counsellor or faculty advisor for appropriate approvals, for clarification of the University's rules and regulations, or for guidance in forming your educational goals and making academic plans. The name and location of your program counsellor (e.g. B.A. program counsellor) is listed in Section VII--Academic Advising. Once you have declared a specialization, a **faculty advisor** (e.g. psychology advisor) will be available to assist you;
- attending first class meetings, obtaining course outlines, and meeting the **course requirements** as specified;
- familiarizing yourself with the Schedule of Dates (Section III) with particular attention to deadlines;
- referring to the procedures for Academic Consideration (Section VIII--Undergraduate Degree Regulations & Procedures) and initiating action by consulting your program counsellor if extenuating circumstances affect your academic performance;
- understanding what constitutes Academic Misconduct (Section VIII--Undergraduate Degree Regulations & Procedures) and abiding by the University's policy;
- adhering to any rules of conduct including those relating to health and safety provided by an instructor or assistant, either on a course outline or in a class, laboratory or seminar;
- checking your assigned University of Guelph WEBmail account regularly for important communications. This account is the primary conduit by which the University will notify you of events, deadlines, announcements concerning grades, student financial accounts and other official information.

To achieve your full potential within the University environment, you are encouraged to take advantage of the numerous extra-curricular opportunities provided by the University, balancing them with your academic commitments.
II. The University

History

The University of Guelph was established in 1964 when its founding colleges - the Ontario Agricultural College, the Ontario Veterinary College and Macdonald Institute - joined with a new college of arts and science. Today, the University of Guelph comprises seven colleges - College of Arts, College of Biological Science, College of Management and Economics, College of Physical and Engineering Science, College of Social and Applied Human Sciences, the Ontario Agricultural College, and the Ontario Veterinary College. In addition, the University has three regional campuses at Alfred, Kemptville and Ridgetown.

The University of Guelph is renowned in Canada and around the world as a research-intensive and learner-centred institution and for its commitment to open learning, internationalism and collaboration.

Students may pursue more than 80 undergraduate and 45 graduate degree programs spanning the natural and physical sciences, social sciences and humanities. Faculty at the University of Guelph have won more prestigious 3M Fellow teaching awards than faculty at any comparably-sized university in Canada. Our students are no less accomplished: 99.3 percent of first-year students enter with an average of at least 75 percent.

A total of 18,667 students attend Guelph, consisting of 16,617 full- and part-time undergraduates and 2,050 full- and part-time graduate students. The University of Guelph is a highly residential community, with approximately 5,260 students living in campus residences. In addition, the University of Guelph-Humber serves 1,955 full- and part-time undergraduates.

With close to $145 million in annual research funding, the University of Guelph is one of the country's top research institutions. Among its researchers, Guelph numbers 19 Fellows of the Royal Society of Canada. A 12-hectare research park adjacent to the campus is home to a growing number of research-intensive industries.

An enhanced partnership reached in 1997 between the University of Guelph and the Ontario Ministry of Agriculture, Food and Rural Affairs (OMAFRA) relocated OMAFRA employees to an 86,000-square-foot research complex adjacent to campus, and made the University responsible for Ontario's agricultural colleges at Alfred, Kemptville and Ridgetown, the Horticultural Research Institute of Ontario and OMAFRA's Laboratory Services. With its enhanced partnership, its research park and the Guelph Food Technology Centre -- an independent laboratory on campus for food processing research and product development -- the University of Guelph is the hub of a rapidly growing cluster of agri-food education, research and laboratory services in Canada.

Guelph's commitment to internationalism is reflected in several ways. Guelph attracts about 700 international students from 100 countries and maintains 61 study abroad programs (56 exchange and five semester abroad) with 27 countries. About 500 University of Guelph students study abroad each year. The University of Guelph has 60 public- and private-sector partners in 30 countries, and participates in Canadian International Development Agency projects worth a total of $16.5 million around the world. The University offers more than 200 distance degree credit courses to more than 16,000 course enrolments. Our graduates are Guelph's ambassadors to the world with more than 80,000 alumni in 130 countries.

University of Guelph-Humber

The University of Guelph-Humber is a joint venture developed by Humber College Institute of Technology and Advanced Learning and the University of Guelph. Located in Toronto on Humber College Institute of Technology and Advanced Learning's North Campus, it offers a range of academic programs leading to a university honours degree and a college diploma in four years.

Learning Objectives

Arising from the Aims and Objectives Report, the following Objectives were approved by the Senate of the University in 1987:

1. Literacy
2. Numeracy
3. Sense of Historical Development
4. Global Understanding
5. Moral Maturity
6. Aesthetic Maturity
7. Understanding of Forms of Inquiry
8. Depth and Breadth of Understanding
9. Independence of Thought
10. Love of Learning

They are a set of objectives described in terms of the desired characteristics of educated graduates, and are used in part to guide educators in their development of courses and programs. Their descriptions are as follows:

1. Literacy

Literacy is the base on which all else is predicated. The ability to read and write and, in general, to communicate properly is a fundamental intellectual tool. With it, students can learn to think clearly and to some purpose. Without it, they cannot analyze properly nor develop an independence of thought. Literacy affords a means of access to the raw material upon which the critical or creative intelligence is to be exercised. It affords a means of communication, of shaping ideas and concepts, of selecting between different or competing formulations. It is a means of instructing others.

The most basic experience in literacy given to the student should be the writing of a short expository paper, or the oral presentation of an informational report, on a prescribed topic or on a topic chosen from a restricted list.

At the next level, the student should be required to write a paper (or give a seminar), critical and analytical in its intent, on a topic of the student's devising. The ability to devise a topic, to frame its bounds, is at the same time an aspect of understanding of first order importance.

At the highest level, there should be produced a paper, in an appropriate style, that analyzes, synthesizes or argues from a hypothesis and itself generates hypotheses; that produces knowledge, insight, or understanding in the reader and manifests it on the part of the writer; that shows a breadth of understanding in drawing out implications and making connections between remote features of the domain; that, in short, demonstrates a love
II. The University, Learning Objectives

6. Aesthetic Maturity

Aesthetic maturity may be described as a quality of the critical response to some object, natural or artificial, external to the self. Or it may be a process of creation and development of the self. In the former case, aesthetic maturity may be attained by a sufficient exposure, not necessarily in courses alone, to works of art (inclusive of music, literature, and drama) and to the critical traditions concerning them. Such maturity may also be directed at aesthetic valuing of features of the natural environment.

In the latter case, attainment of the quality will require an active involvement in the work of creation itself. A different order of aesthetic maturity may be attained by practice of that form of manipulation and recreation of the original object known as criticism (as distinct from appreciation).

Viewed this way, aesthetic maturity has a certain resemblance to both independence of thought and depth of understanding, in requiring an active creativity.

Aesthetic maturity need not be divorced from the specific character of individual disciplines. By possession and exercise of aesthetic maturity, students may be brought to appreciate the order, elegance, and harmony not only of the subject matter, but also of the procedures, of the discipline.

7. Understanding of Forms of Inquiry

Inquiry, the search for truth, information, knowledge and understanding, follows a methodology based upon systematic study, reflection, intuition and innate creativity. Inquiry involves resolving an identified problem, collecting relevant information, evaluating the information and observing relationships in order to reach a conclusion. The student is the active inquirer and must be able to undertake the process independently. Scientific method represents a form of inquiry concerned with hypotheses development, data collection, analyses and interpretation. Just as an understanding of scientific inquiry is necessary for the educated citizen functioning in the midst of the technologies of the contemporary world, so too an appreciation of other modes of inquiry is an essential characteristic of an educated citizen. Graduates should be familiar with the modes of inquiry utilized, for example, by historians, by philosophers and by scholars concerned with the various fields of creative expression.

As outcomes of this objective, students will understand the strengths and limitations of the various forms of inquiry, and the cultural, intellectual and historic impact of these forms. The student will be able to describe similarities and differences between the inquiry methods of the physical scientist, the biological scientist, the social scientist and the scholar of the humanities.

8. Depth and Breadth of Understanding

Breadth of understanding is an expression of the ability to operate across disciplinary boundaries in a coherent and productive way, with principles drawn from different disciplines. Depth of understanding depends upon mastery of a body of knowledge, but it is not to be confused with knowledge, and is not necessarily commensurate with the number of courses taken in a subject.

Depth and breadth of understanding depend upon, and themselves contribute to, independence of thought; they contribute also to a love of learning. Possession of a historical perspective may be essential to a broad and deep understanding of a subject.

At the lowest level of experience, in courses introductory to a subject, students might be shown how sets of facts may be related to others both laterally and vertically (or hierarchically). The outcome of this might be simply consciousness, on the part of the student, of the possibilities of understanding, as distinct from simply knowing. The next higher level moves from demonstration to the student of interrelationships to the development of the student's own ability to create interrelations. The experience provided will develop a creative imaginativeness skillfully exercised on a body of material mastered in some detail. But the experience, like that provided for independence of thought, goes beyond display of erudition, and requires alert curiosity and a refusal to be content with mere assemblage of data. At this level, the student should be expected to integrate knowledge and modes of interpretation and comprehension from different disciplines so as to generate a new understanding. The highest level takes the student to the ability to deal in abstractions, to generate abstractions.

In general, depth and breadth of understanding are characterized by the ability to recognize the implications of the information at hand and to put it into a broader context; and by the ability to draw upon different disciplines to provide a clearer and deeper understanding of the discipline with which the student is immediately concerned.

These outcomes might be assessed in a piece of written work such as an independent research paper, in the design of an experiment, in the identification and solution of a problem, or in a work of aesthetic creation.

9. Independence of Thought

At the lowest level, students are shown the possibilities of independent thinking, by an instructor who, in the classroom and elsewhere, challenges orthodoxies and criticizes received opinions. The experience provided is that of imitation or emulation of a role model. At this level, the outcome might be no more than a receptivity, on the part of the student, to critical thinking and an openness to reasoned skepticism about the authority of the expert.
At a higher level, students become actively engaged in learning and thinking. At this level, they should be given the opportunity, in seminars, tutorials, or structured small group discussions, to offer their own challenges. The bases for such challenges may be uniformed, and so the challenges themselves will be open to challenge. As students become more independent in thought, they are better able to combine ideas and to generate new ideas. At the highest level, independence of thought is a manifestation of love of learning, and it may contribute to a sense of self-worth and of well-being. At this level, opportunities are provided for self-directed learning. One accomplishment may be the ability to ask the right kinds of questions, rather than the ability always to have answers.

10. Love of Learning

Love of learning is perhaps the quality that activates all other qualities that are the focus of learning objectives. Its expression is not easily separable from demonstration of other virtues. Thus, the true lover of learning will demonstrate both independence of thought and depth of understanding. As a consequence, setting an objective for love of learning comports also setting an objective for other qualities as well. But love of learning is not exhausted by, for example, independence of thought.

Love of learning may be reflected in, or expressed in terms of, intellectual curiosity; the ability (as in independence of thought) to ask useful kinds of questions (rather than the ability always to have answers); the ability to see far reaching implications; the ability to make connections between disparate topics; energy and passion in the pursuit of knowledge and understanding; dissatisfaction with simply accumulating facts or data; and critical ability.

Testing and instruction must minimize rote learning, and, so far as possible, give scope for the exercise of individual patterns of learning and individual interests.

Love of learning may be impeded by the demands of frequent evaluation of students’ performance. The time frames imposed at an institutional level, to provide an organizational framework for the university experience, may also impair love of learning.

Love of learning may best be enhanced by the provision of opportunities for the student’s personal involvement in learning. Such opportunities are perhaps best furnished in independent research projects initiated by the student. In such autonomous, but supervised, study the student can not only engage with the conflicting views of published authorities but also see in action, close at hand, the supervisor’s own love of learning.

In courses of formal instruction, the use of team teaching might help to encourage a student’s own love of learning, especially if members of the teaching team take an appropriate role as “students”, and if true dialogue is developed between the teachers.

Mission Statement

The University of Guelph is a research-intensive, learner-centred university. Its core value is the pursuit of truth. Its aim is to serve society and to enhance the quality of life through scholarship. Both in its research and in its teaching programs, the University is committed to a global perspective.

The University offers a wide range of excellent programs, both in theoretical and applied, disciplinary and interdisciplinary, undergraduate and graduate, in the arts, humanities, social sciences, natural sciences, as well as professional fields. Among these, it recognizes agriculture and veterinary medicine as areas of special responsibility.

The University attracts students, faculty, and staff of the highest quality. It is animated by a spirit of free and open enquiry, collaboration, and mutual respect. It asserts the fundamental equality of all human beings and is committed to creating for all members of its community, an environment that is hospitable, safe, supportive, equitable, pleasurable, and above all, intellectually challenging.

The University of Guelph is determined to put the learner at the centre of all it does, recognizing that research and teaching are intimately linked and that learning is a life-long commitment. The University eagerly promotes collaboration among undergraduates, graduate students, faculty, staff, and alumni, as well as with our local and international community, other educational institutions, government and business.

The University of Guelph is committed to the highest standards of pedagogy, to the education and well-being of the whole person, to meeting the needs of all learners in a purposefully diverse community, to the pursuit of its articulated learning objectives, to rigorous self-assessment, critical inquiry, and active learning. The University of Guelph educates students for life and work in a rapidly changing world.

The University of Guelph invites public scrutiny of the fulfillment of its mission, especially by the people of Ontario, to whom it is accountable.

University Governance

The University of Guelph was incorporated by an Act of the Ontario Legislature in 1964. The Act specifies that control of the University lies with the Board of Governors and the Senate.

The Board of Governors is responsible for the government, conduct, management and control of the University and its properties, revenues and expenditures, and business affairs.

The Senate has responsibility for educational policy, including the creation of faculties, departments, schools and institutes; courses of study and standards of admission and continuation of study; qualifications for and granting of degrees, including honorary degrees, and of diplomas; examinations and examiners, fellowships, scholarships and bursaries; and for the election of the Chancellor. For information on the Board of Governors and the Senate, visit the University Secretariat website at http://www.uoguelph.ca/secretariat/.

IV. Admission Information

Admission Requirements to University Programs in 2007

Semester One Admission

Entry Point

Admission to Semester One of a degree program and General Studies is available in the Fall semester only. A Semester One degree applicant is defined as one who will receive fewer than 2.00 credits upon admission.

1. Applicants from Ontario Secondary Schools

Students seeking admission to a degree program must present the Ontario Secondary School Diploma (OSSD), or equivalent, and a minimum of 6 Grade 4U or 4M and/or OAC credits, including OAC English 1 or ENG 4U. All specific subject requirements must be Grade 12U or OAC credits. Specific subject requirements for admission to the various degree programs are outlined in this section. Students are also advised to consult Section X of the Calendar (Undergraduate Degree Programs) to note those subjects which are recommended for specific programs.

In some cases, applicants with high academic standing may be admitted if they are deficient in one of the specific subject requirements. The exceptions to this are Cooperative Education and the Bachelor of Commerce Program for which applicants must have completed all of the specific subject requirements.

Offers of Admission will be released starting in February. All offers of admission which are based on interim grades will be conditional upon completion of the OSSD with 6 Grade 4U or 4M and/or OAC credits (or equivalent) and including specific subject requirements. The minimum final admission average which the applicant will have to achieve will be stipulated in the condition. Grades in specific subject requirements are included in the calculation of the admission average. The University reserves the right to revoke the offer of admission should a student fail to meet any condition in the offer.

Students will not be required to respond to the offer until the common response date for all Ontario universities. Those wishing to respond earlier may do so.

Applicants who have not received an offer of admission by early June may be eligible for admission consideration to all non-limited enrolment programs by submitting their final grades. Admission consideration will be given on the basis of final grades only when places are still available in the program and/or specialization to which the student has applied at the time that the final grades are received. Applicants may be required to possess an admission average higher than those outlined for guaranteed admission.

It is the applicant's responsibility to submit final, summer school or correspondence course grades to Admission Services, Level 3, University Centre, University of Guelph, Guelph, Ontario, N1G 2W1, as soon as they become available. The following methods for submission of final grades will be acceptable:

a. report card issued by the secondary school
b. certified copy of the report card
c. a transcript of marks issued by the secondary school and forwarded directly to the University.

It is suggested that students follow method a) above in order to facilitate the processing of their application. Any offers based on faxed information are conditional upon receipt of the official document.

International Baccalaureate

Students applying for admission on the basis of the IB Diploma should possess a minimum score of 28. Bonus points may be taken into consideration. Applicants are advised that most programs will require a higher score for admission consideration. Students currently in their final year of the IB program are encouraged to present "predicted" scores on the seven point scale, which will be taken into consideration to extend conditional offers of admission. The predicted scores can include grades from the Extended Essay and the Theory of Knowledge. Students must include, among their higher and standard levels, the specific subject requirements for the program to which they are applying. Unscheduled transfer credits, to a maximum of 2.00 credits, will be granted for grades of 5 or better on higher level courses where the applicant has been awarded the IB Diploma. Students may request specific credit on an individual basis. Unscheduled transfer credits, to a maximum of 2.00 credits, will be granted for grades of 5 or better on higher level courses where the applicant has been awarded the Certificate.

The English Proficiency Requirement will be waived for applicants who have completed the Diploma where the language of instruction is English. Credit will be assigned upon receipt of official final results.

Advanced Placement

Applicants who have completed Advanced Placement courses with a minimum grade of 4 may be eligible to receive university credit to a maximum of 2.00 credits. The granting of credits and exemptions is at the discretion of the appropriate faculty, and will be based on official final results.

2. Applicants from Outside Ontario

Applicants whose preparation to enter the University has been completed outside the Ontario secondary school system must have achieved, as a minimum requirement, academic standing equivalent to that required of Ontario students and must satisfy the subject requirements for the program desired. Students should refer to the information for Ontario applicants regarding specific subject deficiencies. The university will take into consideration the availability of specific course requirements in other countries or provinces to ensure that the applicant is not disadvantaged if particular senior secondary courses are not offered. Please refer to the information following this section regarding specific subject requirements and equivalents.

Conditional offers of admission may be released on the basis of interim and/or first term grades. Some decisions may be deferred until final grades are submitted. Applicants are encouraged to submit any academic information which might expedite an admission decision by April 1. The condition of the offer will be applied as outlined for Ontario applicants.

a. Other Provinces and Territories of Canada - Alberta, British Columbia, Manitoba, New Brunswick, Newfoundland and Labrador, Northwest Territories, Nova Scotia, Nunavut, Prince Edward Island, Saskatchewan, Yukon--Grade 12, Quebec--Senior High School Leaving Certificate or High School Leaving Certificate plus 12 academic credits from an appropriate CEGEP program. For further details, please visit http://www.uoguelph.ca/admissions/outofprov.

b. United States of America - Students must have a minimum grade point average of 3.0 from an accredited high school. In addition, they must present a minimum combined SAT score of 1100 based upon the critical reading and math sections or ACT score of 24. Where class rankings are reported on the transcript, a ranking in the top quarter is preferred. Students should include, among their senior level courses, specific subjects that are required for admission to the degree program of their choice. Particular attention is paid to performance in program prerequisites.

c. General Certificate of Education (GCE) Systems - Applicants must present either the GCSE (or IGCSE) and the GCE showing one of:

   i. five subjects, at least two of which must be at the GCE Advanced level
   ii. four subjects, at least three of which must be at the GCE Advanced level

iii. Applicants who have completed GCE Advanced level examinations with a minimum grade of C may be eligible to receive a maximum of 3.00 unspecified credits (1.00 credit per course). Students may request specific credit on an individual basis.

d. Other Countries - The secondary school graduation certificate which admits to an internationally recognized university in another country is normally acceptable, provided that it is the equivalent of admission requirements for the University of Guelph.

NOTE: Possession of these minimum requirements does not guarantee admission. Required levels of academic preparation may vary according to the jurisdiction or country in which course work was completed. Applicants are encouraged to contact Admission Services prior to formal application in order to obtain specific information on admission requirements. They are strongly advised to provide detailed information on their particular situation.

3. Applicants for Admission as Mature Students

Statement of the Regulation

Applicants who do not possess the published minimum requirements for admission consideration may be considered for admission to degree programs if space permits and if, prior to the beginning of the Fall semester, they:

a. will have attained at least the full age of twenty-one years;

b. will have been out of secondary school for at least two years.

c. will have normally not attended another post-secondary institution.

In addition, applicants must meet specific subject requirements or equivalents as outlined below for the degree programs to which they have applied. Admission as a Mature Student is available in the Fall semester only.

B.A. Programs

Students who meet the requirements to be considered for admission as mature applicants must have acceptable standing as follows:

ENG4U and 2 additional 4U or 4M credits, one of which must contain a writing component.

Note: Mature Students who do not possess the minimum requirements for direct admission to the degree program must successfully complete a minimum of 2.00 credits in the General Studies program before applying to transfer to the B.A. program.

B.Comm. Program

Applicants who satisfy conditions a) and b) outlined in the "Statement of the Regulation" and wish to be considered for admission under the Mature Student Regulation must have obtained standing as follows:

(HRM, HREM, TMGT, H&AFA, PMGT): ENG4U a 4U Mathematics, and one additional 4U/4M credit.

(AG BUS, MKMN, MEIF): ENG4U, MCB 4U, and one additional 4U/4M credit.

Applicants will be required to submit a letter, for consideration by the Admissions Committee, in which they outline their academic goals.
Advanced Standing Admission

1. Advanced Standing Applicants from a recognized University or College in Canada

Applicants for admission to the University of Guelph transferring from an accredited university or college are normally subject to the following admission policy.

a. Applicants must have completed the Ontario Secondary School Diploma including 6 Grade 4U or 4M or OAC credits, or equivalent, for admission to the University of Guelph prior to the commencement of the academic session for which application is made.

b. Applicants must be eligible for readmission and registration on a full-time basis at the last university or college attended in the academic session for which application is made. Applicants whose academic records at another university have rendered them ineligible to continue study at that university will be considered for admission only when the stipulated period of rustication has expired.

c. Students registered in a preliminary year, bridging year or first year at a recognized university or junior college to which students are admitted without having completed the Ontario Secondary School Diploma or the equivalent are eligible to apply for admission to first year at this University provided that their first or preliminary year program includes subjects equivalent to those 4U or 4M or OAC credits required for admission to each program. Credit towards graduation from the University of Guelph is not normally granted for work taken in the first year of the university program which does not require completion of the Ontario Secondary School Diploma or equivalent for admission.

d. Admission of students transferring from another university or college is not automatic. All such applicants will be assessed in competition with other new applicants, taking into consideration the academic requirements and enrolment limitations which pertain at the time the application is complete. In addition, an offer of admission will not imply in any way that space will be available in the course(s) in which the applicant wishes to register.

e. The University of Guelph subscribes to the following General Policy on the Transfer of Course Credits, as adopted by the Council of Ontario Universities: Acceptance of transfer credits among Ontario Universities shall be based on the recognition that, while learning experiences may differ in a variety of ways, their substance may be essentially equivalent in terms of their content and rigour. Upon admission, and insofar as possible, acceptance of transfer credit should allow for the maximum recognition of previous learning experience in passed university-level courses.

Subject to the degree and specialization to which the applicant is admitted, and to grade and program requirements, any course offered for credit by another Ontario university shall be accepted for credit when there is an essential equivalency in course content.

f. In addition, the University of Guelph supports the intent of the Pan-Canadian Protocol on the Transferability of University Credits to develop consistent, fair and efficient systems to facilitate student mobility and program completion. In consideration of the principles of the Protocol, the University of Guelph undertakes to ensure that all course work completed by transfer students in the first two years of university study in Canada (including the final year leading to a diploma of college studies (DCS) in Quebec and the transfer courses offered by community colleges in British Columbia and Alberta) are recognized and, subject to degree, grade and program requirements are credited for the purpose of granting a degree provided that:

i. the applicant is deemed admissible and has been offered admission

ii. a passing grade has been achieved in each course to be transferred and the grade is at the level that normally would be required of students at the University of Guelph and

iii. the credits earned are related to the program of study in which the transfer student will register, or the credits can be counted as electives in the program of study.

2. Applicants from Universities Outside of Canada

The amount of credit granted will be dependent upon the institution and upon the educational system. Undergraduate Admission Services at the University of Guelph does not grant advanced standing for work experience or for involvement in programs such as the World Youth Organization. Please refer to Section VII - Undergraduate Degree Regulations and Procedures for information on Prior Learning Assessment.

3. Advanced Standing Applications from Recognized Community Colleges or Other Post-Secondary Institutions

The University of Guelph will also consider the granting of advanced standing for studies completed in certain post-secondary institutions. Included in this category are:

a. Colleges of Applied Arts and Technology, and Institutes of Technology and Advanced Learning

Graduates from appropriate programs may be considered for admission with advanced standing in accordance with the following policy:

i. Transfer credits are determined by the Admissions Committee of the program to which the student is admitted, and in accordance with any existing articulation agreement with the institution in question. Please refer to the information at the beginning of Section IV on Articulation Agreements.

ii. Transfer credits will be based on courses completed with a grade of 'B' or better, where those courses are deemed appropriate to the program to which the student is admitted at this University. A minimum overall average of B is required in diploma programs for consideration of any transfer credit.
iii. Up to 7.50 credits may be granted to students from a completed three-year diploma program, and up to 3.00 credits may be granted to students from a completed two-year diploma program. The granting of additional transfer credits would be considered in the case of graduates from a one-year post-diploma program.

iv. Should a student transfer to a different program after admission to the University of Guelph, credits assigned upon admission will be re-assessed where deemed appropriate by the Admissions Committee of the program.

b. Colleges of Agricultural Technology

Graduates of the two-year Associate Diploma programs or other two-year programs offered by the Colleges of Agricultural Technology may receive a maximum of 3.00 transfer credits upon admission to a degree program. Graduates admitted to the Bachelor of Science in Agriculture program and Bachelor of Commerce, Agricultural Business program may be eligible for additional transfer credit. A minimum overall average of B is required in the Associate Diploma Program(s) for consideration of any transfer credit.

4. Ontario College of Art and Design

In recognition of the equivalence of many of the courses in the program of the Ontario College of Art and Design, the University wishes to encourage qualified students of OCAD to complement their education there by studying at the University of Guelph and completing the requirements for a B.A. degree. Options available in Fine Art are listed in the B.A. schedule of studies.

If admitted to the University, students transferring from OCAD may be granted advanced standing for course work completed at OCAD according to the following schedule:

a. Completion of first year: up to 2.50 credits in Fine Art--1.50 in Fine Art (Studio) and 1.00 in Art History

b. Completion of second year: up to 5.00 credits in Fine Art--4.00 in Fine Art (Studio) and 1.00 in Art History

c. Completion of third year: up to 7.50 credits in Fine Art--6.50 in Fine Art (Studio) and 1.00 in Art History

d. Completion of four-year Diploma: up to 10.00 credits in Fine Art--9.00 in Fine Art (Studio) and 1.00 in Art History.

Students are warned that even if they are given advance standing in 10.00 credits, it is extremely unlikely that they will be able to complete the B.A. program requirements within two semesters. Please note that OCAD graduates may take a maximum of 2.00 credits in Fine Art (Studio) at Guelph.

If an offer of admission is granted, advanced standing will be determined based on assessment of the OCAD transcript by the School of Fine Art and Music. Credit will be granted only for studies completed while registered at OCAD. Please note that this transfer credit arrangement applies only to the B.A. program.

Any applicant who has completed academic studies at a post-secondary institution other than OCAD must supply a transcript to Admission Services. All previous post-secondary work will be considered in determining eligibility for admission and granting transfer credit. Students currently enrolled at OCAD who are interested in working towards a B.A. concurrently may apply for admission and pursue their studies in the Summer Semester. Please contact Admission Services, Office of Registrarial Services, Level 3, University Centre, University of Guelph, Guelph, Ontario, N1G 2W1 for additional information.

5. CEGEPS - Province of Quebec

a. Applicants who present the Diplôme des Études Collégiales may be eligible for advanced standing, to a maximum of 5.00 credits.

b. For more specific information candidates may contact Admission Services, Office of Registrarial Services, University of Guelph.

Advanced Standing Entry Points

Students applying from another post-secondary institution as advanced standing applicants may apply to the Fall entry point only. Applicants are considered as 'Advanced Standing' if they will receive 2.00 or more transfer credits upon admission. Applicants to the University are requested, where possible, to indicate on the Ontario Universities Application Centre form their subject of primary interest. In many cases the program code to be inserted on the application form will include the subject of primary interest. It should be noted that an offer of admission applies to both the degree program and to the major area of study specified in the offer.

Because enrolment in certain courses is limited by the availability of resources, the University cannot guarantee that all students wishing to take a particular specialization will be accommodated. Applicants wishing to enrol in courses offered in the distance only mode for personal interest or for professional development should contact the Office of Open Learning for further information and to obtain the appropriate application form.

Application Procedures

Current Diploma application procedures are outlined in the Diploma Program Calendar. Doctor of Veterinary Medicine procedures are outlined in the previous section “Admission Requirements”. All procedures are applicable to both full and part-time applicants. Applicants for part-time study are considered on the same basis as full-time applicants, and therefore must meet the published admission requirements for the program desired.

Applicants from Ontario Currently Enrolled in Secondary School

See information on “Admission Requirements” for specific Grade 12U and 12M or OAC requirements for the various programs. The OUAC 101 application may be used by all applicants who are currently enrolled in an Ontario Secondary School as a day school student. Normally applicants will receive an offer of admission only to one program or specialization at the University of Guelph. Applicants who apply to more than one program at the University of Guelph will have their highest choice program considered first. Only in the event that a student is ineligible for admission to the highest choice program will consideration be given to the lower choices. Students who apply directly to a Co-op program and who are not admitted will be considered for the regular degree program. Applicants to the University are requested, where possible, to indicate on the application form their subject of primary interest. In many cases, the program code to be inserted on the form will include the subject of primary interest. It should be noted that an offer of admission applies to both the degree program and to the major area of study specified in the offer. Because enrolment in certain courses is limited by the availability of resources, the University cannot guarantee that all students wishing to take a particular specialization will be accommodated.

Amendments to the Application Form

A student who has applied via the Ontario Universities’ Application Centre (OUAC) may verify their program selections and biographical information via the OUAC web site. Students wishing to revise their application should do so through the on-line Review and Change process. If any are made, the University of Guelph will be notified of the applicable changes approximately 2-3 business days after OUAC receives the amendment. Although all amendments are important to the processing of each application, changes to academic program choice, residence status, surname, mailing and home addresses are of significant importance and should be reported via the Review and Change process as soon as the situation arises. Amendments must be completed by the published application deadline dates.

Students who have applied on a University of Guelph application form as opposed to an OUAC application form must notify Admission Services, in writing, of any biographical or academic status changes.

Applicants from Ontario Not Currently Enrolled in Secondary School

Applicants who are not currently enrolled in an Ontario secondary school as a day school student should use the OUAC 105 application form. This includes the following types of applicants: adult, night school, correspondence, those who previously obtained the Secondary School Honour Graduation Diploma or the Ontario Secondary School Diploma.

Applicants who apply to more than one program at the University of Guelph will have their highest choice program considered first. Only in the event that a student is ineligible for admission to the highest choice program will consideration be given to the lower choices. Students who apply directly to a Co-op program and who are not admitted will be considered for the regular degree program.

Many students may wish to present additional information for consideration by the Committee on Admissions. This may be information pertaining to their academic background, employment data, reasons for requesting admission or proposed program of study. This information should be submitted directly to Admission Services, Office of Registrarial Services, Level 3, University Centre, University of Guelph, Guelph, Ontario, N1G 2W1. If there is no additional information submitted, the decision of the Admissions Committee will be based strictly on academic performance as indicated on official transcripts submitted.

All Other External Students

All other students should complete an OUAC 105 application form. These applicants would include those applying from:

a. secondary school outside Ontario

b. CEGEP
c. recognized college or university
d. College of Applied Arts and Technology
e. Ontario College of Art and Design

In addition, students applying under the Mature Student Regulation, to General Studies, or to Non Degree should complete the 105 form. The 105 form is available on-line at http://compass.ouac.on.ca.

Applying From Outside Canada

Students applying from outside Canada are strongly advised to begin the application procedure six to eight months prior to the proposed entry point. Those applying for admission to the Fall semester should have their application, along with all required documentation, in Admission Services no later than March 1 in order to ensure a timely decision. There are two application options:

1. International applicants (including U.S. citizens) who do not intend to apply to another university within Ontario should complete the University of Guelph application form. This form is only available from Admission Services at http://www.uoguelph.ca/admissions/prospective/international/index.shtml.
2. Applicants who wish to apply to more than one university within Ontario should apply via the Ontario Universities’ Application Centre. 105 application form http://compass.ouac.on.ca. All documents should be sent directly to Admission Services.

Applicants who wish to check on the status of their application or to verify that all required documentation has been received may contact us by emailing intapps@registrar.uoguelph.ca. Applicants should not direct questions about the possibility of admission to this address. Please refer to the following sections on Applicants from Outside Ontario and Applicants from Universities Outside of Canada for general information on admission requirements. The Admission Committees, upon receipt of a completed application form and all pertinent documentation, will make specific admission assessments for individual applicants.

Applying From Another Campus of the University of Guelph
Applicants from Alfred, Kemptville, and Ridgetown Campuses should contact their college Registrar for the appropriate application form. Applicants wishing to transfer from the University of Guelph-Humber to the University of Guelph should follow the process outlined at http://www.uoguelph.ca/admissions/admission/index.cfm?Fuseaction=appform3.

Applying For Internal Transfer or Readmission
University of Guelph students wishing to apply to another program within the University or for readmission should complete the Internal Transfer Application form which is available from the University of Guelph web site at http://www.uoguelph.ca/admissions/admission/index.cfm?

**Associate Diploma Programs**

For information on programs offered, the requirements for admission, the procedures to be followed, course descriptions, etc., please view the current Diploma Program Calendar on-line at http://www.uoguelph.ca/diploma_calendar/.

**Communication of Admission Decisions**

Admission Services will use the mailing address and/or email addresses supplied by the applicant to communicate decisions. The University will not be held responsible for decisions sent to these addresses but not received.

Applicants who are not currently in high school, secondary or post-secondary program can normally expect to receive an admission decision within a three to four week period following receipt of the application and all official documents by Admission Services, if they have not applied to a limited enrolment program. All applicants for limited enrolment programs will be considered at the same time in competition for the spaces which are available.

Students currently enrolled in a post-secondary program will normally be required to submit all official transcripts at the conclusion of their program before a final decision regarding their admission will be made. An applicant who submits an official post-secondary transcript at the conclusion of his/her fall semester of the current academic year may receive an early offer of admission. This offer of admission will be conditional upon successful completion of the student's current academic year and conditions specified by the Admissions Committee for the degree program to which the student is admitted. Official final transcripts will be required by the University of Guelph by June 1 to confirm that the conditions of early offers of admission have been satisfied. Students will be advised via email that admission conditions have been cleared.

Admission decisions for the Bachelor of Landscape Architecture program and the D.V.M. Program will not be made until after the deadline date for receipt of applications and documentation. Decisions will be communicated to applicants approximately one month after that date.

**Co-operative Education**

Students will be considered for admission to semester one of the Co-operative Education program upon completion of the Ontario Secondary School Diploma, including six OACs, grade 12 U and/or grade 12 U or 12M courses (or equivalent). Normally, an average of 75% is the minimum required for consideration, but higher averages may be required for admission to individual programs where the demand by qualified applicants exceeds the supply of spaces. Applicants to the Co-operative Education programs must have Permanent Resident status in Canada or be a Canadian citizen. Applicants who are U.S. citizens should contact Co-operative Education and Career Services.

Specific subject requirements for admission to the various degree programs are outlined following this section. In some cases, applicants may be required to submit a Background Information Sheet in support of their application. If a Background Information Sheet is required, Admission Services will forward the form directly to the applicant upon receipt of the application.

Applicants who are refused admission to Co-operative Education will be considered for admission to the comparable regular degree program. Please refer to Co-operative Education Programs in Section X for further information.

**Deadline Dates - Advanced Standing, Non-Degree and Limited Enrolment Programs**

While the final dates for receipt of applications are listed on the chart below, applicants are advised to submit their applications well in advance of the proposed date of enrolment. The University of Guelph cannot guarantee that applicants submitting applications or supporting documentation after the deadlines will receive admission consideration for the Fall entry point due to space limitations which may exist within programs.

English Proficiency

Lectures, seminars and examinations in the University are, for the most part, conducted in English and it is essential that all students have an adequate knowledge of written and spoken English in order for them to be successful in their university studies. Applicants for admission will be required to present evidence of English proficiency if:

1. their primary or first language (meaning the language first learned as a child) is not English; and
2. they have had less than four years of full-time secondary or post-secondary study, demonstrating satisfactory academic progress, in an English-language school system.

Francophone Canadian citizens educated in Canada will not be required to meet the English Language Proficiency Requirement. Students who have completed the International Baccalaureate diploma where English was the language of instruction will be considered as having met the English Proficiency Requirement. The University reserves the right to deny admission to applicants who do not demonstrate satisfactory facility in English, regardless of academic qualifications.

Applicants required to meet the English Proficiency Requirement must do so by submitting the required scores in one of the following tests or battery of tests as outlined in points 1, 2, 3 or 4 to the left. Test results must be submitted to Admission Services prior to admission by the published document deadline.

1. Test of English as a Foreign Language (TOEFL)

600 on the paper-based test (250 on the computer test) AND Test of Written English (TWE) - 5 AND Test of Spoken English (TSE) - 50. For 2005-2006, the internet-based Test requirement is a total score of 89 with no section less than 21.

These tests are offered on several dates each year by centres throughout the world. The TOEFL Bulletin of Information and registration form can be obtained by writing or contacting TOEFL/TSE Publications, P.O. Box 6154 Princeton, New Jersey 08541-6154, USA; telephone (609)771-7100; email toefl@ets.org; Website (http://www.toefl.org).

2. International English Language Testing System (IELTS)

Minimum overall score of 6.5 with no band less than 6. Information on test centres and registration can be obtained from IELTS Administrator, Anglia Polytechnic University, East Road, Cambridge CB1 1PT, Great Britain (telephone (01223) 363271; facsimile(01223) 352973; email j.m.ferra@anglia.ac.uk); http://www.ielts.org/.

3. The Michigan English Language Assessment Battery (MELAB)

Minimum overall score of 85 is required, a minimum composition score of 83. In addition, applicants must present a minimum score on the oral test of 3.

Information on the MELAB is available at http://www.lsa.umich.edu/eli/melab.htm. Applicants can request Information Bulletins and Registration forms from English Language Institute, Testing and Certification Division, 3020 North University Building, The University of Michigan, Ann Arbor, Michigan 48109-1057, USA (telephone (734) 763-3452; facsimile(734) 763-0369; Website http://www.lsa.umich.edu/eli/).

4. Canadian Assessment of English Language (CAEL)

A minimum overall band score of 70 is required. Information on the CAEL is available at http://www.cael.ca/

Open Learning

The Open Learning program is an open admission distance-only mode of study program which provides access to university courses for individuals who wish to study independently and who are not interested in pursuing a degree at the present time. This program is designed to extend the academic resources of the University to individuals who wish to take courses for personal enrichment, professional updating or eventual application to a degree program.

No limit applies to the total number of distance education courses taken through Open Learning although students may enrol in a maximum of three (3) courses per semester.

Students wishing to apply to transfer from Open Learning to a degree program, should contact Admission Services to obtain admission information specific to the degree program of their choice.

All students must have completed any specific subject requirements, or equivalents, and their academic record must meet the requirements for continuation of studies. The academic record from any previous post-secondary experience will also be considered in determining admissibility. Applicants must also satisfy the English Proficiency requirements as outlined in the following section.

For some programs, performance in specific required courses or portfolios or required background experience, where applicable, may be a consideration for admission. For all programs, where qualified applicants exceed the number of spaces available, admission decisions will be made on a competitive basis.

Individuals wishing to apply to Open Learning should contact the Office of Open Learning for application forms and further information.

Post-Degree and Letter of Permission

University graduates who wish to enrol in degree courses to upgrade their degree or to gain credit for admission to a graduate or other academic program should apply to a non-degree category (e.g. B.A. non-degree). Applicants must hold a degree which is recognized as equivalent to a Canadian university's undergraduate or graduate degree. A student from another university wishing to register at the University of Guelph to take courses for credit at the home university, must present a Letter of Permission from the Registrar, Dean or program supervisor of the home institution authorizing a program selection.

The Post-Degree and Visiting Student (LOP) categories are not normally open to applicants who do not meet University of Guelph general regulations for continuation of study outlined under Continuation of Study, Undergraduate Degree Regulations, Section VIII of the Undergraduate Calendar and transfer requirements.

An offer of admission to post-degree or on the basis of Letter of Permission does not imply in any way that space will be available in the course(s) in which the applicant wishes to register. Students should contact Undergraduate Program Services about space availability in their desired courses.

The post-degree student who has not previously registered at the University of Guelph, should apply at the Ontario Universities' Application Centre (OUAC) using an OUAC 105 Online Application Form using code GND. An applicant who has ever registered at the University of Guelph should apply online as a Non-Degree Internal Transfer Student. All post-degree applicants must submit the Supplementary Information Form for Degree Holders.

Students who register in the non-degree category and who subsequently want to change to a degree status will be required to meet admission requirements for that program, and credit granted for courses taken in the non-degree category will be subject to the regulations pertaining to that program. Students should see their program counsellor for details.

Second Degrees

Students from the University of Guelph or from another university may graduate with a second undergraduate degree from the University of Guelph. If they have graduated with their first degree, they must apply for admission to the program for their second degree. A maximum of 10.00 credits may be transferred from the initial degree program. The course content of the second degree program must be substantially different from that of the first. If University of Guelph students apply to graduate with two different degrees at the same convocation, only 10.00 credits may be transferred from the registered program to the undeclared program. Note: A second degree is judged to be substantially different if:

• the specializations are in different subject areas as listed in Section XII—Course Descriptions; or
• the schedule of studies requirements are substantially different (no more than 25% overlap).

Honours Equivalent

Students from the University of Guelph or another university may upgrade a degree from the general program to the honours program to obtain an Honours Equivalent recognition. Students may also upgrade a degree from the honours program by the completion of an additional specialization to qualify for the Honours Equivalent recognition. All interested students must apply for admission to the Honours Equivalent program per the application procedures outlined in this section (IV - Application Procedures). All previous University of Guelph credits may be utilized toward the equivalent degree from the honours program.

To be granted an Honours Equivalent, students must satisfy the University of Guelph residence requirements. In addition, students must satisfy the conditions for graduation for the specified honours program using the calendar that is in effect at the time of admission into the continuing category.

The students who are granted the Honours Equivalent designation do not receive a second degree parchment and do not participate in a convocation program, but have the designation shown on their transcript. Graduation standing is not assigned for the Honours Equivalent designation.

Prior Learning Assessment

At the University of Guelph, Prior Learning Assessment is an acceptable process for assigning credit at the undergraduate level for learning stemming from experience acquired independently of courses taken at university. PLA provides a mechanism whereby credit is given for equivalence in a university course to those students who have mastered the content of the course concerned without having taken a formal course in the subject area. Such mastery may have been acquired, for example, through work experience, independent study or from non-degree courses. In the absence of a certificate or other formal acknowledgement of competence by an appropriately accredited institution, the student can challenge the appropriate specific course(s) offered by the University to a maximum of 5.00 credits in a degree program or 30% of the curriculum for Open Learning Certificates. This is a post admission process only.

Each academic department is responsible for determining which of its courses may be subject to PLA challenge. The challenge process could include one or more assessment methods, including standardized tests, written and/or oral examinations, performance evaluations, interviews, and portfolio assessments. These assessments require that the individual demonstrate, to a qualified faculty member, that pre-determined knowledge and skills have been acquired.
Students should contact Undergraduate Program Services (ups@registrar.uoguelph.ca) for application forms and further information.

Readmission
Previously registered University of Guelph students must apply to Admission Services for readmission under any of the conditions outlined below. In some cases, applicants may reapply for the Fall entry point only. Applicants should contact Admission Services for details.

1. They were required to withdraw from their program for a period of two or more semesters.
2. They were suspended from the University for academic misconduct.
3. They have graduated from this University and wish to register for additional courses.
4. They registered in a program at another post-secondary institution and wish to return to the University of Guelph.
5. They have not registered at the University of Guelph for six or more consecutive semesters.
6. They are attending the University of Guelph on a letter of permission and wish to continue past the term of the letter of permission agreement.

Readmission to a program at the University of Guelph is not automatic. Students who are required to withdraw must apply for readmission to the University after completing the minimum two semesters of rustication. Students should consult sub-sections regarding appropriate admission requirements and deadline dates in this Section (IV--Admission Information). Applications for readmission should include a statement which outlines the basis for readmission. Criteria used for readmission may differ by academic program. Students considering readmission should consult with the appropriate program counsellor regarding procedures and criteria for readmission to that program.

Students apply for readmission online via the Ontario Universities' Application Centre as an Internal Transfer/Readmission student. An application fee is payable at the time the application is submitted. Refer to http://www.uoguelph.ca/admissions/prospective/intransfer/index.shtml for further information.

On December 19, 1995, the University Senate approved the following policy for the granting of credit while on rustication:

1. Students who have been required to withdraw, and who take university credit courses during their rustication period, will be eligible for up to 1.00 credit provided they meet the criteria for readmission and the criteria for the transfer of credit. Students registered for courses through the Open Learning program, are not permitted to attend courses on campus.
2. Students who take university courses after the two-semester rustication period may transfer all these credits provided the student meets the criteria for readmission and the criteria for the transfer of credit.
3. Students who have been suspended for academic misconduct will not receive any credit for courses taken during the suspension period.

Note: This policy applies to any university credit course taken during the rustication period.

Right of Selection
It should be carefully noted that possession of the minimum requirements does not in itself guarantee admission to any of the programs or specializations offered at the University of Guelph. For all programs for which the number of qualified applicants exceeds the quota, the University reserves the right to select the quota from among the qualified applicants.

For students applying to enter the University for the first time, the decision of the Admissions Committee is final and there shall be no appeal to that decision. An applicant for readmission may, under specific circumstances, appeal the decision of the Admissions Committee to deny readmission. Refer to Readmission in Section IV--Admission Information.

Applicants are reminded that the University is a dynamic institution and that information pertaining to admission may change. It is the responsibility of the applicant to ascertain admission requirements at the time of application.

For additional information, visit the Admission Services website at http://www.uoguelph.ca/admissions/index.shtml

Specific Subject Requirements and Recommendations
University of Guelph Programs
Specific subject requirements for the following programs offered by the University of Guelph are listed below:
Bachelor of Computing
Bachelor of Landscape Architecture
Bachelor of Science
Bachelor of Science in Agriculture
Bachelor of Engineering
Bachelor of Science in Environmental Sciences
Bachelor of Science in Technology
Doctor of Veterinary Medicine

While specific subjects are listed under the new OSS Curriculum, it is expected that some applicants may still present both OACs and Grade 12U and 12M courses. Students are advised to avoid course content duplication if they will be presenting courses from both the OAC and OSS curriculum. If two courses are presented which are deemed to be equivalent, only one will be accepted in calculating the admission average (e.g. OAC Calculus and 12U Advanced Functions and Introductory Calculus). The Non-Academic component of grade 12U/M co-op courses is not accepted as a contribution to admission requirements.

Out of province applicants should visit http://www.uoguelph.ca/admissions/outofprovf for applicable subject requirements. Students applying with educational credentials obtained outside of Canada should consult http://www.uoguelph.ca/admissions/equivalency.

Bachelor of Applied Science--B.A.Sc.
Child, Youth and Family; Adult Development, Families and Well-being
OSS Curriculum: ENG 4U; 1 credit in a 4U Mathematics; SBI 4U or SCH 4U; 3 additional 4U or 4M credits.
OAC Curriculum: Ontario Academic Course Credit Requirements: 1 credit in English I; 1 credit in Mathematics; 1 credit in Chemistry or Biology; 3 additional credits.

Applied Human Nutrition
OSS Curriculum: ENG 4U; 1 credit in a 4U Mathematics; SBI 4U; SCH 4U; 2 additional 4U or 4M credits.
OAC Curriculum: Ontario Academic Course Credit Requirements: 1 credit in English I; 1 credit in Mathematics; 1 credit in Chemistry; 1 credit in Biology; 2 additional credits.

Recommendations and Notes:
1. Applicants are strongly advised to include MCB 4U or OAC Calculus in their programs of study.
2. Students selecting a major in Child, Youth and Family or Adult Development, Families and Well-being should include Biology at the Grade 4U level or OAC.

Bachelor of Arts--B.A.
OSS Curriculum: ENG 4U; 5 additional 4U or 4M credits.
OAC Curriculum: Ontario Academic Course Credit Requirements - 1 credit in English I; 5 additional credits.

Recommendations and Notes:
1. All applicants are strongly encouraged to offer a credit in Mathematics or a credit in French (or other language) among the additional five credits.
2. Students planning on entering programs in the Social Sciences, Mathematical Sciences and Computing and Information Science are strongly advised to include one or more Mathematics courses, such as Calculus.

Bachelor of Arts and Sciences--B.A.S.
OSS Curriculum: ENG 4U; MCB 4U; 2 4U credits from SBI 4U, SCH 4U, SPH 4U or MGA 4U; 1 4U or 4M Arts or Social Science; 1 additional 4U or 4M credit.
OAC Curriculum: Ontario Academic Course Credit Requirements: 1 credit in English I; 1 credit in Calculus; 2 credits from Biology, Chemistry, Physics, Algebra and Geometry; 1 credit from Arts/Social Science; 1 additional credit.

Bachelor of Bio-Resource Management--B.B.R.M.
OSS Curriculum: ENG 4U; SBI 4U; 4 additional 4U or 4M credits.
OAC Curriculum: Ontario Academic Course Credit Requirements: 1 credit in OAC English, 1 credit in Biology, 4 additional credits.
1. All applicants are encouraged to include a 4U Math.

Bachelor of Commerce--B.Comm.

Agricultural Business, Management Economics in Industry and Finance, Marketing Management
OSS Curriculum: ENG 4U; MCB 4U; 4 additional 4U or 4M credits.
OAC Curriculum: Ontario Academic Course Credit Requirements: 1 credit in English I; 1 credit in Calculus; 4 additional credits.

Hotel and Food Administration, Real Estate and Housing, Human Resources Management, Public Management, Tourism Management
OSS Curriculum: ENG 4U; 1 credit in a 4U Mathematics; 4 additional 4U or 4M credits.
OAC Curriculum: Ontario Academic Course Credit Requirements: 1 credit in English I; 1 credit in Mathematics; 4 additional credits.
Recommendations and Notes:

1. Hotel and Food Administration and Tourism Management: Applicants are considered on the basis of academic performance and review of a Background Information Sheet submitted to the Admissions Committee. Any 4U or OAC Mathematics credit is acceptable. The application deadline date for the Hotel and Food Administration and Tourism Management majors is March 1. Late applications may be considered if spaces are available.

2. Marketing Management: If available, students are encouraged to include Economics and/or Administrative or Organizational Studies and/or Accounting among their 4U or 4M credits.

3. Real Estate and Housing: Calculus is recommended.

Bachelor of Computing--B.Comp.

OSS Curriculum: ENG 4U; MCB 4U; 4 additional 4U or 4M credits.

OAC Curriculum: Ontario Academic Course Credit Requirements: 1 credit in English I; 1 credit in Calculus; 4 additional credits.

Recommendations and Notes:

1. Computing and Mathematics of Data Management courses are recommended, as are any other courses necessary to prepare the student for study in an "Area of Application".

Bachelor of Landscape Architecture--B.L.A.

OSS Curriculum: ENG 4U; SBI 4U; 1 4U credit in Mathematics; 1 credit from a 4U or 4M Geography, Visual Arts, French, a Level 4 International Language or a Level 3 Classical Language; 2 additional 4U or 4M credits.

OAC Curriculum: Ontario Academic Course Credit Requirements: 1 credit in English I; 1 credit in Biology; 1 credit in Mathematics; 1 credit from Geography, Visual Arts, French or Français or another language; 2 additional credits.

Recommendations and Notes:

1. Students are strongly advised to include Chemistry or Physics in their program of studies. Applicants are considered on the basis of academic performance, a review of the Background Information Sheet and portfolio. Application forms must be received by March 1. Please refer to the deadline dates for the Background Information Form, portfolio and transcripts at the end of this chapter under the heading Deadline Dates - Advanced Standing, Non-Degree and Limited Enrolment Programs.

Bachelor of Science--B.Sc.

OSS Curriculum: ENG 4U; MCB 4U; 2 4U credits from SBI 4U, SCH 4U, SPH 4U, or MGA 4U; 2 additional 4U or 4M credits.

OAC Curriculum: Ontario Academic Course Credit Requirements: 1 credit in English I; 1 credit in Calculus; 2 credits from Biology, Chemistry, Physics, Algebra and Geometry; 2 additional credits.

Recommendations and Notes:

It is highly recommended that students select one of the two additional credits bearing in mind:

1. Their eventual specialization.

2. Regulation I on Introductory Courses, Section IX-B.Sc. Applicants who lack one specific 4U or OAC requirement but who have a high overall academic standing are encouraged to apply for admission to the regular (non-coop) program.

3. Students contemplating admission to the D.V.M. Program should include the following 4U or OAC credits: Biology, Physics and Chemistry.

4. Applicants to Biological, Food and Nutritional and Nutraceutical Sciences are advised to include Biology, Chemistry and Physics among their 4U or OAC credits.

5. OAC Algebra & Geometry or MGA 4U. Chemistry and Physics are strongly recommended for Mathematical, Computer and Physical Sciences.

Bachelor of Science in Agriculture--B.Sc. (Agr.)

OSS Curriculum: ENG 4U; MCB 4U; 2 4U credits from SBI 4U, SCH 4U, SPH 4U, or MGA 4U; 2 additional 4U or 4M credits.

OAC Curriculum: Ontario Academic Course Credit Requirements: 1 credit in English I; 1 credit in Calculus; 2 credits from Biology, Chemistry, Physics, Algebra and Geometry; 2 additional credits.

Recommendations and Notes:

1. Students contemplating admission to the D.V.M. Program should present 4U or OAC Biology, Chemistry, and Physics.

2. Students who are lacking a specific 4U or OAC subject requirement but who have a high overall academic standing are encouraged to apply for admission.

Bachelor of Engineering--B.Eng.

OSS Curriculum: ENG 4U; MCB 4U; 2 4U credits from SBI 4U, SCH 4U or SPH 4U; 2 additional 4U or 4M credits.

OAC Curriculum: Ontario Academic Course Credit Requirements: 1 credit in English I; 1 credit in Calculus; 2 credits from Physics, Chemistry, Biology; 2 additional credits.

Recommendations and Notes:

1. All applicants are encouraged to include both 4U or OAC Physics and Chemistry in their course credits.

2. Students are considered on the basis of academic performance and a review of a Student Profile Form submitted to the B.Eng. Admissions Committee. In addition, due to the nature of the program, personal interviews and/or special tests may be used to assist in the selection of candidates. Differential criteria may prevail for admission to the various B.Eng. programs. Students who are admitted but lack specific required courses must complete replacement courses available at the University which do not all count towards the 23.50 credits required for the B.Eng. program. Students intending to enrol in these courses should consult the timetable and Section XII of the Calendar to determine the semesters during which they are offered.

3. Applicants who lack one specific subject requirement but who have a high overall academic standing are encouraged to apply for admission to the regular (non-coop) program. Replacement credits are available at the University of Guelph and 0.50 may be counted for credit in the degree.

4. Students selecting a major in Environmental and Biological Engineering are advised to include Economics, Chemistry and Biology in their program of study. Students intending to major in Water Resources Engineering should include Physics, Chemistry and 1 of Biology or Computer Studies. Engineering Systems and Computing majors should include Physics, Chemistry and Computer Studies.

Bachelor of Science in Environmental Sciences--B.Sc. (Env.)

OSS Curriculum: ENG 4U; MCB 4U; 2 4U credits from SBI 4U, SCH 4U, SPH 4U, 2 additional 4U or 4M credits.

OAC Curriculum: Ontario Academic Course Credit Requirements: 1 credit in English I; 1 credit in Calculus; 2 credits from Physics, Chemistry, Biology; 2 additional credits.

Recommendations and Notes:

1. To be best prepared for semester 1 of the program, all applicants are advised to include 4U or OAC Biology, Chemistry, and Physics.

2. Students interested in Environmental Geography or Natural Resources Management should consider 4U or OAC Geography in their program of study.

3. Students who lack any one specific subject requirement but who have a high overall academic average are encouraged to apply for admission to the regular (non-coop) program. Students who are admitted with a deficiency in one of the secondary school requirements are encouraged to seek advice from their academic or admissions counsellor. This deficiency must be resolved in the first year of the program.

Bachelor of Science in Technology--B.Sc. (Tech.)

OSS Curriculum: ENG 4U; MCB 4U; 2 4U credits from SBI 4U, SCH 4U, SPH 4U or MGA 4U; 2 additional 4U or 4M credits.

OAC Curriculum: Ontario Academic Course Credit Requirements: 1 credit in English I; 1 credit in Calculus; 2 credits from Biology, Chemistry, Physics, Algebra and Geometry; 2 additional credits.

Recommendations and Notes:

1. It is highly recommended that students interested in the Physics and Technology program take MGA 4U or OAC Algebra and Geometry and SPH 4U.

2. It is highly recommended that students interested in the Pharmaceutical Chemistry program take 4U or OAC Chemistry.

Doctor of Veterinary Medicine-D.V.M.

The class size in the Doctor of Veterinary Medicine (D.V.M.) Program is limited to approximately 110 students.

Academic Requirements

For admission to the D.V.M. Program, a minimum of four full-time semesters (10.00 credits), including:

1. Biological Sciences - 1.50 credits (3 semester courses, with recommended emphasis on Animal Biology; one must be a Cell Biology)

2. Genetics - 0.50 credit (1 semester course)

3. Biochemistry - 0.50 credit (1 semester course)

4. Statistics - 0.50 credit (1 semester course with a Calculus prerequisite)

5. Humanities or Social Sciences - 1.00 credit* (2 semester courses)

*Applicants must complete prerequisite courses while registered on a full-time basis (e.g. University of Guelph 2.50 credits per semester, the equivalent of five half-year courses per semester).

Note: Academic requirements for applicants to the D.V.M. Program for 2009 Entry. To be eligible to apply for September 2009 entry to the D.V.M. Program students must have completed a minimum of four full-time semesters, including all D.V.M. admission course requirements, at a recognized university before December 31, 2008. The earliest time at which applicants may apply for 2009 admission to the D.V.M. Program is during third year of their first undergraduate degree program. Please refer to 2009 D.V.M. application and required document deadline dates at: http://www.ove.uoguelph.ca/Undergrad/potential/admission.shtm
1. Academic Achievement and Aptitude

In view of the need to efficiently and quickly learn large amounts of factual material and to solve problems, applicants must have demonstrated achievement in the comprehension of scientific material. This will be evaluated by the scrutiny of transcripts of previous academic records and MCAT results. Attention will be paid to both the quality and consistency of grades in the program presented as preparation for admission, particularly for those applicants who have spent more than the minimal time in preparation. Course selections in an applicant's last two full-time semesters will be reviewed for academic coherence. For the purpose of D.V.M. admissions, a full-time semester will include at least half-year courses (2.50 credits) from the acceptable list. It is expected that the level of an applicant's courses will correspond to the semester level (year) of his or her program.

Please refer to information regarding acceptable courses at http://www.occ.uoguelph.ca/Undergrad/potential/admission.shtml.

2. Animal and Veterinary Experience

As part of the application process, candidates must demonstrate sufficient knowledge of the profession, its dimensions and the industries it serves to permit the candidate to make and defend his or her career choice. This requires the candidate to spend adequate time under the supervision of veterinarians in clinical practice situations (volunteer or paid) in order to gain hands-on experience with a range of animal species. Practice situations include, but are not limited to, large, small, mixed, avian and exotic animal clinics; thus introducing the applicant to food producing, companion, zoo and wildlife animals, or aquaculture. Other work or volunteer experience with veterinarians can include non-practice situations such as industry (e.g. veterinary products, pharmaceutical), research and academia (universities), and government (e.g. public health, regulatory affairs). There is an expectation that candidates will be able to demonstrate for each animal or veterinary experience the role of the veterinarian, production and breeding systems, general features of housing and feeding, productivity measures and norms, marketing systems, animal behaviour relevant to restraint, feeding and reproduction, and emerging trends and issues in the industry.

3. Background Information and Referees' Assessments

Successful candidates should have integrity, reliability, maturity and determination. It is important that professionals have excellent communication and leadership skills, and that they have a talent for effectively working with others. To assist in identification of candidates who possess these and other attributes, applicants must complete a Background Information Form, in which they will describe their academic program, work experience and extra-curricular activities. In addition, applicants will be asked to write a short essay about why they wish to study veterinary medicine. Confidential referee reports will be expected to address candidates' qualifications to give unbiased information, assess the applicant's potential in the veterinary profession, its dimensions and the industries it serves to permit the candidate to make and defend his or her career choice. This requires the candidate to spend adequate time under the supervision of veterinarians in clinical practice situations (volunteer or paid) in order to gain hands-on experience with a range of animal species. Practice situations include, but are not limited to, large, small, mixed, avian and exotic animal clinics; thus introducing the applicant to food producing, companion, zoo and wildlife animals, or aquaculture. Other work or volunteer experience with veterinarians can include non-practice situations such as industry (e.g. veterinary products, pharmaceutical), research and academia (universities), and government (e.g. public health, regulatory affairs). There is an expectation that candidates will be able to demonstrate for each animal or veterinary experience the role of the veterinarian, production and breeding systems, general features of housing and feeding, productivity measures and norms, marketing systems, animal behaviour relevant to restraint, feeding and reproduction, and emerging trends and issues in the industry.

4. Interviews

Applicants may be invited to an interview. Interviews give candidates an opportunity to display their ability to communicate effectively and give the interviewers an opportunity to assess candidates' attitudes and attributes applicable to veterinary medicine. Applicants should be prepared to elaborate on statements made in the Background Information Form, to discuss their reasons for choosing veterinary medicine as a career, and to describe what they have done to affirm their career choice and to prepare themselves for admission. They should be prepared to discuss issues pertaining to household, care and welfare of a variety of animal species. Applicants may be asked to describe the duties and responsibilities of veterinarians and the scope of veterinary medicine. All interviews are held at the University of Guelph (no exceptions can be made).

Additional Attributes Required for Entry into the D.V.M. Program

Applicants should be aware that a number of attributes are required for admission to the Program. In addition to those already identified above under Selection Criteria (e.g. academic achievement, academic aptitude, integrity) a number of others, some of which relate to certain University of Guelph Learning Objectives, have been identified. These are presented here to assist prospective candidates in preparing themselves for admission.

1. Literacy and Numeracy

Literacy and numeracy are the areas on which all knowledge is founded. The ability to read, write, and calculate are fundamental intellectual tools. Students entering the D.V.M. Program will be able to demonstrate literacy skills at least to the basic level as described under Literacy in the University of Guelph Learning Objectives. They will be able to assimilate and comprehend written language at a basic level, to summarize information in a coherent manner, and use appropriate language in context. Successful applicants must be able to devise a topic or concept for discussion, frame its bounds and communicate its content.

Students entering the D.V.M. Program will understand the value and principles of describing situations in numeric terms. They will be able to assimilate and comprehend numeric data and use appropriate tools to manage such information. They must be able to use skills of numeracy to check validity of information, to use and correctly interpret appropriate statistics to describe the distribution of observations in individuals and populations, and be able to perform basic tests of hypotheses (t-test, chi-square and simple regression) and interpret these correctly.
2. Communication Skills
Communication is the process of interacting with others respectfully and involves an exchange of information, feelings and values. It includes intrapersonal communication (self-understanding, self-evaluation, and reasoning) and interpersonal communication (interaction with others, relationship and self-disclosure). Through interpersonal communication, relationships are started, maintained, or destroyed. Good communication involves an understanding of self-awareness, of esteem, of feelings and emotions, the development of listening skills and the willingness to disclose oneself truthfully and freely. Good communication also requires an understanding of principles of language and verbal interaction, principles of non-verbal communication, and of interpersonal communication and relationships (relationship development and deterioration, improvement of interpersonal communication, conflict management, interviewing skills etc.)

Students entering the D.V.M. Program will be able to: listen respectfully and comprehend appreciatively; practice the elements of good interpersonal communication successfully; demonstrate the ability to work cooperatively; and communicate effectively by oral, written, and electronic means at the appropriate literacy level. Successful applicants will be able to recognize the non-verbal aspects of communication by considering feelings, emotions, and values as elements of communication.

3. Judgement
Students entering the D.V.M. Program will be able to use knowledge, observational and analytical skills, with due consideration of value systems, to evaluate and implement decisions. They will be able to identify and articulate their personal value system; identify ethics and standards of conduct; and identify the values and assumptions that may be operative in various contexts. They must be able to identify, critically evaluate and accept the implications and consequences of decisions, to re-evaluate decisions based on new information, and deal effectively with uncertainty. They will be able to accept that self-assessment of ethics and standards of conduct is a professional responsibility, and accept that others may have different values and assumptions and respect those differences.

4. On-Going Curiosity (self-initiated learning)
Students entering the D.V.M. Program must be able to use self-initiated learning to maintain and enhance depth and breadth of understanding. They must recognize limitations of their knowledge, skills and attitudes, identify sources of ongoing learning opportunities, and demonstrate a commitment to on-going learning and self-evaluation.

5. Forms of Inquiry
Students entering the D.V.M. Program will be able to identify and articulate the strengths and weaknesses, similarities and differences of various forms of inquiry (i.e. those used by the physical scientist, the biological scientist, the social scientist and the scholar of the humanities). They will be able to describe and apply the scientific method, and articulate and evaluate personal problem-solving processes.

6. Essential Skills and Abilities
Please refer to Essential Skills and Abilities required for the Study of Veterinary Medicine at http://www.ovc.uoguelph.ca/Undergrad/potential/admissions/.

Application Procedure
Domestic applicants currently registered at the University of Guelph must obtain an internal application for transfer or readmission from Admission Services on-line at http://www.uoguelph.ca/admissions/internal. All other domestic applicants must apply using the Ontario Universities Application Centre by accessing the computerized application service http://compass.ontariocac.ca.

International students should apply through the Veterinary Medical College Application Service (VMCAS). For further details see http://www.vmca.org/vmcas/vmcas.htm. Alternatively, international applicants can apply using the University of Guelph International Application found at http://www.uoguelph.ca/admissions/download/index.shtml.

Application Deadline Dates
For Canadian citizens or permanent residents of Canada who satisfy the Ontario residency requirement applying to the first year of the Doctor of Veterinary Medicine Program, application forms must be received no later than February 1, 2008.

Commencing in 2009 the application deadline date will be January 1st. Please refer to the application date for supporting documentation including MCAT scores, references, official transcripts and the Background information Form at: http://www.uoguelph.ca/Undergrad/potential/admissions/. The deadline for International applicants using the VMCAS application is October 1.

Application Limitation
In total, only four applications for admission to the D.V.M. Program will be considered from an individual.

Requests for Deferrals
Requests for deferral of admission to the D.V.M. program will not be permitted except upon approval by the Admissions Committee due to significant medical, psychological or compassionate reasons.

Admission with Advanced Standing
Applications for admission to advanced semesters will be considered from students who have been enrolled in D.V.M. Programs at other institutions, subject to the availability of places in the D.V.M. Program and the academic standing of the candidate. In no case will admission be considered beyond the fifth semester. When places are available, candidates may be asked to present themselves for interview and may be asked to pass examinations on subject matters in the veterinary curriculum. Applicants are advised that vacancies are rare. The application deadline date for advanced standing applicants is February 1st for 2008 and January 1st for 2009.

Rabies Immunization
A condition of admission to the D.V.M. Program is agreement to a rabies immunization program which includes blood titre evaluation. Exemption from this condition may be granted in exceptional circumstances, but the student concerned must sign a release absolving the University of further liability.

Use of Animals
Live animals may be used for teaching purposes in some courses in the Veterinary Program, and this must be accepted by students admitted to the program. All animals are protected by the Animals for Research Act of Ontario (1980), the Guidelines for the Care and Use of Experimental Animals (Canadian Council on Animal Care), and the Animal Care Policies of the University of Guelph.

University of Guelph-Humber Programs
Specific subject requirements for the following programs offered by University of Guelph-Humber are listed below:

 Bachelor of Applied Arts
 Media Studies
 Bachelor of Applied Computing in Distributed Computing and Communication Systems Technology
 Bachelor of Applied Science
 Early Childhood Services
 Family and Community Social Services
 Gerontology
 Justice Studies
 Bachelor of Business Administration
 Bachelor of Applied Arts--B.A.A.
 Media Studies
 Bachelor of Applied Computing in Distributed Computing and Communication Systems Technology--B.A.Comp. (D.C.C.T.)

The Bachelor of Applied Computing in Distributed Computing and Communication Systems Technology program is an integrated degree-diploma program offered only at the University of Guelph-Humber campus.

OAC Curriculum: Ontario Academic Course Credit Requirements: 1 credit in English; 5 additional credits.
New OSS Curriculum: 1 Grade 12U English; 5 additional Grade 12U or 12M credits.

Recommendations and Notes:
Non-Academic Requirements include an interview, a portfolio evaluation, and a writing test.

Bachelor of Applied Computing in Distributed Computing and Communication Systems Technology--B.A.Comp. (D.C.C.T.)

The Bachelor of Applied Computing in Distributed Computing and Communication Systems Technology program is an integrated degree-diploma program offered only at the University of Guelph-Humber campus.

OAC Curriculum: Ontario Academic Course Credit Requirements: 1 credit in English; 1 credit in Calculus; 4 additional credits.
New OSS Curriculum: Grade 12U English; Advanced Functions and Introductory Calculus; Grade 12U Mathematics; 4 additional Grade 12U or Grade 12M credits.

Recommendations and Notes:
Applicants are encouraged to include an additional math credit in their program of study.

Bachelor of Applied Science--B.A.Sc.
Early Childhood Services
OAC Curriculum: Ontario Academic Course Credit Requirements: 1 credit in English, 1 credit in Mathematics, 1 credit in Science; 3 additional credits.
New OSS Curriculum: Grade 12U English; Grade 12U Mathematics; 3 additional Grade 12U or Grade 12M credits.

Recommendations and Notes:
Applicants are strongly advised to include Biology in their program of study.

Family and Community Social Services
OAC Curriculum: Ontario Academic Course Credit Requirements: 1 credit in English; 1 credit in Mathematics; 4 additional credits.
New OSS Curriculum: Grade 12U English; 1 Grade 12U Mathematics; 4 additional Grade 12U or Grade 12M credits.
Gerontology

OAC Curriculum: Ontario Academic Course Credit Requirements: 1 credit in English; 1 credit in Mathematics; 1 credit in Biology or Chemistry; 3 additional credits

New OSS Curriculum: 1 grade 12U English, 1 grade 12U mathematics, 1 Grade 12U Biology or Chemistry; 3 Additional grade 12U or grade 12M credits

Recommendations and Notes:
Applicants are advised to include Biology among their Grade 12 credits.

Justice Studies

OAC Curriculum: Ontario Academic Course Credit Requirements: 1 credit in English; 1 credit in Mathematics; 4 additional credits

Applicants are strongly advised to include Advanced Functions and Introductory Calculus in their program of study.

Submission of Documents

Each of the following applicable documents must be sent in support of an application. Please note that official transcripts submitted will become the property of the University of Guelph. Normally, official transcripts must be sent directly to the University by the institution issuing the document. The applicant is responsible for ensuring that all documents are received in Admission Services by the document deadline date. No decision will be made until all documents have been received. Personal documents will be returned. Applications with incomplete documentation after the document deadline date will not receive consideration.

1. Ontario Secondary School Diploma or equivalent Senior Matriculation Certificates, (i.e. Alberta Grade 12, G.C.E. etc.). Students currently enrolled in their final year of secondary school in Ontario are not required to submit documentation as decisions for early admission are based on interim grades reported by the secondary school.

2. Birth Certificate (only for students applying under Mature Student Regulation).

3. Official transcripts of all academic work taken at the post-secondary level, e.g. university, college, nursing, etc.

4. Transcript of marks from the last secondary school attended.

5. Any other documents demonstrating academic results or ability, or explaining the level of academic performance.

6. Any supplementary information required as part of the application.

Use of Animals in Teaching

Animals are used to support the teaching in some courses. The University of Guelph is dedicated to maintaining a high level of animal care in all of its teaching programs. Regulated by the Animals for Research Act, the University is in compliance with the standards set by the Canadian Council on Animal Care. Guelph has long been a leader in the promotion of animal welfare issues, and in 1989, established the Colonel K.L. Campbell Centre for the Study of Animal Welfare, the first such centre in North America. The Centre promotes humane systems of animal management and fosters the development of alternatives in animal use in research and teaching.
V. International Study

Exchange Programs
A variety of exchange programs exist for undergraduate students and graduate students who wish to study at an overseas institution for a period of time. International Letter of Permission--L.O.P.
The University of Guelph has established several programs under the Commonwealth Universities Study Abroad Consortium (CUSAC) whereby the University of Guelph students may study overseas on a Letter of Permission. Students participating in these programs pay tuition to the host institution and not to the University of Guelph. The Centre for International Programs administers all CUSAC, LOP programs.

For more information, visit the InfoCentre, Centre for International Programs, Level 3, University Centre.

Semesters Abroad
Students registered in a Semester Abroad are recognized as University of Guelph students and thus fall under the rules and regulations of the University of Guelph. It should be noted however, that many study abroad semesters involve the employment of sessional faculty from abroad. While every attempt is made to fully inform these faculty of the Senate regulations concerning academic procedures and evaluation of student work, there may be times when appeals by students are not handled in a fashion that would be appropriate under the University of Guelph guidelines. It is therefore recommended that any student who wishes to submit an appeal to Academic Review or request a grade reassessment should first contact the semester abroad coordinator for advice.

It will be the responsibility of the coordinator to refer the matter through the appropriate channels. In some cases this might be to a department chair, in others, through a dean. At all times the University of Guelph's rules and procedures will be adhered to. Given the distance between the University of Guelph and the host institution, the time deadlines in place for processing requests for academic review or grade reassessments will not be enforced. Students studying on an exchange should normally expect to abide by the rules and regulations of the host institution.

The University offers the following semester abroad programs, however, not all semester abroad programs are offered every year. Contact the Centre for International Programs, University Centre, Level 3, for information on current offerings.

India Semester
The India semester offers a unique opportunity for up to 25 students to take University of Guelph courses on site at the University of Rajasthan in Jaipur. The India semester is administered by the Centre for International Programs. It allows students to combine academic pursuits with the exploration of the rich historical and cultural resources of one of the world’s oldest civilizations.
Krakow Semester
The Guelph/Krakow semester provides the opportunity for up to 25 University of Guelph students to study on the grounds of Jagiellonian University (the alma mater of Copernicus) for the fall semester. Students, who will have completed 4 semesters with a 70% average, in all undergraduate university programs are encouraged to apply (an association with the Agricultural University in Krakow provides OAC students with a unique opportunity to learn about Polish agriculture). Courses are taught by Polish faculty in English and are accredited at either the 3000 or 4000 level. Survival Polish lessons will be provided. In addition to the experience of living in a Krakow university residence and learning formally and informally about Polish art, culture, history, political systems, etc., there are a number of trips to areas and place of interest in Poland. The semester is co-ordinated by a Guelph faculty member who may also teach a course in Krakow. More detailed information about academic requirements, bursaries, courses, etc. can be obtained from the Centre for International Programs, University Centre, Level 3.

Latin America Semester
Organized with the University of Saskatchewan, this semester-long academic program in Guatemala offers Spanish-language training and local home stays to complement our humanities and social science courses. In the future, the Latin America Semester may rotate among other countries in the region. For more information, contact Dr. Kris Inwood, Department of Economics.

London Semester
Students may take a full-time semester in Britain by going on the London Semester. While the courses offered are in Arts and/or Social Science, all students are eligible to apply. The Senate regulations governing the London semester, application forms, deadline dates, and details concerning the selection of students are available at the Centre for International Programs, University Centre, Level 3.

Nice Program
Guelph students have many opportunities to enrich their academic French studies through varied programs. They may choose to spend semesters 5 and 6 in Nice, France, with the Canadian Third Year in Nice program (not to be confused with the Université Canadienne en France program), sponsored in part by the University of Guelph. In this program, Guelph students take courses at the University of Nice along with regular French students. Another possibility is spending one or more semesters at a university in Quebec, in which case they are eligible for the monitor program (financial support in exchange for teaching conversational English) as well as several bursaries. Francophone students at Guelph are also eligible for the monitor program, teaching conversational French locally. French Studies graduates may apply to the Canada France Exchange program which allows them to spend one full year in France, teaching conversational English in French high schools, as well as pursuing their studies at a French university if they so wish. For further details, contact the departmental advisor, School of Languages and Literatures, College of Arts.

Paris Semester
Up to 25 students may take advantage of this unique semester abroad experience. Courses are taught in English and are offered in the Arts and/or the Social Sciences. All students are eligible to apply. Information, application forms and further details are available from the Centre for International Programs, University Centre, Level 3.

Study Abroad Programs
University of Guelph study abroad programs consist of two types: semesters abroad and exchange programs.

Semesters abroad offer a structured group experience where a Guelph faculty member accompanies students abroad. Students take Guelph courses and pay tuition to the University of Guelph.

Exchange programs offer students an opportunity to take courses at a university abroad for up to a year and get credit toward their degree at Guelph. In return, students from the host university may study at Guelph. Tuition is paid to the student's home university.

Participants in a University of Guelph study abroad program may qualify for a travel scholarship, see Section IX--Scholarships and Other Awards for details.

For information on these or other work or study abroad options, please contact the Centre for International Programs, University Centre, Level 3.
VI. Schedule of Fees

All fees for a semester are due and payable on or before the date scheduled for registration for that semester.

Provisional registration may be granted to students who make arrangements with the Associate Registrar, Student Financial Services (SFS), to defer payment of their University account. Deferred payment normally will be granted only to students who can show proof of financial assistance from O.S.A.P. or other awards which can be confirmed by the University and are not on hand at the commencement of classes through no fault of the student. Students should apply for O.S.A.P. two months in advance of the first class day of each semester, in order that the application can be processed in time to have funds for registration. Cancellation of registration may be exercised at the discretion of the University for failure to complete the registration payment. Registration will be cancelled for students who have not paid or made satisfactory arrangement for payment by the deadline announced by SFS each semester. There is a $200.00 reinstatement fee levied for full-time students and $100.00 reinstatement fee levied for part-time students wishing to register after deregistration. Reinstatement will not be allowed after October 15th for the Fall semesters, January 31st for the Winter semester and June 15th for the Summer semester.

Fall Semester Only - Minimum Registration Deposit

ALL students are required to make the minimum, compulsory, non-refundable Registration Deposit of $200.00 prior to the beginning of the Fall semester (please refer to the Student Financial Services website Tuition & Fees Announcement. Payment of this deposit by the deadline date will ensure that the courses selected for the Fall term will be retained. There are no exemptions from the payment of this deposit irrespective of current account balance or funding to come in the future. This condition may be waived on a case by case basis under extenuating circumstances, e.g. medical or compassionate grounds with documentation.

Academic sanction may be applied to students who have not made payment, or suitable arrangements for payment, of their University account. Academic sanction will prevent one or more of the following:

- a. release of semester examination results
- b. release of transcripts
- c. granting of a degree or diploma
- d. registration for a subsequent semester

Changes in Fee Schedule

The University reserves the right to make changes in the published schedule of fees and payment dates and also to assess charges, which are not included in the schedule of fees, for course material and/or transportation provided at University expense.

University Fees

Tuition Fees

The undermentioned tuition fees apply to Canadian students and those with permanent resident status. Students from outside of Canada, who do not have permanent resident status, should consult Visa Student Fees, in this section. For information regarding Tuition fees, for Full-time, Part-time and Audit students, visit the Student Financial Services website at: http://www.uoguelph.ca/studfin/ug/index.cfm.

Note: For tuition fees the University of Guelph-Humber please check the University of Guelph-Humber website at http://www.guelphhumber.ca/.

Note: Special or Non-degree full-time students pay the same tuition fee per program as indicated by programs for regular full-time students.

Visa Student Fees

For information regarding Tuition fees for Full-time and Part-time Visa students visit the Student Financial Services website at: http://www.uoguelph.ca/studfin/ug/index.cfm.

Health Insurance for International Students

All international students registered at the University of Guelph are required to enrol in the University Health Insurance Plan (UHIP) - participation is compulsory. Current UHIP fees are found at Student Financial Services' website at: http://www.uoguelph.ca/studfin/ug/index.cfm.

Students who are studying on student visas and whose immigration status changes, or those who may be eligible for the regular tuition fees but are charged the visa student fees, must present acceptable official documentation to Undergraduate Program Services, Office of Registrarial Services. To effect a change of fees in a particular semester, the documentation must be presented prior to June 30 (Summer Semester), November 1 (Fall Semester), or February 1 (Winter Semester).

Categories of students who are exempt from paying the visa student fee are synopsized as follows:

- Canadian citizens, permanent residents, or their dependents.
- applicants for permanent residency who submit the appropriate letter.
- diplomatic or consular officers of another country or representatives of the United Nations or its agencies who are stationed in Canada, or their dependents.
- visitors, or their dependents, who are in Canada on an employment authorization.
- refugees (officially recognized).
- members of foreign military forces admitted to Canada under the Visiting Forces Act, and their dependents.

The descriptions above are brief statements synopsized from the regulations of the Ministry of Training, Colleges and Universities. Final interpretation rests with the Office of Registrarial Services and documentation must be acceptable to the Office of Registrarial Services. The regulations are subject to change without notice.

Other Tuition and Incidental Fees

Co-operative Education

For information on current Co-operative Education fees, visit the Student Financial Services website at: http://www.uoguelph.ca/studfin/ug/index.cfm

Exchange Program

Guelph students attending other institutions are required to pay the University of Guelph the cost of full-time tuition and compulsory fees (less the Bus Pass fee). These students are assessed a $75.00 Administration Fee.

Senior Citizens (Canadian Citizens & Permanent Residents only)

Senior citizens, aged 65 years and over as of the first day of the month in which registration for a semester occurs, who are admitted for registration, will be exempt from the payment of domestic tuition, student organization and other fees, with the exception of material costs required for Fine Art and Distance Education courses.

Summer Semester and Summer Session

For classification purposes, any combination of Summer Semester credits (13 week) and Summer Session credits (6 week) that total 2.00 credits or more will constitute full-time enrolment and tuition and other university fees will be charged accordingly.

Other University Fees; Student Organization Fees; College Semester Fees

For information on Other University Fees, Student Organization Fees and College Semester Fees, please visit the Student Financial Services website at: http://www.uoguelph.ca/studfin/ug/index.cfm.

Meal Plan Fees

The On-Campus Meal Plan is a mandatory meal plan for all students living in a traditional residence and optional for students living in the East Residence, the East Village Townhouses or off campus. The On-Campus Meal Plan is designed to cover both the Fall and Winter semesters. Hospitality Services offers four (4) different sizes of plans to accommodate a variety of eating habits. Each On-Campus Meal Plan is composed of 2 Plans in 1 - The Basic Plan and the Flex Plan.

The Basic Plan is used for all on-campus food purchases. These purchases are tax exempt when applicable.

The Flex Plan is used for vending machines, dining at select off-campus restaurants and delivery orders for pizza, subs and pitas. These purchases are taxable. At the end of the Winter semester, so long as you are a University of Guelph student, Food Dollars remaining in your On-Campus Meal Plan will be carried forward to the Carryover Ultra Food Plan. This carryover plan enables you to continue spending your remaining Food Dollars when you return to school, whether you live on or off campus.

Information on the On-Campus Meal Plan Fees is available at the Student Financial Services website: http://www.uoguelph.ca/studfin/ug/index.cfm. For those students not required to purchase and On-Campus Meal Plan, Hospitality Services provides a convenient, money saving Ultra Food Plan.

For more information on Hospitality's meal plans visit the Hospitality Services website: http://www.hospitality.uoguelph.ca/mealplans.htm.

Parking Fees

Information on Parking Fees is available at the Student Financial Services website http://www.uoguelph.ca/studfin/ug/index.cfm.

For information regarding Parking Services visit the Parking Services website http://www.uoguelph.ca/security/Parking/index.html

Prior Learning Assessment

Application Fee

A fee will be charged for each application to challenge a course, irrespective of the number of courses specified in the application.

| Application Fee | $50.00 |
Refunds

Withdrawal

A student who makes a request for Withdrawal from the University may apply to the Office of Registrarial Services for a refund of tuition fees provided the hiatus has been authorized (see also Withdrawal, Section VIII--Undergraduate Degree Regulations).

If the withdrawal or credit drop results in a credit balance in your fees account (i.e. payments are greater than charges) a refund cheque is produced. Allow four to six weeks before refunds are available from Student Financial Services. The University has been directed by the Ministry of Training, Colleges and Universities to return refunds to the National Student Loan Centre in instances where assistance was received through a Government Student Loan. In Cases in which students hold U.S. Federal Loans all refunds are directed to the U.S. Department of Education per their directive.

Winter and Summer Semesters - Refunds of tuition fees will be calculated according to the effective date and the following schedule:

<table>
<thead>
<tr>

Fall Semester - The compulsory non-refundable Registration Deposit of $200.00 is forfeited as the first charge against a withdrawal/cancellation or no show for the semester including the first five class days. The above schedule will only come into effect once the first $200.00 penalty has been used up.

Refunds of Other University Fees (except Residence and Meal Plan Fees) and Student Organization Fees (except Bus Pass, medical insurance premium and dental insurance premium, please see specific details on these fees) will be made in full up to and including the 15th class day of a semester. No refund of Other University Fees or Student Organization Fees will be made after the 15th class day. The effective date for the refund of tuition and fees will be the date on which the student notifies the Office of Registrarial Services regarding the withdrawal.

Room charges will be refunded on a pro rata basis for the period in residence, but cancellation of the residence contract will also result in forfeiture of all or part of the residence deposit. Refer to section 4.3 of the Residence Contract Terms & Conditions for further information. The effective date for refund will be the date belongings are removed from the room, a room check made and the room key, post office key and university ID card returned; or, the authorized effective date for withdrawal, whichever is later. Students to whom a room assignment has been made and who withdraw and subsequently re-register up to and including the 5th class day will be liable for any penalties incurred through forfeiture of the residence contract.

Meal plan fees, excluding the Capital Fund Component, will be refunded on a pro rata basis for the operating expense portion, plus the unused food portion, for authorized cancellation of a contract. The effective date for refunds will be the date on which the student notifies the Office of Registrarial Services regarding the withdrawal, except if a student withdraws before or after the first day of classes and re-registers before or on the 5th day of classes, cancellation of the contract is not permitted.

Bus Pass Fee

This fee is not refundable unless a student withdraws from the university within the first five class days of the semester. Please direct inquiries to the C.S.A. office.

Classification Changes

Refunds of tuition fees for students changing from full-time to part-time will be calculated on the difference of tuition values at the same rates for withdrawals. Refunds of Other University Fees and Student Organization Fees (except Bus Pass, Dental Insurance premium and medical insurance premium) will be made in full up to and including the 15th class day of a semester. No refunds of Other University Fees and Student Organization Fees will be made after the 15th class day. The effective date for classification change will be the date such change is reported to the Office of Registrarial Services.

Co-operative Education

Students must see the Policy Agreement for Student Involvement in Co-operative Education for withdrawal policies. If a student withdraws from co-op within the first 15 days of an Academic Semester, the student will receive a full refund of the co-op fee. Withdrawals after the 15th class day will not be eligible for a fee refund. Students who withdraw or are required to withdraw from a co-operative education program after accepting their second work term will be required to pay all remaining fees.

Dental Insurance Premium

The Dental Plan has an opt-out option. Please contact the Central Student Association office for the opt-out deadline. The fee is not refundable past the deadline.

Dropped Courses

Refunds of tuition fees for courses dropped by part-time students will be calculated at the same rates for withdrawals. The effective date for the drop action will be the date such information is reported to the Office of Registrarial Services.

Equipment Fund for D.V.M. Students

The Equipment Fund Fee is refundable during the first 15 class days of the semester to those who do not wish to support the fund. Applications for refund are to be made at the office of the Assistant Dean D.V.M. Refunds and receipts for donations will be remitted before the end of the fall semester.

Equipment Fund for Engineering Students

The Equipment Fund Fee is refundable during the first 15 class days of the semester to those who do not wish to support the fund. Applications for refund are to be made to the School of Engineering.

Medical Insurance Premium

This premium is not refundable unless a student withdraws from the university within the first five class days of the semester. Please direct inquiries to the C.S.A. office.

Student Society Fee for Landscape Architecture Students

Please refer to the Student Society for refund information.

Optional Fees

OPIRG-G is refundable during the first 3 weeks of each semester to those who do not wish to support its activities. Refer to General Information Section of this Calendar. Applications for refund are to be made at the OPIRG-G offices. RADIO GRYPHON fee is refundable during the first 3 weeks of each semester to those who do not wish to support the activities. Applications for refund are to be made at the Radio Gryphon offices.

Food Bank Affordable Housing, must approach the CSA office for refund.

Session Courses

In addition to the refund schedule quoted above, there will be a flat fee levied for each session course dropped after the first week of the course. The financial penalty is approximately double the regular course rate penalty.

Residence Fees

Information on Residence Fees is available at the Student Financial Services website http://www.uoguelph.ca/studfin/ug/index.cfm.

For Information regarding Student Housing Services visit the Student Housing Services website http://www.housing.uoguelph.ca/home.cfm.

D.V.M. and Graduate Students in Single Student Residence

Due to the longer D.V.M. winter semester, an increased winter residence rate is applicable to D.V.M. students. Similarly, an increased rate is applicable to graduate students who must remain in residence after the end of the regular winter semester. Students will be informed of the applicable dates, deadlines and charges late in the fall semester or early in the winter semester. A semester for residence purposes will terminate on the residence closing date indicated in the current Residence Contract. Section 6.2.8 of the Residence Contract requires that students vacate their rooms within 24 hours of completion of their final examination. Rates are for unfurnished units and include utilities (except telephone), parking, and satellite TV.

VII. Academic Advising

A university education is a complex and multi-faceted experience, which is best undertaken in a supportive and encouraging environment. As part of its dedication to student success, the University of Guelph is committed to providing high-quality academic advising, in order to assist students in the development and pursuit of academic objectives consistent with their life goals and the available opportunities at the University. The responsibility for developing educational plans and setting goals rests with the student. Academic advising contributes to this process by identifying alternatives, exploring likely outcomes, and referring students to appropriate resources.

Academic advising at Guelph is delivered by a team which includes faculty advisors, program counsellors, the Undergraduate Academic Information Centre (UAIC), the Associate Vice-President (Academic) and others. Coordinating all activity is the University's Council on Undergraduate Academic Advising (CUAA), which has responsibility for overall advising systems direction and policy. The UAIC provides general walk-in assistance to students and, as appropriate, directs students to specialized advising resources. Each student has direct access to Faculty Advisors, who focus on subject-related issues and advice, and a Program Counsellor, who assists with degree program requirements and expectations.

These components of the academic advising system work together to achieve goals and objectives that include:

- helping students develop an educational plan and choose an appropriate course of studies to meet their academic and life objectives
- ensuring that students are aware of opportunities and resources that can assist students in achieving their educational goals
- assisting students in interpreting university policies and procedures, and applying general rules to their specific cases
- facilitating resolution of academic problems, conflicts and concerns, as appropriate
- referring students as necessary to other resource units
- collecting and disseminating information on student needs, wants, perceptions, and trends in order to enhance institutional effectiveness and adaptability

Within the system, specific roles and responsibilities are distributed as indicated below:

Students

Responsibilities of the Student

Students admitted to the University are responsible for understanding and meeting certain responsibilities regarding Undergraduate Degree Regulations and Procedures, degree requirements, course requirements, Schedule of Dates, rules of conduct and accessing the University of Guelph email account. These responsibilities are described in Section I of the Undergraduate Calendar.

The responsibilities of students regarding academic advising are:

- to seek, when necessary, information from the Undergraduate Academic Information Centre
- to contact the program counsellor or faculty advisor
- to contact the program counsellor or faculty advisor for clarification of regulations and procedures

Faculty Advisors

Most undergraduate degree programs have a faculty advisor for each of their specializations. A contact list for current faculty advisors is available on the Undergraduate Academic Information Centre website at http://www.uoguelph.ca/uaic/faculty_advisors.shtml.

Role of the Faculty Advisor

The faculty advisor has particular expertise in the program specialization (major, minor, area of concentration, area of emphasis) and the fit of that specialization within the degree program. The role of the faculty advisor is:

- to provide information about the academic requirements of the specialization, including eligibility to declare the specialization and graduation requirements
- to refer to other campus services, as necessary
- to communicate information about the specialization to the department and the curriculum committee, program committee, and program counsellor, and to bring forward any concerns or issues as students progress through the Schedule of Studies for the specialization
- to liaise with the program counsellor for the degree program, in order to provide information about the specialization as it fits within the degree program

Responsibilities of the Faculty Advisor

The responsibilities of the faculty advisor are:

- to be familiar with the academic requirements of the specialization, including eligibility to declare the specialization and graduation requirements
- to assist students wishing to change or add specializations
- to propose the declaration of the specialization to the student's degree program and to sign specialization approval
- to assist the student to make academic decisions
- to refer students to the program counsellors, as appropriate
- to offer advice about meeting the requirements of the Schedule of Study for the specialization
- to be reasonably available to meet with students, as requested
- to assist with graduation checks, as requested
- to approve substitutions or exemptions for the specialization
- to be aware of career and graduate study opportunities related to the field of study, or refer appropriately
- to assist with course selection issues related to the specialization
- to provide information to the department, curriculum committee, program committee, and program counsellor about issues or concerns concerning the Schedule of Studies for the specialization
- to provide information and advice to the department and college, as requested, around enrolment management issues

Program Counsellors

All undergraduate degree programs have a program counsellor. A contact list for current program counsellors is available on the Undergraduate Academic Information Centre website at http://www.uoguelph.ca/uaic/program_counsellors.shtml.

Role of the Program Counsellor

The Program Counsellor has particular expertise in the degree program requirements and regulations, as well as the various specializations and their fit within the degree program. The Program Counsellor is also familiar with the policies and procedures that govern university practice. The role of the program counsellor is:

- to provide information about the academic requirements of the degree program, including admission requirements, Schedule of Studies requirements, Continuation of Study requirements, and graduation requirements
- to refer to other campus services, as necessary
- to communicate information about the degree program to the dean, chairs and directors, faculty advisors, curriculum committees, program committees (and their sub-committees); and to bring forward any concerns or issues as students progress through the Schedule of Studies for the degree program
- to liaise with the faculty advisor for the specialization, in order to provide information about the degree program and the fit of the specialization within the degree program

Responsibilities of the Program Counsellor

The responsibilities of the program counsellor are:

- to be familiar with the academic requirements of the degree program and its specializations, including admission requirements, the Schedule of Studies and Continuation of Study requirements, and graduation requirements for the degree program
- to assist the student to make academic decisions and understand the implications of those decisions
- to assist with course selection and enrolment management issues as related to the degree program
- to explain transfer procedures and requirements
- to explain appeal procedures
- to assist with graduation checks
- to sign program approval, as appropriate
- to change student type, as appropriate
- to meet with students as requested, or required
- to refer to the faculty advisor, as appropriate
- to uphold the academic policies of the university
- to help interpret the academic policies and procedures to students, staff, and faculty
- to act as a source of referral to other campus services
- to be generally aware of career and graduate study opportunities related to the field of study, or refer appropriately
- to work closely with the faculty advisor on any changes to the Schedule of Studies
- to consult, as necessary, with other campus services
- to provide relevant information to the faculty advisor, departments, dean, curriculum and program committees (and sub-committees) about student issues with the degree program
- to participate at liaison events, as requested

Undergraduate Academic Information Centre

The role of the Undergraduate Academic Information Centre (UAIC) (U.C. Level 3, extension 56613, uaic@uoguelph.ca) is to provide general academic advising information...
to undergraduate students. This includes appropriate referral to the program counsellor, or faculty advisor, as well as other support services on campus.

For some students, the Centre may function as a first point of contact for information about academic program issues. Centre staff operate on an assessment and referral system - first helping the student to identify the problem or issue, and then, as necessary, referring her/him to the appropriate resource (e.g. program counselling office, faculty / specialization advisor, Career Services, Financial Services, etc.).

At the Centre, students will find general information on transfer requirements and procedures; Continuation of Study requirements; admission and graduation requirements; information about appeal process and procedures; help with interpreting the calendar; or help with different forms. Students who require more detailed information about their particular degree program requirements, or who have more specific questions about changing or adding a specialization, or transfer to a different degree program will be directed to the program counselling office or to the faculty advisor, as appropriate.

UAIC is a resource for all students, with particular sensitivity to issues facing transfer (advanced standing) students, non-degree and general studies students, and "undecided"* students, including first year students or other students contemplating a change in program.

* Although most University of Guelph students declare a major upon entry, “undecided” in this context refers to students who may be declared in a major but are now not sure whether the program is the right fit for their educational, career, or life goals.

Council on Undergraduate Academic Advising

The role of the Council on Undergraduate Academic Advising (CUAA) is to develop, review, discuss, and recommend to senior administration on an ongoing basis any and all advising-related strategies, policies, and processes.

The CUAA is responsible for managing and directing academic advising policies at the university. The CUAA reports to, and is chaired by the Associate Vice-President (Academic). Membership includes broad representation from stakeholders across the university community including, but not limited to: program counsellors, faculty advisors, Office of Registrarial Services, Coordinator of Undergraduate Curriculum, deans, chairs, Student Affairs, Office of Open Learning/SCOL, undergraduate students, Centre for International Programs, and the Coordinator of the Undergraduate Academic Information Centre. The Council normally meets once per semester.

The CUAA develops strategic directions and formulates policy on advising issues, coordinates planning around academic advising issues, and serves as a permanent communication channel to help coordinate the work of the various individuals and entities engaged in academic advising activities.

Interpretation of University Academic Regulations

A student who requires assistance in the interpretation of the academic regulations of the University or the method of their application in reference to the student's particular circumstances should consult the Undergraduate Academic Information Centre, their Program Counsellor, or one of the Associate Registrars (Office of Registrarial Services, Level 3, University Centre).

Non-Academic Counselling

Students are advised to consult the Student Life sub-section in Section XIV--General Information in this Calendar, for information on the types and locations of non-academic counselling offered by the University.

Program Approval

Students should present their Academic Evaluation Report plus any updates when seeking academic advice. Approval is required if:

1. Most students who wish to register for more than 2.75 credits prior to the last day of an add period require program counsellor approval (some degree programs are exempt from the 2.75 maximum). On the last day of an add period all students can register in up to 3.25 credits in a semester without obtaining program counsellor approval.

2. Students who wish to make a change to their specialization (i.e. major, minor, area of concentration) must complete an Undergraduate Schedule of Studies Change Request form. Once the form has been completed the student must obtain the signature of the faculty advisor for that specialization prior to obtaining the signature of the program counsellor for the degree program and submit the completed form to Student Client Services (Level 3, University Centre).
The academic regulations outlined in VIII--Undergraduate Degree Regulations and Procedures are the basic regulations for undergraduate degree programs of the University as approved by the Senate. Terminology used to describe academic regulations is defined in the Glossary. In these regulations where the consent of the dean is required, the term “dean” is interpreted to mean the person responsible for the academic program, for example dean, director, chair of program committee, or the program counsellor in a particular degree program.

General Information for Academic Consideration and Appeals

The University of Guelph is committed to supporting students in their learning experiences and responding to their individual needs. To this end a broad network of advising, counselling, and support services is provided to assist students in meeting their personal and academic goals. The University is aware that a variety of situations or events beyond the student’s control may affect academic performance. Support is provided to accommodate academic needs in the face of personal difficulties or unforeseen events. Procedures for academic appeals are designed to ensure that every effort is made at these times to provide appropriate accommodation and consideration, thus enabling students to complete course and program requirements as quickly as possible.

Knowledge of the procedures, early action on the student’s part, timely consultation with the instructor(s) and/or program counsellor, and immediate provision of any required documentation will facilitate a prompt, co-ordinated institutional response.

Academic Consideration

The University will consider granting consideration for courses if there are sufficient extenuating medical, psychological or compassionate circumstances. Academic Consideration may take the form of an extended deadline, a deferred privilege, a late drop of a course(s) with or without failure, withdrawal from a semester with or without academic failure, or permission to continue on probationary status. A deferred privilege could take the form of approval to write a missed final examination or the completion of a course requirement after the end of the semester. Academic consideration is granted when acceptable medical, psychological or compassionate circumstances affect any portion of the semester work. Generally, work commitments will not constitute grounds for academic consideration. Depending upon the circumstances and whether the semester work is complete, consideration may be granted by the instructor, the program counsellor or the Academic Review Sub-Committee of the program in which the student is registered.

Students will need to assess the extent of the difficulty they face and the possible implications on their course work. For instance, an illness which lasts one or two days resulting in a missed deadline can usually be resolved between the faculty member and the student, often without documentation. Circumstances which affect the student’s ability to attend classes, write term tests or meet assignment deadlines for an extended period of time may require more formal documentation and consideration. Students are encouraged to seek documentation if the situation extends for a significant length of time. The program counsellor, who is the dean’s designate, should be contacted regarding appropriate procedures and documentation.

The program counsellor is the student’s advisor in all matters pertaining to academic consideration and can assist in defining an appropriate course of action (counsellor names and locations can be found in Section VII - Academic Advising). It is the student’s responsibility to consult the program counsellor as soon as extenuating circumstances affect academic performance, in order to initiate action, and provide any required documentation.

All available evidence, including the student’s performance during the semester, will be given careful consideration when making a decision. Procedures to follow in each case are outlined below. Questions about procedures and deadlines should be directed to the program counsellor.

Grounds for Academic Consideration

Where possible, requests for academic consideration are to be accompanied by supporting documentation. Students unsure of documentation requirements are encouraged to contact their program counsellor.

1. Medical Grounds

For academic consideration based on medical grounds a student may be asked to provide documentation for the period of the illness. The necessity for documentation will depend in part upon the length of the illness and the amount of work missed during this time. Such documentation will always be required in the event of a request for consideration beyond the grade submission deadline for the course. If the medical situation results in missed semester work, the student should contact the instructor, presenting medical documentation where warranted. If the absence due to illness is of a duration that will affect a number of courses or completion of the semester’s work, the student must contact the program counsellor for advice and consideration.

When the absence affects final examinations or final assignments the student should go to Student Health Services or a personal physician for documentation. The student must present the medical documentation to the program counsellor.

2. Psychological Grounds

For academic consideration based on psychological grounds the student may be asked to provide documentation for the period affected. The necessity for documentation will depend in part upon the length of the problem and the amount of work missed during this time. Such documentation will always be required in the event of a request for consideration beyond the grade submission deadline for the course. The student should submit this documentation to the program counsellor who will then advise the instructor of the need for consideration. If the difficulty is of a duration that will affect a number of courses or completion of the semester's work, the student must contact the program counsellor for advice and consideration.
3. Compassionate Grounds

Unforeseen circumstances beyond the student's control in either his/her personal or family life may affect academic performance. The procedure to follow to request academic consideration based on compassionate grounds depends upon the severity of the circumstance and the amount of work missed. Students may wish to contact the instructor for consideration for missed work resulting from a compassionate circumstance. If the circumstance is more significant, or if the consideration sought will go beyond the grade submission deadline for the course, the student must consult with the program counsellor. Generally, work commitments will not constitute grounds for academic consideration.

Incomplete Course Work

Instructors are responsible for granting academic consideration, if applicable, for course work up to the grade submission deadline for the course. Types of consideration that may be granted by an instructor include the setting of a make-up test, re-weighting the value of course assignments, extending a deadline or allowing the resubmission of an assignment (up to the grade submission deadline for the course). Students should consult with their program counsellor for advice on an appropriate course of action if:

a. the student feels that appropriate consideration has not been granted by the instructor, or
b. if the medical, psychological or compassionate circumstance is such that it could affect overall semester performance or the ability to meet the course grade submission deadline.

Student's Responsibilities

If due to medical, psychological or compassionate circumstances a student is unable to complete any portion of the course's work the student should:

1. Inform the instructor-in-charge of the course in writing.
2. If the instructor requests it, supply documentation. If documentation is unavailable, consult your program counsellor.
3. Complete and submit missed work by the new deadline established by the instructor.
4. Consult with the program counsellor if circumstances warrant (see a) and b) above). If the medical, psychological or compassionate circumstance is such that it could affect overall semester performance or the ability to meet the course grade submission deadline, the program counsellor should be consulted regarding an appropriate course of action.

Instructor's Responsibilities

Faculty members should exercise discretion when requiring documentation, particularly when the assessment in question constitutes a small proportion of the course grade, or when alternative means for carrying out the assessment are available.

The Board of Undergraduate Studies recommends that faculty make every effort to accommodate students representing the University in extracurricular activities when there is a conflict between those activities and the requirements of the course.

If the student does not submit all of the required work by the course grade submission deadline, the instructor shall refer the situation to the Academic Review Sub-Committee. The instructor cannot grant extensions beyond the final date for submission of grades for the course.

Program Counsellor's Responsibilities

If the student and the instructor cannot arrive at a mutually agreeable accommodation to complete course requirements prior to the course grade submission deadline, the program counsellor may act as a mediator. The program counsellor may discuss the issue with the department chair if appropriate.

In the event that medical, psychological or compassionate circumstances are affecting the student's overall performance, the program counsellor will ensure that the student's instructors are advised that academic consideration based on medical or compassionate grounds is warranted. In such cases the program counsellor may be of assistance in co-ordinating instructors' responses to the request for consideration.

Academic Review

If final examinations, term assignments, projects, work term reports or other course requirements are not completed by the course grade submission deadline, academic consideration is not the responsibility of the faculty member but rather, the responsibility of the Academic Review Sub-Committee of the program in which the student is registered. A request for academic consideration should be made to the Academic Review Sub-Committee during, or immediately after, the semester to which it refers.

A request to change an earlier decision of the Academic Review Sub-Committee may be made only on the basis of relevant information not previously submitted. Students wishing to resubmit a "Request for Academic Consideration" form with additional supporting documentation should consult their program counsellor. Students who believe that the decision of the Academic Review Sub-Committee is inappropriate may appeal the decision to the Senate Committee on Student Petitions within 90 days of the academic review decision (see Petitions). The Senate Committee will not normally consider any appeals submitted past this deadline.

Student's Responsibilities

If due to medical, psychological or compassionate circumstances the student is unable to complete a final requirement of the course by the course grade submission deadline and wishes academic consideration, the student should:

1. Consult with the program counsellor for advice on the appropriate consideration that should be requested.
2. Submit a request for consideration on the "Request for Academic Consideration" form available from Undergraduate Program Services, Office of Registrarial Services or the program counsellor. Deadlines for Academic Review Sub-Committee meetings can be found in Section III--Schedule of Dates.

Instructor's Responsibilities

In a case where a student has not completed course requirements by the course grade submission deadline, the instructor shall complete the "Instructor's Recommendation" form recommending that the student be granted one of:

1. a passing grade
2. credit standing
3. a deferred privilege
4. a grade reflective of work completed to date

1, 2, or 3 will only be granted by the Academic Review Sub-Committee if the medical evidence or compassionate reasons have been verified and accepted. 4 will be granted if the medical or compassionate circumstances presented are inadequate or insufficiently documented. The instructor should include with the Instructor's Recommendation Form any documentation provided to the instructor by the student in support of the academic consideration request.

A student who receives credit standing will receive credit in the course without a numerical grade. This course will not be included in the student's overall average or specialization average.

A deferred privilege could be approval to write an examination and/or to submit an assignment(s). Deferred privileges are normally required to be completed early in the following semester, refer to Section III--Schedule of Dates.. The Schedules Section, Office of Registrarial Services, will inform the student of the deadline for the deferred privilege (see Deferred Privilege).

If on the basis of acceptable medical, psychological or compassionate documentation a numerical passing grade or credit standing is granted rather than a deferred privilege, the student may request the deferred privilege. The request must be submitted in writing to Undergraduate Program Services, Office of Registrarial Services, by the end of the add period for the following semester.

Co-operative Education Appeal Process

The Co-operative Education program requires that a student achieve an overall average of 70 percent during first year in order to continue in the program. An appeal option is available to students who are removed from co-op for not meeting the requirement. The appeal must be taken to the Program Counsellor who will then take it to the Academic Review Committee for consideration.

Petitions

The Senate Committee on Student Petitions is comprised of students, faculty and a representative of the Office of Registrarial Services. It is responsible for assessing and disposing of cases submitted to it by any undergraduate or graduate student of the University. The Senate Committee on Student Petitions will consider petitions and conduct hearings on requests which fall under one of the following:

1. Appeals of decisions of Academic Review Sub-Committees involving medical, psychological or compassionate grounds. Petitions have the same options for consideration available to it as the Academic Review Sub-Committee (see Academic Consideration).
2. Appeals of academic misconduct decisions.
3. Petitions concerning the methods and criteria used by an instructor in assigning a grade. The Committee does not consider appeals for grade reassessment unless the request concerns the methods and criteria used by the instructor.
4. Appeals of an Admissions Committee decision regarding readmission to a program. The Committee will consider appeals concerning readmission provided the appeal is on the grounds of procedural unfairness or bias on the part of the Admissions Committee.

Petitions Concerning a Course Grade(s) Involving Medical, Psychological or Compassionate Grounds

A student may appeal any decision of the Academic Review Sub-Committee to Petitions. The appeal must be submitted to the Office of the Judicial Officer within 90 days of receiving notification of the decision. Requests submitted after this deadline will not normally be considered.

Students should speak to the Judicial Officer before submitting a petition to ensure proper completion of the form.

The Committee will normally consider a petition concerning an illness or incident that occurred at some time in the past unless there is a reasonable explanation for the delay in submitting the petition.

Petitions Concerning Methods and Criteria Used by an Instructor in Assigning a Course Grade

Before submitting such a petition the student must have submitted a written appeal to the chair of the department of the instructor assigning the course grade and have received
from the chair of the department a written statement that every effort has been made at the department level to resolve the issue. The student must provide the Judicial Officer with a clear and concise statement of the allegations.

**Academic Accommodation of Religious Obligations**

The University acknowledges the pluralistic nature of the graduate and undergraduate communities and that accommodation will be made for students who experience a conflict between a religious obligation and scheduled tests, midterm examinations, final examinations, or requirements to attend classes and participate in laboratories. The type of accommodation granted will vary depending on the nature, weight and timing of the work for which accommodation is sought. Accordingly, the request for alternative arrangements normally must be submitted to the instructor in charge of the course within two weeks of the distribution of the course outline. A student requiring accommodation may submit the request to the instructor directly or through his/her program counsellor.

The instructor has a responsibility to provide reasonable alternative arrangements that do not put the student at an academic disadvantage. In the case of a conflict with a final examination, the instructor should reschedule the examination to another time during the examination period taking care that the new date and time does not put the student at an academic disadvantage.

In the event that a student is not satisfied with the accommodation offered by the instructor, he/she may appeal to the Department Chair, or Director of the School, who may grant alternative accommodation. A student who remains dissatisfied with the outcome of his/her request may seek the assistance of the Human Rights and Equity Office to facilitate a resolution.

For a current list of major holy days, please check the following website http://www.uoguelph.ca/hr/hr/hrholidays.shtml or contact the Human Rights and Equity Office.

**Academic Load**

**Full-time**

The normal full-time semester load for academic programs is 2.50 credits except where otherwise prescribed by the schedule of studies.

Under the credit system, credit weight reflects student workload rather than contact hours. Students should note that 10 to 12 hours of academic time and effort per week (including classes) are expected for a 0.50 credit course. Exceeding the normal credit load for the program can place the student at academic risk and should be carefully considered in consultation with the Program Counsellor.

**Part-time**

A student who is registered in fewer than 2.00 credits in a semester is considered to be part-time.

**Academic Misconduct**

Academic misconduct is behaviour that erodes the basis of mutual trust on which scholarly exchanges commonly rest, undermines the University’s exercise of its responsibility to evaluate students’ academic achievements, or restricts the University’s ability to accomplish its learning objectives.

The University takes a serious view of academic misconduct and will severely penalize students, faculty and staff who are found guilty of offences associated with misappropriation of others’ work, misrepresentation of personal performance and fraud, improper access to scholarly resources, and obstructing others in pursuit of their academic endeavours. In addition, the University has adopted a number of policies that govern such offences, including the policies on Misconduct in Research and Scholarship and the Student Rights and Responsibilities regulations. These policies will be strictly enforced.

It is the responsibility of the University, its faculty, students and staff to be aware of what constitutes academic misconduct and to do as much as possible through establishment and use of policies and preventive procedures to limit the likelihood of offences occurring. Furthermore, individual members of the University community have the specific responsibility of initiating appropriate action in all instances where academic misconduct is believed to have taken place. This responsibility includes reporting such offences when they occur and making one's disapproval of such behaviour obvious.

University of Guelph students have the responsibility of abiding by the University's policy on academic misconduct regardless of their location of study; faculty, staff and students have the responsibility of supporting an environment that discourages misconduct. Students should also be aware that if they find their academic performance affected by medical, psychological or compassionate circumstances, they should inform the appropriate individuals, instructors, program counsellors, graduate advisors and follow the available procedures for academic consideration outlined in the University's calendars.

**Education and Remediation**

Education and remediation are key to promoting an environment in which academic integrity will flourish. It should not be possible for a student to claim that he/she was not warned about the University's academic misconduct regulations, what constitutes academic misconduct and the potential consequences of transgressing. The need to educate students about academic integrity places a particular responsibility on faculty, especially with respect to discipline-specific issues.

The University’s Strategic Directions place high value on collaboration and co-operation in the learning process, across disciplines and between institutions. Further, the strategic plan recognizes the importance of students learning to work with others in group projects and situations as key to developing skills as self-reliant learners. This is reflected in the large number of courses at this University which involve group work and encourage co-operation in completing assignments. However, there may be need to limit the amount of collaboration or co-operation. Students need to be aware of, and instructors need to be clear about assignments for which discussing or completing the work with others is not appropriate and where the expectation is that students will work separately. Instructors should be very explicit about expectations with respect to academic integrity, and information with respect to academic misconduct should be presented to students as part of the course outline, academic program orientation materials and other materials posted and distributed to students. Students need to remain aware that instructors have access to and the right to use electronic and other means of detection.

In addition, in the case of examinations, students should be sure that they read and understand the regulations with respect to conduct in examinations printed on the cover of each examination booklet, and should pay particular attention to any additional instructions from the examination invigilators.

In support of remediation, students convicted of an academic offence may be required to successfully complete an academic integrity remediation process.

*Note: In this policy, the word “dean” means “dean or designated associate dean.” The word “chair” means “chair of a department or director of a school.” The word “department” means “department or school.”*

**Offences**

Academic misconduct is broadly understood to mean offences against the academic integrity of the learning environment.

Below are descriptions of academic offences. It is important to note that, while the University has attempted to present as comprehensive a list as possible, this list of potential academic offences should not be considered exhaustive. Students are responsible for knowing what constitutes an academic offence and faculty members have a responsibility to provide students, early in their course or program, with information about academic integrity that might be particular to their discipline. An offence may be deemed to have been committed whether the student knew a particular action was an offence or ought reasonably to have known. Whether or not a student intended to commit academic misconduct is not relevant for a finding of guilt. Hurried or careless submission of assignments does not excuse students from responsibility for verifying the academic integrity of their work before submitting it. Students who are in any doubt as to whether an action on their part could be construed as an academic offence should consult with a faculty member or faculty advisor.

It is the responsibility of students working in a group to take all reasonable steps to ensure that work submitted to the group by individual members has not been completed in a way that violates this policy.

Further, as some academic offences may also be viewed as violations of policies on Misconduct in Research and Scholarship, the Student Rights and Responsibilities regulations, the criminal code and/or civil statutes, students may also be subject to procedures and penalties outlined in those policies at the University’s discretion, and to criminal prosecution or civil action.

A graduate of the University may be charged with an academic offence committed while he/she was a registered student when, in the opinion of the dean, the offense, if detected, he/she was a registered student when, in the opinion of the dean, the offense, if detected, the offense, if detected.

**1. Misappropriation of Other's Work**

1. **Plagiarism**

Plagiarism is misrepresenting the ideas, expression of ideas or work of others as one’s own. It includes reproducing or paraphrasing portions of someone else’s published or unpublished material, regardless of the source, and representing these as one’s own thinking by not acknowledging the appropriate source or by failure to use appropriate quotation marks. In addition to books, articles, papers and other written works, material may include (but is not limited to): literary compositions and phrases, performance compositions, chemical compounds, art works, laboratory reports, research results, calculations and the results of calculations, diagrams, constructions, computer reports, computer code/software, and material on the internet. Some examples of plagiarism include:

- submission of a take-home examination, essay, laboratory report or other assignment written, in whole or in part, by someone else;
- using direct, verbatim quotations, paraphrased material, algorithms, formulae, scientific or mathematical concepts, or ideas without appropriate acknowledgment in any academic assignment;
- using another’s data or research findings;
- buying or selling term papers or assignments;

3. Improper Access and Obstruction

Students have the responsibility to learn and use the conventions of documentation suitable to the discipline, and are encouraged to consult with the instructor of the course, the academic supervisor, or the department chair for clarification if needed. Instructors should include in the materials they provide to students about academic integrity, information about any unique, discipline-specific understandings with respect to what must be acknowledged or cited.

2. Copying

Copying is similar to plagiarism in that it involves the appropriation of others' work as one's own. It includes copying in whole or in part another's test or examination answer(s), laboratory report, essay, or other assignment. Copying also includes submitting the same work, research or assignment for credit on more than one occasion in two or more courses, or in the same course, without the prior written permission of the instructor(s) in all courses involved (including courses taken at other post-secondary institutions).

3. Unauthorized Co-operation or Collaboration

It is an offence to co-operate or collaborate in the completion of an academic assignment, in whole or in part, when the instructor has indicated that the assignment is to be completed on an individual basis.

1 In addition to being concerned about appropriate citation, students who wish to use the work of others, from any source, should be aware of copyright laws and other conventions governing intellectual property. See the Office of Research website, www.uoguelph.ca/research/policies/index.shtml, for links to the University’s intellectual property policies.

2. Misrepresentation and Fraud

This category of offences covers a range of unacceptable activities, including the following:

1. Impersonation

Impersonation involves having someone impersonate oneself, either in person or electronically, in class, in an examination or in connection with any type of academic requirement, course assignment or material, or of availing oneself of the results of such impersonation. Both the impersonator and the individual impersonated (if aware of the impersonation) are subject to disciplinary proceedings under this policy.

2. Falsification

It is an offence to submit or present false or fraudulent assignments, research, credentials, or other documents for any academic purpose. This includes, but is not limited to:

• falsified research or lab results and data;
• concocting facts or reference;
• false medical or compassionate certificates;
• false letters of support or other letters of reference;
• falsified academic records, transcripts or other registrarial records;
• fraudulent submission practices (e.g., altering date stamps);
• altering graded work for re-submission.

It is also falsification to misrepresent the amount of work an individual has contributed to a group assignment or activity. Both the individual to whom work is falsely attributed and those who acquiesce in its attribution commit an academic offence.

3. Withholding

It is an offence to withhold records, transcripts or other academic documents with the intent to mislead or gain unfair academic advantage.

4. Unauthorized Aids and Assistance

It is an offence to use or possess an unauthorized aid, to use or obtain unauthorized assistance, or to use or obtain prohibited material in any academic examination or term test or in connection with any other form of academic work. Such aids or materials may include, but are not limited to, specific documents, electronic equipment or devices, and commercial services (such as writing, editorial, software, or research survey services). Students should assume that any such aid is prohibited unless they are specifically advised otherwise by the instructor or invigilator. Note that unauthorized assistance does not include student support services offered by the University, such as the Learning Commons.

3. Improper Access and Obstruction

1. Preventing Access to Materials

It is an offence to alter, destroy, hide, remove without authorization, or in any other way improperly restrict access to library, electronic or other materials intended for general academic use.

2. Obstruction and Interference

It is an offence to obstruct or otherwise interfere with the scholarly activities of another, or to alter or falsify the work of others, in order to gain unfair academic advantage. This includes, but is not limited to, deleting data or files, interfering or tampering with experimental data, with a human or animal subject, with a written or other creation (for example, a painting, a sculpture, a film), with a chemical used for research, or with any other object of study or research device.

3. Improper Access

It is an offence to improperly obtain through theft, bribery, collusion, or otherwise access to confidential information, examinations or test questions or to gain undue academic advantage as a result of such behaviour.

4. Improper Dissemination

It is an offence to publish, disseminate or otherwise make public to a third party without prior written consent, confidential information. Confidential information includes but is not limited to academic information, data or documents which are not otherwise publicly available and which have been gathered or held with a reasonable expectation of confidentiality.

4. Aiding and Abetting

Knowingly aiding or abetting anyone in committing any form of academic misconduct is itself academic misconduct and subject to this policy.

Penalties

A. Range of Penalties That May Be Assessed

If a student is found guilty of academic misconduct, an Official Warning will be given that an offence is now noted in the student’s record and that a subsequent offence will attract a more severe penalty. In addition, one or more of the following penalties may be assessed:

1. A requirement for submission of a new or alternative piece of work.
2. The rescinding of University-funded scholarships or bursaries.
3. Partial or total loss of marks on the examination or assignment in which the offence occurred.
4. Partial or total loss of marks for the course in which the offence occurred.
5. Suspension from the University for a period of between one and six consecutive semesters. For the period of suspension, a student will not be permitted to register and will retain none of the privileges accorded to students with respect to right of access to University faculty, staff, facilities or services.
6. A recommendation for expulsion from the University.

7. A recommendation for revocation/rescinding of a degree. A person who is found guilty of academic misconduct after having been approved for graduation, or after having a degree conferred, may have the degree rescinded or revoked when, in the opinion of the dean, the offence, if detected, would have resulted in a sanction sufficiently severe that the degree would not have been granted at the time that it was.

B. Notes with Respect to Penalties

The following should be noted with respect to penalties:

1. Senate has approved a set of Guidelines for the Assessment of Penalties for Academic Misconduct. These guidelines are used by chairs/directors and deans to assist them in determining appropriate penalties for individual cases. A copy of the guidelines can be found at http://www.uoguelph.ca/undergrad_calendar/c08/c08-amisconduct.shtml, or may be obtained from the Senate Office or the office of any chair or dean.

2. Students who have been found guilty of a course-based offence and who have been assessed a penalty in addition to an Official Warning will not be permitted to drop the course or to withdraw with failure. A student who has dropped the course prior to the offence(s) being detected will have his/her enrolment in the course reinstated if found guilty and if the penalty assessed is other than an Official Warning.

3. Students who have been suspended for academic misconduct will not receive credit for any courses taken while under suspension. This policy applies to any credit course taken during the suspension period, be it distance, or non-campus, taken in open learning programs at the University of Guelph or at another post-secondary institution. In addition, in the case of graduate students, any research or writing completed during the suspension period may not be submitted in fulfillment of program requirements once the period of suspension is concluded.

4. A student who wishes to be considered for readmission after a suspension must make an application that will be judged on the basis of eligibility to continue. A student who is suspended for academic misconduct and also fails to meet the continuation of study requirement will normally be required to serve the associated penalties consecutively.

5. A student who has been expelled from the University of Guelph is not eligible for readmission to the University for at least five years. A student who wishes to be considered for readmission must petition the President to have the expulsion status removed. The President will form a hearing committee to review the case for lifting the admission restriction. If the committee decides to remove the expulsion status, the student who wishes to be considered for readmission must then make an application that will be judged on the basis of eligibility to continue. If the committee decides to leave the expulsion status in place, the student must wait at least another two years before submitting a new petition.

6. Penalties may be applied retroactively if an offence is discovered subsequent to completion of a course or after graduation.
Procedures

A. Notes Re: Procedures and Authority to Act

1. Deans may delegate their authority under this policy to an appropriate designee(s).
   Such delegation may be full (for example, all cases are delegated to an Associate Dean), or partial (for example, authority with respect to offences related to course work may be delegated to departmental chairs). Deans must provide the University’s Judicial Officer with the name(s) of individual(s) to whom authority has been delegated under this policy.

2. For offences related to course work (including examinations):
   a. The designate or the Director of Open Learning will carry out the role of the chair in cases where the offence has been committed in an Open Learning, non-degree credit course. Degree credit courses offered through distance are within the authority of the chair of the department offering the course. The role of the dean in the case of non-degree credit courses offered through the Open Learning program is carried out by the Director of Open Learning.
   b. For undergraduate students and open learners, the relevant dean is the dean of the college in which the course is offered, and the dean of the college in which the student is enrolled (if different) should receive a copy of the decision. In the event that an offence is committed in a degree credit course by an open learner, the Director of Open Learning should receive a copy of the decision.
   c. For graduate students, the relevant dean are the dean of the college in which the course is offered and the Dean of Graduate Studies acting jointly. The dean of the college in which the student is enrolled (if different) should receive a copy of the decision.

3. For offences not related to courses, or for course offences involving students not enrolled in the course, for undergraduate students the dean of the college in which the student is enrolled is responsible for administering the policy. For graduate students, the policy is administered jointly by the Dean of Graduate Studies and the dean of the college in which the student is enrolled.

4. In the event that a chair/director has a conflict of interest in dealing with a case, the dean will appoint another faculty member to deal with the case. In the event that a dean’s designate has a conflict of interest in dealing with a case, the dean may appoint an alternate designate or choose to deal with the case himself/herself. In the case of a conflict of interest on the part of a dean, the Provost will appoint a designate to deal with the case.

5. Wherever in this policy it states that a student is to be contacted, the normal expectation is that such contact will be made using the student’s University of Guelph email account, with a copy of any correspondence being sent to the home address provided to the University by the student.

B. Detection and Documentation

1. Examinations
   The responsibility for preventing and detecting academic misconduct in an examination lies with the invigilators, although they may use of reports from others to assist them in detection. In cases of suspected impersonation, the chief invigilator shall require the student concerned to remain after the examination until the student is satisfactorily identified. In other cases of suspected academic misconduct, the chief invigilator shall allow the student to complete the examination, but:
   • may require that the student complete the examination in another location or setting when it is deemed that such action will cause the least disruption of those taking the examination; and
   • shall confiscate any suspect material (including those portions of the examination completed to that point) and give it, along with the student’s other examination booklet(s) (collected at the end of the exam) to the instructor immediately following the examination.

   The chief invigilator shall give a full report, together with any confiscated material, to the instructor-in-charge of the course if the instructor is not the chief invigilator.

   In instances of open learning courses, the material will be submitted to the Director of Open Learning. The student is required to contact the instructor no later than the end of the examination period.

2. Term assignments, including research and thesis work
   The initial responsibility for detecting academic misconduct on term assignments, etc., necessarily lies with the person(s) responsible for evaluation and discussion of the student’s work, although that person may make use of reports from others to assist in detection, and may make use of electronic means of detection appropriate to the discipline. Where academic misconduct is suspected, the evaluator/marker shall retain possession of any suspect material and give a full report in writing together with any confiscated material to the instructor-in-charge of the course, or to the student’s advisor, if the instructor/advisor is not the evaluator/marker. At this stage, the student will be informed by the instructor/advisor that a suspicion of academic misconduct is being investigated.

3. Cases outside the domain of examinations or assignments
   The responsibility for detecting academic misconduct in the context of an academic environment that is not part of the formal examination or assignment process rests with the entire University community. Where academic misconduct is suspected, but where it is unclear whether it is directly related to a specific course, or where the specific course is unknown, those with knowledge of an offence should contact the dean of the college in which the student is enrolled and the Dean of Graduate Studies in the case of a graduate student. If the suspected offence appears to be related to a specific course, then the instructor of the course should be contacted.

C. Investigation and Judgment

1. Offences Related to Course Work, Research, Thesis Work or Examinations
   a. When an instructor or an advisor suspects that an academic offence has been committed, he/she is responsible for gathering evidence to support or allay the suspicion and may invite the student to meet with him/her to discuss the concerns.

   The instructor/advisor should pursue the gathering of evidence in a timely way. The normal expectation for assignments due within the semester is that instructors/advisors will complete their evidence gathering within ten working days of the due date for the assignment. For assignments submitted at the end of the semester or during the examination period, the instructor has until the tenth day of the subsequent semester to collect the evidence and determine whether to pursue a case. In a case where an instructor/advisor requires substantial additional time to collect and review the evidence, he/she may seek an extension of time from the chair.

   b. If after reviewing the available evidence the instructor/advisor believes an offence may have been committed, he/she shall refer the case to the chair of the department responsible for the course or graduate program. The referral document will include all evidentially material collected by the instructor/advisor along with the transmittal form on which the instructor/advisor may include a recommendation with respect to penalty should the allegation be upheld. A copy of the first page of the transmittal form shall be sent to Undergraduate Program Services/Graduate Program Services by the chair.

   c. If the chair believes that there is sufficient evidence to support a charge of academic misconduct, he/she will forward the transmittal form and all evidentiary material to the dean/dean's designate, normally within ten working days of receipt of the allegation from the instructor/advisor.

   d. Normally within ten working days of receipt of the case from the chair, the dean will initiate the student to meet with him/her to discuss the allegation(s). If the student does not respond within ten working days to the request for an interview, or if the student refuses to attend an interview, the dean may proceed with the case. The student may be accompanied at the meeting by a support person. Prior to meeting with the student, the dean may consult with any individuals he/she believes pertinent to the case. At the meeting, the student will be presented with the evidence collected by the dean to that point. Based on the student's response to the evidence, the dean may engage in further consultation with any individuals he/she deems pertinent to the case. The student will be informed of any other evidence gathered as a result of those consultations and be given an opportunity to respond prior to the dean's reaching a decision on the case.

   e. If after weighing the available evidence the dean finds an offence has been committed, the dean will contact Undergraduate Program Services/Graduate Program Services as appropriate to determine whether this is a first offence.

   f. In determining the appropriate penalty, the dean will consult the Guidelines for Penalties for Academic Misconduct, will take into consideration the recommendation from the instructor/advisor, and consider such factors as the relative weight of the assignment, the semester level of the student, any record of previous offences, the seriousness of the offence (e.g. the amount of work plagiarized), and any mitigating circumstances presented by the student. For graduate students, attention will also be paid to whether the work in which the offence has been committed is one of the major milestones of the graduate program (e.g., qualifying examination, thesis).

   g. Normally within ten working days of the meeting with the student, or ten days from the date of the final communication with the student with respect to any additional evidence, the dean will inform the student in writing of the disposition of the case. In a case where the dean requires substantial additional time to review the evidence and come to a judgment, he/she may seek an extension of time from the Provost.

   Should the dean determine that an academic offence has not been committed he/she shall so inform the student, the instructor/advisor and the chair in writing. A copy of the letter will be forwarded to Undergraduate Program Services/Graduate Program Services as appropriate. Thereafter, the complaint shall have no official status as an accusation of academic misconduct and no record of the complaint shall be maintained on the student's record. Should the dean determine that an academic offence has been committed, he/she shall inform the student in writing. The written notification should include the offence for which the student has been found guilty and information with respect to penalty. Copies of the written notification shall be sent to any other relevant dean(s) office(s), to the instructor/advisor, the department chair, the program counsellor and to Undergraduate Program Services/Graduate Program Services (as appropriate).
Appeals

1. Students may appeal either the finding, the penalty, or both to the Senate Student Petitions Committee.
2. Appeals must be submitted to the Senate Student Petitions Committee within 15 working days of receipt of the decision. If the decision is mailed, it will be deemed to have been received by the student the fifth day after it has been mailed. If the decision is sent by courier, fax or email it shall be deemed to have been received one day after it has been sent.
3. An appeal to the Senate Committee on Student Petitions involves an examination of all relevant documents and evidence to determine the appropriateness of a finding of guilt or of the assessed penalty. The procedures for conducting an appeal and for holding a hearing are set out in the Regulations of the Senate Committee on Student Petitions. Following an appeal or hearing, the Senate Committee on Student Petitions may take one or more of the following courses of action:
   a. confirm a finding of guilt;
   b. reverse a finding of guilt (in which case no penalty shall apply);
   c. confirm a penalty;
   d. assess a different penalty.

Record of Academic Misconduct

Undergraduate Program Services, or the Dean of Graduate Studies, or the Director of Open Learning as appropriate, shall place in the student's file a record of all academic misconduct for which the student is penalized. Students in the Associate Diploma Program who are found guilty of academic misconduct in an Independent Study course taken through OAC Access towards their Associate Diploma will have the record of the finding of guilt placed against the appropriate term.

The record of academic misconduct shall be expunged from the student's file upon graduation, or for open learners, upon completion of a certificate or diploma. Students who do not graduate from the University of Guelph or another university may submit an application to the Senate Committee on Student Petitions to have the record expunged no sooner than five years after the date of last registration. Students who have graduated at another accredited university may submit verification of graduation to Undergraduate Program Services/Graduate Program Services and have their record expunged. The record for expulsion is permanent, unless removed by petition to the President.

Access to the record of academic misconduct will be limited to those involved in processing appeals and those involved in processing additional complaints against the student.

Note: Template letters to students, forms for Undergraduate Program Services and Graduate Program Services, and suggested wording for course outlines are available on the following site: http://www.uoguelph.ca/senate/policies.shtml.

Guidelines for Penalties for Academic Misconduct

With the finding of academic misconduct, there is a mandatory penalty of Official Warning which will stay on the student's record until graduation. In addition, one or more other penalties may be assessed. Following are guidelines used by chairs/directors and deans in determining the appropriate additional penalties. Users need to be aware that these are guidelines and that not all cases will fit neatly into the categories.

The guidelines below provide a range of penalties (minima and maxima) for the various offences identified in the Policy on Academic Misconduct as well as indicate what penalty is deemed to be the "norm" for the offence in the case of a first or second year student. It should be noted that "subsequent offence" means any subsequent offence, not only a subsequent offence in the same category.

For a course-based offence, the chair/director may assign penalties up to and including loss of grades if the offence is a first offence. If there is a previous offence on the student's record, or if the chair/director believes a stronger penalty is merited, the case is forwarded to the dean for penalty assessment.

In cases where the dean is of the opinion that there is cause for a penalty different from those indicated in the guidelines (either higher or lower), he/she will review the penalty with the Provost and Vice-President Academic. The dean will also consult with the Provost in cases where the contemplated penalty is suspension or expulsion.

In a case where the dean is of the opinion that the finding of guilt is not supported by the evidence, the dean will review the case with the chair/director. If the chair/director and dean are unable to reach an agreement on the case, the dean will consult with the Provost before making final determinations as to the finding of guilt and any penalty to be applied in the event that dean upholds the finding of guilt.

In determining the appropriate penalty the chair/director or dean will take into consideration these guidelines, the recommendation from the instructor, the recommendation from the chair/director (in the case of a dean assigning a penalty), and any other relevant factors such as the relative weight of the assignment, the semester level of the student, the seriousness or extent of the offence (e.g. the amount of work plagiarized), any record of previous offences, and any mitigating circumstances presented by the student.

### Academic Standing

**Eligible to Continue**
A student who does satisfy the program requirements for continuation of study will be eligible to continue.

**Probationary**
A student who does not satisfy the program requirements for continuation of study will be allowed to continue in his/her program if granted probationary status (see Continuation of Study in this section).

---

3 Bolded text indicates the normal expectation for penalty for a first or second year undergraduate, or first year graduate student.

4 If the falsified document is course-related (e.g. medical note).

5 If the withheld information would have affected admission to a course.

6 These offences may also be subject to penalty under the Student Rights and Responsibilities Policy.
Required to Withdraw

A student who does not satisfy the program requirements for continuation of study will be required to withdraw from the University for a minimum of two semesters (see Continuation of Study in this section).

Students who do not satisfy the program requirements may appeal to the Academic Review Sub-Committee for probationary status to be granted based on medical, psychological or compassionate grounds.

Readmission to a program at the University of Guelph is not automatic. Students who are required to withdraw must apply for readmission to the University after completing the minimum two semesters of rustication. Students should consult Section IV—Admission Information regarding appropriate admission requirements and deadline dates.

A student who has been required to withdraw and who has made an appeal for probationary status to the Academic Review Sub-Committee will not be allowed to attend classes until such time that the appeal is granted.

A term academic standing is assigned to each completed semester according to the requirements of the Continuation of Study policy. A student whose term academic standing is Required to Withdraw according to the requirements of the Continuation of Study policy may have their term academic standing changed to "probation" as a result of a Request for Academic Consideration.

Adding Courses

All course additions to a student's program for a particular semester are to be completed by the end of the add period. On the last day of the add period, students will be able to add courses up to a maximum of 3.25 credits on a first-come, first-served basis.

Additionally, with a signature from the program counsellor, under exceptional circumstances a student will be able to enrol in more than 2.75 credits earlier in the process.

The addition of a course after the end of the add period will be considered only in exceptional circumstances and will require the approval of both the instructor for the course and the program counsellor of the program in which the student is enrolled. The program counsellor's signature should be sought first but does not presume the judgment of the instructor as to the appropriateness of the late addition for his or her particular course. In practice, the following have been deemed to be exceptional circumstances: illness or compassionate grounds for missing all or part of the first three class days; interchanging courses with common lectures, one with and one without labs; late resolution of appeals; failure of a deferred course condition or examination; university errors in registration procedures.

Course Requisite(s)

A student wishing to enrol in a course for which he/she does not have credit for the stated course requisite(s) may seek permission from the instructor to have the requisite(s) waived.

The student seeking the waiver must obtain a "Course Requisite/Restriction Waiver" and have it completed by the instructor. The student must then present the completed form along with a completed Course Request form to Undergraduate Program Services for processing. Waiver forms are available from Undergraduate Program Services, Office of Registrarial Services, Level 3, University Centre. https://webadvisor.uoguelph.ca/st/index.shtml.

Distance Education Courses

Distance Education courses may be added up to the end of the add period, with the permission of the Office of Open Learning.

Program Approval

Program Approval is required to add courses if the student is adding more than the normal course load.

Regular Courses

Regular courses may be added without permission of the department. Regular courses are those courses that are not designated as Priority Access in Chapter XII.

Two-Semester Courses

When adding a two-semester course, students must complete the course selection process for each part of the course during the appropriate course selection period. (e.g. AGR*2351 in the Fall semester and AGR*2352 in the Winter semester). These courses must be taken in consecutive semesters as outlined in the course description.

Caution: Students granted permission to add a course after the end of the add period may encounter difficulty in mastering course content and may be unable to meet all course requirements. The University has no obligation to assist students to pick up material that has been missed because of late enrolment.

Address for University Communication

Depending on the nature and timing of the communication, the University may use one of these addresses to communicate with students. Students are, therefore, responsible for checking all of the following on a regular basis:

Email Address

The University issued email address is considered an official address and will be used for correspondence from the University. Students are responsible for monitoring their University-issued email account regularly. See Section I—Statement of Students' Academic Responsibilities for more information.

Home Address

Students are responsible for maintaining a current mailing address with the University. Address changes can be made, in writing, through Undergraduate Program Services.

Admissions

University of Guelph students may, at some point, be required to complete and submit an application form to the Admission Services Office. The two most common reasons for submitting this internal application form are: to apply to transfer from one degree program to another or to apply for readmission to a program.

Application forms must be submitted to Admission Services by the deadline date established for each semester. An application fee is payable at the time the application is submitted (refer to Section III—Schedule of Dates.).

Application deadline dates are published in Section IV—Admission Information.

Associated Program Requirements

Program Committees have the option of identifying, as requirements for graduation, program components that are not academic courses and do not carry an academic credit weight. Associated Program Requirements allow programs to give formal recognition (but not academic credit) to the successful completion of program components that are primarily non-academic but are judged by the program committee as essential to fulfill the objectives of a degree or diploma program. Associated Program Requirements, when valid, are identified in Section X—Degree Programs in the schedule of studies for each appropriate area of study.

Attendance at Class

Instructors will inform students of the attendance requirements for individual courses in accordance with the policy of the department or school.

Caution: A student who for any reason does not attend classes regularly, runs the risk of being unable to complete the work of the semester and is advised to report to the program counsellor for academic counselling upon return to classes.

Auditing Courses

A student may audit a course upon approval of the department offering the course and payment of a fee. The department shall provide to persons intending to audit a course a written statement prescribing the extent to which they may participate in the work of the course. No official transcript record of audited courses will be provided. The procedures for registration and course changes are the same as for regular course attempts, except that after the end of the add period, a student who is registered under audit status for a particular course is committed to that status and may not convert to credit status for the same course. A student may change from credit to audit status up to the drop deadline applicable to that course, with approval. A fee is assigned for each audit course (refer to Section VI—Schedule of Fees) except in the case of a student holding full-time classification. Full-time students who have received approval for audit courses are not assessed additional fees.

Permission to audit must be obtained from the instructor for the course, the chair of the department offering the course, and the student's program counsellor.

The student who receives approval to audit should discuss with the instructor the conditions under which that approval is given including, for example, attendance, submission of term work, taking of examinations.

An approved audit course does not constitute a course attempt. No official grade will be reported, and audit courses will not be used in the determination of the eligibility for continuation of study. Also, no official documentation will be provided to verify the auditing of a course.

Audit courses are not considered in calculating full-time or part-time status.

Class Level Calculation

All programs determine class level on the basis of successfully completed courses plus the number of courses in progress. As courses are dropped and added, or grades are received, the class level must be adjusted accordingly. Class Level is determined as follows:

Continuation of Study

For continuation of study within a degree program, Open Learning or General Studies, a student must satisfy the conditions as set down under Schedule 1 or Schedule 2. The appropriate schedule will be determined by the criteria outlined below.

Schedule 3 is outlined in the Diploma Program Calendar and is only applicable to students registered in a Diploma program.

Schedule 4 is outlined in the Degree Programs section of this calendar (Section X—Doctor of Veterinary Medicine) and is only applicable to students registered in the Doctor of Veterinary Medicine program.

Schedule 1
Schedule 2

Schedule 1 Regulations

All degree programs, Open Learning and General Studies have established conditions which must be met for continuation of study. Continuation of study within a program is permitted provided the standards of academic performance listed below are met. In some instances, students not meeting the requirements may be allowed to proceed on probation (see Academic Standing—Probationary). If these conditions are not met, the student will be required to withdraw from the program, and subsequently are accepted for readmission to that program; or 6. they have registered at the University of Guelph as an exchange student.

Schedule 2 Regulations

Continuation of study is permitted provided the student meets the conditions outlined below. In some instances, students not meeting the requirements may be allowed to proceed on probation. If these conditions are not met, the student will be required to withdraw from the program for a minimum of two semesters and may apply for readmission after that period of time.

The continuation of study regulations at the University of Guelph are based on the principle that students must maintain a minimum average of 60%. To allow for transition issues, some leniency has been built into the minimum average requirement during the first 5.00 credit attempts. The student’s cumulative average will be reviewed first. If the student’s cumulative average does not meet the minimum required, the student will either be required to withdraw or placed on probation. When a student is placed on probation he/she will be required to obtain a minimum semester average. In subsequent semesters the student will either be required to withdraw, allowed to continue on probation, or be placed back on regular status. Students will be taken off probation once their cumulative average is greater than, or equal to 60%. Conditions for continuation of study are applied using the following tables:

Number of Credit Attempts: between 0.25 and 2.50

Students who have attempted between 0.25 and 2.50 credits is will be allowed to continue regardless of the cumulative average. Students will be placed on probation if their cumulative average falls below 50%.

Number of Credit Attempts: between 2.75 and 5.00

Note: Alternative course evaluations will not be included in the Continuation of Study calculations [Pass (P), Outstanding Pass (OP), Fail (F), Credit Standing (CRD) or Withdrawal with Failure (WF)]. Courses taken on a letter of permission will also not be included in the calculations. Students negatively affected by the omission of these courses in the Continuation of Study calculations may appeal a continuation decision to the Academic Review Committee.

Course Sections

Students are advised of their course section when they receive their individual course schedule (WebAdvisor) at the beginning of the semester. Course section information indicates the meeting times and room for each course.

Students must attend the course section on their course schedule. In the event that a section change is necessary the student must drop the old section and add the new one following the add/drop process.

Department Chair’s Responsibilities

The department chair will designate the responsibility for the approving of section changes during the add period. The approval of section changes may be done by the department or the responsibility may be assigned to individual instructors.
Registrar's Responsibilities

Undergraduate Program Services confirms with the students on their individual course schedules (WebAdvisor) the course section in which they are enrolled.

Student's Responsibilities

Students must stay in assigned course sections. In the event that a section change is desired the department and/or instructor offering the course must be consulted.

Course Selection

This is the procedure by which students indicate their course requests, including the appropriate course section for upcoming semesters. Program approval may be required as outlined in Section VII - Academic Advising. Subject to the availability of a published timetable, students may select courses for more than one semester. Students are cautioned that courses may be subject to listed enrolment restrictions. In such cases, priority in the selection of students to receive the course will be given to those who have selected courses prior to the start of the semester. For further information, refer to Priority Access Courses in this section of the calendar.

Students are normally restricted to selecting 2.75 credits during course selection and up to the last day of the add period. A number of programs have Senate-approved schedules of study that require students to register in more than 2.75 credits for particular semesters. As a result, these programs are exempted from the 2.75 restriction as required.

On the last day of the add period, students are allowed to add courses up to a maximum of 3.25 credits on a first-come, first-served basis. Additionally, with approval from the program counsellor, under exceptional circumstances, a student can enrol in more than 2.75 credits earlier in the process.

New Students

In-Course Students

New Students

A booklet including course selection material will be forwarded to new students by the Office of Registrarial Services. Consult this booklet to determine the procedures for course selection that pertain to the program to which you have applied. Students who are unable to return their course selection prior to the published deadline date have an opportunity to make their selection during the extended add period.

In-Course Students

Course selection material for upcoming semesters will be available during the semester to all registered students. Students who are not currently registered may receive the course selection material by contacting Undergraduate Program Services, Office of Registrarial Services, prior to the deadline date for submission of course selection requests (refer to Section III--Schedule of Dates.). Course selection requests received after the deadline date will not be processed.

There is a scheduled course selection period each semester where students can select courses for upcoming semesters (refer to Section III--Schedule of Dates for the exact dates).

Course selection is important for a number of reasons:

- a billing is generated via WebAdvisor by Student Financial Services on the basis of the course selection.
- course sections may be full after the course selection period and those who have not selected courses may not be able to enrol in them.

Students are encouraged to select courses for more than one semester at a time, subject to the availability of an Undergraduate Course Timetable.

Students are encouraged to select their courses using WebAdvisor, however, they may choose to complete an "Undergraduate Course Request" form. A separate "Undergraduate Course Request" form must be completed for each semester. "Undergraduate Course Request" forms must be submitted by the course selection deadline date for the applicable semester. Students who miss the course selection deadline must add their courses at the start of the semester (see Adding Courses and Dropping Courses in this section of the Undergraduate Course Request form).

Detailed Instructions

Normally, course selection on WebAdvisor results in a class schedule indicating lecture and laboratory sections, room locations and examination schedules, as applicable.

A copy of a student's Academic Evaluation will be available after the second week of classes in a semester to each registered student. Students are encouraged to select their courses early and for more than one semester at a time.

Student's Responsibilities

1. Complete the Course Selection process.
2. Obtain program approvals if necessary (refer Section VII - Academic Advising).
3. Submit the request using WebAdvisor. If a student is required to submit a form to Undergraduate Program Services he/she should complete the General section (Section A) of the Undergraduate Course Request form.

When a two-semester course is selected, students must complete the course selection process for each term during the appropriate course selection period. These courses must be taken in consecutive semesters as outlined in the course description.

All inquiries regarding distance education courses should be directed to the Office of Open Learning. http://www.open.uoguelph.ca/

To change your specialization, please use the "Undergraduate Schedule of Studies Change Request" form and submit it to Undergraduate Program Services.

It is the student's responsibility to ensure that the prerequisites have been satisfied for any course selected. Failure to do so will result in registration in the course being denied unless a "Course Requisite/Restriction Waiver" form, showing instructor approval, is presented to Undergraduate Program Services along with the "Undergraduate Course Request" form.

NOTE: Students who select a course for a future semester and who fail or drop the prerequisite(s) for the course in the current semester must drop the course. A replacement may be added during the add period.

Students not currently registered must contact Undergraduate Program Services prior to the deadline dates if course selection is to be possible. Students missing the deadline dates will have to add their courses during the add period.

Departmental Advisor's Responsibilities

All advisors should be familiar with any course restrictions that apply to courses in their department.

Advisors should be prepared to help students plan a course program with emphasis on meeting specialization and program requirements for graduation.

Advisors should approve the overall course program where appropriate. Refer to Section VII - Academic Advising.

Program Counsellor's Responsibilities

A counsellor may withhold program approval if any of the following applies:

1. the student has not taken the necessary prerequisites or has not selected the necessary corequisites;
2. the program requirements stated as such in the Undergraduate Calendar are not observed;
3. the selection does not conform with decisions concerning the student that have been reached by the Admissions and Academic Review Sub-Committees.

A student wishing to take more than the normal number of credits must have the approval of the appropriate dean or designate. Refer to Section VII - Academic Advising.

Registrar's Responsibilities

To coordinate and prepare all course selection information for distribution to all in-course students and to receive all completed "Undergraduate Course Request" forms.

To produce course counts based on the course selection material received and distribute the information to the appropriate department chair for his/her recommendations, regarding enrollment management.

Dean's Honours List

Effective Spring 1986, the University established a Dean's Honours List for full-time students which is recognized on students' transcripts. (Prior to Spring 1986 colleges used different criteria and the designation was not recognized on transcripts.) In Fall 1996 the Dean's Honours List procedures were revised to include all undergraduate programs.

Effective Spring 1991 the Dean's Honours List procedures were extended to accommodate part-time study (see 2. below). Part-time students must contact their College Dean's Office to formally request that the Dean's Honours List designation be applied to their official transcript. As part of the request, the student must identify the semester to be considered for the listing (e.g. Fall 2000). Approved requests will be forwarded by the Dean's Office to the Associate Registrar, Undergraduate Program Services. The Dean's Honours List will include:

1. students taking full-time studies who have obtained a minimum semester average of 80.0%.
2. students who in part-time semesters (which do not need to be consecutive) attain a minimum cumulative average of 80.0% in a sequence of at least 2.00 credits. All credits will be counted and the designation will appear under the last of the semesters making up the average, and in the graduating semester of students who have maintained a cumulative average of 80.0% since their last Dean's Honours List Designation.
3. A student with a deferred condition, or a mark not received, or the first part of a two semester course in progress, will not be evaluated for placement on the Dean’s Honours List until the academic record for that semester has been completed.

4. A part-time student who transfers from program to program within the University should consult the appropriate dean’s office about the eligibility for the Dean’s Honours List.

Students who have consistently maintained a high average, but for whom a change in program, in part-time status in the graduating semester, or other anomalies have prevented placement on the Dean's Honours List, should consult the appropriate dean's office about eligibility for the Dean's Honours List.

Students with a high level of academic achievement on exchange programs will be considered for the Dean's Honours List based on a recommendation to the appropriate Dean from the exchange co-ordinator.

Note: The calculation of full-time and part-time status for students includes courses with credit (CRD) standing or pass (P) standing. These courses do not affect the calculation of the averages used to determine Dean's Honours. Within each period of consideration there must be at least one course with a numeric grade for a student to qualify for Dean’s Honours List unless the student has been on exchange for that period.

Deferred Privileges

When students do not write a required final examination, complete a final assignment, or complete a work term report by the deadline, they may be eligible for a deferred privilege. A deferred privilege is the opportunity to complete the final course requirements after the end of the semester. The nature of the deferred privilege may take the form of either a deferred condition or a deferred examination. The Academic Review Sub-Committee grants deferred privileges on the basis of medical, psychological, or compassionate consideration (see Academic Consideration and Appeals). Deferred privileges are normally completed in the semester immediately following the semester in which the course was taken (refer to Section III—Schedule of Dates). If the Academic Review Sub-Committee assigns a passing grade or credit standing (CRD) on the basis of medical, psychological, or compassionate consideration, a student may request a deferred privilege instead. The student must make the request in writing to the Program Coordinator, Undergraduate Program Services, Office of Registrarial Services within 10 days of the release of the grades. The grade resulting from the deferred privilege will become part of the student's official academic record.

Instructors do not grant deferred privileges. They can only grant academic consideration for work that is due during the semester and cannot grant extensions beyond their deadline for submission of final grades. The instructor should note on the "Instructor’s Recommendation" form any special circumstances relating either to the student or to the way the course was conducted (see Final Grades).

Undergraduate Program Services records the results of deferred privileges, and re-evaluates the student's academic record for continuation of study.

Deferred Condition

The instructor and/or Chair/Director determine the requirements and conduct of the deferred condition. The deferred condition may be a written test, an oral test, an assignment, a laboratory practical, or any other method of evaluation. The requirements for completion of the deferred condition are documented on the "Terms of Supplemental/Deferred Condition" form https://webadvisor.uoguelph.ca/st/index.shtml and a copy of the form is retained by the instructor and the student. The department notifies Undergraduate Program Services of the results of a deferred condition, normally within 7 days of its completion. Students must normally complete a deferred condition by the end of the deferred examination schedule in the semester immediately following the completion of the course (refer to Section III—Schedule of Dates). Scheduling, Office of Registrarial Services advises students in writing of the deadline for the completion of a condition. In addition, Scheduling directs the student to the "Terms of Supplemental/Deferred Condition" form https://webadvisor.uoguelph.ca/st/index.shtml. It is the student’s responsibility to contact the instructor and make arrangements for the details of the condition.

Scheduling advises departments in writing of the students who have been granted deferred conditions. The memorandum specifies the date for completion of the deferred condition, and the deadline for the submission of final grades to Undergraduate Program Services. It is the responsibility of the Chair/Director or designee to advise the appropriate instructors of the deferred conditions that have been granted.

If the condition is not completed by the required deadline, a grade is assigned based on the term work completed as indicated on the original "Instructor's Recommendation" form. Students may be considered for an extension, or the assignment of a grade based on incomplete work, if medical or compassionate reasons prevail at the time of the scheduled condition. In this case, the student should consult with their program counsellor and may submit a "Request for Academic Consideration" form with documentation to Undergraduate Program Services, Office of Registrarial Services.

Deferred Examination

Scheduling, Office of Registrarial Services schedules and supervises deferred examinations that are two hours in length. Scheduling notifies departments of the deferred examination schedule and advises the students of the date, time and location of their deferred examinations. The Academic Review Sub-Committees expect students to write deferred examinations during the deferred examination period that follows the end of the semester in which the course was taken (refer to Section III—Schedule of Dates).

Students may request an extension, or the assignment of a grade based on incomplete work, if medical or compassionate reasons prevail at the time of the scheduled deferred examination. In this case, the student should consult with their program counsellor and may submit a "Request for Academic Consideration" form with documentation to Undergraduate Program Services, Office of Registrarial Services.

Procedures for Deferred Privileges

Chair/Director’s Responsibilities

The Chair/Director or designated department/school examination coordinator is responsible for the following:

1. Requesting a deferred examination from the individual instructor upon request from Scheduling, Office of Registrarial Services and informing instructors of students who have been granted deferred privileges.

2. When a deferred examination is scheduled, forwarding one examination paper from the instructor for each student granted a deferred examination in the course, plus one extra paper per course to Scheduling, Office of Registrarial Services.

3. Where the instructor is unavailable, providing the required examination papers to Scheduling, Office of Registrarial Services.

4. At the end of the Deferred Examination period, collecting completed examination papers from Scheduling.

5. Immediately distributing the completed examination papers to the appropriate instructor for marking.

6. In the case where a student is unable to make contact with the instructor to determine the nature of a deferred condition, taking necessary steps to assist the student in determining the requirements for the condition.

7. (Chair/Director only) initialing all grades submitted by instructors and forwarding them to the Undergraduate Program Services, Office of Registrarial Services, by the date indicated in the request letter.

Instructor’s Responsibilities

The course instructor is responsible for the following:

1. In the case of a deferred condition, completing the "Terms of Supplemental/Deferred Condition" form, providing student with a copy of the form, and keeping a copy. The instructor must adhere to the deadlines for the completion of the condition and the submission of the final grades to Undergraduate Program Services, Office of Registrarial Services.

2. In the case of a deferred examination, providing examination papers to the Chair/Director and indicating what exam aids the student in writing the examination may use.

3. Prompt marking of deferred course materials and submission of grades to the Chair/Director or designee.

Student’s Responsibilities

1. When the Academic Review Sub-Committee grants a deferred condition, contacting the instructor of the course and presenting the "Terms of Supplemental/Deferred Condition" form upon notification. Students must contact the instructor of the course immediately, in order to complete the condition prior to the deadline specified by Scheduling. The deadline is normally the last day of the deferred examination period for the semester in which the course was taken (which falls in the semester immediately following the semester in which the course was taken, refer to Section III—Schedule of Dates). The student and instructor must complete the form, indicating the exact nature of the deferred condition. If the student cannot contact the instructor, he/she must contact the Chair/Director of the offering department/school. If the student does not make the required contact within the deadline specified by Scheduling, the University will assume that the student does not intend to complete the condition, and a grade will be assigned based on term work completed, as indicated on the original Instructor’s Recommendation form.

2. When a deferred examination is granted, appearing for the deferred examination according to the date, time and location designated on the deferred examination timetable.

Registrar’s Responsibilities

1. Undergraduate Program Services informs the student and Scheduling of academic review decisions, collects grades, and evaluates the continuation of study status when deferred grades have been recorded.

2. The Examination Coordinator, Scheduling, informs the Chair/Director/designee that the Academic Review Sub-Committee has granted a deferred condition or examination; informs students who have been granted a deferred condition that it is their responsibility to contact the instructor to arrange the condition; specifies a deadline for completion of deferred conditions; prepares a deferred examination timetable and notifies all students who have been granted a deferred examination; requests the deferred examination papers from the Chair/Director; investigates the deferred examinations; at completion of the deferred examination period, prepares completed examination packages for each department/school, attaching a grade reporting sheet.
Dropping Courses

All course drops from a student's program for a particular semester are to be completed by the dates specified in the Section III--Schedule of Dates. Courses that are one semester long must be dropped by the end of the fortieth class day; two-semester courses must be dropped by the last day of the add period in the second semester. The dropping of a course after the deadline is allowed only in exceptional circumstances and requires the approval of the program counsellor or Academic Review Sub-Committee of the program in which the student is registered.

Deadline Dates

In all cases, if course changes are made, using WebAdvisor or the "Undergraduate Course Request" form, the changes must be made by the drop deadline (refer to Section VI--Schedule of Fees for the refund schedule).

The deadline dates for dropping courses (i.e. the fortieth class day) are noted in Section III--Schedule of Dates.

Instructor Notification

In some cases the instructor must be notified when a student is dropping a courses, for example, where students care for laboratory animals, or where supplies or books on loan must be returned. If instructor notification is required to drop the course, this will be specified on the course outline and announced in the first class meeting.

Refunds

Refer to Section VI--Schedule of Fees for refund schedule. Normally, changes to the effective date of dropped courses are only allowed for documented medical or compassionate reasons and require the approval of the program counsellor.

Regular Courses

Regular courses may be dropped from the start of the add period to the fortieth class day without approval except where instructor notification is required (see Instructor Notification above).

Two-Semester Courses

When dropping two-semester courses, both semesters of the course must be dropped. Students who wish to re-take a two-semester course must re-take both parts of the course.

The drop deadline for a two-semester course is the last day of the add period in the second semester.

Examinations

During the examination period, Saturday is considered a regular day. Examinations may be scheduled on public holidays. Students are advised to note Section III--Schedule of Dates. Students who encounter a conflict between a scheduled mid-term or final examination and a religious obligation (see Academic Accommodation of Religious Obligations) must contact the instructor-in-charge or their program counsellor to request that alternate arrangements be made. A listing of major religious holidays is available from the Office of Student Affairs.

Mid-Term Examinations

Term tests must not be scheduled during the last five class days prior to the final examination period. Exceptions may be granted by the Dean (or designates) for practical evaluations such a Laboratory or Studio tests, with the scheduling of such tests indicated in the course outline. Short quizzes which have been a regularly scheduled part of the course and which are intended to review small amounts of material are not considered term tests and may be held during the last five class days.

Chair/Director's Responsibilities

1. The conduct of all term examinations.
2. Appointing an adequate number of invigilators to assist the instructor-in-charge.

Instructor's Responsibilities

1. Taking attendance record at each term examination. The attendance record is for the department's use and is not submitted to Registrarial Services.
2. Exercising discretion when requiring certification of illness. In particular, instructors are encouraged not to require certification of illness affecting semester work when the assessment in question constitutes a small proportion of the course grade, or when alternative means for carrying out the assessment are available.

Final Examinations/Assignments and Final Week of Classes

Final Week of Classes

Final term assignments or papers may be due in the last five class days prior to the final examination period. Due dates for these evaluations should be stated in the course outline. Final assignments along with all necessary resource material should be available to students no later than the end of the 9th week of classes. Take-home examinations may not be due in the last week of classes.

Term tests must not be scheduled during the last five class days prior to the final examination period. Exceptions may be granted by the Dean (or designates) for practical evaluations such a Laboratory or Studio tests, with the scheduling of such tests indicated in the course outline. Short quizzes which have been a regularly scheduled part of the course and which are intended to review small amounts of material are not considered term tests and may be held during the last five class days.

Final Examinations (Regular, Take-Home and Other Format) and Final Assignments

Where regular final examinations are to be given they must be given during the examination period. All regular final examinations shall be two hours in duration. The following guidelines for conducting final examinations have been approved by Senate.

1. Departments should indicate to ORS whether a final examination time slot is required for a course. Departments will indicate whether:
   - the examination will be a regular, sit-down examination for which a room is required;
   - the examination will be a take-home examination;
   - the examination will be in some other format (orals; computer exams; juried performance exams, etc.).

2. Unless approved by the Department Chair, examinations for 1000 level courses will be in regular, sit-down format only.

3. The final examination period should be scheduled so as to provide a two day break between the last day of classes and the first day of examinations.

4. The final examination period consists of eleven days, except in the Summer semester, where it is eight days.

5. The periods scheduled for final examinations which are to be written in examination halls shall be all of two hours in duration. No regular examination held during the final dates scheduled for final examination periods shall be longer than two hours. (Note: Some DVM courses are exempted from this rule and require three hour exams.)

6. Under normal circumstances, changes to the published examination timetable are not permitted.

7. Where final examinations in either regular, take-home or other format are to be given, they must be given or due during the final examination period.

8. The Office of Registrarial Services has determined the 9th day (6th day in the 12-week format summer semester; 4th day in the 6-week format summer semester) of the examination period as the final due date that may be assigned for take home examinations or exams given in other than regular, sit-down format. When using a take-home or other format final examination, departments will inform the Office of Registrarial Services whether they are using the 9th day (6th day in the 12-week format summer semester; 4th day in the 6-week format summer semester) of the examination period as the due date, or whether they are using an earlier date. This information must be provided to ORS before the beginning of the semester, and the due date must be noted on the course outline distributed at the first class meeting.

9. Faculty using take-home examinations will determine when the examination paper will be made available to students, but must allow students at least 72 hours between the date of issue of the exam and the due date. The date of issue of the examination and the due date must be included in the course outline distributed at the first class meeting. If a student's time to complete a take-home examination is significantly lessened because of the number and timing of regularly scheduled sit-down examinations, the instructor may grant an extension, provided the new due date is not beyond the grade submission deadline for the course. The student must initiate such a request no later than the end of the second week of classes. The length of the extension will be at the instructor's discretion and instructors are advised to give the student the new due date in writing. The date of issue of the examination and its due date must be included in the course outline distributed at the first class meeting.
10. If the examination is to be handed out after the end of classes, the instructor will be responsible for arranging distribution and for ensuring that students have the appropriate opportunity to ask questions for clarification.

11. Final assignments or papers may be due either during the final examination period or in the last week of classes. In either case, the assignments along with all necessary resource material should be available to students no later than the end of the 9th week of classes and the due date and date of issue of the assignment must be included in the course outline distributed at the first class meeting. The Office of Registrarial Services has determined the 9th day (6th day in the 12-week format summer semester; 4th day in the 6-week format summer semester) of the examination period as the final due date that may be assigned for final assignments due in the examination period. When a final assignment used in lieu of a final examination is to be due in the examination period, the department will inform the Office of Registrarial Services whether they are using the 9th day (6th day in the 12-week format summer semester; 4th day in the 6-week format summer semester) of the examination period, or whether they are using an earlier date. This information must be provided to O.R.S. before the beginning of the semester and must be included on the course outline distributed at the first class meeting. Instructors who opt for an assignment to be due during the examination period, may not also include a final examination in their courses.

The Office of Registrarial Services of the University is the final arbiter of the manner of conducting examinations and receives general directives on policy from the Provost and Vice President (Academic), and the Board of Undergraduate Studies.

The Office of Registrarial Services will, in cooperation with the appropriate examiners, establish special examination procedures as and when needed, for students who have temporary or permanent physical disabilities. Medical opinion shall be sought whenever there is doubt about the extent of the disability.

**Chair/Director’s Responsibilities**

1. Completing the “Final Exam Request Form” by the deadline date set by Scheduling.
2. Completing the “Final Exam Location Request” by the deadline set by Scheduling.
3. Printing the required number of examination papers for each examination.
4. Providing for the security of examination papers printed in the department for the instructor.
5. Providing examination location information to instructors when the information is received from Scheduling, one week prior to the commencement of the final examination period.
6. Distributing the copies of the examination to the instructor on the date set for the examination.
7. The conduct of all final examinations for courses taught by the faculty of their department/school. The Chair/Director must identify an alternate instructor-in-charge for final examinations where the course instructor is not available.
8. Providing examination attendance records to the instructor-in-charge for examinations not under the direction of the Office of Registrarial Services.
9. Appointing invigilators for examinations under the direction of the Office of Registrarial Services (2 invigilators for a class of 20-25 students and 1 additional invigilator for each additional 50 students in a class, thus a class of 125 students should have 4 invigilators).

**Instructor’s Responsibilities**

Instructors who wish to hold examinations in other than sit-down, regular formats should discuss procedures with their Chair/Director.

The faculty member(s) responsible for the course and the setting of the examination, or a designate, shall be the instructor(s)-in-charge for final examinations in that course. They are responsible for the following:

1. Including the time of the final examination on the course outline distributed to students at the commencement of the semester. Note that under normal circumstances, once established, the date, time and location of final examinations may not be changed (see Grading, Resolution 5), and that where a course is taught in multiple sections the final examination date and time will be the same for all sections regardless of location (see Grading, Resolution 7).
2. If it becomes necessary to change an examination time or to add a final examination, contacting Scheduling, Office of Registrarial Services, and once a time is set, obtaining the written approval of all students.
3. Advising Scheduling, Office of Registrarial Services, prior to the examination if an “open book” examination is to be written; otherwise, it will be considered “closed book”.
4. Arriving at the examination room thirty minutes prior to the commencement of the examination and distributing examination papers, attendance cards, if used, and other authorized materials.
5. Taking attendance during the first hour of the examination period. (Attendance cards are used in the Athletic Centre and class lists in other locations.)
6. Arranging the collection of completed examination papers and comparing the number of examinations collected to the number of attendance cards or student signatures collected. These records should be retained by the department for a period of one semester.
7. With his/her invigilators, ensuring that students do not enter the examination room after the first 60 minutes or leave during the first 60 or last 15 minutes of the examination period.
8. Including all instructions regarding the examination on the examination paper, i.e., writing on every other line, writing on the right hand pages of the book. No verbal instructions can be made at the examination hall with the exception of corrections to printed instructions and material.
9. Where a student does not write the final examination, following the procedures outlined under Academic Consideration in this section of the calendar.

**Student’s Responsibilities**

1. Students are advised that the Final Examination schedules are available for Fall Semester by mid-August, for Winter Semester by mid-December, and for Summer Semester by mid-April. Students are required to consult the final examination timetable in order to avoid conflicts in examination times when adding courses. Written approval must be obtained from the dean or director and the instructor-in-charge of the course to register in courses that have conflicting examination times.

2. ACADEMIC CONSIDERATION IS NOT GIVEN TO STUDENTS WHO MISREAD PUBLISHED TIMETABLES.

3. One week prior to the commencement of Final Examinations, the Final Examination location information will be posted in the Library, Athletic Centre .Office of Registrarial Services and on WebAdvisor. Students may also check their personal examination schedule on WebAdvisor by selecting “Class Schedule”, the current Term, and then “Exam Schedule Grid”.

4. Students in Distance Education courses who live more than 170 km from campus will write their final examinations at a selected off-campus examination site close to where they live. For further information, please contact Office of Open Learning, 519-767-5000.

5. Students must be seated on entering the examination hall. Until at least 1 hour after commencement of the examination, no candidates shall be permitted to leave except under supervision. If a candidate is not present within the first hour of the commencement of the examination, the candidate shall not be permitted to write the examination.

6. No person shall be allowed in the examination hall during the course of examination except the candidates concerned and those supervising the examination.

7. No book, paper, or other aids shall be used during the examination except by permission of the instructor-in-charge. Students shall dispose of their bags and knapsacks by placing them on the floor beneath their chairs, and any books not classified as permissible aids shall be placed along the sides of the room.

8. Cell phones and pagers must be switched off and stored out of sight.

9. If provided, students must complete the examination attendance card at the beginning of the examination and place it beside their University of Guelph identification card at the front of the table. The attendance card will be signed at the time of collection.

10. Candidates shall not communicate with one another by writing, by signs, by words, or in any manner whatsoever while examinations are proceeding.

11. Students who have completed the examination will be allowed to leave their seats after the first hour has elapsed and after their examination books have been collected. To minimize the disturbance to students who have not yet completed their examinations, no student shall leave the examination hall during the last 15 minutes of the examination. At the conclusion of the examination period, students must remain seated until all papers have been collected and they are dismissed by the instructor-in-charge or, in the Athletic Centre, the Chief Invigilator.

12. When more than one book is handed in, students shall number each book and indicate on the cover of the first book the total number of books used.

13. No writing within the answer book or completion of computer answer sheets is permitted after the instruction to stop writing has been given. The instructor-in-charge may refuse to accept the paper of any candidate who fails to observe this time limit.

**Registrar’s Responsibilities**

The Final Examination Timetable is computer prepared by the Examination Coordinator, Scheduling, Office of Registrarial Services based on student course selections made during the course selection period. Final Examination Timetables are made available for Fall Semester by mid-August, for Winter Semester by mid-December, and for Summer Semester by mid-April. Other responsibilities of the Examinations Coordinator include:

1. Distributing the “Final Exam Request Form” from Scheduling, to Chairs/Directors or designate approximately six weeks prior to the semester to which it applies and specifying a due date.

2. Approximately 6 weeks prior to the start of final examinations, distributing to Chair/Director or designate a request for final examination room requirement information.

3. For Examinations held in the Athletic Centre shall be under the direction of the Office of Registrarial Services. The Examinations Coordinator or designate will act as Chief Invigilator for all Examinations held in the Athletic Centre and is responsible for the conduct of all such examinations.
4. In the event of a dispute over procedures during Final Examinations in the Athletic Centre, the Chief Invigilator shall have final authority.

5. The Examination Coordinator as Chief Invigilator in the Athletic Centre is responsible for:
   • providing each instructor-in-charge with attendance cards
   • starting and ending examinations
   • assisting the instructor-in-charge to ensure that no student enters the examination room after the first 60 minutes or leaves during the first 60 minutes or the last 15 minutes of the examination period
   • preparing, distributing to Chairs/Directors and making available to instructors-in-charge in the Athletic Centre, a set of guidelines for the instructor-in-charge and invigilators which will assist them in carrying out their duties in the examination rooms

**Policy on Student Access to Final Examination Materials**

Final examination papers and final assignments are to be retained by faculty members for a period of one semester.

Printed or written materials directly related to examinations conducted in the final examination time period published in the Undergraduate Calendar, or related to final assignments shall be made available to a student, upon submission of a written request to the department chair. The request shall be submitted by the fifth class day of the next semester.

Printed or written materials to be made available include the examination question paper, the marking scheme keyed to desired responses to questions, where appropriate; the student’s response to the examination questions; and records taken by examiners during oral or any other examination. Faculty members are encouraged to discuss openly with the student any questions raised. The department chair will make the necessary arrangements for student access to the material. When a large number of requests are received in connection with a specific course or when a faculty member is on leave it may be necessary for the department chair to delay access and make special arrangements, e.g., posting the marking scheme on a bulletin board, the scheduling of a special meeting at which the faculty member will review the examination, etc.

**Exchange Programs**

Exchange programs between the University of Guelph and other institutions are defined by the terms of formal exchange agreements. A copy of each agreement must be approved by the Associate Vice-President (Academic) and registered with the Associate Registrar, Undergraduate Program Services.

Students participating in exchange programs pay full-time tuition fees at their home university, but select their courses at the university they will be visiting. The grades are recorded there and forwarded to the home institution at the end of the semester or academic year. Each institution participating in an exchange program designates a co-ordinator who will be responsible for arranging the details of the exchange. Students are advised not to leave on exchange without the written approval of the receiving university.

Students must pay their full-time fees and select their courses prior to leaving on exchange. "Exchange Program Course Selection Request" forms are available at the Centre for International Programs (C.I.P.) Office or from Undergraduate Program Services, Office of Registrarial Services. Details on specific exchange programs can be found in Section V--International Study.

Courses taken on exchange will appear on the transcript as non-specific University of Guelph courses and will be graded using the Outstanding/Pass/Fail alternate grading system. Grades will be determined by the Study Abroad Manager using an official transcript submitted by the host institution.

Informal exchange programs where a formal agreement does not exist must be conducted by means of a letter of permission and tuition fees will be paid to the receiving institution (refer to Section VI--Schedule of Fees).

**Failed Courses**

In general, a student who is eligible for continuation of study in the program but has failed to gain standing in one or more of the courses attempted will be required to repeat the course(s) or take an alternative credit. However, the University recognizes that there may be cases where it is unreasonable for the student to repeat the course to make up for the lost credit.

Therefore, the Academic Review Sub-Committee may, if appropriate and feasible, and only under special circumstances, allow a student the opportunity to gain credit for a failed course by granting a supplemental privilege. It is unlikely that any student with a final grade of less than 40% would meet the requirements of the granting of a supplemental privilege. The decision to grant the privilege will normally be made in consultation with the instructor and a review of the student’s course performance during the semester. The student must submit a Request For Academic Consideration form to request a supplemental privilege. The Academic Review Sub-Committees will consider granting a supplemental privilege in the following special circumstances:

1. the course is failed in the graduating semester (if a supplemental privilege is granted and successfully completed, convocation will most likely be deferred until the following semester);
2. the failed course is not available to the student within the following three semesters, or within a time period that includes the graduating semester;
3. the course is of such a nature that there is no permissible substitute or alternative available to the student within the following three semesters, or within a time period that includes the graduating semester; or
4. the course is a required two-semester course that cannot be taken and completed within the following three semesters, or within a time period that includes the graduating semester.

The original failing grade will remain on the student’s academic record. A notation of “P” or “F” will be shown beside the original failing grade to show that a supplemental privilege was granted and whether the outcome resulted in credit (P) or not (F).

**Multiple Failure Limitations**

Students should note that some programs limit the number of times a student may repeat failed courses. A student may not be permitted to continue in his/her major and/or program should they fail the same course, or its equivalent, multiple times. Multiple failure limitations are noted in Program Requirements by Degree Program in Chapter X--Degree Programs.

**Grades**

**Grading System**

Two-semester courses constitute two course attempts and will appear as such on the student academic record. These courses are indivisible and the same grade will apply for each attempt. A refined grading system was approved by Senate on May 21, 1991 effective Spring 1992 as follows:

<table>
<thead>
<tr>

Courses taken on exchange are graded using the Outstanding/Pass/Fail alternate grading system (refer to Exchanges, Section V--Special Study Opportunities; Exchanges). In addition, selected University of Guelph courses, approved by the Board of Undergraduate Studies, will use this alternate grading system.

**Grading Procedures**

Feedback to students on work completed or in progress is an integral part of teaching and learning in that it allows students to measure their understanding of material and their progress on learning objectives. Feedback often goes beyond grading—an indication of the standard achieved—to include comments on the particular strengths and weaknesses of a student’s performance. While the nature and frequency of such feedback will vary with the course, the University of Guelph is committed to providing students with appropriate and timely feedback on their work. Particularly in 1000 and 2000 level courses, instructors are urged to provide some feedback prior to the 40th class day.
Resolution 1
That the assignment of grades at the University of Guelph be based on clearly defined standards, which are to be published in the Undergraduate Calendar for the benefit of faculty and students and that the definitions for each of the numerical grade range (letter grades) be as follows:

80 - 100 (A) Excellent. An outstanding performance in which the student demonstrates a superior grasp of the subject matter, and an ability to go beyond the given material in a critical and constructive manner. The student demonstrates a high degree of creative and/or logical thinking, a superior ability to organize, to analyze, and to integrate ideas, and a thorough familiarity with the appropriate literature and techniques.

70 - 79 (B) Good. A more than adequate performance in which the student demonstrates a thorough grasp of the subject matter, and an ability to organize and examine the material in a critical and constructive manner. The student demonstrates a good understanding of the relevant issues and a familiarity with the appropriate literature and techniques.

60 - 69 (C) Acceptable. An adequate performance in which the student demonstrates a generally adequate grasp of the subject matter and a moderate ability to examine the material in a critical and constructive manner. The student displays an adequate understanding of the relevant issues, and a general familiarity with the appropriate literature and techniques.

50 - 59 (D) Minimally Acceptable. A barely adequate performance in which the student demonstrates a familiarity with the subject matter, but whose attempts to examine the material in a critical and constructive manner are only partially successful. The student displays some understanding of the relevant issues, and some familiarity with the appropriate literature and techniques.

0 - 49 (F) Fail. An inadequate performance.

Resolution 2
That instructors must use evaluation criteria which measure quality of performance and not merely activity.

Resolution 3
That instructors are not to use predetermined, arbitrary distributions in the assignment of grades in individual courses.

Resolution 4
Part A
That, by the start of the course selection period for the semester in which the course will be offered, instructors will provide a course description for posting to the department web site. This course description shall include a brief summary of the course topics and requirements, the general format of the course, and the methods of evaluation.

Part B
That, by the first class meeting of the course (by the end of the first week of classes for distance education courses), the instructor must provide students with a written course outline that is a detailed description of course requirements, the methods of evaluation, and the timing of the evaluations.

Resolution 5
That the methods and/or timing of evaluation as indicated on the course outline should not be changed after the first class meeting except under strictly adhered to conditions. Notice of proposed change and of the class at which consent is to be sought, must be given at a previously scheduled class. Where the change is supported by the instructor and is consistent with University policies and procedures such change may be enacted with the unanimous consent of students. If unanimous consent of the students has not been obtained, the change may be enacted only with the approval of the chair of the department and only if alternative and equitable accommodation is available to students opposed to the change.

Resolution 6
That all term tests, assignments, laboratory reports, etc., should be returned to, or discussed with students, without undue delay and in any case before the last day of the examination period. If the material is necessary for the preparation of the final examination, it must be returned or discussed as soon as possible and in any case no later than three days before the examination.

Resolution 7
It is recognized that multiple sections of the same course may differ in terms of texts and other academic resource materials, teaching methods and formats, and evaluation procedures used. However, the department is responsible for ensuring that the different sections are achieving common learning objectives with a common set of academic standards and expectations. The department chair is responsible for ensuring the consistency of final grade distribution across sections over time. Where a course has more than one section writing a final examination, the examination date and time will be the same for all sections. Department also refers to schools and to colleges (where multiple section courses are offered by, or coordinated by the Office of a College Dean).

Resolution 8
That each department must keep under continual review its grading procedures and matters that relate to academic standards to make sure the University's policies are being applied.

Resolution 9
That normally all courses at the 1000 and 2000 levels shall have final examinations and that exceptions require the approval of the Chair of the Department.

The Board of Undergraduate Studies has by formal resolution undertaken to do as follows:

• to specify clearly the administrative responsibility of chairs with respect to the methods of evaluation, the setting of examinations and the determining of grades in courses in their departments.

• to review the effects of the pass by course system on the academic standards of the University.

• to request each program to review its overall academic standards and, in particular, its requirements for graduation.

• to examine whether the prerequisites at the secondary school level required for admission to the University of Guelph are adequate.

• from time to time, to review and monitor the academic standards across the University to ensure that there is consistency and that the regulations of the University are being adhered to.

Resolution 10
Senate resolved on June 21, 1977 that in determining grades for written assignments the instructor should take into consideration the student's ability to use correctly and effectively the language appropriate to the assignment.

Resolution 11
Senate resolved on March 21, 1978 that the chair should review, prior to the commencement of classes, the manner in which a faculty member intends to conduct a course and to determine final grades. If the chair disagrees with the faculty member's intention or subsequently with the implementation of the stated intentions, the chair will discuss his/her concerns with the faculty member. If agreement cannot be reached, the matter will be referred to an appropriate department committee which will advise the chair in reaching his/her decision. The advice may include a recommendation on examination procedures.

Submission of Final Grades

General Information
Undergraduate Program Services, Office of Registrarial Services, distributes the "Grades Due Report" forms to the departments one week prior to the examinations period for the semester. The "Grades Due Report" specifies the deadline date for submission of grades to Undergraduate Program Services, Office of Registrarial Services.

Instructor's Responsibilities
The instructor (department) is to retain all final examination papers and term assessments not returned to students for a period of one semester. The "Grades Due Report" form distributed by Undergraduate Program Services, Office of Registrarial Services, will carry the due date for grades for each course section. The due dates are established in accordance with the regulations of the Senate.

Grades must be submitted to Undergraduate Program Services by the deadline stated on the "Grades Due Report". The early submission of grades will assist in their processing. Grades that are not received prior to the release of student grades are reported as "MNR" (mark not received).

Class lists are updated regularly on the Class List Web-site for departmental download. Lists downloaded from the Class List Web-site list all officially registered students in a class. The change must explain any changes to the list, e.g., in the case of:

1. A student whose name is not on the list, but who has been attending class.

2. A student whose name appears on the list, but for whom the instructor has no record.

Instructors must not grant an extension of time to any student beyond the final date for submission of grades for that course. Instructors must report students who do not satisfy course requirements by assigning a grade of "INC" and noting incomplete work on an "Instructor's Recommendation" form.

Instructor's Recommendation Form
Instructors should only submit grades for students who have completed their final work for a course. If a student does not complete a final examination or final assignment, the instructor must enter "INC" (incomplete) on the "Grade Report" form and complete an "Instructor's Recommendation" form for the student. The "Instructor's Recommendation" form is available from the chair of the department. Departments must submit the "Instructor's Recommendation" form(s) along with the "Grade Report" form to Undergraduate Program Services, Office of Registrarial Services. The Academic Review Sub-Committee will contact the faculty and/or department chairs at the time of meetings if this procedure is not followed. The instructor's recommendations assist the members of the Academic Review Sub-Committee in making their decision. The instructor must complete all sections of the form for each student reported.
Student's Responsibilities

Students must have all final assignments completed and submitted to instructors by the deadline dates indicated in the course outline. Instructors cannot grant extensions beyond the deadline for submission of grades. Students who are unable to satisfy the submission deadlines established by the instructor and who wish special consideration for medical, psychological or compassionate reasons should request academic consideration (refer to Academic Consideration and Appeals).

Department Chair's Responsibilities

The chair of the department signs student grades in the designated area on the "Grade Report" form. The department chair’s signature indicates that he/she believes that the grades for that course adhere to the academic regulations of Senate. If the chair has reason to believe that the academic regulations of Senate have not been adhered to, he/she will consult with the faculty member and, if necessary, the college dean. If the chair, after such consultation, still believes that the academic regulations of Senate have not been adhered to, he/she must submit the grades without approval through the college dean to the Provost and Vice-President (Academic). The grades must be accompanied by a complete report. The Provost and Vice-President (Academic) will act to ensure that the academic regulations of Senate are adhered to.

The department chair should be available for consultation during the meetings of the Academic Review Sub-Committees. The Board of Undergraduate Studies strongly encourages each chair, at his/her discretion, to conduct a periodic review of the methods of assessment, class averages, distribution of grades and failure rates in courses offered by that department to ensure that grade abuse does not occur (refer to Final Grades).

Program Counsellor's Responsibilities

The program counsellor reviews the list of "INC" (incomplete) courses, matching medical documentation, requests for academic consideration, and counselling files (refer to Deferred Privileges). The program counsellor in conjunction with the Academic Review Sub-Committee assigns deferred privileges where appropriate and forwards decisions to Undergraduate Program Services, Office of Registrarial Services.

Registrar's Responsibilities

Undergraduate Program Services records the examination results; notifies students of their grades via WebAdvisor; notifies program counsellors of incomplete grades; and records deferred privilege decisions (refer to Deferred Privileges).

Release of Final Grades

University grades are official on the day that they are issued to students. It is the responsibility of the Office of Registrarial Services to release the grades to the student and to record the grades on the student's official University transcript. All grades are available through WebAdvisor. Students who require an official copy of their grade report can request an official transcript upon payment of the transcript fee.

Grades for students who have been advised by Student Financial Services, Office of Registrarial Services, that they are on academic sanction will not be released by Undergraduate Program Services until notification/authorization is received indicating that the account has been cleared to the satisfaction of Student Financial Services. To receive grades, students must clear their sanction by the last day of classes.

Students who are required to withdraw will be notified at their mailing address. Summer Session grades are released approximately two weeks after the conclusion of examinations. The grades and the continuation of study status are considered to be unofficial until the end of the Summer Semester.

Grade Reassessment

Grade re-assessment is the process of reviewing the calculation of grades, or the methods and criteria used to establish final grades for a student in a course or misapplication of an academic regulation. The outcome of a grade re-assessment may be a grade increase, a grade decrease, or no change to the grade. The detection of errors or omissions in the calculation of final grades will result in the assignment of a revised grade. Students normally initiate grade re-assessments, but instructors may initiate this process. However, instructors must NOT use the grade re-assessment process to:

- grant extensions for submission of work beyond course grade submission deadline (see Academic Consideration, Appeals and Petitions)
- change the student's continuation of study status
- improve the student's program or specialization average
- submit late grades (see Final Grades)

Calculation Errors or Omissions

Students who believe there have been errors or omissions in the calculation of their final grade for a course may request a grade reassessment. They must submit a request in writing to the chair of the department offering the course no later than the 10th class day of the succeeding semester. The request must pertain to work completed during the semester. Students must also submit relevant assignments or tests that have been returned to them. The chair shall forward the student's request to the instructor and the instructor shall respond to the chair within five class days. The instructor has the responsibility of ensuring that the calculation and totalling of marks is accurate. The instructor must reply to the chair, in writing, giving assurance that the review is complete.
Students who are on suspension for academic misconduct will not be permitted to graduate during the period of the suspension.

2. Academic Residence Requirements
   i. At least 5.00 of the credits required for graduation by the student’s program must be taken at the University of Guelph.
   ii. At least 60% of the 3000 and 4000 level courses required for graduation must be taken at the University of Guelph.

University of Guelph courses include courses taken on exchange and on study abroad programs. Letter of permission courses are not included.

3. Honours Equivalent
   Students from the University of Guelph or another university may upgrade a degree from the general program to the honours program to obtain an Honours Equivalent recognition. Students may also upgrade a degree from the honours program by the completion of an additional specialization to qualify for the Honours Equivalent recognition. These students must be readmitted to an honours equivalent program. All previous University of Guelph credits are eligible for consideration toward the equivalent degree from the honours program.

   To be granted an Honours Equivalent, students must satisfy the University of Guelph residence requirements. In addition, students must satisfy the conditions for graduation for the specified honors program using the calendar that is in effect at the time of admission into the honors equivalent program. Normally, all degree program regulations will apply to the Honours Equivalent specialization.

   The students who are granted the Honours Equivalent designation do not participate in a convocation program, but have the designation shown on their transcript and may receive a new degree parchment upon application, subject to surrender of the original degree parchment and payment of the appropriate fee. Note, parchment replacement applies to Guelph graduates only.

4. Second Degrees
   Students from the University of Guelph or from another university may graduate with a second undergraduate degree from the University of Guelph. If they have graduated with their first degree, they must apply for admission to the program for their second degree. However, only 10.00 credits may be transferred from the initial degree program. The course content of the second degree program must be substantially different from that of the first. If University of Guelph students apply to graduate with two different degrees at the same convocation, only 10.00 credits may be transferred from the registered program to the undeclared program. Note: A second degree is judged to be substantially different if:
   • the specializations are in different subject areas as listed in Section XII—Course Descriptions; or
   • the schedule of studies requirements are substantially different (no more than 25% overlap).

B. Certificate and Diploma Programs
   To be granted a Certificate or Diploma, the conditions outlined in Section XI—Certificates and Diplomas must be satisfied using the calendar that is in effect at the time of admission to the General Studies program or the Non-Degree category, or at the time of declaration of the Certificate or Diploma. Students who are granted a Certificate or Diploma do not convocate, but have the designation shown on their transcript.

C. Procedures
   Graduation Fee
   A degree and graduation fee is assessed to students at the time of application for graduation. Students who apply for more than one degree are assessed a graduation fee for each degree awarded, at the time of application is the amount assessed.

   Student’s Responsibilities
   A student must submit a formal application in order to be considered as a candidate for a degree or diploma at a specific convocation. There are three convocation periods throughout the year—early October, mid-February, and early June. Formal convocation ceremonies, however, are held only in mid-February, and early June. An application for graduation must be submitted by the student no later than the deadline for the specific convocation period as specified in Section III—Schedule of Dates. Late applications will be accepted with the submission of a late fee (refer to Section VI—Schedule of Fees). Following submission of the application to graduate, the student will receive confirmation of the application, along with information on subsequent procedures. An additional late fee will be assessed in those cases where changes are requested by the student after the deadline date as this will affect the printing of the degree/diploma parchment.

   Although the Office of Registrarial Services will attempt to send an e-mail to every potential graduate inviting them to apply to graduate via WebAdvisor for Students (My Application for Graduation), it is the student’s responsibility to ensure that they submit their application for graduation by the published deadline dates in Section III—Schedule of Dates. Specific applications details are as follows:

   Application for a Certificate or Diploma
   A student who is registered in the General Studies program or the non-degree program and who expects to complete the requirements as set down in Section XI of the calendar for the completion of the certificate or diploma programs, should submit an “Application for Completion of Certificate or Diploma” form available from the Convocation Clerk, Undergraduate Program Services, Office of Registrarial Services.

   Application for Graduation from Degree Programs
   An e-mail inviting students to apply to graduate via WebAdvisor for students (My Application for Graduation) will be sent to each student registered in a general degree program when his/her completed plus inprogress credits equal 15.00 credits or more; and to students registered in an honours degree program when their completed plus inprogress credits equal 20.00 credits or more. All other students with an active academic program who wish to apply to graduate may access ‘My Application for Graduation’ on WebAdvisor for Students.

   Students who are not currently active students must submit a hard-copy Application for Graduation form, accompanied by the appropriate fee. This application form and instructions for the completion of the application are available at http://www.uoguelph.ca/regweb/publications/index.shtml.

   It is the responsibility of the student to submit the completed form prior to the published deadline date.

   Application for Honours Equivalent
   A student who is registered in an honours equivalent program who expects to complete the requirements as set down in the calendar for one of the honours programs, should submit an “Application for Completion of Honours Equivalent” form available from the Convocation Clerk, Undergraduate Program Services, Office of Registrarial Services.

   The same deadlines for applications to graduate apply to the applications for honours equivalent.

   Chair’s Responsibilities
   The department chair receives both the Academic Evaluations for all students who have applied for a degree with a specialization administered by that department and a listing of those students. The department chair (or designate) must review these records to determine if each student has satisfied:
   1. general University requirements,
   2. overall program requirements and
   3. specialization requirements.

   Each check is to be reported on the form supplied, and the form is to be forwarded to the program counsellor by the date specified on the accompanying memorandum. If an applicant satisfies the requirements for the degree, or diploma sought, Registrarial Services will report the name of the student to the Provost and Vice-President Academic. If an applicant fails to satisfy any requirement(s), Registrarial Services will inform the student of that decision.

   Registrar’s Responsibilities
   Undergraduate Program Services, Office of Registrarial Services initiates an “Application for Graduation” process for the appropriate group of regular and special students.

   Undergraduate Program Services processes those applications received prior to the deadline and forwards a confirmation of both the receipt of the application and the information supplied by the student and advises students of the date and time of the convocation ceremony.

   Undergraduate Program Services forwards Academic Evaluation and check sheets to department chairs to obtain decisions on eligibility of the applicants. Undergraduate Program Services informs students not approved by the departments of the rejection and the reasons for it.

   The Registrar will present a list of all recommended graduands to the Provost and Vice-President (Academic) for approval.

D. Standing on Graduation
   Standing on graduation is noted only for graduates from the honours programs as follows:
   • Degree with Distinction - Cumulative average of 80% or higher.
   • Degree with Honours - Cumulative average of 70-79%.
   • Degree with Standing - Cumulative average of less than 70%.

   Standing is only based on the internal University of Guelph academic record. For the DVM Program standing on graduation is based on the average of the marks received for those courses completed after admission to the program.

E. Notation on Transcript
   Official transcripts from the University of Guelph will not show that a degree has been conferred until after the convocation.

Letters of Confirmation of Enrolment
   A student who requires a letter confirming attendance at the University in a given semester should make this request to Undergraduate Program Services, Office of Registrarial Services.
Letters of Confirmation of Graduation
A student who requires a letter confirming graduation from the University should make this request to the Convocation Clerk, Undergraduate Program Services, Office of Registrarial Services.

Letters of Permission
A student at the University of Guelph who wishes to enrol in a course for credit at another institution and have that course considered as a credit toward a University of Guelph degree, must complete a "Request for Letter of Permission" form, available from the program counsellor, and obtain the appropriate approvals as indicated on the request form, prior to applying for admission to the other institution.

Credit for successful completion of such courses will be granted at the University of Guelph if a letter of permission has been presented to the Office of Registrarial Services prior to the student's enrolment at the other institution. A student taking a course on a letter of permission is responsible for ensuring that the other institution forwards the official transcripts directly to Undergraduate Program Services, Office of Registrarial Services. If the transcript for the course taken on a letter of permission is not received by the 20th day of the semester following completion of the course, a grade of "F" will be entered on the student's internal academic record.

Students are required to complete the courses specified on the "Letter of Permission" during the semester(s) specified on the "Letter of Permission". If the student registers in additional semesters or courses that are not approved by the University of Guelph, the student must apply for readmission.

Withdrawals or non-registration in courses taken on a letter of permission must be verified by official documentation from the other institution. Any changes in the courses taken must have the appropriate approvals from the University of Guelph.

All courses for which letters of permission have been granted, will be included in all internal academic records, but not in the official transcript of the University of Guelph. These courses will not count as course attempts under the continuation of study regulations. Courses taken on a Letter of Permission will not count in the semester average or the overall academic average.

Students do not normally qualify for a letter of permission in the final semester of their degree program.

Caution: when selecting courses to take on Letter of Permission you should be aware that you may not be able to get into the courses selected. For instance, courses may be full, may have been removed from the schedule, or may conflict with other courses. For this reason, you are encouraged to select more courses than needed but indicate clearly on the Request for Letter of Permission form the number of courses that will be taken. If you need to take a course not listed on the form, you should make every effort to contact your program counsellor in advance of registering in another course in order to obtain approval for the equivalent credit. Departments reserve the right to deny credit equivalency to a course taken without prior approval.

Priority Access Courses
In cases where enrolment demand habitually exceeds course capacity and there is demonstrated need to restrict access to a particular cohort of students on a priority basis, departments may request the implementation of course restriction rules to ensure priority access to the appropriate student group(s) during the course selection process. The system will provide a list of access restrictions for courses that do not meet the enrolment criteria. In special cases the department may override the restriction by authorizing entry to the course with a signature on a "Course Waiver Request" form using the "Course Restriction Waiver" box.

Departmental requests for course restriction rules must be directed to the Co-ordinator of Undergraduate Curriculum who will determine if the request is acceptable and will then work with the department or school to develop the appropriate enrolment criteria and confirm that the restriction can be monitored. In general, course restrictions should be clearly defined in the calendar course listings so that students are advised in advance of the intended audience for the course.

New restrictions or changes to existing restrictions must be approved prior to the course selection period in which they are to be implemented.

Prior Learning Assessment
Prior Learning Assessment (P.L.A.) is a mechanism whereby students who have acquired substantial experience in a non-traditional environment have an opportunity to challenge whether such learning is equivalent to a course(s) offered at the University. Note: P.L.A. will only be available to a student if sufficient evidence is provided that the course material was acquired outside a degree program at a University. A request to challenge a course that has already been attempted at university will not normally be granted.
P.L.A. is not open to students who simply wish to challenge a course. Students will be required to sign a contract stating that the learning occurred other than in a university course. Not all courses are appropriate for challenge. Each department has the responsibility of determining which of its courses may be subject to a P.L.A. challenge. The challenge process could include one or more assessment methods, including standardized tests, written and/or oral examinations, performance evaluations, interviews, and portfolio assessment. All these assessments require that the individual demonstrate, to a qualified faculty member(s), that pre-determined knowledge and skills have been acquired.
The maximum number of credits a student can challenge is 5.00 for degree programs, or 30% of the certificate requirement for open learners. Credits acquired through P.L.A. will be assigned credit status (CRD) and will be on the official transcript.

Students wishing to challenge a course(s) should contact Undergraduate Program Services to obtain an application form. A request must include a clear statement as to the course(s) the student wishes to challenge, an explanation of how the knowledge necessary for the course was gained, and any relevant supporting documentation to validate the claim. Requests will be forwarded to the appropriate department(s) for evaluation. Upon receipt of the response from all the departments concerned, Undergraduate Program Services will inform the student which, if any, courses have been approved for challenge.

If a challenge has been granted, the department will determine the nature of the assessment and the deadline by which time the work must be complete. It is the student's responsibility to contact the department with respect to the details of the assessment within three weeks of being informed by Undergraduate Program Services of being granted the privilege. Upon completion of the assigned task(s), the department will inform the Office of Registrarial Services as to the student's success or failure of the challenge.

Those students (a) whose application for a challenge is reviewed by the faculty members of the department concerned, and who are subsequently denied the opportunity to challenge, or (b) who fail a challenge examination, may appeal the decision first to the chair of the department, and subsequently, if necessary, to the dean of the college.

Chapter VI Schedule of Fees - outlines the applicable fees for Prior Learning Assessment.

Readmission
Previously registered students must apply to Admission Services for readmission under any of the following conditions:
1. If they were required to withdraw from their program for a period of two or more semesters.
2. If they were suspended from the University for academic misconduct.
3. If they have graduated from this University and wish to register in order to take additional courses.
4. If they registered in a program at another post-secondary institution and wish to return to the University of Guelph.
5. If they have not registered at the University of Guelph for six or more consecutive semesters.
6. If they are attending the University of Guelph on a letter of permission and wish to continue past the term of the letter of permission agreement.

Readmission to a program at the University of Guelph is not automatic. Students who are required to withdraw must apply for readmission to the University after completing the minimum two semesters of rustication. Students should consult Section IV - Admission Information regarding appropriate admission requirements and deadline dates. Applications for readmission should include a statement which outlines the basis for readmission. Criteria used for readmission may differ by academic program. Students considering readmission should consult with the appropriate program counsellor regarding procedures and criteria for readmission to that program.

Students requiring readmission must apply to Admission Services, Office of Registrarial Services, University Centre, Level 3. Applications for readmission must be submitted by the deadline date established for each semester (see Section III--Schedule of Dates). An application fee is payable at the time the application is submitted (see Section VI--Schedule of Fees).

On December 19, 1995, the University Senate approved the following policy for the granting of credit while on rustication:
1. Students who have been required to withdraw, and who take university credit courses during their rustication period, will be eligible for up to 1.00 credit provided they meet the criteria for readmission and the criteria for the transfer of credit. Students registered for courses through the Open Learning Program, are not permitted to attend courses on campus.
2. Students who take university courses after the two-semester rustication period may transfer all these credits provided the student meets the criteria for readmission and the criteria for the transfer of credit.
3. Students who have been suspended for academic misconduct will not receive any credit for courses taken during the suspension period.

Note: This policy applies to any university credit course taken during the rustication period.

Registration
A student is considered as registered for a particular semester only when courses to be attempted for that semester have been reported to the Registrar no later than the end of the add period and financial arrangements, satisfactory to Student Financial Services, have been made for the associated tuition and other fees. Coincident with the registration process, students may complete other business arrangements with the University such as reporting of address information, residence payments, meal card contracts, parking permits, and receipt of identification cards.
In-Course Students
All in-course students must complete the registration procedures prior to the deadline dates as published in Section III—Schedule of Dates.

While advance billings will be available on WebAdvisor, to students who have indicated an intention to register in a particular semester, it is the responsibility of all in-course and returning students to ensure that satisfactory arrangements are made with Student Financial Services prior to the deadline. Students who have not received the advance billing should contact Student Financial Services in order to make payment. Arrangements for registration after the deadline date will be assessed an additional late registration fee.

Students who are readmitted will be advised of registration procedures. Questions should be directed to Undergraduate Program Services.

Note: In-course students who complete the registration procedures are advised that this registration is conditional on their eligibility for continuation of study into that semester. A student who is required to withdraw will not be allowed to attend classes, the registration will be cancelled and an appropriate adjustment automatically will be applied to the student’s account (see also—Withdrawal).

The procedure is as follows:
1. Approximately 2-3 weeks before the deadline, a billing statement is on WebAdvisor, to students who have selected courses.
2. Students must make payment to Student Financial Services by the deadline. Payments received after the deadline will be assessed a late registration fee.

General System In-course Students (Fees)
The registration procedure is conducted through WebAdvisor. The registration procedure will allow all in course students to complete their financial arrangements with Student Financial Services before the upcoming semester. The billing form will reflect the course selection data, also your accommodation and meal plan status if available, and is to be returned with suitable arrangement to Student Financial Services. The deadline for payment is indicated in Section III—Schedule of Dates., of this calendar. Failure to meet the deadlines will result in an additional fee adjustment. Mailings by the University will be made to the University email account, the on-campus P.O. Box, and/or the mailing/home address per the University’s student address policy.

Registration is conditional on being eligible to continue in your program of study. Students who are required to withdraw will not be allowed to attend classes as their registration will be cancelled immediately and a full refund of fees will be made as soon as possible.

Students required to withdraw who subsequently are re-admitted or who transfer to another program or who become eligible to proceed through appeal must report to Undergraduate Program Services, Office of Registrarial Services to have their registration status confirmed and add their courses.

Registration may be completed by one of the following methods:
• On receipt of payment. DO NOT SEND CASH IN THE MAIL
• An approved “Staff Registration and Tuition Waiver Request” form (for qualified full-time University employees only).

PAYMENTS RECEIVED THROUGH THE MAIL MUST BE POST-MARKED ON THE DEADLINE DATE OR EARLIER TO AVOID THE ASSESSMENT OF A LATE REGISTRATION FEE.

Parking Payments
Students wishing to pay for a parking permit are asked to include the appropriate payment in accordance with the schedule in Section VI—Schedule of Fees with their total payment submission. Students who comply with this procedure will receive their parking decals in the mail prior to the commencement of classes.

Changes to Preprinted Calculations
Students who have changed their mind concerning the number of credits they wish to take are advised to write the correct amount on the billing form. Please refer to the fee schedule included with your billing form.

Changes to residences calculation, including meal plans, must be cleared through the Student Housing Services or Hospitality Services.

Cancellation/Withdrawal Procedure
If you have paid and wish to cancel your registration before classes begin please call Undergraduate Program Services, Office of Registrarial Services and a full refund will be arranged. Students are advised that there is a withdrawal procedure as of the first day of classes (see Withdrawal).

Once the payment has been submitted, please do not put a stop payment on your cheque. This does not constitute cancellation and will only result in a cheque refusal fine being charged.

Hospitality Services, OSAP, Parking
Each of these departments has information which will be distributed to students for the semester in question under separate cover, e.g. location for picking up meal cards, location to pick up OSAP grant/loan cheques, procedure to use for payment of parking decals.

Return Mail Box Locations (Internal Mail)
The University has on-campus mail boxes which may be used to return registration payments. All mail is picked up daily and is post-marked by Mail Services.

Late Registration
Students who do not register by the time designated as the registration deadline for the semester in question are subject to additional fee adjustments. Exceptions will only be made for acceptable reasons with documented evidence. The fee schedule for late registration is published in Section VI—Schedule of Fees. A student will not normally be allowed to register after the end of the Add period. Appeals against the additional fee adjustments must be made in writing to the Secretary of the Appeals Committee, by contacting the Undergraduate Program Services, Office of Registrarial Services within 10 class days of the commencement of classes. Appeal forms are available from Undergraduate Program Services.

Department Chair’s and Dean’s Responsibilities (New Student Registration Only)
In the event that new students will be delayed for registration because of University sponsored trips or courses the department chair concerned should forward a list of participating students to the dean/director of the college/school for approval. The approval list should then be forwarded to the Associate Registrar, Undergraduate Program Services, and specific procedures for late registration will be arranged.

Schedule of Studies
If students have not done so upon entering a degree program, they must declare a major by entry into semester 3 of their degree program. The University monitors the student’s progress toward a degree using both the degree program requirements and the schedule of studies requirements. Students must satisfy the requirements in effect at the time of the initial declaration of a schedule of studies or at the time of any subsequent change in declarations. When degree program requirements or schedules of studies are altered by the University, a student may elect to satisfy the requirements in effect when the student entered the degree program, or its equivalent, or a subsequent schedule within a degree program. Students wishing to alter the schedule used to monitor their progress should seek assistance from a program counsellor (refer to Section VII - Academic Advising).

Scheduling

Undergraduate Course Timetable
The scheduling of all undergraduate courses is the responsibility of the Assistant Registrar, Scheduling.

All courses are scheduled according to the Senate approved “Slot-system” which allows for 3 x 1 hour slots meeting at the same time on Monday, Wednesday and Friday, 2 x 1.5 hour slots meeting at the same time on Tuesday and Thursday and 3-hour evening slots M-F. This basic grid is overlaid with 3-hour and other class formats in such a way as to minimize conflicts and maximize efficient use of teaching space.

The University scheduling day runs from 0830-1730 and 1900-2200; Senate has approved the 1730-1900 “dinner hour” as a period which shall be free of all regular class meetings, labs, seminars.

The scheduling cycle for each S, F and W semester commences one year in advance. The final timetable for each semester is published on WebAdvisor two weeks prior to the commencement of the initial Course Selection period for that semester.

Chair/Director’s Responsibilities
The Chair/Director or the designated Department Timetable Coordinator is responsible for the following:
1. Submitting to the Assistant Registrar, Scheduling, no later than the established deadline, completing requests for courses to be scheduled in the subsequent academic year.
2. Acting as liaison between instructors and Scheduling on all aspects of scheduling, including collecting information relevant to course scheduling from instructors, submitting it appropriately.
3. Approving the department’s course schedule before publication. This involves checking that no conflicts exist in instructor or student schedules.
4. Calculating projected enrolments for the subsequent academic year and monitoring enrolments through course selection periods, making adjustments to course capacities and the availability of sections as necessary.

Instructor’s Responsibilities
Instructors are responsible for communicating to the Chair/Director or Department Timetable Coordinator, prior to the established deadline, any information relevant to the scheduling of courses in the subsequent academic year.

Registrar’s Responsibilities
The Assistant Registrar, Scheduling creates the university timetable according to the following priorities:
1. No course conflicts exist in core courses as published in the schedule of studies in the Undergraduate Calendar.
2. The number of elective courses available to students is optimized.
3. Classroom space is allocated to courses on the basis of projected enrolments provided by the offering departments, and in such a way as to maximize the effective and efficient use of teaching space.
4. No instructor conflicts exist according to department information.
5. Departmental requirements, requested by the Chair/Director or Department Timetable Coordinator, are met where possible.

Changes to the Published Undergraduate Course Timetable

Additional Hours/Sections
If it becomes necessary to schedule additional sections by adding lectureslabs/seminars based on course selection numbers, the request is to be initiated by the Chair/Director or Department Timetable Coordinator and made to the Assistant Registrar, Scheduling.

Cancellations and Time Changes
If course cancellation or class meeting time changes are required once the course timetable has been published on WebAdvisor, the Chair/Director is responsible for obtaining the approval of the Associate Vice-President (Academic) through the Coordinator of the Undergraduate Curriculum (CUC), and the appropriate Dean. Requests to the CUC should be made by the Chair/Director in writing via electronic mail, copying the Dean and the Assistant Registrar, Scheduling. If approved, the CUC will notify the Dean and the Assistant Registrar, Scheduling. After the commencement of Course Selection, the Chair/Director is responsible for ensuring that students are not disadvantaged by any changes. This involves choosing alternate times that are conflict free for all registered students, and communicating via electronic mail to all students, the details of any change affecting their schedules.

• Time changes after the publication of the timetable, prior to the commencement of classes. Changes in scheduled meeting times are approved only in emergency circumstances following the procedure above.
• Time changes after the commencement of classes. Changes in scheduled meeting times are normally not made until after the end of the Course Selection/Add period unless the change is to accommodate students who would otherwise be unable to register in the course. Time changes made after the commencement of classes must not create conflicts for any registered students and must have the unanimous written approval of all registered students, as determined by a secret ballot. New times must comply with University scheduling regulations. The academic unit should keep a record of such course changes and submit it to the CUC for future reference.

Classroom Assignment Changes/Bookings

• Classroom changes prior to the commencement of classes*. At the request of the Chair/Director or Department Timetable Coordinator, the Assistant Registrar, Scheduling and Scheduling Coordinators may reassign classroom space based on course selection figures. Scheduling will make notification of changes affecting other academic units to the Department Timetable Coordinator for those units.
• Classroom Changes and Bookings after the commencement of classes*. Instructors requiring classroom changes after the commencement of classes should forward their request through their Chair/Director or Department Timetable Coordinator to the Scheduling Reservations Clerk, via electronic mail. If classroom space assigned to a course is no longer required, instructors should also notify Scheduling by this means, as soon as possible. If rooms are required only occasionally for classes, they should not be held for full semesters, rather one-time or temporary bookings should be made through the Scheduling Reservations Clerk.
• Classroom bookings for non-regularly scheduled classes, meetings, conferences, tests, etc. may be made through the Scheduling Reservations Clerk, by University of Guelph faculty, staff and students.

* To ensure that highest priority needs are met first and to reduce confusion on campus at the beginning of each semester, Scheduling will accommodate requests for classroom changes in the week preceding the commencement of classes and the first two weeks of classes based on the reasons below only. Requests made for other reasons will be neither accepted nor accommodated during this three-week period.
1. enrollment changes
2. student/instructor disability
3. exceptional circumstances which may be submitted by the Chair/Director to the Scheduling Reservations Clerk for approval by the Assistant Registrar, Scheduling.

Staff Registration and Tuition Waiver
Those staff who are eligible for tuition waiver must complete a "Staff Registration and Tuition Waiver Request" form and submit it to Human Resources.

It is essential that staff follow the normal procedures for contacting Undergraduate Program Services, Office of Registrarial Services, Level 3, University Centre, regarding their selection of courses.

If the "Staff Registration and Tuition Waiver Request" form is not submitted and approved by Human Resources you will not be officially registered for the term.

In addition to completing the "Staff Registration and Tuition Waiver Request" form, you also must add your courses using WebAdvisor or submit an "Undergraduate Course Request" form outlining the course(s) you wish to take. The "Undergraduate Course Request" form can be submitted during the official course selection periods or during the "Add" process at the beginning of each semester.

Student Type
Each full-time or part-time student is registered as one of the following:

Regular
A student with student type "Regular" is registered in the regular course requirement for a program.

Special
A student with student type "Special" is admitted to a program and is required to complete course or program deficiencies necessary to proceed under the "Regular" student category. Note: It is the Program Counsellor's responsibility to change a student from "Special" to "Regular" student type.

Supplemental Privilege Procedures
A student must apply to the Academic Review Sub-Committee for a supplemental privilege no later than the fifth day of classes of the semester following the failure (see Failed Courses in this section). In considering the request, the Academic Review Sub-Committee will consult with the course instructor to obtain information on the student's performance during the course, the instructor's recommendation concerning the appropriateness and feasibility of a supplemental privilege, and the nature of the supplemental privilege. If the Academic Review Sub-Committee approves the request, the department (instructor) responsible for the course will determine the nature of the privilege, which could be a written examination, an oral exam, an assignment, a laboratory practical, or any other method or combination of methods of evaluation.

Note: Students in the B.Sc.(Eng.) Program should refer to the B.Sc.(Eng.) Program regulations under Conditions for Continuation of Study in Section X.

Note: Students in the D.V.M. Program should refer to the D.V.M. Program regulations under Conditions for Continuation of Study in Section X.

Academic Review Sub-Committee’s Responsibilities
The Academic Review Sub-Committee, upon receiving a request from the student, and after consulting with the instructor and reviewing the student's course performance, will determine whether a supplemental privilege should be granted. Undergraduate Program Services will inform student and instructor of the Sub-committee’s decision.

Chair/Director’s Responsibilities
1. In the case where the Academic Review Sub-Committee or student is unable to make contact with the instructor to determine the details of the supplemental privilege, taking necessary steps to assist in determining the requirements for completing the supplemental privilege.
2. Initial all decisions submitted by instructors upon the completion of a supplemental privilege by individual students (i.e. pass or fail). These decisions will be forwarded to Undergraduate Program Services, Office of Registrarial Services, by the thirty-sixth day of the semester following the failure.
3. In the case of Supplemental Privileges which take the form of an examination written with the Examination Coordinator, Scheduling, collecting completed examination papers from Scheduling when notified; immediately distributing the completed examination papers to the appropriate instructor for marking.

Instructor’s Responsibilities
An instructor should not proceed with any supplemental privilege for a student until official notification of the granting of the privilege has been received from the Academic Review Sub-Committee or the Office of Registrarial Services.

1. Upon request from the Academic Review Sub-Committee, the instructor will:
   • provide the performance record of the student for the course
   • make a recommendation as to the appropriateness and feasibility of a supplemental privilege
   • indicate clearly the conditions that would be necessary to ensure that the requirements for the course are fulfilled
2. If the Academic Review Sub-Committee grants consideration, and upon request from the student, the instructor will complete a form advising the student of the exact nature of the privilege that has been granted.
3. If the requirement includes, or takes the form of, the satisfactory completion of a two-hour examination to be supervised by Scheduling, the instructor will indicate this on the recommendation to the Academic Review Sub-Committee. By the Wednesday of the third week of classes, the instructor shall send to Scheduling, Office of Registrarial Services an examination for each student granted such a privilege, plus one extra copy per course. If the exam is significantly different from another
two-hour exam already completed by the student, the instructor must make this clear on the form provided to the student. For example, if the student had originally been assessed on a final exam covering only the last four weeks of the semester, and is now to be assessed on a comprehensive two-hour exam, the nature of the new examination must be communicated to the student at the time the supplemental privilege is granted.

4. Within ten days of completion of the supplemental privilege requirements, the instructor will forward to the Chair/Director an indication as to whether the student has passed or failed the supplemental privilege. The supplemental privilege should be completed by at least the thirtieth class day of the semester following the failure.

Student's Responsibilities

1. The student must request a supplemental privilege by submitting the request to the Academic Review Sub-Committee and the fee for the privilege (refer to Section VI--Schedule of Fees) no later than the fifth class day. Students are encouraged to submit their request before classes begin to allow for receipt of a decision within the Add period. The granting of the request is normally limited to the described special circumstances having due regard for the student's performance in the course. Course requirements and the student's previous performance may play a significant role in determining whether a privilege is appropriate and/or feasible.

2. If the student is unable to make contact with the instructor, the Chair/Director of the department/school offering the course must be contacted. If the required contact is not made the University will assume that the student does not intend to complete the requirements, and the supplemental privilege will be cancelled.

3. In the case of an examination supervised by the Office of Registrarial Services, it is the student's responsibility to appear on the correct date and time as designated by the Office of Registrarial Services.

4. If the requirement is beyond an examination supervised by the Office of Registrarial Services, the student must contact the instructor within 5 days of notification in order to clarify the details of the condition. Students are advised to have the instructor complete a form indicating the exact nature and due dates of the supplemental requirements, which may also include the satisfactory completion of an examination supervised by Scheduling, the Office of Registrarial Services (refer to Section III--Schedule of Dates).

Registrar's Responsibilities

1. When a supplemental privilege has been requested, but not granted by the Academic Review Sub-Committee, Undergraduate Program Services will inform both the student and the instructor. Similarly, when a supplemental privilege has been requested and granted Undergraduate Program Services will advise the student and the instructor of the decision.

2. Scheduling, Office of Registrarial Services will prepare an examination timetable for those students granted a privilege that includes, or takes the form of, a two-hour examination to be supervised by Scheduling. Scheduling will inform the student and instructor of the date, time, and location of any examination to be supervised by them.

Examinations supervised by Scheduling as part of the supplemental privilege process are normally scheduled during the deferred examination period (refer to Section III--Schedule of Dates). The Examination Coordinator, Scheduling is also responsible for invigilating these examinations and will prepare the completed examinations for pickup, notifying the Chair/Director or designate when they are available.

3. Undergraduate Program Services, Office of Registrarial Services, will inform students of the results of the completion of the supplemental privilege and update the student's record where appropriate.

Transcripts

An official transcript may be ordered by submitting the "Request for Transcript" form along with payment to Undergraduate Program Services, Office of Registrarial Services. The order can be placed by mail, facsimile or in person:

Mail (cheque or money order): Undergraduate Transcripts, Undergraduate Program Services, U.C. Level 3, University of Guelph, Guelph ON N1G 2W1
Facsimile (credit card number with expiry date): 1-519-763-6809 Attn: Undergraduate Transcripts

The transcript fee is listed in Section VI--Schedule of Fees. Students must have met all financial obligations to the University before official transcripts can be released for any purpose.

Transcripts are normally prepared within three to five working days, however, during busy periods (e.g. common application deadlines) preparation time may be as long as seven to ten days.

Official transcripts from the University of Guelph will show that a degree has been conferred only after the date of convocation.

NOTE: Graduate Program transcripts (e.g. Master of Science) must be ordered by submitting the "Request for Transcript" form along with payment to Graduate Program Services. The order can be placed by mail, facsimile or in person.

NOTE: Official Open Learning program transcripts must be ordered by submitting the "Request for Transcript" form along with payment to the Office of Open Learning. The order can be placed by mail, facsimile or in person.

Transfer of Program

University of Guelph students wishing to transfer from one degree program to another (e.g. from B.Sc. to B.Eng. or from B.A. to B.Comm.) are required to submit an application form to Admission Services. Forms are available from Admission Services, third floor of the University Centre.

To clarify possible conditions or requirements for transfer, students are encouraged to consult with the admission counselor for the program to which they wish to transfer before submitting their application. In cases where the student's performance has been inconsistent, the applicant must also submit a comprehensive support letter outlining the reasons for transfer as well as any factors contributing to the previous academic performance.

1. Procedures for Currently Registered Students

Course selection should be completed for the new program. The admission decision will be made after grades from the current semester are available and after the deadline date for course selection. The drop and add procedure must be used if the application is submitted after the course selection deadline date and if course selection has been completed for the current program.

Fee changes necessitated by the change of program will be calculated automatically by Student Financial Services.

The admission decision will be sent to the student's Campus Post Office Box during the first week of the following semester.

Students who have received an offer of admission which they wish to decline must contact Admission Services within the first 10 class days and complete the Cancellation of Program Transfer form. Students who fail to decline the offer will remain registered in the new program. All students must verify their course selection with their departmental advisor to ensure compatibility with their program of study.

2. Procedures for Students who are Not Currently Registered

An admission decision will be reached as soon as possible after receipt of the application and any supporting documentation.

Admission decisions will be mailed to the mailing address, if in effect, or to the permanent address. Information on mail registration and instructions concerning course selection will be sent under separate cover by Undergraduate Program Services.

Note: Students who wish to transfer from one specialization to another in the same program (e.g. from Biological Science to Chemistry in the B.Sc. Program or from Drama to Sociology in the B.A. Program) are not required to apply to Admission Services. Such students should contact the departmental advisor for the specialization in which they wish to register. Students wishing to change specializations within the B.A.S. or B.Comm. Programs should consult with their program counsellor.

Verification Notice

During the third week of classes Undergraduate Program Services, Office of Registrarial Services, will send to each student registered at the University a copy of his/her current academic evaluation that also is available through WebAdvisor. This will indicate the personal and program information that is currently on file in Undergraduate Program Services, Office of Registrarial Services. This report is to be used to advise students of their current status and to correct any errors in reported information. Corrections or amendments to that information may be made upon presentation of appropriate documentation to Undergraduate Program Services, Office of Registrarial Services as follows:

- Changes to specialization information or course information must be substantiated with your copy of either the class schedule or the "Undergraduate Change of Studies Request" form.
- Changes to personal information may require presentation of appropriate documentation.

Note: Report missing or corrected items only.

Student hardcopy files are destroyed after 7 years of inactivity (e.g. no registrations) or on one (1) semester after a student has graduated. In these cases the transcript is the only record where appropriate.

Students should familiarize themselves with the procedures regarding Academic Consideration, Grade Reassessment and Petitions.

Withdrawal

This section provides a summary of rules and regulations with respect to various types of withdrawal from the University. In some instances other sections of the calendar are referenced and these also should be consulted to ensure that a full understanding of the regulations is obtained. There are two types of withdrawals: voluntary or required.
Voluntary Withdrawal

Students who complete the procedure for registration (selection of courses and payment of fees) and who subsequently decide not to attend that semester may cancel their registration by notifying Student Financial Services up to but not including the first class day. Student Financial Services will arrange for the appropriate refund of fees paid. For the Fall semester the required minimum registration deposit will automatically be forfeited. Please refer to "Refunds" in section VI - Schedule of Fees for specific details. Commencing with the first day of regular classes the formal withdrawal procedure from the University is required and outlined below.

A student intending to withdraw from the University must notify Undergraduate Program Services, Office of Registrarial Services in writing and complete the Notice of Withdrawal procedure. Students contemplating withdrawal are urged to meet with their program counsellor to discuss the implications of withdrawal. A student receiving financial assistance through the Ontario Student Assistance Program is strongly advised also to contact Student Financial Services regarding the status of that award upon withdrawal.

The timing of the withdrawal and the reasons for it may have academic and financial implications. Up to the 40th class day, a student may withdraw without academic penalty. However, unless the withdrawal is for illness or compassionate reasons, students will be liable for fees payable in accordance with the refund schedule (see Section VI - Schedule of Fees regarding Refunds). Students seeking a refund on grounds of illness or compassionate circumstance must provide documented evidence related to the grounds to Undergraduate Program Services, Office of Registrarial Services, within thirty days of the withdrawal.

A student who withdraws from the University after the fortieth class day of the semester, other than for illness or compassionate reasons will be considered to have failed the courses for which the student is registered at the time of withdrawal. Students seeking academic consideration on grounds of illness or compassionate circumstance must appeal to the Academic Review Subcommittee for their program (see Academic Consideration in this chapter). Depending on the timing and circumstances students may be able to obtain a fee refund after the fortieth class day. Students should consult with Undergraduate Program Services or their program counsellor.

A student who withdraws from the University must return all outstanding loans from the Library immediately upon withdrawal regardless of the original due date. Any items not returned will be declared "lost" and charged to the student's account.

Students who do not register in a program of study for six or more consecutive semesters are required to apply for readmission. Students who are studying on exchange programs, study abroad, or work terms are considered to be registered at the University (see Time Limitations in this chapter).

Required to Withdraw

Students may be required to withdraw for reasons of academic performance or academic misconduct.

a. Academic Performance (please refer also to the section on Continuation of Study for detailed requirements)

Students who do not meet the continuation of study requirements for at least probationary status at the end of the winter or summer semesters will be required to withdraw and the two-semester rustication period will begin effective the subsequent semester.

At the end of the fall semester a student whose cumulative or semester average is below the level for probationary status at the end of the fall semester has two options:

i. The student may choose to accept "Required to Withdraw" status effective with the beginning of the subsequent winter semester. This means that the two-semester rustication period will begin immediately;

ii. The student may register and continue in his/her program on probationary status for the winter semester. Failure to achieve the required semester average for probationary status at the end of the winter semester will result in the student being required to withdraw. In this case, the two-semester rustication period will begin effective the summer semester. Note: If a student registers and subsequently withdraws from the winter semester, the required to withdraw status will apply immediately.

Students who are granted a deferred privilege (examination or condition) will have their Continuation of Study Status assessed once the deferred privilege is complete. At that time an assessment of required to withdraw could have an impact on the student's current registration.

b. Academic Misconduct (refer also to the full Academic Misconduct Policy in this chapter)

One of the penalties that may be assessed against a student found guilty of academic misconduct is suspension from the University for a period of between two and six consecutive semesters. The effective date of such a suspension is determined by the dean responsible for the case.

c. Appeals (refer also to the sections on Academic Consideration and Academic Misconduct for full details of appeals processes)

Students who do not satisfy the program requirements for continuation of study and are required to withdraw may appeal for probationary status to the Academic Review Sub-Committee, and subsequently the Senate Petitions Committee, on medical, psychological, or compassionate grounds. Students are not permitted to attend classes until such time that the appeal is granted.

Students who are suspended from the University as a result of academic misconduct, may appeal to the Senate Petitions Committee with respect to either the appropriateness of the penalty or the finding of guilt.

Readmission (refer also to the section on Readmission, earlier in Chapter VIII)

Students who meet one of the following 3 criteria must apply to Admission Services for readmission:

a. were required to withdraw from their program for a period of 2 or more semesters;

b. were suspended from the University for academic misconduct; or

c. have not registered at the University of Guelph for 6 or more consecutive semesters.

Readmission to a program at the University of Guelph is not automatic. Students should consult Section IV - Admission information regarding appropriate admission requirements and deadline dates. Applicants for readmission should include a statement which outlines the basis for readmission. Criteria used for readmission may differ by academic program. Students considering readmission should consult with the appropriate program counsellor regarding procedures and criteria for readmission to that program.

Students who withdraw without academic penalty after the termination of the official drop period for medical or psychological reasons must clear their re-entry in a subsequent semester through the dean of the college concerned. Students who withdraw on more than two occasions may be required to meet with the dean in order to clear their re-entry into a subsequent semester. At the discretion of the dean, the condition of re-entry may be a recommendation of either Student Health Services or the Counselling Unit of the Counselling and Student Resource Centre that re-entry is advisable. Students who wish to appeal the decision of the dean have recourse to the Senate Committee on Student Petitions.

A student who wishes to be considered for readmission following a suspension for academic misconduct must make an application that will be judged on the basis of eligibility to continue. A student who is suspended for academic misconduct and also fails to meet the continuation of study requirements will normally be required to serve the associated penalties consecutively.

A student who has been expelled from the University for academic misconduct is not eligible for readmission to the University for at least five years. A student who wishes to be considered for readmission must petition the President to have the expulsion status removed (please refer to the Academic Misconduct Policy for detailed procedures).

Granting of Credit while on Rustication

Senate's Policy on granting of credit for work done while on rustication is outlined below. It applies to any university credit course taken during the rustication period.

a. Students who have been required to withdraw for reasons of academic performance and who take university credit courses during their rustication period, will be eligible for up to 1.00 credit provided they meet the criteria for readmission and the criteria for the transfer of credit. Students registered for courses through the Open Learning Program, are not permitted to attend courses on campus.

b. Students who take university courses after the two-semester rustication period or after a period of suspension may transfer all these credits, provided the student meets the criteria for readmission and the criteria for the transfer of credit.

c. Students who have been suspended for academic misconduct will not receive any credit for courses taken during the suspension period.
IX. Scholarships and Other Awards

General Statements on Awards

The University of Guelph attracts a community of outstanding scholars to its broad range of faculties and programs. The Committee on Awards, established by the Senate of the University, is responsible for the supervision of the administration of awards in the gift of the Senate. In addition, this Committee formulates policies regarding the effective use of funds designated for awards and establishes the terms and conditions attached to the awards. Each College has an Awards Committee, which is responsible for the awarding of scholarships and bursaries. In addition, there is a University Bursary Committee that is responsible for awarding bursaries. Some scholarships and bursaries are open to all students regardless of degree or diploma program and others are restricted to students in particular degree programs/majors/departments. Students entering the 1st semester of their first undergraduate degree, should consult the "entrance" sections for a listing of awards that may apply to them. Students that are registered students at the University of Guelph should refer to the "in-course" sections for a listing of awards that may apply to them. Also refer to Section VIII—Undergraduate Degree Regulations and Procedures, Academic Misconduct, Penalties, for additional regulations regarding scholarships and bursaries.

Eligibility: To be eligible for entrance awards, you must be a Canadian citizen or permanent resident entering the 1st semester of post-secondary studies for the first time. To be eligible for in-course awards, all registered students are eligible for most awards, unless otherwise stated in the eligibility clause of the award. A minimum of 70% average is required for all scholarships. International Students: Financial Assistance Programs are available for International Students, including Entrance Awards, Work-Study and In-course Bursaries. In addition, many of the University of Guelph's scholarships for upper-year students are available to enrolled international students and are based on high academic standing. Where applications are required, it is the student's responsibility to obtain an application from Student Financial Services and to see that it is returned prior to the deadline date.

Award: Generic term used to refer to any type of award. These include scholarships, bursaries, travel grants and ACCESS awards.

ACCESS Awards: The University established an endowment fund through generous donor contributions and has been matched by the provincial government's Ontario Student Opportunity Trust Fund (OSOTF) program and the Ontario Trust for Student Support (OTSS). The income generated from these endowments will be used to support financial aid programs. The awards created will be used to assist Canadian citizens or permanent residents who meet the Ontario residency requirements as mandated by the OSOTF/OTSS program. Students must complete a Financial Need Assessment Form in order to be considered. Please contact the Awards Office, Student Financial Services for further details.

Ontario Government Mandated Terms for an OSOTF/OTSS Award:

i) be a Canadian citizen or permanent resident;

ii) be a Ontario resident as defined by a) have lived in Ontario for a period of at least 12 consecutive months up to the beginning of full-time post-secondary study; or b) the student's spouse has lived in Ontario for at least 12 consecutive months up to the beginning of the current year full-time post-secondary study period; or c) the student's parent(s)/stepparent(s)/legal guardian/official sponsor has lived in Ontario for at least 12 consecutive months up to the beginning of the current year full-time post-secondary study period;

iii) financial need as determined by the University of Guelph's Financial Need Assessment procedures.

Bursary: An award provided to a student on the basis of financial need only. Financial need is determined by the University of Guelph's Bursary Committee after an evaluation of the Financial Need Assessment Form has been submitted by the student. Academic merit is not a consideration in awarding a bursary. You must be a Canadian citizen or permanent resident of Canada to be considered for bursaries. Students that are registered students at the University of Guelph should refer to the "in-course" sections for a listing of awards that may apply to them. Some scholarships and bursaries are open to all students regardless of degree or diploma program and others are restricted to students in particular degree programs/majors/departments. Students entering the 1st semester of their first undergraduate degree, should consult the "entrance" sections for a listing of awards that may apply to them. Students that are registered students at the University of Guelph should refer to the "in-course" sections for a listing of awards that may apply to them. Also refer to Section VIII—Undergraduate Degree Regulations and Procedures, Academic Misconduct, Penalties, for additional regulations regarding scholarships and bursaries.

Scholarship: An award provided on the same criteria as bursaries, but financial need is a consideration.

Scholarships with Financial Need: An award provided on the same criteria as scholarships, but financial need is a consideration.

Travel Grants: These grants are provided to students who wish to travel as part of their program of study. Examples of travel opportunities include: Exchange/Study Abroad programs, letter of permissions, field courses, and independent research projects that are related to a student's program of study.

Payment of Awards for In-course Students: Please note that Student Financial Services will apply all internal awards against outstanding balances on students' accounts.

Payment of Awards for Entrance Students: Awards will be applied directly to the student's financial account in two equal payments in the fall and winter semesters.

Students who receive an award and who withdraw from the semester in which the award is received, or change the number of credits in which they are registered, may have their award adjusted. This adjustment will be calculated up to the twentieth class day according to the rebate schedule in effect for that semester and the published terms and conditions for the award.

The University reserves the right to amend awards subject to the availability of funds.

IX. Scholarships and Other Awards, Bachelor of Science

President’s Scholarship [E0238]
The most prestigious entrance awards at the University of Guelph. Twelve scholarships of $26,000 ($6,500 annually) plus the opportunity for a summer research assistantship after the first year of study (approximately $6,000 stipend), named to honour their donors or distinguished members of the University. Students cannot apply directly for this award. Nominations must be made by each high school. Each high school can nominate two students; one entering a science program and one entering an arts/social science/humanities program. The nomination process is a two-part process: (a) the school's nomination and (b) the student's supporting documentation. This is outlined in the material sent to each high school in Canada from the University of Guelph each fall. High schools must submit the complete application (both parts) directly to the Associate Registrar, Student Financial Services by Feb. 1.

Donor(s):
A number of President’s Scholarships have been named in honour of the following people and/or donors:
Dick Brown
Two of the scholarships, endowed by Dr. Patrick Lett are awarded to winners whose leadership qualities best reflect those demonstrated by Dick Brown in University Athletics from 1968 to 1988.

Amount: 1 award of $1,400

College of Physical Engineering Science Academic Scholarship [I0073]
Application not required.

Donor(s): College of Physical and Engineering Science
Qualification(s): Awarded in the Winter semester to students who have completed at least 15.0 course credits in a College of Physical and Engineering Science program and have excellent grades but have not received awards recently.
Amount: 2 awards of $250

College of Physical Engineering Science Graduation Prize [C0075]
The winner will be selected in May from all students who have completed the program in the previous twelve months. Application not required. One award of $250 and a commemorative plaque.

Donor(s): College of Physical and Engineering Science
Qualification(s): Student graduating with the highest cumulative average from an honours B.Sc. program in a Physical and Engineering Science area.
Amount: 1 award of $250, 1 Commemorative plaque

College of Physical Engineering Science Scholarship [I0076]
Awarded in the Fall semester to a student who has completed semester 6 in the previous Fall, Winter or Spring semesters and who is enrolled in Year 4 of a College of Physical and Engineering Science program. Application not required.

Donor(s): College of Physical and Engineering Science
Qualification(s): Recipients will be selected on the basis of a high average (minimum 80% average required) in courses normally taken in Year 3.
Amount: 1 award of $250

Collins Barrow Award [I0040]
Offered by Collins Barrow, a national firm of Chartered Accountants. Awarded in the Winter semester. Application not required.

Bachelor of Applied Science (B.A.Sc.)

Program Information
The University of Guelph offers an 8 semester (20.00 credits) honours program leading to a Bachelor of Applied Science (B.A.Sc.) degree. Students must select one of the 3 following major areas of study:

- Adult Development, Families and Well-Being
- Applied Human Nutrition
- Child, Youth and Family

Co-operative Education is available in the following program:

- Child, Youth and Family

Given the professional and applied character of the program, there are no minors associated with the degree. Elective offerings enable students to select courses which support or complement their primary field of study.

The program is interdisciplinary and provides a distinctive and integrated focus of applied social science in each of the 3 majors. Courses from the traditional disciplines in other departments in the University are coupled with courses offered by faculty members in the Department of Family Relations and Human Development whose own backgrounds reflect the interdisciplinary nature of the program.

Laboratory, practicum and field experiences enhance the students' opportunities to grasp the contributions of the social, physical and biological sciences to significant facets of human behaviour and experience, whether in family, community, or in educational settings.

Academic Counselling
Program Counselling
A B.A.Sc. program counsellor is available to assist prospective students in the selection of their major and initial courses, and to respond to questions regarding any other aspects of their anticipated program. The program counsellor will also assist in-course students who need information or advice about their program or other academic regulations, who seek information on services and resources available to students or who are contemplating transfer into or out of their current major or degree program.

Academic Advising
On entering the program all students are assigned to a departmental advisor by major. Co-operative Education students in all majors are also assigned to an advisor. This advisor is thoroughly familiar with the academic requirements of the program and is also knowledgeable about career opportunities which relate to a student's specific major. Students are strongly encouraged to attend all meetings called by their departmental advisors, and to set up individual meetings with them when they have questions or concerns about their major, or their performance in the program.

Continuation of Study
Students are advised to consult the regulations for Continuation of Study which are outlined in detail in Section VIII—Undergraduate Degree Regulations & Procedures. Students in the B.A.Sc. program may repeat any failed course only once. Failure to successfully complete a required (core) credit on the second attempt results in the student not being permitted to continue in his/her major and/or program.

Conditions for Graduation
To qualify for the degree Bachelor of Applied Science, the student must satisfy the following conditions:

- the student must have successfully completed the schedule of studies requirements for the specified major
- the student must have a cumulative average of 60% or higher
- the student must have a term academic standing of Eligible to Continue or Continue on Probation

Schedule of Studies
Courses specified in the Schedule of Studies are required courses and must be completed successfully. A full course load normally includes 2.50 credits (normally 5 courses). The requirements for each major are set out below.

Special Expenses
Expenses for field trips can range from $20 to $30 per semester in the first 4 semesters and from $25 to $50 in each of the last 4 semesters. In certain courses modest expenses will be incurred for supplies and where appropriate for laboratory costs. According to recent Ontario legislation, agencies licensed by the Ministry of Community and Social Services which care for, or provide service to, children or vulnerable adults are required to do criminal reference checks on all their employees. Students enrolled in practica or field placement courses may be required to submit to the agency with which they are placed, personal information about any criminal convictions and pending criminal charges. The cost of acquiring this criminal reference check (Canadian Police Information Check) will be the responsibility of each student.

Adult Development, Families and Well-Being (ADFW)
Department of Family Relations and Applied Nutrition, College of Social and Applied Human Sciences.
Electives - Recommended and Program Options

Students entering into human services after graduation are encouraged to take FRHD*4290. Students who intend to pursue studies or careers in the following areas, Adult Development and Aging, Family and Social Relations, Human Sexuality and Health or Research may wish to include electives from the following lists:

### Adult Development and Aging Interest
- FRHD*3060 [0.50] Principles of Social Gerontology
- FRHD*4160 [0.50] Family Relations in Gerontology
- FRHD*4190 [0.50] Assessment in Gerontology
- FRHD*4290 [1.00] Practicum II: Adult Development and Families

### Family and Social Relations Interest
- FRHD*4020 [0.50] Family Theory
- FRHD*4100 [0.50] Dynamics of Group and Family Functioning
- FRHD*4290 [1.00] Practicum II: Adult Development and Families

### Human Sexuality and Health Interest
- FRHD*4200 [0.50] Issues in Human Sexuality
- FRHD*4290 [1.00] Practicum II: Adult Development and Families
- PSYC*3690 [0.50] Community Mental Health

### Research Interest
- FRHD*4810 [0.50] Thesis I
- FRHD*4910 [1.00] Thesis II

### Graduate and Professional Studies

Students have successfully used the B.A.Sc. degree to gain admission into graduate programs in social work, applied psychology, sociology, anthropology, occupational therapy, speech and language, and social policy. If you plan to enter a graduate program after completing the Adult Development, Families and Well-Being major of the B.A.Sc. degree program you will need to select certain courses as part of your undergraduate program to meet graduate program admission requirements. Sometimes these requirements are quite particular which means that you must plan your course selections early and carefully.

Although graduate programs differ in their entrance requirements, most graduate programs require that you have taken (at least): one course in research methods; two undergraduate statistics courses; and have completed an undergraduate thesis.

For many of the programs you will be required to take Graduate Record Exams (GREs) in the specific field of study. You are strongly advised to contact the graduate programs that interest you early in your program to determine the specific entrance requirements of each program.

* Exchange/Study Abroad Opportunities

Students interested in study abroad experience could consider this in either Semester 5 or 7. If it is in Semester 5, then students could defer FRHD*3040 and FRHD*3070 to Semester 7 and FRHD*3400 can be taken in Winter Semester 6 with the Practicum FRHD*3290 (with permission). If the study abroad experience is preferred in Semester 7, the Professional Issues course (FRHD*4310) could be taken in Semester 5 (with permission).

### Applied Human Nutrition (AHN)

**Department of Family Relations and Applied Nutrition, College of Social and Applied Human Sciences.**

The Applied Human Nutrition major recognizes both the biological and the social facets of human nutrition. It focuses on nutrition from a preventive, maintenance and therapeutic perspective, all of which require a thorough understanding of the related biological sciences and of selected aspects of the behavioral sciences. Students learn about nutrition and its application to the maintenance of health and the prevention and treatment of disease. They also learn about individual and social behaviour, particularly in family settings, and the implications of behavioral factors in the establishment of good nutrition status from conception through to old age.

The B.A.Sc. Applied Human Nutrition program is accredited by the Dietitians of Canada.

All students in the Applied Human Nutrition major must include the core of 14.00 required and 1.50 restricted electives in the minimum of 20.00 passed credits. Students normally register for courses according to the semesters indicated below for Fall and Winter sequencing.

Those students wishing to compete for admission to a post-graduate dietetic internship will be assisted by departmental advisors in the selection of courses that will meet the academic requirement of the Dietitians of Canada and the College of Dietitians of Ontario for eligibility for internship and/or membership.

Successful completion of the requirements will allow students to compete for a limited number of dietetic internship positions. Most graduates completing dietetic internships are employed in hospitals and other health care agencies such as community health centres and long-term care facilities. Others find employment in a wider range of vocations including those associated with health and education in the government or private sectors, or with the food industry. Still others proceed to graduate study in fields such as nutrition, public health nutrition, medicine or education.

### Major

#### Semester 1
- CHEM*1040 [0.50] General Chemistry I
- FRHD*1100 [0.50] Life: Health and Well-Being
- HTM*2700 [0.50] Introductory Foods
- MICR*1020 [0.50] Fundamentals of Applied Microbiology
- PSYC*1200 [0.50] Dynamics of Behaviour

#### Semester 2
- CHEM*1050 [0.50] General Chemistry II
- NUTR*1010 [0.50] Nutrition and Society
- PSYC*1100 [0.50] Principles of Behaviour

One of:
- FRHD*1020 [0.50] Couple and Family Relationships
- SOC*1100 [0.50] Sociology

0.50 electives

#### Semester 3
- BIOC*2580 [0.50] Introductory Biochemistry
- HTM*2030 [0.50] Control Systems in the Hospitality Industry
- NUTR*2050 [0.50] Family and Community Nutrition
- STAT*2080 [0.50] Introductory Applied Statistics I

One of:
- CIS*1200 [0.50] Introduction to Computing
- MCS*2020 [0.50] Information Management

Note: HTM*2030 may be taken in Semester 4.

#### Semester 4
- BIOC*3560 [0.50] Structure and Function in Biochemistry
- NUTR*3210 [0.50] Fundamentals of Nutrition
- STAT*2090 [0.50] Introductory Applied Statistics II

1.00 electives or restricted electives

#### Semester 5*
- BIOM*3100 [0.50] Mammalian Physiology I
- FRHD*3070 [0.50] Research Methods: Family Studies

1.50 electives or restricted electives

* students planning to apply for a dietetic internship must take HTM*3090 in Semester 5 in place of elective or restricted elective

#### Semester 6
- BIOM*3110 [0.50] Mammalian Physiology II
- FRHD*3400 [0.50] Communication and Counselling Skills
- HTM*3000 [0.50] Human Resources Management
- NUTR*3040 [0.50] Clinical Nutrition I

0.50 electives or restricted electives

Note: HTM*3000 may be taken in Semester 7.

#### Semester 7
- NUTR*4010 [0.75] Nutritional Assessment
- NUTR*4040 [0.75] Clinical Nutrition II
- NUTR*4070 [0.50] Nutrition Education

0.50 electives or restricted electives

#### Semester 8
- NUTR*4900 [0.50] Selected Topics in Human Nutrition

2.00 electives or restricted electives

Note: With approval from the instructor, students may substitute NUTR*4810 and NUTR*4910 for NUTR*4900.

### Restricted Electives

In addition to the 14.00 required credits listed above, students must take 1.50 restricted electives, including one 3000 level course, from the following list:

- FOOD*2010 [0.50] Principles of Food Science
- FOOD*2410 [0.50] Introduction to Food Processing
- FOOD*2420 [0.50] Introduction to Food Microbiology
- FOOD*3010 [0.50] Food Chemistry
- FOOD*3020 [0.50] Food Chemistry Laboratory
- FOOD*3230 [0.75] Food Microbiology
- FOOD*3700 [0.50] Sensory Evaluation of Foods
- HTM*2740 [0.50] Cultural Aspects of Food
- HTM*3780 [0.50] Economics of Food Usage
- NUTR*3110 [0.50] Food Security
Electives
There are 4.50 electives throughout the major which may be fulfilled by electing courses in any subject provided that the student has the prerequisite courses and can schedule them. Some electives and restricted elective courses are intended to contribute to a liberal education, while others permit students to work toward specific academic and career goals. Departmental advisors will assist students in selection of courses that will meet the requirements of the Dietitians of Canada for eligibility for Internship and/or membership, and when requested, can assist in selection of electives to complement the core requirements.

Child, Youth and Family (CYF)
Department of Family Relations and Applied Nutrition, College of Social and Applied Human Sciences.

The Child, Youth and Family major, administered by the Department of Family Relations and Applied Nutrition, examines the psychological, social and physical conditions which influence the growth and development of children and adolescents. While the primary focus of the major is on children and youth, the program regards the family as a primary context of development and as the key to successful interventions for children with developmental, behavioural, or socio-emotional difficulties. Through the effective use of elective courses, the core requirements in the major can be supplemented to create a program of study which will prepare graduates as for a variety of careers in child and youth services. Graduates are pursuing child and youth-related careers in a variety of settings including child and youth treatment facilities, elementary schools, paediatric wards in hospitals, family and community service agencies, and child care centres. Further academic preparation may be required for certain careers. Many graduates go on to pursue graduate education in fields such as family studies, human development, psychology, counselling psychology, social work, speech pathology, and occupational therapy.

Articulation Agreements
The University of Guelph is a partner in several Articulation Agreements concerning the Child, Youth and Family major. Students who enter the B.A. Sc. Child, Youth and Family major with advanced standing through an articulation agreement should identify themselves to the B.A. Sc. Program Counsellor for specific guidance concerning their Schedule of Studies (see Section IV of this calendar).

Students in the Child, Youth and Family major who are interested in proceeding to teachers education in fields such as family studies, human development, psychology, counselling psychology, social work, speech pathology, and occupational therapy.

Program Requirements
All students in the Child, Youth and Family major must include the following core of 15.00 required credits and 0.50 restricted electives to a minimum of 20.00 passed credits. Students are encouraged to plan their use of electives carefully in order to focus their program on one or a combination of the career options open to graduates. Discussion with a departmental advisor regarding the various choices possible from within the major is strongly recommended. Students will normally register for courses according to the semesters indicated below for Fall and Winter sequencing. Students who register for Summer semesters and other students for whom the semester offerings present difficulty may, where they have the approval of their departmental advisor, take some courses in alternative semesters.

Education - Primary / Junior / Intermediate

Graduates interested in elementary school teaching need an additional year of study at a Faculty of Education. For those who wish to teach primary (junior kindergarten to grade 3) or junior (grades 4 to 6), each faculty of education may have certain required courses for admission. Often recommended are courses in visual or performing arts, mathematics, languages, physical or natural sciences, history or geography. Students interested in intermediate (grades 7 to 10) level teaching need to acquire a teachable subject in a specific discipline. Normally, this requirement consists of six semester courses in an area of concentration. Students are strongly advised to contact the Faculty of Education that interest them early in their programs to determine the specific requirements.
Graduate and Professional Studies
Students have successfully used the B.A.Sc. degree to gain admission into graduate programs in social work, applied psychology, sociology, anthropology, occupational therapy, speech and language, and social policy. If you plan to enter a graduate program after completing the Child, Youth and Family major of the B.A.Sc. degree program you will need to select certain courses as part of your undergraduate program to meet graduate program admission requirements. Sometimes these requirements are quite particular which means that you must plan your course selections early and carefully.

Although graduate programs differ in their entrance requirements, most graduate programs require that you have taken (at least): one course in research methods; two undergraduate statistics courses; and have completed an undergraduate thesis.

For many of the programs you will be required to take Graduate Record Exams (GREs) in the specific field of study. You are strongly advised to contact the graduate programs that interest you early in your program to determine the specific entrance requirements of each program.

Child, Youth and Family (Co-op) (CYF:C)
Department of Family Relations and Applied Nutrition, College of Social and Applied Human Sciences.
All students in the Child, Youth and Family Co-op major must include the following core of 14.00 required credits and 0.50 restricted electives to a minimum of 20.00 passed credits.
The first four semesters are as for the students in the regular program. Students in the co-op program must also complete COOP*1100 in the third academic semester. Thereafter the schedule is as follows:

**Semester 1 - Fall**
- FRHD*1100 [0.50] Life: Health and Well-Being
- MBG*1000 [0.50] Genetics and Society
- PSYC*1200 [0.50] Dynamics of Behaviour
-One of:
  - ANTH*1150 [0.50] Introduction to Anthropology
  - SOC*1100 [0.50] Sociology
-One of:
  - ENGL*1200 [0.50] Reading the Contemporary World
  - FREN*1200 [0.50] French Language I

**Semester 2 - Winter**
- FRHD*1020 [0.50] Couple and Family Relationships
- FRHD*2260 [0.50] Infant Development
- NUTR*1010 [0.50] Nutrition and Society
- PSYC*1100 [0.50] Principles of Behaviour
- 0.50 electives

**Semester 3 - Fall**

Bachelor of Arts (B.A.)

The University of Guelph offers general and honours programs leading to the B.A. degree. The General Program consists of a minimum of 15.00 credits requiring the equivalent of 6 semesters of successful full time study. The Honours Program consists of a minimum of 20.00 credits requiring the equivalent of 8 semesters of successful full time study. A student may register in Summer, Fall and Winter semesters. The normal course load is 2.50 credits per semester for a full time student on regular status. Students may register for 0.50 credit more at their own discretion. Part time study consists of 1.50 credits or fewer per semester.

Program Information

A student's selection of courses must follow the B.A. Program Regulations (including Distribution Requirements), a pattern of study for either the General or Honours degree (below), and the detailed schedule(s) of studies which follow for any special subject(s) studied.

In fulfilling distribution requirements a) and b) students must in semester 1 choose 2 courses from 2 different schools or departments in the College of Arts and 2 courses from 2 of the following departments in the College of Social and Applied Human Sciences and the College of Management and Economics: Economics, Geography, Political Science, Psychology, Sociology and Anthropology.

Students entering the B.A. program with advanced standing must complete the distribution requirements a) and b) as soon as possible after entrance to the program. Requirement c) need not be completed immediately but is a graduation requirement.

Note: Courses taken to satisfy the distribution requirements may also be counted toward a specialization in the general or honours program.

Academic Counselling

Program Counselling

Students are urged to seek the assistance of the counsellors in the B.A. Counselling Office regarding their program and academic regulations, selecting courses, services and resources available on campus, and when they are experiencing difficulties that affect their academic progress.

Departmental Advising

Every academic department has advisors available to assist students in their course selection planning. Students should seek the advice of the faculty advisor when declaring a major, area of concentration, or minor, regarding course scheduling and completing the requirements for the specializations.

Students encountering difficulties within a course should first consult the instructor of the course. Co-operative education students in Computing and Information Science, Economics and Psychology will also have a departmental Co-op Academic Advisor and Co-ordinator, and should consult Co-operative Education Services regarding scheduling work terms and the COOP*1000 course.

Academic Residence Requirements

1. At least 5.00 of the credits required for graduation by the student's program must be taken at the University of Guelph.

2. At least 60% of the 3000 and 4000 level courses required for graduation must be taken at the University of Guelph.

University of Guelph courses include courses taken on exchange and on study abroad programs. Letter of Permission courses are not included.

Continuation of Study

Students are advised to consult the regulations for continuation of study within the program which are outlined in detail in Section VIII--Undergraduate Degree Regulations and Procedures of this calendar.

Conditions for Graduation

In addition to meeting the general and honours degree requirements listed below under Program Regulations, students will not normally be eligible to graduate while on probationary or required-to-withdraw status.

Distribution Requirements

The distribution requirements are designed to provide the student with exposure to and some understanding of a range of disciplines in the Arts, Social Sciences and Mathematical and Natural Sciences.

The distribution requirement of 8 courses (minimum 4.00 credits) is as follows:

A. A minimum of 1.50 credits over at least 2 different subject areas in the humanities:

ARTH Art History
CLAS Classical Studies
ENGL English
EURO European Studies
FREN French Studies
GERM German Studies
GREK Greek
HIST History

B. A minimum of 1.50 credits over at least two of the following subject areas in the social sciences:

ANTH Anthropology
ECON Economics
GEOG Geography
IDEV International Development
ISS Interdisciplinary Social Science
POLIS Political Science
PSYC Psychology
SOAN Sociology and Anthropology
SOC Sociology
WMST Women's Studies

C. 1.00 credits in natural and/or mathematical sciences from the list below.

Natural and Mathematical Science Courses Acceptable for B.A. Distribution Requirements

Students must take 1.00 credits in natural and/or mathematical science courses to fulfill the B.A. science requirements. Students should choose their courses from the list below or any course for which those listed serve as prerequisites. Students are advised to fulfill this requirement before their final semester. Any problems related to this requirement should be discussed with a B.A. Program Counsellor.

Courses recommended for students with limited preparation (e.g., lacking 4U credit in a specific area):

BIOL*1020 [0.50] Introduction to Biology
BIOM*2000 [0.50] Concepts of Physiology
BOT*1200 [0.50] Plants and Human Use
CHEM*1060 [0.50] Introductory Chemistry
CHEM*1100 [0.50] Chemistry Today
CIS*1000 [0.50] Introduction to Computer Applications
ENVI*2210 [0.50] Introductory Agriculture
FOOD*2010 [0.50] Principles of Food Science
GEOG*1300 [0.50] Introduction to the Biophysical Environment
GEOG*1350 [0.50] Earth: Hazards and Global Change
GEOG*1110 [0.50] Principles of Geography
MATH*1050 [0.50] Introduction to Mathematical Modeling
MBG*1000 [0.50] Genetics and Society
MCS*1000 [0.50] Information Management
MCS*2000 [0.50] Introduction to Computer Applications
MET*1000 [0.50] The Atmospheric Environment
MUSC*1090 [0.50] Physics of Music
NUTR*1010 [0.50] Nutrition and Society
PHYS*1600 [0.50] Contemporary Astronomy
PHYS*1810 [0.50] Physics of Music
SOIL*2010 [0.50] Soil Science
ZOO*1500 [0.50] Humans in the Natural World - a Zoological Perspective

Other acceptable courses which require 4U or university preparation:

BIOL*1XXX [0.00] Any BIOL course at the 1000 level
CHEM*1XXX [0.00] Any CHEM course at the 1000 level
CIS*1XXX [0.00] Any CIS course at the 1000 level
CIS*2100 [0.50] Scientific Computing and Applications Development
HK*2100* [0.50] Anatomy for Artists

Double Counting of Courses

A maximum of 50 percent of the courses in a second major or minor may be courses taken in fulfillment of the first major where required courses are the same. Double counting is not allowed in the General Program.
Program Regulations
The General Degree Program provides the opportunity for a sound general education in the arts and social sciences, mathematics and sciences, while allowing for concentration in studies in one or more subjects.

The Honours Degree Program provides depth of study in one specialization, strengthening written and oral communication skills, research and analytical abilities, as well as ensuring a breadth of study in the arts, social sciences, mathematics and sciences.

General Degree Requirements (BAG)
To graduate from a general program a student must:

a. earn 15.00 credits. These must include courses that fulfill the distribution requirements (see below). At least 4.00 credits must be at the 3000 level or above. Not more than 6.00 credits at the introductory (1000) level may be counted towards the 15.00 credits requirement.

b. 9.00 of the required 15.00 credits must be in courses offered by the College of Arts, the departments of Economics, Geography, Political Science, Psychology, Sociology and Anthropology (in the College of Social and Applied Human Sciences and the College of Management and Economics), the Department of Computing and Information Science, or the Department of Mathematics and Statistics.

c. no more than 11.00 credits in any one subject or discipline, as indicated by the course prefix code, can be counted towards a general degree.

While students are encouraged to complete the requirements of one or more areas of concentration, this is not a graduation requirement.

The requirements for each area of concentration are set out separately in the pages following the list of Honours and General Specializations Available in the B.A. Degree.

Honours Degree Requirements (BAH)
To graduate from an honours program a student must:

a. earn 20.00 credits. These must include courses that fulfill the distribution requirements (see below), and courses that fulfill the requirements of at least 1 major. At least 7.00 credits must be at the 3000 level or above. Not more than 6.00 credits from courses at the introductory (1000) level may be counted towards the 20.00 credits requirement.

b. fulfill the course and credit requirements of at least one major with a cumulative average of at least 70% in all course attempts at the University of Guelph in that major. Grades in all courses in the discipline area of the major are included in the cumulative average. Grades from those courses in other disciplines listed as options toward the major are also included in the average. (This condition does not apply to majors in the interdisciplinary programs of International Development and European Studies, where only courses in the core and chosen area of emphasis will be counted toward the specialization average.) Students may take more than one major. They may also take one or more minors. The 70% requirement applies to each major and minor.

c. no more than 14.00 credits in any one subject or discipline, as indicated by the course prefix code, can be counted towards an Honours Degree.

The requirements for each major and minor are set out separately in the pages following the list of Honours and General Specializations Available in the B.A. Degree.

University recognition that a student has graduated with a particular major or minor requires a cumulative average of 70% for all course attempts at this University in that major or minor.

Students failing to meet the graduation requirements of the Honours Program may apply to graduate with a General Degree if the requirements for the General Degree are met. Students should note that a specialization is not required to graduate with a General Degree. Honours B.A. students, except those doing a major in Computing and Information Science, Mathematics or Statistics, must take a minimum of 12.00 credits from either or both of the departments in the College of Arts and the departments of Economics, Geography, Political Science, Psychology, Sociology and Anthropology (in the College of Social and Applied Human Sciences and the College of Management and Economics).

Semester One Requirements
Students in the General and Honours Programs must take:

Semester 1
1.00 credits from the following:

- Art History - ARTH*1220, ARTH*1510
- Classical Studies - CLAS*1000
- English - ENGL*1080, ENGL*1200
- European Studies - EURO*1050, EURO*1200
- French Studies - FREN*1000, FREN*1200
- German Studies - GERM*1100, GERM*1110, GERM*2490 (OAC Required)
- Greek - GREK*1100
- History - HIST*1010, HIST*1150, HIST*1250
- Italian Studies - ITAL*1060
- Latin - LAT*1100
- Music - MUSC*1060, MUSC*1180, MUSC*1500
- Philosophy - PHIL*1000, PHIL*1010, PHIL*1050

Studio Art - SART*1050, SART*1060
Spanish Studies - SPAN*1100, SPAN*1110
Theatre Studies - THST*1040, THST*1200
Women's Studies - WMST*1000

PLUS
1.00 credits from the following:

- Anthropology - ANTH*1150
- Economics - ECON*1050
- Geography - GEOG*1200, GEOG*1220, GEOG*1300
- Political Science - POLS*1150, POLS*1400, POLS*1500
- Psychology - PSYC*1100, PSYC*1200
- Sociology - SOC*1100, SOC*1500
- Women's Studies - WMST*1000

Study at Other Universities
Students contemplating study at another university for credit towards a Bachelor of Arts degree at the University of Guelph should refer to the general regulations governing Letters of Permission in Section VIII—Degree Regulations & Procedures in this calendar.

Students must obtain approval for the Letter of Permission prior to undertaking studies at another institution. Approval of the request depends on good standing in the program with a minimum average of 60%.

The normal limit of credits taken on a Letter of Permission is 2.50 based on Guelph credits.

Students with a specialization in languages who want to undertake a program of study in Quebec or abroad should consult the appropriate departmental advisor or the Director of the School of Languages and Literatures.

Special Study Options
London Study Semester
A special program of studies designed to make use of the uniquely rich resources of London, England, is offered as a regular part of the B.A. program every Fall semester.

The program is supervised by a faculty member from Guelph who directs the studies in London and supervises correspondence with faculty in Guelph. Courses in London are of 2 kinds: London based courses and correspondence courses. London based courses in music, theatre and fine art are given by British tutors, and the coordinator offers courses in his/her area of interest. Students are also permitted to arrange correspondence courses to meet their particular needs. Students wishing to apply for the London Semester should have good academic standing and should have completed at least 2 semesters at the University of Guelph at the time of application; although preference will be given to those with a cumulative average of 70% or above, all applications will be given careful consideration. More detailed information about academic requirements, bursaries, courses, etc. can be obtained from the B.A. Program Counselling Office, Room 130 in the MacKinnon Building.

The University of Guelph offers many other Study Abroad and Exchange opportunities for students to enrich their learning experience. Bachelor of Arts students are encouraged to participate in any of the diverse options available. Courses taken while on exchange or study abroad can be used as electives or core requirements. For further information on the programs available, please refer to Section V - International Study. Students are advised to meet with a B.A. Program Counsellor to discuss the feasibility of participating in an exchange or semester abroad.

Agricultural Economics (AGEC)
Department of Food, Agricultural and Resource Economics, Ontario Agricultural College

The study of agricultural economics prepares students for careers as economic analysts in the agrifood sector and in public agencies. In addition, this major provides excellent background for those students planning to do graduate work in agricultural and resource economics and other fields of applied economics.

Agricultural Economics is offered as a major in the honours program. A detailed program planning guide is available in the Department of Food, Agricultural and Resource Economics.

Major (Honours Program)
A minimum of 9.50 credits, consisting of the 15 courses specified below plus 4 restricted electives, is required, including:

Notes: Prerequisites for the above courses will require students to take MATH*1000, MATH*1080, or MATH*1200 during their first year of study. A student may obtain permission to substitute certain other courses for the ones listed if the substitute courses fit with the students program. Approval from a departmental advisor is required.

Unless taken to satisfy the requirements of another program, no student may receive credit in this program for more than one of the following statistics prerequisites ECON*2740, STAT*2040, STAT*2060, or STAT*2080.

Anthropology (ANTH)
Department of Sociology and Anthropology, College of Social and Applied Human Sciences

The Department of Sociology and Anthropology offers three types of courses: sociology courses with the prefix SOC*; anthropology courses with the prefix ANTH*; and departmental courses with the prefix SOAN*. The departmental category of courses recognizes the fact that the disciplines of sociology and sociocultural anthropology have developed in tandem and it is possible to identify large areas of overlap and convergence in the work of practitioners both historically and in the present. Departmental courses include most of the core theory and methods courses as well as many elective courses. They contribute equally to the subject matter of sociology as well as the subject matter of sociocultural anthropology for purposes of the undergraduate programs of study in both disciplines. Please see the listings for all courses required for the Anthropology program.

Courses will normally be offered in the semesters designated. Please check with the department for information about additional semester offerings. In addition to regularly

**Art History (ARTH)**

School of Fine Art and Music, College of Arts

The School provides for concentrated study in Art History or Studio Arts, or for a more balanced study combining the two disciplines. Both Studio Art and Art History degree programs require some work in both the programs. Many Art History courses are also open to non specialized students.

The Art History program covers historical perspectives on the visual arts, study of the methodologies of art history and critical theory, and consideration of contemporary issues in the practice and display of art. Students pursuing a Major or Minor in Art History are required to take a minimum number of courses in each of three areas of focus in the program: Western Art and Cross-Cultural Perspectives; Visual Arts of the Americas; and Art Theory, Critical Methodology and Museology. The groups of courses that comprise these areas of focus are listed below.

Students majoring in other programs who are also interested in the study of Art History are encouraged to consider the Minors offered in Visual Arts of the Americas, Museum Studies, and Art Theory and Criticism. Specific requirements for the Art History Honours Major and Minor are listed below.

**Student Counselling**

The students who elect to take a substantial number of courses in Art History with the objective of graduate work are advised to obtain counselling from faculty regarding their choices. It is important to know that graduate studies in Art History will usually require a reading knowledge of at least 2 languages other than English. German, French, Italian and Latin are among the most useful choices. Cognate electives in other disciplines in the College of Arts (such as History) will almost certainly prove an asset.

**Art History Core Requirements**

All students are required to complete the following core courses [2.00 credits]:

**ARTH**+1220 [0.50] The Visual Arts Today
**ARTH**+1510 [0.50] Art Historical Studies I
**ARTH**+1520 [0.50] Art Historical Studies II

and one [0.50] of the following:

- **SART**+1050 [0.50] Integrated 2-D Media
- **SART**+1060 [0.50] Media Convergence

**Major (Honours Program)**

A minimum of 9.00 credits is required, including:

a. the Art History core

1. **ARTH**+1220, **ARTH**+1510, **ARTH**+1520
2. **SART**+1050 or **SART**+1060

b. 3.00 credits from the Western Art and Cross-Cultural Perspectives including:

1. **ARTH**+2150 or **ARTH**+3150
2. **ARTH**+2540
3. **ARTH**+2550 or **ARTH**+2950
4. One of **ARTH**+2280, **ARTH**+2290, **ARTH**+2580, **ARTH**+2600
5. At least 1.00 credits of the 3000-level thematic courses: **ARTH**+3100, **ARTH**+3200, **ARTH**+3310, **ARTH**+3320, **ARTH**+3330, **ARTH**+3340, **ARTH**+3520

c. 1.50 credits from the Arts of the Americas area of focus: **ARTH**+2050, **ARTH**+2060, **ARTH**+2070, **ARTH**+2490, **ARTH**+3010, **ARTH**+3050, **ARTH**+3060
d. 1.00 credits from the Art Theory, Critical Methodology and Museology area of focus: **ARTH**+2120, **ARTH**+2480, **ARTH**+3210, **ARTH**+3220, **ARTH**+3720, **ARTH**+3730

e. At least 1.50 credits from 4000-level seminar courses: **ARTH**+4050, **ARTH**+4060, **ARTH**+4150, **ARTH**+4160, **ARTH**+4550, **ARTH**+4620

**Minor (Honours Program)**

A minimum of 5.00 credits is required, including:

a. **ARTH**+1220, **ARTH**+1510, **ARTH**+1520

b. 3.50 additional credits in Art History including 0.50 credits in each of the three areas of focus and at least 2.00 credits at the 3000 or 4000 level.

**Areas of Focus**

**Western Art and Cross-Cultural Perspectives**

**ARTH**+2150 [0.50] Art and Archaeology of Greece

**Art Theory, Critical Methodology and Museology**

**ARTH**+2120 [0.50] Introduction to Museology
**ARTH**+2480 [0.50] Introduction to Art Theory and Criticism
A minimum of 9.00 credits is required, including:
- Major (Honours Program)
  - and is designed for students who have a special interest in literature, history and philosophy
  - The Classical Languages program imparts an advanced knowledge of Greek and Latin
  - One of:
    - MCS*3040 [0.50] Business and Consumer Law
    - ECON*3560 [0.50] Theory of Finance
    - ECON*2410 [0.50] Intermediate Macroeconomics
    - ECON*2310 [0.50] Intermediate Microeconomics
    - ECON*1100 [0.50] Introductory Macroeconomics
    - ECON*1050 [0.50] Introductory Microeconomics
  - A minimum of 5.00 credits is required, including:
    - Minor (Honours Program)
      - and the heading Management Economics in Industry and Finance in the B.Comm degree.
      - It is possible for students to pursue a more intensive program in the area of business administration, and is suitable for any student wishing to broaden their knowledge beyond their Major area of study. Students wishing to combine this Minor with a Major in Art History are advised that the selection of their required courses should begin early in their degree, and that they should obtain counselling from faculty to ensure they can achieve the correct distribution.

**Minor (Honours Program)**
A minimum of 5.00 credits is required, including:
- a. ARTH*1220 [0.50] The Visual Arts Today
- ARTH*1510 [0.50] Art Historical Studies I
- ARTH*1520 [0.50] Art Historical Studies II
- PHIL*3050 [0.50] Philosophy of Art
- b. 3.00 additional credits in Art History as follows:
  - ARTH*2310 [0.50] Critical Issues in Art History
  - ARTH*3220 [0.50] Nationalism and Identity in Art
  - ARTH*3520 [0.50] Idea: Art Since 1950
  - ARTH*3780 [0.50] Gender and Art
  - ARTH*4550 [0.50] Questions in Criticism

**Business Administration (BADM)**
Interdisciplinary study in Business Administration is offered as a minor in the honours program. Students in this program will be counselled by the Department of Economics. It is possible for students to pursue a more intensive program in the area of business administration and economics; see the heading Applied Economics in the B.A. degree and the heading Management Economics in Industry and Finance in the B.Comm. degree.

**Minor (Honours Program)**
A minimum of 5.00 credits is required, including:
- BUS*2220 [0.50] Financial Accounting
- BUS*2230 [0.50] Management Accounting
- ECON*1050 [0.50] Introductory Microeconomics
- ECON*1100 [0.50] Introductory Macroeconomics
- ECON*2310 [0.50] Intermediate Microeconomics

  - HTM*4390 [0.50] Individuals and Groups in Organizations
- One of:
  - AGEC*4370 [0.50] Food & Agri Marketing Management
  - MCS*1000 [0.50] Introductory Marketing

**Classical Languages (CLAL)**
The Classical Languages program imparts an advanced knowledge of Greek and Latin and is designed for students who have a special interest in literature, history and philosophy or plan to do postgraduate study in any area of Classics.

**Core Requirements**
GREK*1100, GREK*1110, GREK*2020, LAT*1100, LAT*1110, LAT*2000

**Major (Honours Program)**
A minimum of 9.00 credits is required, including:
- a. the Classical Languages core
- b. any 5.00 credits from CLAS*3050, CLAS*3060, CLAS*3070, CLAS*3080, CLAS*3090, CLAS*3120, CLAS*4010
- c. LAT*4100, LAT*4150

**Minor (Honours Program)**
A minimum of 5.00 credits is required, including:
- a. the Classical Studies Core
- b. two of CLAS*4000, CLAS*4150, CLAS*4400
- c. 2.50 additional credits in Classics, 1.00 of which may be taken from the following as part of the program:
- d. ENGL*1410 [0.50] Major English Writers
- HIST*2200 [0.50] The Medieval World
- LING*1000 [0.50] Introduction to Linguistics

**Cognitive Neuropsychology (CGNR)**
Department of Psychology, College of Social and Applied Human Sciences
Ellis and Young (1988) defined cognitive psychology as the study of those mental processes which underlie and make possible our everyday ability to recognize familiar objects and people, to find our way around in the world, to speak, read and write, and to plan and execute actions, to think, make decisions and remember.” They proposed two complementary aims in the study of cognitive neuropsychology:
- i. To explain the patterns of impaired and intact cognitive performance seen in brain-injured patients in terms of damage to one or more of the components of a theory or model of normal cognitive functioning.
- ii. To draw conclusions about normal, intact cognitive processes from the patterns of impaired and intact capabilities seen in brain-injured patients.

The Minor program in Cognitive Neuropsychology is targeted for students seeking to broaden their knowledge beyond their major area of study. It may be of particular interest to students specializing in biology or computer science. A Minor in cognitive neuropsychology will prove valuable to students seeking careers in research and medicine.

**Minor (Honours Program)**
(May not be taken in combination with a Psychology Honours Major)
A minimum of 6.00 credits is required, including:
- PSYC*1100 [0.50] Principles of Behaviour
- PSYC*1200 [0.50] Dynamics of Behaviour
- PSYC*2360 [0.50] Introductory Research Methods
- PSYC*2390 [0.50] Principles of Sensation and Perception
- PSYC*2410 [0.50] Behavioural Neuroscience I
- PSYC*2650 [0.50] Cognitive Psychology
- PSYC*3330 [0.50] Memory
- PSYC*3340 [0.50] Psycholinguistics
- PSYC*3410 [0.50] Behavioural Neuroscience II
- PSYC*4600 [0.50] Cognitive Neuroscience
- One of:
  - PSYC*2010 [0.50] Quantification in Psychology
  - STAT*2040 [0.50] Statistics I
  - 0.50 additional credits in Psychology
- Note: Courses designated with (H) in Section XII—Course Descriptions are Honours level courses requiring for registration a cumulative average of at least 70% in all course attempts in Psychology.

**Computing and Information Science (CIS)**
Department of Computing and Information Science, College of Physical and Engineering Science
The Computing and Information Science program emphasizes the applications of computing in other academic disciplines and in business environments. "B" grades are required for but do not guarantee admission to semester three of CIS programs. The BA Program serves students who want computing at the core of a liberal education. The BA is also suited for students who wish to manipulate quantities of data or apply computing techniques across disciplines, especially in the social sciences, humanities or fine arts. Students with a more narrowly focused area of application might consider the BSc program for the natural and biological sciences or the B.Comp Program for other specializations. All three programs can lead to graduate work or positions in industry.

**Area of Concentration (General Program)**

A minimum of 5.25 credits is required, including:

- **CIS*1500** [0.50] Introduction to Programming
- **CIS*1910** [0.50] Discrete Structures in Computing I
- **CIS*2430** [0.50] Object Oriented Programming
- **CIS*2500** [0.50] Intermediate Programming
- **CIS*2520** [0.50] Data Structures
- **CIS*2750** [0.75] Software Systems Development and Integration
- **CIS*2910** [0.50] Discrete Structures in Computing II
- **CIS*3530** [0.50] Data Base Systems and Concepts

1.00 additional CIS credits at the 2000 level or higher

**Major (Honours Program)**

**Semester 1**

- **CIS*1500** [0.50] Introduction to Programming
- **MATH*1200** [0.50] Calculus I

1.00 electives from different subject areas in the College of Arts (ENGL*1080 or ENGL*1200 is recommended)

0.50 electives from selected subject areas in the College of Social and Applied Human Sciences*

**Semester 2**

- **CIS*1910** [0.50] Discrete Structures in Computing I
- **CIS*2500** [0.50] Intermediate Programming

0.50 electives from the College of Arts

0.75 electives

Note: 0.50 electives may be selected in semester 4 followed by 0.50 electives in semester 5

**Semester 5**

- **CIS*2460** [0.50] Modelling of Computer Systems
- **CIS*3530** [0.50] Data Base Systems and Concepts
- **CIS*3750** [0.75] System Analysis and Design in Applications

0.50 CIS electives at 3000 level or above (CIS*3210 [0.50] is recommended)

0.25 elective

**Semester 6**

- **CIS*3490** [0.50] The Analysis and Design of Computer Algorithms

1.00 CIS electives at 3000 level or above

1.00 electives

**Semester 7**

1.00 CIS. credits at the 4000 level

1.50 electives

**Semester 8**

1.00 CIS credits at the 4000 level

1.50 electives

**Minor (Honours Program)**

A minimum of 5.25 credits is required, including:

- **CIS*1500** [0.50] Introduction to Programming
- **CIS*1910** [0.50] Discrete Structures in Computing I
- **CIS*2430** [0.50] Object Oriented Programming
- **CIS*2500** [0.50] Intermediate Programming

**Computing and Information Science (Co-op) (CIS:C)**

**Department of Computing and Information Science, College of Physical and Engineering Science**

The 4 year Honours Program Major in Computing and Information Science is also available as a Co-operative Education Program. Three co-op work terms are required. A five year option with four work terms is also available. Please see the department’s co-op academic advisor for details.

COP*1100 must be completed in the 2nd academic semester (Winter of year 1). Students may apply for these options at the time of University admission or completion of semester 2.

Conditions for graduation are the same as the corresponding regular B.A. program. In addition, all work reports must have a grade of satisfactory or better.

Students are advised to plan their schedule of studies well in advance so that they can take all required prerequisites for later (especially 4000 level) courses. Students should note that some 4000 level courses are only given in alternate years. Failure to plan may result in the inability to take a particular senior CIS course. Recommended work terms are shown below:

Criminal Justice and Public Policy (CJPP)

Department of Sociology and Anthropology, and the Department of Political Science, College of Social and Applied Human Sciences

Criminal Justice and Public Policy is offered as a minor in the honours program and as a major in the honours program. It is designed to provide students seeking a career in the criminal justice system, or planning to pursue an advanced degree with a knowledge base that will enable them to pursue their career objectives. The program offers a unique blend of sociological courses dealing with the criminal justice system as well as courses in Political Science dealing with public policy formation and implementation. It also provides students with the conceptual and methodological tools needed for further study.

Students who are not admitted directly into the CJPP major and subsequently wish to declare the specialization must apply directly to the department. In order to be eligible, applicants must have a cumulative average of 70% or better in the following foundation courses:

<table>

</tbody>
</table>

Note: The requirement for an average of 70% or better applies only to students admitted to the University of Guelph after 30 April 2002.

Students wishing to declare the CJPP minor must also meet the above requirement. Students from other institutions who transfer to the University of Guelph and wish to declare the CJPP major or minor must also meet the above requirement. If an external transfer student is granted credit for one or more of the foundation courses listed above, then he or she must attain a cumulative average of 70% or better in the remaining required CJPP foundation courses.

Note: There is no CJPP Area of Concentration in the General Program as of Fall 2002.

Major (Honours Program)

A minimum of 9.00 credits is required, including:

Developmental Psychology (DPSY)

Department of Psychology, College of Social and Applied Human Sciences

The focus of Developmental Psychology is the study of the theory, research, and applied interventions associated with the way humans develop and change over time. This focus is especially significant for anyone interested in how we might solve the challenges presented by life. These include the special challenges presented by schooling, parenting, socialization within and beyond the family, coping with stress, and some of the individual differences and atypical behaviors exhibited by ourselves or others. This program of study is designed as a complement to a significant number of Major specializations, suitable for any student wishing to broaden their knowledge beyond their Major area of study.

Minor (Honours Program)

(May not be taken in combination with a Psychology Honours Major)

A minimum of 6.00 credits is required, including:

Minor (Honours Program)

A minimum of 5.00 credits in Economics is required, including:

a. the Economics core
b. 2.50 other credits in economics at the 3000 or 4000 level

Notes:

1. ECON*3740 is recommended.
2. Students wishing to pursue a more structured Economics minor should take ECON*3710 as well as ECON*3740.
3. Only one of ECON*3220 or ECON*3230 may be counted towards the minor.

ECON*4800 may not be counted at the 4000 level for purposes of satisfying the minimum 4000 level credit requirements in the B.A. Honours Economics major. Only one of ECON*4900 or ECON*4910 may count in the B.A. program towards the minimum 4000 level requirement.

Economics (Co-op) (ECON:C)

Department of Economics, College of Management and Economics

The Economics Co-op program provides an integrated academic/work experience for students with co-operating employer organizations. Students in the program must complete 4 work terms while fulfilling the requirements of their honours Economics program.

All co-op students must complete the Economics core plus an introductory computer science course (CIS*), ECON*2770 and ECON*3740 in their first 4 semesters. Admission to the co-op program is limited to students of high academic standing and will be considered only at semester 1 entry or at the end of semester 2. The first 2 work terms normally follow completion of the first 4 semesters of academic study. Students will only be permitted to take these work terms if they are eligible to continue in the Honours Economics program, have completed the required courses and are maintaining a satisfactory standing in their Economics program. The 3rd and 4th work terms will normally follow the 6th academic semester. For further information on the Economics Co-op program students are urged to consult the department's Program Guide and Co-operative Education Programs in Section X-degree Programs in this calendar. Students should review the Economics section in the schedule of studies for additional program information.

**Note:** Courses designated with (H) in Section XII--Course Descriptions are Honours level courses requiring for registration a cumulative average of at least 70% in all course attempts in Psychology.

**English (ENGL)**

**School of English and Theatre Studies, College of Arts**

The School of English and Theatre Studies offers courses in the B.A. Program in English that focus on the study of literature and related texts across a broad range of theoretical, historical, and geographical sites. The School also welcomes non-majors into its courses, especially at the 1000, 2000, and 3000 levels, suitable to other majors within the College of Arts and beyond. Certain courses in Theatre Studies (THST) and in Literature in Translation (CLAS, GERM, HUMN, SPAN) may be counted towards a degree in English. Consult the School of English and Theatre Studies for details.

First-year students registered in or considering one of the programs in English should register at ENGL*1080 in the first semester and ENGL*2080 in the second semester.

**Area of Concentration (General Program)**

A minimum of 5.00 English credits is required in the English core and the English electives. English elective courses must be chosen to fulfill the Distribution Requirements for the Area of Concentration.

**English core - 2.00 credits as follows:**
- a. ENGL*1080, ENGL*2080, ENGL*2120
- b. one of ENGL*2130, ENGL*3940, ENGL*3960

**English electives - 3.50 credits to include:**
- 1. 3.00 credits from 3000 level lecture courses
- 2. 0.50 credits from any other lecture or seminar course
- 3. Distribution requirements as listed below.

**Distribution Requirements for the Area of Concentration:**

The electives must be chosen to ensure that 0.50 credits are completed in each of the following four fields:
- • Medieval and Early Modern Literature
- • 18th and 19th Century Literature
- • Colonialisms/Postcolonialisms
- • Canadian Literature/American Literature

**Note:** Please visit the School of English and Theatre Studies website: http://www.arts.uoguelph.ca/sets for a list of courses that fulfill these requirements.

**Major (Honours Program)**

A minimum of 8.50 English credits is required in the English core and the English electives. English elective courses must be chosen to fulfill the Distribution Requirements for the Major.

**English core - 3.00 credits as follows:**
- a. ENGL*1080, ENGL*2080
- b. ENGL*2120, ENGL*2130, ENGL*3940, ENGL*3960

**English electives - 5.50 credits to include:**
- • 3.50 credits from 3000 level lecture courses
- • 1.00 credits from 4000 level courses
- • 1.00 credits from any other lecture or seminar courses
- • Distribution requirements as listed below

**Distribution Requirements for the Major:**

The electives must be chosen to ensure that 1.00 credits are completed in each of the following two fields:
- • Medieval and Early Modern Literature
- • 18th and 19th Century Literature

and that 0.50 credits are completed in each of the following three fields:
- • American Literature
- • Canadian Literature
- • Colonialisms/Postcolonialisms

**Note:** Please visit the School of English and Theatre Studies website: http://www.arts.uoguelph.ca/sets for a list of courses that fulfill these requirements.

**Honours students interested in a more concentrated program or contemplating graduate work in English are strongly advised to:**
- attain a good reading knowledge of another language, such as French
- take ENGL*3380 (Studies in the History of Literary Production), ENGL*3690 (History of Literary Criticism), ENGL*4690 (Contemporary Literary Theory)
- take at least 2.00 credits in English courses at the 4000 level

The M.A. program in English at Guelph gives preference to qualified applicants with a broad experience in literary and cultural studies and related disciplines.

**Minor (Honours Program)**

The program of study and requirements are the same as for the Area of Concentration in the General Program.

**Environmental Studies (ENVS)**

**Interdisciplinary Program**

Environmental Studies is an interdisciplinary subject stressing the integration of biophysical and human behavioral dimensions of environmental issues. The requirement of 5.00 credits for the minor is broken into 2 groups of courses, required courses and restricted electives. Students should ensure that they obtain standing in the necessary prerequisites for required and restricted elective courses. There are limitations on courses used for credit in other areas of study which may be used for credit in the Environmental Studies minor. Students should seek counselling from the Department of Geography early in their program.

**Minor (Honours Program)**

A minimum of 5.00 credits is required, including:

The European Studies program is designed for students who seek a career in International Relations - especially in International Business and Administration - between Canada and Europe. It offers a combination of languages, specially designed courses in European thought, letters and history and specialization in either European Business or European Culture and Civilization.

Successful completion of the European Studies major requires proficiency in one of the following languages (French, German, Italian or Spanish). In order to demonstrate language proficiency, students have two options: they may study for a year at a European University, in the country where their chosen core language is spoken, or they may write a final research paper in the chosen core language unless they have spent one year studying at a European university, in the country where their chosen core language is spoken. The benefits of such an experience are considerable, both academically and professionally.

The benefits of such an experience are considerable, both academically and personally. One specific academic outcome of a successful year abroad will be recognition that the student has fulfilled the program's core language requirement. Those who can demonstrate that they have written a major academic paper or exam in their chosen core language while participating in an approved study year may be waived from the required course EURO*4740. See the Coordinator for the European Studies program for more information. See also the course description for EURO*4740.

Study Abroad

Year 3 or year 4 will provide students with the opportunity to continue their studies abroad. Students will select up to 6.00 credits which can be included in the area of emphasis, as electives, or both. They are subject to approval by the program coordinator and the departmental advisor. Courses taken in Europe will not count towards the specialization average.

Practicum Opportunity:

HUMN*3501/2 is available for those students wishing to participate in a practicum experience as part of the year abroad. The practicum must be a job or volunteer experience that contributes to the student's area of study and intended career. It must be approved in advance as a Letter of Permission by the Coordinator. A final report, written in the student's chosen language, is a requirement of this course.

Family and Child Studies (FCS)

Department of Family Relations and Applied Nutrition, College of Social and Applied Human Sciences

Family and Child Studies is offered as a minor in the honours program. It is designed to provide students with an opportunity to pursue interdisciplinary studies which have a specific focus on human development over the life span and on the applied questions which relate to the needs of children and the functioning of families. Elective courses may be chosen to emphasize the family, the child, or a combination of the two. Students seeking counselling should consult with a departmental advisor in the Department of Family Relations and Applied Nutrition.

Minor (Honours Program)

A minimum of 5.00 credits is required, including:

FRHD*1010 [0.50] Human Development
FRHD*1020 [0.50] Couple and Family Relationships
FRHD*2270 [0.50] Development in Early and Middle Childhood
FRHD*3040 [0.50] Parenting: Research and Applications
NUTR*1010 [0.50] Nutrition and Society

A further 2.50 courses offered by the Department of Family Relations and Applied Nutrition (FRHD or NUTR*2050), of which at least 1.50 must be at the 3000 level or above including at least 0.50 at the 4000 level.

Note: where students have or plan to have credit for PSYC*2450, an alternative course to FRHD*2270 must be selected, in consultation with the departmental advisor, from those offered under the Family Studies (FRHD) listings

French Studies (FREN)

School of Languages and Literatures, College of Arts

All language courses carry 0.50 credits. Please note that students with Ontario Grade 12 credit or its equivalent in French are not normally admitted to FREN*1100. Francophone students may start the program with second-year courses conditional upon approval by the Faculty Advisor. Students majoring in French are advised to take elective courses in another Romance language and in Latin. It is also recommended that students include CLAS*1000 and LING*1000 among the electives in order to derive the maximum benefit from their studies. Except where stated otherwise, literary texts are, at all levels, studied in the original language. Students registering in French courses are expected to have the appropriate academic background.

Studies in Quebec or Abroad

The French program encourages students to spend 1 or 2 semesters in a French-speaking province or country, or to pursue their studies in an immersion program at the university level. Credit for programs of study successfully completed may be applied towards the University of Guelph degree requirements. Requests should be addressed well in advance of registration to the Director of the School of Languages and Literatures. A letter of permission is required (see the Section VIII--Undergraduate Degree Regulations & Procedures). Students may also take advantage of federal-provincial programs such as the Second-Language Monitor program.

Year in Nice

A special year-long program in Nice, France, is offered to Guelph students at semester levels 5 and 6. All courses for which transfer credits have been arranged are credited at Guelph without the need for letters of permission; students pay only Guelph academic fees and are eligible for OSAP. For further information see the Head of French Studies.

Area of Concentration (General Program)

A minimum of 5.00 French credits taught in French is required, including:

Notes:

1. Students are strongly urged to take 0.50 language credits each semester.
2. Students in the general program may take 4000 level courses, but must previously have taken FREN*3520.
3. Students of French are encouraged to take advantage of the French residence on this campus. Applications for accommodation in the Maison Française should be made well in advance of registration.
4. FREN*1200, FREN*2030, FREN*3010, FREN*3020, FREN*3070, FREN*3150, FREN*3200, FREN*3210, FREN*3220, FREN*3240, FREN*3290, FREN*3560
5. Native speakers of French (or non-francophone equivalent) will normally be admitted into FREN*1200 and FREN*2030. It is recommended they start their program with FREN*2020, FREN*2060, FREN*2520, or FREN*2520 with the approval of the Faculty Advisor.

Geography (GEOG)

Department of Geography, College of Social and Applied Human Sciences

The Department of Geography provides students with a broad range of courses in Human and Physical Geography which focus on the nature and evolution of the numerous and complex physical and human environment systems of the world. Students are required to select courses from both the human and physical fields. Within the program of studies it is possible for students through course selection to follow a particular line of interest in, for example, Rural Geography, Resource Management, Urban and Economic Geography, Biophysical Resources or Geomorphology. The 1000 level courses provide a foundation for the Geography programs and are prerequisites or are strongly recommended for many of the 2000 level courses. The 2000 level systematic courses are prerequisite to the corresponding advanced courses at the 3000 and 4000 level. All students should obtain a copy of the department program planning guide and consult with faculty before planning their course of studies.

Students contemplating graduate or professional programs of study following completion of the honours program should consult a departmental advisor for advice on additional courses that they should take.

The department also offers a B.S.C. honours Earth Surface Science program (jointly with Land Resources Science), a B.S.C.(ENV.) honours Environmental Geography Major program, and a B.S.C. honours program Minor in Geographic Information Systems and Environmental Analysis which are described in the schedule of studies for each of the programs (Section X). Geography B.A. honours Majors are eligible to take the B.S.C. Minor. All Geography students are encouraged to consult with a departmental advisor regarding course selection.

The following courses may be counted as Geography credits: ENVS*4220, GEOL*2150, MET*2300, SOIL*2010.

German (GERM)

School of Languages and Literatures, College of Arts

All language courses carry 0.50 credits. Students with one year of high school German or equivalent may not be admitted into GERM*1100. Students with OAC German may not be admitted into GERM*1100 and GERM*1110. Students with OAC German credit or its equivalent may be admitted into GERM*1110 only with the approval of the department. All language students are strongly advised to attend either the German Department or a particular section of the department. A letter of permission is required (see the Section VIII--Undergraduate Degree Regulations & Procedures).

Study Abroad

The School of Languages and Literatures encourages students in the German program to spend 1 or 2 semesters in a German-speaking country to continue their studies at the University level. Credit for programs of study successfully completed may be applied towards the University of Guelph degree requirements. Requests should be addressed in advance to the department or a particular section of the department. A letter of permission is required (see the Section VIII--Undergraduate Degree Regulations & Procedures).

Minor (Honours Program)

A minimum of 5.00 credits in German is required, including:

- GERM*2490 [0.50] Intermediate German I
- GERM*2500 [0.50] Intermediate German II
- GERM*2560 [0.50] Themes in German Literature/Culture
- GERM*2590 [0.50] Classics of German Literature
- GERM*3500 [0.50] Advanced German

2.00 credits from (GERM*1100 or GERM*1110), GERM*2400, GERM*3020, GERM*3450, GERM*3460, GERM*3470, GERM*3530

Note that for students beginning with GERM*1100 or GERM*1110 a maximum of 2.50 language credits is allowed. For students with OAC German or equivalent, a maximum of 2.00 language credits is allowed. Language courses beyond the 1000 level include GERM*2490, GERM*2500, GERM*3500, GERM*3530.

Students enrolled in the German program must contact the School of Languages and Literatures for an up-to-date sequence of course offerings.

History (HIST)

Department of History, College of Arts

Courses marked (H) are designed as honours courses. Students in a general program wishing to take these must obtain the permission of instructors concerned. All other courses may be taken by both general and honours students. Students wishing to take a 3000 level course must have pass standing in at least 5.00 credits in university courses.

Students wishing to take a 4000 level course must have pass standing in at least 10.00 university credits. Access to all 4000 level history courses is restricted to students in the B.A. Honours program with at least a 70% average in all history course attempts. Students should note the prerequisite requirements of upper level courses in planning their individual programs.

Students entering semester 1 are advised to choose from 1000 level courses. Second semester students wishing to take an advanced level History course should select that course from the History core.

Core Requirements

- a. HIST*1010, HIST*2100, HIST*2450, HIST*2600
- b. 0.50 credits from each of a) Pre-Modern; b) Developing World; and c) Thematic.

Note: Course lists available in the Department of History and at http://www.uoguelph.ca/history/.

Area of Concentration (General Program)

A minimum of 5.00 credits in History is required, including:

- a. at least 1.50 credits in History must be at the 3000 level (excluding HIST*3470)
- b. students should take the History Core Requirements

Note: With the permission of the department, students may select as part of their program 0.50 credits outside the History Department such as ECON*2420, ECON*3730, EURO*4600, WMST*4010.

Major (Honours Program)

A minimum of 8.00 credits in History courses is required, including:

- a. the History Core Requirements
- b. 4.50 additional credits in History including 1.00 at the 4000 level (excluding HIST*4470 and HIST*4970) and an additional 0.50 credits at the 4000 level which may include either HIST*4470 or HIST*4970

Minor (Honours Program)

A minimum of 5.00 credits in History is required, including:

- a. the History Core Requirements
- b. 1.50 other credits in History including 1.00 at the 4000 level

Note: Honours students in History may, with the permission of the department, take up to 1.00 credits from outside the department such as ECON*2420, ECON*3730, EURO*4600, WMST*4010.

Students considering graduate work are advised to take 2.00 - 3.00 additional upper level History credits perhaps including the Special History Project Seminar (HIST*4470, HIST*4970) and to acquire a reading knowledge of a foreign language.

Honours students must complete HIST*2450 by the end of their third semester to be eligible for 3000 level History courses.

Individual Studies (IS)

Interdisciplinary Program

R.A. Counselling Office, Room 130, MacKinnon Building, Ext. 52140.

Honours B.A. students have the option of doing an Individual Studies Major. Students in the Individual Studies Major have the opportunity to determine the goals and methods of their studies. Areas of study can include courses in any of the colleges and where the University of Guelph has faculty expertise to assist students. Students are encouraged to develop an interdisciplinary perspective, and to explore the methods of inquiry which provide depth of knowledge in a specific subject.

A student submitting a proposal for the Individual Studies Major must submit the complete proposal to the B.A Program Counsellor before the third week of classes of semester four. The B.A. Program Committee will consider proposals once, and will approve, approve with revisions, or deny the proposal. Proposals cannot be resubmitted.

Proposals will not be considered unless they articulate a detailed rationale for a coherent program of studies that is significantly different from any existing major and minor combination at the University of Guelph, and unless the proposal meets the following criteria:

- a. minimum of 9.00 credits
- b. minimum of 4.00 credits at the 3000 level and above, including at least 1.00 credits at the 4000 level
- c. minimum of 1.00 credits in methods and/or theory
- d. maximum of 1.50 credits at the 1000 level

Major (Honours Program)
A minimum of 12.00 credits is required, including the core of 7.00 credits and one of seven areas of emphasis for 5.00 credits. The areas are: Economic and Business Development, Gender and Development, Rural and Agricultural Development, Environment and Development, Latin American Studies, Political Economy and Administrative Change, and Historical Perspectives in Development. Students must select an area of emphasis by the end of the 4th semester of university study.

International Development students are encouraged to acquire at least one foreign language and to work or study abroad. With the permission of the International Development Studies faculty advisor, students may replace 0.50 credits from their area of emphasis with IDEV*3200, or 1.00 credits from their area of emphasis with IDEV*4190 and IDEV*4200.

Note: When selecting courses, students should keep in mind the prerequisites for their desired 3000 and 4000 level courses.

Choose Option A or B

Option A - Biophysical Environment

GEOG*2460 [0.50] Analysis in Geography

Two of:
- GEOG*2110 [0.50] Climate and the Biophysical Environment
- GEOG*2310 [0.50] Mapping and GIS
- GEOG*3100 [0.50] Global Environmental Change
- GEOG*3110 [0.50] Biotic and Natural Resources
- GEOG*3900 [0.50] Environmental Hydrology
- GEOG*3620 [0.50] Desert Environments

Two of:
- ENVS*4220 [0.50] Environmental Impact Assessment
- GEOG*3480 [0.50] GIS and Spatial Analysis
- GEOG*4110 [0.50] Environmental Systems Analysis
- GEOG*4210 [0.50] Environmental Governance
- GEOG*4250 [0.50] Coastal Processes
- GEOG*4480 [0.50] Applied Geographic Information Systems

Option B - Human Environment

GEOG*2260 [0.50] Applied Human Geography

Two of:
- GEOG*2480 [0.50] Mapping and GIS
- GEOG*3020 [0.50] Global Environmental Change
- GEOG*3090 [0.50] Gender and Environment
- GEOG*3320 [0.50] Agriculture and Society
- GEOG*3490 [0.50] Tourism and Environment
- GEOG*3600 [0.50] Geography of a Selected Region

Two of:
- ENVS*4220 [0.50] Environmental Impact Assessment
- GEOG*3480 [0.50] GIS and Spatial Analysis
- GEOG*4200 [0.50] Seminar in Urban Geography
- GEOG*4210 [0.50] Environmental Governance

in order to derive the maximum benefit from their studies. Except where stated otherwise, literary texts are, at all levels, studied in the original language. Students registering in these courses will be expected to have the appropriate knowledge.

Study Abroad

The School of Languages and Literatures encourages students in modern languages to spend 1 or 2 semesters in another country to study a particular language at the university level. Credit for programs of study successfully completed may be applied towards the University of Guelph degree requirements. Requests should be addressed well in advance to either the School or a particular section of the School. A letter of permission is required (see Section VIII—Undergraduate Degree Regulations and Procedures.)

Italian may be taken as a minor in the honours program. Students in Italian will be counselled by the School of Languages and Literatures.

Marketing Management (MKMN)

Department of Marketing and Consumer Studies, College of Management and Economics

A Marketing Management minor is designed for students who wish to pursue interdisciplinary studies that consider consumers and the marketplace, consumers and their decision processes and behaviours, markets and their structure and various interactive relationships, and issues concerning market management.

Students who wish to declare the Marketing Management Minor specialization must apply directly to the Department. In order to be eligible, applicants must have a cumulative average of 70% or better in all course attempts towards the minor.

Minor (Honours Program)

A minimum of 5.00 credits is required, including:

Mathematical Economics (MAEC)

Department of Economics, College of Management and Economics

Most economic theory rests on explicit, formal, mathematical and/or statistical foundations. This specialization articulates and emphasizes these interactions. It is most suitable for students who either have, or wish to develop, a strong analytical background.

Note: Students approaching the end of their program are strongly advised to take, by arrangement with the departmental advisor, at least one of the Special Study in Economics courses (ECON*4900, ECON*4910).

Major (Honours Program)

**Semester 1**

- CIS*1500 [0.50] Introduction to Programming

  - STAT*4360 [0.50] Applied Time Series Analysis
- 1.00 electives

*at least 1.00 of the 4.00 restricted electives must be from Mathematics and 1.00 must be from Statistics. The remaining 2.00 can be from either subject area. Of the 4.00 credits, at least 1.00 must be at the 3000 level or above and the remaining 3.00 must be at the 2000 level or above.

Note: Courses from MATH or STATS will be allowed with the appropriate prerequisites, or by permission of the instructor.

Mathematics (MATH)

Department of Mathematics and Statistics, College of Physical and Engineering Science

Mathematics and Statistics have become crucial components in the understanding and exploration of more and more disciplines. Persons with a strong background in mathematical sciences have access to a broad range of rewarding opportunities. Within the B.A. program, the Department of Mathematics and Statistics offers a wide range of concentration, majors and minors, both in Mathematics and Statistics. The Mathematics programs are designed to provide considerable flexibility for students to pursue their own interests, whether they be in the concepts of "pure" mathematics or techniques and applications. As a result, these programs open up opportunities for careers in many sectors such as business, education, government, industry, or medicine.

Area of Concentration (General Program)

A minimum of 5.00 Mathematics credits is required, including:

- a. 4.00 credits in Mathematics, including at least 1.00 from courses at the 3000 level or above
- b. 1.00 additional credits from Mathematics, Statistics and/or Computing Science

Honours Programs

Students without 4U Advanced Function and Calculus or OAC Calculus should consult with the departmental advisor. Students without 4U Geometry and Discrete Mathematics or OAC Algebra and Geometry should take MATH*2150 and then MATH*2160.

Core Requirements for Honours

- MATH*1200 [0.50] Calculus I
- MATH*1210 [0.50] Calculus II
- MATH*2200 [0.50] Set Theory
- MATH*2160 [0.50] Linear Algebra I
- MATH*2200 [0.50] Advanced Calculus I

Note: For both a major and a minor, it is strongly recommended that PHIL*2110 be included as an elective and be taken as early as possible.

Major (Honours Program)

A total of 5.00 credits is required to complete the Minor including:

- 2.50 credits from (MATH*1080 or MATH*1200, (MATH*1210 or MATH*2080), MATH*2000, (MATH*2150 or MATH*2160), MATH*2200
- 0.50 STAT credits at the 2000 level or above
- 2.00 additional Mathematics credits at the 2000 level or above, including 1.50 credits at the 3000 or 4000 level

Minor (Honours Program)

A minimum of 5.00 credits is required, including:

- a. ARTH*1220 [0.50] The Visual Arts Today
- ARTH*1510 [0.50] Art Historical Studies I
- ARTH*1520 [0.50] Art Historical Studies II
- b. 3.50 additional credits in Art History including:
  - ARTH*2120 [0.50] Introduction to Museology
  - ARTH*2480 [0.50] Introduction to Art Theory and Criticism
  - ARTH*3220 [0.50] Nationalism and Identity in Art
  - ARTH*3330 [0.50] Display: Visual Culture in Western Europe

2007-2008 University of Guelph Undergraduate Calendar

X. Degree Programs, Bachelor of Arts (B.A.)

Last Revision: January 28, 2008
Music (MUSC)

School of Fine Art and Music, College of Arts

The School offers courses in music history, theory, ethnomusicology, and performance. Many courses are open to all students, while others require a knowledge of the rudiments of musical notation or other prerequisites. Students are urged to plan their program in consultation with a Music advisor. Music programs allow considerable flexibility for students to elect one or more areas of interest, such as individual study on an instrument, performing in vocal or instrumental ensembles, specialized historical or theoretical study, directed readings, or an independent project. Physics of Music (MUSC*1090) is strongly recommended for all Music students and will count as one of the courses for the B.A. math/science requirement.

Courses in Music are offered in several of the semesters abroad, especially London. Credit for programs of study successfully completed may be applied towards the University of Guelph degree requirements.

Applied Music

MUSC*1500 is available only by audition. MUSC*1500 is restricted to students in Semesters 1-4. Students who wish to continue to the 2000 level in Applied Music must be enrolled in a Music program, general program; area of concentration; honours program, major or minor.

Applied Music courses are designed to be taken during successive Fall and Winter terms. If this sequence is interrupted for more than one semester, students may be required to reapply (re-audition) before registering to continue in Applied Music. Students must achieve a minimum grade 70% in Applied Music courses in order to proceed to the next level.

Applied Composition

Private instruction is offered in music composition. In order to register in Applied Composition (MUSC*2410), students must submit a portfolio of compositions (scores and recordings) to the School of Fine Art and Music at the time of course selection. Interviews are held prior to the first day of classes each semester (see School of Fine Art and Music for interview schedule). In order to enrol in Applied Composition, students must be registered in a Music program: Area of Concentration (General Program), Major or Minor (Honours Program). Applied Composition courses are designed to be taken during successive Fall and Winter terms. If this sequence is interrupted for more than one semester, students may be required to reapply before registering to continue in Applied Composition. Students must achieve a minimum grade of 70% in Applied Composition courses in order to proceed to the next level.

Core Requirements

The Music core is designed to provide the concepts and skills students need for successful study in higher level courses. All students in the general program area of concentration and honours program major must complete the following courses:

- MUSC*1180 [0.50] Musicianship I
- MUSC*1250 [0.50] Melody and Counterpoint
- MUSC*2360 [0.50] Tonal Harmony I
- MUSC*2370 [0.50] Tonal Harmony II
- MUSC*2600 [0.50] Music History: Chant to Josquin
- MUSC*2610 [0.50] Music History: The Reformation to J.S. Bach
- MUSC*2620 [0.50] Music History: Classical and Romantic Eras
- MUSC*2630 [0.50] 20th Century Music

Note: MUSC*1130 does not count toward either the Major (Honours), Minor (Honours), or Area of Concentration (General Program).

Area of Concentration (General Program)

A minimum of 5.50 Music credits is required, including:

- a. the Music core
- b. at least 1.00 Music credits at the 3000 level or above
- c. two of MUSC*2530, MUSC*2540, MUSC*2550, MUSC*2560.

Major (Honours Program)

A minimum of 8.50 Music credits is required, including:

- a. the Music core
- b. two of MUSC*2530, MUSC*2540, MUSC*2550, MUSC*2560.
- c. one of MUSC*2110, MUSC*2140, MUSC*2140, MUSC*2200
- d. one of MUSC*2100, MUSC*2220
- e. MUSC*4401/2
- f. 2.00 additional credits at the 3000 or 4000 level

Participation in Applied Music courses is strongly recommended for all honours students. Students contemplating graduate studies in Music should consult music faculty early in their program.

Minor (Honours Program)

A minimum of 5.00 Music credits is required, including MUSC*1180 and at least 2.00 Music credits at the 3000 or 4000 level. Students should be aware that courses at the 3000 or 4000 level may require additional prerequisites.

Honours students considering graduate work in ethnomusicology, performance, theory, and other music specializations should consult the School Director or a faculty adviser early in their program. Students should take courses covering a broad range of historical periods and methodologies, and also consider courses in Humanities (HUMN), dramatic theory, art history, anthropology, and English literature. A reading knowledge of at least one language other than English is also recommended.

Organizational Behaviour (OBEH)

Department of Psychology, College of Social and Applied Human Sciences

The study of behaviour and the behavioural processes of individuals and groups within organizations is an especially important focus for those interested in human welfare and productivity. The Minor in Organizational Behaviour is for students seeking to broaden their knowledge beyond their major area of study and may be of particular value for those interested in the dynamics of organizational structures within the private and/or public domains. Although this program should provide a meaningful complement for a significant number of Major options, the program might be of particular interest to those students considering a future management and/or business career.

Minor (Honours Program)

(May not be taken in combination with a Psychology Honours Major)

A minimum of 6.00 credits is required, including:

- PSYC*1100 [0.50] Principles of Behaviour
- PSYC*1200 [0.50] Dynamics of Behaviour
- 2.00 credits in 4 Psychology Core Courses, to include PSYC*2310
- PSYC*2010 [0.50] Quantification in Psychology
- PSYC*3060 [0.50] Occupational Health Psychology
- PSYC*3070 [0.50] Psychology in Human Resource Management
- PSYC*3080 [0.50] Organizational Psychology
- PSYC*3250 [0.50] Psychological Measurement
- 0.50 additional credits in Psychology

Students should note the availability of courses PSYC*3900 and PSYC*3910 when considering potential Psychology electives which would fulfill this requirement. When selecting open electives for completion of the degree, students with this minor should consider selecting the following courses: HTM*4390 and SOAN*2040.

Note: Courses designated with (H) in Section XII--Course Descriptions are Honours level courses requiring for registration a cumulative average of at least 70% in all course attempts in Psychology.

Philosophy (PHIL)

Department of Philosophy, College of Arts

The Department of Philosophy offers programs emphasizing the history of philosophy and the study of metaphysics, epistemology, ethics and logic. The requirements for the various Philosophy programs are designed to ensure a basic competence in the discipline while permitting varying degrees of flexibility. It is important that students discuss their programs with a departmental advisor in order to ensure that the best selection of elective Philosophy courses is made. This is especially important for students who are contemplating graduate work in Philosophy.

Students may take PHIL*1000, PHIL*1010 and PHIL*1050 but only one may be counted toward the minimum number of Philosophy courses required for a degree.

Area of Concentration (General Program)

A minimum of 5.00 credits in Philosophy is required, including:

- a. 1 of PHIL*2140, PHIL*2160, PHIL*2170, PHIL*3060, PHIL*3080, PHIL*3130, PHIL*3200
- b. 1 of PHIL*2110, PHIL*2130, PHIL*2180, PHIL*3180, PHIL*3190, PHIL*3240, PHIL*3250, PHIL*3420, PHIL*3910, PHIL*3920, PHIL*3930, PHIL*4360, PHIL*4370, PSYC*3280
- c. 1 of PHIL*2030, PHIL*2060, PHIL*2070, PHIL*2120, PHIL*2600, PHIL*3040, PHIL*3050, PHIL*3230, PHIL*4060, PHIL*4310, PHIL*4340
- d. 3.50 additional credits in Philosophy

Note: Students must have at least 1.50 Philosophy credits at the 3000 or 4000 level.

Major (Honours Program)

A minimum of 8.50 credits is required, including:

- a. PHIL*2110, PHIL*2120, PHIL*2140, PHIL*2160, PHIL*3080
- b. 2 of PHIL*2170, PHIL*2180, PHIL*3180, PHIL*3190, PHIL*3240, PHIL*3250, PHIL*4360, PHIL*4370, PSYC*3280
- c. 2 of PHIL*2060, PHIL*3050, PHIL*3230, PHIL*4310, PHIL*4340
- d. 2 of PHIL*2030, PHIL*2070, PHIL*2130, PHIL*2600, PHIL*3130, PHIL*3200, PHIL*3420, PHIL*3910, PHIL*3920, PHIL*3930, PHIL*4060
- e. 3.00 additional credits in Philosophy

Note: Students must have at least 3.50 credits in Philosophy at the 3000 level or above, and at least 1.50 of these at the 4000 level.

Students planning to do graduate studies in philosophy should take PHIL*2110, PHIL*2120, PHIL*2140, PHIL*3080, PHIL*3130, PHIL*3200, PHIL*4080.
Minor (Honours Program)
A minimum of 5.00 credits in Philosophy is required, including:

a. 1 of PHIL*2140, PHIL*2160, PHIL*2170, PHIL*3060, PHIL*3080
b. 1 of PHIL*2110, PHIL*2180, PHIL*3180, PHIL*3190, PHIL*3240, PHIL*3250, PHIL*4360, PHIL*4370, PSYC*3280

c. 1 of PHIL*2060, PHIL*2120, PHIL*3050, PHIL*3230, PHIL*4310, PHIL*4340
d. 1 of PHIL*2030, PHIL*2070, PHIL*2130, PHIL*2600, PHIL*3130, PHIL*3200, PHIL*3420, PHIL*3910, PHIL*3920, PHIL*3930, PHIL*4060

e. 3.00 additional credits in Philosophy

Note: Students must have at least 3.50 credits in Philosophy at the 3000 level or above, and at least 1.50 of these at the 4000 level.

Political Science (POLG)

Department of Political Science, College of Social and Applied Human Sciences
The Department of Political Science offers courses in the following areas: Theory and Analysis, Canada and the Americas, Public Policy and Administration, and Comparative / International Development. These areas are listed below to identify 3000 level courses that fulfill prerequisites for selected 4000 level courses (see course descriptions).

A brochure describing each of these fields of study, and containing further course information, is available from the departmental office. The Department of Political Science also participates in several interdisciplinary programs, including European Studies and International Development Studies.

Students taking courses in Political Science may enrol initially in POLS*1150, POLS*1400, POLS*1500, the latter 2 courses providing overview and introductory treatments of particular interest to students who wish to take higher level courses in the department but who do not intend to specialize in the discipline. For students intending to pursue a general or honours specialization in Political Science, however, POLS*1150 is required.

Courses at the 2000 level provide students with essential grounding in specific areas of the discipline and are normally prerequisite for enrolment in 3000 and 4000 level courses. Students in the honors program major are required to take POLS*3180 and POLS*3650. Students in the honors program minor are required to take POLS*3180.

In addition to the requirements set out in the B.A. Program Regulations, the Department of Political Science requires that students pursuing general and honours programs successfully complete a core requirement of 2.50 credits and meet specific distribution requirements as follows:

Core Requirements

a. POLS*1150, POLS*2000, POLS*2300
b. POLS*2080 or POLS*2100
c. POLS*2200 or POLS*2250

Area of Concentration (General Program)
A minimum of 5.00 credits in Political Science is required, including:

a. the Political Science core
b. 2.50 additional credits, at least 1.50 of which must be at the 3000 level or above

Major (Honours Program)
A minimum of 9.00 credits in Political Science is required, including:

a. the Political Science core
b. POLS*3180 and POLS*3650
c. at least 0.50 credits at the 3000 level in three of the four fields in the department
d. 2.00 credits at the 4000 level, two of which may include the POLS*4970/POLS*4980 Honours Thesis **

** Students interested in pursuing graduate or professional studies related to Political Science are encouraged to consider taking the POLS*4970/POLS*4980 Honours Thesis sequence. Interested students must obtain instructor consent in order to register for this option.

Minor (Honours Program)
A minimum of 5.00 credits in Political Science is required, including:

a. the Political Science core
b. POLS*3180
c. 0.50 credits at the 4000 level

Choices for fulfillment of prerequisites for 4000 level courses (see course descriptions for corresponding requirements).

The Department of Political Science offers a comprehensive counselling service for students in Political Science. As part of their program, the department also permits students to include 0.50 credits towards the general degree and 1.00 credits towards the honours degree from an approved list of courses offered by other departments.

Students are encouraged to consult with the departmental advisor for either of these programs about course selection, substitution of courses offered by other departments, or other matters.

Psychology (PSYC)

Department of Psychology, College of Social and Applied Human Sciences

The discipline of Psychology is normally associated with the social sciences, the biological sciences, and the health professions. Specialization in Psychology at Guelph is available as a B.A. honours program major, a B.A. honours program major (co-op), and as an honours specialization in the B.Sc. program (described in the schedule of studies for B.Sc. programs). Through its different undergraduate programs, the Psychology Department attempts to provide a) a broad general education emphasizing psychological theory and methodology, with an empirical basis in course work (e.g. experiments and projects); b) an appropriate background in psychology for those who leave the University with an undergraduate degree to embark on careers in related areas (e.g. social services); and c) a sound preparation for graduate study in psychology. Students intending to apply for admission to graduate programs in Psychology are advised to refer to the Graduate Advisory Note.

A cumulative average of at least 70% in all course attempts in Psychology is required to enter or continue in the Honours Psychology program major in semesters 4, 5, 6, 7, and 8.

Minors

Students interested in a Minor in Psychology should examine the schedule of studies for the Minors in Cognitive Neuropsychology, Developmental Psychology, Educational Psychology, Organizational Behaviour, or Social Psychology. Within the BA Degree program, these are the only Honours Minors available from the Psychology Department. The department does not offer Psychology as an Honours BA Minor, or as an Area of Concentration in the General BA Program.

Note on Honours Courses

Courses marked (H) are designed for students in a psychology honours program, the Information Systems and Human Behaviour program, the Developmental Psychology Minor program, the Educational Psychology Minor program, the Organizational Behaviour...
Minor program, the Social Psychology program, the Cognitive Neuropsychology Minor program, or Human Resources Management major of the Bachelor of Commerce program. Students in other programs wishing to take these courses must obtain the permission of the instructors concerned. Unless otherwise specified, all other courses may be taken by general, honours, and students from other programs, providing the prerequisites are met. Courses designated with (H) are Honours level courses requiring for registration a cumulative average of at least 70% in all course attempts in Psychology, or registration in either the HRM Major or ISHB Major.

Core Requirements
Each of the Psychology programs requires that students complete at least 6 of the following 2000 level Psychology courses (3.00 credits). Psychology students are advised that they are normally expected to complete at least four 2000 level Psychology core courses prior to attempting any 3000 level Psychology courses.

However, students should take the 3000 level methodology courses PSYC*3320(H), PSYC*3370(H) and PSYC*3380 (H) as early as possible, even though 4 core courses may not have been taken.

PSYC*2310 [0.50] Introduction to Social Psychology
PSYC*2320 [0.50] Principles of Learning
PSYC*2390 [0.50] Principles of Sensation and Perception
PSYC*2410 [0.50] Behavioural Neuroscience I
PSYC*2450 [0.50] Introduction to Developmental Psychology
PSYC*2650 [0.50] Cognitive Psychology
PSYC*2740 [0.50] Personality

Major (Honours Program)
A minimum of 9.00 credits in Psychology is required, including (see notes below):
PSYC*1100 [0.50] Principles of Behaviour
PSYC*1200 [0.50] Dynamics of Behaviour
6 of the 2000 level Psychology core courses listed above
PSYC*2010 [0.50] Quantification in Psychology
PSYC*2360 [0.50] Introductory Research Methods
PSYC*3250 [0.50] Psychological Measurement
PSYC*3320 [0.50] Statistical Principles in Psychological Research

1.50 additional credits at the 3000 level or above: Students electing to take PSYC*3370 and PSYC*3380 will need to select only 0.50 additional credits at the 3000 level or above in order to satisfy this requirement. (see Graduate Advisory Note).
1.50 additional psychology credits at the 4000 level (See Graduate Advisory Note).

Notes:
1. PSYC*2010 should normally be completed by the end of semester 3
2. PSYC*2360 should normally be completed by the end of semester 4
3. PSYC*3320 SHOULD NORMALLY BE COMPLETED BY THE END OF SEMESTER 4.
4. NOTE: that PSYC*3320 is a prerequisite for PSYC*3370 and PSYC*3380 and that PSYC*3320 is an (H) designated course.

Note: The regulations of the B.A. program govern the number of credits that must be taken at the 3000 level or above (see B.A. Program Regulations). With permission of the Psychology Department PRIOR to course selection, up to 1.00 non-psychology credits that would enhance the student's studies in Psychology, especially in preparation for post-graduate work, may be credited towards the total number of credits required for graduation in the honours program major in Psychology.

Graduate Advisory Note: Most graduate programs require the student to have at least a B+ average in order to be considered for admission. Students contemplating graduate work in Psychology are strongly advised to complete the major by completing 0.50 electives credits at the 3000 level or above and 0.50 elective credits at the 4000 level beyond PSYC*4870 and PSYC*4880 which would otherwise satisfy the 3000-4000 level elective requirement for the major.

These students are encouraged to complete the Psychology major as follows:

a. PSYC*1100 and PSYC*1200
b. 6 of the 2000 level Psychology core courses
c. PSYC*2010 and PSYC*3320
d. PSYC*2360 and PSYC*3370 and PSYC*3380
e. an additional 0.50 credits in Psychology at the 3000 level or above
f. PSYC*3250
g. PSYC*4370 or PSYC*4900
h. 0.50 electives at the 4000 level
i. PSYC*4870 plus PSYC*4880

Students should note that an Honours Thesis is normally taken as a Fall-Winter sequence worth the equivalent of 1.50 credits toward the 20.00 credits Honours B.A. degree requirements.

Psychology (Co-op) (PSYC:C)

Department of Psychology, College of Social and Applied Human Sciences

Co-operative Education formally integrates the student's academic study with 3 work terms (COOP*1000, COOP*2000, COOP*3000) in co-operating employer organizations. The Co-op program is offered as a B.A. honours program major degree taken as one of two major options combined with 3 work terms. One of the options is recommended for Co-op students expecting to apply for admission to graduate studies in Psychology. (See Graduate Advisory Note.)

All Co-op students are strongly advised to complete the B.A. requirements by including in their program 3 or more courses from the listing of courses under Business Administration, to ensure that they have 1 or more courses in computer science, accounting and management, or organizational behaviour. (Business Administration is also available as a minor.) Although not required, Co-op students are strongly encouraged to select a minor as part of the program.

Depending on career aspirations, students should have a good working knowledge of one or more of the following before their first work semester: psychological measurement, quantitative methods, computer science, accounting and management, or organizational behaviour.

The first work term normally follows 3 or 4 semesters of academic study (see Section X-Co-operative Education Programs). Students must be eligible to continue in the Honours Psychology program in order to remain in the Co-op program.

Admission to the Co-op program is limited and will be based on academic background. Admission will normally be considered only at semester 1 entry or during semester 2 when the student selects courses for semester 3.

Note: Courses designated with (H) in Section XII--Course Descriptions are Honours level courses requiring for registration a cumulative average of at least 70% in all course attempts in Psychology.

Major (Honours Program) - Stream A

The following Co-op schedule of studies is for students not intending to apply for admission to graduate programs in Psychology (includes 3 work terms).

Note: When selecting core and elective credits the student should keep in mind the prerequisites for their desired 3000 and 4000 level courses. When selecting courses beyond Psychology the student should keep in mind both their second specialization and courses appropriate for potential work-term placements.

Semester 1 - Fall
PSYC*1100 [0.50] Principles of Behaviour
PSYC*1200 [0.50] Dynamics of Behaviour

*at least 1.00 of the elective credits in semester 5, 6, 7, or 8 must be a 3000 level or above Psychology elective (and include either PSYC*4370 or PSYC*4900). The total of electives should include the B.A. program distribution requirements and the completion of the total number of credits required at the 3000 level or above required by the B.A. degree.

**the schedule for COOP*3000 and semester 7 requirements can be exchanged

Rural and Development Sociology (RDS)

Department of Sociology and Anthropology, College of Social and Applied Human Sciences

The program of Rural and Development Sociology focuses on the study of rural institutions and processes in industrialized societies with an emphasis on changes in rural communities, agriculture and natural resources, including historical and comparative analyses of the development of rural life. It provides students with major research and conceptual tools needed for the understanding of rural transformation, their interdependence with the natural environment and with urban society.
The Spanish Studies program encourages its students to take advantage of the University of Guelph’s exchange programs and the semester abroad opportunities. Exchange programs with the University of Guadalajara and the University of La Rioja in Spain and with the Instituto Tecnológico y de Estudios Superiores de Monterrey (ITESM) in Mexico are very popular. Students also enjoy the semester abroad opportunity every second winter in Guatemala.

Study Abroad

The Spanish Studies program enables students to concentrate on the Spanish language and on Spanish and Latin American literature. Language courses provide study of the grammatical concepts required to establish and enrich reading, writing, oral and aural skills from basic through advanced levels of study. Through literature and film, students are introduced to a variety of cultural, historical, social, and political topics.

The usual first course in Spanish is SPAN*1100. Students with 4U Spanish commonly take SPAN*2000. They may be admitted into SPAN*1110 only with the approval of the Instructor or the Faculty Advisor. Students with native or near native fluency normally take SPAN*2000. They may be admitted into SPAN*1110 only with the approval of the Instructor or the Faculty Advisor.

All language students are strongly advised to include CLAS*1000 and LING*1000, among their electives in order to derive the maximum benefit from their studies.

Area of Concentration (General Program)

A minimum of 5.00 credits in Sociology and Anthropology is required, including:

- at least 1.00 credits at the 3000 level or above

The following courses may be used toward a sociology specialization:

FRHD*3060 [0.50] Principles of Social Gerontology
ISS*2990 [0.50] Introduction to Marx
PHIL*2180 [0.50] Philosophy of Science

Minor (Honours Program)

A minimum of 5.00 credits in Sociology and Anthropology is required, including:

- at least 1.00 credits at the 3000 level or above

The following courses may be used toward a sociology specialization:

FRHD*3060 [0.50] Principles of Social Gerontology
ISS*2990 [0.50] Introduction to Marx
PHIL*2180 [0.50] Philosophy of Science

Spanish (SPAN)

School of Languages and Literatures, College of Arts

The Spanish Studies program encourages students to take advantage of the University of Guelph’s exchange programs and the semester abroad opportunities. Exchange programs with the University of Guadalajara and the University of La Rioja in Spain and with the Instituto Tecnológico y de Estudios Superiores de Monterrey (ITESM) in Mexico are very popular. Students also enjoy the semester abroad opportunity every second winter in Guatemala.

It is recommended that students go on exchange in their third year. In order to be eligible for an exchange, students should have completed at least SPAN*2010, SPAN*2990 and SPAN*2040 and SPAN*3080. Credits successfully completed at the host university are applied towards University of Guelph degree requirements. Please see the International Study section of the undergraduate calendar and consult the Coordinator of Spanish for more information.

Studio Art (SART)

School of Fine Art and Music, College of Arts
The School offers programs that allow for concentrated study in Art History or in Studio Art, or for a more balanced study in the two disciplines. Both programs, however, require work in both Studio Art and Art History. Specific requirements are listed below.

Cost of Studio Supplies
The majority of the cost of supplies must be borne by the student. In order to permit the University to subsidize this cost and to allow for savings through discount buying, some materials are obtained through the school by payment of a lab fee. The amount of the fee is established for each semester prior to registration.

Student Counselling
The students who elect to take a substantial number of credits in either Art History or Studio Art with the objective of graduate work are advised to obtain counselling from faculty regarding their choices. However, in general, it is important to know that graduate studies in Art History will usually require a reading knowledge of at least 2 languages other than English, German, French, Italian and Latin are among the most useful choices. Cognate electives in other disciplines in the College of Arts (such as History) will almost certainly prove an asset. A Studio career to the graduate level will normally require some studies in Art History will usually require a reading knowledge of at least 2 languages

Core Requirements
ARTH*1220 [0.50] The Visual Arts Today
ARTH*1520 [0.50] Art Historical Studies II
SART*1050 [0.50] Integrated 2-D Media
SART*1060 [0.50] Media Convergence

Major (Honours Program)
A minimum of 9.00 credits is required, including:
a. the Studio Art core
b. 2.00 additional credits in Studio Art, including at least 0.50 credits from List A and 0.50 from List B
c. 2.00 additional credits in Art History including:
i. 0.50 credits in Western Art and Cross-Cultural Perspectives: (ARTH*2150, ARTH*2280, ARTH*2290, ARTH*2540, ARTH*2550, ARTH*2580, ARTH*2600, ARTH*2650, ARTH*3150).
ii. 0.50 credits in Art History from 3000-level thematic courses: (ARTH*3100, ARTH*3200, ARTH*3320, ARTH*3330, ARTH*3340, ARTH*3520).
iii. 0.50 credits in Visual Arts of the Americas: (ARTH*2050, ARTH*2060, ARTH*2070, ARTH*2490, ARTH*3010, ARTH*3050, ARTH*3060).
iv. 0.50 credits in Art Theory, Critical Methodology and Museology (ARTH*2120, ARTH*2480, ARTH*3210, ARTH*3220, ARTH*3780).
d. 3.00 additional credits in Studio Art including 1.50 credits at the 4000-level.

Minor (Honours Program)
A minimum of 6.00 credits is required, including:
a. the Studio Art core
b. 0.50 credits in Studio Art or Art History at the 4000 level
c. 1.50 additional credits in Art History, including:
i. 0.50 credits in Western Art and Cross-Cultural Perspectives: (ARTH*2150, ARTH*2280, ARTH*2290, ARTH*2540, ARTH*2550, ARTH*2580, ARTH*2600, ARTH*2650, ARTH*3150).

Notes:
1. Students in the Art History Major or Minor cannot count more than 11.00 credits in Art History or 11.00 credits in Studio Arts towards their honours degree.
2. Details of advanced standing for transfer students from the Ontario College of Art and Design (OCAD) can be found in the section on Admission Information.

3. In accordance with the B.A. program regulation limiting the number of credits to be taken in any subject area, OCAD graduates granted the maximum advanced standing of credits in Studio Arts will be limited to 2.00 additional credits in Studio Arts at the University of Guelph.

4. A cumulative average of at least 70% in all course attempts in Studio Arts and Art History is required in order to enter or continue in the Honours Studio Arts program.

5. Students in SART can fulfill one of the natural and mathematical sciences B.A. distribution requirements with HK*2100. This credit cannot be used towards the SART major.

**Theatre Studies (THST)**

School of English and Theatre Studies, College of Arts

The Theatre Studies program is a component of a liberal education, and is dedicated to integrating academic study and theatre practice. The program offers introductory and advanced courses in dramatic literature, theatre history, criticism and theory, together with directing, acting, design, technical theatre, playwriting, and media studies.

The program has a special interest in the drama and theatre of Canada. Course offerings reflect this interest where appropriate.

**Notes:**

1. A maximum of 2.00 credits in Directed Readings or Special Studies Courses (THST*3410, THST*3420, THST*3600, DRMA*3610) is allowed in the honours program major. A maximum of 1.00 credits in such courses is allowed in honours program minor or the general program area of concentration. Students will normally be permitted to take only 0.50 credits in Directed Readings or Special Studies courses per semester.

2. Certain approved Dramatic Literature courses from the English Program within the School of English and Theatre Studies or other departments may be counted towards a degree in Theatre Studies. A list of approved courses may be obtained from the School of English and Theatre Studies' website: http://www.arts.uoguelph.ca/sets/.

3. In accordance with THST*1040 and some seminar courses, students are required as part of the course to attend various specified theatre performances in cities such as Toronto, Stratford, Niagara-on-the-Lake, and London. A special fee is charged for travel to these performances and students will be notified during the first week of classes of the amount of this fee and the dates of the performances.

4. In any given semester, a student may not enroll in more than ONE production-related course at a time. These are THST*2230, THST*3110, THST*3220, THST*3230, THST*3410, THST*3420, THST*4090, THST*4250, THST*4280.

**Area of Concentration (General Program)**

A minimum of 5.00 credits in Theatre Studies is required, including:

a. THST*1040, THST*2010, THST*2080, THST*2120, THST*2230, THST*2240, THST*3550, THST*3850
b. at least one of THST*3650, THST*3660
c. 0.50 other credits in Theatre Studies

**Major (Honours Program)**

A minimum of 9.00 credits in Theatre Studies is required, including:

a. THST*1040, THST*1150, THST*2010, THST*2080, THST*2120, THST*2230, THST*2240, THST*3550, THST*3850, THST*4280
b. one of THST*3650 or THST*3660
c. at least one of THST*4320 or THST*4330
d. 2.00 other credits in Theatre Studies

**Minor (Honours Program)**

A minimum of 5.00 credits in Theatre Studies is required, including:

a. THST*1040, THST*2010, THST*2080, THST*2120, THST*2230, THST*2240, THST*3550, THST*3850
b. one of THST*3650 or THST*3660
c. 0.50 other credits in Theatre Studies

**Visual Arts of the Americas (VAA) (Minor)**

School of Fine Art and Music

The Minor program in Visual Arts of the Americas enables students to study the art history of Canada, the United States, and Central and South America as an integrated field where certain basic conditions are shared: the existence of aboriginal traditions persisting from the pre-conquest period, the confrontation of a variety of European, African and Asian cultural heritages, and a continuing post-colonial evolution producing hybrid cultural identities.

This program of study is designed as a complement to a significant number of Major specialization, suitable for any student wishing to broaden their knowledge beyond their Major area of study.
SOAN*4240  [0.50] Women and the Development Process
THST*3300  [0.50] Sexuality and The Stage
WMST*3510  [0.50] Directed Readings in Women's Studies
WMST*3520  [0.50] Independent Workplace Learning in Women's Studies
WMST*4510  [0.50] Advanced Topics in Women's Studies
WMST*4520  [0.50] Advanced Topics in Women's Studies

An independent study or reading course on an appropriate topic from any subject area of the College of Arts or the College of Social and Applied Human Science may also be included in the program.
Bachelor of Arts and Sciences (B.A.S)

The University of Guelph offers an 8 semester (20.00 credits) honors program leading to a Bachelor of Arts and Sciences (B.A.S.) degree.

The Bachelor of Arts & Sciences program is designed for students who are motivated equally by the study of Arts/Social Sciences and the Sciences, and who find challenge and satisfaction in testing the traditional boundaries of study through undergraduate level interdisciplinary work. The program meets these objectives through a unique structure that accredits students in an Arts/Social Sciences core, a Sciences core, a Subject Area core of interdisciplinary humanities and sciences courses (ASCI*), and a minor in each of the Arts/Social Sciences and the Sciences (see below for choices of minors). The structure of the program ensures disciplinary rigour and breadth through completion of core requirements for a B.A.S. degree, concentration in two distinct minors, and concentration of learning in an academic cohort of B.A.S. students through the interdisciplinary ASCI courses in the B.A.S. core. This core is open only to students in the B.A.S. program.

Program Information

Academic Counselling

The B.A.S. program counsellor assists students in the selection of minors, interpreting program and academic regulations, and with the selection of appropriate courses for chosen minors and distribution requirements. Students should consult the counsellor when experiencing particular difficulties affecting academic standing and progress through the program. Students are encouraged to check the B.A.S. program website regularly for course information and cross-listing of acceptable credits where appropriate.

Counselling on Minors

Academic departments offer the minors in the B.A.S. program and assign faculty advisors to assist students with academic planning (e.g., a faculty advisor in the History department handles queries about a minor in History). Students should consult the appropriate faculty advisor, along with the B.A.S. Program Counsellor, when declaring a minor or requiring advice on the completion of specialization requirements. The list of faculty advisors is available on the Undergraduate Academic Information Centre website: http://www.uoguelph.ca/uaic/students_faculty.shtml or contact the B.A.S. Program Counsellor for further information.

Continuation of Study

To be eligible to continue in the program, students must meet the requirements for Continuation of Study as noted in Section VIII—Undergraduate Degree Regulations & Procedures of this calendar (Schedules 1 and 2).

Conditions for Graduation

To qualify for the degree Bachelor of Arts and Sciences, the student must successfully complete a minimum of 20.00 credits as identified below. In addition, students must meet the continuation of study requirements at the time of graduation and have a 60.00% cumulative average.

Distribution Requirements

This program will require the completion of 20.00 credits as indicated below, with a maximum of 7.00 credits at the 1000 level. First year core courses may be counted towards the minors.

1. First Year Core - 4.00 credits

Science Core - 2.00 credits including:
BIOL*1030 [0.50] Biology I
CHEM*1040 [0.50] Chemistry I

One of:
MATH*1080 [0.50] Elements of Calculus I
MATH*1200 [0.50] Calculus I

One of:
PHYS*1000 [0.50] An Introduction to Mechanics
PHYS*1070 [0.50] Introductory Physics for Life Sciences

Arts and Social Sciences Core - 2.00 credits including:
a. 1.00 credits over at least 2 different subject areas in the College of Arts: ARTH - Art History; CLAS - Classical Studies; DRMA - Drama; ENGL - English; EURO - European Studies; FREN - French Studies; GERM - German Studies; GREK - Greek; HIST - History; HUMN - Humanities; ITAL - Italian Studies; LAT - Latin Studies; LING - Linguistics; MUSC - Music; PHIL - Philosophy; SART - Studio Art; SPAN - Spanish Studies; WMST - Women's Studies
b. 1.00 credits over at least 2 different subject areas in the College of Social and Applied Human Sciences: ANTH - Anthropology; ECON - Economics; GEOG - Geography; IDEV - International Development Studies; ISS - Interdisciplinary Social Science; POLS - Political Science; PSYC - Psychology; SOAN - Sociology and Anthropology; SOC - Sociology.

2. Subject Area Core - 3.00 credits

• 1.50 credits from:
ASCI*1000 [0.50] Society and Science I: Historical Perspectives
ASCI*1010 [0.50] Society and Science II: Current Issues
ASCI*2000 [0.50] Modes of Inquiry and Communication Across Disciplines

• 0.50 credits from:
ASCI*3000 [0.50] Arts and Sciences Community Project
ASCI*3100 [0.50] Case Studies in Arts and Sciences Research
ASCI*3700 [0.50] Independent Studies in Arts/Sciences

1.00 credits from:
ASCI*4000 [0.50] Arts and Sciences Honours Seminar
ASCI*4010 [0.50] Arts and Sciences Honours Research Seminar
ASCI*4020 [0.50] Topics in Arts and Sciences Research
ASCI*4030 [0.50] Topics in Arts and Sciences Research
ASCI*4700 [0.50] Independent Studies in Arts/Sciences
ASCI*4710 [0.50] Independent Studies in Arts/Sciences

Note: Of the 20.00 credits required for this program, 3.00 credits must be completed at the 3000 or 4000 level, and 2.00 credits at the 4000 level. This requirement is partially fulfilled by senior level courses in the Subject Core (ASCI) requirements.

3. Arts/Social Sciences Minors - 5.00 credits

Minors available in the Arts/ Social Sciences core (see B.A. program descriptions):
Anthropology
Art History
Art Theory and Criticism
Business Administration
Classical Languages
Classical Studies
Cognitive Neuropsychology
Criminal Justice & Public Policy
Developmental Psychology
Economics
Educational Psychology

4. Science Minor - 5.00 credits

Minors available in the Science core (see B.Sc. program descriptions):
Agriculture
Biochemistry
Biology
Biotechnology
Chemistry
Computing & Information Science
Ecology
Food Science
Forest Science
Functional Foods & Nutraceuticals
Geology
GIS* & Environmental Analysis
Mathematics
Microbiology
Molecular Biology and Genetics
Neuroscience
Nutritional Sciences
Plant Biology
Physics
Psychology
Statistics
Zoology

* Geographic Information Systems

5. Free Electives - 3.00 credits (maximum)
The program includes 3.00 free electives. Electives may be completed in any subject area. The number of free electives is reduced if a minor requires more than 5.00 credits.
This program includes 3.00 credits at the 3000 or 4000 level, including 2.00 credits at the 4000 level. This requirement is partially fulfilled by senior level courses in the Subject Area Core (ASCI) requirements.
A maximum of 7.00 credits at the 1000 level may be counted toward the 20.00 credits requirement.
Students cannot, of course, select Psychology for both their B.Sc. and B.A. minors.

Double Counting Rule
A maximum of 2.00 credits may be double-counted. 1.00 credits may be double-counted between the core and one minor. 1.00 credits may be double-counted between the two minors. If a course is double-counted towards both the core and one minor, it cannot be counted towards the second minor.
Bachelor of Bio-Resource Management Degree (B.B.R.M.)

The University of Guelph, in collaboration with the regional campuses at Ridgetown and Kemptville, offers a 20.00 credit program, normally completed over 8 semesters, leading to a Bachelor of Bio-Resource Management degree (B.B.R.M.). This degree was designed for students who do not intend to pursue post-graduate studies and are strongly focused on securing employment that makes use of the knowledge acquired in their bachelor's degree.

This degree is a unique blend of applied and theoretical learning, with an emphasis on experiential learning opportunities. At the present time, two majors, Environmental Management and Equine Management, are available in the program through University of Guelph's Ridgetown campus and Kemptville campus respectively with Semester 5 to 8 offered at the Guelph campus.

Program Information

The Bachelor of Bio-Resource Management degree program combines business studies and technical training with a strong emphasis on hands-on learning. A solid foundation in applied aspects of science, technology and business provides graduates with sufficient breadth and expertise to become competent managers in the environmental or equine fields. Students begin studying in one of the following management majors during the first semester: Environmental Management, Equine Management. The first 10.00 credits of the Environmental Management Major are available through the Ridgetown campus and the first 10.00 credits of the Equine Management Major are available through the Kemptville campus. The additional 10.00 credits for both majors are available through the Guelph Campus.

Students will be encouraged to integrate their academic program with a well-structured series of employment activities in the summer months and to develop their leadership and interpersonal skills in on-campus and community activities. There is a strong commitment in the curriculum to personal development and students are encouraged to identify goals that they wish to accomplish throughout their university career.

Academic Advising and Counselling

Program Counselling

Program Counsellors are available at both the Ridgetown, Kemptville and Guelph campuses to assist in-course students who require information or advice about their program or other academic regulations and who seek information about resources available to students. For information about how to contact a program counsellor, and for more information about program counselling, see Section VII -- Academic Counselling of the current Undergraduate Calendar.

Departmental Advising

On entering the program all students are assigned to a faculty advisor who will mentor them throughout their first two years. The faculty advisor is familiar with the academic requirements of the program and is aware of career opportunities. Students are strongly encouraged to attend all meetings called by their advisor, and to set up individual meetings with him/her when they have questions or concerns about their performance or progress in the program.

Continuation of Study

Students are advised to consult the regulations for Continuation of Study which are outlined in detail in Section VIII -- Undergraduate Degree Regulations & Procedures in the current calendar.

Conditions for Graduation

To qualify for the degree Bachelor of Bio-Resource Management, the student must successfully complete a minimum of 20.00 credits as set out in the Schedule of Studies as listed. In addition, students must meet the continuation of study requirements at the time of graduation and have a minimum cumulative average of 60%.

Schedule of Studies

Courses specified in the Schedule of Studies are required courses and must be successfully completed. A full time course load normally includes 2.50 credits. Students must successfully complete a minimum of 4.00 university credits and/or course equivalents at the 3000 level or higher, of which at least 2.00 credits must be at the 4000 level.

Special Expenses

Expenses for field trips and labs can range from $20 to $100 per semester. In certain courses modest expenses will be incurred for supplies. Equine Management students are welcome to board horses at local facilities. Please contact the Kemptville Registrar, Heather Buck at Heather Buck <hbuck@kemptville.uoguelph.ca> for a listing of boarding facilities.

B.B.R.M. Program Regulations

Entry Credits

OSS Curriculum: Grade 4U English; Grade 4U Biology; 4 additional 4U or 4U/C credits.

Recommendations and Notes:

It is recommended that applicants include 4U level science or math in their course of study. Students entering the degree program who are deficient in U level Mathematics or Chemistry should consult with the program counsellor. Summer semester courses will be available through a Ridgetown campus Summer Institute, Distance Education or other means. It is recommended that prior to enrolment in the degree program, students lacking Grade 12U Advanced Functions and Introductory Calculus enrol in the non-credit course “Getting Ready for Calculus” offered through the Office of Open Learning.

Environmental Management Major (EM)

Department of Food, Agricultural and Resource Economics

This major will require the completion of 20.00 credits.

Semesters 1 to 4 offered at the Ridgetown campus

Semester 1 - Fall

CIS*1000 [0.50] Introduction to Computer Applications
ENVM*1000 [0.50] Introductory Environmental Science
ENVM*1050 [0.50] Surveying and GIS
ENVM*2020 [0.50] Environmental Law
SOIL*2010 [0.50] Soil Science

Semester 2 - Winter

AGEC*1100 [0.50] Introduction to Business
AGR*1050 [0.50] Communication Skills
ECON*1050 [0.50] Introductory Microeconomics
ENVM*1020 [0.50] Introduction to Environmental Microbiology
0.50 restricted electives

Semester 3 - Fall

BIOI*1030 [0.50] Biology I
CHEM*1040 [0.50] General Chemistry I
ENVM*1090 [0.50] Occupational Health and Safety
ENVM*1100 [0.50] Ecology
0.50 restricted electives

Semester 4 - Winter

AGR*2100 [0.50] Human Resource Management
BIOI*1040 [0.50] Biology II
ENVM*1150 [0.50] Water Resource Management
ENVM*2500 [0.50] Integrated Project (Environmental)
0.50 restricted electives

Restricted Electives Available at Ridgetown:

ENVM*1070 [0.50] Nutrient Management

Bachelor of Commerce (B.Comm.)

The University of Guelph offers an eight semester (20.00 credits) honours program leading to a Bachelor of Commerce degree (B.Comm.). The normal course load is 2.50 credits per semester for a full-time student. The program is of an interdisciplinary nature and designed to give students a sound professional management education with a focus on specific industry sectors or management functions which prepare the graduates for positions of responsibility in particular areas of management and business.

Given the professional and applied nature of the program, there are no double majors or minors associated with the degree. Elective options enable students to select courses which support or complement their primary field of study.

Students begin studying in one of the following eight specialized management majors during the first semester:
- Agricultural Business*
- Hotel and Food Administration*
- Human Resources Management
- Management Economics in Industry and Finance*
- Marketing Management*
- Public Management*
- Real Estate and Housing*
- Tourism Management

Co-operative Education is available in the majors denoted by an asterisk (*).

In addition to specializing in a major area of study, a B.Comm. core ensures that each major also provides a comprehensive commerce education to all students in the program. Common core elements spanning each of the majors includes:
- Accounting (1.00 credits)
- Economics (1.00 credits)
- Finance (1.00 credits)
- Information Management (0.50 credits)
- Marketing (0.50 credits)
- Statistics (0.50 credits)
- Operations Management (0.50 credits)
- Strategy/Business Policy (0.50 credits)
- Organizational Behaviour (0.50 credits)
- Law (0.50 credits)
- Liberal Education Requirement (1.50 credits)*

* (see advisory note)

Program Information

Academic Counselling

Program Counselling

Students are urged to seek the assistance of the counsellors in the B.Comm. Counselling Office regarding their program and academic regulations, course selection issues, services and resources, and when they are experiencing difficulties that affect their academic progress.

Departmental Advising

On entering the program, all students are assigned to a departmental Faculty Advisor by major. Students should seek the advice of the Faculty Advisor when they have questions or concerns about courses and academic requirements for their program/major. The Faculty Advisor is also knowledgeable about career opportunities which relate to a student's specific major. The list of Faculty Advisors is available on the Undergraduate Academic Information Centre website: http://www.uoguelph.ca/uaic/students_advisors.shtml or contact the B.Comm. Counselling Office for further information.

Special Expenses

Expenses may include cost of field trips and supplies and, for some majors, laboratory coats and other protective clothing.

Study at Other Universities

Students contemplating study at another university for credit towards a Bachelor of Commerce degree at the University of Guelph should refer to the general regulations governing Letters of Permission in Section VIII--Degree Regulations and Procedures in this calendar.

Students must obtain approval for the Letter of Permission prior to undertaking studies at another institution. Approval of the request depends on good standing in the program with a minimum cumulative average of 60%.

The total limit of credits taken on a Letter of Permission is 2.50 based on the University of Guelph's credit system.

Study Abroad

Global understanding and perspectives are regarded as being of central importance among the university's learning objectives, as they are, also, in understanding the international business environment. On both of these accounts, students enrolled in the B.Comm. program are urged to participate in one of the several exchange and study abroad programs specifically designed for the Commerce program. Planning for such participation is best undertaken quite early in the course of studies. For more specific information on possible opportunities refer to Section V--International Study of the calendar or contact the B.Comm. program counsellor.

Continuation of Studies

Students are advised to consult the regulations for Continuation of Study within the program which are outlined in detail in Section VIII--Undergraduate Degree Regulations and Procedures

Conditions of Graduation

To qualify for a Bachelor of Commerce degree, the student must satisfy the following conditions:

- The student must successfully complete 1.50 credits from the Liberal Education Requirement list.
- The student must successfully complete a minimum of 20.00 approved credits, in accordance with the Schedule of Studies for the specified major, including the Liberal Education Requirement.
- Students will not be eligible to graduate while on probationary or required-to-withdraw status.

Liberal Education Requirement

The Liberal Education Requirement is designed to provide the student with exposure to and some understanding of a range of disciplines in the Arts, Social Sciences and Mathematical and Natural Sciences.

The Liberal Education Requirement of 3 courses (1.50 credits) must be from at least two of the following prefixes:
- ANSC Animal Science
- ANTH Anthropology
- ARTH Art History
- BIOL Biology
- BIOM Biomedical Sciences
- BOT Botany
- CHEM Chemistry
- CIS Computing and Information Science
- CLAS Classical Studies
- CROP Crop Science
- EDRD Environmental Design and Rural Development
- ENGL English
- ENVB Environmental Biology
- EURO European Studies
- FOOD Food Science
- FREN French Studies
- FRHD Family Relations and Human Development
- GEOG Geography
- GEOL Geology
- GERM German Studies
- GREE Greek
- HIST History
- HUMN Humanities
- IDEV International Development
- ISS Interdisciplinary Social Science
- ITAL Italian Studies
- LAT Latin
- LING Linguistics
- MATH Mathematics
- MBG Molecular Biology and Genetics
- MUSC Music
- NUTR Nutrition
- PHIL Philosophy
- PHYS Physics
- POLS Political Science
- PSYC Psychology
- SART Studio Art
- SOAN Sociology and Anthropology
- SOIL Soil Science
- SOC Sociology
- SPAN Spanish Studies
- THST Theatre Studies
Double Counting of Courses

Double counting is not permitted within the B.Comm. Program. For example, students can not use courses required in their schedule of studies to meet the Liberal Education Requirement.

Schedule of Studies

Courses specified in the schedule of studies are required courses and must be completed successfully. A full course load normally involves 2.50 credits per semester. Part-time study is also possible although students should discuss this option with their Program Counsellor or Faculty Advisor.

Agricultural Business (AGBU)

Department of Food, Agricultural and Resource Economics, Ontario Agricultural College

The Agricultural Business major is concerned with the management problems of business firms and prepares students for a range of management careers in agribusiness. Graduates of the Agricultural Business program meet the educational requirements for membership in the Ontario Institute of Agrologists. The Ontario Institute of Agrologists is the professional organization in agriculture in the Province of Ontario. Professional institutes in the various provinces in Canada and the scientific societies in agriculture collectively comprise the Agricultural Institute of Canada. The program has been fully accredited by the Agricultural Institute of Canada.

Included in the core requirements, the Agricultural Business program provides students with the option of selecting from the Restricted Electives list courses that will compliment their studies. The first option (List A) is designed for students more interested in the business relationships of farming and involves marketing and advanced farm management. The second option (List B) emphasizes the production aspects of farming and involves biology and either animal or plant systems.

The major is administered by the Department of Food, Agricultural and Resource Economics in the Ontario Agricultural College and students are urged to consult the departmental advisor. For this major, 15.00 of the 20.00 credits (including 2.00 credits from List A) are specified as core requirements and the remaining 5.00 credits are specified as electives.

Liberal Education Requirement

As part of the graduation requirement all students within the B.Comm. Program are required to complete 1.50 credits from at least two different subject prefixes as listed under the B.Comm. Program Information section of the undergraduate calendar.

Hotel and Food Administration (HFA)

School of Hospitality and Tourism Management, College of Management and Economics

The School of Hospitality and Tourism Management, College of Management and Economics, offers a Bachelor of Commerce (B.Comm.) degree with a major in Hotel and Food Administration (HFA). The major prepares graduates to assume positions of responsibility in any aspect of the hospitality field. It includes principles of administration, theories of interpersonal relations, human resources management, and communications. Distinctive courses include Hospitality Facilities Management and Design and Lodging Management. The courses in this program relate to the management of both the accommodation and food service facilities used by the public and private sector. The major is administered by the School of Hospitality and Tourism Management. Students may consult the Faculty Advisor or the B.Comm. Program Counsellor for additional information.

For this major, 15.00 of the 20.00 credits are specified as core requirements, 2.50 as restricted electives, and 2.50 electives (including the Liberal Education Requirements of 1.50 credits.) Verified work experience in the hospitality industry is required for students to be eligible for graduation.

Group work is a significant part of core credit work.

A feature of the program is a required applied research course, where students conduct group projects in workplace settings under the direction of a faculty member. Presently the HRM program meets the academic requirements for seven out of nine Compulsory Subjects as set out by the Human Resources Professionals Association of Ontario. Students who are interested in completing the remaining two Compulsory Subjects should speak to the HRM Faculty Advisor or B.Comm. Program Counsellors for additional information and guidance on the options available.

For this major, 15.00 of the 20.00 credits are specified as core requirements and the remaining 5.00 as electives. A list of suggested electives follows the description of required courses.

Note: Psychology Courses designated with (H) in Section XII--Course Descriptions are Honours level Psychology courses requiring for registration a cumulative average of at least 70% in all course attempts in Psychology or registration in the Human Resources Management major of the Bachelor of Commerce program.

### Liberal Education Requirement

As part of the graduation requirement all students within the B.Comm. Program are required to complete 1.50 credits from at least two different subject prefixes as listed under the B.Comm. Program Information section of the undergraduate calendar.

### Management Economics in Industry and Finance (MEIF)

#### Department of Economics, College of Management & Economics

The Management Economics in Industry and Finance major is designed to offer students an appreciation of business problems in the areas of industrial organization and finance using the analytical orientation of the discipline of Economics and the tools of Business Management, Marketing and Accounting. This major combines the applied thrust of business courses with the analytical rigor of Economics. The major provides a suitable education for a career in the business world or in the public service. It also constitutes a useful preparation for more advanced studies, including graduate studies in Economics, Business Administration, Law, and Public Policy. The major is administered by the Department of Economics and students are urged to consult the faculty advisor.

In addition to the Management Economics in Industry and Finance core, students will choose their restricted electives from the List of Restricted Electives. In selecting the restricted electives, students have a choice of either following a program of studies that covers a wide spectrum of topics in the areas of Industry and Finance or declaring an Area of Emphasis if they wish to pursue the study of Industry or Finance in more depth. Students that identify an Area of Emphasis will choose their restricted electives from the appropriate list of restricted electives below. Students wishing to have an Area of Emphasis are encouraged to declare their Area of Emphasis by Semester 4, in order to facilitate the availability of restricted electives. A planning guide is available in the department. Students should note that most courses carry prerequisites and that ECON*1050 and ECON*1100 are normally prerequisites for all other courses in Economics.

Students who fail any Economics course twice or who do not achieve a 65% average in Economics courses taken during the first 4 semesters in this major are likely to encounter difficulties in the more advanced courses. They are strongly advised to consult the faculty advisor in Economics to discuss the options available.

For this major, 10.00 credits are specified, 5.00 are restricted electives and 5.00 are free electives. (1.5 Liberal Education Requirement; 2.00 free electives).

#### Liberal Education Requirement

As part of the graduation requirement all students within the B.Comm. Program are required to complete 1.50 credits from at least two different subject prefixes as listed under the B.Comm. Program Information section of the undergraduate calendar.

Management Economics in Industry and Finance (Co-op) (MEIF:C)

Department of Economics, College of Management & Economics

A principal aim of the Co-op program in Management Economics in Industry and Finance is to facilitate the transition of students from academic studies to a professional career by enhancing the integration of theory and practice.

The Co-op program consists of two eight month work terms. The first work term begins after the second year and extends from January to August. The Co-op program is normally completed over a 5 year period.

To be eligible to continue in the Co-op major, students must maintain a satisfactory average, must complete all course requirements as scheduled and must obtain a minimum evaluation of "satisfactory" on all required work term reports. Consult the Co-op advisor or Department for additional program information.

Liberal Education Requirement

As part of the graduation requirement all students within the B.Comm. Program are required to complete 1.50 credits from at least two different subject prefixes as listed under the B.Comm. Program Information section of the undergraduate calendar.

Marketing Management (MKMN)

Department of Marketing and Consumer Studies, College of Management and Economics

The Marketing Management major is interdisciplinary, follows a liberal education philosophy, and is built on our Department's long-standing expertise in the field of consumer research. Therefore, the courses to be followed span departments and colleges across the University and are designed to support the University's 10 learning Objectives. The Department of Marketing and Consumer Studies recognizes that we are not only responsible for preparing students for a career in marketing but for educating them so that they can be active, engaged citizens. This can only result from a balanced curriculum of marketing and liberal education courses capable of providing students with an understanding of the world they will work and live in, and the problem solving, communication, and visualization skills needed to function effectively in it. Students will gain education and skill in the management and leadership of product and services marketing in a global economy. They will be prepared to work and live effectively in today's world and to be flexible enough to pursue a variety of marketing career paths and diverse leadership roles. The major is administered by the Department of Marketing and Consumer Studies in the College of Management and Economics. Students can contact the B.Comm. Program Counsellors or the Faculty Advisors if they have questions.

Liberal Education Requirement

As part of the graduation requirement all students within the B.Comm. Program are required to complete 1.50 credits from at least two different subject prefixes as listed under the B.Comm. Program Information section of the undergraduate calendar.

Major

For this major, 20.00 credits are required, of which 14.50 are specified, 3.00 are restricted electives (from lists), 1.50 are Liberal Education electives, and 1.00 are free electives. A possible program sequence is outlined below.

Public Management (PMGT)
Department of Political Science, College of Social and Applied Human Sciences
The Public Management program is designed to lead to an understanding of public sector administration and management from the "inside" - as an integrated enterprise - as well as from the outside - as a series of policy decisions and outcomes. Characterized by a multi-disciplinary approach employing both political and business-oriented analysis, students will confront questions of why politicians and public servants behave the way they do, and how their policy choices and processes can be optimized. Management of public entities features a unique set of challenges that arise from and interact with basic political issues like democracy, accountability, equity, fairness, and justice. At the same time it necessarily faces concerns common to all organizations, such as efficiency, human and capital resource management, morale, planning, and adaptation to change.
The program will appeal to students interested in the public service, public sector businesses or business-government relations. A co-ordinated sequence of courses may be cappd in the final year by a year-long research project and thesis.
For this major, 16.00 of the 20.00 credits are specified as core requirements and the remaining 4.00 as electives. A list of suggested electives follows the description of required courses.

Liberal Education Requirement
As part of the graduation requirement all students within the B.Comm. Program are required to complete 1.50 credits from at least two different subject prefixes as listed under the B.Comm. Program Information section of the undergraduate calendar.

Public Management (Co-op) (PMGT:C)
Department of Political Science, College of Social and Applied Human Sciences

A principal aim of the Co-op program in Public Management is to facilitate the transition of students from academic studies to professional career in government or the private sector by enhancing the integration of theory and practice.

Students who want to graduate with the Co-op designation must complete a minimum of four of the five work terms, including those in the fall and winter semesters and two of the three summer placements. In other words, should students so choose, one of the three summer work placements can be optional.

To be eligible to continue in the Co-op major, students must maintain a satisfactory average, complete all course requirements as scheduled, and obtain a minimum evaluation of "satisfactory" on all work term reports. Consult the Co-op advisor or Department for additional program information.

Liberal Education Requirement
As part of the graduation requirement all students within the B.Comm. Program are required to complete 1.50 credits from at least two different subject prefixes as listed under the B.Comm. Program Information section of the undergraduate calendar.

Public Management (Co-op) (PMGT:C)
Department of Political Science, College of Social and Applied Human Sciences
Real Estate and Housing (REH)

Department of Marketing and Consumer Studies, College of Management and Economics

The Real Estate and Housing major in the B.Comm. program is one of only two undergraduate programs in Canada that specialize in the real estate sector. It takes a multi-disciplinary approach to the study of residential and commercial/investment real estate. Topics such as the development, financing, valuation, market analysis and management of real estate are taught in the context of economic, legal, political and social factors affecting this large and growing field of business in Canada and the world.

The purpose of this major is to develop the conceptual, analytical and management skills necessary to understand the development, management and marketing of real estate. The program is designed to provide students with the knowledge and skills to hold management positions in real estate organizations, to integrate academic studies to a professional career in the real estate industry by enhancing the practical application and integration of theory and practice.

As part of the graduation requirement all students within the B.Comm. Program are required to complete 1.50 credits from at least two different subject prefixes as listed under the B.Comm. Program Information section of the undergraduate calendar.

### Liberal Education Requirement

As part of the graduation requirement all students within the B.Comm. Program are required to complete 1.50 credits from at least two different subject prefixes as listed under the B.Comm. Program Information section of the undergraduate calendar.

#### Major

**Semester 1 - Fall**

**ECON*1050** [0.50] Introductory Microeconomics
**MATH*1000** [0.50] Introductory Calculus
**MCS*1000** [0.50] Introductory Marketing
**MCS*1820** [0.50] Real Estate and Housing

0.50 electives

Note: Students who are exceptionally strong in mathematics may substitute either MATH*1080 or MATH*1200 for MATH*1000.

List A - Restricted Electives

In addition to the 14.50 required credits, students must also take a minimum of 3.00 restricted elective credits from the following list, throughout the program. Students may choose to explore a variety of subjects or may choose to study an area related to their major in some depth. Restricted electives are listed below and have been grouped into major subject areas which are related to the professional interests of the Tourism Management major. Students may, however, choose restricted electives from any of those listed without regard to the categories. Students may also select up to 2.00 credits in language courses as restricted electives. Students without a second language are strongly recommended to take language courses.

Electives and Liberal Education Requirement

The 2.50 electives in the program must include 1.50 credits toward the B.Comm. Liberal Education Requirement.
Bachelor of Computing (B.Comp.)

Students graduating from this program obtain a solid foundation in the theory and application of all aspects of computing and information science. Core subjects, combined with in-depth study in an area of application, give students the freedom to combine their interests in computing with other areas of study and application.

Guelph’s Bachelor of Computing degree combines the necessary theoretical background with a focus on the application of computing science. Course projects which are based on real-world software development scenarios allow students to get the practical experience valued by today’s high-tech employers. The focused study in a second discipline (area of application) gives students the necessary background to effectively apply their knowledge.

For the degree of Bachelor of Computing the University of Guelph offers a specialized program requiring the equivalent of 8 semesters of successful full-time study (honours program) and a general program requiring the equivalent of 6 semesters of successful full-time study (general program). The honours program is also available as a Co-op degree.

A student may register in any of the 3 semesters (Summer, Fall, Winter). Since not all courses are offered in every semester and prerequisite dependencies must be observed, students are encouraged to consult the program counsellor for the B.Comp. program to plan an initial program of study or when considering modifications to the suggested schedule of studies list (below).

Program Information

B.Comp. Program Regulations

The general program is designed to provide a sound general education in computing.

The honours program is designed to provide depth of study and specialization beyond that available in the general program, while at the same time ensuring a complementary background in an area of application.

1. Requirements for a General Degree

To graduate from a general program a student must:

a. earn 15.00 credits. These must include courses that fulfill the distribution requirements of the General Degree (see below). At least 4.00 credits must be at the 3000 level or above. Not more than 6.00 credits at the introductory (1000) level may be counted towards the 15.00 credit requirement.

b. no more than 11.00 credits in any one subject or discipline, as indicated by the course prefix code, can be counted towards a general degree.

c. successfully complete the following credits:

<table>

0.5 additional CIS or STAT credits at the 2000 level or higher

1.0 additional CIS credits at 3000 level or higher

d. Earn 2.00 science credits (list of courses available in the Program Counsellor’s office) and 2.00 credits in the College of Arts or College of Social and Applied Human Sciences in addition to the courses listed in c.

2. Requirements for an Honours Degree

To graduate from an honours program a student must:

a. successfully complete 20.00 credits. These must include the 11.75 credits that fulfill the Computing Core Requirements (below), a minimum of 4.00 credits in an Area of Application (below) and an additional 4.25 credits as free electives. Not more than 6.00 credits from courses at the introductory (1000) level may be counted towards the 20.00 credit requirement.

b. The program requires 6.00 credits at the 3000 level or above and 2.00 credits at the 4000 level, while the area of application requires an additional 1.00 credits at the 3000 level or above. The Area of Application is a graduation requirement and must be approved by Semester 4 by the faculty advisor.

c. complete the following Computing Core Requirements:

<table>

1.75 additional CIS credits at the 3000 level or above

1.50 additional CIS credits at the 4000 level or above

d. obtain a cumulative average at least 70% in CIS courses. Students who do not satisfy this requirement at graduation may apply for a General Degree.

e. earn at least 4.00 credits in an Area of Application with at least 1.00 credits at the 3000 level or above. These credits must be taken from a single department or subject other than Computing and Information Science.

An area of Application normally consists of 4.00 credits (normally 8 courses) of a minor. Minors in the B.A. program and B.Sc. Minors are listed in Section X of the Calendar. A student may complete a minor should they decide to do so.

Students must consult the faculty advisor for approval of their Area of Application by semester 4.

Some courses may have enrolment restrictions placed on them.

Students failing to meet the graduation requirements of the honours program may apply to graduate with a general degree if the requirements for the general degree are met.

3. Continuation of Study

Students are advised to consult the regulations for Continuation of Study which are outlined in detail in Section VIII–Degree Regulations & Procedures of this calendar.

Schedule of Studies

Since many courses are offered in only one semester and course prerequisites place an ordering on courses, the following program of studies is designed so that students can schedule their courses over 8 semesters of study. Students deviating from this schedule must consult with their academic advisor. This schedule assumes a Fall/Winter semester sequence.

Schedule of Studies Co-op

Since many courses are offered in only one semester and course prerequisites place an ordering on courses, the following program of studies is designed so that students can schedule their courses over 8 semesters of study. Students deviating from this schedule must consult with their Co-op faculty advisor. This schedule assumes a Fall/Winter semester sequence.

Major Co-op (Honours Program)

School of Computing and Information Science, College of Physical and Engineering Science

The Honours Bachelor of Computing degree is also available as a Co-operative Education Program. Students may apply for this option at the time of University admission or completion of semester 2. Three co-op work terms are required in Stream A and four are required in Stream B. Please check with CIS Co-op faculty advisor for semester planning.

Students are advised to plan their schedule of studies well in advance so that they can take all required prerequisites for later (especially 4000 level) courses. Students should note that some 4000 level courses are only given in alternate years. Failure to plan may result in the inability to take a particular senior CIS course.

The course COOP*1100 must be successfully completed before the student may apply for a placement for the first work term (normally 2 semesters before the first work term).

Other sequences may not be viable for the co-op student. Please check with the CIS Co-op faculty advisor for semester planning. COOP*1000, COOP*2000, COOP*3000, and COOP*4000 represent the first, second, third, and fourth work terms respectively.

Conditions for graduation are the same as the corresponding regular B.Comp. Program. In addition, all work reports and performance evaluations must have a grade of satisfactory or better.

Bachelor of Engineering [B.Eng.]

Program Information

Objectives of the Program

Students in this program obtain a liberal engineering education, which includes a comprehensive core of science, mathematics and engineering science that provides a strong foundation for engineering design and analysis. This enables students to undertake the solution of engineering problems in the areas of systems and computing, biological, environmental and water resources. Core subjects, combined with elective courses offered by various engineering disciplines, provide an understanding of the connection between engineering and science, coupled with the interdisciplinary skills needed to address the problems and challenges faced by engineers in society today.

The curriculum includes a strong emphasis on engineering design. Students engage in engineering design throughout the program, and gain experience in computer aided design and modeling, conceptual design and physical construction. Emphasis is on teamwork and communications skills, as well as working on interdisciplinary projects.

Career opportunities are open in many segments of the economy. For example, students can consult services to municipalities, utilities and industry; resource agencies in advisory, regulatory, planning and utilization; service industries in construction, power and water supply and public health; manufacturing, design of computer and control systems, hardware and software development; medical devices, pharmaceutical and food industries and industrial engineering; academic research and graduate studies within and without the field of engineering.

Many engineers assume management responsibilities after gaining experience in design, development and operations. The balance provided by liberal arts and engineering education allows graduates to enjoy a great deal of career mobility.

Accreditation

The baccalaureate degree programs in all engineering programs are accredited by the Canadian Engineering Accreditation Board of the Canadian Council of Professional Engineers. Graduates from accredited engineering programs have the educational requirements to apply for membership in the Professional Engineers Ontario (PEO) and other provinces after a number of years of acceptable engineering experience and successful completion of a PEO examination in engineering law and ethics.

Requirements of the Program

Students combine their required courses in mathematics, physical sciences and engineering with additional credits providing the opportunity for specialization in one of the programs: complementary studies courses, and elective subjects. A minimum of 23.50 credits must be obtained. At least 3.00 credits must be complementary studies, which consist of courses in the social sciences, arts, management, engineering economics and communication. They complement the technical content of the curriculum.

All credits are selected according to the schedule of studies for the program. Restrictions apply to the number of non-core credits which may be at the 1000 level. Further information on approved courses may be obtained from the B.Eng. Program Guide available from the director or program counsellor of the School of Engineering.

Programs

The choice of program is made at the time of application. Change of program requires the approval of the director.

The available programs are:

- Biological Engineering - the application of engineering to the control and management of biological processes, environments, and human factors in engineering design.
- Engineering Systems and Computing - the application of engineering to the design, operation and management of data sensing, transmission and, processing systems, and of control systems.
- Environmental Engineering - the application of engineering to protect and restore the environment, through the prevention and treatment of gaseous, liquid and solid wastes.
- Water Resources Engineering - the application of engineering to the control and management of water and soil resources to meet human needs while sustaining the natural environment.

The schedule of studies for each program is provided below but guidance in the selection of appropriate courses is available from the program counsellor of the School of Engineering.

Additional Course Requirements

Students lacking OAC courses are advised to consult the Recommendations and Notes in Section IV—Admission Information-B.Eng.

Continuation of Study

Students are advised to consult the regulations for continuation of study within the program which are outlined in detail in Section VIII, Undergraduate Degree Regulation & Procedures. Students will be ineligible to continue in the B.Eng. program and will not be readmitted to the degree program if the same course is failed three times. Normally, students in the B.Eng. program will be permitted only one supplemental privilege during their studies. It will usually be granted for 3000 or 4000 level courses only.

Conditions for Graduation

To qualify for the degree the student must complete the courses required for the B.Eng. program, obtaining a minimum of 23.50 credits and must achieve an overall minimum cumulative average of at least 60% and a minimum cumulative average of at least 60% in all ENGG courses.

Co-operative Education

Students studying for the B.Eng. degree may participate in a Co-operative Education program following the completion of the first 4 semesters of study. The Co-operative Education program consists of a minimum of 4 semesters of experience in industry with employers who participate in the program. Reports and assignments are graded by a faculty supervisor with assistance from the employer. Evaluations of Co-op semesters are recorded on the student's academic record. The Co-operative Education program provides an excellent opportunity for students to obtain work experience in industry directly related to their field of study. Interested students should consult their program counsellor.

Students wishing to participate in the Co-operative Education program should indicate their intention to do so by applying for admission to the Co-op program on entrance. Following the completion of semester 2, in-course applicants will be considered for admission to the Co-op program.

Successful applicants will:

1. have a minimum cumulative average of 70% in semesters 1 and 2
2. have successfully completed all of the credits required in the schedule of studies for semesters 1 and 2
3. be employable in Canada (i.e. be a Canadian citizen or a permanent resident in Canada)
4. have obtained the approval of their Co-op advisor in the school to participate in the program. The Co-op advisor’s approval will signify that the schedule of work semesters in the Co-op program as planned by the student is compatible with the schedule of studies in the program in which the student is enrolled.
5. completion of COOP*1100 is a requirement for entry into the first work term.

Please refer to Co-operative Education Program for Admission requirements into the Co-op Program.

Biological Engineering Program Regular and Co-op (BIOE/BIOE:C)

School of Engineering, College of Physical and Engineering Science

Students interested in problems requiring the application of knowledge from both the biological sciences and engineering will find a challenge as a Biological Engineer. This field of engineering relates to the control of technological processes with the aim of enhancing human, animal and plant life. The program encompasses the technologies of biotechnology, waste management, food engineering, and ergonomics. For example, a Biological Engineer concentrating on biotechnology might design and manage bioreactors to improve their productivity. A career in Biomedical Engineering, which requires graduate work beyond the Bachelor’s degree, involves designing instruments and diagnostic techniques to be used in the practice of medicine, developing prosthetic devices, and applying engineering techniques to the study of physiological systems.

Environmental Engineering Program Regular and Co-op (ENVE/ENVE:C)

School of Engineering, College of Physical and Engineering Science

In recent years there has been concern about the degradation of the environment. The School of Engineering has responded to this concern by developing an Environmental Engineering program. Graduates will possess design and skills to minimize and prevent the impact of human activities on water, soil and air systems. Graduates will also creatively integrate humanistic and social perspectives in their solutions.

Water Resources Engineering Program Regular and Co-op (WRE/WRE:C)

School of Engineering, College of Physical and Engineering Science

Water resources engineering focuses on the use and management of land and water resources in rural and urban watersheds. The hydrologic and hydraulic behaviour of watershed flow systems is combined with engineering science and. Water management includes flood prevention, warning and control; drainage; design of natural channels; irrigation; and erosion prevention and control. The supply of water for municipal, industrial and agricultural purposes is considered in the context of resource conservation. Identification of potential point and diffused sources of pollutants is used to develop efficient, environmentally sustainable and economical methods to preserve high-quality water to sustain human life and water-dependent ecosystems.

Bachelor of Landscape Architecture (B.L.A.)

Landscape Architecture is the art and science of designing and conserving land and water for human use and enjoyment. As a profession, Landscape Architecture is concerned with two scales of planning and design. The first scale is with the development of specific sites for residential, recreational, institutional, commercial and industrial projects. The second scale pertains to the regional landscape where the issues include management plans for forest, park and recreation areas, agricultural lands protection, gravel pit mining and restoration, hazard land studies, and visual resource analysis.

Program Information

Objectives of the Program

Landscape Architecture is a diverse and rewarding design profession. Landscape architects play an important role in shaping our environment, working in collaboration with other design professionals, specialists and the public.

Students in the B.L.A. program attain professional knowledge and skill that prepares them to deal with problems that concern the interface between people and the environment. Program emphasis is on core professional knowledge domains that include landscape analysis, design, implementation, communication, history and professional practice. Additional required and elective courses in the arts and sciences provide a well-rounded education.

Graduates of the program have exciting careers in the public and private sector. As landscape architects, they design memorable places that are attractive, functional and sustainable and that affect the way our cities, suburbs, rural and wilderness areas are planned, designed and managed.

Accreditation

The Bachelor of Landscape Architecture program is accredited by the Canadian Society of Landscape Architects (CSLA) and recognized by the American Society of Landscape Architects. C.S.L.A. accreditation is recognized by the American Society of Landscape Architects (ASLA). Graduates of accredited landscape architecture programs have the educational qualifications to apply for membership in provincial and state professional associations in Canada and the United States after completion of the required number of years of professional practice and successful completion of required examinations.

Admission to the Landscape Architecture Program

Students wishing to enter the program of study leading to the Bachelor of Landscape Architecture degree should consult Section IV--Admission Information.

Degree

The degree granted for the successful completion of the program is the Bachelor of Landscape Architecture (B.L.A.).

Selection of Electives

All electives may be chosen independently although counseling with the departmental advisor is highly recommended. In selecting electives two approaches may be followed: 1) electives may be chosen from a variety of disciplines to achieve breadth of knowledge or, 2) all or most electives may be chosen in a subject area in order to pursue a particular field of interest in depth. Some of these fields might include agricultural and biological sciences, environmental studies, studio arts, geography, philosophy or sociology.

Students wishing to elect a permissible substitute shall do so in consultation with their departmental advisor. A substitute course will normally be in the same academic area as that listed in the Landscape Architecture Program.

The following elective courses in Landscape Architecture are available. Refer to course descriptions for scheduling information.

LARC*4520 [0.50] Park and Recreation Administration
LARC*4730 [0.50] Special Study in Landscape Architecture
LARC*4740 [0.50] Case Studies

Academic Advising

Students can consult the BLA Coordinator who is a faculty member that can address program issues and individual curriculum queries.

Computers

Expertise in many aspects of computer application is now a fundamental skill for the profession. Recognizing this, the school provides computer facilities in the building. If it is feasible we recommend that students acquire their own computer within the first two years of the program.

Field Trips

Participation in organized visits to site study areas and project sites is obligatory for all students taking certain courses in landscape architecture. To the extent that it is possible, students will be informed of the dates, destinations and cost of field trips prior to registration. Students who have reason to seek exemption from the requirement may apply to the director prior to registration for permission to substitute papers on appropriate topics.

Pre-Professional Experience

It is considered highly advisable that the prospective graduate prepare for later professional practice through summer employment in the landscape industry. Two summers spent in landscape related work followed by 1 summer in a professional office is considered to be a desirable sequence of employment.

Continuation of Study

Students are advised to consult the regulations for continuation of study within the program which are outlined in detail in Section VIII--Undergraduate Degree Regulations & Procedures.

Conditions for Graduation

In order to qualify for graduation from the 8 semester Honours B.L.A. program, the student must successfully complete all of the courses approved for the program (20.00 credits).

Bachelor of Science (B.Sc.)

The University of Guelph offers general and honours programs leading to the B.Sc. degree.

The general program consists of a minimum of 15.00 credits (usually 30 semester courses) involving normally 6 semesters of study. The requirements for the honors program is a minimum of 20.00 credits (usually 40 semester courses) which may be obtained over 8 semesters of study. Some majors may require more than 20.00 credits.

The Three Semester System

Most of the B.Sc. programs operate on the three semester system. In this system each of the Fall, Winter and Summer semesters is of 12 weeks duration. Two semesters are equivalent to 1 academic year at a university on the traditional system. In the three semester system, students may vary their rate of progress towards graduation. However, since many science courses must be taken in a certain sequence and not all courses are offered each semester, most science students are required to proceed from semester to semester in restricted patterns. Furthermore, the advanced courses of the honours programs are offered only in the regular fall and winter semesters.

Additional information may be obtained from Admissions Services, Office of Registrarial Services. The three-semester system and the pass-by-course method of advancement allow considerable flexibility of program arrangement. In addition, a variety of program contents is available which the student may modify to meet individual requirements.

Transfer from One B.Sc. Program to Another

On entrance to the B.Sc. program, the student may elect to follow an intended area of specialization or to postpone this decision until a later semester. The choice of a particular program of study may be most effectively made at the end of Semester 3 or 4. Judicious selection of courses in each and every semester will allow the easiest transfer between programs without incurring the need for additional semesters of study. The program counsellor of the particular college from which it is anticipated that the majority of science courses will be taken should be consulted for advice.

Program Information

General Program Requirements

The general B.Sc. degree requires the successful completion of 15.00 required credits. Normally 2.50 credits (usually 5 courses) are taken in each semester so that the degree may be completed in 6 semesters. The general science program is designed to give a broad general training in biological science, chemistry, physics and mathematical science.

Honours Program Requirements

In order to graduate in the honours programs, students must fulfill all program requirements for the program and have achieved a 60%, or higher, cumulative average over all course attempts. Normally 2.50 credits (usually 5 courses) are taken in each semester so that the degree may be completed in generally 8 semesters. The following types of honours programs are offered:

Honours Major Programs

- Major in a subject
- Major in a subject (with a minor)

Honours Major

These programs permit a student to study science in greater depth than is permitted by the general program. The student is required to take a minimum of 1.00 credits (usually 2 courses) in each of biological science, chemistry, physics and mathematical science. In each of semesters 3 to 8, students select science credits so that the total program provides a broad science training with concentration in an area of physical science or biological science.

A major normally consists of certain prescribed courses (minimum of 8.00 credits) and a number of elective courses to complete the requirements for the degree. The composition of science courses selected must contain a sufficient number (minimum of 6.00 credits) of 3000 and 4000 level courses including a grouping (minimum of 2.00 credits) particularly at the 4000 level. A major program may be studied in conjunction with a minor in an area of science, humanities or social science.

Honours Minor

A minor is a group of courses which provides for exposure to and mastery of the fundamental principles of a subject. A minor consists of a minimum of 5.00 credits (normally 10 courses). It may also require certain other courses from other areas to be taken along with the specified courses of the minor. A minor is taken in conjunction with a major.

Students should seek advice from the program counsellor of either the College of Biological Science or the College of Physical and Engineering Science dependent upon their primary area(s) of interest. Refer to B.Sc. Program Requirements: Regulation 6, Double-Counting of Credits.

B.Sc. Program Requirements

Regulations 1, 2, 3 and 4 apply to all B.Sc. students.

1. Entry Credits

In general, the 4U or OAC credit or its equivalent is required in a subject area to allow entrance to the initial university course. Students who lack this requirement can remedy the deficiency by successful completion of:

- BIOL*1020 for students lacking biology
- CHEM*1060 for students lacking chemistry
- PHYS*1020 for students lacking physics

Not more than one of the above will be allowed for credit toward the B.Sc. degree.

2. Basic Science Core

In each of the first 2 semesters B.Sc. students must take one (1) of the specified courses in each of biology, chemistry, physics and mathematical science, and 1 other course which is normally an Arts or Social Science elective.

3. 1000 Level Credits

No B.Sc. program may include more than 7.00 credits at the 1000 level.

4. 3000 and 4000 Level Credits

There is a requirement for a minimum of 6.00 science credits at the 3000- and 4000-levels with a minimum of 2.00 credits at the 4000 level.

5. Science Credits

A minimum of 16.00 science credits (usually 32 courses) is required for the honours major program. The inclusion of a minor in a non-science area involves the reduction to 14.00 science credits (usually 28 courses) with the approval of the program counsellors. Acceptable science courses in the following programs means "acceptable to the B.Sc. Program Committee". Lists of acceptable courses are available in the offices of the faculty advisors and the program counsellors and on the world wide web at the following address: http://www.bsc.uoguelph.ca/Approved_electives.shtml.

6. Double-Counting of Credits

A maximum of 2.00 credits required in a major program may be applied to meet the requirements of a minor program.

7. Continuation of Study

Students are advised to consult the regulations for continuation of study outlined in detail in Section VIII--Undergraduate Degree Regulations & Procedures.

Doctor of Veterinary Medicine

Students in the B.Sc. program who intend to apply for admission to the Doctor of Veterinary Medicine program should register for the Major Biological Science or Major Physical Science program, or the major of their choice. Prospective candidates for the D.V.M. program should consult the admission requirements for the program. Students may obtain assistance in selecting a program that will meet the requirements for the Doctor of Veterinary Program and for continued study in biological or physical science programs by consulting the appropriate Program Counsellor.

General Program (BSCG)

Continuation of Study

Students are advised to consult the regulations for continuation of study within the program which are outlined in detail in Section VIII--Undergraduate Degree Regulations & Procedures.

Conditions for Graduation

In order to qualify for graduation from the general program the student is required to attain a passing grade in a minimum of 15.00 required credits as outlined in the Total Course Requirements for all students in the General Science Program.

Total Course Requirements for all Students in the General Science Program

Total of 15.00 credits as follows:

1. 4.00 credits from the first year science core - 1.00 credits beyond the 4U or OAC level in each of biological science, chemistry, mathematical science, physics. Note: A maximum of 7.00 credits at the 1000 level may be used towards the degree requirements.

2. An additional 0.50 credits from at least 3 of the following subject areas: biological science, biochemistry/chemistry, mathematical science, physics.

3. 6.50 additional credits selected from the list of approved science electives for the B.Sc. degree program of which 2.50 credits must be at the 3000 or 4000 level. Note: One of: BIOL*1020, CHEM*1060, PHYS*1020 may be counted towards the degree requirements, counting as 0.50 credits in science.

4. 2.00 credits - arts and/or social science electives approved for the B.Sc. degree program.

5. 1.00 credits in electives.

Continuation of Study

Students are advised to consult the regulations for continuation of study within the program which are outlined in detail in Section VII--Undergraduate Degree Regulations & Procedures.

Conditions for Graduation

Schedules 1 and 2

In order to qualify for graduation from the honours program, the student must fulfill all program requirements and have achieved 60%, or higher, cumulative average in all course attempts.

Note: A student registered in an honours program who has successfully completed all required courses and the specified total number of credits for the program but does not have a cumulative average of 60%, or higher, may apply to graduate from the general program.

Co-operative Education Program

Admission to the Co-operative Education program may be granted on entry to the University or by application normally before the conclusion of Semester 2. Application forms can be obtained from the appropriate faculty co-op advisor. In-course students will need to complete successfully an interview in the appropriate department. Students must

be either a Canadian Citizen or Permanent Resident. A cumulative average of 70% is required of courses taken in Semesters 1 and 2 to permit continuation in the program.

Conditions for Graduation from the B.Sc. Co-operative Education Program

Conditions for graduation are the same as the corresponding regular B.Sc. program. In addition, all work reports and work performance evaluations must have a grade of satisfactory or better.

## Biochemistry (BIOC)

### Major (Honours Program)

Students may enter this major in Semester 1 or any semester thereafter. A student wishing to declare the major must consult the Faculty Advisor. The major will require the completion of at least 20.25 credits as indicated below:

| Semester 1 | BIOC*1030 [0.50] | Biology I |
| Semester 2 | BIOC*2580 [0.50] | Introductory Biochemistry |
| Semester 3 | BIOC*3560 [0.50] | Structure and Function in Biochemistry |
| Semester 4 | BIOC*3570 [0.50] | Analytical Biochemistry |
| Semester 5 | BIOC*4520 [0.50] | Metabolic Processes |
| Semester 6 | BIOC*4580 [0.50] | Membrane Biochemistry |

### Minor (Honours Program)

A minor in Biochemistry consists of at least 5.00 course credits. The following courses are required:

- BIOC*3560 [0.50] Structure and Function in Biochemistry
- BIOC*3570 [0.50] Analytical Biochemistry
- BIOC*4540 [0.50] Enzymology
- CHEM*2480 [0.50] Analytical Chemistry I
- CHEM*2700 [0.50] Organic Chemistry I

### Biochemistry (Co-op) (BIOC:C)

Two Streams are available. Stream A is different from Stream B in that Stream A has a double work term following academic semester 5. The course content of semesters 1-4 is the same as that listed above for the regular Honours Program Major. Students in the Co-op program must also take COOP*1100 in the second academic semester. The total program requirements, including the selection of electives are also the same.

Students will be expected to undertake their work terms after semester 3 and completion of course CHEM*2480. Since certain courses must be taken in a different semester from usual, consult your Faculty Co-op Advisor for assistance with course selection.

To graduate from the Co-op program a minimum of 4 successfully completed work terms is normally required.

### Stream A

| Semester 1 | BIOC*1030 [0.50] | Biology I |
| Semester 2 | BIOC*2580 [0.50] | Introductory Biochemistry |
| Semester 3 | BIOC*3560 [0.50] | Structure and Function in Biochemistry |
| Semester 4 | BIOC*3570 [0.50] | Analytical Biochemistry |
| Semester 5 | BIOC*4520 [0.50] | Metabolic Processes |
| Semester 6 | BIOC*4580 [0.50] | Membrane Biochemistry |

### Stream B

| Semester 1 | BIOC*1030 [0.50] | Biology I |
| Semester 2 | BIOC*2560 [0.50] | Structure and Bonding |
| Semester 3 | BIOC*3570 [0.50] | Analytical Biochemistry |
| Semester 4 | BIOC*4520 [0.50] | Metabolic Processes |
| Semester 5 | BIOC*4580 [0.50] | Membrane Biochemistry |

| Semester 1 | BIOC*1030 [0.50] | Biology I |
| Semester 2 | BIOC*2580 [0.50] | Introductory Biochemistry |
| Semester 3 | BIOC*3560 [0.50] | Structure and Function in Biochemistry |
| Semester 4 | BIOC*3570 [0.50] | Analytical Biochemistry |
| Semester 5 | BIOC*4580 [0.50] | Membrane Biochemistry |

### Summer Semester

No academic semester or work term

### Semester 3 - Fall

- BIOC*2580 [0.50] | Introductory Biochemistry |

### Semester 4 - Summer

- BIOC*3570 [0.50] | Analytical Biochemistry |

MATH*1200 [0.50] Calculus I
PHYS*1000 [0.50] An Introduction to Mechanics

0.50 Arts or Social Science electives

Electives

Selection of electives for the program is subject to the following rules:
1. At least 1.00 credits must be in the Arts and Social Sciences.
2. One of: MCB*4050, TOX*4590.
3. One of: BIOM*3100, MICR*3330, MICR*4230, PBIO*3110, PBIO*4750.

Semester 7
CHEM*4730 [0.50] Synthetic Organic Chemistry
CHEM*4740 [0.50] Topics in Bio-Organic Chemistry
0.50 Chemistry, Biochemistry or Molecular Biology and Genetics courses at the 3000 or 4000 level ***
0.75 electives or restricted electives *

Semester 8
One of:
CHEM*4630 [0.50] Bioinorganic Chemistry
CHEM*4720 [0.50] Organic Reactivity
1.00 Chemistry, Biochemistry or Molecular Biology and Genetics course at the 3000 or 4000 level ***
1.00 electives or restricted electives *

Selection of restricted electives are subject to the following:
1. * BIOL*2210 must be taken.
2. * MICR*2020 or MICR*2030 must be taken.
3. ** Note: CHEM*4630 and CHEM*4720 are offered in alternating winter semesters and both courses are required.
4. *** 1.50 credits are to be selected from the following list of allowable courses at the 3000 and 4000 level:
   BIOC*4520 [0.50] Metabolic Processes
   BIOC*4540 [0.50] Enzymology
   BIOC*4580 [0.50] Membrane Biochemistry
   CHEM*3440 [0.50] Analytical Chemistry III: Analytical Instrumentation

   MBG*3350 [0.75] Laboratory Methods in Molecular Biology I
   MBG*4080 [0.50] Molecular Genetics
   MCB*4050 [0.50] Protein and Nucleic Acid Structure
   MCB*4080 [0.50] Applied Microbiology and Biochemistry
   TOX*4590 [0.50] Biochemical Toxicology

Biological Science (BIOS)

College of Biological Science

Major (Honours Program)

Students may enter this major in Semester 1 or any semester thereafter. A student wishing to declare the major must consult the Faculty Advisor. This major will require the completion of 20.00 credits as indicated below:

1. First year Core - 4.00 credits
   1.00 - Biology BIOL*1030 BIOL*1040
   1.00 - Chemistry CHEM*1040 CHEM*1050
   1.00 - Physics (PHYS*1070, PHYS*1080) or (PHYS*1000, PHYS*1010)
   0.50 - Mathematics MATH*1080 or MATH*1200
   0.50 - Mathematical Science CIS*1000, CIS*1200, MATH*1210, MATH*2080,
   2. Subject Area Core - 8.00 credits
   0.50 - BIOL*2210
   0.50 - BIOC*2580
   0.50 - MBG*2000
   0.50 - STAT*2040
   0.50 - from one of BIOL*2060, BIOC*3110, BOT*2050
   0.50 - minimum from one of BIOM*3100, BOT*3310, HK*3940, ZOO*3200
   5.00 - biological science courses of which 4.00 must be at the 3000 or 4000 level*

3. Science Electives - 4.00 credits
   1.00 - biological science courses
   3.00 - from science offerings on the list of Approved Courses of which at least 2.00 must be at the 3000 or 4000 level*

4. Arts and Social Science Electives - 2.00 credits
   2.00 - arts or social science courses from the list of Approved Courses

5. Free Electives - 2.00 credits
   *the program must include at total of 6.00 science credits at the 3000 or 4000 level, 2.00 must be at the 4000 level

Recommended Schedule of Studies

Semester 1
BIOL*1030 [0.50] Biology I
CHEM*1040 [0.50] General Chemistry I
One of:
MATH*1080 [0.50] Elements of Calculus I
MATH*1200 [0.50] Calculus I

One of:
PHYS*1000 [0.50] An Introduction to Mechanics
PHYS*1070 [0.50] Introductory Physics for Life Sciences
0.50 Arts or Social Science electives

Students who are admitted deficient in one OAC/4U course in Biology, Chemistry or Physics must take the equivalent introductory course in first semester. The first-year science core in that subject should be completed by Semester 3.

Semester 2
BIOL*1040 [0.50] Biology II
CHEM*1050 [0.50] General Chemistry II
0.50 Mathematical science from:
   CIS*1000 [0.50] Introduction to Computer Applications
   CIS*1200 [0.50] Introduction to Computing
   MATH*1210 [0.50] Calculus II
   MATH*2080 [0.50] Elements of Calculus II
One of:
   PHYS*1010 [0.50] Introductory Electricity and Magnetism
   PHYS*1080 [0.50] Physics for Life Sciences
0.50 Arts or Social Science electives

Semester 3
MBG*2000 [0.50] Introductory Genetics
0.50 Ecology from:
   BIOL*2060 [0.50] Ecology
   BIOL*3110 [0.50] Population Ecology
   BOT*2050 [0.50] Plant Ecology
One of:
   BIOC*2580 [0.50] Introductory Biochemistry
   BIOL*2210 [0.50] Introductory Cell Biology
1.00 electives

Semester 4
STAT*2040 [0.50] Statistics I
One of:
   BIOC*2580 [0.50] Introductory Biochemistry
   BIOL*2210 [0.50] Introductory Cell Biology
1.50 electives

Semester 5
One course in Physiology from:
   BIOM*3100 [0.50] Mammalian Physiology
   BOT*3310 [0.50] Plant Growth and Development
   HK*3940 [1.25] Human Physiology
   ZOO*3200 [0.50] Comparative Animal Physiology I
2.00 electives (1.25 electives if HK*3940 is selected)

Semester 6 to 8
2.50 in each semester including 2.00 science credits per semester
Note: 6.00 in biological science must be taken in Semesters 6 through 8 of which 4.00 must be at the 3000 or 4000 level. In the total 6.00 of 3000 and 4000 level science courses, 2.00 must be at the 4000 level.

Biology (BIOL)

College of Biological Science

Minor (Honours Program)

A minor in Biology shall include the following courses:

BIOL*1030 [0.50] Biology I
BIOL*1040 [0.50] Biology II
BIOL*2060 [0.50] Ecology
BIOL*2210 [0.50] Introductory Cell Biology
MBG*2000 [0.50] Introductory Genetics

and 2.50 of which 1.50 must be at the 3000 or 4000 level, from courses offered by the Human Health and Nutritional Sciences, Integrative Biology and Molecular and Cellular Biology. This minor is intended for students registered in majors in B.Sc. Physical Sciences and the B.A. degree programs.

Bio-Medical Science (BIOM)

Department of Biomedical Sciences and Department of Human Health and Nutritional Sciences

This joint program of the Department of Human Health and Nutritional Sciences and the Department of Biomedical Sciences focuses on the maintenance and promotion of human and animal health through the study of function (biochemistry and physiology), structure (anatomy and histology), and the basic medical sciences (epidemiology and pharmacology). It will permit graduates from this B.Sc. program to contribute to society in the area of health maintenance. The program is a good preparation for students intending to develop professional or research careers in the medical and biological sciences. Through the use of electives, students may structure a program emphasizing either nutritional sciences or principles of health and disease prevention. For more information on recommended electives contact the Faculty Advisor of the major.
Students who are admitted into the Biomedical Science major from high school must meet additional requirements to continue in the major beyond first year. Continuation is based on the cumulative average in the first two full-time semesters (5.00 credits), including the seven core courses as prescribed by the Schedule of Studies (see below). Students with a minimum of 75% average will be guaranteed continuation in this major. For students with a 70-74.9% average, continuation will be competitive based on available spaces. Students with an average below 70% will be changed to the Biological Science major. Students may subsequently change to another B.Sc. major of their choice.

B.Sc. students who were not admitted into the Biomedical Science major from high school and wish to declare the specialization at the end of the first year must apply directly to the Department of Biomedical Sciences by the last day of classes in the winter semester and meet the additional requirements specified above.

B.Sc. students beyond first year who wish to declare the specialization must apply directly to the Department of Biomedical Sciences by the last day of classes in the winter semester. Admission to the major will be based on the cumulative average in the previous two full-time semesters (5.00 credits). Acceptance will be competitive based on available spaces. Students with an average below 70% will not be considered for admission to the major.

All decisions will be made at the end of June.

Students who are admitted deficient in one OAC/4U course in Biology, Chemistry or Physics must take the equivalent introductory course in first semester. The first-year science core in that subject should be completed by Semester 3.

### Semester 1
- **Biol*1030** [0.50] Biology I
- **Chem*1040** [0.50] General Chemistry I
- **Math*1080** [0.50] Elements of Calculus I

- **MBG*2020** [0.50] Introductory Molecular Biology
- **NUTR*3210** [0.50] Fundamentals of Nutrition

1.00 electives or restricted electives

### Semester 5
- **POP*3240** [0.50] Epidemiology

One of:
- **BIOM*3100** [0.50] Mammalian Physiology I
- **HK*3940** [1.25] Human Physiology

If BIOM*3100 is selected, then BIOM*3110 and BIOM*3120 must be taken in Semester 6.

Electives or restricted electives (to a maximum of 2.75 total credits).

### Semester 6
- **BIOM*3040** [0.50] Medical Embryology
- **BIOM*3090** [0.50] Principles of Pharmacology

Electives or restricted electives to a maximum of 2.75 total credits.

Note: As part of the electives or restricted electives students must select BIOM*3110 and BIOM*3120 in Semester 6 if BIOM*3100 was selected in Semester 5.

### Semester 7

One of:
- **BIOM*3030** [0.75] Biomedical Histology
- **ZOOG3000** [0.50] Comparative Histology

Electives or restricted electives to a maximum of 2.75 total credits.

### Semester 8

- **PATH*3610** [0.50] Principles of Disease

2.00 electives or restricted electives

### Restricted Electives

1. One anatomy course from BIOM*3010, HK*3401/2, ZOO*2090 must be completed.

2. One of:
   - **MICR*3230** [0.50] Immunology I
   - **NUTR*4200** [0.50] Nutrition and Immune Function

3. A minimum of 1.00 and to a maximum of 2.00 in research experience may be met either by:
   - completing both HK*4410 and HK*4420
   - completing HK*4410 and either HK*4230 or BIOM*4500
   - completing both HK*4230 and BIOM*4500
   - completing one of the 1.00 credits in research courses in either the Department of Human Health and Nutritional Sciences (HK*4360 or HK*4371/2) or in the Department of Biomedical Sciences (BIOM*4510 or BIOM*4521/2)
   - equivalent course from another department with the permission of the Faculty Advisor

4. A total of 2.00 credits in Arts and Social Science courses including:
   - 0.50 credits in philosophy and ethics from PHIL*2030, PHIL*2070, PHIL*2100, PHIL*2120, PHIL*2180
   - 0.50 credits in either psychology (PSYC*XXXX) or sociology (SOC*XXXX)

Biophysics (BIOP)

Department of Physics, College of Physical and Engineering Science

Major (Honours Program)

The program emphasizes the physics of biological systems. It provides an excellent background for careers in the expanding interdisciplinary research laboratories of Government and Industry. Completion of the program at an appropriate level will qualify a student to pursue post-graduate studies in biophysics and certain areas of physics.

Since some of the required courses are not offered every semester, students entering the Major in Biophysics should plan their program in consultation with the Department of Physics Departmental Advisor.

Students may enter this major in Semester 1 or any semester thereafter. A student wishing to declare the major must consult the Faculty Advisor. This major requires the completion of 21.25 credits as indicated below:

Computing and Information Science (Co-op) (CIS:C)

Department of Computing and Information Science, College of Physical and Engineering Science

The 4 year Honours Program Major in Computing and Information Science is also available as a Co-operative Education Program. Three co-op work terms are required. A five year option with four work terms is also available. Please see the department's co-op faculty advisor for details.

COOP*1100 must be completed in the 2nd academic semester (winter of year 1). Students may apply for these options at the time of University admission or completion of semester 2.

Conditions for graduation are the same as the corresponding regular B.Sc. program. In addition, all work reports must have a grade of satisfactory or better.

Electives must include at least 1.50 at the 3000 level or above. At least 1.00 credits must be in the Arts or Social Sciences, and 0.50 remaining credit in the introductory science sequence (see note in semester 2).

The recommended schedule of studies for Co-Op Stream A (4-year) is as follows:

Semester 1 - Fall

BIOL*1040 [0.50] Biology I
CHEM*1050 [0.50] General Chemistry I
CIS*1500 [0.50] Introduction to Programming
MATH*1200 [0.50] Calculus I
PHYS*1130 [0.50] Physics with Applications

Students who are admitted deficient in one OAC/4U course in Biology, Chemistry or Physics must take the equivalent introductory course in first semester. The first-year science core in that subject should be completed by Semester 3.

Semester 2 - Winter

CIS*1910 [0.50] Discrete Structures in Computing I
CIS*2500 [0.50] Intermediate Programming
COOP*1100 [0.00] Introduction to Co-operative Education
MATH*1210 [0.50] Calculus II

Two of (only one of PHYS*1101 or PHYS*1305) may be selected: *

BIOL*1040 [0.50] Biology II
CHEM*1050 [0.50] General Chemistry II
PHYS*1130 [0.50] Physics with Applications

*Note: A third course from this list must be taken before graduation.

Semester 3 - Summer

CIS*2340 [0.50] Object Oriented Programming
CIS*2520 [0.50] Data Structures
CIS*2910 [0.50] Discrete Structures in Computing II

MATH*2150 [0.50] Applied Matrix Algebra

Earth Surface Science (ESS)

Department of Geography, College of Social and Applied Human Sciences
Department of Land Resource Science, Ontario Agricultural College

This program combines elements of Geomorphology, Geology and Meteorology and focuses on the study of processes and properties of the abiotic component of the environment.

Graduates of the program should meet the knowledge requirements for eligibility to apply for membership as Environmental Geoscientists in the Association of Professional Geoscientists of Ontario (APGO), allowing for use of the designation P. Geo.

Students may enter this major in Semester 1 or any semester thereafter. A student wishing to declare the major must consult the Faculty Advisor. Students planning to enter the program are advised to consult advisors in either of the two departments. Students needing program approval should contact the B.Sc. Advisors in the Department of Geography.

Other Requirements
1. At least 1.50 credits from List A must be at the 4000 level.
2. At least 2.50 electives must be acceptable science courses.
3. At least 6.00 of all science credits must be 3000 or 4000 level, of which at least 2.00
must be at the 4000 level.

Ecology (ECOL)

Department of Integrative Biology, College of Biological Science

This program provides a solid foundation in the principles of ecology, and further training in both pure and applied aspects of ecology. After the fourth semester, the student may choose to enter one (1) of three (3) areas of emphasis, or to design a course package that meets his/her own specific ecological interests (General Ecology). The program offers preparation for careers in conservation, resource management, ecological consulting, or nature interpretation; or for graduate training and research in fundamental ecology and evolutionary biology. This major qualifies students for post-graduate work in the environmental sciences, and provides a sound science background for students wishing to pursue careers in teaching, government service or the private sector.

Major (Honours Program)

Students may enter this major in Semester 1 or any semester thereafter. A student wishing to declare the major must consult the Faculty Advisor. A minimum total of 20.00 credits is required to complete the major.

Human Kinetics (HK)

Department of Human Health and Nutritional Sciences, College of Biological Science

Human Kinetics is concerned with understanding capacities of, and limits of, human movement at different ages and with the role of physical activity in human health. Through the use of electives, students may structure a program emphasizing biomechanics and ergonomics, human population biology or nutrition, exercise and metabolism.

If lacking the fundamentals of word processing, spread sheet use and data management, the student should select CIS*1200 as early in the program as possible.

Major (Honours Program)

Students may enter this major in Semester 1 or any semester thereafter. A student wishing to declare the major must consult the Faculty Advisor. A minimum of 20.00 credits is required.

Marine and Freshwater Biology (MFB)

Department of Integrative Biology, College of Biological Science

The Major in Marine and Freshwater Biology provides a broad ecological perspective on aquatic environments based on the physical as well as the biological sciences. This major prepares students for post-graduate work in the aquatic sciences, and provides a sound science background for students wishing to pursue careers in teaching, government service or the private sector.

Major (Honours Program)

Students may enter this major in Semester 1 or any semester thereafter. A student wishing to declare the major must consult the Faculty Advisor. A minimum total of 20.00 credits is required.

### Mathematical Science (MSCI)

#### Department of Mathematics & Statistics, College of Physical and Engineering Science

#### Minor (Honours Program)

This requires 1.00 calculus credits and 4.00 other credits chosen from mathematics, statistics, and computing and information science. For these 4.00 credits students will choose at least 0.50 from each discipline. At least 1.00 credits must be at the 3000 level or above. This minor cannot be combined with a major in Mathematics, Statistics, or Computing and Information Science.

#### Mathematics (MATH)

#### Department of Mathematics and Statistics, College of Physical and Engineering Science

#### Major (Honours Program)

Students may enter this major in Semester 1 or any semester thereafter. A student wishing to declare the major must consult the Faculty Advisor. A total of 20.00 credits is required to complete the Major which includes at least 10.00 credits in Mathematics & Statistics. This major must include at least 6.00 credits at the 3000 level or above. This minor cannot be combined with a major in Mathematics, Statistics, or Computing and Information Science.

### Microbiology (MICR)

#### Department of Molecular and Cellular Biology, College of Biological Science

Microbiology programs are designed to give students a good understanding of microorganisms, including diversity, ecology, physiology, molecular genetics, current approaches in bacterial genomics/proteomics, and microbial associations with animal hosts and the environments. Such knowledge will provide the basis for further work with microbes in medicine, agricultural industries (including biotechnology, pharmaceuticals, food and beverage) and the environment (surveillance and bioremediation).

Students can take the B.Sc. program with a Major or a Minor in Microbiology, or combine the minor with another major. Students should plan their programs in consultation with the microbiology faculty advisor. As course offerings may change during the program, students are strongly encouraged to review their plans at least once a year with their advisors, and to check the departmental website for program news.

#### Major (Honours Program)

Students may enter this major in Semester 1 or any semester thereafter. A student wishing to declare the major must consult the Faculty Advisor. A total of 20.00 credits is required to complete the major.

**Microbiology (Co-op) (MICR:C)**

**Department of Molecular and Cellular Biology, College of Biological Science**

Students in the Major in Microbiology program may take the Co-op option. Students do not begin their first work term until they have completed semester 3 and courses BIOL*1030, BIOL*1040 and MICR*2030. Students in the co-op program must also complete COOP*1100 in the second academic semester. At least 3 work terms (COOP*1000, COOP*2000, COOP*3000) are required in the co-op program, and the course requirements are the same as shown for the major program. Some courses must be taken during a different semester than usual, and Co-op students may require an additional semester to meet all the program requirements. Students should plan their programs in consultation with the faculty advisor.

### Nutritional and Nutraceutical Sciences (NANS)

Department of Human Health and Nutritional Sciences, College of Biological Science

The Nutritional and Nutraceutical Sciences major is concerned with understanding the contribution of food, beverage and nutritional supplement consumption to growth, development of optimal biological function, maintenance of health, and treatment of disease.

If lacking the fundamentals of word processing, spreadsheet use and data management, the student should select CIS*1200 as early in the program as possible.

#### Major (Honours Program)

**Semester 5 to 8**

Total of 2.50 credits per semester including at least 2.00 science electives.

Sufficient courses at the 3000 or 4000 level must be selected in Semesters 5 through 8 to total 6.00 credits in science at the 3000 or 4000 level with at least 2.00 physical science at the 4000 level.

*approved course lists are available in the Dean's Office, College of Physical and Engineering Science and on the world wide web at [http://www.cpes.uoguelph.ca/BSc/approved_electives.htm](http://www.cpes.uoguelph.ca/BSc/approved_electives.htm)
Honours Physical Science (With a Minor)

The requirements and schedules are the same as for Honours Physical Science. Available Minor subjects are listed at the beginning of the B.Sc. Program section under the heading Honours Program Minors.

**Physics (PHYS)**

Department of Physics, College of Physical and Engineering Science

Students may enter this major in Semester 1 or any semester thereafter. A student wishing to declare the major must consult the Faculty Advisor. Since some of the required courses are not offered every semester, students entering the Major in Honours Physics should plan their program in consultation with the Department of Physics Faculty Advisor.

**Major (Honours Program)**

This major requires the completion of 21.25 credits. At least 1.00 of these credits must be obtained from the completion of Arts and/or Social Science courses.

Minor (Honours Program)

A minor in Physics requires 5.00 credits in physics courses including at least 1.00 at the 3000 or 4000 level.

The following four courses, with a weight of 0.75 each, are required:

- PHYS*2440 [0.75] Mechanics I
- PHYS*2450 [0.75] Mechanics II
- PHYS*2460 [0.75] Electricity and Magnetism I
- PHYS*2470 [0.75] Electricity and Magnetism II

The following courses are strongly recommended:

- PHYS*1000 [0.50] An Introduction to Mechanics
- PHYS*1010 [0.50] Introductory Electricity and Magnetism
- M A T H *2000 [0.50] Introduction to Co-operative Education

Department of Physics, College of Physical and Engineering Science

Since some of the required courses are not offered every semester, students entering the Major in Physics (Co-op) should plan their program in consultation with the Department of Physics Faculty Advisor. To graduate from the Co-op program a minimum of 4 successfully completed work terms (COOP*1000, COOP*2000, COOP*3000, COOP*4000) is normally required.

**Major (Honours Program)**

This major requires the completion of 21.25 credits.

**Semester 1 - Fall**

The program for the first semester is the same as the Major in Physics (regular) program.

**Semester 2 - Winter**

**Psychology (PSYC)**

Department of Psychology, College of Social and Applied Human Sciences

The B.Sc. Major in Psychology offers an opportunity for students to develop interests within learning, perception, cognition, and physiological psychology from a sound base in physical and biological sciences. Students primarily interested in other areas within psychology should consult the schedule of studies for the Bachelor of Arts program. Psychology courses in the above focuses may also be studied via the B.A. program.

**Note on Honours Courses**

Courses marked (H) are designed for students in a psychology honours program. The Information Systems and Human Behaviour program, the Developmental Psychology Minor program, the Educational Psychology Minor program, the Organizational Behaviour Minor program, the Social Psychology program, the Cognitive Neuropsychology Minor program, or Human Resources Management major of the Bachelor of Commerce program. Students in other programs wishing to take these courses must obtain the permission of the instructors concerned. Unless otherwise specified, all other courses may be taken by general, honours, and students from other programs, providing the prerequisites are met.

Courses designated with (H) are Honours level courses requiring for registration a cumulative average of at least 70% in all course attempts in Psychology, or registration in either the HRM Major or ISHB Major.

**Statistics (STAT)**

**Department of Mathematics and Statistics, College of Physical and Engineering Science**

Students in this program will acquire the ability to use modern statistical methods in a variety of applications, the theoretical understanding necessary to develop statistical methods to meet new needs and a solid preparation for further study. As well, since statistical computing is a fundamental tool for the application and development of modern statistical methods, students will develop skills in computer applications programming using such high-level languages as SAS and S-PLUS.

Students may enter this major in any semester. A student wishing to declare the major must consult the Faculty Advisor. A total of 20.00 credits is required to complete the major. Required 1000 level courses are listed under Semester 1 and Semester 2 of the recommended Schedule of Studies for Major. At least 8.00 credits in Statistics and Mathematics are required at the 2000 level or above, as follows: MATH*2130, MATH*2150, MATH*2160, MATH*2200, STAT*2040, STAT*2050, STAT*3100, STAT*3110, STAT*3210, STAT*3240, STAT*3320. Five other courses (2.50 credits) in Statistics at the 3000 or 4000 level, of which at least four (2.00 credits) must be at the 4000 level. One other course (0.50 credits) in Mathematics or Statistics at the 2000 level or above.

** Electives must satisfy the following requirements:
- 1. Electives must include at least 2.50 credits in Statistics at the 3000 or 4000 level, and an additional 0.50 credits in Statistics or Mathematics at the 2000 level or above.
- 2. At least 2.00 credits in Statistics must be at the 4000 level.
- 3. Electives plus core courses must include at least 6.00 credits at the 3000 or 4000 level from the B.Sc. Program Committee approved list of science electives.
- 4. At least 1.00 credits in Arts or Social Science must be completed.

#### Wild Life Biology (WLB)

Department of Integrative Biology, College of Biological Science

The Major in Wild Life Biology provides exposure to the ecological principles upon which the scientific management of wild life is based. This major prepares students for post-graduate work in ecology and management of wild life and provides a sound science background for students wishing to pursue careers in teaching, government service or the private sector.

Electives must include:
1. A minimum of 1.00 credits from:
   ZOO*4090 [0.50] Ornithology
   ZOO*4280 [0.50] Mammalogy
   ZOO*4430 [0.50] Herpetology
2. At least 1.00 Arts or Social Science electives.

Zoology (ZOO)

Department of Integrative Biology, College of Biological Science

The Major in Zoology offers a broad education in the life sciences while providing a more specialized understanding of the structure, function and ecology of animals. This major qualifies students for postgraduate work in zoology and other life sciences and provides a sound science background for students wishing to pursue careers in teaching, government service or the private sector.

Major (Honours Program)

Students may enter this major in Semester 1 or any semester thereafter. A student wishing to declare the major must consult the Faculty Advisor. A minimum total of 20.00 credits is required to complete the major.

   ZOO*4810 [0.25] Field Ecology
   Other field or research courses with approval of faculty advisor.
2. At least 1.00 Arts or Social Science electives.
3. This major must contain at least 6.00 science credits at the 3000 or 4000 level, which must include at least 2.00 at the 4000 level. The restricted elective in point number 1 above counts as part of this 3000 or 4000 level requirement.

Note: The Major in Zoology is a flexible program which allows students in consultation with faculty advisors, to design a program to meet their own needs and interests. For example, students may wish to concentrate in Evolutionary Physiology, Quantitative Zoology, or Systematic Zoology for which lists of electives are available from faculty advisors.

Minor (Honours Program)

Students in programs other than Zoology, Wildlife Biology, Marine and Freshwater Biology, and Ecology who have a strong interest in Zoology may choose to take a minor in Zoology.

A minor in Zoology requires a minimum of 5.00 credits, 4.00 of which must be from the following list:
BIOL*3110 [0.50] Population Ecology
BIOL*3120 [0.50] Community Ecology
ZOO*2070 [0.50] Invertebrate Zoology I
ZOO*2080 [0.50] Invertebrate Zoology II

ZOO*4280 [0.50] Mammalogy
ZOO*4330 [0.50] Environmental Biology of Fishes
ZOO*4430 [0.50] Herpetology

The remaining 1.00 credit may also come from this list or from outside this list, in consultation with a faculty advisor.
Bachelor of Science in Agriculture [B.Sc.(Agr.)]

The B.Sc.(Agr.) degree program is a 4 year honours science program designed to provide a fundamental education in the science of agriculture. The curriculum includes courses in the agricultural sciences, the physical, biological and social sciences, and in the arts.

Program Information

Agrologists must be effective communicators and problem solvers, self-directed in their learning, and have a global perspective of the agrifood systems. Students will be involved in co-operative group learning activities and will experience courses that are multidisciplinary and integrate the teaching activities of many faculty and departments.

Students will have the option of completing a broad agricultural program (honours agricultural science) or identifying another major in which they take a minimum of 6.00 credits. The curriculum provides opportunities for students to select courses that will help them prepare for professional careers as entrepreneurs, scientists, marketing specialists, financial managers, technical advisors, or communication specialists. Students will have a comprehensive understanding of the food system when they graduate. They will be able to integrate their knowledge of production agriculture, environmental management, resource allocation and business management as it applies to the food system nationally and globally.

Students will be encouraged to integrate their academic program with a well-planned series of employment activities in the summer months and to develop their leadership and interpersonal skills in on-campus and community activities. There is a strong commitment in the curriculum to the philosophy of "whole person development" and students are encouraged to identify personal goals that they wish to accomplish in each of these areas of their development.

Graduates meet the educational requirements for membership in the Ontario Institute of Agrologists. The Ontario Institute of Agrologists is the professional organization in agriculture in the Province of Ontario. Professional institutes in the various provinces in Canada and the scientific societies in agriculture collectively comprise the Agricultural Institute of Canada. The program received full accreditation from the Agricultural Institute of Canada in April 1999.

B.Sc.(Agr.) Majors:

- Agricultural Economics
- Animal Science
- Crop, Horticulture and Turfgrass Science
- Honours Agricultural Science
- Organic Agriculture
- Urban Landscape Management

Declaration of a Major

All students are admitted into an undeclared major upon entry. Students will be required to select a major by semester 3 through consultation with the Program Counsellor and Faculty Advisors. The course requirements are listed for each major in the following section.

Students may, with appropriate approvals, elect to complete Minors associated with other degree programs as listed in the undergraduate calendar.

Study Abroad

The B.Sc.(Agr.) degree program is similar in many respects to programs offered at faculties of agricultural science in other provinces in Canada. Students are strongly encouraged to consider studying for 1 or 2 semesters in other faculties of agricultural science in Canada and in selected countries around the world.

Students interested in studying at another institution program should consult the B.Sc.(Agr.) Program Counsellor to discuss their plans, and refer to the scholarship section for financial support.

For more specific information on these opportunities refer to Section V--International Study in this calendar, or contact the OAC Dean's Office.

Doctor of Veterinary Medicine

Students in the B.Sc.(Agr.) program normally apply for admission to the D.V.M. program after semester 4 or later. Applications must be submitted to the Admissions Services, Office of Registrarial Services. Students should consult the D.V.M. Section of the calendar. Students who do not gain admission to the D.V.M. program are eligible to continue in the B.Sc.(Agr.) program through to graduation. Students planning to enter the D.V.M. program are advised to include 12U biology, 12U chemistry, and 12U physics in addition to calculus in secondary school.

Continuation of Study

Students are advised to consult the regulations for continuation of study within the program which are outlined in detail in Section VIII--Undergraduate Degree Regulations & Procedures.

Conditions of Graduation

To qualify for the degree Bachelor of Science (Agriculture), the student must successfully complete a minimum of 20.00 credits as set out in the Schedule of Studies listed below.
Students should note that some suggested electives (marked by asterisks**) require other courses as prerequisites. Students should consult the most recent undergraduate calendar for specific requirements.

**Minor (Honours Program)**

The requirement of 5.00 credits for the minor is divided into 2 groups of courses, required courses and restricted electives. Students should ensure that they obtain the necessary prerequisites for required and restricted elective courses. Students should seek academic counselling from the B.Sc.(Agr) Program Counsellor early in their program. This minor is not open to students in the B.Sc.(Agr) Program.

**Minor**

A minimum of 5.00 credits is required including:

One of:
- AGR*1250 [0.50] Agrifood System Trends & Issues
- ENVB*2010 [0.50] Food Production and the Environment

Three of:
- AGR*2320 [0.50] Soils in Agroecosystems
- AGR*2350 [0.50] Animal Production Systems and Industry
- AGR*2400 [0.50] Economics of the Canadian Food System
- AGR*2470 [0.50] Introduction to Plant Agriculture
- AGR*2500 [0.50] Field Trip in International Agriculture
- EDRD*3400 [0.50] Sustainable Communities
- FOOD*3070 [0.50] Introduction to Food Processing

3.00 credits from the following Elective List:

Note: At least 0.50 credits must be at the 4000 level and 1.00 credits at the 3000 level or higher.

**Agronomy:**
- CROP*3300 [0.50] Grain Crops
- CROP*3310 [0.50] Protein and Oilseed Crops
- CROP*3340 [0.50] Managed Grasslands
- CROP*4220 [0.50] Cropping Systems
- CROP*4240 [0.50] Weed Science
- PBO*3110 [0.50] Crop Physiology

**Animal Science:**
- ANSC*2330 [0.50] Horse Management Science
- ANSC*2340 [0.50] Structure of Farm Animals
- ANSC*2360 [0.50] Challenges and Opportunities in Animal Production
- ANSC*3080 [0.50] Agricultural Animal Physiology
- ANSC*3150 [0.50] Principles of Farm Animal Care and Welfare
- ANSC*4050 [0.50] Biotechnology in Animal Science

- ENVB*3030 [0.50] Pesticides and the Environment
Students must choose either Option A or B in Semester 7 and 8

Option A:

Students must choose either Option A or B in Semester 7 and 8

Option A:

Students must choose either Option A or B in Semester 7 and 8

Option A:
1. A minimum of 3.00 credits. 1.00 credits required from each of Animal Breeding and Genetics, Animal Nutrition as well as Animal Physiology and Behaviour and Genetics:

- ANSC*4020 [0.50] Genetics of Companion Animals
- ANSC*4050 [0.50] Biotechnology in Animal Science
- MBG*3060 [0.50] Quantitative Genetics
- MBG*4030 [0.50] Animal Breeding Methods

Animal Nutrition:
- ANSC*3120 [0.50] Introduction to Animal Nutrition
- ANSC*3170 [0.50] Nutrition of Fish and Crustacea
- ANSC*3180 [0.50] Wildlife Nutrition
- ANSC*4260 [0.50] Beef Cattle Nutrition
- ANSC*4270 [0.50] Dairy Cattle Nutrition
- ANSC*4280 [0.50] Poultry Nutrition

- ANSC*4470 [0.50] Animal Metabolism
- ANSC*4550 [0.50] Horse Nutrition
- ANSC*4560 [0.50] Pet Nutrition

Animal Physiology and Behaviour:
- ANSC*3210 [0.50] Principles of Animal Care and Welfare
- ANSC*3300 [0.50] Animal Reproduction
- ANSC*4090 [0.50] Applied Animal Behaviour
- ANSC*4100 [0.50] Applied Environmental Physiology and Animal Behaviour
- ANSC*4130 [0.50] Reproductive Management and Technology
- ANSC*4490 [0.50] Applied Endocrinology

2. A minimum of 7.00 credits must be at the 3000 level or higher, of which 5.00 credits must be in agricultural science and of which 3.50 credits must be at the 4000 level. Refer to Program Counsellor for list of agricultural science courses.

3. A humanities or social science course (0.50 credits) at the 2000 level or above from the College of Arts or College of Social and Applied Human Sciences.

1. 1.00 to 1.50 electives or restricted electives
2. A humanities or social science course (0.50 credits) at the 2000 level or above from the College of Arts or College of Social and Applied Human Sciences.

Crop Science

Choose three courses (1.50 credits) among the following:

- CROP*2050 [0.50] Gateway to Organic Agriculture
- CROP*3300 [0.50] Grain Crops
- CROP*3310 [0.50] Protein and Oilseed Crops
- CROP*3340 [0.50] Managed Grasslands
- CROP*4220 [0.50] Cropping Systems
- CROP*4240 [0.50] Weed Science

Choose three courses (1.50 credits) among the following:

- AGR*2350 [0.50] Animal Production Systems and Industry
- ENVB*3210 [0.50] Plant Pathology
- ENVB*4100 [0.50] Applied Entomology

- SOIL*3000 [0.50] Environmental Issues in Agriculture and Landscape Management
- SOIL*3080 [0.50] Soil and Water Conservation
- SOIL*4160 [0.50] Design of Organic Production Systems

Horticultural Science

Choose two courses (1.00 credits) among the following:

- HORT*2450 [0.50] Introduction to Turfgrass Science
- HORT*3010 [0.50] Annual, Perennial and Indoor Plants - Identification and Use
- HORT*3280 [0.50] Greenhouse Production
- HORT*3350 [0.50] Woody Plant Production and Culture
- HORT*3510 [0.50] Vegetable Production
- HORT*4420 [0.50] Fruit Crops

Choose two courses (1.00 credits) among the following:

- BOT*3410 [0.50] Plant Anatomy
- HORT*3230 [0.50] Plant Propagation
Restricted Electives

1. A minimum of 2.00 credits from the list of restricted electives below:

   - ANSC*2360 [0.50] Challenges and Opportunities in Animal Production
   - ANSC*3150 [0.50] Principles of Farm Animal Care and Welfare
   - CROP*2110 [0.50] Crop Ecology
   - CROP*4240 [0.50] Weed Science

   - EDRD*2000 [0.50] Introduction to Rural Extension
   - ENVB*2040 [0.50] Plant Health and the Environment
   - ENVB*3210 [0.50] Plant Pathology
   - ENVB*3300 [0.50] Applied Ecology and Environment
   - ENVB*4100 [0.50] Applied Entomology
   - GEOG*3320 [0.50] Agriculture and Society
   - HORT*3260 [0.50] Woody Plants
   - PBO*4100 [0.50] Soil Plant Relationships
   - PHIL*2070 [0.50] Philosophy of the Environment
   - SOAN*2220 [0.50] Gender and Change in Rural Canada
   - SOC*3380 [0.50] Society and Nature
   - SOC*4210 [0.50] Advanced Topics in Rural Sociology
   - SOIL*3170 [0.50] Soil Processes in Landscape
   - SOIL*3000 [0.50] Environmental Issues in Agriculture and Landscape Management

2. A minimum of 7.00 credits must be at the 3000 level or higher, of which 5.00 credits must be in agricultural science and of which 3.50 credits must be at the 4000 level. Refer to Program Counsellor for list of agricultural science courses.

3. A humanities or social science course (0.50 credits) at the 2000 level or above from the College of Arts or College of Social and Applied Human Sciences.

Note: In this major there are fees charged to cover partial costs of some field trips. Students in need of financial assistance should approach the Chair of the department.

Urban Landscape Management (ULM)

The School of Environmental Design and Rural Development

The Major in Urban Landscape Management is designed to address the need for graduates who can manage not only attractive, but functional and sustainable, urban open spaces. Graduates will have an applied understanding of soil and plant science as they specifically relate to recreational and aesthetic urban open space. Students will learn to address issues in a multidisciplinary and creative manner reflecting environmental, social, political, cultural and economic imperatives.

Field Trips

Participation in organized visits to study site areas and projects sites is obligatory for all students taking certain courses in Urban Landscape Management. To the extent that is possible students will be informed of the dates, destinations and cost of field trips prior to registration. Students who have reason to seek exemption from the requirement may apply to the professor for permission to substitute papers on appropriate topics.

Selection of Electives

All electives may be chosen independently although counselling with the academic advisor is highly recommended. In selecting electives two approaches may be followed: 1) electives may be chosen from a variety of disciplines to achieve breadth of knowledge or 2) all or most electives may be chosen in a subject area in order to pursue a particular file of interest in depth. Students are cautioned to be aware of university regulations concerning the required minimum number of 3000 and 4000 level courses and that the prerequisite requirements of courses may direct them to take particular courses in preparation.

Bachelor of Science in Environmental Sciences
[B.Sc.(Env.)]

Program Information

Objectives of the Program

The Environmental Sciences program is designed to provide a strong interdisciplinary grounding in specific environmental sciences including the socioeconomic context in which environmental issues are resolved.

There is an emphasis on management and decision-making skills for the application of scientific knowledge to environmental problems, and the evaluation of appropriate environmental policies. A practical perspective based on defining and resolving problems is central to the program, and this is often done in the context of group work.

Substantial emphasis is placed on communication skills, including the development of competence in both written and oral presentations. These skills will be progressively developed in core courses from the first to the fourth year. Students in the final years of their program will be expected to take part in more intensive communication skill development. Graduates will seek employment in a range of fields, from government agencies to private industry and research.

Academic Counselling

General information on the degree program is available from the Program Counsellor, Faculty of Environmental Sciences. Advising for each major is available through the assigned faculty advisor responsible for the major. Students are encouraged to seek the advice of the faculty advisors when choosing restricted electives and planning course selections.

Degree

The degree granted for the successful completion of this honors program will be the Bachelor of Science in Environmental Sciences--B.Sc.(Env.).

Continuation of Study

Students are advised to consult the regulations for Continuation of Study in Section VIII--Undergraduate Degree Regulations and Procedures of this Calendar.

Conditions for Graduation

In order to graduate from the B.Sc.(Env.) program, students must successfully complete a minimum of 20.00 credits including all the stated course requirements for the program. As well, students must achieve a cumulative average of 60% or higher over all course attempts.

Environmental Sciences (Co-op)

Office of the Associate Dean, Faculty of Environmental Sciences.

A 5-year Honours Program in Environmental Sciences is offered as a Co-operative Education Program. This option is offered within the B.Sc. (Env.) degree and is available to all majors. The program requirements are the same as those listed for the regular B.Sc. (Env.) program, by the Co-operative Education Program and as outlined in the Continuation of Study policy (Section VIII--Undergraduate Degree Regulations & Procedures). 3 co-op work terms (COOP*1000, COOP*2000, COOP*3000) are required. An optional 4th co-op work term (COOP*4000) is available. COOP*1100 must be completed during semester 2.

Since some of the program requirements in the degree program (core or major) are not offered each semester, careful planning and program consultation with the Faculty Co-op Advisor is essential. In particular, students are encouraged to seek advice when choosing for their Summer academic semester.

The Environmental Sciences Program

The degree in Environmental Sciences consists of a minimum of 20.00 credits, as follows:

1. 5.00 First Year Curriculum
2. 5.00 Environmental Sciences Core
3. 7.00 Environmental Sciences Major
4. free electives*

Within these courses, students must include at least 6.00 credits at the 3000 or 4000 level, and no program may include more than 7.00 credits at the 1000 level.

* There are not specific subject requirements for the elective courses, however, you may NOT select the following: BOT*1200, CHEM*1100, CIS*1000, GEOL*1100, MATH*1050, MET*1000, MICR*1010, MICR*1020, MBG*1000, PHYS*1600, ZOO*1500.

Please note that not all courses in the "One of:" options are available each semester (F, W, S). Students are encouraged to seek advice from the appropriate advisor when selecting and scheduling courses.

First Year Curriculum

The first year courses have been selected to provide students with sufficient background and knowledge to enter any one of the Environmental Sciences majors.

Environmental Sciences Core

In addition to the common first year curriculum, students are required to take the following core Environmental Sciences courses in the semesters recommended in the schedule of studies:

- BIOL*2060 [0.50] Ecology
- ENVS*2150 [0.50] Terrestrial Systems
- ENVS*3150 [0.50] Aquatic Systems
- ENVS*3160 [0.50] Atmospheric Systems
- ENVS*4011/2 [0.50] Project in Environmental Sciences
- ENVS*4300 [0.50] Environmental Law & Regulation
- PHIL*2070 [0.50] Philosophy of the Environment

One of:

- AGEC*2700 [0.50] Survey of Natural Resource Economics
- ECON*2100 [0.50] Economic Growth and Environmental Quality

One of:

- GEOG*3210 [0.50] Management of the Biophysical Environment
- POLS*3370 [0.50] Environmental Policy Formation and Administration
- ZOO*4050 [0.50] Natural Resources Policy

One of:

- ECON*2740 [0.50] Economic Statistics
- GEOG*2460 [0.50] Analysis in Geography
- STAT*2040 [0.50] Statistics I

Note: the statistics course required is prescribed by the student's choice of major.

Environmental Sciences Majors

Earth and Atmospheric Science
- Ecology
- Environmental Biology
- Environmental Economics and Policy
- Environmental Geography
- Environmental Monitoring and Analysis
- Environmetrics and Modelling
- Natural Resources Management

Requirements for each of these majors are described in the detailed schedules of studies below.

Earth and Atmospheric Science (EAAS)

Department of Land Resource Science, Ontario Agricultural College

Major

Please note that not all courses in the "One of:" options are available each semester (F, W, S). Students are encouraged to seek advice from the appropriate advisor when selecting and scheduling courses.

In this major there are fees charged to cover partial costs of some field trips. Students in need of financial assistance should approach the Chair of the department offering the course.

Bachelor of Science in Technology [B.Sc.(Tech.)]

The B.Sc.(Tech.) program was designed for students who do not intend to pursue post-graduate studies and are strongly focused on securing industrial employment that makes use of the knowledge acquired in their bachelor's degree. This program provides students with the knowledge and skills deemed to be essential by employers and exemplifies the positive benefits of cooperation between colleges and universities. The program combines rigorous theory with practical applications.

For the B.Sc.(Tech.) degree the University offers an honours program requiring the equivalent of 8 semesters of successful full-time study. Two of the semesters will be located at Seneca College in Toronto. The program requires the completion of four co-op work-terms. Students are encouraged to study full-time and to follow the schedule of studies listed below. In the B.Sc.(Tech.) program, 2.50 credits per semester is the normal load for a regular full-time student.

Program Information

Students are required to follow the pattern of study for one of the two majors offered (Applied Pharmaceutical Chemistry or Physics and Technology) and complete all of the required courses specified in the Schedule of Studies.

Courses taught by Seneca College are noted in the schedule of studies. The course descriptions are in this calendar however detailed course profiles can be accessed through the Seneca College home page.

Entry Credits

In general the 4U or OAC credit or its equivalent is required in a subject area to allow entrance to the initial university course. Students who lack this requirement can remedy the deficiency by successful completion of:

- BIOL*1020 for students lacking biology
- CHEM*1060 for students lacking chemistry
- PHYS*1020 for students lacking in physics

Not more than one of the above will be allowed for credit toward the B.Sc.(Tech.) degree.

Continuation of Study

Students are advised to consult the University's regulations for continuation of study which are outlined in detail in Section VIII—Undergraduate Degree Regulations & Procedures. In addition to the University regulations, students will also be required to achieve a 70% cumulative average by the end of semester 2 due to the required co-op component within this program. Students will be evaluated after semester 2 and those students who have a cumulative average less than 70% but meet the Guelph continuation of study requirements may be moved to the B.Sc. Physics major. Students should contact their Program counsellor.

Honours Minors

Students may wish to add a minor to their major. A minor is a group of courses which provides for exposure to and mastery of the fundamental principles of a subject. A minor consists of a minimum of 5.00 credits. It may also require certain specified courses. Given the intended technical training of this degree, students have very little flexibility in terms of electives. As such, students wishing to add a minor would be required to enroll in additional semesters of study. Students wishing to take a minor should consult with their program counsellor.

Conditions for Graduation

In order to qualify for graduation from the B.Sc.(Tech.) program, the student must have successfully completed all of the courses approved for the program, achieved a 60%, or higher, cumulative average and received a minimum grade of satisfactory for the co-op work reports and work performance evaluations.

Doctor of Veterinary Medicine (D.V.M.)

Program Information
The University of Guelph offers the degree program Doctor of Veterinary Medicine (D.V.M.) at the Ontario Veterinary College. The program is offered during the Fall and Winter semesters only and normally requires 8 semesters to complete. The college is accredited by the Canadian Veterinary Medical Association, the American Veterinary Medical Association, and the Royal College of Veterinary Surgeons of Britain. The D.V.M. degree from Guelph is respected by veterinarians throughout the world.

Students entering the D.V.M. Program prior to Fall 2000 should refer to the undergraduate calendar for their year of program entry for appropriate course listings.

Objectives of the Program
1. The graduates should have the knowledge and skills appropriate to their career orientations and sufficient to allow the pursuit of a variety of careers in veterinary medicine, including graduate studies. They should be able to pass the examinations of all Canadian licensing bodies and must possess a fundamental core of academic veterinary science knowledge and of technical competence.
2. The graduates must be able to solve animal health problems and must have knowledge of the management of domestic animals and the functioning of the various animal industries.
3. The graduates must be able to communicate effectively, whether writing scientific papers, or conversing with clients. The ability to relate to people is an acquired skill that must be encouraged during the program of study.
4. Through a commitment to continuing education, the graduates must accept the professional responsibility to stay abreast of new developments and to pursue solutions to new problems.
5. The graduates must have a genuine concern for the welfare of all animals. The graduates should be aware of their responsibilities to the profession in terms of ethical and professional conduct and have an understanding of the moral questions facing veterinarians.
6. The graduates must have had the opportunity during their university tenure to develop a range of non-veterinary interests sufficient to equip them to take a responsible role in society.

Regulations for Licence to Practise
Graduates are eligible to practise in Canada, but the degree in veterinary medicine does not in itself confer the right to practise. On information matters relative to licence to practise in the various provinces of Canada, students should communicate with the Canadian Veterinary Medical Association, 339 Booth Street, Ottawa, Ontario, Canada K1R 7K1, who will refer them to the appropriate provincial veterinary association.

Admission to the Veterinary Medicine Program
Complete details on admission requirements and procedures are listed in Section IV--Admission Information.

Academic Counselling
The Office of the Assistant Dean for Student Affairs provides academic counselling and referral to other appropriate resources for all D.V.M. students. In particular, students who are requesting a Supplemental Privilege are required to meet with the Assistant Dean so that the student can be informed of appropriate resources (such as Learning and Writing Services and the Counselling and Student Resource Centre) and use them to deal with his or her academic difficulties.

Students on probation are required to meet regularly with the Assistant Dean so that the student’s academic progress is monitored and resource information and assistance is provided to the student. As an aid to improving their academic efficiency all students whose program average (PA) is between 60% and 70% will be sent a letter from the Assistant Dean outlining resources available to them.

Conditions for Continuation of Study
For supplemental and deferred privileges, all students in the D.V.M. Program are subject to Deferred Privilege Procedures and Supplemental Privilege Procedures outlined in Chapter VIII--Undergraduate Degree Regulations and Procedures.

This Continuation of Study Policy applies to students entering the D.V.M. Program in Fall 2000 and subsequent semesters. For continuation of study, a student must satisfy the conditions as presented below. In order to graduate, students must fulfill the course requirements for the program and have achieved at least a 60% program average. The Academic Review Sub-Committee will assess all cases where a student’s academic progress does not meet the Continuation of Study requirements and will interpret the academic regulations. The requirements will be applied with due consideration to the credit weights of the course, the role of the course in the Phase and the degree of integration of the course with concurrently required courses, and in light of the student’s particular circumstances (see VIII--Undergraduate Degree Regulations and Procedures).

Students entering the D.V.M. Program prior to Fall 2000 should consult the Undergraduate Program for the year in which they entered the Program.

Full-time Study
The D.V.M. program is offered as a full-time program and normally requires four phases (over the equivalent of eight academic semesters at the University of Guelph) to complete.

In exceptional extenuating circumstances, the Academic Review Sub-Committee may allow a student to take courses on a part-time basis. In these instances, the Academic Review Sub-Committee has the discretion to select the courses that the student will register in on a part-time basis. Students permitted to take courses on a part-time basis are cautioned that there is an enrolment limitation for the program and that access to certain courses or resumption of the program on a full-time basis will be conditional on the availability of space.

Failed Courses
1. Continuation of study from one phase of the D.V.M. Program to the next is dependent on the successful completion of all courses, or approved equivalents, in the published schedule of studies for the D.V.M. Program.
2. A student who fails one course in a phase may be required to repeat all courses in the entire phase. A list denoting the consequences of failure of any particular course in the D.V.M. Program is as follows:
   a. Failure in any of the following courses results in the Repeat of the Course:
      VETM*3000, VETM*3210, VETM*3390, VETM*3430, VETM*3220, VETM*3440, VETM*3480, VETM*3510, VETM*4220, VETM*4450, VETM*4530, VETM*4610, VETM*4620, VETM*4660, VETM*4670, VETM*4680, VETM*4710, VETM*4720, VETM*4870, VETM*4880, VETM*4890, VETM*4900, VETM*4920, VETM*4930, VETM*4940.
   b. Failure in any of the following courses results in the Repeat of the Phase:
      VETM*3080, VETM*3120, VETM*3400, VETM*3410, VETM*3450, VETM*3460, VETM*3470, VETM*4460, VETM*4470, VETM*4480, VETM*4490, VETM*4520.

   This information is also available as part of the Phase Handbooks.

3. A student who is required to repeat a course and/or phase will be required to withdraw from the D.V.M. program. A student who is required to withdraw can register in the non-degree D.V.M. program. Non-degree D.V.M. Program status is normally granted for a maximum period of one year. Students must advise the Assistant Dean(s) of the College, in writing by 31 May, of their intention to register the following fall semester in the non-degree program to repeat the failed course and/or phase. Students must normally repeat a failed course and/or phase in the academic year immediately following that in which the failure occurred.
4. A student who successfully completes a repeated course and/or phase in the academic year immediately following that in which the failure occurred may re-apply to the D.V.M. program through Admission Services. Applications for re-admission must be received by 31 May of the year in which they wish to be considered for re-admission. Readmission is not automatic and will be conditional upon availability of space. Students considering readmission should consult the Assistant Dean(s) of the College regarding procedures and criteria for readmission to the D.V.M. program. A student who is readmitted to the D.V.M. program will be subject to the academic rules and regulations in effect for the readmission year.
5. A student will be allowed to fail a particular course only once. Any student who fails the same course twice will be ineligible for readmission to the D.V.M. Program.
6. Grades obtained by D.V.M. students who repeat one or more VETM course(s) who enrolled in the non-D.V.M. program, will be reported on the transcript in addition to the original course grade. In the instance where all courses in a Phase are repeated, the grades from the repeated VETM courses will constitute the new Phase average. The new D.V.M. program average will include the grades obtained in both the original and repeat VETM course attempts.

Supplemental Privileges
1. In the circumstances of a failed course, the Academic Review Sub-Committee may, if appropriate and under special circumstances only, allow a student the opportunity to gain credit standing in a failed course by granting a supplemental privilege (see above). This is a supplemental privilege (see VIII--Undergraduate Degree Regulations and Procedures).

   Students considering readmission should consult the Assistant Dean for Student Affairs who will inform the student of appropriate resources to be used to deal with his/her academic difficulties.

   This information is also available as part of the Phase Handbooks.

   The new D.V.M. program average will include the grades obtained in both the original and repeat VETM course attempts.

   Students entering the D.V.M. Program prior to Fall 2000 should consult the Undergraduate Program for the year in which they entered the Program.

Conditions for Graduation
In order to qualify for graduation from the 8 semester Honours D.V.M. program, the student must have completed successfully the courses approved for the program. Students will not be allowed to graduate while on probation.
Withdrawal from the Program
Students who have voluntarily withdrawn from the D.V.M. program and who wish to return must give notice to the Assistant Dean for Student Affairs, O.V.C., of their intention to return by May 31 if they wish to return in September of the upcoming academic year. Students contemplating a withdrawal from the program are cautioned that there is an enrolment limitation for the program and that re-entry will be conditional on the availability of space. The Program Committee reserves the right to select the quota from among the qualified applicants.

Protective Clothing
All D.V.M. students will require 3 laboratory coats and 3 pairs of coveralls. Students in Phase 3 must also have 3 surgical suits. Phase 4 students will require an additional 1 of each of the 3 types of protective clothing. Labels with each student's name must be affixed to all items of clothing. All soiled clothing must be laundered through the Veterinary Teaching Hospital's "dirty-in/ clean-out" plan. Students must wear steel-capped shoes or boots in the large animal clinic and rubber boots in pathology laboratories. A pair of white shoes and a pair of obstetrical boots must be available in Phase 4. The Veterinary Teaching Hospital will not provide extra protective clothing; however, short white jackets will be provided by the Veterinary Teaching Hospital for Phase 4 students during the small animal medicine rotation.

Estimate of Expenses
Attention is drawn to Section VI—Schedule of Fees for information on tuition, University student organizations and rabies immunization required for all students in the program. In addition, while the college supplies most laboratory equipment, students may wish to purchase instruments for personal use. Texts, protective clothing, and a minimum of supplies for personal use may cost approximately $500 per semester.

Health and Safety
Students must follow the health and safety policies required for the various courses in the veterinary program. Pregnant students and others with increased medical risks should consult Health Services concerning potential health risks which may occur during the normal course of their studies.

Immunization against rabies is a requirement for admission and continuation in the D.V.M. Program. Annual rabies titres and booster immunizations (if necessary) are mandatory for all Program participants. Prospective students and in-course students should contact Student Health Services (519-824-4120 extension 52133) for further information and guidance about the rabies surveillance program. Faculty and staff members should contact Occupational Health Services, extension 52133, for information about medical surveillance programs provided in accordance with University Safety Policy 851.13.03.

Schedule 4 (D.V.M. Continuation of Study)
Continuation of Study is assessed on the student's D.V.M. Program Average (not the University Cumulative Average) and according to the policy on failures as stated above. In Phase 2 and beyond, eligibility to continue is also assessed at the end of each phase using the Phase Average (PHA). Courses that are given a grade of Pass or Fail do not count towards the PHA.

Evaluation is on the basis of the student's performance in the various courses. The student must achieve the required PA average in each phase and the required PA average in cumulative study. For Course Attempts in Phase 2 and Beyond, the student may repeat a component of a course, one or more entire courses, an entire Phase, or one or more clinical rotations.

If on Probation:
For Course Attempts in Phase 2 and Beyond

If Eligible to Continue:
For Course Attempts in Phase 1

For Course Attempts in Phase 2 and Beyond

Co-operative Education Programs

Co-operative Education is an experiential learning process that integrates academic study with paid work experience. Students will participate in a competitive employment process to be engaged in work terms developed and approved by Co-operative Education and Career Services as suitable learning experiences relevant to the students' area of academic study. A graded work report and performance evaluation will be required for each work term and will appear on the student's official transcript. The academic and work schedules will vary with degree program and major.

The first work term is scheduled after the third or fourth academic semester, providing an academic foundation on which to build the work experience. In addition, COOP*1100 – Introduction to Co-operative Education, a mandatory, non-credit course, is a prerequisite for the first work term.

COOP*1100 is designed to introduce students to the theory and practice of co-operative education at the University of Guelph. Students will acquire practice in the skills required to succeed in the competitive process of securing suitable work terms. Specifically, the course will cover: characteristics and expectations of the "new" world of work, interview skills, resume and cover letter writing.

Students will learn to take full advantage of the co-op option and will obtain practice in the co-op employment process.

Admission Information

Students are admitted to a Co-operative Education program directly from high school in the Fall semester. Some programs may admit a small number of in-course students after first or second semester. Normally, students must apply before their third academic semester in order to be considered. The decision to admit an in-course student is dependent upon space in the program, the grades of the student, the approved Academic and Work Sequence, and any other information relevant to the program. The On-Campus Co-ordinator is responsible for facilitating all admission processes. Please refer to the schedule of dates in the Undergraduate Calendar for in-course application deadlines.

Eligibility

High school students must have a minimum average of 75% to apply to the co-op program. Once accepted to the University of Guelph, you must maintain a 70% cumulative average in the first 2 semesters (full-time study) in order to remain in the co-op program. For transfer students, you must meet normal admission requirements, as well as complete one academic semester at Guelph in which you achieve a minimum 70% average prior to participating in the co-op process. As well, you must have your academic and work schedule approved. Applicants must be a Canadian citizen or permanent resident/landed immigrant. Applicants holding U.S. citizenship should contact Co-operative Education and Career Services.

Continuation of Study

Students will be allowed to continue in the co-op program only if their cumulative average, over 4.0 credits, is 70% or higher after two full-time academic semesters. Students are also required to meet the conditions for continuation of study for their degree program as listed in the Undergraduate Calendar. In addition, all students must satisfactorily complete COOP*1100 before their first employment process.

Co-op students must normally be registered as full-time. Co-op students are also required to meet other conditions, (e.g. satisfactory work term reports and work performance evaluations) in order to continue in the co-op program. Complete conditions for continuation of study for a co-op program are outlined in the Policy Agreement for Student Involvement in Co-operative Education. The complete policy can be viewed at www.coop.uoguelph.ca.

Release of Academic Information

By applying to the Co-op program, students grant permission to the Registrar's Office to release Co-operative Education Services their University of Guelph transcript and any transcript from other post-secondary institutions that may be part of the Academic Record held by the Registrar's Office. Students also grant permission to Co-operative Education Services to release their resumes, cover letters and any transcripts released by the Registrar's Office to prospective employers to whom the students are applying. Employment information, the work performance evaluation, and the work term report evaluation will appear on the academic transcripts.

Procedures for Work Semester Reports

A Work Report is required for each co-op Work Term in which the student is registered. Work Reports are graded by the Co-op Faculty Advisor and must be submitted to the Co-op Faculty Advisor according to the deadline indicated in the Undergraduate Calendar. Students completing two consecutive Work Terms with the same employer should consult with their Co-op Faculty Advisor regarding Work Report requirements for eight-month Work Terms. A grade of Outstanding, Very Good, Good, Satisfactory, or Unsatisfactory will appear on the student's Academic Record.

A student who receives an Unsatisfactory Work Report Evaluation will be given an opportunity to make revisions and resubmit the report. Students who are resubmitting a Work Report will not be eligible to proceed to the next employment process until receiving a grade of Satisfactory or higher. If, upon resubmission, the Work Report Evaluation is still unsatisfactory, the student will be required to withdraw from Co-op and may continue in the regular program if available.

In the case of a confidential Work Report, the student is responsible for ensuring that a confidential report is acceptable to the Co-op Faculty Advisor and making evaluation arrangements with the co-op Faculty Advisor and the employer.

Conditions for Graduation

In order to graduate, co-op students must follow the conditions for graduation for their degree program as outlined in the Undergraduate Calendar. In addition, students must receive evaluations of Good or higher in all but one Work Performance Evaluations and an evaluation of Satisfactory or higher in all Work Report Evaluations.

Students wanting to graduate with less than the required number of Work Terms must contact their Co-op Co-ordinator with the request. The Canadian Association for Co-operative Education (CAE) guidelines regarding Work Terms will be followed at all times.

Co-op Fees

Students in Co-op are required to pay a co-op fee each semester (see Section VI—Schedule of Fees). Students who enter Co-op in-course will have an altered payment schedule to be discussed upon admission. There is no application fee.

Schedule of Studies

Students entering the Co-op program are advised to review carefully the academic semester/work semester sequence as set out in the schedule of studies for the degree programs and specialization offered under Co-operative Education. Normally students must follow the sequence as scheduled. If, under exceptional circumstances, the schedule cannot be followed, the student must obtain written approval of an alternative work and academic semester sequence from the Co-op Coordinator and Co-op Faculty Advisor. In unusual circumstances the Director of Co-operative Education and Career Services may be involved in the approval process.

XI. Special Study Opportunities

Certificates and Diplomas

The University offers certificate and diploma programs in Applied Statistics, Communication Process, Environmental Citizenship, Environmental Conservation, Food Science, Hospitality Studies, Leadership, and Public Policy and Administration. These programs are designed for those who want to develop or upgrade skills in one of these areas without necessarily proceeding towards a three or four year degree program. These programs may be completed on a part-time basis over a period of time.

For those who are in a degree program or who will be transferring into a degree program, there will be a restriction as to the number of courses which can be used for both the certificate/diploma and a degree specialization. Up to 50% of the requirements for a degree-credit certificate can be applied towards a degree. Note that the Certificate in Leadership is exempt from this restriction.

For more information, please consult with the Program Counsellor for Open Learning (ext. 56050).

Certificate in Communication Process

The five-course online Certificate in Communication Process sets out to enhance participants’ knowledge, attitudes and skills necessary for successful careers in business, human resource management, education, medical and veterinary professions, social work, criminology, and international development.

This program focuses on facilitating knowledge-sharing through verbal and non-verbal signs and symbols, as it relates to units of different size and complexity - among individuals, groups, organizations, nations and regions of the world. By gaining insight into various communication processes, participants will be better equipped to effectively manage change in a constantly evolving environment.

The Certificate in Communication Process, available to both undergraduate students and open learners, is offered online through University of Guelph's School of Environmental Design and Rural Development, and is structured as follows:

**Required Courses**

EDRD*2020*DE [0.50] Interpersonal Communication
EDRD*3140*DE [0.50] Organizational Communication

3 of the following 4 courses:
EDRD*3120*DE [0.50] Educational Communication
EDRD*3160*DE [0.50] International Communication
EDRD*3180*DE [0.50] Social Processes in Mediated Communication
EDRD*4120*DE [0.50] Leadership Development in Small Organizations

For more information, please visit the website at: http://www.open.uoguelph.ca/offerrings/program.cfm?PID=75.

Certificate in Environmental Citizenship

Developed from a social science perspective, this Certificate is beneficial to those who want to learn more about the global environmental issues facing us today and in the future. Participants gain in-depth knowledge about environmental changes, their global impact, and how one can directly contribute to the environment's sustainability. The Certificate consists of six degree-credit distance education courses taken online from the University of Guelph's Faculty of Environmental Sciences. It is structured as follows, requiring six courses total, to include at least two at the 3000 or 4000 level:

**Required Course**

UNIV*2050*DE [0.50] Environmental Perspectives and Human Choices I

2 or 3 of the following:

Certificate in Food Science

The Certificate in Food Science program is offered by the Department of Food Science in a distance education mode. Normally, learners will require two years to complete the program. The certificate program is aimed at upgrading individuals who either have a formal university education in an area other than Food Science or have been working in Food Science-related areas but who have no academic background in Food Science. The certificate program concentrates on the chemistry, analysis, microbiology and processing of foods, and on the maintenance of food safety and quality throughout. All courses are offered in an interactive format via the internet.

Individuals interested in entering the Certificate in Food Science program should enrol in the Open Learning program through the Office of Open Learning. Post-secondary courses in microbiology and chemistry are pre-requisites for entrance into the program.

The core courses of the program cannot be used as substitutes for core courses or restricted electives in the B.Sc. Food Science Major.

**Required Courses**

FOOD*2010*DE [0.50] Principles of Food Science
FOOD*2400*DE [0.50] Introduction to Food Chemistry
FOOD*2410*DE [0.50] Introduction to Food Processing
FOOD*2420*DE [0.50] Introduction to Food Microbiology
FOOD*3430*DE [0.50] Introduction to Food Analysis

For more information, please visit the website at: http://www.foodsciencecertificate.com.

Certificate in Hospitality Studies

The Certificate in Hospitality Studies is offered online from the University of Guelph's School of Hospitality and Tourism Management, College of Management and Economics.

It is comprised of five courses taken via distance education and is designed to provide an overview of the hospitality industry, an understanding of human resources management principles and financial management skills. It is perfect for individuals needing additional formal education to assume greater management responsibilities.

Prior Learning Assessment is in place for this Certificate to evaluate and recognize work experience and previous education, including seminars, workshops and corporate training programs. Students may receive credit to a maximum of one credit towards one of the required courses. See Chapter VIII, Prior Learning Assessment, for more information. Individuals interested in PLA should consult with the Program Counsellor at the Office of Open Learning (ext. 56050).

The Certificate requires the five courses listed below:

2 or 3 of the following:
BDMS*2020*DE [0.50] Introduction to Hospitality Management
EDRD*3160*DE [0.50] International Communication
EDRD*3180*DE [0.50] Social Processes in Mediated Communication

Certificate in Leadership

The Certificate in Leadership is offered by the University of Guelph through the College of Management and Economics. This certificate program allows undergraduate students to complete both their degree program and the certificate concurrently. As well, the certificate is available to students in the Open Learning program.

The program focuses on new leadership models and practical applications in a variety of organizational settings. Five undergraduate courses are required, in addition to 120 hours of leadership practice. Students will develop an historical and theoretical understanding of leadership with particular emphasis on contemporary theories, models and research.

The program consists of 2.50 credits chosen from the lists below, plus 120 hours of leadership practice, in an approved placement. Some courses require particular prerequisites; it is important to take into account the necessary prerequisites and semester offered when determining the sequence in which courses are taken. Students should consult with the Open Learning program Counsellor at the Office of Open Learning (ext. 56050).

Students who wish to enrol in the Certificate in Leadership program should contact the Office of Open Learning at 519-767-5000. For more information, please visit the website at: http://www.leadershipcertificate.com.

Diploma in Applied Statistics

The Diploma in Applied Statistics is a program offered by the Department of Mathematics and Statistics, which seeks to give students of the Applied Sciences a technical competency in the use and application of Statistics. The program is intended mainly for those whose primary area of expertise is not in Statistics, but who feel the need to be able to use modern statistical techniques. This program seeks to fill a need of scientists to reach a useful level of competency in the use of statistical methodology.

Diploma Requirements

The program consists of 5.00 credits chosen from the following list. It is important to take into account the necessary prerequisites when determining the sequence in which the courses are taken. Consult an advisor from the department for assistance.

Co-operative Education

The Co-operative Education option is offered in 36 majors. Co-op provides eligible students with the opportunity to alternate semesters of academic study with semesters of paid work experience. The work experience is related to the student's academic program and/or career objectives. Admission can occur directly into semester 1 from high school, or in-course (but not normally beyond Academic Semester 3).

For further details refer to information on Co-operative Education in Section X—Degree Programs. Course requirements and academic/work sequences for specific majors are listed under the appropriate degree program in Section X—Degree Programs.

Distance Education

The Distance Education program, administered by the Office of Open Learning, supports academic departments in offering degree credit courses to students who choose to study outside the traditional classroom environment. Courses may come with a variety of learning resources, including: manuals, videotapes, audio CDs, DVDs, CD-ROMs, etc., depending on the nature of the course. As well, most courses incorporate computer conferencing, email, computer-based quizzes, and the use of the Internet. Distance education provides a contemporary means through which the University of Guelph continues its tradition of outreach and open learning opportunities.

Students may take distance education courses for a variety of reasons, including: to have flexibility in designing their own study schedules; to avoid timetable conflicts; to acquire credits while away on summer break or on a co-op job placement; to take courses unavailable in class in a given semester; to learn in an interactive online environment.

The University of Guelph recognizes the importance of distance learning and is committed to providing opportunities for the off-campus learner. A wide range of subject areas and course levels is available.

The following is a list of the courses that are offered in the distance format. When selecting these courses, section DE must be specified to indicate the distance education offering. Please consult Section XII—Course Descriptions. Because additional courses are constantly being developed, please consult the Office of Open Learning, 160 Johnston Hall, 519-767-5000, email: info@open.uoguelph.ca for an updated listing of courses available by distance education and when they are scheduled to be offered. Course listings are also available at www.open.uoguelph.ca.

XI. Special Study Opportunities, General Studies

The University of Guelph offers graduate programs in most departments and schools. These post-baccalaureate programs offer opportunities for personal, academic and professional growth. Students with a 70% average or higher should consider and investigate these options, beginning no later than their third undergraduate year. Decisions regarding the desired area of study and pursuit of scholarship support require forethought and planning. Information, application forms, and counselling are available through the graduate coordinators of each department/school. Students are also welcome to visit the Office of Graduate Program Services, Level 3, University Centre.

The University of Guelph offers opportunities for qualified students to do graduate work leading to the Master of Arts (M.A.), Master of Science (M.Sc.), Master of Landscape Architecture (M.L.A.), Master of Engineering (M.Eng.), Master of Science in Aquaculture (M.Sc. Aqua), Master of Business Administration (M.B.A.), Master of Fine Art (M.F.A.), Master of Science in Planning (M.Sc. Plan), Master of Applied Nutrition (M.A.N.), Doctor of Philosophy (Ph.D.), and Doctor of Veterinary Science (D.V.Sc.) degrees.

Interdisciplinary Studies

The University of Guelph offers many interdisciplinary programs that cross departmental and college boundaries. In addition, specific courses and specializations have been modelled on an interdisciplinary approach to the topic or subject area.

Courses with an interdisciplinary approach and content are listed in Section XII under the following headings: Humanities, Physical Science, and Social Science as well as Interdisciplinary University Courses.

The following list of specializations is not intended to represent all the university's interdisciplinary initiatives. Instead it identifies those specializations that involve a significant degree of collaboration between departments or colleges. For further details, refer to the appropriate undergraduate degree program information in Section IX.

Open Learning

The University of Guelph serves the learning needs of people of all ages whose educational requirements may not match the program structure or services available through full-time undergraduate study. The adoption of the philosophy of lifelong learning, changes in the demographic characteristics of our communities, the explosion of new knowledge, and the effect of rapid technological advances on professional competence are major factors underlying the University's commitment towards alternative approaches to providing education through open learning.

The Office of Open Learning

The Office of Open Learning is the institutional focus for distance education, continuing education, and the Open Learning program. As such, the Office of Open Learning supports departments in the development and delivery of open learning activities. Courses and programs cover a broad spectrum of learning needs which include professional updating programs and general interest/knowledge enhancing courses.

The Open Learning program

The Open Learning program is an open admission distance-only part-time mode of study that provides access to degree-credit university courses for individuals who wish to study independently but are not interested in pursuing a degree at the University of Guelph at the present time. You may register in the Open Learning program, even if you are in another program or are registered at another post-secondary educational institution. The Open Learning program extends the academic resources of the University to those interested in personal enrichment, professional updating, or eventual application to a degree program.

Open Learning program students must complete the same assignments and examinations as those in degree programs and are evaluated using the same standards. Upon successful

Note:

- Getting ready for Calculus, a non-degree credit preparatory course, is also offered via distance.

Note: Please check with the Office of Open Learning regarding the technology and resource requirements (e.g. computer, internet, VCR, DVD player, etc.) for the specific course(s) in which you are interested.

The courses have been designed and written by experts to meet rigorous standards. Clusters of courses are offered from selected areas of specialization within the University. The Diploma in Applied Statistics, the Diploma in Public Policy and Administration, the Certificate in Communication Process, the Certificate in Food Science, the Certificate in Hospitality Studies, the Certificate in Environmental Citizenship, the Certificate in Environmental Conservation and the Certificate in Leadership are also offered in the distance education mode in whole or in part (see Certificates and Diplomas in this section for further information).

General Studies

The objective of the General Studies program is to provide mature students with the opportunity to take university courses before registering in a specific degree program or to take university courses for continued learning with no immediate intention of registering in a degree program. The General Studies program does not lead towards a specific undergraduate degree at the University of Guelph. Initially, students register for part-time studies only.

Academic Counselling

General Studies students can obtain counselling for selecting courses, and planning their future program from the B.A. Counselling Office located in Room 130 MacKinnon Building. Prospective students should contact the Admissions Section of the Office of Registrarial Services.

Financial Assistance

Students registered in 3 or more courses of the General Studies program are eligible to apply to the Ontario Student Assistance Program (OSAP) if an Ontario resident. Students who are residents of other provinces must apply to their home province for financial assistance. General Studies students are eligible to apply for OSAP assistance for a maximum of two semesters. General Studies students who transfer to a degree program may continue to apply for OSAP.

Schedule of Studies

1. Students may take any undergraduate course offered by the University, as long as any stated prerequisites are met or the approval of the instructor is obtained.
2. Students may take Associate Diploma courses with the approval of the Director of the Associate Diploma program.
3. Students will not normally be eligible to continue in the General Studies program after enrolment in 20 courses.
4. The grade assigned for each course will become part of the student's University academic record.
5. Students who register in the General Studies program and who subsequently apply for transfer to a degree or diploma program, will be required to meet admission requirements for that program, and credit granted for courses taken in the General Studies program will be subject to the regulations pertaining to that program.

Tuition Fees

Students are advised to refer to Section VI – Schedule of Fees.

Undergraduate Regulations

Students are referred to Section VIII – Undergraduate Degree Regulations for additional information regarding registration, course selection, withdrawal from study, continuation of study, examination policy and requests for academic consideration.

*please check with the Office of Open Learning regarding the technology and resource requirements (e.g. computer, internet, VCR, DVD, etc.) for the specific course(s) in which you are interested.

Open Learning Scholarships/Bursaries

Open Learning Bursaries

The Office of Open Learning (OOL) staff and friends have established and contribute annually to a bursary fund. These funds are intended to provide support for non-degree students, in need of financial assistance, who are wishing to enroll in an Office of Open Learning continuing education activity and/or in the Open Learning program (courses, certificates and diplomas). Apply to the Office of Open Learning by January 30th and July 30th for the following Fall and/or Winter and/or Summer semesters of study with a letter of application outlining financial need with pertinent supporting documentation. Applications must be submitted to: OOL Bursary Award Committee, Office of Open Learning, University of Guelph, Johnston Hall Room 160, Guelph, Ontario, N1G 2W1.

Qualification(s): Students with the greatest financial need.

The Malik Scholarship

Awarded in honor of retired faculty member Professor Henrick Malik, of the Department of Mathematics and Statistics in the College of Physical and Engineering Science.

Qualification(s): A student in the Open Learning program who achieves at least 80% and the highest final grade in a given year in the distance education course Statistics for Business Decisions (STAT*2060*DE)

Amount: One award of $150

Distance Education

The Office of Open Learning facilitates the delivery of degree credit courses to students who are typically off-campus or wish to take distance courses in order to accommodate their schedules. The Office of Open Learning assists in course development and preparation and is the focal point of this activity by providing information, student support, and administration. Please refer to the Distance Education heading in this section for the listing of courses offered through the distance format.

Calendars and brochures outlining complete details of activities are available from the Office of Open Learning, Johnston Hall Room 160, 519-767-5000, info@open.uoguelph.ca, or at www.open.uoguelph.ca.

Continuing Education

The Office of Open Learning annually offers over 100 professional development programs, courses, conferences, and certificates in collaboration with academic departments and/or professional organizations. For detailed information on learning opportunities offered by the Office of Open Learning contact us at tel: 519-767-5000; fax 519 767-1114; email: info@open.uoguelph.ca; website: www.open.uoguelph.ca; or visit us in Johnston Hall Room 160.

Certificate Program In Couple & Family Therapy Studies

(co-sponsored by the Ontario Association for Marriage and Family Therapy)

The Certificate in Couple and Family Therapy Studies is designed to provide practising therapists with specialized training and updating in the needs, problems and changing patterns of couple and family relationships. Systems theory is the primary, although not the only, theoretical orientation within the program. Attention to issues of gender, race, class, ethnicity and culture underlies all aspects of the program. Program faculty are clinical members of the American Association for Marriage and Family Therapy (AAMFT) and AAMFT-approved supervisors.

Courses in this program are designed to meet the education requirements for Clinical Membership in the American Association for Marriage and Family Therapy. All courses are delivered at a level of rigour equivalent to that of a Master's degree and require completion of a formal evaluation component, marked according to University of Guelph grading standards. Individuals successfully completing the required course of study will receive the Certificate in Couple and Family Therapy Studies from the University of Guelph and the Ontario Association for Marriage and Family Therapy. While completion of all six courses in the certificate program is encouraged, students are welcome to take courses for general interest or specific upgrading, provided they have adequate background and/or preparation. It is strongly recommended that students pursue a concurrent program of clinical practice and supervision. Prerequisite: A Bachelor's degree.

Required Courses

Theories & Methods of Family Therapy: Foundations of the Field
Theories & Methods: Post-Modern Models
Theories & Methods of Couple Therapy

Elective Courses (Choose 3)
Violence in Families
Intensive Sex Therapy Training Program
Families in Transition: Divorce, Single Parenting and Re-marriage
Change Strategies in Therapy
Research in Marriage and Family Therapy
Professional Issues in Marriage and Family Therapy
Family Therapy and Mental Health
Spirituality: A New Story in Couple and Family Therapy
Couple and Family Therapy with LGBT Clients and their Families

Systemic Approaches with the Addicted Client: Assessment and Intervention

Diploma in Agricultural Communications

The Diploma in Agricultural Communications is designed for students looking to strengthen their ability to communicate complex issues about agriculture, agri-food, the environment and life sciences. Students will enhance and develop skills through their studies, which incorporate communication theory and applied knowledge, resulting in a more effective communicator and professional.

Required Courses

Agricultural Communications Studio I
Agricultural Communications Studio II
Agricultural Communication Theory in Action
Ethics in Leadership
Agricultural Communication Internship

For details and to apply, please visit http://www.agcommunications.ca/.

Diploma in Human Resources Management

Human resources management is a system of interrelated activities including training and development, compensation management, and labour relations that work towards satisfying organizational goals and objectives. Typically, managers in smaller organizations are responsible for these activities in addition to other operational responsibilities. In larger organizations, the human resources department generally has subject specialists who oversee each function area. Regardless of how the system of activities is administered, individuals responsible for managing a group of employees should have a practical understanding of management tools and techniques to effectively work with the most important resource in their organizations - their people.

The Diploma in Human Resources Management program provides essential management skills and knowledge with particular emphasis on relating management principles, policies and procedures to "real world" situations. Courses in the Diploma meet the HRPAO academic program requirements. This program consists of 10 courses and is designed to meet the learning needs of individuals who currently work in a human resources environment or who have ambition to do so.

Required Courses

Human Resources Administration
Organization and Management
Finance and Accounting Concepts
Occupational Health and Safety
Salary Administration and Benefits
Training and Development
Human Resources Labour-Management Relations
Human Resource Planning
Recruitment and Selection

One of the following two courses by distance education:
PSYC*3070*DE [0.50] Psychology in Human Resource Management
PSYC*3080*DE [0.50] Organizational Psychology

For details and to apply, please see http://hr.open.uoguelph.ca/.

English Language Certificate Program
The English Language Certificate Program is an intensive academic English program designed to prepare ESL students aged 18 and over for academic study at the undergraduate and graduate level. Daily classes in grammar, reading, writing, listening and speaking help students achieve the advanced level English skill needed to be successful in academic studies. A student who successfully completes the Advanced level with an average of 75% earns the University of Guelph Certificate of English Proficiency. Applicants must have a minimum of intermediate level English skill, and have an academic goal to study at a university.

Academic Writing at the Graduate Level
This online course introduces future and current graduate students to the writing requirements of graduate study in a Western university. Students study and analyze different types (genres) of writing from the three disciplinary areas of arts, the physical and natural sciences, and the social sciences in order to better understand these texts’ function, audience and organization. These texts include abstracts, research proposals and thesis chapters. Through a small selection of readings, students are also introduced to the cultural dimension of graduate study at a Western university.

Graduate Preparation Program
This intensive academic preparation program for graduate level students is designed to provide a bridge to academic and cultural life in a Western university. Classes in this two-semester program include: Academic Writing Skills, Research Skills, Oral Presentation Skills, Lecture Note-taking Skills, Critical Thinking Skills, Academic Culture and Environment, Teaching Skills for Graduate Assistants, Understanding Canadian Culture and Conversation Practice.

Academic Writing for Teachers of English as a Foreign Language (EFL), Level 1
This online course is designed to develop and improve the writing skills of English teachers who are not native English speakers, and who are teaching English writing to students planning to study in a Western university. This course takes a functional approach to developing EFL teachers’ academic writing skills through the analysis of a number of short texts to learn about different types of academic texts and their purposes. Students develop the language used to describe, reason, analyze and evaluate in a supportive, interactive multimedia environment. The course includes a cultural component as students are introduced to the teaching and learning practices and general expectations of a Western university.

International Student Certificate Program
This one-year study abroad program is designed for international university students who do not qualify for traditional university exchange programs. The three-semester program can be configured in one of three combinations of English Language Certificate Program and Open Learning program. Participants must be an undergraduate university student in their home country and should have a letter of permission to study at the University of Guelph.

Equine Science Certificate
The Certificate consists of six distance education courses taken online. This program is designed to provide horse owners and those working in the equine industry with evidence-based knowledge to improve the health and performance of horses in their care.

The courses are as follows:
Management of the Equine Environment
Health and Disease Prevention
Growth and Development
Functional Anatomy
Equine Nutrition
Exercise Physiology

For details and to apply, please see http://www.equinesciencecertificate.com

Landscape/Horticulture Online Certificate Programs
The Landscape/Horticulture Online Certificate Programs include five certificates and over 25 online/web-based courses offered by distance education. Learners may enrol in one or more individual courses or study towards one or more of the certificates.

Creating Landscapes Certificate
The Creating Landscapes Certificate is designed to provide landscape designers, contractors and gardening enthusiasts with the training and skills necessary for creating desirable outdoor living environments. The program refers to historical influences upon modern landscape design and discusses the Design Process. Other topics include management principles for operating a successful business, the physical properties and uses of landscape construction material, and incorporating computer technology in creating successful designs.

Required Courses:
Landscape Design I
Landscape Design II
Introduction to Landscape Construction
Landscape Plants or Introduction to Plant Identification
Computer Assisted Design
Business Management Principles

For details and to apply, please see http://www.horticulturecertificates.com/

Maintaining Golf Courses Certificate
The Maintaining Golf Courses Certificate is designed to provide turf managers and golf superintendents with turf identification and management skills, insight into golf course design and construction techniques, tree care techniques and other best management practices related to the care of golf courses. Challenges such as maintaining healthy playing conditions while respecting environmental needs such as wildlife and water quality are also examined.

Required Courses:
Turf Management
Irrigation
Golf Course Design and Construction
Weed Management in Turf
Arboriculture
Environmental Management of the Golf Course

For details and to apply, please see http://www.horticulturecertificates.com/

The Horticulturist Certificate
This online certificate is designed especially for gardeners wishing to enhance their knowledge and skills relating to the residential garden environment. The impact of soil conditions are a critical aspect of this study program. Basic horticulture and botany are discussed as are principles of plant care for ensuring optimum health. Students will learn about common plant pests and diseases and their effective treatments. They will begin to create beautiful and hardy landscapes through innovative residential garden design tactics and strategies.

Required Courses:
Cultural Practices for Plants
Introduction to Plant Identification or Landscape Plants
Designing the Landscape
Ornamental Plant Protection
Introduction to Soils and Plant Growth
Weed Management in Horticulture
Growing Plants

For details and to apply, please see http://www.horticulturecertificates.com/

Growing Plants for Profit Certificate
In the Growing Plants for Profit Certificate, students will learn how to effectively grow healthy crops while at the same time implementing sound business practices. Plant propagation techniques are thoroughly discussed as are the specifics of both greenhouse and nursery production. Business skills are offered to guide students through the complexities of running a profitable business operation. Plant identification techniques ensure that learners have a good understanding of the most exciting product choices.

Required Courses:
Commercial Floriculture
Landscape Plants or Introduction to Plant Identification
Greenhouse Management
Nursery Production
Plant Propagation
Business Management Principles

For details and to apply, please see http://www.horticulturecertificates.com/

Sustainable Landscapes Certificate
The Sustainable Landscapes Certificate is designed for students who wish to learn about innovative strategies which help fortify the relationships between water and land, ensuring care of both environments. Design tactics to retain or enhance naturalized landscapes will be examined. Students will gain knowledge about tree health as it relates to both the individual plant and woodland communities.
Required Courses:
Alternative Land Use Practices for Sustainable Landscapes
Landscape Plants or Introduction to Plant Identification
The Naturalized Landscape
An Introduction to Woodland Ecology
Arboriculture

For details and to apply, please see http://www.horticulturecertificates.com/.

Professional Association Affiliations
Several courses have been approved by the following associations and may be applied to each association's respective professional programs:
Association of Administrative Assistants
Canadian Golf Superintendents Association
Canadian Payroll Association
Golf Course Superintendents Association of America
Human Resources Professionals Association of Ontario
Industrial Accident Prevention Association
Integrated Pest Management - Plant Health Care Council
Ontario Association of School Business Officials
Ontario Association for Marriage and Family Therapy
Purchasing Management Association of Canada

Summer Studies (Summer Semester)
Because the university operates on a three semester system, a broad range of course offerings is available in the Summer Semester (May to August). During the summer months, degree credit courses are offered in a variety of formats to meet the needs of full-time and part-time students both on-campus and off-campus. In addition to regular semester courses running from May to August, there is a summer session (May to June) when degree courses are offered in a six week format. For scheduling information consult the Undergraduate Timetable, available from the Academic Records Section, in the University Centre, Level 3.

Distance education opportunities are also available during the summer. For further details, contact the Office of Open Learning, Room 160, Johnston Hall, by email: info@open.uoguelph.ca, by phone (519) 767-5000 or http://www.open.uoguelph.ca/.
XII. Course Descriptions

General Information

Course Labelling and Levels

Each course is identified by a two-part code. The first part of the code refers to the subject area, the second to the level of the course. Thus, the course PSYC*3570 is a course in the subject area of Psychology (PSYC*XXXX), and is of a level that places it among courses in the 3000 series. The series 1000, 2000, 3000 and 4000 numbers are intended to indicate progressively more demanding content, and correspondingly increasing competence on the part of the students enrolled in the course. Courses in the 1000 series are mainly for first year students, those in the 2000 series are mainly for second year students, and those in the 3000 series are for third year students. Similarly, courses in the 4000 series are mainly intended to be taken by students in the fourth year of honours programs. It is important that students planning their courses have clearly in mind the significance of these numbers so that they may guard against undertaking course work at levels for which they are insufficiently prepared. A two-semester course (e.g. AGR*2351/2) is taken over 2 continuous semesters and counts as 1 course attempt per semester for classification, continuation of study and calculation of fees. Two-semester courses cannot be split.

Course Information

The letters S, F, W indicate the University's intention to offer the course in the Summer (S), Fall (F) or Winter (W) semester during the academic year covered by this Calendar. Although courses normally will be offered in the semester indicated, students preparing their course programs are advised to consult the Undergraduate Course Timetable. The University cannot guarantee that all courses will be offered in the exact semester indicated. The letter U indicates that an intended offering has not been assigned to the course. Students should consult the Undergraduate Course Timetable posted on WebAdvisor <https://webadvisor.uoguelph.ca/> or contact the departments offering those courses to determine the semester offerings.

The figures in parentheses ( ) following the semester designation are a general guide to the lecture and laboratory contact hours per week, the first digit being the number of lecture hours and the second, the number of laboratory hours. The credit weight for each course appears in brackets [ ]. A credit weight of [0.50] indicates 10-12 student effort hours, including class time, on academic tasks associated with the course.

Detailed course descriptions are maintained at the office of the department offering the course. Some courses, designated "Experiential Learning" courses in the Calendar description, are deliberately designed to accommodate the need to grant academic credit for experiential learning external to regular courses, in such contexts as co-operative education, field observation/job shadowing, internship/externships, practical, service learning, or work study (and other approved experience). Prior approval for admission to these courses must be obtained from the department and instructor concerned.

Some courses are offered in the Guelph-Humber degree program and on the Humber campus only. Those courses will be identified in the course restriction information. See the University of Guelph-Humber web site at for more information about the Guelph-Humber degree programs (http://www.guelphhumber.ca/).

Course Prerequisites

In lists of course prerequisites, "or" conditions are spelled out explicitly, but "and" conditions are indicated with a comma ",". For example: "CSTU*2270, FRHD*2010, NUTR*2010" means "CSTU*2270 and FRHD*2010 and NUTR*2010". A number of courses have stated prerequisites which are prior requirements for entry to the course. Students who do not satisfy course prerequisites, or who in the opinion of the instructor do not possess an equivalent background to that of the stated prerequisites, are not eligible to enroll in the course. When some specific background is desirable but not required, the course description will include a statement of recommended background. It is understood that the instructor may accept equivalent courses from other institutions in place of the stated prerequisites. Students who wish to enroll in courses for which they do not have the stated prerequisite(s) must obtain instructor approval as outlined in Section VIII, Undergraduate Degree Regulations and Procedures, in this Calendar.

Course Equates and Restrictions

Equates - Equate indicates a course identical to the one under which it is listed. The course may have been re-numbered or may be cross-listed under two subject areas. Students will not be permitted to register in equated courses.

Restrictions - A restriction is a "rule" that is placed on the computer system (Colleague) at the direction of an academic department so that particular students may not register in particular courses. The course may be restricted because there is sufficient overlap in content with another course so that it is inappropriate for the student to take a similar course for credit. In a different instance, the course may be restricted by "Instructor Consent" so that the student must discuss the special requirements of the course with the instructor before enrolling. Or, alternatively, the restriction may reflect a "Priority Access" designation for enrolment management purposes. (See Priority Access).
Agricultural Economics

Department of Food, Agricultural and Resource Economics

AGEC*1100 Introduction to Business F (3-0) [0.50]
This course provides an overview as well as a foundation in the fundamentals of business management. The basic functions of business and management to be examined include: operations, human resources, marketing, finance, and strategic management. Small Business and entrepreneurship are also studied, along with other forms of business ownership, competition within a global economy, and the political and economic realities of business in Canada today. Students will develop basic competencies in business management through assignments and case studies requiring the practice of learned theory.

Equate(s): BADM*1000
Restriction(s): Registration in BBRM.

AGEC*1300 Poverty, Food & Hunger W (3-0) [0.50]
This course examines the nature of poverty, food security and hunger at both the local and global levels. In so doing, it explores the nature of international development more broadly and its relevance to students studying a wide range of disciplines. It aims to provide students with the basic concepts and analytical tools required to reflect critically on international development issues in the world today and the how global poverty, food insecurity and hunger might be alleviated.

AGEC*2110 Sales and Society F (3-2) [0.50]
The course is geared towards the global impact of trade on local sales environments. Students will learn the selling techniques and skills necessary to assess sales scenarios and react accordingly. Sales presentations will be covered extensively as well as buyer motivation and behaviour. Students will have ample opportunity to practice their sales skills through real-world cases and role-playing activities.

Restriction(s): Registered in B.B.R.M.
Location(s): Ridgetown

AGEC*2300 Organic Marketing F,W (3-0) [0.50]
Economic theory of markets principles are applied to the marketing of organically-produced and processed products, through exploring open market price formation, value added, marketing margins, alternative marketing outlets and branding. Adherence to organic production and marketing standards, quality management, supply chain management, and advertising and promotion issues are also addressed. (Offered in distance education format only.)

Prerequisite(s): MCS*1000 or ECON*1050
Location(s): Kemptville

AGEC*2410 Agrifood Markets and Policy W (3-0) [0.50]
Students will be provided with an introduction to agrifood markets, policies and institutions. Focus will be placed on: the role and function of futures markets; domestic agrifood policies; and agrifood trade policies, instruments and institutions. Economic analysis of contemporary issues in agrifood markets will be emphasized.

Prerequisite(s): AGR*2400
Co-requisite(s): ECON*2310
Restriction(s): AGR*2402

AGEC*2700 Survey of Natural Resource Economics F (3-0) [0.50]
This course examines how humans, within a society, allocate natural resources - e.g., water, land, forests, and fisheries. Economic concepts and methods provide the basis for discussing and understanding both the use and misuse of natural resources.

Prerequisite(s): ECON*1050

AGEC*3030 The Firm and Markets F (3-1) [0.50]
A course in microeconomic theory applied to agricultural economics research. The theory of the firm is used to analyze production and resource use in agriculture. Resource allocation issues, risk responsive decision-making, and firm strategy on vertical and horizontal integration are studied. Consumer theory is used to analyze food purchase decision. How theoretical relationships are quantified and used in the analysis of public policy issues is emphasized.

Prerequisite(s): ECON*2310, ECON*2770, ECON*3740

AGEC*3170 Cost-Benefit Analysis W (3-0) [0.50]
This course covers the principles and applications of cost-benefit analysis (CBA) in environmental and natural resource issues. This course will present basic concepts and principles, supplemented with case studies of projects applying CBA to illustrate the different issues arising from the use of the CBA technique. Quantitative exercises involving analysis of actual environmental and natural resource data will be used to illustrate the mechanics of established valuations methods such as contingent valuation, hedonic approach and travel cost approach.

Prerequisite(s): 1 of AGEC*2700, ECON*2100, ECON*2310

AGEC*3190 Markets, Firms & Natural Amenities F (3-0) [0.50]
This course deals with how firms use different types of markets related to natural resources and the environment as they respond to heightened regulatory stringency and increasing environmental compliance costs while attempting to maintain their competitive edge. This course covers the microeconomic theory of the firm while using case studies from the business area to illustrate how different markets work for natural resource and environmental commodities. The types of markets and examples of environmental practices that will be discussed include: direct markets for resource and environmental amenities and markets for pollution; and indirect markets such as final goods market, the capital market and the market for new technologies.

Prerequisite(s): 1 of AGEC*2700, ECON*2100, ECON*2310

AGEC*3250 Food, Nutrition & International Development F (3-0) [0.50]
This course aims to provide students with an economic perspective on issues in international development related to food and nutrition, exploring the ways in which economic analysis can enhance understanding of processes of international development in the contemporary world with a particular focus on food and nutrition. Students are encouraged to consider critically an economic approach to the analysis of development issues related to food and nutrition, alongside the perspectives of other social science disciplines. Throughout the course, food and nutrition as development issues are considered in the global context, especially related to trade.

Prerequisite(s): ECON*1050, (AGEC*1300 or ECON*1100)

AGEC*3310 Operations Management F,W (3-0) [0.50]
The decision-making role of the operations manager in transforming inputs into desired outputs is the primary focus of this course. The major issues and problems of designing, scheduling, operating, and controlling the production system will be examined.

Prerequisite(s): AGEC*2220 or BUS*2220
Restriction(s): Priority Access course. Enrolment may be restricted to particular programs or specializations. See department for more information.

AGEC*3400 Agribusiness Financial Management F (3-0) [0.50]
The course will focus on the application of principles and tools of finance to managerial problems in agribusiness, food and resource industries. The focus is on evaluating and controlling profitability, growth, risks, and liquidity in agribusiness firms. Key concepts covered in the course include, credit, leverage, capital budgets, and capital costs. These concepts are applied using financial analysis and developed in the context of farming and agribusiness. The course also examines how and from whom farmers and agribusinesses obtain loans.

Prerequisite(s): AGEC*2220 or BUS*2220
Restriction(s): Registration in B.Com, AGBU, AGBU Co-op, B.Sc.(Agr.) AGEC or B.A. AGEC.

AGEC*4000 Agricultural and Food Policy W (3-0) [0.50]
A critical analysis of agricultural income, marketing, adjustment and trade problems and policies in the developed countries, with particular emphasis on Canadian agricultural policies.

Prerequisite(s): 15.00 credits including ECON*2310

AGEC*4210 World Agriculture and Economic Development F (3-0) [0.50]
The role of agriculture in economic development. Analyses of economic policies and programs in developing countries and their effect on economic development.

Prerequisite(s): 10.00 credits including ECON*1050 and ECON*1100

AGEC*4220 Advanced Farm Management W (2-3) [0.50]
A course oriented toward practical application of theory and analytical principles to the identification, analysis and solution of farm business organization/management problems. Students work on a major farm project as management consultants with a farm owner/operator. The course builds upon students’ prior training in accounting, finance, mathematical analysis, computer applications, economics, agriculture and farm management.

Prerequisite(s): 1 of AGEC*2410, AGEC*3320, AGR*2402, BUS*3320, ECON*2770, instructor's consent

AGEC*4240 Futures and Options Markets W (3-0) [0.50]
An introduction to the study of the theory and application of futures, options and other derivative instruments for marketing, hedging, investment and speculative purposes. Emphasis is placed on applications of agricultural and financial instruments to real business situations.

Prerequisite(s): 1 of AGEC*2410, AGEC*3320, AGR*2402, BUS*3320, ECON*3560, ECON*3660

AGR*2470 Introduction to Plant Agriculture F (3-3) [0.50]

The basic principles of plant morphology, nutrition, growth and development will be related to where and how agriculturally significant plants are grown. Agroecosystems and farming systems will be considered as frameworks for crop production analyses. The course uses examples from temperate, sub-tropical and tropical crops and cropping systems. Labs include problem-solving exercises in the context of plant production.

Prerequisite(s): BIOL*1030

Restriction(s): Instructor consent required.

AGR*2500 Field Trip in International Agriculture W (3-0) [0.50]

A 2 week field study program to Costa Rica costing approximately $2000 per student in addition to regular tuition fees during winter semester reading week. Students will visit corporate and individual farms, university and government research stations and become familiar with agricultural production systems. Projects and/or assignments will be completed during the winter semester. Classes are scheduled to meet once a week in the evening during the winter semester. It is important that students identify their interest in taking this course by contacting the OAC Dean's Office in September of the previous year. A deposit of $875 in the form of a cheque made payable to the University of Guelph must be in the OAC Dean's Office by November in order to confirm a reservation for travel arrangements. Scholarship support is available to B.SC. (AGR.) students through the Cavers Memorial Scholarship and the Wolff International Scholarships. Applications are due in Student Financial Services, Office of Registrarial Services by April 1. This course must be recorded as part of your Winter course selection and tuition and compulsory fees will be allocated accordingly.

Prerequisite(s): AGR*1250 or registration in International Development

Restriction(s): Registration in B.Sc. (Agr.) or B.A. (I.D.). Instructor consent required.

AGR*2600 Animal Production Systems and Industry F (3-3) [0.50]

This course is designed to give students an overview of animal production systems and will consist of lectures dealing with major farm livestock species. Laboratories correlate with lectures and involve field trips, video and computer analyses of production alternatives.

Prerequisite(s): BIOL*1030 or BIOL*1040

AGR*2700 Introduction to Zoology W (3-2) [0.50]

This course introduces students to the major aspects of economics, business and resource management in an effort to gain up-to-date knowledge and analytical skills when dealing with issues in agri-food, landscape and associated industries.

Prerequisite(s): AGR*1250, ECON*1050

Restriction(s): Instructor consent required.

Location(s): Ridgetown

AGR*4050 Professionalism and Agrology W (3-0) [0.50]

This course is designed for students in the final year of the B.SC.(Agr.) program who wish to understand the responsibilities of professionals in agrology and the responsibilities that professional organizations have in Ontario and Canada. The course is offered in conjunction with the Ontario Institute of Agrologists and will be offered in a series of ten three-hour evening sessions. The first three sessions will deal with the topics of professionalism, ethics and professional development and utilize materials prepared jointly by the OJA and OAC Access. The remainder of the course will be comprised of discussions of ethical issues and workshops that will help students develop their personal professional development plan, improve their personal resume, and provide a framework for identifying potential professional employment opportunities.

Prerequisite(s): 15.00 credits

AGR*4450 Research Project I S,F,W (0-12) [1.00]

Independent study of a current topic in Agriculture designed to encourage senior undergraduates to conduct research in Agriculture. The course includes participation in meetings organized by the coordinator, work with a faculty advisor to develop a research project, formulate hypotheses, design and carry out preliminary experiments to test the hypotheses. Students will carry out independent library research, begin experimental work, prepare a written report and make a presentation to other students in the course to the research plan and preliminary results. Students must make arrangements with both the faculty supervisor and the course coordinator at least one semester before starting the course. Open to students in semesters 6, 7, and 8 of the B.SC. (Agr.) degree program. This course will normally be followed by AGR*4460 to provide 2 semesters to complete the research project.

Prerequisite(s): Completion of semester 5 of the B.Sc. (Agr.) program, 70% cumulative average

Restriction(s): Instructor consent required.
### AGR*4460 Research Project II S,F,W (0-12) [1.00]

Independent study of a current topic in Agriculture designed to encourage senior undergraduates to conduct research in Agriculture. The focus of this course will be the completion of the research plan developed in AGR*4450 by the student in consultation with a faculty advisor. The course includes participation in meetings organized by the coordinator and meetings with a faculty advisor to review research progress. Students will carry out independent research, prepare a written report of the research findings in a scholarly style and make a presentation to other students in the course of the research results. Open to students in semesters 7 and 8 of the B.SC. (Agr.) degree program.

**Prerequisite(s):** AGR*4450  
**Restriction(s):** AGR*4500, permission of the course coordinator and faculty advisor

### AGR*4500 Agrifood Industry Problem-Solving W (1-6) [0.50]

This course will provide senior level students in agricultural and related sciences with experience in working as a team to propose solutions to agrifood industry problems. The perspective of the best solution will be the agrifood system rather than any individual stakeholder group. Attention will be given to integrating material from different disciplines, further refining skills in problem-solving, and communication. Students and faculty will meet prior to the conclusion of the preceding semester to identify industry projects, student expertise, and to develop a preliminary strategy.

**Prerequisite(s):** 3.50 credits at the 3000 level or 1.50 credits at the 4000 level in any agricultural science area or agricultural business area.

Additional course listings may be found in the course descriptions for Human Kinetics, Veterinary Medicine and Zoology.
Animal Science

Department of Animal and Poultry Science

ANSC*2330 Horse Management Science F (3-2) [0.50]
An introduction to horse management designed to give those with an interest in the various segments of the horse industry a strong scientific basis for production and management decisions. The course includes study of the evolution of our current industry, the biology of growth, performance and management of the equine athlete. The evaluation of conformation as it relates to performance as well as aspects of behaviour, nutrition, reproduction and genetics consistent with the level of the course are included. Laboratories are designed to familiarize the student with current management and handling techniques in addition to augmenting information presented in lectures.
Prerequisite(s): BIOL*1040 or consent of the instructor

ANSC*2340 Structure of Farm Animals W (3-1) [0.50]
An introduction to the carcass structure of cattle, pigs, sheep and poultry. Animal growth and development are considered in relation to meat production. The course is for students intending to major in Animal Science and Animal Biology. (Also offered through Distance Education Format.)
Prerequisite(s): BIOL*1040

ANSC*2360 Challenges and Opportunities in Animal Production F (2-3) [0.50]
This course consists of lecture presentations on current aspects of beef cattle, dairy cattle, swine and poultry production. Selected projects in these areas expose students to the practical application of animal science to production systems.
Prerequisite(s): AGR*2350
Restriction(s): AGR*2360. Registration in B.Sc.(Agr.), B.Comm.(Ag.Bus.), or B.Sc. Animal Biology.

ANSC*3050 Aquaculture: Advanced Issues F (3-0) [0.50]
This course examines the fundamental principles and advanced interdisciplinary issues involved in the farming of aquatic organisms. The course will concentrate primarily on finfish species due to their worldwide commercial importance. Lectures will cover fish physiology, behaviour, nutrition, genetics, water quality, health and disease, reproductive techniques, economic, political and legal issues and various culture technologies. Students will analyze contemporary challenges facing the aquaculture industry through exercises requiring interdisciplinary knowledge, lateral thinking, creative problem solving and bridging science and technology to issues management. (Offered in odd-numbered years.)
Prerequisite(s): A minimum of 8.00 credits in biology, including AGR*2350 or ZOO*2090
Restriction(s): ANSC*2200

ANSC*3080 Agricultural Animal Physiology F (3-1.5) [0.50]
This course is an introduction to the physiology of domesticated farm animals. The course will emphasize homeostatic control of the major body systems. The lectures cover the nervous, cardiovascular, respiratory, urinary, immune, digestive, endocrine and reproductive systems. The lectures and laboratories are closely integrated.
Prerequisite(s): BIOL*2580

ANSC*3120 Introduction to Animal Nutrition F (3-2) [0.50]
The application of principles of nutrition to the development of diets and feeding programs for the various species of animals of agricultural importance.
Prerequisite(s): NUTR*3190 or NUTR*3210

ANSC*3170 Nutrition of Fish and Crustacea W (3-0) [0.50]
The nutrition of fish and crustaceans with emphasis on those species used in aquaculture. Nutritional biochemistry, nutritional pathology and comparative nutrition of cold blooded, omnivores. (Offered in even-numbered years.)
Prerequisite(s): NUTR*3190 or NUTR*3210
Equate(s): NUTR*3340

ANSC*3180 Wildlife Nutrition W (3-0) [0.50]
A study of the nutrition of avian and mammalian wildlife with emphasis on North American species. The role of nutrition in survival and population growth of wildlife in their natural habitat. Formulation of diets for wild species in captivity.
Prerequisite(s): NUTR*3190 or NUTR*3210
Equate(s): NUTR*3350

ANSC*3210 Principles of Animal Care and Welfare W (3-1) [0.50]
Students will be introduced to the major ethical theories that deal with humanity’s duties to animals. The relationship of ethics to science will be discussed. Factors that contribute to the quality of life of animals will be considered and methods of assessing animal welfare will be described. Common causes of reduced animal welfare will be covered. The course will also deal with how different cultures approach animal welfare and attempt to regulate it.
Prerequisite(s): A minimum of 7.50 credits including AGR*2350
Restriction(s): ANSC*3150

ANSC*3300 Animal Reproduction W (3-0) [0.50]
The course supplies basic knowledge to aid in the explanation of reproductive phenomena in domestic animals. Special attention will be given to the regulatory mechanisms of male and female fertility.
Prerequisite(s): ANSC*3080
Restriction(s): ANSC*4120

ANSC*4020 Genetics of Companion Animals F (3-0) [0.50]
This course includes theoretical and applied aspects of practical breeding programs for performance, pleasure and hobby animal populations leading to genetic improvement and population stability. Quantitative genetics and biotechnology are integrated using case studies to develop practical and sustainable breeding programs for horses, dogs, cats, rabbits and hobby livestock. Legislative requirements governing animal registration and breed development are also explored.
Prerequisite(s): MBG*3060

ANSC*4050 Biotechnology in Animal Science F (3-2) [0.50]
Starting from the principles of recombinant DNA, DNA marker identification, stem cell and generation of transgenic animals, the course provides an overview on how biotechnology has impacted biomedical science and animal production. The current challenges and potential opportunities in this field are discussed.
Prerequisite(s): MBG*2000

ANSC*4090 Applied Animal Behaviour F (3-0) [0.50]
This course deals with why domesticated animals behave as they do with reference to causation, function, ontology and phylogeny. Basic principles are illustrated by examples taken from all the common domesticated and captive species. Emphasis is placed on the application of behavioural knowledge to improve captive environments and animal production systems. Designing housing, facilities and management procedures to suit the behaviour of the animals in question is also covered.
Prerequisite(s): ANSC*3080
Restriction(s): ANSC*4070

ANSC*4100 Applied Environmental Physiology and Animal Housing W (3-0) [0.50]
Basic concepts of environmental physiology and their application to animal housing and management will be introduced. The course will review the physics of heat flow, light and air quality as they relate to animal biology and health. Other aspects, such as the physical environment, that impact on animal health and well-being will be discussed.
Prerequisite(s): ANSC*3080
Restriction(s): ANSC*4080

ANSC*4130 Reproductive Management and Technology W (3-2) [0.50]
Management of reproductive events at the farm level in the major classes of domestic livestock. An introduction to modern and emerging reproductive technologies as these relate to livestock propagation.
Prerequisite(s): ANSC*3300 or ANSC*4120

ANSC*4200 Beef Cattle Nutrition W (3-0) [0.50]
This course is designed for students to evaluate problems in feeding beef cattle. Relevant aspects of digestion and metabolism of nutrients as well as current issues of feeding beef cattle and diagnosing nutritional deficiencies will be included.
Prerequisite(s): ANSC*3120
Restriction(s): ANSC*4160

ANSC*4270 Dairy Cattle Nutrition W (3-0) [0.50]
This course is designed to apply principles of dairy cattle nutrition to solving on-farm nutritionally based problems. A case study approach will be used in conjunction with computer modeling and computer ration formulation programs.
Prerequisite(s): ANSC*3120
Restriction(s): ANSC*4170

XII. Course Descriptions, Anthropology

Anthropology

Department of Sociology and Anthropology

The Department of Sociology and Anthropology offers three types of courses: sociology courses with the prefix SOC*; anthropology courses with the prefix ANTH*; and departmental courses with the prefix SOAN*.

Courses will normally be offered in the semesters designated. For information on other semesters these courses will be offered and the semesters those courses without designations will be offered, please check with the department. In addition to regularly scheduled courses, students may elect to do independent study. A student who wishes to do a reading course should first consult the professor with whom he/she wishes to work.

Please note: A student is allowed a total of 1.00 credits only for reading courses.

Please note: The availability of third and fourth year seminar courses will vary. Students must check with the Department of Sociology and Anthropology to see when seminar courses are available.

ANTH*1150 Introduction to Anthropology S,F,W (3-0) [0.50]
An introductory course dealing with humankind from a broad historical and cross-cultural perspective. Theoretical models, case studies and specific methods will be presented. Course topics may include the origin and transformations of human society, the relationship between biological and cultural traits, human language, variation in family structure and religion, the economic and political aspects of human society. (Also offered through distance education format.)

ANTH*2160 Social Anthropology W (3-0) [0.50]
This course will cover basic concepts that contribute to various anthropological approaches to the study of culture and society, such as the case study method and participant observation. The development of theory and methods will be examined through reading selected classic and contemporary ethnographies.

Prerequisite(s): ANTH*1150

ANTH*2230 Regional Ethnography F (3-0) [0.50]
This course offers a survey of ethnographic studies on selected cultural/geographical areas of the world. Topics covered may include social, economic and political systems, the colonial encounter, and the theoretical, methodological and political contexts of ethnographic representation. Focus may be given to such areas as Latin America, Sub-Saharan Africa, Asia, or Oceania.

Prerequisite(s): ANTH*1150 or SOCI*1100

Restriction(s): ANTH*2420

ANTH*2660 Contemporary Native Peoples of Canada W (3-0) [0.50]
An analysis of the impact of Euro-Canadian society on native culture. Particular emphasis will be given to contemporary issues relating to Canadian native peoples (Indians, Inuit and Metis) such as education, treaties and reserves, land claims, government administration and economic development. (Offered in even-numbered years.)

Prerequisite(s): ANTH*1150 or SOCI*1100

ANTH*3400 The Anthropology of Gender W (3-0) [0.50]
This course will address theoretical innovation in the discipline of socio-cultural anthropology in the study of gender and feminist issues on the basis of cross-cultural ethnographic case studies. Theoretical problems such as gender inequality, complementarity, the domestic/public divide, ritual and symbolic valuations and the division of labour will be considered in the context of cultural relativity. (Offered in even-numbered years.)

Prerequisite(s): 10.00 credits including (ANTH*2160 or SOAN*2400), (SOAN*2120 or WMST*3000)

ANTH*3650 Prehistory of Canadian Native Peoples F (3-0) [0.50]
This is a course in Aboriginal studies which uses archaeological, ethno-historical and contemporary research to examine the culture and social organization of First Nations peoples in Canada from their early beginnings to European contact.

Prerequisite(s): ANTH*2160, (ANTH*2230 or ANTH*2660)

Restriction(s): ANTH*2650

ANTH*3670 Indigenous Peoples: Global Context W (3-0) [0.50]
This course will focus on aboriginality as a political and cultural identity. Historical, political, and cultural similarities between indigenous peoples the world over will be traced and key issues such as assimilation, cultural survival, protection of the commons, and the environment and cultural identity within the nation state will be examined. International organizations of indigenous peoples will be considered as well as other forms of transnational assertions of common identity and resistance. (Offered in odd-numbered years.)

Prerequisite(s): (1 of ANTH*2160, ANTH*2230, ANTH*2660, SOC*2660, IDENV*2010), SOAN*2120

ANTH*3690 History of Anthropological Thought F (3-0) [0.50]
This course offers a historical survey of the main trends in anthropological theory from the 19th century to the present.

Prerequisite(s): ANTH*2160, ANTH*2230, SOAN*2120

ANTH*3770 Kinship and Social Organization W (3-0) [0.50]
This course will deal with the theoretical implications of the study of kinship systems for an analysis of human society in general, including a comparative study of the social organization of kinship-based societies.

Prerequisite(s): ANTH*2160, ANTH*2230, SOAN*2120

ANTH*3840 Seminar in Anthropology F,W (3-0) [0.50]
This course will be offered as a structured seminar on various topics depending upon the interests of the faculty member teaching the course. Topics will be announced and course outlines will be available at course selection. The availability of third and fourth year seminar courses will vary. Students must check with the Department of Sociology and Anthropology to see when seminar courses are available.

Prerequisite(s): 10.00 credits including ANTH*2160, SOAN*2120

ANTH*3850 Seminar in Anthropology F,W (3-0) [0.50]
This course will be offered as a structured seminar on various topics depending upon the interests of the faculty member teaching the course. Topics will be announced and course outlines will be available at course selection. The availability of third and fourth year seminar courses will vary. Students must check with the Department of Sociology and Anthropology to see when seminar courses are available.

Prerequisite(s): 10.00 credits including ANTH*2160, SOAN*2120

ANTH*3950 Special Projects in Anthropology S,F,W (3-0) [0.50]
This special study option/reading course is designed to provide advanced undergraduates with an opportunity to explore independently the frontiers and foundations of a field of knowledge. Under supervision, the student will study in greater depth topics related to regular upper-level courses offered in the department which the student has taken or is taking. Permission of the instructor who will be supervising the study is required.

Prerequisite(s): 10.00 credits

Restriction(s): Instructor consent required. Please note, a student is allowed a total of 1.00 credits only for reading courses.

ANTH*4300 Anthropological Issues F (3-0) [0.50]
Current issues and future trends in the discipline of socio-cultural anthropology will provide the subject matter of this variable content course. This course is meant to provide an opportunity for socio-cultural anthropology majors to consider the latest developments in the sub-discipline. Course topics will be announced and course outlines will be available at course selection time.

Prerequisite(s): 12.50 credits including ANTH*3690, SOAN*3070

ANTH*4440 Culture, Rights and Development W (3-0) [0.50]
This course examines the theoretical and practical problems associated with respecting local cultures while also respecting human dignity universally. Various definitions of ‘development’ will be explored in terms of how they reflect cultural values and global inequalities.

Prerequisite(s): 12.50 credits including ANTH*3690, SOAN*3070

ANTH*4540 Seminar in Anthropology F,W (3-0) [0.50]
This course will be offered as a structured seminar on various topics depending upon the interests of the faculty member teaching the course. Topics will be announced and course outlines will be available at course selection. The availability of third and fourth year seminar courses will vary. Students must check with the Department of Sociology and Anthropology to see when seminar courses are available.

Prerequisite(s): 12.50 credits including ANTH*3690 or SOC*3310, SOAN*3070

ANTH*4640 Seminar in Anthropology F,W (3-0) [0.50]
This course will be offered as a structured seminar on various topics depending upon the interests of the faculty member teaching the course. Topics will be announced and course outlines will be available at course selection. The availability of third and fourth year seminar courses will vary. Students must check with the Department of Sociology and Anthropology to see when seminar courses are available.

Prerequisite(s): 12.50 credits including ANTH*3690 or SOC*3310, SOAN*3070

ANTH*4700 Issues in Contemporary Anthropological Theory W (3-0) [0.50]
This course critically examines current anthropological theories, which may include post-structuralism, post-modernism, neo-Marxism and processual approaches. Attention may also be given to the theoretical and political implications of constructionism and calls for ethnographic reflexivity.

Prerequisite(s): 12.50 credits including ANTH*3690, SOAN*3070

XII. Course Descriptions, Art History

School of Fine Art and Music

Students with a special interest in particular courses in Art History should consult the School concerning prerequisites.

ARTH*1220 The Visual Arts Today F (3-0) [0.50]
An introduction to contemporary visual culture, its current controversies and its historical roots. The avant-grade movements of the modern period and the impact of new technologies and modern media will be examined within a rich historical context. Topics will include international exhibitions, selling art, art and popular culture, censorship, and the relation between words and images.

ARTH*1510 Art Historical Studies I F (3-0) [0.50]
This course considers the visual arts in the Western tradition from prehistory through the Middle Ages. Emphasis will be placed on historical and critical analysis of key monuments and on the prerequisite technologies, as well as on various ways of looking at the visual past and present.

ARTH*1520 Art Historical Studies II W (3-0) [0.50]
A consideration of the visual arts in the Western tradition. Emphasis will be placed on historical and critical analysis of key monuments and on the prerequisite technologies, as well as on various ways of looking at the visual past and present. Focus will be on the visual arts from the Renaissance to today.

ARTH*2050 Modern Latin American Art F (3-0) [0.50]
An exploration of Latin American art in the context of cultural, social and political experience, with emphasis on the work of the painter Frida Kahlo, the Mexican muralists, performance artists Guillermo Gomez-Pena and Coco Fusco, and other important contemporary artists who have represented identity, culture, and political experience as complex and multifaceted because they have lived between nations and cultures.

ARTH*2060 Aboriginal Arts in the Americas W (3-0) [0.50]
An introduction to the aboriginal cultures of North, South, and Central America with special emphasis on the pre-contact period. The interdisciplinary approach will take into account recent debates about methodology, ethnocentrism, and aboriginal viewpoints.

ARTH*2070 Art of the USA F (3-0) [0.50]
In art, the 20th century has been referred to as "The American Century." Artists in the USA have a tradition of creating new visual languages, of using new ideas and technologies, and of representing the vanguard. Where did these ideas originate, and how has the USA determined our notions of what art is? This course focuses on modern American artists, on the evolution and growth of modern visual culture, and on how technologies and societies impact on artistic taste.

ARTH*2120 Introduction to Museology W (3-0) [0.50]
The course will examine the history of collections, traditions of cultural representation and display, constructions of authenticity, trade and exchange.

ARTH*2150 Art and Archaeology of Greece F (3-0) [0.50]
A survey of Ancient Greek Art and Archaeology, with stress on form and function plus stylistic trends and aesthetic values. The course will illuminate the cultural, social, and political life in Ancient Greece. (Also listed as CLAS*2150).

Equate(s): CLAS*2150

ARTH*2280 Modern Architecture W (3-0) [0.50]
An investigation of architectural theory and practice within the social and spatial complexities of national and international life.

ARTH*2290 History of Photographic Media W (3-0) [0.50]
An introduction to the history of photography through its application in contemporary visual arts.

ARTH*2480 Introduction to Art Theory and Criticism F (3-0) [0.50]
This course provides an overview of some of the most significant methodological approaches and critical practices used by art historians to write about visual culture. Traditional methods of art historical analysis include connoisseurship, iconography, and formalism. With these we will be exploring newer interpretative models and multidisciplinary approaches such as structuralism, semiotics, post-structuralism, and psychoanalytic theory as well as political theories such as feminism and socio-cultural theory.

Prerequisite(s): (2 of ARTH*1220, ARTH*1510, ARTH*1520), (1 of SART*1050, SART*1060)

ARTH*2490 History of Canadian Art F (3-0) [0.50]
An overview of the visual arts in Canada from the earliest times to the present, with emphasis on the diverse contributions made by the First Nations, by French and British colonization, and by subsequent settlers from a great variety of different cultural origins.

ARTH*2540 Medieval Art F (3-0) [0.50]
This course considers visual arts during a period when the Christian church built a new synthesis out of the legacies of the late Roman Empire and its "barbarian invaders".

ARTH*2550 The Italian Renaissance F (3-0) [0.50]
An investigation of the myths and realities of the Renaissance in the visual arts. The artists to be studied will include Giotto, Duccio, Ghiberti, Donatello, Alberti, the Bellini, Verrocchio and Michelangelo. Their careers will be placed against the theoretical beginnings of art writing and the intricate relationships of the emerging city-states of Siena, Florence, Milan, and the republic of Venice.

ARTH*2580 Late Modern Art: 1900-1950 F (3-0) [0.50]
A study of the historical avant-gardes in the social and political contexts of the period 1900-1950.

ARTH*2600 Early Modern Art to 1900 W (3-0) [0.50]
A study of visual culture as it was transformed by the revolutions - industrial, political, and colonial - of the eighteenth and nineteenth centuries. (Offered in even-numbered years.)

ARTH*2950 Baroque Art W (3-0) [0.50]
The visual arts in an age of religious crisis and the growth of great trading empires.

ARTH*3010 Contemporary Canadian Art W (3-0) [0.50]
The wide range of contemporary Canadian visual arts, from painting to new technological media, from high culture to punk, will be examined in the context of specifically Canadian social and historical conditions during the modern and post-modern periods. (Offered in odd-numbered years.)

Prerequisite(s): 10.00 credits including 2.00 credits in Art History.

ARTH*3050 Pre-Columbian Art F (3-0) [0.50]
This course investigates the history and artistic traditions of pre-contact America with special focus on selected cultural areas. The course will bring together such perspectives as archaeology, art history and ethnography.

Prerequisite(s): 10.00 credits including 2.00 credits in Art History.

ARTH*3060 Public Art W (3-0) [0.50]
This course investigates what constitutes the "public" and the "private" domain in the arenas of art and visual culture. Provocative iconography, matters of race, nationality, sexuality, language, and identity in artistic practice, issues of censorship, controversial shows and exhibitions, the ethics of propriety and impropriety will be considered. Artists such as Linda Montano, Andres Serrano, Keith Haring, Annie Sprinkle, Robert Mapplethorpe and others will be discussed.

Prerequisite(s): 10.00 credits including 2.00 credits in Art History.

ARTH*3100 Perspectives: Structure & Space in Western Art F (3-0) [0.50]
This course investigates the visual arts in Europe with special emphasis on issues of illusionism, mimesis, and the representation of space. (Offered in even-numbered years.)

Prerequisite(s): 10.00 credits including 2.00 credits in Art History.

ARTH*3150 Space: Roman Art and Urbanism W (3-0) [0.50]
Roman art and urbanism from the Early Republic to the end of the imperial period. The course will survey the developments of Roman art with an emphasis in architecture, sculpture and painting. It will illuminate the development of the urban space in the context of cultural, social and political life. (Also listed as CLAS*3150). (Offered in even-numbered years.)

Equate(s): CLAS*3150

Restriction(s): ARTH*3530, ARTH*4500

ARTH*3200 Colour: Practice & Meanings in Western Art W (3-0) [0.50]
This course explores the role colour has played in the work of selected artists and periods.

Prerequisite(s): 10.00 credits including 2.00 credits in Art History.

ARTH*3210 Critical Issues in Art History F (3-0) [0.50]
This course investigates art and its histories. Art writing, art history, and art historical methodology will be examined through the work of key art historians, cultural critics, and philosophers such as Clement Greenberg, Rosalind Krauss, Griselda Pollock, and Jacques Derrida for example. Critical issues such as intention and reception, authorship, creativity and originality will be discussed. (Offered in odd-numbered years.)

Prerequisite(s): 10.00 credits including 2.00 credits in Art History.
ARTH*3220 Nationalism and Identity in Art F (3-0) [0.50]
This course considers issues of identity formation and representation as they intersect with the agendas and interests of the nation state. The course looks at questions of power and exclusion, theories of representation and notions of centre/periphery, cultural hybridity and border-crossing in the age of globalization. It will examine the representation of identity in cultural institutions (including museums, and international art events) in cultural policy, and in cultural forms (fine art and popular culture, journals and periodicals).
Prerequisite(s): 10.00 credits including 2.00 credits in Art History.

ARTH*3310 Image: Pictures & Their Power W (3-0) [0.50]
This course explores the role that images play in conveying religious, political and aesthetic messages, and how these powerfully reveal themselves in forms of iconophobia and iconophilia.
Prerequisite(s): 10.00 credits including 2.00 credits in Art History.

Equate(s): ARTH*3540

ARTH*3320 Lives: Aspects of Western Art W (3-0) [0.50]
This course examines how the theory and practice of art history has often been informed by biography and other constructions of stereotypes and social practices concerning the ‘Artist’, the artist’s audiences, and the various contexts that inform artists’ lives, real and imagined. (Offered in even-numbered years.)
Prerequisite(s): 10.00 credits including 2.00 credits in Art History.

Equate(s): ARTH*3550

ARTH*3330 Display: Visual Culture in Western Europe W (3-0) [0.50]
This course examines the politics of visual representation in various contexts and how it shapes the meaning of artworks. An interpretation of culture through liturgical display, museums, cabinets of curiosities, tourist art, World's Fairs and shopping mall will be considered.
Prerequisite(s): 10.00 credits including 2.00 credits in Art History.

Equate(s): ARTH*3570

ARTH*3340 The Art Object & Material Culture F (3-0) [0.50]
This course considers selected topics in the visual arts in Italy, Spain and France, with attention to questions of the political, social, economic, gendered, and aesthetic meanings of works of art. (Offered in odd-numbered years.) (First offering Fall 2009.)
Prerequisite(s): 10.00 credits including 2.00 credits in Art History.

Equate(s): ARTH*3640

ARTH*3460 English Art, 1750 to Present F (3-0) [0.50]
In conjunction with the London Semester, this course will survey the visual arts in England from the mid-18th century to the present. Visits to galleries, museums, libraries, studios, and other cultural institutions will supplement lectures and stress the experience of actual works of art.
Prerequisite(s): Admission to London Semester

ARTH*3520 Idea: Art Since 1950 F (3-0) [0.50]
An analysis of the visual arts of painting, sculpture, photographic media and non-traditional media World War II to the present. Selected artists of North America and Western Europe will be considered, as well as the institutions of the art world.
Prerequisite(s): 10.00 credits.

ARTH*3640 Objects: Baroque Art and Rococo Art F (3-0) [0.50]
Selected topics investigating the visual arts in Italy, Spain, and France. These may include the study of key practitioners, the development of a complex artistic theory that reflects patterns of local and national discourse and instruction in the arts, the emergence of female artists. Key artists are Caravaggio, Bernini, Artemisia Gentileschi, Borromini, Velazquez et al. (Offered in odd-numbered years.) (Last offering Fall 2007.)
Prerequisite(s): 10.00 credits

ARTH*3750 Gender and Art W (3-0) [0.50]
This course considers how the practice and reception of the visual arts intersect with constructs of gender in contemporary and historical contexts.
Prerequisite(s): 10.00 credits including 2.00 credits in Art History.

ARTH*4050 Seminar in the Americas I W (3-0) [0.50]
Selected topics in the visual arts of the Americas with special emphasis on Pre-Columbian, Latin American, or Aboriginal arts.
Prerequisite(s): A minimum of 14.00 credits including 1 of ARTH*2050, ARTH*2060, ARTH*3050, ARTH*3220

ARTH*4060 Seminar in the Americas II F (3-0) [0.50]
Selected topics in the visual arts of the Americas with special emphasis on the arts in Canada and the USA.
Prerequisite(s): A minimum of 14.00 credits including 1 of ARTH*2070, ARTH*2490, ARTH*3010, ARTH*3060, ARTH*3220

Restriction(s): ARTH*4250

ARTH*4150 Seminar in Western Art I W (3-0) [0.50]
This course examines selected topics in the area of Western Art.
Prerequisite(s): A minimum of 14.00 credits including (ARTH*2540 or ARTH*3540).

ARTH*4160 Seminar in Western Art II F (3-0) [0.50]
This course examines selected topics in the area of Western Art.
Prerequisite(s): A minimum of 14.00 credits including 1 of ARTH*2550, ARTH*2950, ARTH*3100, ARTH*3550, ARTH*3640

ARTH*4450 Questions in Criticism W (3-0) [0.50]
This course examines selected topics in the area of Art Theory, Critical Methodology and Museology.
Prerequisite(s): A minimum of 14.00 credits including (ARTH*2480 or ARTH*3210).

ARTH*4600 Individual Study - Art History S,F,W (3-0) [0.50]
Each student establishes, in consultation with the faculty member chosen, the content of this special study within the area of expertise of that instructor.
Restriction(s): This course is available with the approval of the Director for students who have completed their 5th semester and for whom there is no suitable course available.

ARTH*4620 Museum Studies W (3-0) [0.50]
This seminar course will be offered in conjunction with the staff and facilities of the Macdonald Stewart Art Centre and will deal with historical matters relating to the role of the art museum in western life and the critical day-to-day management of a contemporary one. Students will participate, when possible, in the preparation of a current or forthcoming exhibition in the Centre.
Prerequisite(s): 10.00 credits

ARTH*4850 Honours Thesis I S,F,W (0-9) [0.50]
Under the guidance of a faculty member over two semesters (ARTH*4850 in the first semester and ARTH*4860 in the second semester), the honours student will research and complete a major independent project in art history or criticism for final approval by a faculty member. Recommended for all honours students.
Restriction(s): Registration in semester 7 or 8 and a cumulative average of 70% in Studio and Art History courses. Instructor consent and approval of the Director required.

ARTH*4860 Honours Thesis II S,F,W (0-9) [0.50]
Under the guidance of a faculty member over two semesters (ARTH*4850 in the first semester and ARTH*4860 in the second semester), the honours student will research and complete a major independent project in art history or criticism for final approval by a faculty member. Recommended for all honours students.
Prerequisite(s): ARTH*4850
Restriction(s): Instructor consent and approval of the Director required.
Arts and Sciences
Dean's Office, College of Arts

Registration in ASCI* courses is limited to students in the Bachelor of Arts and Sciences degree program.

ASCI*1000 Society and Science I: Historical Perspectives F (3-0) [0.50]
This course explores historically the complex interrelations between science and society. It focuses on the ways in which science has both shaped, and been shaped by, its larger social and cultural contexts.
Restriction(s): HIST*1250. Registration in the Bachelor of Arts and Sciences degree program.

ASCI*1010 Society and Science II: Current Issues W (3-0) [0.50]
This interdisciplinary course examines scientific and technological activities in modern society, including a number of current controversies. Case studies and debates will be used to examine the multiplicity of impacts and reactions to these activities.
Prerequisite(s): ASCI*1000
Restriction(s): Registration in the Bachelor of Arts and Sciences degree program.

ASCI*2000 Modes of Inquiry and Communication Across Disciplines F,W (3-0) [0.50]
This course considers the process of inquiry and quest for knowledge in the natural and applied sciences, and the social sciences and humanities as they are constituted as disciplines within the modern university. The course will consider the social forces that shape inquiry, including funding for research, and consider the communication of findings, both inside and outside the academy.
Prerequisite(s): ASCI*1000
Restriction(s): Registration in the Bachelor of Arts and Sciences degree program.

ASCI*3000 Arts and Sciences Community Project W (0-3) [0.50]
This course integrates the curricular, co-curricular and cross-disciplinary strands of the Arts and Sciences program through continued academic study and its application, modification, and critique in a community context. Students will conduct research and seminars on a selected topic while simultaneously completing a placement in a community agency appropriate to that topic. (See the B.A.S. program website for topics.)
Prerequisite(s): ASCI*2000
Restriction(s): ASCI*3100. Registration in the Bachelor of Arts and Sciences degree program.

ASCI*3100 Case Studies in Arts and Sciences Research F (3-0) [0.50]
This variable-content course introduces students to case studies in the integration of academic knowledge and practices with social movements, investigating the ways in which cultural, social, and scientific endeavours meet to work on real-world problems. The course may contain both historical and current case studies.
Prerequisite(s): ASCI*2000
Restriction(s): ASCI*3000. Registration in the Bachelor of Arts and Sciences degree program.

ASCI*3700 Independent Studies in Arts/Sciences S,F,W (3-0) [0.50]
This course offers an opportunity for individual students to pursue unique curricular opportunities when they arise and are approved as appropriate to B.A.S. students (e.g., independent reading and/or research under a faculty member's supervision in a research lab or program; a course taken while studying on exchange or abroad; a course developed in conjunction with experiential learning situations, etc.). See the B.A.S. website for learning contracts and other requirements that must be completed well in advance to permit registration for independent studies.
Prerequisite(s): A minimum of 9.00 credits.
Restriction(s): Registration in the Bachelor of Arts and Sciences degree program. Instructor consent required.

ASCI*4000 Arts and Sciences Honours Seminar F,W (3-0) [0.50]
This senior-level integrating course builds on the principles learned in ASCI*2000, and requires research into an area of investigation relevant to the interdisciplinary focus of the program. Students will examine a topic from multiple theoretical and disciplinary perspectives, explore appropriate methodological approaches, prepare working bibliographies and annotations, and report on research. Students who take ASCI*4000 will build on work completed in ASCI*4000.
Prerequisite(s): 12.00 credits including ASCI*2000
Restriction(s): Registration in the Bachelor of Arts and Sciences degree program.

ASCI*4010 Arts and Sciences Honours Research Seminar W (3-0) [0.50]
Under faculty supervision students will plan, develop, peer-edit and complete a major paper on a research topic developed in ASCI*4000 or revised therefrom. Designed to function as a senior-level writing seminar, this course is particularly recommended to students who plan to pursue graduate study and who have a cumulative average of at least 75%.
Prerequisite(s): ASCI*4000
Restriction(s): Registration in the Bachelor of Arts and Sciences degree program.

ASCI*4020 Topics in Arts and Sciences Research F,W (3-0) [0.50]
This variable-content course provides a senior-level seminar experience in the conduct, presentation, and writing of research relevant to the interdisciplinary core of the Bachelor of Arts and Sciences degree program. (See the B.A.S. website for topics.)
Prerequisite(s): 12.00 credits including ASCI*2000
Restriction(s): Registration in the Bachelor of Arts and Sciences degree program.

ASCI*4030 Topics in Arts and Sciences Research F,W (3-0) [0.50]
This variable-content course provides a senior-level seminar experience in the conduct, presentation, and writing of research relevant to the interdisciplinary core of the Bachelor of Arts and Sciences degree program. (See the B.A.S. website for topics.)
Prerequisite(s): 12.00 credits including ASCI*2000
Restriction(s): Registration in the Bachelor of Arts and Sciences degree program.

ASCI*4700 Independent Studies in Arts/Sciences S,F,W (3-0) [0.50]
This course offers an opportunity for individual students to pursue unique curricular opportunities when they arise and are approved as appropriate to B.A.S. students (e.g., independent reading and/or research under a faculty member's supervision in a research lab or program; a course taken while studying on exchange or abroad; a course developed in conjunction with experiential learning situations, etc.) See the B.A.S. website for learning contracts and other requirements that must be completed well in advance to permit registration for independent studies.
Prerequisite(s): A minimum of 14.00 credits.
Restriction(s): Registration in the Bachelor of Arts and Sciences degree program. Instructor consent required.

ASCI*4710 Independent Studies in Arts/Sciences S,F,W (3-0) [0.50]
This course continues work undertaken in ASCI*4700, and will normally be planned in concert with planning for ASCI*4700. This course offers an opportunity for individual students to pursue unique curricular opportunities when they arise and are approved as appropriate to B.A.S. students. See the B.A.S. website for learning contracts and other requirements that must be completed well in advance to permit registration for independent studies.
Prerequisite(s): ASCI*4700
Restriction(s): Registration in the Bachelor of Arts and Sciences degree program. Instructor consent required.

XII. Course Descriptions, Biology

Department of Human Health and Nutritional Sciences
Department of Integrative Biology
Department of Molecular and Cell Biology

BIOL*1020 Introduction to Biology F (3-2) [0.50]
This course will introduce important concepts concerning the organization of life on our planet, from cells to ecosystems. The dynamic and interactive nature of all living systems will be emphasized. This course will be valuable for students without 12U or OAC biology who are interested in environmental issues, medicine, advances in biotechnology and related topics.
Restriction(s): BIOL*1030, BIOL*1040, or equivalent

BIOL*1030 Biology I F,W (3-3) [0.50]
A lecture and laboratory course which introduces the concepts and controversies in contemporary biology and their implications. Using an integrative approach, the course examines some of the basics of biology and two of the common challenges of life, acquisition and processing of nutrients and information flow. How these challenges are faced by animals, microbes and plants and the diversity of structures and processes that have evolved in response to them will be discussed. This is the first course in a two course biology series. When you select it, you are strongly advised to take the second course, BIOL*1040, immediately thereafter. Material from BIOL*1030 will be referred to in BIOL*1040 to emphasize the integrated nature of biology. Students lacking 4U or OAC Biology should consult with their program counsellor prior to taking BIOL*1030.

BIOL*1040 Biology II F,W (3-3) [0.50]
A continuation of BIOL*1030. A lecture and laboratory course which continues with additional challenges of life faced by animals, microbes and plants and the diversity of structures and processes that have evolved in response to them. To indicate the value of biology to society, some topical issues in biology will be addressed. This is the second course in a two course biology series and should be taken immediately after successfully completing BIOL*1030. Materials introduced in BIOL*1030 will be built on and referred to in BIOL*1040.
Prerequisite(s): BIOL*1030

BIOL*2060 Ecology F,W (3-1) [0.50]
This is a basic course that presents a discussion of the ecology of plants, animals, fungi and bacteria as individual organisms, interacting populations, communities and ecosystems. Lectures and discussion groups are used to demonstrate the tremendous difficulty of interpreting ecological data derived from field studies. The value of laboratory-based research in ecology will also be discussed. The course will be important for anyone who wishes to understand what we know and need to know about the way ecological systems work. Department of Integrative Biology. (Offered through distance education format.)
Prerequisite(s): BIOL*1040

BIOL*2210 Introductory Cell Biology S,F,W (3-0) [0.50]
The structure and function of eukaryotic cells with emphasis on multicellular organisms. Role of subcellular structures and organelles in cellular processes of bioenergetics, division, differentiation, motility, secretion, nutrition, and communication. (Also offered through distance education format.)
Prerequisite(s): BIOL*1040

BIOL*2250 Biostatistics and the Life Sciences W (3-2) [0.50]
This course in biostatistical methods will emphasize the design of research projects, data gathering, analysis and the interpretation of results. Statistical concepts underlying practical aspects of biological research will be acquired while working through the process of scientific enquiry. Weekly computer laboratory sessions will focus on practical data visualization and statistical analysis using computer statistical packages. Simple parametric and nonparametric methods are reviewed, followed by more advanced topics that will include some or all of the following: two factor ANOVA and multiple regression, and introductions to discriminant analysis, cluster analysis, principle components analysis, logistic regression, and resampling methods. (Also listed as STAT*2250.) Departments of Mathematics and Statistics and Integrative Biology.
Prerequisite(s): STAT*2040 or STAT*2100
Equate(s): STAT*2250
Restriction(s): STAT*2050

BIOL*3010 Laboratory and Field Work in Ecology F (0-6) [0.50]
This course emphasizes field and laboratory work in ecology. Students will gain experience in experimental designs, sampling, analysis and interpretation of data collected to answer ecological questions. Local field sites will be used to run in-course experiments. Critical thinking about ecological issues relevant to society will be emphasized. Department of Integrative Biology.
Prerequisite(s): BIOL*1040 or STAT*2040
Co-requisite(s): BIOL*2060 or BIOL*3110

BIOL*3050 Mycology W (3-3) [0.50]
This course provides an introduction to the fungal lifestyle and to classification and evolution of the major groups of fungi, including microfungi, yeasts and other eukaryotic microbes. The characteristics of fungal cell structure, genetics and metabolism will be presented, and fungal reproduction and sporulation processes discussed with reference to the life cycles of representative forms. The ecological and economic importance of fungi will be demonstrated by considering fungal ecology, symbiotic relationships, mycotoxins and pathogenic fungi and industrial applications of fungi and yeasts. Laboratory work will provide familiarity with procedures for culturing, examining and identifying fungi and yeasts. Department of Integrative Biology and Department of Molecular and Cellular Biology.
Prerequisite(s): BOT*2100 or MICR*2030
Restriction(s): BOT*3200, MICR*3100

BIOL*3110 Population Ecology F,W, (3-1) [0.50]
An exploration of the structure and dynamics of animal and plant populations. The first part of the course will focus on demographic characteristics of populations and simple models of population growth and natural regulation. The second part of the course will concentrate on a variety of population processes, including predator-prey interactions, spatial dynamics, and disease-host interactions, and consider how these processes affect population dynamics. A quantitative approach emphasizing the use of mathematical models, graphical analysis, and statistics will provide the basic conceptual framework, which will be illustrated by selected case studies. Department of Integrative Biology.
Prerequisite(s): (MATH*1080 or MATH*1200), STAT*2040

BIOL*3320 Community Ecology F (3-1) [0.50]
A course on the structure and dynamics of communities, dealing with both theoretical and applied aspects of community ecology. Emphasis is on the modern quantitative view of community ecology, and on the development of problem-solving skills. Department of Integrative Biology.
Prerequisite(s): BIOL*3110

BIOL*3310 Conservation Biology W (3-0) [0.50]
An introduction to the biological basis for the management of wild, living resources, including freshwater and marine fish and wild life. Topics will include an overview of processes related to resource population abundance and dynamics, theory and practice of sustained-yield harvesting, and conservation and restoration of endangered species and/or ecosystems. Both theoretical and applied aspects of resource management will be emphasized. Department of Integrative Biology.
Prerequisite(s): BIOL*3110

BIOL*3390 Applied Bioinformatics W (3-2) [0.50]
New molecular genetic and information technologies have enabled biologists to produce and access large and informative data sets. This course will provide an introductory understanding of the databases and methods used in computational molecular data analysis. Topics covered will include introducing the UNIX-related operating system, reviewing major molecular databases and their structures, constructing sequence alignments, constructing phylogenies, and finding motifs and genes in biological sequences. Lab sessions will include an introduction to Unix and Perl for the biologist and hands-on use of several molecular data analysis programs.
Prerequisite(s): MBG*2020, (STAT*2040 or STAT*2100)

BIOL*3450 Introduction to Aquatic Environments F,W (3-3) [0.50]
An introduction to the structure and components of aquatic ecosystems, how they are regulated by physical, chemical and biological factors, and the impact of humans on these environments and their biota. Laboratory periods will centre around computer-based exercises and simulation of aquatic systems. Department of Integrative Biology. (Also offered through distance education format.)
Prerequisite(s): BIOL*1040, (CHEM*1050 or CHEM*1310), ZOO*2070 is strongly recommended

BIOL*4050 Advanced Eukaryotic Microbiology F (3-0) [0.50]
This course will focus on several selected topics concerning yeasts, fungi, and protists. It will emphasize the ecology of fungi in natural environments, fungi pathogens of animals and plants, use of yeasts and fungi as model systems in biology, and other topics in contemporary eukaryotic microbiology. Department of Integrative Biology and Department of Molecular and Cellular Biology. (Offered in even-numbered years.)
Prerequisite(s): BIOL*3050

**BIOL*4060 Restoration Ecology W (3-1) [0.50]**

An overview of the process used to restore naturally occurring ecological systems that have been degraded by human activity. Students will review restoration projects in Canada and abroad, to become more familiar with experimental design, analysis and data management, as it is currently used in restoration ecology. Emphasis will be placed on the scientific method and the role of ecological theory. Political, social, and economic aspects of restoration will also be considered. Department of Integrative Biology.

Prerequisite(s): BIOL*2060 or (BIOL*3110 and BIOL*3120)

**BIOL*4100 Molecular Evolution and Phylogenetics F (2-2) [0.50]**

This course is designed to provide students with an appreciation for the uses of molecular data in the study of evolutionary processes. An overview of the principles of molecular data analysis using a phylogenetic approach will be given. In addition, the importance of incorporating evolutionary history into biodiversity research and other applied topics will be emphasized. Laboratory sessions will be devoted to practical training in analytical tools using specialized computer software, and for student presentation of independent research projects. The course will involve practical training in molecular data analysis using a phylogenetic approach and discussion of current topics from the primary literature. Department of Integrative Biology.

Prerequisite(s): MBG*3000 or ZOO*3300

**BIOL*4110 Ecological Methods F (3-3) [0.75]**

An advanced course designed to present theoretical and practical aspects of research methods in ecology. Emphasis will be placed on experimental design, sampling, population estimation, statistical inference, and community characteristics of producers and consumers. Students will participate in research projects of their own design, and will gain experience in preparing research proposals, research papers and posters, and making oral presentations. Department of Integrative Biology.

Prerequisite(s): BIOL*3010, BIOL*3120, STAT*2040

**BIOL*4120 Evolutionary Ecology W (3-1) [0.50]**

An examination of common ecological circumstances faced by plants and animals and the morphological, behavioral and life history characteristics that have evolved in response. Particular emphasis will be placed on evolutionary processes and on adaptive aspects of thermoregulation, foraging strategies, spatial distribution, social and reproductive strategies. The course will emphasize both the theoretical basis and the empirical evidence for ecological adaptation. There is a 1-hour seminar each week for class discussion of selected lecture topics. Department of Integrative Biology.

Prerequisite(s): BIOL*3110, MBG*2000, (MBG*3000 or ZOO*3300)

**BIOL*4150 Wildlife Conservation and Management W (3-0) [0.50]**

This course builds on previous courses in population and community ecology to evaluate the long-term dynamics of threatened populations in the context of human intervention. The course will also provide a "hands-on" introduction to computer modeling, with application to contemporary issues in population ecology and resource management. Lectures will be drawn from the following topics: growth and regulation of single populations, long-term persistence of ecological communities, harvesting, bio-economics, and habitat modification. Department of Integrative Biology.

Prerequisite(s): BIOL*3110 or BOT*2050

Restriction(s): ZOO*4110

### BIOM*3000 Mammalian Neuroanatomy W (3-2) [0.50]

The basic organization of the mammalian nervous system. Includes 3 dimensional examination and dissection of the spinal cord, brain stem, cerebellum and cerebral hemispheres and study of serial sections. Emphasis is on the morphological basis of function.

**Prerequisite(s):** 1 of BIOL*1040, PSYC*2410, equivalent

### BIOM*3040 Medical Embryology W (2-3) [0.50]

The patterns and principles of fertilization and normal embryonic and fetal development of mammalian organ systems are covered with a focus on the medical implications. The teratology of structural and functional prenatal anomalies in development is mentioned.

**Prerequisite(s):** BIOL*1040 (an anatomy course is recommended)

### BIOM*3090 Principles of Pharmacology W (3-0) [0.50]

This course will introduce students to the basic principles of pharmacology. Topics to be covered include pharmacokinetics and drug-receptor interactions as well as the mechanism of action and toxicity of drugs acting on the cardiovascular and central nervous system.

**Prerequisite(s):** BIOL*2210, BIOM*2580

### BIOM*3100 Mammalian Physiology I F (3-0) [0.50]

The first part of a two-semester sequence. A series of lectures concerning the normal functioning of the body treating in a detailed manner the physiology of the nervous, endocrine, and reproductive systems.

**Prerequisite(s):** BIOL*2258

### BIOM*3110 Mammalian Physiology II W (3-0) [0.50]

This second lecture course in mammalian physiology deals with the cardiovascular and digestive systems and with homeostasis as reflected in respiratory and renal function.

**Prerequisite(s):** BIOM*3100 or HK*3940

### BIOM*3120 Laboratory Exercises in Mammalian Physiology W (0-3) [0.25]

A series of laboratory exercises in which the students measure cardiovascular, neuromuscular and respiratory parameters on themselves using a computer based acquisition system. These exercises complement the lectures in BIOM*3100, BIOM*3110, and HK*3940.

**Prerequisite(s):** BIOM*3100 or HK*3940

---

### BIOM*4010 Teratology F (2-3) [0.50]

The principles and practices of the study and analysis of birth defects in individuals and populations will be examined through lectures, lab projects and seminars. An on-going theme is the medical, social and moral/ethical impact of birth defects and testing for teratogenic safety.

**Prerequisite(s):** (1 of BIOM*3010, HK*3402, ZOO*2090), (BIOM*3040 or ZOO*2100), (BIOM*3120 or HK*3940)

---

### BIOM*4040 Pharmacology F (3-0) [0.50]

Topics covered in this course include drugs used in the treatment of inflammatory, allergic, hormonal, infectious, neoplastic and hemorrhagic/thromboembolic disease. The focus will be on drug targets and mechanisms of action that explain therapeutic and toxicological effects.

**Prerequisite(s):** BIOM*3110 or HK*3940

---

### BIOM*4110 Mammalian Reproductive Biology F (2-2) [0.50]

This multidisciplinary course provides an introduction to various aspects of mammalian reproduction of medical and veterinary significance. The course will cover the normal physiology and gross and micro anatomy of the female and male reproductive systems including the brain. Placenta will also be addressed. The impact of the normal biology on social issues will be discussed.

**Prerequisite(s):** (1 of BIOM*3010, HK*3402, ZOO*2090), (BIOM*3030 or ZOO*3000), (1 of BIOM*3110, HK*3940, ZOO*3210)

---

### BIOM*4120 Mammalian Reproductive Biotechnologies W (2-2) [0.50]

This course examines medically significant aspects of applied mammalian reproduction in detail. The pre-clinical medical disciplines will provide the basis for the analysis of key reproductive processes, which will be presented in the context of modern techniques and applications of reproductive manipulation and biotechnologies, and the ethical problems they pose.

**Prerequisite(s):** BIOM*3040, BIOM*4110, ZOO*2100

---

**Restriction(s):** Instructor consent required.

### BIOM*4500 Research in Biomedical Sciences I,S,F,W (0-6) [0.50]

Independent theoretical and/or practical research of a current topic in any of the biomedical sciences (such as anatomy, physiology, pharmacology, toxicology, genetics, biochemistry). Students work under the supervision of individual faculty. Faculty consent must be obtained prior to being admitted into the course by the course coordinator.

**Prerequisite(s):** 14.00 credits

**Restriction(s):** Instructor consent required. Enrolment restricted to Bio-Medical Science majors or Neuroscience minors.

Prerequisite(s): 14.00 credits.
Restriction(s): BIOM*4510. Instructor consent required. Enrolment restricted to Bio-Medical Science majors or Neuroscience minors.

BIOM*4521/2 Research in Biomedical Sciences II S,F,F-W,W-S [1.00]

Independent research of a current topic in any of the biomedical sciences (such as anatomy, physiology, pharmacology, toxicology, genetics, biochemistry). Students work under the supervision of individual faculty. Faculty consent must be obtained prior to being admitted into the course by the course coordinator. This is a two-semester course offered over consecutive semesters. When you select it you must select BIOM*4521 in the first semester and BIOM*4522 in the second semester. A grade will not be assigned in BIOM*4521 until BIOM*4522 has been completed.
Prerequisite(s): 14.00 credits.
Restriction(s): BIOM*4510. Instructor consent required. Enrolment restricted to Bio-Medical Science majors or Neuroscience minors.

BIOM*4522 Research in Biomedical Sciences II F,W,S (0-6) [0.50]

Second part of the two-semester course BIOM*4521/2. Refer to BIOM*4521/2 for course description.
Prerequisite(s): BIOM*4521.

### Business

#### BUS*2220 Financial Accounting F,W (3-0) [0.50]
An introductory course designed to develop an understanding of current accounting principles and their implication for published financial reports of business enterprises. The course approaches the subject from the view of the user of accounting information rather than that of a person who supplies the information.

**Prerequisite(s):** 1 of ECON*1050, ECON*1100, ENGG*3240  
**Equate(s):** AGEC*2220  
**Restriction(s):** Priority Access course. Enrolment may be restricted to particular programs or specializations. See department for more information.

#### BUS*2230 Management Accounting F,W (3-0) [0.50]
This course emphasizes the use of accounting information to facilitate effective management decisions. Topics include cost determination, cost control and analysis, budgeting, profit-volume analysis and capital investment analysis.

**Prerequisite(s):** AGEC*2220 or BUS*2220  
**Equate(s):** AGEC*2230  
**Restriction(s):** Priority Access course. Enrolment may be restricted to particular programs or specializations. See department for more information.

#### BUS*3320 Financial Management F,W (3-0) [0.50]
The viewpoint taken in the course is that of the senior financial officer of a business firm. The focus is on the management of cash, accounts receivable, inventory and short and intermediate term liabilities. Emphasis is placed on the analysis and forecasting of financial statements, and financial modeling for planning and controlling the growth of the business enterprise.

**Prerequisite(s):** 1 of AGEC*2230 , BUS*2230, HAFA*3070 , HTM*3070  
**Equate(s):** AGEC*3320  
**Restriction(s):** Registration in BCOM programs, BA Management Economics programs, BA International Development area of emphasis Economic & Business Development or BA European Studies area of emphasis in European Business Studies.

#### BUS*3330 Intermediate Accounting F (3-0) [0.50]
A critical evaluation of accounting concepts, principles and practices in relation to both the traditional and current value accounting measurement models. Emphasis will be on the effect of alternative accounting practices and measurement models on income determination and asset valuation.

**Prerequisite(s):** 10.00 credits including AGEC*2220 or BUS*2220  
**Equate(s):** AGEC*3330

#### BUS*4250 Business Policy F,W (3-0) [0.50]
Business policy is a synthesis of the principles of business management with emphasis upon the formation of business decisions and policies. The purpose of this course is to enable the student to draw on analytic tools and factual knowledge from all other courses in analyzing comprehensive business problems.

**Prerequisite(s):** AGEC*3310, ( AGEC*3320 or BUS*3320), ECON*3560  
**Equate(s):** AGEC*4250  
**Restriction(s):** Registration in semester 6 or higher. Priority Access course. Enrolment may be restricted to particular programs or specializations. See department for more information.

#### BUS*4550 Applied Business Project I S,F,W (3-0) [0.50]
This is a project-based independent study course on a business issue for third or fourth year students in an agreed program of study with the instructor.

**Prerequisite(s):** 10.00 credits  
**Restriction(s):** AGEC*4550. Instructor consent required.

#### BUS*4560 Applied Business Project II S,F,W (3-0) [0.50]
This course provides an opportunity to conduct a second independent study on a business issue for third or fourth year students in an agreed program of study with the instructor.

**Prerequisite(s):** BUS*4550  
**Restriction(s):** AGEC*4560. Instructor consent required.

| CHEM*1040 General Chemistry I | 1F,W (3-3) [0.50] | A course which introduces concepts of chemistry, the central link between the physical and biological sciences. Principles discussed include chemical bonding, simple reactions and stoichiometry, chemical equilibria and solution equilibria (acids, bases, and buffers), and introductory organic chemistry. 
Prerequisite(s): 1 of 4U Chemistry, OAC Chemistry (or equivalent), CHEM*1060 
Restriction(s): CHEM*1100, CHEM*1300 |
| CHEM*1050 General Chemistry II | F,W (3-3) [0.50] | An introductory study of the fundamental principles governing chemical transformations: thermodynamics (energy, enthalpy, and entropy); kinetics (the study of rates of reactions); and redox/electrochemistry. 
Prerequisite(s): CHEM*1040 
Restriction(s): CHEM*1300 , CHEM*1310 |
| CHEM*1060 Introductory Chemistry F | (3-0) [0.50] | A course stressing fundamental principles of chemistry, designed for students without 4U or OAC Chemistry or equivalent. Topics include: atomic theory, the periodic table, stoichiometry, properties of gases and liquids, acid-base concepts and chemical equilibria. 
This course is intended only for students who require the equivalent of 4U or OAC Chemistry in order to proceed to CHEM*1040 or CHEM*1300. |
| CHEM*1100 Chemistry Today F | (3-0) [0.50] | A chemistry course for non-scientists. This course will outline the involvement of chemistry in our daily lives and will provide an appreciation of chemistry from atoms to important complex molecules. Topics will include energy sources, air and water pollution, natural and synthetic polymers, household chemicals, foods, drugs and biochemicals. 
Restriction(s): CHEM*1040, CHEM*1300 |
| CHEM*2060 Structure and Bonding F | (3-2) [0.50] | Applications of symmetry, simple crystal structures and principles of bonding. Molecular orbital theory is used to explain the fundamental relationship between electronic and molecular structure. This course provides the elementary quantum background for an understanding of the electronic structures of atoms and molecules. 
Prerequisite(s): CHEM*1050, MATH*1210, PHYS*1010 |
| CHEM*2070 Structure and Spectroscopy S,W | (3-2) [0.50] | An introduction to spectroscopy and its relationship to molecular structure and dynamics. Rotational, vibrational, electronic and magnetic resonance spectroscopies will be studied. Concepts introduced in CHEM*2060 will be applied to chemical and biochemical problems through spectroscopic techniques. Central to this course is the use of spectroscopy for the determination of molecular structures and the investigation of molecular motions. 
Prerequisite(s): CHEM*2060 |
| CHEM*2300 Chemical Reactivity F | (3-3) [0.50] | A general coverage of the reactivity of the elements and some of their compounds, with an emphasis on the compounds of carbon. 
Prerequisite(s): CHEM*1050 or CHEM*1310 
Restriction(s): CHEM*2700 |
| CHEM*2400 Analytical Chemistry I S,F,W | (2-6) [0.75] | Quantitative analysis of important inorganic species in solution by volumetric, gravimetric and spectrophotometric techniques. Spreadsheet applications to solution equilibria and data analysis. This course is intended to build the foundations of good analytical laboratory practice. 
Prerequisite(s): CHEM*1050 
Restriction(s): CHEM*2480 |
| CHEM*2480 Analytical Chemistry I S,F,W | (2-3) [0.50] | Same as CHEM*2400 with a 3 hour laboratory component. 
Prerequisite(s): CHEM*1050 or CHEM*1310 
Restriction(s): CHEM*2400 |
| CHEM*2700 Organic Chemistry I S,W | (3-3) [0.50] | An introduction to organic chemistry, stereochemistry, discussion of the major mechanisms and related reactions: nucleophilic substitution and elimination, electrophilic addition, free radical reactions, electrophilic aromatic substitution, nucleophilic addition and nucleophilic acyl substitution. 
Prerequisite(s): CHEM*1050 
Restriction(s): CHEM*2300 |
| CHEM*2820 Thermodynamics and Kinetics F | (3-3) [0.50] | The laws and applications of chemical thermodynamics and chemical kinetics. 
Prerequisite(s): CHEM*1050, (MATH*1210 or MATH*2080) 
Restriction(s): CHEM*2880 |
| CHEM*2880 Physical Chemistry F | (3-2) [0.50] | A survey course for students who are not specializing in chemistry or chemical physics. Topics include basic thermodynamics, chemical equilibrium, macromolecular binding, chemical kinetics, enzyme kinetics, transport processes, colligative properties and spectroscopy. This course describes macroscopic observable properties of matter in terms of molecular concepts. 
Prerequisite(s): CHEM*1050, (1 of MATH*1000, MATH*1080, MATH*1200) 
Restriction(s): CHEM*2820 |
| CHEM*3360 Environmental Chemistry and Toxicology S,W | (3-0) [0.50] | The chemistry of the natural environment; the influence of pollutants upon the environment, including methods of introduction of pollutants to, and removal of pollutants from the environment. (Also listed as TOX*3360.) 
Prerequisite(s): CHEM*1050 
Equate(s): TOX*3360 
Restriction(s): CHEM*1310 |
| CHEM*3430 Analytical Chemistry II: Instrumental Analysis S,W | (3-3) [0.50] | Methods for the separation, identification and quantification of substances in the solid, liquid and vapour states. Emphasis will be placed on modern instrumental methods and trace analysis. 
Prerequisite(s): (CHEM*2400 or CHEM*2480), CHEM*2070 (may be taken concurrently) 
Restriction(s): TOX*3300 |
| CHEM*3440 Analytical Chemistry III: Analytical Instrumentation F | (3-3) [0.50] | Analytical Instrumentation, data acquisition, processing and applications in Chemistry and Biological Chemistry. 
Prerequisite(s): CHEM*3430 |
| CHEM*3640 Chemistry of the Elements I F | (3-3) [0.50] | A comprehensive introduction to concepts used by inorganic chemists to describe the structure, properties, and reactivity of compounds of the main group elements. The most important concepts covered are: Electronic Structure of Atoms, Symmetry, MO theory, Acids and Basis, Structure of Solids, Trends in the Periodic System. 
Prerequisite(s): CHEM*2070 |
| CHEM*3650 Chemistry of the Elements II W | (3-3) [0.50] | The chemistry and structure of transition metal compounds; electronic spectral and structural properties of transition metal complexes; mechanisms of their substitution and redox reactions. Introduction to organometallic chemistry. 
Prerequisite(s): CHEM*3640 |
| CHEM*3750 Organic Chemistry II S,F | (3-3) [0.50] | A continuation of the coverage of fundamental aspects of organic chemistry using an assimilation of carbonyl chemistry, unsaturated systems and carbon-carbon bond forming processes to acquaint students with methods of organic synthesis. Topics also include an introduction to spectroscopic methods for the identification of organic compounds. 
Prerequisite(s): CHEM*2700 |
| CHEM*3760 Organic Chemistry III W | (3-3) [0.50] | An in-depth treatment of various aspects of organic chemistry. This will include such topics as the chemistry of heterocycles, bio-organic chemistry, polar rearrangements, organic photochemistry and a detailed discussion of organic spectroscopy. 
Prerequisite(s): CHEM*2070, CHEM*3750 |
| CHEM*3860 Quantum Chemistry F | (3-1) [0.50] | Elementary quantum mechanics for the understanding of the electronic structure of atoms and molecules. 
Prerequisite(s): CHEM*2070, MATH*2170 |

CLAS*1000 Introduction to Classical Culture F,W (3-0) [0.50]
A wide-ranging look at essential features of Greek and of Roman culture and society. Considerable emphasis will be given to the classical views of the human condition.

CLAS*2000 Classical Mythology W (3-0) [0.50]
An examination of the nature and function of myth in Classical Antiquity. The course shows how the narrative and symbolic structure of myths orders individual and communal experience. The myths that have influenced Western civilization receive special emphasis.

CLAS*2150 Western Art: Greece F (3-0) [0.50]
A survey of Ancient Greek Art and Archaeology, with stress on form and function plus stylistic trends and aesthetic values. The course will illuminate the cultural, social, and political life in Ancient Greece. (Also listed as ARTH*2150).

Equates: ARTH*2150

CLAS*2350 The Classical Tradition W (3-0) [0.50]
This course examines the transmission of Graeco-Roman culture in circumstances radically different from those in which it originated. It highlights the aspects of classical culture most influential in forming the Western tradition. (Offered in odd-numbered years.)

Prerequisite(s): CLAS*1000 or CLAS*2000

CLAS*2360 The Classical Tradition (in Latin) W (6-0) [1.00]
This course augments CLAS*2350 for Classical Languages students through the reading and study in Latin of certain primary sources, in particular Cicero, Quintilian, Augustine. (Offered in odd-numbered years.)

Prerequisite(s): LAT*2000

Restriction(s): Registration in Classical Languages.

CLAS*3000 The Rise and Fall of Athens F (3-0) [0.50]
Greek history in the 5th century; the development of Athenian democracy; the Peloponnesian War and the decline of Athenian dominance. Special attention is paid to the literature and thought of the period. (Offered in even-numbered years.)

Prerequisite(s): 1 of CLAS*1000, CLAS*2000, HIST*2850

CLAS*3010 The Roman Revolution W (3-0) [0.50]
An examination of the collapse of the Roman Republic and the development of the Imperial government under Augustus. The paradox of the external power and inner instability of Rome. (Offered in even-numbered years.)

Prerequisite(s): 1 of CLAS*1000, CLAS*2000, HIST*2850

CLAS*3020 History of the Hellenistic World F (3-0) [0.50]
The rise and fall of the Hellenistic states from the death of Alexander the Great until the Roman conquest, with political emphasis on the development of the monarchies and cultural emphasis on the Hellenization of the East. (Offered in odd-numbered years.)

Prerequisite(s): 1 of CLAS*1000, CLAS*2000, HIST*2850

CLAS*3030 Epic Heroes and Poems W (3-0) [0.50]
The nature and significance of the epic hero. Epic as code and as critique of tradition. Oral poetry, and critical problems raised by it. The central texts are The Iliad, The Odyssey, and Virgil's Aeneid; other poems are also studied. (Offered in odd-numbered years.)

Prerequisite(s): CLAS*1000 or CLAS*2000

CLAS*3040 Greek Tragedy and Comedy W (3-0) [0.50]
The nature of tragedy, and the existential and moral questions raised by the plays of Aischylos, Sophokles, and Euripides. Comedy, fantasy, and society in Aristophanes.(Offered in even-numbered years.)

Prerequisite(s): CLAS*1000 or CLAS*2000

CLAS*3050 The Rise and Fall of Athens (in Greek) F (6-0) [1.00]
This course augments CLAS*3000 for Classical Languages students through the reading and study in Greek of selected primary sources, such as Herodotus, Thucydides, and Plutarch. (Offered in even-numbered years.)

Prerequisite(s): GREK*2020

Restriction(s): Registration in Classical Languages.

CLAS*3060 The Roman Revolution (in Latin) W (6-0) [1.00]
This course augments CLAS*3010 for Classical Languages students through the reading and study in Latin of selected primary sources, notably Sallust, Cicero, Caesar, and Suetonius.(Offered in even-numbered years.)

Prerequisite(s): LAT*2000

Restriction(s): Registration in Classical Languages.

CLAS*3070 History of the Hellenistic World (in Greek) F (6-0) [1.00]
This course augments CLAS*3020 for Classical Languages students through the reading and study in Greek of selected Greek sources pertaining to the history of the Hellenistic World, primarily Polybius and Plutarch. (Offered in odd-numbered years.)

Prerequisite(s): GREK*2020

Restriction(s): Registration in Classical Languages.

CLAS*3080 Epic Heroes and Poems (in Greek) W (6-0) [1.00]
This course augments CLAS*3030 for Classical Languages students through the reading in Greek of selected books from the Iliad and/or Odyssey. The course will include close study of the epic dialect and features of its formulaic language.(Offered in odd-numbered years.)

Prerequisite(s): GREK*2020

Restriction(s): Registration in Classical Languages.

CLAS*3090 Greek Tragedy and Comedy (in Greek) W (6-0) [1.00]
This course augments CLAS*3040 for Classical Languages students through the reading and study in Greek of an extant play. Offered in even-numbered years.)

Prerequisite(s): GREK*2020

Restriction(s): Registration in Classical Languages.

CLAS*3100 Religion in Greece and Rome F (3-0) [0.50]
An examination of the varieties of religious experience and of religious activity in Greece and Rome, before the establishment of Christianity. Particular attention is paid both to the relations of religion to state and to the relations of the individual to gods. (Offered in even-numbered years.)

Prerequisite(s): CLAS*1000 or CLAS*2000

CLAS*3120 Religion in Greece and Rome (in Latin) F (6-0) [1.00]
This course augments CLAS*3100 for Classical Languages students through the reading and study of Latin primary sources. (Offered in even-numbered years.)

Prerequisite(s): LAT*2000

Restriction(s): Registration in Classical Languages.

CLAS*3150 Space: Roman Art and Urbanism W (3-0) [0.50]
Introduction to Roman art and urbanism from the Early Republic to the end of the imperial period. The course will survey the developments of Roman art with an emphasis on architecture, sculpture and painting. It will illuminate the development of the urban space in the context of cultural, social and political life. (Also listed as ARTH*3150). (Offered in even-numbered years.)

Equates: ARTH*3150

CLAS*3200 Sport in Antiquity F (3-0) [0.50]
The history of sport in Greece and Rome from Homer to the Caesars, with emphasis on its relationship to religion, education, literature, and community life. (Offered in odd-numbered years.)

Prerequisite(s): CLAS*1000, CLAS*2000

CLAS*3370 Greek Myth in the Western Tradition F (3-0) [0.50]
The study of the functions of Greek myths in the non-Greek cultures which adopted them and so transmitted them to the later general culture of the West. The period to be explored extends from Augustan Rome through the European Middle Ages to the Early Renaissance in Italy. (Offered in even-numbered years.)

Prerequisite(s): CLAS*2000

CLAS*3400 Novel and Romance in Antiquity F (3-0) [0.50]
The historical and formal roots of fiction in the classical prose romances. Special attention is paid to the influence of myth, religion, historiography and ethical biography. Among texts studied are Daphnis and Chloe, Satyricon, and Aithiopika. (Offered in odd-numbered years.)

Prerequisite(s): CLAS*3030 or CLAS*3040

CLAS*3410 Novel and Romance in Antiquity (in Latin) F (6-0) [1.00]
This course augments CLAS*4000 for Classical Languages students through the reading and study in Latin of an extant novel. (Offered in odd-numbered years.)

Prerequisite(s): LAT*2000

Restriction(s): Registration in Classical Languages.

CLAS*4150 Research Paper in Classics F,W (3-0) [0.50]
This course is intended to complement courses in specified studies in classics. It engages the student in research and in critical writing, and permits the examination, in depth, of a topic of importance to the discipline and of interest to the student.

Prerequisite(s): 1.50 credits in Classical Studies courses at the 3000 level
CLAS*4400 Seminar in Classics W (3-0) [0.50]

A seminar course complementing courses of specific study in classics. It seeks to define the nature of the discipline, its values and its procedures. Attention will be paid to recent methodological and ideological trends in the discipline.

Prerequisite(s): 1.50 credits in Classical Studies at the 3000 level
Computing and Information Science

Department of Computing and Information Science

Note: Credit may be obtained for 1 of CIS*1000 or CIS*1200. Students with credit for MCS*2020 may not register in CIS*1000 or CIS*1200 Students who major or minor in Computing and Information Science may not receive credit for the following courses unless taken to satisfy the requirements of another program: MCS*2020, MATH*1050.

Restriction(s): CIS*1200, MCS*2020, Not available to students registered in B.A.Sc. Program (Applied Human Nutrition major)

CIS*1000 Introduction to Computer Applications S,F,W (3-2) [0.50]
A survey of computer systems and software. An introduction to computer programming and data organization. An emphasis on using application packages for personal and business use. The social impact of computing. Not recommended for students with previous computer science background. Cannot be taken for credit by students taking a major or minor in Computing and Information Science.

Restriction(s): CIS*1200, MCS*2020

CIS*1200 Introduction to Computing F,W (3-2) [0.50]
An introduction to computer hardware and software, data organization, problem-solving and programming. Exposure to application packages for personal and business use. For students who wish a balance between programming and the use of software packages. Cannot be taken for credit by students taking a major or minor in Computing and Information Science.

Restriction(s): MCS*2020, CIS*1000

CIS*1500 Introduction to Programming F,W (3-2) [0.50]
Introductory problem-solving, programming and data organization techniques required for using a general purpose programming language. Topics include control structures, data representation and manipulation, program logic, development and testing. For students who require a good understanding of programming or are planning on taking additional specialist Computing and Information Science courses. This is the entry point to all CIS programs. (Also offered in distance education format.)

Restriction(s): CIS*1650

CIS*1900 Discrete Structures in Computer Science W (3-2) [0.50]
Provides a foundation in finite mathematics which is required for further computer science courses. Abstract representation of structures and algorithms. Topics include graph theory, logic, and set theory. (Also offered in distance education format.)

Restriction(s): CIS*1910, CIS*2910

CIS*1910 Discrete Structures in Computing I W (3-2) [0.50]
An introduction to discrete structures and formal methods used in computer science, including Boolean, prepositional and predicate logic, finite set theory, functions, relations, and proof techniques.

Restriction(s): CIS*1900

CIS*2030 Structure and Application of Microcomputers S,F (3-3) [0.50]
Components of a computer system, including memories, CPU, buses, and input/output subsystems and interface hardware. Instruction sets, addressing modes, assembly/machine language programming. Development of algorithms for data acquisition, display, and process control.

Prerequisite(s): (CIS*1900 or CIS*1910), (CIS*2500 or CIS*2650)

CIS*2100 Scientific Computing and Applications Development S,F (3-2) [0.50]
This course is intended to introduce the student to techniques in modern applications development using current technologies and practices. The emphasis of the first part of the course ranges from building and maintaining WEB sites to search engines and transaction oriented systems. GPSS: entities, processing logic, chains, queue disciplines.

Restriction(s): (CIS*1910 or CIS*1900), CIS*2500

CIS*2120 Introduction to Operating Systems W (3-1) [0.50]
The course focuses on social, ethical, legal and managerial issues in the application of computer science to the information technology industry. Through seminars and case studies, human issues confronting Computer Science professionals will be addressed.

Restriction(s): 2.00 credits in CIS courses

CIS*2300 Social Implications of Computing F (4-2) [0.50]
This course introduces graph theory, combinatorics and other discrete structures used in computer science, including graph representations, traversal and simple graph algorithms, trees, counting strategies, summations, and an introduction to finite probability, recursion, and finite state machine models.

Prerequisite(s): CIS*2430, CIS*2520

CIS*2910 Discrete Structures in Computing II S,F (3-2) [0.50]
Introduces graph theory, combinatorics and other discrete structures used in computer science, including graph representations, traversal and simple graph algorithms, trees, counting strategies, summations, and an introduction to finite probability, recursion, and finite state machine models.

Prerequisite(s): CIS*1500, CIS*1910

CIS*2920 Operating Systems II (3-1) [0.50]
Operating Systems in theory and practice. Components in a system: scheduling and resource allocation; process management, multi-programming, multi-tasking; I/O control and file systems; mechanisms for client-server computing. Examples from contemporary operating systems.

Prerequisite(s): (CIS*2910 or CIS*2650 ). Recommended (CIS*2030 or ENGG*2410).

CIS*2930 System Simulation F (3-2) [0.50]

Prerequisite(s): (CIS*2420 or CIS*2520), CIS*3110, STAT*2040

CIS*3110 Operating Systems F (3-1) [0.50]
Operating Systems in theory and practice. Components in a system: scheduling and resource allocation; process management, multi-programming, multi-tasking; I/O control and file systems; mechanisms for client-server computing. Examples from contemporary operating systems.

Prerequisite(s): (CIS*2500 or CIS*2650 ). Recommended (CIS*2030 or ENGG*2410).

CIS*3120 Digital Systems S,W (3-2) [0.50]
Boolean algebra, minimization of Boolean expressions. Design of combinational and sequential logic circuits. Memory design. Control, ALU, bus design. Microprogramming and CPU design.

Prerequisite(s): CIS*2030

CIS*3210 Computer Networks F (3-1) [0.50]
This course covers the high-level (protocol) oriented aspects of computer networks, specifically: application, session, transport and network layers. It includes the internet, socket-level programming, multimedia and quality of service issues. The hardware aspects (switches, LANs, modems, transmission paths) are covered at only a functional level.

Prerequisite(s): CIS*3110

CIS*3460 System Simulation F (3-2) [0.50]

Prerequisite(s): (CIS*2420 or CIS*2520), CIS*3110, STAT*2040

CIS*3490 The Analysis and Design of Computer Algorithms S,W (3-2) [0.50]
The design and analysis of efficient computer algorithms: standard methodologies, asymptotic behaviour, optimality, lower bounds, implementation considerations, graph algorithms, matrix computations (e.g. Strassen's method), NP-completeness.

Prerequisite(s): (CIS*1900 or CIS*2910), ( CIS*2420 or CIS*2520)
CIS*3530 Data Base Systems and Concepts F (3-1) [0.50]
Review of data organization and data management principles with the perspective of analyzing applications suitable for implementation using a DBMS. Analysis of several data base models, query specification methods, and query processing techniques. Overview of several related issues including concurrency control, security, integrity and recovery. Students are expected to demonstrate concepts through project assignments.
Prerequisite(s): (CIS*2420 or CIS*2520), (CIS*2450 or CIS*2750)
Restrictions: CIS*4600

CIS*3620 Programming Language Foundations F (3-1) [0.50]
This course explores finite automata, formal languages, parsing, sequential machines and models of computation, including an introduction to Turing machines and the hierarchy of machines/languages.
Prerequisite(s): (CIS*2450 or CIS*2750), CIS*3490
Restrictions: CIS*4600

CIS*3700 Introduction to Intelligent Systems W (3-1) [0.50]
This course covers the core topics of Artificial Intelligence, namely: agents and environment, search, knowledge representation, reasoning, and learning. The last 3 topics are covered using logic as the common formalism for coherence The course introduces a broad range of basic concepts, terminology, and applications, in addition to providing some specific, widely applicable methodologies.
Prerequisite(s): (CIS*3430 or CIS*3750), STAT*2040
Restrictions: CIS*4750, CIS*4760

CIS*3750 System Analysis and Design in Applications F (3-2) [0.75]
An introduction to the issues and techniques encountered in the design and construction of software systems. The theory and models of software evolution. Topics include requirements and specifications, prototyping, design principles, object-oriented analysis and design, standards, integration, risk analysis, testing and debugging.
Prerequisite(s): CIS*2750
Restrictions: CIS*3430

CIS*3760 Software Engineering S.W. (3-2) [0.75]
Examination of the software engineering process and the production of reliable systems. Techniques for the design and development of complex software. Topics include object-oriented analysis, design and modeling, software architectures, software reviews, software quality, software engineering, ethics, maintenance and formal specifications.
Prerequisite(s): CIS*3530, CIS*3750 (CIS*3110 recommended)
Restrictions: CIS*3200

CIS*4000 Applications of Computing Seminar F,W (0-6) [0.50]
This capstone course of the B.Comp. program provides students an opportunity to combine their area of application with their studies in computing via a course project and seminar series. Application areas discussed in any particular semester will depend on areas of application selected by students. Students are required to present their work in a seminar and also to participate in the critical analysis and review of the work of other students taking this course.
Prerequisite(s): Registration in semester 7 or higher of the B.Comp. Program and completion of a minimum of 2.50 credits in an Area of Application.

CIS*4050 Advanced Computer Architectures F (3-1) [0.50]
Central processor architectures, control and microprogramming, memory systems, special architectures, underlying support for special architectures, architectures suitable for very large scale integration. (Offered in even-numbered years and may be offered in odd-numbered years.)
Prerequisite(s): CIS*2030, CIS*3110, CIS*3120

CIS*4150 Software Reliability and Testing F (2-2) [0.50]
This course serves as an introduction to systematic methods of testing and verification, covering a range of static and dynamic techniques and their use within the software development process. Concepts such as defining necessary reliability, developing operational profiles, techniques to improve and predict software reliability, preparing and executing tests, black box testing, white box testing, unit testing, system testing, and integration testing will be explained. (First offering Fall 2008.)
Prerequisite(s): CIS*3200 or CIS*3760

CIS*4210 Telecommunications W (3-1) [0.50]
This course covers the low-level and the hardware-oriented aspects of computer communications, specifically the physical, link, and network layers. It includes basic telecommunication technology, local area networks, low level protocols, switching technologies, wireless and mobile networking, data and stream compression, and error coding. (Offered in odd-numbered years.)
Prerequisite(s): CIS*2210
Restrictions: CIS*4200

CIS*4300 Human Computer Interaction F (2-2) [0.50]
Methods for user interface software design, including interface representations and testing. Evaluation and design of sample application systems. Impacts of computer-based information systems on individuals and organizations. Implementation and testing tools. Planning of learning stages and design of assistance subsystems. (Offered in odd-numbered years and may be offered in even-numbered years.)
Prerequisite(s): CIS*3110, (CIS*3430 or CIS*3750)

CIS*4400 Distributed Information Systems F (3-2) [0.50]
This course addresses the basic concepts and methodologies used to build distributed systems applications. The course deals with building information infrastructures involving a base network layer, middleware and application layer. The emphasis is on the enabling methodologies for building complex distributed information systems.
Prerequisite(s): (CIS*3210 or CIS*4200), (CIS*3430 or CIS*3570), CIS*3530

CIS*4410 Trends in Distributed Systems W (3-1) [0.50]
A course that examines the technical issues surrounding modern and future distributed commercial enterprises. Special attention is given to new communication modes, high volume, data-intensive systems, distributed transactions and security mechanisms.
Prerequisite(s): (CIS*3210 or CIS*4200), (CIS*3430 or CIS*3470), CIS*3530

CIS*4430 Information Organization and Retrieval W (3-1) [0.50]
Advanced techniques for information management. Analysis of advanced indexing structures. Information retrieval, feedback strategies, text searching, automatic indexing. Database query optimization and system support. Web based retrieval. (Offered in even-numbered years and may be offered in odd-numbered years.)
Prerequisite(s): CIS*3110, CIS*3350, (CIS*3430 or CIS*3750)

CIS*4450 Special Topics in Information Science U (3-1) [0.50]
A variety of advanced topics mainly from areas within general information processing. Subject areas discussed in any particular semester will depend on the interests of the students and the instructor. Students should check with the Department of Computing and Information Science to determine what topic will be offered during specific semesters and which prerequisites, if any, are appropriate.
Restrictions: Instructors consent required.

CIS*4500 Special Topics in Computing Science U (3-1) [0.50]
A variety of advanced topics within Computing Science. Subject areas discussed in any particular semester will depend upon the interests of both the students and the instructor. Students should check with the Department of Computing and Information Science to determine what topic will be offered during specific semesters and which prerequisites, if any, are appropriate.
Restrictions: Instructors consent required.

CIS*4620 Computability and Complexity W (3-1) [0.50]
This course explores the theory of computation: Turing machines and variants, computability, NP and NP-completeness, complexity classes, reductions, undecidability and intractability. (Offered in odd-numbered years.)
Prerequisite(s): CIS*3620
Restrictions: CIS*4600

CIS*4650 Compilers W (3-1) [0.50]
This course is a detailed study of the compilation process. Topics include interpreters, overall design implementation of a compiler, techniques for parsing, building and manipulating intermediate representations of a program, implementation of important features, code generation and optimization.
Prerequisite(s): (CIS*2030 or IPS*2010), CIS*3110, CIS*3620
Restrictions: CIS*3650

CIS*4720 Image Processing and Vision W (3-1) [0.50]
This course is an introduction to the process of image processing. Emphasis is placed on topics such as image enhancement, segmentation morphological analysis, texture analysis, visualization and image transformations. Applications of image processing in medicine, forensics, food and security are surveyed. (Offered in odd-numbered years.)
Prerequisite(s): (CIS*2450 or CIS*2750), CIS*3110, STAT*2040 (CIS*3700 recommended)
Restrictions: CIS*4760
**CIS*4730 Pattern Recognition W (3-1) [0.50]**

This course introduces fundamental concepts, theories and algorithms for pattern recognition, which are used in areas including computer vision, signal processing, speech recognition and linguistics. Major themes include statistical pattern classification, supervised and unsupervised learning, feature selection and extraction, clustering, image classification, and syntactical pattern recognition. (Offered in even-numbered years.) (First offering Winter 2008)

**Prerequisite(s):** (CIS*2450 or CIS*2750), CIS*3110, STAT*2040 (CIS*3700 recommended)

**Restriction(s):** CIS*4760

**CIS*4770 Topics in Artificial Intelligence F (3-1) [0.50]**

This course explores selected topics in Artificial Intelligence at an intermediate level. Topics will be chosen to acquaint students with important aspects of Artificial Intelligence having the greatest current interest. (Offered in even-numbered years.)

**Prerequisite(s):** CIS*3700

**Restriction(s):** CIS*4750

**CIS*4780 Computational Intelligence F (3-1) [0.50]**

This course introduces concepts of soft computing: modelling uncertainty, granular computing, neurocomputing, evolutionary computing, probabilistic computing and soft computing for software engineering. (Offered in odd-numbered years.) (First offering Fall 2007.)

**Prerequisite(s):** (CIS*3430 or CIS*3750), CIS*3490, STAT*2040 (CIS*3700 recommended)

**Restriction(s):** CIS*4750

**CIS*4800 Computer Graphics W (3-1) [0.50]**

Introduction to computer graphics. Topics include graphics programming concepts, geometrical transformations, viewing 3-D projections, raster graphics, sculptured surfaces, visible surface determination, image processing and other special topics. Practical issues will be covered by assignment using currently available graphics equipment. (Offered in even-numbered years.)

**Prerequisite(s):** CIS*3110, (CIS*3430 or CIS*3750)

**CIS*4820 Game Programming W (3-1) [0.50]**

This course will focus on the components found in modern 3-D game engines. It will emphasize the algorithms and data structures required to create real-time computer graphics, sound and network communications. (Offered in odd-numbered years.)

**Prerequisite(s):** CIS*3110, (CIS*3430 or CIS*3750)

**CIS*4900 Computer Science Project S,F,W (0-6) [0.50]**

Planning, developing and writing a research proposal under individual faculty supervision. The course, in continuation with CIS*4910 provides senior undergraduates an opportunity to pursue an independent course of study. The topic selected will be determined by agreement between the student and the faculty member with expertise in the area.

**Prerequisite(s):** 2 CIS courses at the 4000 level

**Restriction(s):** Instructor consent required.

**CIS*4910 Computer Science Thesis S,F,W (0-6) [0.50]**

This course is a continuation of CIS*4900. The student will conduct and write an undergraduate thesis under the individual supervision of a faculty member. In addition the student is required to present his/her work in a seminar and also participate in the critical analysis and review of the work of other students taking this course.

**Prerequisite(s):** CIS*4900

**Restriction(s):** Instructor consent required.

Crop Science

Department of Plant Agriculture

**CROP*2050 Gateway to Organic Agriculture F (3-3) [0.50]**
Students taking this course will be exposed to the full spectrum of opportunities in the field of organic agriculture, from social policy and marketing to crop rotation and rare breeds. In addition to lectures provided by faculty from several departments, guest speakers will offer practical insights into the field. Experiential learning will be encouraged, through data collection and analysis from organically managed land and from site interviews with practitioners in the field.

*Prerequisite(s):* 5.00 credits

**Restriction(s):** CROP*3400

**CROP*2110 Crop Ecology W (3-0) [0.50]**
Fundamental ecological principles are applied to managed agricultural ecosystems. Crop selection and management are viewed as influencing interactions among species and the environment. Adaptation and distribution of temperate zone crops are related to both environmental constraints and human intervention.

*Prerequisite(s):* BIOL*1040

**CROP*2280 Crops in Land Reclamation F (2-2) [0.50]**
The use of vegetation to reclaim land disturbed by human intervention, including mining and extraction, construction of right-of-ways, waste disposal, and logging, are introduced. Fundamentals of soil, plant, and associated microbial relations are reviewed, with emphasis on plant adaptation to soil constraints. Presentations by guest speakers and visits to nearby sites are used to identify the off as well as on-site environmental implications of land disturbance.

**CROP*3130 Tutorials in Organic Agriculture II W (3-2) [0.50]**
Building on the introductory exposure offered in CROP*2050, this course will rely on small group mentoring to stimulate independent, learner-centered analysis of selected topics in organic agriculture. Students will participate in an interdisciplinary analysis of case study topics offered in the form of two, 6-week modules in biophysical and social areas, including organic certification, non-chemical pest management, organics in an international context, and enhancing soil and crop health. The goal is to encourage holistic, systematic thinking in students learning to become self-directed analysts and decision-makers. Seminar periods will support both guest speakers and student presentations.

*Prerequisite(s):* CROP*2050

**CROP*3300 Grain Crops W (3-0) [0.50]**
Management strategies and world production of the major temperate grain crops are studied relative to their botanical and physiological characteristics and to available environmental resources. The utilization of grain crops for human food, livestock feed, and various industrial products are examined. (Offered in odd-numbered years.)

*Prerequisite(s):* 1 of AGR*2451/2, AGR*2470, CROP*2110

**CROP*3310 Protein and Oilseed Crops F (3-0) [0.50]**
Management strategies and world production of the major temperate protein and oilseed crops are studied relative to their botanical and physiological characteristics and to available environmental resources. The utilization of protein and oilseed crops for human food, livestock feed and various industrial products are examined. (Offered in odd-numbered years.)

*Prerequisite(s):* 1 of AGR*2451/2, AGR*2470, CROP*2110

**CROP*3340 Managed Grasslands W (3-2) [0.50]**
Managed forage grasses and legumes provide grazing, conserved feed, and a wider range of services to the environment and society at large. Agro-ecological, genetic, and managerial considerations will be integrated toward addressing questions of ruminant production and environmental management. Species will be distinguished morphologically and physiologically, focusing on adaptation to climatic, edaphic, and managerial constraints. Topics will include: physiological attributes of forage species, sward lifespan, establishment and maintenance practices, forage quality indices and harvest management. (Offered in even-numbered years.)

*Prerequisite(s):* 1 of AGR*2451/2, AGR*2470, CROP*2110

**CROP*4220 Cropping Systems W (3-2) [0.50]**
Design of cropping systems for specific livestock, poultry and cash crop enterprises; integration of all factors affecting crop yields, quality and economy of production such as choice and interchangeability of crops, crop sequence, tillage, pest control, seasonal work programming, harvesting, drying and storage.

*Prerequisite(s):* (2 of CROP*3300, CROP*3310, CROP*3320, CROP*3330, SOIL*3080 or SOIL*4090)
Economics

Department of Economics

For courses without semester designations, please check with the department. Advance schedules are available in the department.

ECON*1050 Introductory Microeconomics S,F,W (3-0) [0.50]
An introduction to the Canadian economy: price determination, market structure and resource allocation; the behaviour of consumers and firms; market intervention by government. Some of the economic issues addressed may include agricultural price supports, rent control, the NAFTA, environmental regulation, price discrimination, pay equity, and taxation. (Also offered through distance education format.)
Equates to: ECON*1200

ECON*1100 Introductory Macroeconomics S,F,W (3-0) [0.50]
The Canadian economy: aggregate performance and policy; an analysis of the determinants of national income, employment and the price level, the role of government monetary and fiscal policies in improving the rate of economic growth. (Also offered through distance education format.)
Prerequisite(s): ECON*1050

ECON*2000 Economic Problems in Canada U (3-0) [0.50]
This course is a study of important socio-economic issues in Canada using the basic principles of macro and microeconomics. Topics may include population, poverty, foreign ownership, regional development, etc.
Prerequisite(s): ECON*1050, ECON*1100

ECON*2100 Economic Growth and Environmental Quality F (3-0) [0.50]
An examination of the implications of economic growth on the quality of the environment, employing the basic principles of economic analysis. (Also offered through distance education format.)
Prerequisite(s): ECON*1050

ECON*2200 Industrial Relations F (3-0) [0.50]
This is a survey course of the Canadian industrial relations system. Among the topics covered are: the growth and objectives of unions, the legal framework of collective bargaining, the effects of unions on industry and the economy, industrial conflict and public policies.
Prerequisite(s): ECON*1050

ECON*2310 Intermediate Microeconomics S,F,W (3-1) [0.50]
The analysis of the behaviour of households and firms under alternative assumptions and market conditions. (Also offered through distance education format.)
Prerequisite(s): ECON*1050, (AGRI*1101/2 or ECON*1100)

ECON*2410 Intermediate Macroeconomics S,F,W (3-1) [0.50]
The analysis of closed economy models of aggregate spending, output, employment, prices and interest rates under alternative assumptions about the nature of labour, product and financial markets. The analysis of theories of consumption, investment and money demand. (Also offered through distance education format.)
Prerequisite(s): ECON*1050, ECON*1100

ECON*2420 Canadian Economic History U (3-0) [0.50]
This course surveys the development of the Canadian economy from the aboriginal economy to the early fur and fish trades, agricultural settlement, industrialization, the Great Depression, growth of the public sector and fast economic growth after World War Two. Particular attention is paid to international economic relations and to regional differences within Canada.
Prerequisite(s): ECON*1050, (ECON*1100 or HIST*2450)

ECON*2500 Introduction to the Economics of Law, Crime and Enforcement U (3-0) [0.50]
An introduction to the economic analysis of law, participation in illegal labour and product markets and optimal law enforcement. Topics covered may include the economics of property, contract and tort law, the costs of crime and crime control, measurement of deterrence, regulatory enforcement, trade-offs in the likelihood and severity of punishment and tax evasion.
Prerequisite(s): ECON*1050

ECON*2650 Introductory Development Economics F (3-0) [0.50]
This course introduces students to the economic experience of developing countries, the ways in which economists try to understand it, and the implications for policy. The basic tools of economic analysis as taught in the introductory courses are used to analyse topics that may include theories of growth, trade, education, foreign investment, exchange rates, labour markets, the role of government, environmental sustainability and strategies related to agriculture, population, industry and investment.
Prerequisite(s): ECON*1050, ECON*1100

ECON*2720 Business History F (3-0) [0.50]
This course surveys the evolution of economic activity and organization from the industrial revolution to the present. Particular attention is given to the changing relationship between technology and business organization, the shift from proprietorship to corporation and the rise of multinational enterprise. Other topics may include the relationship between business and government, the role of the entrepreneur in the process of technical change and the evolution of work patterns and standards of living.
Prerequisite(s): ECON*1050, (ECON*1100 or any 1.50 credits in history)

ECON*2740 Economic Statistics F,W (3-1) [0.50]
A course designed to prepare students conceptually and mathematically for ECON*3550, Theory of Finance and ECON*3740, Introduction to Econometrics. Topics include the summation operator, descriptive statistics, frequency distributions, probability and statistical independence, the binomial distribution, algebra of the expectation operator, discrete bivariate distributions, covariance, variance of a linear function of random variables, the normal and t distributions, sampling distributions, point and interval estimation, hypothesis testing and an introduction to ordinary least squares. Additional topics may be included at the instructor's discretion. Examples and assignment questions are drawn from economics and finance.
Prerequisite(s): ECON*1050, ECON*1100, (1 of MATH*1000, MATH*1050, MATH*1080, MATH*1200)

ECON*2770 Introductory Mathematical Economics F,W (3-1) [0.50]
This course applies the elements of calculus and matrix algebra to simple microeconomic and macroeconomic problems.
Prerequisite(s): ECON*1050, ECON*1100, (1 of MATH*1000, MATH*1080, MATH*1200)

ECON*3100 Game Theory W (3-1) [0.50]
The course introduces students to non-cooperative game theory, which is an important method of analysis for economics situations involving small numbers of interacting economic agents. The course is centered on the concept of Nash equilibrium, and applies this equilibrium concept to static and dynamic games with full as well as incomplete information. The purpose of the course is to enable students to take any economic situation, find an economic model (game) that depicts the incentives facing the participants, and analyze the game to predict the behaviour of the economic agents.
Prerequisite(s): ECON*2310, ECON*2410, (ECON*2770 or MATH*1210)
Restriction(s): ECON*3770

ECON*3200 Economics of Industrial Relations U (3-0) [0.50]
An economic analysis of the Canadian industrial relations system. Emphasis is placed on understanding the theoretical implications of unions and collective bargaining practices for wage and employment outcomes. Empirical analysis of the nature and growth of unions and of their effect on industrial conflicts, public policy and the performance of the economy.
Prerequisite(s): ECON*2310

ECON*3300 Economics of Health and the Workplace U (3-0) [0.50]
This course will introduce students to concepts of health economics with particular relevance to workplace issues. Topics to be covered include the determinants of health, the demand for and supply of health care, the market for health care providers, health insurance, public and private, the role of health insurance in the labour market, whether not having to provide comprehensive health insurance to their workers gives Canadian firms an edge over their American competitors, workplace health risks and their effects on working conditions and salaries, workplace wellness programs and their evaluation, and the analysis of the cost effectiveness of health interventions.
Prerequisite(s): ECON*2310, (ECON*2740 or STAT*2040)

ECON*3460 Introduction to Finance F (3-0) [0.50]
This course examines some important principles of the theory of finance which underlie investment (capital budgeting) and associated financing decisions of financial managers. These decisions are necessarily interdependent and typically carried out under conditions of uncertainty regarding the future values of key economic variables, for example, cash flows. Problems, illustrations and short case studies are used to demonstrate how finance theory can be applied and assist financial managers to make optimal decisions. (Not open to B.Com. MEIF or MEIF:C students.)
Prerequisite(s): ECON*1050, ECON*1100, (1 of ECON*2740, PSYC*2010, STAT*2060, STAT*2080)
Restriction(s): For B.Com. students only. But, B.Com.(MEIF) not allowed to take this course.

ECON*3500 Urban Economics U (3-0) [0.50]
This course is designed to apply the basic principles of intermediate economic theory to problems facing urban areas with emphasis on Canada. Topics to be covered will include such things as housing, urban poverty, municipal financing, transportation.
Prerequisite(s): ECON*2310
ECON*3510 Money, Credit and the Financial System U (3-0) [0.50]
Economics of the payments system, banking and other financial institutions and of credit markets. Bank of Canada operations and policy instruments. Monetary theory and policy.
Prerequisite(s): ECON*2310, ECON*2410

ECON*3520 Labour Economics U (3-0) [0.50]
A study of the labour market, wage determination and the relationship between wages, employment, and prices.
Prerequisite(s): ECON*2310

ECON*3530 Industrial Organization U (3-0) [0.50]
This course examines industries in which firms have the potential to exercise market power. Topics include how the competitive environment affects the behaviour of firms, measuring the extent of market power on welfare. The performance of markets under monopolies, dominant firms, cartels and oligopolies is examined and related aspects of Canadian competition policy and regulations are discussed.
Prerequisite(s): ECON*2310, (ECON*2770 or MATH*1210).

ECON*3560 Theory of Finance F,W (3-0) [0.50]
Capital budgeting and long-term finance and investment decisions by firms and individuals. Introduction to capital asset pricing under uncertainty and to concept of efficient markets. Major emphasis is on corporate finance. (Also offered through distance education format.)
Prerequisite(s): ECON*2310, (1 of ECON*2740, PSYC*2010, STAT*2040, STAT*2050, STAT*2060, STAT*2080, STAT*2090, STAT*2100, STAT*2120).

ECON*3580 Economics of Regulation U (3-0) [0.50]
A study of the economic reasons for government intervention in the marketplace. Emphasis will be placed on the role of crown corporations, regulatory agencies, regulation rules and public sector price-setting in the Canadian economy.
Prerequisite(s): ECON*2310

ECON*3600 Macroeconomics in an Open Economy W (3-0) [0.50]
This course focuses on international macroeconomic issues; the balance of payments; models of exchange rate determination; foreign exchange risk and covered interest arbitrage; alternative exchange rate regimes; small versus large economies; monetary and fiscal policy in an open economy.
Prerequisite(s): ECON*2410, (ECON*2740 or STAT*2040), (ECON*2770 or MATH*1210).

ECON*3610 Public Economics U (3-0) [0.50]
This course examines the interventionist role of government in the economy. It examines several sources of market failure which are used to justify government intervention. These include public goods, externalities and redistribution. The course also evaluates alternative sources of government revenue from the perspectives of both equity and efficiency. These include the personal and corporate income taxes, sales taxes and wealth taxes.
Prerequisite(s): ECON*2310

ECON*3620 International Trade U (3-0) [0.50]
An introduction to the general equilibrium analysis of international trade, international factor movements and commercial policy. Special emphasis is given to Canada's international trade relationships.
Prerequisite(s): ECON*2310

ECON*3660 Economics of Equity Markets U (3-0) [0.50]
This course studies the economic literature regarding the determination of security prices and the operation of the stock market. (Also offered through distance education format.)
Prerequisite(s): ECON*3560

ECON*3710 Advanced Microeconomics F,W (3-1) [0.50]
This course provides an in-depth treatment of consumer and producer theory leading to the general equilibrium model of the economy and the study of welfare economics.
Prerequisite(s): ECON*2310, (ECON*2770 or MATH*1210). A grade average of 70% or more in these courses is recommended.

ECON*3720 History of the World Economy Since 1850 U (3-0) [0.50]
Study of the evolution of the world economy since 1850. Topics may include the costs and benefits of empire to Britain, Anglo-German trade rivalry, the rise to prominence of “settler colonies”, economic growth in the Third World, reparations and war debt, agricultural overproduction, origins of the Great Depression, the 1945-1973 boom in world production and trade.
Prerequisite(s): ECON*1050, ECON*1100, (1 of ECON*2310, EURO*2070, HIST*2450, HUMN*2070, IDEV*2010)

ECON*3730 Europe and the World Economy to 1914 U (3-0) [0.50]
This course surveys the world economy with a particular focus on the industrial revolution in Europe, demographic change, the rise to prominence of the ‘settler colonies’, the origins of international inequality and the experience of globalization during the later nineteenth century. Particular attention is given to international trade, capital flows and migration.
Prerequisite(s): ECON*1050, ECON*1100, (1 of ECON*2310, EURO*2070, HIST*2450, HUMN*2070, IDEV*2010)

ECON*3740 Introduction to Econometrics F,W (3-1) [0.50]
This computer-based course involves the specification and estimation of economic models and the testing of economic hypotheses using appropriate test statistics. Topics include the summation operator, expectation operator, ordinary least squares estimation, dummy variables, seasonality, multicollinearity, heteroskedasticity, autocorrelation, data sources (including uses of the Data Resource Centre). Additional topics may be included at the instructor's discretion. Heavy emphasis will be placed on applications and writing up results. Some use of spreadsheet software (e.g. QuattroPro, Excel) and statistical software (e.g. TSP, SHAZAM) will be required.
Prerequisite(s): ECON*2310, ECON*2410, (ECON*2740 or STAT*2040), (ECON*2770 or MATH*1210).

ECON*4400 Economics of Organizations and Corporate Governance U (3-0) [0.50]
This course introduces students to the latest developments in the economic analysis of the inside workings of firms. The course is centered on the concept of organizational structure, which is made up of three variables: allocation of decision rights, performance evaluation and performance incentives. The course tries to explain the diversity of economic organizations, and more generally, why economic activity is sometimes carried out through firms and sometimes through markets. (Offered through Distance Education only.)
Prerequisite(s): ECON*2310 Students must have completed a minimum of 12 credits.

ECON*4500 Topics in Urban Economics U (3-0) [0.50]
This course will investigate selected theoretical and applied topics in urban economics in depth. Among topics which might be treated are location theory, the theory of spatial structure, transportation economics, the economics of housing, the economics of land use regulation, urban public finance.
Prerequisite(s): ECON*3710, ECON*3740

ECON*4560 Advanced Topics in Finance U (3-0) [0.50]
This course will examine selected advanced topics in finance, such as optimal capital structure under asymmetric information; theoretical and empirical analysis of mergers and acquisitions; asset pricing theory; pricing derivative securities; and financial econometrics.
Prerequisite(s): ECON*3560, ECON*3710, (ECON*3100 or ECON*3770)

ECON*4640 Applied Econometrics I F (3-0) [0.50]
This course discusses the classical linear regression model and its extensions including generalized least squares and the theory and application of F tests. The maximum likelihood principle is introduced, as are alternatives to testing, e.g. LM, LR and Wald tests. Additional topics may be included at the instructor's discretion. Matrix algebra is used and proof of the Gauss-Markov theorem is included, but discussion of results. Some use of spreadsheet software (e.g. TSP, SHAZAM) will be required.
Prerequisite(s): ECON*3740
Equate(s): ECON*4740

ECON*4710 Advanced Topics in Microeconomics F (3-0) [0.50]
An intensive study of the scope, methodology, and content of contemporary microeconomics; selected topics in partial and general equilibrium analysis.
Prerequisite(s): ECON*3710

ECON*4720 Topics in Economic History U (3-0) [0.50]
The use of economic theory to analyse the process of historical economic change.
Prerequisite(s): 12.50 credits including ECON*2310

ECON*4750 Topics in Public Economics U (3-0) [0.50]
This course examines selected topics related to the expenditure and taxation functions of government. Topics may include issues in public good theory such as the free rider problem, the problem of eliciting truthful revelation of preferences and the use of taxes as a corrective device for externalities. The course may also address optimal taxation as well as tax evasion. Throughout this course the trade-off between efficiency and equity is emphasized.
Prerequisite(s): ECON*3710
ECON*4760 Topics in Monetary Economics U (3-0) [0.50]
Selected topics in monetary economics such as theories of the demand for and supply of money, the nature and role of private banks and central banks, the transmission processes of monetary policy.
Prerequisite(s): ECON*3600, ECON*3710, ECON*3740

ECON*4780 Topics in Industrial Organization U (3-0) [0.50]
Selected topics in the theoretical and empirical study of the organization and performance of firms and markets. Topics may include: strategic behaviour of firms such as actions to deter entry of rivals, pre-emptive choice of location and product quality, and research and development; the regulation of firms under uncertainty; econometric analysis of the use of market power; and modern advances in the theory of the firm.
Prerequisite(s): ECON*3530, ECON*3710, ECON*3740, (ECON*3100 or ECON*3770 )

ECON*4790 Topics in Labour Market Theory U (3-0) [0.50]
Selected topics in advanced labour market theory with emphasis on empirical evidence for the Canadian labour market.
Prerequisite(s): ECON*3710, ECON*3740

ECON*4800 Theory of Strategic Management U (3-0) [0.50]
This course is about the creation and maintenance of long-term vision for the corporation from the perspective of the general manager. It is concerned with both the determination of strategic direction and the management of the strategic process. ECON*4800 may not be counted as a 4000 level economics course for purposes of satisfying the minimum 4000 level economics course requirements in the B.A. Honours Economics or B.A. Management Economics programs.
Prerequisite(s): ( AGEC*3320 or BUS*3320), ECON*2740. Completion of semester 5.

ECON*4810 Advanced Macroeconomic Theory W (3-0) [0.50]
The theory of complex aggregate economic models; their assumptions, construction, and use in the analysis of macroeconomic activity.
Prerequisite(s): ECON*3600, ECON*3740

ECON*4830 Economic Development U (3-0) [0.50]
A study of the theories, problems and policies of economic growth with special reference to underdeveloped countries.
Prerequisite(s): ECON*2310

ECON*4840 Applied Econometrics II W (3-0) [0.50]
This is a continuation of ECON*4640 and deals with asymptotic theory, maximum likelihood estimation, instrumental variables, simultaneous equation models and selected topics such as models for limited dependent variables, models for panel data, ARCH models, units roots and error correction models. There will be applications to data using statistical software.
Prerequisite(s): ECON*4640

ECON*4860 Seminar in Current Economic Problems U (3-0) [0.50]
Examination in a seminar setting of selected contemporary economic problems.
Prerequisite(s): ECON*3600, ECON*3710, ECON*3740, or instructor consent

ECON*4870 Mathematical Economics: Dynamics F (3-0) [0.50]
The purpose of this course is to introduce the student to the techniques and application of dynamic analysis. The discussion concentrates on systems of differential equations, optimal control theory, etc.
Prerequisite(s): ECON*3600, ECON*3710

ECON*4880 Topics in International Economics U (3-0) [0.50]
Selected topics involving the advanced analysis of the causes and effects of trade and financial flows and international factor movements.
Prerequisite(s): ECON*3600, ECON*3710, or instructor consent

ECON*4890 History of Economic Thought U (3-0) [0.50]
A study of the development of economic theory, the tools of economic analysis, and the evaluation of economics as a science, together with an analysis of the circumstances affecting this development.
Prerequisite(s): ECON*2310, ECON*2410

ECON*4900 Special Study in Economics S,F,W (3-0) [0.50]
The special study option is designed to provide senior undergraduate students with an opportunity to pursue an independent course of study. The subject matter will be related to regular 4000 level courses. Students will be required to submit a major paper/report on the subject matter studied. Formal agreement between the student and instructor of the course is required as well as the approval of the department chair or designate. One only of ECON*4900/ECON*4910 may count as one of the required minimum number of 4000 level economics courses in the B.A. programs.
Prerequisite(s): ECON*3600, ECON*3710, ECON*3740

ECON*4910 Special Study in Economics S,F,W (3-0) [0.50]
Same description as for ECON*4900.

ECON*4930 Environmental Economics U (3-0) [0.50]
An advanced treatment of the interrelationship between economic activities and the state of the natural environment from the economists' point of view.
Prerequisite(s): ECON*2410, ECON*3710

ECON*4940 Model Building and Economic Analysis U (3-0) [0.50]
Progress in economic theory is increasingly made by studying the properties of small artificial economies or competitive general equilibrium models. This course examines the construction of competitive general equilibrium models and outlines the computational techniques required to solve them. These models may be used to study a range of subject areas, including topics in macroeconomics with a particular emphasis on business cycle analysis or the economics of the environment. The subject areas will vary from year to year and are chosen at the instructor's discretion.
Prerequisite(s): ECON*3740

ECON*4950 Applied Economics Research Project W (3-0) [0.50]
Students plan, develop and conduct a research project under individual faculty supervision and structured co-ordination. The supervisor is a faculty member with expertise in the area being investigated. The co-ordinator is a faculty member who leads group sessions on research project objectives, expectations, potential topics, data sources, available software and other relevant issues. Students will also present proposals, progress reports and final products in this group setting.
Restriction(s): Students registered in the B.A. Applied Economics program. Students must have completed 17.0 credits.
EDRD*2000 Introduction to Rural Extension F (3-0) [0.50]
Introduction to Rural Extension including history and philosophy, learning and motivation, the rural setting; adoption/technology transfer processes; marketing, planning, extension teaching/communication methods and technology, evaluation; extension agencies and programs.
Equate(s): REXT*2000
Restriction(s): Registered in B.B.R.M.
Location(s): Ridgeway

EDRD*2010 Introduction to Landscape Management F (2-3) [0.50]
Students taking this course will be exposed to the range of issues and opportunities in the field of Landscape Management. Reviewing historic and contemporary practices they will explore the benefits of a scientific and multidisciplinary approach to addressing the environmental, political, social and cultural imperatives of open space and natural resources in urban and rural areas.
Restriction(s): Registered in B.Sc. (Agr.)

EDRD*2050 Landscape Construction and Planning F (1-4) [0.50]
This course introduces to dyadic and small-group communication. The focus is on communication style and effectiveness with attention to verbal and nonverbal communication, learning behaviour and conflict. (Offered through Distance Education only.)

EDRD*3000 Program Development and Evaluation W (3-0) [0.50]
Concepts and processes of program development and evaluation of rural extension programs. Programs designed with client involvement, situational analysis and priority setting will receive particular attention. (Offered in odd-numbered years.)
Prerequisite(s): EDRD*1150
Restriction(s): Registered in B.B.R.M.
Location(s): Ridgeway

EDRD*3050 Agricultural Communication F (3-0) [0.50]
Practical and effective ways of communicating information to a broad audience via the media, focusing mainly on print media (newspapers and magazines) and agricultural media. Strong emphasis on writing and preparing ready-to-use material and strategies for getting it published. (Students will develop an understanding of the news/communications business and find where they can fit into it or use it to their advantage to get a job. Contact with professionals will be a major part of the course).
Prerequisite(s): 10.00 credits
Equate(s): REXT*3000

EDRD*3120 Educational Communication W (3-0) [0.50]
This course addresses the communication concepts and practices within the formal and non-formal educational contexts. Communication is central to teaching and learning because communication mediates a conscious effort either on the part of the learners to learn, or on the part of the teachers to provide and transfer knowledge, attitudes and skills. (Offered through Distance Education only.)
Prerequisite(s): 5.00 credits
Restriction(s): REXT*3100

EDRD*3140 Organizational Communication W (3-0) [0.50]
This course explores the application of communication process theory to organizations with special emphasis on internal organizational processes experienced at individual, group and organizational levels. Students examine communication in different organizational contexts including civil society, government, business and transnational corporations. (Offered through Distance Education only.)
Prerequisite(s): 5.00 credits
Restriction(s): REXT*3040

EDRD*3160 International Communication W (3-0) [0.50]
This course examines the role of communication in global development. Emphasis is on the application of interpersonal, intercultural communications and the mass media in the development process. (Offered through Distance Education only.)
Prerequisite(s): 10.00 credits
Restriction(s): REXT*3060

EDRD*3180 Social Processes in Mediated Communication W (3-0) [0.50]
This course is an introduction to dyadic communication, small-group communication, mediated work groups and online learning in mediated environments. The focus of this course will be on communication style, effectiveness, and online dynamics and processes in asynchronous environments. (Offered through Distance Education only.)
Prerequisite(s): 10.00 credits

EDRD*3400 Sustainable Communities W (2-1) [0.50]
The structure, function and trends affecting agri-food community settings including historical, ecological and social factors, institutions, agencies and change processes are discussed. The agricultural role of the Provincial Government and the contemporary impact of the agro-industrial complex on Ontario communities will be considered mainly from a comparative perspective. Related topics will include physical infrastructure, political conflicts, labour markets, settlement patterns, housing, gender relations, landscape management, quality of life, sustainability and the promotion of community leadership.
Prerequisite(s): AGR*1250 or 10.00 credits
Restriction(s): AGR*3400

EDRD*3450 Watershed Planning Practice S,F,W (3-0) [0.50]
This course is an introduction to the principles and practice of watershed-based planning, with an emphasis on Ontario, but with reference to other parts of Canada, the U.S. and international contexts. History of water resource use and abuse, basic concepts of hydrology, water resource management, ecosystem approaches, and planning theory are also included. (Offered through distance education format only.)
Prerequisite(s): 10.00 credits or instructor consent
Equate(s): UNIV*3400

EDRD*3500 Recreation and Tourism Planning F,W (0-0) [0.50]
Application of planning theory to recreation and tourism in the private and public sectors, approaches to implementing plans, and strategies for involving stakeholders in the planning process. Focus will also be on the impact of various approaches to planning recreation and tourism. (Offered through Distance Education only.)
Prerequisite(s): 10.00 credits
Equate(s): UNIV*3500

EDRD*3550 Economic Development for Rural and Smaller Communities S (3-0) [0.50]
This course addresses the variety of challenges facing rural and smaller communities in Canada relating to livelihood creation and maintenance, employment, investment, business development, tax base maintenance and enhancement and the associated strategies for development planning and management. The roles of various agents (public, private, community, Third Sector) are addressed through the literature and case studies. The course critically examines “local” and “community” economic development, and reviews the rich Canadian experience here. The structure and dynamics of rural economies are examined. The course addresses selected methods of analysis and outlines the process of planning for, and managing, economic development at the local level. Various development organizations (e.g. cooperatives, Community Development Corporations) are examined. (Offered through Distance Education only.)
Equate(s): UNIV*3550

EDRD*4010 Tourism Planning in the Less Developed World F,W (0-0) [0.50]
This course will provide a discussion and investigation of tourism from an interdisciplinary point of view. The subject of tourism development cuts across many disciplines and is fundamental to a variety of scholars and practitioners working in tourism and development generally. While a variety of important theories and planning practices from a variety of disciplines have been selected for study, planning and community development theory will provide the overarching perspective. The features of planning theories and models stress analysis and intervention into human and environmental systems. This perspective begins with the view that tourism is a complicated human construct and as such needs to be structured and guided in order to maximize the benefits to all stakeholders in the system. (Offered through Distance Education only.)
Prerequisite(s): 5 credits

EDRD*4020 Rural Extension in Change and Development F (3-4) [0.50]
The planning and management of development programs with emphasis on the role of non-formal education and counselling in influencing behavioral change and adoption of innovation. Case studies include cross cultural and international considerations.
Prerequisite(s): 10.00 credits
Equate(s): REXT*4020

EDRD*3450 Watershed Planning Practice S,F,W (3-0) [0.50]

EDRD*4020 Rural Extension in Change and Development F (3-4) [0.50]
The planning and management of development programs with emphasis on the role of non-formal education and counselling in influencing behavioral change and adoption of innovation. Case studies include cross cultural and international considerations.
Prerequisite(s): 10.00 credits
Equate(s): REXT*4020
### EDRD*4060 Agricultural Communication II W (3-0) [0.50]

Application of practical and effective writing and communication techniques, mainly through the production of print publications and the further development and application of journalistic writing and editing skills. Special emphasis on issues important to the agri-food industry.

**Prerequisite(s):** 1 of EDRD*3050, REXT*3050, equivalent

**Equate(s):** REXT*4060

**Restriction(s):** Instructor consent required.

### EDRD*4120 Leadership Development in Small Organizations F (3-0) [0.50]

The main theories of leadership will be discussed with exploration of the current literature, practice leadership skills and perform relevant activities in an on-line environment. Emphasis will be placed on the communication challenges facing leaders in small organizations and the importance of developing a culture of shared leadership. (Offered through Distance Education only.)

**Prerequisite(s):** 10.00 credits

**Restriction(s):** REXT*4100

### EDRD*4180 Social Issues in Organic Agriculture W (2-2) [0.50]

This interdisciplinary course will build on SOIL*3030 and CROP*3130, Tutorials in Organic Agriculture I and II, to examine the major social issues in organic agriculture from both a global and local perspective, with an emphasis on synthesis and integration. Issues will include globalization, sustainability, gender, the commons, the debate between economics and the environment, the organic agri-food system, rural communities, the role of the family farm, land use and certification/regulation.

**Prerequisite(s):** 1 of AGR*3400, (CROP*3130, SOIL*3030), SOC*2080

**Equate(s):** REXT*4180

### EDRD*4300 Issues in Landscape Management F (2-3) [0.50]

Through lectures students will be exposed to the historic and contemporary approached used in the planning design of urban open space. Lectures and case studies will present a broad range of solutions which will be evaluated against appropriate criteria. Studio experience will expose the student to the process of planning and design. Projects will allow students to apply their theoretical and technical knowledge to contemporary issues. (First offering - Fall 2009.)

**Prerequisite(s):** 14.00 credits

**Restriction(s):** Registration in Urban Landscape Management.

### EDRD*4500 Planning Industrial Ecology W (0-0) [0.50]

To create ecologically informed and professionally skilled scientists, engineers, planners, and managers by providing them with: systems-analytic frameworks to critically examine processes, products, infrastructure, management systems and public policies from the perspective of environmental sustainability; and the skill set to guide the design of appropriate responses. Course requires a science background, minimum OAC Chemistry or Physics. (Offered through Distance Education only.)

**Prerequisite(s):** 10.00 credits

**Equate(s):** UNIV*4500
Engineering

School of Engineering

Students who are not registered in the B.Eng. degree program may take no more than 3.00 Engineering (ENGG**XXX) credits.

Some ENGG* courses have priority access restrictions. Enrolment in these courses is restricted to students registered in B.Eng. Degree program. All other students will require a waiver form to be signed by the B.Eng. Program Counsellor.

ENGG*1100 Engineering and Design I F (2-4) [0.75]
Introduction to engineering and design by means of selected problems. Students integrate basic science, mathematics, and complementary studies to develop and communicate engineering solutions to specific needs using graphical, oral, and written means. Application of computer-aided drafting, spreadsheets, and other tools to simple engineering design problems. The practice of professional engineering and the role of ethics in engineering.

Restriction(s): Registration in the Engineering Program

ENGG*1210 Engineering Mechanics I W (3-1) [0.50]
Fundamental principles of Newtonian mechanics; statics of particles in 2-D space; equilibrium of rigid bodies in 2-D; distributed forces; friction, linear and angular momentum of rigid bodies; conservation of energy; principles of impulse and momentum; and, plane motion of rigid bodies.

ENGG*1500 Engineering Analysis W (3-1) [0.50]
Engineering applications of Matrix algebra, vector spaces and computer techniques to solve linear systems. Linear transformations, eigenvalues and eigenvectors, diagonalization and their applications in engineering problems. Complex variable algebra, multi-variable functions, partial derivatives, and maxima and minima.

Co-requisite(s): ENGG*1210, MATH*1210

ENGG*2100 Engineering and Design II F (2-4) [0.75]
Progression in engineering design skills with particular emphasis on computer usage in design, oral communication of solutions and team skills. Computer usage in design will include advanced CAD/CAM/CAE tools, structured programming and database management software. An introduction to safety in engineering practice and design. An introduction to the concept of sustainable development.

Prerequisite(s): ENGG*1100, ENGG*1210, ENGG*1500, MATH*1200, PHYS*1130

ENGG*2150 Fluid Mechanics I W (3-1) [0.50]
Study of the mechanical, electrical, magnetic, optical and thermal properties of solids. Atomic order and disorder in solids, single-phase metals, and multiphase materials (their equilibria and micro-structure) are examined as a basis for understanding the causes of material properties. Interwoven throughout the course is an introduction to materials selection and design considerations.

Prerequisite(s): CHEM*1040, PHYS*1130

ENGG*2160 Engineering Mechanics II F (3-1) [0.50]
Fundamental principles of the mechanics of deformable materials; stress and strain; Mohr's circle for transformation of stress and strain; deflection under load; design of beams; shafts; columns and pressure vessels; failure theory and design.

Prerequisite(s): ENGG*1210, ENGG*1500, 0.50 credits in calculus

ENGG*2220 Fluid Mechanics W (3-2) [0.50]
Analysis of steady ideal and viscous fluid flow systems using the Continuity, Bernoulli, and Momentum equations. Boundary layer theory is treated in terms of viscous and pressure drag, lift and its importance in heat and mass transfer. Dimensional analysis and dynamic similarity are studied to provide an understanding of flow systems analysis and modeling. Introduction to pipe flow and open channel flow.

Prerequisite(s): ENGG*1210, MATH*1210

ENGG*2400 Engineering Systems Analysis F (3-1) [0.50]
Analytical description and modeling of engineering systems such as mechanical, electrical, thermal, hydraulic, biological and environmental systems. Applications of multivariable calculus, linear algebra and differential equations to stimulate and analyse such systems.

Prerequisite(s): ENGG*1210, ENGG*1500, MATH*1200, MATH*1210, PHYS*1130

ENGG*2410 Digital Systems Design Using Descriptive Languages F (3-3) [0.50]
Review of Boolean algebra, truth tables, Karnaugh maps. Design, synthesis and realization of combinational circuits. Design, synthesis and realization of sequential circuits. VHDL structural modeling, data flow modeling, synchronous & asynchronous behavior descriptions, algorithmic modeling. Designing with PLDs. Digital design with SM charts. Designing with PGAs and complex programmable logical devices. Hardware testing and design for testability. Hierarchy in large designs. The course will primarily be concerned with the design of multi-input, multi-output digital controllers which provide the central control signals that orchestrate the collection of hardware devices (from SSI to VLSI) found in a digital system. An introduction to FPGA-based, as well as microprocessor-based digital systems design will be given. Design examples will include systems such as UART, microcontroller CPU, ALU and data acquisition system.

Prerequisite(s): ( CIS*1650 or CIS*1500), PHYS*1130

ENGG*2450 Electric Circuits W (3-1) [0.50]
Electrical quantities; electrical circuit elements and their characteristics; exponentials, sinoids and phasors applied to electrical circuits; s-plane representation and pole-zero concepts; steady-state a.c. circuits; general network analysis; magnetic quantities and circuits; demonstration of principles as applied in several engineering fields.

Prerequisite(s): ENGG*2400, PHYS*1130

ENGG*2550 Water Management W (3-0) [0.50]
The influence of fundamental engineering and hydrologic principles on the choices available for management of water on a watershed basis is demonstrated for representative techniques used in management for water supply, irrigation, flood control, drainage and water pollution control. Selected problems are studies to reveal the technical, environmental, legal, jurisdiction, political, economic and social aspects of water management decisions.

Prerequisite(s): ENGG*2400, PHYS*1130

ENGG*2660 Biological Engineering Systems I W (3-1) [0.50]
Mathematical description and identification of biological systems; through mass and energy balances; reactions in biological systems; biomedical, food, and bio-processing applications.

Prerequisite(s): ENGG*2400, MATH*2270, MICR*1020

ENGG*2800 Environmental Engineering Systems W (3-2) [0.50]
Analysis techniques for natural and engineered systems including chemical, physical and biological processes. Mass balance analysis for steady state and unsteady state situations. Analysis under both equilibrium and non-equilibrium conditions. Reactor types including batch, plug-flow, CSTR. Noise pollution, control and prevention.

Prerequisite(s): CHEM*1050, MATH*2270

ENGG*2900 Biological Engineering Systems II W (3-1) [0.50]
Mathematical description and identification of biological systems; through mass and energy balances; reactions in biological systems; biomedical, food, and bio-processing applications.

Prerequisite(s): ENGG*2400, MATH*2270, MICR*1020

ENGG*2950 Embedded Reconfigurable Computing Systems W (3-2) [0.50]
This course introduces the students to the analysis, synthesis and design of embedded systems and implementing them using Field Programmable Gate Arrays. Topics include: review of digital design concepts; Programmable Logic Devices; Field Programmable Logic Devices; physical design automation (partitioning, placement and routing); Hardware Descriptive Languages; VHDL; Verilog; High Level Languages; System-C; Handle-C; Fixed Point and Floating Point Arithmetic; Hardware Accelerators; Reconfigurable Instruction Set Computers; Hardware Software Co-design techniques; Application of Field Programmable Logic in Embedded Systems. (First offering - Winter 2010)

Prerequisite(s): ENGG*3380, ENGG*3450

ENGG*3100 Engineering and Design III W (3-2) [0.75]
This course combines the knowledge gained in the advanced engineering and basic science courses with the design skills taught in ENGG*1100 and ENGG*2100 in solving open-ended problems. These problems are related to the student's major. Additional design tools are presented, including model simulation, sensitivity analysis, linear programming, knowledge-based systems and computer programming. Complementing these tools are discussions on writing and public speaking techniques, codes, safety issues, environmental assessment and professional management. These topics are taught with the consideration of available resources and cost.

Prerequisite(s): Registration in the B.Sc. (Eng.) program, ENGG*2100, ENGG*2230, ENGG*2400, ENGG*3260 and, for the specific majors: BIOE, (ENGG*2150 or ENGG*2160), ENGG*2660, ESC, ENGG*3390; ENVE, (ENGG*3180 or ENGG*3360), ENGG*3590, ENGG*3650; WRE, ENGG*3590, ENGG*3650

Restriction(s): Students must have a minimum cumulative average of 60% or higher in ALL ENGG courses.
ENGG*3150 Engineering Biomechanics W (3-2) [0.50]
Basic concepts of biological material structure, properties, adaptation and remodeling; viscoelasticity in biological materials and techniques for modeling viscoelastic material behaviour; 2-dimensional and 3-dimensional joint kinematic analysis techniques; muscle mechanics and optimization techniques; current techniques in laboratory instrumentation and biomedical applications.
Prerequisite(s): ENGG*2160
Restriction(s): ENGG*2150

ENGG*3160 Biological Engineering Systems II F (3-2) [0.50]
Mass transfer in biological systems: concepts; gas-liquid mass transfer; membrane transport processes; and heterogeneous reactions. Applications may include fermenter aeration, tissue perfusion, mass transfer limitations in biofilms, microbial flocs and solid tumours, protein recovery and drug delivery.
Prerequisite(s): ENGG*2230, ENGG*2660

ENGG*3170 Biomaterials F (3-2) [0.50]
Physical properties of natural and synthetic (e.g. stainless steel, polymers) materials used in biological engineering applications. Topics will include microstructure and mechanical properties of typical biomaterials, quantification of advanced material properties and behaviours, fabrication, compatibility, biodegradation and mechanical failure. Typical applications will include processing of biomaterials as well as equipment and implant design.
Prerequisite(s): ENGG*2120

ENGG*3180 Air Quality F (3-2) [0.50]
Prerequisite(s): ENGG*2230, (ENGG*2560 or ENGG*2660)
Co-requisite(s): ENGG*3260
Restriction(s): ENGG*3360

ENGG*3240 Engineering Economics F (3-0) [0.50]
Principles of project evaluation; analysis of capital and operating costs of engineering alternatives, benefit-cost ratio; break-even studies, evaluations recognizing risk, replacement and retirement of assets; tax considerations, influence of sources of funds.
Prerequisite(s): ENGG*2400, ENGG*2450, MATH*1210, MATH*2270
Restriction(s): Registration in the Engineering program.

ENGG*3260 Thermodynamics F (3-1) [0.50]
Macroscopic thermodynamics and its applications to engineering analysis and design. First and second laws and applications to closed and flow systems, both with and without reaction; properties of pure substances and solutions; introduction to phase and reaction equilibrium. Applications include gas-vapour systems (psychrometrics and beyond), power and refrigeration cycles, raoult and henry law solution behaviours, flame temperature calculations, semiconductor device fabrication.
Prerequisite(s): CHEM*1040, ENGG*2230, ENGG*2400, ENGG*2450, MATH*2270

ENGG*3340 Geographic Information Systems in Environmental Engineering F (3-0) [0.50]
Geographical information system structure and functions. Data structuring and application program development. Data input, display and analysis. Applications in environmental engineering and natural resource development/management. Students will be able to use a GIS software package to build geographical information systems.
Prerequisite(s): (CIS*1500 or CIS*1600), (1 of MATH*1000, MATH*1080, MATH*1200)

ENGG*3350 Computerized Organization and Design F (3-2) [0.50]
Detailed examination of modern computer organization and techniques for microprocessor architecture design. Topics include - CPU design; instruction set design, addressing modes, operands; data flow design: internal bus structure, data flow signals, registers, control sequence design: hardwired control, decoding, microprogramming; architecture classes: CISC, RISC, and DSP; Memory organization; performance. Students must complete a term project that includes design, implementation, and demonstration of a CPU using a hardware descriptive language like VHDL.
Prerequisite(s): ENGG*2410

ENGG*3390 Signal Processing F (3-2) [0.50]
This course will establish the fundamental analysis and design techniques for signal processing systems. Topics covered include: definition and properties of linear time-invariant systems; impulse response and convolution; continuous-time Laplace transform; Fourier series, Fourier transform, discrete-time Fourier transform, discrete-time Fourier series, fast Fourier transform, Z transform; complex frequency response; filter analysis and design for both continuous and discrete time systems. Students will be able to design continuous-time filters and both design and implement discrete-time digital filters using computer-based tools.
Prerequisite(s): ENGG*2400

ENGG*3410 Systems and Control Theory W (3-2) [0.50]
Modeling, performance analysis and control with potential application to engineering, physical and biological systems. Topics include modeling in time, Laplace and frequency domains. Performance and stability by methods of Hurwitz, Routh, Bode, and Nyquist. Control by ON/OFF and PID Controllers.
Prerequisite(s): ENGG*2400, MATH*2270
Co-requisite(s): ENGG*2450

ENGG*3430 Heat and Mass Transfer Operations W (3-1) [0.50]
Analysis of steady and transient thermal systems involving heat transfer by conduction, convection and radiation and of mass transfer by molecular diffusion and convection. Other topics include the thermal analysis of heat exchangers and heat transfer systems involving a change of state.
Prerequisite(s): ENGG*2230, ENGG*3260, MATH*2270

ENGG*3450 Electrical Devices F (3-2) [0.50]
Semiconductors materials, Silicon, Germanium and other semi-conductors' material, Doping and effects of extrinsic material introduction, Conduction in metals and semi-conductors, electrical and thermal characteristics of diodes and transistors; principles of modern electronic devices and their applications in circuits; diodes; bipolar and field effect transistors; circuit integration; operational amplifiers; logic gates.
Prerequisite(s): ENGG*2450

ENGG*3470 Mass Transfer Operations W (3-2) [0.50]
Application of mass transfer principles in the natural and engineered systems. Mass transport in the multi-media fate of contaminants in and between air, water and land. Design and analysis of separation processes for emission and pollutant prevention.
Prerequisite(s): ENGG*2230, ENGG*3260, MATH*2270
Co-requisite(s): ENGG*3430

ENGG*3490 Introduction to Mechatronic Systems Design W (3-2) [0.75]
This course covers the design of mechatronic systems, which are synergistic, combinations of components and controls drawn from mechanical engineering, electronics, control engineering, and computer science. The course emphasizes the integration of these areas through the design process employing the two skills of (1) modeling, analysis, control design, and computer simulation of dynamic systems, and (2) experimental validation of models, analysis and the understanding of the key issues of hardware implementation. The two skills are developed though assignments emphasizing analytical analysis with complementary laboratory exercises. The material covered includes mechatronic system design; a review of kinematics, electronics, modeling, simulation, signals and control; control architectures; sensors including vision; and actuators.
Prerequisite(s): ENGG*3450
Co-requisite(s): ENGG*3410
Restriction(s): ENGG*3400

ENGG*3550 Water Quality F (3-3) [0.50]
This course builds on the student's experience in chemistry, biology, physics and fluid mechanics, and provides an engineering perspective on: (i) standard methods of water quality analysis for physical, chemical and biological characteristics of water; (ii) significance and interpretation of analytical results, (iii) modeling of water quality in natural systems and (iv) introduction to engineered water and wastewater treatment systems.
Prerequisite(s): ENGG*2230, ENGG*2560, (BIOL*1040 or MICR*1020), STAT*2120
### ENGG*3640 Microcomputer Interfacing F (3-3) [0.50]
Interfacing microcomputers to external equipment. Topics include peripheral devices, hardware interfaces, device driver software and real-time programming. Advanced programming: debugging of embedded systems, data structures and subroutine calls, high-level system programming. Interrupts and resets, real-time events, signal generation, and timing measurements. Synchronous and asynchronous serial communication. Parallel I/O ports and synchronization techniques. I/O interfacing, microcomputer busses, memory interfacing and direct memory access (DMA). Data acquisition topics include signal conditioning analog to digital conversion and digital signal processing.

**Prerequisite(s):** ENGG*2410  
**Corequisite(s):** ENGG*3390  
**Restriction(s):** ENGG*4640

### ENGG*3650 Hydrology F (3-1) [0.50]
Quantitative study of natural water circulation systems with emphasis on basic physical principles and interrelationships among major processes; characteristics of mass and energy; inputs to and output from watersheds; factors governing precipitation occurrence, evaporation rates, soil-water storage changes, groundwater recharge and discharge, run-off generation; methods of streamflow analysis; mathematical modeling.

**Prerequisite(s):** ENGG*2230 or MET*2030, (MATH*121 or MATH*2080), (STAT*2120 or STAT*2040), and competency in computing

### ENGG*3670 Soil Mechanics F (3-2) [0.50]
Relations of soil physical and chemical properties to strength; soil water systems and interactive forces. Visco-elastic property and pressure-volume relationships of soil systems. Stress-strain characteristics of soil under dynamic loads. Application of engineering problems. Laboratory and field investigation methods.

**Prerequisite(s):** ENGG*2120, ENGG*2230

### ENGG*3830 Bio-Process Engineering F (3-1) [0.50]
Application of engineering principles to the processing of biological products in the biological and food industry. Analysis and design of unit processes such as sedimentation, centrifugation, filtration, milling and mixing involving rheology and non-Newtonian fluid dynamics of biological materials. Analysis of heat and mass balances for drying evaporation, distillation and extraction.

**Prerequisite(s):** ENGG*2230, ENGG*2660  
**Corequisite(s):** ENGG*3260

### ENGG*4080 Analog Integrated Circuits F (3-0.5) [0.50]
The purpose of this course is to describe the operating principles of analog integrated circuits and to teach how to design and use such circuits. These circuits include analog and switched-capacitor filters, analog-to-digital and digital-to-analog converters, amplifiers, oscillators, circuits for radio-frequency and optical communications, readout channels for integrated sensors, and analog integrated circuits for mechatronics and bioengineering. The main emphasis is on device models, circuit operation, and design techniques. (First offering - Fall 2010)

**Prerequisite(s):** ENGG*3450

### ENGG*4110 Biological Engineering Design IV F,W (2-6) [1.00]
Capstone design project in the Biological Engineering program. Teams of 3-4 students apply engineering analysis and design principles to a problem in a biological system or process. A completely specified solution at the level of preliminary or final design is required, including assessment of socio-economic and environmental impact. Teams produce reports and a poster presentation to a professional standard. Ethics and law case studies relevant to professional engineering practice are discussed.

**Prerequisite(s):** All 1000 and 2000 level core credits, ENGG*3100  
**Restriction(s):** Registration in semester 8 (last semester) of the B.Sc.(Eng.) program and in a max. of 3.25 credits registration. Students must have a minimum cumulative average of 60% or higher in ALL ENGG courses. Instructor consent required.

### ENGG*4120 Engineering Systems and Computing Design IV F,W (2-6) [1.00]
Capstone design project in the Engineering Systems and Computing program. Teams of 3-4 students apply engineering analysis and design principles to a problem involving control system, computer hardware or computer software technology. A completely specified solution at the level of preliminary or final design is required, including assessment of socio-economic and environmental impact. Teams produce reports and a poster presentation to professional standard. Ethics and law case studies relevant to professional engineering practice are discussed.

**Prerequisite(s):** All 1000 and 2000 level core credits, ENGG*3100  
**Restriction(s):** Registration in semester 8 (last semester) of the B.Sc.(Eng.) program and in a max. of 3.25 credits registration. Students must have a minimum cumulative average of 60% or higher in ALL ENGG courses. Instructor consent required.

### ENGG*4130 Environmental Engineering Design IV F,W (2-6) [1.00]
Capstone design project in the Environmental Engineering program. Teams of 3-4 students apply engineering analysis and design principles to a problem involving control system, computer hardware or computer software technology. A completely specified solution at the level of preliminary or final design is required, including assessment of socio-economic and environmental impact. Teams produce reports and a poster presentation to professional standard. Ethics and law case studies relevant to professional engineering practice are discussed.

**Prerequisite(s):** All 1000 and 2000 level core credits, ENGG*3100.

### ENGG*4140 Solid and Hazardous Waste Management F (3-2) [0.75]

**Prerequisite(s):** ENGG*2560 or ENGG*2660
ENGG*4360 Soil-Water Conservation Systems Design F (3-2) [0.75]

Properties of soils and land use governing the occurrence and magnitude of overland flow, soil erosion, infiltration, percolation of soil water, and variations in soil water storage. Design of soil and water management systems and structures to control soil erosion and protect water quality for environmentally and economically sustainable land use planning. Design of surface and subsurface drainage system for rural land. Design of sprinkler and trickle irrigation systems.

Prerequisite(s): ENGG*2230, ENGG*3650, ENGG*3670

ENGG*4370 Urban Water Systems Design F (3-2) [0.75]

Estimation of water quantity and quality needed for urban water supply and drainage. Design of water supply, pumping systems, pipe networks and distributed storage reservoirs from analysis of steady and transient, pressurized and free surface flow. Rates of generation of flows and pollutants to sanitary and storm sewers, design of buried pipe and open channel drainage systems with structures for flow and pollution control. Modeling of water systems for sustainable urban development.

Prerequisite(s): ENGG*2230, ENGG*3650

ENGG*4380 Bioreactor Design F (3-2) [0.75]

Modeling and design of batch and continuous bioreactors based on biological growth kinetics and mass balances. Gas-liquid mass transfer for aeration and agitation instrumentation and control.

Prerequisite(s): ENGG*3160

ENGG*4390 Bio-instrumentation Design F (3-2) [0.75]

Theory and selection criteria of devices used in measurements in biological systems; design of complete measurement systems including transducers, signal conditioning and recording components; error analysis. Differences between measurements in biological and physical systems.

Prerequisite(s): ENGG*3450

ENGG*4400 Biomechanical Engineering Design F (3-2) [0.75]

Concept development, design, modeling, manufacture and testing of medical implants and tools. This course will investigate the biomechanical factors influencing design, regulatory issues, current development trends, and the possible future of medical implant technology.

Prerequisite(s): ENGG*2120, Co-requisite(s): ENGG*3170

ENGG*4420 Real-time Systems Design F (3-3) [0.75]

Prerequisite(s): CIS*3110

ENGG*4430 Neuro-Fuzzy and Soft Computing Systems W (3-0) [0.50]

Introduction to fuzzy systems; Fuzzy Sets; Fuzzy Rules and Fuzzy Reasoning; Fuzzy Inference Systems; Fuzzy Control; Introduction to Neural and Automata Networks; Neural Network Paradigms; Supervised Learning Neural Networks, Learning from Reinforcement, Unsupervised Learning and Other Neural Networks; Neurocontrol; System Identification; Controller Training, Robust Neurocontrol; Adaptive Neuro-Fuzzy Inference Systems, Coactive Neuro-Fuzzy Modeling; Reinforcement Learning Control, Gradient-Free Optimization, Feedback Linearization and Sliding Control; Applications; Quality Assurance, Decision Aid Systems, Automatic Character Recognition, Inverse Kinematics Problems, Automobile MPG (Miles Per Gallon) Prediction, System Identification, Channel Equalization, Adaptive Noise Cancellation, Process Control.

Prerequisite(s): ENGG*3410, Co-requisite(s): ENGG*4280

ENGG*4450 Large-Scale Software Architecture Engineering F (3-2) [0.50]

This course introduces the students to the analysis, synthesis and design of large-scale software systems at the architectural level. This is in contrast to the algorithmic and data structure viewpoint of most software systems. Large-scale software systems are complex, execute on many processors, under different operating systems, use a particular or many language(s) of implementation, and typically rely on system layers, network connectivity, messaging and data management and hardware interfacing. The material covered includes architectural styles, case studies, architectural design techniques, formal models, specifications and architectural design tools. The laboratory sessions will expose the students to analyzing and redesigning an existing large-scale software system.

Prerequisite(s): (CIS*2420 or CIS*2520), ENGG*2100

ENGG*4460 Robotic Systems F (3-3) [0.50]

This course covers robot technology fundamentals, mathematical representation of kinematics, planning and execution of robot trajectories, introduction to robot languages, programming of robotic systems, different application domains for robots (e.g. assembly, manufacturing, medical, services, etc.), and robot sensors. The goal of this course is to provide students with a comprehensive background, approaches and skills to apply robotics technology to real world engineering applications and problems.

Prerequisite(s): ENGG*1500, ENGG*2400

ENGG*4510 Assessment & Management of Risk W (3-1) [0.50]

This course will develop the bases by which risk to human health and the environment can be assessed. Issues of hazardous waste cleanups, permitting of water and air discharges, food safety, food protection, as examples, are addressed. The course also examines how decisions are made to manage the risks to acceptable levels.

Prerequisite(s): STAT*2040 or STAT*2120

ENGG*4550 VLSI Digital Design F (3-2) [0.50]

This course introduces the students to the analysis, synthesis and design of Very Large Scale integration (VLSI) digital circuits and implementing them in silicon. The topics of this course are presented at three levels of design abstraction. At device level: MOS diode; MOS (FET) transistor; interconnect wire. At circuit level: CMOS inverter; static CMOS gates (NAND, NOR); dynamic gates (NAND, NOR); static latches and registers; dynamic latches and registers; pipelining principles and circuit styles; BICMOS logic circuits. At system level; implementation strategies for digital ICs; interconnect at system level; timing issues in digital circuits (clock structures); the adder: the multiplier: the shifter; memory design and array structure; low power design circuits and architectures. (First offering - Fall 2010)

Prerequisite(s): ENGG*2410, ENGG*2450, ENGG*3450

ENGG*4560 Embedded System Design W (3-3) [0.75]

This course introduces the basic principles of embedded system design. It utilizes advanced hardware/software abstractions to help design complex systems. Topics include: Design of embedded CPUs; Embedded Architecture Cores; System-On-Chip Designs and Integration Using Processor Cores and Dedicated Core Modules; Embedded Computing Platforms; Embedded Programming Design and Analysis; Processes and Operating Systems; Networks for Embedded Systems; Distributed Embedded Architectures; Design Examples that Target Robotics, Automobile, and Communication Systems. (First offering - Winter 2011)

Prerequisite(s): ENGG*4550, Co-requisite(s): ENGG*3050

ENGG*4660 Medical Image Processing W (3-2) [0.50]

This course covers the fundamentals of medical imaging from both the processing of digital images and the physics of image formation. Image processing topics covered include: fundamentals of resolution and quantization; linear systems as applied to multi-dimensional continuous and discrete systems including the relationship between the point spread functions and modulation transfer function; point operations such as contrast enhancement, histogram equalization, and H and D curves, geometric operations for distortion correction, including interpolation methods; linear filtering in both the spatial and spatial-frequency domains; and image restoration and inverse filtering. The physics of the following imaging modalities with emphasis on the parameters which effect image quality will be covered: x-ray radiology, MRI, ultrasound, and nuclear medicine.

Prerequisite(s): ENGG*3390
ENGL*1080 Literature in English: Reading the Past F,W (3-0) [0.50]
This course introduces students to a range of historical and national writings in prose, poetry, and drama, and to some of the key terms and concepts in contemporary literary studies. Lectures and discussions address selected works from the medieval ages onwards, the periods in which these works were produced, and some of the ways in which these texts have been or could be interpreted. ENGL*1080 and its companion course, ENGL*2080, are required for a major or minor in English. Students are encouraged to enrol in ENGL*2080 in the semester after they have completed ENGL*1080. Reading- and writing-intensive course.

ENGL*1200 Reading the Contemporary World F,W (3-0) [0.50]
This course, which is designed primarily for those not planning a specialization in English, introduces students to literary texts and persuasive forms of writing, bringing to the fore some of the links between language and contemporary social and political issues. Course materials will represent diversity in terms of national origins, gender, race, and class. The course emphasizes the use of figurative language as well as the development of students' critical reading and writing skills. Students planning to major or minor or pursue an area of concentration in English must take ENGL*1080 and ENGL*2080, but may also take ENGL*1200 and count it as an elective course. (Also offered in distance education format.)

ENGL*1410 Major English Writers U (3-0) [0.50]
This course offers an introduction to the study of literature through a chronological consideration of works by selected major authors from the Middle Ages to the 20th century, in relation to their social, intellectual and literary backgrounds. Instruction and practice in effective essay writing will be included. (Offered through Distance Education only.)

ENGL*2040 Latina/o Literature and Cultural Production: Intro F (3-0) [0.50]
This survey course introduces students to the terms, methodologies, and debates that form the interdisciplinary critical practice of Latina/o Studies. The course takes a pan-Latina/o approach to the study of English-language and cultural production by various Latina/o groups primarily in the U.S. Because different Latina/o groups have been concentrated in particular U.S. regions and cities, the approach allows students to study how Latina/o literature and art have shaped the politics and culture of different regions and cities. Reading-intensive course. (Offered in odd-numbered years.)
Prerequisite(s): 1 of DRMA*1000, ENGL*1080, ENGL*1200
ENGL*2880 Women in Literature W (3-0) [0.50]
This variable-content course will involve the study and discussion of poems, stories, novels and plays by or about women. Reading-intensive course.
Prerequisite(s): 1 of ENGL*1080, ENGL*1200, ENGL*1410, WMST*1000

ENGL*2920 Creative Writing: Fiction U (3-0) [0.50]
An introduction to creative writing through practical experiment, discussion, and the technical examination of models. Since admission to the course depends on the approval of the instructor, students must submit examples of their work to the instructor prior to registration. This course will be offered annually in either Fall or Winter. Check with the School.
Prerequisite(s): ENGL*1080 or ENGL*1200
Restrictions(s): Instructor consent required.

ENGL*2940 Creative Writing: Poetry U (3-0) [0.50]
As for ENGL*2920. (Note especially that students must submit examples of their work to the instructor prior to registration.) This course will be offered annually in either Fall or Winter. Check with the School.
Prerequisite(s): ENGL*1080 or ENGL*1200
Restrictions(s): Instructor consent required.

ENGL*3020 Shakespearean Contexts F (3-0) [0.50]
A study of a selection of Shakespeare's plays and poems in conjunction with a wide range of other texts. These may include, at the instructor's choice, 'source' narratives, subsequent adaptations, and plays and poems by predecessors or contemporaries, as well as other writings that shed light upon discursive contexts, performance practices, authorial and playhouse revision, issues of gender and subjectivity, and the reception of these plays by early modern audiences and readers. Reading-intensive course. (Offered in even-numbered years.)
Prerequisite(s): 1.00 credits in English or (THST*2010, THST*2120)

ENGL*3040 U.S. Latina/o Literature F (3-0) [0.50]
This course focuses on an English-language literature of a particular Latina/o community (e.g. Chicana/o, Cuban Americans, Puerto Ricans) in the United States. Students will be introduced to theoretical approaches and a wide range of genres, including narrative fiction, autobiography, literary journalism, and poetry. Reading-intensive course. (Offered in even-numbered years.)
Prerequisite(s): 1 of DRMA*1000, ENGL*1080, ENGL*1200, ENGL*2040

ENGL*3080 History of the English Language W (3-0) [0.50]
This course introduces the key historical developments of the English language and the primary tools for the study of language. Topics to be discussed may include: the origins of and precursors to the English language; the phonology, lexicon, and grammar of English; the persistence of language change; the historical factors that affect language change; the origins and implications of language variety; the formation of prestige dialects; and the current state of the English language in Canada and the world. Reading-intensive course. (Offered in even numbered years.)
Prerequisite(s): 1.00 credits in English.

ENGL*3120 Shakespearean Receptions F (3-0) [0.50]
The course will examine a selection of Shakespeare's plays and poems in the light of contemporary reassessments of his place in the canon. For purposes of comparison, plays by contemporaries of Shakespeare may also be studied along with adaptations of Shakespeare chosen from a number of different historical contexts. Close readings of these texts will be organized around such topics as Shakespearean adaptations, constructions of gender and subjectivity, Shakespeare and canon-formation, Shakespeare and critical theory, the politics of Shakespearean interpretation, Shakespeare in contemporary media culture, and changing performance practices. Reading-intensive course. (Offered in odd-numbered years.)
Prerequisite(s): 1.00 credits in English or (THST*2010, THST*2120)

ENGL*3170 Elizabethan Literary Culture: Chastity and Power W (3-0) [0.50]
This course examines the literary culture associated with Elizabeth I. Issues, including gender and sexuality, power, and religion, will be explored through a wide range of sixteenth- and early-seventeenth century poems (these will be chosen from such writers as Skelton, Wyatt, SURREY, MARY STUART, THE SIDNEYS, SPENSER, MARLOWE, SHAKESPEARE, RALEIGH, AEMILIA LANYER, MARY WROTH, ELIZABETH I, JONSON, DONNE, and HERBERT). Reading-intensive course. (Offered in odd-numbered years.)
Prerequisite(s): 1.00 credits in English.

ENGL*3180 Colonial Encounters: Nation and Discovery W (3-0) [0.50]
This course examines writings concerning, or alluding to, English (and other European) encounters with new worlds and different cultures. These will include accounts of travel, conquest, and colonization written or collected by such writers as Bernal Diaz, Luís de Camargo, Columbus, Hakluyt, Raleigh, Harriot, Drake, and Bradford; essays by writers such as Las Casas, Spenser, and Montaigne; and plays, poems, and prose such as Marlowe's TAMBURLANE, SHAKESPEARE'S THE TEMPEST, JONSON, CHAPMAN, AND MARSTON'S EASTWARD HO, parts of SPENSER'S FAERIE QUEENE, MARVELL'S 'BERMUDAS', AND BEHIN'S ORONOOKO: or the Royal Slave. Key intertexts to these writings will also be studied, along with relevant aspects of postcolonial theory. Reading-intensive course. (Offered in odd-numbered years.)
Prerequisite(s): 1.00 credits in English.

ENGL*3190 Poetics and Politics in Early Modern England F (3-0) [0.50]
This course examines the intimate connections between poetics and politics in Elizabethan and Jacobean literature. The texts to be studied may include plays and poems, as well as essays, political, historical, and theological writings, and works of prose fiction. Close readings of these texts will focus on such issues as kingship, transgression, rhetoric, and the relation between political subjection and literary subjectivity. The course will establish connections between early modern notions of power and its manipulation, and contemporary critical and political discourses in which similar issues are at stake. A wide range of materials chosen from such authors as More, Ascham, Castiglione, Montaigne, Ariosto, Sidney, Puttenham, James I, Nash, Fennor, Bacon, Lyly, Marston, Greene, and Lodge will be examined by way of close readings. Reading-intensive course. (Offered in odd-numbered years.)
Prerequisite(s): 1.00 credits in English.

ENGL*3220 Representing Britain: 18th- & 19th- Century Literature F (3-0) [0.50]
This course explores selected topics in the interaction of literature and politics from the late eighteenth to the nineteenth century in Britain. Areas of focus may include: the literature of civil war, constitutionalism and revolution; satire and society; writings emerging from suffrage reform and agitation, the colonization of Ireland, the construction of political subjectivity, political paranoia, conspiracy and sedition. Reading-intensive course. (Offered in odd-numbered years.)
Prerequisite(s): 1.00 credits in English.

ENGL*3230 Literary Culture and the English Civil War W (3-0) [0.50]
This course will examine key literary figures and texts in the period leading up to and including the English Civil War (1623-1660). Literary contributions to the political and religious struggles of the period will be studied in the light of a range of different approaches. Primary readings will be selected from among the works of such writers as Milton, Marvell, Charles I, Hobbes, Coppe, Winstanly, Everard, Katherine Philips, Jonson, Webster, Middleton, and Massinger. Reading-intensive course. (Offered in odd-numbered years.)
Prerequisite(s): 1.00 credits in English.

ENGL*3260 Writing Gender & Family: 18th- and 19th- Century Literature W (3-0) [0.50]
This course will explore texts which engage with such matters as the shifting constructions of the family, changing sexual practices, ideals of femininity and masculinity, and the significance of the separation of spheres in eighteenth- and nineteenth-century writing. Focal points may include: the role of desire in narrative; literary representations of gender and economics, of gender and medicine, and of pivotal figures such as the prostitute, the governess, the rake, or the gentleman. Reading-intensive course. (Offered in odd-numbered years.)
Prerequisite(s): 1.00 credits in English.

ENGL*3280 Old English Literature U (3-0) [0.50]
This course will focus on the language, literature, and culture of Anglo-Saxon England (7th to 11th centuries). In addition to acquiring the basics of Old English and engaging in translation exercises with passages from Anglo-Saxon texts, students will read a selection of texts in modern English translation; these may include Beowulf, the Battle of Maldon, elegies such as the Seafarer, riddling poems and religious poems. (Offered in alternate years.)
Prerequisite(s): 1.00 credits in English.

ENGL*3300 Restoration to Romanticism: Forging the Nation F (3-0) [0.50]
Drawing upon a range of literary texts from a variety of genres, this course will explore the politics of language and style in a series of cultural debates that shaped British national character from the late seventeenth to the late eighteenth centuries. Selected topics may include: literary representations of religious establishment and dissent; the division of power; the question of minority cultures; revolution and reaction; the problem of economic stability. Reading-intensive course. (Offered in even-numbered years.)
Prerequisite(s): 1.00 credits in English.
ENGL*3320 Romanticism to Victorianism: Culture and Conformity F (3-0) [0.50]
This course explores the key texts in various genres of British cultural debates of the late eighteenth to the late nineteenth century. Focal points may include: literary representations of family and society; science and narrative; Britain's "others": class and conflict; protest and power; the roots of modernism; European influences. Reading-intensive course. (Offered in odd-numbered years.)
Prerequisite(s): 1.00 credits in English.

ENGL*3340 British Imperial Culture F (3-0) [0.50]
This multi-genre course introduces students to the literature of British imperialism in the eighteenth and nineteenth centuries. The course will consider the changing relationship between nation, empire, and colony by examining literary representations of such topics as: orientalism; travel writing; the construction of race; the representation of trade; the popular literature of empire; children's literature; the question of the other. Reading-intensive course. (Offered in even-numbered years.)

ENGL*3360 Scottish Formations F (3-0) [0.50]
This variable content course explores selected issues, ideas and periods of this national literature, including influences on immigrant and world literature. Topics may include: mythologizing the Celt; Scottish writers and English critics; sovereignty and nationhood; "new wave" writing; Scottish influences on the Canadian canon; witches, devils, and folk tales. Reading-intensive course. (Offered in even-numbered years.)

ENGL*3370 Narrative Modes: 18th- and 19th-Century Literature W (3-0) [0.50]
This course offers comparative study of narrative structures, which includes selections from such genres as poetry, fiction, biography, autobiography and specialized discourses. Focal points may include romance; the gothic; the novel of sensibility; the realist novel; sensation fiction; the discourses of medicine and science. Reading intensive course. (Offered in even-numbered years.)

ENGL*3380 Studies in the History of Literary Production W (3-0) [0.50]
This course will examine a range of issues arising from the materiality of book production and circulation. Topics may include serialization; mass production and circulation; patronage; reviewing; circulating libraries; licensing; censorship; children's literature; periodicals; gift books; letters; and other aspects of publishing and the public sphere. Reading-intensive course. (Offered in odd-numbered years.)

ENGL*3390 History of Literary Criticism F (3-0) [0.50]
This multigenre course explores the relationship between literary production and political power from the emergence of American culture in the seventeenth century to the fragmentation of the United States around the time of the Civil War in the mid-nineteenth century. Areas of focus may include national fantasy; the literature of revolution and federation; narratives of slavery, captivity, and native genocide; immigration and travel literature; the literature of reform, abolition, and the cult of domesticity. Reading-intensive course. (Offered in even-numbered years.)

ENGL*3420 Contemporary Drama W (3-0) [0.50]
This course offers a selective study of recent play-scripts written in English. Students are advised to consult the web-descriptions for the particular focus of the course's offering. (Offered in odd-numbered years.)

ENGL*3450 Early Twentieth-Century Drama F (3-0) [0.50]
This course considers contexts for the development of play-scripts written in English during the first part of the twentieth century. (Offered in odd-numbered years.)

ENGL*3460 Literature in London U (2-3) [0.50]
A study of British literature in its social and historical context. Reading of particular works will be supplemented by visits to sites of literary interest, the use of special library and museum collections, and attendance at public lectures and performances. For London Semester students only.

ENGL*3470 Twentieth-Century British Literature I W (3-0) [0.50]
This multigenre course explores aesthetic and socio-cultural movements (including modernism) in British literature from the turn of the century to mid-century. Reading-intensive course. (Offered in odd-numbered years.)

ENGL*3480 Twentieth-Century British Literature II F (3-0) [0.50]
This multigenre course explores aesthetic and socio-cultural movements (including postmodernism) in British literature from mid-century to the present. Reading-intensive course. (Offered in odd-numbered years.)

ENGL*3540 Writing the United States: Forging the Nation F (3-0) [0.50]
This multigenre course explores powerful examples of twentieth-century United States literatures, from about the First World War to the present. The selection is wide, including both traditional and experimental forms; female and male writers from various ethnic and racial groups; and a range of cultural issues. Reading-intensive course. (Offered in odd-numbered years.)

ENGL*3560 Emergent Literary Forms W (3-0) [0.50]
This course will introduce students to a range of medieval writing practices including manuscript culture, oral culture, early drama, literatures in translation, early lyric, and so forth. Its focus will be on the transition from oral to written literatures by way of emergent literary forms in English and other languages. The texts to be studied will be chosen from a corpus that includes the following: Monmouth's History of the Kings of Britain, the Lais of Marie de France, Chretien de Troyes, Layamon's Brut, the Mabinogion, Harald's Saga, the Chanson de Roland, extracts from saints' lives, miracle stories, play cycles, and others. Reading-intensive course. (Offered in even-numbered years.)

ENGL*3570 Chaucer in Context F (3-0) [0.50]
This course will introduce students to significant aspects of Chaucer's writing read in the context of works by Chaucer's precursors and near contemporaries. Reading-intensive course. (Offered in even-numbered years.)

ENGL*3630 Writing Canada: Forging the Nation W (3-0) [0.50]
This multigenre course focuses on Canadian literature to World War One, examining cultural contestation in the Canadian settler colony among the Canadian, U.S., British, and indigenous peoples. Topics may include the rise of nationalist discourse, race and nation, landscape and the sublime, gothic, sentimental, and historical fiction, children's literature, slavery and resistance narratives, travel and captivity narratives. Reading-intensive course. (Offered in odd-numbered years.)

ENGL*3660 Canadian Poetry W (3-0) [0.50]
This course is an introductory study of Canadian poetry, in a variety of national and international contexts. Reading-intensive course. (Offered in even-numbered years.)

ENGL*3670 Twentieth-Century Canadian Literature and Criticism F (3-0) [0.50]
This multigenre course examines formations of, and resistances to, ideas of national consciousness and cultural identity in Canadian literature and criticism in English from the beginnings of the twentieth century to the 1960s. Reading-intensive course. (Offered in even-numbered years.)

ENGL*3680 Twentieth-Century Canadian Literature and Criticism F (3-0) [0.50]
This course examines the role of narrative in Canadian literature and criticism in English, since the 1960s, in relation to a variety of social, cultural, and historical contexts. Reading-intensive course. (Offered in odd-numbered years.)

ENGL*3690 History of Literary Criticism F (3-0) [0.50]
This course introduces students to the major critics and texts formative in the development of an English critical tradition. The study will begin with Plato and Aristotle, and proceed from the Renaissance through to modernist critical theory. (Offered in odd-numbered years.)

Department of Environmental Biology

Additional course listings may be found in the course descriptions for Microbiology, Plant Biology, Toxicology and Zoology.

ENVB*1010 Food Crop Pest Management W (2-2) [0.50]
The biology and control of insects, diseases, nematodes and weeds of field horticultural crops are studied. Pest control concepts including diagnosis and the biology of the pests, problem solving and the impact pest control products have on the environment will be considered. Issues of population pressure and sustainable development will be explored. For non-B.Sc.(Agr.) students.
Prerequisite(s): 2.50 credits
Restriction(s): AGR*1250. Not available to students registered in B.Sc. (Agr.)

ENVB*2010 Food Production and the Environment W (3-0) [0.50]
Systems of food production are described and related to their impact on the environment and food safety. Consumer demands and the effects of food processing and packaging will be discussed. Issues of population pressure and sustainable development will be explored. For non-B.Sc.(Agr.) students.
Prerequisite(s): 2.50 credits
Restriction(s): AGR*1250. Not available to students registered in B.Sc. (Agr.)

ENVB*2030 Current Issues in Forest Science F (3-0) [0.50]
Basic principles of forestry and forest management with emphasis on Canada's forests. Relationship of important tree species to their preferred environments. Aspects of tree growth, forest ecology and soils and silviculture. Utilization of forests and trees in the global context.
Prerequisite(s): BIOL*1040

ENVB*2040 Plant Health and the Environment W (3-0) [0.50]
This is an interdisciplinary course on the nature and importance of diseases, weeds, insects and abiotic stresses on plant productivity and quality. A case history approach will be used to illustrate the biology of plant pests, the principles of pest population management, and related topics.
Prerequisite(s): BIOL*1040

ENVB*2100 Problem-Solving in Environmental Biology F,W (2-2) [0.50]
An introduction to current issues and problems in environmental biology. Methodologies of addressing environmental issues and concerns will be critically examined. Project design, information retrieval and organization, and the interpretation of statistical data will be covered. Oral and written presentations, both individual and group will be emphasized.
Prerequisite(s): BIOL*1040, (CHEM*1050 or CHEM*1310 ), MATH*1080

ENVB*2210 Introductory Apiculture F,W (3-0) [0.50]
This course is designed to acquaint the student with the broad field of beekeeping. It will include honey bee biology and behaviour, management for honey production, products of the hive, pests and enemies and the value of bees as pollinators of agricultural crops. (Also offered through distance education format.)
Prerequisite(s): BIOL*1040, (CHEM*1050 or CHEM*1310 ), MATH*1080

ENVB*3000 Nature Interpretation F,W (2-3) [0.50]
An exploration of communication and experiential learning theories and their application to natural history interpretation and environmental education program design. Students will develop and present interpretive materials and a program within the context of the existing nature interpretation program at The Arboretum. (Also offered through distance education format.)
Prerequisite(s): 1 of BIOL*2060, BOT*2050, BIOL*3110

ENVB*3010 Climate Change Biology F (3-0) [0.50]
This course examines the impacts of climate change on living organisms, biological communities and ecosystems. The course focuses on what is known, and what is not known, about the ways in which the suite of changing climate variables influence biological systems.
Prerequisite(s): BIOL*1040, (1 of BIOL*2060, BIOL*3110, BOT*2050), (CHEM*1050 or CHEM*1310 )

ENVB*3030 Pesticides and the Environment W (3-2) [0.50]
The role and use of pesticides by various facets of society and the effect of these pesticides on biological activities in the environment. A research proposal is required.
Prerequisite(s): BIOL*1040, (CHEM*1040 or CHEM*2300)

ENVB*3040 Natural Chemicals in the Environment F,W (3-0) [0.50]
The role of naturally occurring chemical substances in the interaction of organisms, population dynamics and the structure of ecosystems, and the role of such chemicals in the biological regulation and control of pests. (Also offered through distance education format.)
Prerequisite(s): BIOL*1040

ENVB*3090 Insect Diversity and Ecology W (2-2) [0.50]
Investigation of the behaviour of insects within an ecological and evolutionary framework. Topics range from basic behavioral principles to the complex behavior exhibited by the social insects.
Prerequisite(s): 1 of BIOL*3110, ENVB*3090, ZOO*4380 , ZOO*4400

ENVB*3160 Management of Turfgrass Diseases F (3-2) [0.50]
Emerging and re-emerging waterborne diseases (bacterial, protozoan, and viral) as a function of environmental change (including chemical and biological pollution and climate change) are covered in this course. Waterborne diseases, in freshwater and marine ecosystems, will be examined from historical and contemporary issues as they relate to public and environmental health from regional, national, and international perspectives.
Topics presented within the course will include current waterborne diseases of humans and aquatic fauna, detection of waterborne pathogens, microbial evolution, microbial physiology, water regulations and protection of drinking water.
Prerequisite(s): BIOL*1040, (CHEM*1050 or CHEM*1310 )

ENVB*3330 Ecosystem Processes and Applications W (3-0) [0.50]
An ecosystem approach that treats living organisms and physical elements of the environment as components of a single, integrated system is introduced in this course. The important processes that characterize ecosystems, tracing water, carbon and nutrients from their abiotic sources to their cycles through plants, animals and decomposers will be examined. Human activity is a dominant influence on these cycles and this influence is surveyed in several highly impacted ecosystems.
Prerequisite(s): BIOL*1040, (1 of BIOL*2060, BIOL*3110, BOT*2050), (CHEM*1050 or CHEM*1310 )

ENVB*4020 Water Quality and Environmental Management W (3-3) [0.50]
This course will introduce the student to issues pertaining to water quality, how to assess environmental impacts, and strategies for the management of water resources. Examples and case studies will draw from agricultural, industrial and municipal sources. Topics include: historical perspectives, methods to assess water quality, restoration and rehabilitation of impacted aquatic habitats, and risk assessment and management of water resources.
Prerequisite(s): BIOL*2060

ENVB*4040 Behaviour of Insects W (3-0) [0.50]
Investigation of the behaviour of insects within an ecological and evolutionary framework. Topics range from basic behavioral principles to the complex behavior exhibited by the social insects.
Prerequisite(s): 1 of BIOL*3110, ENVB*3090, ZOO*4380 , ZOO*4400

2007-2008 University of Guelph Undergraduate Calendar
Last Revision: January 28, 2008
XII. Course Descriptions, Environmental Biology

**ENVB*4070 Biological and Cultural Control of Plant Diseases**
W (3-0) [0.50]
Current concepts and approaches to managing plant pathogens and diseases in crops and natural plant communities by measures that have minimal impact on the environment. Topics include naturally-occurring biological control such as suppressive soils and induced host resistance, use of microbial agents and their modes of action, transgenic disease resistance, use of organic soil amendments and mulches to promote microbial diversity and suppress pathogens, and effects of sanitation, crop sequences, tillage, flooding, soil solarization and other cultural practices on microbial communities, including pathogens and on disease epidemics.

**Prerequisite(s):**
1 of BIOL*3050, ENVB*3210, MICR*3220

**ENVB*4100 Applied Entomology**
W (3-3) [0.50]
A study of the life histories and pest management practices employed against insect pests of various plant and animal hosts. Principles of economic entomology are illustrated using specific insect pests as examples.

**Prerequisite(s):**
1 of ENVB*3090, 0.50 credits in Crop Production at the 3000 level

**ENVB*4130 Chemical Ecology:**
Principles & Practice W (3-0) [0.50]
Chemicals mediate interactions between individuals of a species and between organisms and their host plants. These interactions can be manipulated and exploited to manage pest populations through the use of pheromones, allelochemicals and host plant resistance. The nature of these interactions (from behavioural to evolutionary), biological and chemical methods used in their investigation, and the application of chemical ecology to insect pest and plant disease management will be covered.

**Prerequisite(s):**
ENVB*3040

**ENVB*4220 Biology of Aquatic Insects**
F (2-3) [0.50]
A study of the adult and immature forms of aquatic insects. Students are required to present a collection of at least 200 insects.

**Prerequisite(s):**
ENVB*3090

**ENVB*4240 Biological Activity of Pesticides**
W (3-0) [0.50]
A study of the fate and mode of action of pesticides, e.g., insecticides, herbicides and fungicides.

**Prerequisite(s):**
0.50 credits in biochemistry

**ENVB*4260 Field Entomology**
F (1-6) [0.50]
An introduction to insect sampling, observation, and experimentation in field situations. Lectures and discussions on the biology of the insect fauna of the field site. Students conduct two projects (individual or small group): (1) a diversity study involving the observation, collection and identification of selected groups of insects and (2) a behaviour/ecology study utilizing experimental techniques to test hypotheses. Student evaluation based on participation in course activities and written reports. Course fees cover the costs of room, board, equipment, and transportation to the field station. Detailed information is available from the Office of the Chair - Department of Environmental Biology. This course must be recorded as part of your Fall course selection and tuition and compulsory fees will be calculated accordingly.

**Prerequisite(s):**
1.00 or more credits in biological sciences, ENVB*3090

**ENVB*4270 Insect Biosystematics**
W (2-3) [0.50]
A study of the lesser known groups of native insects and an introduction to taxonomic procedure and the principles of insect systematics. Students are required to assemble their own insect collections prior to registering in this course. The laboratory portion of the course will focus on identification of student insect collections.

**Prerequisite(s):**
ENVB*3090

**ENVB*4320 Applied Insect Physiology**
F (2-3) [0.50]
This course examines major physiological systems of insects at the molecular, cellular and whole animal levels of organization. Emphasis is placed on identification of potential physiological targets for insecticides, and molecular mechanisms of insecticide resistance. Applications of analytical chemistry, electrophysiology, mathematical modeling and molecular biology to the study of insect physiology are discussed. The course includes tutorial exercises examining the external and internal morphology of representative insect species.

**Prerequisite(s):**
STAT*2040, 1 of ENVB*3030, ENVB*3040, ENVB*3090, TOX*2000, ZOO*3200

**ENVB*4420 Problems in Environmental Biology**
F,W (0-6) [0.50]
Students will select a research problem in an area of special interest. Direction will be given by a faculty member concerned with entomology-apiculture, applied microbiology, weed science and environmental physiology, plant pathology, etc., as represented within the department. For 7th and 8th semester students considering graduate studies.

**Prerequisite(s):**
1.50 credits at the 3000 level in the agricultural and biological sciences

**Restriction(s):**
Instructor consent required.

**ENVB*4550 Ecotoxicological Risk Characterization**
W (3-0) [0.50]
A biologically based, advanced course that will give students working knowledge of current processes and techniques for ecotoxicological risk characterization. The course material will cover the topics of problem definition, dose response characterization, exposure characterization, risk assessment, and risk management decision making. (Also listed as TOX*4550.)

**Prerequisite(s):**
ENVB*3030, TOX*2000

**Equates(s):**
TOX*4550

**ENVB*4780 Forest Ecology**
F,W (3-3) [0.50]
Principles of forest ecology with emphasis on the ecological principles needed for sound forest management. Biotic and abiotic components of forest ecosystems will be discussed in the context of energy flow, nutrient cycling, forest succession and appropriate silvicultural systems. (Also offered through distance education format.)

**Prerequisite(s):**
1 of BOT*2050, BIOL*2060, BIOL*3110, ENVB*2030

**ENVB*4800 Topics in Applied Biology**
F (2-2) [0.50]
An integrated overview of those areas of applied biology that are of special interest to environmentalists. The material will be directed toward students majoring in Environmental Biology and Environmental Protection. Lectures and discussions will be presented by faculty and other professionals from research, business, education and technical fields. Students will conduct seminars on selected topics.

**Prerequisite(s):**
1.50 credits at the 3000 level in the agricultural or biological sciences

**Restriction(s):**
Restricted to B.Sc. (Environmental Biology major) or B.Sc. (Env.) (Environmental Protection major.)

**Equate(s):**
TOX*4550
Environmental Management

**ENVM*1000 Introductory Environmental Science** F (3-2) [0.50]

Students will explore a broad range of environmental issues facing society today with particular focus on Canadian and local agriculture. This course will provide an understanding of the living and non-living factors as well as social and economic constraints involved in correctly identifying and resolving environmental issues. The interdisciplinary approach of environmental science is reinforced with real life case studies designed to challenge students to critically assess alternatives and/or possible solutions.

Restriction(s): Registered in B.B.R.M.
Location(s): Ridgetown

**ENVM*1020 Introduction to Environmental Microbiology** W (2-3) [0.50]

This course will introduce the students to Environmental Microbiology. Topics of discussion will include water and wastewater systems, soils and sediments; as well as the importance of bacteria in disease, nutrition, food and food processing. Students will be introduced to various methods of environmental monitoring such as sampling and testing of public drinking water, how to monitor for cleanliness in food processing facilities as well as water ways used for recreational purposes. Student immunization records are required. See course instructor.

Restriction(s): Registered in B.B.R.M. Environmental Management. Instructor consent required.
Location(s): Ridgetown

**ENVM*1050 Surveying and GIS F (3-2) [0.50]**

This course covers the basic principals of surveying, map reading and production. The student will learn how to read maps, take precise measurements, use basic survey instruments and create maps and site plans. The student will learn the basics of Geographic Information System (GIS) and the Global Positioning System (GPS) and use these tools to organize and store spatial data. The students will use Remote Sensing techniques for a range of applications.

Restriction(s): Registered in B.B.R.M.
Location(s): Ridgetown

**ENVM*1070 Nutrient Management W (3-2) [0.50]**

This course will examine the best management practices associated with nutrient management on farms. Emphasis will be placed on the components and development of a nutrient management plan and the safe utilization of various nutrient sources (fertilizers, manures and biosolids) in agricultural production systems.

Restriction(s): Registered in B.B.R.M.
Location(s): Ridgetown

**ENVM*1090 Occupational Health and Safety F (3-2) [0.50]**

This course explores issues and legal requirements involved in promoting safe communities and work places. Technical, legislative, political, occupational and personal issues are explored. Students will examine and evaluate topics including the Workplace Hazardous Material Information System, Material Safety Data sheets, and the responsibilities of Joint Health and Safety Committees and confined space entry. Hazards to human health resulting from exposure to a variety of physical and chemical hazards found in the workplace will be examined.

Restriction(s): Registered in B.B.R.M.
Location(s): Ridgetown

**ENVM*1100 Ecology W (3-2) [0.50]**

This course is an introduction to the science of ecology - the study of interactions between organisms and their environments. Major topics include adaptation, populations, communities, biodiversity, ecosystems and competition. Students will analyze the effects of climate change and human activities on ecological processes. A detailed analysis of case studies of several environmental problems will be carried out, using ecological principles. (First offering - Fall 2007)

Restriction(s): Registered in B.B.R.M.
Location(s): Ridgetown, Kemptville

**ENVM*1120 Environmental Monitoring W (3-2) [0.50]**

This course will introduce the Environmental Management students to various methods used to measure environment impact. Students will achieve a summary understanding of the various government and municipal agency threshold limits and guidelines of the studied environmental parameters such as water quality, vegetation, terrestrial and social impact analysis. Student immunization records required for this course. See course instructor.

Restriction(s): Registered in B.B.R.M. Instructor consent required.
Location(s): Ridgetown

**ENVM*1140 Environmental Monitoring** W (3-2) [0.50]

This course will focus on the significance of the various elements of the hydrologic cycle (e.g. precipitation, runoff, infiltration, groundwater recharge and discharge, etc.). The student will examine common water quality standards and the most significant quality problems including causes and pathways that contaminants follow to reach surface water and groundwater, with special focus on agricultural impacts. The course will introduce water and wastewater treatment systems. (First offering - Winter 2008)

Restriction(s): Registered in B.B.R.M.
Location(s): Ridgetown

**ENVM*2010 Environmental Law** F (3-2) [0.50]

This course will introduce the student to the Canadian legal process. Topics will include how new laws and regulations are developed, drafted, passed and administered in Ontario and across Canada. The course will focus on the environmental legislation at both the federal and provincial levels of government. (First offering - Fall 2007)

Restriction(s): Registered in B.B.R.M.
Location(s): Ridgetown

**ENVM*2020 Agriculture and Environmental Stewardship F (3-2) [0.50]**

This course examines the impact and role of farming in the agro-ecosystem. Lectures and case studies will be used to explore potential pathways of soil degradation and environmental contamination from agriculture, site assessment of environmental risk associated with specific farm operations and the utilization of best management practices for the conservation of soil, water and other natural resources.

Prerequisite(s): BIOL*1030
Restriction(s): Registered in B.B.R.M.
Location(s): Ridgetown

**ENVM*2030 Water Treatment** F (2-3) [0.50]

This course provides the student with the basic design concepts and operational techniques of industrial and municipal wastewater treatment systems. Treatment processes, optimization and testing methodologies as well as auditing and analytical/operational calculations, legal requirements and operator responsibilities will be addressed. (First offering - Fall 2007)

Prerequisite(s): ENVM*1120
Restriction(s): Registered in B.B.R.M.
Location(s): Ridgetown

**ENVM*2040 Sewage and Wastewater Treatment** F (2-3) [0.50]

This course provides the student with the basic design concepts and operational techniques of industrial and municipal wastewater treatment systems. Treatment processes for ground and surface water, optimization and testing methodologies as well as auditing and analytical/operational calculations, legal requirements of water taking and operator responsibilities will be addressed. (First offering - Fall 2007)

Prerequisite(s): ENVM*1020 is strongly recommended, ENVM*1120
Restriction(s): Registered in B.B.R.M. Environmental Management
Location(s): Ridgetown

**ENVM*2050 Agriculture and Environmental Stewardship** F (3-2) [0.50]

This course provides the student with the basic design concepts and operational techniques of industrial and municipal wastewater treatment systems. Treatment processes for ground and surface water, optimization and testing methodologies as well as auditing and analytical/operational calculations, legal requirements of water taking and operator responsibilities will be addressed. (First offering - Fall 2007)

Prerequisite(s): ENVM*1120
Restriction(s): Registered in B.B.R.M.
Location(s): Ridgetown

**ENVM*2080 Industrial Waste Management** W (3-2) [0.50]

The course is designed to give students a thorough understanding of the field of industrial waste management. From a regulatory perspective topics include Ontario non-hazardous waste Statutes and Regulations. The course explores the various sub-sets within the field of industrial waste management. Topics include municipal and industrial recycling and waste minimization programs with emphasis on the development and design of programs that collect wastes generated in the Industrial, Commercial and Institutional sectors. Waste minimization, ISO 14001 and Environmental Management Systems methodologies are explored. (First offering - Winter 2008)

Prerequisite(s): 3.00 credits.
Restriction(s): Registered in B.B.R.M.
Location(s): Ridgetown

**ENVM*2090 Spills Response Planning** W (3-2) [0.50]

This course explores both the moral and ethical questions pertaining to the management and abatement of spills reporting, spills remediation and prevention strategies. The course will introduce students to the field of spill response and spill response planning. The current Province of Ontario Spills Legislation will provide the legislative framework for this course. Students will examine the development of industrial contingency and emergency planning. (First offering - Winter 2008)

Prerequisite(s): 3.00 credits.
Restriction(s): Registered in B.B.R.M.
Location(s): Ridgetown

Environmental Sciences

Faculty of Environmental Sciences

The program in Environmental Sciences is interdisciplinary, involving courses from several different departments. See the B.Sc.(Env.) program information in Section X—Undergraduate Degree Programs.

ENVS*1020 Introduction to Environmental Sciences F (3-2) [0.50]

Students will be shown how to recruit their skills as scientists to identify, characterize, and analyze environmental problems. The course will emphasize the history of environmental science by focusing on how problems were first identified and then solved at different stages of human understanding of biology, chemistry, physics, economics, law, and religion. Students will be taught to communicate their understanding of environmental science to specialized audiences and to the public.

Restriction(s): Registration in the B.Sc. (Env.) program.

ENVS*2010 Decision-making and Communication Skills F (1-3) [0.50]

This course will cover basic concepts in creative thinking, research design, and project planning through discussion and application of a problem-solving methodology. A strong emphasis on oral and written presentations is included. (Last offering - Fall 2008)

Prerequisite(s): ENVS*1010. Registration in semester 3.

ENVS*2150 Terrestrial Systems F (3-2) [0.50]

In this course students will be taught how to apply quantitative methods to the analysis of terrestrial systems of the earth from many simultaneous perspectives. The material will include the physical, chemical and biological components of landforms and how they interact with humans. The economic, social and policy implications of humans interacting with terrestrial systems will also be emphasized. The history of the analysis of terrestrial systems will be systematically included in the material. (First offering - Fall 2008)

Prerequisite(s): ENVS*1020, GEOG*1300

Restriction(s): Registration in the B.Sc. (Env.) program.

ENVS*3100 Internship/Externship in Environmental Sciences F,W (0-6) [0.50]

This is a student initiated experiential learning opportunity to be undertaken either on or off campus, and developed in consultation with the Associate Dean's Office (Faculty of Environmental Sciences). Details of the proposed activity will be outlined in a learning contract initiated by the student and agreed to by the Associate Dean and an appointed project advisor prior to the commencement of the work experience. The supervisor will also provide a description of the project and/or the work experience. The course is designed to meet the needs of B.Sc. (Env.) students. (This is not available to students in the B.Sc. (Env.) Co-op program.)

Prerequisite(s): 12.50 credits including ENVS*2010

Restriction(s): Instructor consent required.

ENVS*3150 Aquatic Systems W (3-2) [0.50]

In this course students will be taught how to apply quantitative methods to the analysis of aquatic systems of the earth from many simultaneous perspectives. The material will include the physical, chemical and biological components of the various liquid surficial structures and processes and also how they interact with humans. The economic, social and policy implications of humans interacting with aquatic systems will also be emphasized. The history of the analysis of aquatic systems will be systematically included in the material. (First offering - Winter 2010)

Prerequisite(s): 11.00 credits including ENVS*1020, ENVS*2150, CHEM*1050

Restriction(s): Registration in the B.Sc. (Env.) program.

ENVS*3160 Atmospheric Systems W (3-2) [0.50]

In this course students will be taught how to apply quantitative methods to the analysis of atmospheric systems of the earth from many simultaneous perspectives. The material will include the physical, chemical and biological components of atmospheric structures and processes and also how they interact with humans. The economic, social and policy implications of humans interacting with atmospheric systems will also be emphasized. The history of the analysis of atmospheric systems will be systematically included in the material. (First offering - Winter 2010)

Prerequisite(s): 11.00 credits including ENVS*1020, ENVS*2150

Restriction(s): Registration in the B.Sc. (Env.) program.

ENVS*3320 Principles of Landscape Ecology F (3-2) [0.50]

An integrated approach to understanding the functioning of landscapes. The emerging theories, concepts and methodologies of landscape science and their application to landscape and environmental management. (Offered in even-numbered years.)

Prerequisite(s): 1 of BIOL*2010, BIOL*2060, BIOL*3110, GEOG*2110

ENVS*4011 Project in Environmental Sciences F (0-1) [0.00]

First part of the two-semester course ENVS*4011/2. Refer to ENVS*4011/2 for course description.

Prerequisite(s): Registration in semester 7 or 8 of the B.Sc.(Env.) degree program.

ENVS*4011/2 Project in Environmental Sciences F-W [0.50]

The course permits the student the opportunity to integrate both the skills and knowledge acquired in earlier courses through application to current environmental problems and issues. Group research problems and exposure to critical environmental policy issues will form the core elements of the course. Students must be registered and attend preliminary organizational meetings scheduled in the Fall semester. This is a two-semester course offered over consecutive semesters. When you select it you must select ENVS*4011 in the Fall semester and ENVS*4012 in the Winter semester. A grade will not be assigned to ENVS*4011 until ENVS*4012 is completed.

Prerequisite(s): Registration in semester 7 or 8 of the B.Sc.(Env.) degree program.

ENVS*4012 Project in Environmental Sciences W (0-3) [0.50]

Second part of the two-semester course ENVS*4011/2. Refer to ENVS*4011/2 for course description.

Prerequisite(s): ENVS*4011

ENVS*4220 Environmental Impact Assessment W (3-0) [0.50]

This course examines environmental impact assessment (EIA) from philosophical, methodological and institutional perspectives. The evolution of EIA in Canada will be the focus. Case studies illustrating major issues and applications will be presented at a variety of geographical scales. The preparation and presentation of a research project is an integral component.

Prerequisite(s): 15.00 credits including (1 of GEOG*3210, POLS*3370 or ZOO*4050, where ZOO*4050 may be taken concurrently)

ENVS*4300 Environmental Law & Regulation F (3-2) [0.50]

In this course, students will be asked to recruit their expertise in all of the basic and applied sciences to the task of understanding, participating in, and modifying where necessary the economic and legal systems of the world to deal with human exploitation of the earth. The course will include a discussion of the history of the success and failure of different economic and legal models and their impact on the sustainability of the earth's resources.

Prerequisite(s): 14.00 credits

Restriction(s): Registration in the B.Sc. (Env.) program.

ENVS*4500 International Environmental Field Course F (0-6) [0.50]

This is an interdisciplinary field course to be held overseas. The course will include a common curriculum for all students, dealing with the historical, geographical, cultural and biological aspects of the location. Students will also undertake a project which would normally relate to their own specific interest. Formal instruction on the common core element of the course will be given either by Guelph faculty and/or by faculty from the host country. Each student will submit both a paper developed from the general core of the course and also a project report. This course will run as Interdisciplinary Field Studies in Iceland in odd numbered years and will normally be held for a three-week period in August. Students from all disciplines are encouraged to apply directly to the course coordinator in the appropriate semester as indicated on the Faculty of Environmental Sciences webpage.

Prerequisite(s): 12.50 credits

Restriction(s): Approval of the Faculty of Environmental Sciences.
XII. Course Descriptions, Equine Management

Ontario Agricultural College

EQN*2020 Horse Care Practicum I F (1-2) [0.00]
This course provides hands-on learning in essential horse care and handling techniques such as grooming, bandaging and clipping. The emphasis is on daily and routine care of the horse. Safety is stressed throughout. Students may expect early morning and some weekend assignments. Depth of study is not meant to be exhaustive but rather to cultivate absolute proficiency in these areas.

Restriction(s): Registration in B.B.R.M. Equine Management
Location(s): Kemptville

EQN*1030 Horse Care Practicum II W (1-2) [0.00]
This course provides hands-on learning in essential horse care and handling techniques such as feeding, lunging, and trailer handling. Safety is stressed throughout. Students may expect early morning and some weekend assignments. Depth of study is not meant to be exhaustive but rather to cultivate absolute proficiency in these areas.

Prerequisite(s): EQN*1020
Restriction(s): Registration in B.B.R.M. Equine Management
Location(s): Kemptville

EQN*1040 Equine Facility Management and Design W (3-0) [0.50]
This course presents aspects of the building, renovating and management of horse facilities including site planning and interior design. Special consideration is given to environmental control, waste management and environmental stewardship.

Restriction(s): Registration in B.B.R.M. Equine Management
Location(s): Kemptville

EQN*1060 Equine Event Management I F (1-3) [0.50]
This course will introduce skills required to organize equine events, such as horse shows and clinics. Major topics include event planning, and managing event staff and volunteers. Required activities outside of regularly scheduled class hours will be assigned. Students will assist in the planning and staging of Equestrian Centre activities.

Restriction(s): Registration in B.B.R.M. Equine Management
Location(s): Kemptville

EQN*1070 Equine Event Management II W (1-3) [0.50]
This course will further develop the skills required to organize equine events, such as horse shows and clinics. Major topics include regional impact, marketing and budgeting. Required activities outside of regularly scheduled class hours will be assigned. Students will assist in the planning and staging of Equestrian Centre activities.

Prerequisite(s): EQN*1060
Restriction(s): Registration in B.B.R.M. Equine Management
Location(s): Kemptville

EQN*1100 Introduction to Equine Industry F (3-0) [0.50]
This course introduces students to selected current global, national and regional issues in the horse industry. A balanced examination of the various commercial uses of horses, including PMU farming and the horsemeat trade, will challenge students to evaluate the current state of the industry.

Restriction(s): Registration in B.B.R.M. Equine Management
Location(s): Kemptville

EQN*2050 Introduction to Equine Nutrition W (3-3) [0.50]
This course introduces fundamental concepts of nutrition from a biochemical perspective. The biological roles of carbohydrates, lipids and proteins are studied, as well as the role of metabolic pathways in maintaining equine health at the cellular, organ, and whole body levels. Diagnosis, management, and prevention of equine nutritional diseases are discussed. (First offering - Winter 2009.)

Prerequisite(s): BIOL*1040
Restriction(s): Registration in B.B.R.M. Equine Management
Location(s): Kemptville

EQN*2200 Equine Industry Trends and Issues I W (3-0) [0.50]
This course discusses selected current global, national and regional issues in the horse industry. Analysis of strengths, weaknesses, opportunities and threats are applied to controversial issues such as industry certification and transportation legislation and enforcement. (First offering - Winter 2009.)

Prerequisite(s): EQN*1100
Restriction(s): Registration in B.B.R.M. Equine Management
Location(s): Kemptville

EQN*3050 Equine Exercise Physiology W (3-0) [0.50]
This course considers the conversion of absorbed nutrients into metabolic fuels and the use of these substrates for work and heat production in horses. This knowledge is used as a basis for the understanding of the training and performance of horses used for competitive purposes. (First offering - Winter 2010.)

Prerequisite(s): EQN*2040, EQN*2050
Restriction(s): Registration in B.B.R.M. Equine Management
Location(s): Guelph

EQN*4020 Feeding the Performance Horse F (3-0) [0.50]
This course focuses on the nutrition of horses at peak levels of performance or endurance. The use of real-world, case-study scenarios allows for the evaluation of practical feeding programs across a range of equine performance situations. (First offering - Fall 2010.)

Prerequisite(s): EQN*3050
Restriction(s): Registration in B.B.R.M. Equine Management
Location(s): Kemptville

EQN*4400 Equine Industry Trends and Issues II W (3-0) [0.50]
This seminar course integrates discussion on selected current global, national and regional issues in the equine industry, building upon knowledge gained in earlier courses. Current issues in the equine industry will be examined through debate and discussion. (First offering - Winter 2011.)

Prerequisite(s): 16.00 credits including EQN*2200, EQN*4020
Restriction(s): Registration in B.B.R.M. Equine Management
Location(s): Guelph

EQN*2040 Equine Anatomy and Physiology F (3-3) [0.50]
This course examines the gross anatomy and physiology of the horse. All the major body organs will be studied in relation to their function in the equine. Comparative analysis will be made to other domestic farm animals. (First offering - Fall 2008.)

Prerequisite(s): BIOL*1040
Restriction(s): Registration in B.B.R.M. Equine Management
Location(s): Kemptville
### European Studies

**School of Languages and Literatures**

**EURO*1050 The Emergence of a United Europe**

A 3-0 course providing students with an understanding of the events and processes resulting in economic integration in Europe after 1945. Economic, historical and political aspects will be emphasized.

**EURO*1200 European Culture from the Mid 18th to the Mid 19th Century**

This course explores major trends in European culture in the context of political and social events. Focus will be on major developments in politics (e.g. the French Revolution, the birth of nationalism), philosophy (e.g. enlightenment, idealism), arts and letters (e.g. classicism, romanticism).

**EURO*2070 European Integration, 1957-1992**

An in-depth analysis of the development of European integration from the establishment of the EEC to 1992. Major emphasis will be placed on the historical development of the European communities, their economic framework and political institutions. Other attempts at economic integration such as EFTA and Comecon will be considered in less detail.

**EURO*2200 European Culture from the Mid 19th Century to the 1920's**

This course explores major trends in European culture in the context of political and social events. Topics studied include major political events and their significance for culture (e.g. bourgeois liberalism, revolts in the mid 19th century, World War I and its aftermath), thinkers who have shaped the 20th century (e.g. Nietzsche, Unamuno, Freud), avant-garde movement and innovation in the arts and letters (e.g. impressionism, futurism, expressionism, surrealism).

**EURO*2300 European Culture since 1920**

This course explores major trends in European culture in the context of political and social events. The focus will be on political events and their significance for culture (e.g. fascism, World War II and the Holocaust and their effects in the second half of the 20th century, the political reorganization of Europe, protest movements), new trends in thought (e.g. existentialism, structuralism, post-modernism feminism) and the arts and letters (e.g. neorealism epic theatre, new wave cinema).

**EURO*3150 Topics in European Film**

This course will examine representative French, German, Italian and Spanish films in a socio-political context. It will focus on the interaction between the films' aesthetics and the political and cultural conditions in Europe. The topics to be discussed in the course will centre on the relationship between the development of major movements in European film, such as Italian Neo-Realism and the French, German and Spanish New Waves, and film makers' ideological projects such as the construction or deconstruction of national, gender and ethnic identity. (Offered in even-number years.)

**EURO*4600 Honours Seminar in European Studies**

A seminar course designed to explore one or more topics of European culture, history and/or business, depending on the expertise of the instructor. Students should consult the Coordinator of European Studies for specific offerings.

**EURO*4740 Research Project in European Studies**

An independent study course that requires a research project on an aspect of European Studies. The topic must be approved by the Coordinator of the European Studies Program. Research is undertaken with the guidance of a faculty advisor, and seminar presentations will be included. A final research paper must be written in the student’s chosen core language. Note: In order to demonstrate language proficiency and complete the requirements of EURO*4740, students have another option. They may choose to spend their third year studying at a European university, in the country where their chosen core language is spoken. Those who can demonstrate that they have successfully written a major academic paper or exam in their chosen core language while registered in a course at a European university as part of their approved study year will be waived from EURO*4740. See the Coordinator for the European Studies program for more information.

All courses labeled XCST*XXXX are Conestoga College Institute of Technology and Advanced Learning Courses. The corresponding Conestoga Course numbers are provided. Detailed course profiles can be accessed through the Conestoga College Institute of Technology and Advanced Learning home page at http://www.conestogac.on.ca/. All XCST*XXXX courses are limited to students in the Career Development Practitioner program.

All courses labeled XSEN*XXXX are Seneca College Courses. The corresponding Seneca Course numbers are provided. Detailed course profiles can be accessed through the Seneca College home page at http://www.senecac.on.ca/. All XSEN*XXXX courses are limited to students in the B.Sc.(Tech.) program.

All courses labeled XSRH*XXXX are Sheridan College Institute of Technology and Advanced Learning Courses. The course descriptions appear in the Sheridan College Institute of Technology and Advanced Learning academic calendar and can be accessed through the Sheridan College Institute of Technology and Advanced Learning home page at http://www.sheridanc.on.ca/. All XSRH*XXXX courses are limited to students in the Sports Injury Management program.

XSEN*3060 Pharmaceutical Analysis - Advanced W (2-3) [0.50]
This course reinforces the concept of how the pharmaceutical laboratory works by focusing on method validation requirements within the pharmaceutical industry. It introduces students to the regulatory (ICH, FDA) requirements and guidelines for systems validation, including TPP-acceptable methods and GMP regulations. Validation methods that are taught include Related Substances, Assay, Dissolution and Cleaning. Critical validation parameters (e.g., linearity, specificity, limit of quantitation, etc.) are focused on as well as validation protocols including establishing specifications and dealing with exceptions or out-of-specification (OOS) results. Process validation characteristics (i.e., Design Qualification (DQ), Installation Qualification (IQ), Operation Qualification (OQ), Performance Qualification(PQ) or System Suitability) are also emphasized as well as "Best Practices" such as Process Capabilities and Annual Product Review. This course is taught at Seneca College.
Pre requisite(s): XSEN*3020
External Course Code(s): Seneca #PHA-533

XSEN*3100 Analog and Digital Communications F,W (3-2) [0.50]
Students are provided with a good foundation in the fundamentals of analog communication techniques including modulation schemes (e.g. AM and FM) and associated circuitry. The course also introduces the concepts of digital communications, covering such topics as sampling, PCM, digital multiplexing, and digital modulation. This course is taught at Seneca College.
Pre requisite(s): PHYS*2040
External Course Code(s): Seneca #ADC-455

XSEN*3120 Microprocessors I F,W (3-2) [0.50]
This introductory microcontroller subject deals with both the hardware and software of 8-bit devices. The primary example used is the Motorola MC68HC11. The subject examines two major areas: introductory computer/microcontroller concepts, and assembler language programming. A substantial amount of time is devoted to practical laboratory work. This course is taught at Seneca College.
Pre requisite(s): CIS*2500, PHYS*2040
External Course Code(s): Seneca #MCO-455

XSEN*3130 Object Oriented Programming Using C++ F,W (2-2) [0.50]
The course uses the C++ programming language as a tool to implement Object Oriented Programming (OOP) concepts. The OOP concepts such as Classes, Member and Friend Functions, Constructor and Destructor Functions, Operator Overloading, Inheritance, Composition, Virtual Functions and Polymorphism, Stream I/O, Templates and Exception Handling are covered, as well as the OOP methods. This course is taught at Seneca College.
Pre requisite(s): CIS*2500
External Course Code(s): Seneca #PRG 355

XSEN*3140 Operating Systems F,W (2-2) [0.50]
This subject explores the system concepts, command languages and application of several operating system platforms such as UNIX. This course is taught at Seneca College.
Pre requisite(s): CIS*1500, CIS*2030 recommended
External Course Code(s): Seneca #DPR-355

XSEN*4010 Pharmaceutical Calculations W (3-0) [0.50]
This subject deals with computations relevant to pharmaceutical topics. Included are the representation of scientific and technical data, chemical kinetics and drug stability, osmo-lality and tonicity, pH and solubility, viscosity, phase rule and numerous pharmaceutical calculations (e.g. manufacturing formulas, dosage formulations, radiochemistry, concentration, alligation, HLb, etc.). This course is taught at Seneca College.
Pre requisite(s): CHEM*2400, BIOC*3570
External Course Code(s): Seneca #PHC-533

XSEN*4020 Pharmaceutical Organic Chemistry F (1-3) [0.50]
The determination of the structure of organic compounds using spectroscopic methods such as N.M.R. and mass spectroscopy are discussed. Correlation of structure and reactivity (i.e. drug activity) of organic compounds is also explored. A multi-step synthesis of an anesthetic (lidocaine) and mass-spectrometric analysis of an unknown organic compound (or mixture) are examples of lab-projects. This course is taught at Seneca College.
Pre requisite(s): CHEM*3750
External Course Code(s): Seneca #PAC-633

XSEN*3030 Pharmacology and Applied Toxicology W (2-3) [0.50]
This subject introduces the study of technical writing, including specified formats such as memoranda, letters, proposals, and informal reports. The course applies and develops the skills of technical writing in a series of writing assignments placing emphasis on brevity, clarity, conciseness, unity and coherence - all essential to good technical communication. Basic research skills and effective oral communications are also covered. This course is offered at Guelph.
Pre requisite(s): CHEM*2400, BIOC*2580
External Course Code(s): Seneca #PHC-333

XSEN*3040 Occupational Health and Chemistry W (2-3) [0.50]
A general coverage of general aspects of industrial hygiene. Specific topics include Canadian legislation with respect to Occupational Safety, modes of evaluation of chemical exposure, occupational toxicology, and instrumentation associated with the evaluation of the occupational environment. This course is taught at Seneca College.
Pre requisite(s): CHEM*2700
External Course Code(s): Seneca #OCC-433

XSEN*3050 Pharmacology and Applied Toxicology W (3-3) [0.50]
The lecture topics will cover the pharmacological activity of drugs on the autonomic nervous system, central nervous system and the cardiovascular system. The laboratory practicals will focus on testing, drug screening, and clinical trial methodology. This course is taught at Seneca College.
Pre requisite(s): CHEM*2400, BIOC*2580
External Course Code(s): Seneca #PHC-533

XSEN*3060 Pharmaceutical Analysis - Advanced W (2-3) [0.50]

Pre requisite(s): CIS*1500, CIS*2030 recommended
External Course Code(s): Seneca #DPR-355
**XSEN*4030 Pharmaceutical Product Formulations F (2-3) [0.50]**
This subject deals with the theoretical and practical aspects of pharmaceutical product formulation with an emphasis on semi-solid and liquid formulations. The students prepare and test ointments, creams, lotions, and syrups in the laboratory. Formulation as it relates to overall product stability and efficacy is also covered in both theoretical and practical terms. This course is taught at Seneca College.

**Prerequisite(s):** CHEM*3750  
**External Course Code(s):** Seneca #PPF-633

**XSEN*4040 Pharmaceutical Manufacturing F (2-3) [0.50]**
This course is an introduction to the important principles and methods related to the production of pharmaceuticals. Topics include methods of manufacture of important dosage forms, regulations governing various dosage forms, good manufacturing practice as defined by regulatory bodies and an overview of the manufacturing plant during the various stages of production with emphasis on GMP. This course is taught at Seneca College.

**Prerequisite(s):** BIOC*3570, CHEM*3750  
**External Course Code(s):** Seneca #PPM-633

**XSEN*4050 Biopharmaceuticals F (3-0) [0.50]**
This subject introduces the student to the rapidly developing field of biotechnology and biopharmaceuticals. Techniques used in the development of biopharmaceuticals will be emphasized as well as large-scale production of biologics manufactured by genetic engineering processes. This course is taught at Seneca College.

**External Course Code(s):** Seneca #BPH-633

**XSEN*4100 Event Driven Programming and Visual Basic F,W (2-2) [0.50]**
This course covers the essential programming concepts supported by the Visual Basic programming language, including: object-oriented programming, database management, activeX controls, file I/O, user-defined data types. Various objects (forms, modules and controls) provided by Visual Basic will be used. The course will introduce the fundamental concepts of the event-driven and visual programming. Visual Basic Professional Edition will be used as the integrated development environment. The interaction between Visual Basic and various DBMS software packages will be introduced. This course is taught at Seneca College.

**Prerequisite(s):** XSEN*3130  
**External Course Code(s):** Seneca #PRG-455

**XSEN*4110 Data Acquisition and Control F,W (3-2) [0.50]**
This course covers the real-time acquisition and display of analog signals using a PC, interface card, and A/D converter. ‘C’ will be used as the programming language. The course will cover the basic architecture of the PC as well as interfacing to the PC bus. Graphical programming techniques will be developed for the purposes of displaying and trending sensor data. The course will introduce the fundamental concepts of feedback control using a PC. The course also reviews analog electronics, the purpose being to develop skills in analog interface design. This course is taught at Seneca College.

**Prerequisite(s):** CIS*2500, MATH*2170  
**External Course Code(s):** Seneca #CST-555

**XSEN*4120 Data Communications I F,W (4-2) [0.50]**
This course has been designed to provide an in-depth understanding of the underlying principles of the rapidly expanding and changing discipline of Data Communications. The following topics in this subject are discussed: terminology, components, network design and configurations, transmission media including fibre optical design methods, protocols, topologies, architectures, private and public network strategies and LAN vendors. This course is taught at Seneca College.

**Prerequisite(s):** XSEN*3100  
**External Course Code(s):** Seneca #DCM-555

**XSEN*4130 Networking Essentials F,W (1-3) [0.50]**
The major topics covered in this course include: networking overview and topologies, network cabling, network access methods and technologies, network architectures (OSI model) and standards, network protocols, network connectivity, local area network implementation and configuration, Windows 95/98, Windows NT/2K, and Linux. This course is taught at Seneca College.

**Prerequisite(s):** CIS*2500, XSEN*3140, (CIS*2030 recommended)  
**External Course Code(s):** Seneca #NET-555

**XSEN*4140 Technical and Personal Communications F,W (4-0) [0.50]**
This course combines reading, writing, and basic research skills and applied them to technical materials and situations. Today, technical firms insist on strong communication skills in their employees, not just technical competence. Oral and written presentations of material, as well as project-related research, will be required elements of this course. This course is taught at Seneca College.

**External Course Code(s):** Seneca #TPC-455

**XSEN*4150 Microprocessors II F,W (3-3) [0.50]**
This is the second microcontroller course based on the ADAPT11 EVB Micro Controller System. The course emphasizes Assembly Language program structure, implementation of subroutines, input/output concepts, interrupt utilization, and analog to digital conversion. This course prepares students for the A+ certification examination, and for small business PC network consulting. Topics include WIN 9x and 2K installation, LINUX installation, SCSI and USB, monitors, printers, notebooks, server set up in a multi-OS network, tape backup systems, and digital cameras. This course is taught at Seneca College.

**Prerequisite(s):** XSEN*4130  
**External Course Code(s):** Seneca #MCO-555

**XSEN*4160 Computer Peripheral Systems F,W (2-2) [0.50]**
This course prepares students for the A+ certification examination, and for small business PC network consulting. Topics include WIN 9x and 2K installation, LINUX installation, SCSI and USB, monitors, printers, notebooks, server set up in a multi-OS network, tape backup systems, and digital cameras. This course is taught at Seneca College.

Family Relations and Human Development

Department of Family Relations and Applied Nutrition.

These courses support three majors offered by the Department of Family Relations and Applied Nutrition: Child Studies, Family and Social Relations, and Gerontology.

FRHD*1010 Human Development W (3-0) [0.50]
An introduction to the study of the development of the individual throughout the life cycle. Emphasis will be placed on the interrelationships between physiological, sociological and psychological aspects of normal human development. (Also offered through distance education format.)

FRHD*1020 Couple and Family Relationships W (3-0) [0.50]
A survey of family dynamics throughout the life course, emphasizing themes of power, intimacy and family diversity. Topics may include: gender socialization, sexuality, mate selection, communication, abuse, couple interaction, parent-child relations, divorce and remarriage. (Also offered through distance education format.)

FRHD*1100 Life: Health and Well-Being F (3-0) [0.50]
This course integrates the theory, application and research of various aspects of health-related topics across the lifespan, emphasizing relevance to the lives of young adults.

FRHD*2040 Principles of Program Design for Children W (2-2) [0.50]
This course will examine the elements involved in planning and implementing quality play-based programs for young children. Some of the issues include: the role of the teacher, meeting developmental needs, the materials and the organization of the environment, and instructional strategies. The course will involve a workshop component.

FRHD*2060 Adult Development and Aging W (3-0) [0.50]
An overview of major theoretical approaches, research issues and methodologies, and significant research findings which relate to adult development and aging.

FRHD*2100 Development of Human Sexuality F (3-0) [0.50]
A social scientific analysis of human sexuality. Emphasis will be placed on the development of sexuality within an interpersonal context. (Also offered through distance education format.)

FRHD*2110 Exceptional Children and Youth W (3-0) [0.50]
An overview of childhood exceptionalities including intellectual differences, communication disorders, sensory impairments, developmental and behavioural disorders, and health problems. Issues faced by the exceptional child as well as the parents and siblings are discussed. (Also offered through distance education format.)

FRHD*2260 Infant Development W (3-0) [0.50]
An examination of developmental principles and milestones characterizing infant development from conception to 24 months. Emphasis will be placed on understanding the nature of the reciprocal family-infant interactions during this period, and on the societal context influencing these interactions. (Also offered through distance education format.)

FRHD*2270 Development in Early and Middle Childhood F (3-0) [0.50]
Examination of development in the early and middle childhood years, with emphasis on family and societal contexts.

FRHD*2280 Adolescent Development W (3-0) [0.50]
An examination of psychosocial development in adolescence, emphasizing physiological, social and emotional changes. (Also offered through distance education format.)

FRHD*2300 Principles of Program Design for Youth W (3-0) [0.50]
The course is designed to expose students to the issues and program development strategies that lay the foundation for quality experiences for youth. Students will examine the developmental needs of adolescents, models for programming and the role of the youth worker in a variety of contexts.

FRHD*2350 Principles of Program Design in the Human Services W (3-0) [0.50]
This course will examine the elements involved in planning and implementing effective prevention, education, and support programs for various populations in community settings. Programs include health promotion, sexual health, and support programs for new parents, new Canadians, seniors, caregivers, and individuals with disabilities. Major topics covered in this course include: the roles of organizations and human service professionals; empowerment within individuals, families and communities; working with diverse populations; needs assessments; program planning and service delivery; and program evaluation. Case studies of innovative programs are highlighted. (First offering - Winter 2009)

FRHD*3040 Parenting: Research and Applications F (3-0) [0.50]
A study of research concerning parent-child relationships, primarily in North American society.

FRHD*3060 Principles of Social Gerontology F (3-0) [0.50]
A study of social and health aspects of individual and population aging, including theories and implications for understanding and working with the elderly.

FRHD*3070 Research Methods: Family Studies F (2-2) [0.50]
A critical examination of research methods in family studies.

FRHD*3090 Child and Family Poverty F (3-0) [0.50]
An examination of the research dealing with children for whom environmental conditions constitute a serious impediment to later development; a consideration of appropriate policies and practices.

FRHD*3100 Families in Canadian Context W (3-0) [0.50]
Canadian families are studied from a structural perspective and are placed in social and historical context. Topics include structural variations in family form, work roles within and outside the family, the structural significance of marriage and parenthood, and social policies affecting families.

FRHD*3150 Strategies for Behaviour Change F,W (3-0) [0.50]
This course will review the nature and use of behaviour change strategies commonly used in interventions with children, youth, and their families.

FRHD*3180 Observation and Assessment F,W (3-0) [0.50]
Direct observation as a strategy for collecting information on children's behaviour in applied and research settings. Emphasis on theory, recording and interpreting observational data and communicating findings in written reports.

FRHD*3190 Administration of Programs for Children and Youth W (3-0) [0.50]
A study of the roles and responsibilities of administrators in programs for children and youth with emphasis on the development of appropriate policies and procedures; management of human and financial resources; and internal and external communication within the context of multidisciplinary settings. Attention will be given to quality assurance, professional ethics, and continuing professional development. (Offered through Distance Education only.)

| FRHD*3280  | Practicum - Child F,W (3-8) [1.00]                                      | Seminar         | 1.00   | Seminar and supervised experience with children. The practicum will be designed to demonstrate the application of theory studied earlier in the program. It will also provide opportunities for working directly with young people while examining such topics as the role of the teacher, teacher-child interaction, and program implementation. Students wishing to enrol in this course must consult with the instructor during course selection.  
**Prerequisite(s):** FRHD*1020, FRHD*2040 or FRHD*2300, NUTR*1010  
**Equates to:** CSTU*3170, FRHD*3170  
**Restriction(s):** Registration in the Child Studies, or Child Studies Co-op. Youth and Family or Child, Youth and Family Co-op majors. Instructor Consent. |
| FRHD*3250  | Practicum in Youth F,W (3-8) [1.00]                                     | Seminar         | 1.00   | Through seminar and supervised experience with youth, students will demonstrate the application of theory studied earlier in the program. This practicum course will also provide opportunities for working directly with youth in a community setting while examining the role of the professionals involved and the communication with youth and community members. Developing skills in programming planning, implementation, and evaluation is a primary objective. Students wishing to enrol in this course must consult with the instructor during course selection.  
**Prerequisite(s):** FRHD*1020, FRHD*2300, NUTR*1010  
**Restriction(s):** Registration in the Child, Youth and Child, Youth and Family Co-op majors. Instructor consent required. |
| FRHD*3290  | Practicum I: Adult Development and Families W (3-8) [1.00]               | Practicum       | 1.00   | This course offers students an opportunity to participate in seminar and supervised field placement in health and social service agencies. The practicum and seminar will develop students' helping roles in agencies and facilitate the integration and application of theoretical knowledge from previous course work with practice. It will also provide opportunities for students to work directly with individuals and/or groups and to participate in on-going programs or services. Students wishing to enrol in this course must consult with the instructor during the course selection period. (First offering - Winter 2010)  
**Prerequisite(s):** FRHD*3400  
**Restriction(s):** Registration in B.A.Sc. program majoring in Adult Development, Families and Well-Being. |
| FRHD*3400  | Communication and Counselling Skills S,F,W (3-0) [0.50]                 | Lecture-discussion or seminar | 0.50   | Examination and analysis of the theories and methods of communication as applied within the processes of family counseling and consultation.  
**Prerequisite(s):** 10.00 credits including (FRHD*1020 or FRHD*1100)  
**Restriction(s):** This is a Priority Access Course and some restrictions may apply during some time periods. Please contact the department for more information. Instructor consent required. |
| FRHD*4020  | Family Theory F (3-0) [0.50]                                            | Lecture-discussion or seminar | 0.50   | An analysis of theoretical approaches and concepts in the study of the family.  
**Prerequisite(s):** 12.50 credits including FRHD*1020. |
| FRHD*4061  | Family and Community: Field Placement F (2-8) [1.00]                    | Practicum       | 1.00   | First part of the two-semester course FRHD*4061/2. Refer to FRHD*4061/2 for course description. (Last offering - Fall 2008)  
**Prerequisite(s):** FRHD*3400. |
| FRHD*4061/2| Family and Community: Field Placement F-W (2.00)                         | Practicum       | 2.00   | Seminar and supervised field placement in health and social service agencies. The practicum and seminar will further develop and expand students' helping roles in agencies and the integration and application of theoretical knowledge from previous course work with practice. Students wishing to enrol in this course must consult with the instructor during the course selection period. This is a two-semester course offered over consecutive semesters. When you select it you must select FRHD*4061 in the Fall semester and FRHD*4062 in the Winter semester. A grade will not be assigned to FRHD*4061 until FRHD*4062 is completed. (Last offering - Fall 2008, Winter 2009)  
**Prerequisite(s):** FRHD*3400  
**Restriction(s):** Registration in the Family and Social Relations or Gerontology majors. Instructor consent required. |
| FRHD*4062  | Family and Community: Field Placement W (2-8) [1.00]                    | Practicum       | 1.00   | Second part of the two-semester course FRHD*4061/2. Refer to FRHD*4061/2 for course description. (Last offering - Winter 2009)  
**Prerequisite(s):** FRHD*4061. |
| FRHD*4070  | Topics in Family Relations and Human Development U (3-0) [0.50]         | Lecture-discussion or seminar | 0.50   | Lecture-discussion or seminar on a selected topic in family studies. To be conducted by regular or visiting faculty with expertise in the area. Students should check with the Department of Family Relations and Applied Nutrition to determine what topic will be offered during specific semesters and which prerequisites, if any, are appropriate.  
**Prerequisite(s):** FRHD*4060. |
| FRHD*4080  | Topics in Family Relations and Human Development U (3-0) [0.50]         | Lecture-discussion or seminar | 0.50   | Lecture-discussion or seminar on a selected topic in family studies. To be conducted by regular or visiting faculty with expertise in the area. Students should check with the Department of Family Relations and Applied Nutrition to determine what topic will be offered during specific semesters and which prerequisites, if any, are appropriate.  
**Prerequisite(s):** FRHD*3170 or FRHD*3200  
**Restriction(s):** Registration in semester 7 or above in the Child Studies or Child Studies Co-op. Child, Youth & Family or Child, Youth & Family Co-op majors. |
| FRHD*4100  | Dynamics of Group and Family Functioning W (2-2) [0.50]                 | Lecture-discussion or seminar | 0.50   | An exploration of group processes through participation and laboratory groups. Group theory and current techniques used in group and family counselling will also be reviewed in lectures.  
**Prerequisite(s):** FRHD*3040 or FRHD*3400 |
| FRHD*4100  | Family Relations in Gerontology F (3-0) [0.50]                          | Lecture-discussion or seminar | 0.50   | A critical examination of selected issues affecting the well-being of the elderly in Canada. Topics will include such issues as the nature and types of community support systems for the aged, and institutionalization and its alternatives.  
**Prerequisite(s):** FRHD*3060 |
| FRHD*4110  | Practicum - Child, Youth and Family F,W (3-16) [1.00]                   | Practicum       | 1.00   | Seminar and experience with children in an appropriate field setting to be assigned by the department. Emphasis will be upon developing, implementing and evaluating program plans for children in educational and community settings. Students will acquire communication and interactive skills with children and adults. Students wishing to enrol in the course must consult with the course instructor during the course selection period.  
**Prerequisite(s):** 1 of FRHD*3170, FRHD*3200, FRHD*3250  
**Restriction(s):** Instructor consent required. |
| FRHD*4110  | Assessment and Intervention F (2-2) [0.50]                             | Lecture-discussion or seminar | 0.50   | Principles and theories of assessment and evaluation as related to the child, the family, and to child oriented intervention, education and social service programs.  
**Prerequisite(s):** FRHD*2110, FRHD*3070, FRHD*3180  
**Restriction(s):** Registration in semester 7 or above in the Child Studies or Child Studies Co-op. Child, Youth & Family or Child, Youth & Family Co-op majors. |
| FRHD*4110  | Assessment in Gerontology F (2-2) [0.50]                               | Lecture-discussion or seminar | 0.50   | This course provides an examination and critique of current methods of assessing older adults. Tools to be considered include those for assessing dementia, depression, and pain. Students will examine diagnostic criteria that form the underpinnings of most tests and then examine each test for its psychometric properties and appropriate use. An understanding of the ethical principles governing assessment will be gained.  
**Prerequisite(s):** FRHD*2060  
**Restriction(s):** Semester 7 and above. |
| FRHD*4200  | Issues in Human Sexuality W (3-0) [0.50]                               | Lecture-discussion or seminar | 0.50   | An advanced analysis of sexual development. Specific attention will be given to sexual problems, and the concepts, methods and issues associated with sex education and counselling.  
**Prerequisite(s):** FRHD*1020, FRHD*2100 and 1.00 credit at the 3000 level in Family and Social Relations, Psychology or Sociology |
| FRHD*4210  | Senior Seminar in Early Education and Care F (3-0) [0.50]               | Lecture-discussion or seminar | 0.50   | The study of the historical and philosophical basis of programs for young children evaluated from a developmental perspective. Emphasis will be on current approaches and programs and contemporary issues in early childhood programming.  
**Prerequisite(s):** FRHD*3170 or FRHD*3200  
**Restriction(s):** Registration in semester 7 or above in the Child Studies or Child Studies Co-op. Child, Youth & Family or Child, Youth & Family Co-op majors. |

Last Revision: January 28, 2008

2007-2008 University of Guelph Undergraduate Calendar
FRHD*4250 Aging and Health F (3-0) [0.50]
This course offers upper level undergraduates a forum to explore issues related to aging and health across the adult life span. More specifically, the conceptual groundwork necessary for understanding the roles of the life span developmental perspective, individual development, physiological changes in human aging, contextual influences and interactions, and several models/theories of aging and health will be examined. A primary objective of the course is the integration of models and theory to facilitate understanding of aging and health topics. Topics include but are not limited to: age changes and disease processes (both acute and chronic); mental health and illnesses; medication use; disease prevention and health promotion; influence of health on family relationships, caregiving, and placement decisions; systemic and societal influences on health; and ethical issues and controversies surrounding the end-of-life care and decision making, advanced directives, assisted suicide, and death and dying.
Prerequisite(s): 10.00 credits including FRHD*2060

FRHD*4260 Social Policy and Gerontology W (3-0) [0.50]
An examination of aging and adult development in relation to social policy with special reference to families.
Prerequisite(s): FRHD*2060

FRHD*4290 Practicum II: Adult Development and Families F (3-16) [1.00]
This course enables students to extend their knowledge and professional skills in a second supervised placement in a health or social service agency. The practicum and seminar provides students with additional opportunities to integrate theoretical knowledge with practice experiences. Students are expected to assume additional responsibilities related to program design and implementation and in their supervised work with individuals and/or groups. Students wishing to enrol in this course must consult with the instructor during the course selection period. (First offering - Fall 2011)
Prerequisite(s): FRHD*3290
Restriction(s): Registration in the B.A.Sc. program majoring in Adult Development, Family and Well Being. Instructor consent required.

FRHD*4310 Professional Issues F (3-0) [0.50]
This course examines ethical and professional issues in working with children, youth, adults of all ages, and their families. A variety of institutional settings are considered (e.g., school systems, treatment agencies, youth residential programs, senior care facilities). The complexities of professional practice with diverse populations are explored in depth. Legal aspects relevant to work in this area are also addressed.
Prerequisite(s): FRHD*3400

FRHD*4320 Social Policies for Children, Youth and Families W (3-0) [0.50]
This course focuses on current social policies, programs, and services that affect children's development and family well-being. Issues include policies that affect income security, parental effectiveness, social service provision, and community resources.
Prerequisite(s): FRHD*3040

FRHD*4400 Youth, Risk and Resilience W (3-0) [0.50]
This course examines biological, and social-contextual aspects of developmental issues evident in childhood and adolescence. The theoretical perspective of developmental psychopathology will be used to examine literatures relating to risk, resilience, developmental trajectories, classification, assessment, and intervention. Students will have a chance to critically examine many mental health issues commonly found in childhood and adolescence.
Prerequisite(s): 15 credits, FRHD*2110, FRHD*2280
Restriction(s): PSYC*3460

FRHD*4810 Thesis I U (3-0) [0.50]
Planning, developing and writing a research proposal under individual faculty supervision. Topic to be decided by the student in consultation with the supervisory faculty member before she/he may course select or register for the course.
Prerequisite(s): FRHD*3070. Instructor consent required.
Equate(s): CSTU*4810

FRHD*4910 Thesis II U (6-0) [1.00]
The student will conduct and write an undergraduate thesis under the direction of a faculty member.
Prerequisite(s): FRHD*4810
Equate(s): FRHD*4911/2
Food Science

Department of Food Science

FOOD*2100 Principles of Food Science S,W (3-0) [0.50]
Principles involved in the processing, handling and storage of foods. Relationship of science and technology to food processing. (Offered through Distance Education only.)
Restriction(s): AGR*3330, FOOD*2150, FOOD*3070, NUTR*2150

FOOD*2100 Communication in Food Science I W (3-0) [0.50]
Students will acquire basic skills in technical and business communication and be prepared to complete a variety of communication assignments in subsequent semesters. Students will learn and apply the principles of effective written and oral communication. Communication achievements made during the undergraduate program will be presented in a communication portfolio in a subsequent course, FOOD*4100.
Restriction(s): Enrollment in the Food Science Co-op Majors of the B.Sc. Program.

FOOD*2150 Introduction to Nutritional and Food Science F (3-0) [0.50]
This interdisciplinary course provides an introduction to the Food and Nutritional Sciences from both historical and modern perspectives. Major themes are the nutritional and functional properties of food, nutrient assimilation, food preservation and safety, and the interactions between food processing, diets and health. The course is taught by the Department of Food Science. (Also listed as NUTR*2150.)
Prerequisite(s): BIOL*1040, CHEM*1040 or CHEM*1300
Equi(s): NUTR*2150
Restriction(s): AGR*2150, FOOD*2010, FOOD*3070. Not available to students registered in Applied Human Nutrition major.

FOOD*2400 Introduction to Food Chemistry S (3-0) [0.50]
An introduction to the chemistry and biochemistry of the major components of foods: lipids, proteins, carbohydrates and water/ice. In addition, an overview of some of the reactions and changes in food components which occur during processing, handling and storage will be presented. This course may not be taken for credit by students in the Food Science Major. (Offered through Distance Education only.)
Prerequisite(s): CHEM*1040
Restriction(s): FOOD*3010, FOOD*3100

FOOD*2410 Introduction to Food Processing W (3-0) [0.50]
An introduction to food processes and the relationships between chemistry, microbiology, and engineering as they apply to food processing are discussed. The following topics are included: high and low temperature processes; moisture control and intermediate moisture foods; concentration and dehydration processes; and novel food processing techniques. This course may not be taken for credit by students in the Food Science Major. (Offered through Distance Education only.)
Prerequisite(s): CHEM*1040, (BIOL*1040 or MICR*1020)
Restriction(s): FOOD*3160, FOOD*3170

FOOD*2420 Introduction to Food Microbiology F (3-0) [0.50]
An introduction to the major groups of microorganisms important in foods including sources of contamination during production, processing and storage of foods, microbial spoilage of food, food-borne illness, and food fermentations. Evaluation of food processing conditions used to control the presence and/or growth of microorganisms in foods. This course may not be taken for credit by students in the Food Science Major. (Offered through Distance Education only.)
Prerequisite(s): BIOL*1040 or MICR*1020
Restriction(s): FOOD*3230

FOOD*2620 Food Engineering Principles W (3-2) [0.50]
Introduction to engineering principles and operations in food processing including heat transfer, fluid flow, material and energy balances, instrumentation and process control concepts.
Prerequisite(s): (BIOL*2580 or CHEM*2880), (MATH*1080 or MATH*1200)

FOOD*3010 Food Chemistry F (3-2) [0.50]
A lecture course covering the fundamental principles of the chemistry of foods. The course will discuss selected topics related to the chemistry (physical, organic and analytical) and physics of food materials such as lipids, proteins, carbohydrates and water.
Prerequisite(s): BIOC*2580

FOOD*3020 Food Chemistry Laboratory W (0-6) [0.50]
An involved laboratory course on various aspects of food chemistry. Emphasis will be placed on the development of strong analytical skills. Laboratory exercises are based on topics covered in FOOD*3010.
Prerequisite(s): FOOD*3010

FOOD*3090 Food Science and Human Nutrition F (3-3) [0.50]
This course will introduce students in the B.Sc.(Agr.) program to the chemistry and microbiology of food and post-production food handling and processing. It will also introduce students to the role of food components in human nutrition and the interactions between diets and health. Food product development will integrate these two disciplines. Lectures will be taken simultaneously with students in FOOD*2150/NUTR*2150. Lectures will be supplemented with a series of laboratory assignments.
Prerequisite(s): AGR*1250, BIOL*1040, CHEM*1050
Restriction(s): AGR*3330, FOOD*2100, FOOD*2150, FOOD*3070, NUTR*2150
Registration in the B.Sc.(Agr.) program.

FOOD*3160 Food Processing I F (3-3) [0.75]
This course builds on basic engineering principles to understand the operation of modern food processing plant facilities. The standard equipment used and the underlying principles that control their operation are examined for various high temperature (blanching, pasteurization, sterilization, evaporation, drying, extrusion) and ambient temperature (size reduction, homogenization, emulsification, centrifugation, filtration, extraction, irradiation) unit operations.
Prerequisite(s): (FOOD*2620, MICR*2030) or ENGG*2660

FOOD*3170 Food Processing II W (3-3) [0.50]
This course looks at various low temperature food processing unit operations (e.g., refrigerated storage, freezers, freeze dryers), the design and operation of ancillary food plant equipment (e.g., refrigeration, boiler, pumping, control, sanitation, water, and wastewater treatment systems) and integration of the various unit operations into a functioning food process.
Prerequisite(s): FOOD*3160

FOOD*3230 Food Microbiology F (3-3) [0.75]
Important groups of microorganisms associated with food spoilage, food fermentations, food infections and intoxications. Intrinsic and extrinsic factors and their relationship to microbial growth. Control of microorganisms by food processing.
Prerequisite(s): MICR*1020 or MICR*2030

FOOD*3260 Industrial Microbiology F (3-3) [0.50]
The course will present microbiological and technological principles of the industrial application of microorganisms followed by specific examples. These will include different liquid aerobic and anaerobic fermentations, such as the production of organic/amine acids, and ethanol, but excluding the dairy sector. A special focus will be given to winemaking, brewing and antibiotic production. The laboratory component of the course includes several field trips and the production of wine and antibiotics.
Prerequisite(s): MICR*1020 or MICR*2030

FOOD*3430 Introduction to Food Analysis F (3-0) [0.50]
An introduction to quantitative analysis of foods by chemical, physical and instrumental means. Determination of major and minor constituents of foods. (Offered through Distance Education only.)
Prerequisite(s): FOOD*2400
Restriction(s): FOOD*4120

FOOD*3700 Sensory Evaluation of Foods F (2-3) [0.50]
Principles of sensory evaluation of foods and a study of the techniques employed.
Prerequisite(s): (1 of FOOD*2150, HAF*A*2700, HTM*A*2700), (1 of STAT*2040, STAT*2060, STAT*2080)

FOOD*4010 Food Plant Sanitation and Quality Control W (3-0) [0.50]
Participants will learn and apply principles of hygiene, cleaning chemistry, mechanisms, and will develop and evaluate sanitation programs for specific food processes. Graduates of this course will be able to implement sampling and statistical quality control plans and quality audits. Food Safety programs including both GMP (good manufacturing practices) and HACCP (hazard analysis and critical control point) will be developed for specific cases. A case study approach will be used. Quality management aspects of quality assurance are not included in this course. (Offered through Distance Education only.)
Prerequisite(s): (FOOD*2100 or FOOD*2150), (FOOD*2410 or FOOD*3160), (FOOD*2420 or FOOD*3230)

FOOD*4070 Food Packaging F (3-0) [0.50]
Functions of packaging in food preservation systems will be examined using a review of current packaging materials, their properties, production methods and applications for specific products. Additional topics include regulatory, environmental and marketplace influences on food packaging choices. (Offered through Distance Education only.)
Prerequisite(s): 8.00 credits in science or engineering or (FOOD*2100, FOOD*2410, FOOD*2420)

Last Revision: January 28, 2008
**FOOD*4090 Functional Foods and Nutraceuticals W (3-0) [0.50]**

The course examines the relation of functional foods and nutraceuticals (FFN) to food and drugs. The safety and efficacy of individual FFN products, and the regulatory issues that influence the development and commercialization of FFN in global markets are emphasized. The course is co-taught by the Department of Human Health and Nutritional Sciences and the Department of Food Science. (Also listed as NUTR*4090.)

Prerequisite(s): NUTR*3190 or NUTR*3210

Equate(s): NUTR*4090

**FOOD*4100 Communication in Food Science II W (2-0) [0.25]**

Each student will present a communication portfolio based on their proposal in FOOD*2100. Additional communication assignments and work shops will build skills in discussion leading, meeting, management, crisis management and both peer and self evaluation.

Prerequisite(s): FOOD*2100, 2.50 credits at the 3000 level in Food Science

**FOOD*4110 Meat and Poultry Processing W (2-3) [0.50]**

The course focuses on the principles and techniques employed by the meat industry (the largest food processing segment in Canada). Topics include a study of muscle structure and its relation to meat quality, the physical properties of meat proteins, lipids and flavour compounds important in meat processing. Practical applications of processing techniques (including producing different products in lab) packaging and merchandizing are emphasized in the laboratory. Eggs and egg processing are also covered. Emphasis is put on learning how various food science principles (e.g. preservation, HACCP, emulsification) are used to optimize meat products' quality and safety. (Offered in odd-numbered years.)

Prerequisite(s): 1 of ANSC*2340, FOOD*3070, FOOD*3160

**FOOD*4120 Food Analysis F (3-4) [0.75]**

Quantitative analysis of foods by chemical and physical methods. Determination of major and minor constituents of foods.

Prerequisite(s): 1 of CHEM*2400, CHEM*2480, FOOD*3100, FOOD*3010, which may be taken as co-requisite

**FOOD*4140 Communication in Food Science III S,F,W (0-2) [0.25]**

This course gives the student the opportunity to integrate both communication skills and technical knowledge in Food Science acquired in earlier courses through participation in an independent experiential learning project. The topic of the project may be in any area of Food Science, but an emphasis on communication to a non-scientific audience is required. The project may be conducted in teams of up to four students. Students are required to present a concise report in a written paper and in a seminar. Students must make arrangements with both faculty supervisor and course co-ordinator in a prior course selection period.

Prerequisite(s): FOOD*2100, 2.50 credits at the 3000 level in Food Science

Restrictions: Instructor consent required.

**FOOD*4150 Topics in Food Science S,F,W (0-2) [0.25]**

Independent study of a selected topic in Food Science, involving a review and critical evaluation of the current literature. The course comprises independent library research and students are required to present a concise report in a written paper and in a seminar. Students must make arrangements with both faculty supervisor and the course co-ordinator in a prior course selection period.

Prerequisite(s): 2.50 credits at the 3000 level in Food Science

Restrictions: Instructor consent required.

**FOOD*4230 Research in Food Science I S,F,W (0-2) [0.25]**

Independent laboratory research of a selected topic in Food Science, under the supervision of an individual faculty. The laboratory research is based on the literature review conducted in FOOD*4220. In addition, a review and critical appraisal of experimental principles will guide the design of laboratory experiments. Students are required to present a concise report in a written paper and in a seminar. Students must make arrangements with both faculty supervisor and the course co-ordinator in a prior course selection period.

Prerequisite(s): FOOD*4220

**FOOD*4240 Research in Food Science II S,F,W (0-2) [0.25]**

Independent laboratory research of a selected topic in Food Science, under the supervision of an individual faculty. The laboratory research conducted in FOOD*4230 will be continued and expanded. Students are expected to demonstrate increasing independence in designing, conducting and evaluating experiments. Students are required to present a concise report in a written paper and in a seminar. Students must make arrangements with both faculty supervisor and the course co-ordinator in a prior course selection period.

Prerequisite(s): FOOD*4230

**FOOD*4240 Dairy Processing W (3-3) [0.50]**

Production, processing, chemistry, microbiology and marketing of fluid milk, frozen dairy products, cheese, fermented dairy foods and butter. Public health aspects of pasteurization, composition and formulation and discussion of the various unit operations involved in processing dairy products.

Prerequisite(s): BIOC*2580, FOOD*2150, MICR*2030

**FOOD*4520 Cereal Technology W (3-3) [0.50]**

The technology and chemistry of the principal cereals; kernel structure and its chemistry with respect to the technological characteristics and nutritive value. Processing of wheat, corn, sorghum, rice, oats and barley; utilization of products and by-products. Bread-making process, dough rheology and technology; breakfast cereals and protein-enriched cereal products. (Offered in even-numbered years.)

Prerequisite(s): BIOC*2580

**FOOD*4700 Food Product Development W (3-3) [0.50]**

Research, management processes and technological developments relevant to effective food product development are examined. Students work in teams to plan and execute a major food development project and communicate its results.

Prerequisite(s): FOOD*3010 or FOOD*3100
French Studies

School of Languages and Literatures

The School reserves the right to determine the appropriate level to be taken by students enrolling in language courses. With the exception of FREN*1000, literary texts are, at all levels, studied in French. Students registering in these courses will be expected to have the appropriate language proficiency.

Francophone students and Graduates of Highschool French Immersion will not normally be admitted into FREN*1200 and FREN*2030. It is recommended they start their program with FREN*2020, FREN*2060, FREN*2500, or FREN*2520 with the approval of the Faculty Advisor.

FREN*1000 Understanding the French Speaking World F (3-0) [0.50]
A course taught in English which introduces students to French culture as it manifests itself in France, Quebec, the rest of North America, Africa, and the West Indies. Historical, linguistic and socio-political issues will be examined within the broader context of culture.

FREN*1090 Basic French: Reading S,F (3-0) [0.50]
This is a basic course in French grammar and reading for students who have up to Grade 9 French (or equivalent) but not above. FREN*1090 cannot be counted toward a specialization in French. (Offered through Distance Education only.)
Restriction(s): Students with native or near-native ability in French, including Francophones and French immersion students will not be admitted to this course. Instructor consent required to verify student's level.

FREN*1100 Basic French: Listening F,W (3-0) [0.50]
This basic course in French grammar will emphasize listening skills for students who have up to Grade 10 French (or equivalent) but not above. FREN*1100 cannot be counted toward a specialization in French. (Offered through Distance Education only.)
Restriction(s): Students with native or near-native ability in French, including Francophones and French immersion students will not be admitted to this course. Instructor consent required to verify student's level.

FREN*1120 Basic French: Writing S,W (3-0) [0.50]
This basic course in French grammar will emphasize writing skills for students who have up to Grade 11 French (or equivalent) but not above. FREN*1120 cannot be counted toward a specialization in French. (Offered through Distance Education only.)
Restriction(s): Students with native or near-native ability in French, including Francophones and French immersion students will not be admitted to this course. Instructor consent required to verify student's level.

FREN*1150 Elementary French F (3-0) [0.50]
This is a review course in French grammar, oral and written skills for students who have Ontario Grade 11 French or equivalent but not above. FREN*1150 cannot be counted toward a specialization in French.
Equivalent(s): FREN*1110
Restriction(s): Students with native or near-native ability in French, including Francophones and French immersion students will not be admitted to this course. Instructor consent required to verify student's level.

FREN*1200 French Language I F,W (3-1) [0.50]
A first year, university-level course for students graduating with a high-school background in core French. Students will practise written and oral French.
Prerequisite(s): 1 of FREN*1150, Grade 12U French or permission of the School
Restriction(s): Students with native or near-native ability in French, including Francophones and French immersion students will not be admitted to this course. Instructor consent required to verify student's level.

FREN*2020 France: Literature and Society F,W (3-1) [0.50]
An historical introduction to French life and thought as seen through literature and art. Lectures and small seminars are integrated into a multi-media presentation including videotapes, slides and audio tapes.
Prerequisite(s): FREN*1200 or FREN*2030

FREN*2030 French Language II F,W (3-1) [0.50]
This is a continuation of French Language I with further practice in written and oral French, grammar, vocabulary acquisition, translation, laboratory exercises and discussion groups.
Prerequisite(s): FREN*1200 or equivalent
Restriction(s): Students with native or near-native ability in French, including Francophones and French immersion students will not be admitted to this course. Instructor consent required to verify student's level.
FREN*3290 Post-colonial Francophone Fiction W (3-0) [0.50]
An introduction to 20th century Francophone writers from Maghreb, Black Africa and the Caribbean, through the study of selected works. (Offered in even-numbered years.)
Prerequisite(s): FREN*2020, FREN*2030

FREN*3500 French Translation II F (3-0) [0.50]
Contrastive grammar (French and English). Analysis of various styles and their application to written translation. Small discussion groups.
Prerequisite(s): FREN*2030, FREN*2500

FREN*3520 French Composition II W (3-0) [0.50]
A continuation of FREN*2520 with special emphasis on stylistics.
Prerequisite(s): FREN*2030, FREN*2520

FREN*3530 Business French F (3-0) [0.50]
This course is a detailed study of the French language as it is currently used in administration and business, both in France and Quebec. It will cover areas such as advertising, administrative reports, employment, communication and levels of language.
Prerequisite(s): FREN*2030

FREN*3560 Contemporary French Women's Writings W (3-0) [0.50]
A study of the main trends in women's writings and feminist criticism in contemporary France. (Offered in odd-numbered years.)
Prerequisite(s): FREN*2020, FREN*2030

FREN*3610 Studies in French Literature and Culture in Nice F,W (3-0) [0.50]
Thematic courses relating to the literature, arts, and society of metropolitan France and of the Francophone world. Options may include other languages, literatures, and other disciplines in the arts and social sciences. For Nice students only.
Prerequisite(s): 1 of FREN*2020, FREN*2030, FREN*2060
Restriction(s): Admission to Nice Program.

FREN*3620 Studies in French Literature and Culture in Nice F,W (3-0) [0.50]
Thematic courses relating to the literature, arts, and society of metropolitan France and of the Francophone world. Options may include other languages, literatures, and other disciplines in the arts and social sciences. For Nice students only.
Prerequisite(s): 1 of FREN*2020, FREN*2030, FREN*2060
Restriction(s): Admission to Nice Program.

FREN*3630 Studies in French Literature and Culture in Nice F,W (3-0) [0.50]
Thematic courses relating to the literature, arts, and society of metropolitan France and of the Francophone world. Options may include other languages, literatures, and other disciplines in the arts and social sciences. For Nice students only.
Prerequisite(s): 1 of FREN*2020, FREN*2030, FREN*2060
Restriction(s): Admission to Nice Program.

FREN*3640 Studies in French Literature and Culture in Nice F,W (3-0) [0.50]
Thematic courses relating to the literature, arts, and society of metropolitan France and of the Francophone world. Options may include other languages, literatures, and other disciplines in the arts and social sciences. For Nice students only.
Prerequisite(s): 1 of FREN*2020, FREN*2030, FREN*2060
Restriction(s): Admission to Nice Program.

FREN*3650 Studies in French Literature and Culture in Nice F,W (3-0) [0.50]
Thematic courses relating to the literature, arts, and society of metropolitan France and of the Francophone world. Options may include other languages, literatures, and other disciplines in the arts and social sciences. For Nice students only.
Prerequisite(s): 1 of FREN*2020, FREN*2030, FREN*2060
 Restriction(s): Admission to Nice Program.

FREN*3660 Studies in French Literature and Culture in Nice F,W (3-0) [0.50]
Thematic courses relating to the literature, arts, and society of metropolitan France and of the Francophone world. Options may include other languages, literatures, and other disciplines in the arts and social sciences. For Nice students only.
Prerequisite(s): 1 of FREN*2020, FREN*2030, FREN*2060
Restriction(s): Admission to Nice Program.

FREN*3670 Studies in French Literature and Culture in Nice F,W (3-0) [0.50]
Thematic courses relating to the literature, arts, and society of metropolitan France and of the Francophone world. Options may include other languages, literatures, and other disciplines in the arts and social sciences. For Nice students only.
Prerequisite(s): 1 of FREN*2020, FREN*2030, FREN*2060
Restriction(s): Admission to Nice Program.

FREN*3680 Studies in French Literature and Culture in Nice F,W (3-0) [0.50]
Thematic courses relating to the literature, arts, and society of metropolitan France and of the Francophone world. Options may include other languages, literatures, and other disciplines in the arts and social sciences. For Nice students only.
Prerequisite(s): 1 of FREN*2020, FREN*2030, FREN*2060
Restriction(s): Admission to Nice Program.

FREN*3690 Studies in French Literature and Culture in Nice F,W (3-0) [0.50]
Thematic courses relating to the literature, arts, and society of metropolitan France and of the Francophone world. Options may include other languages, literatures, and other disciplines in the arts and social sciences. For Nice students only.
Prerequisite(s): 1 of FREN*2020, FREN*2030, FREN*2060
Restriction(s): Admission to Nice Program.

FREN*4050 Early Modern French Culture W (3-0) [0.50]
A study of the literature and culture of Medieval and Renaissance France (1200-1600), from the chivalric and religious writings to humanist thought and early French feminism. (Offered in odd-numbered years.)
Prerequisite(s): FREN*2020, FREN*2030, FREN*3520

FREN*4300 Symbolist and Surrealist Poetry W (3-0) [0.50]
The French Symbolists of the 19th century. The 20th century Surrealist poets' vision of the world. (Offered in even-numbered years.)
Prerequisite(s): FREN*2020, FREN*2030, FREN*3520

FREN*4500 The French Language in Canada W (3-0) [0.50]
A descriptive, historical and socio-linguistic study of the varieties of French spoken in Canada, with particular emphasis on Quebec. (Offered in odd-numbered years.)
Prerequisite(s): FREN*2020, FREN*2030, FREN*3520

FREN*4520 French Translation III F (3-0) [0.50]
A contrastive analysis of French and English stylistic resources, with application to English-French translation. (Offered in odd-numbered years.)
Prerequisite(s): FREN*2020, FREN*2500, FREN*3520

FREN*4600 Honours Seminar in French and Quebecois Studies F (3-0) [0.50]
Seminar on literary genres, movements and themes, or on the French language. (Offered in even-numbered years.)
Prerequisite(s): FREN*2020, FREN*2030, FREN*2060, FREN*3520

FREN*4610 Honours Seminar in French and Quebecois Studies F (3-0) [0.50]
Seminar on literary genres, movements and themes. (Offered in even-numbered years.)
Prerequisite(s): FREN*2020, FREN*2030, FREN*2060, FREN*3520

FREN*4740 Research Paper in French Studies I S,F,W (3-0) [0.50]
A research paper in French on an approved topic in French literature or language will be required. Individual attention will be given on methods of research and techniques of writing. This course is intended to serve as an introduction to future research at the M.A. and Ph.D. levels.
Prerequisite(s): FREN*2020, FREN*2030, FREN*2060, FREN*3520. 70% average in all French Studies course attempts is required, although at least 75% is recommended.
Restriction(s): Instructor consent required.

FREN*4750 Creative Writing in French S,F,W (3-0) [0.50]
The development and revision of a major work of creative writing in French (fiction, poetry, or drama), under the supervision of a faculty member will be required.
Prerequisite(s): FREN*2020, FREN*2030, FREN*2060, FREN*3520, FREN*4740. 70% average in all French Studies course attempts is required, although at least 75% is recommended.
Restriction(s): Instructor consent required.

FREN*4770 Research Paper in French Studies II S,F,W (3-0) [0.50]
A research paper in French on an approved topic in French literature or language will be required. Individual attention will be given on methods of research and techniques of writing. This course is intended to serve as an introduction to future research at the M.A. and Ph.D. levels.
Prerequisite(s): FREN*2020, FREN*2030, FREN*2060, FREN*3520, FREN*4740. 70% average in all French Studies course attempts is required, although at least 75% is recommended.
Restriction(s): Instructor consent required.

**Prerequisite(s):** FREN*2030, (1 of FREN*3230, LING*1000 or permission of the department)
**Geography**

Department of Geography

Students majoring in other departments may take a number of Geography courses without the prerequisites listed below if they obtain the permission of the instructor.

Note: Several courses in Geography are listed as acceptable for the Natural and Mathematical Science B.A. Distribution Requirements or as Non-Science Electives for B.Sc. students.

For courses without a semester designation, or with an alternate year designation, please check with the department.

---

**GEOG*1200 Society and Space F,W (3-0) [0.50]**

This course introduces key concepts in contemporary Human Geography. The course applies a spatial perspective in exploring a wide ranging series of processes and issues in society. Topics include population growth and migration, models and challenges of urban and rural development, interpretation of cultural landscapes and selected issues relating to social welfare. (Also offered through distance education format.)

**GEOG*1220 Human Impact on the Environment F,W (3-0) [0.50]**

A global overview of the changing relationships among society, technology and the environment. This course emphasizes the major stages of human use of resources and the environmental consequences of global changes in production systems. It contrasts Third and First World experiences, focusing on core-periphery relationships. (Also offered through distance education format.)

**GEOG*1300 Introduction to the Biophysical Environment F,W (3-2) [0.50]**

An introduction to Physical Geography. The principles and processes governing climate-landform-soil-vegetation systems and interrelationships. Natural and human-induced changes to environmental systems. Laboratories will address techniques of measurement, representation and analysis of environmental systems through maps, air photographs, remote sensing and field observations. (Also offered through distance education format.)

Restriction(s): GEOG*1350

**GEOG*1350 Earth: Hazards and Global Change F,W (3-0) [0.50]**

An introduction to the principles and processes governing climate-landform-soil-vegetation systems and interrelationships. Natural and human-induced changes to environmental systems through the examination of natural hazards and global climate change.

Restriction(s): GEOG*1300

**GEOG*2000 Geomorphology F (3-2) [0.50]**

This is an introduction to geomorphology emphasizing weathering, slope and fluvial processes within drainage basins, and glacial and periglacial processes. Field and laboratory techniques will be applied.

Prerequisite(s): 1 of GEOG*1300, GEOG*1350, GEOL*1050, GEOL*1100

**GEOG*2030 Political Ecology & Geography F (3-0) [0.50]**

This course examines the changing world political map and relations between society and ecology from the perspective of intra- and inter-state structures and processes. Territorial restructuring, international law, environmental movements, localization and globalization are considered. Particular attention is paid to ecological and development processes and strategies in various parts of the world.

Prerequisite(s): 5.00 credits, GEOG*1220 is recommended

**GEOG*2110 Climate and the Biophysical Environment W (3-1) [0.50]**

The interrelationships between the atmosphere, lithosphere, hydrosphere, and biosphere to produce distinct physical landscapes (climates, soils, vegetation). Emphasis on the role of climate and the flows of energy, water, and biogeochemicals.

Prerequisite(s): GEOG*1300 or GEOG*1350

**GEOG*2210 Environment and Resources W (3-0) [0.50]**

This course examines the interrelationships between people and biophysical processes. The main themes are: 1) characteristics of natural resources and processes through which they are developed and used and 2) human response to environmental conditions, including natural hazards and global change. Contemporary Canadian case studies will be presented at the regional and national scales. (Also offered through distance education format.)

Prerequisite(s): GEOG*1220 is recommended

**GEOG*2220 Economic Geography F (3-0) [0.50]**

An introduction to the spatial distribution of economic activity. The course examines patterns, processes and problems in extractive activities, manufacturing, marketing and the service sector, including the transportation of commodities and people. The principles of economic location are applied to regional economic analysis and development.

Prerequisite(s): GEOG*1200

**GEOG*2260 Applied Human Geography W (3-2) [0.50]**

This course introduces students to the geographical research process, guiding them through key methodological issues and techniques in human geography. The lab component of the course focuses on data collection using secondary documents, surveys, interviews, and the application of critical and qualitative analysis techniques. Lab assignments and class illustrations draw on a range of topics in human geography.

Prerequisite(s): GEOG*1200 or (ANTH*1150 and GEOG*1220)

**GEOG*2420 Aerial-photo Interpretation F (2-3) [0.50]**

An introduction to the principles and techniques of air photo interpretation and elementary photogrammetry. Topics include stereoscopic viewing, parallax, flightline planning, and mapping from air photos. Lab exercises focus on specific applications in natural habitats and in rural and urban settings.

Prerequisite(s): 0.50 credits in geography and/or earth science

**GEOG*2460 Analysis in Geography F (3-2) [0.50]**

The application of modern techniques to geographic study. The interpretation of geographic phenomena by objective methods. Major honours students in Geography must complete this course by the end of semester 4.

Prerequisite(s): 0.50 credits at the 1000 level in Geography

**GEOG*2480 Mapping and GIS W (3-2) [0.50]**

An introduction to the theory and techniques of manipulating and displaying spatial data in a GIS (Geographic Information System). Mapping concepts such as scale, co-ordinate systems, map projections, symbolization and vector data encoding are introduced. Major honours students in Geography must complete this course by the end of semester 4.

Prerequisite(s): 5.00 credits

**GEOG*2510 Canada: A Regional Synthesis W (3-0) [0.50]**

This course is designed to provide a better understanding of the nature and basis of Canadian regionalism. The first section of the course stresses the biophysical base and the inequality of the natural resource endowment. The historical geographic approach and the systematic overviews of contemporary Canada stress respectively the development and nature of the Canadian space-economy. The final section on regions, regionalism and nationalism provides an overview of the heartland-hinterland dichotomy and centrifugal and centripetal forces operative in the nation.

**GEOG*3000 Fluvial Processes F (3-2) [0.50]**

This course examines processes and landforms associated with rivers. Particular emphasis is placed on the interaction between water and sediment movement and channel morphology. Case studies of human impact on river systems are presented.

Prerequisite(s): GEOG*2000, GEOG*2460 or STAT*2040

**GEOG*3020 Global Environmental Change F (3-1) [0.50]**

Major global environmental issues examined include climate change, deforestation, desertification and global fisheries. This course is interdisciplinary, exploring the interactions of bio-physical processes with human socio-economic dynamics, including policy initiatives. Particular attention is given to global climate change, its causes, its nature and extent, its implications for ecosystems and societies, and its governance implications. (Also offered through distance education format.)

Prerequisite(s): 7.50 credits, (GEOG*2210 recommended)

**GEOG*3050 Development and the City W (3-0) [0.50]**

This course examines different theoretical and policy perspectives of urbanization and urban development, as well as social, economic and environmental living conditions in cities of the global "south". It refers to concrete examples of cities in their national and international context, paying due attention to diversity and the fluidity of urban-rural boundaries. Specific urban development issues, including migration, housing, employment, health and environment are also addressed.

Prerequisite(s): 7.50 credits, (GEOG*2030 and GEOG*2260 recommended)

**GEOG*3090 Gender and Environment F (3-0) [0.50]**

This course introduces feminist scholarship and perspectives to explore men and women's experiences with both the natural and built environment. The course draws on case studies from developing and developed countries to demonstrate the importance of gender difference in understanding human interactions with the environment. Students will observe gendered use, access, knowledge, responsibility and control in rural and urban landscapes.

Prerequisite(s): 7.50 credits, (GEOG*2210 and GEOG*2260 recommended)

**GEOG*3110 Biotic and Natural Resources F (2-2) [0.50]**

This course focuses on the ecological basis for resource management, evaluates a number of current ecological theories and addresses their implications for resource management.

Prerequisite(s): (GEOG*2460 or STAT*2040), (1 of BIOL*2060, BOT*2050, ENVB*2030, GEOG*2110)
GEOG*3120 Management of the Biophysical Environment F (3-0) [0.50]
An examination of resource management, focusing on public and private decision-making processes. Consideration of techniques for evaluating resources, including EIA and risk analysis. Emphasis is on the economic, social and environmental implications of resource development and use. Contemporary Canadian case studies will be presented at appropriate scales. (Also offered through distance education format.)
Prerequisite(s): 7.50 credits including (ENVS*2010 or GEOG*2210)

GEOG*3320 Agriculture and Society F (3-0) [0.50]
This course adopts a geographical perspective in exploring the structure and functioning of agriculture and food systems in contemporary society. Particular attention is paid to the interaction of farms with the social, economic, institutional and environmental forces that combine to shape local types and regional patterns of agricultural activity. The concept of sustainability is used as an integrating theme for the consideration of selected issues.
Prerequisite(s): 7.50 credits

GEOG*3420 Remote Sensing of the Environment W (2-3) [0.50]
This course explores the nature and acquisition of remotely sensed imagery, and provides students with the technical expertise required to process and interpret this type of digital data. The application of digital image processing techniques to analyzing geographic problems is stressed, and its integration in a Geographic Information Systems (GIS) environmental is demonstrated.
Prerequisite(s): 10.00 credits including GEOG*1300

GEOG*3480 GIS and Spatial Analysis F,W (3-3) [0.50]
This course focuses on the use of raster and vector-based geographic information systems to analyze spatial data. Topics include map digitizing, data query and overlay, spatial interpolation, multi-criteria evaluation, least cost pathway determination and digital elevation models. This course requires some familiarity with numerical methods and computer operations.
Prerequisite(s): 10.00 credits, including GEOG*2480

GEOG*3490 Tourism and Environment W (3-0) [0.50]
An integrative perspective on tourism, addressing diverse interactions between people and tourist resources. Emphasis is on experiences derived from the use of resources, the environmental, economic and cultural impacts of tourism, and approaches to managing these impacts. (Also offered through distance education format.)
Prerequisite(s): 7.50 credits

GEOG*3600 Geography of a Selected Region U (3-0) [0.50]
The study of an area which will include topics in physical, economic, social and historical aspects of geography.
Prerequisite(s): 7.50 credits

GEOG*3610 Environmental Hydrology W (3-1) [0.50]
An introductory course in hydrology, the study of water in the environment. Emphasis is placed on understanding and modeling the hydrologic cycle. Topics include hydrologic processes, water resources, and case studies of freshwater systems.
Prerequisite(s): 7.50 credits, (GEOG*2460 or STAT*2040), (1 of GEOG*2000, GEOG*2110, or another 2000 level earth science or engineering science course is recommended)

GEOG*3620 Desert Environments F (2-2) [0.50]
This course investigates the interrelationships among various biophysical processes that control weathering rates, sediment transport and landform/landscape development in arid environments. Topics will include: the concept of desertification, use and misuse of surface and ground water, salinization and the effect of human disturbance on landscape development. (Offered in even numbered years.)
Prerequisite(s): 7.50 credits, (GEOG*2460 or STAT*2040), (1 of GEOG*2000, GEOG*2110, or another 2000 level earth science or engineering science course is recommended)

GEOG*4110 Environmental Systems Analysis F (3-1) [0.50]
An integrated systems approach to solving issues of environmental evaluation, impact and development. Focus will be on the biophysical components of the environment.
Prerequisite(s): GEOG*3110 or GEOG*3610

GEOG*4150 Sedimentary Processes W (3-2) [0.50]
This course examines the basic properties and flow characteristics of fluids that control the entrainment and transport of sediment by air and water. Bedform development in fluvial, coastal and aeolian environments are also discussed in relation to fluid flow mechanics. Lectures are complemented by weekly labs using the wind tunnel, flume and wave tank.
Prerequisite(s): GEOG*3000

GEOG*4200 Seminar in Urban Geography W (3-0) [0.50]
Many of the traditional features of cities are changing in light of powerful forces of globalization. The course examines spatial patterns and processes of economic restructuring, social dynamics and political change in Canadian and non-Canadian cities. Students discuss and interpret evolving urban forms from a geographical perspective.
Prerequisite(s): GEOG*2260, (GEOG*3050 recommended)
Restriction(s): GEOG*3400

GEOG*4210 Environmental Governance F (3-1) [0.50]
This course provides an opportunity for advanced studies in resource and environmental governance. A central aim is developing an understanding of principles, practices and emerging issues relating to environmental governance.
Prerequisite(s): GEOG*3210

GEOG*4220 Local Environmental Management W (3-0) [0.50]
This course explores local environmental management from two perspectives: state-driven (where local government agencies or forums created by governments are used) and non-state driven (where local actors come together in new governance arrangements to undertake environmental management). Through comparing and contrasting these broad perspectives in an experiential learning setting, the course builds understanding of a key trend in environmental governance.
Prerequisite(s): GEOG*3210

GEOG*4250 Coastal Processes F (3-1) [0.50]
This course examines the geomorphic processes and associated landforms found in the coastal zone. Initially the focus is on developing an understanding of the major controls on coastal erosion and sediment transport, including waves, nearshore currents and water level fluctuations. This is followed by the study of features and processes in selected coastal environments such as beaches, barrier islands and spits, coastal sand dunes and bluff coasts. In each case applications to problems of coastal management are introduced.
Prerequisite(s): 1 of GEOG*3000, GEOG*3610, GEOG*3620

GEOG*4390 Seminar in Rural Geography F (3-0) [0.50]
This course surveys themes and issues in contemporary rural geography. Specific attention is given to the processes of restructuring and change in rural systems in Canada and other developed economies. Themes include transformations in the use of rural land, the new rural economy, restructuring in service delivery, and the sustainability of rural communities and systems.
Prerequisite(s): GEOG*2260, GEOG*3320

GEOG*4480 Applied Geographic Information Systems W (3-2) [0.50]
This course adopts a project-oriented approach to the application of Geographic Information Systems (GIS) in spatial analysis. Students will have the opportunity to design and implement a research project using GIS techniques to investigate a problem in any area of Geography.
Prerequisite(s): GEOG*3480

GEOG*4690 Geography Field Research F (3-6) [1.00]
This course provides an opportunity for senior students to develop skills in the design, implementation and presentation of a field research project. The course involves a field trip of about 10-14 days, either in Canada or abroad. This component of the course takes place between the end of the summer session and the start of classes in the fall semester. Classes during the fall semester focus on the analysis and interpretation of data and incorporate student research seminars. Information on the location and cost of the field research course is available from the department in the winter semester prior to each fall offering.
Prerequisite(s): 12.50 credits
Restriction(s): Restricted to majors in Geography B.A. and B.Sc.(Env.) and in Earth Science (B.Sc.) with an overall average of at least 70% at the time of registration.

GEOG*4850 Contemporary Geographic Thought W (3-0) [0.50]
A critical overview of the evolution and current status of Geography. Particular emphasis will be given to the variety of approaches and convergence and divergence within the discipline. The interaction between human and physical geographers and their approaches to issues and the subject will be analyzed.
Restriction(s): Restricted to major honours students in Geography at semester 6 or above.

Geology

Department of Land Resource Science

GEOL*1050 Geology and the Environment F (2-3) [0.50]
Geological materials, their origin, recognition and economic potential, use and location, oil and gas, coal, mineral deposits, aggregate resources, groundwater. Geological basis for environmental evaluation and land use. Emphasis on local and North American examples.

GEOL*1100 Principles of Geology F,W (3-0) [0.50]
Introduction to geological principles, their historical development and application to interpreting Earth materials and processes. Suitable for those wishing a general knowledge of earth sciences. (Also offered through distance education format.)
Restrictions: GEOL*1040, UNIV*1030. May not be taken for credit by students in B.Sc.(Env.) Earth and Atmospheric Science Major, or B.Sc. Degree program.

GEOL*2020 Stratigraphy F (3-0) [0.50]
Principles of recognizing and interpreting earth surface environments using examples from geology, geomorphology and archeology. Brief summary of sediment identification, recognition of processes and environments. Section description and interpretation followed by principles of physical correlation and facies interpretation. Concepts of physical, biological and radiometric dating. Controls on stratigraphic sequence development - isostasy, eustasy and tectonics. Sedimentary basin development, interpretation and history involving changes in atmosphere, hydrosphere and biosphere. (Offered in even-numbered years.)
Prerequisites: 1 of GEOL*1050, GEOL*1100, GEOG*1300, GEOG*1350 or equivalent.

GEOL*2110 Earth Material Science F (3-3) [0.50]
Minerals are the building blocks of rocks, and rocks are the basis of the earth's crust. The nature, classification and recognition of the common rocks and minerals and their chemical and physical transformations is dealt with. Emphasis is on the role that minerals and rocks play in determining the abiotic character of earth-surface environments.
Prerequisites: GEOL*1050 or SOIL*2200.

GEOL*2160 Glacial Geology W (3-0) [0.50]
Identical to GEOL*2200 but without laboratory. Lectures taken with GEOL*2200.
Prerequisites: 1 of GEOG*1300, GEOL*1050, GEOL*1100, SOIL*2010
Restrictions: GEOL*2150, GEOL*2200.

GEOL*2200 Glacial Geology W (3-0) [0.50]
This course is designed to give students an introduction to the processes, landforms and deposits of glacial environments. This includes basic principles of glaciology, the landforms and deposits found in various glacial and periglacial environments, and the nature of past glaciations in Earth history. Ancient to recent glacial deposits from the Great Lakes region and other international locations will be examined. A field trip will be scheduled.
Prerequisites: 1 of GEOG*1300, GEOL*1050, GEOL*1100, SOIL*2010, AGR*2001, CHEM*1050, GEOG*1300, GEOL*1050, GEOG*1300.
Restrictions: GEOL*2150, GEOL*2200.

GEOL*2250 Geology of Natural Disasters S (3-0) [0.50]
This course will offer insight into the mechanisms of natural geological disasters and their effects on Planet Earth, human civilization and life in general. Events before, during and after geological disasters such as earthquakes, volcanic eruptions, meteorite impact and climate change will be the focus of this course. This course will not count as a science credit for B.Sc. students. (Offered through distance education format only.)
Prerequisites: 1 of GEOG*1300, GEOG*1350, GEOL*1050, GEOL*1100
Restrictions: GEOL*2160, GEOL*2150.

GEOL*3060 Groundwater W (3-0) [0.50]
This course provides an overview of the physical and chemical processes that operate in the groundwater zone under natural and human-induced conditions. The interrelations between the groundwater regime and the other components of the hydrological cycle are studied. Considerable emphasis is placed on the applied aspects of topics such as exploration, testing and development of aquifers for water supply, the chemical quality of groundwater, and the hydrogeological aspects of waste disposal.
Prerequisites: 1 of IPS*1110, MATH*1000, MATH*1080, MATH*1200

GEOL*3090 Applied Structural Geology W (3-0) [0.50]
Systematic study of structural elements of the earth crust. Introduces concepts on the distribution, origin and structural development of the major landforms in North America and other continents (plate tectonics). The course provides examples of structural geology applied to engineering, environmental geology, and ore geology. Hands-on experience on deformation analysis, slope stability and interpretation of structures during the field trip and in classroom simulations. (Offered in odd-numbered years.)
Prerequisites: GEOL*1050, suitable geomorphology credit.

GEOL*3100 Non-Renewable Earth Resources W (3-0) [0.50]
An analysis of processes leading to formation and accumulation of principal non-renewable metallic and non-metallic mineral and fuel resources. Methods of extraction and processing, economic assessment, environment problems associated with resource development. Field trips may be scheduled. (Offered in even-numbered years.)
Prerequisites: GEOL*1050, 0.50 credits at the 2000 level in geology or geomorphology.

GEOL*3120 Paleontology W (3-0) [0.50]
Basic principles of analysis of fossil communities (mostly marine). Students should already know the basic biology of common marine invertebrates. Sediment analysis and process interpretation to determine paleoenvironments. Analysis of fossil preservation, autecology and population structures of species; community paleoecology of selected fossil assemblages. Simple paleobiogeography and basics of community evolution through time. Stages in the evolution of marine and continental ecosystems possible causes including physical (sea-levels, meteorite impacts) and biological (predation, evolution) components. This is not a 'history of life' course. (Offered in even-numbered years.)
Prerequisites: ZOO*2070.

GEOL*3130 Agrogeology W (3-0) [0.50]
Inter-disciplinary course: soil, crop and horticultural sciences; international development. The geological basis of farming, application of agrominerals, such as phosphates, limestones, gypsums, as well as fertilizers in agriculture and horticulture. Evaluating the environmental effects of mining/processing of agrominerals and the use of fertilizers. Case studies and experiences from around the world.
Prerequisites: 1 of AGR*2301/2, GEOL*1050, SOIL*2010, SOIL*2200.

GEOL*3190 Environmental Water Chemistry F (3-0) [0.50]
An examination of the chemical composition of both natural and contaminated waters at the earth's surface and the interaction of these waters with soils and sediments. The significance of these interactions will be studied with respect to the mobility of organic and metallic constituents in geochanical cycles and as contaminants in the environment.
Prerequisites: 1 of CHEM*1010, CHEM*1050, CHEM*1310.

GEOL*3250 Field Methods in Geosciences F (2-2) [0.50]
This course is designed to provide experience in field methods and applied aspects of Earth surface science. The field camp portion will focus on geological mapping skills, while the rest of the term will be spent on developing a consulting proposal for a field-based project. Other topics covered will be project design, proposal writing, oral communication skills and ethics of field-based research. Students are required to notify the designated departmental instructor of their intention to participate in this course during the previous Winter semester. There will be a fee to cover partial costs in this course; students in financial need should approach the Chair of the department.
Prerequisites: GEOL*1050, GEOG*2000, (GEOL*2150 or GEOL*2200)
Restrictions: Restricted to Earth Surface Science Majors. Instructor consent required.

GEOL*4090 Sedimentology F (3-0) [0.50]
Origin, transport, deposition of sediments, and formation of sedimentary rocks. Emphasis will be on the interpretation of recent and ancient environments of deposition, and on the uses of sedimentary materials. Six laboratories will be scheduled as field trips. One Saturday field trip may be scheduled. (Offered in even-numbered years.)
Prerequisites: GEOL*1050, GEOG*2000, (GEOL*2150 or GEOL*2200)
Restrictions: Restricted to Earth Surface Science Majors. Instructor consent required.

GEOL*4110 Topics in Earth Science F,W (3-0) [0.50]
Lecture-discussion or seminar on selected topics in Earth Science to be conducted by faculty with expertise in the area. Students should check with the department to determine what topic, if any, will be offered during specific semesters. Field trips will be scheduled as required.
Prerequisites: GEOL*1050 or GEOL*1050, 0.50 credits at the 3000 level in the GEOG*XXXX or GEOL*XXXX grouping or equivalent.
Restrictions: Instructor consent required.

GEOL*4120 Topics in Earth Science F,W (3-0) [0.50]
Lecture-discussion or seminar on selected topics in Earth Science to be conducted by faculty with expertise in the area. Students should check with the department to determine what topic, if any, will be offered during specific semesters. Field trips will be scheduled as required.
Prerequisites: GEOL*1050 or GEOL*1050, 0.50 credits at the 3000 level in a science appropriate to chosen topic
Restrictions: Instructor consent required.
GEOL*4130 Clay and Humic Chemistry W (3-2) [0.50]

This course is a study of the fundamental chemistry of clay minerals and humic substances in the environment, with particular reference to soils, sediments and waters. Emphasis will be placed on their structures and charge characteristics in the context of surface complexation modeling of proton binding and cation and anion adsorption. (Offered in even-numbered years.)

Prerequisite(s): SOIL*3060 or GEOL*3190
## German Studies

### School of Languages and Literatures

**NOTE:** The School reserves the right to determine the appropriate level to be taken by students enrolling in language courses.

**GERM*1100 Introductory German** F,W (3-1) [0.50]

A beginning course in German. Students will attain a basic knowledge of the language and practice all four language skills (listening, speaking, reading, writing). They will also learn about aspects of German culture. This course may not normally be taken by anyone who has Grade 12U or OAC German.

**GERM*1110 Introductory German II** F,W (3-1) [0.50]

An intensification of the four language skills introduced in GERM*1100. Students will attain a grasp of essential grammatical concepts and the ability to converse comfortably in everyday situations. This course may not normally be taken by anyone who has Grade 12U or OAC German.

**Prerequisite(s):** GERM*1100 or equivalent

**GERM*2240 Germany Through the Ages** W (3-0) [0.50]

A survey of German history, society and culture illustrated by art, music, film and literature. This course is taught in English.

**GERM*2400 Contemporary Germany** W (3-0) [0.50]

A multimedia approach to contemporary German culture, 20th-century history and recent political events. Emphasis on oral work in German.

**Prerequisite(s):** GERM*1110 or equivalent

**GERM*2490 Intermediate German I** F (3-1) [0.50]

This course will include systematic oral and written practice, discussion of contemporary texts, and comprehensive grammar review.

**Prerequisite(s):** Grade 12U German or GERM*1110

**GERM*2500 Intermediate German II** W (3-1) [0.50]

Further development of conversational and writing skills; introduction to more complex grammar.

**Prerequisite(s):** GERM*2490 or equivalent

**GERM*2560 Themes in German Literature/Culture** W (3-0) [0.50]

This course aims to provide students with basic skills for interpreting literary texts through an exploration of themes that have shaped German literature and culture. Note: Students intending to take both GERM*2560 and GERM*2590 should take GERM*2560 before GERM*2590.

**Prerequisite(s):** GERM*2490 or permission of the instructor

**GERM*2590 Classics of German Literature** F (3-0) [0.50]

This course is designed to introduce students to German literary texts which could be considered classics. Note: Students intending to take both GERM*2560 and GERM*2590 should take GERM*2560 before GERM*2590.

**GERM*3020 Myth and Fairy Tales in Germany** F (3-1) [0.50]

The course explores the role of mythology, fairy tales and legends in late 18th- and 19th-century German literature and culture in the context of socio-political developments. Topics may include the formation of a national identity, the allegorical fairy tale and its role in Romanticism, women and the fairy tale, the fairy tale and the socialization of children (incl. Disney), romantic mythology in music, art and literature. Authors may include Goethe, Brothers Grimm, ETA Hoffman, Wagner. Lectures and texts are in English. Students registered in GERM*3020 will meet a fourth hour per week to discuss texts in German. This course is offered in conjunction with HUMN*3020. (Offered in even-numbered years.)

**Prerequisite(s):** GERM*2560, GERM*2590

**Equate(s):** HUMN*3020

**Restriction(s):** GERM*3440, HUMN*3440

**GERM*3450 20th-Century German Literature and Film** F (3-1) [0.50]

Trends and cultural movements that have shaped the 20th-century as reflected in works of major writers (e.g. Mann, Kafka, Grass, Wolf) and film directors (e.g. Fassbinder). This course is offered in conjunction with HUMN*3450. Lectures are in English. Students registered in GERM*3450 will meet a fourth hour per week to discuss texts in German. (Offered in even-numbered years.)

**Prerequisite(s):** GERM*2560, GERM*2590

**Restriction(s):** HUMN*3450

**GERM*3460 Women in 18th & 19th Century German Lit.** W (3-1) [0.50]

This course is a study of changing images and social roles of women as represented in literary texts by and about women. It will consider the contribution of women to the literary life and cultures of German speaking countries and explore myths and misconceptions regarding women by addressing questions of image and reality. Lectures and texts are in English. Students registered in GERM*3460 will meet a fourth hour per week to discuss texts in German. This course is offered in conjunction with HUMN*3460 (Offered in even-numbered years)

**Prerequisite(s):** GERM*2560, GERM*2590

**Restriction(s):** HUMN*3460

**GERM*3470 Holocaust & WWII in German Lit. & Film** W (3-1) [0.50]

This course focuses on texts and films pertaining to World War II and the Holocaust, the development of the thoughts and the language of genocide, and the representation of the Holocaust in literature and films. The objective is to gain an understanding of the ideas and emotions underlying ethnocentrism and anti-Semitism, and to consider artistic responses to the experience of persecution and mass-murder. Lectures and discussions are in English. Lectures and discussions are in English. Students registered in GERM*3470 will meet a fourth hour per week to discuss texts in German. This course is offered in conjunction with HUMN*3470 (Offered in odd-numbered years) (First offering - Winter 2009)

**Prerequisite(s):** GERM*2560, GERM*2590

**Restriction(s):** HUMN*3470

**GERM*3500 Advanced German** F (3-0) [0.50]

A study of advanced German grammar as well as aspects of structure and style of the German language. Oral presentations and discussions with a special emphasis on essay writing. Translation into idiomatic German and English.

**Prerequisite(s):** GERM*2500

**GERM*3530 German in the Workplace** W (3-0) [0.50]

This course is designed to enable students to communicate and interact appropriately in professional and business situations.

**Prerequisite(s):** GERM*2500 or equivalent

**GERM*3600 Directed Readings in German Studies** U (3-0) [0.50]

A reading course in German language or literature, leading to an end-of-term research paper.

**Prerequisite(s):** Instruct or consent required.

**GERM*4940 Research Paper in German Studies** U (3-0) [0.50]

A reading course on some approved topic in German language or literature, leading to an end-of-term research paper.

**Prerequisite(s):** Instructor consent required.

**GERM*4940 Research Paper in German Studies** U (3-0) [0.50]

A reading course in German language or literature, leading to an end-of-term research paper.

**Prerequisite(s):** Instructor consent required.
Greek

School of Languages and Literatures

NOTES: Literary texts are, at all levels, studied in the original language. Students registering in these courses will be expected to have the appropriate knowledge. Higher level courses in Greek are available as language modules attached to selected Classical Studies courses. (See Classical Studies course descriptions.)

History

Department of History

Students wishing to take a 3000 level course must have passed standing in at least 4.50
university credits.

Students wishing to take a 4000 level course must have passed standing in at least 10.00
credits. Access to all 4000 level courses is restricted to students in the B.A. Honours
program with a minimum 70% average in all history course attempts.

Students should note the prerequisite requirements for upper level courses in planning
their individual programs.

Content of individual courses may vary depending on the instructor; students therefore
should check course outlines at the time of course selection.

Courses marked (C) are core courses required of all History program students.

Courses marked (H) are honours courses. Students in a general program wishing to take
these must obtain the permission of instructors concerned.

HIST*1010 Europe and the Early Modern World F,W (3-0) [0.50]
This course will deal with the evolution and expansion of European society during the
pre-industrial era. Commencing with the upheavals of Renaissance and Reformation it
will survey such themes as the voyages of exploration, the impact of western culture on
indigenous societies, the development of commercial capitalism, the transformation of
science and technology and the conflict between imperial powers in Europe and overseas.

HIST*1150 20th-Century Global History F,W (3-0) [0.50]
A comparative survey of the histories of England, Scotland, Ireland and Wales during the
Medieval and Early Modern eras. Stress will be placed upon common themes such as
institutional development, warfare and the often violent interaction between the English
and the Celtic peoples.

HIST*1250 Science and Society Since 1500 F,W (3-0) [0.50]
This course is intended as an introduction to the history of science and its interrelationships
with society in the western world since 1500, including its influence on the environment,
religion, economics and political developments, warfare, etc. Particular emphasis will be
placed upon scientific developments in the 19th and 20th centuries.

Restriction(s): ASCI*1000

HIST*2000 The British Isles, 1066-1603 S,F (3-0) [0.50]
A comparative survey of the histories of England, Scotland, Ireland and Wales during the
Middle Ages and Early Modern eras. Stress will be placed upon common themes such as
institutional development, warfare and the often violent interaction between the English
and the Celtic peoples.

HIST*2020 Film as History W (2-1) [0.50]
This course will consider film both as a source and as a comment on the past. Topics will
vary depending on instructor expertise, and may include film as propaganda, the city in
film, film as myth, women and gender in film, film and war.

HIST*2040 War and Society W (3-0) [0.50]
Concentrating on developments following the introduction of gunpowder, the course will
consider the evolution of military strategy and tactics, the impact of technology on warfare,
and the relationship between war and civilian populations.

HIST*2070 World Religions in Historical Perspective W (3-0) [0.50]
This course introduces students to the comparative study of religion in history and the
interaction of religion with general social and cultural trends over time. A focus on the
cultural roots of specific traditions and religion as a metaphor will account for the spread
of these diverse traditions across social and national boundaries. This course will consider
eastern religions, primal religions, 'People of the Book' (Judaism, Christianity and Islam)
considered together, and the 'New Religious Movements' (a category considering religions
and para-religions produced by modernity). (Offered through distance education format only).

HIST*2100 Pre-Conference Canada F (3-0) [0.50]
A study of selected events and issues in pre-Conference Canadian history including
political, economic, social, and cultural developments (C).

Restriction(s): HIST*2601/2

HIST*2110 The Atlantic World 1500-1850 F (3-0) [0.50]
A study of the comparative histories of colonial societies of England, France, Spain and
Portugal in a transatlantic context. This course will compare for regional interconnections
as well as the uniqueness of each society.

HIST*2150 U.S.A.: Revolution to Reconstruction F (3-0) [0.50]
History of the United States from 1760 to 1877. The course will consider themes such as
the creation of a national identity, sectionalism and Civil War, immigration, and the
growth of modern American society.

HIST*2200 The Medieval World W (3-0) [0.50]
The major events and developments in Europe, north Africa and Western Asia from the
fall of the Roman Empire to 1500 a.d. Emphasis will be placed on the evolution of western
Christianity, the rise and expansion of Islam, the emergence of the University, and the
growth of literacy and print culture culminating in the humanist movement of the late
Middle Ages.

HIST*2250 Environment and History F,W (3-0) [0.50]
An introduction to the field of environmental history - its nature and uses. This course
provides a historical perspective to environmental issues. It examines the causes and
impact of human-induced modification of the natural world in selected areas of the globe,
the evolution of attitudes and ideas about the natural world over time and the growth of
conservation/environmental issues and movements. (Also offered through distance
education format.)

HIST*2260 Religion and Society W (3-0) [0.50]
This course surveys the major trends in religious beliefs and practices and their social
impact since the Reformation. The focus of the course is on the British Isles and North
America with some discussion of developments in Continental Europe.

HIST*2390 Imperial and Soviet Russia Since 1800 W (3-0) [0.50]
An introductory survey of Russian History from the death of Catherine the Great to the onset
of World War II. This course will focus on efforts by Russian rulers to modernize the
Empire's social and economic institutions in response to Western influence. (Offered in odd-numbered years.)

HIST*2450 The Practicing Historian F,W (3-0) [0.50]
A course designed to acquaint students with the development of historical writing, the
interpreting problems surrounding the study of history, and the methods employed by
historians. (C) (Also offered in distance education format.)

Prerequisite(s): 1.00 credits in history at the 1000 or 2000 level

HIST*2500 Britain and the World Since 1600 U (3-0) [0.50]
This course will survey the history of England and the Celtic Regions of the British Isles
from the close of the Tudor period up to the mid-20th century. Emphasis will be placed
on social and economic development before and after the Industrial Revolution as well as
on those political and military challenges which have characterized Britain's status as
a global power in the modern era.

HIST*2510 The Emergence of Modern European Society 1789-1945 F (3-0) [0.50]
This course will deal with the emergence of modern European society as the result of
eco-economic and consequent political changes from the French Revolution to the end
of World War II.

HIST*2600 Post-Conference Canada W (3-0) [0.50]
This course is a study of selected events and issues in post-Conference Canadian
history including political, economic, social, and cultural developments (C).

Prerequisite(s): HIST*2100

Restriction(s): HIST*2601/2

HIST*2610 Contemporary Canadian Issues S (3-0) [0.50]
A study of selected issues in modern Canadian history. The subjects investigated such
as natives, the environment, the state, the family, will vary with the expertise of the
instructor.

HIST*2650 America Since 1877 W (3-0) [0.50]
A survey of the history of the United States since Reconstruction. Political, social and
intellectual developments will be covered, as will the rise of America to world power.

HIST*2800 The History of the Modern Family W (3-0) [0.50]
An examination of the family since 1500 with particular emphasis on the English speaking
world, though comparisons will be made with other societies. Topics considered will
include: change in the legal structure of marriage; power relations and sex roles within
the family; the role of kin in the family; changing attitudes to sexuality; the attitude of
state to the family and its functions.

HIST*2820 Modern France, 1750-1992: From Louis XV to Mitterand U (3-0) [0.50]
This course is a survey of French history from the beginning of modernization in the
18th century to the challenges of the late 20th century. Topics will include the Revolution,
the Napoleonic period, social and political transformation in the 19th century, the Great
War, the defeat of 1940 and Vichy, and the remarkable changes in French life since the
Second World War.

HIST*2830 The Emergence of Modern Germany 1871-1990 U (3-0) [0.50]
This course will be devoted to a study of major themes in modern German history, and
an analysis of Germany's role in post-war Europe. Topics include the unification of
Germany, the role of nationalism in modern German history, the significance of the
Bismarck era, the rise of Hitler and the development of the two Germanies until their
unification in 1990.
HIST*2850 History of Greece and Rome W (3-0) [0.50]
The history of the Mediterranean World from prehistoric Greece through Classical Greece and Rome to the legalization of Christianity in the Roman Empire in the 4th century.

HIST*2890 History of the Islamic World F (3-0) [0.50]
An introduction to the history of Islam. The course will consider the founding of Islam, its global diffusion, and its role in the transformation of modern societies in the developing world.

HIST*2910 History of Modern Asia W (3-0) [0.50]
An introduction to the histories and cultures of South, Southeast and East Asia since 1750. The course will consider the evolution of Asian religions, cultural identities, concepts of state and of society in the modern era.

HIST*2920 Republican Latin America W (3-0) [0.50]
This course will study selected themes in the history of Latin American republics from the independence period to the modern era.

HIST*2930 Women and Cultural Change F (3-0) [0.50]
Using gender and ethnicity as the main categories of analysis, this course examines the history of women within one global geographical region such as Asia, South America and the Caribbean or North America. The roles women have played in political, economic and private life will be emphasized.

HIST*2940 Topics in the History of Slavery U (3-0) [0.50]
This course introduces students to slavery and the slave trades of the societies of the Atlantic Rim during the era of the Atlantic slave trade. The African experience of the trade constitutes a major focus, but the course also examines aspects of the Atlantic and the trans-Saharan slave trades as they affected societies on the other side of the Atlantic and in the Islamic Middle East. The course also examines the disputed links between the Atlantic slave trade and the rise of capitalism on the one hand and underdevelopment on the other.

HIST*3010 Political Culture in Britain, 1455-1689 U (3-0) [0.50]
An assessment of the transformation of British ideals of monarchy from the Wars of the Roses to the Glorious Revolution. The course will examine the changes in political thought in early modern Britain that emerged as a result of the Renaissance, Reformations, and Scientific Revolution.
Prerequisite(s): 4.50 credits including HIST*2650 or HIST*2910 or HIST*3590

HIST*3020 Sexuality and Gender in History U (3-0) [0.50]
This course provides an introduction to the issues of sexuality and gender within history. The course will enable students to develop an understanding of how issues of masculinity, femininity, and sexuality were developed and defined across cultures. HIST*3070 Modern South Asia U (3-0) [0.50]
This course studies the history of modern South Asia from 1757 to the present day. Possible topics include: ideologies of British power in South Asia, Indian reactions to imperialism, socio-religious movements, the birth of nationalism and the nation-state in South Asia, civil society and social issues in a developing nation, regionalism, foreign policy and South Asia's place in the 21st century.
Prerequisite(s): 4.50 credits including HIST*2910 or HIST*3590

HIST*3080 United States in the World U (3-0) [0.50]
This course is a study of the United States as a global phenomenon. Thematic topics will go beyond foreign policy and military history to include imperialism, immigration, globalization, 'race', gender, ethnicity, consumption tourism, and international cultural industries.
Prerequisite(s): 4.50 credits including HIST*2650

HIST*3090 Nationalism and Internationalism in Europe 1914-1957 U (3-0) [0.50]
This course will be concerned with two main themes of 20th-century European history: the impact of nationalism and the gradual emergence of international ideas and institutions. Major topics to be discussed include nationalism during the two world wars, the strengths and weaknesses of the League of Nations, and the creation of the European Economic Community.
Prerequisite(s): 4.50 credits including HIST*2510

HIST*3100 Popular Culture and Punishment, 1700-1900 U (3-0) [0.50]
The course will survey the social, political and intellectual influences upon the leisure activities of Europeans and Americans in the period with special reference to institutions such as the prison, the asylum, the reformatory and the regulation of popular culture and leisure activities. Witchcraft and the witch-hunt will be discussed.
Prerequisite(s): 4.50 credits including HIST*1010 or SOC*1500

HIST*3140 Witch-hunts and Popular Culture S (0-0) [0.50]
This course will explore the phenomenon of the 'witch-hunts' in early modern Europe through a focus on Scotland in the period 1560-1700. In doing so it will provide students with a background on the history of Scotland during the early modern period and introduce them to the considerable body of historical writing on the subject of the witch-hunts. In addition, students will explore notions of both elite culture and the 'popular culture' of those elements of society frequently neglected by historians. Due to the fact that the overwhelming majority of the accused witches were women, the course will include examinations of gender history and its contributions to our understandings of the period.
(Offered through distance education format only.)
Prerequisite(s): 4.50 credits including HIST*1010 or instructor consent required.

The physiology of fruiting and vegetative balance for managing wine quality in the vineyard will be integrated with basic wine-making practices and general oenological techniques. (Offered through Distance Education only.)</td>
<td>Prerequisite(s): AGR<em>2470 or BOT</em>2100</td>
</tr>
<tr>
<td>HORT*3350</td>
<td>Vegetable Production F (3-3) [0.50]</td>
<td>The vegetable industry and the characteristics, culture, storage and marketing of field-grown vegetable crops will be studied. Organic vegetable production will also be considered.</td>
<td>Prerequisite(s): BOT*2100</td>
</tr>
<tr>
<td>HORT*3400</td>
<td>Turf, the Environment and Society W (3-0) [0.50]</td>
<td>The course will explore the environmental impact of turfgrass management in urban and rural landscapes and society's perception of the how those areas should be used. Emphasis will be placed on the ecology of turfgrass systems and issues surrounding society's perception of management practices. The impact of public perception about the management and environmental impact of turfgrass areas in urban and rural landscapes will be discussed, including the issues surrounding the use and maintenance of turfgrass ecosystems. (First offering - Winter 2010)</td>

School of Hospitality and Tourism Management

**HTM*1000 Introduction to Hospitality and Tourism Management F (3-0) [0.50]**
A survey of the hospitality and tourism industry, with reference to its historical development, growth, organization, the management process, and the scope of the industry today.

**Equate(s):** HAFA*1000

**Restriction(s):** Registration in B.Comm. HAFA, HAFA Co-op or Tourism Management.

**HTM*2000 Hospitality Purchasing Management W (3-0) [0.50]**
This course introduces the management of the purchasing function in hospitality businesses as it applies to food, beverages, supplies, equipment, furnishings and services. The focus is on the process of managing the supply channel as well as on developing appropriate policies and procedures.

**Prerequisite(s):** 1 of HAFA*1000, HTM*1000, (ECON*1050, HAFA*2700), (ECON*1050, HTM*2700)

**Equate(s):** HAFA*2000

**Restriction(s):** Registration in B.Comm. HAFA, HAFA Co-op or Tourism Management.

**HTM*2030 Control Systems in the Hospitality Industry F,W (3-0) [0.50]**
This is a study of the policies and procedures required to control food, beverage and other products, payroll and other operating costs. Areas examined include such topics as cost behaviour and analysis, menu analysis, budget preparation and the interpretation of data.

**Prerequisite(s):** 1 of HAFA*1000, HAFA*2700, HTM*1000, HTM*2700

**Equate(s):** HAFA*2010

**Restriction(s):** Registration in B.Comm. HAFA, HAFA Co-op or Tourism Management.

**HTM*2050 Dimensions of Tourism F (3-0) [0.50]**
This course examines tourism as an amalgam of industries - transportation, accommodation, travel, trade and other facilitating services; follows a multidisciplinary approach in its analysis, organization, planning and control.

**Prerequisite(s):** HTM*2120

**Equate(s):** HAFA*3100 and HTM*3100

**Restriction(s):** Registration in B.Comm. HAFA, HAFA Co-op or Tourism Management.

**HTM*2070 Meetings and Convention Management F (3-0) [0.50]**
This course examines the sales, servicing and management of the meetings, events, conventions, exhibitions, and trade show industries. Emphasis is placed on both the supply (product and service providers) and demand (meeting and event managers) elements of the industry. The course focuses on the unique operational and managerial functions of this multifaceted component of the tourism and hospitality industry.

**Prerequisite(s):** HAFA*1000 or HTM*1000

**Restriction(s):** Registration in B.Comm. HAFA, HAFA Co-op or Tourism Management.

**HTM*2100 Lodging Operations W (3-0) [0.50]**
A study of the nature of unit operations in the various sectors of the lodging industry and of the functions and systems of lodging operations. Topics will include organization structure and responsibilities, sociotechnical systems and legal and security aspects.

**Prerequisite(s):** HAFA*1000 or HTM*1000

**Equate(s):** HAFA*2100

**Restriction(s):** Registration in B.Comm. HAFA, HAFA Co-op or Tourism Management.

**HTM*2120 Hospitality and Tourism Marketing I W (3-0) [0.50]**
This course discusses the hospitality and tourism marketing environment in Canada and all elements of the marketing planning process through the use of numerous up-to-date examples from all geographic areas and sectors of the tourism and hospitality industries. Students will gain a comprehensive understanding of the private and public sector stakeholders as well as the contemporary marketing challenges they face.

**Prerequisite(s):** HTM*1000

**Restriction(s):** Registration in B.Comm. HAFA, HAFA Co-op or Tourism Management.

**HTM*2150 Introduction to Canadian Business Management U (3-0) [0.50]**
An introductory course in the fundamentals of business management in Canada. Students will be exposed to the basic functions of business and management. This course will also cover small business and entrepreneurship, forms of business ownership, competing in the global business environment and the economic and political realities of business in Canada today. This course may not be taken for credit by Bachelor of Commerce students. (Offered through distance education format only.)

**Equate(s):** HAFA*2150

**Restriction(s):** B.Comm. students cannot take this course for credit.

**HTM*2170 Canadian Tourism Policy, Planning and Development W (3-0) [0.50]**
This course focuses on the various aspects of tourism planning, policy, and development in Canada. Topics covered include: reasons for development; tourism development as a strategy for urban revitalization; tourism's links to heritage conservation and regional development; sustainability and the adverse impacts of development; cultural considerations and community participation; and the importance of context for individual tourism projects.

**Prerequisite(s):** GEOG*1220, HTM*1000, HTM*2050

**Restriction(s):** Registration in B.Comm. HAFA, HAFA Co-op or Tourism Management.

**HTM*2200 Organizational Behaviour I F,W (3-0) [0.50]**
This course introduces organizational behaviour. It focuses on individual perception, learning, communication, motivation and decision-making as well as group effectiveness, problem-solving and decision-making. (Also offered through distance education format.)

**Prerequisite(s):** 5.00 credits

**Equate(s):** HAFA*2200

**Restriction(s):** ISS*2500, PSYC*3080. Priority Access course. Enrolment restricted to particular programs or specializations. See department for more information.

**HTM*2700 Introductory Foods F,W (3-2) [0.50]**
Scientific principles and their application to food preparation and food consumption. An integrated lecture and laboratory approach is used to study the chemical and physical properties of foods.

**Prerequisite(s):** 1 of Grade 12U Chemistry, OAC Chemistry, CHEM*1000, CHEM*1040, CHEM*1060, CHEM*1100

**Equate(s):** HAFA*2700

**Restriction(s):** Registration in B.Comm. HAFA, HAFA Co-op or Tourism Management, B.A.Sc. Applied Human Nutrition.

**HTM*2740 Cultural Aspects of Food F (3-0) [0.50]**
A survey of cultural influences on individual and group food habits and patterns. The course studies the selection and use of food; the development of food beliefs, attitudes and related behaviours within the context of cultural systems.

**Equate(s):** HAFA*2740

**HTM*3000 Human Resources Management F,W (3-0) [0.50]**
This course examines the essential human resource function of planning, staffing, employee training and development, employee assistance programs, the legal environment and employee maintenance in a variety of organizational settings. (Also offered through distance education format.)

**Prerequisite(s):** 1 of AGEC*2220, BUS*2220, FRHD*3060, HAFA*2030, HAFA*2200, HTM*2030, HTM*2200

**Equate(s):** HAFA*3000

**Restriction(s):** PSYC*3070. Priority Access course. Enrolment restricted to particular programs or specializations. See department for more information.
HTM*3030 Beverage Management F (2-2) [0.50]
This course provides students with knowledge of the beer, spirit, wine, coffee and soft
drinks industry and their importance in the hospitality environment. Course topics will
include product characteristics, purchasing, pricing, control, marketing and promotion,
trends and the responsible service of alcoholic beverages.
Prerequisite(s): 9.00 credits
Restriction(s): HAFA*4180 , HTM*4180 . Registration in B.Comm. HAFA, HAFA
Co-op or Tourism Management. Students must be of legal drinking age in Ontario.

HTM*3060 Lodging Management U (3-0) [0.50]
To explore and analyze the principles and practices of lodging management and related
sales activities. The management of and interaction among various divisions of lodging
operations are addressed, including general management, front office/housekeeping/engineering divisions, food and beverage operations, sales and
marketing, accounting and finance. Focus of the course is on communication both within
and among departments, divisions, and most importantly, with the consumer.
Prerequisite(s): HAFA*2100 or HTM*2100
Equate(s): HAFA*3060
Restriction(s): Registration in B.Comm. HAFA, HAFA Co-op or Tourism
Management.

HTM*3070 Hospitality and Tourism Management Accounting F,W (3-0) [0.50]
This course involves application of accounting principles to hospitality and tourism
accounting systems. It emphasizes the use of the uniform system of accounts for hospitality
and tourism operations, principles of internal control, payroll control, budgeting,
responsibility accounting and analysis of financial data. It is designed to assist the student
in relating accounting information to management decisions. Examples from all industry
segments will be used. (Also offered through distance education format.)
Prerequisite(s): AGEC*2220 or BUS*2220
Equate(s): HAFA*3070
Restriction(s): Registration in B.Comm. HAFA, HAFA Co-op or Tourism
Management.

HTM*3080 Hospitality and Tourism Marketing II F,W (3-0) [0.50]
This course focuses on major marketing decisions that hospitality managers face in
generating and sustaining demand for their products and services. Course content includes
marketing strategies and practices, segmentation and target marketing, positioning and
branding, pricing, promotions, personal selling, and distribution system decisions for all
hospitality and tourism related businesses.
Prerequisite(s): HTM*2120
Equate(s): HAFA*3080
Restriction(s): Registration in B.Comm. HAFA, HAFA Co-op or Tourism
Management.

HTM*3090 Foodservice Operations Management F,W (4-6) [1.00]
The application of managerial functions to foodservice operations with the emphasis on
the principles of food production and service in a commercial setting.
Prerequisite(s): ( HAFA*2030 or HTM*2030), ( HAFA*2700 or HTM*2700)
Equate(s): HAFA*3010 , HAFA*3090 , HAFA*3091/2
Restriction(s): Registration in B.Comm. HAFA, HAFA Co-op or Tourism

HTM*3100 Operations Analysis in the Hospitality and Tourism Industry W (3-0)
[0.50]
The analysis of operations in the hospitality and tourism industry with the aim of
improving productivity of resources will be covered. Specific areas to be studied include
the nature of productivity, the use of work study methods, the significance of statistical
concepts and the application of operations research techniques.
Prerequisite(s): STAT*2060
Equate(s): HAFA*3120
Restriction(s): Registration in B.Comm. HAFA, HAFA Co-op or Tourism
Management.

HTM*3150 Experiential Learning in the Hospitality Industry U (3-0) [0.50]
An independent program of study formally integrating the student's academic study with a
concentrated work experience. The study is to be decided by the student in consultation with
the supervisory faculty (normally the department's Co-op Co-ordinator) prior to
registration in the course.
Equate(s): HAFA*3150
Restriction(s): Registration in B.Comm. HAFA Co-op. Instructor consent required.

HTM*3160 Destination Management and Marketing F (3-0) [0.50]
This course examines the attractiveness of communities (urban and rural; domestic and international) for visitors and the implications that result from the development of a tourism industry. Methods to encourage visitation are explored as are the attempts to create and manage the development of the community and the tourism industry in a sustainable manner.
Prerequisite(s): 1 of HAFA*3100 , HTM*2050, HTM*3100
Equate(s): HAFA*3160
Restriction(s): Registration in B.Comm. Tourism Management.

HTM*3180 Casino Operations Management W (0-0) [0.50]
The application of business principles, techniques and procedures within the casino
management environment. Major topics include: the global and Canadian casino industries,
regulation and control, casino accounting and statistics, casino marketing, security and surveillance, human resources, customer service, and specific casino operational
management components. Students must be legal age of 19 or over.
Prerequisite(s): ( HAFA*2200 or HTM*2200) and (1 of AGEC*2230 , BUS*2230,
HAFA*3070 , HTM*3070)
Restriction(s): Registration in B.Comm. HAFA, HAFA Co-op or Tourism
Management.

HTM*3200 Club Management Operations U (3-0) [0.50]
This course examines the effective operation and management of private clubs including
city clubs, country clubs and athletic clubs. Major topics include: the unique niche that
clubs represent in the hospitality industry, the general manager/COO concept, organizational structure of clubs, role of the board of directors, membership requirements,
differences between tax-exempt clubs, duties and responsibilities of department heads in
private clubs, governmental regulations, preparing for a career in the club field, trends
in club management and the future of clubs.
Prerequisite(s): 10.00 credits
Equate(s): HAFA*3200
Restriction(s): Registration in B.Comm. HAFA, HAFA Co-op or Tourism
Management.

HTM*3780 Economics of Food Usage F (3-0) [0.50]
This is an overview of food supply chain management in the food and foodservice
industries. The changing patterns in food production, distribution, legislation and
consumption habits affecting the economics and use of food in Canada and globally are
investigated. (Offered through Distance Education only.)
Prerequisite(s): 1 of FOOD*2010, HAFA*2700 , HTM*2700, MCS*1000
Equate(s): COST*3780 , HAFA*3780

HTM*4050 Wine and Oenology F (2-2) [0.50]
This course provides students with knowledge about the wine industry and will emphasize
knowledge about product, purchasing, pricing, and service.
Prerequisite(s): 9.00 credits
Equate(s): HAFA*4050
Restriction(s): Registration in B.Comm. HAFA, HAFA Co-op or Tourism
Management. Students must be of legal drinking age in Ontario.

HTM*4070 Wine, Food and Tourism U (2-2) [0.50]
This course introduces students to the sensory relationship of wine and food and the
important role this process has on gastronomic tourism. Course topics will include
developing and marketing the wine/food tourism product, wine and food pairing as a
hierarchical process, gastronomic identity, Old and New World traditions, and traditional
and non-traditional gastronomic marriages.
Prerequisite(s): HTM*3030
Restriction(s): Registration in B.Comm. HAFA, HAFA Co-op or Tourism
Management. Students must be of legal drinking age in Ontario.

HTM*4090 Hospitality and Tourism Facilities Management and Design F,W
(3-0) [0.50]
This course will equip an individual to work as a knowledgeable member of a hospitality
or tourism organization's design or re-design team. Efficient and effective space utilization
for both front-and-back-of-the-house areas, plus a knowledge of how to read professional
drawings ("blueprints") will be covered. This course also will provide an understanding
of the operation of a physical plant including such elements as systems maintenance, appropriate use of various materials, energy management, life cycle costing, and safety
and security issues.
Prerequisite(s): 1 of HAFA*3090 , HTM*3090, HAFA*3091/2
Equate(s): HAFA*4090
Restriction(s): Registration in B.Comm. HAFA, HAFA Co-op or Tourism
Management.
HTM*4100 Organizational Behaviour II F,W (3-0) [0.50]
This course is concerned with the structure and dynamics of organizational open systems. It focuses on the external environment, technology, structure (and their interrelationships), organizational culture and change management. It addresses the actions that managers must take to insure that behaviour within the organization aids rather than impedes the achievement of overall organizational goals.
Prerequisite(s): 14.00 credits, ( HAFA*2200 or HTM*2200), ( HAFA*3000 or HTM*3000)
Equate(s): HFA*4100
Restriction(s): Registration in B.Comm. HAFA, HAFA Co-op, Human Resource Management or Tourism Management.

HTM*4110 Restaurant Operations U (1-7) [0.50]
The management and operation of fine dining restaurants, and the study of major cuisines and classical cookery. Analysis of qualitative aspects of the restaurant business (ambience, total service package, and the dynamic relationship between service and the product of food and wine). Emphasis is placed upon creativity and authenticity in menu formulation, operational performance and guest satisfaction.
Prerequisite(s): 1 of HAFA*3090 , HTM*3090, HAFA*3091/2
Equate(s): HFA*4110
Restriction(s): Registration in B.Comm. HAFA, HAFA Co-op or Tourism Management.

HTM*4120 Entrepreneurship in Hospitality and Tourism U (3-0) [0.50]
This course investigates the development of entrepreneurial and intrapreneurial activities in the context of small business development and ownership in the hospitality and food service industries. Major topics include: entrepreneurship, intrapreneurship, business ownership models, business plan development and specific operating factors that influence success as a small business.
Prerequisite(s): 1 of AGEC*2230 , BUS*2230, HAFA*3070 , HTM*3070
Equate(s): HFA*4120
Restriction(s): Registration in B.Comm. HAFA, HAFA Co-op or Tourism Management.

HTM*4130 Current Management Topics U (3-0) [0.50]
Principal operating problems in the hospitality and tourism industry are analyzed and discussed using actual case studies. Students should check with the School of Hospitality and Tourism Management to determine what topic will be offered during specific semesters, and which prerequisites, if any, are appropriate.
Equate(s): HFA*4130
Restriction(s): Registration in B.Comm. HAFA, HAFA Co-op or Tourism Management.

HTM*4140 Current Management Topics U (3-0) [0.50]
Principal operating problems in the hospitality and tourism industry are analyzed and discussed using actual case studies. Students should check with the School of Hospitality and Tourism Management to determine what topic will be offered during specific semesters, and which prerequisites, if any, are appropriate.
Equate(s): HFA*4140
Restriction(s): Registration in B.Comm. HAFA, HAFA Co-op or Tourism Management.

HTM*4150 Current Management Topics U (3-0) [0.50]
Principal operating problems in the hospitality and tourism industry are analyzed and discussed using actual case studies. Students should check with the School of Hospitality and Tourism Management to determine what topic will be offered during specific semesters, and which prerequisites, if any, are appropriate.
Equate(s): HFA*4150
Restriction(s): Registration in B.Comm. HAFA, HAFA Co-op or Tourism Management.

HTM*4160 Human Resources Planning W (3-0) [0.50]
Introduces the strategic planning role that human resources professionals play in organizations. Students will confront the challenges and demands of rightsizing, technological change, corporate repositioning, cost containment, productivity improvements, and the consequences of relocation, outplacement and retraining of staff. An understanding of the essential elements of the human resource planning process in organizations will be provided. Students will acquire knowledge in analyzing, assessing and programming for the human resource requirements of organizational, business and strategic plans.
Prerequisite(s): ( HAFA*2200 or HTM*2200), ( HAFA*3000 or HTM*3000)
Equate(s): HFA*4160
Restriction(s): Registration in B.Comm. Human Resources Management.

HTM*4170 International Tourism Development and Management W (3-0) [0.50]
This course encourages students to develop a cross-cultural awareness of the objectives and issues regarding the development of tourism as well as the trends that shape the various sectors of the hospitality and tourism industry in every region of the world. Students will be introduced to a variety of multinational tourism policies as well as strategic and structural approaches to the development of the industry through readings, case studies and presentations.
Prerequisite(s): 1 of HAFA*3100 , HTM*2050, HTM*3100
Equate(s): HFA*4170
Restriction(s): Registration in B.Comm. Tourism Management.

HTM*4190 Hospitality and Tourism Operations Planning F,W (3-0) [0.50]
The course examines management and organization practices as they are applied to typical hospitality and tourism operational issues. Significant decision points and sub-system interrelationships are emphasized.
Prerequisite(s): ( HAFA*3070 or HTM*3070), ( HAFA*3080 or HTM*3080)
Equate(s): HFA*4190
Restriction(s): Registration in B.Comm. HAFA, HAFA Co-op or Tourism Management.

HTM*4200 Policy Issues in Hospitality and Tourism Management F,W (3-0) [0.50]
An integrative course intended to draw together the several disciplines in which hospitality and tourism management is based. Conceptual, analytical and decision-making skills will be developed through an extensive exposure to case studies.
Prerequisite(s): ( AGEC*3320 or BUS*3320), ( HAFA*3070 or HTM*3070), ( HAFA*3080 or HTM*3080)
Equate(s): HFA*4200
Restriction(s): Registration in B.Comm. HAFA, HAFA Co-op or Tourism Management.

HTM*4300 Co-operative Education Seminar F (3-0) [0.50]
An integration of the students' academic studies with their work semester experiences provided by the co-operative program. Emphasis will be placed on students critically evaluating the application of theoretical concepts in different working environments.
Prerequisite(s): Registration in semester 7 of B.Comm. HAFA Co-op.
Equate(s): HFA*4300

HTM*4390 Individuals and Groups in Organizations F,W (3-0) [0.50]
The course serves as an overview to organizational behaviour. It examines the individual, the group, the organization and how the three interrelate in order to enhance performance and productivity.
Prerequisite(s): 10.00 credits
Equate(s): HFA*4390
Restriction(s): Not available to students registered in B.Comm. HAFA, HAFA Co-op, Human Resources Management or Tourism Management. Priority Access course. Enrolment is restricted to particular programs or specializations. See department for more information.

HTM*4500 Special Study in Hospitality and Tourism U (3-0) [0.50]
The special study option is designed to provide senior undergraduate students with an opportunity to pursue an independent course of study. The topic selected will be determined by agreement between the student and the faculty member with expertise in the area.
Equate(s): HFA*4500
Restriction(s): Registration in B.Comm. HAFA, HAFA Co-op or Tourism Management and instructor consent.
Human Kinetics

Department of Human Health and Nutritional Sciences

HK*2100 Anatomy for Artists W (3-3) [0.50]

The structure of the human body will be considered in this course. The limitations imposed by bones, joints and muscle will be explored in relation to capacity of the human figure to move and to express emotion. This course has been designed for students registered in the Studio Arts program. This course can fulfill one of the natural and mathematical sciences requirements for students in SART, but it cannot be used towards the SART major.

Prerequisite(s): SART*2090
Restriction(s): Restricted to Studio Arts majors.

HK*2270 Principles of Human Biomechanics W (3-1) [0.50]

Application of mechanical principles to the study of human movement. Topics include: motion analysis techniques, anthropometrics, biological tissue tolerance, muscle force generation, static and dynamic equilibrium, work/energy and impulse/momentum as they apply to the description of motion, injury of musculoskeletal tissues and optimization of human performance.

Prerequisite(s): PHYS*1000 or PHYS*1080

HK*3100 Neuromuscular Physiology W (3-0) [0.50]

Normal muscle movement is controlled by the motor cortex or by reflexes within the context of the sensory environment. This course will introduce key concepts in motor control of mammalian, human movement, coordination of movement, motor programs, selection, motor program execution, motor unit recruitment, skeletal muscle excitation-contraction coupling. This course is required for students wishing to gain certification by the Ontario Kinesiology Association.

Prerequisite(s): 1 of BIOM*3100, HK*3940, ZOO*3200
Restriction(s): Restricted to B.Sc., Major in Human Kinetics or Neuroscience Minor.

HK*3401 Human Anatomy F (3-3) [0.75]

First part of the two-semester course HK*3401/2. Refer to HK*3401/2 for course description.

Co-requisite(s): HK*3940 or instructor consent
Restriction(s): Registration in the B.Sc. Major in Human Kinetics or Bio-Medical Science. Instructor consent required.

HK*3401/2 Human Anatomy F-W (1.50)

A two-semester lecture and laboratory course in human anatomy which includes a detailed study of the skeleton, upper and lower limbs, thorax, abdomen, pelvis, perineum, head, neck and central nervous system. This is a two-semester course offered over consecutive semesters. When you select it you must select HK*3401 in the Fall semester and HK*3402 in the Winter semester. A grade will not be assigned to HK*3401 until HK*3402 has been completed.

Co-requisite(s): HK*3940 or instructor consent
Restriction(s): Registration in the B.Sc. Major in Human Kinetics or Bio-Medical Science. Instructor consent required.

HK*3402 Human Anatomy W (3-3) [0.75]

Second part of the two-semester course HK*3401/2. Refer to HK*3401/2 for course description.

Prerequisite(s): HK*3401

HK*3600 Applied Human Biology F (2-3) [0.75]

Laboratory techniques which are central to human biology are covered, together with their underlying concepts. Human performance and function are evaluated through cellular, organic, systemic and whole person studies. The student's technical competence and conceptual understanding are emphasized.

Prerequisite(s): HK*2270
Co-requisite(s): HK*3940 or permission of instructor
Restriction(s): Registration in the Human Kinetics major.

HK*3940 Human Physiology F (6-0) [1.25]

This course consists of a series of lectures, demonstrations and tutorials designed for students desiring a knowledge of physiological concepts as they apply to human beings. The course discusses cellular physiology, neurophysiology, endocrinology, and the physiology of the following systems: cardiovascular, renal, gastrointestinal and respiratory with an emphasis on the regulation of function.

Prerequisite(s): BIOL*2210

HK*4070 Clinical Biomechanics F (2-2) [0.50]

This course covers functional anatomy, neuropathology and mechanical characteristics of humans at the tissue and whole-body levels. Pathomechanics of human movement resulting from disease, abuse or trauma will be examined. Special emphasis will be placed on etiology, testing and correction of functional disorders with special reference to balance, gait and orthopaedic biomechanics.

Prerequisite(s): ENGG*2660 or (HK*2270, HK*3600)

HK*4230 Advanced Study in Human Biology and Nutritional Sciences S,F,W (3-0) [0.50]

The student will conduct independent literature research of an approved topic to be decided by the student in consultation with a faculty advisor. Students must make arrangements with both a faculty advisor and the course coordinator at least one semester in advance and the signature of the course coordinator will be required to select the course. A departmental registration form must be obtained from the course coordinator and submitted no later than the second class day of the semester in which the student is registered for the course.

Prerequisite(s): 12.00 credits
Restriction(s): Course coordinator consent required.

HK*4240 Occupational Biomechanics and Ergonomics W (3-2) [0.75]

This course introduces the methods available for reducing musculoskeletal injuries in the workplace. Topics include: biomechanical, psychophysical, physiological, and integrated approaches to performing physical demands analyses, anatomy and etiology of low back injuries and upper limb disorders, principles of redesigning tasks to reduce the risk of injury, pre-employment screening and legislated guidelines. Students apply the course material to ergonomic assessments performed in industrial environments.

Prerequisite(s): 1 of ENGG*1210, HK*3270, (HK*2270, HK*3600)

HK*4320 Work Physiology W (3-3) [0.75]

The adjustments made by the physiological regulatory systems in response to common human activities will be identified and discussed. This will include an examination of limiting factors within each system.

Prerequisite(s): HK*3940 or instructor consent

HK*4360 Research in Human Biology and Nutritional Sciences S,F,W (0-12) [1.00]

The student will select a research topic and design and complete a project in an area of interest, in consultation with a faculty advisor. Students must make arrangements with both a faculty advisor and the course coordinator at least one semester in advance and the signature of the course coordinator will be required to select the course. A departmental registration form must be obtained from the course coordinator and submitted no later than the second class day of the semester in which the student is registered for the course.

Prerequisite(s): 12.00 credits
Restriction(s): Course coordinator consent required.

HK*4371 Research in Human Biology and Nutritional Sciences II S,F,W (0-6) [0.50]

First part of the two-semester course HK*4371/2. The student will select a research topic and design and complete a project in an area of interest, in consultation with a faculty advisor. This is a two-semester course offered over consecutive semesters. When you select it you must select HK*4371 in the first semester and HK*4372 in the second semester. A grade will not be assigned to HK*4371 until HK*4372 has been completed. Students must make arrangements with both a faculty advisor and the course coordinator at least one semester in advance and the signature of the course coordinator will be required to select the course. A departmental registration form must be obtained from the course coordinator and submitted no later than the second class day of the semester in which the student is registered for the course.

Prerequisite(s): 12.00 credits
Restriction(s): Course coordinator consent required.

UNIV*3500, UNIV*3550 and UNIV*4500 are re-numbered and now appear under Environmental Design and Rural Development (EDRD)

UNIV*1200 First Year Seminar W (3-0) [0.50]
First Year Seminars are interdisciplinary courses designed especially for first year students. The goal of the First Year Seminar course is to provide opportunities for students to participate in small enrolment, discussion-oriented classes in their first year. Different seminar topics are offered each year in each separate course section, reflecting the particular research or professional interest of the course instructor. The seminar course counts as a free elective in the student’s Schedule of Studies. For information about how the seminar courses may in some cases fulfill particular program distribution requirements, students should contact their program counsellor. A list of current and archived offerings is available by following the links on the First Year Seminars web page.

Restriction(s): Fewer than 5.00 credits.

UNIV*1250 Experiential Learning Opportunity I: Peer Helper U (0-0) [0.00]
Open only to students who have been accepted into the Peer Helper program. This 0.00 credit course recognizes the successful completion of the Peer Helper training program and a supervised field experience in an approved Peer Helper placement. A pass/fail grade will not be assigned to UNIV*1250 until UNIV*1260 has been completed. Students who wish to enroll in this course should see Student Life and Career Services for more information.

Restriction(s): Instructor consent required and acceptance in the Peer Helper program.

UNIV*1260 Experiential Learning Opportunity II: Peer Helper U (0-0) [0.00]
Open only to students who have been accepted into the Peer Helper program. This 0.00 credit course recognizes the successful completion of the Peer Helper training program and a supervised field experience in an approved Peer Helper placement. A pass/fail grade will be assigned at the end of the completion of both UNIV*1250 and UNIV*1260. Student who wish to enroll in this course should see Student Life and Career Services for more information.

Prerequisite(s): UNIV*1250

UNIV*2000 Foundations of Leadership W (3-0) [0.50]
Using an integrated approach to studying leadership, this foundation course covers history, evolving theories, models, and research both from a theoretical point of view and practical application. This course will use a seminar style with applied workshops, class discussions, guest speakers, and student participation. Students will prepare elements of a skills portfolio and a research paper. This is a required course for the Certificate in Leadership. (Offered through distance education format only.)

Restriction(s): Instructor consent required.

UNIV*2050 Environmental Perspectives and Human Choices I F (3-0) [0.50]
An interdisciplinary approach to environmental issues which offers opportunities to investigate social processes and philosophical considerations with respect to the position and influence of humankind, and the development of social conditions, values and economic activities that have led to our present situation. These investigations are carried out within the context of physical environmental considerations, such as the state of the earth, forests, air water and our use of energy, and will lead the student to a detailed consideration of the future. (Offered through distance education format only.)

UNIV*2250 Experiential Learning Opportunity III: Peer Helper U (0-0) [0.00]
Open only to students who have been accepted into the Peer Helper program. This 0.00 credit course recognizes the successful completion of the Peer Helper training program and a supervised field experience in an approved Peer Helper placement. A pass/fail grade will not be assigned to UNIV*2250 until UNIV*2260 has been completed. Students who wish to enroll in this course should see Student Life and Career Services for more information.

Prerequisite(s): UNIV*1250, UNIV*1260

UNIV*2260 Experiential Learning Opportunity IV: Peer Helper U (0-0) [0.00]
Open only to students who have been accepted into the Peer Helper program. This 0.00 credit course recognizes the successful completion of the Peer Helper training program and a supervised field experience in an approved Peer Helper placement. A pass/fail will be assigned at the end of the completion of both UNIV*2250 and UNIV*2260. Students who wish to enroll in this course should see Student Life and Career Services for more information.

Prerequisite(s): UNIV*2250

UNIV*3010 University Studies in London I S (3-0) [0.50]
An intensive and integrated course of study in the arts, social sciences and/or sciences as they relate to the resources of London. For London Summer Session students only.

Prerequisite(s): Admission to the London Summer Session.

UNIV*3020 University Studies in London II S (3-0) [0.50]
An intensive and integrated course of study in the arts, social sciences and/or sciences as they relate to the resources of London. For London Summer Session students only.

Prerequisite(s): Admission to the London Summer Session.

UNIV*3150 University Studies in Paris I W (2-3) [0.50]
An integrated course of study in subject areas that will vary from year to year but relate to resources in Paris.

Prerequisite(s): Admission to the Paris Semester.

UNIV*3160 University Studies in Paris II W (2-3) [0.50]
An integrated course of study in subject areas that will vary from year to year but relate to resources in Paris.

Prerequisite(s): Admission to the Paris Semester.

UNIV*3170 University Studies in Paris III W (2-3) [0.50]
An integrated course of study in subject areas that will vary from year to year but relate to resources in Paris.

Prerequisite(s): Admission to the Paris Semester.

UNIV*3250 Environmental Perspectives and Human Choices II W (3-0) [0.50]
The complexity and dimensions of key environmental issues introduced in UNIV*2050 are explored in greater detail. This will facilitate the student's ability to critically evaluate socio-economic-environmental linkages between contemporary challenges such as sustainable resources, energy, human population, education and communication, and environmental ethics. Supplementary voluntary workshop. (Offered through distance education format only.)

Prerequisite(s): UNIV*2050

UNIV*4000 Leadership Capstone W (3-0) [0.50]
Changes taking place in organizations and work, and the advanced level, general skills needed by university graduates in the workplace will be explored. In addition, transition issues, such as the change from the role of 'student' to 'employee' or 'entrepreneur', will be examined. Based on experience in their leadership placements, students will examine the relationships between leadership theory and practice. Students will be encouraged to study leadership issues that relate to professions in the disciplines. They will work on an action project that will involve researching creative approaches to leadership issues. This is a required course for the Certification Leadership. (Offered through distance education format only.)

Prerequisite(s): UNIV*2000 plus 120 hours of placement experience.

Restriction(s): Instructor consent required.

**IBIO*4010 Adaptational Physiology (3-0) [0.50]**

This course examines adaptations of organisms to various aquatic and terrestrial environments. A mechanistic approach will be used to establish the strategies (anatomical, physiological, biochemical) of environmental adaptation. Examples will include adaptations of deep-sea and polar organisms, adaptations to salinity and desiccation challenges, oxygen availability, sensory adaptations and symbiotic adaptations.

*Prerequisite(s):* ZOO*3210

*Restriction(s):* ZOO*4390, ZOO*4560

**IBIO*4500 Research in Integrative Biology I F,W (1-5) [0.75]**

The student will undertake an independent research project of a practical or theoretical nature that relates either to organismal biology or the teaching of organismal biology and is conducted under the supervision of a faculty member. Students must make arrangements with both a faculty supervisor and the course coordinator at least one semester in advance. A departmental registration form must be obtained from the course coordinator and submitted no later than the second class day of the semester in which the project is to be completed.

*Equate(s):* ZOO*4490, ZOO*4500, BOT*4820

*Restriction(s):* Normally a minimum cumulative average of 70% in the biology courses during the first 6 semesters of a major in the College of Biological Science. Instructor consent required.

Landscape Architecture

School of Environmental Design and Rural Development

XII. Course Descriptions, Landscape Architecture

LARC*1100 Design and Communications Studio F (3-3) [0.75]
An introduction to the physical design professions with emphasis on the role of landscape architects. Emphasis on development of design awareness, process, communication skills and creativity.
Prerequisite(s): Registration in the B.L.A. program.
Restriction(s): Instructor consent required.

LARC*1210 Graphic Communication W (2-4) [0.50]
The communication process and its application to landscape architectural design are introduced. This course includes skills and techniques of graphic communication, from study sketches to final presentation drawings and media ranging from pencil graphics to multi-media presentations.
Restriction(s): Registration in the B.L.A. program.

LARC*1950 History of Cultural Form I F (4-0) [0.50]
This course explores the cultural form expressed in landscapes from ancient times to the 18th century Romantic movements. (Offered through distance education format only.)

LARC*2020 Design Studio W (2-4) [0.75]
An examination of the theory, process and vocabulary of special design. An exploration of the social, psychological, and behavioural forces a designer must respond to. An introduction to landscape analysis.
Prerequisite(s): LARC*1100

LARC*2100 Landscape Analysis F (2-2) [0.50]
A study of biophysical factors and their influence on design. Including soils, climate, vegetation, hydrology, and fauna. Natural and cultural systems interpretation, site assessment methods, and data presentation techniques will be outlined. Students will formulate and conduct site assessments that include resource inventories and the analysis for land use suitability.
Prerequisite(s): BIOL*1030, LARC*2020
Co-requisite(s): LARC*3040 or registration in the U.L.M. B.Sc. (Agr.) program and 5.00 credits

LARC*2230 Planting Design I W (1-2) [0.25]
Visual and physical characteristics of plants and their use. Design theory and its application at a site specific scale. Study of the use of plants in a wide range of applications.
Co-requisite(s): LARC*2020

LARC*2230 Planting Design II F (1-2) [0.25]
Visual and physical characteristics of plants and their use. Design theory and its application at a site specific scale. Study of the use of plants in a wide range of applications.
Prerequisite(s): LARC*2330

LARC*2410 Site Engineering F (3-3) [0.50]
A focus on contour grading to facilitate circulation, stormwater runoff, and design intent. Aspects of surveying, plotting, as well as runoff and cut and fill calculations.
Prerequisite(s): LARC*2020, LARC*2420

LARC*2420 Materials and Techniques W (3-0) [0.50]
The study of materials commonly used for landscape construction. Specification of procedures and materials for contractual purposes. Detail drafting.
Prerequisite(s): LARC*1100

LARC*2820 Urban and Regional Planning W (3-0) [0.50]
Introduction to the evolution and history of planning and its conceptual base. A study of the theoretical foundations of planning. Emphasis on the Canadian scene and on Canadian planning literature.

LARC*2950 History of Cultural Form II W (4-0) [0.50]
This course follows History of Cultural Form I (LARC*1950) and explores the cultural form of 19th century reform period through to contemporary design developments. (Offered through distance education format only.)

LARC*3040 Site Planning and Design Studio F (2-4) [0.75]
Application of the site planning process, including programming, site analysis, functional analysis and diagramming. Application of design theory and landscape analysis to site design.
Prerequisite(s): LARC*2020
Co-requisite(s): HORT*3260, LARC*2100

LARC*3050 Landscape Architecture I W (2-4) [0.75]
Lectures and projects emphasizing the integration of design theory, skills and knowledge using site scale and urban design projects. Highlighting the use of contemporary history.
Prerequisite(s): LARC*3040

LARC*3060 Landscape Architecture II F (2-4) [0.75]
Application of the landscape architectural design process to conservation, development and rehabilitation of landscapes. Projects at an intermediate scale focusing on biophysical, cultural and visual resources as primary design determinants. Emphasis on secondary research, analysis, program development, alternative concepts and design master planning.
Prerequisite(s): LARC*3050

LARC*3070 Landscape Architecture III F (2-6) [1.00]
Exercises in regional scale design and master planning to provide an understanding of the integrative design process that considers ecological, technological, socio-economic, human and aesthetic factors in the land development process. Projects focus on land planning, community design, urban design, and public involvement and communication.
Prerequisite(s): LARC*3060

LARC*3340 Landscape Construction I W (2-4) [0.50]
Lectures and studio exercises that integrate construction documentation with design. The technical procedures needed to direct design implementation including layout, grading, utility design, and planting plans.
Prerequisite(s): LARC*2410

LARC*3340 Landscape Construction II F (2-4) [0.75]
Production of construction drawings, documents and cost estimates using computer and manual techniques.
Prerequisite(s): LARC*3340
Co-requisite(s): LARC*3060

LARC*3350 Independent Study S,F,W (0-6) [0.50]
Each student establishes, in consultation with the faculty member chosen, the content of special study within the area of expertise of that instructor.
Prerequisite(s): LARC*3040

LARC*4090 Seminar W (3-0) [0.50]
An integrated overview of professional issues involving practice, ethics, environmental concerns, government policy, research needs and professional responsibilities to society. Emphasis on writing and oral presentations.
Prerequisite(s): LARC*3060

LARC*4101 Design Thesis F (1-2) [0.50]
First part of the two-semester course LARC*4101/2. Refer to LARC*4101/2 for course description.
Prerequisite(s): LARC*3050, LARC*3440

LARC*4102 Design Thesis F-W [1.50]
The fall semester consists of the study of research methods, research, writing and presentations on individually selected topics. The student uses this work to complete an individual landscape design or planning project in the winter. Each student is to integrate the knowledge and demonstrate the skills acquired in preceding courses in a professional manner. This is a two-semester course offered over consecutive semesters. When you select it you must select LARC*4101 in the first semester and LARC*4102 in the second semester. A grade will not be assigned to LARC*4101 until LARC*4102 has been completed.
Prerequisite(s): LARC*3050, LARC*3440

LARC*4102 Design Thesis W (2-6) [1.00]
Second part of the two-semester course LARC*4101/2. Refer to LARC*4101/2 for course description.
Prerequisite(s): LARC*4101

LARC*4520 Park and Recreation Administration W (3-0) [0.50]
A study of the major objectives, policies and administrative practices of the principal park and recreation agencies at various levels of government, with an emphasis on trends and implications for future roles and administrative policies of these agencies. (Offered in odd-numbered years.)
Prerequisite(s): 1.00 credits at the 2000 level in social sciences or three semesters of the B.L.A. program

LARC*4610 Professional Practice F (3-0) [0.50]
Lectures and assignments dealing with professional ethics, organizations, contract law and procedures, relationships with clients, contractors and professional practitioners, office procedure and professional promotion practices and trends.
Prerequisite(s): LARC*3050

Linguistics

School of Languages and Literatures

LING*1000 Introduction to Linguistics W (3-0) [0.50]

The nature of language. An elementary survey of linguistic disciplines. Phonetics, morphology, syntax, semantics, language, and society.
Marketing and Consumer Studies

Department of Marketing and Consumer Studies

For courses without semester designations, please check with the department. Advance schedules are available in the department.

MCS*1000 Introductory Marketing S,F,W (3-0) [0.50]

An examination of the process of analyzing, planning, implementing, coordinating, and controlling programs involved in the conception, pricing, promotion, and distribution of products, services, and ideas designed to create and maintain beneficial exchanges with target markets for the purpose of achieving public and private organizational objectives. (Also offered through distance education format.).

Equates to: 
Restrictions: This is a Priority Access Course and some restrictions may apply during some time periods. Please contact the department for more information.

MCS*1820 Real Estate and Housing F (3-0) [0.50]

This survey course acquaints students with the theories, practices and principles of real estate and housing. Topics include how real estate assets and markets differ from other assets, government involvement in the housing and real estate sectors, non-market housing in Canada, financing real estate, and development.

Equates to: 
Restrictions: This is a Priority Access Course and some restrictions may apply during some time periods. Please contact the department for more information.

MCS*2000 Business in a Changing World F (3-0) [0.50]

This course provides marketing students with an overview of business today by reviewing and discussing key issues (such as business ethics and globalization), key business functions (such as finance, human resources, operations management and marketing), and the components of a business plan. Weekly lectures are supplemented by discussions of business cases and hand-in assignments designed to introduce students to basic business skills (such as business math and decision-making). (First offering - Fall 2008)

Prerequisite(s): 2.50 credits

MCS*2020 Information Management S,F,W (3-0) [0.50]

Introduces the concepts and principles of information acquisition, manipulation and management as relevant to organizational decision-making. Provides experience in the evaluation of information technology applications used in organizations. Students with credit for this course may not proceed to CIS*1000, CIS*1200.

Prerequisite(s): 5.00 credits
Equates to: 
Restrictions: This is a Priority Access Course and some restrictions may apply during some time periods. Please contact the department for more information.

MCS*2100 Personal Financial Management S (3-0) [0.50]

An introductory course designed to meet the professional needs of those in teaching, counselling and community service, as well as personal goals in financial management.

Prerequisite(s): 5.00 credits
Equates to: 

MCS*2600 Fundamentals of Consumer Behaviour F,W (3-0) [0.50]

In the long run organizations survive and achieve their goals by satisfying the needs and wants of consumers as well as or better than their competitors. This course examines consumer behaviour, the economic, social, cultural and psychological factors related to consumer behaviours, the evolution and change in behaviours and relationships, and the ways in which consumers respond to stimuli employed in the marketing of products, services and ideas.

Prerequisite(s): (1 of MCS*1000, HAFA*1000, HTM*1000), (1 of PSYC*1100, PSYC*1200, SOC*1100)
Equates to: 
Restrictions: This is a Priority Access Course and some restrictions may apply during some time periods. Please contact the department for more information.

MCS*2850 Service Learning in Housing F (3-0) [0.50]

The intent of this course is to provide an introduction to ethics and social capital as they apply to the housing and real estate industries. Students will be required to participate in a 10-15 hour service learning exercise where they volunteer for a frontline housing agency/provider. They will then share their experiences with their classmates during the final week of classes.

Prerequisite(s): 5.00 credits
Equates to: 
Restrictions: 

MCS*3010 Quality Management W (3-0) [0.50]

Lectures will include general concepts and expectations of quality assurance from consumer, government, managerial and technological points of view and discuss the relationship of national and international groups concerned with quality assurance. Seminars apply concepts to selected products and services.

Prerequisite(s): 10.00 credits including 0.50 credits in statistics
Equates to: 
Restrictions: This is a Priority Access Course and some restrictions may apply during some time periods. Please contact the department for more information.

MCS*3020 Services Marketing F,W (3-0) [0.50]

Global economies today are largely dominated by the service industry. This course examines the problems facing leaders of service organizations. The course concentrates on areas such as developing service strategy, value creation, service performance measurement, and the impact of globalization and e-business.

Prerequisite(s): 10.00 credits including 1 of AGEC*4370, MCS*1000, HAFA*3080 HTM*3080
Equates to: 
Restrictions: This is a Priority Access Course and some restrictions may apply during some time periods. Please contact the department for more information.

MCS*3030 Research Methods F,W (3-0) [0.50]

This course examines the concepts, principles and practices for consumer, market and product development research processes. Topics include research problem definition, research objectives, research design, measurement, sampling methods, execution and research management, analysis and interpretation, and report writing. (Also offered through distance education format.)

Prerequisite(s): STAT*2060 or STAT*2090
Equates to: 
Restrictions: Registration in the B.Comm. Marketing Management Major, regular and co-op, Housing and Real Estate Management Major, regular and co-op, or the B.A. Marketing Management Minor.

MCS*3040 Business and Consumer Law F,W (3-0) [0.50]

This course introduces students to statutory and common law concerning business and consumer transactions. An overview of the laws of contracts and torts forms the basis of business and producer/consumer relationships. Discussion topics include sale of goods and consumer protection legislation; debtor-creditor relations; competition law; intellectual property rights and manufacturers' product liability.

Prerequisite(s): 
Equates to: 

MCS*3500 Market Analysis and Planning F,W (3-0) [0.50]

This course teaches students decision making theory and the methods of analysis that support decision making in the marketing discipline. Topics include customer, competitor and market analysis and methods such as forecasting and decision modeling.

Prerequisite(s): 9.00 credits including MATH*1000, ECON*1050, STAT*2060
Equates to: 
MCS*3600 Consumer Information Processes F,W (3-0) [0.50]
This course provides an in-depth treatment of information processing research and theories as they relate to consumer judgment and choice. Components of theory addressed include: attention and perception, motivation, processing capacity, encoding and memory storage, retrieval and decision processes. Applications to marketplace policy and strategy are discussed.
Prerequisite(s): MCS*2600, MCS*3030
Equate(s): COST*3600

MCS*3620 Marketing Communications F,W (3-0) [0.50]
Concepts of communication management as practiced by organizations in all economic sectors. Communication management principles are applied to the design and evaluation of communication programs.
Prerequisite(s): 10.00 credits including MCS*1000, MCS*2600
Equate(s): COST*3620
Restriction(s): Registration in the B.Comm. Program. This is a Priority Access Course and restrictions may apply during some time periods. Please contact the department for more information.

MCS*3810 Real Estate Market Analysis F (3-0) [0.50]
In this course students examine the processes used to analyze supply and demand in the real estate market. The course focuses on using research methodologies to define the scope of analysis; identify data needs; collect information from various sources, including on-line resources; and interpret the results. Applications to different property types are discussed. Current market trends are also examined. As well, the course deals with marketing real estate: listing procedures, advertising, negotiating. (First offering is Fall 2008.)
Prerequisite(s): MCS*1820, STAT*2060
Equate(s): COST*3810

MCS*3820 Real Estate Development W (3-0) [0.50]
This course introduces the student to the real estate development process, providing an overview from the project idea to the cursory feasibility stage. The steps in development planning that will be investigated are analysis, design, and evaluation. Topics include developing evaluation potential, land acquisition, site planning, economic feasibility studies, approval processes, construction, project management, and marketing phases. The construction of both single family housing and larger buildings is examined. (First offering is Winter 2009.)
Prerequisite(s): MCS*1820
Equate(s): COST*3820
Restriction(s): MCS*4860

MCS*3870 Topics in Housing U (3-0) [0.50]
Lecture-discussion or seminar on a selected topic or area of specialization related to housing to be conducted by faculty with special interests or expertise in the area. Students should confirm with the department prior to course selection what topic(s), if any, will be offered during specific semesters.
Prerequisite(s): Will be indicated by the department when the course is offered.
Equate(s): COST*3870
Restriction(s): Instructor consent required.

MCS*3880 Topics in Housing U (3-0) [0.50]
Lecture-discussion or seminar on a selected topic or area of specialization related to housing to be conducted by faculty with special interests or expertise in the area. Students should confirm with the department prior to course selection what topic(s), if any, will be offered during specific semesters.
Prerequisite(s): Will be indicated by the department when the course is offered.
Equate(s): COST*3880
Restriction(s): Instructor consent required.

MCS*3890 Property Management W (3-0) [0.50]
Financial theory is used to examine the diversification benefits of including real estate with financial assets in an investment portfolio. Diversification strategies within a real estate portfolio are also covered. The marketing and leasing of real estate space culminates in a leasing negotiation exercise between pairs of students. Differing property management issues faced by managers of residential, office, retail, industrial and mixed use properties are covered.
Prerequisite(s): (COST*1800 or MCS*1820), and (1 of MCS*2820, ECON*3560, HTM*3070)
Equate(s): COST*3890

MCS*4020 Research in Consumer Studies U (3-0) [0.50]
An independent investigation of a pertinent topic in consumer studies. Registration requires departmental approval.
Prerequisite(s): MCS*3030
Equate(s): COST*4020

MCS*4040 Management in Product Development F (3-0) [0.50]
Major course components include: new product strategy formulation, the role of technical and market research, the analysis of opportunities, management of development processes, product launches, government and regulatory controls.
Prerequisite(s): Registration in the B.Comm. program (Marketing Management major) and 12.50 credits including MCS*2600.
Equate(s): COST*4040

MCS*4050 The Evolution of Capitalism: A Canadian Perspective F,W (3-0) [0.50]
A Canadian perspective on capitalism as an evolving process of creative destruction, implications for Canadian culture and the allocation of economic, political, and social power; effects on education, the capacity of governments to govern, and societal notions of what constitutes the public good.
Prerequisite(s): 12.50 credits including MCS*2600, ECON*1050, ECON*1100
Equate(s): COST*4050

MCS*4100 Entrepreneurship F (3-0) [0.50]
This course examines the role and effect of small business in Canada, and, in doing so, helps marketing students appreciate the challenges involved in having full responsibility for a business and/or for creatively moving a business forward. The course focuses on the analysis of entrepreneurial skills and, through the development of the business plan, the steps involved in starting a new venture or increasing the size of a business. (First offering - Fall 2010)
Prerequisite(s): 14.00 credits including MCS*3500 and a cumulative GPA of 70%.
Restriction(s): Registration in the B.Comm. program (Marketing Management major).

MCS*4300 Marketing and Society W (3-0) [0.50]
This course focuses on how the dissemination of marketing knowledge can influence society through the decisions made by public policy makers, corporate decision makers and non-profit marketers. It also covers how the marketing decisions made and actions taken by corporate, non-profit and public sector decision makers can affect society. As the theme of ‘reciprocal influence’ is developed, both direct and indirect influences of marketing knowledge and marketing decisions are pursued. (First offering -- Winter 2011)
Prerequisite(s): 14.00 credits including MCS*1000 and MCS*2600
Restriction(s): Registration in the B.Comm. program (Marketing Management Major).

MCS*4370 Marketing Strategy F,W (3-0) [0.50]
This course focuses on the decision-making role of the marketing manager who is responsible for formulating the strategic marketing plan. The theory of selecting market target(s) for the firm's product and/or services and the development of the marketing mix (product, price, promotion, distribution) with the aid of market research and computerized information systems is covered.
Prerequisite(s): 10.00 credits
Equate(s): AGEC*4370, COST*4370
Restriction(s): Registration in the B.Comm. program (Marketing Management Major).

MCS*4400 Pricing Management F,W (3-0) [0.50]
The objective of this course is to provide a useful conceptual framework as well as analytical techniques that can be applied in managing pricing functions. Topics to be covered include pricing strategies, tactical issues related to pricing, pricing methods, treatment of costs for pricing, consideration of competition, legal limitations and role of price in customer buying decisions for both consumer and industrial goods and services.
Prerequisite(s): 9.00 credits including ECON*2310
Restriction(s): MCS*3100 and registration in the B.Com. program (Marketing Management Major).

MCS*4600 International Marketing F,W (3-0) [0.50]
The study of marketing in a global context with specific emphasis on the strategic implications of marketing in different country cultures. Included are the global marketing environment and the competitive challenges and opportunities confronting today's international marketers, the cultural environment of global marketing, the assessment of global market opportunities and the development of global marketing strategies.
Prerequisite(s): MCS*1000, MCS*2600, MCS*3030
Equate(s): COST*4600
Restriction(s): Registration in the B.Comm. program (Marketing Management major).

<td>Real Estate and Housing Project W</td>
<td>This course is a capstone course meant to bring together concepts from all other Real Estate and Housing courses. It deals with the development, redevelopment and renewal of housing and real estate services. Students will complete a project that addresses an issue in the real estate or housing sector, applying knowledge of development, market analysis, affordability, financing and government regulation. <strong>Prerequisite(s):</strong> 15.00 credits <strong>Equate(s):</strong> COST*4810 <strong>Restriction(s):</strong> Registration in the B. <td>MCS*4820</td>
<td>Real Estate Appraisal F</td>
<td>This course deals with the basic principles involved in valuing real estate. The market comparison, cost and income approaches of appraisal are covered. The major emphasis in the course is on using discounted cash flow projections to value income-producing real estate. The term project involves the use of a spreadsheet program to estimate property value for a property chosen by the student. While valuation of single family homes is covered, the main emphasis is on investment real estate. <strong>Prerequisite(s):</strong> (CIS<em>1000 or MCS</em>2020), 1 of MCS<em>2820, ECON</em>3560, HTM<em>3070 <strong>Equate(s):</strong> COST</em>4820</td>
</tr>
<tr>
<td>MCS*4840</td>
<td>Housing and Real Estate Law F</td>
<td>Lays out the legal principles which guide the expanding and changing body of law dealing with housing and real estate development and forms of occupancy; statutory and regulatory matters are explored. <strong>Prerequisite(s):</strong> 10.00 credits including MCS<em>1000, COST</em>1800, MCS<em>2820 <strong>Equate(s):</strong> COST</em>4840</td>

**Mathematics**

**Department of Mathematics and Statistics**

Suggested initial course sequence:

1. For students with 4U or OAC Calculus and expecting to pursue further studies in mathematics or the physical sciences: MATH*1200, MATH*1210.
2. For students interested in applications to the biological sciences: MATH*1080, MATH*2080.
3. For students not expecting to pursue further studies in mathematics: MATH*1000, one STAT*XXXX course

**MATH*1000 Introductory Calculus F,W (3-0) [0.50]**

A brief introduction to analytical geometry. The differential and integral calculus for algebraic, logarithmic, exponential and trigonometric functions, with applications. (Also offered through distance education format.)

**Prerequisite(s):** 1.4 U credit in mathematics or 1 OAC credit in mathematics

**Restriction(s):** MATH*1080 or MATH*1200. Not available to students registered in the B.Sc. and B.Sc. (Agr.) programs.

**MATH*1080 Elements of Calculus I F,W (3-1) [0.50]**

The elements of the calculus of one variable with illustration and emphasis on its application in the biological sciences. The elementary functions, sequences and series, difference equations, differential and integral calculus.

**Prerequisite(s):** 4U Advanced Functions and Calculus or OAC Calculus

**Restriction(s):** MATH*1000, MATH*1200, IPS*1110

**MATH*1200 Calculus I F (3-1) [0.50]**

This is a theoretical course intended primarily for students who expect to pursue further studies in mathematics and its applications. Topics include inequalities and absolute value; compound angle formulas for trigonometric functions; limits and continuity using rigorous definitions; the derivative and derivative formulas (including derivatives of trigonometric, exponential and logarithmic functions); Fermat's theorem; Rolle's theorem; the mean-value theorem; applications of the derivative; Riemann sums; the definite integral; the fundamental theorem of calculus; applications of the definite integral; the mean value theorem for integrals.

**Prerequisite(s):** 4U Advanced Functions and Calculus or OAC Calculus

**Restriction(s):** MATH*1000, MATH*1080, IPS*1110

**MATH*1210 Calculus II F (3-1) [0.50]**

Topics include inverse functions, inverse trigonometric functions, hyperbolic and inverse hyperbolic functions, indeterminate forms and l'Hopital's rule; techniques of integration; parametric equations; polar coordinates; introduction to Maclaurin and Taylor series; functions of several variables; and partial derivatives. (Last offering Summer 2008)

**Prerequisite(s):** 1 of MATH*1000, MATH*1080, MATH*1200

**Restriction(s):** MATH*2080

**MATH*2000 Set Theory F (3-1) [0.50]**

The algebra of sets. Equivalence relations, mappings and inverse mappings. Review of the real number system. Countable and uncountable sets. Partially and totally ordered sets. Complex numbers and their arithmetic. Geometry and topology of the line and the plane. Emphasis is placed upon developing skills in constructing mathematical proofs.

**Prerequisite(s):** 0.50 credits in calculus at the university level

**MATH*2080 Elements of Calculus II F,W (3-1) [0.50]**

Techniques of integration, introduction to differential equations and the elements of multivariable calculus. Illustrations and emphasis will be on biological applications. An introduction to vectors, multivariable and vector functions, differential equations, partial differentiation and multiple integration.

**Prerequisite(s):** 1 of MATH*1000, MATH*1080, MATH*1200

**Restriction(s):** MATH*1210

**MATH*2130 Numerical Methods S,W (3-2) [0.50]**

This course provides an overview of and practical experience in utilizing algorithms for solving numerical problems arising in applied sciences. Topics covered will include solution of a single nonlinear equation, interpolation, numerical differentiation and integration, solution of differential equations and systems of linear algebraic equations. Students will utilize computers in solving problem assignments.

**Prerequisite(s):** MATH*1210 or MATH*2080

**MATH*2150 Applied Matrix Algebra S,F,W (3-1) [0.50]**

Matrices and matrix operations, matrix inverse and determinant, linear equations, N-dimensional vectors: dot product, linear independence, basis and dimension. Rank of a matrix. Eigenvalues, eigenvectors and diagonalization. Applications, including least squares. (Also offered through distance education format.)

**Prerequisite(s):** 1 of a 4U mathematics credit, an OAC mathematics credit, first year university mathematics credit

**MATH*2160 Linear Algebra I F (3-0) [0.50]**

**Prerequisite(s):** (IPS*1110 or MATH*1200), (1 of MATH*2150, 4U Geometry and Discrete Mathematics, OAC Algebra and Geometry)

**MATH*2170 Differential Equations I W,S (3-1) [0.50]**

First order equations, linear equations of second and higher orders, phase plane, difference equations, introduction to power series methods, Laplace transforms, formulation, solution and interpretation of differential equations of interest in science.

**Prerequisite(s):** MATH*1210 or MATH*2080

**Restriction(s):** MATH*2270

**MATH*2200 Advanced Calculus I F (3-0) [0.50]**

Infinite sequences and series of numbers, power series, tests for convergence; Taylor's theorem and Taylor series for functions of one variable; planes and quadratic surfaces; limits, continuity, and differentiability; partial differentiation, directional derivatives and gradients; tangent planes, linear approximation, and Taylor's theorem for functions of two variables; critical points, extreme value problems; implicit function theorem; Jacobians; double integrals, iterated integrals and change of variables.

**Prerequisite(s):** 1 of IPS*1120, MATH*1210, MATH*2080

**MATH*2210 Advanced Calculus II W (3-0) [0.50]**

Spherical and cylindrical polar coordinate transformations; multiple integrals; line integrals; vector and scalar fields including the gradient, divergence, curl and directional derivative, and their physical interpretation; theorems of Green and Stokes; uniform convergence.

**Prerequisite(s):** MATH*2200, (MATH*1200 is strongly recommended)

**MATH*2270 Applied Differential Equations F (3-1) [0.50]**

Solution of differential equations which arise from problems in engineering. Linear equations of first and higher order; systems of linear equations; Laplace transforms; series solutions of second-order equations; introduction to partial differential equations.

**Prerequisite(s):** ENGG*1500, MATH*1210

**Restriction(s):** MATH*2170

**MATH*3100 Differential Equations II F (3-1) [0.50]**

First order linear systems and their general solution by matrix methods. Introduction to nonlinear systems, stability, limit cycles and chaos using numerical examples. Solution in power series of second order equations including Bessel's equation. Introduction to partial differential equations and applications.

**Prerequisite(s):** (MATH*2150 or MATH*2160), MATH*2170

**MATH*3130 Abstract Algebra F (3-0) [0.50]**

Symmetric groups; introduction to group theory; groups, subgroups, normal subgroups, factor groups, fundamental homomorphism theorem. Introduction to ring theory; rings, subrings, ideals, quotient rings, polynomial rings, fundamental ring homomorphism theorem.

**Prerequisite(s):** MATH*2000, (MATH*2150 or MATH*2160)

**MATH*3160 Linear Algebra II W (3-0) [0.50]**

**Prerequisite(s):** MATH*2160

**MATH*3170 Partial Differential Equations and Special Functions W (3-0) [0.50]**

Wave equation, heat equation, Laplace equation, linearity and separation of variables; solution by Fourier series; Bessel and Legendre functions; Fourier transforms; introduction to the method of characteristics.

**Prerequisite(s):** MATH*2000, MATH*3100

**MATH*3200 Real Analysis F (3-0) [0.50]**

**Prerequisite(s):** MATH*2000, MATH*2160, MATH*2210

**MATH*3240 Operations Research Research F (3-0) [0.50]**

XII. Course Descriptions, Mathematics

MATH*3260 Complex Analysis W (3-0) [0.50]
Prerequisite(s): MATH*2000, MATH*2200

MATH*3510 Biomathematics W (3-0) [0.50]
Development, analysis, and interpretation of mathematical models of biological phenomena. Emphasis will be on deterministic discrete and continuous models.
Prerequisite(s): (MATH*2150 or MATH*2160), (MATH*2170 or MATH*2270), at least 0.50 credits in statistics at the 2000 level or above

MATH*4000 Advanced Differential Equations W (3-0) [0.50]
A rigorous treatment of the qualitative theory of ordinary differential equations and an introduction to the modern theory of dynamical systems, existence, uniqueness, and continuity theorems. Definition and properties of dynamical systems. Linearization and local behaviour of nonlinear systems. Stable Manifold theorem. Liapunov stability. Limit cycles and Poincaré-Bendixon Theorem. Introduction to bifurcations and chaotic dynamics. (Offered in even-numbered years.)
Prerequisite(s): MATH*3100, (MATH*3160 or MATH*3200)

MATH*4050 Topics in Mathematics I W (3-0) [0.50]
Discussion of selected topics at an advanced level. Intended mainly for mathematics students in the 6th to 8th semester. Content will vary from year to year. Sample topics: probability theory, Fourier analysis, mathematical logic, operator algebras, number theory, combinatorics, philosophy of mathematics, fractal geometry, chaos, stochastic differential equations. (Offered in odd-numbered years.)
Prerequisite(s): MATH*2160, MATH*3200

MATH*4060 Topics in Mathematics II W (3-0) [0.50]
Discussion of selected topics at an advanced level as in MATH*4050, but with different choice of topic. (Offered in even-numbered years.)
Prerequisite(s): MATH*2160, MATH*3200

MATH*4070 Case Studies in Modeling F (2-2) [0.50]
Study of selected topics in applied mathematics at an advanced level, intended mainly for mathematical science students in the 7th or 8th semester. Sample topics are optimal control theory and nonlinear programming. The course will include case studies of real-world problems arising from various areas and the contribution of mathematical models to their solution. Part of the course requirement will involve the completion of a mathematical modeling project in conjunction with the departmental Mathematics and Statistics Clinic. For further information concerning the Clinic, consult the department. (Offered in even-numbered years.)
Prerequisite(s): 3.50 credits in mathematical science including MATH*2130

MATH*4140 Applied Algebra W (3-0) [0.50]
Finite symmetric groups, dihedral and cyclic groups with applications to the group of symmetries of a geometric figure in the plane. Polya-Burnside method of enumeration with applications. Galois fields with applications to combinatorial design constructions. Error correcting binary codes. (Offered in even-numbered years.)
Prerequisite(s): MATH*3130

MATH*4200 Advanced Analysis F (3-0) [0.50]
Prerequisite(s): MATH*3160, MATH*3200, MATH*3260

MATH*4220 Applied Functional Analysis W (3-0) [0.50]
Hilbert and Banach spaces: applications to Fourier series and numerical analysis. Hahn-Banach theorem; weak topologies. Generalized functions; application to differential equations. Completeness; uniform boundedness principle. Lebesque measure and integral; applications to probability and dynamics. Spectral theory. (Offered in even-numbered years.)
Prerequisite(s): MATH*2160, MATH*3200

MATH*4240 Advanced Topics in Modeling W (3-0) [0.50]
A study of selected advanced topics in mathematical modeling, to include model formulation, techniques of model analysis and interpretation of results. Topics usually include transportation and assignment problems, minimum cost flow problems and network simplex methods, Markov chains, queuing theory. Student participation in researching a project and in the preparation of a report. (Offered in odd-numbered years.)
Prerequisite(s): MATH*3240

MATH*4249 Advanced Topics in Mathematical Modeling W (3-0) [0.50]
A study of selected advanced topics in mathematical modeling, to include model formulation, techniques of model analysis and interpretation of results. Topics usually include transportation and assignment problems, minimum cost flow problems and network simplex methods, Markov chains, queuing theory. Student participation in researching a project and in the preparation of a report. (Offered in odd-numbered years.)
Prerequisite(s): MATH*3240

MATH*4250 Probability Theory W (3-0) [0.50]
Prerequisite(s): MATH*2160

MATH*4269 Advanced Partial Differential Equations F (3-0) [0.50]
Prerequisite(s): MATH*3170, MATH*3200, MATH*3260

MATH*4280 Geometry and Topology W (3-0) [0.50]
Classical geometry of the plane and 3-space. Non-Euclidean geometries. Elementary topology of graphs and surfaces. Topics to be selected from: algebraic geometry; analysis on manifolds; Riemannian geometry; tensor analysis; homotopy and homology groups. (Offered in odd-numbered years.)
Prerequisite(s): MATH*3130, MATH*3200

MATH*4430 Advanced Numerical Methods F (3-0) [0.50]
Numerical solution of linear systems, differential equations; the algebraic eigenvalue problem, interpolation and approximation of functions, numerical quadrature. (Offered in odd-numbered years.)
Prerequisite(s): MATH*2130, (MATH*2150 or MATH*2160), MATH*2200, (MATH*2170 or MATH*2270)

MATH*4510 Environmental Transport and Dynamics F (3-0) [0.50]
Mathematical modeling of environmental transport systems. Linear and nonlinear compartmental models. Convective and diffusive transport. Specific models selected from hydrology; ground-water and aquifer transport, dispersion of marine pollution, effluents in river systems; atmospheric pollen dispersion, plume models, dry matter suspension and deposition; Global circulation: tritium distribution. (Offered in odd-numbered years.)
Prerequisite(s): MATH*3510 or MATH*3100, 0.50 credits in statistics
Molecular and Cellular Biology

**MCB*4010 Advanced Cell Biology W (3-0) [0.50]**
This course examines the cellular and molecular biology of signal transduction. The major theme is an understanding of how eukaryotic cells receive, transmit and respond to environmental signals. Topics will include cellular regulation of cell cycle progression and cell death as well as the consequences of deregulated signal transduction in terms of disease, primarily cancer.

*Prerequisite(s):* BIOL*2210, MBG*2020
*Equate(s):* MBG*4620

**MCB*4050 Protein and Nucleic Acid Structure F (3-0) [0.50]**
This course explores the physical conformation and atomic structures of proteins and nucleic acids and the techniques and tools for the determination, comparison, and prediction of macromolecular structures. Students will design their own protein structures as part of experiencing the process of scientific writing, peer-review and publishing.

*Prerequisite(s):* BIOC*3560
*Equate(s):* BIOC*4550, MBG*4350

**MCB*4080 Applied Microbiology and Biochemistry F (3-0) [0.50]**
This course is a study of how microorganisms, their enzymes and biochemical pathways can be manipulated to produce goods and services in industry, medicine and scientific research. The means by which the yields of secondary metabolites, enzymes, and genetically selected products can be maximized are considered and examples of specific processes are examined. Department of Molecular and Cellular Biology and Department of Environmental Biology.

*Prerequisite(s):* BIOC*2580, (1 of BIOC*3560, BIOC*3570, MICR*2020, MICR*2030)
*Equate(s):* BIOC*4570, MICR*4260

MICR*1020 Fundamentals of Applied Microbiology F (2-3) [0.50]
This course is designed for students in engineering and applied human nutrition. The importance of microbes from an environmental point of view, including water systems and soils as well as their importance in disease, nutrition, food and food processing will be emphasized. The theoretical basis of microbial analysis and control measures will be included. The laboratory component of the course will deal with microbial growth and practical aspects of microbial analysis of environmental and food samples including identification and enumeration of specific microorganisms and approaches for their control. B.Sc. students cannot take this course for credit. Department of Molecular and Cellular Biology. 
Restriction(s): BIOL*1030, BIOL*1040. Registration in a B.A.Sc. Program (Applied Human Nutrition major) or B.Sc. (Eng.) program.

MICR*2020 Microbial Interactions and Associations F,W (3-0) [0.50]
The interactions and associations of microorganisms with each other and with components of both the biotic and abiotic worlds have an enormous impact on daily life and their influence is felt on a global basis. The diversity of microorganisms including viruses, bacteria, fungi and protozoa will be presented in the context of such interactions and impact. The interactions of microbes with host organisms in symbioses and pathogenesis, and their survival strategies in extreme environments will be examined. The host-pathogen interactions in disease will be emphasized, but balanced with consideration of the beneficial aspects of microorganisms such as their role in biogeochemical cycles and their application in biotechnology. Assignments will evaluate contemporary microbiological issues in the context of the corresponding scientific literature. Department of Molecular and Cellular Biology. 
Prerequisite(s): BIOL*1040 or equivalent

MICR*3120 Systematic Bacteriology F (2-3) [0.50]
Classification, nomenclature, and identification of bacteria. Methods and approaches for the isolation and identification of bacteria are considered in the laboratory. The characteristics of some groups of common bacteria and the contributions of molecular systematics to bacterial classification are discussed. Department of Molecular and Cellular Biology. 
Prerequisite(s): MICR*2030

MICR*3220 Plant Microbiology F (3-0) [0.50]
Interaction between plants and microorganisms. Topics include molecular plant-microbe interactions, plant defenses, bacterial ice nucleation, interaction among plant microbes, root nodulation, mycorrhizae, wood decay, and decomposition of plant litter. Department of Environmental Biology. 
Prerequisite(s): BIOL*1040

MICR*3230 Immunology I F (3-0) [0.50]
An introduction to the immune response of the vertebrate host, the cells and tissues of the lymphoid system, humoral and cell-mediated immunity, the concept of immunity to diseases and current techniques in immunology. Department of Molecular and Cellular Biology and Department of Pathobiology. 
Prerequisite(s): BIOL*1040, BIOL*2580

MICR*3260 Microbial Adaptation and Development W (3-1) [0.50]
Adaptation, development, and modulation of microbial physiology in response to environmental stimuli (tutorials included). Department of Molecular and Cellular Biology. 
Prerequisite(s): BIOL*3560, (MBG*3070 or MBG*3080)

MICR*3270 Microbial Cell Biology W (3-0) [0.50]
This course describes the diversity in form and function in microorganisms. The structures of critical cellular components will be considered from the perspective of the cellular requirements for survival in different environments. The underlying macromolecular assembly systems will be considered in the context of their integration into cell division and the bacterial cell cycle, as well as their exploitation as targets for antibiotics and other therapeutic approaches. Department of Molecular and Cellular Biology. 
Prerequisite(s): BIOL*2210, MBG*2020, MICR*2030
Co-requisite(s): BIOL*3560
Restriction(s): MICR*4270

MICR*3330 World of Viruses F (3-0) [0.50]
Viruses infecting many organisms will be covered in the context of their global impact on disease and history, beneficial uses of viruses and their role in advances of molecular theory. The diversity of viruses, their replication strategies and interactions with the host in disease at the individual to societal levels provides a fundamental virology background. Discussions of protection from viral diseases, including human interventions, and highlighting their pervasiveness through historical accounts and contemporary news articles on viruses will serve to demonstrate their relevance to today's society. Department of Molecular and Cellular Biology. 
Prerequisite(s): BIOL*2210, MBG*2020

MICR*4140 Soil Microbiology and Biotechnology F (3-0) [0.50]
The biology of soil microorganisms with an emphasis on their integrated ecology, physiology, genetics and biotechnological uses in the soil environment. The response of soil microorganisms to soil physical-chemical factors and aspects of nutrient cycling in soil. Current topics also include soil as an environment for microorganisms, microbial evolution, soil microbial biodiversity, gene flow and microbial nucleic acids in soil, microbial survival and activity in soil, metabolism of soil pollutants and metal-microbe interactions. The use of molecular-based methods to study microorganisms in soil. Regulations and guidelines on the biotechnological applications of microorganisms in the soil environment will be discussed. Department of Environmental Biology. 
Prerequisite(s): BIOC*2580, BIOL*1040

MICR*4230 Immunology II W (3-3) [0.50]
Concepts and current knowledge of the diversity of immune response, experimental systems used in studying immunology, antigen-antibody reaction methods, monoclonal antibodies, antibody engineering, hypersensitivity reactions, autoimmunity, and adhesion molecules and homing of cells of the immune system. Department of Molecular and Cellular Biology. 
Prerequisite(s): MICR*3230

MICR*4240 Topics in Microbiology S,W (1-3) [0.50]
Independent study of a selected topic in microbiology, involving a review and critical appraisal of the current literature. Written and oral presentations are required. Department of Molecular and Cellular Biology. 
Restriction(s): Students are required to discuss a topic with a potential supervisor before registering for the course. Open to students in semesters 6, 7 and 8. Instructor consent required.

MICR*4280 Microbial Ecology W (3-0) [0.50]
This course focuses on analysis of natural microbial communities, factors affecting structure and function of these communities and the interrelationships among microorganisms within community. There is a strong emphasis on understanding the role of microorganisms in carbon, nitrogen and phosphorus transformations within both aerobic and anaerobic environments. This will include the major chemical and biochemical transformation by microorganisms in a vertical slice through a pond, from the core of the earth through the water air interface and up through the stratosphere. Terrestrial and fresh water aquatic environments will be emphasized, but a consideration of aspects relevant to the marine environment will be included. The interrelationship of nutrient cycling and global warming will also be discussed. Aspects of environmental biotechnology will be included as appropriate. 
Prerequisite(s): MBG*2020, MICR*2030
Restriction(s): MICR*4290

Molecular Biology and Genetics

Department of Animal and Poultry Science
Department of Molecular and Cellular Biology
Department of Plant Agriculture
Department of Integrative Biology

MBG*1000 Genetics and Society F,W (3-1) [0.50]
Basic principles of genetics at work in human society. The roles of genes and inheritance in the biology of humans and the organisms with which we interact. Introduction to some of the social and ethical consequences of genetic knowledge and practice. This is a science course designed primarily for students in the Arts or Social and Applied Human Sciences.Department of Molecular and Cellular Biology.
Restriction(s): Not available to students registered in B.Sc. programs.
Prerequisite(s): MBG*2000, 0.50 credits in statistics

MBG*2020 Introductory Genetics S,F,W (3-1) [0.50]
Fundamental aspects of genetics including the chromosomal basis of inheritance, cytogenetics, genes in populations and quantitative traits will be introduced. Additional topics include extranuclear inheritance, human genetics and bacterial genetics. The molecular nature of the gene and general mechanisms of gene and general mechanisms of gene expression will be introduced but not covered in detail. Department of Molecular and Cellular Biology.
Prerequisite(s): 4 credits including BIOL*1040

MBG*2000 Introductory Molecular Biology F,W (3-1) [0.50]
This course provides an introduction to the structure of the gene and the relationship between genes and proteins with an in depth discussion of the processes of replication, transcription, translation, regulation of gene expression, mutation and DNA repair and recombination. The experimental techniques used in molecular cloning and their applications to the biotechnology industry and the study of diseases will be discussed. Department of Molecular and Cellular Biology.
Prerequisite(s): BIOC*2580, MBG*2000

MBG*3000 Population Genetics F (3-2) [0.50]
This course is designed to explore the concepts of random mating, inbreeding, random drift, assortative mating and selection as they relate to natural populations. The dynamic genetic structure of populations and its relationship to the process of speciation is examined. The role and significance of molecular genetics as it relates to population genetics, evolution, systematics and phylogeny is also considered. Department of Integrative Biology.
Prerequisite(s): MBG*2000

MBG*3050 Human Genetics W (3-3) [0.50]
A course designed to introduce the student to the study of biological inheritance in humans. The course includes discussion of the genetic basis of human individual differences, gene frequencies in human populations, human behavioral genetics, human cytogenetics, biochemical genetics and developmental genetics, medical genetics and other aspects of human heredity. Department of Molecular and Cellular Biology.
Prerequisite(s): MBG*2020

MBG*3060 Quantitative Genetics W (3-2) [0.50]
The nature of Mendelian inheritance when extended to quantitative traits that are jointly influenced by the environment and the simultaneous segregation of many genes. Prediction of response to natural and artificial selection in populations. Department of Animal and Poultry Science.
Prerequisite(s): MBG*2000, 0.50 credits in statistics

MBG*3080 Bacterial Genetics S,F,W (3-3) [0.50]
This course focuses on the genetics of prokaryotic microorganisms and their viruses. Some major topics covered are; regulation of gene expression, analysis of bacterial and phage genomes, plasmids, transposable elements, and mutation studies. Department of Molecular and Cellular Biology.
Prerequisite(s): MBG*2020, (MICR*2020 or MICR*2030)
Restriction(s): MBG*3070

MBG*3090 Applied Animal Genetics F (3-2) [0.50]
The basis of, and methods for, effective use of modern animal breeding tools for practical improvement of livestock species. The course involves an examination and comparison of the structure of genetic improvement programs across species. International aspects and challenges to animal breeding programs are considered. Department of Animal and Poultry Science.
Prerequisite(s): MBG*2000, 0.50 credits in statistics

MBG*3100 Plant Genetics F (3-2) [0.50]
Reproduction in plants, genetic and cytogenetic structure of plants, nature of phenotypic variability in plants, patterns of response to selection in plant populations, measurement of continuous and discontinuous genetic variability in plant populations. Department of Plant Agriculture.
Prerequisite(s): (MBG*2000 or AGR*2451/2 for B.Sc.(Agr.) students only), STAT*2040

MBG*3200 Genetics: Our Uncertain Heritage F (3-0) [0.50]
An examination of the ethical, social, and political issues arising from genetic manipulation, reproductive intervention and biotechnology through the joint application of principles of modern genetics and moral philosophy. Topics include eugenics, cloning, surrogate parenting, abortion, gene therapy, DNA fingerprinting and genetic diagnosis. Related issues such as scientific freedom, access to genetic information and public policy are also considered. Department of Molecular and Cellular Biology.
Prerequisite(s): MBG*2000

MBG*3350 Laboratory Methods in Molecular Biology F,W (0-8) [0.75]
Laboratory based instruction in the basic methodologies of Molecular Biology. Students will have the opportunity to develop technical skills and practical knowledge sufficient to perform basic procedures independently, and to diagnose and analyze experimental results obtained with these techniques. Department of Molecular and Cellular Biology.
Prerequisite(s): BIOC*2580, MBG*2020
Restriction(s): Registration in the B.Sc. Major in Molecular Biology and Genetics, Biochemistry, Biochemistry (Co-op), Biomedical Toxicology, Biomedical Toxicology (Co-op) or instructor consent.

MBG*3360 Laboratory Methods in Molecular Biology II W (0-8) [0.75]
Laboratory based instruction in the basic methodologies of Molecular Biology. Students will have the opportunity to develop technical skills and practical knowledge sufficient to perform advanced agendas independently, and to diagnose and analyze experimental results obtained with these techniques. Department of Molecular and Cellular Biology.
Prerequisite(s): 70% in MBG*3350 and 75% in MBG*3360

MBG*3380 Introduction to Genomics S,F,W (1.5-0) [0.25]
Genomics is the analysis of the structures and functions of entire genomes, whose nucleotide sequences are now known in part or in entirety for many different organisms. This computer-based course will provide an introduction to the methodology and applicability of this new discipline. Department of Molecular and Cellular Biology. (Offered through distance education format only.)
Prerequisite(s): MBG*2020

MBG*4070 Genetics and Molecular Biology of Development F (3-2) [0.50]
An examination of the genetic mechanisms which specify organismic development. Molecular biology of determination and cell differentiation, homeotic genes, oncogenes, genetic control of morphogenesis and pattern formation. Application of embryo manipulation techniques in basic science and medicine. Department of Molecular and Cellular Biology. (Offered in odd-numbered years.)
Prerequisite(s): MBG*2020
Restriction(s): MBG*4070

MBG*4080 Animal Genetics and Molecular Biology of Development F (3-2) [0.50]
Theoretical and scientific aspects of practical animal breeding programs which lead to genetic improvement of efficiency and profitability of animal production. Integrates quantitative genetics with concepts of statistics, economics, biology and biotechnology and expands into development of practical breeding plans. Department of Animal and Poultry Science.
Prerequisite(s): MBG*3060

MBG*4040 Genetics and Molecular Biology of Development F (3-2) [0.50]
An examination of the genetic mechanisms which specify organismic development. Molecular biology of determination and cell differentiation, homeotic genes, oncogenes, genetic control of morphogenesis and pattern formation. Application of embryo manipulation techniques in basic science and medicine. Department of Molecular and Cellular Biology. (Offered in odd-numbered years.)
Prerequisite(s): MBG*2020
Restriction(s): MBG*4040

MBG*4070 Genetics and Molecular Biology of Development F (3-0) [0.50]
Lecture portion only of MBG*4040. (Offered in odd-numbered years.)
Prerequisite(s): MBG*2020
Restriction(s): MBG*4040

MBG*4080 Molecular Genetics F (3-0) [0.50]
The chemical nature of genetic material, transcription and the control of gene expression. DNA cloning and the use of recombinant DNA molecules in modifying gene expression. Department of Molecular and Cellular Biology.
Prerequisite(s): MBG*2020

School of Fine Art and Music

Ensembles

Chamber Ensembles

Choir (Symphonic Choir, Chamber Choir, Siren-Women's Choir)

Concert Winds

Contemporary Music Ensemble

Early Music Ensemble

Jazz Band

Note: All ensembles are not necessarily offered every semester.

Solo Performance (Applied Music): Private instruction is offered in piano, voice, orchestral instruments, and various jazz and early instruments. In order to register in Applied Music (MUSC*1500), students must arrange an audition with the School of Fine Art and Music at the time of course selection. Auditions are held prior to the first day of classes each semester. In order to continue to the 2000 level of Applied Music, students must be in a Music Program (Honours major or minor, or General).

Applied Music courses are designed to be taken in successive semesters. Registration in this sequence following an interruption of more than one semester requires permission of the Director of the School. Students may be required to re-apply before registering to continue in Applied Music. Students must achieve a minimum grade of 70% in Applied Music courses in order to proceed to the next level.

Applied Composition: Private instruction is offered in music composition. In order to register in Applied Composition (MUSC*2410), students must submit a portfolio of compositions (scores and recordings) with the School of Fine Art and Music at the time of course selection. Interviews are held prior to the first day of classes each semester (see School of Fine Art and Music for interview schedule.) In order to enroll in Applied Composition, students must be registered in a Music program (Honours major or minor, or General, Area of Concentration).

Applied Composition courses are designed to be taken during successive Fall and Winter terms. If this sequence is interrupted for more than one semester, students my be required to reapply (an interview and submission of a portfolio) before registering to continue in Applied Composition. Students must achieve a minimum grade of 70% in Applied Composition courses in order to proceed to the next level.

Topics Courses: The School will normally offer a Topics course each Fall and Winter. See courses MUSC*3800 to MUSC*3870. Please consult the School of Fine Art and Music for specific titles of courses to be offered.

MUSC*1060 Introduction to Music F,W (3-0) [0.50]

An introductory course intended for students with NO previous experience in music. The main concepts and terminology of music from the Medieval period through the 20th-century will be explored in connection with the study of selected musical works. (Also offered through distance education format.)

Restriction(s): MUSC*2280, MUSC*2600, MUSC*2610, MUSC*2620, MUSC*3630

MUSC*1090 Physics of Music W (3-0) [0.50]

A course designed for arts and social science students with an interest or background in music. The fundamentals of vibrations and waves will be introduced and applied to a study of archetypical instruments. The psychoacoustic basis of pitch and loudness will be discussed. (Also listed as PHYS*1810.) (Offered in even-numbered years.)

Restriction(s): PHYS*1810; students who have standing in any other 1000 level Physics course (except PHYS*1020 or PHYS*1600) may enrol in this only if they are completing an honours or general program in Music, in which case permission of the instructor is required.

MUSC*1130 Introduction to Musicanship S,F,W (0-8) [0.50]

Fundamentals of ear training, sight-singing, keyboard, and written skills (rudiments such as scales, intervals and basic chord identification) are introduced. Proficiency on an instrument is not required, but previous experience with note-reading is expected. MUSC*1130 cannot be counted toward a specialization in music. (Offered through distance education format only.)

Equate(s): MUSC*1120

Restriction(s): MUSC*1180

MUSC*1180 Musicanship F,W (3-0) [0.50]

Ear training through dictation and sight-singing exercises; C clefs; elementary improvisation and harmonization.

MUSC*1250 Melody and Counterpoint W (3-0) [0.50]

An introduction to the linear aspects of music through the study of melody, species counterpoint, and figured bass.

Prerequisite(s): 1 of MUSC*1120 , MUSC*1130, MUSC*1180, MUSC*2180

MUSC*1500 Applied Music I F,W (1-6) [0.50]

Individual instruction in the technical and stylistic aspects of artistic solo instrumental or vocal performance. In order to register for this course, students must arrange an audition with the School of Fine Art and Music at the time of course selection.

Restriction(s): Successful completion of an audition. Registration in semesters 1 to 4.

MUSC*1510 Applied Music II S,F,W (1-6) [0.50]

A continuation of MUSC*1500.

Prerequisite(s): A minimum grade of 70% in MUSC*1500.

MUSC*2010 The Musical Avant-Garde F (3-0) [0.50]

An introduction to the avant-garde musical life of the 20th century including the works of Debussy, Stravinsky, Satie, Schoenberg, Cage, Cowell, and others. (Offered in even-numbered years.)

Restriction(s): MUSC*3630

MUSC*2030 Music in Canada F (3-0) [0.50]

The background and development of musical life in Canada. Cultivation of understanding of Canadian music using recorded examples with emphasis on 20th-century compositions. (Offered in odd-numbered years.)

MUSC*2100 Creating Music on the Computer F,W (3-0) [0.50]

An introduction to computer technologies as they apply to the creation and manipulation of music. Topics will be drawn from the areas of sound synthesis and processing, recording, encoding, and transcription. The course will include a classroom and an applied component.

Prerequisite(s): MUSC*1180 or MUSC*2180. Some computer experience is recommended.

MUSC*2110 Music of the Circum-Atlantic and the Americas F (3-0) [0.50]

This course offers an ethnomusicological examination of the musical life of West and Central Africa, the Caribbean, and the Americas. (Offered in even-numbered years.)

Restriction(s): MUSC*2350

MUSC*2140 History of Jazz F (3-0) [0.50]

A survey of the major styles, personalities, and performances of the jazz tradition in terms of its social and cultural contexts through the examination of jazz texts and commentary, autobiographies of musicians, and recorded examples of important performances. (Also offered through distance education format.)

MUSC*2150 Music and Popular Culture F,W (3-0) [0.50]

A survey of the major genres, styles, personalities and performance of popular music primarily in the 20th-century through lectures, listening, discussion and reading. Issues such as the relationships between popular music and race, class, technology, and art will be examined. Technical knowledge of music is not required.

MUSC*2180 Musicanship II F,W (3-0) [0.50]

A continuation of MUSC*1180.

Prerequisite(s): MUSC*1180

MUSC*2200 Music of the Near and Far East W (3-0) [0.50]

An ethnomusicological examination of the musical life of the Islamic world, South Asia, Indonesia, and the Far East. (Offered in even-numbered years.)

Equate(s): MUSC*2350

MUSC*2220 Electronica: Music in the Digital Age W (3-0) [0.50]

This course will provide an introduction to digital music, from the initial “cybernetic” experiments of the 1950s to the evolution of software tools for synthesizing, processing, and analyzing sound to the development of music/audio-related hardware such as digital synthesizers, samplers, recorders, mixers, and workstations. An overview of musical genres utilizing digital technology will be presented (experimental, techno, dance, rap, ambient, etc.). Digital technology, including the revolutionary MIDI protocol, will be set into historical context, looking at musical and social developments and milestones, as well as related non-digital technology such as analog synthesizers and multi-track recorders.

MUSC*2280 Masterworks of Music F,W (0-10) [0.50]

Selected musical works from 1600 to the present will be studied with reference to the historical, literary, and artistic milieu in which they were written and performed. Previous familiarity with basic musical terminology and note reading is required. This is a web-based course. (Offered through distance education format only.)
XII. Course Descriptions, Music

MUSC*2360 Tonal Harmony I F (3-0) [0.50]
The study of diatonic harmony: triads, progression, secondary dominants, harmonization of melodies and basses; dissonance treatment; diatonic modulation.
Prerequisite(s): MUSC*1250
Equate(s): MUSC*2250

MUSC*2370 Tonal Harmony II W (3-0) [0.50]
A continuation of MUSC*2360 which introduces chromatic harmonies (augmented and Neapolitan sixth chords), suspension chords, linear structures, and non-diatonic modulation.
Prerequisite(s): MUSC*2360
Equate(s): MUSC*2250

MUSC*2410 Applied Composition I F,W (1-6) [0.50]
This course offers individual instruction in the technical and aesthetic aspects of music composition. In order to register for this course, students must submit a portfolio and arrange for an interview with the School of Fine Arts and Music at the time of course selection.
Prerequisite(s): (MUSC*1180 or MUSC*2180), MUSC*1250.
Restriction(s): Instructor consent and registration in a Music Program (Honours major or minor, General).

MUSC*2500 Applied Music III S,F,W (1-6) [0.50]
A continuation of MUSC*1510.
Prerequisite(s): (MUSC*1180 or MUSC*2180), a minimum grade of 70% in MUSC*1510. (MUSC*1180 or MUSC*2180 may be taken as corequisite)
Restriction(s): Registration in a Music specialization.

MUSC*2510 Applied Music IV S,F,W (1-6) [0.50]
A continuation of MUSC*2500.
Prerequisite(s): A minimum grade of 70% in MUSC*2500, (1 of MUSC*2600, MUSC*2610, MUSC*2620).
Restriction(s): Registration in a Music specialization.

MUSC*2530 Instrumental Ensembles I F,W (0-2) [0.25]
The study and performance of selected instrumental music through participation in one of the School's ensembles: Chamber Ensemble, Concert Winds, Contemporary Music Ensemble, Jazz Band, or the Early Music Ensemble. In order to register for an ensemble, the student must arrange for an audition with the School of Fine Art and Music. Auditions will be held prior to the first day of classes each Fall and Winter semester. Students must check with the School of Fine Art and Music office for audition dates. Students are encouraged to audition for an ensemble in the Fall semester and to participate in it for both Fall and Winter semesters. Not all ensembles will be able to accept new members each Fall and Winter semester. Students must check with the School of Fine Art and Music office for audition dates. Students are encouraged to audition with the School of Fine Art and Music at the time of course selection.
Prerequisite(s): Successful completion of an audition. Instructor consent required.

MUSC*2540 Instrumental Ensembles II F,W (0-2) [0.25]
A continuation of MUSC*2530.
Prerequisite(s): MUSC*2530
Restriction(s): Instructor consent required.

MUSC*2550 Choral Ensembles I F,W (0-2) [0.25]
The study and performance of selected choral literature through participation in one of the School's ensembles: the University of Guelph Symphonic Choir, the Chamber Choir, or Siren. In order to register for an ensemble, the student must arrange for an audition with the School of Fine Art and Music. Auditions will be held prior to the first day of classes each Fall and Winter semester. Students must check with the School of Fine Art and Music office for audition dates. Students are encouraged to audition for an ensemble in the Fall semester and to participate in it for both Fall and Winter semesters. Not all ensembles will be able to accept new members in Winter. Consult the School of Fine Art and Music for further information.
Equate(s): MUSC*2520
Restriction(s): Successful completion of an audition. Instructor consent required.

MUSC*2560 Choral Ensembles II F,W (0-2) [0.25]
A continuation of MUSC*2550.
Prerequisite(s): MUSC*2550
Equate(s): MUSC*2520
Restriction(s): Instructor consent required.

MUSC*2570 Keyboard Accompaniment I F,W (0-2) [0.25]
Development of sight-reading and accompaniment skills for pianists in close coordination with vocal and instrumental applied music students.
Prerequisite(s): MUSC*2510
Restriction(s): Instructor consent required.

MUSC*2580 Keyboard Accompaniment II F,W (0-2) [0.25]
A continuation of MUSC*2570.

MUSC*2590 Music History: Chant to Josquin F (3-0) [0.50]
A survey of the history of music from chant to the mid-Renaissance. Principal genres and composers from the pre-Christian era to Josquin will be studied.
Prerequisite(s): 1 of MUSC*1120, MUSC*1130, MUSC*1180, MUSC*2180
Equate(s): MUSC*2160

MUSC*2610 Music History: The Reformation to J.S. Bach W (3-0) [0.50]
A survey of the history of music from the mid-16th century to the end of the Baroque era. Principal genres and composers from the beginning of the Italian madrigal to J.S. Bach will be studied.
Prerequisite(s): 1 of MUSC*1120, MUSC*1130, MUSC*1180, MUSC*2180
Equate(s): MUSC*2160

MUSC*2620 Music History: Classical and Romantic Eras F (3-0) [0.50]
A survey of the history of music from the classical era to the late 19th century. Principal genres and composers from C.P.E. Bach to Brahms and Wagner will be studied.
Prerequisite(s): 1 of MUSC*1120, MUSC*1130, MUSC*1180, MUSC*2180

MUSC*3040 Analytical Method F (3-0) [0.50]
This course offers instruction in an established analytical method appropriate to a pre-tonal, tonal, post-tonal, or twelve-tone repertoire, through exercises in analysis and relevant readings. (Offered in odd-numbered years.)
Prerequisite(s): MUSC*2370

MUSC*3150 Music in London F (3-0) [0.50]
A lecture/seminar course that will examine in depth choral and instrumental music of principal composers from representative periods and media, performed at London, England. Compositions will be analyzed in relation to their stylistic technique, formal structure, and historical place in the repertoire of music. A professor of music will present weekly seminars, arrange assignments, and give personal supervision in London.
Restriction(s): Admission to the London Semester.

MUSC*3290 Musicianship III F (3-0) [0.50]
A study of the fundamentals of conducting techniques. Emphasis on practical application to choral and instrumental organizations; score reading and analysis and interpretation of literature. (Offered in odd-numbered years.)
Prerequisite(s): (MUSC*2180, MUSC*2360) or permission of the instructor
Equate(s): MUSC*2290

MUSC*3410 Applied Composition III F,W (1-6) [0.50]
This course is a continuation of MUSC*2410. (First offering - Winter 2009)
Prerequisite(s): A minimum grade of 70% in MUSC*2420 and (2 of MUSC*2530, MUSC*2540, MUSC*2550, MUSC*2560).
Restriction(s): Registration in a Music Program (Honours major or minor, General).

MUSC*3420 Applied Composition IV F,W (1-6) [0.50]
This course is a continuation of MUSC*3410. (First offering - Winter 2009)
Prerequisite(s): A minimum grade of 70% in MUSC*3410.
Restriction(s): Registration in a Music Program (Honours major or minor, General).

MUSC*3500 Applied Music V S,F,W (1-6) [0.50]
A continuation of MUSC*2510; restricted to students in a Music Program (Honours major or minor or General, area of concentration).
Prerequisite(s): 3.00 credits in music courses including a minimum grade of 70% in MUSC*2510, MUSC*2520, MUSC*2530, MUSC*2540, MUSC*2550, MUSC*2560.
Restriction(s): Registration in a Music Program (Honours major or minor, General, Area of Concentration).
MUSC*3510 Applied Music VI S,F,W (1-6) [0.50]
A continuation of MUSC*3500 including preparation and performance of a juried recital; restricted to students in a Music program (honours major or minor or general, area of concentration).
Prerequisite(s): 4.00 credits in music courses including a minimum grade of 70% in MUSC*3500
Restriction(s): Registration in a Music Program (Honours major or minor, General, Area of Concentration).

MUSC*3550 Advanced Music Ensemble I F,W (0-3) [0.25]
The study and performance of selected instrumental or vocal chamber music through participation in a small ensemble under the guidance of a supervising instructor. Students will organize the ensemble, which normally consists of two to six vocalists and/or instrumentalists, design a project with the instructor, and submit the proposal to the Director of the School of Fine Art and Music for approval by the last day of course selection in Fall (for Winter) or Winter (for the following Fall). A form is available from the School office for this purpose.
Prerequisite(s): MUSC*2500, (2 of MUSC*2530, MUSC*2540, MUSC*2550, MUSC*2560)
Restriction(s): Registration in a Music Program (Honours major or minor, General, Area of Concentration). Instructor consent required.

MUSC*3560 Advanced Music Ensemble II F,W (0-3) [0.25]
A continuation of MUSC*3550.
Prerequisite(s): MUSC*3550
Restriction(s): Instructor consent required.

MUSC*3630 20th Century Music F (3-0) [0.50]
This course examines music from the late 19th century (Debussy and post-romantic composers) to the present from both historical and theoretical perspectives.
Prerequisite(s): MUSC*2370, MUSC*2620

MUSC*3740 Issues in Popular Music Studies W (3-0) [0.50]
This course examines the rise and impact of the cultural industries on production and consumption of music, the development of transnational popular music, and the role of popular music in the politics of social identity.
Prerequisite(s): 1 of MUSC*1120, MUSC*1130, MUSC*1180, MUSC*2180

MUSC*3750 Popular Musics of the World W (3-0) [0.50]
The major styles and genres of popular musics around the world, with an emphasis on musical style and its relationship to social processes.
Prerequisite(s): MUSC*1180 or MUSC*2180, MUSC*2150

The following topics courses normally focus on current areas of faculty research, such as recent developments in jazz research, the reception of the music of Beethoven, the music of Gabriel Faure, improvisational studies, Lied and Art Song, Russian music and literature, and black music of the circum-Atlantic and digital music. It is expected that students will have completed at least 10.00 credits before taking these upper-level courses.

MUSC*3800 Topics in Music U (3-0) [0.50]
A course which examines selected topics in music history, performance practice, analysis, and music within its cultural context.
Restriction(s): Instructor consent required.

MUSC*3810 Topics in Music U (3-0) [0.50]
A course which examines selected topics in music history, performance practice, analysis, and music within its cultural context.
Restriction(s): Instructor consent required.

MUSC*3820 Topics in Ethnomusicology U (3-0) [0.50]
Topics for this course will normally include some combination of the following: a specific world music tradition, ethnomusicological issues, theories, or methods. Subject matter will vary according to the instructor.
Prerequisite(s): MUSC*2110 or MUSC*2200
Restriction(s): Instructor consent required.

MUSC*3830 Topics in Ethnomusicology U (3-0) [0.50]
Topics for this course will normally include some combination of the following: a specific world music tradition, ethnomusicological issues, theories, or methods. Subject matter will vary according to the instructor.
Prerequisite(s): MUSC*2110 or MUSC*2200
Restriction(s): Instructor consent required.

MUSC*3840 Topics in Music Theory U (3-0) [0.50]
An analytical investigation of a selected topic in music. Topics will rotate on an annual basis and may include advanced theoretical study of Western art music as well as jazz theory.
Restriction(s): Instructor consent required.

MUSC*3850 Topics in Music Theory U (3-0) [0.50]
An analytical investigation of a selected topic in music. Topics will rotate on an annual basis and may include advanced theoretical study of Western art music as well as jazz theory.
Restriction(s): Instructor consent required.

MUSC*3860 Topics in Digital Music U (3-0) [0.50]
This is a course which focuses on a specific area of digital music production. Topics may include advanced audio production, advanced MIDI sequencing, advanced music notation/instrumentation, synthesis and signal processing, music-oriented computer programming, or interactive computer music. Normally, a major creative project will be completed and presented as an outcome of the course.
Prerequisite(s): MUSC*2100, (MUSC*2010 or MUSC*2220)
Restriction(s): Instructor consent required.

MUSC*3870 Topics in Digital Music U (3-0) [0.50]
This is a course which focuses on a specific area of digital music production. Topics may include advanced audio production, advanced MIDI sequencing, advanced music notation/instrumentation, synthesis and signal processing, music-oriented computer programming, or interactive computer music. Normally, a major creative project will be completed and presented as an outcome of the course.
Prerequisite(s): MUSC*2100, (MUSC*2010 or MUSC*2220)
Restriction(s): Instructor consent required.

MUSC*4040 Analytical Method W (3-0) [0.50]
This seminar in advanced analysis examines complex applications of the theoretical method studied in the prerequisite course. (Offered in even-numbered years.)
Prerequisite(s): MUSC*3040
Restriction(s): Instructor consent required.

MUSC*4200 Directed Readings I S,F,W (3-0) [0.50]
A reading course designed to enable the student to investigate a topic in music not otherwise available in the curriculum. The student will design a course of readings and assignments with the instructor and submit the proposal to the Director of the School of Fine Art and Music for approval by the last day of course selection in the previous semester.
Prerequisite(s): Completion of the music core.
Restriction(s): Instructor consent required.

MUSC*4210 Directed Readings II S,F,W (3-0) [0.50]
A reading course designed to enable the student to investigate a topic in music not otherwise available in the curriculum. The student will design a course of readings and assignments with the instructor and submit the proposal to the Director of the School of Fine Art and Music for approval by the last day of course selection in the previous semester.
Prerequisite(s): Completion of the music core.
Restriction(s): Instructor consent required.

MUSC*4240 Experiential Learning in Music S,F,W (3-0) [0.50]
This experiential learning option provides qualified undergraduate students with an opportunity to design an independent program that integrates academic study, such as readings or assignments, with off-campus work or performance (paid or voluntary). Written proposals, signed by the instructor, must be submitted to the Director of the School for approval by the last day of course selection in the previous semester.
Prerequisite(s): 3.00 credits in Music
Restriction(s): Instructor consent required.

MUSC*4401 Honours Music Project S,F,W (3-0) [0.50]
First part of the two-semester course MUSC*4401/2. Refer to MUSC*4401/2 for course description.
Prerequisite(s): Completion of the music core.
Restriction(s): Permission of the School and registration in an honours major in music (students who wish to propose a recital must also have completed MUSC*3510 with a minimum grade of 80%).
**MUSC*4401/2 Honours Music Project S-F,F-W,W-S [1.00]**

Preparation of a major theoretical or historical paper or presentation of a full-length recital. Projects are subject to approval of the School, and must be submitted to the Director, on school forms, by the last day of course selection in the previous semester. This is a two-semester course offered over consecutive semesters. When you select it you must select MUSC*4401 in the first semester and MUSC*4402 in the second semester. A grade will not be assigned to MUSC*4401 until MUSC*4402 has been completed.

**Prerequisite(s):** Completion of the music core.

**Restriction(s):** Permission of the School and registration in an honours major in music (students who wish to propose a recital must also have completed MUSC*3510 with a minimum grade of 80%).

### Nutrition

**Department of Animal and Poultry Science**

**Department of Family Relations and Applied Nutrition**

**Department of Human Health and Nutritional Sciences**

#### NUTR*1010 Nutrition and Society F,W (3-0) [0.50]

The significance of nutrition in terms of individuals and societies throughout the world. Factors involved in the application of knowledge of nutritional needs and food selection. Department of Family Relations and Applied Nutrition. (Also offered through distance education format.)

**Prerequisite(s):** NUTR*1010

**Restriction(s):** NUTR*3010

#### NUTR*2050 Family and Community Nutrition F (3-0) [0.50]

Nutritional needs through the life cycle and their significance in family and community health. Department of Family Relations and Applied Nutrition. (Also offered through distance education format.)

**Prerequisite(s):** NUTR*1010

**Restriction(s):** NUTR*3010

#### NUTR*2150 Introduction to Nutritional and Food Sciences F (3-0) [0.50]

This interdisciplinary course provides an introduction to the Food and Nutritional Sciences from both historical and modern perspectives. Major themes are the nutritional and functional properties of food, nutrient assimilation, food preservation and safety, and the interactions between food processing, diets and health. The course is taught by the Department of Food Science. (Also listed as FOOD*2150.)

**Prerequisite(s):** BIOL*1040, CHEM*1040 or CHEM*1300

**Equate(s):** FOOD*2150

**Restriction(s):** AGR*3330, FOOD*2010, FOOD*3070. Not available to students registered in Applied Human Nutrition major.

#### NUTR*3040 Clinical Nutrition I W (3-0) [0.50]

This course will introduce and develop key concepts of the applied aspects of nutrition and health professional practice will be addressed. A case study based course. Department of Family Relations and Applied Nutrition.

**Prerequisite(s):** NUTR*3040, BIOM*3110

**Restriction(s):** Registration in the 4th year of the Applied Human Nutrition Major.

#### NUTR*3110 Food Security W (3-0) [0.50]

The prevalence of food insecurity in Canada and selected industrialized and non-industrialized countries is examined. The course will review environmental, social, and other factors associated with food insecurity and take critical look at the effectiveness of programs and policies designed to improve food security.

**Prerequisite(s):** NUTR*2050

**Restriction(s):** Registration is limited to students registered in the Applied Human Nutrition Major.

#### NUTR*3210 Fundamentals of Nutrition F,W (3-0) [0.50]

This is the foundation course for the study of nutrition. The occurrence, uptake and metabolic role of nutrients will be discussed in relation to growth, reproduction and longevity in human subjects, domestic animals and other species. Department of Human Health and Nutritional Sciences.

**Prerequisite(s):** BIOL*2580

**Restriction(s):** NUTR*3190 or NUTR*3210

#### NUTR*3330 Micronutrients, Phytochemicals and Health F (3-0) [0.50]

The course emphasizes the biochemical basis for the dietary essentiality of vitamins and minerals. The course extends the fundamentals of nutrition to include conditional essentiality of micronutrients, biochemical individuality and the use of micronutrient supplementation to promote human and animal health. Both plant and animal sources of nutrients are discussed. Department of Human Health and Nutritional Sciences.

**Prerequisite(s):** NUTR*3190 or NUTR*3210

#### NUTR*3390 Applied Nutritional and Nutraceutical Sciences I F (2-3) [0.50]

This course will introduce and develop key concepts of the applied aspects of the Nutritional and Nutraceutical Sciences. Enrichment of foods with health protectant chemicals, establishing biomarkers and risk indicators of disease, testing of bioavailability/efficacy to support basic health claims, health assessment and nutrigenomic analysis as adjuvants in the effective use of functional foods and nutraceuticals, and regulatory and marketing/consumer issues are topics that will be addressed.

**Prerequisite(s):** NUTR*3190 or NUTR*3210

**Restriction(s):** Registration in the Nutritional and Nutraceutical Sciences Major and the Nutritional Sciences and the Functional Food and Nutraceuticals Minors.

#### NUTR*4010 Nutritional Assessment F (3-3) [0.75]

Principles and methods used in nutritional assessment of individuals and populations in health and disease states. Dietary, anthropometric and biochemical techniques will be primary components. Nutritional screening, advanced techniques for body composition assessment, physical exam and clinical indicators will also be addressed. Laboratories will provide the students with hands-on training of diet and anthropometric methods. Cases will be used to develop the understanding of the concepts discussed in lectures and expand on the ethical treatment of individual and group data. Significant independent learning will be required. Department of Family Relations and Applied Nutrition.

**Prerequisite(s):** NUTR*2050, (NUTR*3190 or NUTR*3210)

**Restriction(s):** Registration in the 4th year of the Applied Human Nutrition Major.

#### NUTR*4040 Clinical Nutrition II F (3-3) [0.75]

A continuation of NUTR*3040. This lecture and laboratory based course is concerned with the application of nutrition to clinical problems. Methods and content of medical nutrition therapy in prevention and treatment of gastrointestinal, renal, hepatic diseases and catabolic states will be emphasized. Ethical issues in nutrition management of disease and health professional practice will be addressed. A case study based course. Department of Family Relations and Applied Nutrition.

**Prerequisite(s):** NUTR*3040, BIOM*3110

**Restriction(s):** Registration in the 4th year of the Applied Human Nutrition Major.

#### NUTR*4070 Nutrition Education F (3-3) [0.50]

Methods and approaches in nutrition education. Community programs in nutrition for different age groups; dietary counselling; nutrition education in the preschool, in prenatal and other specialized programs. Department of Family Relations and Applied Nutrition.

**Prerequisite(s):** FRHD*3400, NUTR*2050

**Restriction(s):** Registration in B.A.Sc. Program.

#### NUTR*4090 Functional Foods and Nutraceuticals W (3-0) [0.50]

The course examines the relation of functional foods and nutraceuticals (FFN) to foods and drugs. The safety and efficacy of individual FFN products, and the regulatory issues that influence the development and commercialization of FFN in global markets are emphasized. The course is co-operatively taught by the Department of Human Health and Nutritional Sciences and the Department of Food Science. (Also listed as FOOD*4090.)

**Prerequisite(s):** NUTR*3190 or NUTR*3210

**Equate(s):** FOOD*4090

#### NUTR*4200 Nutrition and Immune Function W (3-0) [0.50]

This course integrates existing knowledge in several areas - nutrition, metabolism and immunology. Of particular interest are the underlying mechanisms of nutritional immunomodulation with particular reference to the human problem of protein-energy malnutrition. Food sensitivities and the immunological functions of milk will also be considered. Department of Human Health and Nutritional Sciences. (Offered in odd-numbered years.)

**Prerequisite(s):** NUTR*3190 or NUTR*3210

#### NUTR*4210 Nutrition, Exercise and Energy Metabolism F (3-0) [0.50]

Energy metabolism will be considered under the headings: thermodynamic principles, energy deposition and hormonal control of metabolism; nutrition, exercise and environmental influences on energy balance and enzyme adaptation; nutrition and exercise in the control of body composition. Department of Human Health and Nutritional Sciences.

**Prerequisite(s):** (NUTR*3190 or NUTR*3210), (BIOM*3110 or HK*3940)

#### NUTR*4320 Nutrition and Metabolic Control of Disease W (3-0) [0.50]

A discussion of disorders of metabolism, either inherited or acquired, in which nutrition plays a major role in the etiology, pathogenesis, or treatment. The nutritional control of the affected metabolic pathways and the interaction of nutrition with exercise, drugs and gene therapy will be presented. Department of Human Health and Nutritional Sciences.

**Prerequisite(s):** (NUTR*3190 or NUTR*3210), (1 of BIOM*3110 or HK*3940, ZOO*3210)

#### NUTR*4330 Applied Nutritional and Nutraceutical Sciences II W (2-3) [0.50]

Laboratory and other investigational techniques are covered, together with their underlying concepts. The course is designed to enhance understanding of the design and use of nutraceuticals for human and animal health. Limited to students in Nutritional and Nutraceutical Sciences Major. Department of Human Health and Nutritional Sciences.

**Prerequisite(s):** (NUTR*3190 or NUTR*3210), NUTR*3330, NUTR*3390, HK*3940

**Restriction(s):** Registration in B.Sc. Program (Nutritional & Nutraceutical Sciences major).

Philosophy

Department of Philosophy

Note: Specific descriptions of all courses to be offered in a given semester will be available from the Department of Philosophy in each preceding semester. Students are advised to consult these descriptions. Different sections of a course often emphasize different aspects of that course.

1. All 2000 level philosophy courses are open to students who have completed 5.00 credits or who have completed one of PHIL*1000, PHIL*1010, PHIL*1050.

2. Unless otherwise noted, 3000 level philosophy courses are open to students who have completed at least 1.50 credits in philosophy or 7.50 credits.

3. For most 4000 level courses, students are expected to have completed at least 1.00 credits in philosophy at the 3000 level. Some 4000 level credits have specific prerequisites, e.g. PHIL*4320, PHIL*4360 (see course descriptions in the following pages). If a student is taking several credits with such prerequisites, then the number of other philosophy credits which need to be completed may exceed the general requirement of 1.00 credits at the 3000 level. PHIL*4310 is designed to be open to seventh and eighth semester students who have no previous philosophy credit. If in doubt about being well prepared for a particular course, the student should consult with either the instructor or the chair of the department.

4. Students may receive credit for PHIL*1000, PHIL*1010 and PHIL*1050, but only one may be counted towards the minimum number of philosophy credits required for a degree in philosophy. Students intending to proceed in the discipline at the 2000 level are advised to take only 0.50 credits at the 1000 level.

PHIL*1000 Introductory Philosophy: Major Texts F,W (3-0) [0.50]
An introduction to philosophy through primary texts in the history of philosophy, with emphasis upon traditional topics such as the nature of knowledge and the different types of knowledge, the relationship between the mind and the body, the nature of good and evil, and the nature of sound argument.

PHIL*1010 Introductory Philosophy: Social and Political Issues F,W (3-0) [0.50]
An introduction to philosophy, with particular emphasis upon important problems facing society today, such as punishment, animal rights, discrimination, war and violence, equality and property and the market as a value system. Some consideration of the elements of argumentation will also occur.

PHIL*1050 Introductory Philosophy: Basic Problems F,W (3-0) [0.50]
An introduction to philosophy through the exploration of basic perennial philosophical problems and questions, such as whether there is free will, a God, objective right and wrong, genuine knowledge of the world, and other topics. The readings for the course will consist primarily of 20th century philosophical writing. Some consideration of the elements of argumentation will also occur.

PHIL*2030 Philosophy of Medicine F,W (3-0) [0.50]
An examination of philosophical and ethical issues that arise in human and veterinary medicine, including such topics as the definitions of disease and health, the status of medicine as a science, the role of values in medical research and medical practice, the doctor-patient relationship, psychiatry and the control of human behaviour, and the ethics of genetic counselling.

Prerequisite(s): 5.00 credits or 1 of PHIL*1000, PHIL*1010, PHIL*1050

PHIL*2060 Philosophy of Feminism I W (3-0) [0.50]
An examination of metaphysical, epistemological and ethical issues in feminist philosophy, including such topics as the nature and consequences of patriarchy, human nature, sexual divisions of labour, women’s studies, rationalizations of inequalities and explorations into a contemporary feminist agenda for social, political and economic changes.

Prerequisite(s): 5.00 credits or 1 of PHIL*1000, PHIL*1010, PHIL*1050

PHIL*2070 Philosophy of the Environment W (3-0) [0.50]
A critical examination of a variety of current ways of thinking about the environment, aimed at developing a satisfactory philosophical approach, especially from an ethical perspective. (Also offered through distance education format.)

Prerequisite(s): 5.00 credits or 1 of PHIL*1000, PHIL*1010, PHIL*1050

PHIL*2100 Critical Thinking F,W (3-0) [0.50]
A course designed to develop clarity of thought and method in the analysis and construction of arguments. By contrast to PHIL*2110, the emphasis here is upon informal principles of critical thinking and arguments stated in terms of ordinary language. Topics include the nature and methods of arguing, classification, definition and fallacies.

Prerequisite(s): 5.00 credits or 1 of PHIL*1000, PHIL*1010, PHIL*1050

PHIL*2110 Elementary Symbolic Logic W (3-0) [0.50]
A study of the basic principles and techniques of formal logic. The analysis of the logical structure of sentences and arguments is explored, together with the fundamental principles of elementary sentential logic and quantification.

Prerequisite(s): 5.00 credits or 1 of PHIL*1000, PHIL*1010, PHIL*1050

PHIL*2120 Ethics F,W (3-0) [0.50]
An examination of competing ethical theories (subjectivism, intuitionism, relativism, utilitarianism, egoism, deontologism) with a view to assessing their theoretical value as well as their ability to provide practical guidance and to resolve moral dilemmas. (Also offered through distance education format.)

Prerequisite(s): 5.00 credits or 1 of PHIL*1000, PHIL*1010, PHIL*1050

PHIL*2130 Philosophy of Religion F (3-0) [0.50]
A consideration of various philosophical questions concerning religion, such as arguments for the existence of God, the problem of evil, the meaning of religious language, the significance of mystical experience, human immortality. (Offered in odd-numbered years.)

Prerequisite(s): 5.00 credits or 1 of PHIL*1000, PHIL*1010, PHIL*1050

PHIL*2140 History of Greek and Roman Philosophy F (3-0) [0.50]
A survey of Western philosophy from the Pre-Socratics (6th-century, B.C.) to Plotinus (3rd century, A.D.).

Prerequisite(s): 5.00 credits or 1 of PHIL*1000, PHIL*1010, PHIL*1050

PHIL*2160 Modern European Philosophy to Hume W (3-0) [0.50]
A survey of European philosophy from the Renaissance (16th-century) to David Hume (mid-18th century).

Prerequisite(s): 5.00 credits or 1 of PHIL*1000, PHIL*1010, PHIL*1050

PHIL*2170 Existentialism W (3-0) [0.50]
Existentialism is a philosophy built around the experience of human freedom. This course focuses on the character of the subject who makes choices, and on the personal and political responsibilities that attach to the making of decisions. The course will examine this and other themes associated with Existentialism through nineteenth and twentieth century representatives, which may include Kierkegaard, Sartre, de Beauvoir, Camus and others.

Prerequisite(s): 5.00 credits or 1 of PHIL*1000, PHIL*1010, PHIL*1050

PHIL*2180 Philosophy of Science F (3-0) [0.50]
An examination of competing theories concerning the nature of science and its modes of inquiry, and the relationship between theories and data and between scientific knowledge and reality. The central problem of the course is the rational basis of scientific knowledge.

Prerequisite(s): 5.00 credits or 1 of PHIL*1000, PHIL*1010, PHIL*1050

PHIL*2220 Philosophy and Literary Art F (3-0) [0.50]
The course will engage with literary art forms (fiction, drama, poetry, and film) for philosophical goals. Possible emphases include the use of literary works to express philosophical topics; philosophical investigations of the nature of literary art forms; and philosophies of interpretation of such art forms (e.g., classical poetics, hermeneutics, deconstruction, analytical aesthetics).

Prerequisite(s): 5.00 credits or 1 of PHIL*1000, PHIL*1010, PHIL*1050

PHIL*2350 Selected Topics in Philosophy I U (3-0) [0.50]
The topics for this course will vary from one offering to the next, and will deal with material not available in regular courses. Students are encouraged to consult the departmental website for course content. Students are advised to consult a faculty advisor before registering.

Prerequisite(s): 5.00 credits or 1 of PHIL*1000, PHIL*1010, PHIL*1050

PHIL*2370 Introduction to Metaphysics W (3-0) [0.50]
A study of major theories of the nature of reality, and of issues and problems that arise in the investigation of fundamental features of the world. Texts read may be either historical or contemporary. Among possible topics explored in the course are materialism, free will, and determinism, the nature of time, and the position of consciousness in the world.

Prerequisite(s): 5.00 credits or 1 of PHIL*1000, PHIL*1010, PHIL*1050

PHIL*2600 Business and Professional Ethics W (3-0) [0.50]
An examination of ethical and evaluative issues relating to business and professional practices. Topics to be explored include the nature of values and ethical systems, duties and rights, private and public goods, the consumer movement, social marketing, corporate social accounting, private right and professional responsibility. Intended for students registered in a science or professional program, but without a background in philosophy.

Prerequisite(s): 5.00 credits or 1 of PHIL*1000, PHIL*1010, PHIL*1050

PHIL*3040 Philosophy of Law F (3-0) [0.50]
An examination of philosophical questions concerning the nature of law and morality. The course may also include an examination of the way in which controversial ethical and social issues are treated under the Canadian Charter of Rights and Freedoms.

Prerequisite(s): 1.50 credits in philosophy or 7.50 credits or PHIL*2120

2007-2008 University of Guelph Undergraduate Calendar

Last Revision: January 28, 2008
### PHIL*3050 Philosophy of Art W (3-0) [0.50]
A consideration of various philosophical questions concerning art such as the nature of a work of art, the nature of beauty, the relationship between the artist and the audience, the task of the art critic, the social function of art.  
Prerequisite(s): 1.50 credits in philosophy or 7.50 credits

### PHIL*3060 Medieval Philosophy W (3-0) [0.50]
A study of philosophy from the Patristic period (3rd century A.D.) to the early Renaissance (14th-century). The ideas of the central figures will be examined through original sources.  
Prerequisite(s): 1.50 credits in philosophy

### PHIL*3080 History of Modern European Philosophy from Kant F (3-0) [0.50]
A survey of European philosophy from Immanuel Kant (mid-18th century) to the late 19th century.  
Prerequisite(s): 1.50 credits in philosophy

### PHIL*3090 Philosophy of Kant W (3-0) [0.50]
Kant revolutionized the philosophical tradition of investigating objectivity (asking what the nature of reality is, in itself) by investigating subjectivity (asking how knowledge is possible for us). This course will typically examine one of Kant's Critiques and/or a central philosophical theme that appears in Kant's works.  
Prerequisite(s): 1.50 credits in philosophy

### PHIL*3100 Comparative Philosophy F (3-0) [0.50]
A study of philosophies from different cultures. This course is designed for students who wish to study the philosophy of one or a few selected cultures in more depth. In this course, we will discuss the major philosophical developments in ancient India, ancient China, ancient Egypt, the Islamic world and medieval Europe.  
Prerequisite(s): PHIL*2910

### PHIL*3110 Asian Philosophy W (3-0) [0.50]
A detailed examination of one or more historical or contemporary treatments of specific issues in Asian philosophy, such as: beyond good and evil, the nature of reality, the self, suffering, freedom, ignorance and enlightenment.  
Prerequisite(s): 1.50 credits in philosophy or 7.50 credits

### PHIL*3120 Philosophy of Mind W (3-0) [0.50]
A philosophical examination of fundamental theories and problems concerned with mind, thought, and consciousness.  
Prerequisite(s): 1.50 credits in philosophy

### PHIL*3130 Contemporary British and American Philosophy F (3-0) [0.50]
A survey of philosophical movements mainly centred in Britain and America from the late 19th-century to the present.  
Prerequisite(s): 1.50 credits in philosophy or 7.50 credits

### PHIL*3170 Intermediate Philosophy of Science W (3-0) [0.50]
A study of more specialized questions posed by the nature of science and its investigation. Topics may include realism and anti-realism, naturalized explanations, and other contemporary problems in the philosophy of science.  
Prerequisite(s): PHIL*2180

### PHIL*3200 Contemporary European Philosophy W (3-0) [0.50]
A survey of philosophical movements mainly centred in continental Europe from the late 19th-century to the present.  
Prerequisite(s): 1.50 credits in philosophy

### PHIL*3210 Women in the History of Philosophy F (3-0) [0.50]
This course will examine selected works of women philosophers and their contributions to the major philosophical debates of their day.  
Prerequisite(s): 1.50 credits in philosophy or 7.50 credits

### PHIL*3220 Issues in Social and Political Philosophy W (3-0) [0.50]
A detailed examination of one or more historical or contemporary treatments of specific issues in social or political philosophy, such as: war and peace, justice, rights, social science, culture, education.  
Prerequisite(s): 1.50 credits in philosophy or 7.50 credits

### PHIL*3240 Philosophy of Technology F (3-0) [0.50]
This course examines the philosophical problems associated with technology. Topics may include the nature of technology, the relation between technology and science, and the various critiques of technology - religious, political, ethical and existentialist - in contemporary society.  
Prerequisite(s): 1.50 credits in philosophy or 7.50 credits

### PHIL*3250 Philosophy of Language F (3-0) [0.50]
This course will explore the relationship between human beings and language, and between language and the world. In particular, it may address such fundamental questions as: What is it about the way in which we use words that gives them the meanings they have? And what is the relationship between words and objects to which they refer? Authors studied may include representatives from the analytic and/or continental traditions in philosophy.  
Prerequisite(s): 1.50 credits in philosophy or 7.50 credits

PHYS*1000 An Introduction to Mechanics F (3-3) [0.50]
A course for physical science students which develops the concepts of mechanics as applied to translational and rotational kinematics and dynamics, equilibrium of rigid bodies, oscillations, gravitation, special relativity, and fluid statics and dynamics. Normally this is part of the two-course unit PHYS*1000 and PHYS*1010.
Prerequisite(s): [1 of 4U Physics, OAC (or equivalent) Physics, PHYS*1020], 4U or OAC (or equivalent) Calculus
Restriction(s): PHYS*1080, PHYS*1110

PHYS*1010 Introductory Electricity and Magnetism W (3-3) [0.50]
This is a course for physical science students on the phenomena of electromagnetism, waves and introductory quantum physics. Topics include electric charges and fields, electric potential, capacitance, magnetic fields, electric circuits, waves, electromagnetic waves, quantization of light and other aspects of introductory quantum physics. Normally this is part of the two-course unit PHYS*1000 and PHYS*1010.
Prerequisite(s): (MATH*1080 or MATH*1200), (1 of 4U Physics, OAC Physics, PHYS*1020)

PHYS*1020 Introductory Physics F,W (3-2) [0.50]
A course stressing the fundamental properties of particles and waves, designed for students without OAC Physics or equivalent. Topics include: the motion of particles, force, field, momentum, energy and associated conservation laws; basic interactions between particles and waves. It is expected that students will have completed Grade 12 or 3U Physics and at least 1 OAC or 4U mathematics credit. This course is intended only for students who require the equivalent of 4U or OAC Physics in order to proceed to PHYS*1000, PHYS*1010, PHYS*1070, PHYS*1080, PHYS*1110, PHYS*1130, PHYS*2400. Students may not take this course for credit if they have passed 4U or OAC Physics (or equivalent). (Also offered through distance education format.)

PHYS*1070 Introductory Physics for Life Sciences F,W (3-3) [0.50]
Physics of matter and energy at the macroscopic and microscopic levels, with special emphasis on topics of importance to the biological sciences. Topics include properties of waves, acoustics and hearing, optical systems and vision, quantum nature of radiation and its interaction with biomolecules, electricity, high energy radiation and radioactivity.
Prerequisite(s): (1 of 4U Physics, OAC Physics, PHYS*1020), one 4U or OAC Mathematics course
Restriction(s): PHYS*1110

PHYS*1080 Physics for Life Sciences F,W (3-3) [0.50]
A course complementary to PHYS*1070 or PHYS*1130 with emphasis on some aspects of classical physics important in the biological and environmental sciences. Topics include mechanics and applications to anatomical problems, fluid statics and dynamics, molecular motion, diffusion, osmosis, and heat.
Prerequisite(s): (1 of 4U Physics, OAC Physics, PHYS*1020), one 4U or OAC Mathematics course
Restriction(s): PHYS*1000, PHYS*1110

PHYS*1130 Physics with Applications W (3-3) [0.50]
This course is for engineering and environmental science students, and uses some calculus in analytic problem-solving. Topics include simple harmonic motion, waves, acoustics, optics, properties and absorption of electromagnetic radiation, blackbody radiation, solar spectrum and flux, electric field and potential, DC circuits, power transmission, nuclear processes, and radioactivity.
Prerequisite(s): (MATH*1080 or MATH*1200), (1 of 4U Physics, OAC Physics (or equivalent), PHYS*1020)
Restriction(s): PHYS*1070

PHYS*1600 Contemporary Astronomy S,F (3-0) [0.50]
A course designed for arts and social science students. Emphasis will be on the interdisciplinary and contemporary aspects of astronomy with the object of providing a perspective of our place in the physical universe. Topics will include the solar system, stars and stellar evolution, pulsars, black holes, quasars and cosmology. Students are encouraged to suggest and participate in discussion on items of special interest. Students with a credit in any Physics course except PHYS*1020, PHYS*1810 may not take this course. (Also offered through distance education format.)
Restriction(s): Students with standing in any other 1000 level course credit in physics (except PHYS*1020, PHYS*1810) may not use this course for credit.

PHYS*1810 Physics of Music W (3-0) [0.50]
A course designed for arts and social science students with an interest or background in music. The fundamentals of vibrations and waves will be introduced and applied to a study of archetypal instruments. The psychoacoustic basis of pitch and loudness will be discussed. Students who have standing in any other 1000 level physics course, except PHYS*1020 or PHYS*1600, may enrol in this course only if they are completing an honours or general B.A. program in Music. In this case, permission of the instructor is required. (Also listed as MUSC*1090.) (Offered in even-numbered years.)
Equates to: MUSC*1090

PHYS*2030 Biophysics of Excitable Cells W (3-1) [0.50]
An intermediate biophysics course with special emphasis on the physical properties of nerve cells and of biological transducers such as the ear and the eye.
Prerequisite(s): IPS*1220 or 1.00 credits in physics (excluding PHYS*1020, PHYS*1600, PHYS*1810)

PHYS*2040 Fundamental Electronics and Sensors W (3-3) [0.50]
An introduction to modern electronics. Topics covered include DC and AC circuit analysis, digital circuits, analog circuits with emphasis on operational amplifiers and analog-to-digital and digital-to-analog conversion. Applications include the interfacing of various sensors to measure physical parameters.
Prerequisite(s): 0.50 credits in university level calculus, (1 of 4U Physics, OAC Physics, PHYS*1020)

PHYS*2260 Quantum Physics S,W (3-0) [0.50]
The course investigates and describes the properties of atoms, molecules and nuclei in terms of phenomena of quantum physics. Topics include wave properties of matter, particle properties of electromagnetic radiation, uncertainty principle, operators and eigenvalue equations, elementary angular momentum, spin and elementary quantum mechanics.
Prerequisite(s): (1 of MATH*1000, MATH*1080, MATH*1200, IPS*1110), (1 of IPS*1220, PHYS*1010, PHYS*2460), (MATH*2150 or MATH*2160)

PHYS*2440 Mechanics I F (3-3) [0.75]
This course and the following one, PHYS*2450, continue building the foundation in mechanics begun in the first year. These courses are intended for students proceeding to advanced studies in the physical sciences. Topics include analysis of experimental uncertainties (errors), one, two and three dimensional motion, damped and forced harmonic oscillator, gravitation and orbital motion. The laboratory work requires a formal treatment of error analysis, as well as computer programming for data analysis.
Prerequisite(s): (1 of MATH*1210+, MATH*2080, IPS*1210 +), (1 of IPS*1220 +, PHYS*1000+, PHYS*1080, PHYS*1110 ) (+preferred)

PHYS*2450 Mechanics II W (3-3) [0.75]
This course is a continuation of PHYS*2440. Topics include special relativity, noninertial reference frames, dynamics of systems of particles, and rigid body dynamics.
Prerequisite(s): PHYS*2440

PHYS*2460 Electricity and Magnetism I F (3-3) [0.75]
This course and the following one, PHYS*2470, continue building the foundation in electricity and magnetism begun in the first year. These two courses are intended for students proceeding to advanced studies in the physical sciences. Topics include vector calculus, electric fields, potential, electric work and energy, Gauss's Law, Poisson's and Laplace's equations, capacitors, D.C. circuits, transients and dielectric materials. The laboratory work requires a formal treatment of error analysis, as well as computer programming for data analysis.
Prerequisite(s): (1 of IPS*1220 +, PHYS*1010+, PHYS*1070, PHYS*1130), (1 of MATH*1210+, MATH*2080, IPS*1210 +) (+preferred)
Co-requisite(s): PHYS*2440

PHYS*2470 Electricity and Magnetism II W (3-3) [0.75]
This course is a continuation of PHYS*2460. Topics include magnetic forces and fields, Ampere's Law, Ampere's Law, LRC circuits, transients and dielectric materials. The laboratory work requires a formal treatment of error analysis, as well as computer programming for data analysis.
Prerequisite(s): (1 of IPS*1220 +, PHYS*1010+, PHYS*1070, PHYS*1130), (1 of MATH*1210+, MATH*2080, IPS*1210 +) (+preferred)

PHYS*2550 Radiation and the Environment F (3-0) [0.50]
This course reviews radiations which occur in the environment and their effects on materials and living systems. These include x-radiation, ultraviolet, visible, infrared, microwave and radio-frequency emissions; acoustical and ultrasonic radiation; and alpha, beta, and gamma radiation from radioactive material. (Offered in even-numbered years.)
Prerequisite(s): (1 of IPS*1220 , PHYS*1010, PHYS*1070, PHYS*1130), 0.50 credits in mathematics at the 1000 level (excluding MATH*1050 )

**PHYS*2600 General Astronomy S,F (3-2) [0.50]**

An introduction to astronomy: the solar system, the sun, stellar and galactic structure. (Offered in the Fall semester in odd-numbered years.)

Prerequisite(s): 0.50 credits in physics at the 1000 level (excluding PHYS*1600, PHYS*1810), 0.50 credits in mathematics at the 1000 level

**PHYS*3080 Energy W (3-0) [0.50]**

Energy resources and the production, transmission, interconversion, consumption and waste of energy in the industrial society. Emphasis is placed on environmental impact and human safety. Topics include fossil fuels, nuclear fission and fusion, wind and solar power, the hydrogen economy, and conservation strategies.

Prerequisite(s): 0.50 credits in physics at the 1000 level (excluding PHYS*1600, PHYS*1810), 0.50 credits in mathematics at the 1000 level (excluding MATH*1050 )

**PHYS*3100 Electronics F (3-3) [0.75]**

Topics include: amplifier properties; signal processing using operational amplifiers; introduction to digital electronics, including counters and registers; circuits to convert analog signals to digital and vice-versa; introduction to the physics of semiconductor devices. The laboratory illustrates lecture topics, and a major component consists of techniques to interface a computer to integrated circuits for data acquisition.

Prerequisite(s): PHYS*2470

**PHYS*3220 Waves and Optics W (3-0) [0.50]**

Standing and travelling waves, normal modes; Fourier series; optics including polarization, interference and diffraction.

Prerequisite(s): PHYS*2440

**PHYS*3230 Quantum Mechanics I F (3-0) [0.50]**

A formal treatment of quantum mechanics. Topics include wave packets and free particle motion, the Schrodinger equation, harmonic oscillator, piecewise constant potentials, central forces and angular momentum, hydrogen atom.

Prerequisite(s): (CHEM*2070 or PHYS*2260), MATH*2160, (MATH*2170 or MATH*2270), PHYS*2470

**PHYS*3240 Statistical Physics I S,F (3-0) [0.50]**

Introduction to statistical physics including thermodynamics and statistical mechanics of equilibrium phenomena.

Prerequisite(s): MATH*2200, (PHYS*2260 or PHYS*2440)

**PHYS*3400 Advanced Mechanics W (3-0) [0.50]**

This course covers Lagrangian mechanics and Hamiltonian mechanics. Topics include least action principles, Poisson brackets, Liouville's theorem, Hamilton- Jacobi theory, the transition to quantum mechanics and introduction to non-linear dynamics.

Prerequisite(s): (MATH*2170 or MATH*2270), PHYS*2450

**PHYS*3510 Intermediate Laboratory W (0-6) [0.50]**

A modular course for physics students including modern and classical physics experiments. Modules include laboratory instrumentation employing computers, modern physics, waves and optics, molecular physics, biophysics, and solid state physics.

Prerequisite(s): PHYS*2450, PHYS*3100

**PHYS*4040 Quantum Mechanics II W (3-0) [0.50]**

A second course in quantum mechanics. Topics include spin, linear vector spaces, two-level systems, quantum dynamics, rotations and angular momentum, time dependent perturbation theory, Born approximation.

Prerequisite(s): PHYS*3230

**PHYS*4120 Atomic and Molecular Physics F (3-0) [0.50]**

The application of quantum theory to atomic and molecular structure, and the interaction between electromagnetic radiation and atoms and simple molecules.

Prerequisite(s): PHYS*3240, PHYS*4040

**PHYS*4130 Subatomic Physics W (3-0) [0.50]**

This course surveys the field of subatomic physics from radioactive emanations to conjectured subunits of nucleons. Topics include quark models; strong, electromagnetic and weak interactions; isospin, strangeness, conservation laws and symmetry principles; systematics of nuclear properties, nuclear radioactivity, nuclear models and reactions.

Prerequisite(s): PHYS*3230

**PHYS*4150 Solid State Physics W (3-0) [0.50]**

Bonding in solids, thermal and electrical properties of solids, energy bands, imperfections in solids, properties of semiconductors and insulators.

Prerequisite(s): PHYS*3220, PHYS*3230, PHYS*3240 Recommended: PHYS*4240

Co-requisite(s): PHYS*4040 (if not taken as a pre-requisite)

**PHYS*4180 Advanced Electromagnetic Theory F (3-0) [0.50]**

This course covers Maxwell's equation, Lorentz-force law, conservation of charge, and conservation of energy (Poynting's theorem); potentials, gauge transformations, wave equations, and multiple expansions; Green's functions for the Poisson and wave equations; electrodynamics and magnetostatics (including boundary-value problems); motion of charged particles in electromagnetic fields; and propagation and generation of electromagnetic waves.

Prerequisite(s): PHYS*2470, PHYS*3400

**PHYS*4240 Statistical Physics II F (3-0) [0.50]**

A continuation of PHYS*3240 including a discussion of the grand canonical distribution, quantum statistics, and transport theory.

Prerequisite(s): PHYS*3230, PHYS*3240

**PHYS*4500 Advanced Physics Laboratory F (0-6) [0.50]**

A modular course for students in any physics-related major who will study techniques of nuclear, solid state and molecular physics.

Prerequisite(s): PHYS*2450, (1 of PHYS*3100, XSEN*4110)

**PHYS*4510 Advanced Physics Project W (0-6) [0.50]**

Students will be assigned projects related to their individual interests. These projects may be part of the ongoing research within the Physics Department. Selection of a faculty supervisor and approval of course coordinator must be obtained before course selection.

Prerequisite(s): PHYS*3510

**PHYS*4540 Molecular Biophysics W (3-0) [0.50]**

Physical methods of determining macromolecular structure: energetics, intramolecular and intermolecular forces, with applications to lamellar structures, information storage, DNA and RNA, recognition and rejection of foreign molecules.

Prerequisite(s): 0.50 credits in biochemistry, (CHEM*3860 or PHYS*3230)

**PHYS*4560 Biophysical Methods F (3-0) [0.50]**

An introduction to physical techniques to determine the structure of macromolecules and macromolecular structures of biological interest. The techniques include: differential calorimetry, X-ray and neutron scattering, electron microscopy, Raman and infrared spectroscopy, nuclear magnetic resonance, and electron spin resonance. Applications of these techniques in the study of biological membranes will be emphasized. Students taking this course should already have taken PHYS*4240 or be taking this course concurrently.

Prerequisite(s): PHYS*3220, PHYS*4040

Co-requisite(s): PHYS*4240 (if not taken as a prerequisite)

**PHYS*4910 Advanced Topics in Physics I U (3-0) [0.50]**

The content of this course is determined by the interests of the students. Possible topics include fluid mechanics, theory of elastic solids, general relativity, astrophysics, and chaos. This course is not offered every year.

Prerequisite(s): (MATH*2150 or MATH*2160), (MATH*2170 or MATH*2270), PHYS*2450, PHYS*2470

**PHYS*4920 Advanced Topics in Physics II U (3-0) [0.50]**

The content of this course is determined by the interests of the students. Possible topics include fluid mechanics, theory of elastic solids, general relativity, astrophysics, and chaos. This course is not offered every year.

Prerequisite(s): (MATH*2150 or MATH*2160), (MATH*2170 or MATH*2270), PHYS*2450, PHYS*2470

**PHYS*4930 Advanced Topics in Physics III U (3-0) [0.50]**

The content of this course is determined by the interests of the students. Possible topics include fluid mechanics, theory of elastic solids, general relativity, astrophysics, and chaos. This course is not offered every year.

Prerequisite(s): (MATH*2150 or MATH*2160), (MATH*2170 or MATH*2270), PHYS*2450, PHYS*2470

Students wishing to study Physiology can complete a 3000 level course or course sequence in: ZOO*3200; or ZOO*3210; or HK*3940; or BIOM*3100; and either BIOM*3110 or BIOM*3120. In addition, students can select specialized courses at the 4000 level (preferably at least 2 with labs) offered by the:

Department of Biomedical Sciences:

- BIOM*4020 [0.50] Physiology of Digestion
- BIOM*4030 [0.50] Endocrine Physiology
- BIOM*4041/2 [1.00] Mammalian Reproductive Biology
- BIOM*4050 [0.50] Biomedical Aspects of Aging

School of Human Biology:

- HK*4320 [0.75] Work Physiology
- HK*4460 [0.50] Regulation of Human Metabolism
- HK*4530 [0.50] Human Cardiovascular Physiology

Department of Integrative Biology

- ZOO*4170 [0.50] Experimental Comparative Animal Physiology
- ZOO*4390 [0.50] Environmental Physiology
- ZOO*4470 [0.50] Comparative Endocrinology
Plant Biology

Department of Molecular and Cellular Biology
Department of Environmental Biology
Department of Land Resource Science
Department of Plant Agriculture

PBIO*3110 Crop Physiology F (3-3) [0.50]
Physiological and biochemical principles related to production by crop canopies. Carbon fixation, leaf area, light interception, assimilate distribution, water relations and nutrient utilization are used to develop solutions to problems of crop yield and quality. Growth and development in response to cultural innovations including the use of growth regulators are also considered. Department of Plant Agriculture.

Prerequisite(s): BIOL*1040

PBIO*3750 Plant Tissue Culture F (2-3) [0.50]
An examination and discussion of the principles, protocols and utilization of plant cell tissue culture systems. In vitro propagation and regeneration, mutagenesis and selection, secondary metabolite elicitation and cell transformation techniques including protoplast fusion, direct DNA uptake and plant bacterial co-cultivation will be emphasized. Department of Plant Agriculture.

Prerequisite(s): AGR*2451/2 or BOT*2100

PBIO*4000 Molecular and Cellular Aspects of Plant-Microbe Interactions F (3-0) [0.50]
Examination of molecular and cellular aspects of the interaction between plants and microorganisms such as mycorrhizae, pathogenic fungi, Agrobacterium, pathogenic bacteria, and plant viruses. Topics include microbial virulence, signaling, gene expression, and disease resistance in plants. Departments of Molecular and Cellular Biology and Environmental Biology.

Prerequisite(s): BOT*2100, (MBG*2020 and MICR*2020 are recommended)

PBIO*4100 Soil Plant Relationships W (3-0) [0.50]
Root growth as affected by soil properties; soil plant water relations; soil aeration; absorption, translocation and function of nutrients in plants; ion transport to roots; rhizosphere effects; application of concepts to crop production. Department of Land Resource Science.

Prerequisite(s): 1 of AGR*2301/2, BOT*2100, BOT*2300, SOIL*2010, SOIL*2320

PBIO*4150 Molecular and Cellular Aspects of Plant Development W (3-0) [0.50]
An examination of the molecular and cellular processes that underlie cellular differentiation and organ formation in plants. The roles of homeotic genes, gene regulation, cell polarity, morphogens and environmental effects in development will be discussed. Subjects will be introduced by a lecture and examined in detail in discussions of pertinent research papers. Department of Plant Agriculture. (Offered in even-numbered years.)

Prerequisite(s): BOT*2100

PBIO*4530 Environmental Pollution Stresses on Plants W (3-0) [0.50]
The study of environmental pollution effects on physiological and ecological processes of plants, in both managed and unmanaged ecosystems. Pollutants under study include contaminants of air (such as ozone, sulphur dioxide and UV-B radiation) and soil (such as metals and organic xenobiotics). The format includes both lecture and presentation/discussion of current and historical peer-reviewed literature. Department of Land Resource Science.

Prerequisite(s): BIOL*2060, BOT*2100

PBIO*4750 Genetic Engineering of Plants W (3-3) [0.50]
An examination and discussion of the principles, protocols and applications of molecular biology and transformation technology to the genetic improvements of plants. Department of Plant Agriculture.

Prerequisite(s): MBG*2020

<tr>
<td>POLS*1150</td>
<td>Understanding Politics F,W (3-1) [0.50]</td>
<td>This is the recommended introductory course for students intending to pursue a specialization in Political Science. An introduction to the basic concepts of politics, such as liberty, equality, social justice, constitutionalism, sovereignty, federalism, parliamentary versus presidential government. The course will emphasize the meaning and use of these terms within Canada in the context of other political systems.</td>
<td></td>
</tr>
<tr>
<td>POLS*1400</td>
<td>Issues in Canadian Politics F (3-1) [0.50]</td>
<td>Through the lens of contemporary political issues, this course will examine the pillars of the Canadian political system - Parliamentary government, federalism and the Charter of Rights and Freedoms - and how they reflect and affect the distinctly Canadian societal cleavages: linguistic, regional, ethnic, national, and sexual. Students will develop an awareness and understanding of these concepts, institutions and processes, which will enhance their ability to interpret current political events and provide a foundation upon which to explore Canadian politics, identity, public policy and governance in upper level political science courses. (Also offered through distance education format.)</td>
<td></td>
</tr>
<tr>
<td>POLS*1500</td>
<td>World Politics F (3-0) [0.50]</td>
<td>An examination of the fundamental patterns of international politics, focusing especially on the major issues and contemporary events at the root of international conflict. As well, the reality of globalization and interdependence is assessed in terms of the alternative patterns of international cooperation in the contemporary world. (Also offered through distance education format.)</td>
<td></td>
</tr>
<tr>
<td>POLS*2000</td>
<td>Political Theory F (3-0) [0.50]</td>
<td>A study of the philosophic and ideological developments which have led to the emergence of the modern state and contemporary politics.</td>
<td></td>
</tr>
<tr>
<td>POLS*2080</td>
<td>Development and Underdevelopment F (3-0) [0.50]</td>
<td>An examination of the politics of development, distribution and conflict in Africa, Asia, the Middle East and the Americas from a comparative and international perspective.</td>
<td></td>
</tr>
<tr>
<td>POLS*2100</td>
<td>The State in Comparative Perspective W (3-0) [0.50]</td>
<td>An examination of the evolution, purposes, structures and functions of the state in relation to the economy and civil society.</td>
<td></td>
</tr>
<tr>
<td>POLS*2150</td>
<td>Gender and Politics W (3-0) [0.50]</td>
<td>This course introduces students to competing approaches to gender and politics. Students will examine the interrelationship of gender, politics and the state, focusing on its implications for political mobilization, representation and participation, public policy, global gender issues in international relations, and cultural and regional differences in gender politics. The course provides the student with the conceptual and analytical tools for upper-year courses on politics in general and on gender, sexuality and politics in particular.</td>
<td></td>
</tr>
<tr>
<td>POLS*2200</td>
<td>International Relations F (3-0) [0.50]</td>
<td>An introduction to basic theories and concepts in the study of international relations, including an analysis of power, national interest, security, survival, nationalism, sovereignty, decision-making, interdependence, integration, and transnationalism.</td>
<td></td>
</tr>
<tr>
<td>POLS*2250</td>
<td>Public Administration W (3-0) [0.50]</td>
<td>This course examines a variety of theoretical approaches to the study of organizations. It then applies these theories to the structure and operation of the government of Canada. It examines the changing role of bureaucracy in government and critically evaluates issues such as financial and administrative responsibility and accountability. (Also offered through distance education format.)</td>
<td></td>
</tr>
<tr>
<td>POLS*2300</td>
<td>Canadian Government F,W (3-0) [0.50]</td>
<td>Parliamentary government and federal-provincial relations lie at the heart of the Canadian government system. This course provides a detailed examination of the structure, functions, and performance of these central institutions of Canadian government in a comparative context. (Also available through distance education format.)</td>
<td></td>
</tr>
<tr>
<td>POLS*3000</td>
<td>Politics of Africa U (3-0) [0.50]</td>
<td>Africa in the 20th Century has been the scene of rapid political and economic change. This course analyzes African politics in the light of contemporary problems of development and modernization.</td>
<td></td>
</tr>
<tr>
<td>POLS*3050</td>
<td>Canadian Political Parties, Elections and Pressure Groups W (3-0) [0.50]</td>
<td>The course emphasizes political process rather than governmental structures. Topics to be explored include the role of political parties, pressure groups, the electoral system and voting and their impact on the nature of Canada as a democratic state.</td>
<td></td>
</tr>
<tr>
<td>POLS*3060</td>
<td>Politics of the Middle East and North Africa U (3-0) [0.50]</td>
<td>Students will examine the political dynamics of selected states and societies (e.g. Egypt, Syria, Saudi Arabia, Iran, Israel, Jordan and Algeria) in the Middle East and North Africa (MENA). Issues to be covered: the impact of early Middle Eastern/North African history upon today's politics; class structures in the MENA countries and their impact on politics; the rise of Arab nationalism; Zionism; the politics of oil; the status of women; the political impact of economic restructuring; Islamic movements; state-building; and political liberalization and democratization in the Middle East and North Africa.</td>
<td></td>
</tr>
<tr>
<td>POLS*3070</td>
<td>The Politics of Asian Development F (3-0) [0.50]</td>
<td>This course explores the political dynamics that have led to the immense variation of wealth, inequality, deprivation and poverty found in Asia. The focus is comparative, and will emphasize three geographically distinct regions: Northeast Asia, Southeast Asia and South Asia.</td>
<td></td>
</tr>
<tr>
<td>POLS*3080</td>
<td>Politics of Latin America U (3-0) [0.50]</td>
<td>An exploration of Latin American politics from a multidimensional perspective. It analyzes the interaction among contemporary political structures, ideologies and processes in the context of socio-economic change.</td>
<td></td>
</tr>
<tr>
<td>POLS*3110</td>
<td>Politics of Ontario U (3-0) [0.50]</td>
<td>This course provides an overview of the political history of Ontario, the character and development of the political parties and institutions, as well as an intensive examination of selected policy issues in contemporary Ontario politics.</td>
<td></td>
</tr>
<tr>
<td>POLS*3130</td>
<td>Law, Politics and Judicial Process U (3-0) [0.50]</td>
<td>This course emphasizes the study of the judicial system as a branch of government and highlights the interaction between the judiciary, law, the political process and public policy. Issues such as judicial selection and Charter of Rights decisions by courts will be explored. Comparisons with the judicial process in other countries will supplement the focus on the Canadian judicial process.</td>
<td></td>
</tr>
<tr>
<td>POLS*3160</td>
<td>Women and Politics in the Third World U (3-0) [0.50]</td>
<td>The purpose of this course is twofold: 1) to examine Western analyses and assumptions concerning women and politics in the Third World; and 2) to examine how women's activities in the Third World challenge our definitions and understanding of power, political participation, and empowerment.</td>
<td></td>
</tr>
<tr>
<td>POLS*3180</td>
<td>Research Methods I: Political Inquiry and Methods F (2-1) [0.50]</td>
<td>Students will be introduced to some of the major paradigms of political science research that shape inquiry into political and social phenomena. Students will learn how to: define research problems and construct questions for political inquiry; develop theory to explain, predict or interpret the political world; and formulate research designs. A variety of quantitative and qualitative methods will be explored.</td>
<td></td>
</tr>
<tr>
<td>POLS*3210</td>
<td>The Constitution and Canadian Federalism W (3-0) [0.50]</td>
<td>Canada's constitution and its federal system lie at the heart of the ongoing crisis facing the Canadian Confederation. This course examines the major features of our constitutional development, how the current system of intergovernmental relations has evolved, and the challenges posed by Canada's cultural diversity, pressures for decentralisation, and the maintenance of national sovereignty.</td>
<td></td>

</table>
This course is an exploration of the concepts of justice and reason in the ancient and
medieval worlds. The theme will be explored in the writings of philosophers such as
Plato, Aristotle, Cicero, St. Augustine, St. Thomas Aquinas and Sir Thomas More. The
exact selection of thinkers will vary from year to year and students are advised to check
the course outline.

**Prerequisite(s):** POLS*2000 or POLS*2380

**Restriction(s):** POLS*3021

**POLS*3230 Modern Political Thought W (3-0) [0.50]**

This course explores the impact of modern science and technology, and its impact on the
western tradition of justice from the seventeenth century to the twentieth century. It will
explore this theme in writers such as Thomas Hobbes, Jonathan Swift, J-J Rousseau,
Edmund Burke, Friedrich Nietzsche and George Grant. The exact selection of thinkers
will vary from year to year and students are advised to check the course outline.

**Prerequisite(s):** POLS*2000 or POLS*2380

**Restriction(s):** POLS*3021

**POLS*3250 Public Policy: Challenges and Prospects F (3-0) [0.50]**

This course covers the dominant theories that explain the origins and character of public
policy in Canada, and other countries. The focus will be on both governmental and
nongovernmental actors.

**Prerequisite(s):** POLS*1400 or POLS*2250

**POLS*3270 Local Government in Ontario U (3-0) [0.50]**

Municipal governments are major spenders of public funds in Canada, and are also the
level of government closest to the people. In this course, students will examine the major
problems confronting urban government in Ontario.

**Prerequisite(s):** 7.50 credits

**POLS*3280 Modern Political Ideologies F (3-0) [0.50]**

An examination of contemporary political ideologies-liberalism and conservatism and
imperialism; socialism, communism and fascism - in terms of their evolution and current
political significance.

**Prerequisite(s):** 5.00 credits

**POLS*3300 Governing Criminal Justice U (3-0) [0.50]**

The course provides an overview of the policy process and outcomes of the Canadian
criminal justice system. Particular emphasis is placed on examining, using various public
policy and public management perspectives, the practices and interactions of governmental
agencies within the system, such as police agencies and boards, departments of Justice,
Solicitor-General, corrections and parole agencies, courts and the legal profession.

**Prerequisite(s):** POLS*2250 or POLS*2300

**POLS*3320 Politics of Aid & Development F (3-0) [0.50]**

This course examines the motivations and mechanisms by which industrialized states
have designed and implemented foreign aid programs and policy, primarily since the end
of the Second World War. Particular emphasis will be placed on the role of multilateral,
bilateral and nongovernmental organizations in the delivery of development assistance
and humanitarian relief.

**Prerequisite(s):** POLS*2080

**POLS*3330 Politics and Trade Liberalization in the Americas U (3-0) [0.50]**

This course examines the politics of trade in the three NAFTA countries - Canada, the
US and Mexico. It examines how trade policy is made in each country and how the
NAFTA has influenced domestic politics. Topics covered include trade in goods and
services, investment and intellectual property.

**Prerequisite(s):** 1 of POLS*2100, POLS*2250, POLS*2300

**POLS*3370 Environmental Policy Formation and Administration S/F (3-0) [0.50]**

This course surveys both the federal and provincial governmental policies and programs
relating to the management of natural resources and the control of pollution. It examines the
political, legal and administrative mechanisms, monitoring surveillances, and
enforcement problems. (Also offered through distance education format.)

**Prerequisite(s):** 7.50 credits

**POLS*3390 Comparative Democratic Institutions U (3-0) [0.50]**

This course will analyse power in democratic political institutions. It will include an
examination of executive and legislative powers and the role of political parties and
elections in the exercise of these powers. Presidential and parliamentary systems are
examined as well as models of majoritarian and consensual democracy.

**Prerequisite(s):** POLS*2100 or POLS*2300

**POLS*3410 U.S. Politics and Government U (3-0) [0.50]**

This course involves a treatment of the basic principles and institutions of national
government and politics in the United States as well as the making and execution of
public policy at the national and state levels.

**Prerequisite(s):** POLS*2100 or POLS*2300

**POLS*3440 Corruption, Scandal and Political Ethics U (3-0) [0.50]**

This course will introduce students to the phenomenon of political corruption and the
study of its incidence. Attention will be paid to historical examples, contemporary
scandals, and analytical articles, dealing with the nature, causes and effects, and proposed
cures of political corruption, and the ethical dilemmas inherent in political life.

**Prerequisite(s):** 5.00 credits

**POLS*3450 European Governments and Politics U (3-0) [0.50]**

Europe has forged a new form of political organization, the European Union, in addition
to its variety of national democratic forms. This course offers a comparative examination
of selected national governments, as well as an exploration of this new supra-national
organization.

**Prerequisite(s):** 1 of POLS*2100, POLS*2200, EURO*2070

**POLS*3460 Communism and Post-Communism U (3-0) [0.50]**

This course focuses on selected issues in the transition from Communism to
Post-Communism, viewed in a country, regional or theoretical context. Topics include
the rise and demise of the Soviet Union, the new political economic and social structures
which are emerging among successor states and in Central and East Europe, as well as
their relation with the world at large.

**Prerequisite(s):** 1 of HIST*2390, POLS*2100, POLS*2200

**POLS*3470 Business-Government Relations in Canada U (3-0) [0.50]**

The public and private sectors in Canada have become more and more interrelated in
recent years as evidenced by tax and expenditure policies, the role of regulation and
public enterprise, and the increasing emphasis on consultation and co-ordination. This
course examines the evolving relationship between governments and the private sector
in Canada, including business (both large and small), organized labour, specific sectors
such as agriculture and consumer affairs and voluntary organizations.

**Prerequisite(s):** POLS*1400 or POLS*2250

**POLS*3490 Conflict and Conflict Resolution F (3-0) [0.50]**

This course will examine the growing body of literature which considers violent conflict
and its management. Materials are organized to reflect the trajectory of many contemporary
conflicts: from explanations for violence, to identifying conditions and means to resolve
conflict and, finally, to post-conflict governance.

**Prerequisite(s):** POLS*1500 or POLS*2200

**POLS*3650 Research Methods II: Quantitative Methods W (2-1) [0.50]**

This course examines quantitative research methods used in political science, primarily
sampling and surveying techniques, in combination with elementary statistical analysis.
Students learn how to apply basic descriptive and inferential statistical procedures to
research political problems and test hypotheses. In lab, students will acquire the skills to
perform data analysis.

**Prerequisite(s):** POLS*3180

**Restriction(s):** Registration in Criminal Justice & Public Policy or Political Science

**POLS*3670 Comparative Public Policy and Administration W (3-0) [0.50]**

This course examines the role of the bureaucracy in national development in various
economic, social and political environments. The focus of the course is the interplay
between bureaucracy, democracy and development in a comparative perspective.

**Prerequisite(s):** 1 of ISS*2010, POLS*2800, POLS*2100, POLS*2250

**POLS*3710 Politics and Sexuality U (3-0) [0.50]**

Sexuality is treated as a subject for political theory from a number of critical and
interdisciplinary perspectives. The course examines the relationship between sexuality
and politics by analyzing the dynamics of power in the context of sexuality.

**Prerequisite(s):** POLS*2000 or PHIL*2060

**POLS*3730 The Americas U (3-0) [0.50]**

Despite varying political systems and different historical experiences, the Americas are
cohering more and more as a political, economic and social unit. This course will examine
evolving political systems and processes in Canada, the United States, Latin America
and the Caribbean from a comparative and theoretical perspective. Special emphasis will
be placed on hemispheric and regional issues.

**Prerequisite(s):** POLS*2080 or POLS*2100
XII. Course Descriptions, Political Science

POL*3790 The Political Economy of International Relations W (3-0) [0.50]
This course examines major features of the contemporary international political economy, treating major theories and concepts within this approach to international relations (hegemony, globalization, interdependence, world systems theory, etc.) and focusing on the operation of key international institutions and regimes (i.e. communications, trade, and transport policy).
Prerequisite(s): 1 of ISS*2010, POLS*2080, POLS*2100, POLS*2200

POL*3890 Government and Politics of India W (3-0) [0.50]
The course is designed to provide a survey of the history, society, culture, politics, government, bureaucracy and foreign relations of India.
Prerequisite(s): 1 of POLS*2080, POLS*2100, POLS*2200

POL*3920 Modern China F (3-0) [0.50]
This course is a detailed study of the political history of modern China and its current politics. The main objective is to assess the extent to which the Chinese Communist Party has fulfilled its mandate, which is to build a sovereign and united China as well as to modernize the country within a socialist framework.
Prerequisite(s): 1 of POLS*2080, POLS*2100, POLS*2200

POL*3930 Politics of the Agri-Food System U (3-0) [0.50]
Although the production and distribution of food is usually not primarily a function of government, in the 20th century government has been significantly involved in these areas. Questions about the proper role and scope of government involvement have been subject to constant debate, and the extent of this involvement has varied greatly depending on time and place. This course looks at how the state deals with the agricultural sector in different countries. (Also offered through distance education format.)
Prerequisite(s): POLS*1400, (POLS*2250 or a comparable background in a related discipline)

POL*3940 Accountability and Canadian Government U (3-0) [0.50]
This course examines the role of accountability within the Canadian government. With an emphasis on fiscal policy at the federal level, the course uses an investigative framework to trace the linkages from policies and decisions to outcomes, and explores the factors that inhibit or facilitate the assignment of responsibility in a complex modern democracy. The roles of various actors (corporations, citizens, lobbyists, bureaucrats, politicians) within Canadian politics are explored, as are such issues as fiscal accountability, government spending, social programming, and economic dependency. (This is a multi-media course requiring on-line access to Netscape 4.0 or equivalent, as well as a video cassette recorder and television.) (Offered through distance education format only.)
Prerequisite(s): 5.00 credits

POL*3960 Selected Topics in Political Science S.F.W (3-0) [0.50]
Readings and research in selected areas of the discipline not covered by regular course offerings. Students present a proposal and seek approval from a member of the department in the semester previous to enrolment in this course. The method of course presentation, emphasis, and evaluation are at the discretion of the instructor.
Prerequisite(s): 1.50 credits at the 3000 level in Political Science or equivalent
Restriction(s): Instructor consent required.

POL*4030 Contemporary Political Theory U (3-0) [0.50]
an analysis of selected theories and political issues discussed by prominent 20th-Century thinkers. These contemporary works will be examined as part of the long tradition of political discourse dating back to the classical period.
Prerequisite(s): POLS*2000 and at least 1.00 credits at the 3000 level in Political Theory and Analysis

POL*4100 Women, Justice and Public Policy U (3-0) [0.50]
This course will use gender-based analysis in examining a series of justice and public policy issues affecting the lives of women, including equality rights, pay and employment equity, domestic violence, sexual assault, family policy, health care policy, and pornography. How do current policies that developed out of neoliberalism influence the lives of women in different ways than men? How can/should they be changed to recognize the different life experiences of women as distinguished from men? The primary focus of the topics covered in this course will be Canadian, although the experiences in other countries will be covered, particularly as it relates to "best practices," where appropriate.
Prerequisite(s): 2 of POLS*2250, POLS*2300, POLS*3250 and 1.00 credits in Public Policy and Administration or Canada and the Americas

POL*4120 Civil Rights and Civil Liberties in Canada and the U.S. F (3-0) [0.50]
The course examines changing conceptions of civil liberties and rights over time in Canada and the U.S., mechanisms for their protection and promotion, and what happens when civil liberties and rights clash with one another. In particular, the course will focus on civil rights and civil liberties decisions by the Supreme Courts in both countries. This focus will include seeking explanations for why and how the decisions were made by the Courts and what impact the decisions have had on public policy and society.
Prerequisite(s): POLS*3130 or POLS*3210 and at least 1.00 credits at the 3000 level in Public Policy and Administration

POL*4140 Conceptions of Canada W (3-0) [0.50]
This course will explore evolving conceptions of Canadian identity and nationalism through consideration of political culture, institutions and constitutional arrangements. Possible topics include: multiculturalism, Aboriginal identity and community, Quebec nationalism, social citizenship, rights and representation, as well as Canada's global role and significance.
Prerequisite(s): POLS*2300 and 1.00 credits at the 3000 level in Canada and the Americas

POL*4160 Multi-Level Governance in Canada U (3-0) [0.50]
This course considers the evolving relationship among levels of government in Canada. The growth of cities, the growth of policy responsibilities of provinces, the influence of international organizations, and the development of First Nations government in Canada all challenge the conventional study of federal-provincial relations in Canada. From year to year, this course examines one or several of these contemporary dynamics.
Prerequisite(s): POLS*2300 and 1.00 credits at the 3000 level in Canada and the Americas stream.

POL*4200 International Political Economy U (3-0) [0.50]
The course relies on theoretical approaches in IPE to examine relationships between politics and economics across national and regional levels. The evolution of the global political economy and its governance structures is explored, as well as contemporary debates about globalization and state and non-state actors' responses. Issue-areas may include: money and power, technology, trade, development and the environment.
Prerequisite(s): 1 of POLS*2080, POLS*2100, POLS*2200; and at least 1.00 credits at the 3000 level in Comparative/International Development

POL*4250 Topics in Public Management W (3-0) [0.50]
This course will examine various topics related to governance, such as public management reform, public sector leadership, third sector organizations or budgeting and human resources.
Prerequisite(s): POLS*2250 and 1.00 credits at the 3000 level in Public Policy and Administration or Canada and the Americas

POL*4260 Topics in Public Policy U (3-0) [0.50]
This course will examine various public policy issues such as social policy or health care policy in a Canadian or comparative context.
Prerequisite(s): (2 of POLS*2250, POLS*2300, POLS*3250), (1.00 credits in Public Policy and Administration or Canada and the Americas)

POL*4300 Human Rights, Ethics, and Development W (3-0) [0.50]
This course is intended to address the ethical issues that arise from development processes and studies by focusing on human rights. The subject is explored from a range of philosophical, religious, and cultural perspectives, including both Western and non-Western. Related themes include global and social justice; nationalism, cosmopolitanism, and multiculturalism.
Prerequisite(s): POLS*2000 and 1.00 credits in Political Theory or Comparative/International Development
Restriction(s): POLS*3120

POL*4710 Topics in Comparative Politics U (3-0) [0.50]
This course considers theories and problems in comparative politics and government in developing and industrialized countries. The geographical and theoretical focus of the course will reflect the interests of the instructor.
Prerequisite(s): (POLS*2080 or POLS*2100), 1.00 credits at the 3000 level in the Comparative/International Development stream.

POL*4720 Topics in International Relations U (3-0) [0.50]
This course considers theories and problems in the field of International Relations. The theoretical and/or geographical focus of the course will reflect the interests of the instructor.
Prerequisite(s): POLS*2200 and 1.00 credits at the 3000 level in the Comparative/International Development stream.

Department of Psychology

Students wishing to take a 2000, 3000 or 4000 level course without having completed the appropriate prerequisites must receive permission of the instructor who will determine whether the student has the required background for the course. Students in all psychology courses will be encouraged to participate in the on-going research of the department.

Honours Courses: courses marked (H) are designed for students in a psychology honours program, the Information Systems and Human Behaviour program, the Developmental Psychology Minor program, the Educational Psychology Minor program, the Organizational Behaviour Minor program, the Social Psychology program, the Cognitive Neuropsychology Minor program, or Human Resources Management major of the Bachelor of Commerce program. Students in other programs wishing to take these courses must obtain the permission of the instructors concerned. Unless otherwise specified, all other courses may be taken by general, honors, and students from other programs, providing the prerequisites are met. Courses designated with (H) are Honours level courses requiring for registration a cumulative average of at least 70% in all course attempts in Psychology, or registration in either the HRM Major or ISHB Major.

Psychology Core: courses marked (C) are Psychology core courses. Students registered in psychology programs are advised to complete at least 2.00 credits of the psychology core at the 2000 level prior to attempting any 3000 level psychology credit other than PSYC*3200, PSYC*3370, and PSYC*3380.

For courses without semester designations, please check with the department. The remaining courses will normally be offered as indicated. Advance schedules are available in the department.

**PSYC*1100 Principles of Behaviour S,F,W (3-0) [0.50]**
This is an introduction to the study of biopsychology, sensory processes, perception, learning, memory, thought, language, consciousness and motivation. (Also offered through distance education format.)

**PSYC*1200 Dynamics of Behaviour S,F,W (3-0) [0.50]**
This is an introduction to the study of human development, intelligence, personality, psychopathology and its treatment and social psychology. (Also offered through distance education format.)

**PSYC*2010 Quantification in Psychology S,F,W (3-0) [0.50]**
An introduction to psychological measurement and to statistical principles in psychological research. The course emphasizes descriptive statistics and introduces concepts and techniques of hypothesis testing. Cannot be taken for credit by students with credit in a 2000 level or above course in statistics. (Also offered through distance education format.)

**PSYC*2310 Introduction to Social Psychology S,F,W (3-0) [0.50]**
The content and research methods of social psychology will be explored in lectures and seminars. Content includes social perception, attraction, group dynamics, leadership, conflict and cooperation, attitude change, aggression and conformity. (Also offered through distance education format.)

**PSYC*2320 Principles of Learning F,W (3-1) [0.50]**
An introduction to the basic principles and concepts of classical and instrumental conditioning paradigms of learning, via lectures, demonstrations and student projects. Some student projects may involve laboratory practice on animal conditioning. (C)

**PSYC*2360 Introductory Research Methods S,F,W (3-0) [0.50]**
The application of scientific method in psychological experiments with laboratory demonstration. (Also offered through distance education format.)

**PSYC*2390 Principles of Sensation and Perception F,W (2-2) [0.50]**
The course objective is to consider the processes of sensory inputs and perception. Approaches ranging from psychophysiology and cognitive psychology to physiologoy and anatomy will be used. In considering the psychology of sensation and perception, some of the anatomical and physiological aspects of selected senses will be covered in detail and the roles of experience, organization of inputs, and theories of perception are discussed. Topics to be emphasized will vary with the instructor, but may include ontogenetic development, learning, and modification of inputs and their perception. Students will participate in laboratory demonstrations and experiments. (Also offered through distance education format.)

**PSYC*2410 Behavioural Neuroscience F,W (3-2) [0.50]**
A general introduction to the structure and function of the nervous system. The physiological basis of sensory (input) systems and the motor (output) system are examined as are central physiological bases of processes such as arousal and emotion. Laboratory demonstrations and exercises may be included. (C)

**PSYC*2450 Introduction to Developmental Psychology F,W (3-0) [0.50]**
An introduction to and an analysis of the major theories of developmental psychology. Emphasis will be placed on the processes of development in the child including physical growth, perception, cognition, personality and interactions with the social environment. The application of developmental psychology to educational and social issues will be discussed. (Also offered through distance education format.)

**PSYC*2650 Cognitive Psychology F,W (2-2) [0.50]**
An introduction to cognitive processes, including topics in the areas of attention, memory, language and reasoning. Students will be exposed to and participate in laboratory demonstrations and experiments. (Also offered through distance education format.)

**PSYC*3010 Compensation Systems W (3-0) [0.50]**
This course focuses on how organizations attract, retain, and motivate employees through formal and informal reward mechanisms. Topics include: developing pay structures, job analysis, job evaluation, pay systems, pay system administration, equity issues, and benefits. (Offered through distance education format only.) (H)

**PSYC*3020 Psychology of Law U (3-0) [0.50]**
An examination of psychological methods, findings and theories in the study of law. Topics will include the fallibility of the eyewitness; juror decisional processes; credibility of witnesses and attorneys; socialization into legal systems, police behaviour, etc. (Also offered through distance education format.)

**PSYC*3030 Personality S,F,W (3-0) [0.50]**
A review of the theory, assessment procedures and research findings pertinent to major personality constructs. Personality research, methodology and design will also be covered. (Also offered through distance education format.)

**PSYC*3040 Current Issues in Neuropsychology U (3-0) [0.50]**
An analysis of how drugs act on various neurochemical systems to regulate motivation and behaviour. Topics of discussion may include psychopathology and its treatment.

**PSYC*3050 Neurochemical Basis of Behaviour U (3-0) [0.50]**
An examination of how drugs act on various neurochemical systems to regulate motivation and behaviour. Topics of discussion may include psychopathology and its treatment.

**PSYC*3060 Occupational Health Psychology F (3-0) [0.50]**
The relationship between work, employment and both psychological and physical well-being. The promotion of workplace health through public policy and workplace intervention. (Also offered through distance education format.)

**PSYC*3070 Psychology in Human Resource Management F (3-0) [0.50]**
This course explores the application of psychological theory and measurement in human resource management. A dual perspective is taken: that of the worker impacted by these practices and that of the manager responsible for implementing them. Specific topics include recruitment, personnel selection, performance management, training, and executive assessment, development, and succession. (Also offered through distance education format.)

**PSYC*3080 Industrial/Organizational Psychology F (3-0) [0.50]**
An examination of psychological methods, findings and theories in the study of law. Topics will include the fallibility of the eyewitness; juror decisional processes; credibility of witnesses and attorneys; socialization into legal systems, police behaviour, etc. (Also offered through distance education format.)

**PSYC*3090 Psychological Assessment U (3-0) [0.50]**
An examination of psychological methods, findings and theories in the study of law. Topics will include the fallibility of the eyewitness; juror decisional processes; credibility of witnesses and attorneys; socialization into legal systems, police behaviour, etc. (Also offered through distance education format.)

**PSYC*3100 Industrial/Organizational Psychology F (3-0) [0.50]**
An examination of psychological methods, findings and theories in the study of law. Topics will include the fallibility of the eyewitness; juror decisional processes; credibility of witnesses and attorneys; socialization into legal systems, police behaviour, etc. (Also offered through distance education format.)

**PSYC*3110 Psychophysics F (3-0) [0.50]**
An examination of psychological methods, findings and theories in the study of law. Topics will include the fallibility of the eyewitness; juror decisional processes; credibility of witnesses and attorneys; socialization into legal systems, police behaviour, etc. (Also offered through distance education format.)

**PSYC*3120 Social Psychology of Sport S (3-0) [0.50]**
An examination of psychological methods, findings and theories in the study of law. Topics will include the fallibility of the eyewitness; juror decisional processes; credibility of witnesses and attorneys; socialization into legal systems, police behaviour, etc. (Also offered through distance education format.)

**PSYC*3130 Statistical Methods in Psychology F (3-0) [0.50]**
An examination of psychological methods, findings and theories in the study of law. Topics will include the fallibility of the eyewitness; juror decisional processes; credibility of witnesses and attorneys; socialization into legal systems, police behaviour, etc. (Also offered through distance education format.)

**PSYC*3140 Applied Cognitive Psychology F (3-0) [0.50]**
An examination of psychological methods, findings and theories in the study of law. Topics will include the fallibility of the eyewitness; juror decisional processes; credibility of witnesses and attorneys; socialization into legal systems, police behaviour, etc.

**PSYC*3150 Legal Psychology F (3-0) [0.50]**
An examination of psychological methods, findings and theories in the study of law. Topics will include the fallibility of the eyewitness; juror decisional processes; credibility of witnesses and attorneys; socialization into legal systems, police behaviour, etc. (Also offered through distance education format.)

**PSYC*3160 Evaluation of Psychological Assessment W (3-0) [0.50]**
An examination of psychological methods, findings and theories in the study of law. Topics will include the fallibility of the eyewitness; juror decisional processes; credibility of witnesses and attorneys; socialization into legal systems, police behaviour, etc. (Also offered through distance education format.)

**PSYC*3170 Legal Psychology F (3-0) [0.50]**
An examination of psychological methods, findings and theories in the study of law. Topics will include the fallibility of the eyewitness; juror decisional processes; credibility of witnesses and attorneys; socialization into legal systems, police behaviour, etc. (Also offered through distance education format.)

**PSYC*3180 Legal Psychology F (3-0) [0.50]**
An examination of psychological methods, findings and theories in the study of law. Topics will include the fallibility of the eyewitness; juror decisional processes; credibility of witnesses and attorneys; socialization into legal systems, police behaviour, etc. (Also offered through distance education format.)

**PSYC*3190 Legal Psychology F (3-0) [0.50]**
An examination of psychological methods, findings and theories in the study of law. Topics will include the fallibility of the eyewitness; juror decisional processes; credibility of witnesses and attorneys; socialization into legal systems, police behaviour, etc. (Also offered through distance education format.)

PSYC*3450 Social and Personality Development U (3-0) [0.50]
An examination of research, methodological issues and theories concerning personality-social development. Topics may include temperament, imitation, parent-child interaction, and the development of attachments, sex-roles, morality, aggression and pro-social behaviour.
Prerequisite(s): FRHD*2270 or PSYC*2450 (also see psychology core statement)

PSYC*3460 Abnormal Development U (3-0) [0.50]
Theory, research and aspects of current practice concerning abnormal psychological development in childhood and adolescence.
Prerequisite(s): PSYC*3440 or PSYC*3450 (also see psychology core statement)

PSYC*3480 Psychology of Sport U (3-0) [0.50]
An examination of individual and group behaviour in physical activities and sports. Emphasis will be placed on understanding psychological concepts which are pertinent to sports, e.g., motivation, social and personality development, cognition, leadership and group dynamics.
Prerequisite(s): PSYC*1100, PSYC*1200, (PSYC*2310 or PSYC*2740) (also see psychology core statement)

PSYC*3500 Social Interactions U (3-0) [0.50]
The course concentrates on social interactions in dyads and small groups. Selected topics will be examined through reading, discussion and student projects. Topics may include: the structure and sequence of conversation, self-disclosure, miscommunication, and nonverbal communication. (H)
Prerequisite(s): PSYC*2310 (also see psychology core statement)

PSYC*3520 Political Psychology U (3-0) [0.50]
A social psychological examination of collective behaviours, social movements and social (policy) change, emphasizing the development and impact of mass media and relationships with individual, collective and political violence.
Prerequisite(s): PSYC*2310 (also see psychology core statement)

PSYC*3570 The Psychology of Death and Dying U (3-0) [0.50]
An introduction to the principles and practices of community mental health and community psychology. The course deals with the application of public health concepts to the field of mental health, the epidemiology of mental disorder in the community, the design and evaluation of preventive programs for populations at risk of illness, and the creation of alternatives to institutional treatment of the mentally ill. Several field visits to community mental health programs will be arranged. This course should be of special interest to students who are planning to pursue careers in such human service fields as social work and occupational therapy.
Prerequisite(s): PSYC*2310 (also see psychology core statement)

PSYC*3680 Selected Topics in Psychology U (3-0) [0.50]
This course will highlight current and topical issues in psychology. Topics will vary with the interests of faculty members assigned to the course and will be announced prior to the course selection period.
Prerequisite(s): previous study related to the topic area (also see psychology core statement)

PSYC*3690 Community Mental Health U (3-0) [0.50]
An examination of current theories regarding learning difficulties and disabilities in educational settings. Emphasis will be placed on cognitive, social and motivational factors associated with learning problems and on behavioral and educational remedial approaches.
Prerequisite(s): 1 of FRHD*2270, PSYC*2450, PSYC*2650 (also see psychology core statement)

PSYC*3710 Psychology of Learning Difficulties and Disabilities I F (3-0) [0.50]
Continuation of PSYC*3710. Students will develop and report on a systematic remedial project involving an underachieving school-age child.
Prerequisite(s): PSYC*3710 (also see psychology core statement)

PSYC*3800 Psychology and Education U (3-0) [0.50]
The application of psychological principles and techniques to the study of the educational process. (Also offered through distance education format.)
Prerequisite(s): PSYC*1100, (PSYC*1200 or FRHD*2270) (also see psychology core statement)

PSYC*3850 Intellectual Disabilities U (3-0) [0.50]
This course covers applied and theoretical aspects of intellectual disabilities, and lays a foundation for work in the area of intellectual disabilities. (Also offered through distance education format.)
Prerequisite(s): FRHD*2270 or PSYC*2450 (also see psychology core statement)

PSYC*3900 Psychology Research Internship F,W,S (0-6) [0.50]
This course provides an experiential learning opportunity through the active participation of the student in a faculty member's ongoing research program. It is expected that students will develop a broader appreciation of the relationship between knowledge, theory and research while acquiring basic skills in research methodologies and modes of inquiry. The course will require involvement in both the practice and reporting of research. The student must consult the supervisory faculty member before selecting or registering for the course.
Prerequisite(s): PSYC*1100, PSYC*1200, PSYC*2010 and at least 1.00 credits at the 2000 level of the psychology core
Restriction(s): Instructor consent required.

PSYC*3910 Psychology Externship F,W,S (0-6) [0.50]
An independent program of study formally integrating the student's academic study with one or more work experiences, to be decided by the student in consultation with the supervisory faculty (normally the department's co-op coordinator) prior to registration in the course. In order to qualify for this course, the student must be employed in a work setting at the time of registration to help ensure that a suitable project is feasible in the context of a work placement or employment. The department is not responsible for obtaining employment. The course project is aimed at making a significant contribution to the work setting. The student must consult with the supervisory faculty before selecting or registering for the course. (Enrolment is limited. Not open to co-op students.)
Prerequisite(s): PSYC*1100, PSYC*1200, PSYC*2010 and at least 1.00 credits at the 2000 level of the psychology core) enrolment in the B.Comm Program, Human Resources Management Major
Restriction(s): Instructor consent required.

PSYC*4100 Applied Research in Human Resources Management F (3-0) [0.50]
This course provides students with the opportunity to conduct hands-on research in an organization on issues that relate to Human Resource Management. Students will work in groups and be expected to find organizations for their research project. Although students will be primarily accountable for finding their organizations to work with, instructor support will be provided to assist students if difficulties arise. The instructor will also serve as a resource throughout the project. Lecture topics include: understanding organizational issues, understanding the consulting process (e.g. engagement, communication, ethics), project planning, data collection methods in an applied context (e.g. sampling, confidentiality, practical constraints), and report writing. (H)
Prerequisite(s): PSYC*1100, PSYC*1200, PSYC*2010 and at least 1.00 credits at the 2000 level of the psychology core)

PSYC*4310 Advanced Topics in Social Psychology U (3-0) [0.50]
An in-depth examination of specific advances in social psychological research, theory, and/or applications. Specific topics, to be announced prior to course selection, will vary according to the interests of the instructor of the course. (H)
Prerequisite(s): PSYC*3310 or PSYC*3500 (also see psychology core statement)

PSYC*4320 Advanced Applied Social Psychology F (3-0) [0.50]
A seminar course dealing with topics of an applied social nature. This course may focus on a single or a variety of topics such as: health, forensics, conflict (inter-group and interpersonal), social justice and cultural issues. This course addresses both research and practice issues and covers a variety of theories and methodologies. (H)
Prerequisite(s): PSYC*3310 or PSYC*3500
PSYC*4330 Advanced Topics in I/O Psychology (H) U (3-0) [0.50]  
Students will examine theoretical and methodological issues in selected topic areas of industrial/organizational psychology. The focal area of the course, or range of industrial/organizational topics covered by the course, will vary depending on instructor. Selected topic areas may include leadership issues, gender issues, human rights issues, recruitment methods and outcomes, functional job analysis and validation methods, job performance criteria and appraisal tools, selection processes and tools, organizational justice, work attitudes, and prejudice and discrimination in the workplace. Specific topic areas will be announced prior to the course selection period. (H)  
**Prerequisite(s):** (HTM*3000 or PSYC*3070), (HTM*2200 or PSYC*3080)

PSYC*4370 History of Psychology U (3-0) [0.50]  
The historical roots of modern psychology. Students electing to major by completing the Honours Thesis Courses I and II should note that they are expected to also take either PSYC*4900, or this course, prior to, or concurrent with, either PSYC*4870 or PSYC*4880 (see Graduate Advisory Note under Major). (H)  
**Prerequisite(s):** 4.00 credits in psychology, with at least 1.00 credits at the 3000 level or above

PSYC*4440 Contemporary Issues in Child Development U (3-0) [0.50]  
This course is primarily designed for students in the Psychology program whose special interests are developmental. Students will examine theoretical and methodological issues in a specific area of developmental psychology. The course will involve detailed evaluation of selected studies and when appropriate, student research projects. (H)  
**Prerequisite(s):** PSYC*2360, (PSYC*3440 or PSYC*3450)

PSYC*4500 Current Theoretical Issues in Psychology S,F,W (3-0) [0.50]  
An independent program of study in topics of current theoretical import in psychology, to be decided by the student in consultation with the supervisory faculty member before the student may select or register for the course. (H)  
**Prerequisite(s):** 4.00 credits in psychology, with at least 1.00 credits at the 3000 level or above  
**Restriction(s):** Instructor consent required.

PSYC*4510 Current Issues in Psychology S,F,W (0-6) [0.50]  
The study of issues of current interests in psychology. Topics will vary with the interests of faculty members assigned to the course and will be announced prior to the course selection period. The course is available either as a senior lecture/seminar course with regularly scheduled class times, or as an independent study course with the topic and schedule decided in advance by the student in conjunction with a supervisory faculty member. (H)  
**Prerequisite(s):** 4.00 credits in psychology, with at least 1.00 credits at the 3000 level or above and previous study related to the topic area (also see psychology core statement)  
**Restriction(s):** Instructor consent required.

PSYC*4600 Cognitive Neuroscience U (3-0) [0.50]  
This course will focus on methods used in contemporary cognitive neuroscience (including but not limited to: PET, functional MRI, EEG, intracranial stimulation and recording) as they aid in the elucidation of neural basis of behaviour. (H)  
**Prerequisite(s):** PSYC*2360, (1 of PSYC*2390, PSYC*2410, PSYC*2650), (also see psychology core statement)  
**Restriction(s):** PSYC*4400

PSYC*4750 Motivation U (3-0) [0.50]  
This course examines the topics of motivation and emotion from various subdisciplinary perspectives, adopting a senior seminar format and problem-centred approach. (H)  
**Prerequisite(s):** 15.00 credits

PSYC*4760 Seminar in Personality and Individual Differences U (3-0) [0.50]  
A course in personality and individual differences intended primarily for honours students in psychology. Emphasis will be placed on a critical analysis of current controversies in the area as well as an in-depth examination of specific advances in the field. Specific topics, to be announced prior to course selection, will vary according to the interests of the instructor of the course. (H)  
**Prerequisite(s):** PSYC*2740, PSYC*3250

PSYC*4870 Honours Thesis I S,F,W (3-0) [0.50]  
Under individual faculty supervision, students plan, develop, and write a research proposal and prepare an extensive review paper on their area of research. Group sessions are held on research ethics, subject protocols and computer data handling techniques. This course will be graded on a Pass/Fail basis. Note that enrollment in this course is limited and academic records are used for student selection. Course registration requires the signature of the Chair of the department's Undergraduate Affairs and Curriculum Committee (UACC). This UACC signature is contingent upon the student demonstrating they have obtained a Thesis Supervisor's signature on the department's Thesis Registration Form and have an academic standing appropriate for application to graduate programs (see Graduate Advisory under Major). As well, registration for Honours Thesis I will require that either PSYC*4370 or PSYC*4900 is taken prior to, or concurrent with, either PSYC*4870 or PSYC*4880. (H)  
**Prerequisite(s):** [PSYC*3370, PSYC*3380], or PSYC*3371/2, [70% average across (PSYC*2010 or STAT*2040), (PSYC*3320 or STAT*2050)]  
**Restriction(s):** Instructor consent required.

PSYC*4880 Honours Thesis II S,F,W (2-10) [1.00]  
A continuation of PSYC*4870. Students conduct research and write an undergraduate thesis under the direction of a faculty member. This course is intended for students in the honours program. Note that registration in this course will require that either PSYC*4370 or PSYC*4900 is taken prior to, or concurrent with, either PSYC*4870 or PSYC*4880. (H)  
**Prerequisite(s):** PSYC*4870, [70% average across (PSYC*2010 or STAT*2040), (PSYC*3320 or STAT*2050)], (PSYC*3370, PSYC*3380) or PSYC*3371/2  
**Restriction(s):** PSYC*4881/2

PSYC*4900 Psychology Seminar U (3-0) [0.50]  
Student seminars and discussions will be organized around theoretical and substantive issues in the discipline of psychology. A major objective is to assist advanced undergraduate students to achieve a degree of synthesis of materials studied in their previous psychology courses (also see psychology core statement). Students electing to Major by completing the Honours Thesis I and II should note that they are expected to also take either PSYC*4370, or this course, prior to, or concurrent with, either PSYC*4870 or PSYC*4880 (see Graduate Advisory under Major). (H)  
**Prerequisite(s):** 14.00 credits (including 4.00 credits in psychology, with at least 1.00 credits at the 3000 level or above)  
**Restriction(s):** Registration in a Psychology Major of an Honours program.

PSYC*4910 Co-operative Education Project I S,F,W (0-6) [0.50]  
An independent program of study formally integrating the student's academic study with work term experiences. An academic supervisor will serve as the student's academic mentor, while an industrial supervisor will provide practical experience. Registration in a Psychology Major of an Honours program is required. (H)  
**Prerequisite(s):** 2 co-operative education work terms  
**Restriction(s):** Instructor consent required.
Sociology

Department of Sociology and Anthropology

The Department of Sociology and Anthropology offers three types of courses: sociology courses with the prefix SOC*; anthropology courses with the prefix ANTH*; and departmental courses with the prefix SOAN*.

Courses will normally be offered in the semesters designated. For information on other semesters these courses will be offered and the semesters those courses without designations will be offered, please check with the department. In addition to regularly scheduled courses, students may elect to do independent study. A student who wishes to do a reading course should first consult the professor with whom he/she wishes to work. Please note: a student is allotted a total of 1.00 credits only for reading courses.

# Sociology and Anthropology

The Department of Sociology and Anthropology offers three types of courses: sociology courses with the prefix SOC*; anthropology courses with the prefix ANTH*; and departmental courses with the prefix SOAN*.

## XII. Course Descriptions, Sociology and Anthropology

### SOAN*2040 Globalization of Work and Organizations F,W (3-0) [0.50]
This course examines the sociological dimensions of work and occupations. Specific topics may include: the organizational context of work, occupational and labour market structures, job satisfaction, industrial relations, technological change, and the effects of gender, age, race/ethnicity on how work and employment are experienced.

**Prerequisite(s):** ANTH*1150 or SOC*1100

### SOAN*2111 Classical Theory F (3-0) [0.50]
First part of the two-semester course SOAN*2111/2. Refer to SOAN*2111/2 for course description.

**Prerequisite(s):** 1 of ANTH*1150, SOC*1100, SOC*1500

### SOAN*2111/2 Classical Theory F-W (1.00)
This course explores the origins and early development of sociological theory in its classical and early contemporary traditions. When you select it you must select SOAN*2111 in the Fall semester and SOAN*2112 in the Winter semester. A grade will not be assigned to SOAN*2111 until SOAN*2112 has been completed.

**Prerequisite(s):** 1 of ANTH*1150, SOC*1100, SOC*1500

### SOAN*2112 Classical Theory W (3-0) [0.50]
Second part of the two-semester course SOAN*2111/2. Refer to SOAN*2111/2 for course description.

**Prerequisite(s):** SOAN*2111

### SOAN*2120 Introductory Methods F,W (3-0) [0.50]
A general introduction to the process of social research emphasizing research design, techniques of data collection, analysis and interpretation of research results.

**Prerequisite(s):** 1 of ANTH*1150, SOC*1100, SOC*1500

### SOAN*2290 Identities and Cultural Diversity U (3-0) [0.50]
An examination of the interrelationships among Canadian ethnic, racial and linguistic groups including their locations in the Canadian mosaic.

**Prerequisite(s):** ANTH*1150 or SOC*1100

### SOAN*2400 Introduction to Gender Systems S,F (3-0) [0.50]
An introduction to the examination of the characteristics of gender relationships both historically and cross-culturally. Amongst the emphases are theoretical approaches to gender analysis, methodologies, case studies and attention to themes such as class and stratification, race and ethnicity, identities and global restructuring as these shape gender dynamics. (In spring semester offered through distance education format only.)

**Prerequisite(s):** ANTH*1150 or SOC*1100

### SOAN*3070 Qualitative and Observational Methods W (3-0) [0.50]
Non-quantitative techniques in social research including participant observation, unobtrusive methods, case studies and interviewing.

**Prerequisite(s):** SOAN*2120

### SOAN*3100 Gender Perspectives on Families and Households U (3-0) [0.50]
This course explores families and households from a gender perspective, using insights from sociology and anthropology.

**Prerequisite(s):** 1 of ANTH*2160, SOAN*2111/2, SOAN*2400), (SOAN*2120 or WMST*3000)

**Restriction(s):** FRHD*3120

### SOAN*3120 Quantitative Methods F (3-0) [0.50]
This course introduces basic descriptive and inferential techniques used in quantitative social research. Students will acquire the skills needed to perform basic analyses and to read the research literature. They will also acquire skills in using a standard computer package to perform data analyses. Topics include: data organization, sample description, hypothesis testing and measures of association. Note: Students who have completed any other statistics course(s) should consult with the instructor. In some instances, SOC*3120 may be waived as a departmental requirement.

**Prerequisite(s):** SOAN*2120

**Restriction(s):** Priority Access course. Enrolment may be restricted to particular programs or specializations. See department for more information.

### SOAN*3250 Social Change in Latin America F (3-0) [0.50]

**Prerequisite(s):** 12.50 credits including (ANTH*2160 or SOC*2080), (SOAN*2120 or WMST*3000)

### SOAN*4240 Women and the Development Process U (3-0) [0.50]
To increase students' understanding of the relation of socio-economic, political and cultural changes on the roles of women in "developing areas" and how women, in turn, affect socio-economic changes.

**Prerequisite(s):** 12.50 credits including (1 of ANTH*3400, IDEV*2010, SOAN*3680), (1 of SOAN*3070, SOAN*3120, WMST*3000)

### SOAN*4320 Transition from School to Work W (3-0) [0.50]
This applied course examines the evolving research and models in the transitions from school to work area. There is an evolving literature in this area based, in part, on the successful application of research in the transition from high school to postsecondary education. This 'capstone' course also considers the practical issues involved in making such a move, considering the knowledge, skills, and values needed by university students to succeed in the modern workplace (public, private, and not-for-profit sectors) in Canada. Students will complete an "Action Sociology/Anthropology Project," as well as a "Skills Portfolio," and other work related to their own transition.

**Restriction(s):** Registration in Sociology, Anthropology or Criminal Justice & Public Policy majors in semester 7 or 8.

### SOAN*4500 Community Development U (3-0) [0.50]
An analysis of approaches to community development defined as planned, change-directed action undertaken by individuals, groups and organizations. The course will include the examination of actual community development practices.

**Prerequisite(s):** (1 of ANTH*2160, IDEV*2010, SOC*2080), (GEOG*2210 or SOAN*2120)

**Restriction(s):** SOAN*3300
**Department of Land Resource Science**

**SOIL*2010 Soil Science W (3-2) [0.50]**

An introduction to the principles of soil science - the origin of soils, their classification and interpretation in natural and modified environments. Soil will be studied as a product of the natural environment, with a focus on formation processes and changes which occur when it is modified through use. A variety of uses including agriculture, forestry, recreation, and urban development will be considered. This course is not for B.Sc.(Agr.) students. (Also offered through distance education format.)

**SOIL*2120 Introduction to Environmental Stewardship F (3-2) [0.50]**

An introduction to the concepts of resources management, environmental planning and assessment, land stewardship and sustainable development. Case studies of specific issues such as parks and natural heritage conservation, agricultural land loss, and integrated rural resources management will provide insight on approaches to decision making. Discussion of the concept of stewardship as an environmental ethic. (Also offered through distance education format.)

**SOIL*3000 Environmental Issues in Agriculture and Landscape Management W (3-2) [0.50]**

This course provides an introduction to a range of specific environmental and resource issues in agriculture and landscape management. Issues to be covered include geological resources, climate change, nutrient management, groundwater contamination, source water protection, land use planning, and natural resources management.

**Prerequisite(s):** AGR*2320 or SOIL*2010

**Equate(s):** AGR*2301, SOIL*2200

**SOIL*3030 Tutorials in Organic Agriculture I F (3-2) [0.50]**

Building on the introductory exposure offered in CROP*2050, this course will rely on lectures and small group mentoring to stimulate independent learner-centered analysis and investigation of selected topics in organic agriculture. Students will participate in an interdisciplinary analysis of case-study topics offered in the form of two 6-week modules on biophysical and social issues, including composting and crop rotations as well as socio-political and marketing forces bearing on organics. The goal is to encourage holistic, systematic thinking in students learning to become self-directed analysts and decision-makers.

Seminar periods will support both guest speakers and student presentations.

**Prerequisite(s):** CROP*2050

**SOIL*3050 Land Utilization F (3-1) [0.50]**

Principles of land utilization and planning at the global, national, regional and local levels. Land characterization and classification using photo-interpretive techniques and computerized soil survey interpretive programs. Land capability/suitability for agriculture, forestry and engineering purposes. Emphasis on specific land use issues in Canada.

**Prerequisite(s):** 1 of AGR*2301/2, AGR*2320, GEOG*1300, GEOL*1000, SOIL*2010

**SOIL*3060 Environmental Soil Chemistry F (3-2) [0.50]**

The formation and properties of clay minerals and organic matter; ionic exchange, soil acidity, and alkalinity, oxidation and reduction potential, and dissolution and precipitation. Laboratory sessions will illustrate principles of soil chemistry.

**Prerequisite(s):** 1 of AGR*2301/2, AGR*2320, SOIL*2010

**SOIL*3070 Environmental Soil Physics F (3-3) [0.50]**

Practical aspects of water movement and contaminant transport in soils. Hands-on experience with standard laboratory and field methods of measuring soil physical properties. Applications of soil physics in characterizing pathogen and nutrient transport to groundwater, landfill cap and linear design, turf management.

**Prerequisite(s):** 1 of MATH*1080, AGR*2301/2, SOIL*2010

**SOIL*3080 Soil and Water Conservation F (2-3) [0.50]**

A lecture-demonstration course on the processes leading to deterioration of soil and water quality, the impact of deterioration on use, and preventative or corrective measures. Soil erosion by water and wind, soil compaction and salinization. Drainage channel maintenance, sedimentation and nutrient enrichment of water. Conservation programs and policies. Reclamation of severely disturbed soils and saline-sodic soils. Emphasis will be on concepts and solutions to problems in a systems approach. (Also offered through distance education format.)

**Prerequisite(s):** 1 of AGR*2301/2, AGR*2320, SOIL*2010

**SOIL*3100 Resource Planning Techniques W (2-2) [0.50]**

An intermediate techniques course directed at the application of a systematic approach to problem-solving in natural resource management. Major topics include procedures of ecological land classification, computer-assisted resource analysis and environmental impact assessment.

**Prerequisite(s):** SOIL*3050

**SOIL*3200 Environmental Soil Biology W (3-3) [0.50]**

Soil biological processes involving both microflora and fauna with emphasis on waste management, soil fertility and structure, plant residue decomposition and xenobiotic compound biodegradation. Students will apply this knowledge in a project involving biodegradation of an organic waste.

**Prerequisite(s):** 10.00 credits including AGR*2301/2 or SOIL*2010

**SOIL*3300 Land Resource Stewardship S (3-0) [0.50]**

This course will examine 'stewardship' programs as an approach to environmental conservation in both the agricultural and natural resource conservation sectors in Canada. It will focus on the central role of private landowners, with emphasis on the voluntary policy perspective of stewardship programs in comparison to regulatory perspectives. As well, it will examine the non-government organizations such as land trusts and farm organizations that often run stewardship programs. Programs addressing environmental conservation issues in agriculture, forestry, fisheries, wildlife, habitat conservation, and species at risk will be considered. (Offered through distance education format only.)

**Prerequisite(s):** SOIL*2120 or SOIL*2200

**SOIL*3600 Remote Sensing W (3-3) [0.50]**

An introduction to remote sensing, as applied to the study and monitoring of the biophysical environment (atmosphere, vegetation, soil, hydrology, geology). Relevant conventional photographic techniques are examined, but current analog and digital imaging technologies are emphasized. Attention is given to both airborne and earth-orbiting imaging platforms. Key aspects of computerized image analysis are covered. Practical experience is gained through the interpretation of high-resolution digital imagery using industry-standard commercial software.

**Prerequisite(s):** 10.00 credits (recommend: 1 of GEOG*2420, AGR*2301/2, AGR*2320, SOIL*2010)

**Restriction(s):** Priority Access course. Enrolment may be restricted to particular programs or specializations. See department for more information.

**SOIL*4070 Problems in Land Resource Science S,F,W (0-6) [0.50]**

Students will carry out a research project in an area of special interest. Individualized supervision will be provided by a faculty member. The preparation of an oral and/or written report will be required. Approval to take this course must be obtained from the Department Chair during the previous semester.

**Prerequisite(s):** AGR*2320 or ENVS*2010 and 1.00 credits at the 3000 or higher level in soil science, geology or meteorology

**Restriction(s):** Department chair consent required.

**SOIL*4090 Soil Management F (3-1) [0.50]**

A lecture-tutorial course on the practical aspects of soil management for crop production as they relate to the physical, chemical and biological properties of soils; major emphasis is placed on soil fertility as related to field soils properties and fertilizer, lime and manure use, soil and plant testing for mineral nutrients. The beneficial aspects of drainage, irrigation, erosion control and related tillage practices on soil fertility are also presented. Due regard is given to both economic and environmental aspects of soil management practices.

**Prerequisite(s):** 1 of AGR*2301/2, AGR*2320, SOIL*2010

**SOIL*4110 Natural Resources Management Field Camp F (0-6) [0.50]**

A course directed toward investigating methods of collecting and processing land resource field data. Practice in mapping information from air photographs and ground surveys, construction of inventory maps and integration of information. The course will consist of a one week field camp prior to the fall semester, following which the students, working in groups, will prepare and present a comprehensive report in consultation with faculty. Students will be responsible for their living and transportation expenses for the field session, in addition to regular tuition fees. The course may be offered with different emphasis in content depending on student demand. Students are required to notify the designated departmental instructor of their intention to participate in the Field Camp during the previous Winter semester (or earlier if going on exchange programs).

**Prerequisite(s):** SOIL*3100

**Restriction(s):** Registration in B.Sc.Env.NRM and B.Sc.Agr.AGMN students.

**SOIL*4160 Design of Organic Production Systems F (2-3) [0.50]**

This interdisciplinary course calls upon students to use the analytical framework developed in Tutorials in Organic Agriculture I and II to apply organic principles to managed agroecosystems. The course covers the interactions of soils, plants, microbes, and animals with management and environmental factors related to annual and perennial crops and livestock. The core principle of problem avoidance rather than problem solving is illustrated with practical examples from such dimensions as integration of crop and livestock agriculture, farm-scale nutrient budgeting, permaculture, and herd health in the production of organic field crops (grains and oilseeds), horticultural crops (fruit and vegetables), and livestock (beef, sheep, dairy, pigs, chickens).

**Prerequisite(s):** (1 of AGR*2350, CROP*4220, SOIL*3170 or (CROP*3310, SOIL*3301)

This content is from the 2007-2008 University of Guelph Undergraduate Calendar. The last revision was on January 28, 2008.
### SOIL*4250 Soils in the Landscape F (3-3) [0.50]

This course has field, laboratory and classroom components. It focuses on soil spatial and temporal variability, evaluating soil properties in relation to controlling factors and processes, on local to global scales. Students are exposed to standard procedures for collecting soil data in the field and laboratory, highlighting sampling design and data extrapolation, as well as relevant applications of digital imaging of soil (micropedology) and landscapes. Principles of soil classification are discussed and several systems are introduced, emphasizing the Canadian System of Soil Classification; key concepts associated with the production of soil maps and reports, as well as the role of geographic information systems in archiving and interpreting soil information, are also examined.

Students are required to notify the designated departmental instructor, of their intention to participate in this course, during the previous winter semester (or earlier, if going on exchange programs). This course has field camps which run during the week preceding the Fall semester. A fee is charged to cover some costs of field activities.

**Prerequisite(s):** 12.50 credits including (1 of AGR*2320, GEOL*1050, GEOL*1100, SOIL*2010)

**Restriction(s):** SOIL*3170, SOIL*4170 Restricted to B.Sc.(Agr.) Agroecosystem Management or B.Sc.(Env.) Earth and Atmospheric Science majors or B.B.R.M. Instructor consent required.
Spanish Studies

School of Languages and Literatures

All courses are conducted in Spanish (reading, writing and speaking), and literary texts are, at all levels, studied in the original language.

SPAN*1100 Introductory Spanish F,W (3-1) [0.50]
This course provides the basics of spoken and written Spanish for students with no previous studies in the language. (Also offered through distance education format).

SPAN*1110 Intermediate Spanish F,W (3-1) [0.50]
This is a continuation of SPAN*1100 with emphasis on oral work. (Also offered through distance education format).
Prerequisite(s): SPAN*1100

SPAN*2000 Spanish Language I F,W (3-1) [0.50]
A study through selected readings, class discussion and audio-visual materials of the Spanish American countries, their histories, society, institutions and culture.
Prerequisite(s): SPAN*1110 or SPAN*1110 (or equivalent)

SPAN*2010 Spanish Language II F,W (3-1) [0.50]
This is a continuation of SPAN*2000.
Prerequisite(s): SPAN*2000

SPAN*2040 Spanish Civilization F (3-0) [0.50]
An introduction to literary studies in Spanish. The course focuses on critical terminology and methods through a selection of prose, poetry and drama from Spain and Spanish America.
Prerequisite(s): SPAN*1110 or 4U Spanish
Restriction(s): Instructor consent required.

SPAN*2990 Hispanic Literary Studies W (3-0) [0.50]
A detailed study of Spanish literature, with emphasis on the works of prominent 20th-century poets. (Offered in even-numbered years.)
Prerequisite(s): SPAN*1110 or 4U Spanish
Restriction(s): Instructor consent required.

SPAN*3080 Spanish American Culture W (3-0) [0.50]
A survey through selected readings, class discussion and audio-visual materials of the Spanish American countries, their histories, society, institutions and culture.
Prerequisite(s): SPAN*1110 or 4U Spanish
Restriction(s): Instructor consent required.

SPAN*3090 Spanish American Drama F (3-0) [0.50]
This course will study the works of prominent 19th-century playwrights in the context of the artistic environment of Europe as reflected in the theatre, art and film of the first two decades of the 20th century. Focus will be on the works of: Garcia Lorca, Vicente Aleixandre, Gerardo Diego; painters Salvador Dalí and Pablo Picasso, and film director Luis Buñuel. (Offered in even-numbered years.)
Prerequisite(s): SPAN*2990
Restriction(s): Instructor consent required.

SPAN*3180 Cuento/Journalism Spanish American W (3-0) [0.50]
This course will examine why and how the leading figures, such as Borges, Cortazar, Garcia Marquez, Carpenter and Isabel Allende, have "made" history, not only in the way they have recreated the Latin American historical reality, but also in the way they have reformed the Hispanic literature. (Offered in odd-numbered years.)
Prerequisite(s): SPAN*2990
Restriction(s): HUMN*3160

SPAN*3170 Spanish Drama: Women, Virtue, Honour F (3-0) [0.50]
This topic-oriented course will study the code of Honour in major Golden Age dramas and twentieth-century plays. Playwrights and plays to be studied may include: Lope de Vega’s Fuenteovejuna, Calderon’s Life is a Dream, Tirso de Molina’s Don Juan, The House of Bernarda Alba, Jemma, and Blood Wedding by Garcia Lorca. These texts will also be studied for their influence on world literature. (Offered in even-numbered years.)
Prerequisite(s): SPAN*2990
Restriction(s): HUMN*3170

SPAN*3180 Cuento/Journalism Spanish American W (3-0) [0.50]
Most Latin American writers started their careers as journalists, and short stories by Jorge Luis Borges, Julio Cortazar, Gabriel Garcia Marquez, Elena Poniatowska, Luisa Valenzuela, and Isabel Allende were published in daily newspapers. One of the results of the close link between journalism and fiction is a deep sense of social responsibility in a modern non-representational literature. This course will study twentieth-century Latin American short stories for their artistic merits, and for their other links to journalistic discourse. (Offered in even-numbered years.)
Prerequisite(s): SPAN*2990
Restriction(s): Instructor consent required.

SPAN*3250 Spanish American Fiction Since 1900 W (3-0) [0.50]
This course provides a detailed study of fiction to emerge from Spain and Spanish America since 1970, concentrating on themes such as immigration, the breakdown of traditional cultural identities, responses to neo-liberal ideology and the influence of globalization and popular culture on literary production. (Offered in odd-numbered years.)
Prerequisite(s): SPAN*2990

SPAN*3500 Spanish Grammar and Composition I F (3-0) [0.50]
An advanced language course that focuses on the refinement of students' written and verbal communication skills in Spanish.
Prerequisite(s): SPAN*2100

SPAN*3520 Business Spanish W (3-0) [0.50]
A study of contemporary Spanish literature and film from a socio-political perspective. It will focus on the following topics: the impact on narrative and theatre of socio-cultural upheavals in the aftermath of the civil war; the role in the aesthetics of both film and literature of the Franco dictatorship and censorship in particular; the influence of globalization and popular culture on literary production. (Offered in odd-numbered years.)
Prerequisite(s): SPAN*2990

SPAN*3530 Business Spanish W (3-0) [0.50]
A study of contemporary Spanish literature and film from a socio-political perspective. It will focus on the following topics: the impact on narrative and theatre of socio-cultural upheavals in the aftermath of the civil war; the role in the aesthetics of both film and literature of the Franco dictatorship and censorship in particular; the influence of globalization and popular culture on literary production. (Offered in odd-numbered years.)
Prerequisite(s): SPAN*2990

SPAN*3580 Directed Readings in Spanish Studies U (3-0) [0.50]
A reading course in Spanish American literature designed according to the previous studies and the interests of the individual student. Normally, students will not be permitted to take more than two courses in the Directed Readings sequence.
Prerequisite(s): 1.00 credits in Spanish literature at the 3000 level
Restriction(s): Instructor consent required.

SPAN*3850 Revolutionary Poetry and Poetic Revolution in Spanish America F (3-0) [0.50]
This course studies the poetry that has emerged from revolutionary movements in Cuba, Nicaragua, Chile and elsewhere, situating this poetry in the context of the search for new poetic forms. (Offered in even-numbered years.)
Prerequisite(s): SPAN*2990 or instructor consent required.

Statistics

Department of Mathematics and Statistics

Suggested initial course sequences:

1. For students interested in applied statistics a minimal course sequence is: (STAT*2040 or STAT*2100), STAT*2050, STAT*3210, STAT*3240, STAT*3320.
2. Credit may be obtained in only 1 of STAT*2050 or STAT*2090 and only 1 of STAT*2040, STAT*2060, STAT*2080, STAT*2100, STAT*2120.
3. Graduate students may be admitted to later parts of a sequence by permission of the department.
4. Students who major or minor in Statistics may not receive credit for the following courses unless taken to satisfy the requirements of another program: ECON*2740, PSYC*2010, PSYC*3320.

STAT*2040 Statistics I S,F,W (3-2) [0.50]

A course stressing the practical methods of Statistics. Topics include: descriptive statistics, univariate models such as binomial, Poisson, uniform and normal; central limit theorems; expected value; the t, F and chi-square models; point and interval estimation; hypothesis testing methods up to two-sample data; simple regression and correlation; ANOVA for CRD and RCBD. Assignments will deal with real data from the natural sciences. Laboratory sessions involve statistical computing and visualization using appropriate statistical software.

Prerequisite(s): 1 of MATH*1010, MATH*1210, MATH*2080, IPS*1210.

Restriction(s): STAT*1000, STAT*2060, STAT*2080, STAT*2100, STAT*2120.

STAT*2050 Statistics II S,F,W (3-2) [0.50]

The methods of STAT*2040 are extended to the multi-sample cases. Methods include: simple and multiple regression analysis including ANOVA and lack-of-fit; experimental design including analysis for CRD, RCBD, LSD, SP and factorial experiments with interaction; ANCOVA; Bioassay. Assignments employing data from the natural sciences will be processed in the microcomputer laboratory.

Prerequisite(s): STAT*2040 or STAT*2100 (or equivalent)

Restriction(s): STAT*2090, STAT*2250.

STAT*2060 Statistics for Business Decisions W (3-2) [0.50]

A course designed for students interested in the application of statistics in a business setting. Topics covered will include the role of statistics in business decisions, organization of data, frequency distributions, probability, normal and sampling distributions, hypothesis tests, linear regression and an introduction to time series, quality control and operations research. (Also offered through distance education format.)

Prerequisite(s): 1 of MATH*1010, MATH*1210, STAT*2040, STAT*2080, STAT*2100, STAT*2120.

Restriction(s): STAT*1000, STAT*2060, STAT*2080, STAT*2100, STAT*2120.

STAT*2080 Introductory Applied Statistics I F (3-2) [0.50]

Frequency distributions, graphing and tabulation of data. Measures of central tendency, variability and association. Elementary probability. Hypothesis testing and confidence intervals. Basic concepts of experimental design; treatment designs. Simple linear regression and correlation. Illustrated with examples from a variety of disciplines, including family studies, education, marketing, medicine, psychology and sociology.

Prerequisite(s): 1 of MATH*1010, MATH*1210, STAT*2040, STAT*2080, STAT*2100, STAT*2120.

Restriction(s): STAT*1000, STAT*2040, STAT*2080, STAT*2100, STAT*2120.

STAT*2090 Introductory Applied Statistics II W (3-2) [0.50]

Design of sample surveys. Analysis of qualitative data. Analysis of variance for designed experiments. Multiple regression and analysis of covariance. Some non-parametric methods. Survey of special topics such as factor analysis, principal components analysis, introductions to discriminant analysis, cluster analysis, principal components analysis, logistic regression, and resampling methods. Also listed as BIOL*2250. Departments of Mathematics and Statistics and Zoology.

Prerequisite(s): STAT*2040 or STAT*2100

Equate(s): BIOL*2250

Restriction(s): STAT*2050.

STAT*3100 Introductory Mathematical Statistics I F (3-0) [0.50]

Probability spaces; discrete and continuous random variables; multivariate distributions; expectations; moments, Chebyshev's inequality, product moments; sums of random variables, generating functions; Gamma, Beta, t and F distributions; central limit theorem; sampling distributions.

Prerequisite(s): IPS*1210 or MATH*1210, (STAT*2040 or STAT*2100)

STAT*3110 Introductory Mathematical Statistics II W (3-0) [0.50]

Estimation, unbiasedness, Cramer-Rao inequality, consistency, sufficiency, method of moments, maximum likelihood estimation; hypothesis testing, Neyman-Pearson lemma, likelihood ratio test, uniformly most powerful test; linear regression and correlation; non-parametric methods.

Prerequisite(s): STAT*3100

STAT*3210 Experimental Design W (3-0) [0.50]

Basic principles of design: randomization, replication, and local control (blocking); RCBD, Latin square and crossover designs, incomplete block designs, factorial and split-plot experiments, confounding and fractional factorial designs, response surface methodology; linear mixed model computer analysis of the designs; nonparametric methods; Taguchi philosophy.

Prerequisite(s): STAT*2050, STAT*3240

Restriction(s): STAT*4220

STAT*3240 Applied Regression Analysis F (3-2) [0.50]

Theory and applications of regression techniques; linear, non-linear and multiple regression and correlation; analysis of residuals; other statistical techniques including: response surfaces and covariance analysis, prediction and time-series analysis. The computer lab involves interactive data analysis and investigation of the methodology using SAS and/or S-PLUS statistical software.

Prerequisite(s): IPS*1210 or MATH*1210, (MATH*2150 or MATH*2160, may be taken concurrently or with instructor consent), (STAT*2050 or STAT*2100)

STAT*3320 Sampling Theory with Applications F (3-0) [0.50]

Non-probability and probability sampling. Simple random sampling, stratified sampling, cluster sampling, systematic sampling, double sampling, two-phase sampling, multi-stage cluster sampling. Expectation and variance estimation procedures and applications of above techniques.

Prerequisite(s): IPS*1210 or MATH*1210, (1 of MATH*2150 or MATH*2160, may be taken concurrently or with instructor consent), (STAT*2050 or STAT*2100).

STAT*3350 Environmental Risk Assessment W (3-0) [0.50]

Contemporary statistical methods for assessing risk, including dose-response models, survival analysis, relative risk analysis, bioassay, estimating methods for zero risk, trend analysis, survey of models for assessing risk. Case studies illustrate the methods.

Prerequisite(s): 1 of IPS*1110, MATH*1000, MATH*1080, MATH*1200, (STAT*2050 or STAT*2250)

STAT*4050 Topics in Applied Statistics I W (3-0) [0.50]

Topics such as statistical computing procedures, quality control, bioassay, survival analysis and introductory stochastic processes. Intended for statistics students and interested students in other disciplines with appropriate previous courses in statistics. Information on particular offerings will be available at the beginning of each academic year. (Offered in odd-numbered years.)

Prerequisite(s): STAT*3110, STAT*3240

STAT*4060 Topics in Applied Statistics II W (3-0) [0.50]

Same as for STAT*4050. (Offered in even-numbered years.)

Prerequisite(s): STAT*3110, STAT*3240
### STAT*4080 Data Analysis F (3-2) [0.50]

Principles of statistical modelling; the likelihood function; model fitting; model choice; analysis of non-normal data; generalized linear models; binomial regression models; regression models for counts; Poisson and multinomial data; overdispersion. Statistical modelling and analysis using appropriate software (e.g. Splus and/or SAS) in the computing lab.

**Prerequisite(s):** (MATH*2150 or MATH*2160), STAT*3110, STAT*3240

### STAT*4100 Survival Analysis W (3-1) [0.50]

Theory and methodology of survival analysis. A set of techniques for modelling the time of a well-defined event (typically failure or death), and for dealing with censored data. The emphasis will be on regression, including parametric, proportional hazards and accelerated life regression models. Areas of application include environmental sciences, medicine, industrial reliability, and economics, where the events of interest may be respectively early death, organ failure, component failure, or strikes. Students will learn specialized techniques for modelling censored data and understand why they are necessary. The interpretation of real data will be emphasized throughout the course. Statistical computing packages (S-Plus or SAS) will be used extensively.

**Prerequisite(s):** STAT*3110 and STAT*3240

### STAT*4340 Statistical Inference W (3-0) [0.50]

This course on methods of statistical inference reviews and extends the theory of estimation introduced in STAT*3110: interval estimation tests for simple and composite hypotheses, likelihood ratio tests. Recent likelihood concepts as well as classical large sample theory, asymptotics and approximations and their applications are covered. This material is directly relevant to current research and applications in areas as diverse as survival analysis, nonparametric regression and environmetrics.

**Prerequisite(s):** STAT*3110, STAT*3240

### STAT*4350 Applied Multivariate Statistical Methods F (3-0) [0.50]

Samplings from the multivariate normal distribution, Wishart and Hotelling's $T^2$ distribution statistical inference on the mean vector, canonical correlations, multivariate analysis of variance and covariance, multivariate regression, principal components analysis, factor analysis. Topics will be illustrated using examples from various disciplines.

**Prerequisite(s):** (MATH*2150 or MATH*2160), STAT*3110, STAT*3240

### STAT*4360 Applied Time Series Analysis W (3-2) [0.50]

This course will investigate the nature of stationary stochastic processes from the spectral and time domain points of view. Aspects of parameter estimation and prediction in a computationally intensive environment will be the presentation style. The methods developed in this course will have applicability in many sciences such as engineering, environmental sciences, geography, soil sciences, and life sciences.

**Prerequisite(s):** STAT*3240 or instructor consent
### Studio Art

**School of Fine Art and Music**

Admission to all Studio Art courses is based on the university's policy with regard to Priority Access Courses. Admission to ALL Studio Courses at the 3000-level and above is restricted to students who:

1. are currently registered in the Art History or Studio Art Specializations of the Bachelor of Arts Program;
2. have an average of 70% in all ARTH and SART course attempts;
3. have completed both SART*1050 and SART*1060.

**Studio supplies:** The majority of the cost of supplies must be borne by the student. In order to permit the University to subsidize this cost and to allow for savings through discount buying, some materials are obtained through the School of Fine Art and Music by payment of a lab fee. The amount of the fee is established for each semester prior to registration.

**Note:** Due to limited faculty resources and facilities, enrolment in these courses may be restricted to Studio Art majors or minors.

#### SART*1050 Integrated 2-D Media F,W (0-6) [0.50]
A studio-based investigation into the fundamental concepts, principles and elements of two-dimensional visual structure and expression. Assigned projects, in-class exercises, slides, lectures and critiques will introduce the student to aspects of both traditional and contemporary practice.

**Restriction(s):** Registration in semesters one, two, three or four. May not register in SART*1060 in same term.

#### SART*1060 Media Convergence F,W (0-6) [0.50]
An introduction to the basic aspects of three-dimensional and time-based art production. Various topics, materials, and diverse approaches will be investigated through assigned problems, lectures, and critiques.

**Equate(s):** SART*2040

**Restriction(s):** Registration in semesters one, two, three or four. May not register in SART*1050 in same term.

#### SART*2090 Drawing I F,W (0-6) [0.50]
An introduction to the basic concepts, techniques and media of drawing, through disciplined observational and imaginative study.

**Prerequisite(s):** SART*1050 or SART*1060

#### SART*2200 Painting I F,W (0-6) [0.50]
Introduces various technical and aesthetic issues of painting, with an emphasis placed on representational strategies. Diverse approaches will be investigated through specific studio assignments in acrylic and oil-based media on various painting supports. Prior or concurrent Drawing classes are recommended.

**Prerequisite(s):** SART*1050

#### SART*2300 Sculpture I F,W (0-6) [0.50]
An introduction to contemporary sculptural concerns through projects and readings. Students will be actively engaged in exploring a variety of materials and ideas including modular construction, casting, and scale exercises.

**Prerequisite(s):** SART*1060

#### SART*2460 Introductory Printmaking I F (0-6) [0.50]
An introduction to the traditional printmaking media of intaglio and relief printing.

**Prerequisite(s):** SART*1050

#### SART*2470 Introductory Printmaking II W (0-6) [0.50]
An introduction to the techniques of the traditional printmaking media of lithography and silkscreen.

**Prerequisite(s):** SART*1050

#### SART*2610 Photography I F,W (0-6) [0.50]
An introduction to the creative application of photography in art; and, the basic principles of dark-room and camera skills.

**Prerequisite(s):** SART*1050 or SART*1060

**Restriction(s):** Registration in semesters two to five.

#### SART*2700 Introduction to Computer Graphics F (0-6) [0.50]
This course extends the conceptual, technical, and aesthetic issues of studio art into the field of computer arts. Some computer experience is recommended.

**Prerequisite(s):** SART*1050

#### SART*2710 Drawing Graphics on the Computer W (0-6) [0.50]
This course introduces digital drawing on the computer, translating traditional media into complex vector graphics. Some computer experience is recommended.

**Prerequisite(s):** SART*1050

---

**SART*2800 Extended Practices I F,W (0-6) [0.50]**
This course introduces contemporary studio concerns with emphasis on an interdisciplinary approach to art production. Students will be actively engaged in exploring a variety of skills, materials and ideas including video, audio, artist multiples, site work and concept art. These skill sets provide a solid base for upper level courses, where thematic projects encourage students to choose the most appropriate medium for their approach beyond a singular discipline or particular medium.

**Prerequisite(s):** SART*1050 or SART*1060

**Restriction(s):** Registration in semesters two to five.

#### SART*3090 Drawing II F,W (0-6) [0.50]
An extension of SART*2090 which attempts to foster understanding of the basic skills and technical issues necessary to the making of drawings while introducing the philosophical and critical issues related to the discipline.

**Prerequisite(s):** SART*1050, SART*1060, SART*2090

**Restriction(s):** Registration is limited to students registered in the Art History or Studio Art Specializations of the Bachelor of Arts program with an average of 70% in all ARTH and SART course attempts.

#### SART*3200 Painting II F,W (0-6) [0.50]
An extension of the work begun in SART*2200. The various technical and aesthetic issues of representational painting will be further investigated as will the diverse approaches to pictorial organization derived from observation. However, the issues of abstraction and other forms of non-representational approaches will be introduced and developed in a deeper and fuller attempt to explore the possibilities available to the painter in the late 20th century.

**Prerequisite(s):** SART*1050, SART*1060, SART*2200

** Restriction(s):** Registration is limited to students registered in the Art History or Studio Art Specializations of the Bachelor of Arts program with an average of 70% in all ARTH and SART course attempts.

#### SART*3300 Sculpture II F,W (0-6) [0.50]
A technical course in which specific tools of the wood and metal shops will be studied in depth through assignments. Conceptual issues will be examined in relation to the creation of objects.

**Prerequisite(s):** SART*1050, SART*1060, SART*2300

**Restriction(s):** Registration is limited to students registered in the Art History or Studio Art Specializations of the Bachelor of Arts program with an average of 70% in all ARTH and SART course attempts.

#### SART*3410 Intaglio W (0-6) [0.50]
In-depth investigation into aspects of intaglio printmaking.

**Prerequisite(s):** SART*1050, SART*1060, (SART*2460 or SART*2470)

**Restriction(s):** Registration is limited to students registered in the Art History or Studio Art Specializations of the Bachelor of Arts program with an average of 70% in all ARTH and SART course attempts.

#### SART*3450 Lithography F (0-6) [0.50]
In-depth exploration of the art of lithography.

**Prerequisite(s):** SART*1050, SART*1060, (SART*2460 or SART*2470)

**Restriction(s):** Registration is limited to students registered in the Art History or Studio Art Specializations of the Bachelor of Arts program with an average of 70% in all ARTH and SART course attempts.

#### SART*3470 Photo-Printmaking W (0-6) [0.50]
This course investigates the uses of photographic resources in image making to produce photo etchings, silk-screens, and lithographs, as well as the use of computer graphics to augment the design process. (Offered in odd-numbered years.)

**Prerequisite(s):** SART*1050, SART*1060, (SART*2460 or SART*2470)

**Restriction(s):** Registration is limited to students registered in the Art History or Studio Art Specializations of the Bachelor of Arts program with an average of 70% in all ARTH and SART course attempts.

#### SART*3480 Web Development and Design F (0-6) [0.50]
An in-depth study of website design using professional web authoring software. Students will design and create a website which explores a contemporary issue in their art practice.

**Prerequisite(s):** SART*1050, SART*1060, (SART*2700 or SART*2710)

**Restriction(s):** Registration is limited to students registered in the Art History or Studio Art Specializations of the Bachelor of Arts program with an average of 70% in all ARTH and SART course attempts.
SART*3060 Digital & Non-Silver Photography F (0-6) [0.50]
This course is an introduction to non-silver and digital processes as an expansion of photographic concepts introduced in SART*2610. These techniques will serve as the basis for aesthetic investigation into the formal, conceptual, technical and theoretical issues related to historic and new technologies in photographic practice.
Prerequisite(s): SART*1050, SART*1060, SART*2610
Restriction(s):

SART*3750 Photography II F,W (0-6) [0.50]
A further exploration of expressive, formal and technical aspects of photography. Students without the stated prerequisite but with equivalent experience should consult the instructor.
Prerequisite(s): SART*1050, SART*1060, SART*2610
Restriction(s): Registration is limited to students registered in the Art History or Studio Art specializations of the Bachelor of Arts program with an average of 70% in all ARTH and SART course attempts.

SART*3770 Extended Practices II F,W (3-0) [0.50]
Thematically based projects encourage students to choose the most appropriate medium or combination of media for each assignment. Students may pursue and perfect one medium or take a more interdisciplinary approach (artists multiples, installation, performance, video, alternative venues, relational art or a combination of approaches).
Prerequisite(s): SART*1050, SART*1060, SART*2800
Restriction(s): Registration is limited to students registered in the Art History or Studio Art specializations of the Bachelor of Arts program with an average of 70% in all ARTH and SART course attempts.

SART*3800 Experiential Learning F,W (0-0) [0.50]
An independent study course based on either Studio Art related voluntary or paid practical experience. Evaluation will be based on assignments related to work duties. Written proposals, signed by the instructor, must be submitted to the Director for School for approval by the last day of course selection in the Fall (for Winter) or Winter (for the following Fall).
Prerequisite(s): 3.00 credits in Studio Art
Restriction(s): Registration is limited to students registered in the Art History or Studio Art specializations of the Bachelor of Arts program with an average of 70% in all ARTH and SART course attempts. Instructor consent required.

SART*4090 Drawing III F (0-6) [0.50]
Continuation of the various skills and technical issues necessary to the making of drawings. Observational drawing from the model, still life, natural forms, and interiors will be studied with a view to understanding the language and philosophical implications inherent within drawings of different styles.
Prerequisite(s): SART*3090
Restriction(s): Registration is limited to students registered in the Art History or Studio Art specializations of the Bachelor of Arts program with an average of 70% in all ARTH and SART course attempts.

SART*4100 Drawing IV W (0-6) [0.50]
An advanced drawing course which explores a wider range of graphic experience including abstract, imaginary and other non-representational approaches to graphic discipline in our own time.
Prerequisite(s): SART*4090
Restriction(s): Registration is limited to students registered in the Art History or Studio Art specializations of the Bachelor of Arts program with an average of 70% in all ARTH and SART course attempts.

SART*4200 Painting III F (0-6) [0.50]
A further extension of the work begun in SART*2200 and SART*3200. While the various technical and aesthetic issues will continue to be investigated through the discipline of observational painting there will be more emphasis on the critical issues relevant to contemporary painting and allowance for personal expression through both abstract and representational modes.
Prerequisite(s): SART*3200, SART*3210
Restriction(s): Registration is limited to students registered in the Art History or Studio Art specializations of the Bachelor of Arts program with an average of 70% in all ARTH and SART course attempts.

SART*4210 Painting IV W (0-6) [0.50]
Advanced investigations into the role of observational study and strong emphasis on critical issues of contemporary painting whether representational, abstract, mixed-media, or other.
Prerequisite(s): SART*4200 or SART*4230
Restriction(s): Registration is limited to students registered in the Art History or Studio Art specializations of the Bachelor of Arts program with an average of 70% in all ARTH and SART course attempts.

SART*4230 Special Topics in Painting W (0-6) [0.50]
An advanced course which focuses on a specific theme, subject, or technique in painting. Topics may include the figure and narrative in painting, the landscape in contemporary painting, or New Abstraction.
Prerequisite(s): SART*3200
Restriction(s): Registration is limited to students registered in the Art History or Studio Art specializations of the Bachelor of Arts program with an average of 70% in all ARTH and SART course attempts.

SART*4300 Sculpture III F (0-6) [0.50]
Contemporary issues in sculpture will be addressed through at least 2 studio projects including 1 site-response installation, and an independent work in close consultation with the instructor. Interdisciplinary projects based on the students' own research are strongly encouraged.
Prerequisite(s): SART*3300
Restriction(s): Registration is limited to students registered in the Art History or Studio Art specializations of the Bachelor of Arts program with an average of 70% in all ARTH and SART course attempts.

SART*4310 Sculpture IV F,W (0-6) [0.50]
In close consultation with the instructor, the student will produce a body of independent sculpture with attention to clarity of personal statement, originality, and professionalism. Interdisciplinary projects based on the students' own research are strongly encouraged.
Prerequisite(s): SART*4300
Restriction(s): Registration is limited to students registered in the Art History or Studio Art specializations of the Bachelor of Arts program with an average of 70% in all ARTH and SART course attempts.

SART*4410 Experimental Printmaking F,W (0-6) [0.50]
Further investigations into traditional and photo based printing media. Use of computer graphics to augment the design process.
Prerequisite(s): 3 of SART*2460, SART*2470, SART*3410, SART*3450, SART*3470
Restriction(s): Registration is limited to students registered in the Art History or Studio Art specializations of the Bachelor of Arts program with an average of 70% in all ARTH and SART course attempts.

SART*4450 Advanced Printmaking F,W (0-6) [0.50]
Continuing in-depth investigation into various printmaking media, including the use of computer graphics and advanced manipulation of photo based images to create a thematically coherent portfolio of prints.
Prerequisite(s): SART*4410
Restriction(s): Registration is limited to students registered in the Art History or Studio Art specializations of the Bachelor of Arts program with an average of 70% in all ARTH and SART course attempts.

SART*4660 Topics in Extended Practices F (0-6) [0.50]
For this advanced course, the specific theme, subject, or technique in extended practices will vary according to the instructor or instructors and will consist of topics not otherwise available in the curriculum. Topics may include Performance Art, Installation, Interactive Art, Relational Art, Alternative Venues and Artists Multiples.
Prerequisite(s): SART*3770
Restriction(s): Registration is limited to students registered in the Art History or Studio Art specializations of the Bachelor of Arts program with an average of 70% in all ARTH and SART course attempts.

SART*4670 Topics in Extended Practices F (0-6) [0.50]
For this advanced course, the specific theme, subject, or technique in extended practices will vary according to the instructor or instructors and will consist of topics not otherwise available in the curriculum. Topics may include Performance Art, Installation, Interactive Art, Relational Art, Alternative Venues and Artists Multiples.
Prerequisite(s): SART*3770
Restriction(s): Registration is limited to students registered in the Art History or Studio Art specializations of the Bachelor of Arts program with an average of 70% in all ARTH and SART course attempts.

SART*4700 Photography III F,W (0-6) [0.50]
This course investigates colour photography and continues investigation of the formal, technical and theoretical issues of contemporary photography.
Prerequisite(s): SART*3600 or SART*3750
Restriction(s): Registration is limited to students registered in the Art History or Studio Art specializations of the Bachelor of Arts program with an average of 70% in all ARTH and SART course attempts.
SART*4710 Photography IV F,W (0-6) [0.50]
A continuing investigation of colour photography and advance investigation into contemporary issues, with opportunities for interdisciplinary approaches to photographic practice.
Prerequisite(s): SART*4700
Restriction(s): Registration is limited to students registered in the Art History or Studio Art specializations of the Bachelor of Arts program with an average of 70% in all ARTH and SART course attempts.

SART*4800 Special Topics in Sculpture F,W (0-6) [0.50]
An advanced course which focuses on a specific theme, subject, or technique in sculpture. Subject matter will vary according to the instructor or instructors and will consist of topics not otherwise available in the curriculum. Topics may include, for example, Kinetic Media, Public Art, Mold Making, or Figuration and Installation. Normally, two different topics will be offered each year (see SART*4870).
Prerequisite(s): SART*3300
Restriction(s): Registration is limited to students registered in the Art History or Studio Art specializations of the Bachelor of Arts program with an average of 70% in all ARTH and SART course attempts.

SART*4810 Extended Practices III W (0-6) [0.50]
Contemporary issues in interdisciplinary art production will be addressed through at least two thematic projects and one self-directed work based on the students’ own research in close consultation with the instructor. Students may choose to pursue and perfect one medium, or take a more interdisciplinary approach to art production.
Prerequisite(s): 1 of SART*3770, SART*4660, SART*4670
Restriction(s): Registration is limited to students registered in the Art History or Studio Art specializations of the Bachelor of Arts program with an average of 70% in all ARTH and SART course attempts.

SART*4820 Extended Practices IV W (0-6) [0.50]
In close consultation with the instructor, students produce two self-directed projects based on their own research. Presentations, grant writing and composing artist statements will provide students the opportunity to develop personal conviction and a professional approach in preparation to graduate.
Prerequisite(s): 1 of SART*4660, SART*4670, SART*4810
Restriction(s): Registration is limited to students registered in the Art History or Studio Art specializations of the Bachelor of Arts program with an average of 70% in all ARTH and SART course attempts.

SART*4830 Interactive Multimedia W (0-6) [0.50]
An in-depth study of two-dimensional interactive multimedia using professional authoring software. Students will design and create multimedia presentations which explore a contemporary issue in their art practice.
Prerequisite(s): SART*3480
Restriction(s): Registration is limited to students registered in the Art History or Studio Art specializations of the Bachelor of Arts program with an average of 70% in all ARTH and SART course attempts.

SART*4850 Specialized Studio Practice I F (0-6) [0.50]
An advanced and specialized workshop in individually selected studio practices which affords opportunities for interdisciplinary approaches and oversees the development of independent study strategies. Students will research and complete a major self-directed project. Not intended for all Honours students. Recommended to assist in the preparation of application to graduate school.
Prerequisite(s): A minimum of 2 courses at the 4000-level in Studio Arts, a minimum cumulative average of at least 80% in Studio Arts (SART) courses and Art History (ARTH) courses.
Restriction(s): Permission of the Instructor or Director of the School.

SART*4860 Specialized Studio Practice II W (0-6) [0.50]
Continuation of SART*4850.
Prerequisite(s): A minimum of 2 courses at the 4000-level in Studio Arts, a minimum cumulative average of at least 80% in Studio Arts (SART) courses and Art History (ARTH) courses.
Restriction(s): Permission of the Instructor or Director of the School.

SART*4870 Special Topics in Sculpture F,W (0-6) [0.50]
An advanced course which focuses on a specific theme, subject, or technique in sculpture. Subject matter will vary according to the instructor or instructors and will consist of topics not otherwise available in the curriculum. Topics may include, for example, Kinetic Media, Public Art, Mold Making, or Figuration and Installation. Normally, two different topics will be offered each year (see SART*4800).
Prerequisite(s): SART*3300
Restriction(s): Registration is limited to students registered in the Art History or Studio Art specializations of the Bachelor of Arts program with an average of 70% in all ARTH and SART course attempts.

For times and dates of auditions and interviews, students should consult the School. All students applying for entry to these courses must obtain the signature of the Theatre Studies Program advisor or the Director, who will admit students only after consultation with the instructor.

The Theatre Studies program has a particular interest in the drama and theatre of Canada. Course offerings will reflect this concentration where appropriate.

THST*1040 Introduction to Theatre Studies F,W (3-0) [0.50]
This course introduces students to the disciplines and subject areas that constitute Theatre Studies at the university level, including the work of playwrights, directors, designers, actors and technicians in creating productions, and the scholarly study of theatrical history, theory and dramatic literature. Attendance at a number of performances is required, since these performances are among the "texts" for the course.

Equate(s): DRMA*1000

THST*1150 Seminar in Theatre Studies W (3-0) [0.50]
A focused study of a selected topic in a small-group learning experience. Students will be introduced to research methodologies and offered opportunities to strengthen their writing and speaking skills. Variable course content. Consult the School’s website for current topics.

Restriction(s): Restricted to students who are declared majors in Theatre Studies.

THST*1200 The Languages of Media F (3-2) [0.50]
This introductory course examines film, radio, television, and digital media, focusing on the codes and conventions used by different media to create relationships between structure and content, to make meaning.

THST*2010 Theatre Historical Studies F (3-0) [0.50]
This course will introduce students to the historical study of theatre by surveying developments in Western theatre from the classical period to twentieth-century modernism. Building on the historicity of Western theatre, the course also considers the historical conditions that have produced contemporary theatre practice in Canada.

Prerequisite(s): THST*1040
Equate(s): DRMA*3180
Restriction(s): DRMA*2300

THST*2080 Acting I F,W (2-3) [0.50]
A studio course for drama students applying classroom theory to acting problems. The course is required of, but not restricted to, students in a drama specialization.

Prerequisite(s): THST*1040
Equate(s): DRMA*2080

THST*2120 Dramaturgy and Playwriting W (3-0) [0.50]
Students will study how plays are made. The course includes analysis of theatrical texts and exercises in scripting.

Prerequisite(s): THST*1040
Equate(s): DRMA*1050

THST*2230 Intro to Technical Theatre F,W (2-3) [0.50]
An introduction to the theory and practice of theatrical production, including sets, costumes, lighting, sound, props and technical drawing. Students are expected to serve on technical crews on some evenings and weekends during School productions.

Prerequisite(s): DRMA*1000 or THST*1040
Equate(s): DRMA*2220

THST*2240 Introduction to Theatre Design W (2-3) [0.50]
Students will be introduced to theories, techniques and materials in five areas of theatrical design: sets, props, lighting, sound, and costume. The course also considers the history of design for the theatre, attending to the relationship between design and other forms of cultural expression.

Prerequisite(s): DRMA*1000 or THST*1040

THST*2450 Approaches to Media Studies W (3-0) [0.50]
This course examines major approaches to the study of communication, including cybernetic, anthropological, semiotic and other perspectives, focusing on how people transmit information and construct meaning.

Prerequisite(s): THST*1200

THST*2500 Contemporary Cinema W (3-3) [0.50]
The course is designed to give the student knowledge and understanding of contemporary cinematic expression.

Equate(s): DRMA*2500

THST*2650 History of Communication F (3-0) [0.50]
This course is organized around several revolutions in communication and technology: the evolution of human language; the development of writing systems and literacy; the invention and spread of printing and typography; and the beginnings of electronic communication and the digital revolution.

Prerequisite(s): THST*1200

THST*3030 Theatre for Young Audiences U (2-2) [0.50]
This is a studio course addressing selected topics dealing with theatrical practice for children and/or adolescents such as: creating theatre for young audiences; theatre as an instructional tool; teaching theatre to children; theatre games and play.

Prerequisite(s): 10 credits
Equate(s): DRMA*2400
Restriction(s): Students must be enrolled as a Major or Minor or area of concentration in Theatre Studies or B.A.Sc. Child, Youth and Family.

THST*3080 Acting Studio F,W (2-3) [0.50]
A studio course in acting that will address particular issues and techniques, and may conclude with a small-scale production.

Prerequisite(s): THST*2080
Equate(s): DRMA*3080

THST*3110 Acting II F,W (2-3) [0.50]
A continuation of THST*2080. Students will perform in a public production. Admission is by audition only.

Prerequisite(s): THST*2080
Equate(s): DRMA*3110
Restriction(s): Instructor consent required.

THST*3120 Acting III F,W (2-3) [0.50]
A continuation of THST*3110. Students will perform in a public production. Admission is by audition only.

Prerequisite(s): THST*3110
Equate(s): DRMA*3120
Restriction(s): Instructor consent required.

THST*3220 Technical Production I F,W (2-3) [0.50]
This course offers students advanced engagement with the theory and application of theatrical crafts, and includes work in a technical capacity on a School production.

Prerequisite(s): DRMA*2220 or THST*2230
Equate(s): DRMA*3220

THST*3230 Technical Production II F,W (2-3) [0.50]
A continuation of THST*3220, focusing on the theory and application of theatrical crafts, and including work in a technical capacity on a School production. Students will normally work in different capacities in THST*3220 and THST*3230.

Prerequisite(s): THST*3220
Equate(s): DRMA*3230

THST*3240 Theatrical Organization F (3-0) [0.50]
A study of various models of theatrical organization such as theatrical funding, board and management structures, production management, technical direction, and stage management, together with their implications for theatrical production and interpretation.

Prerequisite(s): THST*2010, THST*2080, THST*2120
Equate(s): DRMA*3240
THST*3280 Theatrical Space W (3-0) [0.50]
This course is a study of theatrical space as it shapes performance, reception, social value and cultural meanings. It explores the nature of performance spaces and the relationship between performer and audience, and considers theoretical approaches to the problem of theatrical space, including analyses of cultural location, aesthetic spatiality, public space and kinaesthetic space. The course offers an historical overview of various theatre and non-theatre venues for performance from the perspectives of actors, directors, designers, technicians and audiences. (Offered in even-numbered years.)
Prerequisite(s): THST*2240

THST*3300 Sexuality and The Stage F (3-0) [0.50]
This course focuses on issues relating to the staging of sexuality. The course will theorize and historicize the representation of sexual diversity. Variable content course. Topics may include, for example, the theatrical staging of gays, lesbians, bisexuals, and transgendered people; queer theatre; and the privileging of heterosexuality on the stage. (Offered in even-numbered years.)
Prerequisite(s): (THST*2010 or THST*2120) or 1.50 credits in English
Equate(s): DRMA*3300

THST*3320 Applied Criticism of Drama and Theatre F (3-0) [0.50]
This course is designed to engage students in critical practice as applied to theatrical production.
Prerequisite(s): (DRMA*1050 or THST*2120), (1 of THST*2080, THST*2010, THST*2300)
Equate(s): DRMA*3320

THST*3360 Political Intervention Theatre W (3-0) [0.50]
This course examines major theories, practices and textualities of radical theatre interventions in politics in the twentieth- and twenty-first centuries. It traces the historical development and genealogies of interventionist processes, with particular attention to the transnational circulation of practices and methods. (Offered in even-numbered years.) (First offering is Winter 2008.)
Prerequisite(s): (THST*2010, THST*2120) or 1.50 credits in English

THST*3410 Special Studies in Production I F,W (2-3) [0.50]
Students will serve in such capacities as stage managers, assistant stage managers, assistant directors, assistant designers, dramaturges, producers, or publicists on School productions, and will study the functions of these roles in theatrical production. Admission is by application to the School.
Prerequisite(s): THST*3220, (1 of THST*2120, THST*3240, THST*3430, THST*3460, THST*3480, THST*3700)
Equate(s): DRMA*3410
Restriction(s): Instructor consent required.

THST*3420 Special Studies in Production II F,W (2-3) [0.50]
A continuation of THST*3410. Students will normally work in different capacities in THST*3410 and THST*3420. Admission is by application to the School.
Prerequisite(s): THST*3410
Equate(s): DRMA*3420
Restriction(s): Instructor consent required.

THST*3430 Theatrical Design: Sets and Props F (2-3) [0.50]
A study of the history, theory, and practice of theatrical design, with focus on the principles of set and prop design.
Prerequisite(s): DRMA*2220 or (THST*2230, THST*2240)
Equate(s): DRMA*3430

THST*3460 Costume W (2-3) [0.50]
This course studies the art of costume design for the theatre, placing the discipline in historical and theoretical contexts while exploring the practice and art of costume design. The course covers the techniques, materials and language necessary to the costume designer's craft and role in the production of a work of theatre. At the instructor's discretion, the course may include the design of mask, makeup, wigs and accessories. (Offered in odd-numbered years.)
Prerequisite(s): THST*2230, THST*2240
Restriction(s): DRMA*3440

THST*3480 Lighting, Sound, Theatre Media F (2-3) [0.50]
The course studies theatrical lighting, sound, and media from the perspective of the designer. Through a combination of class instruction, demonstration and practical lab projects, the student will follow the process for the design of light, sound and media (theory and practice), from the first reading of a script through all of the stages that lead to the creation of a design. Special attention is given to analyzing scripts for visual and aural images. (Offered in even-numbered years.)
Prerequisite(s): THST*2230, THST*2240
Restriction(s): DRMA*3440

THST*3530 Canadian Film W (2-3) [0.50]
This course is designed to give the student knowledge and understanding of Canadian film and film makers.
Prerequisite(s): THST*1200 or DRMA*1500
Equate(s): DRMA*3530

THST*3540 World Theatre Cultures U (3-0) [0.50]
This course presents a focused study of theatrical traditions and dramatic practices (largely) outside European traditions. Variable content course. Consult the School's website for current topics.
Prerequisite(s): (THST*2010, THST*2120) or 1.50 credits in English

THST*3550 Theories of Drama and Theatre W (3-0) [0.50]
A study of selected theoretical approaches to the study of drama and theatre.
Prerequisite(s): THST*2010 or DRMA*2300, THST*2120
Equate(s): DRMA*3550

THST*3600 Directed Readings and Special Independent Studies U (3-0) [0.50]
Independent study based upon bibliographies established in consultation with the instructor. An essay will normally constitute the written requirement for the course. Tutoring and/or consultation will be arranged, depending on the topic or materials for study. Special studies may also be arranged in the practical aspects of the theatre, with appropriate assignments, not leading to a production. Projects for this course are subject to the approval of the School, and must be submitted to the Director, on forms provided by the School, no later than the last day of classes in the semester prior to enrolment in the course.
Prerequisite(s): 3.00 credits in Theatre Studies including (DRMA*1050 or THST*2120), (DRMA*2300 or THST*2010)
Equate(s): DRMA*3600
Restriction(s): Instructor consent required.

THST*3620 Special Studies Seminar F (3-0) [0.50]
A seminar course that provides for intensive study of a specific aspect of drama and/or theatre.
Prerequisite(s): 3.00 credits in Theatre Studies.
Equate(s): DRMA*3620
Restriction(s): Instructor consent required.

THST*3630 Special Studies in Studio Practice U (3-0) [0.50]
The course provides an intensive exploration of one aspect of studio practice: playwriting, acting, design or technical theatre.
Prerequisite(s): 3.00 credits in Theatre Studies including one of the following, as appropriate to the topic of the course: THST*2080, THST*2120, THST*2230, THST*2240.
Equate(s): DRMA*3630
Restriction(s): Instructor consent required.

THST*3650 Theatre Historical Studies Seminar F (3-0) [0.50]
This seminar course investigates a topic in theatre history. The course will further develop students' research skills and expertise in writing and speaking about scholarly materials in the discipline. Variable content course. Consult the School's website for current topics.
Prerequisite(s): (THST*2010, THST*2120) or DRMA*2300
Equate(s): DRMA*4300

THST*3660 Dramatic Literature and Theory Seminar W (3-0) [0.50]
This seminar course investigates an area of dramatic literature. The course will develop students' research skills and writing and speaking about scholarly materials in the discipline. Variable content course. Consult the School's website for current topics.
Prerequisite(s): (THST*2010, THST*2120) or DRMA*2300

THST*3700 Fundamentals of Directing W (2-3) [0.50]
A study of the basic theories of directing, complemented by practical in-class directing exercises.
Prerequisite(s): (DRMA*1050 or THST*2120), THST*2080, THST*2240
Equate(s): DRMA*3700

THST*3850 Canadian Drama and Theatre F (3-0) [0.50]
A study of Canadian plays in their historical, cultural, and theatrical contexts.
Prerequisite(s): DRMA*2300 or any 2000 level literature course
Equate(s): DRMA*3850
Restriction(s): DRMA*3331/2

Students entering the D.V.M. Program prior to Fall 2000 should refer to the undergraduate calendar for their year of program entry for appropriate course listings.

The hours in courses below indicate the approximate equivalent number of semester course hours.

These courses will be available only to students registered in the D.V.M. program.

**VETM*3000 Veterinary Biochemistry P1 (2-1) [0.50]**
This course integrates the biochemistry of the healthy animal with a study of some abnormalities in metabolic pathways. The emphasis is on understanding the physiological and biochemical mechanisms and regulatory processes within cells, tissues and organs, as a basis for later courses on diseases. Department of Biomedical Sciences.

*Co-requisite(s):* All Phase 1 courses.

**VETM*3070 Veterinary Anatomy P1 (2-6) [2.00]**
An introduction to comparative, topographical anatomy, primarily of 4 domestic mammals: cat, dog, horse and cow. Full dissections of these species are related to the living animal and to imaging, to form the basis for future studies in clinical morphology. Students are first introduced to the major anatomical systems and then to the regions in detail: thorax, abdomen, pelvis and perineum, limbs, and head and neck. Active learning, problem solving, communication skills and the integration of material across concurrent courses are fostered. Department of Biomedical Sciences.

*Co-requisite(s):* All Phase 1 courses.

**VETM*3080 Veterinary Physiology P1 (3-3) [1.50]**
The course describes the physiological processes carried out by the major tissues and organ systems, and the regulatory mechanisms that affect tissue and organ function. Topics dealt with in the course include the following: the cellular and chemical constituents of blood, blood coagulation and haemostasis, the function of the immune system, resistance to infectious agents and the principles of immunoprophylaxis, cardiac function, cardiovascular haemodynamics, blood pressure, peripheral and regional circulation of blood, the lymph circulation, the structure and function of the mammalian nervous system and organs associated with special senses, the functions of the digestive tract, lungs and kidney thermoregulation and water, electrolyte and acid-base balance. The homostatic features and species variation of the tissue organ systems will be emphasized. Departments of Biomedical Sciences and Pathobiology.

*Co-requisite(s):* All Phase 1 courses.

**VETM*3120 Veterinary Histology P1 (3-3) [0.75]**
A lecture and laboratory course emphasizing the microscopic organization of the tissues and organs of domestic animals in various physiological states. Correlations between morphology and function of various cells and tissues comprising the organ systems will be discussed. Department of Biomedical Sciences.

*Co-requisite(s):* All Phase 1 courses.

**VETM*3210 Art of Veterinary Medicine I P1 (V-V) [0.50]**
In a series of integrated modules, this course will assist students in increasing their self-awareness and comprehension of a range of legal, professional and ethical values and behaviours that are essential and normal components of veterinary medicine. Emphasis will be placed on understanding, evaluating and improving interpersonal relations and oral and written communication skills. The ethical principles that underlie veterinary medicine will be explored in depth. The course will also assist students in understanding their position in the developing history of veterinary medicine and inform them of emerging trends. Issues related to professional development, how other species interact with humans, and the client/patient/veterinarian triad will be introduced. The application of these learned skills in the resolution of problems will be introduced. OVC Dean's Office, Department of Population Medicine and the Veterinary Teaching Hospital.

*Co-requisite(s):* All Phase 1 courses.

**VETM*3220 Art of Veterinary Medicine II P2 (2-0) [0.50]**
Using modules, this course will build on, and enhance, the knowledge base and skill set acquired in Phase I in the area of communications, human-animal interactions, professional development, and the client/patient/veterinarian triad. The focus in these areas will now move towards recognising difficulties that may arise and how to differentiate abnormal situations from normal ones. Problem-solving, conflict resolution and stress management through application of innate and acquired knowledge and skills will be developed. In addition, the course will introduce concepts of business and entrepreneurial skills which are required for successful veterinary practice. OVC Dean's Office, Department of Population Medicine and the Veterinary Teaching Hospital.

*Prerequisite(s):* VETM*3210

*Co-requisite(s):* All Phase 2 courses.

**VETM*3390 Veterinary Medical Genetics P1 (1-1) [0.50]**
The course deals with the genetic basis of disease and birth defects in general and the salient features and inheritance patterns of the common birth defects, metabolic errors and reproductive problems in domestic animals. Department of Biomedical Sciences.

*Co-requisite(s):* All Phase 1 courses.

**VETM*3400 Health Management I P1 (3-1) [0.75]**
The course is the first of two comprehensive and integrated courses that will span the first two phases of the DVM program. Both courses are intended to establish the foundation for, and contribute to the students’ achievement of selected DVM 2000 elements of competency in the context of the principles of health management. This primary emphasis of this component is to establish the historical perspective and basic tools required for health promotion and disease prevention. Department of Population Medicine.

*Co-requisite(s):* All Phase 1 courses.

**VETM*3410 Health Management II P2 (3-0) [0.75]**
This course is a continuation of the Phase 1 course Health Management I. Previously presented concepts will be explored in greater depth and complexity. Additional emphasis will be placed on relevant epidemiological tools for monitoring, outbreak investigation, critical appraisal and the applications of principles from the previous course in the series to measure performance, including relevant production genetics, and animal behaviour in a species/industry context. Department of Population Medicine.

*Prerequisite(s):* All Phase 1 courses.

*Co-requisite(s):* All Phase 2 courses.

**VETM*3430 Clinical Medicine I P1 (V-V) [0.25]**
The course will contribute to students’ achievement of selected DVM 2000 elements of competency in the areas of animal handling and the clinical examination of various species. Students will become familiar with the expected variation in common clinical parameters and how this variation is impacted by aging, changes in health status, and external environmental influences and other sources of stress. Students will be introduced to clinical problem solving using case material from the Veterinary Teaching Hospital. They will develop their verbal and written communication skills through case simulations and analyses. The course will be presented using lectures, laboratory classes and independent study. The graduating competencies can be found on the OVC website (http://www.ovcnet.uoguelph.ca/homepage/html). Department of Clinical Studies.

*Co-requisite(s):* All Phase 1 courses.

**VETM*3440 Clinical Medicine II P2 (0-2) [0.50]**
The course is a continuation of Clinical Medicine I. It will contribute to students’ achievement of selected elements of graduating competency in the areas of clinical examination of specific organ systems of various species. Students will enhance and refine their clinical problem solving skills using case material from the Veterinary Teaching Hospital. They will continue to develop their verbal and written communication skills through case simulations and analyses. The course will be presented using lectures, laboratory classes and independent study. The graduating competencies can be found on the OVC website (http://www.ovcnet.uoguelph.ca/homepage/html). Department of Clinical Studies.

*Prerequisite(s):* All Phase 1 courses.

*Co-requisite(s):* All Phase 2 courses.

**VETM*3450 Principles of Disease in Veterinary Medicine P2 (V-V) [2.75]**
This course addresses several major topics, including principles of disease induction and transmission, host response to threat and injury, pathogenetic mechanisms of infectious and toxic agents, and manipulation of disturbances in health. The interaction among host, environmental, and etiologic factors in the development of disease will be highlighted. Students will learn to recognize, describe, and evaluate disturbances of health and homeostasis at the level of the population, individual animal, organ system, tissue and cell using a variety of diagnostic modalities. Departments of Biomedical Sciences and Pathobiology.

*Prerequisite(s):* All Phase 1 courses.

*Co-requisite(s):* All Phase 2 courses.
VETM*3460 Theriogenology P2 (V-V) [0.75]
A lecture and laboratory course covering the normal and abnormal reproductive systems of domestic animals. The course will include mammalian reproductive physiology and histology, diagnosis and treatment of reproductive disorders, including infertility, and management of breeding programs of the common domestic species. An introduction to the new reproductive technologies used in theriogenology will also be provided. Departments of Biomedical Sciences, Pathobiology and Population Medicine.
Prerequisite(s): All Phase 1 courses.
Co-requisite(s): All Phase 2 courses.

VETM*3470 Anaesthesiology and Pharmacology P2 (V-V) [0.75]
This course provides the general principles, pharmacologic basis, and practical applications of general and local anaesthesia in small and large animals. Other topics covered include fluid and acid-base imbalance and the prevention and treatment of surgical shock. Departments of Biomedical Sciences and Clinical Studies.
Prerequisite(s): All Phase 1 courses.
Co-requisite(s): All Phase 2 courses.

VETM*3480 Phase 2: Special Topics P2 (V-V) [0.50]
This course provides opportunities for students to enrich their educational experience, in depth and/or breadth, beyond the core competency requirements of DVM 2000. This course is constructed of a series of topic-based modules related to the core teaching in Phase 2. Students will be required to take at least two of these modules. Departments of Biomedical Sciences, Clinical Studies, Pathobiology and Population Medicine.
Prerequisite(s): All Phase 1 courses.
Co-requisite(s): All Phase 2 courses.

VETM*3510 Principles of Surgery P2 (2-0) [0.25]
The principles of surgery in various animal species are given. The lecture topics include patient and surgeon preparation, tissue handling instrumentation, suturing and surgical principles and approaches to various organ systems and anatomical regions. Department of Clinical Studies.
Prerequisite(s): All Phase 1 courses.
Co-requisite(s): All Phase 2 courses.

VETM*4220 Art of Veterinary Medicine III P3 (2-0) [0.50]
This modular course will require students to apply the knowledge and skills acquired in Phases 1 and 2 to problems that incorporate aspects of one or more of the following areas: communications and conflict resolution, ethics, professional behaviour, human-animal interactions, analysis and planning, and business issues. This course will focus on methods to resolve difficulties in the above areas that are interfering with intrapersonal and interpersonal relationships and with how to return abnormal situations to normal ones. Problem-solving, conflict resolution and stress management through application of innate and acquired knowledge and skills will be expected. The course will be taught primarily through case analysis, OVC Dean's Office, Department of Population Medicine, Veterinary Teaching Hospital.
Prerequisite(s): All Phase 2 courses.
Co-requisite(s): All Phase 3 courses.

VETM*4420 Clinical Pharmacology P3 (V-V) [0.25]
This course stresses rational drug therapy through an understanding of drug factors, host factors and disease factors, with emphasis on clinically relevant properties of selected major drug classes and used for therapy (prevention and treatment) in small animals, food animals, and horses.
Prerequisite(s): All Phase 2 courses.
Co-requisite(s): All Phase 3 courses.
Restriction(s): Registration in the D.V.M. Program

VETM*4450 Equine Medicine and Surgery P3 (3-0) [0.50]
The course will contribute to students' achievement of selected DVM 2000 elements of competency in the context of the horse. The primary emphasis is directed towards developing the skills, knowledge and attitudes that will permit the entry-level veterinarian to develop strategies to deal with common and uncommon diagnoses. Department of Clinical Studies.
Prerequisite(s): All Phase 2 courses.
Co-requisite(s): All Phase 3 courses.

VETM*4440 Food Animal Medicine and Surgery P3 (V-V) [1.00]
The course will contribute to students' achievement of selected DVM 2000 elements of competency in the context of the common ruminant species and swine. The primary emphasis is directed towards developing the skills, knowledge and attitudes that will permit the entry-level veterinarian to develop strategies to deal with common and uncommon diagnoses. The graduating competencies can be found on the OVC website (http://www.ovcnet.uoguelph.ca/homepage/html). Departments of Clinical Studies and Population Medicine.
Prerequisite(s): All Phase 2 courses.
Co-requisite(s): All Phase 3 courses.

VETM*4470 Medicine and Surgery of Dog and Cat P3 (V-V) [1.00]
The course will contribute to students' achievement of selected DVM 2000 elements of competency in the context of the dog and cat. The primary emphasis is directed towards developing the skills, knowledge and attitudes that will permit the entry-level veterinarian to develop strategies to deal with common and uncommon diagnoses. The graduating competencies can be found on the OVC website (http://www.ovcnet.uoguelph.ca/homepage/html). Department of Pathobiology.
Prerequisite(s): All Phase 2 courses.
Co-requisite(s): All Phase 3 courses.

VETM*4480 Comparative Medicine P3 (V-V) [0.75]
The course will contribute to students' achievement of selected elements of grading competency in the context of the dog, cat and non-domestic species (fish, amphibians, reptiles, rodents, ferrets, non-domestic carnivores and non-domestic ungulates). The primary emphasis is directed towards enhancing the skills, knowledge and attitudes that will permit the entry-level veterinarian to carry out the post-mortem examinations, select and perform relevant ancillary diagnostic tests and procedures, interpret findings, and initiate and interpret results of further investigations. The graduating competencies can be found on the OVC website (http://www.ovcnet.uoguelph.ca/homepage/html). Department of Population Medicine.
Prerequisite(s): All Phase 2 courses.
Co-requisite(s): All Phase 3 courses.

VETM*4490 Systems Pathology P3 (V-V) [1.00]
The course will contribute to students' achievement of selected elements of grading competency in the context of pathology across the range of species. The primary emphasis is directed towards developing the skills, knowledge and attitudes that will permit the entry-level veterinarian to carry out the post-mortem examinations, select and perform relevant ancillary diagnostic tests and procedures, interpret findings, and initiate and interpret results of further investigations. The graduating competencies can be found on the OVC website (http://www.ovcnet.uoguelph.ca/homepage/html). Department of Pathobiology.
Prerequisite(s): All Phase 2 courses.
Co-requisite(s): All Phase 3 courses.

VETM*4530 Health Management III P3 (V-V) [0.50]
The course will contribute to students' achievement of greater depth in selected elements of grading competency in the context of health management in species of their choice. The primary emphasis is directed towards developing species-specific skills, knowledge and attitudes that will permit the entry-level veterinarian to assess and advise on animal production and performance and evaluate the necessity for, and implementation of, health management programs. The course is constructed of a series of species-based modules. Students will be required to take two of the modules. The graduating competencies can be found on the OVC website (http://www.ovcnet.uoguelph.ca/homepage/html). Department of Population Medicine.
Prerequisite(s): All Phase 2 courses.
Co-requisite(s): All Phase 3 courses.

VETM*4540 Surgical Exercises P3 (V-V) [1.75]
Veterinary students receive training in preoperative planning, anaesthesia and surgical techniques, operative room decision making and post-operative care in this laboratory course. Students begin by practicing technical skills on inanimate models. They progress to performing a series of supervised operations designed to parallel the most commonly performed surgeries in private practice. A once weekly rounds period allows discussion of issues arising from the previous anaesthesia and surgery, and planning for the upcoming laboratory. Though some didactic material is presented, the course is mainly experiential. The evaluation outcome of the course is outstanding, pass or fail. Department of Clinical Studies.
Prerequisite(s): All Phase 2 courses.
Co-requisite(s): All Phase 3 courses.
Restriction(s): Registration in the D.V.M. Program
**VETM*4610 Small Animal Clinics - Small Animal Stream P4 (V-V) [3.25]**

This course is for students who have selected the Small Animal Stream in Phase 4 of the DVM Program. The goal of the small animal clinics course is to assist in the role transformation from veterinary student to veterinary practitioner. The course is largely experiential in structure and process. Small groups of students will rotate through various service areas, and actively participate in the diagnosis and treatment of client-owned animals in the teaching hospital. Regularly scheduled small group discussions allow the exploration of issues during diagnosis and management of the individual cases.

**Prerequisite(s):** All Phase 3 courses.
**Co-requisite(s):** VETM*4620, VETM*4880, VETM*4900
**Restriction(s):** Registration in the DVM program.

**VETM*4620 Health Management - Small Animal Stream P4 (V-V) [1.00]**

This course is for students who have selected the Small Animal Stream in Phase 4 of the DVM Program. The goal of the health management course is to assist in the role transformation from veterinary student to veterinary practitioner. The course is largely experiential in structure and process. Small groups of students will participate in a series of rotations that emphasize the implementation of veterinary directed management programs, which affect the health of animals and ultimately humans.

**Prerequisite(s):** All Phase 3 courses.
**Co-requisite(s):** VETM*4610, VETM*4880, VETM*4900
**Restriction(s):** Registration in the DVM program.

**VETM*4660 Small Animal Clinics - Mixed Stream P4 (V-V) [2.00]**

This course is for students who have selected the Mixed Stream in Phase 4 of the DVM Program. The goal of the small animal clinics course is to assist in the role transformation from veterinary student to veterinary practitioner. The course is largely experiential in structure and process. Small groups of students will rotate through various service areas, and actively participate in the diagnosis and treatment of client-owned animals in the teaching hospital. Regularly scheduled small group discussions allow the exploration of issues during diagnosis and management of the individual cases.

**Prerequisite(s):** All Phase 3 courses.
**Co-requisite(s):** VETM*4670, VETM*4860, VETM*4890, VETM*4900
**Restriction(s):** Registration in the DVM program.

**VETM*4670 Large Animal Clinics - Mixed Stream P4 (V-V) [1.50]**

This course is for students who have selected the Mixed Stream in Phase 4 of the DVM Program. The goal of the large animal clinics course is to assist in the role transformation from veterinary student to veterinary practitioner. The course is largely experiential in structure and process. Small groups of students will rotate through various service areas, and actively participate in the diagnosis and treatment of client-owned animals in the teaching hospital. Regularly scheduled small group discussions allow the exploration of issues during diagnosis and management of the individual cases.

**Prerequisite(s):** All Phase 3 courses.
**Co-requisite(s):** VETM*4660, VETM*4680, VETM*4890, VETM*4900
**Restriction(s):** Registration in the DVM program.

**VETM*4680 Health Management - Mixed Stream P4 (V-V) [2.00]**

This course is for students who have selected the Mixed Stream in Phase 4 of the DVM Program. The goal of the health management course is to assist in the role transformation from veterinary student to veterinary practitioner. The course is largely experiential in structure and process. Small groups of students will participate in a series of rotations that emphasize the implementation of veterinary directed management programs, which affect the health of animals and ultimately humans.

**Prerequisite(s):** All Phase 3 courses.
**Co-requisite(s):** VETM*4660, VETM*4670, VETM*4890, VETM*4900
**Restriction(s):** Registration in the DVM program.

**VETM*4710 Large Animal Clinics - Food Animal Stream P4 (V-V) [1.00]**

This course is for students who have selected the Food Animal Stream in Phase 4 of the DVM Program. The goal of the large animal clinics course is to assist in the role transformation from veterinary student to veterinary practitioner. The course is largely experiential in structure and process. Small groups of students will rotate through various service areas, and actively participate in the diagnosis and treatment of client-owned animals in the teaching hospital. Regularly scheduled small group discussions allow the exploration of issues during diagnosis and management of the individual cases.

**Prerequisite(s):** All Phase 3 courses.
**Co-requisite(s):** VETM*4720, VETM*4880, VETM*4900
**Restriction(s):** Registration in the DVM program.

**VETM*4720 Health Management - Food Animal Stream P4 (V-V) [3.25]**

This course is for students who have selected the Food Animal Stream in Phase 4 of the DVM Program. The goal of the health management course is to assist in the role transformation from veterinary student to veterinary practitioner. The course is largely experiential in structure and process. Small groups of students will participate in a series of rotations that emphasize the implementation of veterinary directed management programs, which affect the health of animals and ultimately humans.

**Prerequisite(s):** All Phase 3 courses.
**Co-requisite(s):** VETM*4710, VETM*4880, VETM*4900
**Restriction(s):** Registration in the DVM program.

**VETM*4870 Clinical Medicine III P3 (0-2) [0.25]**

This course will contribute to students' achievement of selected DVM 2000 elements of competency in the context of the hospital environment. This is an integrated course in which students will enhance a variety of clinical skills, including physical examination, history taking, problem solving, and ancillary diagnostic tests and procedures. This course is primarily carried out in the Veterinary Teaching Hospital where students will be exposed to case material from the Large and Small Animal Clinics. The emphasis is directed towards enhancing the skills, knowledge and attitudes that will permit the student to maximize the benefit to be derived from senior year courses. Department of Clinical Studies.

**Prerequisite(s):** All Phase 2 courses.
**Co-requisite(s):** All Phase 3 courses.

**VETM*4880 Electives in Veterinary Medicine I P4 (V-V) [3.25]**

This course is for students who have selected the Small Animal Stream in Phase 4 of the DVM Program. The goal of this course is to provide students the opportunity to pursue greater breadth and depth in their program according to their interests. The course is largely experiential in structure and process. Students will select a series of approved internal and external rotations that will allow them to pursue areas of interest in veterinary medicine.

**Prerequisite(s):** All Phase 3 courses.
**Co-requisite(s):** (VETM*4610 or VETM*4710), (VETM*4620 or VETM*4720), VETM*4900
**Restriction(s):** Registration in the DVM program.

**VETM*4890 Electives in Veterinary Medicine II P4 (V-V) [2.00]**

This course is for students who have selected the Mixed or Equine Stream in Phase 4 of the DVM Program. The goal of this course is to provide students the opportunity to pursue greater breadth and depth in their program according to their interests. The course is largely experiential in structure and process. Students will select a series of approved internal and external rotations that will allow them to pursue areas of interest in veterinary medicine.

**Prerequisite(s):** All Phase 3 courses.
**Co-requisite(s):** (VETM*4660 or VETM*4920), (VETM*4670 or VETM*4930), (VETM*4680 or VETM*4940) VETM*4900
**Restriction(s):** Registration in the DVM program.

**VETM*4900 Veterinary Externship P4 (0-0) [2.50]**

This is an eight-week experiential learning opportunity that junior students in the DVM Program must organize by the mid-way through Phase 3. The externship must be in approved private, primary care, veterinary practice. Senior students in the DVM Program, under the supervision of a designated host veterinarian, will experience being part of a team providing health care services to the public. This course will provide students with the opportunity to integrate and apply their knowledge and experience from previous courses, and further refine their problem-solving and communication skills, and enhance their ability to work as part of a team. The evaluation outcome of this course is outstanding, pass or fail. Coordinated by the Department of Clinical Studies.

**Prerequisite(s):** All Phase 1, Phase 2 and Phase 3 courses.

**VETM*4920 Small Animal Clinics - Equine Stream P4 (V-V) [1.50]**

This course is for students who have selected the Equine Stream in Phase 4 of the DVM Program. The goal of the small animal clinics course is to assist in the role transformation from veterinary student to veterinary practitioner. The course is largely experiential in structure and process. Small groups of students will rotate through various service areas, and actively participate in the diagnosis and treatment of client-owned animals in the teaching hospital. Regularly scheduled small group discussions allow the exploration of issues during diagnosis and management of the individual cases.

**Prerequisite(s):** All Phase 3 courses.
**Co-requisite(s):** VETM*4890, VETM*4900, VETM*4930, VETM*4940
**Restriction(s):** Registration in the DVM program.
**VETM*4930 Large Animal Clinics - Equine Stream P4 (V-V) [2.50]**

This course is for students who have selected the Equine Stream in Phase 4 of the DVM Program. The goal of the large animal clinics course is to assist in the role transformation from veterinary student to veterinary practitioner. The course is largely experiential in structure and process. Small groups of students will rotate through various service areas, and actively participate in the diagnosis and treatment of client-owned animals in the teaching hospital. Regularly scheduled small group discussions allow the exploration of issues during diagnosis and management of the individual cases.

**Prerequisite(s):** All Phase 3 courses.

**Co-requisite(s):** VETM*4890, VETM*4900, VETM*4920, VETM*4940

**Restriction(s):** Registration in the DVM program.

**VETM*4940 Health Management - Equine Stream P4 (V-V) [1.50]**

This course is for students who have selected the Equine Stream in Phase 4 of the DVM Program. The goal of the health management course is to assist in the role transformation from veterinary student to veterinary practitioner. The course is largely experiential in structure and process. Small groups of students will participate in a series of rotations that emphasize the implementation of veterinary directed management programs, which affect the health of animals and ultimately humans.

**Prerequisite(s):** All Phase 3 courses.

**Co-requisite(s):** VETM*4670, VETM*4890, VETM*4900, VETM*4920

**Restriction(s):** Registration in the DVM program.
## Women's Studies

### WMST*1000 Introduction to Women's Studies F (3-0) [0.50]
An introduction to the methods and analyses of Women's Studies. An interdisciplinary feminist and multicultural examination of research about women and the gendered nature of societies and cultures. Areas of inquiry may include psychology, law, science, culture, work, family, violence, health, and sexuality.

**Equate(s):** ISS*2200, WMST*2200

### WMST*2000 Women and Representation W (3-0) [0.50]
An interdisciplinary analysis of the role gender plays in representation, drawing on areas such as television, film, music, literature, visual arts, ethnography, medicine and law. International and cross-cultural perspectives included.

### WMST*3000 Feminist Theory and Methods F (3-0) [0.50]
A comparative and critical examination of feminist theories and their methodological implications, including contributions of and tensions between various feminisms. Special attention to contemporary developments in the field.

**Prerequisite(s):** 10.00 credits including (1 of ISS*2200, WMST*1000, WMST*2200), (0.50 additional credits from Women's Studies List A), (1 of ARTH*2480, DRMA*2300, ENGL*2120, PHIL*2060, POLS*2000, SOAN*2400)

### WMST*3010 Gender and Diversity W (3-0) [0.50]
An examination of studies of the interaction of gender with race, class, ethnicity, sexual orientation, ability/disability, and other axes of difference as they position women within systems of power. Students will compare and assess contemporary theories, approaches, and research that address together gender and diversity issues and problems.

**Prerequisite(s):** 10.00 credits including WMST*1000, WMST*2000, 0.50 additional credits from Women's Studies List A

### WMST*3510 Directed Readings in Women's Studies S,F,W (3-0) [0.50]
An opportunity for advanced Women's Studies undergraduates to pursue an independent course of readings and assignments in Women's Studies. The student will design a course of readings and assignments with the instructor and submit the proposal to the Coordinator of Women's Studies for approval by the last day of the Add Period of that semester.

**Prerequisite(s):** 10.00 credits including (1 of ISS*2200, WMST*1000, WMST*2200), (0.50 additional credits from Women's Studies List A)

**Restriction(s):** Instructor consent required.

### WMST*3520 Independent Workplace Learning in Women's Studies S,F,W (3-0) [0.50]
An opportunity for advanced Women's Studies undergraduates to combine workplace experience (in women-focused agencies or organizations) with Women's Studies research and assignments relevant to that work. The student will design a project with the instructor and submit a proposal to the Coordinator of Women's Studies for approval by the last day of the Add Period of that semester.

**Prerequisite(s):** 10.00 credits including (1 of ISS*2200, WMST*1000, WMST*2200), 1.00 additional credits from Women's Studies List A

**Restriction(s):** Instructor consent required.

### WMST*3520 Seminar in Women's Studies W (3-0) [0.50]
The framework of the course will be provided by a series of unresolved issues or challenging questions regarding women which will call upon the students' critical, evaluative, and integrative abilities. The content will largely depend upon the students' backgrounds within the program and their other major areas of study.

**Prerequisite(s):** 15.00 credits including WMST*1000, WMST*2000 and 1.00 additional credits from Women's Studies List A at the 3000 level or above.

### WMST*4510 Advanced Topics in Women's Studies S,F,W (3-0) [0.50]
An opportunity for advanced Women's Studies undergraduates to pursue an advanced research project in Women's Studies. The student will design a project with the instructor and submit for approval to the Coordinator of Women's Studies by the last day of the Add Period in that semester.

**Prerequisite(s):** 15.00 credits including (1 of ISS*2200, WMST*1000, WMST*2200), 1.00 additional credits from Women's Studies List A

**Restriction(s):** Instructor consent required.

### WMST*4520 Advanced Topics in Women's Studies S,F,W (3-0) [0.50]
An opportunity for advanced Women's Studies undergraduates to pursue an advanced research project in Women's Studies. The student will design a project with the instructor and submit for approval to the Coordinator of Women's Studies by the last day of the Add Period in that semester.

**Prerequisite(s):** 15.00 credits including (1 of ISS*2200, WMST*1000, WMST*2200), 1.00 additional credits from Women's Studies List A

**Restriction(s):** Instructor consent required.
ZOO*1500 Humans in the Natural World - a Zoological Perspective S,F,W (3-0) [0.50]
This course will examine past and present human interactions with Nature from an ecological perspective. It investigates current global issues that require multi-disciplinary environmental analysis. (Also offered through distance education format.)
Restriction(s): This course is designed for non-science students. B.Sc. students cannot take this course for credit.

ZOO*2050 Natural History of Ontario S,F,W (0-0) [0.50]
This course provides an introduction to the natural history of Ontario. The course begins with a review of geological, ecological and evolutionary factors that have influenced species diversity in the province. Distributions and abundances of biota, primarily animals, are discussed within the context of the four major ecoszones. Human impacts on the biotic diversity of Ontario are examined and the conservation of habitats and species is discussed. Students are required to do three reports, one of which involves field work. (Offered through distance education format only.)
Prerequisite(s): BIOL*1040

ZOO*2070 Invertebrate Zoology I F (2-3) [0.50]
To provide a general knowledge of the biology, functional morphology and ecology of the invertebrates from protists to molluscs.
Prerequisite(s): BIOL*1040

ZOO*2080 Invertebrate Zoology II W (2-3) [0.50]
To provide a general knowledge of the biology, functional morphology and ecology of the invertebrates from annelids to the urochordates.
Prerequisite(s): ZOO*2070

ZOO*2090 Vertebrate Structure and Function F,W (2-3) [0.50]
A comparative survey of the structure and functioning of the chordates with emphasis on the vertebrates. Course includes laboratory study of the anatomy of selected vertebrates.
Prerequisite(s): BIOL*1040

ZOO*2100 Developmental Biology F,W (3-3) [0.50]
An introduction to animal development through the study of reproduction, early embryology, histogenesis, organogenesis, and morphogenesis. The roles of determination, differentiation, growth, morphogenesis, and pattern formation will be emphasized.
Prerequisite(s): BIOL*1040

ZOO*3000 Comparative Histology F (3-3) [0.50]
An introduction to the microscopic structure of the major organ systems of the vertebrate body. The study of epithelial, connective, muscular, and nervous tissues precedes examination of the comparative histology of the circulatory, nervous, digestive, integumentary, respiratory, excretory, reproductive, endocrine, and sensory systems of vertebrates.
Prerequisite(s): 1 of BIOM*3010, BIOM*3100, HK*3940, HK*3401/2, ZOO*2090, ZOO*3200

ZOO*3010 Wild Life Parasitology F (2-3) [0.50]
To provide an introduction to parasitology citing examples from the protozoans, helminths, and arthropods with particular reference to those in wild life, including fishes.
Prerequisite(s): ZOO*2070

ZOO*3200 Comparative Animal Physiology I F (3-3) [0.50]
The course will examine the underlying molecular and cellular events which mediate physiological processes and contribute to whole animal homeostasis. Particular emphasis will be placed on comparing the strategies and adaptations used by different animals and the influence of varying environmental conditions. The course will focus on the nervous, muscular, respiratory and circulatory systems. This course involves exercises that use animals. BIOM*3100, BIOM*3110 and HK*3940 are available to cover similar material without labs.
Prerequisite(s): BIOC*2580

ZOO*3210 Comparative Animal Physiology II W (3-3) [0.50]
This is the second course that provides an introduction to the physiological mechanisms used by vertebrates and invertebrates. The course will examine the underlying molecular and cellular events which mediate physiological processes and contribute to whole animal homeostasis. Particular emphasis will be placed on comparing the strategies and adaptations used by different animals and the influence of varying environmental conditions. The course will include an examination of digestive physiology, excretion, endocrinology and osmoregulation. This course involves exercises that use animals. BIOM*3100, BIOM*3110 and HK*3940 are available to cover similar material without labs.
Prerequisite(s): BIOC*2580

ZOO*3300 Evolution F,W (3-0) [0.50]
A comprehensive introduction to evolutionary biology, the historical development of the discipline, the extent and nature of genetic diversity, and the mechanisms of evolutionary change. Examination of adaptation and speciation, and the origins and patterns of biotic diversity through evolutionary time. Designed to integrate evolutionary theory with other fields of biology such as development, ecology and systematics.
Prerequisite(s): MBG*2000, (BIOL*2060 or BIOL*3110, which may be taken concurrently)

ZOO*4020 Ichthyology F (2-3) [0.50]
An introduction to the interrelationship of fossil and living taxa, and the fishes of the world with a special emphasis on the main Canadian and commercial forms, including detailed phylectic classification and evolution of fish-like vertebrates, their anatomical, morphological and selected ecological features.
Prerequisite(s): BIOL*3450, ZOO*2090

ZOO*4050 Natural Resources Policy W (3-0) [0.50]
An analysis of how political, economic, social and scientific factors interact to determine the policy underlying management of renewable and non-renewable natural resources provincially, nationally and internationally. The course will analyze current policies pertaining to fisheries, wild life, forestry, energy, water, minerals, international treaties and accords.
Prerequisite(s): 15.00 credits
Restriction(s): Registration in semester 7 or 8.

ZOO*4070 Animal Behaviour F (3-0) [0.50]
An introduction to the theories and principles of the behaviour of animals. The course will be a comparative study of learning, socialization, social interaction, and other components of animal behaviour.
Prerequisite(s): 1 of PSYC*2410, PSYC*3410, ZOO*3200

ZOO*4090 Ornithology F (2-3) [0.50]
An introduction to the biology of birds. Structure and function will be discussed in relation to various aspects of avian biology including evolution, flight, migration, reproduction, behaviour, and distribution.
Prerequisite(s): ZOO*2090

ZOO*4110 Principles of Fish and Wild Life Management F (3-0) [0.50]
Presents ecological aspects of managing populations of fish, birds and mammals, evaluates techniques and rationale for current fisheries and wild life programs. The course is not available to students in the Wild Life or Marine and Freshwater Biology majors.
Restriction(s): BIOL*3450, ZOO*4570

ZOO*4170 Experimental Comparative Animal Physiology W (3-3) [0.50]
An experimental approach to the study of physiological mechanisms and adaptive responses to changes in the environment will be stressed. The focus of the course will be on laboratory exercises.
Prerequisite(s): 1 of BIOM*3110, HK*3940, ZOO*3210

ZOO*4200 Mammalogy W (2-3) [0.50]
A comparative survey of the structure and functioning of the chordates with emphasis on the mammals. Course involves exercises that use animals. BIOM*3100, BIOM*3110 and HK*3940 are available to cover similar material without labs. (Also offered through distance education format.)
Prerequisite(s): 15.00 credits

ZOO*4280 Mammalogy W (2-3) [0.50]
A comparative survey of the structure and functioning of the mammals. Emphasis will be placed on comparing the strategies and adaptations used by different animals and the influence of varying environmental conditions. The course will include an examination of digestive physiology, excretion, endocrinology and osmoregulation. This course involves exercises that use animals. BIOM*3100, BIOM*3110 and HK*3940 are available to cover similar material without labs.
Prerequisite(s): 15.00 credits
ZOO*4300 Marine Biology and Oceanography F (3-3) [0.75]
An intensive two-week course held in late August or early September before classes commence for the Fall semester. The course is held at the Huntsman Marine Science Centre, St. Andrews, New Brunswick. The ecology, behaviour, physiology, biochemistry, biomechanics of marine plants and animals will be studied as well as basic oceanographic techniques. Students will be able to familiarize themselves with the techniques and equipment involved in various branches of marine biology and oceanography. In addition to regular tuition fees, students are responsible for the cost of transportation to St. Andrews, and for charges levied by the Huntsman Marine Science Centre for room and board. These fees are paid to Student Finance and Awards of the University of Guelph. A department application form must be submitted for approval before course selection. The signature of the course coordinator is required to select the course. This course must be recorded as part of your Fall course selection and tuition and compulsory fees will be calculated accordingly. Students taking this course DO NOT use course numbers reserved for Ontario Universities Program in Field Biology.
Prerequisite(s): BIOL*3450, ZOO*2080

ZOO*4330 Environmental Biology of Fishes W (2-3) [0.50]
A comparative examination of selected freshwater and marine fishes to illustrate the significance of environmental influences on life styles, behavioral patterns, physiological responses, population biology and community structure. The use of niche, habitat and ecotope concepts in defining the role of fishes in representative types of aquatic ecosystems. It is recommended that students take ZOO*4020 before taking ZOO*4330, even though ZOO*4020 is not required as a prerequisite.

ZOO*4350 Biology of Polluted Waters F (3-3) [0.50]
A practical course in biology of disturbed waters, and toxicity of pollutants to aquatic life. Designed to familiarize students with the characteristics of polluted ecosystems, best methods of field survey, and procedures for toxicity tests.
Prerequisite(s): BIOL*3450

ZOO*4410 Field Ecology F (3-3) [0.75]
A 12-day field course held in Algonquin Park, Ontario, during August. Students independently conduct and write reports about 2 research projects of their choice and design (in consultation with faculty members), on any of: vertebrate, invertebrate, or plant ecology, and/or behaviour, in terrestrial or aquatic habitats. Emphasis is placed upon students asking ecological questions, designing experiments, and then collecting data from intensive field work. There are no formal lectures, but an organizational meeting is held in the winter semester prior to the field course. The charge by the field station for room and board will be passed on to the student. Students are also responsible for their transportation to and from the field station. A departmental application form must be submitted for approval at least 4 weeks prior to the last day of course selection for the Summer semester, and the signature of the course coordinator will be required to select the course. This course must be recorded as part of your Fall course selection and tuition and compulsory fees will be calculated accordingly. Students taking this course DO NOT use course numbers reserved for Ontario Universities Program in Field Biology.
Prerequisite(s): 0.50 credits in ecology
Restriction(s): Instructor consent required.

ZOO*4430 Herpetology F (2-3) [0.50]
This course will serve as an introduction to the biology of amphibians and reptilians on a world-wide basis with emphasis on the evolutionary significance of these groups.
Prerequisite(s): ZOO*2090

ZOO*4470 Comparative Endocrinology F (3-0) [0.50]
A study of the structure, function and evolution of endocrine glands and hormones, and the role of endocrines in integrating physiological functions in animals. The course is designed to familiarize biology students with current endocrine investigational methodology. (Offered in odd-numbered years.)
Prerequisite(s): 1 of BIOM*3110, HK*3940, ZOO*3210

ZOO*4500 Marine and Freshwater Research F,W (0-6) [0.50]
In this course, students will design, execute and communicate the results of a research project involving aquatic organisms. This will involve an examination of the primary scientific literature, the formulation of hypotheses, the design of experiments, the development of analytical skills and familiarity with the operation of analytical equipment and data analysis. Faculty guidance will be provided.
Prerequisite(s): BIOL*3450, BIOC*2580, PHYS*1080, STAT*2040
Restriction(s): Registration in semester 7 or 8 of the Marine and Freshwater Biology Major of the B.Sc. Program.

ZOO*4570 Marine Ecological Processes F (3-1) [0.50]
Advanced consideration of physical and biogeochemical processes in the world's oceans. Examination of the critical dependence of biological processes on physical and chemical processes from micro- to macro-scales. The processes involved in: production and energy transfer within pelagic food webs; export of energy to the benthos; the structure and dynamics of marine communities.
Prerequisite(s): BIOL*3450, PHYS*1080

ZOO*4600 Tropical Ecology F (1-6) [0.75]
This three-week field course provides an opportunity to study the flora and fauna of marine, freshwater and terrestrial environments of the tropics. Based at field stations in Australia, the course includes lectures, field exercises and a student project. An information session is held in late November. Signature of course coordinator is required for course selection. Students are responsible for costs of food, lodging and transportation. Detailed information is available from the Department of Integrative Biology. This course must be recorded as part of your Fall course selection and tuition and compulsory fees will be calculated accordingly. Students taking this course DO NOT use course numbers reserved for Ontario Universities Program in Field Biology. (Offered in odd-numbered years.)
Prerequisite(s): BIOL*1040, (BIOL*2060 or BIOL*3110)
Restriction(s): Instructor consent required.

ZOO*4610 Arctic Ecology F (1-6) [0.75]
This three-week field course provides an opportunity to study the flora and fauna of marine, freshwater and terrestrial environments of the high Arctic. Based in the high Arctic, the course includes lectures, field exercises and student projects. An information session is held in January; students are required to register before March. Signature of course coordinator is required for course selection. Students are responsible for cost of food and transportation. Detailed information is available from the Department of Integrative Biology. (Offered in even-numbered years.) This course must be recorded as part of your Fall course selection and tuition and compulsory fees will be calculated accordingly. Students taking this course DO NOT use course numbers reserved for Ontario Universities Program in Field Biology.
Prerequisite(s): BIOL*1040, (BIOL*2060 or BIOL*3110)
Restriction(s): Instructor consent required.

ZOO*4700 Field Biology S,F,W (1-6) [0.50]
Students may apply for 2-week courses in the OUPFB (Ontario Universities Program in Field Biology). This program offers a diversity of field courses in biological subjects ranging from the Arctic to the Tropics, microbes to mammals, and covering marine, freshwater and terrestrial habitats. Costs include food and lodging and may include transportation. Detailed information is available from the Department of Integrative Biology.
Prerequisite(s): BIOL*1040, (BIOL*2060 or BIOL*3110)
Restriction(s): Permission of the course coordinator.

ZOO*4710 Field Biology S,F,W (1-6) [0.25]
Students may apply for 1-week courses in the OUPFB (Ontario Universities Program in Field Biology). This program offers a diversity of field courses in biological subjects ranging from the Arctic to the Tropics, microbes to mammals, and covering marine, freshwater and terrestrial habitats. Costs include food and lodging and may include transportation. Detailed information is available from the Department of Integrative Biology.
Prerequisite(s): BIOL*1040, (BIOL*2060 or BIOL*3110)
Restriction(s): Permission of the course coordinator.

ZOO*4800 Field Biology S,F,W (1-6) [0.50]
Students may apply for 2-week courses in the OUPFB (Ontario Universities Program in Field Biology). This program offers a diversity of field courses in biological subjects ranging from the Arctic to the Tropics, microbes to mammals, and covering marine, freshwater and terrestrial habitats. Costs include food and lodging and may include transportation. Detailed information is available from the Department of Integrative Biology.
Prerequisite(s): BIOL*1040, (BIOL*2060 or BIOL*3110)
Restriction(s): Permission of the course coordinator.

ZOO*4810 Field Biology S,F,W (1-6) [0.50]
Advanced consideration of physical and biogeochemical processes in the world's oceans. Examination of the critical dependence of biological processes on physical and chemical processes from micro- to macro-scales. The processes involved in: production and energy transfer within pelagic food webs; export of energy to the benthos; the structure and dynamics of marine communities.
Prerequisite(s): BIOL*3450, PHYS*1080

ZOO*4860 Tropical Ecology F (1-6) [0.75]
This three-week field course provides an opportunity to study the flora and fauna of marine, freshwater and terrestrial environments of the tropics. Based at field stations in Australia, the course includes lectures, field exercises and a student project. An information session is held in late November. Signature of course coordinator is required for course selection. Students are responsible for costs of food, lodging and transportation. Detailed information is available from the Department of Integrative Biology. This course must be recorded as part of your Fall course selection and tuition and compulsory fees will be calculated accordingly. XIV. General Information

Centres and Institutes

Centre For International Programs
The Centre for International Programs, the first of its kind in Canada, aims to facilitate, stimulate and support a continuously growing range of University involvement in international activities. This goal is accomplished by developing and maintaining contacts with university partners around the world, supporting study abroad programs, and providing liaison with government agencies, private sector companies and non-governmental organizations. The Centre promotes development cooperation partnerships with developing countries, provides information on international opportunities and resources to students and faculty, provides support for international students and manages the University's student exchange programs. The Centre contributes to university policy on internationalization and serves as a focal point for links with other universities, government agencies, and private sector firms wishing to cooperate with the university in international activities.

Computing and Communications Services
Students are encouraged to purchase or arrange access to a computer for general computing needs, including word processing and spreadsheet applications. The computing environment on campus is primarily Windows. Laser printing facilities are available in several areas on campus.

Whether you are off campus or in residence, Computing and Communications Services (CCS) can help you. Central computing accounts provide access to the Internet and instructional software. You will enjoy access to e-mail and the Web, increasingly important educational tools. All residence rooms are connected to the campus fibre-optic network, providing you with Internet access.

You can access your account from many of the over 1,000 campus microcomputers or via your own computer. Training seminars are available to introduce you to the major software packages and applications. CCS offers phone support through their Help Centre as well as walk-in support at their Help Desk in the Library. To get started, you can access the CCS web site at www.uoguelph.ca/ccs. for information and help.

Child Care
The University of Guelph is consciously striving to provide equal opportunity for academically qualified students who are pregnant or have child care responsibilities, and to overcome barriers to full participation by such students in the University community. To this end, the University faculty and administration are sensitive to the need to assist students who are pregnant, or are parents, when unforeseen family responsibilities interfere with their educational endeavours. Students who require special consideration due to pregnancy or child care responsibilities are encouraged to speak to their course instructors or academic counsellors.

Campus Child Care Co-operative of Guelph
The Campus Child Care Co-operative of Guelph is a registered charitable organization incorporated as a co-operative non-profit day care. The centre is located on the edge of the University campus and offers care for 62 children between the ages of 3 months and 6 years. There are full-time and part-time programs offered weekly from 07:30 - 17:30.

The child care centre is a family-supportive setting governed by a Board of Directors who are elected by the parent body. Parents are welcome to visit and participate in the program. The facility is open to children of OMRF employees, faculty, staff and students of the University and to the Guelph community. Subsidy is available for families that qualify for financial assistance. For further information contact Shelvy Crosth, Director at 822-1280.

University of Guelph Child Care and Learning Centre
The University of Guelph Child Care and Learning Centre (CCLC) is located on campus at the corner of East Ring Road and Arboretum Road. The CCLC operates within the Division of Student Affairs in collaboration with the Department of Family Relations and Applied Nutrition, within the College of Social and Applied Human Sciences. The CCLC has three primary goals:

• to provide family-sensitive, family-centred programs for children while their parents work or study
• to provide a resource for the academic community in which observation of children, research and practical experiences can take place
• to demonstrate excellence in child care, education and student training

The CCLC offers 111 child care spaces for up to 10 infants, 15 toddlers, 64 preschoolers and 22 kindergarteners. Care is available for children from three months to 5 or 6 years of age on a full or part-time basis, Mondays through Fridays from 07:30 to 17:30. Parents may get involved in several ways, including membership on the Parent Advisory Council, attending parent information meetings, observing their children at play by using the specially designed observation facilities, or by visiting their child at any point during the day. Spaces are open to faculty, staff and students of the University of Guelph and to the Guelph community. Subsidy is available for families that qualify for financial assistance. Written enquiries may be directed to: Judy Callahan, Director, Child Care Services, University of Guelph, Guelph, Ontario, N1G 2W1, or call 519-824-4120 extension 52682.

Copyright Policy
When a student produces a work eligible for copyright based on research or other scholarly activity conducted under the supervision of a faculty member and the supervision of that work is a requirement of the academic program, the University, whilst acknowledging the sole copyright ownership by the student, reserves the right of access to the work. It is a condition of engaging in the undergraduate or graduate programs at the University that the University receives a non-exclusive royalty free license to:

1. Circulate the work as part of the University library collection;
2. Make copies or representations of the work for academic purposes within the University;
3. Make single copies of a thesis deposited in the University Library at the request of other universities or bona fide institutions;
4. Microfilm the work and submit the microfilm to the National Library of Canada;
5. Publish the abstract of any work which is a student thesis.

Cultural Affairs
The University of Guelph promotes a wide range of activities in fine art, music and drama. These activities, some of which are integral to the teaching program of the College of Arts, are administered by the appropriate departments and schools of the College and by the Curator of Art.

Guelph Campus Cooperative
The Guelph Campus Co-op was started in 1913 by students who knew they couldn't count on others to look out for their interests. So they organized their buying power. Their biggest concerns: the availability and cost of textbooks and finding a decent place to live. Sound familiar? Obviously a lot has changed since then. But not the principles behind the co-op. First and foremost, we're still by students for students. Students still dictate Co-op policy and our services are still focused squarely on making student life better. Perhaps most relevant to you is that we are not a profit-centred corporation. Getting more of your money is not our mandate. Saving you money is.

Annual memberships are available for $10 and entitle you to a 5 per cent discount at the Bookstore, use of Co-op resources, the right to apply for Co-op housing, and the right to vote and run for the Board of Directors. For more information call 824-4950 or email info@guelphcampus.coop.

Guelph Campus Co-op Housing
Affordable and close to campus, the Co-op operates shared houses and apartments at below market rates. It's a better deal because our mandate is to serve students, not make big profits. Another reason it's affordable is that the deal includes your participation in the upkeep and running of your place. Sound reasonable? Apply early: only a limited number of units become available each term, and the waiting list can get pretty long.

Application forms are available at the Co-op office at 17 College Avenue West (across from OVC) or our website at http://www.guelphcampus.coop/

Co-op Bookstore
There are two bookstores on campus - only one of them is owned by students. You get the lowest possible prices, and we'll always substitute good used texts when they are in stock. We'll also buy back your texts for cash any time throughout the year. When ordering, all you have to do is give us your order - in person, over the phone, or by email - and we'll get everything ready for you. We know textbooks, and we know the courses you're taking. So if you need help reviewing your course list needs, talk to us. That's part of our service.

To check your course lists online, visit our web site at http://www.guelphcampus.coop/. Where you spend your money counts.

Health and Performance Centre
The Health and Performance Centre is located on the second floor of the John T. Powell Building. It is easily accessed off of East Ring Road and is located near the Twin Pad Arena, Athletics and Student Health Services. The Centre provides service to all students and their families, staff and the general community.

The Health and Performance Centre specializes in the diagnosis, treatment and rehabilitation of acute and chronic orthopedic, musculoskeletal, sport and activity related injuries. The Centre also provides a variety of health promotion services including fitness and nutrition expertise. The Centre's multi-disciplinary team includes: sports medicine physicians, physiotherapists, athletic therapists, massage therapists, dietitians, podorthist, chiropractor, fitness consultant and professional bike fit technician.

Services are offered on a fee for service basis. Many of the services are eligible for coverage by provincial and international health plans, the University of Guelph student health plan and other extended health plans. Students are encouraged to investigate their health coverage.

The Health and Performance Centre is open from 8:00 a.m. to 8:00 p.m. Monday to Thursday and 8:00 a.m. to 6:00 p.m. Friday. For general enquiries and appointments, please visit the website at http://www.uoguelph.ca/hpc or call 519-767-5011 or ext. 53039.

**Human Rights and Equity Office**

The HREO is located at the north side of the campus at Fielding House, 15 University Avenue East. All enquiries are confidential. Office hours are Monday–Friday: 8:45a.m.–4:45p.m. Phone: 824-4120, ext. 53000; TTY: 767-0615; Website: <http://www.uoguelph.ca/hre>. 

"The University of Guelph Human Rights and Equity Office (HREO) is dedicated to the removal of all systemic barriers, discrimination and harassment and will engage in advocacy within the university community towards this end."

(Mission Statement, Human Rights and Equity Office)

The University of Guelph prohibits harassment or discrimination in work, study, residential and university life on the basis of: race, colour, ancestry, place of origin (where you were born), ethnic background, citizenship, creed (religion), sex, disability, sexual orientation, age, marital status, and family status. In some cases, discrimination includes unfair treatment on the basis of the receipt of public assistance or a pardoned criminal offense.

The Ontario Human Rights Code and the Canadian Human Rights Act, as well as the University’s Sexual and Gender Harassment Policy and Procedure and Interim Human Rights Procedure, prohibit harassment or discrimination on the basis of these grounds. The University of Guelph is currently developing a comprehensive human rights policy and complaints procedure to integrate and replace these existing policies and procedures. The University’s human rights policies and complaint procedures are available on the HREO Web page at <http://www.uoguelph.ca/hre>.

**Definitions**

**Harassment** is defined as any attention or conduct (oral, written, graphic or physical) by an individual or group who knows, or ought reasonably to know, that such attention or conduct is unwelcome/unwanted, offensive or intimidating.

**Discrimination** is defined as the denial of equal treatment, civil liberties, and/or opportunity to a group or member of the group on the basis of: race, colour, ancestry, place of origin, ethnic background, citizenship, creed (religion), sex, disability, sexual orientation, age, marital status, family status and, in some cases, receipt of public assistance or a pardoned criminal offense. Discrimination may be systemic wherein the policies and practices that have become standard in established institutions appear to be neutral but result in the exclusion of certain groups.

**Inquiries and Complaints**

Members of the University community (including students, staff and faculty) have the right to seek confidential advice and information about concerns or complaints regarding harassment or discrimination. The HREO may assist individuals to resolve complaints by serving as a resource to the parties involved, providing mediation, or facilitating the University’s human rights concern and complaint resolution procedures.

In addition, any party may consult with the HREO regarding an administrative, managerial or curriculum decision which may relate to a human rights or equity issue. The HREO also provides human rights education and training and works in partnership with the University constituents on matters of educational and employment equity.

**Services**

The HREO provides the following services to members of the University: information and advice regarding discrimination and harassment; facilitation of an internal human rights complaint procedure; mediation to resolve complaints; resource information on human rights and equity issues; training and education; participation on university committees; and research development and evaluation of equity initiatives.

**Information on Teaching Certificates**

Students contemplating a teaching career are advised to contact the appropriate Faculty of Education to determine the subjects, credits, and grades required for admission. Information on all Ontario Faculties, as well as those in other provinces and some international schools, is available in the Connection Centre, 3rd Floor of the University Centre. Applications for the Ontario Faculties of Education can be found at <http://www.osre.toronto.ca> along with the web links to each Ontario Faculty of Education. **International Students**

The University of Guelph invites international students to apply for admission to our undergraduate and graduate programs. Financial awards and research grants are available to both undergraduate and graduate students.

The University supports the presence, and values the contribution, of international students in the cross-cultural learning and global understanding of the academic community and the City of Guelph.

**Inventions Policy**

In the course of completing their degree requirements, undergraduate or graduate students may discover or help discover technology which might be patentable and/or have the possibility for commercial development. Any student who suspects this might be the case should, without delay, contact his or her research supervisor, if appropriate; and the Office of Research. Although the rights to such inventions are owned by the University, in accordance with the University’s Invention Policy, a student who is an inventor or co-inventor would share in any revenues earned by the invention.

**Library**

The University’s collection of books, journals, documents, microforms, films, video and audio materials is administered in the Maclaughlin Library, located in the centre of the campus, and in a branch in the Ontario Veterinary College. The collection consists of more than 2.1 million equivalent volumes and is increasing at the rate of 50-60,000 per year. In addition, the Library has over 12,000 audio-visual holdings (audio recordings, films and video tapes) and over 70,000 maps. Access to these materials and the collections at the University of Waterloo and Wilfrid Laurier University is available through the TRELLIS system.

**Regulations and Hours**

A series of leaflets detailing library privileges, services, regulations and hours may be obtained on the First Floor of the Library. For more information about the Library and its services visit <http://www.lib.uoguelph.ca> or <http://www.tug-libraries.on.ca>.

**OPIRG-Guelph**

OPIRG-Guelph (Ontario Public Interest Research Group - Guelph) is a part of a provincial network of “PIRGs” that engage in research, education, and action on a variety of environmental and social justice issues. We often act as a bridge between the campus and community. Recent projects include a permaculture garden on campus, creation of an annual Environment Week pull-out in the Guelph Tribune. We continually host events and workshops on a range of topics. Working groups of OPIRG raise awareness of such issues as political prisoners worldwide, sustainable food growing practices, and unfair international labour practices.
OPRIG-Guelph maintains an alternative library with books, documents, periodicals, videos and DVDs that students and OPRIG members can access. The Research for Credit program allows students to apply their course work to community projects. Volunteer opportunities include being involved with or starting working groups, helping in the library or office, and sitting on the board of directors. Core funding (supplemented by grants and donations) is provided per semester through full-time graduate and undergraduate student fees. The fee is refundable in the first three weeks if requested. OPRIG (ext. 52129 or 824-2091) is located at 1 Trent Lane. OPRIG-Guelph can be reached by email at oprig@uoguelph.ca.

Regular Officer Training Plan (ROTP)

Under the ROTP, undergraduates who are successful applicants are enrolled as Officer Cadets in the Canadian Forces. Applicants must be Canadian citizens and pass pre-enrolment tests. Application may be made prior to entrance, or at any time prior to the last year of university studies. Applications are processed through Canadian Forces Recruiting Centres. For more information contact the local Recruiting Centre at 1-800-856-8488.

Statistics Canada - Notification of Disclosure

Statistics Canada is the national statistics agency. As such, Statistics Canada carries out hundreds of surveys each year on a wide range of matters, including education. In order to carry out such studies, Statistics Canada asks all colleges and universities to provide data on students and graduates. Institutions collect and provide to Statistics Canada student identification information (student’s name, student ID number, Social Insurance Number), student contact information (address and telephone number), student demographic characteristics, enrolment information, previous education and labour force activity.

The Federal Statistics Act provides the legal authority for Statistics Canada to obtain access to personal information held by educational institutions. The information may be used only for statistical purposes, and the confidentiality provisions of the Statistics Act prevent the information being released in any way that would identify a student. Students who do not wish to have their information released are able to ask Statistics Canada to remove their identification and contact information from the national database.

For further information, please see Statistics Canada’s web site at <http://www.statcan.ca> or write to the Postsecondary Section, Centre for Education Statistics, 17th Floor, R.H. Coats Building, Tunney’s Pasture, Ottawa, Ontario, K1A 0T6.

Student Life

Athletics

The University of Guelph offers students an excellent opportunity to combine academic pursuits with an athletics program of their choice. A quality athletics program is available to complement any student’s leisure hours.

For skilled and competitive student athletes, dedicated to the pursuit of excellence, men’s and women’s intercollegiate programs are offered. The men’s and women’s teams compete in 17 team and individual sports at the provincial (OUA - Ontario University Athletics) and/or national levels (CIS - Canadian Interuniversity Sport). Prospective Intercollegiate athletes are urged to contact the coach by writing, phoning or emailing our Intercollegiate Office as soon as possible. Many teams require on- and off-season conditioning and training. For a full list of the intercollegiate sports offered, browse “Varsity Sport” on our web site at http://www.uoguelph.ca/varsity for information and help.

Intramural sports involve more than 6,000 people at various levels of competition. The intramural programs encourage groups of students: men, women and co-ed to “get together” in an enjoyable “competitive” or “fun” setting at their own skill level. Soccer, ultimate frisbee, hockey, volleyball and basketball are very popular while the newest addition is badminton. Several one-day tournament activities are also offered. For a full list of sports, click on “Intramurals” on the athletics website.

More than forty different activities are offered in the interest class framework. Most of these programs are introductory in nature, providing participants with a foundation to continue these activities in future years. They range from CPR, dance, martial arts and aquatics to other various sports activities. In addition, there are a multitude of fitness programs that include both land and water classes operating throughout the day. For more information, consult the “Fitness and Recreation” section of our website.

Sports Groups and Clubs provide another format for students to share their interest and enthusiasm through activity. The level and intensity of the activity will be determined by the demonstrated interest. Anyone interested in pushing themselves to new limits should definitely look into the Climbing Club. For a full list of sports groups or clubs, visit “Clubs” on our website.

The University of Guelph has a wide range of indoor and outdoor facilities to service our varied, broad-based athletic programs. We have a stadium, lighted soccer, rugby, fastball and multi-purpose fields, four ball diamonds and four additional multi-purpose fields. The W.F. Mitchell Building has three gymnasia, two pools, five squash courts, three dance/multi-purpose rooms, a weight room, circuit room, cardio theatre, combat rooms and two climbing walls. The Gryphon Centre houses a twin pad arena and our Gryphon Dome has a 200 m running track and (167’ by 116’) indoor turf field. For facility hours of operation, click on the “Facilities” section of our website.

The Department of Athletics also offers employment opportunities to students in a variety of capacities including lifeguards, fitness and lifestyle instructors, intramural referees, interest class instructors, event management staff, weight and circuit room staff, client service centre staff, camp staff as well as many other areas within athletics. Browse the “Facility” and “Fitness and Recreation” pages on our website to see a list of employment opportunities in Athletics.

Library Centre for Students with Disabilities (LCSD) offers a range of services and adaptive software that enable students with disabilities to access Library as well as other information resources.

Library Research Help Desk assists students, staff and faculty in developing their information literacy skills in locating, evaluating, and effectively managing the information they need for their assignments and research.

The Learning Commons, located on the first floor of the McLaughlin Library, brings together in one location services that enhance learning, writing, research, and technology at the University of Guelph.

IT Help Desk provides assistance to students, faculty and staff with IT related questions or problems. Scanners are available and workshops on a variety of software applications are offered for students.

Writing and ESL Services provides support to undergraduate and graduate students concerned with improving their writing and enhancing their academic performance. Services include a range of programs, workshops, presentations, printed and on-line resources, and individual assistance.

For more information about the Learning Commons visit their web site at <http://www.learning-commons.uoguelph.ca>.

Office of the Associate Vice-President, Student Affairs

The Associate Vice President, Student Affairs, is responsible for student life programs at the University of Guelph. This includes addressing the needs of individual students through specific student services programs and working to create an environment that is conducive to intellectual and personal growth.

The Office of Student Affairs is located in the University Centre, Level 4. The Associate V.P. (Student Affairs) is responsible for overall management of the Departments of Athletics, Student Health Services, Student Housing Services, Co-operative Education and Career Services, Student Life and Counselling Services, Child Care and Learning Centre and the Learning Commons.

Student Affairs’ Units provide learning opportunities and support services to help students achieve their goals in the context of the University’s learning objectives and to be effective contributors in society. Student Affairs staff are committed to helping students by promoting a sense of personal responsibility and self-reliance in addition to assisting in specific problem-solving activities.

Student Government

Student government at the University of Guelph includes the following organizations:...
Central Student Association
Canadian Federation of Students
Canadian Federation of Students-Ontario
Other Student Groups

Central Student Association
The more than 17,000 full-time and part-time undergraduate students at the University of Guelph are represented by the Central Student Association — the official student association which is elected by all undergraduate students every year. When you pay your student fee ($14.40) which is collected when you pay your tuition, and which also happens to be the lowest in Canada), you become a voting member of your student association. The C.S.A. receives its direction from a 32-member Board of Directors which is comprised of:
- representatives from each of the 7 colleges (two elected, one appointed);
- 5 executive members elected at large from the student body;
- representatives from various student organizations (Interhall, the Board of Governors, the Guelph Campus Co-op, OIPRG, and the Student Senate Caucus).

The C.S.A. has a three-fold purpose:

Lobbying
The Central Student Association, in conjunction with the Canadian Federation of Students, and the Canadian Federation of Students-Ontario, works to ensure that the rights of students are heard at all levels. Everyone knows that there is strength in numbers. That's why the C.S.A. is the voice for all undergraduate students at the University of Guelph. The C.S.A. works to provide change when the rights of students are being infringed upon.

Representation
The Central Student Association represents all University of Guelph undergraduate students to the provincial and federal governments, the University Administration, the Board of Governors, the Senate, City Council, the Guelph Transit Commission, and various standing committees, task forces, and commissions, as they arise. This is done to ensure that all of the rights of students are maintained in all decision-making bodies.

Services
Entertainment and Activities: movies, speakers, concerts, student academic appeals, orientation, faxing, photocopying, and over 70 clubs to join. The C.S.A. provides opportunities for you to expand beyond the world of formal academics by providing services that make student life at this University less cumbersome and a lot more fun!

The Central Student Association is located on the 2nd floor of the University Centre, Room 274. The phone extension is 56748, the email address is csatalk@uoguelph.ca and the website is located at <http://www.csa.uoguelph.ca>. The day-to-day operations of the Central Student Association are coordinated by the 5 executive and 3 staff members. Executive members can be contacted at the following on-campus extensions and email addresses:

- Academic Commissioner - csacad@uoguelph.ca - x56742
- External Commissioner - csaceut@uoguelph.ca - x58328
- Local Affairs Commissioner - csalocal@uoguelph.ca - x54407
- Finance and Human Resources Commissioner - csadmin@uoguelph.ca - x54408
- Communications Commissioner - csatalk@uoguelph.ca - x56376

Canadian Federation of Students
The C.F.S. is the national voice of students, representing more than 400,000 students across the country. The C.F.S. lobbying the federal government for changes which are aimed at making post-secondary education more accessible to all students. They provide research documents, campaigns, and services for all members across the country.

Canadian Federation of Students-Ontario
The C.F.S.-O is the provincial voice of students, representing more than 200,000 students across the province. The C.F.S.-O lobbying the provincial government for changes which are aimed at making post-secondary education more accessible to all students. They provide research documents, campaigns, and services for all members across the province.

Other Student Groups
Other important groups on campus include College Student Governments, Interhall Council, the Guelph Campus Co-operative, and the Ontario Public Interest Research Group. All of the above organizations combine to make Guelph one of the most active post-secondary campuses in the country. We hope that you continue in that tradition, and come on up to the C.S.A. office (University Centre 274) or give us a call at extension 56748. Remember that your education does not end when class is over. So make a difference in your university experience by getting involved with your student association.

Student Health Services
Student Health Services, located in the John T. Powell Building, provides comprehensive medical and healthcare services to all students and their immediate families.

Student Health Services provides acute care intervention and continuing care for any health related problems. Health Services has a multi-disciplinary team that includes family physicians, psychiatrist, nurses, dietitians, and health educators. In addition to appointment clinics, specialty programs include the Wellness Centre, Walk-in Clinic, a dispensary and immunization clinics.

Students are required to bring their OHIP card, other provincial health plan information or UHIP card when attending Health Services for care.

To make an appointment, for general enquiries, hours of operations or for after-hour care information call extension 52131.

Student Housing Services
Living on Campus
Student Housing Services wants you to feel that residence is your home; a place where you can study, develop lasting friendships, become involved in University activities, or just relax. Each building has a professional Residence Manager and a Residence Life Staff comprised of students. They are there to meet you in September, introduce you to others in the building, and act as resource people throughout the year.

Residence living is convenient. A full range of services is provided to residence students. Each room comes completely furnished and includes a telephone and voicemail. The residences are equipped with laundry facilities, study rooms, lounges, and other common spaces. Renowned for its excellence in food service, Guelph provides 14 different on-campus food facilities including dining halls that cater mainly to residence students.

Because learning takes place both inside and outside of the classroom, we encourage students to take part in the following programs and services:

Central Student Association
The C.S.A. has a three-fold purpose:

- representatives from each of the 7 colleges (two elected, one appointed);
- 5 executive members elected at large from the student body;
- representatives from various student organizations (Interhall, the Board of Governors, the Guelph Campus Co-op, OIPRG, and the Student Senate Caucus).

The C.S.A. has a three-fold purpose:

Lobbying
The Central Student Association, in conjunction with the Canadian Federation of Students, and the Canadian Federation of Students-Ontario, works to ensure that the rights of students are heard at all levels. Everyone knows that there is strength in numbers. That's why the C.S.A. is the voice for all undergraduate students at the University of Guelph. The C.S.A. works to provide change when the rights of students are being infringed upon.

Representation
The Central Student Association represents all University of Guelph undergraduate students to the provincial and federal governments, the University Administration, the Board of Governors, the Senate, City Council, the Guelph Transit Commission, and various standing committees, task forces, and commissions, as they arise. This is done to ensure that all of the rights of students are maintained in all decision-making bodies.

Services
Entertainment and Activities: movies, speakers, concerts, student academic appeals, orientation, faxing, photocopying, and over 70 clubs to join. The C.S.A. provides opportunities for you to expand beyond the world of formal academics by providing services that make student life at this University less cumbersome and a lot more fun!

The Central Student Association is located on the 2nd floor of the University Centre, Room 274. The phone extension is 56748, the email address is csatalk@uoguelph.ca and the website is located at <http://www.csa.uoguelph.ca>. The day-to-day operations of the Central Student Association are coordinated by the 5 executive and 3 staff members. Executive members can be contacted at the following on-campus extensions and email addresses:

- Academic Commissioner - csacad@uoguelph.ca - x56742
- External Commissioner - csaceut@uoguelph.ca - x58328
- Local Affairs Commissioner - csalocal@uoguelph.ca - x54407
- Finance and Human Resources Commissioner - csadmin@uoguelph.ca - x54408
- Communications Commissioner - csatalk@uoguelph.ca - x56376

Canadian Federation of Students
The C.F.S. is the national voice of students, representing more than 400,000 students across the country. The C.F.S. lobbying the federal government for changes which are aimed at making post-secondary education more accessible to all students. They provide research documents, campaigns, and services for all members across the country.

Canadian Federation of Students-Ontario
The C.F.S.-O is the provincial voice of students, representing more than 200,000 students across the province. The C.F.S.-O lobbying the provincial government for changes which are aimed at making post-secondary education more accessible to all students. They provide research documents, campaigns, and services for all members across the province.

Student Health Services provides acute care intervention and continuing care for any health related problems. Health Services has a multi-disciplinary team that includes family physicians, psychiatrist, nurses, dietitians, and health educators. In addition to appointment
learning through experience, develop civic responsibility, and engage in campus and community life. Student Life includes the Office of Intercultural Affairs, Centre for New Students, Leadership and Community Engagement and Neighbourhood Relations and Off Campus Housing.

Neighbourhood Relations and Off Campus Housing, a functional area within Student Life, maintains listings of various types of accommodation in the Guelph area. The office can help you with where and when to look for housing, can advise or make referrals on landlord/tenant issues, and has information that can make your housing search, and getting settled in, easier. Listings can be viewed at http://www.housing.uoguelph.ca/coho.

Co-operative Education & Career Services

Co-operative Education and Career Services facilitates student learning and career development, helps produce skilled graduates, and meets employer and labour needs. With over 1,600 co-op students, U of G enjoys one of the highest student enrollment in co-operative education among Ontario universities. By working in partnership with industry, co-operative education aims to enable students to “learn by doing”, and to allow employers to select and train the workforce of tomorrow. Career Services aims to help students, graduates and alumni succeed in their transition to the world of work or further education. Career Services provides a variety of comprehensive career development and job search planning programs and events to ensure access to a wide variety of employment possibilities and help our clients learn to self manage their careers.

Student Rights and Responsibilities

Student membership at the University of Guelph is associated with fundamental rights and responsibilities intended to maintain the integrity of the University as a community for learning. Staff, faculty and students co-operate to sustain an education environment that promotes individual learning and development.

The University accepts that students are able to make responsible decisions regarding their behaviour. These regulations help to provide for an environment that supports personal and intellectual growth. They are intended to recognize a student’s rights and the rights of others, while also identifying certain responsibilities of students that are a part of the exercise of these rights.

For purposes of Student Rights and Responsibilities, a student is any person registered in an undergraduate or graduate program at the University of Guelph, or otherwise taking credit or non-credit courses offered by the University or any person who was a student at the time the alleged offence occurred.

Students have the RIGHT to access the Judicial system if a violation of this policy has occurred, whether that violation has occurred on or off campus provided that the violation affects their ability to use and enjoy University facilities.

University Community Principles

The University of Guelph is dedicated to the advancement of learning and the dissemination of knowledge; the intellectual, social, moral and physical development of its members; and the betterment of society (University of Guelph Act, 1964). These overall goals commit us to three central values:

• The development of all members of this university community, which implies and affirms the dignity, worth and autonomy of the individual.
• A focus on learning and knowledge, which upholds the fundamental importance of reasoned debate and inquiry in all of this university’s academic and service functions.
• Societal enhancement, which extends the commitment to individual development beyond the walls of the institution to the ideal of service to the broader community.

Academic Responsibilities

You have the RIGHT to engage in free intellectual enquiry and, within the limits of the materials and human resources and approved University protocols, to access the resources necessary to plan and accomplish your educational and career objectives. You have the RESPONSIBILITY to:

• pursue the Learning Objectives* established by the University in the context of your own program and goals;
• adhere to the schedule of dates* and academic and non-academic regulations;
• select courses based on academic program requirements*;
• consult your academic advisor (Program Counsellor, Departmental Advisor, Graduate Coordinator) or the relevant Academic Review Committee if extenuating circumstances affect your academic performance;
• abide by the University’s Policy on Academic Misconduct.1

1 Refer to the Associate Diploma Calendar; Undergraduate and Graduates calendars, available electronically at http://www.uoguelph.ca/undergrad_calendar/ or http://www.uoguelph.ca/GraduateStudies/calendar

Offenses

I. Civil/Criminal Statutes.

You retain your RIGHTS as a citizen when you become a member of the University community. You have the RESPONSIBILITY to abide by Federal, Provincial and Municipal statutes in addition to the University’s own regulations, including, but not limited to the Acceptable Use Policy and Guidelines for the University of Guelph Computing and Networking Facilities2 and the In-line Skates, Roller Blades and Skateboards Policy3. The University’s interest may cause it to initiate a hearing (refer to Judicial Processes) whether or not criminal or civil action is taken with respect to the same incident(s).

2 Refer to the University’s Acceptable Use Policy available on line at http://www.uoguelph.ca/AUPG.html.

3 Refer to the University’s In-Line Skates, Roller Blades and Skateboards Policy available at the Director’s Office at each Regional College or electronically on the University’s Financial Services website: http://www.fin.uoguelph.ca/uploadFiles/GE380.pdf.

II. Offenses against Persons.

1. Bodily Harm

You have the RIGHT to an environment that is safe and free from unwanted attention. You have the RESPONSIBILITY not to engage in activities likely to endanger the health or safety of yourself or another person, or to assault or threaten to assault another person, or to knowingly cause another person to fear bodily harm.

2. Harassment

You have the RIGHT to an environment characterized by mutual respect. You have the RESPONSIBILITY to treat all members of the University community with respect and without harassment. Harassment is defined as any attention or conduct (oral, written, graphic or physical) by an individual or group who knows, or ought reasonably to know, that such attention or conduct is unwelcome/unwanted, offensive, or intimidating.

III. Offenses involving Property.

1. Facilities, Telecommunications, Library, University Property and Private Property

You have the RIGHT to the use of University facilities. You have the RESPONSIBILITY to:

1. respect posted hours and limits on entry where such conditions exist;
2. confine smoking only to areas designed for that purpose;
3. not destroy, tamper with, deface or vandalize, monopolize, unlawfully access, remove or possess property not your own, including, but not limited to, Library material, computing facilities, telecommunications systems, and emergency telephones;
4. not discharge, tamper with or operate any fire prevention or detection equipment for any purpose other than the control of fire. (For students found guilty of offences under this section, mandatory minimum penalties apply.)

2. Permits and Identification

You have the RIGHT, upon payment of any required fee, to access certain special services as a University community member. You have a RESPONSIBILITY not to acquire or use meal cards, University identification, computer identification, bus passes or parking permits that are stolen, cancelled, lost, false, altered or expired.

3. Grounds

You have the RIGHT to use of the University grounds. You have the RESPONSIBILITY to observe the following specific limitations:

1. Authorized Entry - posted hours and limits on entry must be observed and adhered to.
2. Bicycles - Bicycles are subject to removal at the owner’s expense if they are secured to trees or railings, secured to ramps for the disabled, left in fire routes or stairwells of any University building or otherwise found obstructing by being in any unauthorized area.
3. Automobiles - Automobiles are subject to removal at the owner’s expense if left in fire routes, area for disabled access, pedestrian walkways, driveways, or otherwise found obstructing by being in an unauthorized area.
4. Temporary Accommodation - Sleeping or maintaining residence in vehicles, trailers, tents or University facilities is prohibited, except where specifically authorized.
5. Pets - Pets on campus must be under direct control at all times and must not be left unattended. Pets are not allowed in University buildings except as authorized.

IV. Disruption

You have the RIGHT to an environment that, while safeguarding dissent, is free from interference and disruption. You have the RESPONSIBILITY not to interfere with the normal functioning of the University, nor to intimidate, interfere with, threaten or otherwise obstruct any activity organized by the University, including classes, or to hinder other members of the University community from being able to carry out their legitimate activities, including their ability to speak or associate with others.

V. Other.

1. Drugs and Alcohol

You have the RESPONSIBILITY to abide by the Provincial Liquor Licence Act and Provincial and Federal statutes pertaining to illegal drugs and alcohol. The possession, use or trafficking of illegal drugs is prohibited, and each activity may form the basis of a separate charge. For students found guilty of a drug offence within Student Housing, mandatory minimum penalties will apply. The possession of liquor by those under the age of 19, is prohibited. Consumption or open possession of liquor is prohibited in all residence buildings, except in those residence rooms where it has been specifically permitted or in licensed premises.
2. Visitors. You have the RIGHT, upon compliance with existing sign-in requirements (Student Housing Services and licensed establishments), to have visitors on campus. As their sponsor, you have the personal RESPONSIBILITY to ensure that your guests abide by these regulations.

3. Firearms and other Weapons. Firearms, any other weapons, firecrackers, gunpowder, or any other forms of unauthorized explosive or volatile materials are prohibited on campus.

Judicial Processes

Every student has a RIGHT to a full and fair hearing, by an impartial tribunal, of the merits of any charge brought against him or her under these regulations. Every student who is charged with a non-academic offence has a right to present a full and complete defense, and to be accompanied by an advisor (or legal counsel) at any hearing of the charge against him/her. Students charged are presumed innocent until found guilty on the basis of evidence presented, using the balance of probabilities as the standard of proof. The University has devised a process which provides for appropriate disciplinary penalties to be imposed. These penalties may include fines (up to $1,000), non-academic probation periods, warnings and, in extreme cases, a recommendation for suspension or expulsion.

Every student has a responsibility to comply with a Summons or Decision and Order of the Judicial Committee and/or Hearing Board. Failure to do so may constitute a breach of Student Rights and Responsibilities.

The President or designate may implement an interim suspension if, in his/her opinion, a student's conduct raises a reasonable apprehension of harm to the student or to others in the University community, or to the normal functioning of the University. A judicial proceeding will be undertaken as soon as possible to allow for a hearing of the case and, in any event, no longer than fourteen (14) working days from the date of the charging.

The Judicial Committee at the main campus and each Regional College has the authority to enforce these regulations if a breach of the regulations occurs off campus, which affects the rights of the members of the University community to use and enjoy University facilities.

Each Judicial Committee is an appointed tribunal of students, staff and faculty that hears reported incidents of student behaviour that represent alleged infractions of the student regulations and formal complaints against students under the policy Human Rights at the University of Guelph. The Judicial Committee may also act as an appeal body to hear appeals regarding decisions of a non-academic nature imposed by a University of Guelph department or Regional College where there is no other existing appeal process.

Decisions of a Judicial Committee may be appealed to the Hearing Board or in the case of the Regional Colleges, the Appeal Board. The Hearing/Appeal Board is a student/faculty/staff tribunal. The Board hears appeals from decisions of the Judicial Committee when one or more of the grounds for appeal are satisfied.

Further information on the Judicial process may be obtained from the Judicial Officer, Senate Office, 4th floor, University Centre, ext. 53116 (or from the Director's Office at each Regional College). Terms of Reference and Rules of Procedure documents for the Judicial Committee are available on-line at http://www2.uoguelph.ca/studentaffairs/home/documents/judicial_committee_terms_of_ref_000.pdf. Frequently asked questions for charges under Student Rights and Responsibilities (SR&R) are available on-line at http://www2.uoguelph.ca/studentaffairs/home/documents/students_rights_responsibilities.pdf.

Comments on the document and specific suggestions for amendments or additions to the student regulations are welcome at any time and should be referred to the Office of Student Affairs.

Refer to the Human Rights at the University of Guelph document, available on-line at http://www.uoguelph.ca/hr/crc/

Students With Disabilities (CSD)

The University of Guelph is committed to ensuring equal access for students with disabilities. The University encourages applications from students with disabilities and will provide admission information to applicants in alternate formats (Braille, audio tape) upon request.

If you need assistance with the admission process or your marks do not reflect your ability, contact the Centre for Students with Disabilities or Admission Services (extension 58721) for further information.

All information that you provide is held in confidence and the disclosure of a disability will in no way jeopardize your chance of admission.

Upon admission, students requiring services and accommodations related to their disability must forward supportive documentation of their disability to the Centre for Students with Disabilities. In the case of students with learning disabilities, documentation should include a recent and valid psycho-educational assessment.

Services

The Centre for Students with Disabilities (CSD) works with students who have hearing, visual, learning, medical, physical or psychological disabilities. The Centre has a variety of resources providing support and resources that will facilitate success in the academic process. Resources such as taped texts, writing tutors, computer assisted technology, photocopy services, notetakers, interpreters and library assistance are available. Counselling is provided in the academic, financial, residential and personal areas. Advisors will also liaise with faculty to ensure that the proper classroom and exam accommodations are available to the student. A learning disabilities strategist is available to provide students with learning disabilities learning strategy instruction and counselling related to their disability. The CSD is located on the 3rd floor, University Centre, extension 56208.

University Bookstore

The University Bookstore Located in the MacNaughton Building, the Bookstore carries every text book required for all of your courses. Students can find everything they need for school right on campus! This is your “one-stop-shop” for textbooks, additional reading material and school supplies. The University Bookstore also carries an impressive selection of University clothing and giftware. For additional information, please visit the University Bookstore website at: http://bookstore.uoguelph.ca/home.htm

Students can relax and enjoy the comfortable surroundings and full line of Tim Hortons products including hot and cold beverages, baked goods, sandwiches, soups and chili. Pages is open Monday through Friday.

University Centre

The University Centre exists both as a service and community centre. The University Centre is governed by a Board composed of representatives from the University Centre user groups, including undergraduate and graduate students, faculty, administration, staff and alumni. This group of people, appointed on a two-year basis, is charged with the responsibility of ensuring the University Centre's goals are met through policy and planning. Within the Centre, numerous administrative departments, commercial services, student organizations and programming facilities exist for the convenience and enjoyment of all members of the University Community. A wide variety of shops and services are located on the first floor of the University Centre surrounding an open courtyard.

Centre Six Food Court opens early and closes late, offering a wide array of specialty shops including Nature's Best Vegetarian, Exhibition Cooking and the Wokathon. Enhancing the variety are several popular brands such as Subway, Tim Hortons, Williams Coffee Pub, Taco Bell, KFC and the Pita Pit.

The University Centre Variety and Gift Shop, located on the main floor, carries a wide selection of greeting cards, magazines, gift items and provides a full service Post Office.

The Daily Grind is a casual coffeehouse serving Starbucks and fairly traded coffees, Booster Juice, toasted sandwiches, gourmet pizza, and delicious baked goods plus an extensive selection of grab'n go sandwiches and salads. This is a great place to meet with friends, study, read or watch your favourite TV shows.

The Brass Taps (level 2), with its relaxed atmosphere and excellent weekly entertainment line-up (never a cover!), is a favourite campus meeting spot. The Taps kitchen offers a wide range of daily specials and a menu geared to the many diverse appetites found on campus. Meal Plans accepted.

The Programming Department offers a wide selection of entertainment and cultural events to the University Community. As well, this department offers students, staff and faculty assistance in setting up their own entertainment programs on campus. The Performance Season features concerts and plays held both on and off campus at such locations as the River Run Centre, War Memorial Hall and Peter Clark Hall.

The Programming Office presents a number of weekend fairs of interest to students, faculty and staff. The most successful and popular of these has proven to be Fair November, our annual fall Craft Show.

On Level 0 the facilities include the Music Practice Room, the Off Campus Student Lounge, Mail Services, and Loading Dock with courier pick up and delivery service. Peter Clark Hall is located in this level as well.

Space and operational facilities are also provided for the various clubs and organizations of the Central Student Association, the Ontarion (a weekly campus tabloid newspaper) and CFRU-FM or Radio Gryphon. The CUPE 3913 office is also located on this level.

Levels 3 holds many meeting rooms which can be booked through the University Centre Administration office. The CUPE 1334 office is also located on this level. Administrative offices are located on this level and include the Office of Registrarial Services, Co-operative Education & Career Services, Student Life and Counselling Services, Undergraduate Academic Information Centre, and The Centre for Student's with Disabilities.

Level 4 North houses meeting rooms and the Steelworkers Union Office and Catering and Conference Services for the University.

Level 4 South houses the University's Administrative Offices.

Level 5 North houses the University Club (formerly the Faculty Club), the Graduate Students' Association and the Older-Than-Average Students Lounges. Other facilities include the Graduate Students' Association Administrative Office, the Chapel and the Professional Staff Association.

Level 5 South houses the University's Financial Services, Purchasing and Human Resources Departments.

The University Centre is a meeting place for people engaged in a wide spectrum of activities. It is the focal point or "living room" for the University Community and was built for the benefit of its many user groups.

The University Club (formerly the Faculty Club), the Graduate Students' Association and the Older-Than-Average Students have lounges on Level 5 of the University Centre. Other facilities include the Music Practice Room. Administrative offices are located on Levels 3, 4 and 5 of the University Centre including the Office of Registrarial Services, Office of Student Affairs, Co-operative Education & Career Services, Student Life and Counselling Services and Financial Services. The University Centre is a meeting place for people engaged in a wide spectrum of activities. It is the focal point or "living room" for the University Community and was built for the benefit of its many user groups.

University I.D. Cards

A University I.D. Card is issued to each student registered at the University. The following regulations apply:

1. The University of Guelph Card must have: the University of Guelph logo; the cardholder's surname, initials and identification number; a colour photograph of the cardholder; the cardholder's signature; a bar code for Library check-out privileges; a magnetically encoded stripe on the back of the card; and a brief summary of the rules and regulations for use of the card.

2. The Card is the property of the University of Guelph and may only be used for identification purposes.

3. The Card is not transferable and the cardholder will be responsible for all use made of the Card unless and until written notice is received by Undergraduate Program Services, Office of Registrarial Services.

4. Presentation of the Card will be required before certain University services will be extended. University services may be denied to an individual who does not present a valid card.

5. The Card may not be retained as collateral for any University service except for those services holding and displaying a permit, signed by the Registrar authorizing the withholding of the student, faculty or staff identification card for short periods while that person is utilizing the services offered.

6. A University Card will be issued to each new student. New students who do not obtain a card must contact Undergraduate Program Services, Office of Registrarial Services, Level 3, University Centre for assistance.

7. Loss or finding of the University Card should be reported to Undergraduate Program Services, Office of Registrarial Services, Level 3, University Centre, during regular University office hours. At other times, a preliminary notification may be made during Library hours at the Circulation Information Desk on the main floor of the Library.

8. Replacement charge is $20.00.

Glossary

Academic Evaluation
The Academic Evaluation Report is a report of a student's academic progress towards the completion of a specified program and specialization.

Academic Sanction
Academic sanction is the penalty applied to students who fail to make payment, or receive clearance to graduate; and/or may not be allowed to register for a subsequent semester.

Academic Session
See Academic Term.

Academic Term
An academic term is an independent academic period of 15 weeks, half of an academic year. Also referred to as a semester (see definition below).

Academic Year
An academic year is two semesters; undergraduate traditionally classified as first year (freshman), second year (sophomore), third year (junior), or fourth year (senior). Under the semester system this classification has less meaning than under a whole year system but is occasionally used to indicate the level at which a student has arrived.

Add Period
The add period takes place at the beginning of the semester where students are permitted to add courses for the current semester.

Assigned Grade
An assigned grade is a numerical grade based on the instructor's recommendation and granted by the Program Committee to students who have not completed course requirements.

Audit
An audit is registration in a course for which degree or diploma credit is not sought. Audited courses are not reported on the official transcript or academic record.

Baccalaureate
Baccalaureate refers to an undergraduate degree awarded by the University upon successful completion of the requirements of a program.

Class Days
Class days are used to express deadlines. Class days are calculated from the start of the regular class schedule. (See Schedule of Dates).

Class Level
Class level is a determination of a student's progression in an academic program by credit weights with increments of 2.50.

Clearance to Graduate
Clearance to graduate denotes that an applicant for graduation has satisfied all program requirements and is recommended for graduation.

Compassionate Grounds
Compassionate grounds are reasons of a serious personal nature which, subject to the approval of a committee or authorized person, justifies a variation of the rules in the case of a particular student.

Concurrent Course
A concurrent course must be taken concurrently with (if not taken prior to) another specified course.

Core Course
A core course is one which is listed in a schedule of studies in the Undergraduate Calendar and identified as being a required course for a program.

Corequisite
A corequisite is a course where the content is integrated with that of another course such that the courses must be taken simultaneously.

Course
A course is an organized unit of study extending over a semester, (e.g. Economics ECON*1100).

Course Attempt
A course attempt reflects the situation where a student has completed courses either satisfactorily or unsatisfactorily.

Course Equate
Equate indicates a course identical to the one under which it is listed. The course may have been re-numbered or may be cross-listed under two subject areas. Students will not be permitted to register in equated courses.

Course Level
Course level denotes the seniority of a course. 1000-level and 2000-level courses are considered first year and second year courses. 3000-level and 4000-level courses are considered senior level courses.

Course Load
Course load denotes the total weight of the credits in which a student is enrolled determining part-time or full-time status.

Course Restriction
A restriction is a "rule" that is placed on the computer system (Colleague) at the direction of an academic department so that particular students may not register in particular courses. The course may be restricted because there is sufficient overlap in content with another course so that it is inappropriate for the student to take a similar course for credit. In a different instance, the course may be restricted by "Instructor Consent" so that the student must discuss the special requirements of the course with the instructor before enrolling. Or, alternatively, the restriction may reflect a "Priority Access" designation for enrollment management purposes. (See Priority Access).

Course Section
A course section is a subgroup of a course that denotes time and location.

Course Selection
Course selection is the process by which students select course sections for the succeeding semesters.

Credit
A credit is a unit of academic measurement equivalent to a single-weighted one-semester course.

Credit Standing
Credit standing (CRD) denotes that the student has successfully completed a course, but was not assigned a numerical grade.

Cumulative Average
Cumulative Average is calculated by dividing the weighted course total by the total credit attempts over all semesters.

Deferred Privilege
A deferred privilege (DEF) is a temporary extension of time granted at the discretion of a Program Committee to a student for completion of the requirements of a course, normally for illness or compassionate reasons.

Diploma Program Calendar
The Diploma Program Calendar is an annual publication containing official information about Associate Diploma Programs and regulations of the University of Guelph and its colleges at Alfred, Kemptville, and Ridgetown. Sometimes called the Diploma Catalogue or Bulletin.

Double-weighted Course
A double-weighted course is a one-semester course.

Drop Period
The drop period for single semester courses starts at the beginning of the add period and extends to the 40th class day where students are permitted to drop a course for the current semester.

Equate - see Course Equate

Elective
An elective is a course, acceptable within the program but chosen at the discretion of the student.

A schedule of studies is the requirements for specializations, majors, minors, and various levels of concentration of study within a degree program, including programs without specialization. Schedules of studies are completed within a specific degree program and must normally be declared by the start of semester 3. Students need to be aware that progress within a program and graduation with a degree from that program depends upon a) the degree program requirements, and b) the requirements for the declared schedule of studies.
