University of Guelph 2020

The information published in this Undergraduate Calendar outlines the rules, regulations, curricula, programs and fees for the 2020-2021 academic year, including the Summer Semester 2020, the Fall Semester 2020 and the Winter Semester 2021.

The University reserves the right to change without notice any information contained in this calendar, including but not limited to that related to tuition and other fees, standards of admission, course delivery or format, continuation of study, and the offering or requirements for the granting of, degrees or diplomas in any or all of its programs. The publication of this calendar does not bind the University to the provision of courses, programs, schedules of study, or facilities as listed herein.

The University will not be liable for any failure or delay in performance arising out of any cause or causes beyond its reasonable control. Such causes may include but are not limited to fire, strike, lock-out, inability to procure materials or trades, war, mass-casualty event, flood, local, regional or global outbreak of disease or other public health emergency, social distancing or quarantine restriction, legislative or regulatory requirements, unusually severe weather, failure of public utility or common carrier, or attacks or other malicious act, including but not limited to attacks on or through the internet, or any internet service, telecommunications provider or hosting facility.

In March 2020 the World Health Organization declared a global pandemic of the virus leading to COVID-19. The Governments of Canada, the Province of Ontario, and local Governments responded to the pandemic with legislative amendments, controls, orders, by-laws, requests and requirements (collectively, the “Governmental Response”). It is uncertain how long the pandemic, and the related Governmental Response, will continue, and it is unknown whether there may be a resurgence of the virus leading to COVID-19 or any mutation thereof (collectively, the “Virus”) and resulting or supplementary renewed Government Response. Without limiting the foregoing paragraph, the University shall not be liable for costs associated with any failure or delay in performance arising out of:

- a. the continued spread of the Virus;
- b. the continuation of or renewed Governmental Response to control the spread of the Virus; and
- c. a University decision, made on an organization-wide basis and in good faith, to control the spread of the Virus, even if exceeding the then current specific Government Response.

In particular, the COVID-19 pandemic may necessitate a revision of the format of course offerings such that courses are offered in whole or in part on an alternate delivery model to in-person classes. Tuition and mandatory fees have been set regardless of the method of instruction and will not be refunded in the event instruction occurs remotely for any part of the academic year.

Dates or times of performance including the Schedule of Dates may be extended as appropriate and the University will notify students promptly of the existence and nature of such delay and shall, so far as practicable, use reasonable efforts to minimize and mitigate any such delay or non-performance.

Learning Outcomes

On December 5, 2012, the University of Guelph Senate approved five University-wide Learning Outcomes as the basis from which to guide the development of undergraduate degree programs, specializations and courses:

1. Critical and Creative Thinking
2. Literacy
3. Global Understanding
4. Communicating
5. Professional and Ethical Behaviour

These learning outcomes are also intended to serve as a framework through which our educational expectations are clear to students and the broader public; and to inform the process of outcomes assessment through the quality assurance process (regular reviews) of programs and departments.

An on-line guide to the learning outcomes, links to the associated skills, and detailed rubrics designed to support the development and assessment of additional program and discipline-specific outcomes, are available for reference on the [Learning Outcomes website](#).

1. Critical and Creative Thinking

Critical and creative thinking is a concept in which one applies logical principles, after much inquiry and analysis, to solve problems with a high degree of innovation, divergent thinking and risk taking. Those mastering this outcome show evidence of integrating knowledge and applying this knowledge across disciplinary boundaries. Depth and breadth of understanding of disciplines is essential to this outcome.

In addition, **Critical and Creative Thinking** includes, but is not limited to, the following outcomes: **Inquiry and Analysis; Problem Solving; Creativity; and Depth and Breadth of Understanding.**

2. Literacy

Literacy is the ability to extract information from a variety of resources, assess the quality and validity of the material, and use it to discover new knowledge. The comfort in using quantitative literacy also exists in this definition, as does using technology effectively and developing visual literacy.

In addition, **Literacy** includes, but is not limited to, the following outcomes: **Information Literacy, Quantitative Literacy, Technological Literacy, and Visual Literacy.**

3. Global Understanding:

Global understanding encompasses the knowledge of cultural similarities and differences, the context (historical, geographical, political and environmental) from which these arise, and how they are manifest in modern society. Global understanding is exercised as civic engagement, intercultural competence and the ability to understand an academic discipline outside of the domestic context.

In addition, **Global Understanding** includes, but is not limited to, the following outcomes: **Global Understanding, Sense of Historical Development, Civic Knowledge and Engagement, and Intercultural Competence.**

4. Communicating

Communicating is the ability to interact effectively with a variety of individuals and groups, and convey information successfully in a variety of formats including oral and written communication. Communicating also comprises attentiveness and listening, as well as reading comprehension. It includes the ability to communicate and synthesize information, arguments, and analyses accurately and reliably.

In addition, **Communicating** includes, but is not limited to, the following outcomes: **Oral Communication, Written Communication, Reading Comprehension, and Integrative Communication.**

5. Professional and Ethical Behaviour

Professional and ethical behaviour requires the ability to accomplish the tasks at hand with proficient skills in teamwork and leadership, while remembering ethical reasoning behind all decisions. The ability for organizational and time management skills is essential in bringing together all aspects of managing self and others. Academic integrity is central to mastery in this outcome.

In addition, **Professional and Ethical Behaviour** includes, but is not limited to, the following outcomes: **Teamwork, Ethical Reasoning, Leadership, and Personal Organization and Time Management**

IX. Scholarships and Other Awards

General Statements on Awards

The Senate of the University of Guelph is charged with the responsibility "to deal with all matters arising in connection with the awarding of fellowships, scholarships, bursaries, medals, prizes and other awards" (*University of Guelph Act*). In carrying out these responsibilities, Senate has established various policies regarding awards and scholarships, and approves the terms and conditions attached to such awards. Each College has a College Awards Committee, which is responsible for the awarding of scholarships and prizes in the programs under its authority. In addition, the Awards Office, Student Financial Services, is responsible for evaluating the financial need component for awards requiring the demonstration of financial need, the selection of bursary recipients, the selections for awards that are not college-specific, and the selections for entrance awards. Some scholarships and bursaries are open to all students regardless of degree or diploma program and others are restricted to students in particular degree programs/majors/ or departments. Students entering the 1st semester of their first undergraduate degree should consult the "Entrance" sections of the calendar for a listing of those awards for which they may be eligible. In-course students currently registered at the University of Guelph or transfer students (students who are entering the University of Guelph from another post-secondary institution) should refer to the "In-course" sections for a listing of awards for which they may be eligible. Also refer to Section VIII--Undergraduate Degree Regulations and Procedures, Academic Misconduct, Penalties, for additional regulations that may impact awards.

Eligibility for Entrance Scholarships and Bursaries: To be eligible for *entrance* scholarships and bursaries, you must be a Canadian citizen or permanent resident entering the 1st semester of post-secondary studies for the *first time*. Non-Canadian citizens or non-permanent residents entering the 1st semester of post-secondary studies for the *first time* will be considered automatically for an admission entrance scholarship and are not eligible for any other entrance scholarships or bursaries.

Eligibility for In-course Scholarships and Bursaries: To be eligible for *in-course* scholarships and bursaries, you must be registered in an academic term and meet the criterion stipulated in the award terms and conditions. A minimum of 70% cumulative average is required to be eligible for and to receive a 'scholarship'; whereas, there is no minimum average requirement to apply for or to receive a 'bursary'. Bursaries are awarded strictly on the basis of financial need as determined by Student Financial Services. Where applications are required, it is the student's responsibility to follow the method of application listed in the award description. Non-Canadian citizens or non-permanent residents are not eligible to apply for in-course bursaries; however, after the completion of one full year of studies, are eligible to apply for an International student bursary.

Eligibility for Travel Grants: To be eligible for *travel grants*, students must be participating in a curriculum-embedded travel opportunity and meet the additional criterion stipulated in the award terms and conditions.

Eligibility for Prizes and Medals: To be eligible for prizes and medals, you must demonstrate completed achievement as stipulated in the award terms and conditions with no requirement to further engage in study.

Eligibility for ACCESS Awards: The University established an endowment fund through generous donor contributions and has been matched by the provincial government's Ontario Student Opportunity Trust Fund (OSOTF) program and the Ontario Trust for Student Support (OTSS). The income generated from these endowments will be used to support financial aid programs. The awards created will be used to assist Canadian citizens or permanent residents who meet the Ontario residency requirements as mandated by the OSOTF/OTSS program. Students must complete a Financial Need Assessment Form in order to be considered and meet the following *Ontario Government Mandated Terms for an OSOTF/OTSS Award*:

- i) be a Canadian citizen or permanent resident;
- ii) be a Ontario resident as defined by a) have lived in Ontario for a period of at least 12 consecutive months up to the beginning of full-time post-secondary study; or b) the student's spouse has lived in Ontario for at least 12 consecutive months up to the beginning of the current year full-time post-secondary study period; or c) the student's parent(s)/stepparent(s)/legal guardian/official sponsor has lived in Ontario for at least 12 consecutive months up to the beginning of the current year full-time post-secondary study period;
- iii) financial need as determined by the University of Guelph's Financial Need Assessment procedures.

Definitions

Award: Generic term used to refer to any type of non-repayable award. These include scholarships, bursaries, travel grants, prizes, and medals.

Bursary: A monetary award provided to a student solely on the basis of financial need.

Scholarship: An award provided on the basis of previous academic performance and given for further study. While the merit component is normally academic, it may include such non-academic aspects such as leadership, demonstrated originality, and community service. Scholarships can be monetary, prizes, or medals.

Prize or Medal: An award based on completed academic achievement that does not require the recipient to engage in further study. Most often awarded at graduation.

Travel Grant: These grants are provided to students who wish to travel as part of their program of study. Travel grant applications are accepted in advance of the travel opportunity and not as a reimbursement after the fact.

Procedures:

Award Payments: Awards will be applied directly to the student's financial account and can be viewed on WebAdvisor.

Award recipients who withdraw or drop courses: Students who receive an award and who withdraw from the semester in which the award is received, or change the number of credits in which they are registered, may have their award cancelled or value adjusted. This adjustment will be calculated up to the twentieth class day according to the refund schedule in effect for that semester, as well as the published terms and conditions for the award. Bursary recipients will be reassessed to determine their eligible bursary value.

OSAP Students: Do not report U of G awards on your OSAP application. The University will report awards to OSAP on your behalf. If you believe there is a discrepancy, contact Student Financial Services. It is the responsibility of each OSAP applicant to ensure their OSAP application is correct.

Notice of Disclosure: It is understood that merit award winners' names will be released to donors and may be published as a condition of the award.

The University reserves the right to amend awards subject to the availability of funds.
