[Federal government of launches review of support for fundamental science](#)

The Government of Canada understands the role of science in maintaining a thriving, clean economy and in providing the evidence for sound policy decisions. To deliver on this role however, federal programs that support Canada's research efforts must be aligned in such a way as to ensure they are...

[Equity, Diversity, and Inclusion \(EDI\) Resource Document for Researchers](#)

3 years 1 month ago

In response to the Tri-Agency Framework on Equity, Diversity and Inclusion (EDI) and the University's Equity, Diversity, and Inclusion Framework, the Office of Research Services has developed an EDI resource document (in Attachments section) for researchers to use as a tool in the development of...

What is Research Alerts?

Research Alerts is a communications technology that allows UoG faculty, staff and students to stay up to date on news from the Office of Research. Through Research Alerts, subscribers

Research Management and Support

Published on Research Alerts (<https://www.uoguelph.ca/research/alerts>)

receive emails related to research funding opportunities, workshops and events, policies and more. Each subscriber sets individual preferences to indicate the topics and categories of information that are of interest to them. When a message (Alert) is published in the Office of Research that matches the subscriber's selected preference categories and topics, it is e-mailed directly to the subscriber. Because this is a web-based technology, the Research Alerts site can also be searched using the search fields, or browsed through the topics by category.
