[Zoom Exception for Minimal Risk Research](#)

3 years 9 months ago

Dear Colleagues,

After consultation with stakeholders on campus, Information Security has updated their guidelines on the use of Zoom.

While much of the guidance on security concerns and best-practices remains the same, a new section has been added to include a number of...

What is Research Alerts?

Research Alerts is a communications technology that allows UoG faculty, staff and students to stay up to date on news from the Office of Research. Through Research Alerts, subscribers receive emails related to research funding opportunities, workshops and events, policies and more. Each subscriber sets individual preferences to indicate the topics and categories of information that are of interest to them. When a message (Alert) is published in the Office of

Research Policies and Guidelines

Published on Research Alerts (<https://www.uoguelph.ca/research/alerts>)

Research that matches the subscriber's selected preference categories and topics, it is e-mailed directly to the subscriber. Because this is a web-based technology, the Research Alerts site can also be searched using the search fields, or browsed through the topics by category.
