Project Hero Scholarship [E0979]
The University of Guelph is proud to participate in Project Hero. Project Hero started in 2009 by Retired General Rick Hillier and Honorary Lt. Colonel Kevin Reed and is a unique program providing undergraduate scholarships to children of fallen soldiers. Canadian citizens/permanent residents entering or registered full-time in any degree program who are dependent children of a member of the Canadian Armed Forces personnel deceased while serving in an active mission or First Responder personnel deceased during active duty. “Dependent” children are under the age of 26. The restriction of 25 years does not apply to a physically or mentally disabled child who is over 25 years of age and who had this condition and was a dependent of the employee before the age of 26. Eligibility to participate in this program will be determined by Canadian Armed Forces criteria through confirmation from the Department of National Defense or in the case of First Responders, through the supporting documentation submitted. This award can be held with the University of Guelph Entrance Scholarship, however, students who receive other Entrance Awards (scholarship or bursaries) will have the value of the Project Hero reduced by the value(s) of the other award(s). You can apply for this scholarship by sending an email to awards@uoguelph.ca indicating that you are a dependent child of a member of the Canadian Armed Forces personnel deceased while serving in an active mission and include your parent’s full name OR you are a dependent child of a First Responder personnel deceased during active duty; include supporting documentation confirming the parent perished during active duty as well as confirmation of death. Once approved for this scholarship, you do not need to re-apply.

Dr. and Mrs. Benjamin Lu Scholarship [I0946]

Established by Professor Emeritus Dr. Benjamin Lu. Students majoring in Molecular Biology and Genetics who have successfully completed MBG*2040 Foundations in Molecular Biology and Genetics in the previous academic year.

Donor(s): Dr. Benjamin Lu
Qualification(s): Selection will be based on highest grade in MBG*2040 Foundations in Molecular Biology and Genetics.

Amount: 1 award of $2,000

Dr. And Mrs. Kenneth F. Gregory Scholarship [I0817]

The scholarships will be awarded on the basis of significant volunteer participation. In the event of a tie, the award will go to the student with the highest cumulative average. Apply to the main office, Molecular and Cellular Biology (SCIE Room 4478) by May 15 with a letter outlining volunteer participation.

Donor(s): Dr. And Mrs. Kenneth F. Gregory
Qualification(s): Students enrolled in any major offered by the Department of Molecular and Cellular Biology of the College of Biological Science with a minimum cumulative average of 80% who have demonstrated volunteer participation.

Amount: 2 awards of $1,000

Dr. Caesar V. Senoff Memorial Scholarship for Excellence in Chemistry [I0517]

The Senoff family and the College of Engineering and Physical Sciences, together with the University of Guelph Faculty Association and friends, have established this scholarship in memory of Dr. Caesar V. Senoff. Dr. Senoff discovered the first dinitrogen complex while completing his PhD at the University of Toronto, opening up a new field of chemistry. A valued member of the University of Guelph faculty from 1968 to 1996, his positive influence continues through his students and colleagues. This scholarship will be given annually to the student with the highest cumulative average. Application is not required.

Donor(s): Senoff family and the College of Engineering and Physical Sciences, together with the University of Guelph Faculty Association and friends

What specific activities and initiatives have you been involved in that have disrupted and ended cycles of injustice? 3. Why do you feel it is important for everyone to be involved in initiatives that work to increase gender equality? Selection will be based upon the following: 1) Commitment and involvement in activities and initiatives that support gender equality and equity (e.g. volunteering at rallies or gender equity events, starting a new initiative, or contributing to an existing one, in support of gender rights, gender activism); 2) Evidence of their ability to critically reflect on their personal development and position as an ally. The successful recipient will demonstrate an understanding of the importance of being an ally alongside those affected by current gender inequities, and recognize the role intersectionality plays in gender rights; and 3) Evidence of a positive impact on others, the University of Guelph, or the broader community, specifically as it relates to increasing awareness and support of gender equity and equality. In the event of a tie, the student with the highest cumulative average will be selected. Award cannot be held more than once. Waters, R. (2010). Understanding allyhood as a developmental process. Linda S. Allen Memorial Graduation Prize [C0914]
This award was established in memory of Linda S. Allen, who served many years as a program counsellor for the BSc program and as an instructor of mathematics and statistics, receiving the Excellence in Undergraduate Academic Advising Medallion, on the occasion of its second awarding in 2005. She worked tirelessly to help countless students, but she was especially supportive of students who had suffered setbacks and were working to get their programs back on track. She was also a wonderful mentor to younger program counsellors. The recipient will be the student who best demonstrates tenacity and persistence in overcoming significant circumstances during their studies. This student will best demonstrate their hard work in overcoming a significant issue and took the necessary steps to get their academic careers on track as demonstrated by the fact that they are graduating. If two or more students demonstrate significant circumstances in pursuit of their degree, the student graduating with the highest cumulative average over their last four semesters (10 credits) will be chosen. Applicants who are graduating in June or who have graduated in the previous Fall or Winter term may apply.

Donor(s): Brian Allen, Family, Friends and Colleagues of Linda S. Allen
Qualification(s): Students graduating from any degree program in June or from the previous February or October convocations with a minimum 70% cumulative average.

Project Hero Scholarship [10979]
The University of Guelph is proud to participate in Project Hero. Project Hero started in 2009 by Retired General Rick Hillier and Honorary Lt. Colonel Kevin Reed and is a unique program providing undergraduate scholarships to children of fallen soldiers. Canadian citizens/permanent residents entering or registered full-time in any degree program who are dependent children of a member of the Canadian Armed Forces personnel deceased while serving in an active mission or First Responder personnel deceased during active duty. “Dependent” children are under the age of 26. The restriction of 25 years does not apply to a physically or mentally disabled child who is over 25 years of age and who had this condition and was a dependent of the employee before the age of 26. Eligibility to participate in this program will be determined by Canadian Armed Forces criteria through confirmation from the Department of National Defense or in the case of First Responders, through the supporting documentation submitted.
This award can be held with the University of Guelph Entrance Scholarship, however, students who receive other Entrance Awards (scholarship or bursaries) will have the value of the Project Hero reduced by the value(s) of the other award(s). You can apply for this scholarship by sending an email to awards@uoguelph.ca indicating that you are a dependent child of a member of the Canadian Armed Forces personnel deceased while serving in an active mission and include your parent’s full name OR you are a dependent child of a First Responder personnel deceased during active duty; include supporting documentation confirming the parent perished during active duty as well as confirmation of death. ### Entrance Scholarships

**Academic Leadership Entrance Scholarships [E1070]**

This scholarship was established by the University of Guelph in 2018 to recognize entering students' academic excellence and strong demonstrated leadership, innovation and advocacy within their schools and communities. These awards are considered one of Guelph's most prestigious entering scholarship and encourage students to advance their post-secondary studies here at the University of Guelph. Selection will be based on demonstrated leadership and academic excellence. Applicants who are long-listed through the selection process of the President’s Scholarships, the Lincoln Alexander Chancellor’s Scholarships, or the Chancellor’s Scholarships, but are not offered one of these will be considered. Selections may be limited to particular programs and/or colleges.

The scholarship will be renewed each year provided recipients remain registered in full-time studies and achieve a minimum 80.0% average in their previous academic year of full-time study. Students who fail to qualify for a renewal payment may re-qualify by subsequently obtaining an 80.0% or better average in the previous academic year of full-time study. Annual payments lost cannot be added to the end of the award period. Students apply by January 25th by completing the online application to the President’s, Lincoln Alexander Chancellor’s or the Chancellors’ scholarships application. This award is tenable with all other awards except, this award cannot be held with the President’s Scholarships, the Lincoln Alexander Scholarships, the Chancellor’s Scholarships or the Board of Governors’ Scholarships.

HeforShe Ally Scholarship [I1158]

An ally is someone who consciously commits to disrupting and ending cycles of injustice (Waters, 2010). This award aims to recognize the importance of gender equity and equality by recognizing the achievements of individuals who are committed to achieving equality for all. Apply by January 10th to the LANG Awards Committee lang_awards@uoguelph.ca with a resume and a response to each of the following questions (max 250 words each): 1. How do you feel your gender identity influences your interactions with the world around you? 2. What specific activities and initiatives have you been involved in that have disrupted and ended cycles of injustice? 3. Why do you feel it is important for everyone to be involved in initiatives that work to increase gender equality? Selection will be based upon the following: 1) Commitment and involvement in activities and initiatives that support gender equality and equity (e.g. volunteering at rallies or gender equality events, starting a new initiative, or contributing to an existing one, in support of gender rights, gender activism); 2) Evidence of their ability to critically reflect on their personal development and position as an ally. The successful recipient will demonstrate an understanding of the importance of being an ally alongside those affected by current gender inequities, and recognize the role intersectionality plays in gender rights; and 3) Evidence of a positive impact on others, the University of Guelph, or the broader community, specifically as it relates to increasing awareness and support of gender equity and equality. In the event of a tie, the student with the highest cumulative average will be selected. Award cannot be held more than once. Waters, R. (2010). Understanding allyhood as a developmental process. Entrance Scholarships

Academic Leadership Entrance Scholarships [E1070]

This scholarship was established by the University of Guelph in 2018 to recognize entering students' academic excellence and strong demonstrated leadership, innovation and advocacy within their schools and communities. These awards are considered one of Guelph's most prestigious entering scholarship and encourage students to advance their post-secondary studies here at the University of Guelph. Selection will be based on demonstrated leadership and academic excellence. Applicants who are long-listed through the selection process of the President’s Scholarships, the Lincoln Alexander Chancellor’s Scholarships, or the Chancellor’s Scholarships, but are not offered one of these will be considered. Selections may be limited to particular programs and/or colleges. The scholarship will be renewed each year provided recipients remain registered in full-time studies and achieve a minimum 80.0% average in their previous academic year of full-time study. Students who fail to qualify for a renewal payment may re-qualify by subsequently obtaining an 80.0% or better average in the previous academic year of full-time study. Annual payments lost cannot be added to the end of the award period. Students apply by January 25th by completing the online application to the President’s, Lincoln Alexander Chancellor’s or the Chancellor’s scholarships application. This award is tenable with all other awards except, this award cannot be held with the President's Scholarships, the Lincoln Alexander Scholarships, the Chancellor’s Scholarships or the Board of Governors’ Scholarships. Application is not required.

Donor(s): University of Guelph

Qualification(s): Students entering a degree program who have submitted an application to the President’s, Lincoln Alexander Chancellor’s or the Chancellor’s scholarships.

Amount: up to 35 awards of $20,000 (payable over 4 years of study)

Angelo and Frank Agro Undergraduate Scholarship [E0520]

These scholarships are provided by the Agro Scholarship Fund. Apply, by April 15, to Student Financial Services (awards@uoguelph.ca), with a one to two-page, point-form listing of 4-H activities. This list should describe current or past activities within 4H and the position titles/names, if applicable. Attach a reference letter from a 4H club official. These scholarships will be awarded to the students demonstrating the most active involvement with 4H clubs. The committee will consider any appropriate elements, such as the length of membership in 4H, leadership role(s) in support of 4H, creativity in 4H outreach, and coordination with other rural and academic activities. Credit will be given to those who have achieved in county, provincial and national 4H competitions. Recipients must maintain full-time studies and at least a 70% program average each year for continuation of the award.

### Project Hero Scholarship [E0979]

The University of Guelph is proud to participate in Project Hero. Project Hero started in 2009 by Retired General Rick Hillier and Honorary Lt. Colonel Kevin Reed and is a unique program providing undergraduate scholarships to children of fallen soldiers. Canadian citizens/permanent residents entering or registered full-time in any degree program who are dependent children of a member of the Canadian Armed Forces personnel deceased while serving in an active mission or First Responder personnel deceased during active duty. “Dependent” children are under the age of 26. The restriction of 25 years does not apply to a physically or mentally disabled child who is over 25 years of age and who had this condition and was a dependent of the employee before the age of 26. Eligibility to participate in this program will be determined by Canadian Armed Forces criteria through confirmation from the Department of National Defense or in the case of First Responders, through the supporting documentation submitted. This award can be held with the University of Guelph Entrance Scholarship, however, students who receive other Entrance Awards (scholarship or bursaries) will have the value of the Project Hero reduced by the value(s) of the other award(s). You can apply for this scholarship by sending an email to awards@uoguelph.ca indicating that you are a dependent child of a member of the Canadian Armed Forces personnel deceased while serving in an active mission and include your parent's full name OR you are a dependent child of a First Responder personnel deceased during active duty; include supporting documentation confirming the parent perished during active duty as well as confirmation of death. Once approved for this scholarship, you do not need to re-apply.

### Ted Morwick Scholarship [E0796]

Established by Ted Morwick, honorary alumni. The student with the highest admission average will be selected. This award is conditional on maintaining a 80% average in the previous year of full time study. If a current award recipient does not meet the renewal criteria for one year, they will be given the opportunity to re-qualify. (i.e. The student recipient does not maintain 80% in their first year. They will not receive the award for their second year of school. If at the end of their second year they have raised their average back up to 80% or higher, they would receive the award for their third year.) If a student does not qualify for two years in a row, they would fully lose the award, with no opportunity to re-qualify. This scholarship is not tenable with the Chancellors', President’s or Board of Governors’ Scholarships. No application is necessary.

HeforShe Ally Scholarship [I1158]
An ally is someone who consciously commits to disrupting and ending cycles of injustice (Waters, 2010). This award aims to recognize the importance of gender equity and equality by recognizing the achievements of individuals who are committed to achieving equality for all. Apply by January 10th to the LANG Awards Committee lang_awards@uoguelph.ca with a resume and a response to each of the following questions (max 250 words each): 1. How do you feel your gender identity influences your interactions with the world around you? 2. What specific activities and initiatives have you been involved in that have disrupted and ended cycles of injustice? 3. Why do you feel it is important for everyone to be involved in initiatives that work to increase gender equality? Selection will be based upon the following: 1) Commitment and involvement in activities and initiatives that support gender equality and equity (e.g. volunteering at rallies or gender equality events, starting a new initiative, or contributing to an existing one, in support of gender rights, gender activism); 2) Evidence of their ability to critically reflect on their personal development and position as an ally. The successful recipients will demonstrate an understanding of the importance of being an ally alongside those affected by current gender inequities, and recognize the role intersectionality plays in gender rights; and 3) Evidence of a positive impact on others, the University of Guelph, or the broader community, specifically as it relates to increasing awareness and support of gender equity and equality. In the event of a tie, the student with the highest cumulative average will be selected. Award cannot be held more than once. Waters, R. (2010). Understanding allyhood as a developmental process. Summerlee Humanitarian Scholarships [I0964]

The Summerlee Humanitarian Scholarships are dedicated in the name of the seventh vice-chancellor of the University of Guelph, Dr. Alastair Summerlee. These scholarships reward students who have significantly engaged in humanitarian issues of global importance and provide them with a further opportunity to continue their work and build connections that lead to lasting change. Interested students should apply by March 1st to Student Financial Services with a letter describing: i) how their past activities significantly furthered humanitarian efforts (maximum 500 words) and ii) how they intend to continue to make an impact on a global level (maximum 500 words). The letter must be accompanied by two letters of reference as well as a budget that includes fundraising goals and outlines the cost of their planned international travel and/or conference attendance (if applicable). Five students will be selected based on their ability to demonstrate significant past humanitarian efforts, potential to make further impact based on their proposed international plans (including budget and fundraising goals), and strength of reference letters. Preference will be for one of these awards to go to a varsity athlete (varsity athletes should self-identify in their letter). While applicants who demonstrate past significant impacts in improving local communities/groups will be considered, preference will be given to applicants with strong previous proven international humanitarian efforts. Recipients must adhere to the University of Guelph’s Safe Travel Policy.

### Entrance Scholarships

**Charles and Linda Cyypik Countryroad Entrance Scholarship [E2213]**

The entrance scholarship was created by Charles and Linda Cyypik, who bred champion Dalmatians. Their Dalmatians received excellent care from Drs. Steve Ball (OVC ’82) and Cliff Young (OVC ’49) of Brookville Veterinary Clinic who would refer them to OVC when their pets experienced serious health concerns. Due to their experiences with OVC, they are inclined to support canine studies. Apply with a letter of no more than 300 words and resume detailing experience with dog training, in the fall during the call for applications from the Dean’s office. Letter of reference from a professional who can attest to the student’s experience in this area is required. Selection will be based on the student who demonstrates experience and effectiveness in dog training. In the case of equally qualified candidates, selection will be based on highest admissions average.

**Donor(s):** Mr. Charles and Mrs. Linda Cyypik  
**Qualification(s):** Students registered in Phase 1 of the DVM program with experience and effectiveness in dog training, as shown through experience with therapy dogs or any form of showing or obedience training.

**Project Hero Scholarship [E0979]**

The University of Guelph is proud to participate in Project Hero. Project Hero started in 2009 by Retired General Rick Hillier and Honorary Lt. Colonel Kevin Reed and is a unique program providing undergraduate scholarships to children of fallen soldiers. Canadian citizens/permanent residents entering or registered full-time in any degree program who are dependent children of a member of the Canadian Armed Forces personnel deceased while serving in an active mission or First Responder personnel deceased during active duty. “Dependent” children are under the age of 26. The restriction of 25 years does not apply to a physically or mentally disabled child who is over 25 years of age and who had this condition and was a dependent of the employee before the age of 26. Eligibility to participate in this program will be determined by Canadian Armed Forces criteria through confirmation from the Department of National Defense or in the case of First Responders, through the supporting documentation submitted.

This award can be held with the University of Guelph Entrance Scholarship, however, students who receive other Entrance Awards (scholarship or bursaries) will have the value of the Project Hero reduced by the value(s) of the other award(s). You can apply for this scholarship by sending an email to awards@uoguelph.ca indicating that you are a dependent child of a member of the Canadian Armed Forces personnel deceased while serving in an active mission or First Responder personnel deceased during active duty; include supporting documentation confirming the parents survived the age of death. Once approved for this scholarship, you do not need to re-apply.

HeforShe Ally Scholarship [I1158]
An ally is someone who consciously commits to disrupting and ending cycles of injustice (Waters, 2010). This award aims to recognize the importance of gender equity and equality by recognizing the achievements of individuals who are committed to achieving equality for all. Apply by January 10th to the LANG Awards Committee: lang.awards@uoguelph.ca with a resume and a response to each of the following questions (max 250 words each): 1. How do you feel your gender identity influences your interactions with the world around you? 2. What specific activities and initiatives have you been involved in that have disrupted and ended cycles of injustice? 3. Why do you feel it is important for everyone to be involved in initiatives that work to increase gender equity? Selection will be based upon the following: 1) Commitment and involvement in activities and initiatives that support gender equality and equity (e.g., volunteering at rallies or gender equality events, starting a new initiative, or contributing to an existing one, in support of gender rights, gender activism); 2) Evidence of their ability to critically reflect on their personal development and position as an ally. The successful recipient will demonstrate an understanding of the importance of being an ally alongside those affected by current gender inequities, and recognize the role intersectionality plays in gender rights; and 3) Evidence of a positive impact on others, the University of Guelph, or the broader community, specifically as it relates to increasing awareness and support of gender equity and equality. In the event of a tie, the student with the highest cumulative average will be selected. Award cannot be held more than once. Waters, R. (2010). Understanding allyhood as a developmental process. Summerlee Humanitarian Scholarships [I0964]
The Summerlee Humanitarian Scholarships are dedicated in the name of the seventh vice-chancellor of the University of Guelph, Dr. Alastair Summerlee. These scholarships reward students who have significantly engaged in humanitarian issues of global importance and provide them with a further opportunity to continue their work and build connections that lead to lasting change. Interested students should apply by March 1st to Student Financial Services with a letter describing i) how their past activities significantly furthered humanitarian efforts (maximum 500 words) and ii) how they intend to continue to make an impact on a global level (maximum 500 words). The letter must be accompanied by two letters of reference as well as a budget that includes fundraising goals and outlines the cost of their planned international travel and/or conference attendance (if applicable). Five students will be selected based on their ability to demonstrate significant past humanitarian efforts, potential to make further impact based on their proposed international plans (including budget and fundraising goals), and strength of reference letters. Preference will be for one of these awards to go to a varsity athlete (varsity athletes should self-identify in their letter). While applicants who demonstrate past significant impacts in improving local communities/groups will be considered, preference will be given to applicants with strong previous proven international humanitarian efforts. Recipients must adhere to the University of Guelph’s Safe Travel Policy.

Donor(s): The Angel Gabriel Foundation
Quality(s): Students registered in any program with no more than 17.0 credits completed who have demonstrated a commitment to humanitarian efforts including but not limited to those affecting refugees, displaced persons, and populations affected by conflict and natural disasters through volunteer positions, prior employment and/or extra-curricular activities; and who wish to expand their humanitarian efforts internationally to either assist or advocate on behalf of these groups and/or participate in a conference dealing with these issues.

**Bachelor of Applied Science (B.A.Sc.)**

**Program Information**

The University of Guelph offers an 8 semester (20.00 credits) honours program leading to a Bachelor of Applied Science (B.A.Sc.) degree. Students must select one of the 3 following major areas of study:

- Applied Human Nutrition (AHN)
- Child Studies (CSTU)
- Family Studies and Human Development (FSHD)

Elective offerings enable students to select courses which support or complement their primary field of study.

The program is interdisciplinary and provides a distinctive and integrated focus of applied social science in each of the 3 majors. Courses from the traditional disciplines in other departments in the University are coupled with courses offered by faculty members in the Department of Family Relations and Applied Nutrition whose own backgrounds reflect the interdisciplinary nature of the program.

Laboratory, practicum and field experiences enhance the students' opportunities to grasp the contributions of the social, physical and biological sciences to significant facets of human behaviour and experience, whether in family, community, or in educational settings.

**Academic Counselling**

**Program Counselling**

A B.A.Sc. program counsellor is available to assist prospective students in the selection of their major and initial courses, and to respond to questions regarding any other aspects of their anticipated program. The program counsellor will also assist in-course students who need information or advice about their program or other academic regulations, who seek information on services and resources available to students or who are contemplating transfer into or out of their current major or degree program.

**Academic Advising**

On entering the program all students are assigned to a departmental advisor by major. This advisor is thoroughly familiar with the academic requirements of the program and is also knowledgeable about career opportunities which relate to a student's specific major. Students are strongly encouraged to attend all meetings called by their departmental advisors, and to set up individual meetings with them when they have questions or concerns about their major, or their performance in the program.

**Continuation of Study**

Students are advised to consult the regulations for Continuation of Study which are outlined in detail in Section VIII—Undergraduate Degree Regulations & Procedures.

**Conditions for Graduation**

To qualify for the degree Bachelor of Applied Science, the student must satisfy the following conditions:

- the student must have successfully completed the schedule of studies requirements for the specified major
- the student must have a cumulative average of 60% or higher
- the student must have a term academic standing of Eligible to Continue

**Schedule of Studies**

Courses specified in the Schedule of Studies are required courses and must be completed successfully. A full course load normally includes 2.50 credits (normally 5 courses). The requirements for each major are set out below.

**Special Expenses**

Expenses for field trips can range from $20 to $30 per semester in the first 4 semesters and from $25 to $30 in each of the last 4 semesters. In certain courses modest expenses will be incurred for supplies and where appropriate for laboratory costs. According to recent Ontario legislation, agencies licensed by the Ministry of Community and Social Services which care for, or provide service to, children or vulnerable adults are required to do criminal reference checks on all their employees. Students enrolled in practicum or field placement courses may be required to submit to the agency with which they are placed, personal information about any criminal convictions and pending criminal charges.

The cost of acquiring this criminal reference check (Canadian Police Information Check) will be the responsibility of each student.

**Applied Human Nutrition (AHN)**

Department of Family Relations and Applied Nutrition, College of Social and Applied Human Sciences

The Applied Human Nutrition major recognizes both the biological and the social facets of human nutrition. It focuses on nutrition from a preventive, maintenance and therapeutic perspective, all of which require a thorough understanding of the related biological sciences and of selected aspects of the behavioral sciences. Students learn about nutrition and its application to the maintenance of health and the prevention and treatment of disease. They also learn about individual and social behaviour, particularly in family settings, and the implications of behavioral factors in the establishment of good nutrition status from conception through to old age. Through the effective use of elective courses, the core requirements in the Major can be supplemented to create a program of study which will prepare graduates for a variety of health and education careers in the government or private sectors, or with the food industry. Others may proceed to graduate study in fields such as nutrition, public health nutrition, medicine or education.

An Area of Emphasis in Dietetics is also offered for those interested in becoming Registered Dietitians. Successful completion of the additional required and restricted elective courses, required to meet the Integrated Competencies for Dietetic Education and Practice (ICDEP) as part of this professional education program, will allow students to compete for a limited number of dietetic internship positions/practicum programs after graduation. Graduates who complete dietetic internships/practicum programs are eligible to write the Canadian Dietetic Registration Examination, a national registration examination and become Registered Dietitians, a regulated health profession. The Area of Emphasis in this dietetic education program is accredited under the Partnership for Dietetic Education and Practice (PDEP) and prepares students for eligibility for registration with a provincial dietetics regulatory body. Most graduates completing dietetic internships are employed in hospitals and other health care agencies such as community health centres and long-term care facilities where the credential of Registered Dietitian is required for practice. Some Registered Dietitians also find employment in a wide range of careers in health and education, and in the private sector. Still others proceed to graduate study in fields such as nutrition, public health nutrition, medicine or education.

**Program Requirements**

Students in the Applied Human Nutrition Major must include the core of 13.50 required credits in the minimum of 20.00 credits. Students in the Area of Emphasis in Dietetics take an additional 2.00 required credits plus 1.50 restricted electives for 17.00 required credits in the minimum 20.00 credits. Discussion with a departmental advisor regarding the various choices possible from within the Major is strongly recommended. Students will normally register for courses according to the semesters indicated below for Fall and Winter sequencing.

Students taking the Area of Emphasis in Dietetics are strongly encouraged to seek help from departmental advisors to ensure they have selected all the required coursework to be eligible to apply for internships.

**Minors**

Students may take one minor in addition to the Applied Human Nutrition Major. See the University of Guelph Calendar, Section X, Degree Programs, Specialization and Their Degrees for list of minors: https://www.uoguelph.ca/registrar(calendars/undergraduate/current/c10/index.shtml)

**Counselling on Minors**

The B.A.Sc. program counsellor assists students in the selection of minors, interpreting program and academic regulations. Academic departments offer the minors and assign faculty advisors to assist students with academic planning (e.g., a faculty advisor in the Psychology department handles queries about a minor in Psychology). Students should consult the appropriate faculty advisor, along with the B.A.Sc. Program Counsellor, when declaring a minor or requiring advice on the completion of specialization requirements. The list of faculty advisors is available on the Undergraduate Academic Information Centre website: https://www.uoguelph.ca/uaie/facultyadvisors or contact the B.A.Sc. Program Counsellor for further information.

**Double Counting of Courses**

A maximum of 50 percent of the courses applied to a minor may be courses taken in fulfillment of the major where required courses are the same.

The Child Studies major examines the ways children learn, develop, and grow from psychological, physiological, and social perspectives, with families considered as a central context in which children develop. Ways of working with children in diverse and inclusive settings are explored, and the importance of early learning opportunities and early intervention are emphasized. Students gain both theoretical knowledge and applied skills through course work and guaranteed practicum placements, completing over 500 hours of practical experience working with children in a variety of settings. Graduates of the Child Studies major are eligible to apply for membership in the College of Early Childhood Educators.

Through the effective use of elective courses, the core requirements in the major can be supplemented to create a program of study that will prepare graduates for a variety of careers working with children and their families. Graduates pursue careers in diverse settings including elementary schools, paediatric wards in hospitals, family and community service agencies, child care centres, and child and youth treatment facilities. Many students go on to pursue graduate education in fields such as education, social work, speech language pathology, occupational therapy, child life, nursing, psychology, couple and family therapy, sociology, and family studies.

Program Requirements

All students in the Child Studies major must successfully complete a minimum of 20.00 credits including the core of 14.00 required credits. In addition to the core requirements, there are elective courses from various departments across the University that may be taken. Information about suggested electives that relate to particular careers or areas of interest and requirements for admission to various graduate programs, including Faculties of Education, are available from the B.A.Sc. Program Counsellor.

Minors

Students may take one minor in addition to the Child Studies major. See the University of Guelph Calendar, Section X, Degree Programs, Specialization and Their Degrees for list of minors; http://www.uoguelph.ca/register/calendars/undergraduate/currents/10/index.shtml. The 60.00% requirement applies to each major and minor.

Double Counting of Courses

A maximum of 50 percent of the courses applied to a minor may be courses taken in fulfillment of the major where required courses are the same.

Counselling on Minors

The B.A.Sc. program counsellor assists students in the selection of minors, interpreting program and academic regulations. Academic departments offer the minors and assign faculty advisors to assist students with academic planning (e.g., a faculty advisor in the Psychology department handles queries about a minor in Psychology). Students should consult the appropriate faculty advisor, along with the B.A.Sc. Program Counsellor, when declaring a minor or requiring advice on the completion of specialization requirements. The list of faculty advisors is available on the Undergraduate Academic Information Centre website: https://www.uoguelph.ca/uaic/facultyadvisors or contact the B.A.Sc. Program Counsellor for further information.

Articulation Agreements

The University of Guelph is a partner in several Articulation Agreements concerning the Child Studies major. Students who enter the B.A.Sc. Child Studies major with advanced standing through an articulation agreement should identify themselves to the B.A.Sc. Program Counsellor. Program Counsellor for specific guidance around their Schedule of Studies (see Section IV of this calendar). Students in the Child Studies major who are interested in proceeding to teachers college should refer to Section IV—Admissions Information. **Family Studies and Human Development (FSHD)**

The Department of Family Relations and Applied Nutrition, College of Social and Applied Human Sciences

The Family Studies and Human Development major focuses on the development of individuals and families across the lifespan within the context of relationships, and diverse social and cultural influences. This interdisciplinary program is designed to provide students with an understanding of the influence of psychological, social, biological, and economic factors on individual health, well-being, and relationships across the lifespan. Guaranteed practicum placement(s) enable students to gain knowledge and skills appropriate for work with individuals and groups in a variety of settings, completing up to 336 hours of practical experience. Restricted electives allow students to focus their studies on one or more content areas including: (1) Adult Development and Gerontology, (2) Sexuality and Relationships, and (3) Youth Studies.

Through the effective use of elective courses, the core requirements in the major can be supplemented to create a program of study that will prepare graduates for a variety of careers working with individuals and their families. Graduates pursue careers in a variety of settings including family and community service agencies; government; research institutions; health promotion divisions; support services delivery for individuals and their families; health and social care agencies; employee and family assistance programs; and local social planning councils. Many graduates go on to pursue graduate education in fields such as social work, human sexuality, gerontology, public health, occupational therapy, speech language pathology, recreation therapy, family law and mediation, couple and family therapy, education, social policy, and family relations and human development.

### Program Requirements

All students in the Family Studies and Human Development major must successfully complete a minimum of 20.00 credits including the core of 11.00 required credits and 1.50 restricted electives from the restricted electives content area lists provided. In addition to the core requirements, there are elective courses from various departments across the University that may be taken. Information about suggested electives that relate to particular careers or areas of interest and requirements for admission to various graduate programs, including Facilities of Education, are available from the B.A.Sc. Program Counsellor.

### Minors

Students may take one minor in addition to the Family Studies and Human Development major. See the University of Guelph Calendar, Section X, Degree Programs, Specialization and Their Degrees for list of minors: [http://www.uoguelph.ca/Registrar/calendars/undergraduate/current/10/index.shtml](http://www.uoguelph.ca/Registrar/calendars/undergraduate/current/10/index.shtml). The 60.00% requirement applies to each major and minor.

### Double Counting of Courses

A maximum of 50 percent of the courses applied to a minor may be courses taken in fulfillment of the major where required courses are the same.

### Counselling on Minors

Bachelor of Arts (B.A.)

The University of Guelph offers general and honours programs leading to the B.A. degree. The General Program consists of a minimum of 15.00 credits requiring the equivalent of 6 semesters of successful full time study. The Honours Program consists of a minimum of 20.00 credits requiring the equivalent of 8 semesters of successful full time study. A student may register in Summer, Fall and Winter semesters. The normal course load is 2.50 credits per semester for a full time student on regular status. Students may register for 0.50 credit more at their own discretion. Part time study consists of 1.50 credits or fewer per semester.

Program Information

A student’s selection of courses must follow the B.A. Program Regulations (including Distribution Requirements), a pattern of study for either the General or Honours degree (below), and the detailed schedule(s) of studies which follow for any special subject(s) studied.

Academic Counselling

Program Counselling

Students are urged to seek the assistance of the counsellors in the B.A. Counselling Office regarding their program and academic regulations, selecting courses, services and resources available on campus, and when they are experiencing difficulties that affect their academic progress.

Departmental Advising

Every academic department has advisors available to assist students in their course selection planning. Students should seek the advice of the faculty advisor when declaring a major, area of concentration, or minor, regarding course scheduling and completing the requirements for the specializations.

Students encountering difficulties within a course should first consult the instructor of the course. Co-operative education students in Economics and Psychology will also have a departmental Co-op Academic Advisor and Co-ordinator, and should consult Co-operative Education Services regarding scheduling work terms and the COOP*1000 course.

Academic Residence Requirements

1. At least 5.00 of the credits required for graduation by the student's program must be taken at the University of Guelph.
2. At least 60% of the 3000 and 4000 level courses required for graduation must be taken at the University of Guelph.

University of Guelph courses include courses taken on exchange and on study abroad programs. Letter of Permission courses are not included.

Continuation of Study

Students are advised to consult the regulations for continuation of study within the program which are outlined in detail in Section VIII--Undergraduate Degree Regulations and Procedures of this calendar.

Conditions for Graduation

In addition to meeting the general and honours degree requirements listed below under Program Regulations, students will not normally be eligible to graduate while on probationary or required-to-withdraw status.

Distribution Requirements

The distribution requirements are designed to provide the student with exposure to and some understanding of a range of disciplines in the Arts, Social Sciences and Mathematical and Natural Sciences. Courses taken to satisfy the distribution requirements may also be counted toward a specialization in the general or honours program.

The B.A. Distribution Requirements (requirements 1, 2, and 3) need not be completed immediately but are a graduation requirement.

The distribution requirement of 8 courses (minimum 4.00 credits) is as follows:

1. A minimum of 1.50 credits over at least 2 different subject areas in the humanities:
   - ARTH Art History
   - CHIN Mandarin
   - CLAS Classical Studies
   - ENGL English
   - EURO European Studies
   - FREN French Studies
   - GERM German Studies
   - GREK Greek
   - HIST History
   - HUMAN Humanities
   - ITAL Italian Studies
   - LAT Latin
   - LING Linguistics
   - MUSC Music
   - PHIL Philosophy
   - PORT Portuguese
   - SART Studio Art
   - SPAN Spanish and Hispanic Studies
   - THST Theatre Studies
   - WMST Women’s Studies

2. A minimum of 1.50 credits over at least two of the following subject areas in the social sciences:
   - ANTH Anthropology
   - ECON Economics
   - GEOG Geography
   - IDEV International Development
   - ISS Interdisciplinary Social Science
   - POLS Political Science
   - PSYC Psychology
   - SOC SOCI Sociology
   - SOAN Sociology and Anthropology
   - WMST Women’s Studies

3. 1.00 credits in natural and/or mathematical sciences from the list below.

   Natural and Mathematical Science Courses Acceptable for B.A. Distribution Requirements

   Students must take 1.00 credits in natural and/or mathematical science courses to fulfill the B.A. science requirements. Students should choose their courses from the list below or any course for which those listed serve as prerequisites. Students are advised to fulfill this requirement before their final semester. Any problems related to this requirement should be discussed with a B.A. Program Counsellor.

   Courses recommended for students with limited preparation (e.g., lacking 4U credit in a specific area):

   - AGR*2150 [0.50] Plant Agriculture for International Development
   - BIOL*1020 [0.50] Introduction to Biology
   - BIOL*1500 [0.50] Humans in the Natural World
   - BIOM*2000 [0.50] Concepts in Human Physiology
   - BOT*1200 [0.50] Plants and Human Use
   - CHEM*1060 [0.50] Introductory Chemistry
   - CHEM*1100 [0.50] Chemistry Today
   - CIS*1000 [0.50] Introduction to Computer Applications
   - ENVS*1060 [0.50] Principles of Geology
   - ENVS*2060 [0.50] Soil Science
   - ENVS*2130 [0.50] Eating Sustainably in Ontario
   - ENVS*2210 [0.50] Apiculture and Honey Bee Biology
   - ENVS*2270 [0.50] Impacts of Climate Change
   - FOOD*2010 [0.50] Principles of Food Science
   - GEOG*1300 [0.50] Introduction to the Biophysical Environment
   - GEOG*1350 [0.50] Earth: Hazards and Global Change
   - HORT*1120 [0.50] Grape and Wine Science
   - HORT*1130 [0.50] Science of Gardening
   - MBG*1000 [0.50] Genetics and Society
   - MUSC*1090 [0.50] Physics of Music
   - NUTR*1010 [0.50] Introduction to Nutrition
   - PHYS*1600 [0.50] Contemporary Astronomy
   - PHYS*1810 [0.50] Physics of Music

   Other acceptable courses which require 4U or university preparation:

   - BIOL*1XXX [0.00] Any BIOL course at the 1000 level
   - CHEM*1XXX [0.00] Any CHEM course at the 1000 level
   - CIS*1XXX [0.00] Any CIS course at the 1000 level
   - ENVS*2030 [0.50] Meteorology and Climatology
   - ENVS*2250 [0.50] Geology of Natural Disasters
   - MATH*1XXX [0.00] Any MATH course at the 1000 level
   - PHYS*1XXX [0.00] Any PHYS course at the 1000 level
   - STAT*2XXX [0.00] Any STAT course at the 2000 level

Double Counting of Courses

A maximum of 50 percent of the courses in a second specialization may be courses taken in fulfillment of the first specialization where required courses are the same. (Specializations can include majors, minors, areas of concentrations and certificates.)

Program Regulations

The General Degree Program provides the opportunity for a sound general education in the arts and social sciences, mathematics and sciences, while allowing for concentration of studies in one or more subjects.

The Honours Degree Program provides depth of study in one specialization, strengthening written and oral communication skills, research and analytical abilities, as well as ensuring a breadth of study in the arts, social sciences, mathematics and sciences.
General Degree Requirements (BAG)

To graduate from a general program a student must:

1. earn 15.00 credits. These must include courses that fulfill the distribution requirements (see B.A. Distribution Requirements). At least 4.00 credits must be at the 3000 level or above. Not more than 6.00 credits at the introductory (1000) level may be counted towards the 15.00 credits requirement.

2. 9.00 of the required 15.00 credits must be in courses offered by the College of Arts, the departments of Economics, Geography, Political Science, Psychology, Sociology and Anthropology (in the College of Social and Applied Human Sciences and the Gordon S. Lang School of Business and Economics), School of Computer Science, or the Department of Mathematics and Statistics.

3. no more than 11.00 credits in any one subject or discipline, as indicated by the course prefix code, can be counted towards a general degree.

While students are encouraged to complete the requirements of one or more areas of concentration, this is not a graduation requirement.

The requirements for each area of concentration are set out separately in the pages following the list of Honours and General Specializations Available in the B.A. Degree.

Honours Degree Requirements (BAH)

To graduate from an honours program a student must:

1. earn 20.00 credits. These must include courses that fulfill the distribution requirements (see B.A. Distribution Requirements), and courses that fulfill the requirements of at least 1 major. At least 7.00 credits must be at the 3000 level or above. Not more than 6.00 credits from courses at the introductory (1000) level may be counted towards the 20.00 credits requirement.

2. Honours B.A. students, except those completing a major in Food, Agricultural, and Resource Economics, must take a minimum of 12.00 credits in courses offered by the College of Arts or the departments of Economics, Geography, Political Science, Psychology, Sociology and Anthropology (in the College of Social and Applied Human Sciences and the Gordon S. Lang School of Business and Economics), the School of Computer Science or the Department of Mathematics and Statistics.

3. no more than 14.00 credits in any one subject or discipline, as indicated by the course prefix code, can be counted towards an Honours Degree.

4. fulfill the course and credit requirements of at least one major with a cumulative average of at least 70% in all course attempts at the University of Guelph in that major. Grades in all courses in the discipline area of the major are included in the cumulative average. Grades from those courses in other disciplines listed as options toward the major are also included in the average. (This condition does not apply to majors in the interdisciplinary programs of International Development and European Studies, where only courses in the core and chosen area of emphasis will be counted toward the specialization average.) Students may take more than one major. They may also take one or more minors. The 70% requirement applies to each major and minor.

The requirements for each major and minor are set out separately in the pages following the list of Honours and General Specializations Available in the B.A. Degree.

University recognition that a student has graduated with a particular major or minor requires a cumulative average of 70% for all course attempts at this University in that major or minor.

Students failing to meet the graduation requirements of the Honours Program may apply to graduate with a General Degree if the requirements for the General Degree are met. Students should note that a specialization is not required to graduate with a General Degree.

Semester One Requirements

It is recommended that students select 1000 level courses as follows:

- Required courses for a chosen or intended specialization (major, minor, area of concentration).
- Electives (this could include arts/humanities, social sciences, natural/mathematical sciences, or electives from another area).

For more information on course selection, students can access the New Student Registration Handbook at https://www.uoguelph.ca/registrar/undergraduate/registrationhandbook/index

Special Study Options

Study at Other Universities

Students contemplating study at another university for credit towards a Bachelor of Arts degree at the University of Guelph should refer to the general regulations governing Letters of Permission in Section VIII - Degree Regulations & Procedures in this calendar.

Students must obtain approval for the Letter of Permission prior to undertaking studies at another institution. Approval of the request depends on good standing in the program with a minimum average of 60%.

The normal limit of credits taken on a Letter of Permission is 2.50 based on Guelph credits. Students with a specialization in languages who want to undertake a program of study in Quebec or abroad should consult the appropriate faculty advisor or the Director of the School of Languages and Literatures.

Study Abroad

The University of Guelph offers many other Study Abroad and Exchange opportunities for students to enrich their learning experience. Bachelor of Arts students are encouraged to participate in any of the diverse options available. Courses taken while on exchange or study abroad can be used as electives or core requirements. For further information on the programs available, please refer to Section V - International Study. Students are advised to meet with a B.A. Program Counsellor to discuss the feasibility of participating in an exchange or semester abroad.

### Art History (ARTH)

#### School of Fine Art and Music, College of Arts
The School provides for concentrated study in Art History or Studio Arts, or for a more balanced study combining the two disciplines. Both Studio Art and Art History degree programs require some work in both the programs. Many Art History courses are also open to non-specialized students.

The Art History program covers historical perspectives on the visual arts, study of the methodologies of art history and critical theory, and consideration of contemporary issues in the practice and display of art. Students pursuing a Major or Minor in Art History are required to take a minimum number of courses at the 2000, 3000 and 4000 level.

Students majoring in other programs who are also interested in the study of Art History are encouraged to consider the Minor offered in Museum Studies. Specific requirements for the Art History Honours Major and Minor are listed below.

#### Student Counselling
The students who elect to take a substantial number of courses in Art History with the objective of graduate work are advised to obtain counselling from faculty regarding their choices. It is important to know that graduate studies in Art History will usually require a reading knowledge of at least 2 languages other than English. German, French, Italian and Latin are among the most useful choices. Cognate electives in other disciplines in the College of Arts (such as History) will almost certainly prove an asset.

### Major (Honours Program)

- ARTH*4350 [1.00] Topics in Art & Visual Culture V

Students may count either ARTH*4600 "Individual Study: Art History" or ARTH*4800 "Experiential Learning" towards their major. Neither of these courses meets the requirement of 2.00 credits from seminar courses.

**Minor (Honours Program)**

A minimum of 5.00 credits is required, including:

- ARTH*1510 [0.50] Art Historical Studies I
- ARTH*1520 [0.50] Art Historical Studies II

4.00 additional credits in Art History including at least 2.00 credits at the 3000 or 4000 level.

**Arts, Culture and Heritage Management (ACHM)**

This minor prepares students for careers in the management of the artistic and cultural sectors. By examining arts, culture and heritage institutions, business models and consumer trends, students develop and demonstrate an understanding of the relationship between culture and society, cultural economies and the arts both globally and in the Canadian context. Attention is given to visual culture, film and theatre, sound/music, heritage, management, law, marketing, communications and ethics. The experiential component allows students to gain practical experience in the field of their choice. The minor in Arts, Culture and Heritage Management guides students to an understanding of the pertinent questions at stake in today's entrepreneurial and diverse cultural environments.

**Minor (Honours Program)**

A minimum of 5.00 credits is required, including:

- HUMN*1300 [0.50] Fundamentals of Arts Management I
- HUMN*2300 [0.50] Fundamentals of Arts Management II
- HROB*2010 [0.50] Foundations of Leadership
- MGMT*2150 [0.50] Introduction to Canadian Business Management

Note: BComm students interested in this minor must substitute MGMT*2150 with 0.50 additional credits from the Arts and Culture list below.

1.00 credit from Arts and Culture

- ANTH*2660 [0.50] Contemporary Indigenous Peoples in Canada
- ANTH*3650 [0.50] The Anthropology of Indigenous Peoples Before Canada

2.00 additional credits from the Arts and Culture list below.

At least 1.00 credits must be at 3000 level or higher.

**Note:** Some courses may also have prerequisites, identified in course descriptions in the academic calendar.

**Business (BUS)**

Department of Management, Gordon S. Lang School of Business and Economics

The study of business is complementary to virtually any career or professional endeavour. The minor in Business is intended to enhance the business literacy of non-business students. Through a combination of core and elective courses, students from different disciplines will develop foundational knowledge and understanding of the core functional areas of business, and be invited to explore and apply this in relation to their primary area of study.

**Note:** The minor in Business is not open to students enrolled in the Bachelor of Commerce program.

**Minor (Honours Program)**

A minimum of 5.00 credits is required (all 3.00 required credits, plus 2.00 credits of restricted electives of which at least 1.00 credits must be at the 3000 level or above).

Required courses (3.00 credits):

- ACCT*1220 [0.50] Introductory Financial Accounting
- ECON*1100 [0.50] Introductory Macroeconomics
- HROB*2090 [0.50] Individuals and Groups in Organizations
- MCS*1000 [0.50] Introductory Marketing
- MGMT*2150 [0.50] Introduction to Canadian Business Management
- MGMT*3020 [0.50] Corporate Social Responsibility

Restricted Electives (2.00 credits of which at least 1.00 credits are at the 3000 level or above):

- ACCT*2230 [0.50] Management Accounting
- ECON*2720 [0.50] Business History
- EDRD*3140 [0.50] Organizational Communication
- EDRD*3160 [0.50] International Communication

SOAN*3040 [0.50] Globalization of Work and Organizations

Note: not all restricted elective courses identified in this list will necessarily be open to all students in the Business minor. Some courses (noted by the *asterisk*) have priority access restrictions, or may be limited to students enrolled in the major from which the courses are drawn. In some cases a Course Waiver Request form signed by the instructor may be required in order for students to add these courses to their schedule. Please consult with the department offering the course about possible access. Some courses may also have prerequisites which are identified in course descriptions in the academic calendar.

Business Economics (BECN)

Department of Economics and Finance, Gordon S. Lang School of Business and Economics

Interdisciplinary study in Business Economics is offered as a minor in the honours program. Students in this program will be counselled by the Department of Economics and Finance. It is possible for students to pursue a more intensive program in the area of business and economics; see the heading Economics (ECON) or Mathematical Economics (MAEC) in the B.A. degree and the heading Management Economics (MEF) in the B.Comm. degree.

Classical Studies (CLAS)

School of Languages and Literatures, College of Arts

The program in Classical Studies is intended particularly for students interested in Greek and Roman culture, society and history. The advanced study of both Greek and Latin is recommended to students who want a more precise understanding of the ancient cultures. Consult the Head of Classical Studies for detailed information.

Core Requirements

a. CLAS*1000, plus EITHER (GREK*1100, GREK*1110, GREK*2020) OR (LAT*1100, LAT*1110, LAT*2000)
b. one of CLAS*2000, CLAS*2150, CLAS*2350, CLAS*3100
c. one of CLAS*3000, CLAS*3010, CLAS*3020
d. one of CLAS*3030, CLAS*3040
e. one of CLAS*3150, HIST*2850, PHIL*2140

Major (Honours Program)

A minimum of 8.00 credits is required, including:

a. the Classical Studies Core
b. CLAS*4000, CLAS*4150, CLAS*4400
c. 2.50 additional credits in Classics, 1.00 of which may be taken from the following as part of the program:
d. ENGL*1410 [0.50] Major Writers
   HIST*2200 [0.50] The Medieval World

HUMN*1030 [0.50] What Makes a Literary Classic?

PHIL*3060 [0.50] Medieval Philosophy

Minor (Honours Program)

A minimum of 5.00 credits is required, including:

a. the Classical Studies Core
b. two of CLAS*4000, CLAS*4150, CLAS*4400

Computing and Information Science (CIS)

School of Computer Science, College of Engineering and Physical Sciences

A knowledge of Computing is a complement to most areas of study. The Minor in Computing and Information Science is directed towards students who wish to supplement their studies in another area with some experience in Computing. Students interested in pursuing a Major in Computing can do so through the Bachelor of Computing Degree Program.

Minor (Honours Program)

A minimum of 5.00 credits is required, including:

CIS*1300 [0.50] Programming
CIS*1910 [0.50] Discrete Structures in Computing I
CIS*2170 [0.75] User Interface Design
CIS*2430 [0.50] Object Oriented Programming
CIS*2500 [0.50] Intermediate Programming
CIS*2520 [0.50] Data Structures
CIS*2750 [0.75] Software Systems Development and Integration

0.50 additional credits from CIS courses at the 2000 level or above
0.50 additional credits from CIS courses at the 3000 level or above

Creative Writing (CW)

The Creative Writing minor reflects the significant role that creative writing plays in our cultural life, from travel writing and blogs, gaming and journalism, to poems, novels and films. The minor honours students’ skills in expressive writing, and teaches students to situate their work within a broader context of local, global and historical creative texts. Workshops and a capstone seminar provide students with the opportunity to revise their work and develop a creative portfolio.

Minor (Honours Program)

A minimum of 5.00 credits is required including:

ENGL*1080 [0.50] Literatures in English I: Reading the Past
ENGL*2920 [0.50] Elements of Creative Writing

Note: Substituted courses may have their own prerequisites; check the course descriptions in the academic calendar.

Criminal Justice and Public Policy (CJPP)

Department of Sociology and Anthropology, and the Department of Political Science, College of Social and Applied Human Sciences

Criminal Justice and Public Policy is offered as a minor in the honours program and as a major in the honours program. It is designed to provide students seeking a career in the criminal justice system, or planning to pursue an advanced degree with a knowledge base that will enable them to pursue their career objectives. The program offers a unique blend of sociological courses dealing with the criminal justice system as well as courses in Political Science dealing with public policy formation and implementation. It also provides students with the conceptual and methodological tools needed for further study.

Students who are not admitted directly into the CJPP major and subsequently wish to declare either the CJPP major or minor must have a cumulative average of 70% or better in the following foundation courses:

POLS*2300 [0.50] Canadian Government and Politics
POLS*2350 [0.50] Law from a Political Science Perspective
SOAN*2120 [0.50] Introductory Methods
SOC*1500 [0.50] Crime and Criminal Justice
SOC*2700 [0.50] Criminological Theory

One of:

POLS*2230 [0.50] Public Policy
POLS*2250 [0.50] Public Administration and Governance

Students from other institutions who transfer to the University of Guelph and wish to declare the CJPP major or minor must also meet the above requirement. If external transfer students are granted credit for one or more of the foundation courses listed above, then they must attain a cumulative average of 70% or better in the remaining required CJPP foundation courses.

Economics (Co-op) (ECON:C)

Department of Economics and Finance, Gordon S. Lang School of Business and Economics

The Economics Co-op program provides an integrated academic/work experience for students with co-operating employer organizations. Students in the program complete 4-5 work terms while fulfilling the requirements of their honours Economics program.

All co-op students must complete the Economics core plus an introductory computer science course (CIS*), ECON*2770 and ECON*3740 in their first 4 semesters. Admission to the co-op program is limited to students of high academic standing and will be considered only at semester 1 or at the end of semester 2. The first 2 work terms normally follow completion of the first 4 semesters of academic study. Students will only be permitted to take these work terms if they are eligible to continue in the Honours Economics program, have completed the required courses and are maintaining a satisfactory standing in their Economics program. The 3rd and 4th work terms will normally follow the 6th academic semester. For further information on the Economics Co-op program students are urged to consult the department's Program Guide and Co-operative Education Programs in Section X-of-Degree Programs in this calendar.

Students should review the Economics section in the schedule of studies for additional program information.

Program Requirements

The Co-op program in Economics is a five year program, including five work terms. Students must complete a Fall, Winter and Summer work term and must follow the academic work schedule as outlined below (also found on the Co-operative Education website: https://www.recruitguelph.ca/cecs/). Please refer to the Co-operative Education program policy with respect to work term performance grading, work term report grading and program completion requirements.

To be eligible to continue in the Co-op program, students must meet a minimum 70% cumulative average requirement after second semester, as well as meet all work term requirements. Please refer to the Co-operative Education program policy with respect to work term performance grading, work term report grading and program completion requirements.

For additional program information students should consult with their Co-op Co-ordinator and Co-op Faculty Advisor, listed on the Co-operative Education website.

Credit Summary (22.00 Total Credits)*

9.50 - Required Core Courses

1.50 - Humanities credits from at least two subject areas (BA distribution requirement)

0.50 - Social Science credit outside of ECON (BA distribution requirement)

8.50 – Electives

2.00 - Co-op Work Terms

Note: A minimum of four Co-op work terms including a Summer, Fall, and Winter are necessary to complete the Co-op requirement. *A fifth Co-op work term is optional and if completed, the total number of credits will equal 22.50

X. Degree Programs, Bachelor of Arts (B.A.)

Revision.
The School of English and Theatre Studies offers courses in the B.A. Program in English that focus on the study of literature and related texts across a broad range of theoretical, historical, and geographical sites. The School also welcomes non-majors into its courses at the 1000, 2000, and 3000 levels, suitable to other majors within the College of Arts and beyond. Certain courses in Theatre Studies (THST) and in Literature in Translation (CLAS, GERM, HUMN, SPAN) may be counted towards a degree in English. Consult the School of English and Theatre Studies for details.

First-year students registered in or considering one of the programs in English should register for ENGL*1080 in the first semester and ENGL*2080 in the second semester.

### Area of Concentration (General Program)

A minimum of 5.00 English credits is required in the English core and the English electives. English elective courses must be chosen to fulfill the Distribution Requirements for the Area of Concentration.

#### English core - 2.00 credits as follows:

1. **ENGL*1080, ENGL*2080, ENGL*2120**
2. one additional core seminar (variable content): **ENGL*2130, ENGL*3940, ENGL*3960**

#### English electives - 3.00 credits to include:

1. 1.00 credits from the following list of courses:
   - **ENGL*2090** [0.50] Studies in Shakespeare
   - **ENGL*2360** [0.50] Medieval Literature
   - **ENGL*3080** [0.50] History and Linguistics of the English Language
   - **ENGL*3220** [0.50] Representing Britain: 18th- & 19th-Century Literature
   - **ENGL*3240** [0.50] Studies in Early Modern Literature and Culture
   - **ENGL*3300** [0.50] Restoration to Romanticism: Forging the Nation
   - **ENGL*3320** [0.50] Romanticism to Victorianism: Culture and Conformity
   - **ENGL*3340** [0.50] British Imperial Culture
   - **ENGL*3380** [0.50] Studies in the History of Literary Production
   - **ENGL*3540** [0.50] Writing the United States
   - **ENGL*3570** [0.50] Chaucer in Context
   - **ENGL*3630** [0.50] Writing Canada: Forging the Nation

2. 2.00 credits from any other ENGL lecture or seminar course. At least 1.00 credits in ENGL must be at the 3000 level.

### Major (Honours Program)

A minimum of 8.50 English credits is required in the English core and the English electives. English elective courses must be chosen to fulfill the Distribution Requirements for the Major.

#### English core - 3.00 credits as follows:

1. **ENGL*1080, ENGL*2080**
2. four core seminars (variable content): **ENGL*2120, ENGL*2130, ENGL*3940, ENGL*3960**

#### English electives - 5.50 credits to include:

1. 2.00 credits from the following list of courses:
   - **ENGL*2090** [0.50] Studies in Shakespeare
   - **ENGL*2360** [0.50] Medieval Literature
   - **ENGL*3080** [0.50] History and Linguistics of the English Language
   - **ENGL*3220** [0.50] Representing Britain: 18th- & 19th-Century Literature
   - **ENGL*3240** [0.50] Studies in Early Modern Literature and Culture

   - **ENGL*3570** [0.50] Chaucer in Context
   - **ENGL*3630** [0.50] Writing Canada: Forging the Nation

2. 1.00 credits from ENGL 4000 level courses

3. 2.50 credits from any other ENGL lecture or seminar courses

A maximum of 2.00 credits at the 4000 level may be counted towards a major in English.

Honours students interested in a more concentrated program or contemplating graduate work in English are strongly advised to:

- attain a good reading knowledge of another language, such as French
- take **ENGL*3380** (Studies in the History of Literary Production), **ENGL*3690** (History of Literary Criticism), **ENGL*4890** (Contemporary Literary Theory)
- take 2.00 credits from 4000-level seminars (2 seminars at 1.00 credits each)

The M.A. program in English at Guelph gives preference to qualified applicants with a broad experience in literary and cultural studies and related disciplines.

### Minor (Honours Program)

The program of study and requirements are the same as for the Area of Concentration in the General Program.

### Environmental Governance (EGOV)

#### Department of Geography, Environment and Geomatics, College of Social and Applied Human Sciences

Environmental governance refers to the processes through which societies make decisions that affect the environment. Governments have long been dominant players in this context. However, in Canada and around the world, the ability of governments alone to address environmental problems is being called into question. As a result, contemporary environmental governance increasingly involves citizens, non-government organizations, and businesses.

The Major in Environmental Governance introduces students to the challenges of environmental governance. Through completing courses from the disciplines of geography, political science, agricultural economics, and economics, students will receive: a solid foundation in the processes and mechanisms of environmental governance in Canada and elsewhere; an understanding of geographical, political, and economic factors that shape governance in Canada and around the world; and exposure to innovative approaches to environmental governance that address persistent and emerging societal concerns. Students completing the major will have the skills and experiences needed to participate effectively in environmental governance in a variety of settings. Hence, they will find careers in the public sector, in environmental non-government organizations, and, increasingly, in the private sector.

Completion of required courses, and careful selection from among optional courses, will facilitate students completing a minor in Geography, Political Science, or Economics. Minors in other programs also may complement the Major in Environmental Governance.

#### Environmental Governance ( EGouv)

### European Studies (EURS)

**Interdisciplinary Program**

The European Studies program is designed for students who seek a career in International Relations - especially in International Business and Administration - between Canada and Europe. It offers a combination of languages, specially designed courses in European thought, letters and history and specialization in either European Business or European Culture and Civilization.

Successful completion of the European Studies Major requires proficiency in one of the following languages (French, German, Italian or Spanish). In order to demonstrate language proficiency, students have two options: they may study for a year at a European University, in the country where their chosen core language is spoken, or they may write a final research paper in the chosen core language within a required fourth year European Studies course. See EURO*4740. It is highly recommended that students spend their third year studying at a European university, in the country where their chosen core language is spoken. The benefits of such an experience are considerable, both academically and personally. One specific academic outcome of a successful year abroad will be recognition that the student has fulfilled the program's core language requirement. For students who have spent one year studying at a European university in a country where their chosen core language is spoken, a course taken in that year involving a major academic paper or exam in the core language will, upon approval of the Co-ordinator of European Studies, be substituted for EURO*4740. See the Coordinator for the European Studies program for more information. See also the course description for EURO*4740.

**Major (Honours Program)**

A minimum of 12.00 credits is required, including:

- 5.00 credits in the three components of the European Studies core, 2.50 credits in one language, and 4.50 credits in either the European Culture and Civilization or the European Business Studies area of emphasis

Note: in order to demonstrate language proficiency, students must write a research paper (EURO*4740) in their core language unless they have spent one year studying at a European university, in the country where their chosen core language is spoken. Where that is the case, a course taken in that year involving a major academic paper of exam in the core language will, upon approval of the Co-ordinator for European Studies, EURO*4740.

Study Abroad

Year 3 or year 4 will provide students with the opportunity to continue their studies abroad. Students will select up to 6.00 credits which can be included in the area of emphasis, as electives, or both. They are subject to approval by the program coordinator and the departmental advisor. Courses taken in Europe will not count towards the specialization average.

Practicum Opportunity:

EURO*3700 is available for those students wishing to participate in a practicum experience as part of the year abroad. The practicum must be a job or volunteer experience that contributes to the student's area of study and intended career. It must be approved in advance by the Coordinator. A final report, written in the student's chosen language, is a requirement of this course.

Family and Child Studies (FCS)

Department of Family Relations and Applied Nutrition, College of Social and Applied Human Sciences
Family and Child Studies is offered as a minor in the honours program. It is designed to provide students with an opportunity to pursue interdisciplinary studies which have a specific focus on human development over the life span and on the applied questions which relate to the needs of children and the functioning of families. Elective courses may be chosen to emphasize the family, the child, or a combination of the two. Students seeking counselling should consult with a faculty advisor in the Department of Family Relations and Applied Nutrition.

Students who wish to declare the FCS minor, must have a cumulative average of 70% or better in the following foundation courses:

**Note:** PSYC majors who have taken one or more of the following PSYC courses can count them towards the further 2.50 credits required for the minor: PSYC*2310, PSYC*3300, PSYC*3350, PSYC*3370, PSYC*3800, PSYC*3850.

*Note:* Courses marked with an asterisk* may require the completion of additional prerequisites not included in the requirements for the Family and Child Studies minor.

Students should consult the most recent Undergraduate Calendar (Chapter XII – Course Descriptions) for specific prerequisites.

**Note:** Students from other institutions who transfer to the University of Guelph and wish to declare the FCS minor, must have a cumulative average of 70% or better in the remaining required FCS foundation courses.

### Food, Agricultural and Resource Economics (FARE)

**Department of Food, Agricultural and Resource Economics, Ontario Agricultural College**

Food and Agriculture connect people with the world’s natural resource base and are at the heart of global issues. In this major, students will acquire the analytical and management skills needed to develop the capacity to effectively deal with emerging issues and challenges, such as food, security and sustainability. Building on the understanding of economic theory and applied methods in both the Canadian and world context, a variety of job opportunities arise in industry, government agencies and non-governmental organizations.

Beyond the core offering, the major provides the flexibility for students to pursue thematic areas of study, as well as an opportunity to take additional liberal arts courses. In addition, this major provides excellent background for those students planning to undertake graduate work in food, agricultural or resource economics and other fields of applied economics.

**Major (Honours Program)**

A minimum of 11.00 credits, consisting of the 9.50 credits specified below plus 1.50 credits of restricted electives, is required, including:

Notes: A student may obtain permission to substitute certain other courses for the ones listed if the substitute courses fit with the students program. Approval from a departmental advisor is required.

### School of Languages and Literatures, College of Arts

All language courses carry 0.50 credits. Please note that students with Ontario Grade 12 credit or its equivalent in French are not normally admitted into FREN*1090. FREN*1100 or FREN*1150. Francophone students usually start the program with second-year courses conditional upon approval by the Faculty Advisor. Students who are exempt from FREN*1200 and/or FREN*1300 will need to substitute higher level French course(s) in order to complete the required number of credits for their program. Under certain circumstances, 0.50 credits from other courses offered in the School of Languages and Literatures which contain material related to French Studies may be counted. Please see the faculty advisor for French Studies for more information. Students majoring in French are advised to take elective courses in another Romance language and in Latin.

It is also recommended that students include LINC*1000 among the electives in order to derive the maximum benefit from their studies. Except where stated otherwise, literary texts are, at all levels, studied in the original language. Students registering in French courses are expected to have the appropriate academic background.

### Area of Concentration (General Program)

FREN*2060 [0.50] Quebec: Literature and Society
FREN*2520 [0.50] French Composition I

2.50 additional credits in French

Notes:
1. Students are strongly urged to take at least 0.50 language credits each semester and they must plan to take a 4th year course in their 3rd year.
2. Students of French are encouraged to take advantage of the French residence on this campus. Applications for accommodation in the Maison Française should be made well in advance of registration.
3. FREN*1090, FREN*1100, FREN*1150, are not counted toward a specialization in French.
4. Native speakers of French (or non-francophone equivalent) will not normally be admitted into FREN*1200 and FREN*1300. It is recommended they start their program with FREN*2020, FREN*2060, FREN*2500, or FREN*2520 with the approval of the Faculty Advisor.

Studies in Quebec or Abroad

The French program encourages students to spend 1 or 2 semesters in a French-speaking province or country, or to pursue their studies in an immersion program at the university level. A letter of permission is required (see Section VIII-Undergraduate Degree Regulations & Procedures). Students may also take advantage of federal-provincial programs such as the Explore program or the Ontario Rhone-Alps summer language course.

Year in Nice

A special year-long program in Nice, France, is offered to Guelph students at semester levels 5 and 6. All courses for which transfer credits have been arranged are credited at Guelph without the need for letters of permission; students pay only Guelph academic fees and are eligible for OSAP. For further information see the Head of French Studies.

Geography (GEOG)

Department of Geography, Environment and Geomatics, College of Social and Applied Human Sciences

Students in the Geography Major study human interactions with the environment across geographic scales, from local to global. Within the program of studies students take courses in the physical and social sciences and are able to pursue a particular line of interest, for example in environmental conservation, climate change, environmental justice, food security, geomorphology, urban-rural change, or watershed management. The 1000 level courses provide a foundation for the Geography programs and are prerequisites or are strongly recommended for many of the 2000 level courses. The 2000 level systematic courses are prerequisite to the corresponding advanced courses at the 3000 and 4000 level. Geography B.A. Honours Majors are eligible to take the B.Sc. Honours program Minor in Geographic Information Systems and Environmental Analysis which is described in the schedule of studies (Section X).

All Geography students are encouraged to consult with a faculty advisor regarding course selection, especially those students contemplating graduate or professional programs of study following completion of the honours program.

The department also offers a B.A. Honours in Environmental Governance, a B.Sc. Honours in Environmental Geomatics, and a B.Sc.Env. Honours in Environment and Resource Management. Each program is described in the schedule of studies (Section X).

The following courses may be counted as Geography credits: ENVS*2030, ENVS*2060, ENVS*4220, GEOL*2150, MET*2030, SOIL*2010.

Area of Concentration (General Program)

A minimum of 5.00 credits in Geography is required, including:

German (GERM)

School of Languages and Literatures, College of Arts

All language courses carry 0.50 credits. Students with two years of high school German or equivalent may not be admitted into GERM*1100. Students with 12U German credit or its equivalent may be admitted into GERM*1110 only with the approval of the department. All language students are advised to include LING*1000 among their electives in order to derive the maximum benefit from their studies. Except where stated otherwise, literary texts are, at all levels, studied in the original language. Students registering in these courses will be expected to have the appropriate knowledge.

Study Abroad

The School of Languages and Literatures encourages students in the German program to spend 1 or 2 semesters in a German speaking country to continue their studies at the University level. Credit for programs of study successfully completed may be applied towards the University of Guelph degree requirements.). For more information, contact the Centre for International Program or the School of Languages and Literatures.

Minor (Honours Program)

A minimum of 5.00 credits in German is required from the following courses:

GERM*1100 [0.50] Introductory German I
GERM*1110 [0.50] Introductory German II
GERM*2010 [0.50] Intermediate Language Practice
GERM*2490 [0.50] Intermediate German
GERM*3000 [0.50] Narratives of Migration
GERM*3020 [0.50] Myth and Fairy Tales in Germany
GERM*3150 [0.50] Interactive German Language and Culture
GERM*3470 [0.50] Holocaust & WWII in German Lit. & Film
GERM*3600 [0.50] Directed Readings in German Studies
GERM*3700 [0.50] Experiential Learning and Language
GERM*4940 [0.50] Research Paper in German Studies

Upon passing both the German designation and its Humanities co-requisites, students may count HUMN*3000, HUMN*3020 and HUMN*3470 toward the German minor. Students may also count 0.50 credit toward the German minor.

History (HIST)

Department of History, College of Arts

Courses marked (H) are designed as honors courses.

Access to all 4000 level history courses is restricted to students in the B.A. Honours program who have completed at least 10.00 university credits and who have achieved at least a 70% average in all history course attempts. Students in a general program wishing to take these courses must obtain the permission of instructors concerned. Students wishing to take a 3000-level course must have completed at least 7.50 credits in university courses.

Revision:

2020-2021 Undergraduate Calendar
Students wishing to take a 2000-level course must have completed at least 2.00 credits in university courses. The History Department advises students entering semester 2 who wish to take a 2000-level course to enroll in one of the core courses (HIST*2100, HIST*2450 and HIST*2600) that offer additional instructional support. Students should note the prerequisite requirements of upper level courses in planning their individual programs.

**Area of Concentration (General Program)**

A minimum of 5.00 credits in History is required as follows:

**Core Requirements – 1.50 credits**

1. required courses
   - HIST*1050 [0.50] Invitation to History
   - HIST*2450 [0.50] The Practising Historian
2. one of the following courses:
   - HIST*1010 [0.50] Early Modern Europe
   - HIST*1150 [0.50] The Modern World
   - HIST*1250 [0.50] Science and Technology in a Global Context

**History Electives – 3.50 credits**

3. 1.50 credits at the 3000-level (excluding HIST*3470 and HIST*3480)
4. 2.00 additional credits in History

**Note:** With the permission of the department, students may select as part of their program 0.50 credits outside the History Department such as ECON*2420, ECON*3730, EURO*4050.

**Major (Honours Program)**

A minimum of 8.50 credits in History courses is required as follows:

**Core Requirements – 2.00 credits**

1. required courses
   - HIST*1050 [0.50] Invitation to History
   - HIST*2450 [0.50] The Practising Historian
2. one of the following courses:
   - HIST*1010 [0.50] Early Modern Europe
   - HIST*1150 [0.50] The Modern World

3. one of the following courses:
   - HIST*2100 [0.50] Pre-Confederation Canada
   - HIST*2600 [0.50] Post-Confederation Canada

**History Electives:**

4. 2.00 credits at the 4000-level
5. 4.50 additional credits in History

**Distribution requirements for the major:**

History courses must be chosen to ensure that 0.50 credit is completed in each of the following fields (see list of acceptable courses below):

- Premodern History
- Global History

**Note:** Honours students in History may, with the permission of the department, take up to 1.00 credits from outside the department such as ECON*2420, ECON*3730, EURO*4050.

**Minor (Honours Program)**

A minimum of 5.00 credits in History courses is required as follows:

**Core Requirements – 2.00 credits**

**Human Resources (HR)**

Department of Management, Gordon S. Lang School of Business and Economics

The Minor in Human Resources focuses on developing the broad set of knowledge and skills expected of human resources professionals. The courses are unique, varied and relevant to students who are interested in pursuing careers in business, management, psychology, industrial relations, law or other related fields.

In addition to the general overview, students develop the following nine competency areas:

- Human Resource Management
- Organizational Behaviour
- Finance and Accounting
- Human Resources Planning
- Occupational Health and Safety
- Training and Development
- Labour Relations
- Recruitment and Selection
- Compensation

The courses in the Minor in HR satisfy the course requirements for the Certified Human Resources Leader ("CHRL") designation.

**Minor (Honours Program)**

Individual Studies (IS)

Interdisciplinary Program

B.A. Counselling Office, Room 130, MacKinnon Building, Ext. 52140.

Honours B.A. students have the option of doing an Individual Studies Major. Students in the Individual Studies Major have the opportunity to determine the goals and methods of their studies. Areas of study can include courses in any of the colleges and where the University of Guelph has faculty expertise to assist students. Students are encouraged to develop an interdisciplinary perspective, and to explore the methods of inquiry which provide depth of knowledge in a specific subject.

A student submitting a proposal for the Individual Studies Major must submit the complete proposal to the B.A. Program Counsellor before the third week of classes of semester four. The B.A. Program Committee will consider proposals once, and will approve, approve with revisions, or deny the proposal. Proposals cannot be resubmitted.

Proposals will not be considered unless they articulate a detailed rationale for a coherent program of studies that is significantly different from any existing major and minor combination at the University of Guelph, and unless the proposal meets the following criteria:

a. minimum of 9.00 credits
b. minimum of 4.00 credits at the 3000 level and above, including at least 1.00 credits at the 4000 level
c. minimum of 1.00 credits in methods and/or theory
d. maximum of 1.50 credits at the 1000 level
e. a senior level Directed Readings or Special Project course must be completed. When appropriate, the Committee will identify a faculty member as the supervisor for a student's course of study.

A student wishing to submit a proposed program of studies for the Individual Studies Major must prepare a proposal that will include the following:

a. a clear statement of theme or areas of study
b. a clear statement of the contribution of the major to a post-graduation field of work or study
c. a clearly set out rationale for inclusion of the specific courses and how they relate to or develop the theme or areas of study
d. a list of required "core" courses and "restricted electives" following the above criteria.

When proposing core and restricted elective credits, students should keep in mind the prerequisites for their desired 3000 and 4000 level courses.

Note: Students undertaking the Individual Studies Major must fulfill the requirements of the B.A. Honours Program as set out in Section X. The B.A. Program Counsellor is the academic counsellor. The Individual Studies designation will appear on the student's transcript upon graduation, but the title or subject of the major will not.

International Development Studies (IDS)

Interdisciplinary Program

International Development Studies, College of Social and Applied Human Sciences

The program in International Development Studies (IDS) explores the nature and impacts of economic and social development, in Canada and across the globe, from an interdisciplinary perspective. It equips students with the theoretical understanding and analytical and practical skills needed to bring about positive and inclusive change in the world. Students completing a degree in IDS have the skills to tackle complex global problems as needed to promote social justice as citizens and in careers across the public and private sectors and in civil society organizations.

The IDS program provides students with the opportunity to engage with international development practitioners in Canada and internationally. Furthermore, they are equipped with the skills needed for effective engagement whilst as students and in their life beyond university.

Students select an area of emphasis that enables them to explore an issue of particular interest using the skills they develop in the core part of the program. This area of emphasis is selected by the end of the 4th academic semester of study.

International Development Studies students are encouraged to learn another language and to participate in relevant learning experiences beyond the IDS program, including study, work or volunteering in Canada and internationally. In addition to the required core courses and the chosen area of emphasis, students are encouraged to take electives that complement their degree and enhance their analytical and communication skills. See the GIDS website for more information on these opportunities and students can get more information from their academic advisor.

Students with a minimum cumulative average of 80% in courses that constitute the IDS major may complete a thesis (IDEV*4190 and IDEV*4150) under the supervision of an ID-affiliated faculty member.

Major (Honours Program)

A minimum of 10.50 credits is required, including:

8.00 core course requirements

2.50 credits in one of four areas of emphasis

Areas of Emphasis - 2.50 credits

Choose one of the following four Area of Emphasis:

- Agriculture and Food Security
- Development in the Canadian Context
- Development in Fragile Contexts
- Environment and Sustainable Development

Agriculture and Food Security

This area of emphasis focuses on the nature of food security from the local to global levels. It explores the role of agriculture and the wider agri-food system in promoting food security towards the eradication of hunger and improved nutrition and health. Throughout, this area of emphasis reflects critically on the role of diverse actors and alternative approaches through which food security can be enhanced, empowering students to bring about positive, inclusive and sustainable change in agri-food systems locally and globally.

Development in the Canadian Context

This area focuses on development predominantly through the case of Canada. Issues that might be explored include: poverty, global migration, inequality, Indigenous-settler relations and food insecurity. It reflects the fact that development problems are found in all parts of the world and solutions to them must recognize the ways in which they are interconnected and distinctive. This area of emphasis aims to empower students to bring about positive, inclusive and sustainable change within Canada, and the rest of the affluent world.

Development in Fragile Contexts

This area focuses on development in the context of institutionally weak and/or unstable countries and regions. It explores issues associated with state fragility and failure, institutional development, post-conflict rebuilding and social instability. It also considers issues of migration, conflict, social change, and post-colonialism. An overarching theme is the need for, and role of, distinct development strategies in fragile contexts, with the aim of empowering students to bring about positive, inclusive and sustainable change in some of the most challenging development contexts globally.

Environment and Sustainable Development

This area of emphasis focuses on the relations between environmental change and natural resources and sustainable development. It explores the ways in which the environment and natural resources impact development, and the development challenges posed by environmental change and natural resource use locally and globally. Topics might include urbanization, erosion, natural disasters, water, natural resource, land use and climate change. Particular focus is put on approaches to development that are sustainable and address challenges associated with environmental change and natural resource use. This area of emphasis aims to empower students to bring about positive change that promotes inclusive and sustainable development locally and globally.

International Development Studies (Co-op) (IDS:C)

Interdisciplinary Program

International Development Studies, College of Social and Applied Human Sciences

The program in International Development Studies (IDS) explores the nature and impacts of economic and social development, in Canada and across the globe, from an interdisciplinary perspective. It equips students with the theoretical understanding and analytical and practical skills needed to bring about positive and inclusive change in the world. Students completing a degree in IDS have the skills to tackle complex global problems as needed to promote social justice as citizens and in careers across the public and private sectors and in civil society organizations.

The IDS program provides students with the opportunity to engage with international development practitioners in Canada and internationally. Furthermore, they are equipped with the skills needed for effective engagement whilst as students and in their life beyond university.

Students select an area of emphasis that enables them to explore an issue of particular interest using the skills they develop in the core part of the program. This area of emphasis is selected by the end of the 4th academic semester of study.

International Development Studies students are encouraged to learn another language and to participate in relevant learning experiences beyond the IDS program, including study, work or volunteering in Canada and internationally. In addition to the required core courses and the chosen area of emphasis, students are encouraged to take electives that complement their degree and enhance their analytical and communication skills. See the GIDS website for more information on these opportunities or talk to your academic advisor.

Students with a minimum cumulative average of 80% in courses that constitute the IDS major may complete a thesis (IDEV*4190 and IDEV*4150) under the supervision of an ID-affiliated faculty member.

Program Requirements

The Co-op program in International Development is a four and a half year program, including four work terms. Students must complete a Fall, Winter and Summer work term, and must follow the academic work schedule as outlined below (also found on the Co-operative Education website: https://www.recruitguelph.ca/cecs/). Please refer to the Co-operative Education program policy with respect to adjusting this schedule.

To be eligible to continue in the Co-op program, students must meet a minimum 70% cumulative average requirement after second semester, as well as meet all work term requirements. Please refer to the Co-operative Education program policy with respect to work term performance grading, work term report grading and program completion requirements.

For additional program information students should consult with their Co-op Co-ordinator and Co-op Faculty Advisor, listed on the Co-operative Education website.

## Italian (ITA)

### School of Languages and Literatures, College of Arts

All language courses carry 0.50 credits. Students with Year 4 or grade 12 Italian or their equivalent may be admitted into ITAL*1060 or ITAL*1070 only with the approval of the department. Students advancing in a Romance language (French, Spanish, Italian) are advised to take elective courses in a second Romance language and in Latin. All language courses are strongly advised to include CLAS*1000 and LING*1000 among their electives in order to derive the maximum benefit from their studies. Except where stated otherwise, literary texts are, at all levels, studied in the original language. Students registering in these courses will be expected to have the appropriate knowledge.

### Study Abroad

The School of Languages and Literatures encourages students in modern languages to spend 1 or 2 semesters in another country to study a particular language at the university level. Credit for programs of study successfully completed may be applied towards the University of Guelph degree requirements. Requests should be addressed well in advance to either the School or a particular section of the School. A letter of permission is required (see Section VIII—Undergraduate Degree Regulations and Procedures.)

Italian may be taken as a minor in the honours program. Students in Italian will be counselled by the School of Languages and Literatures.

### Minor (Honours Program)

A minimum of 5.00 credits is required, including:

- **HUMN*2020** [0.50] Crime and Criminals in Italian Cinema
- **ITAL*1060** [0.50] Introductory Italian I
- **ITAL*1070** [0.50] Introductory Italian II
- **ITAL*2090** [0.50] Intermediate Italian
- **ITAL*3060** [0.50] Advanced Italian
- **ITAL*3400** [0.50] Renaissance Lovers and Fools
- **ITAL*3700** [0.50] Experimental Learning and Language
- **ITAL*4900** [0.50] Research Project in Italian Studies

1.00 Credits from:
Marketing (MKTG)

Department of Marketing and Consumer Studies, Gordon S. Lang School of Business and Economics

The minor in Marketing is designed for students who wish to better understand the subject of marketing and potentially integrate this with their primary field of study. The program develops a core knowledge of contemporary theory and principles of marketing and consumer behaviour of particular relevance to the non-specialist. Note: the minor in Marketing is not open to students enrolled in the Marketing Management major in the Bachelor of Commerce degree.

Minor (Honours Program)

A minimum of 5.00 credits is required, including:

- ECON*1050 [0.50] Introductory Microeconomics
- HRGB*2090 [0.50] Individuals and Groups in Organizations
- MCS*1000 [0.50] Introductory Marketing
- MCS*2600 [0.50] Fundamentals of Consumer Behaviour
- MCS*3000 [0.50] Advanced Marketing
- PSYC*1000 [0.50] Introduction to Psychology

Restricted Electives

2.00 restricted Electives:

- ECON*2740 [0.50] Economic Statistics
- MCS*3010 [0.50] Quality Management
- MCS*3030 [0.50] Research Methods
- MCS*3500 [0.50] Marketing Analytics
- MCS*3600 [0.50] Consumer Information Processes
- MCS*3620 [0.50] Marketing Communications
- MCS*4040 [0.50] Management in Product Development
- MCS*4300 [0.50] Marketing and Society
- MCS*4400 [0.50] Pricing Management
- MCS*4600 [0.50] International Marketing
- PSYC*1010 [0.50] Making Sense of Data in Psychological Research
- STAT*2060 [0.50] Statistics for Business Decisions

*NOTE: only one of ECON*2740, PSYC*1010 or STAT*2060 may be counted as a restricted elective towards the minor in Marketing.

Mathematical Economics (MAEC)

Department of Economics and Finance, Gordon S. Lang School of Business and Economics

Most economic theory rests on explicit, formal, mathematical and/or statistical foundations. This specialization articulates and emphasizes these interactions. It is most suitable for students who either have, or wish to develop, a strong analytical background.

Program Requirements

The Co-op program in Mathematical Economics is a five year program, including five work terms. Students must complete a Fall, Winter and Summer work term and must follow the academic work schedule as outlined below (also found on the Co-operative Education website: https://www.recruitguelph.ca/ceca/). Please refer to the Co-operative Education program policy with respect to adjusting this schedule.

To be eligible to continue in the Co-op program, students must meet a minimum 70% cumulative average requirement after second semester, as well as meet all work term requirements. Please refer to the Co-operative Education program policy with respect to work term performance grading, work term report grading and program completion requirements.

For additional program information students should consult with their Co-op Co-ordinator and Co-op Faculty Advisor, listed on the Co-operative Education website.

Credit Summary (22.00 Total Credits)*

13.00 – Required Core Courses
1.50 - Humanities credits from at least two subject areas (BA distribution requirement)
0.50 - Social Science credit outside of ECON (BA distribution requirement)
5.00 – Electives
2.00 - Co-op Work Terms

Note: A minimum of four Co-op work terms including a Summer, Fall, and Winter are necessary to complete the Co-op requirement. *A fifth Co-op work term is optional and if completed, the total number of credits will equal 22.50
The recommended program sequence is outlined below.

**Major (Honours Program)**

**Semester 1 - Fall**
- MATH*1200 [0.50] Calculus I
- 1.00 electives

**Semester 2 - Winter**
- MATH*1210 [0.50] Calculus II
- 1.50 electives

**Semester 3 - Fall**
- COOP*1100 [0.50] Introduction to Co-operative Education
- ECON*2310 [0.50] Intermediate Microeconomics
- ECON*2410 [0.50] Intermediate Macroeconomics
- STAT*2040 [0.50] Statistics I
- 1.00 electives

**Semester 4 - Winter**
- MATH*3160 [0.50] Advanced Calculus I
- MATH*3200 [0.50] Real Analysis
- STAT*3100 [0.50] Introductory Mathematical Statistics I
- 2.00 electives or restricted electives

**Spring/Summer**
- COOP*1000 [0.50] Co-op Work Term I
- COOP*2000 [0.50] Co-op Work Term II

**Semester 5 - Winter**
- ECON*3100 [0.50] Game Theory
- ECON*3810 [0.50] Advanced Macroeconomics
- 1.50 electives or restricted electives

**Spring/Summer**
- COOP*3000 [0.50] Co-op Work Term III
- ECON*3710 [0.50] Advanced Microeconomics
- 2.00 electives or restricted electives

**Semester 6 - Fall**
- ECON*4640 [0.50] Advanced Econometrics
- ECON*4700 [0.50] Advanced Mathematical Economics
- ECON*4710 [0.50] Advanced Topics in Microeconomics
- 1.00 electives or restricted electives

**Semester 7 - Winter**
- ECON*4810 [0.50] Advanced Topics in Macroeconomics
  - FIN*4100 [0.50] Financial Econometrics
  - MATH*3200 [0.50] Real Analysis
  - STAT*4340 [0.50] Statistical Inference
  - STAT*4350 [0.50] Applied Multivariate Statistical Methods
  - STAT*4360 [0.50] Applied Time Series Analysis
- 0.50 credits at the 4000 level Economics
- 1.00 electives

*at least 1.00 credits of the 4.00 restricted electives credits must be from Mathematics and 1.00 credits must be from Statistics. The remaining 2.00 credits can be from either subject area. Of the 4.00 credits, at least 1.00 credits must be at the 3000 level or above and the remaining 3.00 credits must be at the 2000 level or above.

**Note:** Courses from MATH or STATS will be allowed with the appropriate prerequisites, or by permission of the instructor.

**Mathematical Science (MSCI)**

**Department of Mathematics and Statistics, College of Engineering and Physical Sciences**

**Major (Honours Program)**

Knowledge of Mathematics and Statistics is crucial for understanding our world. This unique program provides a core of both mathematics and statistics with a choice of a Mathematics stream or a Statistics stream. This major also requires the completion of an area of emphasis as listed. Students are encouraged to speak with a Program Counsellor when choosing courses for the selected stream and area of emphasis.

Students may enter this major in Semester 1 or any semester thereafter. A student wishing to declare the major must consult the Faculty Advisor. A total of 20.00 credits is required to complete the Major which includes at least 10.00 credits in Mathematics & Statistics, 0.50 credits in Computing and Information Science, and an additional 2.50 credits in an area of emphasis. Of the total credits required, students are required to complete 2.00 Mathematics and/or Statistics credits at the 4000 level and an additional 3.00 Mathematics and/or Statistics credits must be at the 3000 or 4000 level.

**Note:** A major in Mathematical Science cannot be combined with a minor in Mathematical Science, Mathematics, or Statistics.

**Semester 1**
- MATH*1160 [0.50] Linear Algebra I
- MATH*1200 [0.50] Calculus I
- 1.50 credits selected from the College of Arts and the College of Social and Applied Human Sciences*
  
*Note:* MATH*1080 or IPS*1500 can be taken in place of MATH*1200

**Semester 2**
- MATH*1210 [0.50] Calculus II
- STAT*2040 [0.50] Statistics I
- 1.50 electives** (PHIL*2110 is recommended)
  
Note: MATH*1090 or IPS*1510 can be taken in place of MATH*1210

**Semester 3**
- MATH*2200 [0.50] Advanced Calculus I
- STAT*3100 [0.50] Introductory Mathematical Statistics I
- One of:
  - MATH*1300 [0.50] Programming
  - MATH*1500 [0.50] Introduction to Programming
  
1.00 electives or restricted electives

**Semester 4**
- MATH*2130 [0.50] Numerical Methods
- STAT*2050 [0.50] Statistics II
- 1.50 electives or restricted electives (CIS*2500 is recommended)

**Semester 5**
- 2.50 electives or restricted electives

**Semester 6**
- 2.50 electives or restricted electives

**Semester 7**
- 2.50 electives or restricted electives

**Semester 8**
- MATH*3440 [0.50] Case Studies in Mathematics and Statistics
- 2.00 electives or restricted electives
  
*These courses should be chosen from the list of Semester 1 requirements as listed in the Program Regulations for the BA.

**Note:** Students are reminded that they must meet the BA distribution requirements of 1.50 credits in the humanities and 1.50 credits in the social sciences.

Students are required to complete 5.50 credits from either the Mathematics Stream or the Statistics Stream as follows:

**Mathematics Stream**
- MATH*2000 [0.50] Proofs, Sets, and Numbers
- MATH*2210 [0.50] Advanced Calculus II
- MATH*2270 [0.50] Applied Differential Equations
- MATH*3160 [0.50] Linear Algebra II
- MATH*3200 [0.50] Real Analysis

3.00 additional credits in MATH or STAT at 3000 level or above of which at least 1.50 credits must be MATH at the 4000 level

**Statistics Stream**
- STAT*3110 [0.50] Introductory Mathematical Statistics II
- STAT*3240 [0.50] Applied Regression Analysis
  
0.50 additional credits in MATH at 2000 level or above
  
1.00 additional credits in MATH or STAT at 2000 level or above
  
3.00 additional credits in MATH or STAT at 3000 level or above of which at least 1.50 credits must be STAT at the 4000 level

**Areas of Emphasis**

Students are required to complete 2.50 credits from one of the following Areas of Emphasis:

**COMPUTER SCIENCE (CS)***

The following credits must be taken:
- CIS*2430 [0.50] Object Oriented Programming
- CIS*2500 [0.50] Intermediate Programming
- CIS*2520 [0.50] Data Structures
  
at least 1.00 credits from:
- CIS*3110 [0.50] Operating Systems I

2020-2021 Undergraduate Calendar

Revision.
ECONOMICS (ECON)***

The following credits must be taken:

- ECON*1050 [0.50] Introductory Microeconomics
- ECON*1100 [0.50] Introductory Macroeconomics
- ECON*2310 [0.50] Intermediate Microeconomics
- at least 1.00 credits from:
  - ECON*3100 [0.50] Game Theory
  - ECON*3710 [0.50] Advanced Microeconomics
  - ECON*4710 [0.50] Advanced Topics in Microeconomics

INDIVIDUALIZED (IND)***

It is required that 2.50 credits are taken from humanities and social science electives where 1.00 credits must be at the 3000 level or above.

Students declaring an Individualized Area of Emphasis must have their choice of 2.50 credits approved by an academic advisor.

*** Students are reminded that they must meet the BA requirement that at least 7.00 credits must be at the 3000 level of above.

Mathematics (MATH)

Department of Mathematics and Statistics, College of Engineering and Physical Sciences

Knowledge of mathematics is crucial for understanding our world. Students can choose to study mathematics as a minor in the B.A. Honours Program or as an area of concentration in the General Program. These specializations are designed to provide considerable flexibility for students to pursue their own mathematical interests, whether they be in the concepts of "pure" mathematics or techniques and applications. The Mathematics specializations develop skills that are valued in many sectors such as business, education, government, and industry.

Area of Concentration (General Program)

A minimum of 5.00 Mathematics credits is required, including:

a. 4.00 credits in Mathematics, including at least 1.00 from courses at the 3000 level or above

b. 1.00 additional credits from Mathematics, Statistics and/or Computing Science

Minor (Honours Program)

A total of 5.00 credits is required to complete the Minor including:

- (MATH*1080 or MATH*1200)*
- (MATH*1090 or MATH*1210)**
- (CIS*1910 or MATH*2000)***

MATH*2200 [0.50] Advanced Calculus I
STAT*2040 [0.50] Statistics I

0.50 additional Mathematics credits at the 2000 level or above.
1.50 additional Mathematics credits at the 3000 or 4000 level

* IPS*1500 can count toward this 0.50 credit
** IPS*1510 can count toward this 0.50 credit
*** MATH*2000 is recommended. It is required for students wishing to take MATH*3200, MATH*3310, or MATH*4310.

Note: Students majoring or minoring in Mathematical Science cannot minor in Mathematics.

Media & Cinema Studies (MCST)

College of Arts

This minor considers the various approaches to media, communication, and culture. By examining conventions used across media forms and texts, students are expected to demonstrate an understanding of the relationship between form and content, media and society, technology and culture. Attention will be given to sound/music, visual culture, and digital/Internet texts and practices. The minor in Media and Cinema Studies (MCST) guides students to an understanding of the pertinent questions at stake in today's technological and information-focused environments.

Minor (Honours Program)

A minimum of 5.00 credits is required, including:

- ARTH*2220 [0.50] The Visual Arts Today
- THST*1200 [0.50] The Languages of Media

At least 0.50 credits from Media Studies:

- THST*2450 [0.50] Approaches to Media Studies
- THST*2650 [0.50] History of Communication

At least 0.50 credits from Cinema Studies:

- EURO*1100 [0.50] European Cinema

- HIST*3260 [0.50] Cinema and the Moving Image
- THST*2500 [0.50] Contemporary Cinema
- THST*3330 [0.50] Canadian Cinema

At least 0.50 credits from Computing and Information Science:

- CISP*1200 [0.50] Introduction to Computing
- CISP*1500 [0.50] Introduction to Programming

2.50 additional credits from:

- ARTH*2290 [0.50] History of Photographic Media
- CISP*1200 [0.50] Introduction to Computing
- CISP*1500 [0.50] Introduction to Programming
- CISP*2170 [0.75] User Interface Design
- EURO*1100 [0.50] European Cinema
- HIS*2020 [0.50] Film as History
- HIST*3260 [0.50] Cinema and the Moving Image
- HIST*4170 [1.00] Exploration of Digital Humanities
- HUMN*2020 [0.50] Crime and Criminals in Italian Cinema
- HUMN*3190 [0.50] Experiential Learning
- HUMN*3470 [0.50] Holocaust & WWII in German Lit. & Film
- HUMN*4190 [0.50] Experiential Learning
- MUSC*2100 [0.50] Creating Music on the Computer
- MUSC*2150 [0.50] Music and Popular Culture
- MUSC*2220 [0.50] Electronic Music in the Digital Age
- MUSC*2380 [0.50] Classical Music from Concert Hall to Cinema
- SART*1150 [0.50] Contemporary Artistic Practice
- SART*2610 [0.50] Photography I
- SART*2700 [0.50] Digital Media I: Using Vector and Raster Images
- SART*2710 [0.50] Digital Media II: Animation
- SART*3750 [0.50] Photography II
- SART*3480 [0.50] Digital Media III: Creating Content for the Web
- THST*1040 [0.50] Introduction to Performance
- THST*2450 [0.50] Approaches to Media Studies
- THST*2500 [0.50] Contemporary Cinema
- THST*2650 [0.50] History of Communication
- THST*3330 [0.50] Canadian Cinema

At least 1.00 credits must be at the 3000 level or higher

Note: Some courses may also have prerequisites which are identified in course descriptions in the academic calendar.

Museum Studies (MS)

School of Fine Art and Music, College of Arts

The Minor program in Museum Studies offers an introduction to museum culture from both theoretical and practical perspectives. Courses in the program cover the history of museums, examination of assumptions that have guided the collecting and classifying of visual culture, and consideration of how these institutions serve the needs of national and group identity construction.

This program of study is designed as a complement to a significant number of Major specializations, suitable for any student wishing to broaden their knowledge beyond their Major area of study.

Minor (Honours Program)

(May not be taken in combination with Art History Honours Major).

A minimum of 5.00 credits is required, including:

- ARTH*1510 [0.50] Art Historical Studies I
- ARTH*1520 [0.50] Art Historical Studies II
- ARTH*2120 [0.50] Introduction to Museology
- ARTH*2480 [0.50] Introduction to Art Theory and Criticism
- ARTH*3330 [0.50] Display: Visual Culture in Western Europe
- ARTH*3620 [0.50] Museum Studies

- 2.00 additional credits in Art History

Music (MUSC)

School of Fine Art and Music, College of Arts

The School offers courses in music history, theory, ethnomusicology, composition, performance, jazz and improvisation, popular music, digital music, and performance. Many courses are open to all students, while others require knowledge of the rudiments of musical notation or other prerequisites. Students are urged to plan their program in consultation with a Music advisor. Music programs allow considerable flexibility for students to select one or more areas of interest, such as individual study on an instrument or in composition, performing in vocal or instrumental ensembles, specialized historical or theoretical study or in-depth study in other music topics.

Courses in Music are offered in several of the semesters abroad, especially London. Credit for programs of study successfully completed may be applied towards the University of Guelph degree requirements.
Applied Music
MUSC*1500 is available only by audition. MUSC*1500 is restricted to students in Semesters 1–4 who are enrolled in a Music program: general program, area of concentration; honours program, major or minor. Students enrolled in a Music program, honours major, may audition for MUSC*1500 beyond the fourth semester. Applied Music courses are designed to be taken during successive Fall and Winter terms. If this sequence is interrupted for more than one semester, students may be required to reapply (re-audition) before registering to continue in Applied Music. Students must achieve a minimum grade 70% in Applied Music courses in order to proceed to the next level.

Core Requirements
The Music core is designed to provide the concepts and skills students need for successful study in higher level courses. All students in honours program major must complete the following courses:

- MUSC*1060 [0.50] Amadeus to Zeppelin: Music and Culture I
- MUSC*1180 [0.50] Musicianship I
- MUSC*2100 [0.50] Creating Music on the Computer
- MUSC*2140 [0.50] History of Jazz
- MUSC*2150 [0.50] Music and Popular Culture
- MUSC*2180 [0.50] Musicianship II
- MUSC*2270 [0.50] World Music
- MUSC*2330 [0.50] Beethoven to Broadway: Music and Culture II
- MUSC*2660 [0.50] Materials of Music I
- MUSC*3010 [0.50] Materials of Music II
- MUSC*3630 [0.50] Tragedy, Technology, and Torture: Music Post 1900

Note: MUSC*1130 does not count toward either the Major (Honours), Minor (Honours), or Area of Concentration (General Program).

Area of Concentration (General Program)
A minimum of 6.00 Music credits is required, including:

- a. MUSC*1060, MUSC*1180, MUSC*2100, MUSC*2140, MUSC*2150, MUSC*2270, MUSC*3630 (3.00 credits)
- b. 1.50 credits from MUSC*2100, MUSC*2140, MUSC*2150, MUSC*2270, MUSC*3630
- c. at least 1.00 Music credits at the 3000 level or above (excluding MUSC*3630)
- d. two of MUSC*2530, MUSC*2540, MUSC*2550, MUSC*2560.

Major (Honours Program)
A minimum of 9.00 Music credits is required, including:

- a. the Music core (5.50 credits)
- b. two of MUSC*2530, MUSC*2540, MUSC*2550, MUSC*2560.
- c. (MUSC*3460 and MUSC*4470) or MUSC*4450
- d. 2.00 additional credits of upper-level topics courses (MUSC*3730, MUSC*3740, MUSC*3800, MUSC*3820, MUSC*3860, MUSC*3880)

Participation in Applied Music courses is strongly recommended for all honours students. Students contemplating graduate studies in Music should consult music faculty early in their program.

Music majors are advised to take MUSC*1180 in Fall Year 1, followed by MUSC*2180 in Winter Year 1.

Minor (Honours Program)
A minimum of 5.00 Music credits is required, including:

- MUSC*1060 [0.50] Amadeus to Zeppelin: Music and Culture I
- MUSC*1180 [0.50] Musicianship I

One of:

- MUSC*2030 [0.50] Music in Canada
- MUSC*2100 [0.50] Creating Music on the Computer
- MUSC*2140 [0.50] History of Jazz
- MUSC*2150 [0.50] Music and Popular Culture
- MUSC*2220 [0.50] Electronica: Music in the Digital Age
- MUSC*2270 [0.50] World Music

At least 1.50 Music credits at the 3000 or 4000 level

Note: Students should be aware that courses at the 3000 or 4000 level may require additional prerequisites.

2.00 additional credits in Music

Philosophy (PHIL)

Department of Philosophy, College of Arts

Our programs are designed to educate students about philosophical discussions of central questions in ethics, political philosophy, theory of knowledge, metaphysics and philosophy of science, among other areas. This includes learning the history of these subjects as well as understanding current debates. In gaining this knowledge students develop crucial skills of articulation, critical thinking, intellectual independence and the ability to understand others’ viewpoints and assumptions. It is important that students discuss their programs with a Faculty Advisor (https://www.uoguelph.ca/aaac/facultyadvisors-ba) in order to ensure that the best selection of elective Philosophy courses is made. This is especially important for students who are contemplating graduate work in Philosophy.

Students may take PHIL*1000, PHIL*1010, PHIL*1030 and PHIL*1050 but only two may be counted towards the minimum number of Philosophy courses required for a degree.

Area of Concentration (General Program)
5.00 Philosophy credits are required, as follows:

PHIL*2240 [0.50] Knowledge and Belief
PHIL*2370 [0.50] Metaphysics and Mind

One of:

- PHIL*2120 [0.50] Ethics
- PHIL*2280 [0.50] Key Concepts in Political Philosophy

One of:

- PHIL*2110 [0.50] Formal Logic

1.50 credits in Philosophy

Note: Students may only count 1.00 credits at the 1000 level towards this requirement.

1.50 credits in Philosophy at the 3000 level or higher. PHIL*3280 may be used as a 3000 level Philosophy course.

Major (Honours Program)
8.50 Philosophy credits are required, as follows

PHIL*2120 [0.50] Ethics
PHIL*2140 [0.50] Ancient Greek Philosophy
PHIL*2160 [0.50] Early Modern Philosophy: Reason vs. Experience
PHIL*2280 [0.50] Key Concepts in Political Philosophy
PHIL*2370 [0.50] Metaphysics and Mind
PHIL*3100 [0.50] Kant and His Legacy
PHIL*4820 [0.50] Philosophy Research Presentation

One of:

- PHIL*2100 [0.50] Critical Thinking
- PHIL*2110 [0.50] Formal Logic

One of:

- PHIL*2180 [0.50] Philosophy of Science
- PHIL*2240 [0.50] Knowledge and Belief

1.50 credits in Philosophy

Note: Students may only count 1.00 credits at the 1000 level towards this requirement.

1.50 credits in Philosophy at the 3000 level or higher. PHIL*3280 may be used as a 3000 level Philosophy course.

1.00 credits in Philosophy at the 4000 level

Minor (Honours Program)
5.00 Philosophy credits are required, as follows:

PHIL*2240 [0.50] Knowledge and Belief
PHIL*2370 [0.50] Metaphysics and Mind

One of:

- PHIL*2120 [0.50] Ethics
- PHIL*2280 [0.50] Key Concepts in Political Philosophy

One of:

- PHIL*2100 [0.50] Critical Thinking
- PHIL*2110 [0.50] Formal Logic

1.00 credits in Philosophy

2.00 credits in Philosophy at the 3000 level or higher. PHIL*3280 may be used as a 3000 level Philosophy course.

Political Science (POLS)

Department of Political Science, College of Social and Applied Human Sciences

The Department of Political Science offers courses in the following areas: Political Thought; Canadian Politics; Public Policy, Governance, and Law; Comparative Politics; and International Relations and Global Studies. The Department of Political Science also participates in several interdisciplinary programs, including Criminal Justice and Public Policy, International Development Studies, Environmental Governance, and European Studies.

Area of Concentration (General Program)
A minimum of 5.00 credits is required, including:

POLS*1150 [0.50] Understanding Politics
POLS*2300 [0.50] Canadian Government and Politics

One of:
PHIL*2280 [0.50] Key Concepts in Political Philosophy
PHLS*2000 [0.50] Political Theory
One of:
IDEV*2000 [0.50] The Development Landscape: Actors and Institutions
PHLS*2100 [0.50] Comparative Politics
PHLS*2200 [0.50] International Relations
One of:
PHLS*2150 [0.50] Gender and Politics
PHLS*2230 [0.50] Public Policy
PHLS*2250 [0.50] Public Administration and Governance
PHLS*2350 [0.50] Law from a Political Science Perspective
2.50 additional credits, at least 1.50 of which must be at the 3000 level or above.

Major (Honours Program)
A minimum of 9.00 credits is required, including:
PHLS*1150 [0.50] Understanding Politics
PHLS*2300 [0.50] Canadian Government and Politics
PHLS*2650 [0.50] Political Inquiry and Research Methods
PHLS*2650 [0.50] Quantitative Methods of Data Analysis
PHIL*2280 [0.50] Key Concepts in Political Philosophy
PHLS*2000 [0.50] Political Theory
One of:
IDEV*2000 [0.50] The Development Landscape: Actors and Institutions
PHLS*2100 [0.50] Comparative Politics
PHLS*2200 [0.50] International Relations
One of:
PHLS*2150 [0.50] Gender and Politics
PHLS*2230 [0.50] Public Policy
PHLS*2250 [0.50] Public Administration and Governance
PHLS*2350 [0.50] Law from a Political Science Perspective
at least 0.50 credits at the 3000 level in three of the five fields in the department
1.50 credits at the 4000 level, which must include one course from the 1.00 credit-weighted research and writing intensive seminar courses or the two courses which comprise the PHLS*4970/POLS*4980 Honours Thesis sequence.
A maximum of 2.00 credits at the 4000 level may be counted towards a major in Political Science.

4000 level courses that fulfill the writing and research intensive course requirement:
PHLS*4050 [1.00] Advanced Topics in Law and Politics
PHLS*4070 [1.00] Courts and Parliament
PHLS*4100 [1.00] Women, Justice and Public Policy
PHLS*4140 [1.00] Conceptions of Canada
PHLS*4160 [1.00] Multi-Level Governance in Canada
PHLS*4200 [1.00] International Political Economy
PHLS*4250 [1.00] Topics in Public Management
PHLS*4260 [1.00] Topics in Public Policy
PHLS*4300 [1.00] Human Rights, Ethics, and Development
PHLS*4340 [1.00] Nationalism, State-building and Identity
PHLS*4710 [1.00] Topics in Comparative Politics
PHLS*4720 [1.00] Topics in International Relations
PHLS*4730 [1.00] International Relations of the Middle East
PHLS*4740 [1.00] Advanced Topics in Rights and Liberties
PHLS*4900 [1.00] Special Topics Seminar in Political Science
an additional 2.50 credits from courses in Political Science.

** Students interested in pursuing graduate or professional studies related to Political Science are encouraged to consider taking the PHLS*4970/POLS*4980 Honours Thesis sequence. Interested students must obtain instructor consent in order to register for this option.

Minor (Honours Program)
A minimum of 5.00 credits is required, including:
PHLS*1150 [0.50] Understanding Politics
PHLS*2300 [0.50] Canadian Government and Politics
PHLS*2650 [0.50] Political Inquiry and Research Methods
One of:

The Department of Political Science offers an academic advising service for students in Political Science.

Students are encouraged to consult with the faculty advisor for either of these programs about course selection, substitution of courses offered by other departments, or other matters.

Political Science (Co-op) (POLS:C)

Department of Political Science, College of Social and Applied Human Sciences

The Department of Political Science offers courses in the following areas: Political Thought; Canadian Politics; Public Policy, Governance, and Law; Comparative Politics; and International Relations and Global Studies. The Department of Political Science also participates in several interdisciplinary programs, including Criminal Justice and Public Policy, International Development Studies, Environmental Governance, and European Studies.

Program Requirements
The Co-op program in Political Science is a four and a half year program, including three work terms. Students must complete a Fall, Winter and Summer work term, and must follow the academic work schedule as outlined below (also found on the Co-operative Education website: https://www.recruitguelph.ca/cecs/). Please refer to the Co-operative Education program policy with respect to adjusting this schedule.

3. An additional 2.50 credits from courses in Political Science. Note: If 2.00 credits of 4000 level POLS courses are being completed then only an additional 2.00 credits from courses in Political Science are required.

Psychology (PSYC)

Department of Psychology, College of Social and Applied Human Sciences

The discipline of Psychology is normally associated with the social sciences, the biological sciences, and the health professions. Specialization in Psychology at Guelph is available as a B.A. Honours program major and minor and a B.A. General program area of concentration, all of which are described below, as well as a B.A. Honours program Co-op major (PSYC:C).

Through its different undergraduate programs, the Psychology Department provides: a) a broad general education emphasizing psychological theory and methodology, with an empirical basis in course work (e.g., experiments and projects); b) an appropriate background in psychology for those who leave the University with an undergraduate degree to embark on careers in related areas; and c) a sound preparation for graduate study in Psychology. Students intending to apply to Psychology graduate programs, and those who want a structured, intensive research experience, may apply to enrol in the Honours Thesis courses (see Option B – Honours Thesis Stream). In addition, students intending to apply for admission to graduate programs in Psychology should note most graduate programs require the applicant to have at least an A- average in order to be considered for admission.

Note on Honours Courses

Courses designated with (H) are for students in Psychology Honours programs. These include: B.A. Honours Psychology (PSYC, PSYC:C) major or minor or the Neuroscience (NEUR) major or minor. A cumulative average of at least 70% in all course attempts in Psychology, NEUR major or minor, or PBC major or minor is required to enrol in H designated courses.

Advising Note

We advise students to take PSYC*1000 In their first semester and PSYC*1010 and PSYC*1500 in their second semester

The maximum number of PSYC credits students can take at each level is as follows:

- 1000 level courses: no cap
- 2000 level courses: 3.50 credits
- 3000 level courses: 3.50 credits
- 4000 level courses: 3.00 credits

Area of Concentration (General Program)

A total of 6.00 credits are required for the Psychology Area of Concentration.

Year 1

Students must complete 1.50 credits at the 1000 level in Psychology, including:

To be eligible to continue in the Co-op program, students must meet a minimum 70% cumulative average requirement after second semester, as well as meet all work term requirements. Please refer to the Co-operative Education program policy with respect to work term performance grading, work term report grading and program completion requirements.

For additional program information students should consult with their Co-op Co-ordinator and Co-op Faculty Advisor, listed on the Co-operative Education web site.

Credit Summary (21.50 Total Credits)*

9.00 - Required Core Courses
1.50 – Humanities credits from at least two areas (BA distribution requirement)
0.50 - Social Science credit outside of PSYC (BA distribution requirement)
1.00 - Natural Science credits (BA distribution requirement)
8.00 - Electives
1.50 - Co-op Work Terms

Note: Three Co-op work terms including a Summer, Fall, and Winter are necessary to complete the Co-op requirement.

The recommended program sequence is outlined below.

Major (Honours Program)

Note: When selecting core and elective credits the student should keep in mind the prerequisites for their desired 3000- and 4000-level courses. When selecting courses beyond Psychology the student should keep in mind both their second specialization (if relevant) and courses appropriate for potential work-term placements.

Note on Honours Courses

Courses designated with (H) are for students in Psychology Honours programs. These include: B.A. Honours Psychology (PSYC, PSYC-C) major or minor, B.A. Information Systems and Human Behaviour (ISHB) major and the Neuroscience (NEUR) major or minor. A cumulative average of at least 70% in all course attempts in Psychology or registration in the ISHB major, NEUR minor, or PBC major or minor is required to enrol in H designated courses.

A total of 9.00 credits are required for the Psychology Co-op BAH. Students must complete 1.50 credits at the 1000 level and 3.00 credits at the 2000 level in Psychology. For those in the Honours Regular Stream, students must complete 3.00 credits at the 3000 level and 1.50 credits at the 4000 level in Psychology. For those in the Honours Thesis Stream, students must complete 2.50 credits at the 3000 level and 2.00 credits at the 4000 level in Psychology.

The maximum number of PSYC credits that students can take at each level is as follows:
- 1000 level courses: no cap
- 2000 level courses: 3.50 credits
- 3000 level courses: 3.50 credits
- 4000 level courses: 3.00 credits

Students wanting to move more quickly through the program are recommended to take two DE courses in the summer of their first year and/or one DE course during each work term. If they do so, the number of electives required in Semester 8 will depend on how many additional courses the student has taken throughout the program to meet the 20.00 credit requirement.

Graduate Studies Advisory Note: Most graduate programs require the student to have at least an A- average in order to be considered for admission. They also require students to take the Honours Thesis Stream. Students planning on applying to graduate school in Psychology will need to take the following courses in the semesters outlined below: PSYC*3250, PSYC*3290, PSYC*4780, PSYC*4870, and PSYC*4880.

Major (Honours Program)

A total of 9.00 credits are required for the Psychology major BAH.

Sociology (SOC)
Department of Sociology and Anthropology, College of Social and Applied Human Sciences
The Department of Sociology and Anthropology offers three types of courses: sociology courses with the prefix SOC*; anthropology courses with the prefix ANTH*; and departmental courses with the prefix SOAN*. The departmental category of courses recognizes the fact that the disciplines of sociology and sociocultural anthropology have developed in tandem and it is possible to identify large areas of overlap and convergence in the work of practitioners both historically and in the present. Departmental courses include most of the core theory and methods courses as well as many elective courses. They contribute equally to the subject matter of sociology as well as the subject matter of sociocultural anthropology for purposes of the undergraduate programs of study in both disciplines. Please see the listings for all courses required for the sociology program.

Note: the following courses may be used towards a sociology specialization:
FRHD*3060 [0.50] Principles of Social Gerontology
PHIL*2180 [0.50] Philosophy of Science

Courses will normally be offered in the semesters designated. For information on other semesters these courses will be offered and the semester those courses without designations will be offered, please check with the department. In addition to regularly scheduled courses, students may elect to do independent study. A student who wishes to do a reading course should first consult the professor with whom they wish to work. Please note, a student is allowed a total of 1.00 credits only for reading courses.

SOAN courses will be used towards the Sociology specializations.

Area of Concentration (General Program)
A minimum of 5.00 credits in Sociology and Anthropology is required, including:
ANTH*1150 [0.50] Introduction to Anthropology
SOAN*2111 [0.50] Classical Theory
SOAN*2112 [0.50] Classical Theory
SOAN*2120 [0.50] Introductory Methods
SOC*1100 [0.50] Sociology
2.50 additional credits in SOC and SOAN courses, including at least 1.00 credits at the 3000 level

Major (Honours Program)
A minimum of 8.00 credits in Sociology and Anthropology is required, including:
ANTH*1150 [0.50] Introduction to Anthropology
SOAN*2111 [0.50] Classical Theory
SOAN*2112 [0.50] Classical Theory
SOAN*2120 [0.50] Introductory Methods
SOAN*3070 [0.50] Qualitative and Observational Methods
SOAN*3120 [0.50] Quantitative Methods
SOC*1100 [0.50] Sociology
SOC*3310 [0.50] Contemporary Theory
4.00 additional credits in SOC and SOAN courses, including at least 1.50 credits at the 4000 level

The following courses may be used toward a sociology specialization:
FRHD*3060 [0.50] Principles of Social Gerontology
PHIL*2180 [0.50] Philosophy of Science

Minor (Honours Program)
A minimum of 5.00 credits in Sociology and Anthropology is required, including:
ANTH*1150 [0.50] Introduction to Anthropology
SOAN*2111 [0.50] Classical Theory
SOAN*2112 [0.50] Classical Theory
SOAN*2120 [0.50] Introductory Methods
SOC*1100 [0.50] Sociology
2.50 additional credits in SOC and SOAN courses, including at least 1.00 credits at the 3000 level or above

The following courses may be used toward a sociology specialization:
FRHD*3060 [0.50] Principles of Social Gerontology
PHIL*2180 [0.50] Philosophy of Science

Spanish and Hispanic Studies (SPAH)
School of Languages and Literatures, College of Arts
The Spanish and Hispanic Studies program enables students to concentrate on the Spanish language and on Spanish and Latin American literature. Language courses provide study of the grammatical concepts required to establish and enrich reading, writing, oral and aural skills from basic through advanced levels of study. Through literature and film, students are introduced to a variety of cultural, historical, social, and political topics. The usual first course in Spanish is SPAN*1100. Students with 4U Spanish commonly take SPAN*2000. They may be admitted into SPAN*1110 only with the approval of the Instructor or the Faculty Advisor. Students with native or near native fluency normally begin language courses with SPAN*2000.

All language students are strongly advised to include LING*1000 in their program, and CLAS*1000 among their electives in order to derive the maximum benefit from their studies.

Study Abroad
The Spanish and Hispanic Studies program encourages its students to take advantage of the University of Guelph’s exchange programs and the semester abroad opportunities. We offer exchange programs with the University of Málaga and the University of Alcalá de Henares in Spain the Instituto Tecnológico y de Estudios Superiores de Monterrey (ITESM) and the University of Guadalajara (with over 30 campuses) in Mexico and the University of San Andrés in Argentina. Students also enjoy the semester abroad opportunity every second winter in Guatemala. It is recommended that students go on exchange in their third year. In order to be eligible for an exchange, students should have completed at least SPAN*2010, SPAN*2990, SPAN*2040 and SPAN*3080. Credits successfully completed at the host university are applied towards University of Guelph degree requirements. Please see the International Study section of the undergraduate calendar and consult the Head of Spanish and Hispanic Studies for more information.

Area of Concentration (General Program)
A minimum of 5.00 credits in Spanish and Hispanic Studies is required, including:
2.00 credits from Group A:
SPAN*2040 [0.50] Culture of Spain
SPAN*2990 [0.50] Hispanic Literary Studies
SPAN*3080 [0.50] Spanish American Culture
One of:
SPAN*3220 [0.50] Literature and Arts I: Spain
SPAN*3230 [0.50] Literature and Arts II: Latin America
3.00 credits from Group B:
SPAN*1100 [0.50] Introductory Spanish I
SPAN*1110 [0.50] Introductory Spanish II
SPAN*2000 [0.50] Intermediate Spanish I
SPAN*2010 [0.50] Intermediate Spanish II

Statistics (STAT)

Department of Mathematics and Statistics, College of Engineering and Physical Sciences,

Knowledge of statistics is crucial for understanding our world. An understanding of statistics is vital in many disciplines including psychology, sociology, political science, marketing and economics. Students can choose to study statistics as a minor in the B.A. Honours Program or as an area of concentration in the General Program.

Area of Concentration (General Program)

A minimum of 5.00 credits in Statistics and Mathematics is required, including:

a. no more than 1.00 credits from courses at the 1000 level
b. 3.00 credits in statistics (STAT), 2.00 of which must be from courses at the 3000 level or above

Recommended Courses
- MATH*1200 [0.50] Calculus I
- MATH*1210 [0.50] Calculus II
- STAT*2040 [0.50] Statistics I
- STAT*2050 [0.50] Statistics II
- STAT*3100 [0.50] Introductory Mathematical Statistics I
- STAT*3110 [0.50] Introductory Mathematical Statistics II
- STAT*3240 [0.50] Applied Regression Analysis

0.50 additional credits in Statistics
0.50 additional credits in Statistics or Mathematics

Honours Programs

Minor (Honours Program)
A total of 5.00 credits is required to complete the minor, including:

(MATH*1080 or MATH*1200)*
(MATH*1090 or MATH*1210)**

MATH*1160 [0.50] Linear Algebra I
STAT*2040 [0.50] Statistics I
STAT*2050 [0.50] Statistics II
STAT*3100 [0.50] Introductory Mathematical Statistics I
STAT*3110 [0.50] Introductory Mathematical Statistics II
STAT*3240 [0.50] Applied Regression Analysis

0.50 additional credits in Statistics
0.50 additional credits in Statistics or Mathematics at the 2000 level or above

* IPS*1500 can count toward this 0.50 credit
** IPS*1510 can count toward this 0.50 credit

Note: Students majoring or minoring in Mathematical Science cannot minor in Statistics.

Studio Art (SART)

School of Fine Art and Music, College of Arts

The School offers programs that allow for concentrated study in Art History or in Studio Art, or a combination of the two disciplines.

The Studio Art program provides a thorough grounding in contemporary art practice, art history, theory, and criticism. Courses are offered in drawing, painting, photography, printmaking, sculpture, computer graphics, and experimental studio. Studio Art majors must also take a selection of courses in art history. Specific requirements are listed below.

Cost of Studio Supplies

The majority of the cost of supplies must be borne by the student. In order to permit the University to subsidize this cost and to allow for savings through discount buying, some materials are obtained through the school by payment of a lab fee. The amount of the fee is established for each semester prior to registration.

Students wishing to substitute required courses with courses taken abroad, or other options, should consult the Head of Spanish and Hispanic Studies.
Student Counselling

Students who elect to take a substantial number of credits in Studio Art with the objective of graduate work are advised to obtain counseling from their academic advisor regarding their choices. However, in general, it is important to know that graduate studies in Studio Art normally require an in-depth knowledge of both traditional and contemporary media, as well as a significant awareness of contemporary art history and theory. Students are encouraged to take electives in other disciplines from across the University to inform their Studio Art practice. Cognate electives in other disciplines in the College of Arts, such as Philosophy, History, and English will almost certainly prove an asset.

Minor

Students wishing to declare the SART minor must have a cumulative average of 70% or higher in the following courses:

Theatre Studies (THST)

School of English and Theatre Studies, College of Arts

The Theatre Studies program is a component of a liberal education, and is dedicated to integrating academic study and theatre practice. The program offers introductory and advanced courses that combine theory and practice with an emphasis on educating well-rounded theatre creators for both the academic and professional spheres. Students will have the opportunity to work on both scripted and devised productions and do in-depth research and analysis. Rather than a focus on individual disciplines such as acting, directing, design and technical theatre, the program integrates this knowledge into a series of variable topic courses that examine performance from various perspectives. Many of these courses have presentational or performance outcomes.

Notes:
1. A maximum of 2.00 credits in Directed Readings or Special Studies Courses (THST*3000, THST*3600) is allowed in the honours program major. A maximum of 1.00 credits in such courses is allowed in honours program minor or the general program area of concentration. Students will normally be permitted to take only 0.50 credits in Directed Readings or Special Studies courses per semester.
   Certain approved Dramatic Literature courses from the English Program within the School of English and Theatre Studies or other departments may be counted towards a degree in Theatre Studies. A list of approved courses may be obtained from the School's website: [http://www.arts.uoguelph.ca/sets/](http://www.arts.uoguelph.ca/sets/).
2. In connection with THST*1040 and some upper-level courses, students are required as part of the course to attend various specified theatre performances in cities such as Toronto, Stratford, Niagara-on-the-Lake, and London. A special fee is charged for travel to these performances and students will be notified during the first week of classes of the amount of this fee and the dates of the performances.
3. In any given semester, a student may not enroll in more than ONE production-related course at a time. These include: THST*2190, THST*3190, THST*4280.

Area of Concentration (General Program)

A minimum of 5.00 credits in Theatre Studies is required, including:

Bachelor of Arts and Sciences (B.A.S.)

The University of Guelph offers an 8 semester (20.00 credits) honors program leading to a Bachelor of Arts and Sciences (B.A.S.) degree. The Bachelor of Arts & Sciences program is designed for students who are motivated equally by the study of Arts/Social Sciences and the Sciences, and who find challenge and satisfaction in testing the traditional boundaries of study through undergraduate level interdisciplinary work. The program meets these objectives through a unique structure that accredits students in an Arts/Social Sciences core, a Sciences core, a Subject Area core of interdisciplinary humanities and sciences courses (ASCI*), and a minor in each of the Arts/Social Sciences and the Sciences (see program information for choices of minors). The structure of the program ensures disciplinary rigour and breadth through completion of core requirements for a B.A.S. degree, concentration in two distinct minors, and concentration of learning in an academic cohort of B.A.S. students through the interdisciplinary ASCI courses in the B.A.S. core. This core is open only to students in the B.A.S. program.

Program Information

Academic Counselling

The B.A.S. program counsellor assists students in the selection of minors, interpreting program and academic regulations, and with the selection of appropriate courses for chosen minors and distribution requirements. Students should consult the counsellor when experiencing particular difficulties affecting academic standing and progress through the program. Students are encouraged to check the B.A.S. program website regularly for course information and cross-listing of acceptable credits where appropriate.

Counselling on Minors

Academic departments offer the minors in the B.A.S. program and assign faculty advisors to assist students with academic planning (e.g., a faculty advisor in the History department handles queries about a minor in History). Students should consult the appropriate faculty advisor, along with the B.A.S. Program Counsellor, when requiring advice on the completion of specialization requirements. The list of faculty advisors is available on the Undergraduate Academic Information Centre website: http://www.uoguelph.ca/uaic/facultyadvisors or contact the B.A.S. Program Counsellor for further information.

Continuation of Study

To be eligible to continue in the program, students must meet the requirements for Continuation of Study as noted in Section VIII—Undergraduate Degree Regulations & Procedures of this calendar (Schedules 1 and 2).

Conditions for Graduation

To qualify for the degree Bachelor of Arts and Sciences, the student must successfully complete a minimum of 20.00 credits as identified below. In addition, students must meet the continuation of study requirements at the time of graduation and have a 60.00% cumulative average.

Distribution Requirements

This program will require the completion of 20.00 credits as indicated below, with a maximum of 7.00 credits at the 1000 level. First year core courses may be counted towards the minors.

Of the 20.00 credits required for this program, 3.00 credits must be completed at the 3000 or 4000 level, and 2.00 credits at the 4000 level. This requirement is partially fulfilled by senior level courses in the Subject Core (ASCI) requirements.

1. Science Core - 2.00 credits

2. Arts/Social Science core - 2.00 credits.

3. Subject Area Core - (ASCI) - 3.00 credits.

4. Arts/Social Science Minor - 5.00 credits minimum.

5. Science Minor - 5.00 credits minimum.

6. Free Electives - 3.00 credits.

1. Science Core - 2.00 credits

When choosing their courses in the science core, students are advised to keep prerequisites for their BAS Science Minor in mind. For a list of suggested core science courses for each specific BAS Science Minor, please consult the BAS website (https://www.uoguelph.ca/bas/).

4. Arts/Social Sciences Minors - 5.00 credits (Minimum)

Minors available in the Arts/ Social Sciences core (see B.A. program descriptions): Anthropology; Art History; Arts, Culture and Heritage Management; Business; Business Economics; Classical Studies; Creative Writing; Criminal Justice & Public Policy; Economics; English; European Culture and Civilization; Family & Child Studies; French Studies; Geography; German; History; International Development Studies; Italian; Marketing; Media and Cinema Studies; Museum Studies; Music; Philosophy; Political Science; Psychology; Sociology; Spanish and Hispanic Studies; Studio Art; Theatre Studies
5. Science Minor - 5.00 credits (Minimum)

Minors available in the Science core (see B.Sc. program descriptions):
  Agriculture (see B.Sc.(Agr.) program description)
  Biochemistry
  Biology
  Biotechnology
  Chemistry
  Computing & Information Science
  Ecology
  GIS* & Environmental Analysis
  Mathematics
  Mathematical Science
  Microbiology
  Molecular Biology and Genetics
  Neuroscience
  Nutritional and Nutraceutical Sciences
  Physics
  Plant Science
  Statistics
  Zoology

* Geographic Information Systems

Note: Students cannot select Psychology or Mathematics for both their B.Sc. and B.A. minors.

6. Free Electives - 3.00 credits

The program includes 3.00 free electives. Electives may be completed in any subject area.

Double Counting Rule

A maximum of 3.00 credits may be double-counted:

a. 1.00 credits may be double-counted between minors.

b. Up to 1.00 credits may be double-counted between the science core and a minor; and up to 1.00 credits may be double-counted between the arts and social science core and a minor.

Students may not triple-count a course between a core and two minors.
Bachelor of Bio-Resource Management Degree
(B.B.R.M.)

The University of Guelph offers a 20.00 credit program, normally completed over 8 semesters, leading to a Bachelor of Bio-Resource Management degree (B.B.R.M.). This degree is a unique blend of applied and theoretical learning, with an emphasis on experiential learning opportunities. This degree offers three majors: Environmental Management, Equine Management and Food Industry Management.

Program Information
The Bachelor of Bio-Resource Management degree program combines business studies and technical training with a strong emphasis on hands-on learning. A solid foundation in applied aspects of science, technology and business provides graduates with sufficient breadth and expertise to become competent managers in the environmental or food industry fields. Students begin studying in one of the following management majors during the first semester: Environmental Management, Equine Management or Food Industry Management.

Students will be encouraged to integrate their academic program with a well-planned series of employment activities in the summer months and to develop their leadership and interpersonal skills in on-campus and community activities. There is a strong commitment in the curriculum to personal development and students are encouraged to identify goals that they wish to accomplish throughout their university career.

Academic Advising and Counselling
Program Counselling
The Bachelor of Bio-Resource Management Program Counsellor is available to assist in-course students who require information or advice about their program or other academic regulations and who seek information about resources available to students. For information about how to contact a program counsellor, and for more information about program counselling, see Section VII -- Academic Counselling of the current Undergraduate Calendar.

Departmental Advising
On entering the program all students are assigned to a faculty advisor who will mentor them throughout their studies. The faculty advisor is familiar with the academic requirements of the program and is aware of career opportunities. Students are strongly encouraged to attend all meetings called by their advisor, and to set up individual meetings with them when they have questions or concerns about their performance or progress in the program.

Continuation of Study
Students are advised to consult the regulations for Continuation of Study which are outlined in detail in Section VIII -- Undergraduate Degree Regulations & Procedures in the current calendar.

Conditions for Graduation
To qualify for the degree Bachelor of Bio-Resource Management, the student must successfully complete a minimum of 20.00 credits as set out in the Schedule of Studies as listed. In addition, students must meet the continuation of study requirements at the time of graduation and have a minimum cumulative average of 60%.

Schedule of Studies
Courses specified in the Schedule of Studies are required courses and must be successfully completed. A full time course load normally includes 2.50 credits.

B.B.R.M. Program Regulations
Recommendations
Students entering Environmental Management or Equine Management who are deficient in U level Mathematics or Chemistry should consult with the program counsellor.

Environmental Management Major (EM)
School of Environmental Sciences and Department of Food, Agricultural and Resource Economics, Ontario Agricultural College
The major in Environmental Management focuses on the development of leaders in the areas of environmental science and technology. The program combines a solid background in environmental science and management with business, using a mix of theoretical and applied study. The flexibility provided in semesters 6 through 8 permits students to develop their understanding of specific areas of environmental science and business or take a variety of areas within the discipline. This flexibility also allows students to participate in international exchanges and semesters abroad. Students have the opportunity to incorporate a variety of field trips, experiential learning in the workplace and independent research projects into their program.

This major will require the completion of 20.00 credits: 12.00 from required courses, 6.00 from restricted electives, and 2.00 free electives. Of these credits, a minimum of 6.00 credits are required at the 3000 level or higher, of which at least 2.00 credits must be at the 4000 level.

Semester 1
BIOL*1070 [0.50]  Discovering Biodiversity
CHEM*1040 [0.50]  General Chemistry I

Semester 2
ACCT*1220 [0.50]  Introductory Financial Accounting
BIOL*1090 [0.50]  Introduction to Molecular and Cellular Biology
FARE*1040 [1.00]  Intro to Environmental Economics, Law & Policy
HROB*2090 [0.50]  Individuals and Groups in Organizations

Semester 3
BIOL*2060 [0.50]  Ecology
ENVS*2060 [0.50]  Soil Science
ENVS*2230 [0.50]  Communications in Environmental Science
FARE*2700 [0.50]  Survey of Natural Resource Economics
GEOG*2480 [0.50]  Mapping and GIS

Semester 4
ENVS*3500 [1.00]  Environmental Management Integrated Project
ENVS*2040 [0.50]  Plant Health and the Environment
ENVS*2080 [0.50]  Introduction to Environmental Microbiology
0.50 electives or restricted electives

Semester 5
GEOG*2420 [0.50]  The Earth From Space
One of:
GEOG*2460 [0.50]  Analysis in Geography
STAT*2060 [0.50]  Statistics for Business Decisions
1.50 electives or restricted electives

Semester 6
ENVS*3020 [0.50]  Pesticides and the Environment
ENVS*3060 [0.50]  Groundwater
1.50 electives or restricted electives

Semester 7
2.50 electives or restricted electives

Semester 8
2.50 electives or restricted electives

Restricted Electives
Students must successfully complete a minimum of 6.00 credits at the 3000 level or higher, of which at least 2.00 credits must be at the 4000 level. Those credits at the 3000 level or above selected to satisfy lists A, B, and C below will be applied to satisfy these minimum credit requirements.

Students should note that some restricted electives require other courses not included among the required courses for the major as prerequisites. Students should consult the most recent undergraduate calendar for specific requirements.

Students should consult with a faculty advisor before Semester 4 in planning their restricted elective choices. Students are advised to pay particular attention to prerequisite requirements when choosing individual courses and seek advice as needed.

1. Students must select a minimum of 6.50 credits from the following lists of restricted electives:

List A
Students must select a minimum of 3.50 credits from any of the following courses without regard to group of which at least 1.00 credits must be at the 4000 level:

Aquatic Science:
BIOL*3450 [0.50]  Introduction to Aquatic Environments
CHEM*3360 [0.50]  Environmental Chemistry and Toxicology
EDRD*3450 [0.50]  Watershed Planning Practice
ENVS*3220 [0.50]  Terrestrial Chemistry
ENVS*4030 [0.50]  Ecosystem Analysis
ENVS*4370 [0.50]  Natural and Anthropogenic Compounds in the Environment

Atmospheric Science:
GEOG*3610 [0.50]  Environmental Hydrology
ENVS*2030 [0.50]  Meteorology and Climatology
ENVS*2310 [0.50]  Introduction to Biogeochemistry
ENVS*3340 [0.50]  Environmental Data Analysis
GEOG*2110 [0.50]  Climate and the Biophysical Environment

Conservation and Biodiversity Science:
BIOL*3060 [0.50]  Populations, Communities & Ecosystems
BIOL*3130 [0.50]  Conservation Biology
ENVS*2210 [0.50]  Apiculture and Honey Bee Biology
ENVS*2330 [0.50]  Current Issues in Ecosystem Science and Biodiversity
ENVS*3000 [0.50]  Nature Interpretation
ENVS*3010 [0.50]  Climate Change Biology
ENVS*3090 [0.50]  Insect Diversity and Biology
ENVS*3230 [0.50]  Agroforestry Systems
ENVS*3250 [0.50]  Forest Health and Disease
### List B

### Equine Management Major (EQM)

#### Department of Animal Biosciences and the Department of Food, Agricultural and Resource Economics, Ontario Agricultural College

The major in Equine Management focuses on the development of leaders with a genuine regard for all horses and their well-being, a conscious concern for the environment, and a passionate interest in all aspects of the horse industry. The program combines a solid background in business, biological sciences and equine management through practical and theoretical experience. It provides in-depth understanding of the economic, environmental and social dimensions of all equine disciplines with a broad and current knowledge of horse industry issues and develops the skills to gather, access, interpret and apply industry data. In consultation with the faculty advisor, students can participate in international exchange or semester abroad opportunities in semester 6. Students can also incorporate a variety of field trips, experiential learning in the workplace and independent research projects into their program.

This major will require the completion of 20.00 credits: 13.50 from required courses, 5.00 from restricted electives and 1.50 electives. Of these credits, a minimum of 6.00 credits are required at the 3000-level or higher, of which at least 2.00 credits must be at the 4000-level.

### Food Industry Management (FIM)

Department of Food, Agricultural and Resource Economics and Department of Food Science, Ontario Agricultural College
Food Industry Management (Co-op) (FIM:C)

Department of Food, Agricultural and Resource Economics and Department of Food Science, Ontario Agricultural College

This major focuses on the development of leaders in the areas of Food Industry Innovation and Operations. The program combines a solid background in food science, economics and business, using a mix of theoretical and applied study. Students in this major will be able to create a curriculum uniquely tailored to their career goals. The flexibility provided in semesters 5 through 8 enables students to develop their understanding of specific areas of food science and business. Student participation in international exchanges and international summer research programs is encouraged and supported through academic advising on course selection and substitution. Students have the opportunity to incorporate a variety of field trips, experiential learning in the workplace and independent research projects into their program. The combination of a solid understanding of food science and current business practice with specialized skills and experience provided by this program is unique and greatly valued by prospective employers in this important sector of the Canadian and global economies.

A principal aim of the Co-op program in Food Industry Management is to facilitate the transition of students from academic studies to a professional career by enhancing the integration of theory and practice.

Program Requirements

The Food Industry Management is a five-year program, including 4 work terms. Students must complete a Fall, Winter and Summer work term and must follow the academic work schedule as outlined below (also found on the Co-operative Education website: [www.recruitguelph.ca/cecs](https://www.recruitguelph.ca/cecs/)). Please refer to the Co-operative Education program policy with respect to adjusting this schedule.

Students are eligible to participate in a maximum two (2) summer employment processes and must follow the academic work schedule as outlined on the Co-operative Education website: [www.recruitguelph.ca/cecs](https://www.recruitguelph.ca/cecs/).

To be eligible to continue in the Co-op program, they must meet a minimum 70% cumulative average requirement after second semester, as well as meet all work term requirements. Please refer to the Co-operative Education program policy with respect to work term performance grading and work term report grading.

For additional program information students should consult with their Co-op Co-ordinator and Co-op Faculty Advisor, listed on the Co-operative Education web site.

Credit Summary (21.50 Total Credits)*

14.50 - Required Core Courses
3.00 - Restricted Electives
2.50 - Free Electives
1.50 - Co-op Work Terms

Students should note that a minimum of 6.00 credits of their BBRM degree are required at the 3000 level or higher, of which at least 3.00 credits must be at the 4000 level.

Note: A minimum of three Co-op work terms including a Summer, Fall, and Winter are necessary to complete the Co-op requirement. *A fourth work term is optional and if completed the total number of credits will equal 22.00.

Bachelor of Commerce (B.Comm.)

The University of Guelph offers an eight semester (20.00 credits) honors program leading to a Bachelor of Commerce degree (B.Comm.). The normal course load is 2.50 credits per semester for a full-time student. The program is of an interdisciplinary nature and designed to give students a sound professional management education with a focus on specific industry sectors or management functions which prepare the graduates for positions of responsibility in particular areas of management and business.

Elective options enable students to select courses which support or complement their primary field of study.

In their first semester, students may be admitted to one of nine specialized majors or enter as “undeclared”. Students in the undeclared first year, must declare a specialized major by the end of semester two in order to gain access to required courses in semester three.

Bachelor of Commerce Majors

All majors in the Bachelor of Commerce program are also available in the Co-operative Education (Co-op) option. Co-operative Education is not available in Undeclared.

Undeclared (only available in semesters one and two)

Accounting
Food and Agricultural Business
Hospitality and Tourism Management
Management
Management Economics and Finance
Marketing Management
Public Management
Real Estate and Housing
Sport and Event Management

In addition to specializing in a major area of study, the B.Comm. core ensures that each major also provides a comprehensive commerce education to all students in the program.

The B.Comm. Core includes:

The Liberal Education Requirement is designed to provide the student with exposure to and concerns about courses and academic requirements for their program/major. The Career Development Program is also knowledgeable about career opportunities which relate to a student’s specific major. The list of Faculty Advisors is available on the Undergraduate Academic Information Centre website: http://www.uoguelph.ca/aiic/students_advisors.shtml or contact the B.Comm. Counselling Office for further information.

Special Expenses

Expenses may include cost of field trips and supplies and, for some majors, laboratory coats and other protective clothing.

Study at Other Universities

Students contemplating study at another university for credit towards a Bachelor of Commerce degree at the University of Guelph should refer to the general regulations governing Letters of Permission in Section VII Degree and Regulations and Procedures in this calendar.

Students must obtain approval for the Letter of Permission prior to undertaking studies at another institution. Approval of the request depends on good standing in the program with a minimum cumulative average of 60%.

The total limit of credits taken on a Letter of Permission is 2.50 based on the University of Guelph’s credit system.

Study Abroad

Global understanding and perspectives are regarded as being of central importance among the university’s learning objectives, as they are, also, in understanding the international business environment. On both of these accounts, students enrolled in the B.Comm. program are urged to participate in one of the several exchange and study abroad programs specifically designed for the Commerce program. Planning for such participation is best undertaken quite early in the course of studies. For more specific information on possible opportunities refer to Section V -- International Study of the calendar or contact the B.Comm. program counsellor.

Continuation of Studies

Students are advised to consult the regulations for Continuation of Study within the program which are outlined in detail in Section VIII -- Undergraduate Degree Regulations and Procedures.

Conditions of Graduation

To qualify for a Bachelor of Commerce degree, the student must satisfy the following conditions:

- The student must successfully complete 1.50 credits from the Liberal Education Requirement list.
- The student must successfully complete a minimum of 20.00 approved credits, in accordance with the Schedule of Studies for the specified major, including the Liberal Education Requirement.
- The student must successfully pass Business Career Preparation [MGMT*1100] or Introduction to Co-operative Education [COOP*1100]
- Students will not be eligible to graduate while on probationary or required-to-withdraw status.

Career Development Program

The Career Development Program provides students with knowledge and tools to enhance their career readiness skills, leading to a greater level of confidence and success when approaching the career search process. Through a series of activities that would span over each year of the Bachelor of Commerce Program, including a mandatory Business Career Preparation Course [MGMT*1100]*, students will be guided through a framework for career management and steps to create a personal “career toolkit”.

*Students who have successfully completed [COOP*1100] will be exempted from [MGMT*1100]

Liberal Education Requirement

The Liberal Education Requirement is designed to provide the student with exposure to and some understanding of a range of disciplines in the Arts, Humanities, Social Sciences, and Mathematical and Natural Sciences.

The Liberal Education Requirement consists of 1.50 credits. The course prefixes listed below cannot be used to satisfy the Liberal Education Requirement:

ACCT Accounting
BUS Business
ECON Economics
FARE Food, Agricultural and Resource Economics
FIN Finance
HROB Human Resources and Organizational Behaviour
HTM Hospitality and Tourism Management
MGMT Management
MCS Marketing and Consumer Studies
REAL Real Estate and Housing

Free Electives
Free Electives allow students to select courses that support or complement their primary field of study. Students may select undergraduate courses from any department, including Commerce/Business related courses, provided any individual course restrictions and prerequisites are satisfied. These courses can be at any year level.

The total number of Free Electives allowed varies by major (refer to the Schedule of Studies for details). Free Electives cannot be used to fulfill Required Core courses, Restricted Electives or Liberal Education Electives, but they could contribute to the total number of credits required for graduation.

Honours Minor
A minor is a group of courses which provide exposure to and mastery of the fundamental principles of a subject. A minor consists of a minimum of 5.00 credits (normally 10 courses). It may also require certain other courses from other areas to be taken along with, the specified courses of the minor. A minor is taken in conjunction with a major. Students cannot earn a minor in the same subject area as their major. Additionally, students in the BComm program are not permitted to earn a minor in Business or Business Economics. For a list of Minors, please see Specializations and Their Degrees.

Given the professional and applied nature of the BComm program, there are no double majors associated with the degree.

Double Counting of Credits
A maximum of 2.50 credits required in a major program may be applied to meet the requirements of a minor. Courses used to meet the Liberal Education requirement may not double-count toward the requirements of their major but may double-count toward the completion of a minor.

Schedule of Studies
Courses specified in the schedule of studies are required courses and must be completed successfully. A full course load normally involves 2.50 credits per semester. Part-time study is also possible although students should discuss this option with their Program Counsellor or Faculty Advisor.

Undeclared (UND)

Gordon S. Lang School of Business and Economics

Applicants to the B.Comm program who want a flexible introduction to business studies should consider entering as an unclassified student. Students must declare one of the nine majors in order to gain access to required courses. This must be done no later than the end of semester two. Note: Sport and Event Management is a limited enrollment major.

Liberal Education Requirement
As part of the graduation requirement all students within the B.Comm Program are required to complete 1.50 credits from at least two different subject prefixes as listed under the B.Comm. Program Information section of the undergraduate calendar.

0.50 electives

Notes:
1. Students interested in choosing the ACCT major should take ACCT*1220 during the Fall semester instead of the 0.50 elective. ACCT*1240 Applied Financial Accounting will then be taken in the Winter semester.
2. Students interested in choosing the FAB Major should take FARE*1400 Economics of the Agri-Food System instead of HROB*2090 and the 0.50 electives during the Winter Semester.
3. Students interested in choosing the MGMT major should take MGMT*1200 Principles of Management instead of ACCT*1220 in the Winter semester.

4. Students interested in choosing the PMGT major should switch MCS*1000 to complete MATH*1200. Students leaning towards a certain major may use their electives to take courses in that area. Undeclared students are encouraged to meet with a B.Comm. program counsellor for advice on elective selection. Further information on selecting electives for the Undeclared first year can be found on the B.Comm. Program Counselling Office website: https://www.uoguelph.ca/business/bcomm

Accounting (ACCT)
Department of Management, Gordon S. Lang School of Business and Economics

By combining the conceptual and quantitative elements of accounting while promoting the integration of theory and practice, the accounting major provides graduates with the academic requirements for the postgraduate pursuit of a Professional Accounting designation. Students will develop the technical, analytical, evaluative and communication skills needed for a successful career in accounting and related management areas.

The program provides a strong foundation of accounting and general business knowledge while allowing significant opportunity to develop breadth and depth of knowledge in related areas of study.

Students pursuing a professional accounting designation should visit the Department of Management website for links to the requirements.

Elective options enable students to select courses which support or complement their primary field of study.

Accounting (Co-op) (ACCT:C)

Department of Management, Gordon S. Lang School of Business and Economics
By combining the conceptual and quantitative elements of accounting while promoting the integration of theory and practice, the accounting major provides graduates with the academic requirements for the postgraduate pursuit of a Professional Accounting designation. Students will develop the technical, analytical, evaluative and communication skills needed for a successful career in accounting and related management areas.

The program provides a strong foundation of accounting and general business knowledge while allowing significant opportunity to develop breadth and depth of knowledge in related areas of study.

Students pursuing a professional accounting designation should visit the Department of Management website for links to the requirements.

Elective options enable students to select courses which support or complement their primary field of study.

The Co-op program in Accounting is designed to facilitate the transition of students from academic studies to a professional career by enhancing the integration of theory and practice.

Program Requirements

The Co-op program in Accounting is a five year program including four work terms. Students must complete a Fall and Winter work term, and must follow the academic work schedule (also found on the Co-operative Education website: https://www.recruiteagelph.ca/cecs/). Please refer to the Co-operative Education program policy with respect to adjusting this schedule.

Business (BUS)

Department of Management, Gordon S. Lang School of Business and Economics
The study of business is complementary to virtually any career or professional endeavour. The minor in Business is intended to enhance the business literacy of non-business students. Through a combination of core and elective courses, students from different disciplines will develop foundational knowledge and understanding of the core functional areas of business, and be invited to explore and apply this in relation to their primary area of study.

Note: The minor in Business is not open to students enrolled in the Bachelor of Commerce program.

Minor (Honours Program)
A minimum of 5.00 credits is required (all 3.00 required credits, plus 2.00 credits of restricted electives of which at least 1.00 credits must be at the 3000 level or above).

Required courses (3.00 credits):
ACCT*1220 [0.50] Introductory Financial Accounting
ECON*1050 [0.50] Introductory Microeconomics
Restricted Electives (2.00 credits of which at least 1.00 credits are at the 3000 level or above):

Note: Not all restricted elective courses identified in this list will necessarily be open to all students in the minor in Business Data Analytics. Some courses may have priority access restrictions, or may be limited to students enrolled in the major from which the courses are drawn. In some cases a Course Waiver Request form signed by the instructor may be required in order for students to add these courses to their schedule. Please consult with the department offering the course about possible access. Some courses may also have prerequisites which are identified in course descriptions in the academic calendar.

## Business Data Analytics (BDA)

The Minor in Business Data Analytics focuses on developing quantitative competencies expected to structure and analyze data sets. There is an emphasis on applying techniques to big data problems.

### Course Notes:

- All electives courses are subject to prior approval by the department and have prerequisites which are identified in course descriptions in the academic calendar.
- Some courses may have priority access restrictions, or may be limited to students enrolled in the major from which the courses are drawn. In some cases a Course Waiver Request form signed by the instructor may be required in order for students to add these courses to their schedule. Please consult with the department offering the course about possible access. Some courses may also have prerequisites which are identified in course descriptions in the academic calendar.

**Economics (ECON)**

The Department of Economics and Finance offers courses in economic theory, applied economics and quantitative methods. Students may take courses leading to a B.A. in the honours. It is possible to combine Economics with various other disciplines such as finance, mathematics and statistics, business administration, political science, geography and history. Students are urged to consult the department's program planning guide and the department's advisors for detailed information about courses and programs and about the course of study most appropriate as preparation for graduate work in economics or business administration, for professional degrees such as the Bachelor's degree in Law, and for careers in business and government.

### Minor (Honours Program)

A minimum of 5.00 credits in Economics or Finance is required, including:

**Revision:**

2020-2021 Undergraduate Calendar
In this major, students will acquire the management education needed to succeed in the dynamic and innovative food and agribusiness industries. Building on an understanding of economic theory and applied methods in both the Canadian and the global context, the program prepares graduates with technical, entrepreneurial and leadership skills for a variety of professional opportunities in industry, government agencies and non-governmental organizations. The major provides a complete foundation for further studies leading to a graduate degree or professional accounting designation.

The major is administered by the Department of Food, Agricultural and Resource Economics in the Ontario Agriculture College and students are urged to consult the faculty advisor.

Hospitality and Tourism Management (HTM)

School of Hospitality, Food and Tourism Management, Gordon S. Lang School of Business and Economics

The Hospitality and Tourism Management (HTM) major prepares students to assume positions of responsibility within the world’s largest industry.

In the first two years of study, students are introduced to foundational business skills and knowledge; and provided with an in-depth overview of the industry’s three sectors: hotel and lodging; restaurant and foodservice; and tourism.
By the end of the second year, students must choose one of those sectors as their area of emphasis. For the remainder of the program, the courses and learning opportunities that students encounter have one goal: to help them cultivate the knowledge, skills and understanding required of a managerial leader in their chosen area.

Topics of study for all three areas of emphasis includes:

- human resources management;
- marketing;
- accounting;
- communications

The hotel and lodging area includes:

- operations;
- event management;
- design

The restaurant and foodservice area includes:

- food systems;
- restaurant management;
- beverage management

The tourism area includes:

- planning and development;
- sustainability;
- international tourism

An integral part of the HTM major is experiential learning, which means that theory is balanced with practice. Students are encouraged to participate in guided learning opportunities outside the conventional classroom, such as independent study courses, study abroad, and numerous networking events with industry leaders.

**Additional information:**

- 1200 hours of verified work experience in the hospitality and tourism industry is required for students to be eligible for graduation.
- 700 hours of hospitality and tourism work experience must be completed before a student enters in HTM*4080.

Elective options enable students to select courses that support or complement their area of emphasis. Examples:

1. Students may use a combination of courses from their major, liberal education and free electives to earn the Certificate in Leadership. For information about this certificate and its course requirements, see [http://www.leadershipcertificate.com/](http://www.leadershipcertificate.com/)
2. Students interested in languages and/or participating in study abroad programs may use a combination of their liberal education or free electives to study one or more of the various languages taught at the University or to take courses while abroad.
3. Students interested in independent study courses (e.g. HTM*4130, HTM*4140, HTM*4150, HTM*4500) may use a combination of their restricted or free electives to study one or more of these special topic courses. For more information regarding current offerings, students should consult the Faculty Advisor.

Revision: 2020-2021 Undergraduate Calendar
Management (MGMT)

Department of Management, Gordon S. Lang School of Business and Economics

The major in Management provides a balanced foundation of management knowledge and strategic leadership skills that will enable graduates to one day work as professional managers and organizational leaders. The major focuses on broad, transferrable competencies within the academic discipline of management (i.e., planning and goal setting, strategy development and execution, managerial decision making, designing organizational structure, managing change and innovation, motivating individuals and teams, managerial communication, negotiation and conflict management), while simultaneously providing the flexibility to explore a wide range of courses in other business disciplines. This major is well suited to students with a strong interest in the core skills of management who wish to develop a broad understanding and expertise in business management.

Courses extend beyond the traditional lecture based format to include community based group projects, guest lecturers, in-class simulations and case-based learning to help link academic expertise and theory with industry practice. Experiential learning is an integral part of the major, and occurs through the integration of industry examples in the classroom, and a required management capstone course that takes a consulting perspective to address real-world and simulated organizational challenges.

Graduates of the Management major will leave the University of Guelph equipped with a range of knowledge and skills which prepare them to meet management needs of the future in such roles as management consultant, business analyst, talent management specialist or as future general managers.

Management Economics and Finance (Co-op) (MEF:C)

Department of Economics and Finance, Gordon S. Lang School of Business and Economics
The Management Economics and Finance major is designed to offer students an appreciation of business and economic problems particularly in the area of finance. The major provides a suitable education for a career in the business world or in the public service. It also constitutes a useful preparation for more advanced studies, including graduate studies in Economics, Finance, Business Administration, Accounting, Industrial Relations, Law, and Public Policy. The major is administered by the Department of Economics and Finance and students are urged to consult the faculty advisor.

2020-2021 Undergraduate Calendar
A principal aim of the Co-op program in Management Economics and Finance is to facilitate the transition of students from academic studies to a professional career by enhancing the integration of theory and practice.

**Program Requirements**

The Co-op program in Management Economics and Finance is a five year program, including five work terms. Note: Not all restricted elective courses identified in this list will necessarily be open to all students in the minor in Project Management. Some courses may have priority access restrictions, or may be limited to students enrolled in the major from which the courses are drawn. In some cases a Course Waiver Request form signed by the instructor may be required in order for students to add these courses to their schedule. Please consult with the department offering the course about possible access. Some courses may also have prerequisites which are identified in course descriptions in the academic calendar.

**Public Management (PMGT)**

Department of Economics and Finance, Gordon S. Lang School of Business and Economic

The Public Management program is designed to lead to an understanding of public sector administration and management from the "inside" - as an integrated enterprise - as well as from the outside - as a series of policy decisions and outcomes. Characterized by a multi-disciplinary approach employing political, economic and business-oriented analysis, students will confront questions of why politicians and public servants behave the way they do, and how their policy choices and processes can be optimized. Management of public entities features a unique set of challenges that arise from and interact with basic political issues like democracy, accountability, equity, fairness, and justice. At the same time it necessarily faces concerns common to all organizations, such as efficiency, human and capital resource management, morale, planning, and adaptation to change.

The program will appeal to students interested in the public service, public sector businesses or business-government relations.

Students enrolled in the PMGT major can choose to complete three of the five required courses for the Certificate in Leadership as part of their requirements for the program if they choose the appropriate restricted electives. If you would like to graduate both with a BComm degree and the Certificate in Leadership you should use two of your free electives to enroll in HROB*2010 in either semester 3 or 6 and HROB*4010 in semester 8. In addition to the five degree-credit courses selected from the above list, 120 hours of leadership practice are required to obtain the undergraduate Certificate in Leadership. See http://www.certificates.ubc.ca/ for information regarding this Certificate and its course requirements.

Real Estate and Housing (REH)

Department of Marketing and Consumer Studies, Gordon S. Lang School of Business and Economics

The Real Estate and Housing major in the B.Comm. program is one of only a few undergraduate programs in Canada that specialize in the real estate sector. It takes a multi-disciplinary approach to the study of residential and commercial/investment real estate. Topics such as the development, financing, valuation, market analysis and management of real estate are taught in the context of economic, legal, political and social factors affecting this large and growing field of business in Canada and the world.

The purpose of this major is to develop the conceptual, analytical and management skills required for careers in real estate and housing. Students graduate with a degree that can lead to a variety of professional positions in the private or public sectors of the Canadian real estate industry or they can continue on to graduate work in business, planning or the social sciences.

Elective options enable students to select courses which support or complement their primary field of study. Examples: (1) students can use Liberal Education and free electives to earn the Certificate in Leadership. See http://www.leadershipcertificate.com/ for information regarding this Certificate and its course requirements; (2) students interested in languages and/or going on exchange can use their Liberal Education and free electives to study one or more of the various languages taught at the University. (3) Students interested in obtaining their Accredited Appraiser Canadian Institute (AACI) designation should consider taking some of the additional 4 required courses through University of British Columbia distance education by letter of permission to count as electives in their degree, once they have completed REAL*4820.

Students may consult the REH Faculty Advisor or B.Comm. Program Counsellor for additional information.

Sport and Event Management (SPMT)

School of Hospitality, Food & Tourism Management, Gordon S. Lang School of Business and Economics

Revision.
The objective of the Sport and Event Management major is to provide students with advanced knowledge of the field, from the business value of sport and events to their contribution to community and society, and to inspire and engage students to become innovative leaders in this dynamic sector of our economy. Building on a strong foundation of commerce courses in marketing, accounting, economics, human resource management and strategy, students in Sport and Event Management will develop depth of knowledge in key aspects of sport, including sponsorship, media, event hosting, stakeholder engagement and organizational leadership.

Courses extend beyond the traditional lecture-based format to include community based group projects, guest lecturers, in-class simulations and case-based learning to help link academic expertise and theory with industry practice. An integral part of the program is experiential learning to balance theory with practice. Experiential courses are embedded in the curriculum, and students are also encouraged to participate in guided learning opportunities outside the conventional classroom through independent study courses, study abroad, and industry networking events. On completion of the program, students have the analytical and communication skills and experience required for a career with government organizations, commercial clubs, professional teams or sport businesses, in Canada and internationally. Graduates are prepared for positions in sport promotion and marketing, facility and event management, sport media and communication, and sport policy development.

Students who are not admitted directly in the SPMT major and subsequently wish to declare it as their major must apply directly to the School of Hospitality, Food and Tourism Management by the last day of classes in the winter semester. In order to be eligible, applicants must have a cumulative average of 70% or better in the previous two semesters. Students must have completed at least 4.00 credits from which 3.00 credits must be from the following prefixes – ACCT, BUS, ECON, FARE, FIN, HROB, HTM, MGMT, MCS, REAL.

Acceptance will be competitive based on available spaces. Students with an average below 70% will not be considered for admission to the major. All decisions will be made by the end of June.

Additional information:
- 1200 hours of verified work experience in sport and event related industry is required for students to be eligible for graduation.
- 700 hours of sport and event related work experience must be completed before a student enrolls in HTM*4080.

**Note:** Not all restricted elective courses identified in this list will necessarily be open to all students in the Sport and Event Management minor. Some courses have priority access restrictions, or may be limited to students enrolled in the major from which the courses are drawn. In some cases a Course Waiver Request form signed by the instructor / department may be required in order for students to add these courses to their schedule. Please consult with the department offering the course about possible access. Some courses may also have prerequisites which are identified in course descriptions in the academic calendar.

### Sport and Event Management (Co-op) (SPMT:C)

School of Hospitality, Food & Tourism Management, Gordon S. Lang School of Business and Economics
The objective of the Sport and Event Management major is to provide students with advanced knowledge of the field, from the business value of sport and events to their contribution to community and society, and to inspire and engage students to become innovative leaders in this dynamic sector of our economy. Building on a strong foundation of commerce courses in marketing, accounting, economics, human resource management and strategy, students in Sport and Event Management will develop depth of knowledge in key aspects of sport, including sponsorship, media, event hosting, stakeholder engagement and organizational leadership.

Courses extend beyond the traditional lecture-based format to include community based group projects, guest lecturers, in-class simulations and case-based learning to help link academic expertise and theory with industry practice. An integral part of the program is experiential learning to balance theory with practice. Experiential courses are embedded in the curriculum, and students are also encouraged to participate in guided learning opportunities outside the conventional classroom through independent study courses, study abroad, and industry networking events. On completion of the program, students have the analytical and communication skills and experience required for a career with government organizations, commercial clubs, professional teams or sport businesses, in Canada and internationally. Graduates are prepared for positions in sport promotion and marketing, facility and event management, sport media and communication, and sport policy development.

Students who are not admitted directly into the SPMT.C major and subsequently wish to declare it as their major must apply directly to the School of Hospitality, Food and Tourism Management by the last day of classes in the winter semester. In order to be eligible, applicants must have a cumulative average of 70% or better in the previous two semesters. Students must have completed at least 4.0 credits from which 3.0 credits must be from the following prefixes – ACCT, BUS, ECON, FARE, FIN, HROB, HTM, MGMT, MCS, REAL.

Acceptance will be competitive based on available spaces. Students with an average below 70% will not be considered for admission to the major. All decisions will be made by the end of June.

Program Requirements

The Co-op program in Sport and Event Management is a five-year program, including four work terms. Students must complete a Fall, Winter and Summer work term, and must follow the academic work schedule as outlined below (found on the Co-operative Education website: https://www.recruitguelph.ca/cecs/). Please refer to the Co-operative Education program policy with respect to adjusting this schedule.

Sustainable Business (SB)

Issues of social justice, ethics and humanity are an integral part of sustainable business and students in this minor will be engaged in discussion, critical analysis and learning on issues of social and environmental responsibility. Changing societal expectations and technological advancement are creating new challenges for business and other leaders and are shifting the nature of the business and society relationships. Rising demands from civil society and business stakeholders, such as consumers, communities, employees and government, and the global commitment to Sustainable Development Goals have created an intensification of demands for responsible behaviour. Students will also use global resources such as the Sustainable Business Index to evaluate their sustainability knowledge and learning.

The Minor in Sustainable Business integrates a multi-disciplinary view of sustainability issues with a strong focus on business, ethics and humanity. Unique to this minor are the required courses and restricted electives from many different disciplines. This Minor is relevant to students from many disciplines who are interested in sustainability and corporate social responsibility.

By taking this minor, students will advance competencies in the following areas:

Bachelor of Computing (B.Comp.)

Students graduating from this program obtain a solid foundation in the theory and application of all aspects of computing and information science. Core subjects, combined with in-depth study in an area of application, give students the freedom to combine their interests in computing with other areas of study and application.

There are two majors available in the Bachelor of Computing honours program. The major in Computer Science provides a traditional computing foundation in software, hardware, and theory. The major in Software Engineering contains an emphasis on software development and design and has a greater focus on team work, communication skills, and professional standards.

Course projects are based on real-world software development scenarios and allows students to get the professional experience valued by today's high-tech employers. The focused study in a second discipline (area of application) gives students the background to effectively apply their knowledge.

Both majors require the equivalent of 8 semesters of successful full-time study. The general program requires the equivalent of 6 semesters of successful full-time study are available. Students in the honours program must choose a major in either Computer Science or Software Engineering. The majors are also available with a Co-op option.

Since not all courses are offered in every semester and prerequisite dependencies must be observed, students are encouraged to consult the program B.Comp. counsellor to plan an initial program of study or when considering modifications to the suggested schedule of studies list.

B.Comp. students who wish to change their program major within the Bachelor of Computing Program must submit an application to the School of Computer Science Program Counselling Office by the last day of classes in the winter semester.

To be eligible after first year, applicants must have successfully completed 4.00 credits in a B.Comp. major with an average of 70% or better. Admission to the major will be competitive based on available spaces.

Students wishing to transfer after second year or third year must have an average of 70% or better in their last 4.00 CIS credits. Admission to the major will be competitive based on available space.

All decisions regarding transfers will be made by the end of June.

Program Information

To graduate with an honours Degree with a major in Computer Science or Software Engineering a student must:

a. Successfully complete 20.00 credits. These must include the 11.25 CIS credits, a minimum of 4.00 credits in an Area of Application and an additional 4.75 credits as free electives. Not more than 6.00 credits from courses at the introductory (1000) level may be counted towards the 20.00 credit requirement.

b. Obtain a cumulative average at least 70% in CIS courses and a 60% cumulative average in all courses.

c. An Area of Application normally consists of 4.00 credits (normally 8 courses) of a minor. Minors are described under the B.A. and B.Sc. programs. Access to some courses may be limited. Minors are listed in Section X of the Calendar. A student may complete a minor should they decide to do so.

Students must consult the faculty advisor for approval of their Area of Application by semester 4. Not all disciplines or courses may be available as areas of application. Students failing to meet the graduation requirements of the honours program may apply to graduate with a general degree if the requirements for the general degree are met.

Continuation of Study

Students are advised to consult the regulations for Continuation of Study which are outlined in detail in Section VIII Degree Regulations Procedures of this calendar.

General Program

School of Computer Science, College of Engineering and Physical Sciences

To graduate from a general program a student must:

a. Earn 15.00 credits. These must include courses that fulfill the distribution requirements of the General Degree (see below). At least 4.00 credits must be at the 3000 level or above. Not more than 6.00 credits at the introductory (1000) level may be counted towards the 15.00 credit requirement.

b. No more than 11.00 credits in any one subject or discipline, as indicated by the course prefix code, can be counted towards a general degree.

c. Successfully complete the following credits:

0.50 additional CIS or STAT credits at the 2000 level or higher
1.00 additional CIS credits at the 2000 level or higher

To graduate with an honours Degree with a major in Computer Science or Software Engineering a student must:

a. Successfully complete 20.00 credits. These must include the 11.25 CIS credits, a minimum of 4.00 credits in an Area of Application and an additional 4.75 credits as free electives. Not more than 6.00 credits from courses at the introductory (1000) level may be counted towards the 20.00 credit requirement.

b. Obtain a cumulative average at least 70% in CIS courses and a 60% cumulative average in all courses.

Computer Science (Co-op) (CS:C)

Computing and Information Science, College of Engineering and Physical Sciences

Program Requirements

The Co-op program in Computer Science is a five year program, including five work terms. Students must complete a Fall, Winter and Summer work term and must follow the academic work schedule as outlined below (also found on the Co-operative Education website: https://www.recruitguelph.ca/cece/). Please refer to the Co-operative Education program policy with respect to adjusting this schedule.

Computer Science Academic and Co-op Work Term Schedule
To be eligible to continue in the Co-op program, students must meet a minimum 70% cumulative average requirement after second semester, as well as meet all work term requirements. Please refer to the Co-operative Education program policy with respect to work term performance grading, work term report grading and program completion requirements.

For additional program information students should consult with their Co-op Co-ordinator and Co-op Faculty Advisor, listed on the Co-operative Education web site.

Students are advised to plan their schedule of studies well in advance so that they can gather all required prerequisites for later (especially 4000 level) courses. Students should note that some 4000 level courses are only given in alternate years. Failure to plan may result in the inability to take a particular senior CIS course. Not all sequences may be viable. Please check with the CIS Co-op faculty advisor for semester planning.

### Credit Summary (22.00 Total Credits)*

12.25 - Required Core Courses
4.00 – Area of Application
3.75 – Free electives
2.00 - Co-op Work Terms

**Note:** A minimum of four Co-op work terms including a Summer, Fall, and Winter are necessary to complete the Co-op requirement. *A fifth Co-op work term is optional and if completed the total number of credits will equal 22.50.

The recommended program sequence is outlined below.

#### Major Co-op (Honours Program)

The recommended schedule of studies for Co-op is as follows:

**Semester 1 - Fall**
- CIS*1300 [0.50] Programming
- CIS*1910 [0.50] Discrete Structures in Computing I
- MATH*1200 [0.50] Calculus I
- 1.00 credits in the Area of Application or electives

**Semester 2 - Winter**
- CIS*2500 [0.50] Intermediate Programming
- CIS*2910 [0.50] Discrete Structures in Computing II
- MATH*1160 [0.50] Linear Algebra I
- 1.00 credits in the Area of Application or electives

**Summer Semester - Off**

**Semester 3 - Fall**
- CIS*2030 [0.50] Structure and Application of Microcomputers
- CIS*2430 [0.50] Object Oriented Programming
- CIS*2520 [0.50] Data Structures
- COOP*1100 [0.00] Introduction to Co-operative Education
- 1.00 credits in the Area of Application or electives

**Semester 4 - Winter**
- CIS*2750 [0.75] Software Systems Development and Integration
- CIS*3110 [0.50] Operating Systems I
- CIS*3490 [0.50] The Analysis and Design of Computer Algorithms
- 0.75 credits in the Area of Application or elective

**Summer Semester**
- COOP*1000 Work Term 1

**Fall Semester**
- COOP*2000 Work Term 2

**Semester 5 - Winter**
- CIS*3750 [0.75] System Analysis and Design in Applications
- 0.50 CIS electives at the 3000 level or above
- 1.25 credits in the Area of Application or electives

**Summer Semester**
- COOP*3000 Work Term 3

**Semester 6 - Fall**
- CIS*3150 [0.50] Theory of Computation
- CIS*3760 [0.75] Software Engineering
- STAT*2040 [0.50] Statistics I
- 0.75 credits in the Area of Application or electives

**Winter Semester**
- COOP*4000 Work Term 4

**Summer Semester**
- COOP*5000 Work Term 5

---

**Semester 7 - Fall**
- 1.00 credits in the Area of Application or electives
- 0.50 credits in CIS at 3000 level or above
- 1.00 credits in CIS at the 4000 level

**Semester 8 - Winter**
- CIS*4650 [0.50] Compilers
- 1.00 credits in the Area of Application or electives
- 0.50 credits in CIS at 3000 level or above
- 0.50 credits in CIS at the 4000 level

Bachelor of Engineering [B.Eng.]

Program Information

Objectives of the Program

Students in this program obtain a liberal engineering education, which includes a comprehensive core of science, mathematics and engineering science that provides a strong foundation for engineering design and analysis. This enables students to undertake the solution of engineering problems in the areas of biological, biomedical, computer, engineering systems and computing, environmental, mechanical and water resources. Core subjects, combined with elective opportunities, provide an understanding of the connection between engineering and science, coupled with the interdisciplinary skills needed to address the problems and challenges faced by engineers in society today.

The curriculum includes a strong emphasis on engineering design. Students engage in engineering design throughout the program, and gain experience in computer aided design and modeling, conceptual design and physical construction. Emphasis is on teamwork and communications skills, as well as working on interdisciplinary projects.

Career opportunities are open in many segments of the economy. Examples are: consulting services to municipalities, utilities and industry; resource agencies in advisory, regulatory, planning and utilization; service industries of construction, power and water supply and public health; manufacturing, design of computer and control systems, hardware and software development; mechatronics and emerging energy systems; medical devices, pharmaceutical and food industries and industrial ergonomics; academic research and graduate studies within and without the field of engineering.

Many engineers assume management responsibilities after gaining experience in design, development and operations. The balance provided by liberal arts and engineering education allows graduates to enjoy a great deal of career mobility.

Accreditation

The baccalaureate degree programs in all engineering programs are accredited by the Canadian Engineering Accreditation Board of Engineers Canada. Graduates from accredited engineering programs have the educational requirements to apply for membership in the Professional Engineers Ontario (PEO) and other provinces after a number of years of acceptable engineering experience and successful completion of a PEO examination in engineering law and ethics.

Requirements of the Program

Students combine their required courses in mathematics, physical sciences and engineering with additional credits providing the opportunity for specialization in: one of the programs; complementary studies courses; and elective subjects. Complementary studies, consist of courses in the social sciences, arts, management, engineering economics and communication. They complement the technical content of the curriculum. All credits are selected according to the schedule of studies for the student's chosen program. Restrictions apply to the number of non-core credits which may be at the 1000 level. Further information on approved courses may be obtained from the B.Eng. Program Guide available from the director or program counsellor of the School of Engineering.

Programs

Entry into a specific B.Eng. program is done two ways. Students can select their desired program of study (major) at the time of application. If accepted, students will be given an offer to their program of choice. Students also have the option of selecting the Undeclared First Year (Undeclared Stream) entry point due to the similarities of first year. Students in the Undeclared Stream then normally select their specific program of study during course selection for Semester II. Students in the Undeclared stream are strongly encouraged to meet with their Program Counsellor during Semester I. The School's Associate Director - Undergraduate Affairs or designate approve program selection during the summer. There are no enrollment caps on any program, so students are free to select their programs of choice. Students wanting to make a switch in majors after the above dates are free to do so with prior approval, but will be off sequence and may be required to take additional courses.

The available programs are:

Undeclared First Year: Students selecting this entry point are required to select one of the B.Eng. Majors at the time of course selection in Semester II.

Biological Engineering - the application of engineering to the control and management of biological processes, environments, and human factors in engineering design.

Biomedical Engineering - the application of engineering to health and medicine.

Computer Engineering - the application of engineering to the design, fabrication, and testing of computing machines and computer systems.

Engineering Systems and Computing - the application of engineering to the design, operation and management of data sensing, transmission and processing systems, and of control systems.

Environmental Engineering - the application of engineering to protect and restore the environment, through the prevention and treatment of gaseous, liquid and solid wastes.

Mechanical Engineering - The application of engineering to the design, manufacturing and control of mechanical and electro-mechanical equipment, systems and devices.

Water Resources Engineering - the application of engineering to the control and management of water and soil resources to meet human needs while sustaining the natural environment.

The schedule of studies for each program is provided below but guidance in the selection of appropriate courses is available from the program counsellor of the School of Engineering.

Additional Course Requirements

Students lacking specific subject requirements are advised to consult the Recommendations and Notes in Section IV—Admission Information—B.Eng.

Continuation of Study

Students are advised to consult the regulations for continuation of study within the program which are outlined in detail in Section VIII, Undergraduate Degree Regulation & Procedures. Students will be ineligible to continue in the B.Eng. program and will not be readmitted to the degree program if the same course is failed three times.

Normally, students in the B.Eng. program will be permitted only one supplemental privilege during their studies. It will usually be granted for 3000 or 4000 level courses only.

Conditions for Graduation

To qualify for the degree the student must complete the courses required for a B.Eng. program and must achieve an overall minimum cumulative average of at least 60% and a minimum cumulative average of at least 60% in all ENGG courses.

Co-operative Education

Students studying for the B.Eng. degree may participate in a Co-operative Education program following the completion of the first 4 semesters of study. The Co-operative Education program consists of a minimum of 4 semesters of experience in industry with employers who participate in the program. Reports and assignments are graded by a faculty supervisor with assistance from the employer. Evaluations of Co-op semesters are recorded on the student's academic record. The Co-operative Education program provides an excellent opportunity for students to obtain work experience in industry directly related to their field of study. Interested students should consult their program counsellor.

Students wishing to participate in the Co-operative Education program should indicate their intention to do so by applying for admission to the Co-op program on entrance. Following the completion of semester 2, in-course applicants will be considered for admission to the Co-op program if space permits.

Successful applicants will:

1. have a minimum cumulative average of 70% in semesters 1 and 2
2. have successfully completed all of the credits required in the schedule of studies for semesters 1 and 2
3. be employable in Canada or be in possession of an appropriate work-permit for Co-op students
4. have obtained the approval of their Co-op advisor in the school to participate in the program. The Co-op advisor's approval will signify that the schedule of work semesters in the Co-op program as planned by the student is compatible with the schedule of studies in the program in which the student is enrolled.

5. completion of COOP*1100 is a requirement for entry into the first work term.

Please refer to Co-operative Education Program for Admission requirements into the Co-op Program.

**Restricted Electives (see Program Guide for more information)**

The Engineering Program requires Biological Engineering students to complete the following combination of elective credits to complete their program:

- 1.00 credits from the BIOE-1 Biological Engineering electives
- 0.75 credits from the BIOE-2 Biological Engineering Design electives
- 2.00 credits from Complementary Studies electives
- 0.50 credits in Free Electives

Consult the Program Guide for further information on the prerequisite requirements specific to each elective. Students can take a maximum of 1.50 credits at the 1000 level from the above list of electives.

**Biological Engineering Program Co-op (BIOE:C)**

School of Engineering, College of Engineering and Physical Sciences

Students interested in problems requiring the application of knowledge from both the biological sciences and engineering will find a challenge as a Biological Engineer. This field of engineering is the application of principles, methods and concepts of biology to systems and tools, ranging in scale from molecular to ecosystem level. This field combines engineering principles with life sciences to design creative solutions for biological systems, with applications ranging from pharmaceutical and food manufacturing, bioconversions to reduce waste, and production of sustainable, bio-based materials. For example, a Biological Engineer concentrating on biotechnology might design and manage bioreactors to improve their productivity. A Biological Engineering graduate can pursue a career in a number of exciting fields, including food safety, bio-instrumentation, diagnostics and sensors in bio-systems, biomechanics and ergonomics.

Biomedical Engineering Program (BME)

School of Engineering, College of Engineering and Physical Sciences

Biomedical Engineering is a field of engineering that deals with health and medicine. (e.g.: electronic and mechanical devices used on biological materials, animals and humans, medical implants and instruments, ergonomics, bioinstrumentation, imaging and pharmacology). Graduates in Biomedical engineering are able to apply mathematical, scientific and engineering principles to a wide variety of fields and find employment across the private and public sectors of the health care industry. The program provides students with a common base of knowledge essential to engineering, and then allows them to select from a menu of electives to attain a degree of specialization in one of three areas, or to choose electives which broaden their general knowledge base. Elective concentrations are available in the areas of biomechanics; biosignal processing; and pharmaceuticals. The program is built around the concept of interdisciplinary application of engineering principles to health related problems.

### Engineering Systems and Computing Program (ESC)

**School of Engineering, College of Engineering and Physical Sciences**

In the last quarter century, the computer has grown so rapidly in importance that engineering, science, business and industry could not function without it. With this growth, a need has evolved for specialists who can incorporate computers and information into complex industrial processes. The Engineering Systems and Computing program has been conceived to satisfy this need. Graduates from this program will have, in addition to the basic engineering skills, the ability to identify application areas where computer technology represents the optimum solution, specify appropriate software for process control, data reduction and/or expert system implementation and integrate the computer into the overall system application.

#### Restricted Electives (see Program Guide for more information)

The Engineering Program requires Engineering Systems and Computing students to complete the following combination of elective credits to complete their program:

- 1.50 credits from the ESC-1 Engineering Systems and Computing electives
- 0.75 credits from the ESC-2 Engineering Systems and Computing electives
- 2.00 credits from Complementary Studies electives

Consult the Program Guide for further information on the prerequisite requirements specific to each elective. Students can take a maximum of 1.50 credits at the 1000 level from the above list of electives.

**Engineering Systems and Computing Program Co-op (ESC:C)**

**School of Engineering, College of Engineering and Physical Sciences**

In the last quarter century, the computer has grown so rapidly in importance that engineering, science, business and industry could not function without it. With this growth, a need has evolved for specialists who can incorporate computers and information into complex industrial processes. The Engineering Systems and Computing program has been conceived to satisfy this need. Graduates from this program will have, in addition to the basic engineering skills, the ability to identify application areas where computer technology represents the optimum solution, specify appropriate software for process control, data reduction and/or expert system implementation and integrate the computer into the overall system application.

**Program Requirements**

The Co-op program in Engineering Systems and Computing is a five year program, including five work terms. Students must complete a Fall, Winter and Summer work term and must follow the academic work schedule as outlined below (also found on the Co-operative Education website: [https://www.recruitguelph.ca/cecs/](https://www.recruitguelph.ca/cecs/)). Please refer to the Co-operative Education program policy with respect to adjusting this schedule.

To be eligible to continue in the Co-op program, students must meet a minimum 70% cumulative average requirement after second semester, as well as meet all work term requirements. Please refer to the Co-operative Education program policy with respect to work term performance grading, work term report grading and program completion requirements.

For additional program information students should consult with their Co-op Co-ordinator and Co-op Faculty Advisor, listed on the Co-operative Education web site.

**Environmental Engineering Program (ENVE)**

School of Engineering, College of Engineering and Physical Sciences

The degradation of the environment is a concern shared by citizens, government agencies, non-governmental agencies and businesses. The Environmental Engineering Program offered by the School of Engineering provides graduates with design and engineering skills to minimize and prevent the impact of human activities on water, soil and air systems. Both simple and innovative solutions are part of the tool box. Graduates will also creatively integrate humanistic and social perspectives in their solutions.

The Engineering Program requires Environmental Engineering students to complete the following combination of elective credits to complete their program:

- 1.00 credits from the ENVE-1 Environmental Engineering electives
- 2.00 credits from the ENVE-2 Environmental Engineering electives
- 1.50 credits from Complementary Studies electives

Consult the Program Guide for further information on the prerequisite requirements specific to each elective. Students can take a maximum of 1.50 credits at the 1000 level from the above list of electives.

**Minor (Honours Program)**

Students must be registered in a B.Eng degree program specialization other than Environmental Engineering to apply for a Minor in Environmental Engineering. A Minor in Environmental Engineering consists of at least 5.00 course credits. A maximum of 2.50 course credits taken as part of the Environmental Engineering Minor may also be applied toward the requirements of the B.Eng. Major specialization.

The following courses (2.00 credits) are required:

- CHEM*1050 [0.50] General Chemistry II
- ENGG*2560 [0.50] Environmental Engineering Systems
- ENGG*3180 [0.50] Air Quality
- ENGG*3590 [0.50] Water Quality

At least 2.00 credits must be selected from the following courses:

To be eligible to continue in the Co-op program, students must meet a minimum 70% cumulative average requirement after second semester, as well as meet all work term requirements. Please refer to the Co-operative Education program policy with respect to adjusting this schedule.

For additional program information students should consult with their Co-op Co-ordinator and Co-op Faculty Advisor, listed on the Co-operative Education web site.

Credit Summary (25.50 Total Credits)*

19.00 - Required Core Courses
1.00 – ENVE-1 Environmental Engineering Electives
2.00 – ENVE-2 Environmental Engineering Electives
1.50 – Complementary Studies Electives
2.00 - Co-op Work Terms

Note: A minimum of four Co-op work terms including a Summer, Fall, and Winter are necessary to complete the Co-op requirement. *A fifth Co-op work term is optional and if completed, the total number of credits will equal 26.00

See Program Guide for more information on restricted electives and their prerequisite requirements. Students can take a maximum of 1.50 credits at the 1000 level from the above list of electives.

Mechanical Engineering Program (MECH)

School of Engineering, College of Engineering and Physical Sciences

Mechanical Engineering at Guelph is built around concepts of sustainability and sustainable design to equip graduates to tackle issues associated with emerging technologies. Graduates in mechanical engineering are able to apply mathematical, scientific and engineering principles to a wide variety of fields and find employment across the private and public sectors. The program provides students with a common base of knowledge essential to mechanical engineering, and then allows them to select from a menu of electives to attain a degree of specialization in one of five areas, or to choose electives which broaden their general knowledge base. Elective concentrations are available in the areas of wind and solar energy, food and beverage engineering, mechatronics, manufacturing system design and biomechanics.

Revision: 2020-2021 Undergraduate Calendar
Water Resources Engineering Academic and Co-op Work Term Schedule

Water Resources Engineering Program (WRE)

School of Engineering, College of Engineering and Physical Sciences

Water resources engineering focuses on the use and management of land and water resources in rural and urban watersheds. The hydrologic and hydraulic behaviour of watershed flow systems is combined with engineering science and ecological principles in the design of water management systems and strategies. Water management includes flood prevention, warning and control; drainage; design of natural channels; irrigation; and erosion prevention and control. The supply of water for municipal, industrial and agricultural purposes is considered in the context of resource conservation. Identification of potential point and diffused sources of pollutants is used to develop efficient, environmentally sustainable and economical methods to preserve high-quality water to sustain human life and water-dependent ecosystems.

Bachelor of Landscape Architecture (B.L.A.)

Landscape Architecture is the art and science of designing and conserving land and water for human use and enjoyment. As a profession, Landscape Architecture is concerned with two scales of planning and design. The first scale is with the development of specific sites for residential, recreational, institutional, commercial and industrial projects. The second scale pertains to the regional landscape where the issues include management plans for forest, park and recreation areas, agricultural lands protection, gravel pit mining and restoration, hazard land studies, and visual resource analysis.

Program Information

Objectives of the Program

Landscape Architecture is a diverse and rewarding design profession. Landscape architects play an important role in shaping our environment, working in collaboration with other design professionals, specialists and the public. Students in the B.L.A. program attain professional knowledge and skill that prepares them to deal with problems that concern the interface between people and the environment. Program emphasis is on core professional knowledge domains that include landscape analysis, design, implementation, communication, history and professional practice. Additional required and elective courses in the arts and sciences provide a well-rounded education.

Graduates of the program have exciting careers in the public and private sector. As landscape architects, they design memorable places that are attractive, functional and sustainable and that affect the way our cities, suburbs, rural and wilderness areas are planned, designed and managed.

Accreditation

The Bachelor of Landscape Architecture program is accredited by the Landscape Architecture Accreditation Council (LAAC) of the Canadian Society of Landscape Architects (CSLA). This accreditation is also recognized by the American Society of Landscape Architects (ASLA). Graduates of accredited landscape architecture programs have the educational qualifications to apply for membership in provincial and state professional associations in Canada and the United States after completion of the required number of years of professional practice and successful completion of required examinations.

Admission to the Landscape Architecture Program

Students wishing to enter the program of study leading to the Bachelor of Landscape Architecture degree should consult Section IV—Admission Information.

Degree

The degree granted for the successful completion of the program is the Bachelor of Landscape Architecture (B.L.A.).

Selection of Electives

All electives may be chosen independently although counselling with the BLA Program Counsellor is highly recommended. In selecting electives two approaches may be followed: 1) electives may be chosen from a variety of disciplines to achieve breadth of knowledge or, 2) all or most electives may be chosen in a subject area in order to pursue a particular field of interest in depth. Some of these fields might include agricultural and biological sciences, environmental studies, studio arts, geography, philosophy or sociology.

Students wishing to elect a permissible substitute shall do so in consultation with the BLA Program Coordinator and BLA Program Counsellor. A substitute course will normally be in the same academic area as that listed in the Landscape Architecture Program.

Academic Advising

Students can consult the BLA Coordinator who is a faculty member that can address program issues and individual curriculum queries.

Computers

Expertise in many aspects of computer application is now a fundamental skill for the profession. Recognizing this, the school provides computer facilities in the building. If it is feasible we recommend that students acquire their own computer within the first two years of the program.

Field Trips

Participation in organized visits to site study areas and project sites is obligatory for all students taking certain courses in landscape architecture. To the extent that it is possible, students will be informed of the dates, destinations and cost of field trips prior to registration. Students who have reason to seek exemption from the requirement may apply to the director prior to registration for permission to substitute papers on appropriate topics.

Pre-Professional Experience

It is considered highly advisable that the prospective graduate prepare for later professional practice through summer employment in the landscape industry. Two summers spent in landscape related work followed by 1 summer in a professional office is considered to be a desirable sequence of employment.

Continuation of Study

Students are advised to consult the regulations for continuation of study within the program which are outlined in detail in Section VIII—Undergraduate Degree Regulations & Procedures.

Conditions for Graduation

In order to qualify for graduation from the 8 semester Honours B.L.A. program, the student must successfully complete all of the courses approved for the program (20.00 credits) and maintain a minimum 60.0% cumulative average.

X. Degree Programs, Bachelor of Landscape Architecture (B.L.A.)
Bachelor of Science (B.Sc.)

The University of Guelph offers general and honours programs leading to the B.Sc. degree. The general program consists of a minimum of 15.00 credits (usually 30 semester courses) involving normally 6 semesters of study. The requirements for the honours program is a minimum of 20.00 credits (usually 40 semester courses) which may be obtained over 8 semesters of study. Some majors may require more than 20.00 credits.

The Three Semester System

Most of the B.Sc. programs operate on the three semester system. In this system each of the Fall, Winter and Summer semesters is of 12 weeks duration. Two semesters are equivalent to 1 academic year at a university on the traditional system. In the three semester system, students may vary their rate of progress towards graduation. However, since many science courses must be taken in a certain sequence and not all courses are offered each semester, most science students are required to proceed from semester to semester in restricted patterns. Furthermore, the majority of courses of the honours programs are offered only in the regular fall and winter semesters.

Additional information may be obtained from Admissions Services, Office of Registrarial Services. The three-semester system and the pass-by-course method of advancement allow considerable flexibility of program arrangement. In addition, a variety of program contents is available which the student may modify to meet individual requirements.

Transfer from One B.Sc. Program to Another

On entrance to the B.Sc. program, the student may elect to follow an intended area of specialization or to postpone this decision until a later semester. The choice of a particular program of study may be most effectively made at the end of Semester 3 or 4. Judicious selection of courses in each and every semester will allow the easiest transfer between programs without incurring the need for additional semesters of study. The program counsellor of the particular college from which it is anticipated that the majority of science courses will be taken should be consulted for advice.

Program Information

B.Sc. Program Requirements

Regulations 1-9 apply to all B.Sc. students.

1. Entry Credits

In general, the 4U/grade 12 credit or its equivalent is required in a subject area to allow entrance to the initial university course. Students who lack this requirement can remedy the deficiency by successful completion of:

- BIOL*1020 for students lacking biology
- CHEM*1060 for students lacking chemistry

If more than one of the above courses is taken, students are required to complete additional credits beyond the minimum total required for the degree.

2. 1st Year Science Core

All majors within the B.Sc. degree are required to complete the first year core as outlined within their major. The core consists of courses in biology, chemistry, physics and mathematical science.

3. 1000 Level Credits

If more than 7.00 credits at the 1000 level are completed, students are required to complete additional credits beyond the minimum total required for the degree.

4. 3000 and 4000 Level Credits

There is a requirement for a minimum of 6.00 science credits at the 3000- and 4000-levels with a minimum of 2.00 credits at the 4000 level.

5. Science Credits

A minimum of 16.00 science credits (usually 32 courses) is required for the honours major program. The inclusion of a minor in a non-science area involves the reduction to 14.00 science credits. A minimum of 12.00 science credits is required for the three year general B.Sc. degree. Acceptable science courses means "acceptable to the B.Sc. Program Committee". Lists of acceptable science courses are available at: https://www.uoguelph.ca/bsc/Approved_electives.

6. Liberal Education Requirement

All majors within the B.Sc. degree require a specified number of liberal education credits.

- Policy, operational and management practices pertaining to a practical activity, or influence of social, cultural and economic environments on such activities.
- Personal or professional growth including ethical responsibility, leadership and communication.
- Development of historical, cultural, global, artistic, social, and language competencies.

A complete listing of acceptable courses can be found at: https://www.uoguelph.ca/bsc/

7. Free Electives

All majors within the B.Sc. degree have a specified number of free electives. The free elective requirement can be fulfilled by any course on the B.Sc. approved science or liberal education elective list. Courses that are restricted from B.Sc. students are not eligible to fulfill the free elective requirement. This restriction is stated in the course description.

8. Double-Counting of Credits

A maximum of 2.50 credits required in a major program may be applied to meet the requirements of a minor or an additional major.

For a completed minor in a non-B.Sc. area, students can apply up to 1.00 credits at the 3000/4000 level from their minor towards the 6.00 credits at the 3000/4000 level required for the degree.

Students cannot declare a major or minor in the three year general B.Sc. degree.

9. Continuation of Study

Students are advised to consult the regulations for continuation of study outlined in Section VIII—Undergraduate Degree & Regulations.

General Program Requirements

The general B.Sc. degree requires the successful completion of 15.00 credits. Normally 2.50 credits (usually 5 courses) are taken in each semester so that the degree may be completed in 6 semesters. The general science program is designed to give a broad general training in biological science, chemistry, physics and mathematical science. This is achieved by requiring each student to take a minimum of 1.00 credits in each of the above areas and an additional 0.50 credits in three of the four above areas. The courses to be taken in semesters 4 to 6 may be selected to allow a broad study of the sciences from the list of approved electives for B.Sc. students.

Honours Program Requirements

In order to graduate from the honours program, students must fulfill all program requirements for the program and have achieved a 60%, or higher, cumulative average over all course attempts. Normally 2.50 credits (usually 5 courses) are taken in each semester so that the degree may be completed in generally 8 semesters. The following types of honours programs are offered:

- Honours Major Programs

Major in a subject
Major in a subject with a minor or a second major

Honours Major

Majors permit a student to study science in greater depth than is permitted by the general program. The student is required to take a minimum of 1.00 credits (usually 2 courses) in each of biological science, chemistry, physics and mathematical science. In each of semesters 3 to 8, students select science credits so that the total program provides a broad science training with concentration in an area of physical science or biological science.

A major normally consists of certain prescribed courses (minimum of 8.00 credits) and a number of elective courses to complete the requirements for the degree. The composition of science courses selected must contain a sufficient number (minimum of 6.00 credits) of 3000 and 4000 level courses including a grouping (minimum of 2.00 credits) at the 4000 level. A major program may be studied in conjunction with a minor in an area of science, humanities or social science.

Honours Minor

A minor is a group of courses which provides for exposure to and mastery of the fundamental principles of a subject. A minor consists of a minimum of 5.00 credits (normally 10 courses). It may also require courses from other areas to be taken along with the specified courses of the minor. A minor is taken in conjunction with a major.

Students should seek advice from the program counsellor of either the College of Biological Science or the Colllege of Engineering and Physical Sciences dependent upon their primary area(s) of interest. Refer to B.Sc. Program Requirements: Regulation 6 Double-Counting of Credits.

Special Study Options

Study at Other Universities

Students contemplating study at another university for credit towards a Bachelor of Science degree at the University of Guelph should refer to the general regulations governing Letters of Permission in Section VIII—Degree Regulations & Procedures in this calendar. Students must obtain approval for the Letter of Permission prior to undertaking studies at another institution.

Study Abroad

The University of Guelph offers Study Abroad and Exchange opportunities for students to enrich their learning experience. Bachelor of Science students are encouraged to participate in any of the diverse options available. Courses taken while on exchange or study abroad may be used as electives or core requirements pending appropriate approvals.

For further information on the programs available, please refer to Section V—International Study. Students are advised to meet with the Centre for International Programs and B.Sc. Program Counsellor to discuss the feasibility of participating in an exchange or semester abroad.
Doctor of Veterinary Medicine

Students in the B.Sc. program who intend to apply for admission to the Doctor of Veterinary Medicine program should register for the Major Biological Science or Major Physical Science program, or the major of their choice. Prospective candidates for the D.V.M. program should consult the admission requirements for the program. Students may obtain assistance in selecting a program that will meet the requirements for the Doctor of Veterinary Medicine Program and for continuation in biological or physical science programs by consulting the appropriate Program Counsellor.

General Program (BSCG)

Continuation of Study

Students are advised to consult the regulations for continuation of study within the program which are outlined in detail in Section VIII—Undergraduate Degree Regulations & Procedures.

Conditions for Graduation

In order to qualify for graduation from the general program the student is required to attain a passing grade in a minimum of 15.00 required credits as outlined in the Total Course Requirements for all students in the General Science Program and have achieved a minimum cumulative average of 50%.

Total Course Requirements for all Students in the General Science Program

Total of 15.00 credits as follows:

1. 4.00 credits from the first year science core - 1.00 credits beyond the 4U/ grade 12 level in each of biological science, chemistry, mathematical science, physics. Note: A maximum of 7.00 credits at the 1000 level may be used towards the degree requirements.
2. An additional 0.50 credits from at least 3 of the following subject areas: biological science, biochemistry/chemistry, mathematical science, physics.
3. 6.50 additional credits selected from the list of approved sciences electives for the B.Sc. degree program of which 2.50 credits must be at the 3000 or 4000 level. Note: One of: BIOL*1020, CHEM*1060 may be counted towards the degree requirements, counting as 0.50 credits in science.
4. 2.00 credits - Liberal Education electives selected from the B.Sc. list of Liberal Education electives.
5. 1.00 credits in electives.

Honours Program Majors

The following honours majors are available:

**Biological Sciences:**
- 20.00 credits - Animal Biology (ABIO)
- 20.00 credits - Biochemistry (BIOC)
- 20.00 credits - Biodiversity (BIOD)
- 20.00 credits - Biological Science (BIOS)
- 20.00 credits - Bio-Medical Science (BIOM)
- 20.00 credits - Biomedical Toxicology (BTOX)
- 20.00 credits - Environmental Biology (ENVB)
- 20.00 credits - Food Science (FOOD)
- 20.00 credits - Human Kinetics (HK)
- 20.00 credits - Marine and Freshwater Biology (MBF)
- 20.00 credits - Microbiology (MIRC)
- 20.00 credits - Molecular Biology and Genetics (MBG)
- 20.00 credits - Neuroscience (NEUR)
- 20.00 credits - Nutritional and Nutraceutical Sciences (NANS)
- 20.00 credits - Plant Science (PLSC)
- 20.00 credits - Wildlife Biology and Conservation (WBC)
- 20.00 credits - Zoology (ZOOG)

**Physical Sciences:**
- 20.00 credits - Biological and Medical Physics (BMPH)
- 20.00 credits - Biological and Pharmaceutical Chemistry (BPCH)
- 20.00 credits - Chemical Physics (CHPY)
- 20.00 credits - Chemistry (CHEM)
- 20.00 credits - Environmental Geomatics (EG)

Honours Program Minors

Minors are available in the following science areas with the particular credit requirements being given (additional minors are available from the College of Arts and the College of Social and Applied Human Sciences). A minor may include additional prerequisites - consult with the appropriate faculty advisor.

**Biological Sciences:**
- 5.00 credits - Biology (BIOL)
- 5.00 credits - Biochemistry (BIOC)
- 5.00 credits - Biotechnology (BIOT)
- 5.00 credits - Microbiology (MIRC)
- 5.00 credits - Molecular Biology and Genetics (MBG)
- 5.00 credits - Neuroscience (NEUR)
- 5.00 credits - Nutritional and Nutraceutical Sciences (NANS)
- 5.00 credits - Plant Science (PLSC)
- 5.00 credits - Zoology (ZOOG)
### Physical Sciences:
- 5.00 credits - Chemistry (CHEM)
- 5.00 credits - Physics (PHYS)

### Environmental Sciences:
- 5.00 credits - Ecology (ECOL)
- 5.00 credits - Applied Geomatics (AG)

### Mathematical Sciences:
- 5.00 credits - Computing and Information Science (CIS)
- 5.00 credits - Mathematical Science (MSCI)
- 5.00 credits - Mathematics (MATH)
- 5.00 credits - Statistics (STAT)

### Additional Disciplines:
- 5.00 credits - Business Economics (BECN)

### Continuation of Study
Students are advised to consult the regulations for continuation of study within the program which are outlined in detail in Section VIII--Undergraduate Degree Regulations & Procedures.

### Conditions for Graduation

#### Schedules 1 and 2

In order to qualify for graduation from the honours program, the student must fulfill all program requirements and have achieved 60%, or higher, cumulative average in all course attempts.

**Note:** A student registered in an honours program who has successfully completed all required courses and the specified total number of credits for the program but does not have a cumulative average of 60%, or higher, may apply to graduate from the general program.

#### Co-operative Education Program

Admission to the Co-operative Education program may be granted on entry to the University by application normally before the conclusion of Semester 1. Application forms can be obtained from the Coop Education and Career Services website [https://www.recruituoguelph.ca/ces/](https://www.recruituoguelph.ca/ces/)

### Conditions for Graduation from the B.Sc. Co-operative Education Program

Conditions for graduation are the same as the corresponding regular B.Sc. program. In addition, all work reports and work performance evaluations must have a grade of satisfactory or better.

#### Animal Biology (ABIO)

### Department of Animal Biosciences, Ontario Agricultural College

#### Major (Honours Program)

Students may enter this major in Semester 1 or any semester thereafter. A student wishing to declare the major may wish to consult the Faculty Advisor.

### Credit Summary (20.00 Total Credits)

3.50 - First year science credits

6.50 - Required science courses semesters 3 - 8

4.50 - Restricted electives (#2 and #3)

1.50 - Approved Science electives

1.00 - Required Arts and/or Social Science course (ANSC 1210)

1.00 – Liberal Education electives

2.00 - Free electives - any approved elective for B.Sc. students.

Of the total credits required, students are required to complete 16.00 credits in science of which 2.00 credits must be at the 4000 level and an additional 4.00 credits must be at the 3000 or 4000 level.

### Applied Geomatics (AG)

#### Department of Geography, Environment and Geomatics, College of Social and Applied Human Sciences

Revision: 2020-2021 Undergraduate Calendar
The minor in Applied Geomatics offers students with expertise in the science and application of geospatial tools including Geographic Information Systems (GIS) (e.g., ArcGIS, GoogleEarth), remote sensing (e.g., extracting information from satellite images), and Geographic Positioning Systems (GPS). Although students learn fundamental underlying science, the focus of the minor is on the application of these spatial technologies. The program of studies has been designed to be complementary with a wide range of Majors and disciplines on campus, including the ability to select from a wide range of restricted electives, so that students can learn how to apply geomatics to their primary area of expertise.

Minor (Honours Program)
A minimum of 5.00 credits is required, including the following 3.00 credits:

Biochemistry (BIOC)

Department of Molecular and Cellular Biology, College of Biological Science
A B.Sc. in Biochemistry offers a multidisciplinary curriculum that gives students broad exposure to the life sciences with specific attention paid to the physical and chemical nature of biomolecular systems. The lab-intensive experience in this program prepares students to pursue post-graduate research opportunities in many different life science related fields. Graduates are also positioned to be successful in obtaining entrance to a number of professional programs, as well as employment in industry and government.

Students may enter this major in Semester 1 or any semester thereafter. A student wishing to declare the major may wish to consult the Faculty Advisor. The major will require the completion of at least 20.00 credits as indicated below:

Biochemistry (Co-op) (BIOC:C)

Department of Molecular and Cellular Biology, College of Biological Science

A B.Sc. in Biochemistry offers a multidisciplinary curriculum that gives students broad exposure to the life sciences with specific attention paid to the physical and chemical nature of biomolecular systems. The lab-intensive experience in this program prepares students to pursue post-graduate research opportunities in many different life science related fields. Graduates are also positioned to be successful in obtaining entrance to a number of professional programs, as well as employment in industry and government.

Program Requirements

The Co-op program in Biochemistry is a four and a half year program, including four work terms. Students must complete a Fall (Sequence B only), Winter and Summer work term, and must follow the academic work schedule as outlined below (also found on the Co-operative Education website: https://www.recruitguelph.ca/cecs/). Please refer to the Co-operative Education program policy with respect to adjusting this schedule.

To be eligible to continue in the Co-op program, students must meet a minimum 70% cumulative average requirement after second semester, as well as meet all work term requirements. Please refer to the Co-operative Education program policy with respect to work term performance grading, work term report grading and program completion requirements.

For additional program information students should consult with their Co-op Co-ordinator and Co-op Faculty Advisor, listed on the Co-operative Education web site.

**Biodiversity (BIOD)**

**Department of Integrative Biology, College of Biological Science**

The Major in Biodiversity offers a broad education in the diversity and evolution of life while providing a more specialized understanding of biology at the level of the organism. It is the most flexible of the majors offered by the Department of Integrative Biology and as such, it allows students the opportunity to design a customized program around their interests. The major qualifies students for postgraduate work in biodiversity, botany, zoology, and other life sciences and provides a sound science background for students wishing to pursue professional life science degrees or careers in teaching, government service or the private sector.

Biodiversity impacts every aspect of our planet. To maximize a student’s exposure to biodiversity we strongly encourage students to consider an international exchange in their fifth semester. An increase in global awareness of the diverse issues facing biodiversity from different economic, social, environmental and biological landscapes will help students to critically think, analyze and recognize the inherent complexities within the field.

**Major (Honours Program)**

Students may enter this major in Semester 1 or any semester thereafter. A student wishing to declare the major may wish to consult the Faculty Advisor. A minimum total of 20.00 credits required to complete the major.

### Credit Summary (20.00 Total Credits)

5.00 - First year science credits

4.00 - First year science credits

6.50 - Required science courses semesters 3 - 8

1.50 - Restricted elective (# 2, 3 and 4 in restricted elective list)

4.00 - Approved Science electives

1.00 - Liberal Education (#1 in restricted electives)

3.00 - Free electives - any approved elective for B.Sc. students.

*Of the total credits required, students are required to complete 16.00 credits in science of which a minimum of 2.00 credits must be at the 4000 level and an additional 4.00 credits must be at the 3000 or 4000 level.

**Biological and Medical Physics (Co-op) (BMPH:C)**

Department of Physics, College of Engineering and Physical Sciences

The program emphasizes the application of physics to biology and medicine. It provides an excellent background for careers in the expanding interdisciplinary research laboratories of government and industry, as well as a starting point for a career in medical physics. Completion of the program at an appropriate level will qualify a student to pursue post-graduate studies in biology, medical physics and related areas of physics.

**Program Requirements**

The Co-op program in Biological and Medical Physics is a five year program, including five work terms. Students must complete a Fall, Winter and Summer work term and must follow the academic work schedule as outlined below (also found on the Co-operative Education website: https://www.recruitguelph.ca/ccecs/). Please refer to the Co-operative Education program policy with respect to adjusting this schedule.

To be eligible to continue in the Co-op program, students must meet a minimum 70% cumulative average requirement after second semester, as well as meet all work term requirements. Please refer to the Co-operative Education program policy with respect to work term performance grading, work term report grading and program completion requirements.

For additional program information students should consult with their Co-op Co-ordinator and Co-op Faculty Advisor, listed on the Co-operative Education web site.

**Credit Summary (22.00 Total Credits)**

- 5.00 - First year science credits
- 9.50 - Required science courses semesters 3 – 8
- 1.50 - Restricted electives (from List A OR List B)
- 1.00 - Liberal Education electives
- 3.00 - Free electives - any approved elective for B.Sc. students.
- 2.00 - Co-op Work Terms

Of the total credits required, students are required to complete 16.00 credits in science of which 2.00 credits must be at the 4000 level and an additional 4.00 credits must be at the 3000 or 4000 level.

**Note:** A minimum of four Co-op work terms including a Summer, Fall, and Winter are necessary to complete the Co-op requirement. A fifth Co-op work term is optional and if completed, the total number of credits will equal 22.50.

The recommended program sequence is outlined below.

**Major (Honours Program)**

Credit Summary (20.00 Total Credits)

4.00 - First year science credits
6.50 - Required science courses semesters 3 – 8
5.00 - Restricted electives (#1 and 2 in restricted electives list)
0.50 - Approved Science electives
1.00 - Liberal Education electives
3.00 - Free electives - any approved elective for B.Sc. students. (could be less if restricted electives do not count as science)

Of the total credits required, students are required to complete 16.00 credits in science of which 2.00 credits must be at the 4000 level and an additional 4.00 credits must be at the 3000 or 4000 level.

Biological and Pharmaceutical Chemistry (Co-op) (BPCH:C)

Department of Chemistry, College of Engineering and Physical Sciences

Program Requirements

The Co-op program in Biological and Pharmaceutical Chemistry is a four and a half year program, including four work terms. Students must complete a Fall, Winter and Summer work term, and must follow the academic work schedule as outlined below (also found on the Co-operative Education website: https://www.recruitguelph.ca/cecs/). Please refer to the Co-operative Education program policy with respect to adjusting this schedule.

To be eligible to continue in the Co-op program, students must meet a minimum 70% cumulative average requirement after second semester, as well as meet all work term requirements. Please refer to the Co-operative Education program policy with respect to work term performance grading, work term report grading and program completion requirements.

For additional program information students should consult with their Co-op Co-ordinator and Co-op Faculty Advisor, listed on the Co-operative Education web site.

**Revision:**
**Major (Honours Program)**

The Biological Science major offers the opportunity to study a wide range of topics within biological science. The major is one of the most flexible within the B.Sc. program. After the core sciences in first and second year, students can tailor the degree to create a major all their own. With the wide breadth of courses offered, students can choose to focus their studies in one area of biological science or create a unique skill set and combination of courses not currently offered in any one of our majors. Students can also add a minor in either an area of science, arts or social science.

With this flexibility, students in the Biological Science major are encouraged to seek out study abroad opportunities through the Centre for International Programs. With a high number of elective spaces within the major, students can incorporate a study abroad and still meet the degree requirements within four years. Students who wish to pursue this option should start researching and planning in semesters 3 and 4.

Students may enter this major in Semester 1 or any semester thereafter. A student wishing to declare the major may wish to consult the Faculty Advisor. This major will require the completion of 20.00 credits as indicated below:

* **Restricted Electives**

** Note: some courses may require additional prerequisites.

1. At least 2.00 credits of Liberal Education electives are required. The list of Liberal Education electives for B.Sc. students can be found at: [https://www.uoguelph.ca/bsc/](https://www.uoguelph.ca/bsc/)

2. A minimum of 0.50 credits in Ecology:
   - BIOL*2060 [0.50] Ecology
   - BOT*3050 [0.50] Plant Functional Ecology

3. A minimum of 0.50 credits in Mathematical or Computational Science:
   - CIS*1000 [0.50] Introduction to Computer Applications
   - CIS*1200 [0.50] Introduction to Computing
   - MATH*1090 [0.50] Elements of Calculus II
   - STAT*2050 [0.50] Statistics II

4. A minimum of 0.50 credits in Physiology:
   - BIOM*3200 [1.00] Biomedical Physiology
   - BOT*2100 [0.50] Life Strategies of Plants

**Credit Summary (20.00 Total Credits)**

- 4.00 - First year science core
- 3.50 - Required science courses semesters 3 - 8 (#2, 3 and 4 in restricted elective list)
- 5.50 - Approved Biological Science electives of which 4.00 must be at the 3000 or 4000 level (#5 in restricted elective list)
- 3.00 - Approved Science electives of which 2.00 credits must be at the 4000 level*
- May include 1 of BIOL*1020, CHEM*1060
- 2.00 - Liberal Education electives
- 2.00 - Electives

*Of the total credits required, students are required to complete 16.00 credits in science of which a minimum of 2.00 credits must be at the 4000 level and an additional 4.00 credits must be at the 3000 or 4000 level.

**Biology (BIOL)**

**College of Biological Science**

**Minor (Honours Program)**

A minor in Biology consists of a minimum of 5.00 credits including the following courses:

- BIOL*1070 [0.50] Discovering Biodiversity
- BIOL*1090 [0.50] Introduction to Molecular and Cellular Biology
- MBG*2040 [0.50] Foundations in Molecular Biology and Genetics

One of:

- BIOL*2060 [0.50] Ecology
- BOT*3050 [0.50] Plant Functional Ecology

3.00 additional Biological Science credits of which 1.50 must be at the 3000 or 4000 level.

The list of approved biological science electives is posted at [http://www.uoguelph.ca/bsc/](http://www.uoguelph.ca/bsc/).

Students registered in B.Sc. majors in biological science may not declare this minor.

**Bio-Medical Science (BIOM)**

**Department of Biomedical Sciences and Department of Human Health and Nutritional Sciences**

This joint program of the Department of Human Health and Nutritional Sciences and the Department of Biomedical Sciences provides students with a broad and integrated foundational overview of human and animal health through the study of function (biochemistry and physiology), structure (anatomy and histology), and paraclinical sciences (epidemiology and pharmacology). The program prepares students well for more advanced studies or applied training in many health-related fields including clinical practice, business, government, research and education. Through the use of electives, students may structure a program emphasizing aspects of health and disease. For more information on recommended electives contact the Faculty Advisor of the major.

In addition, this program is designed to partially meet the current requirements for entry into medical schools in Ontario (a student interested in meeting these requirements should check the present admission requirements for the medical schools); as well as entry into the DVM program of the Ontario Veterinary College.

Live animals and/or animal tissues are used for teaching purposes in some courses in the Bio-Medical Science Major. This must be accepted by students admitted to the program. All animals are protected under the Animals for Research Act of Ontario (1980), the Guidelines for the Care and Use of Experimental Animals (biochemistry and physiology), structure (anatomy and histology), and paraclinical sciences (epidemiology and pharmacology).

For more information on required electives contact the Centre for International Programs.

Students who are admitted into the Bio-Medical Science major from high school must meet additional requirements to continue in the major. Continuation from first to second year is based on the cumulative average in the first two semesters (total of 5.00 credits), including the eight core courses as prescribed by the Schedule of Studies (see below). Students with a minimum average of 75% average will be guaranteed continuation in this major. For students with a 70-74.9% average, continuation will be competitive based on available spaces. Students with an average below 70% will not be considered for admission to the major. All decisions will be made at the end of June.

**Major (Honours Program)**

A minimum of 20.00 credits is required.

Semester 6

BIOM*3090 [0.50] Principles of Pharmacology
PATH*3610 [0.50] Principles of Disease
POPM*3240 [0.50] Epidemiology
Electives or restricted electives to a maximum of 2.75 total credits in this semester.

Semester 7

2.50 electives or restricted electives

Semester 8

2.50 electives or restricted electives

Restricted Electives

1. Anatomy Elective - [1 of (BIOM*3010, BIOM*3040), HK*3402, HK*3502]
2. Immunology Elective - ANSC*4650 or MICR*3230
3. Advanced Study Electives - 2.00 credits from BIOM*4030, BIOM*4050, BIOM*4070, BIOM*4090, BIOM*4110, BIOM*4150, BIOM*4180, BIOM*4300, BIOM*4500, BIOM*4510, BIOM*4522, HK*4070, HK*4230, HK*4340, HK*4360, HK*4372, HK*4442, HK*4640, NUTR*4320, NUTR*4360, NUTR*4510, TOX*4000
4. At least 2.00 credits of Liberal Education electives are required. The list of Liberal Education electives for B.Sc. students can be found at: https://www.uoguelph.ca/bse/ .

Credit Summary (20.00 Total Credits)

4.00 - First year science credits
5.75 - Required science courses semesters 3 – 8 (with HK 2810,3810) or 5.50 (with BIOM 3200)
4.00 - Restricted electives (with HK 3041/2 or HK 3501/2) 3.75 (with BIOM 3010, BIOM 3040) (Restricted elective #1, #2 and #3)
2.25 – 2.75 Approved Science electives depending on which anatomy and physiology courses are completed above.
2.00 - Liberal Education electives
2.00 - Free electives - any approved elective for B.Sc. students.

Of the total credits required, students are required to complete 16.00 credits in science of which 2.00 credits must be at the 4000 level and an additional 4.00 credits must be at the 3000 or 4000 level.

Biomedical Toxicology (BTOX)

Interdisciplinary Program, Departments of Biomedical Sciences, Chemistry, School of Environmental Sciences, Molecular and Cellular Biology

Major (Honours Program)

Students may enter this major in Semester 1 or any semester thereafter. A student wishing to declare the major may wish to consult the Faculty Advisor. A minimum of 20.00 credits are required for graduation.

Semester 1

BIOL*1090 [0.50] Introduction to Molecular and Cellular Biology
CHEM*1040 [0.50] General Chemistry I
MATH*1080 [0.50] Elements of Calculus I
PHYS*1080 [0.50] Physics for Life Sciences
0.50 Liberal Education electives

Students lacking Grade 12 or 4U Biology, Chemistry or Physics should follow the revised schedule of study for this major found at: https://www.uoguelph.ca/bsc/revised_SS

Semester 2

BIOL*1080 [0.50] Biological Concepts of Health
CHEM*1050 [0.50] General Chemistry II

Semester 8

ENVS*4000 [0.50] Toxicological Risk Assessment
TOX*4100 [0.50] Toxicological Pathology
TOX*4200 [0.50] Topics in Toxicology
1.00 electives or restricted electives*

* Restricted Electives

At least 1.50 credits must be completed from the following list of allowable courses.

**Note: Students are advised to pay particular attention to pre-requisite requirements when choosing individual courses, and seek advice as needed.

ANSC*4650 [0.50] Comparative Immunology
BIOM*3040 [0.75] Medical Embryology
BIOM*4050 [0.50] Biomedical Aspects of Aging
BIOM*4070 [0.50] Biomedical Histology

BIOM*4150 [0.50] Cancer Biology
CHEM*3750 [0.50] Organic Chemistry II
CHEM*3760 [0.50] Organic Chemistry III
CHEM*4740 [0.50] Topics in Bio-Oncogenic Chemistry
MBG*3350 [0.50] Molecular Biology of the Gene
MBG*4270 [0.50] DNA Replication, Recombination and Repair
MCB*4010 [0.50] Advanced Cell Biology
MICR*3230 [0.50] Immunology
NUTR*4090 [0.50] Functional Foods and Nutraceuticals
NUTR*4320 [0.50] Nutrition and Metabolic Control of Disease
Biomedical Toxicology (Co-op) (BTOX:C)

**Interdisciplinary Program, Departments of Biomedical Sciences, Chemistry, School of Environmental Sciences, Molecular and Cellular Biology**

**Program Requirements**
The Co-op program in Biomedical Toxicology is a five year program, including four work terms. Students must complete a Fall, Winter and Summer work term, and must follow the academic work schedule as outlined below (also found on the Co-operative Education website: [https://www.recruitguelph.ca/cces/](https://www.recruitguelph.ca/cces/)). Please refer to the Co-operative Education program policy with respect to adjusting this schedule.

1. At least 1.00 credits of Liberal Education electives are required. The list of Liberal Education electives for B.Sc. students can be found at: [https://www.uoguelph.ca/bsc/](https://www.uoguelph.ca/bsc/)

2. Approval of the Faculty Advisor must be obtained for the selection of courses not listed as restrictive electives.

3. Options for an "Area of Focus" or a minor are available. Subject areas include Biochemistry, Computing and Information Science, Earth Sciences, Environmental Sciences, Mathematical Sciences, and Physics. Please consult with your Faculty Advisor for more detail.

**3.00 credits from the 3000/4000 level as follows:

1. 1.50 comprising of (CHEM*3870 or CHEM*4880), (CHEM*4620 or CHEM*4630), (CHEM*4720 or CHEM*4730)

2. 1.50 from CHEM*3870, CHEM*4010, CHEM*4400, BIOC*4520, BIOC*4540, BIOC*4580, CHEM*4620, CHEM*4630, CHEM*4720, CHEM*4730, CHEM*4740, CHEM*4880, CHEM*4900, CHEM*4910, (BIOC*4050 or MCB*4050 or MCB*4080, TOX*4590)

Note:

1. Some of these courses may have to be taken in Semester 6.

2. Some of these courses are offered only in alternate years, and some have additional prerequisites for which the student must plan ahead, with the assistance of the faculty advisor.

Credit Summary (20.00 Total Credits)

4.50 - First year science credits

7.25 - Required science courses semesters 3 – 8

3.00 - Restricted electives (#1 and 2 in restricted electives list)

1.25 – Approved science electives

1.00 - Liberal Education electives

3.00 - Free electives - any approved elective for B.Sc. students.

Of the total credits required, students are required to complete 16.00 credits in science of which 2.00 credits must be at the 4000 level and an additional 4.00 credits must be at the 3000 or 4000 level.

Minor (Honours Program)

A minor in Chemistry consists of at least 5.00 credits including the following courses:

CHEM*1040 0.50 General Chemistry I

CHEM*1050 0.50 General Chemistry II

Of the additional 4.00 credits, students will select Chemistry courses (CHEM) at the 2000 level or above including a minimum of 1.00 credits at the 3000 or 4000 level. BIOC*2580 can be counted towards this specialization.

Chemistry (Co-op) (CHEM:C)

Department of Chemistry, College of Engineering and Physical Sciences

Program Requirements

The Co-op program in Chemistry is a four and a half year program including four work terms. Students must complete a Fall, Winter and Summer work term, and must follow the academic work schedule as outlined below (also found on the Co-operative Education website: [https://www.recruituoguelph.ca/cecs/](https://www.recruituoguelph.ca/cecs/)). Please refer to the Co-operative Education program policy with respect to adjusting this schedule.

Chemistry Academic and Co-op Work Term Schedule

For additional program information students should consult with their Co-op Co-ordinator and Co-op Faculty Advisor, listed on the Co-operative Education web site.

Credit Summary (21.50 Total Credits)*

4.50 - First year science credits

7.25 - Required science courses semesters 3 – 8

3.00 - Restricted electives (#1 and 2 in restricted electives list)

1.25 – Approved science electives

1.00 - Liberal Education electives

3.00 - Free electives - any approved elective for B.Sc. students.

1.50 - Co-op Work Terms

Note: A minimum of three Co-op work terms including a Summer, Fall, and Winter are necessary to complete the Co-op requirement. *A fourth Co-op work term is optional and if completed, the total number of credits will equal 22.00.

The recommended program sequence is outlined below.

Computing and Information Science (CIS)

School of Computer Science, College of Engineering and Physical Sciences
A knowledge of Computing is a complement to most areas of study. The Minor in Computing and Information Science is directed towards students who wish to supplement their studies in another area with some experience in Computing. Students interested in pursuing a Major in Computing can do so through the Bachelor of Computing Degree Program.

Minor (Honours Program)

CIS*1300 [0.50] Programming
CIS*1910 [0.50] Discrete Structures in Computing I
CIS*2170 [0.75] User Interface Design
CIS*2430 [0.50] Object Oriented Programming
CIS*2500 [0.50] Intermediate Programming
CIS*2520 [0.50] Data Structures
CIS*2750 [0.75] Software Systems Development and Integration
0.50 additional credits from CIS courses at the 2000 level or above
0.50 additional credits from CIS courses at the 3000 level or above

Ecology (ECOL)

Department of Integrative Biology, College of Biological Science
This minor provides a foundation in the principles and methods of ecology. It introduces the knowledge and skills necessary for work in conservation, environmental science, education, resource management, ecological consulting, or nature interpretation.

Minor (Honours Program)
A minimum of 5.00 credits is required to complete the minor, which must include:
BIOL*2060 [0.50] Ecology
BIOL*3010 [0.50] Laboratory and Field Work in Ecology
BIOL*3060 [0.50] Populations, Communities & Ecosystems
BIOL*4110 [1.00] Ecological Methods
BIOL*4120 [0.50] Evolutionary Ecology

Of the remaining 2.00 required credits, students will select from the following:
At least one of:
BIOL*2400 [0.50] Evolution
BIOL*3020 [0.50] Population Genetics
At least one of:
BOT*2100 [0.50] Life Strategies of Plants
ZOO*2090 [0.50] Vertebrate Structure and Function
One of:
GEOG*1220 [0.50] Human Impact on the Environment
GEOG*1300 [0.50] Introduction to the Biophysical Environment

Environmental Biology (ENVB)

School of Environmental Sciences, Ontario Agricultural College
The Honours B.Sc. program in Environmental Biology combines a broad education in the life sciences with a more specialized understanding of the biological consequences of interactions between humans and the environment. This major prepares students for post-graduate work in environmental biology and related life sciences and provides a strong foundation for students wishing to pursue careers in teaching, government service or the private sector.

Major (Honours Program)
Students may enter this major in Semester 1 or any semester thereafter. A student wishing to declare the major may wish to consult the Faculty Advisor. This major requires the completion of 20.00 credits. A minimum of 16.00 of these 20.00 must be science credits.

Semester 1
BIOL*1070 [0.50] Discovering Biodiversity
CHEM*1040 [0.50] General Chemistry I
ENVS*1100 [0.50] Fundamentals of Environmental Sciences
MATH*1080 [0.50] Elements of Calculus I
PHYS*1080 [0.50] Physics for Life Sciences

Students lacking Grade 12 or 4U Biology, Chemistry or Physics should follow the revised schedule of study for this major found at: https://www.uoguelph.ca/bsc/revised_SS

### Environmental Geomatics (EG)

- Department of Geography, Environment and Geomatics, College of Social and Applied Human Sciences

This program provides opportunities for study of the processes and properties of the biophysical environment and a core foundation in the analytical techniques (i.e. Geographical Information Science and Remote Sensing) used for their interpretation, analysis and presentation.

Graduates of the program will have unique expertise in the application of spatial technologies to the study and assessment of biophysical and Earth surface processes.

### Major (Honours Program)

Students may enter this major in Semester 1 or any semester thereafter. A student wishing to declare the major may wish to consult with a B.Sc. Faculty Advisor in the Department of Geography, Environment and Geomatics. All students are encouraged to consult with the advisor on a regular basis.

The major will require the completion of 20.00 credits as indicated below:

**Program Requirements**

The Co-op program in Environmental Geomatics is a five year program, including four work terms. Students must complete a Fall, Winter and Summer work term and must follow the academic work schedule as outlined below (also found on the Co-operative Education website: https://www.recruituoguelph.ca/cecs/). Please refer to the Co-operative Education program policy with respect to adjusting this schedule.

To be eligible to continue in the Co-op program, students must meet a minimum 70% cumulative average requirement after second semester, as well as meet all work term requirements. Please refer to the Co-operative Education program policy with respect to work term performance grading, work term report grading and program completion requirements.

For additional program information students should consult with their Co-op Co-ordinator and Co-op Faculty Advisor, listed on the Co-operative Education web site.

**Credit Summary (21.50 Total Credits)**

4.50 - First year science credits
9.00 - Required science courses semesters 3 – 8
1.00 - Required social science courses semesters 3 – 8
2.50 - Approved Science electives
1.00 - Liberal Education electives
2.00 - Free electives - any approved elective for B.Sc. students.
1.50 - Co-op Work Terms

Of the total credits required, students are required to complete 16.00 credits in science of which 2.00 credits must be at the 4000 level and an additional 4.00 credits must be at the 3000 or 4000 level.

Note: A minimum of three Co-op work terms including a Summer, Fall, and Winter are necessary to complete the Co-op requirement. A fourth Co-op work term is optional and if completed, the total number of credits will equal 22.00.

The recommended program sequence is outlined below.

Food Science (Co-op) (FOOD:C)

Department of Food Science, Ontario Agricultural College

Program Requirements
The Co-op program in Food Science is a five year program, including four work terms. Students must complete a Fall, Winter and Summer work term and must follow the academic work schedule as outlined below (also found on the Co-operative Education website: https://www.recruitguelph.ca/cecs/). Please refer to the Co-operative Education program policy with respect to adjusting this schedule.

Human Kinetics (HK)
Department of Human Health and Nutritional Sciences, College of Biological Science

Human Kinetics is concerned with understanding capacities for, and limits of, human movement at different ages and with the role of physical activity in human health. Through the use of electives, students may structure a program emphasizing biomechanics and ergonomics, human population biology or nutrition, exercise and metabolism.

If lacking the fundamentals of word processing, spread sheet use and data management, the student should select CIS*1200 as early in the program as possible.

Major (Honours Program)
B.Sc. students who were not admitted directly into the Human Kinetics major from high school and subsequently wish to transfer to the specialization must apply directly to the Department of Human Health and Nutritional Science by the last day of classes in the winter semester.

To be eligible after first year, applicants must have successfully completed 4.0 science credits in a B.Sc. specialization with an average of 70% or better in BIO*1070, BIO*1080 and BIO*1090. For students with a 65-69.9% average in these three courses, admission to the major will be competitive based on available spaces.

Students wishing to transfer after second year or third year must have an average of 70% or better in their last two semesters (total of best 4.00 science credits). For students with a 65-69.9%, admission to the major will be competitive based on available spaces.

All decisions regarding transfers will be made by the end of June.

To complete the major, a minimum of 20.00 credits are required.

Marine and Freshwater Biology (MFB)

Department of Integrative Biology, College of Biological Science

The Marine and Freshwater Biology major capitalizes on Guelph’s recognized excellence in aquatic research and provides a broad perspective on aquatic environments based on the physical as well as the biological sciences. In this major, students will build upon core courses in ecology, evolution, genetics, and physiology of aquatic biota as they study freshwater and marine environments and work with aquatic organisms experimentally in the field and in the lab. They will have the opportunity to perform independent research projects under a variety of field and laboratory conditions to enhance their learning experience. The major prepares students for post-graduate work in the aquatic sciences, and provides a sound scientific background for students wishing to pursue careers in academia, government service, private sector (e.g., NGOs, fisheries, aquaculture, biotechnology, consulting), conservation, education and research.

Department of Integrative Biology, College of Biological Science

The Marine and Freshwater Biology major capitalizes on Guelph’s recognized excellence in aquatic research and provides a broad perspective on aquatic environments based on the physical as well as biological sciences. In this major, you will build upon core courses in ecology, evolution, genetics, and physiology of aquatic biota as you study freshwater and marine environments and work with aquatic organisms experimentally in the field and in the lab. You will have the opportunity to perform independent research projects under a variety of field and laboratory conditions to enhance your learning experience. Work placements enable students to gain knowledge, skills and values appropriate for work with individuals and groups in a variety of settings. The major prepares students for post-graduate work in the aquatic sciences, and provides a sound scientific background for students wishing to pursue careers in academia, government service, private sector (e.g., NGOs, fisheries, aquaculture, biotechnology, consulting), conservation, education and research.

Program Requirements

The Co-op program in Marine and Freshwater Biology is a five year program, including five work terms. Students must complete a Fall, Winter and Summer work term and must follow the academic work schedule as outlined below (also found on the Co-operative Education website: https://www.recruituoguelph.ca/cecs/). Please refer to the Co-operative Education program policy with respect to adjusting this schedule.

To be eligible to continue in the Co-op program, students must meet a minimum 70% cumulative average requirement after second semester, as well as meet all work term requirements. Please refer to the Co-operative Education program policy with respect to work term performance grading, work term report grading and program completion requirements.

For additional program information students should consult with their Co-op Co-ordinator and Co-op Faculty Advisor, listed on the Co-operative Education web site.

Credit Summary (22.00 Total Credits)*

4.00 - First year science core
10.00 - Required science courses semesters 3 - 8
2.00 - Approved science electives
1.00 - Liberal Education electives
3.00 - Free electives - any approved elective for B.Sc. Students
2.00 - Co-op Work Terms

Of the total credits required, students are required to complete 16.00 credits in science of which a minimum of 2.00 credits must be at the 4000 level and an additional 4.00 credits must be at the 3000 or 4000 level.

Note: A minimum of four Co-op work terms including a Summer, Fall, and Winter are necessary to complete the Co-op requirement. *A fifth Co-op work term is optional and if completed, the total number of credits will equal 22.50

The recommended program sequence is outlined below.

Major (Honours Program)

Semester 1 - Fall

BIOL*1070 [0.50] Discovering Biodiversity
Students lacking Grade 12 or 4U Biology, Chemistry or Physics should follow the revised schedule of study for this major found at: https://www.uoguelph.ca/bsc/revised_SS

Semester 2 - Winter
BIOL*1080 [0.50] Biological Concepts of Health
BIOL*1090 [0.50] Introduction to Molecular and Cellular Biology
CHEM*1050 [0.50] General Chemistry II
PHYS*1070 [0.50] Physics for Life Sciences II
0.50 Liberal Education electives
0.50 Liberal Education electives

Semester 3 - Fall
BIOL*2060 [0.50] Ecology
BIOL*2400 [0.50] Evolution
COOP*1100 [0.00] Introduction to Co-operative Education
ZOO*2090 [0.50] Vertebrate Structure and Function
1.00 electives or restricted electives*

Semester 4 - Winter
BIOC*2580 [0.50] Introduction to Biochemistry
MBG*2040 [0.50] Foundations in Molecular Biology and Genetics
STAT*2230 [0.50] Biostatistics for Integrative Biology
ZOO*2700 [0.50] Invertebrate Morphology & Evolution
0.50 electives or restricted electives*

Summer Semester
COOP*1000 [0.50] Co-op Work Term I

Semester 5 - Fall
BIOL*3450 [0.50] Introduction to Aquatic Environments
ZOO*3600 [0.50] Comparative Animal Physiology I
ZOO*3610 [0.25] Lab Studies in Animal Physiology I
ZOO*3700 [0.50] Integrative Biology of Invertebrates
Electives or restricted electives to a maximum of 2.75 total credits in this semester.

Winter Semester
COOP*2000 [0.50] Co-op Work Term II

Semester 6 - Fall
BIOL*4350 [0.50] Limnology of Natural and Polluted Waters
IBIO*4600 [1.00] Integrative Marine and Freshwater Research
1.00 electives or restricted electives

Semester 7 - Winter
BIOL*3060 [0.50] Populations, Communities & Ecosystems
ZOO*3050 [0.50] Developmental Biology
ZOO*3620 [0.50] Comparative Animal Physiology II
ZOO*3630 [0.25] Lab Studies in Animal Physiology II
Electives or restricted electives to a maximum of 2.75 total credits in this semester.

Summer Semester
COOP*4000 [0.50] Co-op Work Term IV

Fall Semester
COOP*5000 [0.50] Co-op Work Term V

Semester 8 - Winter
BIOL*4010 [0.50] Adaptational Physiology
ZOO*4330 [0.50] Biology of Fishes
ZOO*4570 [0.50] Marine Ecological Processes
1.00 electives or restricted electives
* CIS*1200 is recommended for those needing to improve their computer skills

Electives
A minimum of 1.00 credits of Liberal Education electives is required. The list of Liberal Education electives for B.Sc. students can be found at: https://www.uoguelph.ca/bsc/

Mathematical Science (MSCI)

Department of Mathematics & Statistics, College of Engineering and Physical Sciences

Major (Honours Program)
Knowledge of Mathematics and Statistics is crucial for understanding our world. This unique program provides a core of both mathematics and statistics with a choice of a Mathematics stream or a Statistics stream. This major also requires the completion of an area of emphasis as listed. Students are encouraged to speak with a Program Counsellor when choosing courses for the selected stream and area of emphasis.

Students may enter this major in Semester 1 or any semester thereafter. A student wishing to declare the major may wish to consult the Faculty Advisor. A total of 20.00 credits is required to complete the Major which includes at least 10.00 credits in Mathematics & Statistics, 0.50 credits in Computing and Information Science, and an additional 2.50 credits in an area of emphasis.

Note: A major in Mathematical Science cannot be combined with a minor in Mathematical Science, Mathematics, or Statistics.

** Students entering the major in first year are strongly advised to take IPS*1510 or (MATH*1210, PHYS*1010). Students declaring the Energy and Mass Transfer, the Electricity and Systems, or the Signal Processing Area of Emphasis should take (MATH*1210, PHYS*1010).
*** BIOL*1070 and BIOL*1090 are recommended if taking either the BINF or the BBM Area of Emphasis

RESTRICTED ELECTIVES
1. A minimum of 1.00 credits of Liberal Education electives is required. The list of Liberal Education electives for B.Sc. students can be found at: https://www.uoguelph.ca/bsc/
2. 5.50 credits from either the Mathematics Stream or the Statistics Stream as follows:
3. 2.50 credits from an Area of Emphasis

Mathematics Stream:
MATH*2000 [0.50] Proofs, Sets, and Numbers
MATH*2210 [0.50] Advanced Calculus II
MATH*2270 [0.50] Applied Differential Equations
MATH*3160 [0.50] Linear Algebra II
MATH*3200 [0.50] Real Analysis
3.00 additional credits in MATH or STAT at the 3000 level or above of which at least 1.50 credits must be MATH at the 4000 level

Statistics Stream:
STAT*3110 [0.50] Introductory Mathematical Statistics II

Revision: 2020-2021 Undergraduate Calendar
AREAS OF EMPHASIS

Students are required to complete one of the following Areas of Emphasis. Each Area of Emphasis is 2.50 credits from a single field of study.

**BIOINFORMATICS (BINF)**
The following credits must be taken:
- BINF*2400 [0.50] Evolution
- BINF*3020 [0.50] Population Genetics
- BINF*3040 [0.50] Methods in Evolutionary Biology
- BINF*3300 [0.50] Applied Bioinformatics
- MBC*2040 [0.50] Foundations in Molecular Biology and Genetics

**BIOMATHMATICAL OR BIOSTATISTICAL MODELLING (BBM)**
The following credits must be taken:
- BMB*2200 [0.50] Ecology
- BMB*2400 [0.50] Evolution
- BMB*3060 [0.50] Populations, Communities & Ecosystems
- BMB*3130 [0.50] Conservation Biology
- BMB*4150 [0.50] Wildlife Conservation and Management

**COMPUTER SCIENCE (CS)**
The following credits must be taken:
- CIS*2430 [0.50] Object Oriented Programming
- CIS*2500 [0.50] Intermediate Programming
- CIS*2520 [0.50] Data Structures

Note: CIS*2750 is recommended in addition to the Area of Emphasis requirements for students interested in Computer Science

**ECONOMICS (ECON)**
The following credits must be taken:
- ECON*1050 [0.50] Introductory Microeconomics
- ECON*1100 [0.50] Introductory Macroeconomics
- ECON*2310 [0.50] Intermediate Microeconomics

Note: No more than 3.00 credits in ENGG courses may be taken.

**ENERGY AND MASS TRANSFER (EMT)**
The following credits must be taken:
- ENGG*1210 [0.50] Engineering Mechanics I
- ENGG*2230 [0.50] Fluid Mechanics
- ENGG*2400 [0.50] Engineering Systems Analysis
- ENGG*3260 [0.50] Thermodynamics
- ENGG*3430 [0.50] Heat and Mass Transfer

Note: No more than 3.00 credits in ENGG courses may be taken.

**ELECTRICITY AND SYSTEMS (EAS)**
The following credits must be taken:
- ENGG*1210 [0.50] Engineering Mechanics I
- ENGG*2400 [0.50] Engineering Systems Analysis
- ENGG*2450 [0.50] Electric Circuits

Note: No more than 3.00 credits in ENGG courses may be taken.

**SIGNAL PROCESSING (SP)**
The following credits must be taken:
- ENGG*1210 [0.50] Engineering Mechanics I
- ENGG*2400 [0.50] Engineering Systems Analysis
- ENGG*2450 [0.50] Electric Circuits
- ENGG*3390 [0.50] Signal Processing
- ENGG*4660 [0.50] Medical Image Processing

Note: No more than 3.00 credits in ENGG courses may be taken.

**INDIVIDUALIZED (IN)**
It is required that 2.50 credits are taken from approved Science electives for B.Sc. students where 1.00 credits must be at the 3000 level or above. Students declaring an Individualized Area of Emphasis must have their choice of 2.50 credits approved by an academic advisor.

---

Credit Summary (20.00 Total Credits)

- 5.00 - First year science credits
- 3.00 - Required science courses semesters 3 – 8
- 8.00 - Restricted electives (Stream and Area of Emphasis)
- 1.00 - Liberal Education electives (#1 in restricted elective list)
- 3.00 - Free electives - any approved elective for B.Sc. students. (Could be less if restricted electives do not count as science)

Of the total credits required, students are required to complete 16.00 credits in science of which 2.00 credits must be at the 4000 level and an additional 4.00 credits must be at the 3000 or 4000 level.

**Minor (Honours Program)**

This requires 1.00 calculus credits and 4.00 other credits chosen from mathematics, statistics, and computing and information science. For these 4.00 credits students will choose at least 0.50 from each discipline. At least 1.00 credits must be at the 3000 level or above. CIS*1000, CIS*1200, CIS*2050 and CIS*3000 cannot be counted toward this minor. This minor cannot be combined with a major in Mathematical Science or with any Bachelor of Computer program, or with a minor in Mathematics or Statistics.

**Mathematics (MATH)**

**Department of Mathematics & Statistics, College of Engineering and Physical Sciences**

Knowledge of mathematics is crucial for understanding our world. The Minor in Mathematics is designed to provide considerable flexibility for students to pursue their own mathematical interests, whether they be in the concepts of "pure" mathematics or techniques and applications. Students minoring in Mathematics will develop skills that are valued in many sectors such as business, education, government, and industry.

**Minor (Honours Program)**

A total of 5.00 credits is required to complete the Minor, including:

- (MATH*1080 or MATH*1200)*
- (MATH*1090 or MATH*1210)**
- (CIS*1910 or MATH*2000)***
- MATH*1160 [0.50] Linear Algebra I
- MATH*2200 [0.50] Advanced Calculus I
- STAT*2040 [0.50] Statistics I
- 0.50 additional Mathematics credits at the 2000 level or above.
- 1.50 additional Mathematics credits at the 3000 or 4000 level.

* IPS*1500 can count toward this 0.50 credit
** IPS*1510 can count toward this 0.50 credit
*** MATH*2000 is recommended. It is required for students wishing to take MATH*3200, MATH*3130, or MATH*4310.

Note: Students majoring or minoring in Mathematical Science cannot minor in Mathematics.

**Microbiology (MIRC)**

**Department of Molecular and Cellular Biology, College of Biological Science**

Microbiology programs are designed to give students a good understanding of microorganisms, including diversity, ecology, physiology, molecular genetics, current approaches in bacterial genomics/proteomics, and microbial associations with animal hosts and the environment. Such knowledge will provide the basis for further work with microbes in medicine, agricultural industries (including biotechnology, pharmaceuticals, food and beverage) and the environment (surveillance and bioremediation).

Students can take the B.Sc. program with a Major in Microbiology, or combine the minor with another major. Students should plan their programs in consultation with the microbiology faculty advisor. As course offerings may change during the program, students are strongly encouraged to review their plans at least once a year with their advisors, and to check the departmental website for program news.

**Major (Honours Program)**

Students may enter this major in Semester 1 or any semester thereafter. A student wishing to declare the major may wish to consult the Faculty Advisor.

Microbiology (Co-op) (MICR:C)

Department of Molecular and Cellular Biology, College of Biological Science
Microbiology programs are designed to give students a good understanding of microorganisms, including diversity, ecology, physiology, molecular genetics, current approaches in bacterial genomics/proteomics, and microbial associations with animal hosts and the environments. Such knowledge will provide the basis for further work with microbes in medicine, agricultural industries (including biotechnology, pharmaceuticals, food and beverage) and the environment (surveillance and bioremediation).

Program Requirements
The Co-op program in Microbiology is a five year program, including four work terms. Students must complete a Fall, Winter and Summer work term and must follow the academic work schedule as outlined below (also found on the Co-operative Education website: https://www.recruituoguelph.ca/cecs/). Please refer to the Co-operative Education program policy with respect to adjusting this schedule.

Credit Summary (20.00 Total Credits)

4.00 - First year science core

2.00 - Restricted electives (#2 and 3 in restricted electives list)

1.75 - Approved science electives

2.00 - Liberal Education electives (# 1 in restricted elective list)

2.00 - Free electives - any approved elective for B.Sc. Students

Of the total credits required, students are required to complete 16.00 credits in science of which a minimum of 2.00 credits must be at the 4000 level and an additional 4.00 credits must be at the 3000 or 4000 level.

Minor (Honours Program)
A minor in Molecular Biology and Genetics requires 5.00 credits in Molecular Biology and Genetics chosen in consultation with the faculty advisor, and will include:

- MBG*2040 [0.50] Foundations in Molecular Biology and Genetics
- MBG*2050 [0.50] Molecular Biology of the Cell

A minimum of 4.00 credits from:

- BIOL*3350 [0.50] Structure and Function in Biochemistry
- BIOL*4050 [0.50] Protein and Nucleic Acid Structure
- BIOL*3020 [0.50] Population Genetics

Nanoscience (NANO)
Administered jointly by the Department of Chemistry and the Department of Physics, College of Engineering and Physical Sciences

Major (Honours Program)
The major will require the completion of 20.00 credits as indicated below.

Semester 1
- BIOL*1090 [0.50] Introduction to Molecular and Cellular Biology
- CHEM*1040 [0.50] General Chemistry I
- IPS*1500 [1.00] Integrated Mathematics and Physics I
- NANO*1000 [0.50] Introduction to Nanoscience

Students who are lacking one 4U/grade 12 course in Biology, Chemistry or Physics must take the equivalent introductory course in first semester. The required first-year science courses in that subject should be completed according to the revised schedule of studies available at: https://www.uoguelph.ca/bsc/revised_SS

Semester 2
- CHEM*1050 [0.50] General Chemistry II
- IPS*1510 [1.00] Integrated Mathematics and Physics II
- MATH*1160 [0.50] Linear Algebra I
- One of
  - BIOL*1070 [0.50] Discovering Biodiversity
  - BIOL*1080 [0.50] Biological Concepts of Health

Semester 3
- CHEM*2060 [0.50] Structure and Bonding
- MATH*2270 [0.50] Applied Differential Equations
- NANO*2000 [0.50] Synthesis and Characterization of Nanomaterials I
- PHYS*2330 [0.50] Electricity and Magnetism I
- One of
  - CHEM*2820 [0.50] Thermodynamics and Kinetics
  - PHYS*2240 [0.50] Thermal Physics

Semester 4
- CHEM*2070 [0.50] Structure and Spectroscopy
- NANO*2100 [0.50] Synthesis and Characterization of Nanomaterials II
- PHYS*2310 [0.50] Mechanics
- 1.00 electives*

Semester 5
- NANO*3200 [0.50] Nanolithographic Techniques
- NANO*3500 [0.50] Thin Film Science
- One of
  - CHEM*3860 [0.50] Quantum Chemistry
  - PHYS*3230 [0.50] Quantum Mechanics I
- 1.00 electives

Semester 6
- NANO*3300 [0.50] Spectroscopy of Nanomaterials
- NANO*3600 [0.50] Computational Methods in Materials Science
- 1.50 electives

Semester 7
- NANO*4100 [0.50] Biological Nanomaterials
- NANO*4700 [0.50] Concepts in Quantum Computing
- 1.50 electives

Semester 8
- NANO*4200 [0.50] Topics in Nanomaterials
- 2.00 electives
* To take PHYS*2320 in semester 5, PHYS*2340 must be selected as an elective in semester 4.

Note: In semesters 7 and 8, the student must select to do either NANO*4900 or NANO*4910.

Areas of Focus
In completing the science requirements for the degree, some suggested complementary areas of focus are:

Chemistry: Inorganic
- Semester 4: CHEM*2480
- Semester 5: CHEM*3640
- Semester 6: CHEM*3650
- Semester 7: CHEM*4620
- Semester 8: CHEM*2700

Chemistry: Organic
- Semester 4: CHEM*2700
- Semester 5: CHEM*3750
- Semester 6: CHEM*3760
- Semester 7: CHEM*4730
- Semester 8: CHEM*2480, CHEM*4720
Chemistry: Physical/Analytical
Semester 4: CHEM*2480
Semester 5: CHEM*3860
Semester 6: CHEM*3430 or CHEM*3870
Semester 7: CHEM*3440
Semester 8: CHEM*3430 or CHEM*3870

Engineering
Semester 2: CIS*1500
Semester 4: ENGG*2450
Semester 5: ENGG*2410, ENGG*3450
Semester 6: ENGG*4550
Semester 7: ENGG*4080

Mathematics and Statistics
Semester 4: STAT*2040
Semester 5: STAT*3100
Semester 6: MATH*2130
Semester 7: MATH*4240
Semester 8: MATH*3160

Physics
Semester 4: PHYS*2340
Semester 5: MATH*2200, PHYS*3130
Semester 6: PHYS*3000
Semester 7: PHYS*4180, PHYS*4240
Semester 8: PHYS*4040, PHYS*4150

Note: Courses marked with an asterisk may require additional prerequisites. Students should consult the relevant course descriptions for further information.

Credit Summary (20.00 Total Credits)
4.50 - First year science credits
8.00 - Required science courses semesters 3 – 8
0.50 or 1.00- Restricted electives (either NANO 4900 (1.00) or NANO 4910 (0.50))
2.50 to 3.00 - Approved Science electives (depending on restricted elective chosen above)
1.00 - Liberal Education electives
3.00 - Free electives - any approved elective for B.Sc. students. (could be less if restricted electives do not count as science)

Of the total credits required, students are required to complete 16.00 credits in science of which 2.00 credits must be at the 4000 level and an additional 4.00 credits must be at the 3000 or 4000 level.

Nanoscience (NANO:C)

Program Requirements
The Co-op program in Nanoscience is a five year program, including five work terms. Students must complete a Fall, Winter and Summer work term and must follow the academic work schedule as outlined below (also found on the Co-operative Education website: https://www.recruitguelph.ca/cecs/). Please refer to the Co-operative Education program policy with respect to adjusting this schedule.

To be eligible to continue in the Co-op program, students must meet a minimum 70% cumulative average requirement after second semester, as well as meet all work term requirements. Please refer to the Co-operative Education program policy with respect to work term performance grading, work term report grading and program completion requirements.

For additional program information students should consult with their Co-op Co-ordinator and Co-op Faculty Advisor, listed on the Co-operative Education web site.

Credit Summary (22.00 Total Credits)*
4.50 - First year science core
8.00 - Required science courses semesters 3 - 8
0.50 or 1.00 - Restricted electives (either NANO 4900 (1.00) or NANO 4910 (0.50))
2.50 to 3.00 - Approved Science electives (depending on restricted elective chosen above)
1.00 - Liberal Education electives
3.00 - Free electives - any approved elective for B.Sc. students. (could be less if restricted electives do not count as science)
2.00 - Co-op Work Terms

Of the total credits required, students are required to complete 16.00 credits in science of which a minimum of 2.00 credits must be at the 4000 level and an additional 4.00 credits must be at the 3000 or 4000 level.

Note: A minimum of four Co-op work terms including a Summer, Fall, and Winter are necessary to complete the Co-op requirement. *A fifth Co-op work term is optional and if completed, the total number of credits will equal 22.50

The recommended program sequence is outlined below.

Major (Honours Program)

Semester 1 - Fall
BIOL*1090 [0.50] Introduction to Molecular and Cellular Biology
CHEM*1040 [0.50] General Chemistry I
IPS*1500 [1.00] Integrated Mathematics and Physics I

2.00 electives
* To take PHYS*3230 in semester 5, then PHYS*2340 must be selected as an elective in semester 4.

Note: In semesters 7 and 8, the student must select to do either NANO*4900 or NANO*4910.

**Neuroscience (NEUR)**

Departments of Biomedical Sciences (Ontario Veterinary College), Human Health and Nutritional Sciences (College of Biological Science), Molecular & Cellular Biology (College of Biological Science), and Psychology (College of Social and Applied Human Science).

**Major (Honours Program)**

This Honours program provides a foundation in the natural sciences and an opportunity to develop advanced knowledge of nervous system structure and function, and the skills required for independent inquiry within neuroscience. The specialization is unique in its emphasis on integrative/interdisciplinary problem solving. Through the use of electives, students may structure a program that emphasizes molecular and biomedical neuroscience, behavioural and cognitive neuroscience, or comparative neuroscience.

The major prepares students for professional programs in health science (medical, physiotherapy, pharmacy, veterinary medicine, nursing), post-graduate degrees in neuroscience research, and provides a strong foundation for students wishing to pursue careers in the pharmaceutical and biotechnology industries, public health, teaching, and scientific publishing & journalism.

Students may enter this major in Semester 1 or any semester thereafter. A student wishing to declare the major may wish to consult with a Faculty Advisor. A minimum total of 20.00 credits is required to complete the major.

1.50 electives or restricted electives

**Semester 8**

2.50 electives or restricted electives

---

**Restricted Electives**

Students are advised to pay particular attention to pre-requisite requirements when choosing individual courses, and seek advice as needed. * Indicates courses that require additional prerequisites.

1. A minimum of 0.50 credits of Critical thinking/Philosophy/Ethics from:
   - BIOM*3210 [0.50] Critical Thinking in the Health Sciences
   - PHIL*2100 [0.50] Critical Thinking
   - PHIL*2110 [0.50] Formal Logic
   - PHIL*2120 [0.50] Ethics
   - PHIL*2180 [0.50] Philosophy of Science
   - PHIL*2240 [0.50] Knowledge and Belief

Note: if a PHIL course is completed from this list, students are required to take an additional 0.50 credit approved science course as an elective to ensure the minimum science requirement is met.

2. A minimum of 0.50 credits of Developmental Biology
   - BIOM*3040 [0.75] Medical Embryology *
   - MBG*3040 [0.50] Molecular Biology of the Gene
   - ZOO*3050 [0.50] Developmental Biology

3. A minimum of 0.50 credits of Physiology
   - BIOM*3200 [1.00] Biomedical Physiology
   - HK*2810 [0.50] Human Physiology I - Concepts and Principles
   - ZOO*3600 [0.50] Comparative Animal Physiology *

NOTE: If HK*2810 is completed in Semester 4, HK*3810 must be completed in Semester 5 in order to meet the BIOM*3090 pre-requisite requirement

4. A minimum of 0.50 credits of additional statistics or experimental design
   - PSYC*2360 [0.50] Psychological Methods and Statistics
   - STAT*2050 [0.50] Statistics II

**Lists of recommended electives**

The following lists contain recommended electives for students wishing to emphasize particular areas in neuroscience.

* Indicates courses that require additional prerequisites.

** Faculty advisor will determine if this course is an eligible science elective, depending on the instructor and topic

Nutritional and Nutraceutical Sciences (NANS)

Department of Human Health and Nutritional Sciences, College of Biological Science

The Nutritional and Nutraceutical Sciences major is concerned with understanding the contribution of food, beverage and nutritional supplement consumption to growth, development of optimal biological function, maintenance of health, and treatment of disease.

If lacking the fundamentals of word processing, spreadsheet use and data management, the student should select CJS*1200 as early in the program as possible.

Major (Honours Program)

Students may enter this major in Semester I or any semester thereafter. A student wishing to declare the major may wish to consult the Faculty Advisor. A total of 20.00 credits is required.

Physical Science (PSCI)

College of Engineering and Physical Sciences

Major (Honours Program)

Students may enter this major in Semester 1 or any semester thereafter. A student wishing to declare the major may wish to consult the Faculty Advisor. This major will require the completion of 20.00 credits as indicated below:

1. Basic Science Core - 4.00 credits
   1.00 - Biology (BIOL*1070, BIOL*1080, BIOL*1090)
   1.00 - Chemistry (CHEM*1040, CHEM*1050)
   1.00 - Physics [PHYS*1080, (1 of PHYS*1010, PHYS*1070, PHYS*1130)]
   1.00 - Mathematical Science [(MATH*1080, MATH*1090) or (MATH*1200, MATH*1210)]

2. Subject Area Core - 8.00 credits
   0.50 STAT*2040
   0.50 (1 of CIS*1200, CIS*1300, CIS*1500)
   7.00 Physical science credits, including at least 4.00 credits at the 3000 or 4000 level of which 2.00 credits must be at the 4000 level.

3. Science Electives - 4.00 credits
   4.00 science credits from the List of Approved Science Electives for B.Sc. Students

4. Liberal Education - 2.00
   2.00 acceptable Liberal Education credits selected from the List of Approved B.Sc. Electives

5. Free Electives - 2.00 credits

Note: the program must include a total of 6.00 science credits at the 3000 or 4000 level.

Of these, at least 2.00 credits must be physical science at the 4000 level.

Credit Summary (20.00 Total Credits)

4.00 - First year science credits

8.00 - Subject area core semesters 3 – 8 (including STAT 2040 and CIS 1200 or CIS 1500)

4.00 - Approved Science electives

2.00 - Liberal Education electives (# 1 in restricted elective list)

2.00 - Free electives - any approved elective for B.Sc. students. (could be less if restricted electives do not count as science)

Of the total credits required, students are required to complete 16.00 credits in science of which 2.00 credits must be at the 4000 level and an additional 4.00 credits must be at the 3000 or 4000 level.

Revision: 2020-2021 Undergraduate Calendar
Honours Physical Science (With a Minor)
The requirements and schedules are the same as for Honours Physical Science. Available Honours subjects are listed at the beginning of the B.SC. Program section under the heading Honours Program Minors.

Physics (PHYS)

Department of Physics, College of Engineering and Physical Sciences
Students may enter this major in Semester 1 or any semester thereafter. A student wishing to declare the major may wish to consult the Faculty Advisor. Since some of the required courses are not offered every semester, students entering the Major in Honours Physics should plan their program in consultation with the Department of Physics Faculty Advisor.

Major (Honours Program)
This major requires the completion of 20.00 credits. At least 1.00 credits must be from Arts and/or Social Science courses.

Semester 1 *
CHEM*1040 [0.50] General Chemistry I
CTIS*1300 [0.50] Programming
IPS*1500 [1.00] Integrated Mathematics and Physics I

+ students going on to graduate school in physics should take PHYS*4002, PHYS*4120, PHYS*4130, PHYS*4150, PHYS*4240

** At least 1.00 credits must be from the restricted electives listed below.

Restricted Electives

PHYS*4120 [0.50] Atomic and Molecular Physics
PHYS*4130 [0.50] Subatomic Physics
PHYS*4150 [0.50] Solid State Physics

Credit Summary (22.00 Total Credits)*

5.00 - First year science credits
8.50 - Required science courses semesters 3 – 8
1.00 - Restricted electives
1.50 - Approved Science electives
1.00 - Liberal Education electives

Minor (Honours Program)
A minor in Physics requires 5.00 credits in interdisciplinary physical science or physics courses including:

PHYS*2180 [0.50] Experimental Techniques in Physics
PHYS*2310 [0.50] Mechanics
PHYS*2330 [0.50] Electricity and Magnetism I
PHYS*2340 [0.50] Electricity and Magnetism II

A maximum of 1.00 credits from the following courses may be used towards the minor:

PHYS*1010 [0.50] Introductory Electricity and Magnetism
PHYS*1070 [0.50] Physics for Life Sciences I
PHYS*1080 [0.50] Physics for Life Sciences
PHYS*1130 [0.50] Physics with Applications
IPS*1510 [1.00] Integrated Mathematics and Physics II

A minimum of 1.00 credits are required at the 3000 or 4000 level.

NOTE: PHYS*1300, PHYS*1600 and PHYS*1810 may not be taken for credit toward this minor.

Physics (Co-op) (PHYS:C)

Department of Physics, College of Engineering and Physical Sciences
Program Requirements
The Co-op program in Physics is a five year program, including five work terms. Students must complete a Fall, Winter and Summer work term and must follow the academic work schedule as outlined below (also found on the Co-operative Education website: https://www.recruitguelph.ca/cecs/). Please refer to the Co-operative Education program policy with respect to adjusting this schedule.

To be eligible to continue in the Co-op program, students must meet a minimum 70% cumulative average requirement after second semester, as well as meet all work term requirements. Please refer to the Co-operative Education program policy with respect to work term performance grading, work term report grading and program completion requirements.

For additional program information students should consult with their Co-op Co-ordinator and Co-op Faculty Advisor, listed on the Co-operative Education web site.

Credit Summary (22.00 Total Credits)*

5.00 - First year science credits
8.50 - Required science courses semesters 3 – 8
1.00 - Restricted electives
1.50 - Approved Science electives
1.00 - Liberal Education electives
3.00 - Free electives - any approved elective for B.Sc. students
2.00 - Co-op Work Terms

Of the total credits required, students are required to complete 16.00 credits in science of which a minimum of 2.00 credits must be at the 4000 level and an additional 4.00 credits must be at the 3000 or 4000 level.

Note: A minimum of four Co-op work terms including a Summer, Fall, and Winter are necessary to complete the Co-op requirement. *A fifth Co-op work term is optional and if completed, the total number of credits will equal 22.50.

The recommended program sequence is outlined below.

**Major (Honours Program)**

**Semester 1 - Fall**
CHEM*1040 [0.50] General Chemistry I

Semester 8
AGR*4600 [1.00] Agriculture and Food Issues Problem Solving
BOT*4380 [0.50] Metabolism in the Whole Life of Plants
1.00 electives or restricted electives

Restricted Electives

1. A minimum of 1.00 credits of Liberal Education electives is required. The list of Liberal Education electives for B.Sc. students can be found at: https://www.uofwaterb/cb/c
2. 5.00 credits from within their area of emphasis from the lists below

Note: Restricted electives indicated with † are non-science electives. If non-science restricted electives are chosen students are reminded that they will still be responsible for meeting the minimum requirement of 16.00 credits in science and that the credit summary may vary from what is specified below.

Note: Restricted electives indicated with ** require other restricted electives as prerequisites. Students should consult the most recent undergraduate calendar for specific requirements.

‡ Students are required to take one of (AGR*4450 or IBIO*4500 or MCB*4500) in semester 7 or AGR*4600 in semester 8. For those choosing (AGR*4450 or IBIO*4500 or MCB*4500), one of the following may count towards restricted electives requirements in an area of emphasis.

AGR*4460 [1.00] Research Project II
or<br>IBIO*4510 [1.00] Research in Integrative Biology II
or<br>MCB*4510 [1.00] Research Project in Molecular & Cellular Biology

Credit Summary (20.00 Total Credits)

Option A
4.00 - First year science core
6.00 - Required science courses semesters 3 - 8
5.00 - Restricted electives for the declared area of emphasis (#2) (some restricted electives do not count as science electives towards the degree. Therefore additional science electives may be required.)
1.00 - Approved science electives, if all restricted electives chosen are approved science electives.
1.00 - Liberal Education electives
0.50 - ENGL*1030
2.50 - Free electives - any approved elective for B.Sc. Students (could be less if restricted electives do not count as science)

Of the total credits required, students are required to complete a minimum of 16.00 credits in science, of which 2.00 credits must be at the 4000 level and an additional 4.00 credits must be at the 3000 or 4000 level.

Option B
4.00 - First year science core
5.00 - Required science courses semesters 3 - 8
1.00 – AGR*4600
5.00 - Restricted electives for the declared area of emphasis (#2) (some restricted electives do not count as science electives towards the degree. Therefore additional science electives may be required.)
2.00 - Approved science electives, if all restricted electives chosen are approved science electives (can be reduced to 1.00 of approved science electives if AGR*4600 is approved as science by faculty advisor and all restricted electives chosen are approved science electives)
1.00 - Liberal Education electives
0.50 - ENGL*1030
1.50 - Free electives - any approved elective for B.Sc. Students (could be less if restricted electives do not count as science)

Of the total credits required, students are required to complete a minimum of 16.00 credits in science, of which 2.00 credits must be at the 4000 level and an additional 4.00 credits must be at the 3000 or 4000 level.

Minor (Honours Program)

A minor in Plant Science requires a minimum of 5.00 credits in the Plant Science Program chosen in consultation with the Faculty Advisor. The courses include:

AGR*2470 [0.50] Introduction to Plant Agriculture
BOT*2100 [0.50] Life Strategies of Plants
BOT*3310 [0.50] Plant Growth and Development
BOT*3410 [0.50] Plant Anatomy

BOT*4380 [0.50] Metabolism in the Whole Life of Plants

2.00 credits from any courses listed in the areas of emphasis.

Restricted electives indicated with ** are non-science electives. Restricted electives indicated with *** require other restricted electives as prerequisites.

Statistics (STAT)

Department of Mathematics and Statistics, College of Engineering and Physical Sciences

Statistics plays a fundamental role in virtually all scientific disciplines, including biology, physics, chemistry, medicine, epidemiology, kinesiology, and toxicology. Students minoring in Statistics will develop practical skills in data visualization and analysis, statistical computing, technical writing and communication in a variety of applications areas, preparing them well for careers in the modern workplace.

Students may declare this minor in any semester.

Minor (Honours Program)

A total of 5.00 credits is required to complete the minor, including:

(MATH*1080 or MATH*1200)*
(MATH*1090 or MATH*1210)**
MATH*1160 [0.50] Linear Algebra I
STAT*2040 [0.50] Statistics I
STAT*2050 [0.50] Statistics II
STAT*3100 [0.50] Introductory Mathematical Statistics I
STAT*3110 [0.50] Introductory Mathematical Statistics II
STAT*3240 [0.50] Applied Regression Analysis

0.50 additional credits in Statistics
0.50 additional credits in Statistics or Mathematics at the 2000 level or above
* IPS*1500 can count toward this 0.50 credit
** IPS*1510 can count toward this 0.50 credit

Note: Students majoring or minoring in Mathematical Science cannot minor in Statistics.

Theoretical Physics (THPY)

Department of Physics, College of Engineering and Physical Sciences

Students may enter this major in Semester 1 or any semester thereafter. A student wishing to declare the major may wish to consult the Faculty Advisor. Since some of the required courses are not offered every semester, students entering the Major in Theoretical Physics should plan their program in consultation with the Faculty Advisor.

Major (Honours Program)

This major requires the completion of 20.00 credits. At least 1.00 of these credits must be obtained from the completion of Liberal Education electives.

Semester 1

CHEM*1040 [0.50] General Chemistry I
CIS*1300 [0.50] Programming

### Zoology (ZOO)

**Department of Integrative Biology, College of Biological Science**

The Major in Zoology offers a broad education in the life sciences while providing a more specialized understanding of the structure, function, and ecology of animals. This major qualifies students for postgraduate work in zoology and other life sciences and provides a sound science background for students wishing to pursue careers in teaching, government service or the private sector.

### Major (Honours Program)

Students may enter this major in Semester 1 or any semester thereafter. A student wishing to declare the major may wish to consult the Faculty Advisor. A minimum total of 20.00 credits is required to complete the major. At least 6.00 science credits must be at the 3000 to 4000 level, 2.00 of which must be at the 4000 level.

Revision: 2020-2021 Undergraduate Calendar
Bachelor of Science in Agriculture [B.Sc.(Agr.)]

The B.Sc.(Agr.) degree program is a 4 year honours science program designed to provide a fundamental education in the science of agriculture. The curriculum includes courses in the agricultural sciences, the physical, biological and social sciences, and in the arts.

Program Information

Agricultural scientists must be effective communicators and problem solvers, self-directed in their learning, and have a global perspective of the agri-food systems. Students will be involved in co-operative group learning activities and will experience courses that are multidisciplinary and integrate the teaching activities of many faculty and departments. Students will have the option of completing a broad agricultural program (honours agricultural science) or another major in which they take courses towards a more focused subject area. The curriculum provides opportunities for students to select courses that will help them prepare for professional careers as entrepreneurs, scientists, marketing specialists, financial managers, technical advisors, or communication specialists. Students will have a comprehensive understanding of the food system when they graduate. They will be able to integrate their knowledge of production agriculture, environmental management, resource allocation and business management as it applies to the food system nationally and globally.

Students will be encouraged to integrate their academic program with a well-planned series of employment activities in the summer months and to develop their leadership and interpersonal skills in on-campus and community activities.

Graduates meet the educational requirements for membership in the Ontario Institute of Agrologists. The Ontario Institute of Agrologists is the professional organization in agriculture in the Province of Ontario. Professional institutes in the various provinces in Canada and the scientific societies in agriculture collectively comprise the Agricultural Institute of Canada. The program received full accreditation from the Agricultural Institute of Canada in April 2007.  

B.Sc.(Agr.) Majors:

- Animal Science
- Crop, Horticulture and Turfgrass Science
- Honours Agricultural Science

Declaration of a Major

All students are admitted into an undeclared major upon entry. Students will be required to select a major by semester 3 through consultation with the Program Counsellor and Faculty Advisors. The course requirements are listed for each major in the following section.

Students may, with appropriate approvals, elect to complete Minors associated with other degree programs as listed in the undergraduate calendar.

Honours Minor

A minor is a group of courses which provides for exposure to and mastery of the fundamental principles of a subject. A minor consists of a minimum of 5.00 credits (normally 10 courses). It may also require certain other courses from other areas to be taken along with the specified courses of the minor. A minor is taken in conjunction with a major.

A maximum of 2.50 credits required in a major program may be applied to meet the requirements of a minor.

Students should seek advice from the B.Sc.(Agr.) Program Counsellor about the addition of a minor. Students in the B.Sc.(Agr.) are not eligible for a minor in Agriculture.

Study Abroad

The B.Sc.(Agr.) degree program is similar in many respects to programs offered at faculties of agricultural science in other provinces in Canada. Students are strongly encouraged to consider studying for 1 or 2 semesters in other faculties of agricultural science in Canada and in selected countries around the world.

Students interested in studying at another institution should consult the B.Sc.(Agr.) Program Counsellor to discuss their plans, and refer to the scholarship section for financial support.

For more specific information on these opportunities refer to Section V--International Study in this calendar, or contact the OAC Dean's Office.

Doctor of Veterinary Medicine

Students in the B.Sc.(Agr.) program may apply for admission to the D.V.M. program after semester 4 or later. Applications must be submitted to the Admissions Services, Office of Registrarial Services. Students should consult the D.V.M. Section of the calendar. Students who do not gain admission to the D.V.M. program are eligible to continue in the B.Sc.(Agr.) program through to graduation.

Students planning to enter the D.V.M. program are advised to include 12U biology, 12U chemistry, and 12U physics in addition to calculus in secondary school.

Continuation of Study

Students are advised to consult the regulations for continuation of study within the program which are outlined in detail in Section VIII--Undergraduate Degree Regulations & Procedures.

Conditions of Graduation

To qualify for the degree Bachelor of Science (Agriculture), the student must successfully complete a minimum of 20.00 credits as set out in the Schedule of Studies listed below. In addition, students must meet the continuation of study requirements at the time of graduation and have a minimum of 60% cumulative average.

Honours Agriculture (AGRS)

Departments of Plant Agriculture and Animal Biosciences

The Honours Agriculture major combines a core curriculum of agricultural science courses with a wide range of electives focusing on agri-food business, animal and plant production, land stewardship and sustainability. This major allows students to create a curriculum uniquely tailored to their career goals and provides diverse opportunities to explore international agriculture and leading edge agricultural research in animal production, plant biotechnology and pest management. The flexibility provided in semesters 5 and 6 permits students to participate in international exchanges and semesters abroad. Students can also incorporate a variety of field trips, experiential learning in the workplace and independent study into their program of studies. The combination of a solid understanding of life science and current agricultural practice with specialized skills and experience provided by this program is greatly valued by prospective employers in this essential sector of Canada's economy.

A minimum of 7.00 credits must be at the 3000 level or higher, of which 5.00 credits must be in agricultural science and of which 3.50 credits must be at the 4000 level. Refer to Program Counsellor for list of agricultural science courses.

3. A humanities or social science courses (0.50 credits) at the 1000-level or above. See Program Counsellor for acceptable list of courses.

**Agriculture (AGR)**

**OAC Dean’s Office**

**Minor (Honours Program)**

The requirement of 5.00 credits for the minor is divided into three groups of courses: required courses and two lists of restricted electives. Students should ensure that they obtain the necessary prerequisites for required and restricted elective courses. Students should seek academic counselling from the B.Sc.(Agr) Program Counsellor early in their program. This minor is not open to students in the B.Sc.(Agr) Program.

**Minor**

A minimum of 5.00 credits is required including:

- AGR*1110 [1.00] Introduction to the Agri-Food Systems

1.50 credits from the following Restricted Elective list:

- AGR*2050 [0.50] Agroecology
- AGR*2320 [0.50] Soils in Agroecosystems

2.50 credits from the following Restricted Elective list, without regard to group:

Note: At least 0.50 credits from the following list must be at the 4000 level and 1.00 credits at the 3000 level or higher.

**Agronomy:**

- CROP*3300 [0.50] Grain Crops
- CROP*3310 [0.50] Protein and Oilseed Crops
- CROP*3340 [0.50] Managed Grasslands
- ENV*4090 [0.50] Soil Management
- ENV*4160 [0.50] Soil and Nutrient Management
- HORT*2450 [0.50] Introduction to Turfgrass Science
- HORT*3150 [0.50] Principles and Applications of Plant Propagation
- HORT*4380 [0.50] Tropical and Sub-Tropical Crops
- PBIO*3110 [0.50] Crop Physiology
- PBIO*3750 [0.50] Plant Tissue Culture

**Animal Science:**

- ANSC*1210 [1.00] Principles of Animal Care and Welfare
- ANSC*2340 [0.50] Structure of Farm Animals
- ANSC*3080 [0.50] Agricultural Animal Physiology
- MBG*2400 [0.50] Fundamentals of Plant and Animal Genetics
- MBG*3060 [0.50] Quantitative Genetics

**Environmental Biology:**

- ENV*2040 [0.50] Plant Health and the Environment
- ENV*3020 [0.50] Pesticides and the Environment
- ENV*3040 [0.50] Natural Chemicals in the Environment
- ENV*3210 [0.50] Plant Pathology
- ENV*4100 [0.50] Integrated Management of Invasive Insect Pests

**Horticultural Science:**

- HORT*3150 [0.50] Principles and Applications of Plant Propagation
- HORT*3280 [0.50] Greenhouse Production
- HORT*4300 [0.50] Postharvest Physiology
- PBIO*3110 [0.50] Crop Physiology
- PBIO*3750 [0.50] Plant Tissue Culture

**Resource Management:**

- ENV*2120 [0.50] Introduction to Environmental Stewardship
- ENV*3030 [0.50] Meteorology and Climatology
- ENV*3050 [0.50] Microclimatology
- ENV*3080 [0.50] Soil and Water Conservation
- ENV*4090 [0.50] Soil Management
- ENV*4160 [0.50] Soil and Nutrient Management
Students may also count the following courses as restricted electives:

- AGR*4600 [1.00] Agriculture and Food Issues Problem Solving
- FARE*4000 [0.50] Agricultural and Food Policy
- FARE*4220 [0.50] Advanced Agribusiness Management

**Animal Science (ANSC)**

Department of Animal Biosciences, Ontario Agricultural College

The animal science curriculum is designed to provide a broad opportunity to study animal physiology, nutrition, genetics, behaviour and welfare across a range of large and small domestic animal species. The program is designed around an option to follow a Production and Management focus or a Research focus in semesters 5-8 with additional flexibility to allow for a semester of study abroad.

**Semester 1**
- AGR*1110 [1.00] Introduction to the Agri-Food Systems
- BIOL*1050 [0.50] Biology of Plants & Animals in Managed Ecosystems
- CHEM*1040 [0.50] General Chemistry I
- MATH*1080 [0.50] Elements of Calculus I

**Semester 2**
- AGR*2050 [0.50] Agroecology
- BIOL*1090 [0.50] Introduction to Molecular and Cellular Biology
- CHEM*1050 [0.50] General Chemistry II
- FARE*1400 [1.00] Economics of the Agri-Food System

**Semester 3**
- AGR*2320 [0.50] Soils in Agroecosystems
- AGR*2350 [0.50] Animal Production Systems, Health and Industry
- AGR*2470 [0.50] Introduction to Plant Agriculture
- MBG*2400 [0.50] Fundamentals of Plant and Animal Genetics

One of:
- FARE*2700 [0.50] Survey of Natural Resource Economics
- MBG*2040 [0.50] Foundations in Molecular Biology and Genetics

**Semester 4**
- ANSC*1210 [1.00] Principles of Animal Care and Welfare
- ANSC*2340 [0.50] Structure of Farm Animals
- BIOL*2580 [0.50] Introduction to Biochemistry
- STAT*2040 [0.50] Statistics I

**Semester 5 to 8**

Students must choose either Option A (Production and Management) or B (Research).

**Option A - Production and Management**

**Semester 5**
- ANSC*3080 [0.50] Agricultural Animal Physiology
- ANSC*3120 [0.50] Introduction to Animal Nutrition
- NUTR*3210 [0.50] Fundamentals of Nutrition

1.00 electives or restricted electives

**Semester 6**
- ANSC*3040 [0.50] Animal Reproduction
- ANSC*3270 [0.50] Animal Disorders
- MBG*3060 [0.50] Quantitative Genetics

1.00 electives or restricted electives

**Semester 7**
- 2.50 electives or restricted electives

**Semester 8**
- AGR*4600 [1.00] Agriculture and Food Issues Problem Solving

1.50 electives or restricted electives

**Restricted Electives - Option A**

Students should note that some restricted electives require other courses not included among the required courses for the major as prerequisites. Students should consult the most recent undergraduate calendar for specific requirements.

1. A minimum of 1.00 credits from the list:
- AGR*2500 [0.50] Field Course in International Agriculture
- AGR*3010 [0.50] Special Studies in Agricultural Science I
- AGR*3450 [0.50] Research Methods in Agricultural Science
- AGR*3500 [0.50] Experiential Education
- ANSC*4010 [0.50] Animal Welfare Judging and Evaluation
- ANSC*4230 [0.50] Challenges and Opportunities in Dairy Cattle Production
- ANSC*4610 [0.50] Critical Analysis in Animal Science
- CROP*4260 [0.50] Crop Science Field Trip
- EDRD*2020 [0.50] Interpersonal Communication
- EDRD*3605 [0.50] Agricultural Communication
- EDRD*3140 [0.50] Organizational Communication
- FARE*3310 [0.50] Operations Management
- FARE*4220 [0.50] Advanced Agribusiness Management
- FARE*4310 [0.50] Resource Economics

2. A minimum of 3.00 credits is required from the following lists:

- A minimum of 0.50 credits from the following list:
  - ANSC*4050 [0.50] Biotechnology in Animal Science
  - MBG*4020 [0.50] Genetics of Companion Animals
  - MBG*4030 [0.50] Animal Breeding Methods and Applications

- A minimum of 1.00 credits from the following list:
  - ANSC*3170 [0.50] Nutrition of Fish and Crustacea
  - ANSC*3180 [0.50] Wildlife Nutrition
  - ANSC*4260 [0.50] Beef Cattle Nutrition
  - ANSC*4270 [0.50] Dairy Cattle Nutrition
  - ANSC*4280 [0.50] Poultry Nutrition
  - ANSC*4290 [0.50] Swine Nutrition
  - ANSC*4470 [0.50] Animal Metabolism
  - ANSC*4560 [0.50] Pet Nutrition
  - EQN*4020 [0.50] Advanced Equine Nutrition

A minimum of 1.00 credits from the following list:
- ANSC*3090 [0.50] Principles of Animal Behaviour
- ANSC*4090 [0.50] Applied Animal Behaviour and Welfare
- ANSC*4100 [0.50] Applied Environmental Physiology and Animal Housing
- ANSC*4490 [0.50] Applied Endocrinology
- ANSC*4650 [0.50] Comparative Immunology

3. A minimum of 7.00 credits must be at the 3000 level or higher, of which 5.00 credits must be in agricultural science and of which 3.50 credits must be at the 4000 level. Refer to Program Counsellor for list of agricultural science courses.

4. A humanities or social science courses (0.50 credits) at the 1000-level or above. See Program Counsellor for acceptable list of courses.

**Option B - Research**

**Semester 5**
- AGR*3450 [0.50] Research Methods in Agricultural Science
- ANSC*3080 [0.50] Agricultural Animal Physiology
- ANSC*3120 [0.50] Introduction to Animal Nutrition

0.50 electives or restricted electives

- ANSC*3270 [0.50] Animal Disorders
- MBG*3060 [0.50] Quantitative Genetics

1.00 electives or restricted electives

**Semester 7**
- 2.50 electives or restricted electives

**Semester 8**
- 2.50 electives or restricted electives

**Restricted Electives - Option B**

Students should note that some restricted electives require other courses not included among the required courses for the major as prerequisites. Students should consult the most recent undergraduate calendar for specific requirements.

1. A minimum of 1.00 credits from the following list (normally to be taken during semesters 7 and 8):
- ANSC*4350 [0.50] Experiments in Animal Biology
- ANSC*4610 [0.50] Critical Analysis in Animal Science
- ANSC*4700 [0.50] Research in Animal Biology I
- ANSC*4710 [0.50] Research in Animal Biology II

2. A minimum of 3.00 credits is required from the following lists:

A minimum of 0.50 credits from the following list:
- ANSC*4050 [0.50] Biotechnology in Animal Science
- MBG*4020 [0.50] Genetics of Companion Animals

Crop, Horticulture and Turfgrass Sciences (CHAT)

Department of Plant Agriculture, Ontario Agricultural College

The Crop, Horticultural and Turfgrass Sciences major is for students who want to apply the latest advancements in the biological sciences to contemporary problems in the plant production industries. This major is appropriate for students with a focus on the production of field crops for food, fuel or biomaterials, management of today’s advanced commercial greenhouses, horticultural production, breeding improved crop varieties, or using turfgrass and other plant species to enhance urban environments. The flexibility provided in semester 6 permits students to participate in international exchanges and seminars abroad. Students can also incorporate a variety of field trips, experiential learning in the workplace and independent study into their program of study.

Semester 1
AGR*1110 [1.00] Introduction to the Agri-Food Systems
Biol*1050 [0.50] Biology of Plants & Animals in Managed Ecosystems
Chem*1040 [0.50] General Chemistry I

Bachelor of Science in Environmental Sciences
[B.Sc.(Env.)]

Program Information

Objectives of the Program
The Environmental Sciences program is designed to provide a strong interdisciplinary grounding in specific environmental sciences including socioeconomic context in which environmental issues are resolved. There is an emphasis on management and decision-making skills for the application of scientific knowledge to environmental problems, and the evaluation of appropriate environmental policies. A practical perspective based on defining and resolving problems is central to the program, and this is often done in the context of group work. Substantial emphasis is placed on communication skills, including the development of competence in both written and oral presentations. These skills will be progressively developed in core courses from the first to the fourth year. Students in the final year of their program will be expected to take part in more intensive communication skill development. Graduates will seek employment in a range of fields, from government agencies to private industry and research.

Academic Counselling
General information on the degree program is available from the Program Counsellor. Advising for each major is available through the assigned faculty advisor responsible for the major. Students are encouraged to seek the advice of the faculty advisors when choosing restricted electives and planning course selections.

Degree
The degree granted for the successful completion of this honors program will be the Bachelor of Science in Environmental Sciences--B.Sc.(Env.).

Continuation of Study
Students are advised to consult the regulations for Continuation of Study in Section VIII--Undergraduate Degree Regulations and Procedures of this Calendar.

Conditions for Graduation
In order to graduate from the B.Sc.(Env.) program, students must successfully complete a minimum of 20.00 credits including all the stated course requirements for the program. As well, students must achieve a cumulative average of 60% or higher over all course attempts.

Environmental Sciences (Co-op)
A 5-year Honours Program in Environmental Sciences is offered as a Co-operative Education Program. This option is offered within the B.Sc. (Env.) degree and is available to all majors. The course requirements are the same as those listed for the regular B.Sc. (Env.) program, by the Co-operative Education Program and as outlined in the Continuation of Study policy (Section VIII--Undergraduate Degree Regulations & Procedures). 3 co-op work terms (COOP*1000, COOP*2000, COOP*3000) are required. An optional 4th co-op work term (COOP*4000) is available. COOP*1100 must be completed during semester 2.

Since some of the course requirements in the degree program (core or major) are not offered each semester, careful planning and program consultation with the Faculty co-op Advisor is essential. In particular, students are encouraged to seek advice when choosing for their Summer academic semester.

The Environmental Sciences Program
The degree in Environmental Sciences consists of a minimum of 20.00 credits, as follows:

1. 7.00 Environmental Sciences Core
2. 8.50 - 11.00 Environmental Sciences prescribed and restricted electives according to major.
3. 3.00 electives

Within these courses, students must include at least 6.00 credits at the 3000 or 4000 level, and no program may include more than 7.00 credits at the 1000 level.

* There are not specific subject requirements for the elective courses, however, you may NOT select the following: BIOL*1500, BOT*1200, CHEM*1100, CIS*1000, ENVS*1060, GEOL*1100, MICR*1020, MBG*1000, PHYS*1600.

Please note that not all courses in the "One of:" options are available each semester (F, W, S). Students are encouraged to seek advice from the appropriate advisor when selecting and scheduling courses.

First Year Curriculum
The first year courses have been selected to provide students with sufficient background and knowledge to enter any one of the Environmental Sciences majors.

Semester 1
| BIOL*1070 | 0.50 | Discovering Biodiversity |
| CHEM*1040 | 0.50 | General Chemistry I |
| ENVS*1030 | 1.00 | Introduction to Environmental Sciences |
| MATH*1080 | 0.50 | Elements of Calculus I |

Semester 2
| BIOL*1090 | 0.50 | Introduction to Molecular and Cellular Biology |
| CHEM*1050 | 0.50 | General Chemistry II |
| FARE*1040 | 1.00 | Intro to Environmental Economics, Law & Policy |
| GEOG*1300 | 0.50 | Introduction to the Biophysical Environment |

Note: Co-op students must select COOP*1100 Introduction to Co-operative Education

Environmental Sciences Core
In addition to the common first year curriculum, students are required to take the following core Environmental Sciences courses in the semesters recommended in the schedule of studies:

| ENVS*4001 | 0.50 | Project in Environmental Sciences |
| ENVS*4002 | 0.50 | Project in Environmental Sciences |

One of:
| ECON*2100 | 0.50 | Economic Growth and Environmental Quality |
| FARE*2700 | 0.50 | Survey of Natural Resource Economics |
| GEOG*2210 | 0.50 | Environment and Resources |

A required statistics course is prescribed by the student's choice of major.

Environmental Sciences Majors
Ecology
Environment and Resource Management
Environmental Economics and Policy
Environmental Sciences

Requirements for each of these majors are described in the detailed schedules of studies below.

Ecology (ECOL)

Department of Integrative Biology, College of Biological Science
This program provides a solid foundation in the principles of ecology, training in both pure and applied aspects of ecology and an introduction to economic, legal and policy issues related to the management of the environment. From the 2nd year on, students increasingly augment the core in ecology and policy with extensive restricted electives choices that allow the student to tailor the program to their interests. The major provides a sound science background for careers in conservation, resource management, ecological consulting, or nature interpretation used in teaching, government, non-government or the private sector; or for further post-graduate training in fundamental ecology, environmental biology and environmental management or policy.

Credit Summary (20.00 Total Credits)
7.00 credits - Environmental Sciences core
5.00 credits - Ecology Required courses
5.50 credits - Ecology Restricted electives
2.50 credits - Free electives

Students are reminded that 6.00 credits of their B.Sc. (Env.) degree must be at the 3000-4000 level.

Students are encouraged to seek advice on their choices from their faculty advisor. With prior approval, students may be able to use courses not on these lists towards their Ecology restrictive electives.

Revision: 2020-2021 Undergraduate Calendar
Students are required to choose a minimum of 5.50 credits from Lists C, D, E, and F. Students must take a minimum of 1.50 credits from List C, a minimum of 1.00 credits from List D, and students may not count more than 1.00 credits from List F towards their restricted electives. Students should note that many restricted electives, particularly in List D, require other courses as prerequisites. Students should consult the most recent Undergraduate Calendar for specific requirements.

List C

Students must take a minimum of 1.50 credits from the following list:

- BIOL*3130 [0.50] Conservation Biology
- CHEM*3360 [0.50] Environmental Chemistry and Toxicology
- ENVS*2120 [0.50] Introduction to Environmental Stewardship
- ENVS*2210 [0.50] Apiculture and Honey Bee Biology
- ENVS*2230 [0.50] Communications in Environmental Science
- ENVS*3000 [0.50] Nature Interpretation
- ENVS*3010 [0.50] Climate Change Biology
- ENVS*3020 [0.50] Pesticides and the Environment
- ENVS*3040 [0.50] Natural Chemicals in the Environment
- ENVS*3050 [0.50] Microclimatology
- ENVS*3060 [0.50] Groundwater
- ENVS*3080 [0.50] Soil and Water Conservation
- ENVS*3090 [0.50] Insect Diversity and Biology
- ENVS*3180 [0.50] Sedimentary Environments
- ENVS*3210 [0.50] Plant Pathology
- ENVS*3220 [0.50] Terrestrial Chemistry
- ENVS*3230 [0.50] Agroforestry Systems
- ENVS*3250 [0.50] Forest Health and Disease
- ENVS*3270 [0.50] Forest Biodiversity
- ENVS*3290 [0.50] Waterborne Disease Ecology
- ENVS*3300 [0.50] Introduction to Controlled Environment Systems
- ENVS*3310 [0.50] Soil Biodiversity and Ecosystem Function
- ENVS*3340 [0.50] Environmental Data Analysis
- ENVS*3370 [0.50] Terrestrial Ecosystem Ecology
- MICR*3220 [0.50] Plant Microbiology
- TOX*2000 [0.50] Principles of Toxicology

List D

Students must take a minimum of 1.00 credits from the following list:

- BIOL*4350 [0.50] Limnology of Natural and Polluted Waters
- ENVS*4000 [0.50] Toxicological Risk Assessment
- ENVS*4030 [0.50] Ecohydrology
- ENVS*4070 [0.50] Pollinator Conservation
- ENVS*4090 [0.50] Soil Management
- ENVS*4100 [0.50] Integrated Management of Invasive Insect Pests
- ENVS*4160 [0.50] Soil and Nutrient Management
- ENVS*4180 [0.50] Insecticide Biological Activity and Resistance
- ENVS*4190 [0.50] Biological Activity of Herbicides
- ENVS*4210 [0.50] Meteorological and Environmental Instrumentation
- ENVS*4230 [0.50] Biology of Aquatic Insects
- ENVS*4260 [0.50] Field Entomology
- ENVS*4320 [1.00] Laboratory and Field Methods in Soil Biodiversity
- ENVS*4350 [0.50] Forest Ecology
- ENVS*4360 [0.50] Glacial Environments
- ENVS*4370 [0.50] Natural and Anthropogenic Compounds in the Environment
- ENVS*4390 [1.00] Soil Variability and Land Evaluation
- PBI0*4290 [0.50] Cannabis Production
- PBI0*4350 [0.50] Plants and Environmental Pollution

List E

Students may count up to 1.00 credits from the following list towards their 6.50 credit restricted electives.

- GEOG*2420 [0.50] The Earth From Space
- GEOG*2480 [0.50] Mapping and GIS
- GEOG*3420 [0.50] Remote Sensing of the Environment
- GEOG*3480 [0.50] GIS and Spatial Analysis

Credit Summary (20.00 Total Credits)

7.00 credits - Environmental Sciences core
4.50 credits - Required Courses for the Major
5.50 credits - Restricted Electives
3.00 credits - Free electives
Students are encouraged to seek advice from their faculty advisor and are reminded that 6.00 credits of their B.Sc.(Env.) degree must be at the 3000-4000 level. With prior approval, students may be able to use courses not on Lists C, D, E, or F toward their restricted electives.

Environmental Sciences (ENVS:C)

School of Environmental Sciences, Ontario Agricultural College

This major combines a foundation in the breadth of environmental science while giving students practical experience in integrating the basic science in environmental problem solving. The integration of biophysical sciences with real-world applications provides students with a unique skill set for engaging with current and future environmental issues. The many opportunities in the major for experiential learning and independent research give students an ability to collect, analyze and interpret environmental data, and propose solutions that account for both the biophysical science and the socio-economic context. The second year core curriculum develops a cross-disciplinary understanding of the biophysical environment, while the third and fourth years allow students to engage more deeply with issues of interest to them. Students will graduate from this major ready to address diverse problems such as pollinator conservation, soil and water conservation, greenhouse gas mitigation, plant disease management and chemical movement in the environment. It provides a solid background for careers in environmental protection, resource management and research, in both the public and private sectors.

Program Requirements

The Co-op program in Environmental Sciences is a four and a half year program including four work terms. Students must complete a Fall, Winter and Summer work term, and must follow the academic work schedule as outlined below (also found on the Co-operative Education website: https://www.recruituuelph.ca/cecs/). ### Environment and Resource Management (ERM)

**Department of Geography, Environment and Geomatics, College of Social and Applied Human Sciences**

The major focuses on environmental interactions and problem solving by developing an integrated biophysical environment - human environment perspective. In ERM, students will gain knowledge across the natural sciences, an understanding of how they interact, the skills (tools and techniques) needed to support decision making, as well as the methods of management and governance that are critical for environmental decision making. Beginning in first year students learn in the classroom and through hands-on work in labs and in the field. Students are expected to design and conduct experiments and problem solve using state-of-the-art computing and analytical tools. This major provides the knowledge, skills and methods an environmental scientist requires as environmental consultant, environmental manager, environmental and/or resource planner, geographic information systems analyst or to facilitate future graduate work.

4.00 - 4.50 - Free electives, depending on course selection
1.50 - Co-op Work Terms

Note: A minimum of three Co-op work terms including a Summer, Fall, and Winter are necessary to complete the Co-op requirement. *COOP*4000 is optional and if completed the total number of credits will equal 22.00.

Students are reminded that 6.00 credits of their B.Sc. (Env.) degree must be at the 3000-4000 level.

Students are encouraged to seek advice on their choices from their faculty advisor. The recommended program sequence is outlined below.

Major

Semester 1 - Fall
BIOL*1070 [0.50] Discovering Biodiversity
CHEM*1040 [0.50] General Chemistry I
ENVS*1030 [1.00] Introduction to Environmental Sciences
MATH*1080 [0.50] Elements of Calculus I

Semester 2 - Winter
BIOL*1090 [0.50] Introduction to Molecular and Cellular Biology
CHEM*1050 [0.50] General Chemistry II
COOP*1100 [0.00] Introduction to Co-operative Education
FARE*1040 [1.00] Intro to Environmental Economics, Law & Policy
GEOG*1300 [0.50] Introduction to the Biophysical Environment

Semester 3 - Fall
ENVS*2120 [0.50] Introduction to Environmental Stewardship
GEOG*2000 [0.50] Geomorphology
GEOG*2480 [0.50] Mapping and GIS
1.00 electives or restricted electives

Note: FARE*2700 may be substituted for ECON*2100 and may be taken in Semester 3 or 6. GEOG*2460 may be substituted for STAT*2040 and may be taken in Semester 3 or 6.

Winter Semester
COOP*1000 [0.50] Co-op Work Term I

Semester 4 - Summer
ECON*2100 [0.50] Economic Growth and Environmental Quality
GEOG*2210 [0.50] Environment and Resources
STAT*2040 [0.50] Statistics I
1.00 electives or restricted electives

Fall Semester
COOP*2000 [0.50] Co-op Work Term II

Semester 5 - Winter
GEOG*2110 [0.50] Climate and the Biophysical Environment
GEOG*3480 [0.50] GIS and Spatial Analysis

1.50 electives or restricted electives

Summer Semester
COOP*3000 [0.50] Co-op Work Term III

Semester 6 - Fall
ENVS*4001 [0.50] Project in Environmental Sciences
GEOG*3000 [0.50] Fluvial Processes
GEOG*3110 [0.50] Biotic and Natural Resources
GEOG*3210 [0.50] Management of the Biophysical Environment
0.50 electives or restricted electives

Note: GEOG*3610 may be substituted for GEOG*3000 and would be taken in Semester 6.

Semester 7 - Winter
ENVS*4002 [0.50] Project in Environmental Sciences
2.00 electives or restricted electives

Summer Semester (Optional)
COOP*4000 [0.50] Co-op Work Term IV

Semester 8 - Fall
GEOG*4110 [1.00] Environmental Systems Analysis
GEOG*4210 [0.50] Environmental Governance
1.00 electives or restricted electives

Restricted Electives

1. A minimum of 2 of the following courses:
ENVS*4390 [1.00] Soil Variability and Land Evaluation
GEOG*4220 [0.50] Local Environmental Management
GEOG*4230 [0.50] Environmental Impact Assessment

2. An additional 1.00 credits in Geography (GEOG) at the 3000 level or higher.
2. An additional 1.00 credits in Geography (GEOG) at the 3000 level or higher.
Doctor of Veterinary Medicine (D.V.M.)

Program Information
The University of Guelph offers the degree program Doctor of Veterinary Medicine (D.V.M.) at the Ontario Veterinary College. The program is offered during the Fall and Winter semesters only and normally requires four years to complete. The college is accredited jointly by the Canadian and American Veterinary Medical Association and the Royal College of Veterinary Surgeons of Britain. The D.V.M. degree from Guelph is respected by veterinarians throughout the world.

Objectives of the Program
1. The graduates should have the knowledge and skills appropriate to their career orientations and sufficient to allow the pursuit of a variety of careers in veterinary medicine, including graduate studies. They should be able to pass the examinations of all Canadian licensing bodies and must possess a fundamental core of academic veterinary science knowledge and of technical competence.
2. The graduates must be able to solve animal health problems and must have knowledge of the management of domestic animals and the functioning of the various animal industries.
3. The graduates must be able to communicate effectively, whether writing scientific papers or conversing with clients.
4. Through a commitment to continuing education, the graduates must accept the professional responsibility to stay abreast of new developments and to pursue solutions to new problems.
5. The graduates must have a genuine concern for the welfare of all animals. The graduates should be aware of their responsibilities to the profession in terms of ethical and professional conduct and have an understanding of the moral questions facing veterinarians.
6. The graduates must have had the opportunity during their university tenure to develop a range of non-veterinary interests sufficient to equip them to take a responsible role in society.

Regulations for Licence to Practise
Graduates are eligible to practise in Canada, but the degree in veterinary medicine does not in itself confer the right to practise. For information on matters relative to licence to practise in the various provinces of Canada, students should communicate with the Canadian Veterinary Medical Association, 339 Booth Street, Ottawa, Ontario, Canada K1R 7K1, who will refer them to the appropriate provincial veterinary association.

Admission to the Veterinary Medicine Program
Complete details on admission requirements and procedures are listed in Section IV—Admission Information. Additional information may be found at: http://www.ovc.uoguelph.ca/recruitment/en/index.asp.

Academic Counselling
The Office of the Associate Dean, Students provides academic counselling and referral to other appropriate resources for all D.V.M. students. In particular, students who are requesting a Supplemental Privilege are required to meet with the Associate Dean so that the student can be informed of appropriate resources (such as Learning and Writing Services and the Counselling and Student Resource Centre) and use them to deal with their academic difficulties.

Conditions for Continuation of Study
For supplemental and deferred privileges, all students in the D.V.M. Program are subject to Deferred Privilege Procedures and Supplemental Privilege Procedures outlined in Chapter VIII—Undergraduate Degree Regulations and Procedures.
