[State-of-the-art research e-system launched at the University of Guelph](#)

By Liz Snyder

The Office of Research has launched a new project to implement a state-of-the art database and web portal that is accessible 24/7 from anywhere in the world.

This new system – currently named Research Administration and Information Management System (RAIMS) -- will...

[Federal government of launches review of support for fundamental science](#)

8 years 10 months ago

The Government of Canada understands the role of science in maintaining a thriving, clean economy and in providing the evidence for sound policy decisions. To deliver on this role however, federal programs that support Canada's research efforts must be aligned in such a way as to ensure they are...

### [Do you provide fair and unbiased reviews?](#)

Unconscious bias affects our judgment without us realizing it—and this can influence the review of a grant. Due to unconscious bias, peer reviewers may rate an application differently based on the gender, age, language, culture or even the affiliated institution of an applicant. To help identify...

## What is Research Alerts?

Research Alerts is a communications technology that allows UoG faculty, staff and students to stay up to date on news from the Office of Research. Through Research Alerts, subscribers

## Research Management and Support

Published on Research Alerts (<https://www.uoguelph.ca/research/alerts>)

---

receive emails related to research funding opportunities, workshops and events, policies and more. Each subscriber sets individual preferences to indicate the topics and categories of information that are of interest to them. When a message (Alert) is published in the Office of Research that matches the subscriber's selected preference categories and topics, it is e-mailed directly to the subscriber. Because this is a web-based technology, the Research Alerts site can also be searched using the search fields, or browsed through the topics by category.
