- Ontario Student Opportunity Trust Fund (OSOTF) Program
- How Awards are Paid

The University reserves the right to amend awards subject to the availability of funds.

## **Entrance Scholarships**

## Amos & William Lowe Memorial Scholarship [E0158]

Endowed by the late William B. Lowe of Fort Francis, Ontario. Preference will be given first to eligible students from the district of Rainy River, then from the district of Kenora or Thunder Bay, and finally from the remaining districts of Northern Ontario. Application not required. Two awards of \$1,250 paid in two installments of \$625.

Donor(s):	William B. Lowe and Amos Edgar Lowe
-----------	-------------------------------------

 Qualification(s):
 Student entering any of the undergraduate degree programs of the Ontario Agricultural College.

 Amount:
 2 awards of \$1.250

. . . . .

## Angelo and Frank Agro Undergraduate Scholarship [E0520]

This \$7,000 (\$1,750 annually for four years) scholarship is provided by the Agro Scholarship Fund. Apply by April 1 to Student Financial Services, including a covering letter describing your past activities within 4H and a letter from a 4H club official describing your past activities with the organization. The scholarship will be awarded to the eligible student demonstrating the most active involvement with 4H clubs; the committee will consider any appropriate elements, such as the length of membership in 4H, leadership role(s) in support of 4H, creativity in 4H outreach, and coordination with other rural and academic activities. Credit will be given to those who have achieved in county, provincial and national 4H competitions. Recipients must maintain full-time studies and at least a 70% program average each year for continuation of the award.

## Donor(s): The Frank Agro Estate

201101 (0).	0
Qualification(s):	Full-time students entering semester 1 who have attained a minimum
	75% admission average and completion of a minimum of 10 4H
	projects.
Amount:	4 awards of \$7,000

## Board of Governors' Scholarships [E0317]

The scholarship will be paid in eight equal installments with the first and second payments payable shortly after registration in semesters 1 and 2. The 3rd to 8th payments are contingent upon obtaining a minimum average of 80% over the previous two semesters of full-time study. Students who fail to qualify for a payment may re-qualify by subsequently obtaining an 80% or better average over the previous two semesters of full-time study. Application not required. Twenty-five awards of \$8,000 (\$2,000 annually for 4 years).

## Donor(s): Board of Governors

Qualification(s):Outstanding students entering semester 1Amount:25 awards of \$8,000

## Dr. C. John Small Commonwealth Scholarship [I0611]

Established in honour of Dr. C. John Small, OAC BSA '42, Hon D. Law '75, and his lifelong dedication to foreign service. Selection will be based on the assessment of : (a) a one-page submission describing the significance for the student visiting Guelph to the program of study at the partner exchange University, (b) two faculty references of no more than one-page each, and (c) consistent high performance in course work completed, as documented by a transcript of program grades to date. Apply to the Centre for International Programs by May 1 for visiting during the subsequent Fall or Winter semesters with the above mentioned documents.

## Donor(s): Mrs. Jean K. Small

Qualification(s):	Full-time visiting exchange students registered for at least one semester
	from a Commonwealth developing country who are pursuing studies
	or conducting research in the area of agriculture and rural development.

( - ) -	The J.D. MacLachlan Trust
Qualification(s):	Student entering the University with the highest admission average.
Amount:	1 award of \$1,500

## James MacMillan Memorial Scholarship [I0494]

Established in memory of James MacMillan, his great uncle, by Austin Conway of Toronto. Apply with a completed Financial Need Assessment Form (N.A.F.) to Student Financial Services by October 7.

## Donor(s): Austin Conway

Qualification(s):	Kemptville College graduate with high academic standing (a minimum	
	75% cumulative average) who registers in the O.A.C. degree program	
	in Agriculture or in Agriculture and Business. Financial need may also	
	be considered.	
Amount:	1 award of \$2,500	

## Lincoln Alexander Chancellor's Scholarship [E0493]

These scholarships of \$26,000 (\$6,500 annually) plus the opportunity for a summer research assistanship after the first year of study (approximately \$6,000 stipend) were established in honour Lincoln Alexander, Chancellor of the University of Guelph and former Lieutenant Governor of Ontario, on his 80th birthday. They are intended to enhance student diversity and are amongst the most prestigious entrance awards at the University of Guelph. Students cannot apply directly for this award. Nominations must be made by each high school. Each high school can nominate one student who cannot be the President's Scholarship nominee. The nomination process is a two-part process: (a) the school's nomination and (b) the student's supporting documentation. This is outlined in the material sent to each high school in Canada from the University of Guelph each fall. High schools must submit the complete application (both parts) directly to the Associate Registrar, Student Financial Services by Feb. 1.

## Donor(s): Many Donors Qualification(s): Entering students of academic distinction who are Aboriginal, persons with a disability or members of a racial minority, and who have made

	with a disability or members of a racial minority, and who have made
	significant contributions to their schools and communities and
	demonstrated the potential to become leaders in society. Financial need
	may be taken into consideration.
Amount:	2 awards of \$26,000

## McArthur-Humphries Scholarship [E0183]

Provided by the Wilhelmina McArthur-Humphries Trust Fund. This scholarship is awarded to students entering any undergraduate degree program and are based on the highest admission average. Application not required.

Donor(s): Wilhelmina McArthur-Humphries Trust Fund

 Qualification(s):
 Students entering semester 1 with a minimum 75% admission average.

 Preference will be given to those students from Lanark and Wellington
 Counties. An equal number of awards are available to students from each county. In the case of insufficient eligible applicants from one county, the awards will be given to eligible applicants from the other county.

 Amount:
 12 awards of \$1,000

## P.A.J. Clarke Family Scholarship [E0381]

Paul and Aileen Clarke and their family established the endowment for this entrance scholarship in honour of Paul's father, the late Jack Clarke, a Blenheim area farmer. Apply by letter outlining extracurricular and/or community activities, ensuring that you have completed a Financial Need Assessment Form (N.A.F.) for Entrance Awards, and submit to Student Financial Services by April 1. Students who have applied to the University for admission will receive information on completing a Financial Need Assessment Form (N.A.F.) for Entrance Awards from the University early in the calendar year. This award is not tenable with the President's or Lincoln Alexander Chancellor's Scholarship. Annual payments are contingent upon full-time enrolment and maintaining a minimum 70% average on the previous Fall and Winter semesters. One award of \$12,000 (\$3,000 annually for 4 years).

```
        Donor(s):
        Paul and Aileen Clarke

        Qualification(s):
        Students with a minimum 80% average with a record of leadership and community participation are eligible. Preference will be given to candidates from Blenheim district or Kent County and who were raised, or have worked, on a farm. Students may be contacted to provide special need circumstances if there is a short list of equal candidates.

        Amount:
        1 award of $12,000
```

## President's Scholarship [E0238]

The most prestigious entrance awards at the University of Guelph. Twelve scholarships of \$26,000 (\$6,500 annually) plus the opportunity for a summer research assistanship after the first year of study (approximately \$6,000 stipend), named to honour their donors or distinguished members of the University. Students cannot apply directly for this award. Nominations must be made by each high school. Each high school can nominate two students; one entering a science program and one entering an arts/social science/humanities program. The nomination process is a two-part process: (a) the school's nomination and (b) the student's supporting documentation. This is outlined in the material sent to each high school in Canada from the University of Guelph each fall. High schools must submit the complete application (both parts) directly to the Associate Registrar, Student Financial Services by Feb. 1.

# Donor(s): A number of President's Scholarships have been named in honour of the following people and/or donors: Dick Brown Dick Brown

Two of the scholarships, endowed by Dr. Patrick Lett are awarded to winners whose leadership qualities best reflect those demonstrated by Dick Brown in University Athletics from 1968 to 1988.

#### Cecil H. Franklin and Ingrid Franklin

In honour of Cecil Franklin, former Chair of the Board of Governors and Honorary Fellow of the University, the University of Guelph has named one of these twelve prestigious entrance awards to recognize his financial contributions and volunteer support to the President's Entrance Scholarship program.

## **Charles S. Humphrey**

In memory of Charles S. Humphrey, a former President of Hart Chemical Company Canada Ltd. and long-time friend, the University has named one of these twelve prestigious entrance awards to recognize his financial contribution through his estate to the President's Entrance Scholarship program.

#### Jack R. Longstaffe

The University of Guelph has named one of these twelve prestigious entrance awards in memory of Jack R. Longstaffe to recognize his financial contribution through his estate to the President's Entrance Scholarship program.

#### Burton C. Matthews

The University of Guelph has named one of these twelve prestigious entrance awards in honour of Burton C. Matthews to recognize his insight and leadership in establishing the President's Entrance Scholarship program.

#### Kathleen and Frederick Metcalf

Mr. and Mrs. F.T. Metcalf of Guelph have endowed this award. After a distinguished career in cable TV, broadcasting and publishing, the late Mr. Metcalf retired as President of Maclean Hunter Ltd. and Chairman of the Board of Maclean Hunter Cable Ltd. He was Honorary Chairman of Maclean Hunter Cable Ltd. and a member of the University of Guelph Heritage Board (1996).

#### **Rol-land Farms Limited**

Two of the scholarships are endowed by the four shareholders of Rol-land Farms Limited of Blenheim, Ontario, Hank, Peter, Arthur and Eric Vander Pol and their families. The Vander Pol families are generous supporters of a number of University projects and programs.

#### Lillian Stewart Usher

The University of Guelph has named one of these twelve prestigious entrance awards in honour of Lillian Stewart Usher a friend of the University to recognize her financial contribution through her estate to the President's Entrance Scholarship program.

 Qualification(s): Entering students of academic distinction who have made significant contributions to their schools and communities and demonstrate the potential to become leaders in society.

 Amount:
 12 awards of \$26,000

## Quinn Memorial Scholarship [E0578]

Established in memory of Ronald J. Quinn (O.A.C. '35) to an entering O.A.C. international full-time or exchange undergraduate or graduate student. Selection will be based on academic performance, letters of reference and an assessment of the admission application package. Application not required.
 Donor(s): Mrs. Helen Quinn (O.A.C. '35)
 Qualification(s): Entering semester one of an O.A.C. program to an undergraduate or graduate international full-time student or to an international exchange student with a preference to those students from developing nations. Amount: 1 award of \$1,500
 Robert Thompson Scholarship [E0283]
 Established in memory of the late Robert Thompson. Application not required.
 Donor(s): The estate of Mrs. Sarah Jane Fiske

180 I.X. Scholarships and Other Awards, Bachelor of Science in Agriculture		
The Jack and Lillian MacDonald Scholarship [E0379]	Devine Family Scholarship [E4542]	
<ul> <li>Family, friends, and colleagues of Lillian MacDonald and Dr. Jack MacDonald, Vice-President, Academic, of the University of Guelph from 1986 to 1995, have established a scholarship that recognizes their commitment to increasing the accessibility of post-secondary education to aboriginal persons. Apply by letter to Student Financial Services by April 1.</li> <li>Donor(s): Jack and Lillian MacDonald Qualification(s): In the first instance, the award will be given to an entering student coming from the Grand River Polytechnical Institute (GRPI) and who has received the highest cumulative average in the Native University Access Program. If there is no entering student in any one year, the scholarship will be awarded to the in-course student who is a graduate of the GRPI who has the highest cumulative average at the University.</li> </ul>	On behalf of the Devine Family, Mr. Peter J. Devine, a Board of Governors member, with the assistance of the Ontario government's OTSS program, established this award for the purpose of diversifying the campus student body and fostering the participation of students of African Canadian descent in undergraduate programs. This award will be given out once every four years. The recipient of this award must maintain a minimum cumulative average of 70%, a minimum course registration of 2.0 credits and continue to demonstrate financial need to receive their award payments in years 2, 3 and 4. Students should complete the online Financial Need Assessment Form for Entrance Awards (E.N.A.F.) application as soon as they receive their Acknowledgement Package from Admission Services (this will come automatically after an application for admissions has been submitted by the student) and complete the "Devine Family Scholarship Application". Deadline to submit the complete application (both parts, the E.N.A.F. and the application) is May 1. Scholarship offers will be made in May. This award is not	
University of Guelph Entrance Scholarships [E0291]	tenable with the President's Scholarship or the Lincoln Alexander Chancellor's Scholarship, but can be held with all other entrance awards. ACCESS AWARD.	
This scholarship is based on the final admission average and program of study that is calculated by Admission Services, based on 12U, 12M, or O.A.C. courses. These will be awarded based on the final high school grades that are submitted to the University in July. A minimum 85% final admission average guarantees an award. The scholarship will be applied directly to the student's financial account in two equal payments in the Fall and Winter Semesters. You can view the scholarship amounts at: http://www.uoguelph.ca/studfin/fall_current_merit.shtml. Application not required.	Donor(s):       Mr. Peter J. Devine         Qualification(s):       Students entering any degree program with a minimum 80% admission average, who are Aboriginal, person with a disability, or a member of a racial minority with demonstrated financial need. Preference will be given to students of African Canadian descent. Additionally, students must meet the government-mandated terms for receipt of an OTSS award (see General Statements on Awards).	
Donor(s): University of Guelph	Amount: 1 award of \$25,000 (payable over 4 years of study)	
<i>Qualification(s):</i> Students entering their first year of post-secondary studies for the first time and have a minimum 85% admission average.	Kenneth O. Hammill-Blount Canada Scholarship [E4356]	
Amount: Several awards ranging in value from \$2,000 to \$3,000	Established in honour of Kenneth Osborne Hammill, a long time friend of the University	
<ul> <li>University of Guelph Faculty Association Scholarship [E0292]</li> <li>Award is payable at \$750 per annum in the student's 1st, 3rd, and 5th semester levels, provided a cumulative average of at least a 70% is maintained. To receive the final payment, the recipient would normally be entering the 5th semester level within a period of 3 calendar years from the date of admission. Application not required.</li> <li>Donor(s): University of Guelph Faculty Association</li> <li>Qualification(s): Student entering an undergraduate degree program at the University of Guelph with the highest admission average who has been a resident in the County of Wellington during the previous twelve months.</li> <li>Amount: 1 award of \$2,250</li> <li>W. Penri Morris Memorial Scholarship [E0430]</li> <li>Established by the family in memory of Penri Morris, who was killed World War II action in 1944 at the age of 21. Penri grew up on the family fruit farm near Forest, Ontario. After graduating from high school, he joined the Royal Canadian Air Force and was attached to the Royal Air Force Bomber Command as a navigator at the time of this death. Awarded to the student with the highest cumulative academic performance above 75% in all courses of the last year in high school study (full-time or equivalent study). Application not required.</li> <li>Donor(s): Prof. Rosalina Morris</li> <li>Qualification(s): Students entering first year of any undergraduate program from North Lambton Secondary School in Forest, Ontario.</li> <li>Amount: 1 award of \$1,000</li> </ul>	and retired plant manager of Blount Canada, with the assistance of the Ontaric government's OSOTF program. The winner is chosen from the list of alternates for the President's Scholarships. President's Scholarship nominees should complete the online Financial Need Assessment Form (N.A.F.) application as soon as they receive their Acknowledgement Package from Admission Services (this will come automatically after an application for admissions has been submitted by the student). Deadline to submit the application is May 1. ACCESS AWARD. <i>Donor(s):</i> <b>The Blount Foundation, Inc.</b> <i>Qualification(s):</i> Students from the Province of Ontario, with demonstrated financial need, entering one of the following programs on an annual rotation: B.A. in 98/99, then B.A.Sc., B.Comm., B.Sc., B.Sc.(Agr.), B.ENG., B.Sc.(Env.). Recipients must maintain a B+ average or higher, continue to demonstrate financial need and be full-time students in order to qualify for subsequent installments. During the summer after the 3rd year, the scholars will propose, to Student Financial Services, an enrichment experiential undertaking related to the student's field of study; the grant application should include a detailed budget. A grant of up to \$1,200 is available to support the undertaking, subject to continuing financial need and approval of the proposal by Student Financial Services. Upon completion , the student will write a report of the experience to Student Financial Services. Additionally, students must meet the government-mandated terms for receipt of an OSOTF award (see General Statements on Awards). <i>Amount:</i> 1 award of \$9,600, payable in 8 payments of \$1,200	
Entrance Scholarships with Financial Need	Established by the University of Guelph to support entering undergraduate students with

The University of Guelph has named one of these twelve prestigious entrance awards in honour of Lillian Stewart Usher a friend of the University to recognize her financial contribution through her estate to the President's Entrance Scholarship program.

 Qualification(s): Entering students of academic distinction who have made significant contributions to their schools and communities and demonstrate the potential to become leaders in society.

 Amount:
 12 awards of \$26,000

## The Jack and Lillian MacDonald Scholarship [E0379]

Family, friends, and colleagues of Lillian MacDonald and Dr. Jack MacDonald, Vice-President, Academic, of the University of Guelph from 1986 to 1995, have established a scholarship that recognizes their commitment to increasing the accessibility of post-secondary education to aboriginal persons. Apply by letter to Student Financial Services by April 1.

## Donor(s): Jack and Lillian MacDonald

Qualificati	ion(s): In the first instance, the award will be given to an entering student
	coming from the Grand River Polytechnical Institute (GRPI) and who
	has received the highest cumulative average in the Native University
	Access Program. If there is no entering student in any one year, the
	scholarship will be awarded to the in-course student who is a graduate
	of the GRPI who has the highest cumulative average at the University.
Amount:	1 award of \$900

University of Guelph Entrance Scholarships [E0291]	Devine Family Scholarship [E4542]
This scholarship is based on the final admission average and program of study that is calculated by Admission Services, based on 12U, 12M, or O.A.C. courses. These will be awarded based on the final high school grades that are submitted to the University in July. A minimum 85% final admission average guarantees an award. The scholarship will be applied directly to the student's financial account in two equal payments in the Fall and Winter Semesters. You can view the scholarship amounts at: http://www.uoguelph.ca/studfin/fall_current_merit.shtml. Application not required. Donor(s): University of Guelph Qualification(s): Students entering their first year of post-secondary studies for the first time and have a minimum 85% admission average. Amount: Several awards ranging in value from \$2,000 to \$3,000	On behalf of the Devine Family, Mr. Peter J. Devine, a Board of Governors member, with the assistance of the Ontario government's OTSS program, established this award for the purpose of diversifying the campus student body and fostering the participation of students of African Canadian descent in undergraduate programs. This award will be given out once every four years. The recipient of this award must maintain a minimum cumulative average of 70%, a minimum course registration of 2.0 credits and continue to demonstrate financial need to receive their award payments in years 2, 3 and 4. Students should complete the online Financial Need Assessment Form for Entrance Awards (E.N.A.F.) application as soon as they receive their Acknowledgement Package from Admission Services (this will come automatically after an application for admissions has been submitted by the student) and complete the "Devine Family Scholarship
University of Guelph Faculty Association Scholarship [E0292]	Application". Deadline to submit the complete application (both parts, the E.N.A.F. and the application) is May 1. Scholarship offers will be made in May. This award is not
Award is payable at \$750 per annum in the student's 1st, 3rd, and 5th semester levels, provided a cumulative average of at least a 70% is maintained. To receive the final payment, the recipient would normally be entering the 5th semester level within a period of 3 calendar years from the date of admission. Application not required.         Donor(s):       University of Guelph Faculty Association         Qualification(s):       Student entering an undergraduate degree program at the University of Guelph with the highest admission average who has been a resident in the County of Wellington during the previous twelve months.         Amount:       1 award of \$2,250	<ul> <li>tenable with the President's Scholarship or the Lincoln Alexander Chancellor's Scholarship, but can be held with all other entrance awards. ACCESS AWARD.</li> <li>Donor(s): Mr. Peter J. Devine</li> <li>Qualification(s): Students entering any degree program with a minimum 80% admission average, who are Aboriginal, person with a disability, or a member of a racial minority with demonstrated financial need. Preference will be given to students of African Canadian descent. Additionally, students must meet the government-mandated terms for receipt of an OTSS award (see General Statements on Awards).</li> </ul>
W. Penri Morris Memorial Scholarship [E0430]	Amount:       1 award of \$25,000 (payable over 4 years of study)         Kenneth O. Hammill-Blount Canada Scholarship [E4356]

#### **Entrance Scholarships**

#### Angelo and Frank Agro Undergraduate Scholarship [E0520]

This \$7,000 (\$1,750 annually for four years) scholarship is provided by the Agro Scholarship Fund. Apply by April 1 to Student Financial Services, including a covering letter describing your past activities within 4H and a letter from a 4H club official describing your past activities with the organization. The scholarship will be awarded to the eligible student demonstrating the most active involvement with 4H clubs; the committee will consider any appropriate elements, such as the length of membership in 4H, leadership role(s) in support of 4H, creativity in 4H outreach, and coordination with other rural and academic activities. Credit will be given to those who have achieved in county, provincial and national 4H competitions. Recipients must maintain full-time studies and at least a 70% program average each year for continuation of the award.

#### Donor(s): The Frank Agro Estate

Qualification(s):	Full-time students entering semester 1 who have attained a minimum
	75% admission average and completion of a minimum of 10 4H
	projects.
Amount:	4 awards of \$7,000

#### Board of Governors' Scholarships [E0317]

The scholarship will be paid in eight equal installments with the first and second payments payable shortly after registration in semesters 1 and 2. The 3rd to 8th payments are contingent upon obtaining a minimum average of 80% over the previous two semesters of full-time study. Students who fail to qualify for a payment may re-qualify by subsequently obtaining an 80% or better average over the previous two semesters of full-time study. Application not required. Twenty-five awards of \$8,000 (\$2,000 annually for 4 years).

Donor(s):	Board of Governors
Qualification(s):	Outstanding students entering semester 1
Amount:	25 awards of \$8,000

Qualification(s):	0 1

Provided by the Wilhelmina McArthur-Humphries Trust Fund. This scholarship is awarded to students entering any undergraduate degree program and are based on the highest admission average. Application not required.

Donor(s):	Wilhelmina McArthur-Humphries Trust Fund
Qualification(s	): Students entering semester 1 with a minimum 75% admission average.
	Preference will be given to those students from Lanark and Wellington
	Counties. An equal number of awards are available to students from
	each county. In the case of insufficient eligible applicants from one
	county, the awards will be given to eligible applicants from the other
	county.
Amount:	12 awards of \$1,000

#### P.A.J. Clarke Family Scholarship [E0381]

Paul and Aileen Clarke and their family established the endowment for this entrance scholarship in honour of Paul's father, the late Jack Clarke, a Blenheim area farmer. Apply by letter outlining extracurricular and/or community activities, ensuring that you have completed a Financial Need Assessment Form (N.A.F.) for Entrance Awards, and submit to Student Financial Services by April 1. Students who have applied to the University for admission will receive information on completing a Financial Need Assessment Form (N.A.F.) for Entrance Awards from the University early in the calendar year. This award is not tenable with the President's or Lincoln Alexander Chancellor's Scholarship. Annual payments are contingent upon full-time enrolment and maintaining a minimum 70% average on the previous Fall and Winter semesters. One award of \$12,000 (\$3,000 annually for 4 years).

# Donor(s): Paul and Aileen Clarke

 Qualification(s):
 Students with a minimum 80% average with a record of leadership and community participation are eligible. Preference will be given to candidates from Blenheim district or Kent County and who were raised, or have worked, on a farm. Students may be contacted to provide special need circumstances if there is a short list of equal candidates.

 Amount:
 1 award of \$12,000

#### President's Scholarship [E0238]

The most prestigious entrance awards at the University of Guelph. Twelve scholarships of \$26,000 (\$6,500 annually) plus the opportunity for a summer research assistanship after the first year of study (approximately \$6,000 stipend), named to honour their donors or distinguished members of the University. Students cannot apply directly for this award. Nominations must be made by each high school. Each high school can nominate two students; one entering a science program and one entering an arts/social science/humanities program. The nomination process is a two-part process: (a) the school's nomination and (b) the student's supporting documentation. This is outlined in the material sent to each high school in Canada from the University of Guelph each fall. High schools must submit the complete application (both parts) directly to the Associate Registrar, Student Financial Services by Feb. 1.

# Donor(s):

#### A number of President's Scholarships have been named in honour of the following people and/or donors:

#### Dick Brown

Two of the scholarships, endowed by Dr. Patrick Lett are awarded to winners whose leadership qualities best reflect those demonstrated by Dick Brown in University Athletics from 1968 to 1988.

#### Cecil H. Franklin and Ingrid Franklin

In honour of Cecil Franklin, former Chair of the Board of Governors and Honorary Fellow of the University, the University of Guelph has named one of these twelve prestigious entrance awards to recognize his financial contributions and volunteer support to the President's Entrance Scholarship program.

#### **Charles S. Humphrey**

In memory of Charles S. Humphrey, a former President of Hart Chemical Company Canada Ltd. and long-time friend, the University has named one of these twelve prestigious entrance awards to recognize his financial contribution through his estate to the President's Entrance Scholarship program.

#### Jack R. Longstaffe

The University of Guelph has named one of these twelve prestigious entrance awards in memory of Jack R. Longstaffe to recognize his financial contribution through his estate to the President's Entrance Scholarship program.

#### **Burton C. Matthews**

The University of Guelph has named one of these twelve prestigious entrance awards in honour of Burton C. Matthews to recognize his insight and leadership in establishing the President's Entrance Scholarship program.

#### Kathleen and Frederick Metcalf

Mr. and Mrs. F.T. Metcalf of Guelph have endowed this award. After a distinguished career in cable TV, broadcasting and publishing, the late Mr. Metcalf retired as President of Maclean Hunter Ltd. and Chairman of the Board of Maclean Hunter Cable Ltd. He was Honorary Chairman of Maclean Hunter Cable Ltd. and a member of the University of Guelph Heritage Board (1996).

#### **Rol-land Farms Limited**

Two of the scholarships are endowed by the four shareholders of Rol-land Farms Limited of Blenheim, Ontario, Hank, Peter, Arthur and Eric Vander Pol and their families. The Vander Pol families are generous supporters of a number of University projects and programs.

#### Lillian Stewart Usher

The University of Guelph has named one of these twelve prestigious entrance awards in honour of Lillian Stewart Usher a friend of the University to recognize her financial contribution through her estate to the President's Entrance Scholarship program.

Qualification	(s): Entering students of academic distinction who have made significant
	contributions to their schools and communities and demonstrate the
	potential to become leaders in society.
Amount:	12 awards of \$26,000

#### The Jack and Lillian MacDonald Scholarship [E0379]

Family, friends, and colleagues of Lillian MacDonald and Dr. Jack MacDonald, Vice-President, Academic, of the University of Guelph from 1986 to 1995, have established a scholarship that recognizes their commitment to increasing the accessibility of post-secondary education to aboriginal persons. Apply by letter to Student Financial Services by April 1.

#### Donor(s): Jack and Lillian MacDonald

Qualification(s):	In the first instance, the award will be given to an entering student
	coming from the Grand River Polytechnical Institute (GRPI) and who
	has received the highest cumulative average in the Native University
	Access Program. If there is no entering student in any one year, the
	scholarship will be awarded to the in-course student who is a graduate
	of the GRPI who has the highest cumulative average at the University.
Amount:	1 award of \$900

#### University of Guelph Entrance Scholarships [E0291]

This scholarship is based on the final admission average and program of study that is calculated by Admission Services, based on 12U, 12M, or O.A.C. courses. These will be awarded based on the final high school grades that are submitted to the University in July. A minimum 85% final admission average guarantees an award. The scholarship will be applied directly to the student's financial account in two equal payments in the Fall and Winter Semesters. You can view the scholarship amounts at: http://www.uoguelph.ca/studfin/fall\_current\_merit.shtml. Application not required.

#### Donor(s): University of Guelph

Qualification(s):	Students entering their first year of post-secondary studies for the first
	time and have a minimum 85% admission average.
Amount:	Several awards ranging in value from \$2,000 to \$3,000

University of Guelph Faculty Association Scholarship [E0292]

Award is payable at \$750 per annum in the student's 1st, 3rd, and 5th semester levels, provided a cumulative average of at least a 70% is maintained. To receive the final payment, the recipient would normally be entering the 5th semester level within a period of 3 calendar years from the date of admission. Application not required.

# Donor(s): University of Guelph Faculty Association

Qualification(s):	Student entering an undergraduate degree program at the University
	of Guelph with the highest admission average who has been a resident
	in the County of Wellington during the previous twelve months.
Amount:	1 award of \$2,250

#### W. Penri Morris Memorial Scholarship [E0430]

Established by the family in memory of Penri Morris, who was killed World War II action in 1944 at the age of 21. Penri grew up on the family fruit farm near Forest, Ontario. After graduating from high school, he joined the Royal Canadian Air Force and was attached to the Royal Air Force Bomber Command as a navigator at the time of this death. Awarded to the student with the highest cumulative academic performance above 75% in all courses of the last year in high school study (full-time or equivalent study). Application not required.

#### Donor(s): Prof. Rosalina Morris

201101(5).	
Qualification(s):	Students entering first year of any undergraduate program from North
	Lambton Secondary School in Forest, Ontario, in their absence, from
	Lambton County, and their absence, from Ontario.
Amount:	1 award of \$1,000

#### W.C. Blackwood Memorial Entrance Scholarship in Physics [E0029]

Application not required.

	-
Donor(s):	Mr. B.A. Ward
Qualification(s):	Student entering the first semester level of the B.Sc. program, who
	declares the intention to pursue an honours program in Physics.
Amount:	1 award of \$550

#### **Entrance Scholarships with Financial Need**

# Bill Klopp Memorial Award [E0150]

Priority will be given to a student from Kitchener-Waterloo Collegiate and Vocational Institute. Apply by letter, to Student Financial Services, outlining extracurricular activities and by completing the online Financial Need Assessment Form (N.A.F.) by May 1. Students should complete the Financial Need Assessment Form (N.A.F.) application as soon as they receive their Acknowledgement Package from Admission Services (this will come automatically after an application for admissions has been submitted by the student).

#### Donor(s): Ross and Mary Lou Klopp

Qualification(s):	Presented to a student entering semester 1 from the cities of Kitchener
	or Waterloo who has demonstrated involvement in extracurricular
	activities who has shown satisfactory academic performance and who
	has financial need.
Amount:	1 award of \$500

#### Devine Family Scholarship [E4542]

On behalf of the Devine Family, Mr. Peter J. Devine, a Board of Governors member, with the assistance of the Ontario government's OTSS program, established this award for the purpose of diversifying the campus student body and fostering the participation of students of African Canadian descent in undergraduate programs. This award will be given out once every four years. The recipient of this award must maintain a minimum cumulative average of 70%, a minimum course registration of 2.0 credits and continue to demonstrate financial need to receive their award payments in years 2, 3 and 4. Students should complete the online Financial Need Assessment Form for Entrance Awards (E.N.A.F.) application as soon as they receive their Acknowledgement Package from Admission Services (this will come automatically after an application for admissions has been submitted by the student) and complete the "Devine Family Scholarship Application". Deadline to submit the complete application (both parts, the E.N.A.F. and the application) is May 1. Scholarship offers will be made in May. This award is not tenable with the President's Scholarship or the Lincoln Alexander Chancellor's Scholarship, but can be held with all other entrance awards. ACCESS AWARD.

#### Donor(s): Mr. Peter J. Devine

Qualification(s): Students entering any degree program with a minimum 80% admission average, who are Aboriginal, person with a disability, or a member of a racial minority with demonstrated financial need. Preference will be given to students of African Canadian descent. Additionally, students must meet the government-mandated terms for receipt of an OTSS award (see General Statements on Awards).

#### Amount: 1 award of \$25,000 (payable over 4 years of study)

#### Registrar's Entrance Scholarships [E0384]

Established by the University of Guelph to support entering undergraduate students with identified financial need. Students should complete the online Financial Need Assessment Form (N.A.F.) application as soon as they receive their Acknowledgement Package from Admission Services (this will come automatically after an application for admissions has been submitted by the student). Deadline to submit the application is May 1. Scholarship offers will be made in May. This award is not tenable with the University of Guelph Accessibility Scholarship, but can be held with all other Entrance Awards.

#### Donor(s): University of Guelph

Qualification(s):	Students entering a full-time undergraduate program on the basis of
	financial need and academic merit.
Amount:	500 awards of \$2,000

#### Rol-Land Farms Scholarships [E4519]

Established by Rol-Land Farms, with the assistance of the Ontario government's OSOTF program, to attract entering students who might otherwise not be able to attend university for financial reasons. Students should complete the online Financial Need Assessment Form (N.A.F.) application as soon as they receive their Acknowledgement Package from Admission Services (this will come automatically after an application for admissions has been submitted by the student). Deadline to submit the application is May 1. ACCESS AWARD

#### Donor(s): Rol-Land Farms

Qualification(s)	: Outstanding entering undergraduate degree students with demonstrated
	financial need and a minimum 80% cumulative average. Additionally,
	students must meet the government-mandated terms for receipt of an
	OSOTF award (see General Statements on Awards).
Amount:	13 awards of \$2,000

#### University of Guelph Accessibility Scholarship [E3038]

Established by the University of Guelph to support entering undergraduate students with identified financial need. Students should complete the online Financial Need Assessment Form (N.A.F.) application as soon as they receive their Acknowledgement Package from Admission Services (this will come automatically after an application for admissions has been submitted by the student). Deadline to submit the application is May 1. Scholarship offers will be made in May. This award is not tenable with the Registrar's Entrance Scholarship, but can be held with all other Entrance Awards. Approximately 150 awards of \$9,000 (\$3,000 in year one and \$2,000 in years 2, 3 and 4).

#### Donor(s): University of Guelph

Qualification(s):	Students entering a full-time undergraduate program on the basis of
	financial need and academic excellence.
Amount:	150 awards of \$9,000

# **Entrance Awards with Financial Need**

#### Harvey Graham Bursary [E3030]

Provided by Harvey Graham (O.A.C. '39). Students should complete the online Financial Need Assessment Form (N.A.F.) application as soon as they receive their Acknowledgement Package from Admission Services (this will come automatically after an application for admissions has been submitted by the student). Deadline to submit the application is May 1.

#### Donor(s): Harvey Graham, O.A.C. '39

	Qualification(s):	Student who has demonstrated financial need with preference given
		to a student who comes from a working farm. Students graduating
		from Lindsay C. V. I., Fenelon Falls Secondary School, or I. E. Weldon
		Secondary School will be considered. Each application must be
		accompanied by a reference letter from the Reeve of the student's home
		township.
ŀ	Amount:	1 award of \$1,700

#### International Student Entrance Bursaries [E3043]

In support of the University's strategic direction of internationalism, entrance bursaries are available each fall to assist some of our international students entering an undergraduate degree program at the University of Guelph. Students who have applied to the University of Guelph will receive an application form.

#### Donor(s): University of Guelph

Amount:

1 award of \$200

Qualification(s):	Students on a student visa entering an undergraduate degree program
	at the University of Guelph with demonstrated financial need.
Amount:	Several awards of \$1,000, Several awards of \$3,000

#### Robert Arthur Stewart Bursaries [E3272]

Established in memory of Mrs. Elsa H. Stewart of Pakenham, Ontario. Mr. Stewart graduated from the Ontario Agricultural College in 1933 and Mrs. Stewart from Macdonald Institute in 1932. Applicants for these bursaries should have a good academic record and an active interest in community affairs. A recommendation from the County agricultural representative or the secondary school principal is required and should be sent to Student Financial Services by April 1. Students should complete the online Financial Need Assessment Form (N.A.F.) application as soon as they receive their Acknowledgement Package from Admission Services (this will come automatically after an application for admissions has been submitted by the student).

Donor(s):	The Estate of Mrs. H. Stewart
Qualification(s):	Students from the Ontario Counties of Lanark and Renfrew, and the
	Regional Municipality of Ottawa-Carleton, entering the 1st semester
	of a degree program at the University of Guelph.

#### In-course Awards with Financial Need

# Bette Stephenson Accessibility Bursary [I3054]

In recognition of the work of Dr. Bette Stephenson in supporting students with learning disabilities, the University of Guelph offers bursaries to students who have demonstrated financial need and who have a learning disability. These bursaries will be used to offset the costs of a required assessment, or the purchase of a computer that is required to support their learning needs. Apply to Student Financial Services, with a completed Financial Need Assessment Form (N.A.F.) and a letter from the student's advisor in the Centre for Students with Disabilities in support of this request. These applications will be addressed throughout the semester to assist students when the need is required.

#### Donor(s): University of Guelph

 Qualification(s): Undergraduate students who have demonstrated financial need and who have a learning disability. Students must be full-time (as defined by OSAP regulations) and Canadian citizens or permanent residents.

 Amount:
 3 awards to a maximum of \$1,500

	Full-time D.V.M. student planning to attend the annual Society of
4	Theriogenology Conference
Amount:	1 award of \$1,000

# **Other Forms of Financial Assistance**

# Independent Study - O.A.C.

# Vera Bezeredy Memorial Prize in Communications

Established by the Ontario Diploma in Horticulture Graduates Association in memory of Vera Bezeredy, the first female ODH graduate. Apply to Independent Study/O.A.C. ACCESS by letter on or before April 1.

Qualification(s):	Graduating adult learner in the ODH program who, during the course of her or his studies, has demonstrably contributed to the public profile
	and understanding of horticulture and landscaping, and has a minimum
	"A" standing (average) at graduation. The prize recognizes skills in
	independent business communications - including public relations,
	marketing, and services/product promotion via new media/multimedia
	creation, public speaking, or print, audio and video
	publicity/communication.
Amount:	One award of \$450

# **Open Learning program Awards**

#### **Open Learning Bursaries**

Established by faculty, staff and friends of Open Learning. These funds are intended to provide support for non-degree students that are enrolled in an Open Learning Program (courses, certificates, and diplomas) in need of financial assistance. Apply, online, through the Office of Open Learning web site at www.open.uoguelph.ca/bursary by June 30 for consideration for Fall, Winter, and/or Spring semesters of study.

*Qualification(s):* Canadian citizens or permanent residents with the greatest financial need.

#### Amount: Two awards of \$250

Bruce Christie Entrance Scholarship in Agricultural Communications

In honour of his retirement, friends and colleagues of Bruce E. Christie P.Ag (Hon.)(OAC 1958A) provided donations to establish this \$1,500 scholarship. This award will further his long-time and dedicated interest in developing better communications between the agri-food industry and its various constituents, especially urban and rural populaces. Students entering the Diploma in Agricultural Communications program directly after graduating with a minimum 70% average from any undergraduate program in OAC are eligible. Selection will be based on the level of interest in agricultural communications career as demonstrated by the application materials. Financial need will also be considered. Apply to Open Learning Bursary Committee by April 1 with a one-page letter outlining your achievements in various correse taken during your undergraduate program and information regarding any financial need.

# Equine Science Certificate Scholarship

This scholarship provides the value of tuition for one course in the Equine Science Certificate program. The scholarship is available to Open Learning students who have completed two courses in the Equine Science Certificate Program with a minimum cumulative average of 80%. Apply to Senior Manage, Equine Guelph by February 12 with an essay of no more than two pages on the value of the program and its impact on the well-being of the student's horse. This award may be held only once.

#### Prof. H.J. Malik Statistics Prize

This \$150 prize is provided in honour of H.J. Malik, Professor Emeritus in the Department of Mathematics and Statistics, by family, colleagues and friends. Application not required. Open Learning program distance education student who has completed the courses STAT\*2060, Statistics for Business Decisions, with the highest attained grade over 80% in the previous year. All open Learning program students who complete this course in the previous spring, fall or winter semesters will automatically be considered the following May.

#### Stan Young Memorial Entrance Scholarship in Agricultural Communications

The family, friends, and colleagues of the late Dr. Stan Young (BSA '49) have established this \$1,300 scholarship as a tribute to Stan's accomplishments in the area of agricultural communications and to further his vision for a more proactive and focused education for people interested in promoting agricultural and food related issues. Students entering the Diploma in Agricultural Communications program directly after graduating with a minimum 70% average from any undergraduate program in OAC are eligible. Selection will be based on the level of interest in agricultural communications career as demonstrated by the application materials. Financial need will also be considered. Apply to Open Learning Bursary Committee by April 1 with a one-page letter outlining your achievements in various communications/journalism/public relations activities as well as citing the communications courses taken during your undergraduate program and information regarding any financial need.

# **Ontario Student Assistance Program (OSAP)**

Students who meet the Ontario residence requirements and who require financial assistance to attend the University, should apply for the Ontario Student Assistance Program (OSAP)

online at http://osap.gov.on.ca. Students should refer to the OSAP website to review the OSAP Program Information Guide for details on program policies and procedures. Students who are bona fide residents of other provinces should apply to their home province for financial assistance.

# Loans - All Colleges

#### International Student Loan Fund

Mrs. Norma L. Valeriote has made available a loan fund for students who are citizens of Third World countries, as defined by the United Nations, who are registered in a degree or diploma program and who demonstrate financial need. Apply to the International Student Advisor.

#### Uniroyal Ltd. Fund

A fund was established by Uniroyal Limited in 1972 to provide for loans to students who have successfully completed one year of post-secondary education and who have a demonstrated interest in a career in either industry or education.

#### University of Guelph Fund

The Board of Governors established in 1980 a loan fund of \$25,000 to assist needy students to meet academic expenses not covered from normal financial resources. Enquiries should be made at Student Financial Services, Level 3, University Centre. Loans may be interest free to the due date which is not to exceed 30 days beyond conclusion of the semester. Interest will be charged on any balance which remains outstanding beyond the maturity date, at the rate of interest in effect for the year in which the loan is made. The rate will be established at the time the loan is issued and will agree with the Canadian Chartered Banks' prime lending rate in effect at that time.

# Bachelor of Applied Science (B.A.Sc.)

# **Program Information**

The University of Guelph offers an 8 semester (20.00 credits) honours program leading to a Bachelor of Applied Science (B.A.Sc.) degree. Students must select one of the 3 following major areas of study:

Adult Development, Families and Well-Being

Applied Human Nutrition

Child, Youth and Family

Co-operative Education is available in the following program:

Child, Youth and Family

Given the professional and applied character of the program, there are no minors associated with the degree. Elective offerings enable students to select courses which support or complement their primary field of study.

The program is interdisciplinary and provides a distinctive and integrated focus of applied social science in each of the 3 majors. Courses from the traditional disciplines in other departments in the University are coupled with courses offered by faculty members in the Department of Family Relations and Human Development whose own backgrounds reflect the interdisciplinary nature of the program.

Laboratory, practicum and field experiences enhance the students' opportunities to grasp the contributions of the social, physical and biological sciences to significant facets of human behaviour and experience, whether in family, community, or in educational settings.

# Academic Counselling

# **Program Counselling**

A B.A.Sc. program counsellor is available to assist prospective students in the selection of their major and initial courses, and to respond to questions regarding any other aspects of their anticipated program. The program counsellor will also assist in-course students who need information or advice about their program or other academic regulations, who seek information on services and resources available to students or who are contemplating transfer into or out of their current major or degree program.

#### Academic Advising

On entering the program all students are assigned to a departmental advisor by major. Co-operative Education students in all majors are also assigned to an advisor. This advisor is thoroughly familiar with the academic requirements of the program and is also knowledgable about career opportunities which relate to a student's specific major. Students are strongly encouraged to attend all meetings called by their departmental advisors, and to set up individual meetings with them when they have questions or concerns about their major, or their performance in the program.

#### **Continuation of Study**

Students are advised to consult the regulations for Continuation of Study which are outlined in detail in Section VIII--Undergraduate Degree Regulations & Procedures. Students in the B.A.Sc. program may repeat any failed course only once. Failure to successfully complete a required (core) credit on the second attempt results in the student not being permitted to continue in his/her major and/or program.

# **Conditions for Graduation**

To qualify for the degree Bachelor of Applied Science, the student must satisfy the following conditions:

- the student must have successfully completed the schedule of studies requirements for the specified major
- the student must have a cumulative average of 60% or higher
- the student must have a term academic standing of Eligible to Continue or Continue on Probation

# Schedule of Studies

Courses specified in the Schedule of Studies are required courses and must be completed successfully. A full course load normally includes 2.50 credits (normally 5 courses). The requirements for each major are set out below.

# Special Expenses

Expenses for field trips can range from \$20 to \$30 per semester in the first 4 semesters and from \$25 to \$50 in each of the last 4 semesters. In certain courses modest expenses will be incurred for supplies and where appropriate for laboratory costs. According to recent Ontario legislation, agencies licensed by the Ministry of Community and Social Services which care for, or provide service to, children or vulnerable adults are required to do criminal reference checks on all their employees. Students enrolled in practica or field placement courses may be required to submit to the agency with which they are placed, personal information about any criminal convictions and pending criminal charges. The cost of acquiring this criminal reference check (Canadian Police Information Check) will be the responsibility of each student.

# Adult Development, Families and Well-Being (ADFW)

Department of Family Relations and Applied Nutrition, College of Social and Applied Human Sciences.

The Adult Development, Families and Well-Being major focuses on health and well-being from young adulthood to old age within the context of changing family relationships and diverse social and cultural influences. Courses focus on current research and theory in adult development and aging, family relationships, human sexuality, social policy and community services. Field placements and community service learning opportunities enable students to gain knowledge, skills and values appropriate for work with individuals and groups in a variety of settings.

Graduates of this program are pursuing careers in a variety of settings including family and community service agencies, government departments, services for seniors and their families, health care agencies, employee and family assistance programs, and local social planning councils. This program provides a solid foundation for the pursuit of graduate studies in fields such as social work, family relations, gerontology, occupational therapy, family law and mediation, couple and family therapy, education, sexual health, human resource management (business), and health studies.

This interdisciplinary program is designed to provide students with an understanding of the influence of psychological, social, biological and economic factors on individual development, capabilities, health and relationships across the lifespan. It is one of several majors in the Department that share an over-riding goal of applying knowledge to promote individual and family well-being. This major offers a high degree of flexibility for students, who may choose to deepen their studies in one or more of the core content areas in the major (adulthood and aging, family and social relationships, human sexuality, or health and well-being) and/or to choose electives in a related or complementary field.

#### **Program Requirements**

All students in the Adult Development, Families and Well-Being major must successfully complete a minimum of 20.00 passed credits, include the core of 11.50 required credits as outlined in the Schedule of Studies.

Some students may wish to select courses that provide a broad background appropriate for teaching, business, public service management or other careers. Students interested in pursuing graduate education are encouraged to complete an undergraduate thesis in their senior year and to participate in faculty research projects.

In addition to the core requirements and options, there are courses in various departments throughout the University which may be taken as electives. Lists of suggested electives that relate to particular careers or areas of interest and requirements for admission to various graduate programs, including Faculties of Education, are available from the B.A.Sc. Program Counsellor.

#### Major Semester 1

Graduate and Professional Studies					

# Students have successfully used the B.A.Sc. degree to gain admission into graduate programs in social work, applied psychology, sociology, anthropology, occupational therapy, speech and language, and social policy. If you plan to enter a graduate program after completing the Adult Development, Families and Well-Being major of the B.A.Sc. degree program you will need to select certain courses as part of your undergraduate program to meet graduate program admission requirements. Sometimes these requirements

are quite particular which means that you must plan your course selections early and carefully. Although graduate programs differ in their entrance requirements, most graduate programs

require that you have taken (at least): one course in research methods; two undergraduate statistics courses; and have completed an undergraduate thesis.

For many of the programs you will be required to take Graduate Record Exams (GREs) in the specific field of study. You are strongly advised to contact the graduate programs that interest you early in your program to determine the specific entrance requirements of each program.

# \* Exchange/Study Abroad Opportunities

Students interested in study abroad experience could consider this in either Semester 5 or 7. If it is in Semester 5, then students could defer FRHD\*3040 and FRHD\*3070 to Semester 7 and FRHD\*3400 can be taken in Winter Semester 6 with the Practicum FRHD\*3290 (with permission). If the study abroad experience is preferred in Semester 7, the Professional Issues course (FRHD\*4310) could be taken in Semester 5 (with permission).

#### **Applied Human Nutrition (AHN)**

# Department of Family Relations and Applied Nutrition, College of Social and Applied Human Sciences.

The Applied Human Nutrition major recognizes both the biological and the social facets of human nutrition. It focuses on nutrition from a preventive, maintenance and therapeutic perspective, all of which require a thorough understanding of the related biological sciences and of selected aspects of the behavioral sciences. Students learn about nutrition and its application to the maintenance of health and the prevention and treatment of disease. They also learn about individual and social behaviour, particularly in family settings, and the implications of behavioral factors in the establishment of good nutrition status from conception through to old age.

# The B.A.Sc. Applied Human Nutrition program is accredited by the Dietitians of Canada.

All students in the Applied Human Nutrition major must include the core of 14.00 required and 1.50 restricted electives in the minimum of 20.00 passed credits. Students normally register for courses according to the semesters indicated below for Fall and Winter sequencing.

Those students wishing to compete for admission to a post-graduate dietetic internship will be assisted by departmental advisors in the selection of courses that will meet the

academic requirement of the Dietitians of Canada and the College of Dietitians of Ontario for eligibility for internship and/or membership.

Successful completion of the requirements will allow students to compete for a <u>limited</u> number of dietetic internship positions. Most graduates completing dietetic internships are employed in hospitals and other health care agencies such as community health centres and long-term care facilities. Others find employment in a wider range of vocations including those associated with health and education in the government or private sectors, or with the food industry. Still others proceed to graduate study in fields such as nutrition, public health nutrition, medicine or education.

HTM*3780	[0.50]	Economics of Food Usage
NUTR*3110	[0.50]	Food Security

257

#### 258

# Electives

There are 4.50 electives throughout the major which may be fulfilled by electing courses in any subject provided that the student has the prerequisite courses and can schedule them. Some electives and restricted elective courses are intended to contribute to a liberal education, while others permit students to work toward specific academic and career goals. Departmental advisors will assist students in selection of courses that will meet the requirements of the Dietitians of Canada for eligibility for Internship and/or membership, and when requested, can assist in selection of electives to complement the core requirements.

# Child, Youth and Family (CYF)

#### Department of Family Relations and Applied Nutrition, College of Social and Applied Human Sciences.

The Child, Youth and Family major, administered by the Department of Family Relations and Applied Nutrition, examines the psychological, social and physical conditions which influence the growth and development of children and adolescents. While the primary focus of the major is on children and youth, the program regards the family as a primary context of development and as the key to successful interventions for children with developmental, behavioural, or socio-emotional difficulties. Through the effective use of elective courses, the core requirements in the major can be supplemented to create a program of study which will prepare graduate as for a variety of careers in child and youth services. Graduates are pursuing child and youth-related careers in a variety of settings including child and youth treatment facilities, elementary schools, paediatric wards in hospitals, family and community service agencies, and child care centres. Further academic preparation may be required for certain careers. Many graduates go on to pursue graduate education in fields such as family studies, human development, psychology, counselling psychology, social work, speech pathology, and occupational therapy.

#### **Articulation Agreements**

The University of Guelph is a partner in several Articulation Agreements concerning the Child, Youth and Family major. Students who enter the B.A.Sc. Child, Youth and Family major with advanced standing through an articulation agreement should identify themselves to the B.A.Sc. Program Counsellor for specific guidance around their Schedule of Studies (see Section IV of this calendar).

Students in the Child, Youth and Family major who are interested in proceeding to teachers college should refer to Section IV--Admissions Information, Articulation Agreements for information about admission to the Bachelor of Education program at Nipissing University.

#### **Program Requirements**

All students in the Child, Youth and Family major must include the following core of 15.00 required credits and 0.50 restricted electives to a minimum of 20.00 passed credits. Students are encouraged to plan their use of electives carefully in order to focus their program on one or a combination of the career options open to graduates. Discussion with a departmental advisor regarding the various choices possible from within the major is strongly recommended. Students will normally register for courses according to the semesters indicated below for Fall and Winter sequencing. Students who register for Summer semesters and other students for whom the semester offerings present difficulty may, where they have the approval of their departmental advisor, take some courses in alternative semesters.

PSYC*3850	[0.50]	Intellectual Disabilities
SOAN*2290	[0.50]	Identities and Cultural Diversity

#### Education - Primary / Junior / Intermediate

Graduates interested in elementary school teaching need an additional year of study at a Faculty of Education. For those who wish to teach primary (junior kindergarten to grade 3) or junior (grades 4 to 6), each faculty of education may have certain required courses for admission. Often recommended are courses in visual or performing arts, mathematics, languages, physical or natural sciences, history or geography. Students interested in intermediate (grades 7 to 10) level teaching need to acquire a teachable subject in a specific discipline. Normally, this requirement consists of six semester courses in an area of concentration. Students are strongly advised to contact the Faculties of Education that interest them early in their programs to determine the specific requirements.

#### Graduate and Professional Studies

Students have successfully used the B.A.Sc. degree to gain admission into graduate programs in social work, applied psychology, sociology, anthropology, occupational therapy, speech and language, and social policy. If you plan to enter a graduate program after completing the Child, Youth and Family major of the B.A.Sc. degree program you will need to select certain courses as part of your undergraduate program to meet graduate program admission requirements. Sometimes these requirements are quite particular which means that you must plan your course selections early and carefully.

Although graduate programs differ in their entrance requirements, most graduate programs require that you have taken (at least): one course in research methods; two undergraduate statistics courses; and have completed an undergraduate thesis.

For many of the programs you will be required to take Graduate Record Exams (GREs) in the specific field of study. You are strongly advised to contact the graduate programs that interest you early in your program to determine the specific entrance requirements of each program.

# Child, Youth and Family (Co-op) (CYF:C)

# Department of Family Relations and Applied Nutrition, College of Social and Applied Human Sciences.

All students in the Child, Youth and Family Co-op major must include the following core of 14.00 required credits and 0.50 restricted electives to a minimum of 20.00 passed credits.

The first four semesters are as for the students in the regular program. Students in the co-op program must also complete COOP\*1100 in the third academic semester. Thereafter the schedule is as follows:

# Semester 1 - Fall

Semester 8 - Summer 2.50 electives

Restricted Electives

0.50 restricted electives at the 4000 level.

# **Bachelor of Arts (B.A.)**

The University of Guelph offers general and honours programs leading to the B.A. degree. The General Program consists of a minimum of 15.00 credits requiring the equivalent of 6 semesters of successful full time study. The Honours Program consists of a minimum of 20.00 credits requiring the equivalent of 8 semesters of successful full time study. A student may register in Summer, Fall and Winter semesters. The normal course load is 2.50 credits per semester for a full time student on regular status. Students may register for 0.50 credit more at their own discretion. Part time study consists of 1.50 credits or fewer per semester.

# **Program Information**

#### A student's selection of courses must follow the B.A. Program Regulations (including Distribution Requirements), a pattern of study for either the General or Honours degree (below), and the detailed schedule(s) of studies which follow for any special subject(s) studied.

In fulfilling distribution requirements a) and b) students must in semester 1 choose 2 courses from 2 different schools or departments in the College of Arts and 2 courses from 2 of the following departments in the College of Social and Applied Human Sciences and the College of Management and Economics: Economics, Geography, Political Science, Psychology, Sociology and Anthropology.

Students entering the B.A. program with advanced standing must complete the distribution requirements a) and b) as soon as possible after entrance to the program. Requirement c) need not be completed immediately but is a graduation requirement.

Note: Courses taken to satisfy the distribution requirements may also be counted toward a specialization in the general or honours program.

# Academic Counselling

# **Program Counselling**

Students are urged to seek the assistance of the counsellors in the B.A. Counselling Office regarding their program and academic regulations, selecting courses, services and resources available on campus, and when they are experiencing difficulties that affect their academic progress.

# **Departmental Advising**

Every academic department has advisors available to assist students in their course selection planning. Students should seek the advice of the faculty advisor when declaring a major, area of concentration, or minor, regarding course scheduling and completing the requirements for the specializations.

Students encountering difficulties within a course should first consult the instructor of the course. Co-operative education students in Computing and Information Science, Economics and Psychology will also have a departmental Co-op Academic Advisor and Co-ordinator, and should consult Co-operative Education Services regarding scheduling work terms and the COOP\*1000 course.

# **Academic Residence Requirements**

- 1. At least 5.00 of the credits required for graduation by the student's program must be taken at the University of Guelph.
- 2. At least 60% of the 3000 and 4000 level courses required for graduation must be taken at the University of Guelph.

University of Guelph courses include courses taken on exchange and on study abroad programs. Letter of Permission courses are not included.

#### **Continuation of Study**

Students are advised to consult the regulations for continuation of study within the program which are outlined in detail in Section VIII--Undergraduate Degree Regulations and Procedures of this calendar.

#### **Conditions for Graduation**

In addition to meeting the general and honours degree requirements listed below under Program Regulations, students will not normally be eligible to graduate while on probationary or required-to-withdraw status.

# **Distribution Requirements**

The distribution requirements are designed to provide the student with exposure to and some understanding of a range of disciplines in the Arts, Social Sciences and Mathematical and Natural Sciences.

The distribution requirement of 8 courses (minimum 4.00 credits) is as follows:

A. A minimum of 1.50 credits over at least 2 different subject areas in the humanities:

ARTH Art History CLAS Classical Studies ENGL English EURO European Studies FREN French Studies GERM German Studies GREK Greek HIST History

HUMN Humanities **ITAL Italian Studies** LAT Latin LING Linguistics MUSC Music PHIL Philosophy SART Studio Art SPAN Spanish Studies THST Theatre Studies WMST Women's Studies

B. A minimum of 1.50 credits over at least two of the following subject areas in the social sciences:

ANTH Anthropology ECON Economics GEOG Geography IDEV International Development ISS Interdisciplinary Social Science POLS Political Science PSYC Psychology SOAN Sociology and Anthropology SOC Sociology

WMST Women's Studies

C. 1.00 credits in natural and/or mathematical sciences from the list below.

# Natural and Mathematical Science Courses Acceptable for B.A. Distribution Requirements

Students must take 1.00 credits in natural and/or mathematical science courses to fulfill the B.A. science requirements. Students should choose their courses from the list below or any course for which those listed serve as prerequisites. Students are advised to fulfill this requirement before their final semester. Any problems related to this requirement should be discussed with a B.A. Program Counsellor.

Courses recommended for students with limited preparation (e.g., lacking 4U credit in a specific area):

specific area).		
BIOL*1020	[0.50]	Introduction to Biology
BIOM*2000	[0.50]	Concepts of Physiology
BOT*1200	[0.50]	Plants and Human Use

MET*2030	[0.50]	Meteorology and Climatology
PHYS*1XXX	[0.00]	Any PHYS course at the 1000 level
STAT*2XXX	[0.00]	Any STAT course at the 2000 level
Double Countin	ng of Cou	rses

#### **Double Counting of Courses**

A maximum of 50 percent of the courses in a second major or minor may be courses taken in fulfillment of the first major where required courses are the same. Double counting is not allowed in the General Program.

# **Program Regulations**

The General Degree Program provides the opportunity for a sound general education in the arts and social sciences, mathematics and sciences, while allowing for concentration of studies in one or more subjects.

The Honours Degree Program provides depth of study in one specialization, strengthening written and oral communication skills, research and analytical abilities, as well as ensuring a breadth of study in the arts, social sciences, mathematics and sciences.

#### General Degree Requirements (BAG)

To graduate from a general program a student must:

- a. earn 15.00 credits. These must include courses that fulfill the distribution requirements (see below). At least 4.00 credits must be at the 3000 level or above. Not more than 6.00 credits at the introductory (1000) level may be counted towards the 15.00 credits requirement.
- b. 9.00 of the required 15.00 credits must be in courses offered by the College of Arts, the departments of Economics, Geography, Political Science, Psychology, Sociology and Anthropology (in the College of Social and Applied Human Sciences and the College of Management and Economics), the Department of Computing and Information Science, or the Department of Mathematics and Statistics.
- c. no more than 11.00 credits in any one subject or discipline, as indicated by the course prefix code, can be counted towards a general degree.

While students are encouraged to complete the requirements of one or more areas of concentration, this is not a graduation requirement.

The requirements for each area of concentration are set out separately in the pages following the list of Honours and General Specializations Available in the B.A. Degree.

# Honours Degree Requirements (BAH)

To graduate from an honours program a student must:

- a. earn 20.00 credits. These must include courses that fulfill the distribution requirements (see below), and courses that fulfill the requirements of at least 1 major. At least 7.00 credits must be at the 3000 level or above. Not more than 6.00 credits from courses at the introductory (1000) level may be counted towards the 20.00 credits requirement.
- b. fulfill the course and credit requirements of at least one major with a cumulative average of at least 70% in all course attempts at the University of Guelph in that major. Grades in all courses in the discipline area of the major are included in the cumulative average. Grades from those courses in other disciplines listed as options toward the major are also included in the average. (This condition does not apply to majors in the interdisciplinary programs of International Development and European Studies, where only courses in the core and chosen area of emphasis will be counted toward the specialization average.) Students may take more than one major. They may also take one or more minors. The 70% requirement applies to each major and minor.
- c. no more than 14.00 credits in any one subject or discipline, as indicated by the course prefix code, can be counted towards an Honours Degree.

The requirements for each major and minor are set out separately in the pages following the list of Honours and General Specializations Available in the B.A. Degree.

University recognition that a student has graduated with a particular major or minor requires a cumulative average of 70% for all course attempts at this University in that major or minor.

Students failing to meet the graduation requirements of the Honours Program may apply to graduate with a General Degree if the requirements for the General Degree are met. Students should note that a specialization is not required to graduate with a General Degree. Honours B.A. students, except those doing a major in Computing and Information Science, Mathematics or Statistics, must take a minimum of 12.00 credits from either or both of the departments in the College of Arts and the departments of Economics, Geography, Political Science, Psychology, Sociology and Anthropology (in the College of Social and Applied Human Sciences and the College of Management and Economics.

#### Semester One Requirements

Students in the General and Honours Programs must take:

Semester 1

1.00 credits from the following: Art History - ARTH\*1220, ARTH\*1510 Classical Studies - CLAS\*1000 English - ENGL\*1080, ENGL\*1200 European Studies - EURO\*1050, EURO\*1200 French Studies - FREN\*1000, FREN\*1200 German Studies - GERM\*1100, GERM\*1110, GERM\*2490 (OAC Required) Greek - GREK\*1100 History - HIST\*1010, HIST\*1150, HIST\*1250 Italian Studies - ITAL\*1060 Latin - LAT\*1100 Music - MUSC\*1060, MUSC\*1180, MUSC\*1500 Philosophy - PHIL\*1000, PHIL\*1010, PHIL\*1050 Studio Art - SART\*1050, SART\*1060 Spanish Studies - SPAN\*1100, SPAN\*1110 Theatre Studies - THST\*1040, THST\*1200 Women's Studies - WMST\*1000

PLUS 1.00 credits from the following: Anthropology - ANTH\*1150 Economics - ECON\*1050

Geography - GEOG\*1200, GEOG\*1220, GEOG\*1300 Political Science - POLS\*1150, POLS\*1400, POLS\*1500

Psychology - PSYC\*1100, PSYC\*1200

Sociology - SOC\*1100, SOC\*1500

Women's Studies -WMST\*1000

# **Study at Other Universities**

Students contemplating study at another university for credit towards a Bachelor of Arts degree at the University of Guelph should refer to the general regulations governing Letters of Permission in Section VIII--Degree Regulations & Procedures in this calendar.

Students must obtain approval for the Letter of Permission prior to undertaking studies at another institution. Approval of the request depends on good standing in the program with a minimum average of 60%.

The normal limit of credits taken on a Letter of Permission is 2.50 based on Guelph credits. Students with a specialization in languages who want to undertake a program of study in Quebec or abroad should consult the appropriate departmental advisor or the Director of the School of Languages and Literatures.

# **Special Study Options**

# London Study Semester

A special program of studies designed to make use of the uniquely rich resources of London, England, is offered as a regular part of the B.A. program every Fall semester. The program is supervised by a faculty member from Guelph who directs the studies in London and supervises correspondence with faculty in Guelph. Courses in London are of 2 kinds: London based courses and correspondence courses. London based courses in music, theatre and fine art are given by British tutors, and the coordinator offers courses to meet their particular needs. Students are also permitted to arrange correspondence courses to meet their particular needs. Students wishing to apply for the London Semester should have good academic standing and should have completed at least 2 semesters at the University of Guelph at the time of application; although preference will be given to those with a cumulative average of 70% or above, all applications will be given careful consideration. More detailed information about academic requirements, bursaries, courses, etc. can be obtained from the B.A. Program Counselling Office, Room 130 in the MacKinnon Building.

The University of Guelph offers many other Study Abroad and Exchange opportunities for students to enrich their learning experience. Bachelor of Arts students are encouraged to participate in any of the diverse options available. Courses taken while on exchange or study abroad can be used as electives or core requirements. For further information on the programs available, please refer to Section V - International Study. Students are advised to meet with a B.A. Program Counsellor to discuss the feasibility of participating in an exchange or semester abroad.

# Honours and General Specializations Available in the B.A. Degree General Program Areas of Concentration

The schedule of studies for each minor is given on the following pages under its subject heading.

# Agricultural Economics (AGEC)

# Department of Food, Agricultural and Resource Economics, Ontario Agricultural College

The study of agricultural economics prepares students for careers as economic analysts in the agrifood sector and in public agencies. In addition, this major provides excellent background for those students planning to do graduate work in agricultural and resource economics and other fields of applied economics.

Agricultural Economics is offered as a major in the honours program. A detailed program planning guide is available in the Department of Food, Agricultural and Resource Economics.

# **Major (Honours Program)**

A minimum of 9.50 credits, consisting of the 15 courses specified below plus 4 restricted electives, is required, including:

AGEC*2700	[0.50]	Survey of Natural Resource Economics
AGEC*3030	[0.50]	The Firm and Markets
AGEC*4000	[0.50]	Agricultural and Food Policy
AGEC*4500	[0.50]	Decision Science
AGR*1100	[0.50]	Introduction to the Agrifood Systems
AGR*1250	[0.50]	Agrifood System Trends & Issues
BUS*2220	[0.50]	Financial Accounting
ECON*1050	[0.50]	Introductory Microeconomics
ECON*1100	[0.50]	Introductory Macroeconomics
ECON*2310	[0.50]	Intermediate Microeconomics
ECON*2410	[0.50]	Intermediate Macroeconomics
ECON*2770	[0.50]	Introductory Mathematical Economics
ECON*3600	[0.50]	Macroeconomics in an Open Economy
ECON*3710	[0.50]	Advanced Microeconomics
ECON*3740	[0.50]	Introduction to Econometrics
Four additional courses, at least three of which must be in agricultural economics and at		
least one of which	must be at	the 4000 level, chosen from the following list:
AGEC*4210	[0.50]	World Agriculture and Economic Development
AGEC*4220	[0.50]	Advanced Farm Management
AGEC*4240	[0.50]	Futures and Options Markets
AGEC*4290	[0.50]	Land Economics
AGEC*4310	[0.50]	Resource Economics
BUS*2230	[0.50]	Management Accounting
ECON*3510	[0.50]	Money, Credit and the Financial System
ECON*3530	[0.50]	Industrial Organization
ECON*3580	[0.50]	Economics of Regulation
ECON*3610	[0.50]	Public Economics
ECON*3620	[0.50]	International Trade
ECON*3720	[0.50]	History of the World Economy Since 1850
Notor Duono quisi	f	-hand a second a second s

**Notes:** Prerequisites for the above courses will require students to take MATH\*1000, MATH\*1080, or MATH\*1200 during their first year of study. A student may obtain permission to substitute certain other courses for the ones listed if the substitute courses fit with the students program. Approval from a departmental advisor is required.

Unless taken to satisfy the requirements of another program, no student may receive credit in this program for more than one of the following statistics prerequisites ECON\*2740, STAT\*2040, STAT\*2060, or STAT\*2080.

# Anthropology (ANTH)

# Department of Sociology and Anthropology, College of Social and Applied Human Sciences

The Department of Sociology and Anthropology offers three types of courses: sociology courses with the prefix SOC\*; anthropology courses with the prefix ANTH\*; and departmental courses with the prefix SOAN\*. The departmental category of courses recognizes the fact that the disciplines of sociology and sociocultural anthropology have developed in tandem and it is possible to identify large areas of overlap and convergence in the work of practitioners both historically and in the present. Departmental courses include most of the core theory and methods courses as well as many elective courses. They contribute equally to the subject matter of sociology as well as the subject matter of sociocultural anthropology for purposes of the undergraduate programs of study in both disciplines. Please see the listings for all courses required for the Anthropology program.

Courses will normally be offered in the semesters designated. Please check with the department for information about additional semester offerings. In addition to regularly

scheduled courses, students may elect to do independent study. A student who wishes to do a reading course should first consult the professor with whom he/she wishes to work. Please note, a student is allowed a total of 1.00 credits only for reading courses.

#### Area of Concentration (General Program)

A minimum of 6.00 credits is required, including:		
ANTH*1150	[0.50]	Introduction to Anthropology
ANTH*2160	[0.50]	Social Anthropology
ANTH*2230	[0.50]	Regional Ethnography
ANTH*3690	[0.50]	History of Anthropological Thought
ANTH*3770	[0.50]	Kinship and Social Organization
SOAN*2120	[0.50]	Introductory Methods
One of:		
LING*1000	[0.50]	Introduction to Linguistics
MUSC*2110	[0.50]	Music of the Circum-Atlantic and the Americas
MUSC*2200	[0.50]	Music of the Near and Far East
PHIL*2100	[0.50]	Critical Thinking
1 50 additional cre	edits in AN	ГН

1.50 additional credits in ANTH

1.00 additional credits in SOAN

Note: 1.50 credits of these additional credits must be completed at the 3000 level or above.

#### **Major (Honours Program)**

A minimum of 9.00 credits is required, including:

		1 , 0
ANTH*1150	[0.50]	Introduction to Anthropology
ANTH*2160	[0.50]	Social Anthropology
ANTH*2230	[0.50]	Regional Ethnography

1.00 additional credits in SOAN

Note: 1.50 of these additional credits must be completed at the 3000 level or above.

# Art History (ARTH)

# School of Fine Art and Music, College of Arts

The School provides for concentrated study in Art History or Studio Arts, or for a more balanced study combining the two disciplines. Both Studio Art and Art History degree programs require some work in both the programs. Many Art History courses are also open to non specialized students.

The Art History program covers historical perspectives on the visual arts, study of the methodologies of art history and critical theory, and consideration of contemporary issues in the practice and display of art. Students pursuing a Major or Minor in Art History are required to take a minimum number of courses in each of three areas of focus in the program: Western Art and Cross-Cultural Perspectives; Visual Arts of the Americas; and Art Theory, Critical Methodology and Museology. The groups of courses that comprise these areas of focus are listed below.

Students majoring in other programs who are also interested in the study of Art History are encouraged to consider the Minors offered in Visual Arts of the Americas, Museum Studies, and Art Theory and Criticism. Specific requirements for the Art History Honours Major and Minor are listed below.

# **Student Counselling**

The students who elect to take a substantial number of courses in Art History with the objective of graduate work are advised to obtain counselling from faculty regarding their choices. It is important to know that graduate studies in Art History will usually require a reading knowledge of at least 2 languages other than English. German, French, Italian and Latin are among the most useful choices. Cognate electives in other disciplines in the College of Arts (such as History) will almost certainly prove an asset.

# **Art History Core Requirements**

All students are required to complete the following core courses [2.00 credits]:

ARTH*1220	[0.50]	The Visual Arts Today
ARTH*1510	[0.50]	Art Historical Studies I
ARTH*1520	[0.50]	Art Historical Studies II
and one [0.50] of	the followin	g:
SART*1050	[0.50]	Integrated 2-D Media
SART*1060	[0.50]	Media Convergence

# **Major (Honours Program)**

A minimum of 9.00 credits is required, including:

- a. the Art History core
  - 1. ARTH\*1220, ARTH\*1510, ARTH\*1520,
  - 2. SART\*1050 or SART\*1060
- b. 3.00 credits from the Western Art and Cross-Cultural Perspectives including:
  - 1. ARTH\*2150 or ARTH\*3150
  - 2. ARTH\*2540
  - 3. ARTH\*2550 or ARTH\*2950
  - 4. One of ARTH\*2280, ARTH\*2290, ARTH\*2580, ARTH\*2600
  - 5. At least 1.00 credits of the 3000-level thematic courses: ARTH\*3100, ARTH\*3200, ARTH\*3310, ARTH\*3320, ARTH\*3330, ARTH\*3340, ARTH\*3520
- c. 1.50 credits from the Arts of the Americas area of focus: ARTH\*2050, ARTH\*2060, ARTH\*2070, ARTH\*2490, ARTH\*3010, ARTH\*3050, ARTH\*3060
- d. 1.00 credits from the Art Theory, Critical Methodology and Museology area of focus: ARTH\*2120, ARTH\*2480, ARTH\*3210, ARTH\*3220, ARTH\*3780
- e. At least 1.50 credits from 4000-level seminar courses: ARTH\*4050, ARTH\*4060, ARTH\*4150, ARTH\*4160, ARTH\*4550, ARTH\*4620

#### Minor (Honours Program)

- A minimum of 5.00 credits is required, including:
- a. ARTH\*1220, ARTH\*1510, ARTH\*1520
- b. 3.50 additional credits in Art History including 0.50 credits in each of the three areas of focus and at least 2.00 credits at the 3000 or 4000 level.

#### Areas of Focus

#### Western Art and Cross-Cultural Perspectives

Western Art an	lu Cross-Cu	nurai i cispectives
ARTH*2150	[0.50]	Art and Archaeology of Greece
ARTH*2280	[0.50]	Modern Architecture

**Note:** Details of advanced standing for transfer students from the Ontario College of Art can be found in the section on Admission Information.

# Art Theory and Criticism (ATC)

#### School of Fine Art and Music

The Minor program in Art Theory and Criticism offers students the opportunity to engage critically with the most significant interpretative methods art historians and critics use to analyze artwork. Courses will provide an overview of important debates in the field and of their contexts, as well as informed discussions of the issues that are raised when textuality and visuality come together.

This program of study is designed as a complement to a significant number of Major specializations, and is suitable for any student wishing to broaden their knowledge beyond their Major area of study. Students wishing to combine this Minor with a Major in Art History are advised that the selection of their required courses should begin early in their degree, and that they should obtain counselling from faculty to ensure they can achieve the correct distribution.

# Minor (Honours Program)

A minimum of 5.00 credits is required, including:

a	. ARTH*1220	[0.50]	The Visual Arts Today
	ARTH*1510	[0.50]	Art Historical Studies I
	ARTH*1520	[0.50]	Art Historical Studies II
	PHIL*3050	[0.50]	Philosophy of Art
b	. 3.00 additional	l credits in Art H	History as follows:
	ARTH*2480	[0.50]	Introduction to Art Theory and Criticism
	ARTH*3210	[0.50]	Critical Issues in Art History
	ARTH*3220	[0.50]	Nationalism and Identity in Art
	ARTH*3520	[0.50]	Idea: Art Since 1950
	ARTH*3780	[0.50]	Gender and Art
	ARTH*4550	[0.50]	Questions in Criticism
-			

# **Business Administration (BADM)**

#### Department of Economics, College of Management and Economics

Interdisciplinary study in Business Administration is offered as a minor in the honours program. Students in this program will be counselled by the Department of Economics. It is possible for students to pursue a more intensive program in the area of business administration and economics; see the heading Applied Economics in the B.A. degree and the heading Management Economics in Industry and Finance in the B.Comm. degree.

#### **Minor (Honours Program)**

A minimum of 5.00 credits is required, including:			
BUS*2220	[0.50]	Financial Accounting	
BUS*2230	[0.50]	Management Accounting	
ECON*1050	[0.50]	Introductory Microeconomics	
ECON*1100	[0.50]	Introductory Macroeconomics	
ECON*2310	[0.50]	Intermediate Microeconomics	
ECON*2410	[0.50]	Intermediate Macroeconomics	
ECON*3560	[0.50]	Theory of Finance	
MCS*3040	[0.50]	Business and Consumer Law	
One of:			
AGEC*3310	[0.50]	Operations Management	
HTM*4390	[0.50]	Individuals and Groups in Organizations	
One of:			
AGEC*4370	[0.50]	Food & Agri Marketing Management	
MCS*1000	[0.50]	Introductory Marketing	

#### Classical Languages (CLAL)

# School of Languages and Literatures, College of Arts

The Classical Languages program imparts an advanced knowledge of Greek and Latin and is designed for students who have a special interest in literature, history and philosophy or plan to do postgraduate study in any area of Classics.

# **Core Requirements**

GREK\*1100, GREK\*1110, GREK\*2020, LAT\*1100, LAT\*1110, LAT\*2000

# Major (Honours Program)

A minimum of 9.00 credits is required, including:

- a. the Classical Languages core
- b. any 5.00 credits from CLAS\*3050, CLAS\*3060, CLAS\*3070, CLAS\*3080, CLAS\*3090, CLAS\*3120, CLAS\*4010
- c. LAT\*4100, LAT\*4150

# Minor (Honours Program)

A minimum of 6.00 credits is required, including:

- a. the Classical Languages core
- b. any 3.00 credits from those listed under Item (b) above

# **Classical Studies (CLAS)**

#### School of Languages and Literatures, College of Arts

The program in Classical Studies is intended particularly for students interested in Greek and Roman culture, society and history.

#### Core Requirements

- a. CLAS\*1000, plus EITHER (GREK\*1100, GREK\*1110, GREK\*2020) OR (LAT\*1100, LAT\*1110, LAT\*2000)
- b. one of CLAS\*2000, CLAS\*2150, CLAS\*2350, CLAS\*3100
- c. one of CLAS\*3000, CLAS\*3010, CLAS\*3020
- d. one of CLAS\*3030, CLAS\*3040
- e. one of CLAS\*3150, CLAS\*3200, HIST\*2850, PHIL\*2140

#### Major (Honours Program)

A minimum of 8.00 credits is required, including:

- a. the Classical Studies Core
- b. CLAS\*4000, CLAS\*4150, CLAS\*4400
- c. 2.50 additional credits in Classics, 1.00 of which may be taken from the following as part of the program:
- d. ENGL\*1410[0.50]Major English WritersHIST\*2200[0.50]The Medieval WorldLING\*1000[0.50]Introduction to Linguistics

#### Minor (Honours Program)

A minimum of 5.00 credits is required, including:

a. the Classical Studies Core

b. two of CLAS\*4000, CLAS\*4150, CLAS\*4400

# Cognitive Neuropsychology (CGNR)

#### Department of Psychology, College of Social and Applied Human Sciences

Ellis and Young (1988) defined cognitive psychology as the "study of those mental processes which underlie and make possible our everyday ability to recognize familiar objects and people, to find our way around in the world, to speak, read and write, and to plan and execute actions, to think, make decisions and remember." They proposed two complementary aims in the study of cognitive neuropsychology:

- i. To explain the patterns of impaired and intact cognitive performance seen in brain-injured patients in terms of damage to one or more of the components of a theory or model of normal cognitive functioning.
- ii. To draw conclusions about normal, intact cognitive processes from the patterns of impaired and intact capabilities seen in brain-injured patients.

The Minor program in Cognitive Neuropsychology is targeted for students seeking to broaden their knowledge beyond their major area of study. It may be of particular interest to students specializing in biology or computer science. A Minor in cognitive neuropsychology will prove valuable to students seeking careers in research and medicine.

#### **Minor (Honours Program)**

#### (May not be taken in combination with a Psychology Honours Major)

A minimum of 6.00 credits is required, including:

PSYC*1100	[0.50]	Principles of Behaviour
PSYC*1200	[0.50]	Dynamics of Behaviour
PSYC*2360	[0.50]	Introductory Research Methods
PSYC*2390	[0.50]	Principles of Sensation and Perception
PSYC*2410	[0.50]	Behavioural Neuroscience I
PSYC*2650	[0.50]	Cognitive Psychology
PSYC*3330	[0.50]	Memory
PSYC*3340	[0.50]	Psycholinguistics
PSYC*3410	[0.50]	Behavioural Neuroscience II
PSYC*4600	[0.50]	Cognitive Neuroscience
One of:		
PSYC*2010	[0.50]	Quantification in Psychology
STAT*2040	[0.50]	Statistics I

0.50 additional credits in Psychology

**Note:** Courses designated with (H) in Section XII--Course Descriptions are Honours level courses requiring for registration a cumulative average of at least 70% in all course attempts in Psychology.

# **Computing and Information Science (CIS)**

Department of Computing and Information Science, College of Physical and Engineering Science

X. Degree Programs, Bachelor of Arts (B.A.)

#### X. Degree Programs, Bachelor of Arts (B.A.)

The Computing and Information Science program emphasizes the applications of computing in other academic disciplines and in business environments. "B" grades are required for but do not guarantee admission to semester three of CIS programs. The BA Program serves students who want computing at the core of a liberal education. The BA is also suited for students who wish to manipulate quantities of data or apply computing techniques across disciplines, especially in the social sciences, humanities or fine arts. Students with a more narrowly focused area of application might consider the BSc program for the natural and biological sciences or the B.Comp Program for other specializations. All three programs can lead to graduate work or positions in industry.

# Area of Concentration (General Program)

A minimum of 5.25 credits is required, including:

CIS*1500	[0.50]	Introduction to Programming
CIS*1910	[0.50]	Discrete Structures in Computing I
CIS*2430	[0.50]	Object Oriented Programming
CIS*2500	[0.50]	Intermediate Programming
CIS*2520	[0.50]	Data Structures
CIS*2750	[0.75]	Software Systems Development and Integration
CIS*2910	[0.50]	Discrete Structures in Computing II
CIS*3530	[0.50]	Data Base Systems and Concepts
1.00 additional	CIS credits a	t the 2000 level or higher

1.00 additional CIS credits at the 2000 level or higher

# Major (Honours Program)

#### Semester 1

 CIS\*1500
 [0.50]
 Introduction to Programming

 MATH\*1200
 [0.50]
 Calculus I

 1.00 electives from different subject areas in the College of Arts (ENGL\*1080 or ENGL\*1200 is recommended)

0.50 electives from selected subject areas in the College of Social and Applied Human Sciences\*

#### Semester 2

CIS*1910	[0.50]	Discrete Structures in Computing I		
CIS*2500	[0.50]	Intermediate Programming		
0.50 electives from the College of Arts				

1.00 electives from selected subject areas in the College of Social and Applied Human Sciences\*

# Semester 3

 [0.50]
 Operating Systems

 STAT\*2040
 [0.50]
 Statistics I

 0.75 electives
 0

Note: 0.50 electives may be selected in semester 4 followed by 0.50 electives in semester

#### Semester 5

CIS*2460	[0.50]	Modelling of Computer Systems
CIS*3530	[0.50]	Data Base Systems and Concepts
CIS*3750	[0.75]	System Analysis and Design in Applications
0.50 CIS electiv	es at 3000 le	vel or above (CIS*3210 [0.50] is recommended)
0.25 elective		

#### Semester 6

CIS\*3490 [0.50] The Analysis and Design of Computer Algorithms 1.00 CIS electives at 3000 level or above

# 1.00 electives

Semester 7

1.00 CIS. credits at the 4000 level

## 1.50 electives

#### Semester 8

1.00 CIS credits at the 4000 level

1.50 electives

\*1.50 electives in semesters 1 and 2 must be from at least two of the following subject areas in the College of Social and Applied Human Sciences: ANTH, ECON, GEOG, POLS, PSYC, SOAN, SOC, WMST

# **Minor (Honours Program)**

A minimum of	5.25 credits	is required, including:
CIS*1500	[0.50]	Introduction to Programming
CIS*1910	[0.50]	Discrete Structures in Computing I
CIS*2430	[0.50]	Object Oriented Programming
CIS*2500	[0.50]	Intermediate Programming

CIS*2520	[0.50]	Data Structures		
CIS*2750	[0.75]	Software Systems Development and Integration		
CIS*2910	[0.50]	Discrete Structures in Computing II		
CIS*3530	[0.50]	Data Base Systems and Concepts		
1.00 additional credits from CIS or STAT courses at the 2000 level or above				

Computing and Information Science (Co-op) (CIS:C)

# Department of Computing and Information Science, College of Physical and Engineering Science

The 4 year Honours Program Major in Computing and Information Science is also available as a Co-operative Education Program. Three co-op work terms are required. A five year option with four work terms is also available. Please see the department's co-op academic advisor for details.

COOP\*1100 must be completed in the 2nd academic semester (Winter of year 1). Students may apply for these options at the time of University admission or completion of semester 2.

Conditions for graduation are the same as the corresponding regular B.A. program. In addition, all work reports must have a grade of satisfactory or better.

Students are advised to plan their schedule of studies well in advance so that they can take all required prerequisites for later (especially 4000 level) courses. Students should note that some 4000 level courses are only given in alternate years. Failure to plan may result in the inability to take a particular senior CIS course. Recommended work terms are shown below:

Work/Study Semesters

List A

#### Semester 1(Fall)

 CIS\*1500

#### Criminal Justice and Public Policy (CJPP)

Department of Sociology and Anthropology, and the Department of Political Science, College of Social and Applied Human Sciences

Criminal Justice and Public Policy is offered as a minor in the honours program and as a major in the honours program. It is designed to provide students seeking a career in the criminal justice system, or planning to pursue an advanced degree with a knowledge base that will enable them to pursue their career objectives. The program offers a unique blend of sociological courses dealing with the criminal justice system as well as courses in Political Science dealing with public policy formation and implementation. It also provides students with the conceptual and methodological tools needed for further study.

Students who are not admitted directly into the CJPP major and subsequently wish to declare the specialization must apply directly to the department. In order to be eligible, applicants must have a cumulative average of 70% or better in the following foundation courses:

POLS*1400	[0.50]	Issues in Canadian Politics
POLS*2250	[0.50]	Public Administration
POLS*2300	[0.50]	Canadian Government
SOAN*2120	[0.50]	Introductory Methods
SOC*1500	[0.50]	Crime and Criminal Justice
SOC*2700	[0.50]	Criminological Theory
Mater The manin		-

Note: The requirement for an average of 70% or better applies only to students admitted to the University of Guelph after 30 April 2002.

Students wishing to declare the CJPP minor must also meet the above requirement.

Students from other institutions who transfer to the University of Guelph and wish to declare the CJPP major or minor must also meet the above requirement. If an external transfer student is granted credit for one or more of the foundation courses listed above, then he or she must attain a cumulative average of 70% or better in the remaining required CJPP foundation courses.

Note: There is no CJPP Area of Concentration in the General Program as of Fall 2002.

#### Major (Honours Program)

A minimum of 9.00 credits is required, including: PHIL\*1010 [0.50] Introductory Philosophy: Social and Political Issues POLS\*1400 [0.50]Issues in Canadian Politics POLS\*2250 [0.50] Public Administration POLS\*2300 [0.50] Canadian Government SOAN\*2120 [0.50] Introductory Methods SOC\*1500 [0.50] Crime and Criminal Justice SOC\*2700 [0.50] Criminological Theory One of: POLS\*3650 [0.50] Research Methods II: Quantitative Methods SOAN\*3120 [0.50] **Ouantitative Methods** Three of: SOC\*2070 [0.50] Social Deviance SOC\*2750 [0.50] Serial Murder SOC\*3490 [0.50] Law and Society SOC\*3710 [0.50] Young Offenders SOC\*3730 [0.50] Courts and Society SOC\*3740 [0.50] Corrections and Penology SOC\*3750 [0.50] Police in Society Three of: Politics of Ontario POLS\*3110 [0.50] POLS\*3130 Law, Politics and Judicial Process [0.50] POLS\*3210 [0.50] The Constitution and Canadian Federalism POLS\*3250 [0.50] Public Policy: Challenges and Prospects POLS\*3300 [0.50] Governing Criminal Justice POLS\*3440 [0.50] Corruption, Scandal and Political Ethics POLS\*3670 [0.50] Comparative Public Policy and Administration One of: HIST\*3130 [0.50] Popular Culture and Punishment, 1700-1900 PHIL\*3040 [0.50] Philosophy of Law PHIL\*3230 [0.50] Issues in Social and Political Philosophy PSYC\*3020 [0.50] Psychology of Law Three of: POLS\*4100 [0.50] Women, Justice and Public Policy POLS\*4120 [0.50] Civil Rights and Civil Liberties in Canada and the U.S. POLS\*4160 Multi-Level Governance in Canada [0.50] POLS\*4250 [0.50] Topics in Public Management POLS\*4260 [0.50] Topics in Public Policy SOC\*4010 [0.50] Violence and Society SOC\*4030 Advanced Topics in Criminology [0.50] SOC\*4200 [0.50] Advanced Topics in Criminal Justice SOC\*4900 [0.50] Honours Sociology Thesis I SOC\*4910 [0.50] Honours Sociology Thesis II

# Minor (Honours Program)

A minimum of 6.00 credits is required, including:

[0.50]	Introductory Philosophy: Social and Political Issues
[0.50]	Issues in Canadian Politics
[0.50]	Public Administration
[0.50]	Canadian Government
[0.50]	Introductory Methods
[0.50]	Crime and Criminal Justice

PHIL*3230	[0.50]	Issues in Social and Political Philosophy	
PSYC*3020	[0.50]	Psychology of Law	
Developmental Psychology (DPSY)			

#### Department of Psychology, College of Social and Applied Human Sciences

The focus of Developmental Psychology is the study of the theory, research, and applied interventions associated with the way humans develop and change over time. This focus is especially significant for anyone interested in how we might solve the challenges presented by life. These include the special challenges presented by schooling, parenting, socialization within and beyond the family, coping with stress, and some of the individual differences and atypical behaviors exhibited by ourselves or others. This program of study is designed as a complement to a significant number of Major specializations, suitable for any student wishing to broaden their knowledge beyond their Major area of study.

#### Minor (Honours Program)

# (May not be taken in combination with a Psychology Honours Major)

A minimum of 6.00 credits is required, including:

PSYC*1100	[0.50]	Principles of Behaviour
DGV/G*1000	FO 501	D ' (D1 '

PSIC*1200	[0.50]	Dynamics of Benaviour
2.50 credits across	5 Psychol	ogy Core Courses, to include PSYC*2330, PSYC*2450,

PSYC\*2650

2.00 credits from the following courses at the 3000 level:

PSYC*3440	[0.50]	Cognitive Development
PSYC*3450	[0.50]	Social and Personality Development
PSYC*3460	[0.50]	Abnormal Development
PSYC*3710	[0.50]	Psychology of Learning Difficulties and Disabilities I
PSYC*3850	[0.50]	Intellectual Disabilities

0.50 elective credits in Psychology at the 3000 level or above, with PSYC\*3570, PSYC\*3800 or the 5th course from the above restricted elective list recommended. Note: Courses designated with (H) in Section XII--Course Descriptions are Honours level courses requiring for registration a cumulative average of at least 70% in all course attempts in Psychology.

#### **Economics (ECON)**

#### Department of Economics, College of Management and Economics

The Department of Economics offers courses in economic theory, applied economics and quantitative methods. Students may take courses leading to a B.A. in either the honours or the general program. It is possible to combine Economics with various other disciplines such as mathematics and statistics, business administration, political science, geography and history. Students are urged to consult the department's program planning guide and the department's advisors for detailed information about courses and programs and about the course of study most appropriate as preparation for graduate work in economics or business administration, for professional degrees such as the Bachelor's degree in Law, and for careers in business and government.

#### **Core Requirements**

ECON*1050	[0.50]	Introductory Microeconomics
ECON*1100	[0.50]	Introductory Macroeconomics
ECON*2310	[0.50]	Intermediate Microeconomics
ECON*2410	[0.50]	Intermediate Macroeconomics
ECON*2740	[0.50]	Economic Statistics

#### Area of Concentration (General Program)

A minimum of 5.00 credits in Economics is required, including: a. the Economics core

b. 2.50 other credits in Economics at the 3000 or 4000 level

#### **Major (Honours Program)**

A minimum of 9.00 credits in Economics is required, including: The Economics core requirements

ECON\*2770 [0.50] Introductory Mathematical Economics ECON\*3100 [0.50] Game Theory

ECON*3600	[0.50]	Macroeconomics in an Open Economy
ECON*3710	[0.50]	Advanced Microeconomics
ECON*3740	[0.50]	Introduction to Econometrics
ECON*4710	[0.50]	Advanced Topics in Microeconomics
ECON*4810	[0.50]	Advanced Macroeconomic Theory
(Note: ECON*2770	0 requires a	a first year university calculus course)
One of:		
ECON*2720	[0.50]	Business History
ECON*3550	[0.50]	North American Economic History
ECON*3720	[0.50]	History of the World Economy Since 1850

ECON\*3730 [0.50] Europe and the World Economy to 1914 ECON\*4720 [0.50] Topics in Economic History

2.50 other credits in Economics at the 3000 or 4000 level, at least 1.50 of which must be at the 4000 level

Note: Students contemplating graduate studies in Economics should take ECON\*4640, Applied Econometrics and ECON\*4840, Applied Econometrics II.

# Minor (Honours Program)

A minimum of 5.00 credits in Economics is required, including:

- a. the Economics core
- b. 2.50 other credits in economics at the 3000 or 4000 level
- Notes:
- 1. ECON\*3740 is recommended.
- 2. Students wishing to pursue a more structured Economics minor should take ECON\*3710 as well as ECON\*3740.
- 3. Only one of ECON\*2200 or ECON\*3200 may be counted towards the minor. ECON\*4800 may not be counted at the 4000 level for purposes of satisfying the minimum 4000 level credit requirements in the B.A. Honours Economics major. Only one of ECON\*4900 or ECON\*4910 may count in the B.A. program towards the minimum 4000 level requirement.

# Economics (Co-op) (ECON:C)

#### Department of Economics, College of Management and Economics

The Economics Co-op program provides an integrated academic/work experience for students with co-operating employer organizations. Students in the program must complete 4 work terms while fulfilling the requirements of their honours Economics program.

All co-op students must complete the Economics core plus an introductory computer science course (CIS\*), ECON\*2770 and ECON\*3740 in their first 4 semesters. Admission in the co-op program is limited to students of high academic standing and will be considered only at semester 1 entry or at the end of semester 2. The first 2 work terms normally follow completion of the first 4 semesters of academic study. Students will only be permitted to take these work terms if they are eligible to continue in the Honours Economics program, have completed the required courses and are maintaining a satisfactory standing in their Economics program. The 3rd and 4th work terms will normally follow the 6th academic semester. For further information on the Economics Co-op program students are urged to consult the department's Program Guide and Co-operative Education Programs in Section X-degree Programs in this calendar.

Students should review the Economics section in the schedule of studies for additional program information.

# Educational Psychology (EPSY)

#### Department of Psychology, College of Social and Applied Human Sciences

This program allows for specialization in Psychology as it relates to Education. It may be of particular interest to teachers, those considering teaching as a career, or anyone interested in the field of Educational Psychology.

#### **Minor (Honours Program)**

#### (May not be taken in combination with a Psychology Honours Major)

A minimum of 6.00 credits is required, including:			
PSYC*1100	[0.50]	Principles of Behaviour	
PSYC*1200	[0.50]	Dynamics of Behaviour	
PSYC*2010	[0.50]	Quantification in Psychology	
PSYC*2450	[0.50]	Introduction to Developmental Psychology	
PSYC*3250	[0.50]	Psychological Measurement	
PSYC*3710	[0.50]	Psychology of Learning Difficulties and Disabilities I	
PSYC*3800	[0.50]	Psychology and Education	
0.50 credits from	the followin	g courses at the 2000 level:	
PSYC*2330	[0.50]	Principles of Learning	
PSYC*2650	[0.50]	Cognitive Psychology	
2.00 credits from the following courses at the 3000 level:			
PSYC*3310	[0.50]	Applied Social Psychology	
PSYC*3330	[0.50]	Memory	
PSYC*3340	[0.50]	Psycholinguistics	
PSYC*3440	[0.50]	Cognitive Development	
PSYC*3450	[0.50]	Social and Personality Development	
PSYC*3460	[0.50]	Abnormal Development	
PSYC*3720	[0.50]	Psychology of Learning Difficulties and Disabilities II	
PSYC*3850	[0.50]	Intellectual Disabilities	

**Note:** Courses designated with (H) in Section XII--Course Descriptions are Honours level courses requiring for registration a cumulative average of at least 70% in all course attempts in Psychology.

#### **English (ENGL)**

# School of English and Theatre Studies, College of Arts

The School of English and Theatre Studies offers courses in the B.A. Program in English that focus on the study of literature and related texts across a broad range of theoretical, historical, and geographical sites. The School also welcomes non-majors into its courses, especially at the 1000, 2000, and 3000 levels, suitable to other majors within the College of Arts and beyond. Certain courses in Theatre Studies (THST) and in Literature in Translation (CLAS, GERM, HUMN, SPAN) may be counted towards a degree in English. Consult the School of English and Theatre Studies for details.

First-year students registered in or considering one of the programs in English should register for ENGL\*1080 in the first semester and ENGL\*2080 in the second semester.

# Area of Concentration (General Program)

A minimum of 5.50 English credits is required in the English core and the English electives. English elective courses must be chosen to fulfill the Distribution Requirements for the Area of Concentration.

English core - 2.00 credits as follows:

a. ENGL\*1080, ENGL\*2080, ENGL\*2120

b. one of ENGL\*2130, ENGL\*3940, ENGL\*3960

English electives - 3.50 credits to include:

- 1. 3.00 credits from 3000 level lecture courses
- 2. 0.50 credits from any other lecture or seminar course
- 3. Distribution requirements as listed below.
- Distribution Requirements for the Area of Concentration:

The electives must be chosen to ensure that 0.50 credits are completed in each of the following four fields:

- Medieval and Early Modern Literature
- 18th and 19th Century Literature
- Colonialisms/Postcolonialisms
- Canadian Literature/American Literature

**Note:** Please visit the School of English and Theatre Studies website: http://www.arts.uoguelph.ca/sets for a list of courses that fulfill these requirements.

#### **Major (Honours Program)**

A minimum of 8.50 English credits is required in the English core and the English electives. English elective courses must be chosen to fulfill the Distribution Requirements for the Major.

English core - 3.00 credits as follows:

a. ENGL\*1080, ENGL\*2080

b. ENGL\*2120, ENGL\*2130, ENGL\*3940, ENGL\*3960

English electives - 5.50 credits to include:

- 3.50 credits from 3000 level lecture courses
- 1.00 credits from 4000 level courses
- 1.00 credits from any other lecture or seminar courses
- Distribution requirements as listed below

Distribution Requirements for the Major:

The electives must be chosen to ensure that 1.00 credits are completed in each of the following two fields:

- Medieval and Early Modern Literature
- 18th and 19th Century Literature

and that 0.50 credits are completed in each of the following three fields:

- American Literature
- Canadian Literature
- Colonialisms/Postcolonialisms

**Note:** Please visit the School of English and Theatre Studies website: http://www.arts.uoguelph.ca/sets for a list of courses that fulfill these requirements.

Honours students interested in a more concentrated program or contemplating graduate work in English are strongly advised to:

- attain a good reading knowledge of another language, such as French
- take ENGL\*3380 (Studies in the History of Literary Production), ENGL\*3690 (History of Literary Criticism), ENGL\*4690 (Contemporary Literary Theory)
- take at least 2.00 credits in English courses at the 4000 level

The M.A. program in English at Guelph gives preference to qualified applicants with a broad experience in literary and cultural studies and related disciplines.

#### Minor (Honours Program)

The program of study and requirements are the same as for the Area of Concentration in the General Program.

#### **Environmental Studies (ENVS)**

# Interdisciplinary Program

Environmental Studies is an interdisciplinary subject stressing the integration of biophysical and human behavioral dimensions of environmental issues. The requirement of 5.00 credits for the minor is broken into 2 groups of courses, required courses and restricted electives. Students should ensure that they obtain standing in the necessary prerequisites for required and restricted elective courses. There are limitations on courses used for credit in other areas of study which may be used for credit in the Environmental Studies minor. Students should seek counselling from the Department of Geography early in their program.

# Minor (Honours Program)

A minimum of 5.0	0 credits is	required, including:
BIOL*1030	[0.50]	Biology I
BIOL*2060	[0.50]	Ecology

[0.50]

[0.50]

ISS*4000	[0.50]	Research Project in Environmental Studies
Two of the follow	ing social s	ciences courses:
ECON*2100	[0.50]	Economic Growth and Environmental Quality
GEOG*3210	[0.50]	Management of the Biophysical Environment
POLS*3370	[0.50]	Environmental Policy Formation and Administration
The remaining 2.5	0 credits re	quired for the minor must be selected from the following
list. The social sci	ence course	listed above not taken as a required course may be taken
as a restricted elect	tive. Howev	er, students are strongly advised to consult with the program
coordinator before	e choosing e	electives.
AGEC*2700	[0.50]	Survey of Natural Resource Economics
AGEC*4310	[0.50]	Resource Economics
BIOL*1040	[0.50]	Biology II
BIOL*3450	[0.50]	Introduction to Aquatic Environments
BOT*2050	[0.50]	Plant Ecology
CROP*2280	[0.50]	Crops in Land Reclamation
ECON*4930	[0.50]	Environmental Economics
ENGG*3650	[0.50]	Hydrology
ENVB*2030	[0.50]	Current Issues in Forest Science
ENVB*3000	[0.50]	Nature Interpretation
ENVB*3030	[0.50]	Pesticides and the Environment
ENVB*4780	[0.50]	Forest Ecology

Human Impact on the Environment

Introduction to the Biophysical Environment

GEOG\*2110 [0.50] Climate and the Biophysical Environment GEOG\*3110 [0.50] Biotic and Natural Resources GEOG\*3610 [0.50] Environmental Hydrology GEOG\*4110 [0.50] Environmental Systems Analysis LARC\*2820 [0.50] Urban and Regional Planning PHIL\*2070 [0.50] Philosophy of the Environment SOC\*2280 [0.50] Society and Environment SOIL\*2010 [0.50] Soil Science SOIL\*3050 [0.50] Land Utilization **European Studies (EURS)** Interdisciplinary Program

GEOG\*1220

GEOG\*1300

The European Studies program is designed for students who seek a career in International Relations - especially in International Business and Administration - between Canada and Europe. It offers a combination of languages, specially designed courses in European thought, letters and history and specialization in either European Business or European Culture and Civilization

Successful completion of the European Studies major requires proficiency in one of the following languages (French, German, Italian or Spanish). In order to demonstrate language proficiency, students have two options: they may study for a year at a European University, in the country where their chosen core language is spoken, or they may write a final research paper in the chosen core language within a required fourth year European Studies course (see EURO\*4740). It is highly recommended that students spend their third year studying at a European university, in the country where their chosen core language is spoken. The benefits of such an experience are considerable, both academically and personally. One specific academic outcome of a successful year abroad will be recognition that the student has fulfilled the program's core language requirement. Those who can demonstrate that they have written a major academic paper or exam in their chosen language while participating in an approved study year may be waived from the required course EURO\*4740. See the Coordinator for the European Studies program for more information. See also the course description for EURO\*4740.

#### Major (Honours Program)

A minimum of 13.00 credits is required, including:

a. the three components of the European Studies core (8.00 credits)

b. 5.00 credits in either the European Culture and Civilization or the European Business Studies area of emphasis

# **Core Requirements**

1. EURO*1050	[0.50]	The Emergence of a United Europe
EURO*1200	[0.50]	European Culture from the Mid 18th to the Mid 19th
		Century
EURO*2070	[0.50]	European Integration, 1957-1992
EURO*2200	[0.50]	European Culture from the Mid 19th Century to the
		1920's
EURO*2300	[0.50]	European Culture since 1920
EURO*4740	[0.50]	Research Project in European Studies
Note: in order to	domonstrat	languaga profisionay students must write a research

Note: in order to demonstrate language proficiency, students must write a research paper (EURO\*4740) in their core language unless they have spent one year studying at a European university, in the country where their chosen core language is spoken. Where that is the case, upon approval of the Co-ordinator for European Studies, EURO\*4740 will be waived.

2. 3.00 credits in one language:

# **Study Abroad**

Year 3 or year 4 will provide students with the opportunity to continue their studies abroad. Students will select up to 6.00 credits which can be included in the area of emphasis, as electives, or both. They are subject to approval by the program coordinator and the departmental advisor. Courses taken in Europe will not count towards the specialization average.

# **Practicum Opportunity:**

HUMN\*3501/2 is available for those students wishing to participate in a practicum experience as part of the year abroad. The practicum must be a job or volunteer experience that contributes to the student's area of study and intended career. It must be approved in advance as a Letter of Permission by the Coordinator. A final report, written in the student's chosen language, is a requirement of this course.

# Family and Child Studies (FCS)

#### Department of Family Relations and Applied Nutrition, College of Social and Applied Human Sciences

Family and Child Studies is offered as a minor in the honours program. It is designed to provide students with an opportunity to pursue interdisciplinary studies which have a specific focus on human development over the life span and on the applied questions which relate to the needs of children and the functioning of families. Elective courses may be chosen to emphasize the family, the child, or a combination of the two. Students seeking counselling should consult with a departmental advisor in the Department of Family Relations and Applied Nutrition.

# **Minor (Honours Program)**

A minimum of 5.00 credits is required, including:

FRHD*1010	[0.50]	Human Development
FRHD*1020	[0.50]	Couple and Family Relationships
FRHD*2270	[0.50]	Development in Early and Middle Childhood
FRHD*3040	[0.50]	Parenting: Research and Applications
NUTR*1010	[0.50]	Nutrition and Society

A further 2.50 courses offered by the Department of Family Relations and Applied Nutrition (FRHD or NUTR\*2050), of which at least 1.50 must be at the 3000 level or above including at least 0.50 at the 4000 level.

**Note:** where students have or plan to have credit for PSYC\*2450, an alternative course to FRHD\*2270 must be selected, in consultation with the departmental advisor, from those offered under the Family Studies (FRHD) listings

#### French Studies (FREN)

#### School of Languages and Literatures, College of Arts

All language courses carry 0.50 credits. Please note that students with Ontario Grade 12 credit or its equivalent in French are not normally admitted into FREN\*1100. Francophone students may start the program with second-year courses conditional upon approval by the Faculty Advisor. Students majoring in French are advised to take elective courses in another Romance language and in Latin.

It is also recommended that students include CLAS\*1000 and LING\*1000 among the electives in order to derive the maximum benefit from their studies. Except where stated otherwise, literary texts are, at all levels, studied in the original language. Students registering in French courses are expected to have the appropriate academic background.

#### Studies in Quebec or Abroad

The French program encourages students to spend 1 or 2 semesters in a French-speaking province or country, or to pursue their studies in an immersion program at the university level. Credit for programs of study successfully completed may be applied towards the University of Guelph degree requirements. Requests should be addressed well in advance of registration to the Director of the School of Languages and Literatures. A letter of

permission is required (see the Section VIII--Undergraduate Degree Regulations & Procedures). Students may also take advantage of federal-provincial programs such as the Second-Language Monitor program.

#### Year in Nice

A special year-long program in Nice, France, is offered to Guelph students at semester levels 5 and 6. All courses for which transfer credits have been arranged are credited at Guelph without the need for letters of permission; students pay only Guelph academic fees and are eligible for OSAP. For further information see the Head of French Studies.

# Area of Concentration (General Program)

A minimum of 5.00 French credits taught in French is required, including FREN\*1200, FREN\*2020, FREN\*2030, FREN\*2060, FREN\*2520, FREN\*3520.

#### Major (Honours Program)

A minimum of 8.00 French credits taught in French is required, including:

- a. FREN\*1200, FREN\*2020, FREN\*2030, FREN\*2060, FREN\*2520, FREN\*3230
- b. at least 0.50 credits from FREN\*2500, FREN\*2540
- c. at least 2.00 additional credits from FREN\*3000, FREN\*3010, FREN\*3020, FREN\*3070, FREN\*3150, FREN\*3200, FREN\*3210, FREN\*3220, FREN\*3240, FREN\*3290, FREN\*3560
- d. at least 1.00 credits from FREN\*3500, FREN\*3520, FREN\*3530
- e. at least 1.50 credits at the 4000 level

# Minor (Honours Program)

A minimum of 5.00 French credits taught in French is required, including:

- a. FREN\*1200, FREN\*2020, FREN\*2030, FREN\*2060, FREN\*2520, FREN\*3520 b. 1.00 credits in French literature from FREN\*3000, FREN\*3010, FREN\*3020,
- FREN\*3070, FREN\*3240, FREN\*3290, FREN\*3560, FREN\*4300
- c. 1.00 additional credits from French

#### Notes:

- 1. Students are strongly urged to take 0.50 language credits each semester.
- Students in the general program may take 4000 level courses, but must previously have taken FREN\*3520.
- Students of French are encouraged to take advantage of the French residence on this campus. Applications for accommodation in the Maison Française should be made well in advance of registration.
- 4. FREN\*1000, FREN\*1090, FREN\*1100, FREN\*1150, FREN\*1120 are not counted toward a specialization in French.
- 5. Native speakers of French (or non-francophone equivalent) will not normally be admitted into FREN\*1200 and FREN\*2030. It is recommended they start their program with FREN\*2020, FREN\*2060, FREN\*2500, or FREN\*2520 with the approval of the Faculty Advisor.

# Geography (GEOG)

#### Department of Geography, College of Social and Applied Human Sciences

The Department of Geography provides students with a broad range of courses in Human and Physical Geography which focus on the nature and evolution of the numerous and complex physical and human environment systems of the world. Students are required to select courses from both the human and physical fields. Within the program of studies it is possible for students through course selection to follow a particular line of interest in, for example, Rural Geography, Resource Management, Urban and Economic Geography, Biophysical Resources or Geomorphology.

The 1000 level courses provide a foundation for the Geography programs and are prerequisites or are strongly recommended for many of the 2000 level courses. The 2000 level systematic courses are prerequisite to the corresponding advanced courses at the 3000 and 4000 level. All students should obtain a copy of the department program planning guide and consult with faculty before planning their course of studies.

Students contemplating graduate or professional programs of study following completion of the honours program should consult a departmental advisor for advice on additional courses that they should take.

The department also offers a B.SC. honours Earth Surface Science program (jointly with Land Resources Science), a B.SC.(ENV.) honours Environmental Geography Major program, and a B.SC. honours program Minor in Geographic Information Systems and Environmental Analysis which are described in the schedule of studies for each of the programs (Section X). Geography B.A. honours Majors are eligible to take the B.SC. Minor. All Geography students are encouraged to consult with a departmental advisor regarding course selection.

The following courses may be counted as Geography credits: ENVS\*4220, GEOL\*2150 , MET\*2030, SOIL\*2010.

# Area of Concentration (General Program)

A minimum of 5.00 credits in Geography is required, including:

GEOG*1200	[0.50]	Society and Space
GEOG*1220	[0.50]	Human Impact on the Environment
GEOG*1300	[0.50]	Introduction to the Biophysical Environment

272 Two of:

GEOG*2000	[0.50]	Geomorphology

GEOG*2480	[0.50]	Mapping and GIS
2.00 credits at the 3	3000 level or	above

# **Major (Honours Program)**

A minimum of 9.00 credits in Geography is required, including:

GEOG*1200	[0.50]	Society and Space
GEOG*1220	[0.50]	Human Impact on the Environment
GEOG*1300	[0.50]	Introduction to the Biophysical Environment
GEOG*2000	[0.50]	Geomorphology
GEOG*2110	[0.50]	Climate and the Biophysical Environment
GEOG*2210	[0.50]	Environment and Resources
GEOG*2230	[0.50]	Economic Geography
GEOG*2260	[0.50]	Applied Human Geography
GEOG*2460	[0.50]	Analysis in Geography
GEOG*2480	[0.50]	Mapping and GIS
GEOG*3480	[0.50]	GIS and Spatial Analysis
GEOG*4880	[0.50]	Contemporary Geographic Thought
3.00 additional cr	redits in Geo	ography at the 3000 level or above including at least 1.50
credits at the 400	0 level.	

# Minor (Honours Program)

A minimum of 5.00 credits in Geography is required, including:

Two of:		
GEOG*1200	[0.50]	Society and Space
GEOG*1220	[0.50]	Human Impact on the Environment
GEOG*1300	[0.50]	Introduction to the Biophysical Environment
Two of:		
GEOG*2000	[0.50]	Geomorphology
GEOG*2110	[0.50]	Climate and the Biophysical Environment
GEOG*2210	[0.50]	Environment and Resources
GEOG*2230	[0.50]	Economic Geography
GEOG*2260	[0.50]	Applied Human Geography
a		<b>2</b> 0001 1 1 1 1 1 1 1

3.00 credits in Geography at the 3000 level and including at least one course at the 4000 level.

# German (GERM)

#### School of Languages and Literatures, College of Arts

All language courses carry 0.50 credits. Students with one year of high school German or equivalent may not be admitted into GERM\*1100. Students with OAC German may not be admitted into GERM\*1100 and GERM\*1110. Students with OAC German credit or its equivalent may be admitted into GERM\*1110 only with the approval of the department. All language students are strongly advised to include CLAS\*1000 and LING\*1000 among their electives in order to derive the maximum benefit from their studies. Except where stated otherwise, literary texts are, at all levels, studied in the original language. Students registering in these courses will be expected to have the appropriate knowledge.

# **Study Abroad**

The School of Languages and Literatures encourages students in the German program to spend 1 or 2 semesters in a German speaking country to continue their studies at the University level. Credit for programs of study successfully completed may be applied towards the University of Guelph degree requirements. Requests should be addressed well in advance to either the department or a particular section of the department. A letter of permission is required (see the Section VIII--Undergraduate Degree Regulations & Procedures).

# Minor (Honours Program)

A minimum of 5	.00 credits i	n German is required, including:
GERM*2240	[0.50]	Germany Through the Ages
GERM*2490	[0.50]	Intermediate German I
GERM*2500	[0.50]	Intermediate German II
GERM*2560	[0.50]	Themes in German Literature/Culture
GERM*2590	[0.50]	Classics of German Literature
GERM*3500	[0.50]	Advanced German
2.00 credits from	GERM*1	100 or GERM*1110) GERM*2400 GEI

2.00 credits from (GERM\*1100 or GERM\*1110), GERM\*2400, GERM\*3020, GERM\*3450, GERM\*3460, GERM\*3470, GERM\*3530

Note that for students beginning with GERM\*1100 or GERM\*1110 a maximum of 2.50 language credits is allowed. For students with OAC German or equivalent, a maximum of 2.00 language credits is allowed. Language courses beyond the 1000 level include GERM\*2490, GERM\*2500, GERM\*3500, GERM\*3530.

Students enrolled in the German program must contact the School of Languages and Literatures for an up-to-date sequence of course offerings.

# History (HIST)

# Department of History, College of Arts

Courses marked (H) are designed as honours courses. Students in a general program wishing to take these must obtain the permission of instructors concerned. All other courses may be taken by both general and honours students. Students wishing to take a 3000 level course must have pass standing in at least 5.00 credits in university courses.

Students wishing to take a 4000 level course must have pass standing in at least 10.00 university credits. Access to all 4000 level history courses is restricted to students in the B.A. Honours program with at least a 70% average in all history course attempts. Students should note the prerequisite requirements of upper level courses in planning their individual programs.

Students entering semester 1 are advised to choose from 1000 level courses. Second semester students wishing to take an advanced level History course should select that course from the History core.

## **Core Requirements**

- a. HIST\*1010, HIST\*2100, HIST\*2450, HIST\*2600
- b. 0.50 credits from each of a) Pre-Modern; b) Developing World; and c) Thematic. Course lists available in the Department of History and at http://www.uoguelph.ca/history/.

# Area of Concentration (General Program)

A minimum of 5.00 credits in History is required, including:

- a. at least 1.50 credits in History must be at the 3000 level (excluding HIST\*3470 )
- b. students should take the History Core Requirements

**Note:** With the permission of the department, students may select as part of their program 0.50 credits outside the History Department such as ECON\*2420, ECON\*3730, EURO\*4600, WMST\*4010.

# Major (Honours Program)

A minimum of 8.00 credits in History courses is required, including:

- a. the History Core Requirements
- b. 4.50 additional credits in History including 1.00 at the 4000 level (excluding HIST\*4470 and HIST\*4970) and an additional 0.50 credits at the 4000 level which may include either HIST\*4470 or HIST\*4970

# Minor (Honours Program)

A minimum of 5.00 credits in History is required, including:

- a. the History Core Requirements
- b. 1.50 other credits in History including 1.00 at the 4000 level

**Note:** Honours students in History may, with the permission of the department, take up to 1.00 credits from outside the department such as ECON\*2420, ECON\*3730, EURO\*4600, WMST\*4010. Students considering graduate work are advised to take 2.00 - 3.00 additional upper level History credits perhaps including the Special History Project Seminar (HIST\*4470, HIST\*4970) and to acquire a reading knowledge of a foreign language. Honours students must complete HIST\*2450 by the end of their third semester to be eligible for 3000 level History courses.

# Individual Studies (IS)

#### Interdisciplinary Program

#### B.A. Counselling Office, Room 130, MacKinnon Building, Ext. 52140.

Honours B.A. students have the option of doing an Individual Studies Major. Students in the Individual Studies Major have the opportunity to determine the goals and methods of their studies. Areas of study can include courses in any of the colleges and where the University of Guelph has faculty expertise to assist students. Students are encouraged to develop an interdisciplinary perspective, and to explore the methods of inquiry which provide depth of knowledge in a specific subject.

A student submitting a proposal for the Individual Studies Major must submit the complete proposal to the B.A. Program Counsellor before the third week of classes of semester four. The B.A. Program Committee will consider proposals once, and will approve, approve with revisions, or deny the proposal. Proposals cannot be resubmitted.

Proposals will not be considered unless they articulate a detailed rationale for a coherent program of studies that is significantly different from any existing major and minor combination at the University of Guelph, and unless the proposal meets the following criteria:

- a. minimum of 9.00 credits
- b. minimum of 4.00 credits at the 3000 level and above, including at least 1.00 credits at the 4000 level
- c. minimum of 1.00 credits in methods and/or theory
- d. maximum of 1.50 credits at the 1000 level

e. a senior level Directed Readings or Special Project course must be completed. When appropriate, the Committee will identify a faculty member as the supervisor for a student's course of study.

A student wishing to submit a proposed program of studies for the Individual Studies Major must prepare a proposal that will include the following:

- a. a clear statement of theme or areas of study
- b. a clear statement of the contribution of the major to a post-graduation field of work or study
- c. a clearly set out rationale for inclusion of the specific courses and how they relate to or develop the theme or areas of study
- d. a list of required "core" courses and "restricted electives" following the above criteria. When proposing core and restricted elective credits, students should keep in mind the prerequisites for their desired 3000 and 4000 level courses

**Note:** Students undertaking the Individual Studies Major must fulfill the requirements of the B.A. Honours Program as set out in Section X. The B.A. Program Counsellor is the academic counsellor. The Individual Studies designation will appear on the student's transcript upon graduation, but the title or subject of the major will not.

#### Information Systems and Human Behaviour (ISHB)

#### Interdisciplinary Program

As computers and communications play progressively more subtle and significant roles in society, this program of study brings together the elements of 3 disciplines to provide students with an understanding of technical, behavioural and social aspects of information technology. This program of study is a co-operative effort of the Department of Computing and Information Science, Department of Psychology, and Department of Sociology and Anthropology. Students in this program will be advised by the program coordinator in the Department of Computing and Information Science.

```
International Development (ID)
```

#### **Interdisciplinary Program**

#### Faculty Advisor: Room 045 MacKinnon Building, ext 56175.

The International Development program provides students with an opportunity to pursue interdisciplinary and comparative studies of long-term change and international inequality. A broad coverage of the process of international development, from the perspectives of history and social science, forms the basis for more in-depth study on such topics as economic growth, the biophysical environment, gender, agriculture and rural life, politics and administration, and the Latin American region.

The primary participating departments are Economics, Geography, Political Science, and Sociology and Anthropology.

#### Area of Concentration (General Program)

A minimum of 5.00 credits is required, including:

A minimum of 5.0	o creatts is	required, including.
ANTH*1150	[0.50]	Introduction to Anthropology
ECON*1050	[0.50]	Introductory Microeconomics
ECON*1100	[0.50]	Introductory Macroeconomics
ECON*2650	[0.50]	Introductory Development Economics
GEOG*2030	[0.50]	Political Ecology & Geography
GEOG*3050	[0.50]	Development and the City
IDEV*2010	[0.50]	International Development Studies
POLS*2080	[0.50]	Development and Underdevelopment
One of:		
ECON*3720	[0.50]	History of the World Economy Since 1850
ECON*3730	[0.50]	Europe and the World Economy to 1914
One of:		
POLS*3670	[0.50]	Comparative Public Policy and Administration
POLS*3790	[0.50]	The Political Economy of International Relations

# Major (Honours Program)

A minimum of 12.00 credits is required, including the core of 7.00 credits and one of seven areas of emphasis for 5.00 credits. The areas are: Economic and Business Development, Gender and Development, Rural and Agricultural Development, Environment and Development, Latin American Studies, Political Economy and Administrative Change, and Historical Perspectives in Development. Students must select an area of emphasis by the end of the 4th semester of university study.

International Development students are encouraged to acquire at least one foreign language and to work or study abroad.

With the permission of the International Development Studies faculty advisor, students may replace 0.50 credits from their area of emphasis with IDEV\*3200, or 1.00 credits from their area of emphasis with IDEV\*4190 and IDEV\*4200.

**Note:** When selecting courses, students should keep in mind the prerequisites for their desired 3000 and 4000 level courses.

Italian (ITAL	)	

#### School of Languages and Literatures, College of Arts

All language courses carry 0.50 credits. Students with Year 4 or OAC Italian or their equivalent may be admitted into ITAL\*1060 or ITAL\*1070 only with the approval of the department. Students advancing in a Romance language (French, Spanish, Italian) are advised to take elective courses in a second Romance language and in Latin. All language students are strongly advised to include CLAS\*1000 and LING\*1000 among their electives

#### Study Abroad

The School of Languages and Literatures encourages students in modern languages to spend 1 or 2 semesters in another country to study a particular language at the university level. Credit for programs of study successfully completed may be applied towards the University of Guelph degree requirements. Requests should be addressed well in advance to either the School or a particular section of the School. A letter of permission is required (see Section VIII--Undergraduate Degree Regulations and Procedures.)

Italian may be taken as a minor in the honours program. Students in Italian will be counselled by the School of Languages and Literatures.

#### Minor (Honours Program)

A minimum of 5.00 credits is required, including:

- a. ITAL\*2060, ITAL\*2070, ITAL\*3060
- b. two of the following courses ITAL\*2100, ITAL\*3150, ITAL\*3200
- c. 1.50 additional credits from List A
- d. at least 1.00 credits from List B

# Marketing Management (MKMN)

Department of Marketing and Consumer Studies, College of Management and Economics

A Marketing Management minor is designed for students who wish to pursue interdisciplinary studies that consider consumers and the marketplace, consumers and their decision processes and behaviours, markets and their structure and various interactive relationships, and issues concerning market management.

Students who wish to declare the Marketing Management Minor specialization must apply directly to the Department. In order to be eligible, applicants must have a cumulative average of 70% or better in all course attempts towards the minor.

# **Minor (Honours Program)**

A minimum of 5.00 credits is required, including:

# Mathematical Economics (MAEC)

# Department of Economics, College of Management and Economics

Most economic theory rests on explicit, formal, mathematical and/or statistical foundations. This specialization articulates and emphasizes these interactions. It is most suitable for students who either have, or wish to develop, a strong analytical background.

**Note:** Students approaching the end of their program are strongly advised to take, by arrangement with the departmental advisor, at least one of the Special Study in Economics courses (ECON\*4900, ECON\*4910).

# Major (Honours Program)

1.00 electives		

\*at least 1.00 of the 4.00 restricted electives must be from Mathematics and 1.00 must be from Statistics. The remaining 2.00 can be from either subject area. Of the 4.00 credits, at least 1.00 must be at the 3000 level or above and the remaining 3.00 must be at the 2000 level or above.

**Note:** Courses from MATH or STATS will be allowed with the appropriate prerequisites, or by permission of the instructor.

# Mathematics (MATH)

# Department of Mathematics and Statistics, College of Physical and Engineering Science

Mathematics and Statistics have become crucial components in the understanding and exploration of more and more disciplines. Persons with a strong background in mathematical sciences have access to a broad range of rewarding opportunities. Within the B.A. program, the Department of Mathematics and Statistics offers areas of concentration, majors and minors, both in Mathematics and Statistics. The Mathematics programs are designed to provide considerable flexibility for students to pursue their own interests, whether they be in the concepts of "pure" mathematics or techniques and applications. As a result, these programs open up opportunities for careers in many sectors such as business, education, government, industry, or medicine.

# Area of Concentration (General Program)

A minimum of 5.00 Mathematics credits is required, including:

- a. 4.00 credits in Mathematics, including at least 1.00 from courses at the 3000 level or above
- b. 1.00 additional credits from Mathematics, Statistics and/or Computing Science

# **Honours Programs**

Students without 4U Advanced Function and Calculus or OAC Calculus should consult with the departmental advisor. Students without 4U Geometry and Discrete Mathematics or OAC Algebra and Geometry should take MATH\*2150 and then MATH\*2160.

# **Core Requirements for Honours**

-			
MATH*1200	[0.50]	Calculus I	
MATH*1210	[0.50]	Calculus II	
MATH*2000	[0.50]	Set Theory	
MATH*2160	[0.50]	Linear Algebra I	
MATH*2200	[0.50]	Advanced Calculus I	
Note: For both a major and a minor, it is strongly recommended that PHIL*2110 be			
included as an elective and be taken as early as possible.			

# Major (Honours Program)

A minimum of 8.00 credits is required, including:

a. the Mathematics	core requirements
a. the mathematics	core requirements

- b. MATH\*2210
- c. MATH\*3200
- d. STAT\*2040
- e. 0.50 credits in Statistics
- f. 0.50 credits in Computing Science (from CIS\*1500 or higher)
- g. 3.00 additional credits in Mathematics from courses at the 2000 level or above, including 1.00 at the 3000 level and 1.00 at the 4000 level

# Minor (Honours Program)

A total of 5.00 credits is required to complete the Minor including:

2.50 credits from (MATH\*1080 or MATH\*1200), (MATH\*1210 or MATH\*2080), MATH\*2000, (MATH\*2150 or MATH\*2160), MATH\*2200

0.50 STAT credits at the 2000 level or above

2.00 additional Mathematics credits at the 2000 level or above, including 1.50 credits at the 3000 or 4000 level

# Museum Studies (MS)

#### School of Fine Art and Music

The Minor program in Museum Studies offers an introduction to museum culture from both theoretical and practical perspectives. Courses in the program cover the history of museums, examination of assumptions that have guided the collecting and classifying of visual culture, and consideration of how these institutions serve the needs of national and group identity construction.

This program of study is designed as a complement to a significant number of Major specializations, suitable for any student wishing to broaden their knowledge beyond their Major area of study.

# Minor (Honours Program)

(May not be taken in combination with Art History Honours Major).

A minimum of 5.00 credits is required, including:

-			
	a. ARTH*1220	[0.50]	The Visual Arts Today
	ARTH*1510	[0.50]	Art Historical Studies I
	ARTH*1520	[0.50]	Art Historical Studies II
	b. 3.50 additional of	credits in Art	History including:
	ARTH*2120	[0.50]	Introduction to Museology
	ARTH*2480	[0.50]	Introduction to Art Theory and Criticism
	ARTH*3220	[0.50]	Nationalism and Identity in Art
	ARTH*3330	[0.50]	Display: Visual Culture in Western Europe

276

ARTH\*4620 [0.50] Museum Studies Music (MUSC)

#### School of Fine Art and Music, College of Arts

The School offers courses in music history, theory, ethnomusicology, and performance. Many courses are open to all students, while others require a knowledge of the rudiments of musical notation or other prerequisites. Students are urged to plan their program in consultation with a Music advisor. Music programs allow considerable flexibility for students to elect one or more areas of interest, such as individual study on an instrument, performing in vocal or instrumental ensembles, specialized historical or theoretical study, directed readings, or an independent project. Physics of Music (MUSC\*1090) is strongly recommended for all Music students and will count as one of the courses for the B.A. math/science requirement.

Courses in Music are offered in several of the semesters abroad, especially London. Credit for programs of study successfully completed may be applied towards the University of Guelph degree requirements.

## Applied Music

MUSC\*1500 is available only by audition. MUSC\*1500 is restricted to students in Semesters 1-4. Students who wish to continue to the 2000 level in Applied Music must be enrolled in a Music program, general program; area of concentration; honours program, major or minor.

Applied Music courses are designed to be taken during successive Fall and Winter terms. If this sequence is interrupted for more than one semester, students may be required to reapply (re-audition) before registering to continue in Applied Music. Students must achieve a minimum grade 70% in Applied Music courses in order to proceed to the next level.

# **Applied Composition**

Private instruction is offered in music composition. In order to register in Applied Composition (MUSC\*2410), students must submit a portfolio of compositions (scores and recordings) to the School of Fine Art and Music at the time of course selection. Interviews are held prior to the first day of classes each semester (see School of Fine Art and Music for interview schedule). In order to enrol in Applied Composition, students must be registered in a Music program: Area of Concentration (General Program), Major or Minor (Honours Program). Applied Composition courses are designed to be taken during successive Fall and Winter terms. If this sequence is interrupted for more than one semester, students must achieve a minimum grade of 70% in Applied Composition courses in order to proceed to the next level.

#### **Core Requirements**

The Music core is designed to provide the concepts and skills students need for successful study in higher level courses. All students in the general program area of concentration and honours program major must complete the following courses:

MUSC*1180	[0.50]	Musicianship I
MUSC*1250	[0.50]	Melody and Counterpoint
MUSC*2360	[0.50]	Tonal Harmony I
MUSC*2370	[0.50]	Tonal Harmony II
MUSC*2600	[0.50]	Music History: Chant to Josquin
MUSC*2610	[0.50]	Music History: The Reformation to J.S. Bach
MUSC*2620	[0.50]	Music History: Classical and Romantic Eras
MUSC*3630	[0.50]	20th Century Music
Note: MUSC*11	20 doos not	count toward aither the Major (Honours) Minor (Ho

Note: MUSC\*1130 does not count toward either the Major (Honours), Minor (Honours), or Area of Concentration (General Program).

# Area of Concentration (General Program)

A minimum of 5.50 Music credits is required, including:

- a. the Music core
- b. at least 1.00 Music credits at the 3000 level or above
- c. two of MUSC\*2530, MUSC\*2540, MUSC\*2550, MUSC\*2560.

# Major (Honours Program)

A minimum of 8.50 Music credits is required, including:

- a. the Music core
- b. two of MUSC\*2530, MUSC\*2540, MUSC\*2550, MUSC\*2560.
- c. one of MUSC\*2110, MUSC\*2140, MUSC\*2150, MUSC\*2200
- d. one of MUSC\*2100, MUSC\*2220
- e. MUSC\*4401/2

f. 2.00 additional credits at the 3000 or 4000 level

Participation in Applied Music courses is strongly recommended for all honours students. Students contemplating graduate studies in Music should consult music faculty early in their program.

#### **Minor (Honours Program)**

A minimum of 5.00 Music credits is required, including MUSC\*1180 and at least 2.00 Music credits at the 3000 or 4000 level. Students should be aware that courses at the 3000 or 4000 level may require additional prerequisites.

Last Revision: January 28, 2008

Honours students considering graduate work in ethnomusicology, performance, theory, and other music specializations should consult the School Director or a faculty adviser early in their program. Students should take courses covering a broad range of historical periods and methodologies, and also consider courses in Humanities (HUMN), dramatic theory, art history, anthropology, and English literature. A reading knowledge of at least one language other than English is also recommended.

# **Organizational Behaviour (OBEH)**

#### Department of Psychology, College of Social and Applied Human Sciences

The study of behaviour and the behavioural processes of individuals and groups within organizations is an especially important focus for those interested in human welfare and productivity. The Minor in Organizational Behaviour is for students seeking to broaden their knowledge beyond their major area of study and may be of particular value for those interested in the dynamics of organizational structures within the private and/or public domains. Although this program should provide a meaningful complement for a significant number of Major options, the program might be of particular interest to those students considering a future management and/or business career.

#### Minor (Honours Program)

(May not be taken in combination with a Psychology Honours Major)

A minimum of 6.00 credits is required, including:							
PSYC*1100	[0.50]	Principles of Behaviour					
PSYC*1200	[0.50]	Dynamics of Behaviour					
2.00 credits in 4 Psychology Core Courses, to include PSYC*2310							
PSYC*2010	[0.50]	Quantification in Psychology					
PSYC*3060	[0.50]	Occupational Health Psychology					
PSYC*3070	[0.50]	Psychology in Human Resource Management					
PSYC*3080	[0.50]	Organizational Psychology					
PSYC*3250	[0.50]	Psychological Measurement					
0.50 111.1 1	1 D	1 1					

0.50 additional credits in Psychology

Students should note the availability of courses PSYC\*3900 and PSYC\*3910 when considering potential Psychology electives which would fulfil this requirement. When selecting open electives for completion of the degree, students with this minor should consider selecting the following courses: HTM\*4390 and SOAN\*2040.

**Note:** Courses designated with (H) in Section XII--Course Descriptions are Honours level courses requiring for registration a cumulative average of at least 70% in all course attempts in Psychology.

# Philosophy (PHIL)

#### Department of Philosophy, College of Arts

The Department of Philosophy offers programs emphasizing the history of philosophy and the study of metaphysics, epistemology, ethics and logic. The requirements for the various Philosophy programs are designed to ensure a basic competence in the discipline while permitting varying degrees of flexibility. It is important that students discuss their programs with a departmental advisor in order to ensure that the best selection of elective Philosophy courses is made. This is especially important for students who are contemplating graduate work in Philosophy.

Students may take PHIL\*1000, PHIL\*1010 and PHIL\*1050 but only one may be counted towards the minimum number of Philosophy courses required for a degree.

#### Area of Concentration (General Program)

A minimum of 5.00 credits in Philosophy is required, including:

- a. 1 of PHIL\*2140, PHIL\*2160, PHIL\*2170, PHIL\*3060, PHIL\*3080, PHIL\*3130, PHIL\*3200
- b. 1 of PHIL\*2110, PHIL\*2130, PHIL\*2180, PHIL\*3180, PHIL\*3190, PHIL\*3240, PHIL\*3250, PHIL\*3420, PHIL\*3910, PHIL\*3920, PHIL\*3930, PHIL\*4360, PHIL\*4370, PSYC\*3280
- c. 1 of PHIL\*2030, PHIL\*2060, PHIL\*2070, PHIL\*2120, PHIL\*2600, PHIL\*3040, PHIL\*3050, PHIL\*3230, PHIL\*4060, PHIL\*4310, PHIL\*4340
- d. 3.50 additional credits in Philosophy

Note: Students must have at least 1.50 Philosophy credits at the 3000 or 4000 level.

#### Major (Honours Program)

A minimum of 8.50 credits is required, including:

- a. PHIL\*2110, PHIL\*2120, PHIL\*2140, PHIL\*2160, PHIL\*3080
- b. 2 of PHIL\*2170, PHIL\*2180, PHIL\*3180, PHIL\*3190, PHIL\*3240, PHIL\*3250, PHIL\*4360, PHIL\*4370, PSYC\*3280
- c. 2 of PHIL\*2060, PHIL\*3050, PHIL\*3230, PHIL\*4310, PHIL\*4340
- d. 2 of PHIL\*2030, PHIL\*2070, PHIL\*2130, PHIL\*2600, PHIL\*3130, PHIL\*3200, PHIL\*3420, PHIL\*3910, PHIL\*3920, PHIL\*3930, PHIL\*4060
- e. 3.00 additional credits in Philosophy

Note: Students must have at least 3.50 credits in Philosophy at the 3000 level or above, and at least 1.50 of these at the 4000 level.

Students planning to do graduate studies in philosophy should take PHIL\*2110, PHIL\*2120, PHIL\*2140, PHIL\*3080, PHIL\*3130, PHIL\*3200, PHIL\*4800.

# Minor (Honours Program)

A minimum of 5.00 credits in Philosophy is required, including:

a. 1 of PHIL\*2140, PHIL\*2160, PHIL\*2170, PHIL\*3060, PHIL\*3080

- b. 1 of PHIL\*2110, PHIL\*2180, PHIL\*3180, PHIL\*3190, PHIL\*3240, PHIL\*3250, PHIL\*4360, PHIL\*4370, PSYC\*3280
- c. 1 of PHIL\*2060, PHIL\*2120, PHIL\*3050, PHIL\*3230, PHIL\*4310, PHIL\*4340
- d. 1 of PHIL\*2030, PHIL\*2070, PHIL\*2130, PHIL\*2600, PHIL\*3130, PHIL\*3200, PHIL\*3420, PHIL\*3910, PHIL\*3920, PHIL\*3930, PHIL\*4060
- e. 3.00 additional credits in Philosophy

**Note:** Students must have at least 3.50 credits in Philosophy at the 3000 level or above, and at least 1.50 of these at the 4000 level.

# Political Science (POLS)

# Department of Political Science, College of Social and Applied Human Sciences

The Department of Political Science offers courses in the following areas: Theory and Analysis, Canada and the Americas, Public Policy and Administration, and Comparative / International Development. These areas are listed below to identify 3000 level courses that fulfill prerequisites for selected 4000 level courses (see course descriptions). A brochure describing each of these fields of study, and containing further course information, is available from the departmental office. The Department of Political Science also participates in several interdisciplinary programs, including European Studies and International Development Studies.

Students taking courses in Political Science may enrol initially in POLS\*1150, POLS\*1400, POLS\*1500, the latter 2 courses providing overview and introductory treatments of particular interest to students who wish to take higher level courses in the department but who do not intend to specialize in the discipline. For students intending to pursue a general or honours specialization in Political Science, however, POLS\*1150 is required.

Courses at the 2000 level provide students with essential grounding in specific areas of the discipline and are normally prerequisite for enrolment in 3000 and 4000 level courses. Students in the honours program major are required to take POLS\*3180 and POLS\*3650. Students in the honours program minor are required to take POLS\*3180.

In addition to the requirements set out in the B.A. Program Regulations, the Department of Political Science requires that students pursuing general and honours programs successfully complete a core requirement of 2.50 credits and meet specific distribution requirements as follows:

# **Core Requirements**

a. POLS\*1150, POLS\*2000, POLS\*2300

- b. POLS\*2080 or POLS\*2100
- c. POLS\*2200 or POLS\*2250

# Area of Concentration (General Program)

A minimum of 5.00 credits in Political Science is required, including:

- a. the Political Science core
- b. 2.50 additional credits, at least 1.50 of which must be at the 3000 level or above

# Major (Honours Program)

A minimum of 9.00 credits in Political Science is required, including:

- a. the Political Science core
- b. POLS\*3180 and POLS\*3650
- c. at least 0.50 credits at the 3000 level in three of the four fields in the department
- d. 2.00 credits at the 4000 level, two of which may include the POLS\*4970/POLS\*4980 Honours Thesis \*\*

\*\* Students interested in pursuing graduate or professional studies related to Political Science are encouraged to consider taking the POLS\*4970/POLS\*4980 Honours Thesis sequence. Interested students must obtain instructor consent in order to register for this option.

# Minor (Honours Program)

A minimum of 5.00 credits in Political Science is required, including:

- a. the Political Science core
- b. POLS\*3180
- c. 0.50 credits at the 4000 level

Choices for fulfillment of prerequisites for 4000 level courses (see course descriptions for corresponding requirements).

The Department of Political Science offers a comprehensive counselling service for students in Political Science. As part of their program, the department also permits students to include 0.50 credits towards the general degree and 1.00 credits towards the honours degree from an approved list of courses offered by other departments.

Students are encouraged to consult with the departmental advisor for either of these programs about course selection, substitution of courses offered by other departments, or other matters.

# Psychology (PSYC)

F

# Department of Psychology, College of Social and Applied Human Sciences

The discipline of Psychology is normally associated with the social sciences, the biological sciences, and the health professions. Specialization in Psychology at Guelph is available as a B.A. honours program major, a B.A. honours program major (co-op), and as an honours specialization in the B.SC. program (described in the schedule of studies for B.SC. programs). Through its different undergraduate programs, the Psychology Department attempts to provide a) a broad general education emphasizing psychological theory and methodology, with an empirical basis in course work (e.g. experiments and projects); b) an appropriate background in psychology for those who leave the University with an undergraduate degree to embark on careers in related areas (e.g. social services); and c) a sound preparation for graduate study in psychology. Students intending to apply for admission to graduate programs in Psychology are advised to refer to the Graduate Advisory Note.

A cumulative average of at least 70% in all course attempts in Psychology is required to enter or continue in the Honours Psychology program major in semesters 4, 5, 6, 7, and

# Minors

8.

Students interested in a Minor in Psychology should examine the schedule of studies for the Minors in Cognitive Neuropsychology, Developmental Psychology, Educational Psychology, Organizational Behaviour, or Social Psychology. Within the BA Degree program, these are the only Honours Minors available from the Psychology Department. The department does not offer Psychology as an Honours BA Minor, or as an Area of Concentration in the General BA Program.

# Note on Honours Courses

Courses marked (H) are designed for students in a psychology honours program, the Information Systems and Human Behaviour program, the Developmental Psychology Minor program, the Educational Psychology Minor program, the Organizational Behaviour

#### X. Degree Programs, Bachelor of Arts (B.A.)

Minor program, the Social Psychology program, the Cognitive Neuropsychology Minor program, or Human Resources Management major of the Bachelor of Commerce program. Students in other programs wishing to take these courses must obtain the permission of the instructors concerned. Unless otherwise specified, all other courses may be taken by general, honours, and students from other programs, providing the prerequisites are met. Courses designated with (H) are Honours level courses requiring for registration a cumulative average of at least 70% in all course attempts in Psychology, or registration in either the HRM Major or ISHB Major.

#### **Core Requirements**

Each of the Psychology programs requires that students complete at least 6 of the following 2000 level Psychology courses (3.00 credits). Psychology students are advised that they are normally expected to complete at least four 2000 level Psychology core courses prior to attempting any 3000 level Psychology courses.

However, students should take the 3000 level methodology courses PSYC\*3320(H), PSYC\*3370(H) and PSYC\*3380 (H) as early as possible, even though 4 core courses may not have been taken.

PSYC*2310	[0.50]	Introduction to Social Psychology
PSYC*2330	[0.50]	Principles of Learning
PSYC*2390	[0.50]	Principles of Sensation and Perception
PSYC*2410	[0.50]	Behavioural Neuroscience I
PSYC*2450	[0.50]	Introduction to Developmental Psychology
PSYC*2650	[0.50]	Cognitive Psychology
PSYC*2740	[0.50]	Personality

#### **Major (Honours Program)**

A minimum of 9.00 credits in Psychology is required, including (see notes below):

PSYC*1100	[0.50]	Principles of Behaviour
PSYC*1200	[0.50]	Dynamics of Behaviour
6 of the 2000 leve	el Psycholo	bgy core courses listed above
PSYC*2010	[0.50]	Quantification in Psychology
PSYC*2360	[0.50]	Introductory Research Methods
PSYC*3250	[0.50]	Psychological Measurement
PSYC*3320	[0.50]	Statistical Principles in Psychological Research
4 50 1 11 1 1		20001 1 1 (0 1 1 1 1 1 1 1 7

1.50 additional credits at the 3000 level or above (Students electing to take PSYC\*3370 and PSYC\*3380 will need to select only 0.50 additional credits at the 3000 level or above in order to satisfy this requirement.) (see Graduate Advisory Note).

1.50 additional psychology credits at the 4000 level (See Graduate Advisory Note). Notes:

- 1. PSYC\*2010 should normally be completed by the end of semester 3
- 2. PSYC\*2360 should normally be completed by the end of semester 4
- 3. PSYC\*3320 SHOULD NORMALLY BE COMPLETED BY THE END OF SEMESTER 4.
- 4. NOTE: that PSYC\*3320 is a prerequisite for PSYC\*3370 and PSYC\*3380 and that PSYC\*3320 is an (H) designated course.

Note: The regulations of the B.A. program govern the number of credits that must be taken at the 3000 level or above (see B.A. Program Regulations). With permission of the Psychology Department PRIOR to course selection, up to 1.00 non-psychology credits that would enhance the student's studies in Psychology, especially in preparation for post-graduate work, may be credited towards the total number of credits required for graduation in the honours program major in Psychology.

Graduate Advisory Note: Most graduate programs require the student to have at least a B+ average in order to be considered for admission. Students contemplating graduate work in Psychology are strongly advised to complete the major by completing 0.50 electives credits at the 3000 level or above and 0.50 elective credits at the 4000 level beyond PSYC\*4870 and PSYC\*4880 which would otherwise satisfy the 3000-4000 level elective requirement for the major.

These students are encouraged to complete the Psychology major as follows:

- a. PSYC\*1100 and PSYC\*1200
- b. 6 of the 2000 level Psychology core courses
- c. PSYC\*2010 and PSYC\*3320
- d. PSYC\*2360 and PSYC\*3370 and PSYC\*3380
- e. an additional 0.50 credits in Psychology at the 3000 level or above
- f. PSYC\*3250
- g. PSYC\*4370 or PSYC\*4900
- h. 0.50 electives at the 4000 level
- i. PSYC\*4870 plus PSYC\*4880

Students should note that an Honours Thesis is normally taken as a Fall-Winter sequence worth the equivalent of 1.50 credits toward the 20.00 credits Honours B.A. degree requirements.

#### Psychology (Co-op) (PSYC:C)

Department of Psychology, College of Social and Applied Human Sciences

Co-operative Education formally integrates the student's academic study with 3 work terms (COOP\*1000, COOP\*2000, COOP\*3000) in co-operating employer organizations. The Co-op program is offered as a B.A. honours program major degree taken as one of two major options combined with 3 work terms. One of the options is recommended for Co-op students expecting to apply for admission to graduate studies in Psychology. (See Graduate Advisory Note.)

All Co-op students are strongly advised to complete the B.A. requirements by including in their program 3 or more courses from the listing of courses under Business Administration, to ensure that they have 1 or more courses in computer science, accounting and management, or organizational behaviour. (Business Administration is also available as a minor.) Although not required, Co-op students are strongly encouraged to select a minor as part of the program.

Depending on career aspirations, students should have a good working knowledge of one or more of the following before their first work semester: psychological measurement, quantitative methods, computer science, accounting and management, or organizational behaviour.

The first work term normally follows 3 or 4 semesters of academic study (see Section X-Co-operative Education Programs). Students must be eligible to continue in the Honours Psychology program in order to remain in the Co-op program.

Admission to the Co-op program is limited and will be based on academic background. Admission will normally be considered only at semester 1 entry or during semester 2 when the student selects courses for semester 3.

Note: Courses designated with (H) in Section XII--Course Descriptions are Honours level courses requiring for registration a cumulative average of at least 70% in all course attempts in Psychology.

#### Major (Honours Program) - Stream A

The following Co-op schedule of studies is for students not intending to apply for admission to graduate programs in Psychology (includes 3 work terms).

Note: When selecting core and elective credits the student should keep in mind the prerequisites for their desired 3000 and 4000 level courses. When selecting courses beyond Psychology the student should keep in mind both their second specialization and courses appropriate for potential work-term placements.

#### Semester 1 - Fall

PSYC*1100	[0.50]	Principles of Behaviour
PSYC*1200	[0.50]	Dynamics of Behaviour

Psychological Measurement 0.50 Psychology credits at the 3000 or 4000 level\*\*

Co-operative Education Project I

#### 280

### Semester 8 - Summer\*\*\*\*\*

#### 2.00 electives

\* B.A. distribution requirements should be satisfied within the first 4 semesters

\*\* at least two of these Psychology courses must be at the 4000 level

\*\*\* see Semester 4 requirements as not all core courses are available in the Summer Semester

\*\*\*\* PSYC\*2310 and PSYC\*2740 are normally available in the Summer Semester \*\*\*\*\* the schedule for COOP\*3000 and semester 8 requirements can be exchanged

### Major (Honours Program) - Stream B

The following Co-op schedule of studies is recommended for those students intending to apply for graduate work in Psychology (includes 3 work terms and 18 Psychology courses).

### Semester 1 - Fall

PSYC*1100	[0.50]	Principles of Behaviour
PSYC*1200	[0.50]	Dynamics of Behaviour
1.50 electives*		
Semester 2 - W		
COOP*1100	[0.00]	Introduction to Co-operative Education
PSYC*2010	[0.50]	Quantification in Psychology
1.00 Psychology c 1.00 electives*	tore (other t	han PSYC*2310 or PSYC*2740)
Semester 3 - Su	mmer	
PSYC*2310	[0.50]	Introduction to Social Psychology
PSYC*2740	[0.50]	Personality
1.50 electives*	[]	
Semester 4 - Fa	ll	
PSYC*2360	[0.50]	Introductory Research Methods
PSYC*3320	[0.50]	Statistical Principles in Psychological Research
1.00 Psychology c	ore	
0.50 electives*		
Winter Semeste		
COOP*1000	[0.00]	Co-op Work Term I
Summer Semes	ster	
COOP*2000	[0.00]	Co-op Work Term II
Semester 5 - Fa	11	
PSYC*3370	[0.50]	Experimental Design and Analysis
2.00 electives*		
Semester 6 - W	inter	
PSYC*3250	[0.50]	Psychological Measurement
PSYC*3380	[0.50]	Non-experimental Research Methods
1.50 electives*		
Summer Semes	ster	
Optional		
Fall Semester*	*	
COOP*3000	[0.00]	Co-op Work Term III
One of:		
PSYC*4910	[0.50]	Co-operative Education Project I
0.50 PSYC*		
0.50 electives Semester 7 - W	intor**	
		TT
PSYC*4870 2.00 electives*	[0.50]	Honours Thesis I
Semester 8 - Su	mmer	
PSYC*4880		Honours Thesis II
1.00 electives*	[1.00]	
	e elective ci	redits in semester 5, 6, 7, or 8 must be a 3000 leve

\*at least 1.00 of the elective credits in semester 5, 6, 7, or 8 must be a 3000 level or above Psychology elective (and include either PSYC\*4370 or PSYC\*4900). The total of electives should include the B.A. program distribution requirements and the completion of the total number of credits required at the 3000 level or above required by the B.A. degree.

\*\*the schedule for COOP\*3000 and semester 7 requirements can be exchanged

### Rural and Development Sociology (RDS)

Department of Sociology and Anthropology, College of Social and Applied Human Sciences

The program of Rural and Development Sociology focuses on the study of rural institutions and processes in industrialized societies with an emphasis on changes in rural communities, agriculture and natural resources, including historical and comparative analyses of the development of rural life. It provides students with major research and conceptual tools needed for the understanding of rural transformation, their interdependence with the natural environment and with urban society.

### Major (Honours Program)

A minimum of 8.00 credits in Sociology and Anthropology is required, including:

- a. ANTH\*1150, SOAN\*2111/2, SOAN\*2120, SOAN\*3070, SOAN\*3120, SOAN\*4500, SOC\*1100, SOC\*2080, (ANTH\*3690 or SOC\*3310), SOC\*3380, SOC\*4210
- b. 4 of SOAN\*4220, SOAN\*4240, SOC\*2010, SOC\*2280, SOC\*2390, SOC\*4880, SOC\*4890, SOC\*4900, SOC\*4910

c. at least 1.00 credits at the 4000 level

### Social Psychology (SPSY)

Department of Psychology, College of Social and Applied Human Sciences

Social Psychology focuses on the ways in which human experience is grounded in social interactions and social relationships. Although this Minor was designed for any student seeking to broaden their knowledge beyond their Major area of study, it may be of particular interest to students who are considering future careers in human service fields such as Social Work, Counselling, Criminology, and Occupational Therapy. The program may also be of special interest to students associated with the Collaborative Diploma Program in Public/Private Sector Administration.

### **Minor (Honours Program)**

(Honours Frogram)				
(May not be taken in combination with a Psychology Honours Major)				
A minimum of 6.00 credits is required, including:				
PSYC*1100	[0.50]	Principles of Behaviour		
PSYC*1200	[0.50]	Dynamics of Behaviour		
PSYC*3310	[0.50]	Applied Social Psychology		
2.50 credits in 5 H	Psychology C	ore Courses to include PSYC*2310, PSYC*2450		
0.50 credits in a F	sychology el	ectives (it is recommended that this elective be chosen		
from the list of seven restricted electives below)				
1.50 credits from	three of the f	ollowing seven courses:		
PSYC*3070	[0.50]	Psychology in Human Resource Management		
PSYC*3080	[0.50]	Organizational Psychology		
PSYC*3450	[0.50]	Social and Personality Development		
PSYC*3500	[0.50]	Social Interactions		
PSYC*3520	[0.50]	Political Psychology		
PSYC*3690	[0.50]	Community Mental Health		

PSYC\*4310 [0.50] Advanced Topics in Social Psychology

Note: Courses designated with (H) in Section XII--Course Descriptions are Honours level courses requiring for registration a cumulative average of at least 70% in all course attempts in Psychology.

### Sociology (SOC)

# Department of Sociology and Anthropology, College of Social and Applied Human Sciences

The Department of Sociology and Anthropology offers three types of courses: sociology courses with the prefix SOC\*; anthropology courses with the prefix ANTH\*; and departmental courses with the prefix SOAN\*. The departmental category of courses recognizes the fact that the disciplines of sociology and sociocultural anthropology have developed in tandem and it is possible to identify large areas of overlap and convergence in the work of practitioners both historically and in the present. Departmental courses include most of the core theory and methods courses as well as many elective courses. They contribute equally to the subject matter of sociology as well as the subject matter of sociology for purposes of the undergraduate programs of study in both disciplines. Please see the listings for all courses required for the Sociology program. Note: the following courses may be used towards a sociology specialization:

	0	
FRHD*3060	[0.50]	Principles of Social Gerontology
ISS*2990	[0.50]	Introduction to Marx
PHIL*2180	[0.50]	Philosophy of Science

Courses will normally be offered in the semesters designated. For information on other semesters these courses will be offered and the semester those courses without designations will be offered, please check with the department. In addition to regularly scheduled courses, students may elect to do independent study. A student who wishes to do a reading course should first consult the professor with whom he/she wishes to work. Please note, a student is allowed a total of 1.00 credits only for reading courses. SOAN courses will be used towards the Sociology specializations.

### Area of Concentration (General Program)

A minimum of 5.00 credits in Sociology and Anthropology is required, including:

A minimum of 5.	00 creans	in sociology and Anunopology is requi
ANTH*1150	[0.50]	Introduction to Anthropology
SOAN*2111/2	[1.00]	Classical Theory
SOAN*2120	[0.50]	Introductory Methods
SOC*1100	[0.50]	Sociology

2.50 additional credits from the Department of Sociology and Anthropology, including at least 1.00 at the 3000 level

### Major (Honours Program)

A minimum of 8.00 credits in Sociology and Anthropology is required, including: ANTH\*1150 [0.50] Introduction to Anthropology

SOAN*2111/2	[1.00]	Classical Theory	
SOAN*2120	[0.50]	Introductory Methods	
SOAN*3070	[0.50]	Qualitative and Observational Methods	
SOAN*3120	[0.50]	Quantitative Methods	
SOC*1100	[0.50]	Sociology	
SOC*3310	[0.50]	Contemporary Theory	
4.00 additional cr	edits from t	he Department of Sociology and Anthropology, including	
at least 1.50 at the	e 4000 level		
The following cou	urses may b	e used toward a sociology specialization:	
FRHD*3060	[0.50]	Principles of Social Gerontology	
ISS*2990	[0.50]	Introduction to Marx	
PHIL*2180	[0.50]	Philosophy of Science	
Minor (Honours Program)			
A minimum of 5.0	00 credits in	Sociology and Anthropology is required, including:	
ANTH*1150	[0.50]	Introduction to Anthropology	
SOAN*2111/2	[1.00]	Classical Theory	
SOAN*2120	[0.50]	Introductory Methods	
SOC*1100	[0.50]	Sociology	
2.50 additional credits from the Department of Sociology and Anthropology, including			
at least 1.00 credits at the 3000 level or above			
The following courses may be used toward a sociology specialization:			
FRHD*3060	[0.50]	Principles of Social Gerontology	
ISS*2990	[0.50]	Introduction to Marx	
PHIL*2180	[0.50]	Philosophy of Science	
Spanish (SPAN)			

#### School of Languages and Literatures, College of Arts

The Spanish Studies program enables students to concentrate on the Spanish language and on Spanish and Latin American literature. Language courses provide study of the grammatical concepts required to establish and enrich reading, writing, oral and aural skills from basic through advanced levels of study. Through literature and film, students are introduced to a variety of cultural, historical, social, and political topics.

The usual first course in Spanish is SPAN\*1100. Students with 4U Spanish commonly take SPAN\*2000. They may be admitted into SPAN\*1110 only with the approval of the Instructor or the Faculty Advisor. Students with native or near native fluency normally begin language courses with SPAN\*2000. Such students should consult the Head of Spanish before beginning their studies, so that pre-requisite waiver forms are completed. All language students are strongly advised to include CLAS\*1000 and LING\*1000, among their electives in order to derive the maximum benefit from their studies.

#### Study Abroad

The Spanish Studies program encourages its students to take advantage of the University of Guelph's exchange programs and the semester abroad opportunities. Exchange programs with the University of Málaga and the University of La Rioja in Spain and with the Instituto Tecnológico y de Estudios Superiores de Monterrey (ITESM) in Mexico are very popular. Students also enjoy the semester abroad opportunity every second winter in Guatemala. It is recommended that students go on exchange in their third year. In order to be eligible for an exchange, students should have completed at least SPAN\*2010, SPAN\*2990 and SPAN\*2040 and SPAN\*3080. Credits successfully completed at the host university are applied towards University of Guelph degree requirements. Please see the International Study section of the undergraduate calendar and consult the Coordinator of Spanish for more information.

#### Area of Concentration (General Program)

A minimum of 5.00 credits in Spanish is required, including:

- a. 3.00 credits from SPAN\*1100, SPAN\*1110, SPAN\*2000, SPAN\*2010, SPAN\*3500, SPAN\*3530, SPAN\*4500, SPAN\*4520
- b SPAN\*2040 SPAN\*2990 SPAN\*3080
- c. 0.50 credits in literature

#### Major (Honours Program)

A minimum of 8.00 credits in Spanish is required, including:

a. SPAN\*2000, SPAN\*2010, SPAN\*2040, SPAN\*2990, SPAN\*3080, SPAN\*3500, SPAN\*3530, SPAN\*4500, SPAN\*4520

b. 3.50 credits in literature courses

Note: Students intending to proceed to graduate studies should take SPAN\*3170 and SPAN\*4170

#### Minor (Honours Program)

A minimum of 5.50 credits in Spanish is required, including:

a. 3.00 credits from SPAN\*1100, SPAN\*1110, SPAN\*2000, SPAN\*2010, SPAN\*3500, SPAN\*3530, SPAN\*4500, SPAN\*4520

b. SPAN\*2040, SPAN\*2990, SPAN\*3080

c. 1.00 credits in literature

Note: Students in the Spanish program may include one of the following courses for credit MATH\*1210 in their program:

ARTH*2050	[0.50]	Modern Latin American Art
ARTH*3050	[0.50]	Pre-Columbian Art
HIST*2110	[0.50]	The Atlantic World 1500-1850
HIST*2920	[0.50]	Republican Latin America
HIST*3150	[0.50]	History and Culture of Mexico
HIST*3420	[0.50]	Colonial Latin America
POLS*3080	[0.50]	Politics of Latin America
A my other subst	tution for a	aviered accurring can only be made with the approval of the

Any other substitution for required courses can only be made with the approval of the faculty advisor.

#### Statistics (STAT)

#### Department of Mathematics and Statistics, College of Physical and Engineering Science

The discipline of Statistics is essential in the social sciences, biological sciences, physical sciences, and health professions. The specialization in Statistics emphasizes applications of statistical theory and methods to other disciplines and is available in the B.A. Honours Program as a major or minor and as an area of concentration in the General Program.

Students are encouraged to combine the study of statistics with another field.

Statistical computing is a fundamental tool for the application of modern statistical methods. Students in these programs will develop skills in computer applications programming using such high-level languages as SAS and S-PLUS.

#### Area of Concentration (General Program)

A minimum of 5.00 credits in Statistics and Mathematics is required, including:

- a. no more than 1.00 credits from courses at the 1000 level
- b. 3.00 credits in statistics (STAT), 2.00 of which must be from courses at the 3000 level or above

#### **Recommended Courses**

MATH*1200	[0.50]	Calculus I
MATH*1210	[0.50]	Calculus II
MATH*2150	[0.50]	Applied Matrix Algebra
STAT*2040	[0.50]	Statistics I
STAT*2050	[0.50]	Statistics II
STAT*3100	[0.50]	Introductory Mathematical Statistics I
STAT*3110	[0.50]	Introductory Mathematical Statistics II
STAT*3240	[0.50]	Applied Regression Analysis
STAT*3320	[0.50]	Sampling Theory with Applications

#### **Honours Programs**

CIS\*1500

1.50 electives

[0.50]

[0.50]

Students who major or minor in Statistics may not receive credit for the following courses unless taken to satisfy the requirements of another program: ECON\*2740, PSYC\*2010, PSYC\*3320, SOAN\*3120.

#### **Major (Honours Program)**

Students may enter this major in Semester 1 or any semester thereafter. A student wishing to declare the major must consult the Faculty Advisor. A minimum of 20.00 credits is required to complete the degree, with a minimum of 9.50 credits required as below to complete the major.

1.50 credits as follo	ows:	
CIS*1500	[0.50]	Introduction to Programming
MATH*1200	[0.50]	Calculus I
MATH*1210	[0.50]	Calculus II
5.00 credits in Stat	istics and M	fathematics as follows:
MATH*2130	[0.50]	Numerical Methods
MATH*2200	[0.50]	Advanced Calculus I
STAT*2040	[0.50]	Statistics I
STAT*2050	[0.50]	Statistics II
STAT*3100	[0.50]	Introductory Mathematical Statistics I
STAT*3110	[0.50]	Introductory Mathematical Statistics II
STAT*3210	[0.50]	Experimental Design
STAT*3240	[0.50]	Applied Regression Analysis
STAT*3320	[0.50]	Sampling Theory with Applications
One of:		
MATH*2150	[0.50]	Applied Matrix Algebra
MATH*2160	[0.50]	Linear Algebra I
2.50 credits in Statistics at the 3000 or 4000 level, of which at least 2.00 credits must be		
at the 4000 level.		
0.50 credits in Mat	hematics or	Statistics at the 2000-level or above.
Recommended Sc	hedule of <b>S</b>	Studies for Major (Honours Program)
Semester 1

MATH*2160	[0.50]	Linear Algebra I	
0.50 additional credits in Statistics			
0.50 additional credits in Statistics or Mathematics			

0.50 additional credits in Statistics or Mathematics

#### Studio Art (SART)

#### School of Fine Art and Music, College of Arts

The School offers programs that allow for concentrated study in Art History or in Studio Art, or for a more balanced study in the two disciplines. Both programs, however, require work in both Studio Art and Art History. Specific requirements are listed below.

#### **Cost of Studio Supplies**

The majority of the cost of supplies must be borne by the student. In order to permit the University to subsidize this cost and to allow for savings through discount buying, some materials are obtained through the school by payment of a lab fee. The amount of the fee is established for each semester prior to registration.

#### Student Counselling

The students who elect to take a substantial number of credits in either Art History or Studio Art with the objective of graduate work are advised to obtain counselling from faculty regarding their choices. However, in general, it is important to know that graduate studies in Art History will usually require a reading knowledge of at least 2 languages other than English. German, French, Italian and Latin are among the most useful choices. Cognate electives in other disciplines in the College of Arts (such as History) will almost certainly prove an asset. A Studio career to the graduate level will normally require some education in all the traditional and contemporary media as well as an awareness of art theory.

#### **Core Requirements**

ARTH*1220	[0.50]	The Visual Arts Today
ARTH*1520	[0.50]	Art Historical Studies II
SART*1050	[0.50]	Integrated 2-D Media
SART*1060	[0.50]	Media Convergence

### **Major (Honours Program)**

A minimum of 9.00 credits is required, including:

- a. the Studio Art core
- b. 2.00 additional credits in Studio Art, including at least 0.50 credits from List A and 0.50 from List B
- c. 2.00 additional credits in Art History including:
  - i. 0.50 credits in Western Art and Cross-Cultural Perspectives: (ARTH\*2150, ARTH\*2280, ARTH\*2290, ARTH\*2540, ARTH\*2550, ARTH\*2580, ARTH\*2600, ARTH\*2950, ARTH\*3150).
  - ii. 0.50 credits in Art History from 3000-level thematic courses: (ARTH\*3100, ARTH\*3200, ARTH\*3320, ARTH\*3330, ARTH\*3340, ARTH\*3520)
  - iii. 0.50 credits in Visual Arts of the Americas: (ARTH\*2050, ARTH\*2060, ARTH\*2070, ARTH\*2490, ARTH\*3010, ARTH\*3050, ARTH\*3060).
  - iv. 0.50 credits in Art Theory, Critical Methodology and Museology (ARTH\*2120, ARTH\*2480, ARTH\*3210, ARTH\*3220, ARTH\*3780).
- d. 3.00 additional credits in Studio Art including 1.50 credits at the 4000-level.

#### Minor (Honours Program)

A minimum of 6.00 credits is required, including:

- b. 0.50 credits in Studio Art or Art History at the 4000 level
- c. 1.50 additional credits in Art History, including:
  - i. 0.50 credits in Western Art and Cross-Cultural Perspectives: (ARTH\*2150, ARTH\*2280, ARTH\*2290, ARTH\*2540, ARTH\*2550, ARTH\*2580, ARTH\*2600, ARTH\*2950, ARTH\*3150).
  - ii. 0.50 credits in Art History from 3000-level thematic courses: (ARTH\*3100, ARTH\*3200, ARTH\*3320, ARTH\*3330, ARTH\*3340, ARTH\*3520).
  - iii. 0.50 credits in Visual Arts of the Americas: (ARTH\*2050, ARTH\*2060, ARTH\*2070, ARTH\*2490, ARTH\*3010, ARTH\*3050, ARTH\*3060).
- d. 2.00 additional credits in Studio Art, including 0.50 credits from List A and 0.50 from List B

1. Students in the Art History Major or Minor cannot count more than 11.00 credits in Art History or 11.00 credits in Studio Arts towards their honours degree.

a, the Studio Art core

- 2. Details of advanced standing for transfer students from the Ontario College of Art and Design (OCAD) can be found in the section on Admission Information.
- 3. In accordance with the B.A. program regulation limiting the number of credits to be taken in any subject area, OCAD graduates granted the maximum advanced standing of credits in Studio Arts will be limited to 2.00 additional credits in Studio Arts at the University of Guelph.
- 4. A cumulative average of at least 70% in all course attempts in Studio Arts and Art History is required in order to enter or continue in the Honours Studio Arts program.
- Students in SART can fulfill one of the natural and mathematical sciences B.A. distribution requirements with HK\*2100. This credit cannot be used towards the SART major.

#### Theatre Studies (THST)

#### School of English and Theatre Studies, College of Arts

The Theatre Studies program is a component of a liberal education, and is dedicated to integrating academic study and theatre practice. The program offers introductory and advanced courses in dramatic literature, theatre history, criticism and theory, together with directing, acting, design, technical theatre, playwriting, and media studies.

The program has a special interest in the drama and theatre of Canada. Course offerings reflect this interest where appropriate.

#### Notes:

 A maximum of 2.00 credits in Directed Readings or Special Studies Courses (THST\*3410, THST\*3420, THST\*3600, DRMA\*3610) is allowed in the honours program major. A maximum of 1.00 credits in such courses is allowed in honours program minor or the general program area of concentration. Students will normally be permitted to take only 0.50 credits in Directed Readings or Special Studies courses per semester.

Certain approved Dramatic Literature courses from the English Program within the School of English and Theatre Studies or other departments may be counted towards a degree in Theatre Studies. A list of approved courses may be obtained from the School of English and Theatre Studies' website: http://www.arts.uoguelph.ca/sets/.

- 2. In connection with THST\*1040 and some seminar courses, students are required as part of the course to attend various specified theatre performances in cities such as Toronto, Stratford, Niagara-on-the-Lake, and London. A special fee is charged for travel to these performances and students will be notified during the first week of classes of the amount of this fee and the dates of the performances.
- In any given semester, a student may not enroll in more than ONE production-related course at a time. These are THST\*2230, THST\*3110, THST\*3120, THST\*3220, THST\*3230, THST\*3410, THST\*3420, THST\*4090, THST\*4250, THST\*4280.

#### Area of Concentration (General Program)

A minimum of 5.00 credits in Theatre Studies is required, including:

- a. THST\*1040, THST\*2010, THST\*2080, THST\*2120, THST\*2230, THST\*2240, THST\*3550, THST\*3850
- b. at least one of THST\*3650, THST\*3660
- c. 0.50 other credits in Theatre Studies

#### Major (Honours Program)

A minimum of 9.00 credits in Theatre Studies is required, including:

a. THST\*1040, THST\*1150, THST\*2010, THST\*2080, THST\*2120, THST\*2230, THST\*2240, THST\*3550, THST\*3850, THST\*4280

b. one of THST\*3650 or THST\*3660

c. at least one of THST\*4320 or THST\*4330

### d. 2.00 other credits in Theatre Studies

### Minor (Honours Program)

A minimum of 5.00 credits in Theatre Studies is required, including :

- a. THST\*1040, THST\*2010, THST\*2080, THST\*2120, THST\*2230, THST\*2240, THST\*3550, THST\*3850
- b. one of THST\*3650 or THST\*3660

c. 0.50 other credits in Theatre Studies

#### Visual Arts of the Americas (VAA) (Minor)

#### School of Fine Art and Music

The Minor program in Visual Arts of the Americas enables students to study the art history of Canada, the United States, and Central and South America as an integrated field where certain basic conditions are shared: the existence of aboriginal traditions persisting from the pre-conquest period, the confrontation of a variety of European, African and Asian cultural heritages, and a continuing post-colonial evolution producing hybrid cultural identities.

This program of study is designed as a complement to a significant number of Major specialization, suitable for any student wishing to broaden their knowledge beyond their Major area of study.

#### **Minor (Honours Program)**

(May not be taken in combination with Art History Honours Major).

· •				
A minimum of 5.00 cr	edits is requ	ired, including:

An independent study or reading course on an appropriate topic from any subject area of the College of Arts or the College of Social and Applied Human Science may also be included in the program.

## **Bachelor of Arts and Sciences (B.A.S)**

The University of Guelph offers an 8 semester (20.00 credits) honours program leading to a Bachelor of Arts and Sciences (B.A.S.) degree.

The Bachelor of Arts & Sciences program is designed for students who are motivated equally by the study of Arts/Social Sciences and the Sciences, and who find challenge and satisfaction in testing the traditional boundaries of study through undergraduate level interdisciplinary work. The program meets these objectives through a unique structure that accredits students in an Arts/Social Sciences core, a Sciences core, a Subject Area core of interdisciplinary humanities and sciences courses (ASCI\*), and a minor in each of the Arts/Social Sciences and the Sciences (see below for choices of minors). The structure of the program ensures disciplinary rigour and breadth through completion of core requirements for a B.A.S. degree, concentration in two distinct minors, and concentration of learning in an academic cohort of B.A.S. students through the interdisciplinary ASCI courses in the B.A.S. core. This core is open only to students in the B.A.S. program

#### **Program Information**

#### Academic Counselling

The B.A.S. program counsellor assists students in the selection of minors, interpreting program and academic regulations, and with the selection of appropriate courses for chosen minors and distribution requirements. Students should consult the counsellor when experiencing particular difficulties affecting academic standing and progress through the program. Students are encouraged to check the B.A.S. program website regularly for course information and cross-listing of acceptable credits where appropriate.

#### **Counselling on Minors**

Academic departments offer the minors in the B.A.S. program and assign faculty advisors to assist students with academic planning (e.g., a faculty advisor in the History department handles queries about a minor in History). Students should consult the appropriate faculty advisor, along with the B.A.S. Program Counsellor, when declaring a minor or requiring advice on the completion of specialization requirements. The list of faculty advisors is available on the Undergraduate Academic Information Centre website: http://www.uoguelph.ca/uaic/students\_faculty.shtml or contact the B.A.S. Program Counsellor for further information.

#### **Continuation of Study**

To be eligible to continue in the program, students must meet the requirements for Continuation of Study as noted in Section VIII--Undergraduate Degree Regulations & Procedures of this calendar (Schedules 1 and 2).

#### **Conditions for Graduation**

To qualify for the degree Bachelor of Arts and Sciences, the student must successfully complete a minimum of 20.00 credits as identified below. In addition, students must meet the continuation of study requirements at the time of graduation and have a 60.00% cumulative average.

#### **Distribution Requirements**

This program will require the completion of 20.00 credits as indicated below, with a maximum of 7.00 credits at the 1000 level. First year core courses may be counted towards the minors.

- 1. First Year Core 4.00 credits (2.00 Science and 2.00 Arts/Social Sciences).
- 2. Subject Area Core (ASCI) 3.00 credits.
- 3. Arts/Social Science Minor 5.00 credits.
- 4. Science Minor 5.00 credits
- 5. Free Electives 3.00 credits.

#### 1. First-year Core - 4.00 credits

Science Core - 2.00 credits including:

BIOL*1030 CHEM*1040	[0.50] [0.50]	Biology I General Chemistry I		
One of:				
MATH*1080	[0.50]	Elements of Calculus I		
MATH*1200	[0.50]	Calculus I		
One of:				
PHYS*1000	[0.50]	An Introduction to Mechanics		
PHYS*1070	[0.50]	Introductory Physics for Life Sciences		
Arts and Social Science Core - 2.00 credits including:				

- a. 1.00 credits over at least 2 different subject areas in the College of Arts: ARTH Art History; CLAS - Classical Studies; DRMA - Drama; ENGL - English; EURO -European Studies; FREN - French Studies; GERM - German Studies; GREK - Greek; HIST - History; HUMN - Humanities; ITAL - Italian Studies; LAT - Latin Studies; LING - Linguistics; MUSC - Music; PHIL - Philosophy; SART - Studio Art; SPAN - Spanish Studies; WMST - Women's Studies
- b. 1.00 credits over at least 2 different subject areas in the College of Social and Applied Human Sciences: ANTH - Anthropology; ECON - Economics; GEOG - Geography; IDEV - International Development Studies; ISS - Interdisciplinary Social Science;

#### 2. Subject Area Core - 3.00 credits

<ul> <li>1.50 credits from:</li> </ul>		
ASCI*1000	[0.50]	Society and Science I: Historical Perspectives
ASCI*1010	[0.50]	Society and Science II: Current Issues
ASCI*2000	[0.50]	Modes of Inquiry and Communication Across
		Disciplines
<ul> <li>0.50 credits from:</li> </ul>		
ASCI*3000	[0.50]	Arts and Sciences Community Project
ASCI*3100	[0.50]	Case Studies in Arts and Sciences Research
ASCI*3700	[0.50]	Independent Studies in Arts/Sciences
<ul> <li>1.00 credits from:</li> </ul>		
ASCI*4000	[0.50]	Arts and Sciences Honours Seminar
ASCI*4010	[0.50]	Arts and Sciences Honours Research Seminar
ASCI*4020	[0.50]	Topics in Arts and Sciences Research
ASCI*4030	[0.50]	Topics in Arts and Sciences Research
ASCI*4700	[0.50]	Independent Studies in Arts/Sciences
ASCI*4710	[0.50]	Independent Studies in Arts/Sciences

Note: Of the 20.00 credits required for this program, 3.00 credits must be completed at the 3000 or 4000 level, and 2.00 credits at the 4000 level. This requirement is partially fulfilled by senior level courses in the Subject Core (ASCI) requirements.

#### 3. Arts/Social Sciences Minors - 5.00 credits

Minors available in the Arts/ Social Sciences core (see B.A. program descriptions):

Anthropology Art History Art Theory and Criticism **Business Administration** Classical Languages **Classical Studies** Cognitive Neuropsychology Criminal Justice & Public Policy Developmental Psychology Economics Educational Psychology English Environmental Studies European Culture and Civilization Family & Child Studies French Studies Geography German History International Development Italian Marketing Management Museum Studies Music Organizational Behaviour Philosophy Political Science Rural Extension Studies Social Psychology Sociology Spanish Studio Art Theater Studies Visual Art of the Americas Women's Studies 4. Science Minor - 5.00 credits

Computing & Information Science

Minors available in the Science core (see B.Sc. program descriptions): Agriculture Biochemistry Biology Biotechnology Chemistry

Ecology Food Science Forest Science Functional Foods & Nutraceuticals Geology GIS\* & Environmental Analysis Mathematics Microbiology Molecular Biology and Genetics Neuroscience Nutritional Sciences Plant Biology Physics Psychology Statistics Zoology \* Geographic Information Systems

#### 5. Free Electives - 3.00 credits (maximum)

The program includes 3.00 free electives. Electives may be completed in any subject area. The number of free electives is reduced if a minor requires more than 5.00 credits.

This program includes 3.00 credits at the 3000 or 4000 level, including 2.00 credits at the 4000 level. This requirement is partially fulfilled by senior level courses in the Subject Area Core (ASCI) requirements.

A maximum of 7.00 credits at the 1000 level may be counted toward the 20.00 credits requirement.

Students cannot, of course, select Psychology for both their B.Sc. and B.A. minors.

#### **Double Counting Rule**

A maximum of 2.00 credits may be double-counted. 1.00 credits may be double-counted between the core and one minor. 1.00 credits may be double-counted between the two minors. If a course is double-counted towards both the core and one minor, it cannot be counted towards the second minor.

### **Bachelor of Bio-Resource Management Degree** (B.B.R.M.)

The University of Guelph, in collaboration with the regional campuses at Ridgetown and Kemptville, offers a 20.00 credit program, normally completed over 8 semesters, leading to a Bachelor of Bio-Resource Management degree (B.B.R.M.). This degree was designed for students who do not intend to pursue post-graduate studies and are strongly focused on securing employment that makes use of the knowledge acquired in their bachelor's degree.

This degree is a unique blend of applied and theoretical learning, with an emphasis on experiential learning opportunities. At the present time, two majors, Environmental Management and Equine Management, are available in the program through University of Guelph's Ridgetown campus and Kemptville campus respectively with Semester 5 to 8 offered at the Guelph campus.

#### **Program Information**

The Bachelor of Bio-Resource Management degree program combines business studies and technical training with a strong emphasis on hands-on learning. A solid foundation in applied aspects of science, technology and business provides graduates with sufficient breadth and expertise to become competent managers in the environmental or equine fields. Students begin studying in one of the following management majors during the first semester: Environmental Management, Equine Management.

The first 10.00 credits of the Environmental Management Major are available through the Ridgetown campus and the first 10.00 credits of the Equine Management Major are available through the Kemptville campus. The additional 10.00 credits for both majors are available through the Guelph Campus.

Students will be encouraged to integrate their academic program with a well-planned series of employment activities in the summer months and to develop their leadership and interpersonal skills in on-campus and community activities. There is a strong commitment in the curriculum to personal development and students are encouraged to identify goals that they wish to accomplish throughout their university career.

#### Academic Advising and Counselling

#### **Program Counselling**

Program Counsellors are available at both the Ridgetown, Kemptville and Guelph campuses to assist in-course students who require information or advice about their program or other academic regulations and who seek information about resources available to students. For information about how to contact a program counsellor, and for more information about program counselling, see Section VII -- Academic Counselling of the current Undergraduate Calendar.

#### **Departmental Advising**

On entering the program all students are assigned to a faculty advisor who will mentor them throughout their first two years. The faculty advisor is familiar with the academic requirements of the program and is aware of career opportunities. Students are strongly encouraged to attend all meetings called by their advisor, and to set up individual meetings with him/her when they have questions or concerns about their performance or progress in the program.

#### **Continuation of Study**

Students are advised to consult the regulations for Continuation of Study which are outlined in detail in Section VIII -- Undergraduate Degree Regulations & Procedures in the current calendar.

#### **Conditions for Graduation**

To qualify for the degree Bachelor of Bio-Resource Management, the student must successfully complete a minimum of 20.00 credits as set out in the Schedule of Studies as listed. In addition, students must meet the continuation of study requirements at the time of graduation and have a minimum cumulative average of 60%.

#### Schedule of Studies

Courses specified in the Schedule of Studies are required courses and must be successfully completed. A full time course load normally includes 2.50 credits. Students must successfully complete a minimum of 4.00 university credits and/or course equivalents at the 3000 level or higher, of which at least 2.00 credits must be at the 4000 level.

#### Special Expenses

Expenses for field trips and labs can range from \$20 to \$100 per semester. In certain courses modest expenses will be incurred for supplies. Equine Management students are welcome to board horses at local facilities. Please contact the Kemptville Registrar, Heather Buck at Heather Buck <hbuck@kemptvillec.uoguelph.ca> for a listing of boarding facilities.

### **B.B.R.M. Program Regulations**

### **Entry Credits**

OSS Curriculum: Grade 4U English; Grade 4U Biology; 4 additional 4U or 4U/C credits. **Recommendations and Notes:** 

It is recommended that applicants include 4U level science or math in their course of study. Students entering the degree program who are deficient in U level Mathematics or Chemistry should consult with the program counsellor. Summer semester courses will be available through a Ridgetown campus Summer Institute, Distance Education or other means. It is recommended that prior to enrolment in the degree program, students lacking Grade 12U Advanced Functions and Introductory Calculus enrol in the non-credit course "Getting Ready for Calculus" offered through the Office of Open Learning.

#### **Environmental Management Major (EM)**

Department of Food, Agricultural and Resource Economics

This major will require the completion of 20.00 credits.

Semesters 1 to 4 offered at the Ridgetown campus

Semester 1 - H	all	
CIS*1000	[0.50]	Introduction to Computer Applications

### Bachelor of Commerce (B.Comm.)

The University of Guelph offers an eight semester (20.00 credits) honours program leading to a Bachelor of Commerce degree (B.Comm.). The normal course load is 2.50 credits per semester for a full-time student. The program is of an interdisciplinary nature and designed to give students a sound professional management education with a focus on specific industry sectors or management functions which prepare the graduates for positions of responsibility in particular areas of management and business.

Given the professional and applied nature of the program, there are no double majors or minors associated with the degree. Elective options enable students to select courses which support or complement their primary field of study.

Students begin studying in one of the following eight specialized management majors during the first semester:

Agricultural Business\*

Hotel and Food Administration\*

Human Resources Management

Management Economics in Industry and Finance\*

Marketing Management\*

Public Management\*

Real Estate and Housing\*

Tourism Management

Co-operative Education is available in the majors denoted by an asterisk (\*).

In addition to specializing in a major area of study, a B.Comm. core ensures that each major also provides a comprehensive commerce education to all students in the program. Common core elements spanning each of the majors includes:

Accounting (1.00 credits) Economics (1.00 credits) Finance (1.00 credits) Information Management (0.50 credits) Marketing (0.50 credits) Statistics (0.50 credits) Operations Management (0.50 credits) Strategy/Business Policy (0.50 credits) Organizational Behaviour (0.50 credits) Law (0.50 credits) Liberal Education Requirement (1.50 credits)\* \* (see advisory note)

#### **Program Information**

### Academic Counselling

#### **Program Counselling**

Students are urged to seek the assistance of the counsellors in the B.Comm. Counselling Office regarding their program and academic regulations, course selection issues, services and resources, and when they are experiencing difficulties that affect their academic progress.

#### **Departmental Advising**

On entering the program, all students are assigned to a departmental Faculty Advisor by major. Students should seek the advice of the Faculty Advisor when they have questions or concerns about courses and academic requirements for their program/major. The Faculty Advisor is also knowledgeable about career opportunities which relate to a student's specific major. The list of Faculty Advisors is available on the Undergraduate Academic Information Centre website: http://www.uoguelph.ca/uaic/students\_advisors.shtml or contact the B.Comm. Counselling Office for further information.

#### Special Expenses

Expenses may include cost of field trips and supplies and, for some majors, laboratory coats and other protective clothing.

#### **Study at Other Universities**

Students contemplating study at another university for credit towards a Bachelor of Commerce degree at the University of Guelph should refer to the general regulations governing Letters of Permission in Section VIII - Degree Regulations and Procedures in this calendar.

Students must obtain approval for the Letter of Permission prior to undertaking studies at another institution. Approval of the request depends on good standing in the program with a minimum cumulative average of 60%.

The total limit of credits taken on a Letter of Permission is 2.50 based on the University of Guelph's credit system.

#### **Study Abroad**

Global understanding and perspectives are regarded as being of central importance among the university's learning objectives, as they are, also, in understanding the international business environment. On both of these accounts, students enrolled in the B.Comm. program are urged to participate in one of the several exchange and study abroad programs specifically designed for the Commerce program. Planning for such participation is best undertaken quite early in the course of studies. For more specific information on possible opportunities refer to Section V--International Study of the calendar or contact the B.Comm. program counsellor.

#### **Continuation of Studies**

Students are advised to consult the regulations for Continuation of Study within the program which are outlined in detail in Section VIII--Undergraduate Degree Regulations and Procedures

#### **Conditions of Graduation**

To qualify for a Bachelor of Commerce degree, the student must satisfy the following conditions:

- The student must successfully complete 1.50 credits from the Liberal Education Requirement list.
- The student must successfully complete a minimum of 20.00 approved credits, in accordance with the Schedule of Studies for the specified major, including the Liberal Education Requirement.
- Students will not be eligible to graduate while on probationary or required-to-withdraw status.

#### **Liberal Education Requirement**

ANSC Animal Science

ANTH Anthropology

The Liberal Education Requirement is designed to provide the student with exposure to and some understanding of a range of disciplines in the Arts, Social Sciences and Mathematical and Natural Sciences.

The Liberal Education Requirement of 3 courses (1.50 credits) must be from at least two of the following prefixes:

ARTH Art History **BIOL Biology BIOM Biomedical Sciences** BOT Botany CHEM Chemistry CIS Computing and Information Science CLAS Classical Studies **CROP Crop Science** EDRD Environmental Design and Rural Development ENGL English ENVB Environmental Biology EURO European Studies FOOD Food Science FREN French Studies FRHD Family Relations and Human Development GEOG Geography GEOL Geology **GERM** German Studies GREK Greek HIST History HUMN Humanities IDEV International Development ISS Interdisciplinary Social Science **ITAL Italian Studies** LAT Latin LING Linguistics MATH Mathematics MBG Molecular Biology and Genetics MUSC Music NUTR Nutrition PHIL Philosophy PHYS Physics POLS Political Science PSYC Psychology SART Studio Art SOAN Sociology and Anthropology SOIL Soil Science SOC Sociology SPAN Spanish Studies THST Theatre Studies

#### **Double Counting of Courses**

Double counting is not permitted within the B.Comm. Program. For example, students can not use courses required in their schedule of studies to meet the Liberal Education Requirement.

#### Schedule of Studies

Courses specified in the schedule of studies are required courses and must be completed successfully. A full course load normally involves 2.50 credits per semester. Part-time study is also possible although students should discuss this option with their Program Counsellor or Faculty Advisor.

#### Agricultural Business (AGBU)

#### Department of Food, Agricultural and Resource Economics, Ontario Agricultural College

The Agricultural Business major is concerned with the management problems of business firms and prepares students for a range of management careers in agribusiness.

Graduates of the Agricultural Business program meet the educational requirements for membership in the Ontario Institute of Agrologists. The Ontario Institute of Agrologists is the professional organization in agriculture in the Province of Ontario. Professional institutes in the various provinces in Canada and the scientific societies in agriculture collectively comprise the Agricultural Institute of Canada. The program has been fully accredited by the Agricultural Institute of Canada.

Included in the core requirements, the Agricultural Business program provides students with the option of selecting from the Restricted Electives list courses that will compliment their studies. The first option (List A) is designed for students more interested in the business relationships of farming and involves marketing and advanced farm management. The second option (List B) emphasizes the production aspects of farming and involves biology and either animal or plant systems.

The major is administered by the Department of Food, Agricultural and Resource Economics in the Ontario Agricultural College and students are urged to consult the departmental advisor. For this major, 15.00 of the 20.00 credits (including 1.50 credits from List A or List B ) are specified as core requirements and the remaining 5.00 credits are specified as electives.

#### **Liberal Education Requirement**

As part of the graduation requirement all students within the B.Comm. Program are required to complete 1.50 credits from at least two different subject prefixes as listed under the B.Comm. Program Information section of the undergraduate calendar.

#### Hotel and Food Administration (HAFA)

# School of Hospitality and Tourism Management, College of Management and Economics

The Hotel and Food Administration major prepares graduates to assume positions of responsibility in any aspect of the hospitality field. It includes principles of administration, theories of interpersonal relations, human resources management, and communications. Distinctive courses include Hospitality Facilities Management and Design and Lodging Management. The courses in this program relate to the management of both the accommodation and food service facilities used by the public and private sector. The major is administered by the School of Hospitality and Tourism Management. Students may consult the Faculty Advisor or the B.Comm. Program Counsellor for additional information.

For this major, 15.00 of the 20.00 credits are specified as core requirements, 2.50 as restricted electives, and 2.50 electives (including the Liberal Education Requirements of 1.50 credits.) Verified work experience in the hospitality industry is required for students to be eligible for graduation.

Group work is a significant part of core credit work.

#### Liberal Education Requirement

[0.50]

As part of the graduation requirement all students within the B.Comm. Program are required to complete 1.50 credits from at least two different subject prefixes as listed under the B.Comm. Program Information section of the undergraduate calendar.

In addition to the 15.00 required credits listed above, students must take a minimum of 2.50 restricted electives throughout the program. Students may choose to explore a variety of subjects or may choose to study an area allied to their major in some depth. Restricted electives are listed below and have been grouped in major topical areas which are related to, or are an extension of, the professional interests of the major. Students may, however, choose restricted electives from any of those listed without regard to the categories, which are intended to be suggestive.

Courses dealing w	vith the soc	ial and economic environment of business firms and other
		hospitality industry:
ECON*2310	[0.50]	Intermediate Microeconomics
ECON*2410	[0.50]	Intermediate Macroeconomics
ECON*3510	[0.50]	Money, Credit and the Financial System
ECON*3520	[0.50]	Labour Economics

#### **Electives and Liberal Education Requirement**

In addition to the 15.00 required credits and the 2.50 restricted electives, the student has 2.50 electives throughout the program. These electives must include 1.50 credits toward the B.Comm. Liberal Education Requirement.

#### Hotel and Food Administration (Co-op) (HAFA:C)

# School of Hospitality and Tourism Management, College of Management and Economics

The principal aim of the Hotel and Food Administration Co-op program is to facilitate the transition of students from academic studies to a professional work life by enhancing the integration of theory and practice. The major is administered by the School of Hospitality and Tourism Management. Students may consult the departmental Co-op Advisor or the B.Comm. Program Counsellor for additional information. The co-op work program consists of one twelve-month period. The work semester begins at the end of the second year and extends from May to April. The co-op program is completed over a 5 year period. The academic program consists of 20.00 credits, 15.50 of which are specified as core requirements, 2.00 as restricted electives, and 2.50 as electives.

#### Liberal Education Requirement

As part of the graduation requirement all students within the B.Comm. Program are required to complete 1.50 credits from at least two different subject prefixes as listed under the B.Comm. Program Information section of the undergraduate calendar.

### Major

Semester 1 - Fall ECON\*1050 [0.50]Introductory Microeconomics HTM\*1000 [0.50] Introduction to Hospitality and Tourism Management POLS\*1400 [0.50] Issues in Canadian Politics PSYC\*1200 [0.50] Dynamics of Behaviour One of:\* CHEM\*1100 [0.50]Chemistry Today HTM\*2700 [0.50] Introductory Foods \*CHEM\*1100 must be taken by students without Grade 12U or OAC Chemistry. If CHEM\*1100 is not required, then a total of 2.50 restricted electives are required. Semester 2 - Winter ECON\*1100 [0.50] Introductory Macroeconomics HTM\*2000 Hospitality Purchasing Management [0.50] HTM\*2100 [0.50] Lodging Operations HTM\*2120 [0.50] Hospitality and Tourism Marketing I 0.50 from List A or List B or electives Semester 3 - Fall COOP\*1100 [0.00]Introduction to Co-operative Education 2.50 from List A or List B or electives Semester 4 - Winter STAT\*2060 [0.50] Statistics for Business Decisions 2.00 from List A or List B or electives Summer Semester COOP\*1000 Co-op Work Term I [0.00] Fall Semester COOP\*2000 [0.00] Co-op Work Term II Winter Semester COOP\*3000 Co-op Work Term III [0.00] Semester 5 - Fall ECON\*3460 [0.50]Introduction to Finance HTM\*3030 [0.50] Beverage Management 1.50 from List A or List B or electives Semester 6 - Winter HTM\*3120 [0.50] Operations Analysis in the Hospitality and Tourism Industry 2.00 from List A or List B or electives Semester 7 - Fall 2.50 from List A or List B or electives Semester 8 - Winter HTM\*4300 [0.50] Co-operative Education Seminar 2.00 from List A or List B or electives Note: For courses included in List A or List B refer to the regular major. Human Resources Management (HRM) Department of Business, College of Management and Economics

The HRM program provides an academic foundation to prepare students for careers as Human Resources practitioners, and for potential certification by the Human Resources Professionals Association of Ontario (HRPAO) as a Certified Human Resources Professional (CHRP). The HRM program complements a traditional business core with an emphasis on issues relating to people and the workplace. The program combines conceptual and quantitative elements and promotes the integration of theory with practice.

#### X. Degree Programs, Bachelor of Commerce (B.Comm.)

A feature of the program is a required applied research course, where students conduct group projects in workplace settings under the direction of a faculty member.

Presently the HRM program meets the academic requirements for seven out of nine Compulsory Subjects as set out by the Human Resources Professionals Association of Ontario. Students who are interested in completing the two remaining Compulsory Subjects should speak to the HRM Faculty Advisor or B.Comm. Program Counsellors for additional information and guidance on the options available.

For this major, 15.00 of the 20.00 credits are specified as core requirements and the remaining 5.00 as electives. A list of suggested electives follows the description of required courses.

**Note:** Psychology Courses designated with (H) in Section XII--Course Descriptions are Honours level Psychology courses requiring for registration a cumulative average of at least 70% in all course attempts in Psychology or registration in the Human Resources Management major of the Bachelor of Commerce program.

### **Liberal Education Requirement**

As part of the graduation requirement all students within the B.Comm. Program are required to complete 1.50 credits from at least two different subject prefixes as listed under the B.Comm. Program Information section of the undergraduate calendar.

### Management Economics in Industry and Finance (MEIF)

Department of Economics, College of Management & Economics

The Management Economics in Industry and Finance major is designed to offer students an appreciation of business problems in the areas of industrial organization and finance using the analytical orientation of the discipline of Economics and the tools of Business Management, Marketing and Accounting. This major combines the applied thrust of business courses with the analytical rigor of Economics.

The major provides a suitable education for a career in the business world or in the public service. It also constitutes a useful preparation for more advanced studies, including graduate studies in Economics, Business Administration, Law, and Public Policy. The major is administered by the Department of Economics and students are urged to consult the faculty advisor.

In addition to the Management Economics in Industry and Finance core, students will choose their restricted electives from the List of Restricted Electives. In selecting the restricted electives, students have a choice of either following a program of studies that covers a wide spectrum of topics in the areas of Industry and Finance or declaring an Area of Emphasis if they wish to pursue the study of Industry or Finance in more depth. Students that identify an Area of Emphasis will choose their restricted electives from the appropriate list of restricted electives below. Students wishing to have an Area of Emphasis are encouraged to declare their Area of Emphasis by Semester 4, in order to facilitate the availability of restricted electives. A planning guide is available in the department. Students should note that most courses carry prerequisites and that ECON\*1050 and ECON\*1100 are normally prerequisites for all other courses in Economics.

Students who fail any Economics course twice or who do not achieve a 65% average in Economics courses taken during the first 4 semesters in this major are likely to encounter difficulties in the more advanced courses. They are strongly advised to consult the faculty advisor in Economics to discuss the options available.

For this major, 10.00 credits are specified, 5.00 are restricted electives and 5.00 are free electives. (1.50 Liberal Education Requirement; 2.00 free electives).

#### **Liberal Education Requirement**

As part of the graduation requirement all students within the B.Comm. Program are required to complete 1.50 credits from at least two different subject prefixes as listed under the B.Comm. Program Information section of the undergraduate calendar.

#### Major

#### Semester 1 ECON\*1050 [0.50] Introductory Microeconomics One of: CIS\*1200 [0.50] Introduction to Computing CIS\*1500 [0.50] Introduction to Programming One of: MATH\*1000 [0.50] Introductory Calculus MATH\*1080 [0.50] Elements of Calculus I MATH\*1200 [0.50] Calculus I 1.00 electives Semester 2 BUS\*2220 [0.50] **Financial Accounting** ECON\*1100 [0.50] Introductory Macroeconomics MCS\*1000 [0.50] Introductory Marketing 1.00 electives Semester 3 BUS\*2230 [0.50] Management Accounting ECON\*2310 [0.50] Intermediate Microeconomics ECON\*2720 [0.50] **Business History** One of: ECON\*2770 Introductory Mathematical Economics [0.50] MCS\*3040 [0.50] Business and Consumer Law 0.50 electives Note: One of ECON\*2770 and MCS\*3040 must be taken in Semester 3; the other must be taken in Semester 4. BUS*3320	[0.50]	Financial Management		
ECON*3560	[0.50]	Theory of Finance		
ECON*3740	[0.50]	Introduction to Econometrics		
0.50 electives or restricted electives				

### Semester 6

ECON\*3600 [0.50] Macroeconomics in an Open Economy 2.00 electives or restricted electives

**Note:** ECON\*4710 and ECON\*4810 are recommended for students wishing to pursue graduate studies.

#### Semester 7

HTM\*4390 [0.50] Individuals and Groups in Organizations

#### 2.00 electives or restricted electives Semester 8

ECON\*4800 [0.50] Theory of Strategic Management

#### 2.00 electives or restricted electives

The restricted electives for the MEIF major are listed below. By choosing from this list, students will obtain a broad exposure to the areas of Finance and Industry. If, instead, students wish to obtain a greater degree of specialization in either the area of Finance or Industry, they may opt to diverge from the restricted electives given below and instead choose their restricted electives so as to satisfy the Finance Area of Emphasis Restricted Electives.

#### **Restricted Electives**

4.00 additional credits in economics, of which

- at most 0.50 credits can be at the 2000 level
- at least 0.50 credits must be at the 4000 level only one of ECON\*4900, ECON\*4910 may count as one of the required minimum number of 4000 level economics credits in the B.Comm. program.
- 1.50 credits are from the following:

		8
ECON*3510	[0.50]	Money, Credit and the Financial System
ECON*3520	[0.50]	Labour Economics
ECON*3530	[0.50]	Industrial Organization
ECON*3660	[0.50]	Economics of Equity Markets
1.00 credits from t	he following	g:

## Management Economics in Industry and Finance (Co-op) (MEIF:C)

### Department of Economics, College of Management & Economics

A principal aim of the Co-op program in Management Economics in Industry and Finance is to facilitate the transition of students from academic studies to a professional career by enhancing the integration of theory and practice.

The Co-op program consists of two eight month work terms. The first work term begins after the second year and extends from January to August. The Co-op program is normally completed over a 5 year period.

To be eligible to continue in the Co-op major, students must maintain a satisfactory average, must complete all course requirements as scheduled and must obtain a minimum evaluation of "satisfactory" on all required work term reports. Consult the Co-op advisor or Department for additional program information.

#### **Liberal Education Requirement**

2.00 electives or restricted electives

As part of the graduation requirement all students within the B.Comm. Program are required to complete 1.50 credits from at least two different subject prefixes as listed under the B.Comm. Program Information section of the undergraduate calendar.

#### Major Somester 1

Semester 1

#### Marketing Management (MKMN)

Department of Marketing and Consumer Studies, College of Management and Economics

The Marketing Management major is interdisciplinary, follows a liberal education philosophy, and is built on our Department's long-standing expertise in the field of consumer research. Therefore, the courses to be followed span departments and colleges across the University and are designed to support the University's 10 learning Objectives. The Department of Marketing and Consumer Studies recognizes that we are not only responsible for preparing students for a career in marketing but for educating them so that they can be active, engaged citizens. This can only result from a balanced curriculum of marketing and liberal education courses capable of providing students with an understanding of the world they will work and live in, and the problem solving, communication, and visualization skills needed to function effectively in it. Students will gain education and skill in the management and leadership of product and services marketing in a global economy. They will be prepared to work and live effectively in today's world and to be flexible enough to pursue a variety of marketing career paths and diverse leadership roles. The major is administered by the Department of Marketing and Consumer Studies in the College of Management and Economics. Students can contact the B.Comm. Program Counsellors or the Faculty Advisors if they have questions.

### **Liberal Education Requirement**

As part of the graduation requirement all students within the B.Comm. Program are required to complete 1.50 credits from at least two different subject prefixes as listed under the B.Comm. Program Information section of the undergraduate calendar.

#### Major

For this major, 20.00 credits are required, of which 14.50 are specified, 3.00 are restricted electives (from lists), 1.50 are Liberal Education electives, and 1.00 are free electives. A possible program sequence is outlined below.

#### Semester 1- Fall

ECON\*1050 [0.50] Introductory Microeconomics MCS\*1000 [0.50] Introductory Marketing Semester 2 - Winter BUS\*2220 [0.50]Financial Accounting ECON\*1100 [0.50]Introductory Macroeconomics Semesters 1 or 2 - Fall or Winter MATH\*1000 [0.50] Introductory Calculus PSYC\*1200 [0.50] Dynamics of Behaviour 0.50 Communication electives see List E1 0.50 Marketing Environment electives see List E2 0.50 Liberal Education electives 0.50 electives Note: Marketing students who are exceptionally strong in mathematics may consult with the Faculty advisor to substitute an alternative mathematics course for MATH\*1000 (MATH\*1080 or MATH\*1200). Semester 3 - Fall BUS\*2230 [0.50] Management Accounting MCS\*2000 [0.50] Business in a Changing World Semester 4 - Winter STAT\*2060 [0.50] Statistics for Business Decisions Semesters 3 or 4 - Fall or Winter ECON\*2310 [0.50] Intermediate Microeconomics HTM\*3000 [0.50] Human Resources Management MCS\*2020 [0.50] Information Management MCS\*2600 [0.50] Fundamentals of Consumer Behaviour MCS\*3040 [0.50] Business and Consumer Law 0.50 History electives see List E3 0.50 Global Perspective electives see List E4 Semester 5 - Fall BUS\*3320 [0.50] Financial Management Semester 6 - Winter AGEC\*3310 **Operations Management** [0.50]MCS\*3010 [0.50] Quality Management Semesters 5 or 6 - Fall or Winter HTM\*4390 [0.50] Individuals and Groups in Organizations MCS\*3020 [0.50] Services Marketing MCS\*3030 [0.50] Research Methods MCS\*3500 [0.50] Market Analysis and Planning MCS\*3620 [0.50] Marketing Communications 0.50 Leadership/Professionalism electives see List E5 0.50 Liberal Education electives Semester 7 - Fall ECON\*3560 [0.50] Theory of Finance Semester 8 - Winter BUS\*4250 **Business Policy** [0.50] Semesters 7 or 8 - Fall or Winter MCS\*3600 **Consumer Information Processes** [0.50]Management in Product Development MCS\*4040 [0.50] MCS\*4370 [0.50] Marketing Strategy MCS\*4400 [0.50] Pricing Management MCS\*4600 [0.50] International Marketing 0.50 Capstone electives see List E6 0.50 Liberal Education electives 0.50 electives **Restricted Electives for the Marketing Management Major** 

The electives in the B.Comm. Marketing Management program are designed to supplement the major's required courses to ensure achievement of the University's 10 Learning Objectives. They supplement the major's required courses with regard to all of the Learning Objectives except "Numeracy". The Marketing Management program delivers substantial "Numeracy" through its required math, statistics, and economics courses as well as through emphasis on data analysis in courses such as Research Methods (MCS\*3030) and Market Analysis and Planning (MCS\*3500).

Please note that substitutions for restricted electives will be allowed if the Faculty Advisor agrees that a proposed alternative achieves the Learning Objective(s) of the course it will replace and has an equivalent level of rigour.

Also be advised that the following lists allow interested students to earn the Certificate in Leadership offered through the Office of Open Learning, by the College of Management and Economics concurrently with their B.Comm. degree. See http://www.leadershipcertificate.com/ for information regarding this Certificate and its course requirements. Please note that successful completion of the Certificate in Leadership is not reflected on University of Guelph transcripts.

#### **Communication Elective - List EI**

Consistent with the University Learning Objective of "Literacy" and to provide a foundation in the first year for oral and written communication in subsequent marketing courses, marketing management majors must take one [0.50 credits] of:

ENGL*1200	[0.50]	Reading the Contemporary World	
LING*1000	[0.50]	Introduction to Linguistics	
PHIL*1050	[0.50]	Introductory Philosophy: Basic Problems	
UNIV*1200	[0.50]	First Year Seminar	
0.50 credits from FREN, GERM, GREK, ITAL, LAT, SPAN			

#### Marketing Environment Elective - List E2

Consistent with the University Learning Objective of "Depth and Breadth of Understanding" and to supplement the knowledge students gain in MCS\*1000 about the socio-cultural, economic, political/legal, and technological "environmental" factors that must be taken into consideration in marketing decision-making, marketing management majors must take one [0.50 credits] of:

AGR*1250	[0.50]	Agrifood System Trends & Issues
ANTH*1150	[0.50]	Introduction to Anthropology
ARTH*1220	[0.50]	The Visual Arts Today
ENVB*2010	[0.50]	Food Production and the Environment
FREN*1000	[0.50]	Understanding the French Speaking World
FRHD*1010	[0.50]	Human Development
GEOG*1200	[0.50]	Society and Space
GEOG*1220	[0.50]	Human Impact on the Environment
GEOG*2510	[0.50]	Canada: A Regional Synthesis
HIST*2610	[0.50]	Contemporary Canadian Issues
MCS*1400	[0.50]	Introduction to Design
NUTR*1010	[0.50]	Nutrition and Society
PHIL*2070	[0.50]	Philosophy of the Environment
POLS*1400	[0.50]	Issues in Canadian Politics
POLS*2250	[0.50]	Public Administration
SOC*1100	[0.50]	Sociology
<b>History Elective</b>	- List E3	

Consistent with the University Learning Objective of "Sense of Historical Development" and to help marketing majors develop a sense of the fundamental relativity of knowledge and understanding over time, marketing management majors must take one [0.50 credits] of:

ARTH*2490	[0.50]	History of Canadian Art
EURO*1050	[0.50]	The Emergence of a United Europe
HIST*1010	[0.50]	Europe and the Early Modern World
HIST*1250	[0.50]	Science and Society Since 1500
HIST*2070	[0.50]	World Religions in Historical Perspective
HIST*2250	[0.50]	Environment and History
HIST*2390	[0.50]	Imperial and Soviet Russia Since 1800
HIST*2510	[0.50]	The Emergence of Modern European Society 1789-1945
HIST*2800	[0.50]	The History of the Modern Family
HIST*2910	[0.50]	History of Modern Asia
MUSC*2280	[0.50]	Masterworks of Music
		T. ( T. (

#### **Global Perspective Elective - List E4**

Consistent with the University Learning Objective of "Global Understanding" and to help marketing management majors gain the global perspective needed in senior marketing courses such as International Marketing (MCS\*4600), marketing management majors must take one [0.50 credits] of:

ECON*2410	[0.50]	Intermediate Macroeconomics
GEOG*2030	[0.50]	Political Ecology & Geography
HIST*1150	[0.50]	20th-Century Global History
POLS*1500	[0.50]	World Politics
POLS*2080	[0.50]	Development and Underdevelopment
POLS*2200	[0.50]	International Relations
ZOO*1500	[0.50]	Humans in the Natural World - a Zoological Perspective

#### Leadership/Professionalism Elective - List E5

To address the University Learning Objective of "Independence of Thought" as it is achieved through "Moral Maturity" or "Aesthetic Maturity" or "Understanding of Forms of Inquiry", and to help prepare senior marketing management majors for leadership positions in organizations, they must take one [0.50 credits] of:

MCS*2850	[0.50]	Service Learning in Housing
PHIL*2600	[0.50]	Business and Professional Ethics

POLS*3180 POLS*3940	[0.50] [0.50]	Research Methods I: Political Inquiry and Methods Accountability and Canadian Government
REXT*3060	[0.50]	International Communication
REXT*4100	[0.50]	Leadership Development in Rural Organization
UNIV*2000	[0.50]	Foundations of Leadership
Constana Flactiv	- List F6	

#### **Capstone Elective - List E6**

To address the University Learning Objective of "Love of Learning" as it is achieved through "Independence of Thought" and "Depth and Breadth of Learning", senior marketing management majors must take one [0.50 credits] of:

MCS*4050	[0.50]	The Evolution of Capitalism: A Canadian Perspective
MCS*4100	[0.50]	Entrepreneurship
MCS*4300	[0.50]	Marketing and Society
MCS*4910	[0.50]	Topics in Consumer Studies
MCS*4920	[0.50]	Topics in Consumer Studies
MCS*4950	[0.50]	Consumer Studies Practicum

### Marketing Management (Co-op) (MKMN:C)

# Department of Marketing and Consumer Studies, College of Management and Economics

A principal aim of the Co-op program is to facilitate the transition of students from academic studies to a professional career in Marketing Management by enhancing the integration of theory and practice.

The Co-op program consists of two eight month work terms. The first work term begins after the second year. The second work term commences after the third year of studies. The Co-op program is normally completed over a 5 year period.

To be eligible to continue in the Co-op Major students must maintain a satisfactory average, must complete all course requirements as scheduled and must obtain a minimum evaluation of "satisfactory" on all required work term reports. Consult the Co-op advisor or Department for additional information.

### **Liberal Education Requirement**

As part of the graduation requirement all students within the B.Comm. Program are required to complete 1.50 credits from at least two different subject prefixes as listed under the B.Comm. Program Information section of the undergraduate calendar.

MCS*4300	[0.50]	Marketing and Society
MCS*4910	[0.50]	Topics in Consumer Studies
MCS*4920	[0.50]	Topics in Consumer Studies
MCS*4950	[0.50]	Consumer Studies Practicum
Dublia Man	a a mant (	DMCT

#### Public Management (PMGT)

#### Department of Political Science, College of Social and Applied Human Sciences

The Public Management program is designed to lead to an understanding of public sector administration and management from the "inside" - as an integrated enterprise - as well as from the outside - as a series of policy decisions and outcomes. Characterized by a multi-disciplinary approach employing both political and business-oriented analysis, students will confront questions of why politicians and public servants behave the way they do, and how their policy choices and processes can be optimized. Management of public entities features a unique set of challenges that arise from and interact with basic political issues like democracy, accountability, equity, fairness, and justice. At the same time it necessarily faces concerns common to all organizations, such as efficiency, human and capital resource management, morale, planning, and adaptation to change.

The program will appeal to students interested in the public service, public sector businesses or business-government relations. A co-ordinated sequence of courses may be capped in the final year by a year-long research project and thesis.

For this major, 16.00 of the 20.00 credits are specified as core requirements and the remaining 4.00 as electives. A list of suggested electives follows the description of required courses.

#### Liberal Education Requirement

As part of the graduation requirement all students within the B.Comm. Program are required to complete 1.50 credits from at least two different subject prefixes as listed under the B.Comm. Program Information section of the undergraduate calendar.

#### X. Degree Programs, Bachelor of Commerce (B.Comm.)

A principal aim of the Co-op program in Public Management is to facilitate the transition students from academic studies to professional career in government or the private r by enhancing the integration of theory and practice.

ents who want to graduate with the Co-op designation must complete a minimum of of the five work terms, including those in the fall and winter semesters and two of aree summer placements. In other words, should students so choose, one of the three ner work placements can be optional.

e eligible to continue in the Co-op major, students must maintain a satisfactory ge, complete all course requirements as scheduled, and obtain a minimum evaluation atisfactory" on all work term reports. Consult the Co-op advisor or Department for ional program information.

#### eral Education Requirement

art of the graduation requirement all students within the B.Comm. Program are red to complete 1.50 credits from at least two different subject prefixes as listed the B.Comm. Program Information section of the undergraduate calendar.

\* ECON\*3610 will only be offered once per year. Therefore, students should register f the course when it is offered (either Semester 7 or 8).

#### Electives

The following is a list of courses which may be of interest to students selecting the electives.

ECON*2410	[0.50]	Intermediate Macroeconomics
POLS*3330	[0.50]	Politics and Trade Liberalization in the Americas
POLS*3370	[0.50]	Environmental Policy Formation and Administration
POLS*3440	[0.50]	Corruption, Scandal and Political Ethics
POLS*3790	[0.50]	The Political Economy of International Relations
POLS*3940	[0.50]	Accountability and Canadian Government
SOAN*2040	[0.50]	Globalization of Work and Organizations

#### **Real Estate and Housing (REH)**

#### Department of Marketing and Consumer Studies, College of Management and Economics

The Real Estate and Housing major in the B.Comm. program is one of only two undergraduate programs in Canada that specialize in the real estate sector. It takes a multi-disciplinary approach to the study of residential and commercial/investment real estate. Topics such as the development, financing, valuation, market analysis and management of real estate are taught in the context of economic, legal, political and social factors affecting this large and growing field of business in Canada and the world.

The purpose of this major is to develop the conceptual, analytical and management skills required for careers in real estate and housing. Students graduate with a degree that can lead to a variety of professional positions in the private or public sectors of the Canadian real estate industry or they can continue on to graduate work in business, planning or the social sciences.

Students in the Real Estate and Housing major are required to take the courses listed below. In addition, some may wish to make use of groupings of elective courses in order to pursue individual interests or develop additional focus.

Students may consult the departmental Academic Advisor or B.Comm. Program Counsellor for additional information.

#### **Liberal Education Requirement**

As part of the graduation requirement all students within the B.Comm. Program are required to complete 1.50 credits from at least two different subject prefixes as listed under the B.Comm. Program Information section of the undergraduate calendar.

### Major

#### Real Estate and Housing (Co-op) (REH:C)

#### Department of Marketing and Consumer Studies, College of Management and Economics

A principal aim of the Co-op program is to facilitate the transition of students from academic studies to a professional career in the real estate industry by enhancing the integration of theory and practice.

The Co-op program consists of two eight month work terms. The Co-op program is normally completed over a 5 year period.

To be eligible to continue in the Co-op Major students must maintain a satisfactory average, must complete all course requirements as scheduled and must obtain a minimum evaluation of "satisfactory" on all required work term reports. Consult the Co-op advisor or Department for additional information.

#### Liberal Education Requirement

As part of the graduation requirement all students within the B.Comm. Program are required to complete 1.50 credits from at least two different subject prefixes as listed under the B.Comm. Program Information section of the undergraduate calendar. Major

In addition to the 14.50 required credits, students must also take a minimum of 3.00 restricted elective credits from the following list, throughout the program. Students may choose to explore a variety of subjects or may choose to study an area related to their major in some depth. Restricted electives are listed below and have been grouped into major subject areas which are related to the professional interests of the Tourism Management major. Students may, however, choose restricted electives from any of those listed without regard to the categories. Students may also select up to 2.00 credits in language courses as restricted electives. Students without a second language are strongly recommended to take language courses.

Courses related to eco-tourism:			
AGEC*2700	[0.50]	Survey of Natural Resource Economics	
AGEC*4290	[0.50]	Land Economics

#### **Tourism Management (TMGT)**

1.00 electives

# School of Hospitality and Tourism Management, College of Management and Economics

As the world's largest industry, tourism encompasses a wide range of public and private enterprises that require knowledgeable and talented management professionals. The program in Tourism Management builds on a strong base of hospitality management courses (human resources management, accounting, finance, cost controls, hotel operations). In conjunction with these courses the program provides specialized courses dealing with the economic, social, cultural and environmental aspects of the industry as well as the critical functions of tourism marketing, distribution, planning and development. In addition, there are opportunities to develop expertise in eco-tourism and international tourism operations. Verified work experience in the hospitality and tourism industry is required for students to be eligible to graduate. Group work is a significant part of core credit work. Students may consult the Faculty Advisor or the B.Comm. Program Counsellor for additional information.

For this major, 14.50 of the 20.00 credits are specified as core requirements, 3.00 as restricted electives (List A), and the remaining 2.50 as electives.

#### **Liberal Education Requirement**

As part of the graduation requirement all students within the B.Comm. Program are required to complete 1.50 credits from at least two different subject prefixes as listed under the B.Comm. Program Information section of the undergraduate calendar.

#### Major

Semester 1		
ECON*1050	[0.50]	Introductory Microeconomics
GEOG*1220	[0.50]	Human Impact on the Environment

Electives and Liberal Education Requirement			
TI 0 50 1 (	· .1		

The 2.50 electives in the program must include 1.50 credits toward the B.Comm. Liberal Education Requirement.

## **Bachelor of Computing (B.Comp.)**

Students graduating from this program obtain a solid foundation in the theory and application of all aspects of computing and information science. Core subjects, combined with in-depth study in an area of application, give students the freedom to combine their interests in computing with other areas of study and application.

Guelph's Bachelor of Computing degree combines the necessary theoretical background with a focus on the application of computing science.. Course projects which are based on real-world software development scenarios allow students to get the practical experience valued by today's high-tech employers. The focused study in a second discipline (area of application) gives students the necessary background to effectively apply their knowledge.

For the degree of Bachelor of Computing the University of Guelph offers a specialized program requiring the equivalent of 8 semesters of successful full-time study (honours program) and a general program requiring the equivalent of 6 semesters of successful full-time study (general program). The honours program is also available as a Co-op degree.

A student may register in any of the 3 semesters (Summer, Fall, Winter). Since not all courses are offered in every semester and prerequisite dependencies must be observed, students are encouraged to consult the program counsellor for the B.Comp. program to plan an initial program of study or when considering modifications to the suggested schedule of studies list (below).

### **Program Information**

### **B.Comp. Program Regulations**

The general program is designed to provide a sound general education in computing. The honours program is designed to provide depth of study and specialization beyond that available in the general program, while at the same time ensuring a complementary background in an area of application.

### 1. Requirements for a General Degree

To graduate from a general program a student must:

- a. earn 15.00 credits. These must include courses that fulfill the distribution requirements of the General Degree (see below). At least 4.00 credits must be at the 3000 level or above. Not more than 6.00 credits at the introductory (1000) level may be counted towards the 15.00 credit requirement.
- b. no more than 11.00 credits in any one subject or discipline, as indicated by the course prefix code, can be counted towards a general degree.
- c. successfully complete the following credits:

CIS*1500	[0.50]	Introduction to Programming	
CIS*1910	[0.50]	Discrete Structures in Computing I	
CIS*2430	[0.50]	Object Oriented Programming	
CIS*2500	[0.50]	Intermediate Programming	
CIS*2520	[0.50]	Data Structures	
CIS*2750	[0.75]	Software Systems Development and Integration	
CIS*2910	[0.50]	Discrete Structures in Computing II	
CIS*3530	[0.50]	Data Base Systems and Concepts	
0.5 additional CIS or STAT credits at the 2000 level or higher			
1.0 additional C	IS credits at	3000 level or higher	

d. Earn 2.00 science credits (list of courses available in the Program Counsellor's office) and 2.00 credits in the College of Arts or College of Social and Applied Human Sciences in addition to the courses listed in c.

### 2. Requirements for an Honours Degree

To graduate from an honours program a student must:

a. successfully complete 20.00 credits. These must include the 11.75 credits that fulfill the Computing Core Requirements (below), a minimum of 4.00 credits in an Area of Application (below) and an additional 4.25 credits as free electives. Not more than 6.00 credits from courses at the introductory (1000) level may be counted towards the 20.00 credit requirement.

The program requires 6.00 credits at the 3000 level or above and 2.00 credits at the 4000 level, while the area of application requires an additional 1.00 credits at the 3000 level or above. The Area of Application is a graduation requirement and must be approved by Semester 4 by the faculty advisor.

b. complete the following Computing Core Requirements:

. complete the lo	nowing com	puting core requirements.
CIS*1500	[0.50]	Introduction to Programming
CIS*1910	[0.50]	Discrete Structures in Computing I
CIS*2030	[0.50]	Structure and Application of Microcomputers
CIS*2430	[0.50]	Object Oriented Programming
CIS*2460	[0.50]	Modelling of Computer Systems
CIS*2500	[0.50]	Intermediate Programming
CIS*2520	[0.50]	Data Structures
CIS*2750	[0.75]	Software Systems Development and Integration
CIS*2910	[0.50]	Discrete Structures in Computing II
CIS*3110	[0.50]	Operating Systems
CIS*3490	[0.50]	The Analysis and Design of Computer Algorithms
CIS*3530	[0.50]	Data Base Systems and Concepts

X. Degree Programs,	Bachelor of Computing (B.Comp.)

CIS*3750	[0.75]	System Analysis and Design in Applications
CIS*4000	[0.50]	Applications of Computing Seminar
MATH*1200	[0.50]	Calculus I
STAT*2040	[0.50]	Statistics I
1.75 additional C	CIS credits a	t the 3000 level or above
1.50 additional C	CIS credits a	t the 4000 level or above

additional CIS credits at the 4000 level or above

- c. obtain a cumulative average at least 70% in CIS courses. Students who do not satisfy this requirement at graduation may apply for a General Degree.
- d. earn at least 4.00 credits in an Area of Application with at least 1.00 credits at the 3000 level or above. These credits must be taken from a single department or subject other than Computing and Information Science.

An area of Application normally consists of 4.00 credits (normally 8 courses) of a minor. Minors in the B.A. program and B.Sc. Minors are listed in Section X of the Calendar. A student may complete a minor should they decide to do so.

Students must consult the faculty advisor for approval of their Area of Application by semester 4.

Some courses may have enrolment restrictions placed on them.

Students failing to meet the graduation requirements of the honours program may apply to graduate with a general degree if the requirements for the general degree are met.

#### 3. Continuation of Study

Students are advised to consult the regulations for Continuation of Study which are outlined in detail in Section VIII--Degree Regulations & Procedures of this calendar.

### Schedule of Studies

Since many courses are offered in only one semester and course prerequisites place an ordering on courses, the following program of studies is designed so that students can schedule their courses over 8 semesters of study. Students deviating from this schedule must consult with their academic advisor. This schedule assumes a Fall/Winter semester sequence.

### **Major (Honours Program)**

School of Computing and Information Science, College of Physical and Engineering Science

#### Semester 1

Semester 1				
CIS*1500	[0.50]	Introduction to Programming		
MATH*1200	[0.50]	Calculus I

Semester 8				
CIS*4000	[0.50]	Applications of Computing Seminar		

ıg 1.50 credits in the Area of Application or electives

#### 0.50 credits in CIS at the 4000 level Schedule of Studies Co-op

Since many courses are offered in only one semester and course prerequisites place an ordering on courses, the following program of studies is designed so that students can schedule their courses over 8 semesters of study. Students deviating from this schedule must consult with their Co-op faculty advisor. This schedule assumes a Fall/Winter semester sequence.

### Major Co-op (Honours Program)

#### School of Computing and Information Science, College of Physical and Engineering Science

The Honours Bachelor of Computing degree is also available as a Co-operative Education Program. Students may apply for this option at the time of University admission or completion of semester 2. Three co-op work terms are required in Stream A and four are required in Stream B. Please check with CIS Co-op faculty advisor for semester planning.

Students are advised to plan their schedule of studies well in advance so that they can take all required prerequisites for later (especially 4000 level) courses. Students should note that some 4000 level courses are only given in alternate years. Failure to plan may result in the inability to take a particular senior CIS course.

The course COOP\*1100 must be successfully completed before the student may apply for a placement for the first work term (normally 2 semesters before the first work term). Other sequences may not be viable for the co-op student. Please check with the CIS Co-op faculty advisor for semester planning. COOP\*1000, COOP\*2000, COOP\*3000, and COOP\*4000 represent the first, second, third, and fourth work terms respectively.

Conditions for graduation are the same as the corresponding regular B.Comp. Program. In addition, all work reports and performance evaluations must have a grade of satisfactory or better.

#### Work/Study Semesters

#### Stream A Co-Op Schedule of Studies

00000	P Seneau			
Semester 1(Fall)				
CIS*1500	[0.50]	Introduction to Programming		
MATH*1200	[0.50]	Calculus I		
1.50 credits in the	Area of Ap	plication or electives		
Semester 2(Winte	er)	-		
CIS*1910	[0.50]	Discrete Structures in Computing I		
CIS*2500	[0.50]	Intermediate Programming		
COOP*1100	[0.00]	Introduction to Co-operative Education		
1.50 credits in the	Area of Ap	plication or electives		
Semester 3(Sumn	ier)	•		
CIS*2030	[0.50]	Structure and Application of Microcomputers

1.00 credits in CIS at the 4000 level

### **Bachelor of Engineering [B.Eng.]**

#### **Program Information**

#### **Objectives of the Program**

Students in this program obtain a liberal engineering education, which includes a comprehensive core of science, mathematics and engineering science that provides a strong foundation for engineering design and analysis. This enables students to undertake the solution of engineering problems in the areas of systems and computing, biological, environmental and water resources. Core subjects, combined with elective opportunities, provide an understanding of the connection between engineering and science, coupled with the interdisciplinary skills needed to address the problems and challenges faced by engineers in society today.

The curriculum includes a strong emphasis on engineering design. Students engage in engineering design throughout the program, and gain experience in computer aided design and modeling, conceptual design and physical construction. Emphasis is on teamwork and communications skills, as well as working on interdisciplinary projects.

Career opportunities are open in many segments of the economy. Examples are: consulting services to municipalities, utilities and industry; resource agencies in advisory, regulatory, planning and utilization; service industries of construction, power and water supply and public health; manufacturing, design of computer and control systems, hardware and software development; medical devices, pharmaceutical and food industries and industrial ergonomics; academic research and graduate studies within and without the field of engineering.

Many engineers assume management responsibilities after gaining experience in design, development and operations. The balance provided by liberal arts and engineering education allows graduates to enjoy a great deal of career mobility.

#### Accreditation

The baccalaureate degree programs in all engineering programs are accredited by the Canadian Engineering Accreditation Board of the Canadian Council of Professional Engineers. Graduates from accredited engineering programs have the educational requirements to apply for membership in the Professional Engineers Ontario (PEO) and other provinces after a number of years of acceptable engineering experience and successful completion of a PEO examination in engineering law and ethics.

#### **Requirements of the Program**

Students combine their required courses in mathematics, physical sciences and engineering with additional credits providing the opportunity for specialization in: one of the programs; complementary studies courses; and elective subjects. A minimum of 23.50 credits must be obtained. At least 3.00 credits must be complementary studies, which consist of courses in the social sciences, arts, management, engineering economics and communication. They complement the technical content of the curriculum.

All credits are selected according to the schedule of studies for the program. Restrictions apply to the number of non-core credits which may be at the 1000 level. Further information on approved courses may be obtained from the B.Eng. Program Guide available from the director or program counsellor of the School of Engineering.

#### Programs

The choice of program is made at the time of application. Change of program requires the approval of the director.

The available programs are:

Biological Engineering - the application of engineering to the control and management of biological processes, environments, and human factors in engineering design.

Engineering Systems and Computing - the application of engineering to the design, operation and management of data sensing, transmission and, processing systems, and of control systems.

Environmental Engineering - the application of engineering to protect and restore the environment, through the prevention and treatment of gaseous, liquid and solid wastes.

Water Resources Engineering - the application of engineering to the control and management of water and soil resources to meet human needs while sustaining the natural environment.

The schedule of studies for each program is provided below but guidance in the selection of appropriate courses is available from the program counsellor of the School of Engineering.

#### **Additional Course Requirements**

Students lacking OAC courses are advised to consult the Recommendations and Notes in Section IV--Admission Information-B.Eng..

#### **Continuation of Study**

Students are advised to consult the regulations for continuation of study within the program which are outlined in detail in Section VIII, Undergraduate Degree Regulation & Procedures. Students will be ineligible to continue in the B.Eng. program and will not be readmitted to the degree program if the same course is failed three times.

Normally, students in the B.Eng. program will be permitted only one supplemental privilege during their studies. It will usually be granted for 3000 or 4000 level courses only.

To qualify for the degree the student must complete the courses required for a B.Eng. program, obtaining a minimum of 23.50 credits and must achieve an overall minimum cumulative average of at least 60% and a minimum cumulative average of at least 60% in all ENGG courses.

#### **Co-operative Education**

Students studying for the B.Eng. degree may participate in a Co-operative Education program following the completion of the first 4 semesters of study. The Co-operative Education program consists of a minimum of 4 semesters of experience in industry with employers who participate in the program. Reports and assignments are graded by a faculty supervisor with assistance from the employer. Evaluations of Co-op semesters are recorded on the student's academic record. The Co-operative Education program provides an excellent opportunity for students to obtain work experience in industry directly related to their field of study. Interested students should consult their program counsellor.

Students wishing to participate in the Co-operative Education program should indicate their intention to do so by applying for admission to the Co-op program on entrance. Following the completion of semester 2, in-course applicants will be considered for admission to the Co-op program.

Successful applicants will:

- 1. have a minimum cumulative average of 70% in semesters 1 and 2  $\,$
- 2. have successfully completed all of the credits required in the schedule of studies for semesters 1 and 2
- 3. be employable in Canada (i.e. be a Canadian citizen or a permanent resident in Canada)
- 4. have obtained the approval of their Co-op advisor in the school to participate in the program. The Co-op advisor's approval will signify that the schedule of work semesters in the Co-op program as planned by the student is compatible with the schedule of studies in the program in which the student is enrolled.

5. completion of COOP\*1100 is a requirement for entry into the first work term.

Please refer to Co-operative Education Program for Admission requirements into the Co-op Program.

Co-op Work Schedule					
	Yr. 1	Yr. 2	Yr. 3	Yr. 4	Yr. 5
Fall	1	3	5	6	work
Winter	2	4	work	7	8
Spring		work	work	work	

All candidates must complete a minimum of 4 of the preceding 5 work terms.

### Biological Engineering Program Regular and Co-op (BIOE/BIOE:C)

#### School of Engineering, College of Physical and Engineering Science

Students interested in problems requiring the application of knowledge from both the biological sciences and engineering will find a challenge as a Biological Engineer. This field of engineering relates to the control of technological processes with the aim of enhancing human, animal and plant life. The program encompasses the technologies of biotechnology, waste management, food engineering, and ergonomics. For example, a Biological Engineer concentrating on biotechnology might design and manage bioreactors to improve their productivity. A career in Biomedical Engineering, which requires graduate work beyond the Bachelor's degree, involves designing instruments and diagnostic techniques to be used in the practice of medicine, developing prosthetic devices, and applying engineering techniques to the study of physiological systems.

# Engineering Systems and Computing Program Regular and Co-op (ESC/ESC:C)

### School of Engineering, College of Physical and Engineering Science

In the last quarter century, the computer has grown so rapidly in importance that engineering, science, business and industry could not function without it. With this growth, a need has evolved for specialists who can incorporate computers and information into complex industrial processes. The Engineering Systems and Computing program has been

conceived to satisfy this need. Graduates from this program will have, in addition to the basic engineering skills, the ability to identify application areas where computer technology represents the optimum solution, specify appropriate software for process control, data reduction and/or expert system implementation and integrate the computer into the overall system application.

## School of Engineering, College of Physical and Engineering Science

In recent years there has been concern about the degradation of the environment. The School of Engineering has responded to this concern by developing an Environmental Engineering program. Graduates will possess design and skills to minimize and prevent the impact of human activities on water, soil and air systems. Graduates will also creatively integrate humanistic and social perspectives in their solutions.

#### **Restricted Electives**

Environmental engineering students must complete the following restricted electives (see Program Guide for more information). A maximum of three 1000 level electives is allowed. Restricted electives must include:

- 2.00 credits in Complementary Studies (Students need to take 0.50 credits from each of the three sub-lists noted in the Program Guide. The remaining 0.50 credits can be taken from any Complementary Studies sub-list.)
- 1.50 credits in Environmental Engineering electives (if BIOL\*1030 is selected in Semester 3, then BIOL\*1040 must be selected from the list in the Program Guide).

#### Minor (Honours Program)

Students must be registered in the B.Eng. degree program to apply for a Minor in Environmental Engineering.

The minor can be satisfied by taking the following additional courses:			
BIOC*2580	[0.50]	Introductory Biochemistry	
CHEM*3360	[0.50]	Environmental Chemistry and Toxicology	
2007-2008 University of Guelph Undergraduate Calendar

### Water Resources Engineering Program Regular and Co-op (WRE/WRE:C)

#### School of Engineering, College of Physical and Engineering Science

Water resources engineering focuses on the use and management of land and water resources in rural and urban watersheds. The hydrologic and hydraulic behaviour of watershed flow systems is combined with engineering science and. Water management includes flood prevention, warning and control; drainage; design of natural channels; irrigation; and erosion prevention and control. The supply of water for municipal, industrial and agricultural purposes is considered in the context of resource conservation. Identification of potential point and diffused sources of pollutants is used to develop efficient, environmentally sustainable and economical methods to preserve high-quality water to sustain human life and water-dependent ecosystems.

#### **Major (Honours Program)**

Semester 1 - Re	egular or	Со-ор	
CHEM*1040	[0.50]	General Chemistry I	
CIS*1500	[0.50]	Introduction to Programming	
ENGG*1100	[0.75]	Engineering and Design I	
HIST*1250	[0.50]	Science and Society Since 1500

#### 0.50 restricted electives

#### Semester 8 (Winter) Regular or Co-op

ENGG\*4150 [1.00] Water Resources Engineering Design IV 1.50 restricted electives

#### **Restricted Electives (see Program Guide for more information)**

- 2.00 credits in Complementary Studies (Students need to take 0.50 credits from each of the three sub-lists noted in the Program Guide. The remaining 0.50 credits can be taken from any Complementary Studies sub-list.)
- 1.00 credits in Water Resources Engineering electives
- 0.50 credits in Environmental electives
- 0.50 credits in Water Resources electives

## Bachelor of Landscape Architecture (B.L.A.)

Landscape Architecture is the art and science of designing and conserving land and water for human use and enjoyment. As a profession, Landscape Architecture is concerned with two scales of planning and design.

The first scale is with the development of specific sites for residential, recreational, institutional, commercial and industrial projects. The second scale pertains to the regional landscape where the issues include management plans for forest, park and recreation areas, agricultural lands protection, gravel pit mining and restoration, hazard land studies, and visual resource analysis.

### **Program Information**

### **Objectives of the Program**

Landscape Architecture is a diverse and rewarding design profession. Landscape architects play an important role in shaping our environment, working in collaboration with other design professionals, specialists and the public.

Students in the B.L.A. program attain professional knowledge and skill that prepares them to deal with problems that concern the interface between people and the environment. Program emphasis is on core professional knowledge domains that include landscape analysis, design, implementation, communication, history and professional practice. Additional required and elective courses in the arts and sciences provide a well-rounded education.

Graduates of the program have exciting careers in the public and private sector. As landscape architects, they design memorable places that are attractive, functional and sustainable and that affect the way our cities, suburbs, rural and wilderness areas are planned, designed and managed.

#### Accreditation

The Bachelor of Landscape Architecture program is accredited by the Canadian Society of Landscape Architects (CSLA) accreditation is recongized by the American Society of Landscape Architects. C.S.L.A. accreditation is recognized by the American Society of Landscape Architects (ASLA). Graduates of accredited landscape architecture programs have the educational qualifications to apply for membership in provincial and state professional associates in Canada and the United States after completion of the required number of years of professional practice and successful completion of required examinations.

### Admission to the Landscape Architecture Program

Students wishing to enter the program of study leading to the Bachelor of Landscape Architecture degree should consult Section IV--Admission Information.

#### Degree

The degree granted for the successful completion of the program is the Bachelor of Landscape Architecture (B.L.A.).

### Selection of Electives

All electives may be chosen independently although counselling with the departmental advisor is highly, recommended. In selecting electives two approaches may be followed: 1) electives may be chosen from a variety of disciplines to achieve breadth of knowledge or, 2) all or most electives may be chosen in a subject area in order to pursue a particular field of interest in depth. Some of these fields might include agricultural and biological sciences, environmental studies, studio arts, geography, philosophy or sociology.

Students wishing to elect a permissible substitute shall do so in consultation with their departmental advisor. A substitute course will normally be in the same academic area as that listed in the Landscape Architecture Program.

The following elective courses in Landscape Architecture are available. Refer to course descriptions for scheduling information.

LARC*3500	[0.50]	Independent Study
LARC*4520	[0.50]	Park and Recreation Administration
LARC*4730	[0.50]	Special Study in Landscape Architecture
LARC*4740	[0.50]	Case Studies

### Academic Advising

Students can consult the BLA Coordinator who is a faculty member that can address program issues and individual curriculum queries.

#### Computers

Expertise in many aspects of computer application is now a fundamental skill for the profession. Recognizing this, the school provides computer facilities in the building. If it is feasible we recommend that students acquire their own computer within the first two years of the program.

### **Field Trips**

Participation in organized visits to site study areas and project sites is obligatory for all students taking certain courses in landscape architecture. To the extent that it is possible, students will be informed of the dates, destinations and cost of field trips prior to registration. Students who have reason to seek exemption from the requirement may apply to the director prior to registration for permission to substitute papers on appropriate topics.

#### **Pre-Professional Experience**

It is considered highly advisable that the prospective graduate prepare for later professional practice through summer employment in the landscape industry. Two summers spent in landscape related work followed by 1 summer in a professional office is considered to be a desirable sequence of employment.

#### **Continuation of Study**

Students are advised to consult the regulations for continuation of study within the program which are outlined in detail in Section VIII--Undergraduate Degree Regulations & Procedures.

### **Conditions for Graduation**

In order to qualify for graduation from the 8 semester Honours B.L.A. program, the student must successfully complete all of the courses approved for the program (20.00 credits).

### Schedule of Studies

### Major (Honours Program)

•	0	
Semester 1

Semester 8		
LARC*4090	[0.50]	Seminar
LARC*4102	[1.00]	Design Thesis

## **Bachelor of Science (B.Sc.)**

The University of Guelph offers general and honours programs leading to the B.Sc. degree. The general program consists of a minimum of 15.00 credits (usually 30 semester courses) involving normally 6 semesters of study. The requirements for the honours program is a minimum of 20.00 credits (usually 40 semester courses) which may be obtained over 8 semesters of study. Some majors may require more than 20.00 credits.

#### The Three Semester System

Most of the B.Sc. programs operate on the three semester system. In this system each of the Fall, Winter and Summer semesters is of 12 weeks duration. Two semesters are equivalent to 1 academic year at a university on the traditional system. In the three semester system, students may vary their rate of progress towards graduation. However, since many science courses must be taken in a certain sequence and not all courses are offered each semester, most science students are required to proceed from semester to semester in restricted patterns. Furthermore, the advanced courses of the honours programs are offered only in the regular fall and winter semesters.

Additional information may be obtained from Admissions Services, Office of Registrarial Services. The three-semester system and the pass-by-course method of advancement allow considerable flexibility of program arrangement. In addition, a variety of program contents is available which the student may modify to meet individual requirements.

#### **Transfer from One B.Sc. Program to Another**

On entrance to the B.Sc. program, the student may elect to follow an intended area of specialization or to postpone this decision until a later semester. The choice of a particular program of study may be most effectively made at the end of Semester 3 or 4. Judicious selection of courses in each and every semester will allow the easiest transfer between programs without incurring the need for additional semesters of study. The program counsellor of the particular college from which it is anticipated that the majority of science courses will be taken should be consulted for advice.

### **Program Information**

#### **General Program Requirements**

The general B.Sc. degree requires the successful completion of 15.00 required credits. Normally 2.50 credits (usually 5 courses) are taken in each semester so that the degree may be completed in 6 semesters. The general science program is designed to give a broad general training in biological science, chemistry, physics and mathematical science.

#### **Honours Program Requirements**

In order to graduate in the honours program, students must fulfill all program requirements for the program and have achieved a 60%, or higher, cumulative average over all course attempts. Normally 2.50 credits (usually 5 courses) are taken in each semester so that the degree may be completed in generally 8 semesters. The following types of honours programs are offered:

#### **Honours Major Programs**

Major in a subject

Major in a subject (with a minor)

#### **Honours Major**

These programs permit a student to study science in greater depth than is permitted by the general program. The student is required to take a minimum of 1.00 credits (usually 2 courses) in each of biological science, chemistry, physics and mathematical science. In each of semesters 3 to 8, students select science credits so that the total program provides a broad science training with concentration in an area of physical science or biological science.

A major normally consists of certain prescribed courses (minimum of 8.00 credits) and a number of elective courses to complete the requirements for the degree. The composition of science courses selected must contain a sufficient number (minimum of 6.00 credits) of 3000 and 4000 level courses including a grouping (minimum of 2.00 credits) particularly at the 4000 level. A major program may be studied in conjunction with a minor in an area of science, humanities or social science.

#### **Honours Minor**

A minor is a group of courses which provides for exposure to and mastery of the fundamental principles of a subject. A minor consists of a minimum of 5.00 credits (normally 10 courses). It may also require certain other courses from other areas to be taken along with the specified courses of the minor. A minor is taken in conjunction with a major.

Students should seek advice from the program counsellor of either the College of Biological Science or the College of Physical and Engineering Science dependent upon their primary area(s) of interest. Refer to B.Sc. Program Requirements: Regulation 6. Double-Counting of Credits.

#### **B.Sc. Program Requirements**

Regulations 1, 2, 3 and 4 apply to all B.Sc. students.

### 1. Entry Credits

In general, the 4U or OAC credit or its equivalent is required in a subject area to allow entrance to the initial university course. Students who lack this requirement can remedy the deficiency by successful completion of:

BIOL\*1020 for students lacking biology

CHEM\*1060 for students lacking chemistry PHYS\*1020 for students lacking physics

Not more than one of the above will be allowed for credit toward the B.Sc. degree.

#### 2. Basic Science Core

In each of the first 2 semesters B.Sc. students must take one (1) of the specified courses in each of biology, chemistry, physics and mathematical science, and 1 other course which is normally an Arts or Social Science elective.

#### 3. 1000 Level Credits

No B.Sc. program may include more than 7.00 credits at the 1000 level.

#### 4. 3000 and 4000 Level Credits

There is a requirement for a minimum of 6.00 science credits at the 3000- and 4000-levels with a minimum of 2.00 credits at the 4000 level.

#### 5. Science Credits

A minimum of 16.00 science credits (usually 32 courses) is required for the honours major program. The inclusion of a minor in a non-science area involves the reduction to 14.00 science credits (usually 28 courses) with the approval of the program counsellors. Acceptable science courses in the following programs means "acceptable to the B.Sc. Program Committee". Lists of acceptable courses are available in the offices of the faculty advisors and the program counsellors and on the world wide web at the following address: http://www.bsc.uoguelph.ca/Approved\_electives.shtml.

#### 6. Double-Counting of Credits

A maximum of 2.00 credits required in a major program may be applied to meet the requirements of a minor program.

#### 7. Continuation of Study

Students are advised to consult the regulations for continuation of study outlined in detail in Section VIII--Undergraduate Degree Regulations & Procedures.

#### **Doctor of Veterinary Medicine**

Students in the B.Sc. program who intend to apply for admission to the Doctor of Veterinary Medicine program should register for the Major Biological Science or Major Physical Science program, or the major of their choice. Prospective candidates for the D.V.M. program should consult the admission requirements for the program. Students may obtain assistance in selecting a program that will meet the requirements for the Doctor of Veterinary Program and for continuation in biological or physical science programs by consulting the appropriate Program Counsellor.

### **General Program (BSCG)**

#### **Continuation of Study**

Students are advised to consult the regulations for continuation of study within the program which are outlined in detail in Section VIII--Undergraduate Degree Regulations & Procedures.

#### **Conditions for Graduation**

In order to qualify for graduation from the general program the student is required to attain a passing grade in a minimum of 15.00 required credits as outlined in the Total Course Requirements for all students in the General Science Program.

#### **Total Course Requirements for all Students in the General Science** Program

Total of 15.00 credits as follows:

- 1. 4.00 credits from the first year science core 1.00 credits beyond the 4U or OAC level in each of biological science, chemistry, mathematical science, physics. Note: A maximum of 7.00 credits at the 1000 level may be used towards the degree requirements.
- 2. An additional 0.50 credits from at least 3 of the following subject areas: biological science, biochemistry/chemistry, mathematical science, physics.
- 3. 6.50 additional credits selected from the list of approved sciences electives for the B.Sc. degree program of which 2.50 credits must be at the 3000 or 4000 level. Note: One of: BIOL\*1020, CHEM\*1060, PHYS\*1020 may be counted towards the degree requirements, counting as 0.50 credits in science.
- 4. 2.00 credits arts and/or social science electives approved for the B.Sc. degree program.
- 5. 1.00 credits in electives.

### **Recommended Schedule for Students in Biological Science Areas** Semester 1

 Statute of the stat

Students who are admitted deficient in one OAC/4U course in Biology, Chemistry or Physics must take the equivalent introductory course in first semester. The first-year science core in that subject should be completed by Semester 3.

### Semester 2

BIOL*1040	[0.50]	Biology II	
CHEM*1050	[0.50]	General Chemistry II	
MATH*1210	[0.50]	Calculus II	
PHYS*1010	[0.50]	Introductory Electricity and Magnetism	
0.50 Arts or Social Science electives			

### Semester 3 to 6

A minimum of 2.50 credits in each semester, including 2.00 acceptable science courses per semester. For details consult 'Total Course Requirements'.

### Honours Programs (BSCH)

### **Honours Program Majors**

The following honours majors are available:

### **Biological Sciences:**

20.00 credits - Animal Biology 20.25 credits - Biochemistry 20.00 credits - Biological Science 20.00 credits - Bio-Medical Science 20.00 credits - Human Kinetics 20.00 credits - Marine and Freshwater Biology 20.00 credits - Microbiology 20.00 credits - Molecular Biology & Genetics 20.00 credits - Nutritional and Nutraceutical Sciences 20.00 credits - Plant Biology 20.00 credits - Plant Biotechnology 20.00 credits - Wild Life Biology 20.00 credits - Zoology **Physical Sciences:** 20.00 credits - Biological Chemistry 21.25 credits - Biophysics 21.75 credits - Chemical Physics 20.25 credits - Chemistry 20.00 credits - Physical Science 21.25 credits - Physics 21.25 credits - Theoretical Physics **Environmental Sciences:** 20.25 credits - Biomedical Toxicology 20.00 credits - Earth Surface Science\* 20.00 credits - Ecology\*

## Computing Science, Mathematics, Statistics

20.00 credits - Computing & Information Science 20.00 credits - Mathematics 20.00 credits - Statistics Additional Disciplines:

20.00 credits - Food Science 20.00 credits - Psychology

### **Co-operative Educational Programs:**

- 20.00 credits Applied Mathematics and Statistics
- 20.25 credits Biochemistry
- 20.25 credits Biomedical Toxicology 21.25 credits - Biophysics

21.25 credits - Chemical Physics

20.25 credits - Chemistry

20.00 credits - Computing & Information Science

20.00 credits - Environmental Toxicology

20.00 credits - Food Science

20.00 credits - Microbiology

### 21.25 credits - Physics

### **Honours Program Minors**

Minors are available in the following science areas with the particular credit requirements being given (additional minors are available from the College of Arts and the College of Social and Applied Human Sciences). A minor may include additional prerequisites - consult with the appropriate faculty advisor.

#### **Biological Sciences:**

5.00 credits - Biology
5.00 credits - Biochemistry
5.00 credits - Biotechnology
5.00 credits - Functional Foods and Nutraceuticals
5.25 credits - Microbiology
5.00 credits - Molecular Biology and Genetics
5.00 credits - Neuroscience
5.00 credits - Nutritional Sciences
5.00 credits - Plant Biology
5.00 credits - Plant Biotechnology
5.00 credits - Zoology
Physical Sciences:
5.00 credits - Chemistry

#### 5.00 credits - Chemistry 5.00 credits - Physics

### Environmental Sciences:

5.00 credits - Ecology

5.00 credits - Forest Science

5.00 credits - Geographic Info. Sys. (G.I.S.) and Environmental Analysis

#### 5.00 credits - Geology Mathematical Sciences:

- sciences.
- 5.25 credits Computing & Information Science 5.00 credits - Mathematical Science
- 5.00 credits Mathematics

5.00 credits - Statistics

#### **Additional Disciplines:**

5.00 credits - Business Administration 5.00 credits - Food Science 5.00 credits - Psychology

### **Continuation of Study**

Students are advised to consult the regulations for continuation of study within the program which are outlined in detail in Section VII--Undergraduate Degree Regulations & Procedures.

#### **Conditions for Graduation**

#### Schedules 1 and 2

In order to qualify for graduation from the honours program, the student must fulfill all program requirements and have achieved 60%, or higher, cumulative average in all course attempts.

**Note:** A student registered in an honours program who has successfully completed all required courses and the specified total number of credits for the program but does not have a cumulative average of 60%, or higher, may apply to graduate from the general program.

### **Co-operative Education Program**

Admission to the Co-operative Education program may be granted on entry to the University or by application normally before the conclusion of Semester 2. Application forms can be obtained from the appropriate faculty co-op advisor. In-course students will need to complete successfully an interview in the appropriate department. Students must

20.00 credits - Environmental Biology\*

\*also see B.SC.(ENV.)

20.00 credits - Environmental Toxicology

be either a Canadian Citizen or Permanent Resident. A cumulative average of 70% is required in courses taken in Semesters 1 and 2 to permit continuation in the program.

Conditions for Graduation from the B.Sc. Co-operative Education Program

Conditions for graduation are the same as the corresponding regular B.Sc. program. In addition, all work reports and work performance evaluations must have a grade of satisfactory or better.

#### **Animal Biology (ABIO)**

#### Department of Animal and Poultry Science, Ontario Agricultural College

### Major (Honours Program)

Students may enter this major in Semester 1 or any semester thereafter. A student wishing to declare the major must consult the Faculty Advisor.

Semester 1				
BIOL*1030	[0.50]	Biology I		
CHEM*1040	[0.50]	General Chemistry I		
MATH*1080	[0.50]	Elements of Calculus I		
PHYS*1070	[0.50]	Introductory Physics for Life Sciences		
0.50 Arts or Social Science electives				
Students who are admitted deficient in one OAC/4U course in Biology, Chemistry or				
Physics must take the equivalent introductory course in first semester. The first-year				
science core in that subject should be completed by Semester 3.

2.50 electives or	restricted ele	ectives	
Semester 8			
2.50 electives or	restricted ele	ectives	

#### **Restricted Electives**

Students must complete 2.00 credits from Arts or Social Science courses.

0.50 credits is required from each of the following: Animal Nutrition, Animal Breeding & Genetics, and Animal Physiology & Behaviour. Students are encouraged to consult with the Faculty Advisor for help in tailoring their selection to meet personal and career interests.

Note: Students are required to complete 16.00 credits in science of which a minimum of 6.00 credits must be at the 3000, 4000 level and at least 2.00 credits of these must be 4000 level.

Animal Breeding & Genetics [0.50] Required

	0	
ANSC*4020	[0.50]	Genetics of Companion Animals
ANSC*4050	[0.50]	Biotechnology in Animal Science
MBG*3090	[0.50]	Applied Animal Genetics
MBG*4030	[0.50]	Animal Breeding Methods
Animal Nutriti	on [0.50] Requ	ired

2.00 credits in Mathematics or Statistics at the 4000 level 0.50 electives

#### **Electives must include:**

1.00 credits in Arts and Social Science courses 2.50 credits in Mathematics or Statistics at the 3000 level 2.00 credits in Mathematics or Statistics at the 4000 level

### **Biochemistry (BIOC)**

### Department of Molecular and Cellular Biology, College of Biological Science

#### Major (Honours Program)

Students may enter this major in Semester 1 or any semester thereafter. A student wishing to declare the major must consult the Faculty Advisor. The major will require the completion of at least 20.25 credits as indicated below:

#### Semester 1

BIOL*1030	[0.50]	Biology I
CHEM*1040	[0.50]	General Chemistry I
MATH*1200	[0.50]	Calculus I
PHYS*1000	[0.50]	An Introduction to Mechanics
0.50 Arts or Soci	al Science	electives

Students who are admitted deficient in one OAC/4U course in Biology, Chemistry or Physics must take the equivalent introductory course in first semester. The first-year science core in that subject should be completed by Semester 3.

#### Semester 2

bemester 2		
BIOL*1040	[0.50]	Biology II
CHEM*1050	[0.50]	General Chemistry II
CIS*1500	[0.50]	Introduction to Programming
MATH*1210	[0.50]	Calculus II
PHYS*1010	[0.50]	Introductory Electricity and Magnetism
Semester 3		
BIOC*2580	[0.50]	Introductory Biochemistry
CHEM*2060	[0.50]	Structure and Bonding
CHEM*2480	[0.50]	Analytical Chemistry I
CHEM*2880	[0.50]	Physical Chemistry
MBG*2000	[0.50]	Introductory Genetics
Semester 4		
BIOC*3560	[0.50]	Structure and Function in Biochemistry
BIOL*2210	[0.50]	Introductory Cell Biology
CHEM*2700	[0.50]	Organic Chemistry I
MBG*2020	[0.50]	Introductory Molecular Biology
0.50 electives		
Semester 5		
BIOC*3570	[0.50]	Analytical Biochemistry
CHEM*3750	[0.50]	Organic Chemistry II
MICR*2030	[0.50]	Microbial Growth
STAT*2040	[0.50]	Statistics I
0.50 electives		
Semester 6		
MBG*3350	[0.75]	Laboratory Methods in Molecular Biology I
PHYS*2030	[0.50]	Biophysics of Excitable Cells
1.50 electives		
Semester 7		
BIOC*4520	[0.50]	Metabolic Processes
MCB*4080	[0.50]	Applied Microbiology and Biochemistry

MICR*3230 One of:	[0.50]	Immunology I
MBG*3080	[0.50]	<b>Bacterial Genetics</b>
MBG*4080	[0.50]	Molecular Genetics
0.50 electives		
Semester 8		
BIOC*4540	[0.50]	Enzymology
BIOC*4580	[0.50]	Membrane Biochemistry
1.50 electives		

### Electives

Selection of electives for the program is subject to the following rules:

1. At least 1.00 credits must be in the Arts and Social Sciences.

2. One of: MCB\*4050, TOX\*4590.

3. One of: BIOM\*3100, MICR\*3330, MICR\*4230, PBIO\*3110, PBIO\*4750.

#### Minor (Honours Program)

A minor in Biochemistry consists of at least 5.00 course credits. The following courses are required:

BIOC*3560	[0.50]	Structure and Function in Biochemistry	
BIOC*3570	[0.50]	Analytical Biochemistry	
BIOC*4540	[0.50]	Enzymology	
CHEM*2480	[0.50]	Analytical Chemistry I	
CHEM*2700	[0.50]	Organic Chemistry I	
One of:			
MBG*2020	[0.50]	Introductory Molecular Biology	
MICR*2030	[0.50]	Microbial Growth	
In addition, at least	st 2.00 credi	ts must be chosen from the following courses, with at least	
1.00 credits from the first four courses listed:			
BIOC*4520	[0.50]	Metabolic Processes	
BIOC*4580	[0.50]	Membrane Biochemistry	
MBG*3350	[0.75]	Laboratory Methods in Molecular Biology I	
MCB*4080	[0.50]	Applied Microbiology and Biochemistry	
MICD*2220	[0 50]	Immunology I	

#### MICR\*3230 [0.50] Immunology I TOX\*4590 [0.50] Biochemical Toxicology

### Biochemistry (Co-op) (BIOC:C)

#### Department of Molecular and Cellular Biology, College of Biological Science

Two Streams are available. Stream A is different from Stream B in that Stream A has a double work term following academic semester 5. The course content of semesters 1-4 is the same as that listed above for the regular Honours Program Major. Students in the Co-op program must also take COOP\*1100 in the second academic semester. The total program requirements, including the selection of electives are also the same.

Students will be expected to undertake their work terms after semester 3 and completion of course CHEM\*2480. Since certain courses must be taken in a different semester from usual, consult your Faculty Co-op Advisor for assistance with course selection.

To graduate from the Co-op program a minimum of 4 successfully completed work terms is normally required.

### Major (Honours Program)

Students may enter this major in Semester 1 or any semester thereafter. A student wishing to declare the major must consult the Faculty Advisor. This major will require the completion of 20.00 credits as indicated below:

- 1. First year Core 4.00 credits
  - 1.00 Biology BIOL\*1030 BIOL\*1040
  - 1.00 Chemistry CHEM\*1040 CHEM\*1050
  - 1.00 Physics (PHYS\*1070, PHYS\*1080) or (PHYS\*1000, PHYS\*1010)
  - 0.50 Mathematics MATH\*1080 or MATH\*1200
- 0.50 Mathematical Science CIS\*1000, CIS\*1200, MATH\*1210, MATH\*2080,
- 2. Subject Area Core 8.00 credits
  - 0.50 BIOL\*2210
  - 0.50 BIOC\*2580
  - 0.50 MBG\*2000
  - 0.50 STAT\*2040
  - 0.50 from one of BIOL\*2060, BIOL\*3110, BOT\*2050

0.50 - minimum from one of BIOM\*3100, BOT\*3310, HK\*3940, ZOO\*3200

5.00 - biological science courses of which 4.00 must be at the 3000 or 4000 level\*

- 3. Science Electives 4.00 credits
  - 1.00 biological science courses

3.00 - from science offerings on the list of Approved Courses of which at least 2.00 must be at the 3000 or 4000 level\*

4. Arts and Social Science Electives - 2.00 credits

- 2.00 arts or social science courses from the list of Approved Courses
- 5. Free Electives 2.00 credits

\*the program must include at total of 6.00 science credits at the 3000 or 4000 level, 2.00 must be at the 4000 level

Statistics I

#### Semester 6 to 8

BIOM\*3100

2.50 in each semester including 2.00 science credits per semester

Note: 6.00 in biological science must be taken in Semesters 6 through 8 of which 4.00 must be at the 3000 or 4000 level. In the total 6.00 of 3000 and 4000 level science courses, 2.00 must be at the 4000 level.

Introductory Biochemistry

Introductory Cell Biology

Mammalian Physiology I

#### **Biology (BIOL)**

**College of Biological Science** 

One course in Physiology from:

#### Minor (Honours Program)

A minor in Biology shall include the following courses:

BIOL*1030	[0.50]	Biology I
BIOL*1040	[0.50]	Biology II
BIOL*2060	[0.50]	Ecology
BIOL*2210	[0.50]	Introductory Cell Biology
MBG*2000	[0.50]	Introductory Genetics

and 2.50 of which 1.50 must be at the 3000 or 4000 level, from courses offered by the Human Health and Nutritional Sciences, Integrative Biology and Molecular and Cellular Biology . This minor is intended for students registered in majors in B.Sc. Physical Sciences and the B.A. degree programs.

#### **Bio-Medical Science (BIOM)**

#### Department of Biomedical Sciences and Department of Human Health and Nutritional Sciences

This joint program of the Department of Human Health and Nutritional Sciences and the Department of Biomedical Sciences focuses on the maintenance and promotion of human and animal health through the study of function (biochemistry and physiology), structure (anatomy and histology), and the basic medical sciences (epidemiology and pharmacology). It will permit graduates from this B.Sc. program to contribute to society in the area of health maintenance. The program is a good preparation for students intending to develop professional or research careers in the medical and biological sciences. Through the use of electives, students may structure a program emphasizing either nutritional sciences or principles of health and disease prevention. For more information on recommended electives contact the Faculty Advisor of the major.

#### X. Degree Programs, Bachelor of Science (B.Sc.)

Students who are admitted into the Biomedical Science major from high school must meet additional requirements to continue in the major beyond first year. Continuation is based on the cumulative average in the first two full-time semesters (5.00 credits), including the seven core courses as prescribed by the Schedule of Studies (see below). Students with a minimum of 75% average will be guaranteed continuation in this major. For students with a 70-74.9% average, continuation will be competitive based on available spaces. Students with an average below 70% will be changed to the Biological Science major. Students may subsequently change to another B.Sc. major of their choice.

B.Sc. students who were not admitted into the Biomedical Science major from high school and wish to declare the specialization at the end of the first year must apply directly to the Department of Biomedical Sciences by the last day of classes in the winter semester and meet the additional requirements specified above.

B.Sc. students beyond first year who wish to declare the specialization must apply directly to the Department of Biomedical Sciences by the last day of classes in the winter semester. Admission to the major will be based on the cumulative average in the previous two full-time semesters (5.00 credits). Acceptance will be competitive based on available spaces. Students with an average below 70% will not be considered for admission to the major.

All decisions will be made at the end of June.

Students who are lacking in the fundamentals of word processing, spread sheet use and data management should arrange to complete CIS\*1000 as early in their program as possible.

This program is designed to partially meet the current requirements for an entry into medical schools in Ontario (a student interested in meeting these requirements should check the present admission requirements for the medical schools); as well as entry into the DVM program of the Ontario Veterinary College.

Live animals and/or animal tissues are used for teaching purposes in some courses in the Bio-Medical Science Major. This must be accepted by students admitted to the program. All animals are protected under the Animals for Research Act of Ontario (1980), the Guidelines for the Care and Use of Experimental Animals (Canadian Council on Animal Care), and the Animal Care Policies of the University of Guelph.

#### **Major (Honours Program)**

A minimum of 20.00 credits is required.

Note: Students are required to complete 16.00 credits in science of which a minimum of 2.00 credits must be at the 4000 level.

#### Semester 1

BIOL*1030	[0.50]	Biology I	
CHEM*1040	[0.50]	General Chemistry I	
MATH*1080	[0.50]	Elements of Calculus I	
PHYS*1070	[0.50]	Introductory Physics for Life Sciences	
0.50 electives or restricted electives			

Students who are admitted deficient in one OAC/4U course in Biology, Chemistry or Physics must take the equivalent introductory course in first semester. The first-year science core in that subject should be completed by Semester 3.

### **Biophysics (BIOP)**

### Department of Physics, College of Physical and Engineering Science

#### Major (Honours Program)

The program emphasizes the physics of biological systems. It provides an excellent background for careers in the expanding interdisciplinary research laboratories of Government and Industry. Completion of the program at an appropriate level will qualify a student to pursue post-graduate studies in biophysics and certain areas of physics.

Since some of the required courses are not offered every semester, students entering the Major in Biophysics should plan their program in consultation with the Department of Physics Departmental Advisor.

Students may enter this major in Semester 1 or any semester thereafter. A student wishing to declare the major must consult the Faculty Advisor. This major requires the completion of 21.25 credits as indicated below:

### Semester 1

### **Chemistry (CHEM)**

### Department of Chemistry, College of Physical and Engineering Science **Major (Honours Program)**

Students may enter this major in Semester 1 or any semester thereafter. A student wishing to declare the major must consult the Faculty Advisor. The major will require the completion of 20.25 credits as indicated below:

X. Degree Programs, Bachelor of Science (B.Sc.)

Semester	1

BIOL*1030	[0.50]	Biology I
CHEM*1040	[0.50]	General Chemistry I
MATH*1200	[0.50]	Calculus I
PHYS*1000	[0.50]	An Introduction to Mechanics
0.50 Arts or Soci	al Science	electives

Students who are admitted deficient in one OAC/4U course in Biology, Chemistry Physics must take the equivalent introductory course in first semester. The first-ye science core in that subject should be completed by Semester 3.

### Semester 2

Semester 2				
BIOL*1040	[0.50]	Biology II		
CHEM*1050	[0.50]	General Chemistry II		
MATH*1210	[0.50]	Calculus II		
PHYS*1010	[0.50]	Introductory Electricity and Magnetism		
0.50 electives				
Semester 3				
BIOC*2580	[0.50]	Introductory Biochemistry		
CHEM*2060	[0.50]	Structure and Bonding		
CHEM*2400	[0.75]	Analytical Chemistry I		
MATH*2150	[0.50]	Applied Matrix Algebra		
0.50 electives*				
Semester 4				
CHEM*2070	[0.50]	Structure and Spectroscopy		
CHEM*2700	[0.50]	Organic Chemistry I		
CHEM*3430	[0.50]	Analytical Chemistry II: Instrumental Analysis		
MATH*2170	[0.50]	Differential Equations I		
0.50 electives*				
Semester 5				
CHEM*2820	[0.50]	Thermodynamics and Kinetics		
CHEM*3640	[0.50]	Chemistry of the Elements I		
CHEM*3750	[0.50]	Organic Chemistry II		
CHEM*3860	[0.50]	Quantum Chemistry		
0.50 electives*				
Semester 6				
CHEM*3650	[0.50]	Chemistry of the Elements II		
CHEM*3760	[0.50]	Organic Chemistry III		
1.50 electives* or restricted electives**				
Semester 7 and	8			
CHEM*3440	[0.50]	Analytical Chemistry III: Analytical Instrumentation		
3.00 Chemistry or Biochemistry**				
1.50 electives*				
*selection of electives is subject to the following:				
1. At least 1.00 credits must be in the Arts & Social Sciences.				
2. PHYS*2040 o	or PHYS*2	260		
<ol> <li>Approval of the Faculty Advisor must be obtained for the selection of courses not listed as restrictive electives.</li> </ol>				
4. Options for a	n "Area of	f Focus" or a minor are available. Subject areas include		
Biochemistry, Computing and Information Science, Earth Sciences, Environmental Sciences, Mathematical Sciences, and Physics. Please consult with your Faculty Advisor for more detail.				

\*\*3.00 credits from the 3000/4000 level as follows:

- 1. 1.50 comprising of (CHEM\*3870 or CHEM\*4880), (CHEM\*4620 or CHEM\*4630), (CHEM\*4720 or CHEM\*4730)
- 2. 1.50 chosen from CHEM\*3870, CHEM\*4010, CHEM\*4400, BIOC\*4520, BIOC\*4540, BIOC\*4550, BIOC\*4570, BIOC\*4580, CHEM\*4620, CHEM\*4630, CHEM\*4720, CHEM\*4730, CHEM\*4740, CHEM\*4880, CHEM\*4900, CHEM\*4910, TOX\*4590

#### Note:

1. Some of these courses may have to be taken in Semester 6.

2. Some of these courses are offered only in alternate years, and some have additional prerequisites for which the student must plan ahead, with the assistance of the faculty advisor.

### Minor (Honours Program)

A minor in Chemistry consists of at least 5.00 credits from the core course list and 2.50 from Chemistry at the 2000 level or above including 1.00 from the Restricted Electives list that follows:

### **Core Courses**

CHEM*2060	[0.50]	Structure and Bonding
CHEM*2070	[0.50]	Structure and Spectroscopy
CHEM*2700	[0.50]	Organic Chemistry I
One of:		
CHEM*2400	[0.75]	Analytical Chemistry I

CHEM*2480	[0.50]	Analytical Chemistry I
One of:		
CHEM*2820	[0.50]	Thermodynamics and Kinetics
CHEM*2880	[0.50]	Physical Chemistry
<b>Restricted Elec</b>	tives - 1.0	0 credits from the following courses:
CHEM*3870	[0.50]	Symmetry and Spectroscopy
CHEM*4010	[0.50]	Chemistry and Industry
CHEM*4400	[0.50]	Advanced Topics in Analytical Chemistry
CHEM*4620	[0.50]	Advanced Topics in Inorganic Chemistry
CHEM*4630	[0.50]	Bioinorganic Chemistry
CHEM*4720	[0.50]	Organic Reactivity
CHEM*4730	[0.50]	Synthetic Organic Chemistry
CHEM*4880	[0.50]	Topics in Advanced Physical Chemistry
Chemistry (C	co-op) (Cl	HEM:C)
Department of C	hemistry, (	College of Physical and Engineering Science

### **Major (Honours Program)**

The major will require the completion of 20.25 credits as indicated below.

The course content of semesters 1 to 3 is the same as listed in the regular Honours Program Major.

To graduate from the Co-op program a minimum of 4 successfully completed work terms is normally required. These can be taken as four single work terms (Stream A), or as a double work term between two single work terms (Stream B).

Stream A: single work term option

#### Semester 1 - Fall

BIOL*1030	[0.50]	Biology I
CHEM*1040	[0.50]	General Chemistry I
MATH*1200	[0.50]	Calculus I
PHYS*1000	[0.50]	An Introduction to Mechanics

0.50 Arts or Social Science electives

Students who are admitted deficient in one OAC/4U course in Biology, Chemistry or Physics must take the equivalent introductory course in first semester. The first-year science core in that subject should be completed by Semester 3.

### Semester 2 - Winter

BIOL*1040	[0.50]	Biology II

#### Note:

Some of these courses are offered only in alternate years, and some have additional prerequisites for which the student must plan ahead, with the assistance of the faculty advisor.

### **Computing and Information Science (CIS)**

#### Department of Computing and Information Science, College of Physical and **Engineering Science**

The B.Sc. Programs in Computing and Information Science (CIS) provide a solid foundation in software design and computer applications, especially in the physical and biological sciences. The Major offers substantial computing experience, as well as an understanding of both fundamental principles and modern applications. The minor provides sufficient software experience to enable significant contribution to many areas of application.

#### Computing and Information Science Major (Honours Program)

Students may enter this major in Semester 1 or any semester thereafter. A student wishing to declare the major must consult the Faculty Advisor. The Major requires 12.0 credits in computing, mathematics and statistics, of which 2.5 credits are CIS electives. Other electives must include at least 1.50 in science courses with at least 0.50 at the 3000 level or above. At least 1.00 credits must be in the Arts of Social Sciences, and 0.50 remaining credits in the introductory science sequence (see note in semester 2)

#### Semester 1

BIOL*1030	[0.50]	Biology I
CHEM*1040	[0.50]	General Chemistry I
CIS*1500	[0.50]	Introduction to Programming
MATH*1200	[0.50]	Calculus I
PHYS*1000	[0.50]	An Introduction to Mechanics
Students who a	are admitted d	eficient in one OAC/4U course in E

Biology, Chemistry or Physics must take the equivalent introductory course in first semester. The first-year science core in that subject should be completed by Semester 3.

### Semester 2

CIS*1910	[0.50]	Discrete Structures in Computing I	
CIS*2500	[0.50]	Intermediate Programming

1.00 additional credits from CIS or STAT courses at the 2000 level or above				

### Computing and Information Science (Co-op) (CIS:C)

#### Department of Computing and Information Science, College of Physical and **Engineering Science**

The 4 year Honours Program Major in Computing and Information Science is also available as a Co-operative Education Program. Three co-op work terms are required. A five year option with four work terms is also available. Please see the department's co-op faculty advisor for details.

COOP\*1100 must be completed in the 2nd academic semester (winter of year 1). Students may apply for these options at the time of University admission or completion of semester 2.

Conditions for graduation are the same as the corresponding regular B.Sc. program. In addition, all work reports must have a grade of satisfactory or better.

Electives must include at least 1.50 at the 3000 level or above. At least 1.00 credits must be in the Arts or Social Sciences, and 0.50 remaining credit in the introductory science sequence (see note in semester 2).

### The recommended schedule of studies for Co-Op Stream A (4-year) is as follows:

### Semester 1 - Fall

BIOL*1030	[0.50]	Biology I		
CHEM*1040	[0.50]	General Chemistry I		
CIS*1500	[0.50]	Introduction to Programming

### **Earth Surface Science (ESS)**

### Department of Geography, College of Social and Applied Human Sciences Department of Land Resource Science, Ontario Agricultural College

This program combines elements of Geomorphology, Geology and Meteorology and focuses on the study of processes and properties of the abiotic component of the environment.

Graduates of the program should meet the knowledge requirements for eligibility to apply for membership as Environmental Geoscientists in the Association of Professional Geoscientists of Ontario (APGO), allowing for use of the designation P. Geo.

Students may enter this major in Semester 1 or any semester thereafter. A student wishing to declare the major must consult the Faculty Advisor. Students planning to enter the program are advised to consult advisors in either of the two departments. Students needing program approval should contact the B.Sc. Advisors in the Department of Geography.

### Major (Honours Program)

Semester 1	L
------------	---

- At least 1.50 credits from List A must be at the 4000 level.
- At least 2.50 electives must be acceptable science courses.
- 3. At least 6.00 of all science credits must be 3000 or 4000 level, of which at least 2.00 must be at the 4000 level.

#### Ecology (ECOL)

### Department of Integrative Biology, College of Biological Science

The program provides a solid foundation in the principles of ecology, and further training in both pure and applied aspects of ecology. After the fourth semester, the student may choose to enter one (1) of three (3) areas of emphasis, or to design a course package that meets his/her own specific ecological interests (General Ecology). The program offers preparation for careers in conservation, resource management, ecological consulting, or nature interpretation; or for graduate training and research in fundamental ecology and evolutionary biology. This major qualifies students for post-graduate work in the environmental sciences, and provides a sound science background for students wishing to pursue careers in teaching, government service or the private sector.

### Major (Honours Program)

[0.50]

One of: CIS\*1200

Students may enter this major in Semester 1 or any semester thereafter. A student wishing to declare the major must consult the Faculty Advisor. A minimum total of 20.00 credits is required to complete the major.

Semester 1				
BIOL*1030	[0.50]	Biology I

### **Environmental Biology (ENVB)**

#### Department of Environmental Biology, Ontario Agricultural College

The honours B.Sc. program in Environmental Biology combines a broad education in the life sciences with a more specialized understanding of the biological consequences of interactions between humans and the environment. This major prepares students for post-graduate work in environmental biology and related life sciences and provides a strong foundation for students wishing to pursue careers in teaching, government service or the private sector.

#### Major (Honours Program)

Students may enter this major in Semester 1 or any semester thereafter. A student wishing to declare the major must consult the Faculty Advisor. This major requires the completion of 20.00 credits. A minimum of 16.00 of these 20.00 must be science credits. Of these 16.00 science credits, a minimum of 6.00 must be at the 3000 - and 4000-levels with a minimum of 2.00 credits at the 4000-level.

#### Semester 1

### **Forest Science (FORS)**

#### Department of Environmental Biology, Ontario Agricultural College

### Minor (Honours Program)

A minor in Forest Science consists of 5.00 credits from the following courses:

BOT*2050	[0.50]	Plant Ecology
ENVB*2030	[0.50]	Current Issues in Forest Science
ENVB*4420	[0.50]	Problems in Environmental Biology
ENVB*4780	[0.50]	Forest Ecology
HORT*3260	[0.50]	Woody Plants
Three of:		
ENVB*3090	[0.50]	Insect Diversity and Biology
GEOG*3110	[0.50]	Biotic and Natural Resources
HORT*3340	[0.50]	Culture of Plants
HORT*3350	[0.50]	Woody Plant Production and Culture
PBIO*4100	[0.50]	Soil Plant Relationships
PBIO*4530	[0.50]	Environmental Pollution Stresses on Plants
Two of:*		
AGEC*2700	[0.50]	Survey of Natural Resource Economics
ENVB*3000	[0.50]	Nature Interpretation
GEOG*3210	[0.50]	Management of the Biophysical Environment
SOIL*3100	[0.50]	Resource Planning Techniques
ZOO*4050	[0.50]	Natural Resources Policy
ZOO*4410	[0.75]	Field Ecology
* D M		

### \* Resource Management majors may substitute SOIL\*4110 for ZOO\*4410

**Functional Foods and Nutraceuticals (FFAN)** 

### Department of Human Health and Nutritional Sciences, College of Biological Science Department of Food Science, Ontario Agricultural College.

#### Minor (Honours Program)

	-			
A minor in Functional Foods and Nutraceuticals consists of 5.00 credits.				
BIOC*2580	[0.50]	Introductory Biochemistry		
ECON*1050	[0.50]	Introductory Microeconomics		
NUTR*3210	[0.50]	Fundamentals of Nutrition		
TOX*2000	[0.50]	Principles of Toxicology		
One of:				
FOOD*2010	[0.50]	Principles of Food Science		
FOOD*2150	[0.50]	Introduction to Nutritional and Food Science		
NUTR*2150	[0.50]	Introduction to Nutritional and Food Sciences		
One of:				
FOOD*4090	[0.50]	Functional Foods and Nutraceuticals		

NUTR\*4090 [0.50] Functional Foods and Nutraceuticals 2.00 Restricted Electives\*

\*restricted electives should be chosen in consultation with the Nutritional and Nutraceutical Sciences faculty advisor. Any 3000 and 4000 level courses from the following subject areas are eligible as restricted electives: Nutrition\*\*, Food Science\*\*, Biomedical Sciences\*\*, Toxicology, Population Medicine, Animal Science, Plant Biology, Human Kinetics\*\*, and Pathology.

\*\*students in these majors must select restricted electives outside of the major

Geographic Information Systems (GIS) and Environmental Analysis

### Department of Geography, College of Social and Applied Human Sciences

### Minor (Honours Program)

A minimum of 5.00 credits is required from:			
GEOG*1300	[0.50]	Introduction to the Biophysical Environment	
GEOG*2420	[0.50]	Aerial-photo Interpretation	
GEOG*2480	[0.50]	Mapping and GIS	
GEOG*3210	[0.50]	Management of the Biophysical Environment	
GEOG*3420	[0.50]	Remote Sensing of the Environment	
GEOG*3480	[0.50]	GIS and Spatial Analysis	
GEOG*4480	[0.50]	Applied Geographic Information Systems	
One of:			
GEOG*2000	[0.50]	Geomorphology	
GEOG*2110	[0.50]	Climate and the Biophysical Environment	
One of:			
GEOG*3110	[0.50]	Biotic and Natural Resources	
GEOG*3610	[0.50]	Environmental Hydrology	
GEOG*3620	[0.50]	Desert Environments	
And one of:			
GEOG*4110	[0.50]	Environmental Systems Analysis	
GEOG*4210	[0.50]	Environmental Governance	
[Note: GEOG*3110 or GEOG*3610 is required as prerequisite for GEOG*4110]			

#### Geology (GEOL)

### Department of Land Resource Science, Ontario Agricultural College

#### Minor (Honours Program)

A minor will consist of at least 5.00 credits in Geology. The following 7 courses are mandatory:

GEOL*1050	[0.50]	Geology and the Environment	
GEOL*2020	[0.50]	Stratigraphy	
GEOL*2110	[0.50]	Earth Material Science	
GEOL*2150	0.75	Glacial Geology	
GEOL*3090	[0.50]	Applied Structural Geology	
GEOL*3120	[0.50]	Paleontology	
GEOL*4090	[0.50]	Sedimentology	
The second in the second		-harris farme Carls and the Comme	

The remaining credits can be chosen from Geology or the Geomorphology offerings in Geography in the calendar and must be 2000 level or above.

### Human Kinetics (HK)

### Department of Human Health and Nutritional Sciences, College of Biological Science

Human Kinetics is concerned with understanding capacities for, and limits of, human movement at different ages and with the role of physical activity in human health. Through the use of electives, students may structure a program emphasizing biomechanics and ergonomics, human population biology or nutrition, exercise and metabolism.

If lacking the fundamentals of word processing, spread sheet use and data management, the student should select CIS\*1200 as early in the program as possible.

### Major (Honours Program)

Students may dent wishing to declare the 00 credits is required.

### Semester 7

If desired, electives or restricted electives up to a maximum of 2.75 total credits. Semester 8

If desired, electives or restricted electives up to a maximum of 2.75 total credits. Note: Students are required to complete 16.00 credits in acceptable science courses. **Restricted Electives** 

Students must complete 2.00 credits from Arts or Social Science courses with the recommendation that 0.50 of the 2.00 credits be in philosophy. A minimum of 2.00 credits of restricted electives is required. They are to be selected from HK\*3100, HK\*4XXX, NUTR\*4090, NUTR\*4210.

### Marine and Freshwater Biology (MFB)

#### Department of Integrative Biology, College of Biological Science

The Major in Marine and Freshwater Biology provides a broad ecological perspective on aquatic environments based on the physical as well as the biological sciences. This major prepares students for post-graduate work in the aquatic sciences, and provides a sound science background for students wishing to pursue careers in teaching, government service or the private sector.

### **Major (Honours Program)**

Students may enter this major in Semester 1 or any semester thereafter. A student wishing to declare the major must consult the Faculty Advisor. A minimum total of 20.00 credits is required to complete the major.

### Semester 1

BIOL*1030	[0.50]	Biology I
CHEM*1040	[0.50]	General Chemistry I
MATH*1080	[0.50]	Elements of Calculus I
PHYS*1070	[0.50]	Introductory Physics for Life Sciences
0.50 Arts or Socie	1 Saianaa	alactives*

0.50 Arts or Social Science electives\*

Students who are admitted deficient in one OAC/4U course in Biology, Chemistry or Physics must take the equivalent introductory course in first semester. The first-year science core in that subject should be completed by Semester 3.

### Semester 2

BIOL*1040	[0.50]	Biology II
CHEM*1050	[0.50]	General Chemistry II
PHYS*1080	[0.50]	Physics for Life Sciences
STAT*2040	[0.50]	Statistics I
0.50 Arts or Social	Science el	ectives*
Semester 3		
ZOO*2070	[0.50]	Invertebrate Zoology I
ZOO*2090	[0.50]	Vertebrate Structure and Function
ZOO*2100	[0.50]	Developmental Biology
1.00 electives**		
Semester 4

Semester 7		
ZOO*4350	[0.50]	Biology of Polluted Waters
ZOO*4570	[0.50]	Marine Ecological Processes
1.50 electives**		
Semester 8		
IBIO*4010	[0.50]	Adaptational Physiology
ZOO*4330	[0.50]	Environmental Biology of Fishes
1.50 electives**	-	

\* CIS\*1200 is recommended for those needing to improve their computer skills

\*\* suggested electives list available from the faculty advisors

\*\*\* BIOL\*2250 is strongly recommended if independent research project courses are anticipated in semesters 7 and/or 8

#### **Electives - must include:**

1. A minimum of 0.75 credits from:

	BIOL*4110	[0.75]	Ecological Methods
	IBIO*4500	[0.75]	Research in Integrative Biology I
	IBIO*4510	[0.75]	Research in Integrative Biology II
	ZOO*4300	[0.75]	Marine Biology and Oceanography
	ZOO*4410	[0.75]	Field Ecology
	ZOO*4540	[0.50]	Marine and Freshwater Research
	ZOO*4600	[0.75]	Tropical Ecology
	ZOO*4610	[0.75]	Arctic Ecology
	ZOO*4700	[0.50]	Field Biology
	ZOO*4710	[0.25]	Field Biology
	ZOO*4800	[0.50]	Field Biology
	ZOO*4810	[0.25]	Field Biology
2.	Other field or resea	rch courses	with approval of faculty advisor.

3. At least 1.00 Arts and/or Social Science electives.

#### Mathematical Science (MSCI)

### Department of Mathematics & Statistics, College of Physical and Engineering Science Minor (Honours Program)

This requires 1.00 calculus credits and 4.00 other credits chosen from mathematics, statistics, and computing and information science. For these 4.00 credits students will choose at least 0.50 from each discipline. At least 1.00 credits must be at the 3000 level or above. This minor cannot be combined with a major in Mathematics, Statistics, or Computing and Information Science.

#### **Mathematics (MATH)**

## Department of Mathematics and Statistics, College of Physical and Engineering Science

### Major (Honours Program)

Students may enter this major in Semester 1 or any semester thereafter. A student wishing to declare the major must consult the Faculty Advisor. A total of 20.00 credits is required to complete the Major which includes at least 10.00 credits in Mathematics & Statistics. This major must include at least 6.00 credits at the 3000 or 4000 level from the approved list of science electives of which at least 2.00 credits must be at the 4000 level (and may include STAT\*4340). At least 1.00 credits in Arts and Social Science must be completed.

#### Semester 1

BIOL*1030	[0.50]	Biology I
CHEM*1040	[0.50]	General Chemistry I
CIS*1500	[0.50]	Introduction to Programming
MATH*1200	[0.50]	Calculus I
PHYS*1000	[0.50]	An Introduction to Mechanics

Students who are admitted deficient in one OAC/4U course in Biology, Chemistry or Physics must take the equivalent introductory course in first semester. The first-year science core in that subject should be completed by Semester 3.

#### Semester 2

BIOL*1040	[0.50]	Biology II

### Department of Molecular and Cellular Biology, College of Biological Science

Students in the Major in Microbiology program may take the Co-op option. Students do not begin their first work term until they have completed semester 3 and courses BIOL\*1030, BIOL\*1040 and MICR\*2030. Students in the co-op program must also complete COOP\*1100 in the second academic semester. At least 3 work terms (COOP\*1000, COOP\*2000, COOP\*3000) are required in the co-op program, and the course requirements are the same as shown for the major program. Some courses must be taken during a different semester than usual, and Co-op students may require an additional semester to meet all the program requirements. Students should plan their programs in consultation with the faculty advisor.

### Molecular Biology and Genetics (MBG)

### Department of Molecular and Cellular Biology, College of Biological Science

The B.Sc. program with a Major in Molecular Biology and Genetics is a broadly based program in genetics including related areas of cell and molecular biology. In consultation with the Faculty Advisor, students can choose a general program or can focus their courses in areas such as molecular biology, cell biology, developmental biology, genetics, or agricultural genetics. The program qualifies students for postgraduate training in cell or molecular biology and genetics including clinical genetics and genetic counselling, and provides an excellent background for careers in biotechnology, toxicology, agriculture and medical research. Students may enter this major in Semester 1 or any semester thereafter. A student wishing to declare the major must consult the Faculty Advisor.

### Major (Honours Program)

A total of 20.00 credits is required to complete the major.

Semester 1		
BIOL*1030	[0.50]	Biology I
CHEM*1040	[0.50]	General Chemistry I
MATH*1080	[0.50]	Elements of Calculus I
PHYS*1070	[0.50]	Introductory Physics for Life Sciences
0.50 Arts or Social	Science ele	ectives
Students who are a	dmitted def	icient in one OAC/4U course in Biology, Chemistry or
		ent introductory course in first semester. The first-year
science core in that	t subject sho	ould be completed by Semester 3.
Semester 2

1.75 electives or re	stricted elec	ctives

### Semester 6

2.50 electives or restricted electives

### Semester 7\*

MBG\*4500 Research Project in Molecular Biology and Genetics I [1.00]1.50 electives or restricted electives

### Semester 8\*

MBG\*4510 [1.00] Research Project in Molecular Biology and Genetics II 1.50 electives or restricted electives

\*instead of the 2 semester sequence of MBG\*4500 / MBG\*4510 students may choose to take MBG\*4600 and 1.50 subject area electives

Note: Students are reminded that AT LEAST 2.00 credits must be at the 4000 level in order to complete the major.

Arts and Social Science Electives - 2.00 credits

#### **Restricted Electives**

1. Ecology Elective	- 0.50 credit	ts
BIOL*2060	[0.50]	Ecology
BIOL*3110	[0.50]	Population Ecology
BOT*2050	[0.50]	Plant Ecology
MICR*4280	[0.50]	Microbial Ecology
2. Arts and Social So	cience Elect	ives - 2.00 credits
3. Physiology Electiv	ve - 0.50 cre	edits
BIOM*3100	[0.50]	Mammalian Physiology I
BOT*3310	[0.50]	Plant Growth and Development
HK*3940	[1.25]	Human Physiology
ZOO*3200	[0.50]	Comparative Animal Physiology I
4. Subject Area Ele	ctives - 3.	00 credits (4.50 if MBG*4600 is taken instead of
MBG*4500 and N	ABG*4510)	
BIOC*3560	[0.50]	Structure and Function in Biochemistry
BIOL*3300	[0.50]	Applied Bioinformatics
MBG*3000	[0.50]	Population Genetics
MBG*3050	[0.50]	Human Genetics
MBG*3060	[0.50]	Quantitative Genetics
MBG*3080	[0.50]	Bacterial Genetics
MBG*3200	[0.50]	Genetics: Our Uncertain Heritage
MBG*3360	[0.75]	Laboratory Methods in Molecular Biology II
MBG*3600	[0.25]	Introduction to Genomics
MBG*4030	[0.50]	Animal Breeding Methods
MBG*4080	[0.50]	Molecular Genetics
MBG*4110	[0.50]	Advanced Concepts in Genetics
MBG*4160	[0.50]	Plant Breeding
MBG*4240	[0.50]	Applied Molecular Genetics
MBG*4270	[0.50]	DNA Replication, Recombination and Repair
MBG*4300	[0.50]	Plant Molecular Genetics
MCB*4010	[0.50]	Advanced Cell Biology
MCB*4050	[0.50]	Protein and Nucleic Acid Structure

[0.50]

[0.50]

[0.50]

Department of Human Health and Nutritional Sciences, College of Biological Science The Nutritional and Nutraceutical Sciences major is concerned with understanding the contribution of food, beverage and nutritional supplement consumption to growth, development of optimal biological function, maintenance of health, and treatment of disease.

Neurochemical Basis of Behaviour

Current Issues in Neuropsychology

Behavioural Neuroscience II

If lacking the fundamentals of word processing, spread sheet use and data management, the student should select CIS\*1200 as early in the program as possible.

#### Major (Honours Program)

Students may enter this major in Semester 1 or any semester thereafter. A student wishing to declare the major must consult the Faculty Advisor. A total of 20.00 credits is required, including 2.00 credits from Arts and Social Sciences courses.

### Physical Science (PSCI)

**College of Physical and Engineering Science** 

### Major (Honours Program)

Students may enter this major in Semester 1 or any semester thereafter. A student wishing to declare the major must consult the Faculty Advisor. This major will require the completion of 20.00 credits as indicated below:

1. Basic Science Core - 4.00 credits

1.00 - Biology (BIOL\*1030, BIOL\*1040)

1.00 - Chemistry (CHEM\*1040, CHEM\*1050)

1.00 - Physics [(PHYS\*1000, PHYS\*1010) or (PHYS\*1070, PHYS\*1080) or (PHYS\*1080, PHYS\*1130)]

1.00 - Mathematical Science [(MATH\*1080, MATH\*2080) or (MATH\*1200, MATH\*1210)]

### 2. Subject Area Core - 8.00 credits

0.50 (STAT\*2040 or STAT\*2100)

0.50 (CIS\*1200 or CIS\*1500)

7.00 physical science credits, including at least 4.00 credits at the 3000 or 4000 level of which 2.00 credits must be at the 4000 level.

#### 3. Science Electives - 4.00 credits

4.00 science credits from the List of Approved Science Electives for B.Sc. Students\*

### 4. Arts and Social Science Electives - 2.00

2.00 acceptable Arts or Social Science credits selected from the List of Approved B.Sc. Electives\*

#### 5. Free Electives - 2.00 credits

Note: the program must include a total of 6.00 science credits at the 3000 or 4000 level. Of these, at least 2.00 credits must be physical science at the 4000 level.

#### Semester 1

BIOL*1030	[0.50]	Biology I
CHEM*1040	[0.50]	General Chemistry I
One of:		
PHYS*1000	[0.50]	An Introduction to Mechanics
PHYS*1070	[0.50]	Introductory Physics for Life Sciences
PHYS*1080	[0.50]	Physics for Life Sciences
One of:		
MATH*1080	[0.50]	Elements of Calculus I
MATH*1200	[0.50]	Calculus I

<sup>0.50</sup> Arts or Social Science electives

Students who are admitted deficient in one OAC/4U course in Biology, Chemistry or Physics must take the equivalent introductory course in first semester. The first-year science core in that subject should be completed by Semester 3.

#### Semester 2

BIOL*1040	[0.50]	Biology II
CHEM*1050	[0.50]	General Chemistry II
One of:		
PHYS*1010	[0.50]	Introductory Electricity and Magnetism
PHYS*1080	[0.50]	Physics for Life Sciences
PHYS*1130	[0.50]	Physics with Applications
One of:

CIS*1500	[0.50]	Introduction to Programming
OR		
STAT*2040	[0.50]	Statistics I

### STAT\*2040

Semester 4

1.50 science electives from the approved list of B.Sc. science electives\* 0.50 electives

```
One of:
```

CIS*1200	[0.50]	Introduction to Computing
CIS*1500	[0.50]	Introduction to Programming

(if a statistics course is chosen in Semester 3)

OR

STAT\*2040 [0.50] Statistics I

(if a computing course is chosen in Semester 3)

### Semester 5 to 8

Total of 2.50 credits per semester including at least 2.00 science electives.

Sufficient courses at the 3000 or 4000 level must be selected in Semesters 5 through 8 to total 6.00 credits in science at the 3000 or 4000 level with at least 2.00 physical science at the 4000 level.

\*approved course lists are available in the Dean's Office, College of Physical and Engineering Science and on the world wide web at http://www.cpes.uoguelph.ca/BSc/approved\_electives.htm

### Honours Physical Science (With a Minor)

The requirements and schedules are the same as for Honours Physical Science. Available Minor subjects are listed at the beginning of the B.SC. Program section under the heading Honours Program Minors.

### Physics (PHYS)

#### Department of Physics, College of Physical and Engineering Science

Students may enter this major in Semester 1 or any semester thereafter. A student wishing to declare the major must consult the Faculty Advisor. Since some of the required courses are not offered every semester, students entering the Major in Honours Physics should plan their program in consultation with the Department of Physics Faculty Advisor.

### Major (Honours Program)

This major requires the completion of 21.25 credits. At least 1.00 of these credits must be obtained from the completion of Arts and/or Social Science courses.

Semester 1*		
BIOL*1030	[0.50]	Biology I
CHEM*1040	[0.50]	General Chemistry I
CIS*1500	[0.50]	Introduction to Programming
MATH*1200	[0.50]	Calculus I
PHYS*1000	[0.50]	An Introduction to Mechanics

Students who are admitted deficient in one OAC/4U course in Biology, Chemistry or Physics must take the equivalent introductory course in first semester. The first-year science core in that subject should be completed by Semester 3.

#### Semester 2\*

BIOL*1040	[0.50]	Biology II
CHEM*1050	[0.50]	General Chemistry II
MATH*1210	[0.50]	Calculus II
PHYS*1010	[0.50]	Introductory Electricity and Magnetism
0.50 Arts or Soc	ial Science e	electives

\* students who have taken physics courses other than PHYS\*1000 in Semester 1 and PHYS\*1010 in Semester 2, may proceed to semester 3 with the permission of the Department of Physics

### Semester 3

Semester 5		
MATH*2160	[0.50]	Linear Algebra I

One of:		
PHYS*4240	[0.50]	Statistical Physics II
0.50 electives		
1.00 electives **		

PHYS\*4510 [0.50] Advanced Physics Project

2.00 electives \*\*

+ students going on to graduate school in physics should take PHYS\*4120, PHYS\*4130, PHYS\*4150, PHYS\*4240

\*\* For the electives chosen in Sem 7 and 8, at least 1.50 credits must be from lists A and B below. At least 1.00 credits must be from list A. Substitutions of courses in list B by other 3000 or 4000 level courses must be approved by the Physics Faculty Advisor.

### List A

PHYS*4120	[0.50]	Atomic and Molecular Physics
PHYS*4130	[0.50]	Subatomic Physics
PHYS*4150	[0.50]	Solid State Physics
List B		
GEOL*3060	[0.50]	Groundwater
PHYS*4540	[0.50]	Molecular Biophysics
PHYS*4560	[0.50]	Biophysical Methods
PHYS*4910	[0.50]	Advanced Topics in Physics I
PHYS*4920	[0.50]	Advanced Topics in Physics II
PHYS*4930	[0.50]	Advanced Topics in Physics III
POLS*3370	[0.50]	Environmental Policy Formation and Administration
REXT*3100	[0.50]	Teaching and Learning in Non-Formal Education
SOIL*3600	[0.50]	Remote Sensing
STAT*3240	[0.50]	Applied Regression Analysis
STAT*3510	[0.50]	Environmental Risk Assessment

### **Minor (Honours Program)**

A minor in Physics requires 5.00 credits in physics courses including at least 1.00 at the 3000 or 4000 level.

The following four courses, with a weight of 0.75 each, are required:

PHYS*2440	[0.75]	Mechanics I	
PHYS*2450	[0.75]	Mechanics II	
PHYS*2460	[0.75]	Electricity and Magnetism I	
PHYS*2470	[0.75]	Electricity and Magnetism II	
The following courses are strongly recommended:			
PHYS*1000	[0.50]	An Introduction to Mechanics	
PHYS*1010	[0.50]	Introductory Electricity and Magnetism	
Physics (Co-op) (PHYS:C)			

#### Department of Physics, College of Physical and Engineering Science

Since some of the required courses are not offered every semester, students entering the Major in Physics (Co-op) should plan their program in consultation with the Department of Physics Faculty Advisor. To graduate from the Co-op program a minimum of 4 successfully completed work terms (COOP\*1000, COOP\*2000, COOP\*3000, COOP\*4000) is normally required.

#### Major (Honours Program)

This major requires the completion of 21.25 credits.

#### Semester 1 - Fall

The program for the first semester is the same as the Major in Physics (regular) program. **Semester 2 - Winter** 

BIOL*1040	[0.50]	Biology II
CHEM*1050	[0.50]	General Chemistry II
COOP*1100	[0.00]	Introduction to Co-operative Education
MATH*1210	[0.50]	Calculus II
PHYS*1010	[0.50]	Introductory Electricity and Magnetism
One of:		
CIS*2500	[0.50]	Intermediate Programming
0.50 Arts or Soc	cial Science	electives*
Semester 3 - Fa	11	
MATH*2160	[0.50]	Linear Algebra I

Psychology (	PSYC)	

#### Department of Psychology, College of Social and Applied Human Sciences

The B.Sc. Major in Psychology offers an opportunity for students to develop interests within learning, perception, cognition, and physiological psychology from a sound base in physical and biological sciences. Students primarily interested in other areas within psychology should consult the schedule of studies for the Bachelor of Arts program. Psychology courses in the above focuses may also be studied via the B.A. program.

#### Note on Honours Courses

Courses marked (H) are designed for students in a psychology honours program, the Information Systems and Human Behaviour program, the Developmental Psychology Minor program, the Educational Psychology Minor program, the Organizational Behaviour Minor program, the Social Psychology program, the Cognitive Neuropsychology Minor program, or Human Resources Management major of the Bachelor of Commerce program. Students in other programs wishing to take these courses must obtain the permission of the instructors concerned. Unless otherwise specified, all other courses may be taken by general, honours, and students from other programs, providing the prerequisites are met. Courses designated with (H) are Honours level courses requiring for registration a cumulative average of at least 70% in all course attempts in Psychology, or registration in either the HRM Major or ISHB Major.

STAT*2040	[0.50]	Statistics I
Statistics (ST)		

#### Statistics (STAT)

#### Department of Mathematics and Statistics, College of Physical and Engineering Science

Students in this program will acquire the ability to use modern statistical methods in a variety of applications, the theoretical understanding necessary to develop statistical methods to meet new needs and a solid preparation for further study. As well, since statistical computing is a fundamental tool for the application and development of modern statistical methods, students will develop skills in computer applications programming using such high-level languages as SAS and S-PLUS.

Students may enter this major in any semester. A student wishing to declare the major must consult the Faculty Advisor. A total of 20.00 credits is required to complete the major. Required 1000 level courses are listed under Semester 1 and Semester 2 of the recommended Schedule of Studies for Major. At least 8.00 credits in Statistics and Mathematics are required at the 2000 level or above, as follows: MATH\*2130, MATH\*2150, MATH\*2160, MATH\*2200, STAT\*2040, STAT\*2050, STAT\*3100, STAT\*3110, STAT\*3210, STAT\*3240, STAT\*3320. Five other courses (2.50 credits) in Statistics at the 3000 or 4000 level, of which at least four (2.00 credits) must be at the 4000 level. One other course (0.50 credits) in Mathematics or Statistics at the 2000 level or above.

### **Recommended Schedule of Studies for Major (Honours Program)** Semester 1

	Semester 1

MATH*2160	[0.50]	Linear Algebra I		
0.50 additional credits in Statistics				
0.50 additional credits in Statistics or Mathematics				

### **Theoretical Physics (THPY)**

### Department of Physics, College of Physical and Engineering Science

Students may enter this major in Semester 1 or any semester thereafter. A student wishing to declare the major must consult the Faculty Advisor. Since some of the required courses are not offered every semester, students entering the Major in Theoretical Physics should plan their program in consultation with the Faculty Advisor.

#### Major (Honours Program)

This major requires the completion of 21.25 credits. At least 1.00 of these credits must be obtained from the completion of Arts and/or Social Science courses.

### Semester 1 to 3

The program for the first three semesters is the same as the Major in Physics program.

### Wild Life Biology (WLB)

### Department of Integrative Biology, College of Biological Science

The Major in Wild Life Biology provides exposure to the ecological principles upon which the scientific management of wild life is based. This major prepares students for post-graduate work in ecology and management of wild life and provides a sound science background for students wishing to pursue careers in teaching, government service or the private sector.

#### **Major (Honours Program)**

Students may enter this major in semester 1 or any semester thereafter. A student wishing to declare the major must consult the Faculty Advisor. A minimum total of 20.00 credits is required to complete the major.

#### Semester 1

### 338

### Semester 8

2.00 electives \*\*

\* CIS\*1200 is recommended for those needing to improve their computer skills

\*\* suggested electives list available from faculty advisors

\*\*\* BIOL\*2250 is strongly recommended if independent research project courses are anticipated in semester 7 and/or 8  $\,$ 

\*\*\*\* a minimum of 0.75 credits from these courses may be taken as an alternative to BIOL\*4110 in semester 7:

IBIO*4500	[0.75]	Research in Integrative Biology I
IBIO*4510	[0.75]	Research in Integrative Biology II
ZOO*4300	[0.75]	Marine Biology and Oceanography
ZOO*4410	[0.75]	Field Ecology
ZOO*4600	[0.75]	Tropical Ecology
ZOO*4610	[0.75]	Arctic Ecology
ZOO*4700	[0.50]	Field Biology
ZOO*4710	[0.25]	Field Biology
ZOO*4800	[0.50]	Field Biology
ZOO*4810	[0.25]	Field Biology
Other field or r	esearch course	es with approval of faculty advisor.

### Electives must include:

1. A minimum of 1	.00 credits f	rom:
ZOO*4090	[0.50]	Ornitholo

ZOO*4090	[0.50]	Ornithology
ZOO*4280	[0.50]	Mammalogy
ZOO*4430	[0.50]	Herpetology
2. At least 1.00 Arts	s and/or So	cial Science elective

2. At least 1.00 Arts and/or Social Science electives.

### Zoology (ZOO)

### Department of Integrative Biology, College of Biological Science

The Major in Zoology offers a broad education in the life sciences while providing a more specialized understanding of the structure, function and ecology of animals. This major qualifies students for post-graduate work in zoology and other life sciences and provides a sound science background for students wishing to pursue careers in teaching, government service or the private sector.

### **Major (Honours Program)**

Students may enter this major in Semester 1 or any semester thereafter. A student wishing to declare the major must consult the Faculty Advisor. A minimum total of 20.00 credits is required to complete the major.

### Semester 1

Comparative Histology Animal Behaviour

\* CIS\*1200 is recommended for those needing to improve their computer skills

\*\* suggested electives list available from the faculty advisors

\*\*\* BIOL\*2250 is strongly recommended if independent research project courses are anticipated in semesters 7 and/or 8  $\,$ 

### Electives must include:

1. A minimum of 0.50 credits from:

IBIO*4500	[0.75]	Research in Integrative Biology I
IBIO*4510	[0.75]	Research in Integrative Biology II
ZOO*4170	[0.50]	Experimental Comparative Animal Physiology
ZOO*4300	[0.75]	Marine Biology and Oceanography
ZOO*4410	[0.75]	Field Ecology
ZOO*4600	[0.75]	Tropical Ecology
ZOO*4610	[0.75]	Arctic Ecology
ZOO*4700	[0.50]	Field Biology
ZOO*4710	[0.25]	Field Biology
ZOO*4800	[0.50]	Field Biology
ZOO*4810	[0.25]	Field Biology
Other field or re	esearch course	es with approval of faculty advisor.

2. At least 1.00 Arts or Social Science electives.

3. This major must contain at least 6.00 science credits at the 3000 or 4000 level, which must include at least 2.00 at the 4000 level. The restricted elective in point number 1 above counts as part of this 3000 or 4000 level requirement.

**Note:** The Major in Zoology is a flexible program which allows students in consultation with faculty advisors, to design a program to meet their own needs and interests. For example, students may wish to concentrate in Evolutionary Physiology, Quantitative Zoology, or Systematic Zoology for which lists of electives are available from faculty advisors.

### Minor (Honours Program)

Students in programs other than Zoology, Wildlife Biology, Marine and Freshwater Biology and Ecology who have a strong interest in Zoology may choose to take a minor in Zoology.

A minor in Zoology requires a minimum of 5.00 credits, 4.00 of which must be from the following list:

BIOL*3110	[0.50]	Population Ecology
BIOL*3120	[0.50]	Community Ecology
ZOO*2070	[0.50]	Invertebrate Zoology I
ZOO*2080	[0.50]	Invertebrate Zoology II
ZOO*2090	[0.50]	Vertebrate Structure and Function
ZOO*2100	[0.50]	Developmental Biology
ZOO*3000	[0.50]	Comparative Histology
ZOO*3200	[0.50]	Comparative Animal Physiology I
ZOO*3210	[0.50]	Comparative Animal Physiology II
ZOO*3300	[0.50]	Evolution
ZOO*4070	[0.50]	Animal Behaviour
ZOO*4090	[0.50]	Ornithology
ZOO*4280	[0.50]	Mammalogy
ZOO*4330	[0.50]	Environmental Biology of Fishes
ZOO*4430	[0.50]	Herpetology

The remaining 1.00 credit may also come from this list or from outside this list, in consultation with a faculty advisor.

### Bachelor of Science in Agriculture [B.Sc.(Agr.)]

The B.Sc.(Agr.) degree program is a 4 year honours science program designed to provide a fundamental education in the science of agriculture. The curriculum includes courses in the agricultural sciences, the physical, biological and social sciences, and in the arts.

### **Program Information**

Agricultural scientists must be effective communicators and problem solvers, self-directed in their learning, and have a global perspective of the agrifood systems. Students will be involved in co-operative group learning activities and will experience courses that are multidisciplinary and integrate the teaching activities of many faculty and departments. Students will have the option of completing a broad agricultural program (honours agricultural science) or identifying another major in which they take a minimum of 6.00 credits. The curriculum provides opportunities for students to select courses that will help them prepare for professional careers as entrepreneurs, scientists, marketing specialists, financial managers, technical advisors, or communication specialists. Students will have a comprehensive understanding of the food system when they graduate. They will be able to integrate their knowledge of production agriculture, environmental management, resource allocation and business management as it applies to the food system nationally and globally.

Students will be encouraged to integrate their academic program with a well-planned series of employment activities in the summer months and to develop their leadership and interpersonal skills in on-campus and community activities. There is a strong commitment in the curriculum to the philosophy of "whole person development" and students are encouraged to identify personal goals that they wish to accomplish in each of these areas of their development.

Graduates meet the educational requirements for membership in the Ontario Institute of Agrologists. The Ontario Institute of Agrologists is the professional organization in agriculture in the Province of Ontario. Professional institutes in the various provinces in Canada and the scientific societies in agriculture collectively comprise the Agricultural Institute of Canada. The program received full accreditation from the Agricultural Institute of Canada in April 1999.

#### B.Sc.(Agr.) Majors:

Agricultural Economics Animal Science Crop, Horticulture and Turfgrass Science Honours Agricultural Science Organic Agriculture Urban Landscape Management

### Declaration of a Major

All students are admitted into an undeclared major upon entry. Students will be required to select a major by semester 3 through consultation with the Program Counsellor and Faculty Advisors. The course requirements are listed for each major in the following section.

Students may, with appropriate approvals, elect to complete Minors associated with other degree programs as listed in the undergraduate calendar.

#### **Study Abroad**

The B.Sc.(Agr.) degree program is similar in many respects to programs offered at faculties of agricultural science in other provinces in Canada. Students are strongly encouraged to consider studying for 1 or 2 semesters in other faculties of agricultural science in Canada and in selected countries around the world.

Students interested in studying at another institution program should consult the B.Sc.(Agr.) Program Counsellor to discuss their plans, and refer to the scholarship section for financial support.

For more specific information on these opportunities refer to Section V--International Study in this calendar, or contact the OAC Dean's Office.

#### **Doctor of Veterinary Medicine**

Students in the B.Sc.(Agr.) program normally apply for admission to the D.V.M. program after semester 4 or later. Applications must be submitted to the Admissions Services, Office of Registrarial Services. Students should consult the D.V.M. Section of the calendar. Students who do not gain admission to the D.V.M. program are eligible to continue in the B.Sc.(Agr.) program through to graduation.

Students planning to enter the D.V.M. program are advised to include 12U biology, 12U chemistry, and 12U physics in addition to calculus in secondary school.

#### **Continuation of Study**

Students are advised to consult the regulations for continuation of study within the program which are outlined in detail in Section VIII--Undergraduate Degree Regulations & Procedures.

### **Conditions of Graduation**

To qualify for the degree Bachelor of Science (Agriculture), the student must successfully complete a minimum of 20.00 credits as set out in the Schedule of Studies listed below.

In addition, students must meet the continuation of study requirements at the time of graduation and have a minimum of 60% cumulative average.

### Honours Agriculture (AGRS)

Semester 1			
AGR*1100	[0.50]	Introduction to the Agrifood Systems	
BIOL*1030	[0.50]	Biology I	
CHEM*1040	[0.50]	General Chemistry I	
ECON*1050	[0.50]	Introductory Microeconomics	
MATH*1080	[0.50]	Elements of Calculus I	
Semester 2			
AGR*1250	[0.50]	Agrifood System Trends & Issues	
BIOL*1040	[0.50]	Biology II	
CHEM*1050	[0.50]	General Chemistry II	
ENGL*1200	[0.50]	Reading the Contemporary World	
0.50 electives			
Semester 3			
AGR*2320	[0.50]	Soils in Agroecosystems	
AGR*2350	[0.50]	Animal Production Systems and Industry	
AGR*2400	[0.50]	Economics of the Canadian Food System	
AGR*2470	[0.50]	Introduction to Plant Agriculture	
0.50 restricted electives			
Semester 4			
SOIL*3000	[0.50]	Environmental Issues in Agriculture and Landscape	
		Management	
STAT*2040	[0.50]	Statistics I	
One of:			
CROP*2110	[0.50]	Crop Ecology	
HORT*3350	[0.50]	Woody Plant Production and Culture	
One of:			
ANSC*2340	[0.50]	Structure of Farm Animals	
ANSC*2360	[0.50]	Challenges and Opportunities in Animal Production	
ANSC*3210	[0.50]	Principles of Animal Care and Welfare	
Note: ANSC*2360 is a Fall offering and ANSC*2340, ANSC*3210 are Winter offerings.			
0.50 restricted ele	ectives		

#### Semester 5

AGEC*2700	[0.50]	Survey of Natural Resource Economics	
FOOD*3090	[0.50]	Food Science and Human Nutrition	
1.50 electives or restricted electives			

### Semester 6

EDRD*3400	[0.50]	Sustainable Communities
2.00 electives		

#### Semester 7 & 8

Students must choose either Option A or B in Semester 7 and 8

Option A:		
AGR*4500	[0.50]	Agrifood Industry Problem-Solving
4.50 electives		
Option B		
AGR*4450	[1.00]	Research Project I
AGR*4460	[1.00]	Research Project II
3.00 electives		

#### **Restricted Electives**

1. 2 of the following Restricted Electives are required:

	0	1
BIOC*2580	[0.50]	Introductory Biochemistry
BOT*2100	[0.50]	Life Strategies of Plants
ECON*1100	[0.50]	Introductory Macroeconomics
ECON*2310	[0.50]	Intermediate Microeconomics
GEOL*3130	[0.50]	Agrogeology
MBG*2000	[0.50]	Introductory Genetics
SOIL*2120	[0.50]	Introduction to Environmental Stewardship

- 2. A minimum of 7.00 credits must be at the 3000 level or higher, of which 5.00 credits must be in agricultural science and of which 3.50 credits must be at the 4000 level. Refer to Program Counsellor for list of agricultural science courses.
- 3. A humanities or social science course (0.50 credits) at the 2000 level or above from the College of Arts or College of Social and Applied Human Sciences.

### Suggested Electives in Agricultural Sciences and Related Disciplines

Students who wish to concentrate in particular areas of Agricultural Sciences should consider selecting one of the following course groups.

A list of faculty advisors for the following elective course groupings are available from the B.Sc.(Agr) Program Counsellor.

World Agriculture and Economic Development

Students should note that some suggested electives (marked by asterisks\*\*) require other courses as prerequisites. Students should consult the most recent undergraduate calendar for specific requirements.

[0.50]

#### Minor (Honours Program)

The requirement of 5.00 credits for the minor is divided into 2 groups of courses, required courses and restricted electives. Students should ensure that they obtain the necessary prerequisites for required and restricted elective courses. Students should seek academic counselling from the B.Sc.(Agr) Program Counsellor early in their program. This minor is not open to students in the B.Sc.(Agr) Program.

### Minor

A minimum of 5.00 credits is required including:

One of:		
AGR*1250	[0.50]	Agrifood System Trends & Issues
ENVB*2010	[0.50]	Food Production and the Environment
Three of:		
AGR*2320	[0.50]	Soils in Agroecosystems
AGR*2350	[0.50]	Animal Production Systems and Industry
AGR*2400	[0.50]	Economics of the Canadian Food System
AGR*2470	[0.50]	Introduction to Plant Agriculture
AGR*2500	[0.50]	Field Trip in International Agriculture
EDRD*3400	[0.50]	Sustainable Communities
FOOD*3070	[0.50]	Introduction to Food Processing
3.00 credits from th	ne following	Elective List:

Note: At least 0.50 credits must be at the 4000 level and 1.00 credits at the 3000 level or higher.

Agronomy:		
CROP*3300	[0.50]	Grain Crops
CROP*3310	[0.50]	Protein and Oilseed Crops
CROP*3340	[0.50]	Managed Grasslands
CROP*4220	[0.50]	Cropping Systems
CROP*4240	[0.50]	Weed Science
PBIO*3110	[0.50]	Crop Physiology
Animal Science:

- 2. A minimum of 7.00 credits must be at the 3000 level or higher, of which 5.00 credits must be in agricultural science and of which 3.50 credits must be at the 4000 level. Refer to Program Counsellor for list of agricultural science courses.
- 3. A humanities or social science course (0.50 credits) at the 2000 level or above from the College of Arts or College of Social and Applied Human Sciences.

Note: In this major there are fees charged to cover partial costs of some field trips. Students in need of financial assistance should approach the Chair of the department.

### Urban Landscape Management (ULM)

### The School of Environmental Design and Rural Development

The Major in Urban Landscape Management is designed to address the need for graduates who can manage not only attractive, but functional and sustainable, urban open spaces. Graduates will have an applied understanding of soil and plant science as they specifically relate to recreational and aesthetic urban open space. Students will learn to address issues in a multidisciplinary and creative manner reflecting environmental, social, political, cultural and economic imperatives.

### **Field Trips**

Participation in organized visits to study site areas and projects sites is obligatory for all students taking certain courses in Urban Landscape Management. To the extent that is possible students will be informed of the dates, destinations and cost of field trips prior to registration. Students who have reason to seek exemption from the requirement may apply to the professor for permission to substitute papers on appropriate topics.

#### Selection of Electives

All electives may be chosen independently although counselling with the academic advisor is highly recommended. In selecting electives two approaches may be followed: 1) electives may be chosen from a variety of disciplines to achieve breadth of knowledge or 2) all or most electives may be chosen in a subject area in order to pursue a particular file of interest in depth. Students are cautioned to be aware of university regulations concerning the required minimum number of 3000 and 4000 level courses and that the prerequisite requirements of courses may direct them to take particular courses in preparation.

### Semester 1

### **Bachelor of Science in Environmental Sciences**

### [B.Sc.(Env.)]

### **Program Information**

#### **Objectives of the Program**

The Environmental Sciences program is designed to provide a strong interdisciplinary grounding in specific environmental sciences including the socioeconomic context in which environmental issues are resolved.

There is an emphasis on management and decision-making skills for the application of scientific knowledge to environmental problems, and the evaluation of appropriate environmental policies. A practical perspective based on defining and resolving problems is central to the program, and this is often done in the context of group work.

Substantial emphasis is placed on communication skills, including the development of competence in both written and oral presentations. These skills will be progressively developed in core courses from the first to the fourth year. Students in the final years of their program will be expected to take part in more intensive communication skill development. Graduates will seek employment in a range of fields, from government agencies to private industry and research.

### Academic Counselling

General information on the degree program is available from the Program Counsellor, Faculty of Environmental Sciences. Advising for each major is available through the assigned faculty advisor responsible for the major. Students are encouraged to seek the advice of the faculty advisors when choosing restricted electives and planning course selections.

#### Degree

The degree granted for the successful completion of this honours program will be the Bachelor of Science in Environmental Sciences--B.Sc.(Env.).

### **Continuation of Study**

Students are advised to consult the regulations for Continuation of Study in Section VIII--Undergraduate Degree Regulations and Procedures of this Calendar.

### **Conditions for Graduation**

In order to graduate from the B.Sc.(Env.) program, students must successfully complete a minimum of 20.00 credits including all the stated course requirements for the program. As well, students must achieve a cumulative average of 60% or higher over all course attempts.

#### **Environmental Sciences (Co-op)**

Office of the Associate Dean, Faculty of Environmental Sciences.

A 5-year Honours Program in Environmental Sciences is offered as a Co-operative Education Program. This option is offered within the B.Sc. (Env.) degree and is available to all majors. The program requirements are the same as those listed for the regular B.Sc. (Env.) program, by the Co-operative Education Program and as outlined in the Continuation of Study policy (Section VIII--Undergraduate Degree Regulations & Procedures).

3 co-op work terms (COOP\*1000, COOP\*2000, COOP\*3000) are required. An optional 4th co-op work term (COOP\*4000) is available. COOP\*1100 must be completed during semester 2.

Year	Fall	Winter	Spring
1	Academic Term 1	Academic Term 2	Off
2	Academic Term 3	COOP*1000	Academic Term 4
3	COOP*2000	Academic Term 5	COOP*3000
4	Academic Term 6	Academic Term 7	COOP*4000 (Optional)
5	Academic Term 8		

Since some of the program requirements in the degree program (core or major) are not offered each semester, careful planning and program consultation with the Faculty Co-op Advisor is essential. In particular, students are encouraged to seek advice when choosing for their Summer academic semester.

### The Environmental Sciences Program

The degree in Environmental Sciences consists of a minimum of 20.00 credits, as follows:

- 1. 5.00 First Year Curriculum
- 2. 5.00 Environmental Sciences Core
- 3. 7.00 Environmental Sciences Major
- 4. free electives\*

Within these courses, students must include at least 6.00 credits at the 3000 or 4000 level, and no program may include more than 7.00 credits at the 1000 level.

\* There are not specific subject requirements for the elective courses, however, you may NOT select the following: BOT\*1200, CHEM\*1100, CIS\*1000, GEOL\*1100,

MATH\*1050, MET\*1000, MICR\*1010, MICR\*1020, MBG\*1000, PHYS\*1600, ZOO\*1500.

Please note that not all courses in the "One of:" options are available each semester (F, W, S). Students are encouraged to seek advice from the appropriate advisor when selecting and scheduling courses.

### **First Year Curriculum**

The first year courses have been selected to provide students with sufficient background and knowledge to enter any one of the Environmental Sciences majors.

### Semester 1

BIOL*1030	[0.50]	Biology I	
CHEM*1040	[0.50]	General Chemistry I	
ENVS*1020	[0.50]	Introduction to Environmental Sciences	
MATH*1080	[0.50]	Elements of Calculus I	
PHYS*1080	[0.50]	Physics for Life Sciences	
Semester 2			
BIOL*1040	[0.50]	Biology II	
CHEM*1050	[0.50]	General Chemistry II	
ECON*1050	[0.50]	Introductory Microeconomics	
GEOG*1300	[0.50]	Introduction to the Biophysical Environment	
PHYS*1130	[0.50]	Physics with Applications	
Note: Co-op stude	Note: Co-op students must select COOP*1100 Introduction to Co-operative Education		

### **Environmental Sciences Core**

In addition to the common first year curriculum, students are required to take the following core Environmental Sciences courses in the semesters recommended in the schedule of studies:

BIOL*2060	[0.50]	Ecology	
ENVS*2150	[0.50]	Terrestrial Systems	
ENVS*3150	[0.50]	Aquatic Systems	
		1 2	
ENVS*3160	[0.50]	Atmospheric Systems	
ENVS*4011/2	[0.50]	Project in Environmental Sciences	
ENVS*4300	[0.50]	Environmental Law & Regulation	
PHIL*2070	[0.50]	Philosophy of the Environment	
One of:			
AGEC*2700	[0.50]	Survey of Natural Resource Economics	
ECON*2100	[0.50]	Economic Growth and Environmental Quality	
One of:			
GEOG*3210	[0.50]	Management of the Biophysical Environment	
POLS*3370	[0.50]	Environmental Policy Formation and Administration	
ZOO*4050	[0.50]	Natural Resources Policy	
One of:			
ECON*2740	[0.50]	Economic Statistics	
GEOG*2460	[0.50]	Analysis in Geography	
STAT*2040	[0.50]	Statistics I	
Note: the statistics course required is prescribed by the student's choice of major.			
<b>T</b>	10		

### **Environmental Sciences Majors**

Earth and Atmospheric Science

Ecology

Environmental Biology Environmental Economics and Policy

Environmental Geography

Environmental Monitoring and Analysis

Environmetrics and Modelling

Natural Resources Management

Requirements for each of these majors are described in the detailed schedules of studies below.

### Earth and Atmospheric Science (EAAS)

### Department of Land Resource Science, Ontario Agricultural College

### Major

Please note that not all courses in the "One of:" options are available each semester (F, W, S). Students are encouraged to seek advice from the appropriate advisor when selecting and scheduling courses.

In this major there are fees charged to cover partial costs of some field trips. Students in need of financial assistance should approach the Chair of the department offering the course.

#### Semester 8

ENVS\*4012 [0.50] Project in Environmental Sciences 2.00 electives or restricted electives

### **Restricted Electives**

Students in the Earth and Atmospheric Science major are required to choose 2.50 credits from the following lists. Students are encouraged to seek advice on their choices and are reminded that 6.00 credits of their B.Sc.(Env.) degree must be at the 3000-4000 level. With prior approval, students may be able to use courses not on this list towards their Earth and Atmospheric Science restricted electives.

#### List A - Environmental Geology

GEOL*2020	[0.50]	Stratigraphy

#### **Restricted Electives**

Students in the Earth and Atmospheric Science major are required to choose 2.50 credits from the following lists. Students are encouraged to seek advice on their choices and are reminded that 6.00 credits of the B.Sc.(Env.) degree must be at the 3000-4000 level. With prior approval, students may be able to use courses not on this list towards their Earth and Atmospheric Science restricted electives.

### List A - Environmental Geology

List A - Environmental Geology			
GEOL*2020	[0.50]	Stratigraphy

## **Bachelor of Science in Technology [B.Sc.(Tech.)]**

The B.Sc.(Tech.) program was designed for students who do not intend to pursue post-graduate studies and are strongly focused on securing industrial employment that makes use of the knowledge acquired in their bachelors degree. This program provides students with the knowledge and skills deemed to be essential by employers and exemplifies the positive benefits of cooperation between colleges and universities. The program combines rigorous theory with practical applications.

For the B.Sc.(Tech.) degree the University offers an honours program requiring the equivalent of 8 semesters of successful full-time study. Two of the semesters will be located at Seneca College in Toronto. The program requires the completion of four co-op work-terms. Students are encouraged to study full-time and to follow the schedule of studies listed below. In the B.Sc.(Tech.) program, 2.50 credits per semester is the normal load for a regular full-time student.

#### **Program Information**

Students are required to follow the pattern of study for one of the two majors offered (Applied Pharmaceutical Chemistry or Physics and Technology) and complete all of the required courses specified in the Schedule of Studies.

Courses taught by Seneca College are noted in the schedule of studies. The course descriptions are in this calendar however detailed course profiles can be accessed through the Seneca College home page.

#### **Entry Credits**

In general, the 4U or OAC credit or its equivalent is required in a subject area to allow entrance to the initial university course. Students who lack this requirement can remedy the deficiency by successful completion of:

- BIOL\*1020 for students lacking biology
- CHEM\*1060 for students lacking chemistry
- PHYS\*1020 for students lacking in physics

Not more than one of the above will be allowed for credit toward the B.Sc.(Tech.) degree.

#### **Continuation of Study**

Students are advised to consult the University's regulations for continuation of study which are outlined in detail in Section VIII--Undergraduate Degree Regulations & Procedures. In addition to the University regulations, students will also be required to achieve a 70% cumulative average by the end of semester 2 due to the required co-op component within this program. Students will be evaluated after semester 2 and those students who have a cumulative average less than 70% but meet the Guelph continuation of study requirements will be withdrawn from the B.Sc.(Tech.) program. Under these circumstances, students in the Applied Pharmaceutical Chemistry major will be automatically moved to B.Sc. Biological Chemistry and those students in the Physics and Technology major will be automatically moved to the B.Sc. Physics major. Students should contact their Program Counsellor regarding co-op appeal procedures.

Note: Students who voluntarily withdraw from co-op will be moved to the B.Sc. majors specified above.

#### **Honours Minors**

Students may wish to add a minor to their major. A minor is a group of courses which provides for exposure to and mastery of the fundamental principles of a subject. A minor consists of a minimum of 5.00 credits. It may also require certain specified courses. Given the intended technical training of this degree, students have very little flexibility in terms of electives. As such, students wishing to add a minor would be required to enrol in additional semesters of study. Students wishing to take a minor should consult with their program counsellor.

#### **Conditions for Graduation**

In order to qualify for graduation from the B.Sc.(Tech.) program, the student must have successfully completed all of the courses approved for the program, achieved a 60%, or higher, cumulative average and received a minimum grade of satisfactory for the co-op work reports and work performance evaluations.

## **Applied Pharmaceutical Chemistry (APPC:C)**

Department of Chemistry, College of Physical and Engineering Science

#### **Major (Honours Program)**

This major will require the completion of 20.25 credits as indicated below:

## Doctor of Veterinary Medicine (D.V.M.)

#### **Program Information**

The University of Guelph offers the degree program Doctor of Veterinary Medicine (D.V.M.) at the Ontario Veterinary College. The program is offered during the Fall and Winter semesters only and normally requires 8 semesters to complete. The college is accredited by the Canadian Veterinary Medical Association, the American Veterinary Medical Association, and the Royal College of Veterinary Surgeons of Britain. The D.V.M. degree from Guelph is respected by veterinarians throughout the world.

Students entering the D.V.M. Program prior to Fall 2000 should refer to the undergraduate calendar for their year of program entry for appropriate course listings.

## **Objectives of the Program**

- The graduates should have the knowledge and skills appropriate to their career orientations and sufficient to allow the pursuit of a variety of careers in veterinary medicine, including graduate studies. They should be able to pass the examinations of all Canadian licensing bodies and must possess a fundamental core of academic veterinary science knowledge and of technical competence.
- 2. The graduates must be able to solve animal health problems and must have knowledge of the management of domestic animals and the functioning of the various animal industries.
- 3. The graduates must be able to communicate effectively, whether writing scientific papers, or conversing with clients. The ability to relate to people is an acquired skill that must be encouraged during the program of study.
- 4. Through a commitment to continuing education, the graduates must accept the professional responsibility to stay abreast of new developments and to pursue solutions to new problems.
- 5. The graduates must have a genuine concern for the welfare of all animals. The graduates should be aware of their responsibilities to the profession in terms of ethical and professional conduct and have an understanding of the moral questions facing veterinarians.
- 6. The graduates must have had the opportunity during their university tenure to develop a range of non-veterinary interests sufficient to equip them to take a responsible role in society.

## **Regulations for Licence to Practise**

Graduates are eligible to practise in Canada, but the degree in veterinary medicine does not in itself confer the right to practise. For information on matters relative to licence to practise in the various provinces of Canada, students should communicate with the Canadian Veterinary Medical Association, 339 Booth Street, Ottawa, Ontario, Canada K1R 7K1, who will refer them to the appropriate provincial veterinary association.

### Admission to the Veterinary Medicine Program

Complete details on admission requirements and procedures are listed in Section IV--Admission Information.

### Academic Counselling

The Office of the Assistant Dean for Student Affairs provides academic counselling and referral to other appropriate resources for all D.V.M. students. In particular, students who are requesting a Supplemental Privilege are required to meet with the Assistant Dean so that the student can be informed of appropriate resources (such as Learning and Writing Services and the Counselling and Student Resource Centre) and use them to deal with his or her academic difficulties.

Students on probation are required to meet regularly with the Assistant Dean so that the student's academic progress is monitored and resource information and assistance is provided to the student. As an aid to improving their academic efficiency all students whose program average (PA) is between 60% and 70% will be sent a letter from the Assistant Dean outlining resources available to them.

### **Conditions for Continuation of Study**

For supplemental and deferred privileges, all students in the D.V.M. Program are subject to Deferred Privilege Procedures and Supplemental Privilege Procedures outlined in Chapter VIII--Undergraduate Degree Regulations and Procedures.

This Continuation of Study Policy applies to students entering the D.V.M. Program in Fall 2000 and subsequent semesters. For continuation of study, a student must satisfy the conditions as presented below. In order to graduate, students must fulfill the course requirements for the program and have achieved at least a 60% program average. The Academic Review Sub-Committee will assess all cases where a student's academic progress does not meet the Continuation of Study requirements and will interpret the academic regulations. The requirements will be applied with due consideration to the credit weights of the course, the role of the course in the Phase and the degree of integration of the course with concurrently required courses, and in light of the student's particular circumstances (see VIII--Undergraduate Degree Regulations and Procedures).

Students entering the D.V.M. Program prior to Fall 2000 should consult the Undergraduate Program for the year in which they entered the Program.

### **Full-time Study**

The D.V.M. program is offered as a full-time program and normally requires four phases (over the equivalent of eight academic semesters at the University of Guelph) to complete. In exceptional extenuating circumstances, the Academic Review Sub-Committee may allow a student to take courses on a part-time basis. In these instances, the Academic Review Sub-Committee has the discretion to select the courses that the student will register in on a part-time basis. Students permitted to take courses on a part-time basis are cautioned that there is an enrolment limitation for the program and that access to certain courses or resumption of the program on a full-time basis will be conditional on the availability of space.

#### **Failed Courses**

- 1. Continuation of study from one phase of the D.V.M. Program to the next is dependent on the successful completion of all courses, or approved equivalents, in the published schedule of studies for the D.V.M. Program.
- 2. A student who fails one course in a phase may be required to repeat all courses in the entire phase. A list denoting the consequences of failure of any particular course in the D.V.M. Program is as follows:

a. Failure in any of the following courses result in the Repeat of the Course: VETM\*3000, VETM\*3210, VETM\*3390, VETM\*3430, VETM\*3220, VETM\*3440, VETM\*3480, VETM\*3510, VETM\*4220, VETM\*4450, VETM\*4530, VETM\*4610, VETM\*4620, VETM\*4660, VETM\*4450, VETM\*4680, VETM\*4610, VETM\*4620, VETM\*4660, VETM\*4670, VETM\*4680, VETM\*4710, VETM\*4720, VETM\*4870, VETM\*4880, VETM\*4890, VETM\*4900, VETM\*4920, VETM\*4930, VETM\*4940.

b. Failure in any of the following courses reult in the **Repeat of the Phase:** VETM\*3070, VETM\*3080, VETM\*3120, VETM\*3400, VETM\*3410, VETM\*3450, VETM\*3460, VETM\*3470, VETM\*4460, VETM\*4470, VETM\*4480, VETM\*4490, VETM\*4520.

This information is also available as part of the Phase Handbooks.

- 3. A student who is required to repeat a course and/or phase will be required to withdraw from the D.V.M. program. A student who is required to withdraw can register in the non-degree D.V.M. program. Non-degree D.V.M. Program status is normally granted for a maximum period of one year. Students must advise the Assistant Dean(s) of the College, in writing by 31 May, of their intention to register the following fall semester in the non-degree program to repeat the failed course and/or phase. Students must normally repeat a failed course and/or phase in the academic year immediately following that in which the failure occurred.
- 4. A student who successfully completes a repeated course and/or phase in the academic year immediately following that in which the failure occurred may re-apply to the D.V.M. program through Admission Services. Applications for readmission must be received by 31 May of the year in which they wish to be considered for readmission. Readmission is not automatic and will be conditional upon availability of space. Students considering readmission should consult the Assistant Dean(s) of the College regarding procedures and criteria for readmission to the D.V.M. program. A student who is readmitted to the D.V.M. program will be subject to the academic rules and regulations in effect for the readmission year.
- 5. A student will be allowed to fail a particular course only once. Any student who fails the same course twice will be ineligible for readmission to the D.V.M. Program.
- 6. Grades obtained by D.V.M. students who repeat one or more VETM course(s) while enrolled in the non-D.V.M. program, will be reported on the transcript in addition to the original course grade. In the instance where all courses in a Phase are repeated, the grades from the repeated VETM courses will constitute the new Phase average. The new D.V.M. program average will include the grades obtained in both the original and repeat VETM course attempts.

#### **Supplemental Privileges**

- 1. In the circumstances of a failed course, the Academic Review Sub-Committee may, if appropriate and under special circumstances only, allow a student the opportunity to gain credit standing in a failed course by granting a supplemental privilege (see Failed Courses and Supplemental Privilege in Section VIII). Students must request a supplemental privilege by submitting the request to the Academic Review Sub-Committee, and the fee for the privilege, within 7 days of the release of grades for the phase in which the failure occurred. The Academic Review Sub-Committee, upon receiving a request from a student, and after consulting with the instructor and reviewing the student's course performance, will determine whether a supplemental privilege should be granted.
- 2. Students will be permitted supplemental privileges in a maximum of two courses over the entire D.V.M. Program. A supplemental privilege will not be granted for a second failure in a course. Any student granted a supplemental privilege must meet with the Assistant Dean for Student Affairs who will inform the student of appropriate resources to be used to deal with his/her academic difficulties.

#### **Conditions for Graduation**

In order to qualify for graduation from the 8 semester Honours D.V.M. program, the student must have completed successfully the courses approved for the program. Students will not be allowed to graduate while on probation.

## Withdrawal from the Program

Students who have voluntarily withdrawn from the D.V.M. program and who wish to return must give notice to the Assistant Dean for Student Affairs, O.V.C., of their intention to return by May 31 if they wish to return in September of the upcoming academic year. Students contemplating a withdrawal from the program are cautioned that there is an enrolment limitation for the program and that re-entry will be conditional on the availability of space. The Program Committee reserves the right to select the quota from among the qualified applicants.

## **Protective Clothing**

All D.V.M. students will require 3 laboratory coats and 3 pairs of coveralls. Students in Phase 3 must also have 3 surgical suits. Phase 4 students will require an additional 1 of each of the 3 types of protective clothing. Labels with each student's name must be affixed to all items of clothing. All soiled clothing must be laundered through the Veterinary Teaching Hospital's "dirty-in /clean-out" plan. Students must wear steel-capped shoes or boots in the large animal clinic and rubber boots in pathology laboratories. A pair of white shoes and a pair of obstetrical boots must be available in Phase 4. The Veterinary Teaching Hospital will not provide extra protective clothing; however, short white jackets will be provided by the Veterinary Teaching Hospital for Phase 4 students during the small animal medicine rotation.

### Estimate of Expenses

Attention is drawn to Section VI--Schedule of Fees for information on tuition, University student organizations and rabies immunization required for all students in the program. In addition, while the college supplies most laboratory equipment, students may wish to purchase instruments for personal use. Texts, protective clothing, and a minimum of supplies for personal use may cost approximately \$500 per semester.

## Health and Safety

Students must follow the health and safety policies required for the various courses in the veterinary program. Pregnant students and others with increased medical risks should consult Health Services concerning potential health risks which may occur during the normal course of their studies.

Immunization against rabies is a requirement for admission and continuation in the D.V.M. Program. Annual rabies titres and booster immunizations (if necessary) are mandatory for all Program participants. Prospective students and in-course students should contact Student Health Services (519-824-4120 extension 52131) for further information and guidance about the rabies surveillance program. Faculty and staff members should contact Occupational Health Services, extension 52133, for information about medical surveillance programs provided in accordance with University Safety Policy 851.13.03.

## Schedule 4 (D.V.M. Continuation of Study)

Continuation of Study is assessed on the student's D.V.M. Program Average (not the University Cumulative Average) and according to the policy on failures as stated above. In Phase 2 and beyond, eligibility to continue is also assessed at the end of each phase using the Phase Average (PHA). Courses that are given a grade of Pass or Fail do not impact either the PA or PHA Average because they are not attached to any numerical grade.

Students on Probation at the end of Phase 1 or 2 must clear this probationary status by achieving the required PA average by the end of Phase 2 or 3 respectively. If a student does not achieve the required standing by the end of the probationary period he or she will normally be required to withdraw from the program.

Students finishing Phase 3 on probationary status will not be permitted to proceed to the Externship or into Phase 4. The Academic Review Sub-Committee will establish the appropriate remediation requirements that must be fulfilled in order for the student to obtain the standing of Eligible to Continue. These may include repeating a component of a course, one or more entire courses, an entire Phase, or one or more clinical rotations. The required averages are as follows:

#### For Course Attempts in Phase I

Program Average (PA)	Status of Student	
PA < 50%	Required to Withdraw	
$PA \ge 50\%$ and $PA < 60\%$	Probationary Status	
PA ≥ 60%	Eligible to Continue	

## For Course Attempts in Phase 2 and Beyond

If Eligible to	Continue:

Program Average (PA) and Phase Average (PHA)	Status of Student	
PHA < 50%	Required to Withdraw	
PA or PHA $\ge$ 50% but PA <60%	Probationary Status	
PA and PHA $\geq 60\%$	Eligible to Continue	
If on Probation:	1	
Program Average (PA)	Status of Student	

Required to Withdraw

Eligible to Continue

## $PA \ge 60\%$ Schedule of Studies

VETM*4900	[2.50]	Veterinary Externship

## **Co-operative Education Programs**

Co-operative Education is an experiential learning process that integrates academic study with paid work experience. Students will participate in a competitive employment process to be engaged in work terms developed and/or approved by Co-operative Education and Career Services as suitable learning experiences relevant to the students' area of academic study. A graded work report and performance evaluation will be required for each work term and will appear on the student's official transcript. The academic and work schedules will vary with degree program and major.

The first work term is scheduled after the third or fourth academic semester, providing an academic foundation on which to build the work experience. In addition, COOP\*1100 – Introduction to Co-operative Education, a mandatory, non-credit course, is a prerequisite for the first work term.

COOP\*1100 is designed to introduce students to the theory and practice of co-operative education at the University of Guelph. Students will acquire practice in the skills required to succeed in the competitive process of securing suitable work terms. Specifically, the course will cover; characteristics and expectations of the "new" world of work, interview skills, resume and cover letter writing.

Students will learn to take full advantage of the co-op option and will obtain practice in the co-op employment process.

#### **Admission Information**

Students are admitted to a Co-operative Education program directly from high school in the Fall semester. Some programs may admit a small number of in-course students after first or second semester. Normally, students must apply before their third academic semester in order to be considered. The decision to admit an in-course student is dependant upon space in the program, the grades of the student, the approved Academic and Work Sequence, and any other information relevant to the program. The On-Campus Co-ordinator is responsible for facilitating all admission processes. Please refer to the schedule of dates in the Undergraduate Calendar for in-course application deadlines.

#### Eligibility

High school students must have a minimum average of 75% to apply to the co-op program. Once accepted to the University of Guelph, you must maintain a 70% cumulative average in the first 2 semesters (full-time study) in order to remain in the co-op program. For transfer students, you must meet normal admission requirements, as well as complete one academic semester at Guelph in which you achieve a minimum 70% average prior to participating in the co-op process. As well, you must have your academic and work schedule approved. Applicants must be a Canadian citizen or permanent resident/landed immigrant. Applicants holding U.S. citizenship should contact Co-operative Education and Career Services.

#### **Continuation of Study**

Students will be allowed to continue in the co-op program only if their cumulative average, over 4.0 credits, is 70% or higher after two full-time academic semesters. Students are also required to meet the conditions for continuation of study for their degree program as listed in the Undergraduate Calendar. In addition, all students must satisfactorily complete COOP\*1100before their first employment process.

Co-op students must normally be registered as full-time. Co-op students are also required to meet other conditions, (e.g. satisfactory work term reports and work performance evaluations) in order to continue in the co-op program. Complete conditions for continuation of study for a co-op program are outlined in the Policy Agreement for Student Involvement in Co-operative Education. The complete policy can be viewed at www.coop.uoguelph.ca.

#### **Release of Academic Information**

By applying to the Co-op program, students grant permission to the Registrar's Office to release to Co-operative Education Services their University of Guelph transcript and any transcript from other post-secondary institutions that may be part of the Academic Record held by the Registrar's Office. Students also grant permission to Co-operative Education Services to release their resumes, cover letters and any transcripts released by the Registrar's Office to prospective employers to whom the students are applying. Employment information, the work performance evaluation, and the work term report evaluation will appear on the academic transcripts.

#### **Procedures for Work Semester Reports**

A Work Report is required for each co-op Work Term in which the student is registered. Work Reports are graded by the Co-op Faculty Advisor and must be submitted to the Co-op Faculty Advisor according to the deadline indicated in the Undergraduate Calendar. Students completing two consecutive Work Terms with the same employer should consult with their Co-op Faculty Advisor regarding Work Report requirements for eight-month Work Terms. A grade of Outstanding, Very Good, Good, Satisfactory, or Unsatisfactory will appear on the student's Academic Record.

A student who receives an Unsatisfactory Work Report Evaluation will be given an opportunity to make revisions and resubmit the report. Students who are resubmitting a Work Report will not be eligible to proceed to the next employment process until receiving a grade of Satisfactory or higher. If, upon resubmission, the Work Report Evaluation is

In the case of a confidential Work Report, the student is responsible for ensuring that a confidential report is acceptable to the Co-op Faculty Advisor and making evaluation arrangements with the co-op Faculty Advisor and the employer.

#### **Conditions for Graduation**

In order to graduate, co-op students must follow the conditions for graduation for their degree program as outlined in the Undergraduate Calendar. In addition, students must receive evaluations of Good or higher in all but one Work Performance Evaluations and an evaluation of Satisfactory or higher in all Work Report Evaluations.

Students wanting to graduate with less than the required number of Work Terms must contact their Co-op Co-ordinator with the request. The Canadian Association for Co-operative Education (CAFCE) guidelines regarding Work Terms will be followed at all times.

#### **Co-op Fees**

Students in Co-op are required to pay a co-op fee each semester (see Section VI--Schedule of Fees). Students who enter Co-op in-course will have an altered payment schedule to be discussed upon admission. There is no application fee.

#### **Schedule of Studies**

Students entering the Co-op program are advised to review carefully the academic semester/work semester sequence as set out in the schedule of studies for the degree programs and specialization offered under Co-operative Education. Normally students must follow the sequence as scheduled. If, under exceptional circumstances, the schedule cannot be followed, the student must obtain written approval of an alternative work and academic semester sequence from the Co-op Coordinator and Co-op Faculty Advisor. In unusual circumstances the Director of Co-operative Education and Career Services may be involved in the approval process.

## University of Guelph-Humber

For University of Guelph-Humber programs please refer to http://www.guelphhumber.ca.

## **Associate Diploma Programs**

For Associate Diploma Programs please refer to the Associate Diploma Program Calendar, available on the world wide web at http://www.uoguelph.ca/diploma\_calendar/.

## XI. Special Study Opportunities

## **Certificates and Diplomas**

The University offers certificate and diploma programs in Applied Statistics, Communication Process, Environmental Citizenship, Environmental Conservation, Food Science, Hospitality Studies, Leadership, and Public Policy and Administration. These programs are designed for those who want to develop or upgrade skills in one of these areas without necessarily proceeding towards a three or four year degree program. These programs may be completed on a part-time basis over a period of time.

For those who are in a degree program or who will be transferring into a degree program, there will be a restriction as to the number of courses which can be used for both a certificate/diploma and a degree specialization. Up to 50% of the requirements for a degree-credit certificate can be applied towards a degree. Note that the Certificate in Leadership is exempt from this restriction.

For more information, please consult with the Program Counsellor for Open Learning (ext. 56050).

## **Certificate in Communication Process**

The five-course online Certificate in Communication Process sets out to enhance participants' knowledge, attitudes and skills necessary for successful careers in business, human resource management, education, medical and veterinary professions, social work, criminology, and international development.

This program focuses on facilitating knowledge-sharing through verbal and non-verbal signs and symbols, as it relates to units of different size and complexity - among individuals, groups, organizations, nations and regions of the world. By gaining insight into various communication processes, participants will be better equipped to effectively manage change in a constantly evolving environment.

The Certificate in Communication Process, available to both undergraduate students and open learners, is offered online through University of Guelph's School of Environmental Design and Rural Development, and is structured as follows:

#### **Required Courses**

-		
EDRD*2020*DE [0.5	[0] Interpersonal Communication	
EDRD*3140*DE [0.5	0] Organizational Communication	
3 of the following 4 cou	irses:	
EDRD*3120*DE [0	0.50] Educational Communication	
EDRD*3160*DE [0	0.50] International Communication	
EDRD*3180*DE [0	0.50] Social Processes in Mediated Communication	
EDRD*4120*DE [0	0.50] Leadership Development in Small Organizations	
For more i	nformation, visit the website at:	
http://www.open.uogue	lph.ca/offerings/program.cfm?PID=75.	

### **Certificate in Environmental Citizenship**

Developed from a social science perspective, this Certificate is beneficial to those who want to learn more about the global environmental issues facing us today and in the future. Participants gain in-depth knowledge about environmental changes, their global impact, and how one can directly contribute to the environment's sustainability. The Certificate consists of six degree-credit distance education courses taken online from the University of Guelph's Faculty of Environmental Sciences. It is structured as follows, requiring six courses total, to include at least two at the 3000 or 4000 level:

#### **Required Course**

## **Certificate in Environmental Conservation**

Developed from a biophysical science perspective, this Certificate is beneficial to those who want to gain knowledge of issues surrounding environmental protection, conservation and preservation, and environmental research. The Certificate consists of six degree-credit distance education courses taken online from the University of Guelph's Faculty of Environmental Sciences. The program is designed to provide participants with the credentials they need for professional advancement in the environment industry and/or personal enrichment. It is structured as follows, requiring six courses total, to include at least two at the 3000 or 4000 level:

#### **Required Course**

SOIL*2120*DE	[0.50] Introduction to Environmental Stewardship				
2 or 3 of the following:

### **Certificate in Food Science**

The Certificate in Food Science program is offered by the Department of Food Science in a distance education mode. Normally, learners will require two years to complete the process. The certificate program is aimed at upgrading individuals who either have a formal university education in an area other than Food Science or have been working in Food Science-related areas but who have no academic background in Food Science. The certificate program concentrates on the chemistry, analysis, microbiology and processing of foods, and on the maintenance of food safety and quality throughout. All courses are offered in an interactive format via the internet.

Individuals interested in entering the Certificate in Food Science program should enrol in the Open Learning program through the Office of Open Learning. Post-secondary courses in microbiology and chemistry are pre-requisites for entrance into the program. The core courses of the program cannot be used as substitutes for core courses or restricted

#### **Required Courses**

FOOD*2010*DE	[0.50]	Principles of Food Science		
FOOD*2400*DE	[0.50]	Introduction to Food Chemistry		
FOOD*2410*DE	[0.50]	Introduction to Food Processing		
FOOD*2420*DE	[0.50]	Introduction to Food Microbiology

For more information, please visit the website at: http://www.foodsciencecertificate.com.				

## **Certificate in Hospitality Studies**

electives in the B.Sc. Food Science Major.

The Certificate in Hospitality Studies is offered online from the University of Guelph's School of Hospitality and Tourism Management, College of Management and Economics. It is comprised of five courses taken via distance education and is designed to provide an overview of the hospitality industry, an understanding of human resources management principles and financial management skills. It is perfect for individuals needing additional formal education to assume greater management responsibilities.

Prior Learning Assessment is in place for this Certificate to evaluate and recognize experience and previous education, including seminars, workshops and corporate training programs. Students may receive credit to a maximum of one credit towards one of the required courses. See Chapter VIII, Prior Learning Assessment, for more information. Individuals interested in PLA should consult with the Program Counsellor at the Office of Open Learning (ext. 56050).

The Certificate requires the five courses listed below:

2007-2008 University of Guelph Undergraduate Calendar

#### **Required Courses**

HTM*2030*DE	[0.50]	Control Systems in the Hospitality Industry		
HTM*2150*DE	[0.50]	Introduction to Canadian Business Management		
HTM*2200*DE	[0.50]	Organizational Behaviour I		
HTM*3000*DE	[0.50]	Human Resources Management		
HTM*3070*DE	[0.50]	Hospitality and Tourism Management Accounting		
For more information, please visit the website at: http://www.hospitalitystudies.com.				

#### **Certificate in Leadership**

The Certificate in Leadership is offered by the University of Guelph through the College of Management and Economics. This certificate program allows undergraduate students to complete both their degree program and the certificate concurrently. As well, the certificate is available to students in the Open Learning program.

The program focuses on new leadership models and practical applications in a variety of organizational settings. Five undergraduate courses are required, in addition to 120 hours of leadership practice. Students will develop an historical and theoretical understanding of leadership with particular emphasis on contemporary theories, models and research.

The program consists of 2.50 credits chosen from the lists below, plus 120 hours of leadership practice, in an approved placement. Some courses require particular prerequisites; it is important to take into account the necessary prerequisites and semester offered when determining the sequence in which courses are taken. Students should consult with the Open Learning program Counsellor at the Office of Open Learning (ext. 56050).

Students who wish to enrol in the Certificate in Leadership program should contact the Office of Open Learning at 519-767-5000. For more information, please visit the website at: http://www.leadershipcertificate.com.

#### **Diploma in Applied Statistics**

The Diploma in Applied Statistics is a program offered by the Department of Mathematics and Statistics, which seeks to give students of the Applied Sciences a technical competency in the use and application of Statistics.

The program is intended mainly for those whose primary area of expertise is not in Statistics, but who feel the need to be able to use modern statistical techniques. This program seeks to fill a need of scientists to reach a useful level of competency in the use of statistical methodology.

#### **Diploma Requirements**

The program consists of 5.00 credits chosen from the following list. It is important to take into account the necessary prerequisites when determining the sequence in which the courses are taken. Consult an advisor from the department for assistance.

MATH*2080	[0.50]	Elements of Calculus II
MATH*2150*DE	[0.50]	Applied Matrix Algebra
STAT*2040	[0.50]	Statistics I
STAT*2050	[0.50]	Statistics II
STAT*3100	[0.50]	Introductory Mathematical Statistics I
STAT*3110	[0.50]	Introductory Mathematical Statistics II
STAT*3210	[0.50]	Experimental Design
STAT*3240	[0.50]	Applied Regression Analysis
STAT*3320	[0.50]	Sampling Theory with Applications
STAT*3510	[0.50]	Environmental Risk Assessment
STAT*4050	[0.50]	Topics in Applied Statistics I
STAT*4060	[0.50]	Topics in Applied Statistics II
STAT*4080	[0.50]	Data Analysis

STAT*4350	[0.50]	Applied Multivariate Statistical Methods
STAT*4360	[0.50]	Applied Time Series Analysis
STAT*4510	[0.50]	Advanced Risk Analysis

#### **Diploma in Public Policy and Administration**

The program is designed for those who wish to develop their skills in public sector management and public policy analysis. The requirement of 5.00 credits for the diploma is divided into 2 groups of courses: required courses and elective courses.

Students are encouraged to consult the Diploma in Public Policy and Administration program coordinator or Chair of the Department of Political Science with regard to the availability and on-going development of distance education courses.

#### **Required Courses**

POLS*1400*DE	[0.50]	Issues in Canadian Politics
POLS*2250*DE	[0.50]	Public Administration
POLS*3250	[0.50]	Public Policy: Challenges and Prospects
POLS*3440*DE	[0.50]	Corruption, Scandal and Political Ethics
POLS*4250	[0.50]	Topics in Public Management
Electives - at l	east 2.50	credits must be chosen from the following:
POLS*2300*DE	[0.50]	Canadian Government
POLS*3110	[0.50]	Politics of Ontario
POLS*3210	[0.50]	The Constitution and Canadian Federalism
POLS*3270	[0.50]	Local Government in Ontario
POLS*3280	[0.50]	Modern Political Ideologies
POLS*3330	[0.50]	Politics and Trade Liberalization in the Americas
POLS*3370*DE	[0.50]	Environmental Policy Formation and Administration
POLS*3470	[0.50]	Business-Government Relations in Canada
POLS*3670	[0.50]	Comparative Public Policy and Administration

### **Co-operative Education**

The Co-operative Education option is offered in 36 majors. Co-op provides eligible students with the opportunity to alternate semesters of academic study with semesters of paid work experience. The work experience is related to the student's academic program and/or career objectives. Admission can occur directly into semester 1 from high school, or in-course (but not normally beyond Academic Semester 3).

For further details refer to information on Co-operative Education in Section X--Degree Programs. Course requirements and academic/work sequences for specific majors are listed under the appropriate degree program in Section X--Degree Programs.

## **Distance Education**

The Distance Education program, administered by the Office of Open Learning, supports academic departments in offering degree credit courses to students who choose to study outside the traditional classroom environment. Courses may come with a variety of learning resources, including: manuals, videotapes, audio CDs, DVDs, CD-ROMs, etc., depending on the nature of the course. As well, most courses incorporate computer conferencing, email, computer-based quizzes, and the use of the Internet. Distance education provides a contemporary means through which the University of Guelph continues its tradition of outreach and open learning opportunities.

Students may take distance education courses for a variety of reasons, including: to have flexibility in designing their own study schedules; to avoid timetable conflicts; to acquire credits while away on summer break or on a co-op job placement; to take courses unavailable in class in a given semester; to learn in an interactive online environment.

The University of Guelph recognizes the importance of distance learning and is committed to providing opportunities for the off-campus learner. A wide range of subject areas and course levels is available.

The following is a list of the courses that are offered in the distance format. When selecting these courses, section DE must be specified to indicate the distance education offering. Please consult Section XII--Course Descriptions. Because additional courses are constantly being developed, please consult the Office of Open Learning, 160 Johnston Hall, 519-767-5000, email: info@open.uoguelph.ca for an updated listing of courses available by distance education and when they are scheduled to be offered. Course listings are also available at www.open.uoguelph.ca.

Note:		

· Getting ready for Calculus, a non-degree credit preparatory course, is also offered via distance.

Note: Please check with the Office of Open Learning regarding the technology and resource requirements (e.g. computer, internet, VCR, DVD player, etc.) for the specific course(s) in which you are interested.

The courses have been designed and written by experts to meet rigorous standards. Clusters of courses are offered from selected areas of specialization within the University.

The Diploma in Applied Statistics, the Diploma in Public Policy and Administration, the Certificate in Communication Process, the Certificate in Food Science, the Certificate in Hospitality Studies, the Certificate in Environmental Citizenship, the Certificate in Environmental Conservation and the Certificate in Leadership are also offered in the distance education mode in whole or in part (see Certificates and Diplomas in this section for further information).

## **General Studies**

The objective of the General Studies program is to provide mature students with the opportunity to take university courses before registering in a specific degree program or to take university courses for continued learning with no immediate intention of registering in a degree program. The General Studies program does not lead towards a specific undergraduate degree at the University of Guelph. Initially, students register for part time studies only.

#### Academic Counselling

General Studies students can obtain counselling for selecting courses, and planning their future program from the B.A. Counselling Office located in Room 130 MacKinnon Building. Prospective students should contact the Admissions Section of the Office of Registrarial Services.

#### **Financial Assistance**

Students registered in 3 or more courses of the General Studies program are eligible to apply to the Ontario Student Assistance Program (OSAP) if an Ontario resident. Students who are residents of other provinces must apply to their home province for financial assistance. General Studies students are eligible to apply for OSAP assistance for a maximum of two semesters. General Studies students who transfer to a degree program may continue to apply for OSAP.

#### Schedule of Studies

- 1. Students may take any undergraduate course offered by the University, as long as any stated prerequisites are met or the approval of the instructor is obtained.
- 2. Students may take Associate Diploma courses with the approval of the Director of the Associate Diploma program.
- 3. Students will not normally be eligible to continue in the General Studies program after enrolment in 20 courses.
- 4. The grade assigned for each course will become part of the student's University academic record.
- 5. Students who register in the General Studies program and who subsequently apply for transfer to a degree or diploma program, will be required to meet admission requirements for that program, and credit granted for courses taken in the General Studies program will be subject to the regulations pertaining to that program.

#### Tuition Fees

Students are advised to refer to Section VI--Schedule of Fees.

#### **Undergraduate Regulations**

Students are referred to Section VIII--Undergraduate Degree Regulations for additional information regarding registration, course selection, withdrawal from study, continuation of study, examination policy and requests for academic consideration.

#### Graduate Studies

The University of Guelph offers graduate programs in most departments and schools. These post-baccalaureate programs offer opportunities for personal, academic and professional growth. Students with a 70% average or higher should consider and investigate these options, beginning no later than their third undergraduate year. Decisions regarding

the desired area of study and pursuit of scholarship support require forethought and planning. Information, application forms, and counselling are available through the graduate coordinators of each department/school. Students are also welcome to visit the Office of Graduate Program Services, Level 3, University Centre.

The University of Guelph offers opportunities for qualified students to do graduate work leading to the Master of Arts (M.A.), Master of Science (M.Sc.), Master of Landscape Architecture (M.L.A.), Master of Engineering (M.Eng.), Master of Science in Aquaculture (M.Sc. Aqua), Master of Business Administration (M.B.A.), Master of Fine Art (M.F.A.), Master of Science in Planning (M.Sc. Plan), Master of Applied Nutrition (M.A.N.), Doctor of Philosophy (Ph.D.), and Doctor of Veterinary Science (D.V.Sc.) degrees.

## **Interdisciplinary Studies**

The University of Guelph offers many interdisciplinary programs that cross departmental and college boundaries. In addition, specific courses and specializations have been modelled on an interdisciplinary approach to the topic or subject area.

Courses with an interdisciplinary approach and content are listed in Section XII under the following headings: Humanities, Physical Science, and Social Science as well as Interdisciplinary University Courses.

The following list of specializations is not intended to represent all the university's interdisciplinary initiatives. Instead it identifies those specializations that involve a significant degree of collaboration between departments or colleges. For further details, refer to the appropriate undergraduate degree program information in Section IX.

#### **Bachelor of Arts**

Criminal Justice and Public Policy Environmental Studies (Minor) European Studies Information Systems & Human Behaviour International Development Women's Studies

### **Bachelor of Commerce**

Agricultural Business Hotel and Food Administration Human Resources Management Management Economics in Industry & Finance Marketing Management Public Management Tourism Management **Bachelor of Science (Biological Science)** 

**Biomedical Toxicology** Earth Surface Science Environmental Toxicology Plant Biology

#### **Bachelor of Science in Environmental Sciences**

### **Open Learning**

The University of Guelph serves the learning needs of people of all ages whose educational requirements may not match the program structure or services available through full-time undergraduate study. The adoption of the philosophy of lifelong learning, changes in the demographic characteristics of our communities, the explosion of new knowledge, and the effect of rapid technological advances on professional competence are major factors underlying the University's commitment towards alternative approaches to providing education through open learning.

#### The Office of Open Learning

The Office of Open Learning is the institutional focus for distance education, continuing education, and the Open Learning program. As such, the Office of Open Learning supports departments in the development and delivery of open learning activities. Courses and programs cover a broad spectrum of learning needs which include professional updating programs and general interest/knowledge enhancing courses.

#### The Open Learning program

The Open Learning program is an open admission distance-only part-time mode of study that provides access to degree-credit university courses for individuals who wish to study independently but are not interested in pursuing a degree at the University of Guelph at the present time. You may register in the Open Learning program, even if you are in another program or are registered at another post-secondary educational institution. The Open Learning program extends the academic resources of the University to those interested in personal enrichment, professional updating, or eventual application to a degree program.

Open Learning program students must complete the same assignments and examinations as those in degree programs and are evaluated using the same standards. Upon successful

completion of a course, learners receive the same credit weight for courses as would apply to courses taken within the degree program.

## **Continuing Education Option**

Those not interested in receiving degree credit for courses may register as continuing education students. Learners taking courses in this way may not be required to complete assignments or related exams.

Further information is available from the Office of Open Learning, 160 Johnston Hall, by email: info@open.uoguelph.ca, by phone 519-767-5000 or at www.open.uoguelph.ca.

## Guaranteed Admission to a B.A. Program

Open Learning program students who have no previous post-secondary experience and have completed four courses, (2.00 credits), with a 70% minimum cumulative average may transfer into the B.A. Program at the University of Guelph.

Applicants are advised to complete two courses (1.00 credit) from the College of Arts and two courses (1.00 credit) in the Social Sciences.

## **Open Learning program Certificates and Diplomas**

Certificate in Communication Process

Certificate in Environmental Citizenship

Certificate in Environmental Conservation

Certificate in Food Science

Certificate in Hospitality Studies

Certificate in Leadership

Diploma in Applied Statistics

Diploma in Public Policy and Administration

(Refer to Certificates & Diplomas in this section for descriptions or contact the Office of Open Learning.)

## **Open Learning program Courses\***

Please refer to Distance Education in this section for a listing of courses offered through the Open Learning program.

\*please check with the Office of Open Learning regarding the technology and resource requirements (e.g. computer, internet, VCR, DVD, etc.) for the specific course(s) in which you are interested.

## **Open Learning Scholarships/Bursaries**

## **Open Learning Bursaries**

The Office of Open Learning (OOL) staff and friends have established and contribute annually to a bursary fund. These funds are intended to provide support for non-degree students, in need of financial assistance, who are wishing to enroll in an Office of Open Learning continuing education activity and/or in the Open Learning program (courses, certificates and diplomas). Apply to the Office of Open Learning by January 30th and July 30th for the following Fall and/or Winter and/or Summer semesters of study with a letter of application outlining financial need with pertinent supporting documentation Applications must be submitted to: OOL Bursary Award Committee, Office of Open Learning, University of Guelph, Johnston Hall Room 160, Guelph, Ontario, N1G 2W1.

Qualification(s): Students with the greatest financial need.

## The Malik Scholarship

Awarded in honor of retired faculty member Professor Henrick Malik, of the Department of Mathematics and Statistics in the College of Physical and Engineering Science.

Qualification(s): A student in the Open Learning program who achieves at least 80% and the highest final grade in a given year in the distance education course Statistics for Business Decisions (STAT\*2060\*DE) Amount: One award of \$150

### **Distance Education**

The Office of Open Learning facilitates the delivery of degree credit courses to students who are typically off-campus or wish to take distance courses in order to accommodate their schedules. The Office of Open Learning assists in course development and preparation and is the focal point of this activity by providing information, student support, and administration. Please refer to the Distance Education heading in this section for the listing of courses offered through the distance format.

Calendars and brochures outlining complete details of activities are available from the Office of Open Learning, Johnston Hall Room 160, 519-767-5000, info@open.uoguelph.ca, or at www.open.uoguelph.ca.

## **Continuing Education**

The Office of Open Learning annually offers over 100 professional development programs, courses, conferences, and certificates in collaboration with academic departments and/or professional organizations. For detailed information on learning opportunities offered by the Office of Open Learning contact us at tel: 519-767-5000; fax 519 767-1114; email: info@open.uoguelph.ca; website: www.open.uoguelph.ca; or visit us in Johnston Hall Room 160.

## **Certificate Program In Couple & Family Therapy Studies**

## (co-sponsored by the Ontario Association for Marriage and Family Therapy)

The Certificate in Couple and Family Therapy Studies is designed to provide practising therapists with specialized training and updating in the needs, problems and changing patterns of couple and family relationships. Systems theory is the primary, although not the only, theoretical orientation within the program. Attention to issues of gender, race, class, ethnicity and culture underlies all aspects of the program. Program faculty are clinical members of the American Association for Marriage and Family Therapy (AAMFT) and AAMFT-approved supervisors.

Courses in this program are designed to meet the education requirements for Clinical Membership in the American Association for Marriage and Family Therapy. All courses are delivered at a level of rigour equivalent to that of a Master's degree and require completion of a formal evaluation component, marked according to University of Guelph grading standards. Individuals successfully completing the required course of study will receive the Certificate in Couple and Family Therapy Studies from the University of Guelph and the Ontario Association for Marriage and Family Therapy. While completion of all six courses in the certificate program is encouraged, students are welcome to take courses for general interest or specific upgrading, provided they have adequate background and/or preparation. It is strongly recommended that students pursue a concurrent program of clinical practice and supervision. Prerequisite: A Bachelor's degree.

## **Required Courses**

Theories & Methods of Family Therapy: Foundations of the Field

Theories & Methods: Post-Modern Models

Theories & Methods of Couple Therapy

**Elective Courses (Choose 3)** 

Violence in Families

Intensive Sex Therapy Training Program

Families in Transition: Divorce, Single Parenting and Re-marriage

Change Strategies in Therapy

Research in Marriage and Family Therapy

Professional Issues in Marriage and Family Therapy

Family Therapy and Mental Health

Spirituality: A New Story in Couple and Family Therapy

Couple and Family Therapy with LGBT Clients and their Families

Systemic Approaches with the Addicted Client: Assessment and Intervention

For details and to apply visit http://www.open.uoguelph.ca/certcfts/.

## **Diploma in Agricultural Communications**

The Diploma in Agricultural Communications is designed for students looking to strengthen their ability to communicate complex issues about agriculture, agri-food, the environment and life sciences. Students will enhance and develop skills through their studies, which incorporte communication theory and applied knowledge, resulting in a more effective communicator and professional.

### **Required Courses**

Agricultural Communications Studio I

Agricultural Communications Studio II

Agricultural Communication Theory in Action

Ethics in Leadership

Agricultural Communication Internship

For details and to apply, please visit http://www.agcommunications.ca/.

## **Diploma in Human Resources Management**

Human resources management is a system of interrelated activities including training and development, compensation management, and labour relations that work towards satisfying organizational goals and objectives. Typically, managers in smaller organizations are responsible for these activities in addition to other operational responsibilities. In larger organizations, the human resources department generally has subject specialists who oversee each function area. Regardless of how the system of activities is administered, individuals responsible for managing a group of employees should have a practical understanding of management tools and techniques to effectively work with the most important resource in their organizations - their people.

The Diploma in Human Resources Management program provides essential management foundation skills and knowledge with particular emphasis on relating practitioner principles, policies and procedures to "real world" situations. Courses in the Diploma meet the HRPAO academic program requirements. This program consists of 10 courses and is designed to meet the learning needs of individuals who currently work in a human resources environment or who have ambition to do so.

### **Required Courses**

Human Resources Administration Organization and Management Finance and Accounting Concepts Occupational Health and Safety Salary Administration and Benefits Training and Development Human Resources Labour-Management Relations Human Resource Planning Recruitment and Selection **One of the following two courses by distance education**:

 PSYC\*3070\*DE
 [0.50]
 Psychology in Human Resource Management

 PSYC\*3080\*DE
 [0.50]
 Organizational Psychology

 For details and to apply, please see http://hr.open.uoguelph.ca/.

#### **English Language Certificate Program**

The English Language Certificate Program is an intensive academic English program designed to prepare ESL students aged 18 and over for academic study at the undergraduate and graduate level. Daily classes in grammar, reading, writing, listening and speaking help students achieve the advanced level English skill needed to be successful in academic studies. A student who successfully completes the Advanced level with an average of 75% earns the University of Guelph Certificate of English Proficiency. Applicants must have a minimum of intermediate level English skill, and have an academic goal to study at a university.

#### Academic Writing at the Graduate Level

This online course introduces future and current graduate students to the writing requirements of graduate study in a Western university. Students study and analyze different types (genres) of writing from the three disciplinary areas of arts, the physical and natural sciences, and the social sciences in order to better understand these texts' function, audience and organization. These texts include abstracts, research proposals and thesis chapters. Through a small selection of readings, students are also introduced to the cultural dimension of graduate study at a Western university.

#### **Graduate Preparation Program**

This intensive academic preparation program for graduate level students is designed to provide a bridge to academic and cultural life in a Western university. Classes in this two-semester program include: Academic Writing Skills, Research Skills, Oral Presentation Skills, Lecture Note-taking Skills, Critical Thinking Skills, Academic Culture and Environment, Teaching Skills for Graduate Assistants, Understanding Canadian Culture and Conversation Practice.

# Academic Writing for Teachers of English as a Foreign Language (EFL), Level 1

This online course is designed to develop and improve the writing skills of English teachers who are not native English speakers, and who are teaching English writing to students planning to study in a Western university. This course takes a functional approach to developing EFL teachers' academic writing skills through the analysis of a number of short texts to learn about different types of academic texts and their purposes. Students develop the language used to describe, reason, analyze and evaluate in a supportive, interactive multimedia environment. The course includes a cultural component as students are introduced to the teaching and learning practices and general expectations of a Western university.

#### **International Student Certificate Program**

This one-year study abroad program is designed for international university students who do not qualify for traditional university exchange programs. The three-semester program can be configured in one of three combinations of English Language Certificate Program and Open Learning program. Participants must be an undergraduate university student in their home country and should have a letter of permission to study at the University of Guelph.

#### **Equine Science Certificate**

The Certificate consists of six distance education courses taken online. This program is designed to provide horse owners and those working in the equine industry with evidence-based knowledge to improve the health and performance of horses in their care.

#### The courses are as follows:

Management of the Equine Environment

Health and Disease Prevention

Growth and Development

Functional Anatomy

Equine Nutrition

Exercise Physiology

For details and to apply, please see http://www.equinesciencecertificate.com

#### Landscape/Horticulture Online Certificate Programs

The Landscape/Horticulture Online Certificate Programs include five certificates and over 25 online/web-based courses offered by distance education. Learners may enrol in one or more individual courses or study towards one or more of the certificates.

#### **Creating Landscapes Certificate**

The Creating Landscapes Certificate is designed to provide landscape designers, contractors and gardening enthusiasts with the training and skills necessary for creating desirable outdoor living environments. The program refers to historical influences on modern landscape design and discusses the Design Process. Other topics include management principles for operating a successful business, the physical properties and uses of landscape construction material, and incorporating computer technology in creating successful designs.

#### **Required Courses:**

Landscape Design I

Landscape Design II

Introduction to Landscape Construction

Landscape Plants or Introduction to Plant Identification

Computer Assisted Design

**Business Management Principles** 

For details and to apply, please see http://www.horticulturecertificates.com/.

#### **Maintaining Golf Courses Certificate**

The Maintaining Golf Courses Certificate is designed to provide turf managers and golf superintendents with turf identification and management skills, insight into golf course design and construction techniques, tree care techniques and other best management practices related to the care of golf courses. Challenges such as maintaining healthy playing conditions while respecting environmental needs such as wildlife and water quality are also examined.

#### **Required Courses:**

Turf Management Irrigation Golf Course Design and Construction Weed Management in Turf

Arboriculture

Environmental Management of the Golf Course

For details and to apply, please see http://www.horticulturecertificates.com/.

#### The Horticulturist Certificate

This online certificate is designed especially for gardeners wishing to enhance their knowledge and skills relating to the residential garden environment. The impact of soil conditions are a critical aspect of this study program. Basic horticulture and botany are discussed as are principles of plant care for ensuring optimum health. Students will learn about common plant pests and diseases and their effective treatments. They will begin to create beautiful and hardy landscapes through innovative residential garden design tactics and strategies.

#### **Required Courses:**

Cultural Practices for Plants

Introduction to Plant Identification or Landscape Plants

Designing the Landscape

Ornamental Plant Protection

Introduction to Soils and Plant Growth

Weed Management in Horticulture

Growing Plants

For details and to apply, please see http://www.horticulturecertificates.com/.

#### **Growing Plants for Profit Certificate**

In the Growing Plants for Profit Certificate, students will learn how to effectively grow healthy crops while at the same time implementing sound business practices. Plant propagation techniques are thoroughly discussed as are the specifics of both greenhouse and nursery production. Business skills are offered to guide students through the complexities of running a profitable business operation. Plant identification techniques ensure that learners have a good understanding of the most exciting product choices.

#### Required Courses:

Commercial Floriculture

Landscape Plants or Introduction to Plant Identification

Greenhouse Management

Nursery Production

Plant Propagation

**Business Management Principles** 

For details and to apply, please see http://www.horticulturecertificates.com/.

#### Sustainable Landscapes Certificate

The Sustainable Landscapes Certificate is designed for students who wish to learn about innovative strategies which help fortify the relationships between water and land, ensuring care of both environments. Design tactics to retain or enhance naturalized landscapes will be examined. Students will gain knowledge about tree health as it relates to both the individual plant and woodland communities.

**Required Courses:** Alternative Land Use Practices for Sustainable Landscapes Landscape Plants or Introduction to Plant Identification The Naturalized Landscape An Introduction to Woodland Ecology Arboriculture For details and to apply, please see http://www.horticulturecertificates.com/. **Professional Association Affiliations** Several courses have been approved by the following associations and may be applied to each association's respective professional programs: Association of Administrative Assistants Canadian Golf Superintendents Association Canadian Payroll Association Golf Course Superintendents Association of America Human Resources Professionals Association of Ontario Industrial Accident Prevention Association Integrated Pest Management - Plant Health Care Council Ontario Association of School Business Officials Ontario Association for Marriage and Family Therapy Purchasing Management Association of Canada

## Summer Studies (Summer Semester)

Because the university operates on a three semester system, a broad range of course offerings is available in the Summer Semester (May to August). During the summer months, degree credit courses are offered in a variety of formats to meet the needs of full-time and part-time students both on-campus and off-campus. In addition to regular semester courses running from May to August, there is a summer session (May to June) when degree courses are offered in a six week format. For scheduling information consult the Undergraduate Timetable, available from the Academic Records Section, in the University Centre, Level 3.

Distance education opportunities are also available during the summer. For further details, contact the Office of Open Learning, Room 160, Johnston Hall, by email: info@open.uoguelph.ca, by phone (519) 767-5000 or http://www.open.uoguelph.ca/.

## **XII.** Course Descriptions

## **General Information**

#### **Course Labelling and Levels**

Each course is identified by a two-part code. The first part of the code refers to the subject area, the second to the level of the course. Thus, the course PSYC\*3570 is a course in the subject area of Psychology (PSYC\*XXXX), and is of a level that places it among courses in the 3000 series. The series 1000, 2000, 3000 and 4000 numbers are intended to indicate progressively more demanding content, and correspondingly increasing competence on the part of the students enrolled in the course. Courses in the 1000 series are mainly for first year students, those in the 2000 series are mainly for second year students, and those in the 3000 series are for third year students. Similarly, courses in the 4000 series are mainly intended to be taken by students in the fourth year of honours programs. It is important that students planning their courses have clearly in mind the significance of these numbers so that they may guard against undertaking course work at levels for which they are insufficiently prepared. A two-semester course (e.g. AGR\*2351/2) is taken over 2 continuous semesters and counts as 1 course attempt per semester for classification, continuation of study and calculation of fees. Two-semester courses <u>cannot</u> be split.

#### **Course Information**

The letters S, F, W indicate the University's intention to offer the course in the Summer (S), Fall (F) or Winter (W) semester during the academic year covered by this Calendar. Although courses normally will be offered in the semester indicated, students preparing their course programs are advised to consult the Undergraduate Course Timetable. The University cannot guarantee that all courses will be offered in the exact semester indicated. The letter U indicates that an intended offering has not been assigned to the course. Students should consult the Undergraduate Course Timetable posted on WebAdvisor <a href="https://webadvisor.uoguelph.ca/">https://webadvisor.uoguelph.ca/</a>> or contact the departments offering those courses to determine the semester offerings.

The figures in parentheses () following the semester designation are a general guide to the lecture and laboratory contact hours per week, the first digit being the number of lecture hours and the second, the number of laboratory hours. The credit weight for each course appears in brackets []. A credit weight of [0.50] indicates 10-12 student effort hours, including class time, on academic tasks associated with the course.

Detailed course descriptions are maintained at the office of the department offering the course. Some courses, designated "Experiential Learning" courses in the Calendar description, are deliberately designed to accommodate the need to grant academic credit for experiential learning external to regular courses, in such contexts as co-operative education, field observation/job shadowing, internship/externships, practical, service learning, or work study (and other approved experience). Prior approval for admission to these courses must be obtained from the department and instructor concerned.

Some courses are offered in the Guelph-Humber degree program and on the Humber campus only. Those courses will be identified in the course restriction information. See the University of Guelph-Humber web site at for more information about the Guelph-Humber degree programs (http://www.guelphhumber.ca/).

#### **Course Prerequisites**

In lists of course prerequisites, "or" conditions are spelled out explicitly, but "and" conditions are indicated with a comma "," . For example: "CSTU\*2270, FRHD\*2010, NUTR\*2010" means "CSTU\*2270 and FRHD\*2010 and NUTR\*2010". A number of courses have stated prerequisites which are prior requirements for entry to the course. Students who do not satisfy course prerequisites, or who in the opinion of the instructor do not possess an equivalent background to that of the stated prerequisites, are not eligible to enroll in the course. When some specific background is desirable but not required, the course description will include a statement of recommended background. It is understood that the instructor may accept equivalent courses from other institutions in place of the stated prerequisites. Students who wish to enroll in courses for which they do not have the stated prerequisite(s) must obtain instructor approval as outlined in Section VIII, Undergraduate Degree Regulations and Procedures, in this Calendar.

#### **Course Equates and Restrictions**

**Equates** - Equate indicates a course identical to the one under which it is listed. The course may have been re-numbered or may be cross-listed under two subject areas. **Students will not be permitted to register in equated courses.** 

**Restrictions** - A restriction is a "rule" that is placed on the computer system (Colleague) at the direction of an academic department so that particular students may not register in particular courses. The course may be restricted because there is sufficient over-lap in content with another course so that it is inappropriate for the student to take a similar course for credit. In a different instance, the course may be restricted by "Instructor Consent" so that the student must discuss the special requirements of the course with the instructor before enrolling. Or, alternatively, the restriction may reflect a "Priority Access" designation for enrolment management purposes. (See Priority Access).

hedonic approach and travel cost approach.	
<i>Prerequisite(s):</i> 1 of AGEC*2700, ECON*2100, ECON*2310	

#### AGEC\*4290 Land Economics F (3-0) [0.50]

The economics of property rights is applied to issues in the allocation of land among agricultural, urban and other uses: contemporary trends, problems and policies in land planning, including expropriation and regulatory takings, soil erosion policy, farmland protection policy, endangered species policy and landfills and recycling. (Offered in even-numbered years.)

Prerequisite(s): AGEC\*2700 or ECON\*2310

AGEC\*4310 Resource Economics W (3-0) [0.50]

This course explores the role of property rights and related institutions in natural resource stewardship. Potential applications of this perspective to natural resource policy, both in Canada and internationally, are considered. Classes use a discussion based approach. The learning objective for the course is the development of critical thinking skills. The readings emphasize original sources. Students are expected to conduct original research on some aspect of the role of property rights and related institutions in the resolution of a current natural resource stewardship problem.

Prerequisite(s): 1 of AGEC\*2700, ECON\*2310, ECON\*2100, instructor consent

#### AGEC\*4360 Marketing Research W (3-0) [0.50]

A study of the marketing research function in business with emphasis on its role in providing information to assist managers in making marketing decisions.

*Prerequisite(s):* 0.50 credits in statistics

#### AGEC\*4370 Food & Agri Marketing Management F (3-0) [0.50]

The course focuses on the decision making role of the marketing manager who is responsible for formulating the strategic marketing plan for food and agricultural businesses. The theory of selecting market target(s) for the firm's product and/or services and the development of the marketing mix (product, price, promotion, distribution) with the aid of market research is covered. Note: Students with credit for this course may not proceed to MCS\*1000.

Prerequisite(s):	10.00 credits including (1 of AGEC*2230, BUS*2230, COST*2600
	, MCS*2600)
Equate(s):	MCS*4370
Restriction(s):	Priority Access course. Enrolment may be restricted to particular

programs or specializations. See department for more information.

#### AGEC\*4500 Decision Science F (3-0) [0.50]

Quantitative techniques such as classical optimization, mathematical programming, simulation and input-output models are applied to firm, interregional, industry, and international problem situations in agricultural economics, including those dealing with resources and the environment. Time and risk and uncertainty dimensions are addressed.

## *Prerequisite(s):* ECON\*2770

#### AGEC\*4550 Independent Studies I S,F,W (3-0) [0.50]

A project based independent study course for majors in Agricultural Economics (of the Bachelor of Arts or Bachelor of Science in Agriculture degree programs), Agribusiness (of the Bachelor of Commerce degree program), and Environmental Economics and Policy (of the Bachelor of Science in Environmental Sciences degree program).

Prerequisite(s):	10.00 credits including 1 of AGEC*2410, AGEC*2700, AGR*2401/2
Restriction(s):	Permission of the instructor and Chair of the Department of Food,
	Agriculture and Resource Economics is required.

#### AGEC\*4560 Independent Studies II S,F,W (3-0) [0.50]

An opportunity to conduct a second independent study project for majors in Agricultural Economics (of the Bachelor of Arts or Bachelor of Science in Agriculture degree programs), Agribusiness (of the Bachelor of Commerce degree program), and Environmental Economics and Policy (of the Bachelor of Science in Environmental Sciences degree program).

 Prerequisite(s):
 10.00 credits including 1 of AGEC\*2410, AGEC\*2700, AGR\*2401/2

 Restriction(s):
 Permission of the instructor and Chair of the Department of Food, Agriculture and Resource Economics is required.

Agriculture	AGR*2500 Field Trip in International Agriculture W (3-0) [0.50]

Prerequisite(s): BIOL*1040, CHEM*1040, MATH*1080 Restriction(s): AGR*2301/2, SOIL*2010</pre>	This course is designed for students in the final year of the B.SC.(Agr.) program who wish to understand the responsibilities of professionals in agrology and the responsibilities that professional organizations have in Ontario and Canada. The course is offered in
AGR*2350 Animal Production Systems and Industry F (3-3) [0.50]	conjunction with the Ontario Institute of Agrologists and will be offered in a series of ten 3-hour evening sessions. The first three sessions will deal with the topics of
This course is designed to give students an overview of animal production systems and will consist of lectures dealing with major farm livestock species. Laboratories correlate with lectures and involve field trips, video and computer analyses of production alternatives. <i>Prerequisite(s):</i> BIOL*1030 or BIOL*1040	professionalism, ethics and professional development and utilize materials prepared jointly by the OIA and OAC Access. The remainder of the course will be comprised of discussions of ethical issues and workshops that will help students develop their personal professional development plan, improve their personal resume, and provide a framework for identifying potential professional employment opportunities.
AGR*2400 Economics of the Canadian Food System F (3-1) [0.50]	Prerequisite(s): 15.00 credits
This course introduces students to the major aspects of economics, business and resource use in the Canadian agrifood sector. Students will be exposed to the techniques used by agrifood firms to plan, invest and measure performance. Decision making under both certainty and uncertainty will be considered. Students will be shown how the market equilibrium model can be used to conduct welfare analysis and modified to account for imperfect competition and externalities. <i>Prerequisite(s):</i> AGR*1250, ECON*1050 <i>Restriction(s):</i> AGR*2401/2  AGR*2470 Introduction to Plant Agriculture F (3-3) [0.50]	AGR*4450 Research Project I S,F,W (0-12) [1.00] Independent study of a current topic in Agriculture designed to encourage senior undergraduates to conduct research in Agriculture. The course includes participation in meetings organized by the coordinator, work with a faculty advisor to develop a research project, formulate hypotheses, design and carry out preliminary experiments to test the hypotheses. Students will carry out independent library research, begin experimental work, prepare a written report and make a presentation to other students in the course of the research plan and preliminary results. Students must make arrangements with both the faculty supervisor and the course coordinator at least one semester before starting the course. Open to students in semesters 6, 7, and 8 of the B.SC. (Agr.) degree program.
The basic principles of plant morphology, nutrition, growth and development will be related to where and how agriculturally significant plants are grown. Agroecosystems and farming systems will be considered as frameworks for crop production analyses. The course uses examples from temperate, sub-tropical and tropical crops and cropping systems. Labs include problem-solving exercises in the context of plant production. <i>Prerequisite(s):</i> BIOL*1030 <i>Restriction(s):</i> AGR*2451/2	<ul> <li>This course will normally be followed by AGR*4460 to provide 2 semesters to complete the research project.</li> <li><i>Prerequisite(s):</i> Completion of semester 5 of the B.Sc. (Agr.) program, 70% cumulative average.</li> <li><i>Restriction(s):</i> AGR*4400, permission of the course coordinator (contingent on the availability and agreement of a faculty advisor)</li> </ul>

#### AGR\*4460 Research Project II S,F,W (0-12) [1.00]

Independent study of a current topic in Agriculture designed to encourage senior undergraduates to conduct research in Agriculture. The focus of this course will be the completion of the research plan developed in AGR\*4450 by the student in consultation with a faculty advisor. The course includes participation in meetings organized by the coordinator and meetings with a faculty advisor to review research progress. Students will carry out independent research, prepare a written report of the research findings in a scholarly style and make a presentation to other students in the course of the research results. Open to students in semesters 7 and 8 of the B.SC. (Agr.) degree program.

*Prerequisite(s):* AGR\*4450

Restriction(s): AGR\*4500, permission of the course coordinator and faculty advisor

#### AGR\*4500 Agrifood Industry Problem-Solving W (1-6) [0.50]

This course will provide senior level students in agricultural and related sciences with experience in working as a team to propose solutions to agrifood industry problems. The perspective of the best solution will be the agrifood system rather than any individual stakeholder group. Attention will be given to integrating material from different disciplines, further refining skills in problem-solving, and communication. Students and faculty will meet prior to the conclusion of the preceding semester to identify industry projects, student expertise, and to develop a preliminary strategy.

*Prerequisite(s):* 3.50 credits at the 3000 level or 1.50 credits at the 4000 level in any agricultural science area or agricultural business area.

## Anatomy

Department of Biomedical Sciences

For course listings and descriptions see Biomedical Sciences.

Additional course listings may be found in the course descriptions for Human Kinetics,

Veterinary Medicine and Zoology.

Animal Science	
Department of Animal and Poultry Science	ę

## ANSC\*2330 Horse Management Science F (3-2) [0.50]

An introduction to horse management designed to give those with an interest in the various segments of the horse industry a strong scientific basis for production and management decisions. The course includes study of the evolution of our current industry, the biology of growth, performance and management of the equine athlete. The evaluation of conformation as it relates to performance as well as aspects of behaviour, nutrition, reproduction and genetics consistent with the level of the course are included. Laboratories are designed to familiarize the student with current management and handling techniques in addition to augmenting information presented in lectures.

## Prerequisite(s): BIOL\*1040 or consent of the instructor

## ANSC\*2340 Structure of Farm Animals W (3-1) [0.50]

An introduction to the carcass structure of cattle, pigs, sheep and poultry. Animal growth and development are considered in relation to meat production. The course is for students intending to major in Animal Science and Animal Biology. (Also offered through Distance Education Format.)

Prerequisite(s): BIOL\*1040

## ANSC\*2360 Challenges and Opportunities in Animal Production F (2-3) [0.50]

This course consists of lecture presentations on current aspects of beef cattle, dairy cattle, swine and poultry production. Selected projects in these areas expose students to the practical application of animal science to production systems.

Prerequisite(s): AGR\*2350

AGR\*2360. Registration in B.Sc.(Agr.), B.Comm.(Ag.Bus.), or B.Sc. Restriction(s): Animal Biology.

## ANSC\*3050 Aquaculture: Advanced Issues F (3-0) [0.50]

This course examines the fundamental principles and advanced interdisciplinary issues involved in the farming of aquatic organisms. The course will concentrate primarily on finfish species due to their worldwide commercial importance. Lectures will cover fish physiology, behaviour, nutrition, genetics, water quality, health and disease, reproductive techniques, economic, political and legal issues and various culture technologies. Students will analyze contemporary challenges facing the aquaculture industry through exercises requiring interdisciplinary knowledge, lateral thinking, creative problem solving and bridging science and technology to issues management. (Offered in odd-numbered years.)

Prerequisite(s):	A minimum of 8.00 credits in biology, including AGR*2350 or
	ZOO*2090

Restriction(s): ANSC\*2200

## ANSC\*3080 Agricultural Animal Physiology F (3-1.5) [0.50]

This course is an introduction to the physiology of domesticated farm animals. The course will emphasize homeostatic control of the major body systems. The lectures cover the nervous, cardiovascular, respiratory, urinary, immune, digestive, endocrine and reproductive systems. The lectures and laboratories are closely integrated.

Prerequisite(s): BIOC\*2580

## ANSC\*3120 Introduction to Animal Nutrition F (3-2) [0.50]

The application of principles of nutrition to the development of diets and feeding programs for the various species of animals of agricultural importance.

Prerequisite(s): NUTR\*3190 or NUTR\*3210

## ANSC\*3170 Nutrition of Fish and Crustacea W (3-0) [0.50]

The nutrition of fish and crustaceans with emphasis on those species used in aquaculture. Nutritional biochemistry, nutritional pathology and comparative nutrition of cold blooded, ammonotelic animals mainly carnivorous, contrasted with warm blooded ureotelic omnivores. (Offered in even-numbered years.)

Prerequisite(s): NUTR\*3190 or NUTR\*3210 NUTR\*3340

Equate(s):

## ANSC\*3180 Wildlife Nutrition W (3-0) [0.50]

A study of the nutrition of avian and mammalian wildlife with emphasis on North American species. The role of nutrition in survival and population growth of wildlife in their natural habitat. Formulation of diets for wild species in captivity.

Prerequisite(s): NUTR\*3190 or NUTR\*3210

Equate(s): NUTR\*3350 ANSC\*3210 Principles of Animal Care and Welfare W (3-1) [0.50]

Students will be introduced to the major ethical theories that deal with humanity's duties to animals. The relationship of ethics to science will be discussed. Factors that contribute to the quality of life of animals will be considered and methods of assessing animal welfare will be described. Common causes of reduced animal welfare will be covered. The course will also deal with how different cultures approach animal welfare and attempt to regulate it.

Prerequisite(s): A minimum of 7.50 credits including AGR\*2350 ANSC\*3150 Restriction(s):

## ANSC\*3300 Animal Reproduction W (3-0) [0.50]

The course supplies basic knowledge to aid in the explanation of reproductive phenomena in domestic animals. Special attention will be given to the regulatory mechanisms of male and female fertility.

Prerequisite(s): ANSC\*3080 Restriction(s): ANSC\*4120

## ANSC\*4020 Genetics of Companion Animals F (3-0) [0.50]

This course includes theoretical and applied aspects of practical breeding programs for performance, pleasure and hobby animal populations leading to genetic improvement and population stability. Quantitative genetics and biotechnology are integrated using case studies to develop practical and sustainable breeding programs for horses, dogs, cats, rabbits and hobby livestock. Legislative requirements governing animal registration and breed development are also explored.

### Prerequisite(s): MBG\*3060

ANSC\*4050 Biotechnology in Animal Science F (3-2) [0.50]

Starting from the principles of recombinant DNA, DNA marker identification, stem cell and generation of transgenic animals, the course provides an overview on how biotechnology has impacted biomedical science and animal production. The current challenges and potential opportunities in this field are discussed.

### Prerequisite(s): MBG\*2000

## ANSC\*4090 Applied Animal Behaviour F (3-0) [0.50]

This course deals with why domesticated animals behave as they do with reference to causation, function, ontogeny and phylogeny. Basic principles are illustrated by examples taken from all the common domesticated and captive species. Emphasis is placed on the application of behavioural knowledge to improve captive environments and animal production systems. Designing housing, facilities and management procedures to suit the behaviour of the animals in question is also covered.

Prerequisite(s): ANSC\*3080 Restriction(s): ANSC\*4070

ANSC\*4100 Applied Environmental Physiology and Animal Housing W (3-0) [0.50]

Basic concepts of environmental physiology and their application to animal housing and management will be introduced. The course will review the physics of heat flow, light and air quality as they relate to animal biology and health. Other aspects, such as the physical environment, that impact on animal health and well-being will be discussed.

Prerequisite(s): ANSC\*3080 Restriction(s): ANSC\*4080

ANSC\*4130 Reproductive Management and Technology W (3-2) [0.50]

Management of reproductive events at the farm level in the major classes of domestic livestock. An introduction to modern and emerging reproductive technologies as these relate to livestock propagation.

Prerequisite(s): ANSC\*3300 or ANSC\*4120

ANSC\*4260 Beef Cattle Nutrition W (3-0) [0.50]

This course is designed for students to evaluate problems in feeding beef cattle. Relevant aspects of digestion and metabolism of nutrients as well as current issues of feeding beet cattle and diagnosing nutritional deficiencies will be included.

Prerequisite(s): ANSC\*3120

ANSC\*4160 Restriction(s):

## ANSC\*4270 Dairy Cattle Nutrition W (3-0) [0.50]

This course is designed to apply principles of dairy cattle nutrition to solving on-farm nutritionally based problems. A case study approach will be used in conjunction with computer modeling and computer ration formulation programs.

Prerequisite(s): ANSC\*3120

Restriction(s): ANSC\*4170

ANSC*4280 Poultry Nutrition F (3-0) [0.50]	ANSC*4710 Research in Animal Biology II S,F,W (0-6) [0.50]
This course is designed to evaluate nutrient requirements of poultry. Students will learn how to apply feeding programs for meat, laying birds and breeders and how feeding affects poultry meat and egg composition. <i>Prerequisite(s):</i> ANSC*3120 <i>Restriction(s):</i> ANSC*4180	This course is a continuation of ANSC*4700, Research in Animal Biology I. It allows more sophisticated projects to be undertaken or to provide an opportunity to build upon the work of ANSC*4700. Evaluation of the course requires a greater emphasis on data analysis or experimental design than for ANSC*4700. Selection of a faculty advisor and approval of course coordinator must be obtained before course selection.
ANSC*4290 Swine Nutrition F (3-0) [0.50]	Prerequisite(s): 14.00 credits Restriction(s): Registration in Animal Biology Major Instructor consent required
This course is designed to explore details of evaluating feed ingredients and formulating diets for swine. Students will use models to evaluate various aspects of nutrient partitioning for growth and reproduction in pigs. <i>Prerequisite(s):</i> ANSC*3120 <i>Restriction(s):</i> ANSC*4190	<i>Restriction(s):</i> Registration in Animal Biology Major. Instructor consent required.
ANSC*4350 Experiments in Animal Biology W (0-6) [0.50]	
This course provides an opportunity for hands-on projects involving live animals and laboratory techniques. Projects will be provided by APS faculty within their broad fields of study, for example animal behaviour and welfare, environmental physiology, endocrinology, and reproduction. Approval of the ABIO Faculty Advisor must be obtained before course selection.	
Prerequisite(s):       ANSC*3080, ANSC*3300, ANSC*4090         Co-requisite(s):       ANSC*4100, ANSC*4490         Restriction(s):       Registration in Animal Biology Major. Instructor consent required.	
ANSC*4470 Animal Metabolism W (3-0) [0.50]	
Current concepts in whole animal metabolism and the quantitative techniques used to measure whole body metabolic kinetics will be presented. Tissue and organ specific biochemical processes will be integrated with whole body control mechanisms.	
Prerequisite(s): NUTR*3190 or NUTR*3210	
ANSC*4490 Applied Endocrinology W (3-0) [0.50] This course examines the endocrine systems of farm animals and their applications to	
livestock production. Considerable emphasis will be placed upon understanding how knowledge of endocrine regulation can be applied within animal production systems.	
Prerequisite(s): ANSC*3080 Restriction(s): ANSC*4480	
ANSC*4550 Horse Nutrition W (3-0) [0.50]	
This course is designed to provide students with the most current knowledge of nutrition of horses and other domestic non-ruminant herbivores. Influence of nutrition on musculo-skeletal development and function will be emphasized.	
Prerequisite(s): NUTR*3190 or NUTR*3210 Restriction(s): ANSC*4500	
ANSC*4560 Pet Nutrition F (3-0) [0.50]	
This course covers nutrient requirements, feed formulation and nutritional idiosyncrasies for dogs, cats, and exotic pets.	
Prerequisite(s): NUTR*3190 or NUTR*3210 Restriction(s): ANSC*4510	
ANSC*4610 Critical Analysis in Animal Science W (3-0) [0.50]	
Each student will select and critically review a topic of emerging importance in animal science. The topic will be presented to the group as a written paper in journal format, as a poster, and as a formal seminar. This course is designed for students in their final year of the Animal Biology Major.	
Prerequisite(s): 12.00 credits including 2.00 in animal sciences	
ANSC*4650 Immune Mechanisms of Animals W (3-0) [0.50] Livestock and fish have developed common and unique defense strategies for resisting	
microbial and viral infections. The focus of this course is to review and compare these defense mechanisms in different tissues, and describe the significance of neuroendocrine signalling, genetic polymorphisms, nutrition and food-borne toxins, and host-microbial interaction in regulating innate and acquired immune responses and disease resistance. <i>Prerequisite(s):</i> ANSC*3080	
ANSC*4700 Research in Animal Biology I S,F,W (0-6) [0.50]	
This course is an opportunity for those students potentially interested in postgraduate studies to work with a committed faculty advisor to research a problem, analyse data and/or design experiment(s) that address a solution. Evaluation of the course requires a substantive literature review and/or data analysis. Selection of a faculty supervisor and approval from course coordinator must be obtained before course selection. <i>Prerequisite(s):</i> 14.00 credits <i>Restriction(s):</i> Registered in Animal Biology Major. Instructor consent required.	

## Anthropology

Department of Sociology and Anthropology

The Department of Sociology and Anthropology offers three types of courses: sociology courses with the prefix SOC\*; anthropology courses with the prefix ANTH\*; and departmental courses with the prefix SOAN\*.

Courses will normally be offered in the semesters designated. For information on other semesters these courses will be offered and the semesters those courses without designations will be offered, please check with the department. In addition to regularly scheduled courses, students may elect to do independent study. A student who wishes to do a reading course should first consult the professor with whom he/she wishes to work. Please note: a student is allowed a total of 1.00 credits only for reading courses.

Please note: The availability of third and fourth year seminar courses will vary. Students must check with the Department of Sociology and Anthropology to see when seminar courses are available.

#### ANTH\*1150 Introduction to Anthropology S,F,W (3-0) [0.50]

An introductory course dealing with humankind from a broad historical and cross-cultural perspective. Theoretical models, case studies and specific methods will be presented. Course topics may include the origin and transformations of human society, the relationship between biological and cultural traits, human language, variation in family structure and religion, the economic and political aspects of human society. (Also offered through distance education format.)

#### ANTH\*2160 Social Anthropology W (3-0) [0.50]

This course will cover basic concepts that contribute to various anthropological approaches to the study of culture and society, such as the case study method and participant observation. The development of theory and methods will be examined through reading selected classic and contemporary ethnographies.

Prerequisite(s): ANTH\*1150

#### ANTH\*2230 Regional Ethnography F (3-0) [0.50]

This course offers a survey of ethnographic studies on selected cultural/geographical areas of the world. Topics covered may include social, economic and political systems, the colonial encounter, and the theoretical, methodological and political contexts of ethnographic representation. Focus may be given to such areas as Latin America, Sub-Saharan Africa, Asia, or Oceania.

Prerequisite(s): ANTH\*1150 Restriction(s): ANTH\*4230

#### ANTH\*2660 Contemporary Native Peoples of Canada W (3-0) [0.50]

An analysis of the impact of Euro-Canadian society on native culture. Particular emphasis will be given to contemporary issues relating to Canadian native peoples (Indians, Inuit and Metis) such as education, treaties and reserves, land claims, government administration and economic development. (Offered in even-numbered years.)

Prerequisite(s): ANTH\*1150 or SOC\*1100

#### ANTH\*3400 The Anthropology of Gender W (3-0) [0.50]

This course will address theoretical innovation in the discipline of socio-cultural anthropology in the study of gender and feminist issues on the basis of cross-cultural ethnographic case studies. Theoretical problems such as gender inequality, complementarity, the domestic/public divide, ritual and symbolic valuations and the division of labour will be considered in the context of cultural relativity. (Offered in even-numbered years.)

Prerequisite(s): 10.00 credits including (ANTH\*2160 or SOAN\*2400), (SOAN\*2120 or WMST\*3000)

#### ANTH\*3650 Prehistory of Canadian Native Peoples F (3-0) [0.50]

This is a course in Aboriginal studies which uses archaeological, ethno-historical and contemporary research to examine the culture and social organization of First Nations peoples in Canada from their early beginnings to European contact.

Prerequisite(s): ANTH\*2160, (ANTH\*2230 or ANTH\*2660) Restriction(s): ANTH\*2650

ANTH\*3670 Indigenous Peoples: Global Context W (3-0) [0.50]

This course will focus on aboriginality as a political and cultural identity. Historical, political, and cultural similarities between indigenous peoples the world over will be traced and key issues such as assimilation, cultural survival, protection of the commons. and the environment and cultural identity within the nation state will be examined. International organizations of indigenous peoples will be considered as well as other forms of transnational assertions of common identity and resistance. (Offered in odd-numbered years.)

Prerequisite(s): (1 of ANTH\*2160, ANTH\*2230, ANTH\*2660, SOC\*2660, IDEV\*2010), SOAN\*2120

#### ANTH\*3690 History of Anthropological Thought F (3-0) [0.50]

This course offers a historical survey of the main trends in anthropological theory from the 19th century to the present.

Prerequisite(s): ANTH\*2160, ANTH\*2230, SOAN\*2120

ANTH\*3770 Kinship and Social Organization W (3-0) [0.50]

This course will deal with the theoretical implications of the study of kinship systems for an analysis of human society in general, including a comparative study of the social organization of kinship-based societies.

Prerequisite(s): ANTH\*2160, ANTH\*2230, SOAN\*2120

#### ANTH\*3840 Seminar in Anthropology F,W (3-0) [0.50]

This course will be offered as a structured seminar on various topics depending upon the interests of the faculty member teaching the course. Topics will be announced and course outlines will be available at course selection. The availability of third and fourth year seminar courses will vary. Students must check with the Department of Sociology and Anthropology to see when seminar courses are available.

*Prerequisite(s):* 10.00 credits including ANTH\*2160, SOAN\*2120

#### ANTH\*3850 Seminar in Anthropology F,W (3-0) [0.50]

This course will be offered as a structured seminar on various topics depending upon the interests of the faculty member teaching the course. Topics will be announced and course outlines will be available at course selection. The availability of third and fourth year seminar courses will vary. Students must check with the Department of Sociology and Anthropology to see when seminar courses are available.

Prerequisite(s): 10.00 credits including ANTH\*2160, SOAN\*2120

#### ANTH\*3950 Special Projects in Anthropology S,F,W (3-0) [0.50]

This special study option/reading course is designed to provide advanced undergraduates with an opportunity to explore independently the frontiers and foundations of a field of knowledge. Under supervision, the student will study in greater depth topics related to regular upper-level courses offered in the department which the student has taken or is taking. Permission of the instructor who will be supervising the study is required.

Prerequisite(s): 10.00 credits

Restriction(s): Instructor consent required. Please note, a student is allowed a total of 1.00 credits only for reading courses.

#### ANTH\*4300 Anthropological Issues F (3-0) [0.50]

Current issues and future trends in the discipline of socio-cultural anthropology will provide the subject matter of this variable content course. This course is meant to provide an opportunity for socio-cultural anthropology majors to consider the latest developments in the sub-discipline. Course topics will be announced and course outlines will be available at course selection time.

Prerequisite(s): 12.50 credits including ANTH\*3690, SOAN\*3070

ANTH\*4440 Culture, Rights and Development W (3-0) [0.50]

This course examines the theoretical and practical problems associated with respecting local cultures while also respecting human dignity universally. Various definitions of 'development' will be explored in terms of how they reflect cultural values and global inequalities.

Prerequisite(s): 12.50 credits including ANTH\*3690, SOAN\*3070

#### ANTH\*4540 Seminar in Anthropology F,W (3-0) [0.50]

This course will be offered as a structured seminar on various topics depending upon the interests of the faculty member teaching the course. Topics will be announced and course outlines will be available at course selection. The availability of third and fourth year seminar courses will vary. Students must check with the Department of Sociology and Anthropology to see when seminar courses are available.

*Prerequisite(s):* 12.50 credits including (ANTH\*3690 or SOC\*3310), SOAN\*3070

#### ANTH\*4640 Seminar in Anthropology F,W (3-0) [0.50]

This course will be offered as a structured seminar on various topics depending upon the interests of the faculty member teaching the course. Topics will be announced and course outlines will be available at course selection. The availability of third and fourth year seminar courses will vary. Students must check with the Department of Sociology and Anthropology to see when seminar courses are available.

Prerequisite(s): 12.50 credits including (ANTH\*3690 or SOC\*3310), SOAN\*3070

ANTH\*4700 Issues in Contemporary Anthropological Theory W (3-0) [0.50]

This course critically examines current anthropological theories, which may include post-structuralism, post-modernism, neo-Marxism and processual approaches. Attention may also be given to the theoretical and political implications of constructionism and calls for ethnographic reflexivity.

Prerequisite(s): 12.50 credits including ANTH\*3690, SOAN\*3070

ANTH*4740 Set	minar in Anthropology F,W (3-0) [0.50]
interests of the fa outlines will be seminar courses	be offered as a structured seminar on various topics depending upon the culty member teaching the course. Topics will be announced and course available at course selection. The availability of third and fourth year will vary. Students must check with the Department of Sociology and see when seminar courses are available.
Prerequisite(s):	12.50 credits including (ANTH*3690 or SOC*3310), SOAN*3070
ANTH*4840 Set	minar in Anthropology F,W (3-0) [0.50]
interests of the fa outlines will be seminar courses Anthropology to	be offered as a structured seminar on various topics depending upon the culty member teaching the course. Topics will be announced and course available at course selection. The availability of third and fourth year will vary. Students must check with the Department of Sociology and see when seminar courses are available.
Prerequisite(s):	12.50 credits including (ANTH*3690 or SOC*3310), SOAN*3070
ANTH*4880 Sp	ecial Projects in Anthropology S,F,W (3-0) [0.50]
with an opportun knowledge. Und regular upper-lev	y/reading course option is designed to provide advanced undergraduates ity to explore independently the frontiers and foundations of a field of er supervision, the student will study in greater depth topics related to /el courses offered in the department which the student has taken or is on of the instructor who will be supervising the project is required.
Prerequisite(s): Restriction(s):	12.50 credits Instructor consent required. Please note, a student is allowed a total of 1.00 credits only for reading courses.
ANTH*4890 Sp	ecial Projects in Anthropology S,F,W (3-0) [0.50]
with an opportun knowledge. Und regular upper-lev	y/reading course option is designed to provide advanced undergraduates ity to explore independently the frontiers and foundations of a field of er supervision, the student will study in greater depth topics related to /el courses offered in the department which the student has taken or is on of the instructor who will be supervising the project is required. 12.50 credits Instructor consent required. Please note, a student is allowed a total of
	1.00 credits only for reading courses.
	nours Anthropology Thesis I S,F,W (3-0) [0.50]
	d design of an honours thesis proposal conducted under the supervision ber. Recommended to honours major students.
Prerequisite(s): Restriction(s):	15.00 credits including ANTH*3690, (SOAN*3070 or SOAN*3120) Instructor consent required. As well as a cumulative average of 70% in all Sociology and Anthropology courses.
ANTH*4910 Ho	nours Anthropology Thesis II S,F,W (3-0) [0.50]
Completion and	presentation of honours thesis.
Prerequisite(s):	ANTH*4900 Instructor consent required.

## **Art History**

#### School of Fine Art and Music

Students with a special interest in particular courses in Art History should consult the School concerning prerequisites.

#### ARTH\*1220 The Visual Arts Today F (3-0) [0.50]

An introduction to contemporary visual culture, its current controversies and its historical roots. The avant-grade movements of the modern period and the impact of new technologies and media will be examined within a rich historical context. Topics will include international exhibitions, selling art, art and popular culture, censorship, and the relation between words and images.

#### ARTH\*1510 Art Historical Studies I F (3-0) [0.50]

This course considers the visual arts in the Western tradition from prehistory through the Middle Ages. Emphasis will be placed on historical and critical analysis of key monuments and on the prerequisite technologies, as well as on various ways of looking at the visual past and present.

#### ARTH\*1520 Art Historical Studies II W (3-0) [0.50]

A consideration of the visual arts in the Western tradition. Emphasis will be placed on historical and critical analysis of key monuments and on the prerequisite technologies, as well as on various ways of looking at the visual past and present. Focus will be on the visual arts from the Renaissance to today.

#### ARTH\*2050 Modern Latin American Art F (3-0) [0.50]

An exploration of Latin American art in the context of cultural, social and political experience, with emphasis on the work of the painter Frida Kahlo, the Mexican muralists, performance artists Guillermo Gomez-Pena and Coco Fusco, and other important contemporary artists who have represented identity, culture, and political experience as complex and multifaceted because they have lived between nations and cultures.

#### ARTH\*2060 Aboriginal Arts in the Americas W (3-0) [0.50]

An introduction to the aboriginal cultures of North, South, and Central America with special emphasis on the pre-contact period. The interdisciplinary approach will take into account recent debates about methodology, ethnocentricity, and aboriginal viewpoints.

#### ARTH\*2070 Art of the USA F (3-0) [0.50]

In art, the 20th century has been referred to as "The American Century." Artists in the USA have a tradition of creating new visual languages, of using new ideas and technologies, and of representing the vanguard. Where did these ideas originate, and how has the USA determined our notions of what art is? This survey course focuses on modern American artists, on the evolution and growth of modern visual culture, and on how technologies and societies impact on artistic taste.

#### ARTH\*2120 Introduction to Museology W (3-0) [0.50]

The course will examine the history of collections, traditions of cultural representation and display, constructions of authenticity, trade and exchange.

#### ARTH\*2150 Art and Archaeology of Greece F (3-0) [0.50]

A survey of Ancient Greek Art and Archaeology, with stress on form and function plus stylistic trends and aesthetic values. The course will illuminate the cultural, social, and political life in Ancient Greece. (Also listed as CLAS\*2150).

Equate(s): CLAS\*2150

#### ARTH\*2280 Modern Architecture W (3-0) [0.50]

An investigation of architectural theory and practice within the social and spatial complexities of national and international life.

#### ARTH\*2290 History of Photographic Media W (3-0) [0.50]

An introduction to the history of photography through to its application in contemporary visual arts.

#### ARTH\*2480 Introduction to Art Theory and Criticism F (3-0) [0.50]

This course provides an overview of some of the most significant methodological approaches and critical practices used by art historians to write about visual culture. Traditional methods of art historical analysis include connoisseurship, iconography, and formalism. With these we will be exploring newer interpretative models and multidisciplinary approaches such as structuralism, semiotics, post-structuralism, and psychoanalytic theory as well as political theories such as feminism and socio-cultural theory.

# *Prerequisite(s):* (2 of ARTH\*1220, ARTH\*1510, ARTH\*1520), (1 of SART\*1050, SART\*1060)

#### ARTH\*2490 History of Canadian Art F (3-0) [0.50]

An overview of the visual arts in Canada from the earliest times to the present, with emphasis on the diverse contributions made by the First Nations, by French and British colonization, and by subsequent settlers from a great variety of different cultural origins.

#### ARTH\*2540 Medieval Art F (3-0) [0.50]

This course considers visual arts during a period when the Christian church built a new synthesis out of the legacies of the late Roman Empire and its "barbarian invaders".

#### ARTH\*2550 The Italian Renaissance F (3-0) [0.50]

An investigation of the myths and realities of the Renaissance in the visual arts. The artists to be studied will include Giotto, Duccio, Ghiberti, Donatello, Alberti, the Bellini, Verrocchio and Michelangelo. Their careers will be placed against the theoretical beginnings of art writing and the intricate relationships of the emerging city-states of Siena, Florence, Milan, and the republic of Venice.

#### ARTH\*2580 Late Modern Art: 1900-1950 F (3-0) [0.50]

A study of the historical avant-gardes in the social and political contexts of the period 1900-1950.

#### ARTH\*2600 Early Modern Art to 1900 W (3-0) [0.50]

A study of visual culture as it was transformed by the revolutions - industrial, political, and colonial - of the eighteenth and nineteenth centuries. (Offered in even-numbered years.)

#### ARTH\*2950 Baroque Art W (3-0) [0.50]

The visual arts in an age of religious crisis and the growth of great trading empires.

## ARTH\*3010 Contemporary Canadian Art W (3-0) [0.50]

The wide range of contemporary Canadian visual arts, from painting to new technological media, from 'high' culture to punk, will be examined in the context of specifically Canadian social and historical conditions during the modern and post-modern periods. (Offered in odd-numbered years.)

Prerequisite(s): 10.00 credits including 2.00 credits in Art History.

#### ARTH\*3050 Pre-Columbian Art F (3-0) [0.50]

This course investigates the history and artistic traditions of pre-contact America with special focus on selected cultural areas. The course will bring together such perspectives as archaeology, art history and ethnography.

Prerequisite(s): 10.00 credits including 2.00 credits in Art History.

## ARTH\*3060 Public Art W (3-0) [0.50]

This course investigates what constitutes the "public" and the "private" domain in the arenas of art and visual culture. Provocative iconography, matters of race, nationality, sexuality, language, and identity in artistic practice, issues of censorship, controversial shows and exhibitions, the ethics of propriety and impropriety will be considered. Artists such as Linda Montano, Andres Serrano, Keith Haring, Annie Sprinkle, Robert Mapplethorpe and others will be discussed.

*Prerequisite(s):* 10.00 credits including 2.00 credits in Art History.

#### ARTH\*3100 Perspectives: Structure & Space in Western Art F (3-0) [0.50]

This course investigates the visual arts in Europe with special emphasis on issues of illusionism, mimesis, and the representation of space. (Offered in even-numbered years.)

Prerequisite(s): 10.00 credits including 2.00 credits in Art History.

#### ARTH\*3150 Space: Roman Art and Urbanism W (3-0) [0.50]

Roman art and urbanism from the Early Republic to the end of the imperial period. The course will survey the developments of Roman art with an emphasis in architecture, sculpture and painting. It will illuminate the development of the urban space in the context of cultural, social and political life. (Also listed as CLAS\*3150). (Offered in even-numbered years.)

*Equate(s):* CLAS\*3150 *Restriction(s):* ARTH\*3530, ARTH\*4500

## ARTH\*3200 Colour: Practice & Meanings in Western Art W (3-0) [0.50]

This course explores the role colour has played in the work of selected artists and periods. *Prerequisite(s):* 10.00 credits including 2.00 credits in Art History.

#### ARTH\*3210 Critical Issues in Art History F (3-0) [0.50]

This course investigates art and its histories. Art writing, art history, and art historical methodology will be examined through the work of key art historians, cultural critics, and philosophers such as Clement Greenberg, Rosalind Krauss, Griselda Pollock, and Jacques Derrida for example. Critical issues such as intention and reception, authorship, creativity and originality will be discussed. (Offered in odd-numbered years.)

*Prerequisite(s):* 10.00 credits including 2.00 credits in Art History.

ARTH*3220 Nationalism and Identity in Art F (3-0) [0.50]	ARTH*4060 Seminar in the Americas II F (3-0) [0.50]
This course considers issues of identity formation and representation as they intersect with the agendas and interests of the nation state. The course looks at questions of power and exclusion, theories of representation and notions of centre/periphery, cultural hybridity and border-crossing in the age of globalization. It will examine the representation of	Selected topics in the visual arts of the Americas with special emphasis on the arts in Canada and the USA. <i>Prerequisite(s):</i> A minimum of 14.00 credits including 1 of ARTH*2070, ARTH*2490

 Registration in the Bachelor of Arts and Sciences degree program.

## XII. Course Descriptions, Biochemistry

## Biochemistry

Department of Molecular and Cellular Biology

## BIOC\*2580 Introductory Biochemistry S,F,W (3-3) [0.50]

The evolution, chemical structure, and biological roles of the major molecular components of the cell: proteins, nucleic acids, lipids, and carbohydrates, enzymology, intermediary metabolism, with emphasis on catabolic processes.

## *Prerequisite(s):* CHEM\*1050 or CHEM\*2300

## BIOC\*3560 Structure and Function in Biochemistry F,W (3-0) [0.50]

This course develops the understanding of biochemical processes, by examining the enzymatic molecular mechanisms underlying specific cellular and physiological systems. Examples may include oxygen binding/transport and the evolution of globin genes/proteins; regulation of carbohydrate and lipid metabolism; proteins that change shape, including enzymes, membrane proteins, and prion proteins, blood clotting; neurotransmission.

Prerequisite(s): BIOC\*2580

## BIOC\*3570 Analytical Biochemistry S,F (3-3) [0.50]

The tools and techniques by which biological molecules are isolated, separated, identified, and analyzed. Detailed discussion of experimental methods for macromolecule purification characterization.

Prerequisite(s):(CHEM\*2400 or CHEM\*2480), BIOC\*2580Restriction(s):MICR\*3110

## BIOC\*4520 Metabolic Processes F (3-0) [0.50]

An in-depth study of the role of bioenergetics, regulation, and chemical mechanisms in carbohydrate, lipid, and nitrogen metabolism.

*Prerequisite(s):* BIOC\*3560 or BIOC\*3570

## BIOC\*4540 Enzymology W (3-4) [0.50]

A laboratory-intensive course. Enzyme active sites and the mechanisms of enzyme action; enzyme kinetics and regulation; recombinant proteins and site-directed mutagenesis as tools for understanding enzymes.

Prerequisite(s): BIOC\*3560 (may be taken concurrently), BIOC\*3570

BIOC\*4580 Membrane Biochemistry W (3-0) [0.50]

An examination at the molecular level of structure and functions of cell membranes, cell surfaces and associated structures. Topics may include: membrane lipids; membrane protein structure; membrane transporters; ATP production; cytoskeleton; cell surface carbohydrates; membrane biogenesis; signal transduction.

Prerequisite(s): BIOC\*3560 or BIOC\*3570

## Biology

Department of Human Health and Nutritional Sciences Department of Integrative Biology

Department of Molecular and Cell Biology

#### BIOL\*1020 Introduction to Biology F (3-2) [0.50]

This course will introduce important concepts concerning the organization of life on our planet, from cells to ecosystems. The dynamic and interactive nature of all living systems will be emphasized. This course will be valuable for students without 12U or OAC biology who are interested in environmental issues, medicine, advances in biotechnology and related topics.

*Restriction(s):* BIOL\*1030, BIOL\*1040, or equivalent

#### BIOL\*1030 Biology I F,W (3-3) [0.50]

A lecture and laboratory course which introduces the concepts and controversies in contemporary biology and their implications. Using an integrative approach, the course examines some of the basics of biology and two of the common challenges of life, acquisition and processing of nutrients and information flow. How these challenges are faced by animals, microbes and plants and the diversity of structures and processes that have evolved in response to them will be discussed. This is the first course in a two course biology series. When you select it, you are strongly advised to take the second course, BIOL\*1040, immediately thereafter. Material from BIOL\*1030 will be referred to in BIOL\*1040 to emphasize the integrated nature of biology. Students lacking 4U or OAC Biology should consult with their program counsellor prior to taking BIOL\*1030.

### BIOL\*1040 Biology II F,W (3-3) [0.50]

A continuation of BIOL\*1030. A lecture and laboratory course which continues with additional challenges of life faced by animals, microbes and plants and the diversity of structures and processes that have evolved in response to them. To indicate the value of biology to society, some topical issues in biology will be addressed. This is the second course in a two course biology series and should be taken immediately after successfully completing BIOL\*1030. Materials introduced in BIOL\*1030 will be built on and referred to in BIOL\*1040.

#### Prerequisite(s): BIOL\*1030

#### BIOL\*2060 Ecology F,W (3-1) [0.50]

This is a basic course that presents a discussion of the ecology of plants, animals, fungi and bacteria as individual organisms, interacting populations, communities and ecosystems. Lectures and discussion groups are used to demonstrate the tremendous difficulty of interpreting ecological data derived from field studies. The value of laboratory-based research in ecology will also be discussed. The course will be important for anyone who wishes to understand what we know and need to know about the way ecological systems work. Department of Integrative Biology. (Also offered through distance education format.)

#### *Prerequisite(s):* BIOL\*1040

#### BIOL\*2210 Introductory Cell Biology S,F,W (3-0) [0.50]

The structure and function of eukaryotic cells with emphasis on multicellular organisms. Role of subcellular structures and organelles in cellular processes of bioenergetics, division, differentiation, motility, secretion, nutrition, and communication. (Also offered through distance education format.)

Prerequisite(s): BIOL\*1040

#### BIOL\*2250 Biostatistics and the Life Sciences W (3-2) [0.50]

This course in biostatistical methods will emphasize the design of research projects, data gathering, analysis and the interpretation of results. Statistical concepts underlying practical aspects of biological research will be acquired while working through the process of scientific enquiry. Weekly computer laboratory sessions will focus on practical data visualization and statistical analysis using computer statistical packages. Simple parametric and nonparametric methods are reviewed, followed by more advanced topics that will include some or all of the following: two factor ANOVA and multiple regression, and introductions to discriminant analysis, cluster analysis, principle components analysis, logistic regression, and resampling methods. (Also listed as STAT\*2250.) Departments of Mathematics and Statistics and Integrative Biology.

Prerequisite(s):	STAT*2040 or STAT*2100
Equate(s):	STAT*2250
Restriction(s):	STAT*2050

#### BIOL\*3010 Laboratory and Field Work in Ecology F (0-6) [0.50]

This course emphasizes field and laboratory work in ecology. Students will gain experience in experimental designs, sampling, analysis and interpretation of data collected to answer ecological questions. Local field sites will be used to run in-course experiments. Critical thinking about ecological issues relevant to society will be emphasized. Department of Integrative Biology.

*Prerequisite(s):* BIOL\*1040 or STAT\*2040 *Co-requisite(s):* BIOL\*2060 or BIOL\*3110

#### BIOL\*3050 Mycology W (3-3) [0.50]

This course provides an introduction to the fungal lifestyle and to classification and evolution of the major groups of fungi, including microfungi, yeasts and other eukaryotic microbes. The characteristics of fungal cell structure, genetics and metabolism will be presented, and fungal reproduction and sporulation processes discussed with reference to the life cycles of representative forms. The ecological and economic importance of fungi will be demonstrated by considering fungal ecology, symbiotic relationships, mycotoxins and pathogenic fungi and industrial applications of fungi and yeasts. Laboratory work will provide familiarity with procedures for culturing, examining and identifying fungi and yeasts. Department of Integrative Biology and Department of Mollecular and Cellular Biology.

Prerequisite(s): BOT\*2100 or MICR\*2030
Restriction(s): BOT\*3200, MICR\*3100

#### BIOL\*3110 Population Ecology F,W (3-1) [0.50]

An exploration of the structure and dynamics of animal and plant populations. The first part of the course will focus on demographic characteristics of populations and simple models of population growth and natural regulation. The second part of the course will concentrate on a variety of population processes, including predator-prey interactions, spatial dynamics, and disease-host interactions, and consider how these processes affect population dynamics. A quantitative approach emphasizing the use of mathematical models, graphical analysis, and statistics will provide the basic conceptual framework, which will be illustrated by selected case studies. Department of Integrative Biology.

Prerequisite(s): (MATH\*1080 or MATH\*1200), STAT\*2040

#### BIOL\*3120 Community Ecology F,W (3-1) [0.50]

A course on the structure and dynamics of communities, dealing with both theoretical and applied aspects of community ecology. Emphasis is on the modern quantitative view of community ecology, and on the development of problem-solving skills. Department of Integrative Biology.

#### *Prerequisite(s):* BIOL\*3110

#### BIOL\*3130 Conservation Biology W (3-0) [0.50]

An introduction to the biological basis for the management of wild, living resources, including freshwater and marine fish and wild life. Topics will include an overview of processes related to resource population abundance and dynamics, theory and practice of sustained-yield harvesting, and conservation and restoration of endangered species and/or ecosystems. Both theoretical and applied aspects of resource management will be emphasized. Department of Integrative Biology.

Prerequisite(s): BIOL\*3110

#### BIOL\*3300 Applied Bioinformatics W (3-2) [0.50]

New molecular genetic and information technologies have enabled biologists to produce and to access large and informative data sets. This course will provide an introductory understanding of the databases and methods used in computational molecular data analysis. Topics covered will include introducing the UNIX-related operating system, reviewing major molecular databases and their structures, constructing sequence alignments, constructing phylogenies, and finding motifs and genes in biological sequences. Lab sessions will include an introduction to Unix and Perl for the biologist and hands-on use of several molecular data analysis programs.

Prerequisite(s): MBG\*2020, (STAT\*2040 or STAT\*2100)

#### BIOL\*3450 Introduction to Aquatic Environments F,W (3-3) [0.50]

An introduction to the structure and components of aquatic ecosystems, how they are regulated by physical, chemical and biological factors, and the impact of humans on these environments and their biota. Laboratory periods will centre around computer-based exercises and simulation of aquatic systems. Department of Integrative Biology. (Also offered through distance education format.)

*Prerequisite(s):* BIOL\*1040, (CHEM\*1050 or CHEM\*1310), ZOO\*2070 is strongly recommended

#### BIOL\*4050 Advanced Eukaryotic Microbiology F (3-0) [0.50]

This course will focus on several selected topics concerning yeasts, fungi, and protists. It will emphasize the ecology of fungi in natural environments, fungi pathogens of animals and plants, use of yeasts and fungi as model systems in biology, and other topics in contemporary eukaryotic microbiology. Department of Integrative Biology and Department of Molecular and Cellular Biology. (Offered in even-numbered years.)

*Prerequisite(s):* BIOL\*3050

#### BIOL\*4060 Restoration Ecology W (3-1) [0.50]

An overview of the process used to restore naturally occurring ecological systems that have been degraded by human activity. Students will review restoration projects in Canada and abroad, to become more familiar with experimental design, analysis and data management, as it is currently used in restoration ecology. Emphasis will be placed on the scientific method and the role of ecological theory. Political, social, and economic aspects of restoration will also be considered. Department of Integrative Biology.

#### *Prerequisite(s):* BIOL\*2060 or (BIOL\*3110 and BIOL\*3120)

#### BIOL\*4100 Molecular Evolution and Phylogenetics F (2-2) [0.50]

This course is designed to provide students with an appreciation for the uses of molecular data in the study of evolutionary processes. An overview of the principles of molecular data analysis using a phylogenetic approach will be given. In addition, the importance of incorporating evolutionary history into biodiversity research and other applied topics will be emphasized. Laboratory sessions will be devoted to practical training in analytical tools using specialized computer software, and for student presentation of independent research projects. The course will involve practical training in molecular data analysis using a phylogenetic approach and discussion of current topics from the primary literature. Department of Integrative Biology.

#### *Prerequisite(s):* MBG\*3000 or ZOO\*3300

#### BIOL\*4110 Ecological Methods F (3-3) [0.75]

An advanced course designed to present theoretical and practical aspects of research methods in ecology. Emphasis will be placed on experimental design, sampling, population estimation, statistical inference, and community characteristics of producers and consumers. Students will participate in research projects of their own design, and will gain experience in preparing research proposals, research papers and posters, and making oral presentations. Department of Integrative Biology.

Prerequisite(s): BIOL\*3010, BIOL\*3120, STAT\*2040

BIOL\*4120 Evolutionary Ecology W (3-1) [0.50]

An examination of common ecological circumstances faced by plants and animals and the morphological, behavioral and life history characteristics that have evolved in response. Particular emphasis will be placed on evolutionary processes and on adaptive aspects of thermoregulation, foraging strategies, spatial distribution, social and reproductive strategies. The course will emphasize both the theoretical basis and the empirical evidence for ecological adaptation. There is a 1-hour seminar each week for class discussion of selected lecture topics. Department of Integrative Biology.

Prerequisite(s): BIOL\*3110, MBG\*2000, (MBG\*3000 or ZOO\*3300)

#### BIOL\*4150 Wildlife Conservation and Management W (3-0) [0.50]

This course builds on previous courses in population and community ecology to evaluate the long-term dynamics of threatened populations in the context of human intervention. The course will also provide a "hands-on" introduction to computer modeling, with application to contemporary issues in population ecology and resource management. Lectures will be drawn from the following topics: growth and regulation of single populations, long-term persistence of ecological communities, harvesting, bio-economics, and habit modification. Department of Integrative Biology.

Prerequisite(s):BIOL\*3110 or BOT\*2050Restriction(s):ZOO\*4110

## **Biomedical Sciences**

Department of Biomedical Sciences

Some Biomedical Science courses are Priority Access Courses and enrollment may be restricted to particular programs or specializations. See department for more information. *Additional course listings may be found in the course descriptions for Toxicology and Veterinary Medicine.* 

#### BIOM\*2000 Concepts of Physiology F,W (3-0) [0.50]

An introductory course covering the fundamental integrative aspects of human physiology. The basic physiology of the cardiovascular, respiratory, gastrointestinal, nervous, endocrine, renal and reproductive systems will be discussed. (Also offered in distance education Format.)

*Restriction(s):* ANSC\*3080, BIOM\*3100, HK\*3940, ZOO\*3200, ZOO\*3210. Not available to B.Sc. Students in biological science specializations.

#### BIOM\*3000 Mammalian Neuroanatomy W (3-2) [0.50]

The basic organization of the mammalian nervous system. Includes 3 dimensional examination and dissection of the spinal cord, brain stem, cerebellum and cerebral hemispheres and study of serial sections. Emphasis is on the morphological basis of function.

Prerequisite(s): 1 of BIOL\*1040, PSYC\*2410, equivalent

BIOM\*3010 Laboratory Animal Anatomy F (2-3) [0.50]

The anatomy of common laboratory animals including primates. Emphasis is placed on similarities of the basic mammalian plan. Functional differences are considered. An introduction to avian anatomy is included.

Prerequisite(s): BIOL\*1040

#### BIOM\*3030 Biomedical Histology F (3-3) [0.75]

This histology course is designed for students with interests in Bio-Medical Sciences and Toxicology. Basic tissue types and major organ systems, will be examined focusing on structural/functional relationships. Human and common experimental mammals will be emphasized.

#### *Prerequisite(s):* BIOL\*2210, BIOC\*2580

*Restriction(s):* Priority Access Courses. Enrolment may be restricted to particular programs or specializations. See department for more information.

## BIOM\*3040 Medical Embryology W (2-3) [0.50]

The patterns and principles of fertilization and normal embryonic and fetal development of mammalian organ systems are covered with a focus on the medical implications. The teratology of structural and functional prenatal anomalies in development is mentioned.

Prerequisite(s): BIOL\*1040 (an anatomy course is recommended)

#### BIOM\*3090 Principles of Pharmacology W (3-0) [0.50]

This course will introduce students to the basic principles of pharmacology. Topics to be covered include pharmacokinetics and drug-receptor interactions as well as the mechanism of action and toxicity of drugs acting on the cardiovascular and central nervous system.

*Prerequisite(s):* BIOC\*2580, (1 of BIOM\*3100, HK\*3940, ZOO\*3200) *Co-requisite(s):* if BIOM\*3100 taken, BIOM\*3110

BIOM\*3100 Mammalian Physiology I F (3-0) [0.50]

The first part of a two-semester sequence. A series of lectures concerning the normal functioning of the body treating in a detailed manner the physiology of the nervous, endocrine, and reproductive systems.

Prerequisite(s): BIOC\*2580

#### BIOM\*3110 Mammalian Physiology II W (3-0) [0.50]

This second lecture course in mammalian physiology deals with the cardiovascular and digestive systems and with homeostasis as reflected in respiratory and renal function.

*Prerequisite(s):* BIOM\*3100 or HK\*3940

#### BIOM\*3120 Laboratory Exercises in Mammalian Physiology W (0-3) [0.25]

A series of laboratory exercises in which the students measure cardiovascular, neuromuscular and respiratory parameters on themselves using a computer based acquisition system. These exercises complement the lectures in BIOM\*3100, BIOM\*3110, and HK\*3940.

*Prerequisite(s):* BIOM\*3100 or HK\*3940 *Co-requisite(s):* BIOM\*3110

#### BIOM\*4010 Teratology F (2-3) [0.50]

The principles and practices of the study and analysis of birth defects in individuals and populations will be examined through lectures, lab projects and seminars. An on-going theme is the medical, social and moral/ethical impact of birth defects and testing for teratogenic safety.

*Prerequisite(s):* (1 of BIOM\*3010, HK\*3402, ZOO\*2090), (BIOM\*3040 or ZOO\*2100), (BIOM\*3120 or HK\*3940 )

## BIOM\*4020 Physiology of Digestion F (3-1) [0.50]

A comparative study of the function and control of the mammalian digestive system with an emphasis on domestic species and on the human. (Offered in even-numbered years.)

*Prerequisite(s):* 1 of BIOM\*3110, HK\*3940, ZOO\*3210, or instructor consent.

#### BIOM\*4030 Endocrine Physiology W (3-0) [0.50]

The course is designed to provide a senior level introduction to the endocrine discipline, focusing largely on mammals, with some examples taken from other vertebrate taxa. The course will give an introduction to the historical developments in the discipline, explore the actions of hormones and other chemical signalling pathways, examine processes of hormone synthesis and secretion. The focus of the course will be the integrative nature of hormone actions in the regulations of various physiological processes in animal systems, such as metabolic control, growth, and reproduction. The course will also explore aspects of "non-classical" endocrinology, endocrine dysfunctional states and emerging environmental concerns related to endocrine dysfunction.

Prerequisite(s): BIOC\*2580, [1 of BIOM\*3110, HK\*3940, (ZOO\*3200, ZOO\*3210)]

#### BIOM\*4050 Biomedical Aspects of Aging F (3-0) [0.50]

Aging is accompanied by alterations in the physiological and biochemical functioning of body organ systems. The relationship between aging and the cardiovascular, respiratory, digestion/nutrition and reproductive systems will be discussed as will homeostatic functions associated with bone metabolism and fluid balance.

*Prerequisite(s):* BIOM\*3110 or HK\*3940

#### BIOM\*4090 Pharmacology F (3-0) [0.50]

Topics covered in this course include drugs used in the treatment of inflammatory, allergic, hormonal, infectious, neoplastic and hemorrhagic/thromboembolic disease. The focus will be on drug targets and mechanisms of action that explain therapeutic and toxicological effects.

*Prerequisite(s):* BIOM\*3090

#### BIOM\*4110 Mammalian Reproductive Biology F (2-2) [0.50]

This multidisciplinary course provides an introduction to various aspects of mammalian reproduction of medical and veterinary significance. The course will cover the normal physiology and gross and micro anatomy of the female and male reproductive systems including the brain. Placentation will also be addressed. The impact of the normal biology on social issues will be discussed.

*Prerequisite(s):* (1 of BIOM\*3010, HK\*3402, ZOO\*2090), (BIOM\*3030 or ZOO\*3000), (1 of BIOM\*3110, HK\*3940, ZOO\*3210)

BIOM\*4120 Mammalian Reproductive Biotechnologies W (2-2) [0.50]

This course examines medically significant aspects of applied mammalian reproduction in detail. The pre-clinical medical disciplines will provide the basis for the analysis of key reproductive processes, which will be presented in the context of modern techniques and applications of reproductive manipulation and biotechnologies, and the ethical problems they pose.

#### Prerequisite(s): BIOM\*3040, BIOM\*4110, ZOO\*2100

#### BIOM\*4420 Research Modules W (0-6) [0.50]

This course is taught as a series of modules on various research topics, techniques and approaches that are current in laboratories of the Departments of Biomedical Sciences and Human Health and Nutritional Sciences. This course is primarily aimed at students in the Neurosciences, Biomedical Sciences, Human Kinetics and Nutritional and Nutraceutical Sciences programs, who prefer a more structured approach to their hands-on research experience.

Prerequisite(s):	14.00 credits. Recommended: HK*4410
Equate(s):	HK*4420
Restriction(s):	BIOM*4510, BIOM*4521/2, HK*4360, HK*4371/2. Instructor consent
	required.

Prerequisite(s): BIOM\*4521.

# Botany

Department of Integrative Biology

Department of Molecular and Cellular Biology

Additional course listings may be found in the course descriptions for Biology and Plant Biology.

Senior students are encouraged to inquire about graduate courses, particularly in the areas of Vascular Plant Systematics and Morphology, that can be taken for credit.

#### BOT\*1200 Plants and Human Use W (3-0) [0.50]

This course will examine past and present interactions between humans and plants with emphasis on major changes in civilization and cultures as a result of these interactions. The approach will be to consider several case studies of how unique structural and chemical properties of various plant organs have played a role in their use by humans. Not an acceptable course for students in B.SC. Biological Sciences Programs. (Also offered through distance education format.)

Restriction(s): BIOL\*1030, BIOL\*1040

#### BOT\*2000 Plants, Biology and People F (3-1) [0.50]

The course deals with the biology of plant species of historical and cultural importance. It will focus on plants used as a source of drugs, herbal medicines, industrial raw materials, food products, perfumes and dyes. Examples of plant products that will be looked at include cocaine, chocolate, tea, opium, hemp and ginseng. The relevant morphology, physiology, distribution and ethnobotany of these plant species will be discussed.

*Prerequisite(s):* BIOL\*1040 *Restriction(s):* BOT\*1200

#### BOT\*2030 Plants in the Ontario Landscape F (3-3) [0.50]

In this course you will learn to identify plants and their habitats in the Ontario landscape. In addition, you will apply methods typically used for field studies in plant biology. Through a series of field exercises, this course will foster an appreciation of local natural areas and provide a foundation for further studies and careers in ecology and environmental assessment.

*Prerequisite(s):* BIOL\*1040

#### BOT\*2050 Plant Ecology F (3-3) [0.50]

This course supplies the tools needed to assess plant populations and communities quantitatively. Field work is carried out at semi-natural sites on campus to provide practical experience in data collection. These data are analyzed to address conceptual and practical issues raised in lectures. This course is especially valuable for students interested in plant or wildlife biology and in environmental management.

*Prerequisite(s):* BIOL\*1040

#### BOT\*2100 Life Strategies of Plants F,W (3-3) [0.50]

This course introduces the structures and processes used by plants in the greening of our planet, and how and why plants are basic to the functioning of the biosphere. This course includes hands-on experience in examining the cells, tissues and architectures of plants as well as selected processes of plant function.

Prerequisite(s): BIOL\*1040

#### BOT\*3310 Plant Growth and Development W (3-3) [0.50]

The unique function and structure of plants is explored in relation to their growth, survival and adaptation to the environment. The control of growth and development by environmental and hormonal signals is explained through lectures and "hands-on" laboratories.

*Prerequisite(s):* BIOL\*1040

### BOT\*3410 Plant Anatomy F (3-3) [0.50]

The intricate internal structure of plants is explored in this course. The development, pattern and significance of cells, tissues and organs will be emphasized as well as the histological and microscopical methods used to study them. The lab emphasizes interpretation of plant structure as it relates to function.

*Prerequisite(s):* BIOL\*1040

#### BOT\*3710 Classification and Morphology of Seed Plants W (3-3) [0.50]

The interpretation of floral and vegetative morphology for purposes of classification and identification of flowering plants and conifers; flower and cone structure as related to function; principles of plant classification, fundamentals of nomenclature and economic importance of selected plant families are covered. Labs stress interpretation of plant form and plant identification at the ranks of family to species by use of a key to the flora of North-Eastern North America.

Prerequisite(s): BOT\*2100

#### BOT\*4380 Metabolism in the Whole Life of Plants W (3-0) [0.50]

This course follows the developmental changes that take place in plants, and explores the molecular, biochemical and physiological mechanisms that are responsible for development. Emphasis will be placed on the importance of modern experimental methods and critical evaluation of data.

Prerequisite(s): BIOL\*1040, BIOC\*2580

# CHEM\*3870 Symmetry and Spectroscopy W (3-3) [0.50] Elementary group theory with applications to molecular spectroscopy. (Offered in odd-numbered years.) Prerequisite(s): CHEM\*2070, (MATH\*2150 or MATH\*2160) CHEM\*4010 Chemistry and Industry W (3-0) [0.50] This course examines industrial processes for the production of organic and inorganic chemicals. The environmental impact and the challenges of a large-scale operation will be considered alongside the actual chemical processes involved. Prerequisite(s): (CHEM\*2300 or CHEM\*2700), (CHEM\*3430 or TOX\*3300), (MATH\*1210 or MATH\*2080) CHEM\*4400 Advanced Topics in Analytical Chemistry W (3-0) [0.50] Recent developments in instrumental methods of chemical analysis. A typical selection will include topics from the areas of surface analysis and the applications of lasers in chemical analysis. Prerequisite(s): CHEM\*3430 or CHEM\*3450 CHEM\*4620 Advanced Topics in Inorganic Chemistry F (3-0) [0.50] A contemporary treatment of subjects of current interest in modern inorganic chemistry. Possible topics include solid state chemistry and organometallic chemistry. Prerequisite(s): CHEM\*3650 CHEM\*4630 Bioinorganic Chemistry W (3-0) [0.50] The role and importance of transition metal systems in biological processes. (Offered in odd-numbered years.) Prerequisite(s): BIOC\*2580, CHEM\*3650 (may be taken concurrently) Co-requisite(s): CHEM\*3650 CHEM\*4720 Organic Reactivity W (3-0) [0.50] Introduction to physical organic chemistry, including discussion of reactive intermediates, substituent effects, medium effects, the mechanisms of organic reactions and the theoretical description of the bonding in organic molecules. (Offered in even-numbered years.) Prerequisite(s): CHEM\*3760 (may be taken concurrently) CHEM\*4730 Synthetic Organic Chemistry F (3-0) [0.50] Introduction to synthetic organic chemistry, including discussion of retrosynthetic analysis, natural products and organic reactions. The integration of these topics for the rational design of synthetic schemes will also be discussed. Prerequisite(s): CHEM\*3760 or XSEN\*4020 CHEM\*4740 Topics in Bio-Organic Chemistry F (3-0) [0.50] This course covers the principles, methods and techniques of current bio-organic chemistry with emphasis on modern synthetic and analysis methods applied to biological molecules, a molecular based approach to structure recognition, and an introduction to molecular modeling and drug design. Prerequisite(s): BIOC\*2580, CHEM\*3750 CHEM\*4880 Topics in Advanced Physical Chemistry W (3-0) [0.50] Selected topics in advanced physical chemistry. (Offered in even-numbered years.) Prerequisite(s): (CHEM\*2820 or PHYS\*3240), (CHEM\*3860 or PHYS\*3230) CHEM\*4900 Chemistry Research Project I S,F,W (0-9) [0.75] Research project and seminar in chemistry. This course is designed to provide senior undergraduates with an opportunity to conduct research in an area of chemistry. Students must make arrangements with both a faculty supervisor and the course coordinator prior to registration. Students cannot choose a supervisor with whom they already have research experience in another capacity (e.g. a summer research position). Students should note that most projects are of two semesters' duration, and should plan their studies on the expectation that they will also register in CHEM\*4910 in a subsequent semester. Prerequisite(s): 5.00 credits in chemistry including 1.50 credits from (CHEM\*3430 or CHEM\*3450), CHEM\*3640, CHEM\*3650, CHEM\*3760, CHEM\*3870 Restriction(s): Instructor consent required. CHEM\*4910 Chemistry Research Project II S,F,W (0-9) [0.75] Research project and seminar in chemistry . Students must make arrangements with both a faculty supervisor and the course coordinator prior to registration. Prerequisite(s): CHEM\*4900 Restriction(s): Instructor consent required.

Classical Studies	CLAS*3070 History of the Hellenistic World (in Greek) F (6-0) [1.00]
School of Languages and Literatures Unless otherwise noted, these courses do not require a knowledge of the Greek or Latin	This course augments CLAS*3020 for Classical Languages students through the reading and study in Greek of selected Greek sources pertaining to the history of the Hellenistic World, primarily Polybius and Plutarch. (Offered in odd-numbered years.)
languages. CLAS*1000 Introduction to Classical Culture F,W (3-0) [0.50]	Prerequisite(s): GREK*2020
A wide-ranging look at essential features of Greek and of Roman culture and society.	Restriction(s):       Registration in Classical Languages.         CLAS*3080 Epic Heroes and Poems (in Greek) W (6-0) [1.00]
Considerable emphasis will be given to the classical views of the human condition.	This course augments CLAS*3030 for Classical Languages students through the reading
CLAS*2000 Classical Mythology W (3-0) [0.50] An examination of the nature and function of myth in Classical Antiquity. The course shows how the narrative and symbolic structure of myths orders individual and communal experience. The myths that have influenced Western civilization receive special emphasis.	in Greek of selected books from the Iliad and/or Odyssey. The course will include close study of the epic dialect and features of its formulaic language.(Offered in odd-numbered years.) <i>Prerequisite(s):</i> GREK*2020
CLAS*2150 Western Art: Greece F (3-0) [0.50]	Restriction(s): Registration in Classical Languages.
A survey of Ancient Greek Art and Archaeology, with stress on form and function plus stylistic trends and aesthetic values. The course will illuminate the cultural, social, and political life in Ancient Greece. (Also listed as ARTH*2150). <i>Equate(s):</i> ARTH*2150	CLAS*3090 Greek Tragedy and Comedy (in Greek) W (6-0) [1.00] This course augments CLAS*3040 for Classical Languages students through the reading and study in Greek of an extant play. Offered in even-numbered years.) <i>Prerequisite(s):</i> GREK*2020
CLAS*2350 The Classical Tradition W (3-0) [0.50]	Restriction(s): Registration in Classical Languages.
This course examines the transmission of Graeco-Roman culture in circumstances radically different from those in which it originated. It highlights the aspects of classical culture most influential in forming the Western tradition. (Offered in odd-numbered years.) <i>Prerequisite(s):</i> CLAS*1000 or CLAS*2000	CLAS*3100 Religion in Greece and Rome F (3-0) [0.50] An examination of the varieties of religious experience and of religious activity in Greece and Rome, before the establishment of Christianity. Particular attention is paid both to the relations of religion to state and to the relations of the individual to gods. (Offered in even-numbered years.)
CLAS*2360 The Classical Tradition (in Latin) W (6-0) [1.00]	Prerequisite(s): CLAS*1000 or CLAS*2000
This course augments CLAS*2350 for Classical Languages students through the reading and study in Latin of certain primary sources, in particular Cicero, Quintilian, Augustine. (Offered in odd-numbered years.) <i>Prerequisite(s):</i> LAT*2000	CLAS*3120 Religion in Greece and Rome (in Latin) F (6-0) [1.00] This course augments CLAS*3100 for Classical Languages students through the reading and study of Latin primary sources. (Offered in even-numbered years.)
Restriction(s): Registration in Classical Languages.	Prerequisite(s): LAT*2000
CLAS*3000 The Rise and Fall of Athens F (3-0) [0.50] Greek history in the 5th century; the development of Athenian democracy; the	Restriction(s):       Registration in Classical Languages.         CLAS*3150 Space: Roman Art and Urbanism W (3-0) [0.50]
Peloponnesian War and the decline of Athenian dominance. Special attention is paid to the literature and thought of the period. (Offered in even-numbered years.) <i>Prerequisite(s):</i> 1 of CLAS*1000, CLAS*2000, HIST*2850 <b>CLAS*3010 The Roman Revolution W (3-0) [0.50]</b>	Introduction to Roman art and urbanism from the Early Republic to the end of the imperial period. The course will survey the developments of Roman art with an emphasis on architecture, sculpture and painting. It will illuminate the development of the urban space in the context of cultural, social and political life. (Also listed as ARTH*3150). (Offered in even-numbered years.)
An examination of the collapse of the Roman Republic and the development of the	Equate(s): ARTH*3150
Imperial government under Augustus. The paradox of the external power and inner instability of Rome. (Offered in even-numbered years.)	CLAS*3200 Sport in Antiquity F (3-0) [0.50]
<i>Prerequisite(s):</i> 1 of CLAS*1000, CLAS*2000, HIST*2850	The history of sport in Greece and Rome from Homer to the Caesars, with emphasis on its relationship to religion, education, literature, and community life. (Offered in
CLAS*3020 History of the Hellenistic World F (3-0) [0.50] The rise and fall of the Hellenistic states from the death of Alexander the Great until the	odd-numbered years.)
Roman conquest, with political emphasis on the development of the monarchies and cultural emphasis on the Hellenization of the East. (Offered in odd-numbered years.)	Prerequisite(s):       CLAS*1000, CLAS*2000         CLAS*3750 Greek Myth in the Western Tradition F (3-0) [0.50]
Prerequisite(s): 1 of CLAS*1000, CLAS*2000, HIST*2850	This course will study the functions of Greek myths in the non-Greek cultures which
CLAS*3030 Epic Heroes and Poems W (3-0) [0.50] The nature and significance of the epic hero. Epic as code and as critique of tradition. Oral poetry, and critical problems raised by it. The central texts are The Iliad, The Odyssey, and Virgil's Aeneid; other poems are also studied. (Offered in odd-numbered	adopted them and so transmitted them to the later general culture of the West. The period to be explored extends from Augustan Rome through the European Middle Ages to the Early Renaissance in Italy. (Offered in even-numbered years.) <i>Prerequisite(s):</i> CLAS*2000
years.)	CLAS*4000 Novel and Romance in Antiquity F (3-0) [0.50]
Prerequisite(s): CLAS*1000 or CLAS*2000	The historical and formal roots of fiction in the classical prose romances. Special attention is paid to the influence of myth, religion, historiography and ethical biography. Among
CLAS*3040 Greek Tragedy and Comedy W (3-0) [0.50] The nature of tragedy, and the existential and moral questions raised by the plays of Aischylos, Sophokles, and Euripides. Comedy, fantasy, and society in Aristophanes.(Offered in even-numbered years.)	texts studied are Daphnis and Chloe, Satyricon, and Aithiopika. (Offered in odd-numbered years.) <i>Prerequisite(s):</i> CLAS*3030 or CLAS*3040
Prerequisite(s): CLAS*1000 or CLAS*2000	CLAS*4010 Novel and Romance in Antiquity (in Latin) F (6-0) [1.00] This course augments CLAS*4000 for Classical Languages students through the reading
CLAS*3050 The Rise and Fall of Athens (in Greek) F (6-0) [1.00]	and study in Latin of an extant novel. (Offered in odd-numbered years.)
This course augments CLAS*3000 for Classical Languages students through the reading and study in Greek of selected primary sources, such as Herodotus, Thucydides, and	Prerequisite(s): LAT*2000 Restriction(s): Registration in Classical Languages.
Plutarch. (Offered in even-numbered years.) <i>Prerequisite(s):</i> GREK*2020	CLAS*4150 Research Paper in Classics F,W (3-0) [0.50]
Restriction(s): Registration in Classical Languages.	This course is intended to complement courses in specified studies in classics. It engages the student in research and in critical writing, and permits the examination, in depth, of
CLAS*3060 The Roman Revolution (in Latin) W (6-0) [1.00]	a topic of importance to the discipline and of interest to the student.
This course augments CLAS*3010 for Classical Languages students through the reading and study in Latin of selected primary sources, notably Sallust, Cicero, Caesar, and Suetonius.(Offered in even-numbered years.) <i>Prerequisite(s):</i> LAT*2000	<i>Prerequisite(s):</i> 1.50 credits in Classical Studies courses at the 3000 level
Restriction(s): Registration in Classical Languages.	
Last Revision: January 28, 2008	2007-2008 University of Guelph Undergraduate Calendar

# CLAS\*4400 Seminar in Classics W (3-0) [0.50]

A seminar course complementing courses of specific study in classics. It seeks to define the nature of the discipline, its values and its procedures. Attention will be paid to recent methodological and ideological trends in the discipline.

*Prerequisite(s):* 1.50 credits in Classical Studies at the 3000 level

### 393

Computing and I	Information	Science
-----------------	-------------	---------

# Department of Computing and Information Science

Note: Credit may be obtained for 1 of CIS\*1000 or CIS\*1200. Students with credit for MCS\*2020 may not register in CIS\*1000 or CIS\*1200 Students who major or minor in Computing and Information Science may not receive credit for the following courses unless taken to satisfy the requirements of another program: MCS\*2020, MATH\*1050.

# CIS\*1000 Introduction to Computer Applications S,F,W (3-2) [0.50]

A survey of computer systems and software. An introduction to computer programming and data organization. An emphasis on using application packages for personal and business use. The social impact of computing. Not recommended for students with previous computer science background. Cannot be taken for credit by students taking a major or minor in Computing and Information Science.

Restriction(s):	CIS*1200, MCS*2020, Not available to students registered in B.A.Sc.
	Program (Applied Human Nutrition major)

CIS\*1200 Introduction to Computing F,W (3-2) [0.50]

An introduction to computer hardware and software, data organization, problem-solving and programming. Exposure to application packages for personal and business use. For students who wish a balance between programming and the use of software packages. Cannot be taken for credit by students taking a major or minor in Computing and Information Science.

# Restriction(s): MCS\*2020, CIS\*1000

# CIS\*1500 Introduction to Programming F,W (3-2) [0.50]

Introductory problem-solving, programming and data organization techniques required for applications using a general purpose programming language. Topics include control structures, data representation and manipulation, program logic, development and testing. For students who require a good understanding of programming or are planning on taking additional specialist Computing and Information Science courses. This is the entry point to all CIS programs. (Also offered in distance education format.)

# Restriction(s): CIS\*1650

# CIS\*1900 Discrete Structures in Computer Science W (3-2) [0.50]

Provides a foundation in finite mathematics which is required for further computer science courses. Abstract representation of structures and algorithms. Topics include graph theory, logic, and set theory. (Also offered in distance education format.)

Restriction(s): CIS\*1910, CIS\*2910

# CIS\*1910 Discrete Structures in Computing I W (3-2) [0.50]

An introduction to discrete structures and formal methodologies used in computer science, including Boolean, prepositional and predicate logic, finite set theory, functions, relations, and proof techniques.

Restriction(s): CIS\*1900

# CIS\*2030 Structure and Application of Microcomputers S,F (3-3) [0.50]

Components of a computer system, including memories, CPU, buses, and input/output subsystems and interface hardware. Instruction sets, addressing modes, assembly/machine language programming. Development of algorithms for data acquisition, display, and process control.

Prerequisite(s): (CIS\*1900 or CIS\*1910), (CIS\*2500 or CIS\*2650)

# CIS\*2100 Scientific Computing and Applications Development S,F (3-2) [0.50]

This course is intended to introduce the student to techniques in modern applications development using current technologies and practices. The emphasis of the first part of the course ranges from building and maintaining WEB sites to search engines and multimedia presentations. The second part of the course is concerned with building and maintaining simple databases as needed for the management of scientific data. This is done in conjunction with packages for mathematical and statistical analysis, and presentation techniques. Cannot be taken for credit by students taking a major or minor in Computing and Information Science.

Prerequisite(s): 1 of CIS\*1000, CIS\*1200, CIS\*1500

CIS\*2430 Object Oriented Programming S,F (3-2) [0.50]

Introduces the Object Oriented (OO) approach to programming and algorithm design. Topics will include the creation and use of objects from class libraries, user defined objects, inheritance, modularity, generic code, components, collections and containers, and an introduction to OO design methodologies.

Prerequisite(s): CIS\*2500

# CIS\*2460 Modelling of Computer Systems F (3-2) [0.50]

Discrete simulation based on event queues. Random number generation. How to generate input data, measure and evaluate results using standard statistical tests. Model calibration and validation. Algebraic, probabilistic and simple queuing models of software and hardware operation.

Prerequisite(s): CIS\*2500, CIS\*2910, (STAT\*2040 or STAT\*2100)

# CIS\*2500 Intermediate Programming W (3-2) [0.50]

How to interpret a program specification and implement it as reliable code. Experience with pointers, complex data types, and important algorithms. Intermediate tools and techniques in problem-solving, programming and program testing.

Prerequisite(s):CIS\*1500Equate(s):CIS\*2650

# CIS\*2520 Data Structures S,F (3-2) [0.50]

Basic data structures: stacks, queues, lists, trees, hashing, search trees, and graphs. Their representation, uses, and algorithms for their traversal and manipulation. The emphasis is on using these structures in implementations and assessing the relative effectiveness of alternative implementations.

 Prerequisite(s):
 (CIS\*1910 or CIS\*1900), CIS\*2500

 Co-requisite(s):
 CIS\*2910

 Equate(s):
 CIS\*2420

CIS\*2750 Software Systems Development and Integration W (3-2) [0.75]

Techniques and tools used in the development of large software systems. Methods for organizing and constructing modular systems, manipulating files, an introduction to interface design, and use of databases. Software tools for managing projects, database connectivity, configuration management, and system application programmer interfaces.

*Prerequisite(s):* CIS\*2430, CIS\*2520 *Restriction(s):* CIS\*2450

CIS\*2910 Discrete Structures in Computing II S,F (3-2) [0.50]

Introduces graph theory, combinatorics and other discrete structures used in computer science, including graph representations, traversal and simple graph algorithms, trees, counting strategies, summations, and an introduction to finite probability, recursion, and finite state machine models.

*Prerequisite(s):* CIS\*1500, CIS\*1910 *Restriction(s):* CIS\*1900

# CIS\*3000 Social Implications of Computing F (4-0) [0.50]

This course focuses on social, ethical, legal and managerial issues in the application of computer science to the information technology industry. Through seminars and case studies, human issues confronting Computer Science professionals will be addressed.

Prerequisite(s): 2.00 credits in CIS courses

# CIS\*3110 Operating Systems W (3-1) [0.50]

Operating Systems in theory and practice. Components in a system: scheduling and resource allocation; process management, multi-programming, multi-tasking; I/O control and file systems; mechanisms for client-server computing. Examples from contemporary operating systems.

Prerequisite(s): (CIS\*2500 or CIS\*2650). Recommended (CIS\*2030 or ENGG\*2410).

# CIS\*3120 Digital Systems S,W (3-2) [0.50]

Boolean algebra, minimization of Boolean expressions. Design of combinational and sequential logic circuits. Memory design. Control, ALU, bus design. Microprogramming and CPU design.

Prerequisite(s): CIS\*2030

# CIS\*3210 Computer Networks F (3-1) [0.50]

This course covers the high-level (protocol) oriented aspects of computer networks, specifically: application, session, transport and network layers. It includes the internet, socket-level programming, multimedia and quality of service issues. The hardware aspects (switches, LANs, modems, transmission paths) are covered at only a functional level.

Prerequisite(s): CIS\*3110

Restriction(s): CIS\*4200

# CIS\*3460 System Simulation F (3-2) [0.50]

Simulation model classification. Continuous and discrete languages. Process and transaction oriented systems. GPSS: entities, processing logic, chains, queue disciplines. Random number generators. Design and optimization of simulation applications and validation techniques.

Prerequisite(s): (CIS\*2420 or CIS\*2520), CIS\*3110, STAT\*2040

# CIS\*3490 The Analysis and Design of Computer Algorithms S,W (3-2) [0.50]

The design and analysis of efficient computer algorithms: standard methodologies, asymptotic behaviour, optimality, lower bounds, implementation considerations, graph algorithms, matrix computations (e.g. Strassen's method), NP-completeness.

*Prerequisite(s):* (CIS\*1900 or CIS\*2910), (CIS\*2420 or CIS\*2520)

394	XII. Course Descriptions, Computing and Information Science
CIS*3530 Data Base Systems and Concepts F (3-1) [0.50]	CIS*4300 Human Computer Interaction F (2-2) [0.50]
Review of data organization and data management principles with the perspective of analyzing applications suitable for implementation using a DBMS. Analysis of several data base models, query specification methods, and query processing techniques. Overview of several related issues including concurrency control, security, integrity and recovery. Students are expected to demonstrate concepts through project assignments.	Methods for user interface software design, including interface representations and testing. Evaluation and design of sample application systems. Impacts of computer-based information systems on individuals and organizations. Implementation and testing tools. Planning of learning stages and design of assistance subsystems. (Offered in odd-numbered years and may be offered in even-numbered years.)
<i>Prerequisite(s):</i> (CIS*2420 or CIS*2520), (CIS*2450 or CIS*2750)	<i>Prerequisite(s):</i> CIS*3110, (CIS*3430 or CIS*3750)
CIS*3620 Programming Language Foundations F (3-1) [0.50]	CIS*4400 Distributed Information Systems F (3-2) [0.50]
This course explores finite automata, formal languages, parsing, sequential machines and models of computation, including an introduction to Turing machines and the hierarchy of machines/languages. <i>Prerequisite(s):</i> (CIS*2450 or CIS*2750), CIS*3490 <i>Restriction(s):</i> CIS*4600	This course addresses the basic concepts and methodologies used to build distributed systems applications. The course deals with building information infrastructures involving a base network layer, middleware and application layer. The emphasis is on the enabling methodologies for building complex distributed information systems. <i>Prerequisite(s):</i> (CIS*3210 or CIS*4200), (CIS*3430 or CIS*3750), CIS*3530
CIS*3700 Introduction to Intelligent Systems W (3-1) [0.50]	CIS*4410 Trends in Distributed Systems W (3-1) [0.50]
This course covers the core topics of Artificial Intelligence, namely: agents and environment, search, knowledge representation, reasoning, and learning. The last 3 topics are covered using logic as the common formalism for coherence The course introduces a broad range of basic concepts, terminology, and applications, in addition to providing some specific, widely applicable methodologies.	A course that examines the technical issues surrounding modern and future distributed commercial enterprises. Special attention is given to new communication modes, high volume, data-intensive systems, distributed transactions and security mechanisms. <i>Prerequisite(s):</i> (CIS*3210 or CIS*4200), (CIS*3430 or CIS*3750), CIS*3530
<i>Prerequisite(s):</i> (CIS*3430 or CIS*3750), STAT*2040	CIS*4430 Information Organization and Retrieval W (3-1) [0.50]
Restriction(s):       CIS*4750, CIS*4760         CIS*3750 System Analysis and Design in Applications F (3-2) [0.75]         An introduction to the issues and techniques encountered in the design and construction of software systems. The theory and models of software evolution. Topics include requirements and specifications, prototyping, design principles, object-oriented analysis and design, standards, integration, risk analysis, testing and debugging.	Advanced techniques for information management. Analysis of advanced indexing structures. Information retrieval, feedback strategies, text searchings, automatic indexing. Database query optimization and system support. Web based retrieval. (Offered in even-numbered years and may be offered in odd-numbered years.) <i>Prerequisite(s):</i> CIS*3110, CIS*3530, (CIS*3430 or CIS*3750) <b>CIS*4450 Special Topics in Information Science U (3-1) [0.50]</b>
Prerequisite(s): CIS*2750	A variety of advanced topics mainly from areas within general information processing.
Restriction(s): CIS*3430	Subject areas discussed in any particular semester will depend on the interests of the students and the instructor. Students should check with the Department of Computing
CIS*3760 Software Engineering S,W (3-2) [0.75] Examination of the software engineering process and the production of reliable systems.	and Information Science to determine what topic will be offered during specific semesters and which prerequisites, if any, are appropriate.

The course, in control to pursue an ind	ping and writing a research proposal under individual faculty supervision. ntinuation with CIS*4910 provides senior undergraduates an opportunity lependent course of study. The topic selected will be determined by en the student and the faculty member with expertise in the area.
Prerequisite(s): Restriction(s):	2 CIS courses at the 4000 level Instructor consent required.
CIS*4910 Comp	outer Science Thesis S,F,W (0-6) [0.50]
undergraduate th the student is rec	a continuation of CIS*4900. The student will conduct and write an esis under the individual supervision of a faculty member. In addition puired to present his/her work in a seminar and also participate in the and review of the work of other students taking this course.
Prerequisite(s): Restriction(s):	CIS*4900 Instructor consent required.

Restriction(s): Instructor consent required.

# **Co-operative Education**

### Co-operative Education Services

396

COOP\*XXXX courses are limited to students registered in a co-operative education program.

#### COOP\*1000 Co-op Work Term I F,W,S (3-0) [0.00]

This is a semester long experience in a paid work setting. Co-op work semesters differ depending on the program and major. Location of the semester is varied. Refer to program of study for the semester in which this is scheduled. Students must obtain a passing grade in order to continue in the Co-op Program.

*Prerequisite(s):* COOP\*1100

### COOP\*1100 Introduction to Co-operative Education F,W (1-0) [0.00]

This course will introduce students to the theory and practice of co-operative education at the University of Guelph. Students will learn to take full advantage of the co-op option. They will acquire practice in the skills required to succeed in the competitive process of securing suitable work terms. Specifically, the course will cover: characteristics and expectations of the "new" world of work, interview skills, resume and cover letter writing, as well as general skills required to be successful in the co-op program. Students also obtain practice in the co-op employment process.

*Prerequisite(s):* 2.00 credits

*Restriction(s):* Enrolment in a co-operative education program

### COOP\*2000 Co-op Work Term II F,W,S (3-0) [0.00]

This is a semester long experience in a paid work setting. Co-op work semesters differ depending on the program and major. Location of the semester is varied. Refer to program of study for the semester in which this is scheduled. Students must obtain a passing grade in order to continue in the Co-op Program.

Prerequisite(s): Completion of previous co-op work requirements in COOP\*1000

### COOP\*3000 Co-op Work Term III F,W,S (3-0) [0.00]

This is a semester long experience in a work setting. Co-op work semesters differ depending on the program and major. Location of the semester is varied. Refer to program of study for the semester in which this is scheduled. Students must obtain a passing grade in order to continue in the Co-op Program.

*Prerequisite(s):* Completion of previous co-op work requirements in COOP\*2000

### COOP\*4000 Co-op Work Term IV F,W,S (3-0) [0.00]

This is a semester long experience in a work setting. Co-op work semesters differ depending on the program and major. Location of the semester is varied. Refer to program of study for the semester in which this is scheduled. Students must obtain a passing grade in order to continue in the Co-op Program.

*Prerequisite(s):* Completion of previous co-op work requirements in COOP\*3000

#### COOP\*5000 Co-op Work Term V F,W,S (3-0) [0.00]

This is a semester long experience in a work setting. Co-op work semester differ depending on the program and the major. Location of the semester is varied. Refer to program of study for the semester in which this is scheduled. Students must obtain a passing grade is order to continue in the Co-op program.

*Prerequisite(s):* Completion of previous co-op work requirements in COOP\*4000

# **Crop Science**

#### Department of Plant Agriculture

### CROP\*2050 Gateway to Organic Agriculture F (3-3) [0.50]

Students taking this course will be exposed to the full spectrum of opportunities in the field of organic agriculture, from social policy and marketing to crop rotation and rare breeds. In addition to lectures provided by faculty from several departments, guest speakers will offer practical insights into the field. Experiential learning will be encouraged, through data collection and analysis from organically managed land and from site interviews with practitioners in the field.

Prerequisite(s): 5.00 credits
Restriction(s): CROP\*3400

#### CROP\*2110 Crop Ecology W (3-0) [0.50]

Fundamental ecological principles are applied to managed agricultural ecosystems. Crop selection and management are viewed as influencing interactions among species and the environment. Adaptation and distribution of temperate zone crops are related to both environmental constraints and human intervention.

*Prerequisite(s):* BIOL\*1040

#### CROP\*2280 Crops in Land Reclamation F (2-2) [0.50]

The use of vegetation to reclaim land disturbed by human intervention, including mining and extraction, construction of right-of-ways, waste disposal, and logging, are introduced. Fundamentals of soil, plant, and associated microbial relations are reviewed, with emphasis on plant adaptation to soil constraints. Presentations by guest speakers and visits to nearby sites are used to identify the off as well as on-site environmental implications of land disturbance.

### CROP\*3130 Tutorials in Organic Agriculture II W (3-2) [0.50]

Building on the introductory exposure offered in CROP\*2050, this course will rely on small group mentoring to stimulate independent, learner-centered analysis of selected topics in organic agriculture. Students will participate in an interdisciplinary analysis of case study topics offered in the form of two, 6-week modules in biophysical and social areas, including organic certification, non-chemical pest management, organics in an international context, and enhancing soil and crop health. The goal is to encourage holistic, systematic thinking in students learning to become self-directed analysts and decision-makers. Seminar periods will support both guest speakers and student presentations.

Prerequisite(s): CROP\*2050

### CROP\*3300 Grain Crops W (3-0) [0.50]

Management strategies and world production of the major temperate grain crops are studied relative to their botanical and physiological characteristics and to available environmental resources. The utilization of grain crops for human food, livestock feed, and various industrial products are examined. (Offered in odd-numbered years.)

Prerequisite(s): 1 of AGR\*2451/2, AGR\*2470, CROP\*2110

# CROP\*3310 Protein and Oilseed Crops F (3-0) [0.50]

Management strategies and world production of the major temperate protein and oilseed crops are studied relative to their botanical and physiological characteristics and to available environmental resources. The utilization of protein and oilseed crops for human food, livestock feed and various industrial products are examined. (Offered in odd-numbered years.)

Prerequisite(s): 1 of AGR\*2451/2, AGR\*2470, CROP\*2110

### CROP\*3340 Managed Grasslands W (3-2) [0.50]

Managed forage grasses and legumes provide grazing, conserved feed, and a wider range of services to the environment and society at large. Agro-ecological, genetic, and managerial considerations will be integrated toward addressing questions of ruminant production and environmental management. Species will be distinguished morphologically and physiologically, focusing on adaptation to climatic, edaphic, and managerial constraints. Topics will include: physiological attributes of forage species, sward lifespan, establishment and maintenance practices, forage quality indices and harvest management. (Offered in even-numbered years.)

Prerequisite(s): 1 of AGR\*2451/2, AGR\*2470, CROP\*2110

#### CROP\*4220 Cropping Systems W (3-2) [0.50]

Design of cropping systems for specific livestock, poultry and cash crop enterprises; integration of all factors affecting crop yields, quality and economy of production such as choice and interchangeability of crops, crop sequence, tillage, pest control, seasonal work programming, harvesting, drying and storage.

*Prerequisite(s):* (2 of CROP\*3300, CROP\*3310, CROP\*3320, CROP\*3330), (SOIL\*3080 or SOIL\*4090)

#### CROP\*4240 Weed Science F (3-3) [0.50]

Weeds will be studied in relation to agricultural practices. Principles of chemical, mechanical and biological control will be outlined. Laboratories will include weed identification, weed control methods, and demonstrations of the effects of various herbicides.

### *Prerequisite(s):* AGR\*2451/2 or AGR\*2470

### CROP\*4260 Crop Science Field Trip F (0-4) [0.50]

A field study designed to increase the student's knowledge of agricultural production and agri-business. Students will tour a selected area of North America prior to the fall semester, visiting cash crop and livestock farms, supporting industries (e.g. processing, manufacturing) and markets (e.g. elevators, stockyards). A fee of approximately \$750.00 per student will be assessed.

*Prerequisite(s):* 12.50 credits including AGR\*2451/2 or AGR\*2470

Restriction(s): Instructor consent required.

CROP\*4340 Seminar: Selected Topics in Crop Science F (2-0) [0.50]

This course is designed to permit students to study topics of current interest in the production of crops for feed and food purposes. Students will present seminars and prepare video presentations on the selected topics.

Prerequisite(s): 0.50 credits at the 3000 level in Crop Science

MEIF or MEIF:C students.) <i>Prerequisite(s):</i> ECON*1050, ECON*1100, (1 of ECON*2740, PSYC*2010, STAT*2060, STAT*2080) <i>Restriction(s):</i> For B.Comm. students only. But, B.Comm.(MEIF) not allowed to take this course.

ECON*3510 Money, Credit and the Financial System U (3-0) [0.50]	ECON*3730 Europe and the World Economy to 1914 U (3-0) [0.50]
Economics of the payments system, banking and other financial institutions and of credit	This course surveys the world economy with a particular focus on the industrial revolution
markets. Bank of Canada operations and policy instruments. Monetary theory and policy. <i>Prerequisite(s):</i> ECON*2310, ECON*2410	in Europe, demographic change, the rise to prominence of the 'settler colonies', the origins of international inequality and the experience of globalization during the later nineteenth
ECON*3520 Labour Economics U (3-0) [0.50]	century. Particular attention is given to international trade, capital flows and migration.
A study of the labour market, wage determination and the relationship between wages,	<i>Prerequisite(s):</i> ECON*1050, ECON*1100, (1 of ECON*2310, EURO*2070, HIST*2450, HUMN*2070, IDEV*2010)
employment, and prices.	ECON*3740 Introduction to Econometrics F,W (3-1) [0.50]
Prerequisite(s): ECON*2310	This computer-based course involves the specification and estimation of economic models
ECON*3530 Industrial Organization U (3-0) [0.50]	and the testing of economic hypotheses using appropriate test statistics. Topics include
This course examines industries in which firms have the potential to exercise market power. Topics include how the competitive environment affects the behaviour of firms,	the summation operator, expectation operator, ordinary least squares estimation, dummy variables, seasonality, multicollinearity, heteroskedasticity, autocorrelation, data sources
measuring the extent of market power on welfare. The performance of markets under monopolies, dominant firms, cartels and oligopolies is examined and related aspects of	(including uses of the Data Resource Centre). Additional topics may be included at the instructor's discretion. Heavy emphasis will be placed on applications and writing up
Canadian competition policy and regulations are discussed.	results. Some use of spreadsheet software (e.g. QuattroPro, Excel) and statistical software
Prerequisite(s): ECON*2310, (ECON*2770 or MATH*1210)	(e.g. TSP, SHAZAM) will be required.
ECON*3560 Theory of Finance F,W (3-0) [0.50]	<i>Prerequisite(s):</i> ECON*2310, ECON*2410, (ECON*2740 or STAT*2040),, (ECON*2770 or MATH*1210)
Capital budgeting and long-term finance and investment decisions by firms and individuals. Introduction to capital asset pricing under uncertainty and to concept of	ECON*4400 Economics of Organizations and Corporate Governance U (3-0) [0.50]
efficient markets. Major emphasis is on corporate finance. (Also offered through distance	This course introduces students to the latest developments in the economic analysis of
education format.)	the inside workings of firms. The course is centered on the concept of organizational structure, which is made up of three variables: allocation of decision rights, performance
<i>Prerequisite(s):</i> ECON*2310, (1 of ECON*2740, PSYC*2010, STAT*2040, STAT*2050, STAT*2060, STAT*2080, STAT*2090, STAT*2100,	evaluation and performance incentives. The course tries to explain the diversity of
STAT 2000, 5111 2000, 5110 5110, 5111 2000, 510000, 51000, 510000, 510000, 5100000, 510000, 5100000, 510000000, 5100000000, 51000000	economic organizations, and more generally, why economic activity is sometimes carried out through firms and sometimes through markets. (Offered through Distance Education
ECON*3580 Economics of Regulation U (3-0) [0.50]	only.)
A study of the economic reasons for government intervention in the marketplace. Emphasis will be placed on the role of crown corporations, regulatory agencies, regulation rules	<i>Prerequisite(s):</i> ECON*2310 Students must have completed a minimum of 12 credits.
and public sector price-setting in the Canadian economy.	ECON*4500 Topics in Urban Economics U (3-0) [0.50]
Prerequisite(s): ECON*2310	This course will investigate selected theoretical and applied topics in urban economics in depth. Among topics which might be treated are location theory, the theory of spatial
ECON*3600 Macroeconomics in an Open Economy W (3-0) [0.50]	structure, transportation economics, the economics of housing, the economics of land
This course focuses on international macroeconomic issues; the balance of payments; models of exchange rate determination; foreign exchange risk and covered interest	use regulation, urban public finance.
arbitrage; alternative exchange rate regimes; small versus large economies; monetary	Prerequisite(s): ECON*3710, ECON*3740
and fiscal policy in an open economy.	ECON*4560 Advanced Topics in Finance U (3-0) [0.50] This course will examine selected advanced topics in finance, such as optimal capital
<i>Prerequisite(s):</i> ECON*2410, (ECON*2740 or STAT*2040), (ECON*2770 or MATH*1210)	structure under asymmetric information; theoretical and empirical analysis of mergers
ECON*3610 Public Economics U (3-0) [0.50]	and acquisitions; asset pricing theory; pricing derivative securities; and financial econometrics.
This course examines the interventionist role of government in the economy. It examines	Prerequisite(s): ECON*3560, ECON*3710, (ECON*3100 or ECON*3770)
several sources of market failure which are used to justify government intervention. These include public goods, externalities and redistribution. The course also evaluates alternative	ECON*4640 Applied Econometrics I F (3-0) [0.50]
sources of government revenue from the perspectives of both equity and efficiency. These	This course discusses the classical linear regression model and its extensions including
include the personal and corporate income taxes, sales taxes and wealth taxes. <i>Prerequisite(s):</i> ECON*2310	generalized least squares and the theory and application of F tests. The maximum likelihood principle is introduced, as are alternative approaches to testing, e.g. LM, LR
ECON*3620 International Trade U (3-0) [0.50]	and Wald tests. Additional topics may be included at the instructor's discretion. Matrix
An introduction to the general equilibrium analysis of international trade, international	algebra is used and proof of the Gauss-Markov theorem is included, but discussion of proofs is in general limited in order to allow substantial applications to data using statistical
factor movements and commercial policy. Special emphasis is given to Canada's	software such as TSP, SHAZAM, SAS, STATA.
international trade relationships. <i>Prerequisite(s):</i> ECON*2310	Prerequisite(s): ECON*3740 Equate(s): ECON*4740
ECON*3660 Economics of Equity Markets U (3-0) [0.50]	Equate(s): ECON*4740 ECON*4710 Advanced Topics in Microeconomics F (3-0) [0.50]
This course studies the economic literature regarding the determination of security prices	An intensive study of the scope, methodology, and content of contemporary
and the operation of the stock market. (Also offered through distance education format.)	microeconomics; selected topics in partial and general equilibrium analysis.
Prerequisite(s): ECON*3560	Prerequisite(s): ECON*3710
ECON*3710 Advanced Microeconomics F,W (3-1) [0.50]	ECON*4720 Topics in Economic History U (3-0) [0.50]
This course provides an in-depth treatment of consumer and producer theory leading to the general equilibrium model of the economy and the study of welfare economics.	The use of economic theory to analyse the process of historical economic change.
<i>Prerequisite(s):</i> ECON*2310, (ECON*2770 or MATH*1210). A grade average of 70%	Prerequisite(s): 12.50 credits including ECON*2310 ECON*4750 Topics in Public Economics U (3-0) [0.50]
or more in these courses is recommended.	This course examines selected topics related to the expenditure and taxation functions
ECON*3720 History of the World Economy Since 1850 U (3-0) [0.50]	of government. Topics may include issues in public good theory such as the free rider
Study of the evolution of the world economy since 1850. Topics may include the costs and benefits of empire to Britain, Anglo-German trade rivalry, the rise to prominence of	problem, the problem of eliciting truthful revelation of preferences and the use of taxes as a corrective device for externalities. The course may also address optimal taxation as
"settler colonies", economic growth in the Third World, reparations and war debt,	well as tax evasion. Throughout this course the trade-off between efficiency and equity
agricultural overproduction, origins of the Great Depression, the 1945-1973 boom in world production and trade.	is emphasized.
<i>Prerequisite(s):</i> ECON*1050, ECON*1100, (1 of ECON*2310, EURO*2070,	Prerequisite(s): ECON*3710
HIST*2450, HUMN*2070, IDEV*2010)	

ECON*4760 Topics in Monetary Economics U (3-0) [0.50]	
Selected topics in monetary economics such as theories of the demand for and supply of	
money, the nature and role of private banks and central banks, the transmission processes	
of monetary policy.	

*Prerequisite(s):* ECON\*3600, ECON\*3710, ECON\*3740

# ECON\*4780 Topics in Industrial Organization U (3-0) [0.50]

Selected topics in the theoretical and empirical study of the organization and performance of firms and markets. Topics may include: strategic behaviour of firms such as actions to deter entry of rivals, pre-emptive choice of location and product quality, and research and development; the regulation of firms under uncertainty; econometric analysis of the use of market power; and modern advances in the theory of the firm.

*Prerequisite(s):* ECON\*3530, ECON\*3710, ECON\*3740, (ECON\*3100 or ECON\*3770)

### ECON\*4790 Topics in Labour Market Theory U (3-0) [0.50]

Selected topics in advanced labour market theory with emphasis on empirical evidence for the Canadian labour market.

Prerequisite(s): ECON\*3710, ECON\*3740

#### ECON\*4800 Theory of Strategic Management U (3-0) [0.50]

This course is about the creation and maintenance of long-term vision for the corporation from the perspective of the general manager. It is concerned with both the determination of strategic direction and the management of the strategic process. ECON\*4800 may not be counted as a 4000 level economics course for purposes of satisfying the minimum 4000 level economics course requirements in the B.A. Honours Economics or B.A. Management Economics programs.

*Prerequisite(s):* (AGEC\*3320 or BUS\*3320), ECON\*2740. Completion of semester 5.

# ECON\*4810 Advanced Macroeconomic Theory W (3-0) [0.50]

The theory of complex aggregate economic models; their assumptions, construction, and use in the analysis of macroeconomic activity.

Prerequisite(s): ECON\*3600, ECON\*3740

# ECON\*4830 Economic Development U (3-0) [0.50]

A study of the theories, problems and policies of economic growth with special reference to underdeveloped countries.

Prerequisite(s): ECON\*2310

# ECON\*4840 Applied Econometrics II W (3-0) [0.50]

This is a continuation of ECON\*4640 and deals with asymptotic theory, maximum likelihood estimation, instrumental variables, simultaneous equation models and selected topics such as models for limited dependent variables, models for panel data, ARCH models, units roots and error correction models. There will be applications to data using statistical software.

*Prerequisite(s):* ECON\*4640

ECON\*4860 Seminar in Current Economic Problems U (3-0) [0.50]

Examination in a seminar setting of selected contemporary economic problems.

*Prerequisite(s):* ECON\*3600, ECON\*3710, ECON\*3740, or instructor consent

ECON\*4870 Mathematical Economics: Dynamics F (3-0) [0.50]

The purpose of this course is to introduce the student to the techniques and application of dynamic analysis. The discussion concentrates on systems of differential equations, optimal control theory, etc.

*Prerequisite(s):* ECON\*3600, ECON\*3710

ECON\*4880 Topics in International Economics U (3-0) [0.50]

Selected topics involving the advanced analysis of the causes and effects of trade and financial flows and international factor movements.

Prerequisite(s): ECON\*3600, ECON\*3710, or instructor consent

ECON\*4890 History of Economic Thought U (3-0) [0.50]

A study of the development of economic theory, the tools of economic analysis, and the evaluation of economics as a science, together with an analysis of the circumstances affecting this development.

Prerequisite(s): ECON\*2310, ECON\*2410

The special study option is designed to provide senior undergraduate students with an opportunity to pursue an independent course of study. The subject matter will be related to regular 4000 level courses. Students will be required to submit a major paper/report on the subject matter studied. Formal agreement between the student and instructor of the course is required as well as the approval of the department chair or designate. One only of ECON\*4900/ECON\*4910 may count as one of the required minimum number of 4000 level economics courses in the B.A. programs.

*Prerequisite(s):* ECON\*3600, ECON\*3710, ECON\*3740

ECON\*4900 Special Study in Economics S,F,W (3-0) [0.50]

ECON\*4910 Special Study in Economics S,F,W (3-0) [0.50]

Same description as for ECON\*4900.

### ECON\*4930 Environmental Economics U (3-0) [0.50]

An advanced treatment of the interrelationship between economic activities and the state of the natural environment from the economists' point of view.

*Prerequisite(s):* ECON\*2410, ECON\*3710

# ECON\*4940 Model Building and Economic Analysis U (3-0) [0.50]

Progress in economic theory is increasingly made by studying the properties of small artificial economies or competitive general equilibrium models. This course examines the construction of competitive general equilibrium models and outlines the computational techniques required to solve them. These models may be used to study a range of subject areas, including topics in macroeconomics with a particular emphasis on business cycle analysis or the economics of the environment. The subject areas will vary from year to year and are chosen at the instructor's discretion.

# Prerequisite(s): ECON\*3740

ECON\*4950 Applied Economics Research Project W (3-0) [0.50]

Students plan, develop and conduct a research project under individual faculty supervision and structured co-ordination. The supervisor is a faculty member with expertise in the area being investigated. The co-ordinator is a faculty member who leads group sessions on research project objectives, expectations, potential topics, data sources, available software and other relevant issues. Students will also present proposals, progress reports and final products in this group setting.

*Restriction(s):* Students registered in the B.A. Applied Economics program. Students must have completed 17.0 credits.

# **Environmental Design and Rural Development**

# School of Environmental Design and Rural Development

# EDRD\*1150 Landscape Design W (2-3) [0.50]

This course is an introduction to the design of the built landscape environment, with an emphasis on graphic communication skills, creativity, and the design process. Basic drawing and drafting techniques along with the principles and styles of design, landscape materials and structures, and the incorporation of plant materials will be covered.

Registered in B.B.R.M. Restriction(s): Location(s): Ridgetown

# EDRD\*2000 Introduction to Rural Extension F (3-0) [0.50]

Introduction to Rural Extension including history and philosophy; learning and motivation; the rural setting; adoption/ technology transfer processes; marketing; planning; extension teaching/communication methods and technology; evaluation; extension agencies and programs.

Equate(s): REXT\*2000

### EDRD\*2010 Introduction to Landscape Management F (2-3) [0.50]

Students taking this course will be exposed to the range of issues and opportunities in the field of Landscape Management. Reviewing historic and contemporary practices they will explore the benefits of a scientific and multidisciplinary approach to addressing the environmental, political, social and cultural imperatives of open space and natural resources in urban and rural areas.

Restriction(s): Registered in B.Sc. (Agr.).

### EDRD\*2020 Interpersonal Communication F,W,S (3-0) [0.50]

This course introduces to dyadic and small-group communication. The focus is on communication style and effectiveness with attention to verbal and nonverbal communication, listening behaviour and conflict. (Offered through Distance Education only.)

### EDRD\*2050 Landscape Construction and Planning F (1-4) [0.50]

Students will be engaged in the creation of landscape structures, including plan reading and estimating. Practical skills and experience will be obtained through real-life and simulated projects, using actual materials and design scenarios taken from industry examples. Technical and professional guidance will enable students to undertake typical landscape structure layout, estimates, and installation, based on design plans and specifications.

Prerequisite(s): EDRD\*1150 Restriction(s): Registered in B.B.R.M. Ridgetown Location(s):

# EDRD\*3000 Program Development and Evaluation W (3-0) [0.50]

Concepts and processes of program development and evaluation of rural extension programs. Programs designed with client involvement, situational analysis and priority setting will receive particular attention. (Offered in odd-numbered years.)

Prerequisite(s): 10.00 credits Equate(s): REXT\*3000

#### EDRD\*3050 Agricultural Communication I F (3-0) [0.50]

Practical and effective ways of communicating information to a broad audience via the media, focusing mainly on print media (newspapers and magazines) and agricultural media. Strong emphasis on writing and preparing ready-to-use material and strategies for getting it published. (Students will develop an understanding of the news/communications business and find where they can fit into it or use it to their advantage to get a job. Contact with professionals will be a major part of the course).

Prerequisite(s):	10.00 credits
Equate(s):	REXT*3050, REXT*40

#### EDRD\*3120 Educational Communication W (3-0) [0.50]

This course addresses the communication concepts and practices within the formal and non-formal educational contexts. Communication is central to teaching and learning because communication mediates a conscious effort either on the part of the learners to learn, or on the part of the teachers to provide and transfer knowledge, attitudes and skills. (Offered through Distance Education only.)

*Prerequisite(s):* 5.00 credits Restriction(s): REXT\*3100

#### EDRD\*3140 Organizational Communication W (3-0) [0.50]

This course explores the application of communication process theory to organizations with special emphasis on internal organizational processes experienced at individual, group and organizational levels. Students examine communication in different organizational contexts including civil society, government, business and transnational corporations. (Offered through Distance Education only.)

Prerequisite(s):	5.00 credits
Restriction(s):	REXT*3040
Last Revision: Ja	nuary 28, 2008

#### EDRD\*3160 International Communication W (3-0) [0.50]

This course examines the role of communication in global development. Emphasis is on the application of interpersonal, intercultural communications and the mass media in the development process. (Offered through Distance Education only.)

Prerequisite(s): 10.00 credits Restriction(s): REXT\*3060

EDRD\*3180 Social Processes in Mediated Communication W (3-0) [0.50]

This course is an introduction to dyadic communication, small-group communication. mediated work groups and online learning in mediated environments. The focus of this course will be on communication style, effectiveness, and online dynamics and processes in asynchronous environments. (Offered through Distance Education only.)

Prerequisite(s): 10.00 credits

EDRD\*3400 Sustainable Communities W (2-1) [0.50]

The structure, function and trends affecting agri-food community settings including historical, ecological and social factors, institutions, agencies and change processes are discussed. The agricultural role of the Provincial Government and the contemporary impact of the agro-industrial complex on Ontario communities will be considered mainly from a comparative perspective. Related topics will include physical infrastructure, political conflicts, labour markets, settlement patterns, housing, gender relations, landscape management, quality of life, sustainability and the promotion of community leadership.

Prerequisite(s): AGR\*1250 or 10.00 credits Restriction(s): AGR\*3400

### EDRD\*3450 Watershed Planning Practice S,F,W (3-0) [0.50]

An introduction to the principles and practice of watershed-based planning, with an emphasis on Ontario, but with reference to other parts of Canada, the U.S. and international contexts. History of water resource use and abuse, basic concepts of hydrology, water resource management, ecosystem approaches, and planning theory are also included. (Offered through distance education format only.)

Prerequisite(s): 10.00 credits or instructor consent UNIV\*3400

Equate(s):

# EDRD\*3500 Recreation and Tourism Planning F,W (0-0) [0.50]

Application of planning theory to recreation and tourism in the private and public sectors, approaches to implementing plans, and strategies for involving stakeholders in the planning process. Focus will also be on the impact of various approaches to planning recreation and tourism. (Offered through Distance Education only.)

Prerequisite(s): 10.00 credits UNIV\*3500 Equate(s):

#### EDRD\*3550 Economic Development for Rural and Smaller Communities S (0-0) [0.50]

This course addresses the variety of challenges facing rural and smaller communities in Canada relating to livelihood creation and maintenance, employment, investment, business development, tax base maintenance and enhancement and the associated strategies for development planning and management. The roles of various agents (public, private, community, Third Sector) are addressed through the literature and case studies. The course critically examines "local" and "community" economic development, and reviews the rich Canadian experience here. The structure and dynamics of rural economies are examined. The course addresses selected methods of analysis and outlines the process of planning for, and managing, economic development at the local level. Various development organizations (e.g. cooperatives, Community Development Corporations) are examined. (Offered through Distance Education only.)

UNIV\*3550 Equate(s):

# EDRD\*4010 Tourism Planning in the Less Developed World F,W (0-0) [0.50]

This course will provide a discussion and investigation of tourism from an interdisciplinary point of view. The subject of tourism development cuts across many disciplines and is fundamental to a variety of scholars and practitioners working in tourism and development generally. While a variety of important theories and planning practices from a variety of disciplines have been selected for study, planning and community development theory will provide the overarching perspective. The features of planning theories and models stress analysis and intervention into human and environmental systems. This perspective begins with the view that tourism is a complicated human construct and as such needs to be structured and guided in order to maximize the benefits to all stakeholders in the system. (Offered through Distance Education only.)

Prerequisite(s): 5 credits

EDRD\*4020 Rural Extension in Change and Development F (3-0) [0.50]

The planning and management of development programs with emphasis on the role of non-formal education and counselling in influencing behavioral change and adoption of innovation. Case studies include cross cultural and international considerations.

Prerequisite(s): 10.00 credits Equate(s): REXT\*4020

	ricultural Communication II W (3-0) [0.50]	
through the prod	ractical and effective writing and communication techniques, mainly uction of print publications and the further development and application riting and editing skills. Special emphasis on issues important to the y.	
Prerequisite(s): Equate(s): Restriction(s):	1 of EDRD*3050, REXT*3050, equivalent REXT*4060 Instructor consent required.	
. ,	adership Development in Small Organizations F (3-0) [0.50]	
The main theories of leadership bet applied in bilant organizations if (e 6) for of practice leadership skills and perform relevant activities in an on-line environment. Emphasis will be placed on the communication challenges facing leaders in small organizations and the importance of developing a culture of shared leadership. (Offered through Distance Education only.)		
Prerequisite(s): Restriction(s):	10.00 credits REXT*4100	
EDRD*4180 So	cial Issues in Organic Agriculture W (2-2) [0.50]	
Organic Agriculture I and II, to examine the major social issues in organic agriculture from both a global and local perspective, with an emphasis on synthesis and integration. Issues will include globalization, sustainability, gender, the commons, the debate between economics and the environment, the organic agri-food system, rural communities, the role of the family farm, land use and certification/regulation. <i>Prerequisite(s):</i> 1 of AGR*3400, (CROP*3130, SOIL*3030), SOC*2080 <i>Equate(s):</i> REXT*4180

# Engineering

#### School of Engineering

Students who are not registered in the B.Eng. degree program may take no more than 3.00 Engineering (ENGG\*XXXX) credits.

Some ENGG\* courses have priority access restrictions. Enrolment in these courses is restricted to students registered in B.Eng. Degree program. All other students will require a waiver form to be signed by the B.Eng. Program Counsellor.

#### ENGG\*1100 Engineering and Design I F (2-4) [0.75]

Introduction to engineering and design by means of selected problems. Students integrate basic science, mathematics, and complementary studies to develop and communicate engineering solutions to specific needs using graphical, oral, and written means. Application of computer-aided drafting, spreadsheets, and other tools to simple engineering design problems. The practice of professional engineering and the role of ethics in engineering.

*Restriction(s):* Registration in the Engineering Program

#### ENGG\*1210 Engineering Mechanics I W (3-1) [0.50]

Fundamental principles of Newtonian mechanics; statics of particles in 2-D space; equilibrium of rigid bodies in 2-D; distributed forces; friction, linear and angular momentum of rigid bodies; conservation of energy; principles of impulse and momentum; and, plane motion of rigid bodies.

#### ENGG\*1500 Engineering Analysis W (3-1) [0.50]

Engineering applications of Matrix algebra, vector spaces and computer techniques to solve linear systems. Linear transformations, eigenvalues and eigenvectors, diagonalization and their applications in engineering problems. Complex variable algebra, multi-variables functions, partial derivatives, and maxima and minima.

*Co-requisite(s):* ENGG\*1210, MATH\*1210 *Restriction(s):* MATH\*2150

#### ENGG\*2100 Engineering and Design II F (2-4) [0.75]

Progression in engineering design skills with particular emphasis on computer usage in design, oral communication of solutions and team skills. Computer usage in design will include advanced CAD/CAM/CAE tools, structured programming and database management software. An introduction to safety in engineering practice and design. An introduction to the concept of sustainable development.

Prerequisite(s): ENGG\*1100, ENGG\*1210, ENGG\*1500, MATH\*1200, PHYS\*1130

### ENGG\*2120 Material Science F (3-2) [0.50]

Study of the mechanical, electrical, magnetic, optical and thermal properties of solids. Atomic order and disorder in solids, single-phase metals, and multiphase materials (their equilibria and micro-structure) are examined as a basis for understanding the causes of material properties. Interwoven throughout the course is an introduction to materials selection and design considerations.

Prerequisite(s): CHEM\*1040, PHYS\*1130

#### ENGG\*2160 Engineering Mechanics II F (3-1) [0.50]

Fundamental principles of the mechanics of deformable materials; stress and strain; Mohr's circle for transformation of stress and strain; deflection under load; design of beams; shafts; columns and pressure vessels; failure theory and design.

Prerequisite(s): ENGG\*1210, ENGG\*1500, 0.50 credits in calculus

### ENGG\*2230 Fluid Mechanics W (3-2) [0.50]

Analysis of steady ideal and viscous fluid flow systems using the Continuity, Bernoulli and Momentum equations. Boundary layer theory is treated in terms of viscous and pressure drag, lift and its importance in heat and mass transfer. Dimensional analysis and dynamic similitude are studied to provide an understanding of flow systems analysis and modeling. Introduction to pipe flow and open channel flow.

*Prerequisite(s):* ENGG\*1210, MATH\*1210

### ENGG\*2400 Engineering Systems Analysis F (3-1) [0.50]

Analytical description and modeling of engineering systems such as mechanical, electrical, thermal, hydraulic biological and environmental systems. Applications of multivariable calculus, linear algebra and differential equations to stimulate and analyse such systems. *Prerequisite(s):* ENGG\*1210, ENGG\*1500, MATH\*1200, MATH\*1210, PHYS\*1130 *Co-requisite(s):* MATH\*2270

# ENGG\*2410 Digital Systems Design Using Descriptive Languages F (3-3) [0.50]

Review of Boolean algebra, truth tables, Karnaugh maps. Design, synthesis and realization of combinational circuits. Design, synthesis and realization of sequential circuits. VHDL: structural modeling, data flow modeling, synchronous & asynchronous behavior descriptions, algorithmic modeling. Designing with PLDs. Digital design with SM charts. Designing with PGAs and complex programmable logical devices. Hardware testing and design for testability. Hierarchy in large designs. The course will primarily be concerned with the design of multi-input, multi-output digital controllers which provide the central control signals that orchestrate the collection of hardware devices (from SSI to VLSI) found in a digital system. An introduction to FPGA-based, as well as microprocessor-based digital systems design will be given. Design examples will include systems such as UART, microcontroller CPU, ALU and data acquisition system.

# *Prerequisite(s):* (CIS\*1650 or CIS\*1500), PHYS\*1130

## ENGG\*2450 Electric Circuits W (3-1) [0.50]

Electrical quantities; electrical circuit elements and their characteristics; exponentials, sinusoids and phasors applied to electrical circuits; s-plane representation and pole-zero concepts; steady-state a.c. circuits; general network analysis; magnetic quantities and circuits; demonstration of principles as applied in several engineering fields.

# *Prerequisite(s):* ENGG\*2400, PHYS\*1130

# ENGG\*2550 Water Management W (3-0) [0.50]

The influence of fundamental engineering and hydrologic principles on the choices available for management of water on a watershed basis is demonstrated for representative techniques used in management for water supply, irrigation, flood control, drainage and water pollution control. Selected problems are studies to reveal the technical, environmental, legal, jurisdiction, political, economic and social aspects of water management decisions.

Prerequisite(s): (CHEM\*1040 or CHEM\*1310), GEOG\*2000

### ENGG\*2560 Environmental Engineering Systems W (3-2) [0.50]

Analysis techniques for natural and engineered systems including chemical, physical and biological processes. Mass balance analysis for steady state and unsteady state situations. Analysis under both equilibrium and non-equilibrium conditions. Reactor types including batch, plug-flow, CSTR. Noise pollution, control and prevention.

Prerequisite(s): CHEM\*1050, MATH\*2270

#### ENGG\*2660 Biological Engineering Systems I W (3-1) [0.50]

Mathematical description and identification of biological systems; through mass and energy balances; reactions in biological systems; biomedical, food, and bio-processing applications.

*Prerequisite(s):* ENGG\*2400, MATH\*2270, MICR\*1020 *Co-requisite(s):* BIOC\*2580

ENGG\*3050 Embedded Reconfigurable Computing Systems W (3-2) [0.50]

This course introduces the students to the analysis, synthesis and design of embedded systems and implementing them using Field Programmable Gate Arrays. Topics include: review of digital design concepts; Programmable Logic Devices; Field Programmable Logic Devices; physical design automation (partitioning, placement and routing); Hardware Descriptive Languages; VHDL; Verilog; High Level Languages; System-C; Handle-C; Fixed Point and Floating Point Arithmetic; Hardware Accelerators; Reconfigurable Instruction Set Computers; Hardware Software Co-design techniques; Application of Field Programmable Logic in Embedded Systems. (First offering - Winter 2010)

#### Prerequisite(s): ENGG\*3380, ENGG\*3450

ENGG\*3100 Engineering and Design III W (3-2) [0.75]

This course combines the knowledge gained in the advanced engineering and basic science courses with the design skills taught in ENGG\*1100 and ENGG\*2100 in solving open-ended problems. These problems are related to the student's major. Additional design tools are presented, including model simulation, sensitivity analysis, linear programming, knowledge-based systems and computer programming. Complementing these tools are discussions on writing and public speaking techniques, codes, safety issues, environmental assessment and professional management. These topics are taught with the consideration of available resources and cost.

Prerequisite(s):	Registration in the B.Sc.(Eng.) program, ENGG*2100, ENGG*2230,
	ENGG*2400, ENGG*3260 and, for the specific majors: BIOE, (
	ENGG*2150 or ENGG*2160), ENGG*2660; ESC, ENGG*3390;
	ENVE, (ENGG*3180 or ENGG*3360), ENGG*3590, ENGG*3650;
	WRE, ENGG*3590, ENGG*3650
Restriction(s):	Students must have a minimum cumulative average of 60% or higher
	in ALL ENGG courses.

ENGG*3150 Engineering Biomechanics W (3-2) [0.50]	ENGG*3390 Signal Processing F (3-2) [0.50]
Basic concepts of biological material structure, properties, adaptation and remodeling;	This course will establish the fundamental analysis and design techniques for signal
viscoelasticity in biological materials and techniques for modeling viscoelastic material behaviour; 2-dimensional and 3-dimensional joint kinematic analysis techniques; muscle mechanics and optimization techniques; current techniques in laboratory instrumentation and biomedical applications. <i>Prerequisite(s):</i> ENGG*2160	processing systems. Topics covered include: definition and properties of linear time-invariant systems; impulse response and convolution; continuous-time Laplace transform, Fourier series, Fourier transform; discrete-time Fourier transform, discrete-time Fourier series, fast Fourier transform, Z transform; complex frequency response; filter analysis and design for both continuous and discrete time systems. Students will be able
Restriction(s): ENGG*2150	to design continuous-time filters and both design and implement discrete-time digital filters using computer-based tools.
ENGG*3160 Biological Engineering Systems II F (3-2) [0.50]	Prerequisite(s): ENGG*2400
Mass transfer in biological systems: concepts; gas-liquid mass transfer; membrane transport processes; and heterogeneous reactions. Applications may include fermenter	ENGG*3410 Systems and Control Theory W (3-2) [0.50]
aeration, tissue perfusion, mass transfer limitations in biofilms, microbial flocs and solid tumours, protein recovery and drug delivery.	Modeling, performance analysis and control with potential application to engineering, physical and biological systems. Topics include modeling in time, Laplace and frequency domains. Performance and stability by methods of Hurwitz, Routh, Bode, and Nyquist.
Prerequisite(s): ENGG*2230, ENGG*2660	Control by ON/OFF and PID Controllers.
ENGG*3170 Biomaterials F (3-2) [0.50] Physical properties of natural and synthetic (e.g. stainless steel, polymers) materials used	Prerequisite(s): ENGG*2400, MATH*2270 Co-requisite(s): ENGG*2450
in biological engineering applications. Topics will include microstructure and mechanical properties of typical biomaterials, quantification of advanced material properties and	ENGG*3430 Heat and Mass Transfer W (3-1) [0.50]
behaviours, fabrication, compatibility, biodegradation and mechanical failure. Typical applications will include processing of biomaterials as well as equipment and implant design.	Analysis of steady and transient thermal systems involving heat transfer by conduction, convection and radiation and of mass transfer by molecular diffusion and convection. Other topics include the thermal analysis of heat exchangers and heat transfer systems
Prerequisite(s): ENGG*2120	involving a change of state.
ENGG*3180 Air Quality F (3-2) [0.50]	Prerequisite(s): ENGG*2230, ENGG*3260, MATH*2270
The study of the transport, transformation and deposition processes associated with air	ENGG*3450 Electrical Devices F (3-2) [0.50]
pollutants. The chemical and biological nature, impacts, and sources of air pollutants. The physical aspects of the atmospheric boundary layer. The mathematical treatment of diffusion in a homogeneous field in a boundary layer. Regulatory approaches worldwide and their use of air quality modeling. The use of models for the design of stacks and monitoring networks.	Semiconductors materials, Silicon, Germanium and other semi-conductors' material, Doping and effects of extrinsic material introduction, Conduction in metals and semi-conductors, electrical and thermal characteristics of diodes and transistors; principles of modern electronic devices and their applications in circuits; diodes; bipolar and field effect transistors; circuit integration; operational amplifiers; logic gates.
<i>Prerequisite(s):</i> ENGG*2230, (ENGG*2560 or ENGG*2660) <i>Co-requisite(s):</i> ENGG*3260	Prerequisite(s): ENGG*2450
Restriction(s): ENGG*3360	ENGG*3470 Mass Transfer Operations W (3-2) [0.50]
<b>ENGG*3240 Engineering Economics F (3-0) [0.50]</b> Principles of project evaluation; analysis of capital and operating costs of engineering alternatives, benefit-cost ratio; break-even studies, evaluations recognizing risk, replacement and retirement of assets; tax considerations, influence of sources of funds.	Application of mass transfer principles in the natural and engineered systems. Mass transport in the multi-media fate of contaminants in and between air, water and land. Design and analysis of separation processes for emission and pollutant prevention. <i>Prerequisite(s):</i> ENGG*2230, ENGG*3260, MATH*2270
Prerequisite(s): ENGG*2400, ENGG*2450, MATH*1210, MATH*2270	Co-requisite(s): ENGG*3430 ENGG*3490 Introduction to Mechatronic Systems Design W (3-2) [0.75]
<i>Restriction(s):</i> Registration in the Engineering program.	This course covers the design of mechatronic systems, which are synergistic, combinations
ENGG*3260 Thermodynamics F (3-1) [0.50] Macroscopic thermodynamics and its applications to engineering analysis and design. First and second laws and applications to closed and flow systems, both with and without reaction; properties of pure substances and solutions; introduction to phase and reaction equilibrium. Applications include gas-vapour systems (psychrometrics and beyond), power and refrigeration cycles, raoult and henry law solution behavious, flame temperature calculations, semiconductor device fabrication.	of components and controls drawn from mechanical engineering, electronics, control engineering, and computer science. The course emphasizes the integration of these area through the design process employing the two skills of (1) modeling, analysis, control design, and computer simulation of dynamic systems, and (2) experimental validation of models, analysis and the understanding of the key issues of hardware implementation. The two skills are developed though assignments emphasizing analytical analysis with complementary laboratory exercises. The material covered includes mechatronic system
<i>Prerequisite(s):</i> CHEM*1040, ENGG*2230, ENGG*2400, ENGG*2450, MATH*2270 ENGG*3340 Geographic Information Systems in Environmental Engineering F	design; a review of kinematics, electronics, modeling, simulation, signals and control; control architectures; sensors including vision; and actuators.
(3-0) [0.50]	Prerequisite(s): ENGG*3450 Co-requisite(s): ENGG*3410
Geographical information system structure and functions. Data structuring and application program development. Data input, display and analysis. Applications in environmental engineering and natural resource development/management. Students will be able to use	Restriction(s):         ENGG*3400           ENGG*3590 Water Quality F (3-3) [0.50]
a GIS software package to build geographical information systems. Prerequisite(s): (CIS*1500 or CIS*1600), (1 of MATH*1000, MATH*1080, MATH*1200)	This course builds on the student's experience in chemistry, biology, physics and fluid mechanics, and provides an engineering perspective on: (i) standard methods of water quality analysis for physical, chemical and biological characteristics of water; (ii) significance and interpretation of analytical results, (iii) modeling of water quality in
ENGG*3380 Computerized Organization and Design F (3-2) [0.50]	natural systems and (iv) introduction to engineered water and wastewater treatment
Detailed examination of modern computer organization and techniques for microprocessor architecture design. Topics include - CPU design; instruction set design, addressing modes, operands; data flow design: internal bus structure, data flow signals, registers; control sequence design: hardwired control, decoding, microprogramming; architecture classes: CISC, RISC, and DSP; Memory organization; performance. Students must complete a term project that includes design, implementation, and demonstration of a CPU using a hardware descriptive language like VHDL.	systems. <i>Prerequisite(s):</i> ENGG*2230, ENGG*2560, (BIOL*1040 or MICR*1020), STAT*2120
Prerequisite(s): ENGG*2410	

### ENGG\*3640 Microcomputer Interfacing F (3-3) [0.50]

Interfacing microcomputers to external equipment. Topics include peripheral devices, hardware interfaces, device driver software and real time programming. Advanced programming: debugging of embedded systems, data structures and subroutine calls, high-level system programming. Interrupts and resets, real time events, signal generation and timing measurements. Synchronous and asynchronous serial communication. Parallel I/O ports and synchronization techniques. I/O interfacing, microcomputer busses, memory interfacing and direct memory access (DMA). Data acquisition topics include signal conditioning analog to digital conversion and digital signal processing.

Prerequisite(s):ENGG\*2410Co-requisite(s):ENGG\*3390Restriction(s):ENGG\*4640

# ENGG\*3650 Hydrology F (3-1) [0.50]

Quantitative study of natural water circulation systems with emphasis on basic physical principles and interrelationships among major processes; characteristics of mass and energy; inputs to and output from watersheds; factors governing precipitation occurrence, evaporation rates, soil-water storage changes, groundwater recharge and discharge, run-off generation; methods of streamflow analysis; mathematical modeling.

Prerequisite(s): (ENGG\*2230 or MET\*2030), (MATH\*1210 or MATH\*2080), (STAT\*2120 or STAT\*2040), and competency in computing

#### ENGG\*3670 Soil Mechanics F (3-2) [0.50]

Relations of soil physical and chemical properties to strength; soil water systems and interactive forces. Visco-elastic property and pressure-volume relationships of soil systems. Stress-strain characteristics of soil under dynamic loads. Application of engineering problems. Laboratory and field investigation methods.

*Prerequisite(s):* ENGG\*2120, ENGG\*2230

### ENGG\*3830 Bio-Process Engineering F (3-1) [0.50]

Application of engineering principles to the processing of biological products in the biological and food industry. Analysis and design of unit processes such as sedimentation, centrifugation, filtration, milling and mixing involving rheology and non-Newtonian fluid dynamics of biological materials. Analysis of heat and mass balances for drying evaporation, distillation and extraction.

Prerequisite(s): ENGG\*2230, ENGG\*2660

Co-requisite(s): ENGG\*3260

## ENGG\*4080 Analog Integrated Circuits F (3-0.5) [0.50]

The purpose of this course is to describe the operating principles of analog integrated circuits and to teach how to design and use such circuits. These circuits include analog and switched-capacitor filters, analog-to-digital and digital-to-analog converters, amplifiers, oscillators, circuits for radio-frequency and optical communications, readout channels for integrated sensors, and analog integrated circuits for mechatronics and bioengineering. The main emphasis is on device models, circuit operation, and design techniques. (First offering - Fall 2010)

*Prerequisite(s):* ENGG\*3450

ENGG\*4110 Biological Engineering Design IV F,W (2-6) [1.00]

Capstone design project in the Biological Engineering program. Teams of 3-4 students apply engineering analysis and design principles to a problem in a biological system or process. A completely specified solution at the level of preliminary or final design is required, including assessment of socio-economic and environmental impact. Teams produce reports and a poster presentation to a professional standard. Ethics and law case studies relevant to professional engineering practice are discussed.

Prerequisite(s): All 1000 and 2000 level core credits, ENGG\*3100.
 Restriction(s): Registration in semester 8 (last semester) of the B.Sc.(Eng.) program and in a max. of 3.25 credits registration. Student must have a minimum cumulative average above 60% in ALL ENGG courses. Instructor consent required.

### ENGG\*4120 Engineering Systems and Computing Design IV F,W (2-6) [1.00]

Capstone design project in the Engineering Systems and Computing program. Teams of 3-4 students apply engineering analysis and design principles to a problem involving control system, computer hardware or computer software technology. A completely specified solution at the level of preliminary or final design is required, including assessment of socio-economic and environmental impact. Teams produce reports and a poster presentation to professional standard. Ethics and law case studies relevant to professional engineering practice are discussed.

 Prerequisite(s):
 All 1000 and 2000 level core credits, ENGG\*3100.

 Restriction(s):
 Registration in semester 8 (last semester) of the B.Sc.(Eng.) program and in a max. of 3.25 credits registration. Students must have a minimum cumulative average of 60% or higher in ALL ENGG courses. Instructor consent required.

#### ENGG\*4130 Environmental Engineering Design IV F,W (2-6) [1.00]

Capstone design project in the Environmental Engineering program. Teams of 3-4 students apply engineering analysis and design principles to a problem involving control system, computer hardware or computer software technology. A completely specified solution at the level of preliminary or final design is required, including assessment of socio-economic and environmental impact. Teams produce reports and a poster presentation to professional standard. Ethics and law case studies relevant to professional engineering practice are discussed.

 Prerequisite(s):
 All 1000 and 2000 level core credits, ENGG\*3100.

 Restriction(s):
 Registration in semester 8 (last semester) of the B.Sc.(Eng.) program and in a max. of 3.25 credits registration. Students must have a minimum cumulative average of 60% or higher in ALL ENGG courses. Instructor consent required.

### ENGG\*4150 Water Resources Engineering Design IV F,W (2-6) [1.00]

Capstone design project in the Water Resources Engineering program. Teams of 3-4 students apply engineering analysis and design principles to a problem involving control system, computer hardware or computer software technology. A completely specified solution at the level of preliminary or final design is required, including assessment of socio-economic and environmental impact. Teams produce reports and a poster presentation to professional standard. Ethics and law case studies relevant to professional engineering practice are discussed.

Prerequisite(s): All 1000 and 2000 level core credits, ENGG\*3100.
 Restriction(s): Registration in semester 8 (last semester) of the B.Sc.(Eng.) program and in a max. of 3.25 credits registration. Students must have a minimum cumulative average of 60% or higher in ALL ENGG courses. Instructor consent required.

#### ENGG\*4250 Watershed Systems Design F (3-2) [0.75]

Hydrological analysis of watershed systems including stream flow for design of structures and channels, flood warning, flood plain mapping, low-flow characteristics. Hydraulic analysis applied to design of dams, reservoirs, control structures, energy dissipation structures, bridges and culverts. Analysis of steady flow profiles, flood waves, and sediment transport, for design of natural and constructed channels, and protective works for rivers to achieve environmentally sustainable land use in watershed systems.

*Prerequisite(s):* ENGG\*2230, ENGG\*3650

#### ENGG\*4260 Water and Wastewater Treatment Design W (3-2) [0.75]

Application of design principles for a variety of water purification systems, including drinking water, municipal wastewater, industrial wastewater and agricultural wastewater. This involves the design of physical, chemical and biological unit operations, and evaluating the optimum combination to satisfy the given design constraints and criteria. The optimum designs integrate engineering science, basic science, economics, and occupational health and safety for the workers and the public.

*Prerequisite(s):* ENGG\*3100, ENGG\*3590

#### ENGG\*4280 Digital Process Control Design W (3-2) [0.75]

Design, analysis synthesis and simulation of process control and automation systems. Automation hardware, process compensation techniques and P.I.D. controllers, design and dynamics of final control elements, computer control and the microprocessor.

### *Prerequisite(s):* ENGG\*3410

#### ENGG\*4300 Food Processing Engineering Design F (3-2) [0.75]

Formulation of mathematical models to describe food processing operations and the response of foods to such operations. Process evaluation, development and computer-aided design of operations such as thermal processes and food freezing. The influence of water activity and structure on the enzymatic, cellular, organic and structural systems of foods. The properties of powders and particulate foods and mechanical operations with solid foods.

#### *Prerequisite(s):* ENGG\*3260, ENGG\*3830

#### ENGG\*4330 Air Pollution Control F (3-2) [0.75]

Analysis and design of atmospheric pollution control techniques. Techniques considered include both in-process solutions as well as conventional end-of-pipe treatments. Pollutants covered include gaseous, particulate, metals and trace organics.

#### *Prerequisite(s):* ENGG\*3180, ENGG\*3260

ENGG\*4340 Solid and Hazardous Waste Management F (3-2) [0.50]

Solid waste generation rates and waste composition. Integrated waste management: collection, recovery, reuse, recycling, energy-from-waste, and landfilling. Biological treatment of the organic waste fraction - direct land application, composting, anaerobic digestion. Environmental impact of waste management and sustainable development. Cross media issues related to solid waste disposal. An introduction to hazardous waste management and treatment methods.

Prerequisite(s): ENGG\*2560 or ENGG\*2660

406	XII. Course Descriptions, Engineering
ENGG*4360 Soil-Water Conservation Systems Design F (3-2) [0.75]	ENGG*4460 Robotic Systems F (3-3) [0.50]
Properties of soils and land use governing the occurrence and magnitude of overland flow, soil erosion, infiltration, percolation of soil water, and variations in soil water storage. Design of soil and water management systems and structures to control soil erosion and protect water quality for environmentally and economically sustainable land use planning. Design of surface and subsurface drainage system for rural land. Design of sprinkler and trickle irrigation systems.	This course covers robot technology fundamentals, mathematical representation of kinematics, planning and execution of robot trajectories, introduction to robot languages, programming of robotic systems, different application domains for robots (e.g. assembly, manufacturing, medical, services, etc.), and robot sensors. The goal of this course is to provide students with a comprehensive background, approaches and skills to apply robotics technology to real world engineering applications and problems.
<i>Prerequisite(s):</i> ENGG*2230, ENGG*3650, ENGG*3670	Prerequisite(s): ENGG*1500, ENGG*2400
ENGG*4370 Urban Water Systems Design F (3-2) [0.75]	ENGG*4510 Assessment & Management of Risk W (3-1) [0.50]
Estimation of water quantity and quality needed for urban water supply and drainage. Design of water supply, pumping systems, pipe networks and distributed storage reservoirs from analysis of steady and transient, pressurized and free surface flow. Rates of generation of flows and pollutants to sanitary and storm sewers, design of buried pipe and open channel drainage systems with structures for flow and pollution control.	This course will develop the bases by which risk to human health and the environment can be assessed. Issues of hazardous waste cleanups, permitting of water and air discharges, food safety, flood protection, as examples, are addressed. The course also examines how decisions are made to manage the risks to acceptable levels. <i>Prerequisite(s):</i> STAT*2040 or STAT*2120
Modeling of water systems for sustainable urban development.	ENGG*4550 VLSI Digital Design F (3-2) [0.50]
Prerequisite(s): ENGG*2230, ENGG*3650	This course introduces the students to the analysis, synthesis and design of Very Large
ENGG*4380 Bioreactor Design F (3-2) [0.75] Modeling and design of batch and continuous bioreactors based on biological growth kinetics and mass balances. Gas-liquid mass transfer for aeration and agitation instrumentation and control. <i>Prerequisite(s):</i> ENGG*3160	Scale integration (VLSI) digital circuits and implementing them in silicon. The topics of this course are presented at three levels of design abstraction. At device level: MOS diode; MOS (FET) transistor; interconnect wire. At circuit level: CMOS inverter; static CMOS gates (NAND, NOR); dynamic gates (NAND, NOR); static latches and registers; dynamic latches and registers; pipelining principles and circuit styles; BICMOS logic
ENGG*4390 Bio-instrumentation Design F (3-2) [0.75]	circuits. At system level; implementation strategies for digital ICs; interconnect at system level; timing issues in digital circuits (clock structures); the adder; the multiplier; the
Theory and selection criteria of devices used in measurements in biological systems; design of complete measurement systems including transducers, signal conditioning and recording components; error analysis. Differences between measurements in biological and physical systems.	shifter; memory design and array structure; low power design circuits and architectures. (First offering - Fall 2010) <i>Prerequisite(s):</i> ENGG*2410, ENGG*2450, ENGG*3450
Prerequisite(s): ENGG*3450	ENGG*4560 Embedded System Design W (3-3) [0.75]
ENGG*4400 Biomechanical Engineering Design F (3-2) [0.75] Concept development, design, modeling, manufacture and testing of medical implants and tools. This course will investigate the biomechanical factors influencing design, regulatory issues, current development trends, and the possible future of medical implant technology. <i>Prerequisite(s):</i> ENGG*2120, <i>Co-requisite(s):</i> ENGG*3170	This course introduces the basic principles of embedded system design. It utilizes advanced hardware/software abstractions to help design complex systems. Topics include: Design of embedded CUPs; Embedded Architecture Cores; System-On-Chip Designs and Integration Using Processor Cores and Dedicated Core Modules; Embedded Computing Platforms; Embedded Programming Design and Analysis; Processes and Operating Systems; Networks for Embedded Systems; Distributed Embedded Architectures; Design Examples that Target Tobotics, Automobile, and Communication Systems. (First offering - Winter 2011)
ENGG*4420 Real-time Systems Design F (3-3) [0.75]	Prerequisite(s): ENGG*4550 Co-requisite(s): ENGG*3050
Hard versus soft real-time systems. Real-time issues in computer architecture. Clocks	ENGG*4660 Medical Image Processing W (3-2) [0.50]
and timing issues. Correctness and predictability. Structuring and describing real-time software. Clock Synchronization. Real-time objects and atomicity. Validation of timing constraints. Formal Real-time systems design and analysis techniques: process-based, event-based, and Petri Nets. Resource management and control. Real-time scheduling and task allocation (Uni-processor and Multi-processor). Design for dependability, reliability and fault tolerance. Real-time programming using ADA. Survey of Real-time operating systems. Scenarios of real-time systems. <i>Prerequisite(s):</i> CIS*3110 ENGG*4430 Neuro-Fuzzy and Soft Computing Systems W (3-0) [0.50]	This course covers the fundamentals of medical imaging from both the processing of digital images and the physics of image formation. Image processing topics covered include: fundamentals of resolution and quantization; linear systems as applied to multi-dimensional continuous and discrete systems including the relationship between the point spread functions and modulation transfer function; point operations such as contrast enhancement, histogram equalization, and H and D curves, geometric operations for distortion correction, including interpolation methods; linear filtering in both the spatial and spatial-frequency domains; and image restoration and inverse filtering. The physics of the following imaging modalities with emphasis on the parameters which
Introduction to Fuzzy systems; Fuzzy Sets; Fuzzy Rules and Fuzzy Reasoning; Fuzzy	effect image quality will be covered: x-ray radiology, MRI, ultrasound, and nuclear
Inference Systems; Fuzzy Control; Introduction to Neural and Automata Networks; Neural Network Paradigms; Supervised Learning Neural Networks, Learning from Reinforcement, Unsupervised Learning, Robust Neurocontrol; Adaptive Neuro-Fuzzy Inference Systems, Coactive Neuro-Fuzzy Modeling; Reinforcement Learning Control, Gradient-Free Optimization, Feedback Linearization and Sliding Control; Applications: Quality Assurance, Decision Aid Systems, Automatic Character Recognition, Inverse Kinematics Problems, Automobile MPG (Miles Per Gallon) Prediction, System Identification, Channel Equalization, Adaptive Noise Cancellation, Process Control. <i>Prerequisite(s):</i> ENGG*3410 <i>Co-requisite(s):</i> ENGG*4280	medicine. <i>Prerequisite(s):</i> ENGG*3390

#### ENGG\*4450 Large-Scale Software Architecture Engineering F (3-2) [0.50]

This course introduces the students to the analysis, synthesis and design of large-scale software systems at the architectural level. This is in contrast to the algorithmic and data structure viewpoint of most software systems. Large-scale software systems are complex, execute on many processors, under different operating systems, use a particular or many language(s) of implementation, and typically rely on system layers, network connectivity, messaging and data management and hardware interfacing. The material covered includes architectural styles, case studies, architectural design techniques, formal models, specifications and architectural design tools. The laboratory sessions will expose the students to analyzing and redesigning an existing large-scale software system.

Prerequisite(s): (CIS\*2420 or CIS\*2520), ENGG\*2100

# English

School of English and Theatre Studies

- 1. ENGL\*1080 and ENGL\*2080 provide a strong foundation for English studies at the University level and are required courses for students intending to major or minor in English. These linked courses expose students not only to a broad range of texts from different countries and historical periods but also to some of the exciting developments in the discipline.
- 2. Honours major students are required to take the seminar courses ENGL\*2120, ENGL\*2130, ENGL\*3940, ENGL\*3960, preferably in their 3rd, 4th, 5th and 6th semesters. ENGL\*1080 is a pre-requisite to ENGL\*2120 and ENGL\*2130; ENGL\*2080 is a pre-requisite to ENGL\*3940 and ENGL\*3960.
